MANITOBA LEGISLATURE
Simply an Insult to the Province, Says Premier Roblin
REJECTS LAURIER'S OFFER

House Was Unanimous, the
Opposition Joining in the
Protest for Equality of
Treatment of the Western
Province By the Dominion

NO SURRENDER, THE
MOTTO OF PROVINCE

WINNIPEG, March 23.—By a unanimous
vote this afternoon the legislature
accepted the resolution introduced by
Premier Roblin, which is in effect a
refusal of the offer of the Dominion
Government for a settlement of the
Manitoba boundary question by an
annual cash payment in lieu of the
public domain on the western side of
the province.

After reviewing the united efforts to
secure boundary extension on legisla-
tory terms, dwelling particularly on
negotiations his government had
opened at the time the Dominion
Government was under consideration,
Premier Roblin pointed out that the
cause of the province had always been
presented from two standpoints—the
public domain or financial considera-
tions equal to those of Alberta and
Saskatchewan. The negotiations with
Sir Wilfrid Laurier, however, had
resulted in nothing to the point, until
finally the government made the offer
under consideration—\$200,000 a
year as a minimum and \$300,000 as
a maximum basis on population, in
lieu of the public domain in the territory
to be added.

Mr. Roblin went on to compare the
terms offered to Manitoba and those
Saskatchewan enjoys, claiming that
the latter has two dollars for every one
of the former. "Who is there," he
asked, "wishing us that could be
worse, so wanting in self-respect, as
to intrude his adopted or native
province, that would not resent the im-
position that any one citizen of this
province is not as good and worth as
much to the Dominion as any citizen
of Saskatchewan."
The swamp lands, indeed, had to be
taken into consideration, and if they
could not get the public domain, such

INCREASE OF 57 PER CENT.
Statistics of Immigration For Last
Ten Months of 1910.
OTTAWA, March 23.—For the ten
months, April to January, of the current
fiscal year, the number of immigrants
granted visas arrived in Canada was
290,687, as compared with 185,767 during
the corresponding months of last fiscal
year. The gain is 57 per cent.
The number who arrived at ocean
ports for the same period was 155,670,
as against 148,456 for the corresponding
year, an increase of 5 per cent. From
the United States for the same ten
months there were 102,017 immigrant
arrivals, for the corresponding months
of last fiscal year there were
80,862, the gain from this source being
25 per cent.

NAVIGATION LATE
Montreal Port Will Be Probably
Delayed by Weather Conditions.
MONTREAL, March 23.—All present
indications point to a late opening up
of navigation to Montreal this season.
The government ice-breaking vessels
are tied up at Three Rivers,
owing to the thickness of the ice. All
efforts to force their way above that
point have proved futile, and with the
wintry weather conditions now prevail-
ing, it cannot be stated by the authori-
ties when a further attempt will be
made to open the channel above Three
Rivers. The heavy snowfall of today
will, it is said, retard the progress.
The river is being freed, crossed at
Loganville, and the probability is that
it will be safe for vehicular traffic till
the end of the month at least.

ANOTHER JAMAICAN BRANCH.
MONTREAL, March 23.—Following
the return of Messrs. Chas. A. and J.
vice-president of the Bank of Nova
Scotia, W. A. Hunt, general manager,
and W. P. Hunt, manager of the
Montreal branch, from Cuba and
adjacent, the announcement is made
that the bank will open another branch
at Black River, about one hundred
miles from Kingston, making eight
branches in all in Jamaica and two in
Cuba. Most of them were visited by
the officials just mentioned.

Two More Elections Imminent.

OTTAWA, March 23.—(Special).—Orders were issued to-day by
the clerk of the crown in-chancery to the government printing bureau
to get the voters' lists for Rouville and Beauce ready at once. This
means that Hon. L. P. Brodeur, who is the member of Rouville, is
going to the supreme court bench, in succession to the late Justice
Girouard, and that his successor in the department of marine and
fisheries will be Dr. Beland, M. P. for Beauce. It had been thought
that Mr. Lemieux would take over the marine department, but evi-
dently this is not so.

PEACE DEMONSTRATIONS
WILL BE SIMULTANEOUS

LONDON, March 23.—The best
means of promoting an arbitration
treaty between England and the U.S.
was considered at a meeting of the
Free Church Council to-day. It was
decided to postpone the projected
demonstration in Albert Hall, recently
arranged for April 1, so as to allow
time to arrange a simultaneous ex-
pression of feeling in the U.S. This
decision was largely due to a letter
received from Sir Edward Grey, who
advised keeping in close touch with
corresponding American bodies, in or-
der to make clear that what is done
in one country is in sympathy with the
feeling in the other.

R. S. HUDSON HEAD OF
CHARITIES COMMISSION

Body Which is to Deal With City's
Grants is Organized for
Business.
Some time ago the city council voted
to establish a charities commission,
the object of which is to deal with the
city's charitable grants, including
those to institutions.
Yesterday, on the invitation of City
Clerk Littlejohn, the new commission-
ers held an organization meeting at
which R. S. Hudson was appointed
chairman.
The commission is composed of the
following: R. S. Hudson (chairman),
G. T. Somers, Rev. Dr. Turnbull, Geo.
B. Sweetnam, Rev. Father Minihan,
Edwin Dickie (secretary), and P.
J. A. Ashbaugh, health officer of Win-
nipeg, explained that there need now
be any fear of contention. In spite of their
assurances a resolution was passed by
which the people of the town ask the
town council to take necessary steps in
order to prevent the erection of the
hospital within the town limits.

SENTENCED TO DEATH

Montreal Italian Goes to Gallows for
Murder of Fellow-Countryman.
MONTREAL, March 23.—With the
composure of an ancient stoic, Fran-
cesco Croola, to-day heard and ac-
cepted without flinching the intimation
that he is to pay the extreme penalty
of the law of May 24th for having
taken the life of a fellow-countryman
nearly a year ago.
The crime of which Croola is found
guilty was committed on April 24 last
in a house in Richmond-lane, Guil-
seppe Leigi, who was stabbed by Croola,
for apparently no reason, said in
his ante-mortem statement that there
had been no quarrel between them,
but that Croola had frequently pest-
ered him for money.

COL. SMITH DECORATED.

OTTAWA, March 23.—An interesting
incident occurred at Rideau Hall on
Wednesday evening. After the parlia-
mentary dinner Earl Grey planned on
the breast of the sergeant-at-arms of
the house of commons, Lt.-Col. H. R.
Smith, C.M.G., D.S.O., the Order of
St. Michael and St. George.

HALDANE CREATED A
VICOUNT BY THE KING

A Move to Strengthen the Liberal
Party in the House of
Lords.
LONDON, March 23.—King George
to-day created War Secretary Haldane
a viscount. The elevation of the secre-
tary to the post has been antici-
pated as a move intended to strength-
en the government in the house of
lords.

VISCOUNT HALDANE.

ated M.A. with first-class honors in
philosophy. He was Gifford lecturer
at St. Andrew's University 1902-4, and
subsequently became rector of Edin-
burgh University.
Lord Haldane has had a distinguished
career at the bar. He became a
barrister in 1879, and was appointed a
Queen's Counsel in 1890.
Fame has also attended his literary
works, which include a number of
standard philosophical volumes. He
is particularly successful in the sphere of
politics. He has represented Haddington-
shire in parliament in the Liberal in-
terests from 1885, and has filled the
office of secretary of war since 1905.

WAS NEATLY TRAPPED

Employees Laid in Wait For Shop-
Breaker and Bagged Michael Duffy.
Michael Duffy, 42 years, 58 Freder-
ick-street, was found in a warehouse
at 118 Sherbourne-street last night by
employees who laid in wait for him.
The place had been entered the pre-
vious night. When the men went back
after supper at 7 o'clock to wait for
the shopbreaker, they found him al-
ready upon the premises. He fled at
their approach, but was captured in
the lane at the rear and turned over
to Policeman Johnson (46), who locat-
ed him in the Wilton-avenue police
station charged with shopbreaking.

IN FAVOR OF RECIPROcity

Resolution Moved by Leader of Oppo-
sition in N. B. Legislature.
FREDERICTON, March 23.—The
leader of the opposition in the legisla-
ture to-day moved this resolution:
"This house desires to take this early
opportunity of expressing its opinion
that the ratification of the reciprocity
agreement now before parliament
would greatly promote the prosperity
of the people of this province, and it is
further resolved that it is desirable
that there should be an increase in the
British preference to 50 per cent of the
general tariff."

Say Directors.
Civil legislation for the next session
of the Ontario Legislature next spring
is already taking shape.
One of the most important Toronto
bills will be to define the powers and
jurisdiction of the Canadian National
Exhibition.
A consolidation act, with a revision
of some of the provisions of existing
legislation, is authoritatively stated to
be necessary to enable the exhibition
board to control fully its affairs and
to protect the interests of the institu-
tion from the encroachments of certain
private interests.

TELLURIDE AT MUSGROVE

Another Important Mining Find Re-
ported From New Ontario.
A report was current in the city yes-
terday that samples of ore from Mus-
grove had been placed before a prom-
inent Toronto geologist who had re-
ported that the samples indicated the
presence of telluride in paying quan-
tities. The geologist in question was
interviewed by The World last night
respecting the report. He stated that
the ore had been sent to the Dominion
Geological Department at Ottawa by
the individuals directly interested in
the reported find.

UNDERGROUND WIRELESS

Important Achievement of Two Ger-
man Scientists.
BERLIN, March 23.—Two German
scientists, Doctors Leimbach and
Loewy, have successfully applied wire-
less telegraphy for underground com-
munication. Messages have been sent
from the Potash Mines in the North
Harz mountains, a distance of nearly
a mile and a half at a level of 100 feet
below the surface. The messages were
so clearly detected that the scientists
conclude much greater distances are
feasible. The discovery is regarded as
highly important in case of mine dis-
asters.

RAILED OPIUM JOINT

Large Quantity of Crude Article
Found in Queen St. Store.
Staff Inspector Kennedy and Detec-
tive McKinney descended upon the
store of Shing Yung, a Chinaman, at
187 East Queen-street, late yesterday
afternoon. There they found La Lem
and Ha Chung "hitting the pipe." They
also found Shing's wife hiding a quan-
tity of crude opium in the attic. This
Shing declared, was worth about \$100.
A quantity of refined opium was found
also, and the utensils for refining it.
Shing was taken and charged with
keeping an opium joint. The other
two were charged as frequenters. All
were later bailed out.

KILLED WITH COAL SHOVEL.

BOSTON, March 23.—A coal shovel
used as a club in the hands of another
woman is alleged by the police to have
been the cause of injuries from which
Francisco I. Madero, aged 69 and unmarried,
died to-night at the city hospital.
There were a dozen cuts and contu-
sions on his head, Josephine Heron, at
whose home in the south end, the
police say, the two women quarreled
this evening, was taken into custody.
She is 57 years old and single.

WAR CLOUD BLACK
ON MEXICAN
BORDER

Statement Made That United
States Will Intervene if
Tranquillity Is Not Restored
by May 1—Mexicans
Would Arise Against the
Invader.

SAN ANTONIO, Tex., March 23.—
With the new demand for six or seven
thousand recruits, the issuance of an
order by Gen. Carter, making provisions
for a sudden move should it be
required, and a statement by Dr. C. F.
Carlierist of the Mexican Revolution-
ary Junta, that "the U. S. will inter-
vene in Mexico unless there is a definite
show of tranquility by May 1," the
recently diminished war cloud loomed
larger to-day.

Dr. Carlierist felt sure enough of his
facts to embody them in a report to
Francisco I. Madero, the revolutionary
leader, who at the last report was
within 30 miles of the City of Chihuahua.
Dr. Carlierist urged the insurrection
chief to achieve a decisive victory at all
costs before May 1, for he wrote, "Pre-
sident Taft will not wait longer than
that for a quiet to be restored, business
resumed and traffic over the railroads
to be secured."

Most of Dr. Carlierist's investigating
was done at Washington, altho he vis-
ited El Paso and Laredo before coming
to San Antonio. He said to-day:
"Of course, a complete federal tri-
umph in Chihuahua, the restoration of
communications and other business
like would avoid intervention. I
know absolutely that President Taft
is determined that order shall be re-
stored, and quickly, by the aid of the
other in Mexico, with the alternative
of intervention.

Hope For Recognition.
In my report to Sr. Madero, I
pointed out the necessity of capturing
and holding the State of Chihuahua.
If this can be accomplished, I am con-
vinced that the revolutionists will be
recognized as belligerents by the U. S.
and other governments.
"Neither side wants intervention, and
I believe firmly that federal and revo-
lutionists would make common cause
against an invader."

National Guard to the Front.
WASHINGTON, March 23.—Appor-
tioned among the states and territories,
according to their militia strength,
300 National Guard officers will be
sent by the war department to San An-
tonio, Texas, and 200 to San Diego, Cal.,
on April 5, for two weeks' instruction.
The department expects to send a to-
tal of 1000 militia officers to the man-
oeuvres at federal expense.

Will Be Treated as Homicides.
WASHINGTON, March 23.—Six per-
sons in any way connected with the
promulgation or enforcement of the
recent suspension of constitutional
guarantees by the Mexican Govern-
ment, will be held personally responsi-
ble as homicides by the insurgent gov-
ernment, according to a decree of
Francisco I. Madero, the provisional
president, issued to-day thru his repre-
sentative here, Dr. Vasquez Gomez.
The decree sets forth that the suspen-
sion of constitutional guarantees as
affecting the safety of human life is
not lawful according to article 130 of
the Mexican constitution, which pro-
vides for the suspension of constitu-
tional guarantees in all cases, except
those in which human life is at stake.
The decree contends, "no authority or
power in Mexico can suspend the con-
stitutional guarantees which assure
the lives of men, natives or foreigners,
whatever be their nationality."

HAMILTON HAPPENINGS

LABEL SUIT AGAINST THE HAMILTON TIMES FAILS

Ex-Alderman Baird Took Exception to Reference to "Municipal Has-Beens."

HAMILTON, March 23.—(Special.)—Ex-Ald. C. C. Baird was non-suited by Chief Justice Mulock at the spring assizes this afternoon in his action for libel against The Hamilton Times. The newspaper published an article on October 19 of last year which stated that "municipal has-beens" were trying to revive the P.P.A. movement in Canada, as they thought Catholics had too much to do with the government of the country. Mr. Baird claimed loss of business as a result, and sued for \$500. S. F. Washington, K.C., for The Times, secured the non-suit on the grounds that George Tate Blackstock, K.C., who acted for the plaintiff and called no witnesses, had failed to prove what was asserted in the statement of claim, namely, that the article contained an imputation to the effect that the object of the revival of the assertion was to set one class of the community against another.

Robert Ferguson received \$500 for the loss of the services of his wife, and she received \$10,000 damages for injuries at the hands of a jury at the assizes court this afternoon. Mrs. Ferguson was on a Hamilton street railway car that collided with a Hendrie & Co. lorry, and was injured as a result of the shaking up the passengers on the car received. The jury exonerated the carriage company and assessed all damages and costs against the street railway.

The "Georges" of Hamilton held an organization meeting to-night to appoint committees to collect funds for the presentation of a suitable memorial to his majesty King George upon his coronation. William Forbes was arrested to-night by Detective Cameron on a warrant charging him with threatening to kill his wife with an ax.

Mrs. George W. Collins, aged 58 years, died at her late residence, 258 Herkimer-street, this afternoon. Burial hereinafter, cremation and the Catharine-street, Hamilton, conveniently situated and easily reached from all parts of the city. Erected in 1906. Modern and strictly first-class American plan. Rates \$1.50 to \$2 per day. Thea Hanrahan, proprietor. Phone 1547.

The representative of Authors & Cox, Toronto, makers of Artificial Limbs, Trusses, Deformity Appliances and Supporters, will be in our city, at room 52, Hotel Cecil, to-morrow.

A NARROW ESCAPE.

AYLMER, March 23.—Will Orton, a young man employed by the Aylmer Pump & Scale Co., had a narrow escape from death or serious injury. While oiling a shaft his coat became caught, throwing him from his feet. The clothes were all stripped from his body, and he was badly bruised and cut, but no bones are broken.

RIO JANEIRO FLOODED.

RIO JANEIRO, March 23.—Torrential rains that began three days ago continued to-night. The streets of the city are flooded and street traffic and the lighting and telephone systems are demoralized.

Naval Reservists from Newfoundland ST. JOHN'S, N. F., March 23.—Twenty naval reservists have been invited by the British Admiralty to represent Newfoundland among the colonial naval forces participating in the coronation ceremonies of King George V. of England. This announcement, made in the legislative to-day, by Premier Sir Edward Morris, was warmly received.

British Steamer Ground.

NEWCASTLE, Del., March 23.—The British steamer Cheviot Range, from Philadelphia for Vera Cruz, is aground off here. Three tugs are alongside of the steamer.

RABIES APPEARS AGAIN

TWO CHILDREN BITTEN

Brother and Sister From Port Colborne at Sick Children's Hospital.

Master F. Romanek and Miss Romanek, of Port Colborne, came to the city yesterday to be treated in the Sick Children's Hospital for dog bite. The younger was playing with a dog belonging to R. A. Wilson, contractor, of Port Colborne, on Sunday, and the animal sunk his teeth in his wrist. In tearing the shirt away Miss Romanek sustained some scratches on her hands. The dog was promptly killed and its head was sent to Toronto for examination at the provincial health bureau. Dr. McCullough's pronouncement was "rabies."

Miss Romanek is manager of Mr. Wilson's establishment. She and her nephew are staying at the Hotel Tradewind.

Their treatment at the Sick Children's Hospital is under the supervision of Dr. McCullough.

People's Choral Union Concert

A foreword to the program of the People's Choral Union concert in Mass. says that the night bespoke confidence in the comparative inexperience of the chorists, 80 per cent of which were a mixture of the great vocal organizations in the making in the work done by the choir last night, and H. M. Jones, who carries on the pioneer musical work, not only deserves the credit, but hearty congratulations for the notable success attained under his instruction.

A surprisingly rich body of tone was revealed in the first number, "The Song of the Sea," by D. Greig, a setting, which exercised the several parts in attack and enunciation, and in which they acquitted themselves most creditably. The same astonishing warmth and tone was apparent in the setting of Sullivan's "Lost Chord."

This eight-part composition was solidly and masterfully delivered, and the self-melody of the second choir was effectively subordinated. The piece was encored and repeated. Othello's chorus for men, "Warning," was also encored. The tenor soloist, in tone, and the whole bright and crisp, in "Rock-a-bye" the women sang with wonderful delicacy, the pianissimo passages being polished to a perfect finish, with even tone and sweetness.

The six-part oratorio score by Brahms, which is equal in grace and taste, to the audience's most appreciative. Fanning's "Millers' Chorus" for his men, advanced chorus, and in some respects the most ambitious. The fine body of tone in the chorus could scarcely be better improved, and there was much spirit in the execution. Mr. Kretzler's organ has inclined at times to a deliberate tempo, but he knows his chorus, and his steady under his baton. He should be able to repeat much good material from the chorus for his men, advanced chorus.

Sir Thomas G. Campanari was the soloist in chief. He did not seem to have found the range of Massé Hall. His first number, "The Song of the Sea," was charmingly sung and encored. He was more at ease in the next act, in the "Toreador Song" from "Carmen," his splendid and commanding voice brought an enthusiastic encore. He was quite in his old form, and at his best in this number, and in the "Figaro Figaro" burlesque song from "The Barber of Seville," which he was also compelled to repeat, and applauded with a great deal of enthusiasm.

P. H. Skitch gave Bischoff's "Longshoreman" in a strong and musical fashion with a first-rate organ accompaniment. He sang with hearty picturesqueness, and was encored, giving in response "The Son of the Desert" in the ball, was a most filled with a highly appreciative audience.

T.M.A. BENEFIT PROGRAM

'Tis a Veritable Theatrical Cornucopia at Grand To-day.

This afternoon, at the Grand Opera House, the big annual benefit of the Theatrical Mechanical Association will be the attraction. The advance sale has been big and it will be both a big and a good show. Every theatre in the city is giving of its best, and they can't give these back stage parties anything but their best, for it is the boys behind who know.

Here is the program. Just look it over and when you have seen the show, see if you could beat it. The performance will open with an overture by the massed orchestras of the city under the direction of Frank T. Jennings, the conductor at the Grand. From the Grand also will be given a third act of St. Elmo. The scene is the garden of the paragon.

From the Princess comes Miss Marie Flynn of the Madame Sherry Company. She will sing some of the best songs from that one of the most popular comedies of the season, "The Girl in the Red Velvet Gown," by the Madame Butterfly Company. Alexander, will also sing.

Lottie Gilson, "The Little Magnet," the feature attraction of the Jolly Girls at the Star this week, will be there, accompanied by Signor Duffee upon the piano. This is a novel act.

From Shea's new theatre there will be Say the and Hartman in their laughing comedy, "Before and After." From Shea's Younger's theatre, there will be The Cycling Zanoras and Benn and Leon's sketch, "Lost a Husband." From the Madams are offered The Boston Younger's theatre, there will be the Cyclone Zanoras and Benn and Leon's sketch, "Lost a Husband." There will also be the grand finale march and ensemble from the Jolly Girls at the Star. In which the entire company will appear. Other acts will be added.

The seats are on sale at the Grand Opera House for 25 cents to \$1. The show opens this afternoon and there will be but one performance.

DOUBLE-HEADER ROLLED BUSINESS MEN'S LEAGUE

Levacks and Eatonias Are the Winners—All the League Scores.

At the Toronto Bowling Club last night there was a double-header rolled in the Business Men's League, Levack & Co. winning three games from Crown Tailoring in the scheduled event, while Eatonias also made it a clean sweep in a postponed game from The Telegram in a first named Crown Tailoring never had a look in after the first game, which they dropped by only one point. The game was the only one of the five Little Tailors to show any action and finished with a 55 total. For Levack & Co. Jack Gilm was the big nose and also for the night, with the big total of 117. In the Telegram game the latter were easy business for the leaders, who practically eased up in the middle game to see if The Telegram could take advantage, but all to no avail. Ernie Gilmson was high roller in this engagement with 55, while Tony Ryan was second and high roller for The Telegram with 62. The scores:

FILTRATION PLANT MAY BE READY IN THREE MONTHS

Controller Hocken Would Entlist Every Concrete Mixer—M.H.O.'s Reassuring Statement.

Controller Hocken has a proposition to make to the board of control to-day that he thinks will assist in assuring the city a supply of pure water by July. His plan is to put every available cement mixer in the city at work on the concrete work of the filtration plant, and to add to the sand washing plant sufficient equipment to complete the entire plant by July. "Will that mean that you will move to have the work taken out of the hands of the contractors?" he was asked. "Not necessarily," answered the controller. "Our men can work in co-operation with the contractors and rush the work. We are convinced of one thing and that is that the filter will remove the turbidity from the water. If we are to take our supply from a temporary intake in ten feet of water, we are bound to have turbid water. We know that turbid water does not yield rapidly to the chlorine treatment. Now, if the filtration plant is not yet ready, the chlorine will clear the water from turbidity. With an opportunity to do effective work, the water clear, the chlorine will have been demonstrated that clear water can be successfully treated, and

this seems to me to be a rational way out of the difficulty. This will guarantee not only a temporary but a permanent supply of pure water." Bad Weather Again. Outside of the work of clearing the sand from the pipe little work could be done at the intake yesterday owing to the heavy sea that was running. The divers were unable to work, and a further inspection of the pipe, for the time being, was rendered impossible. The pontoons which arrived on Wednesday night were unloaded, however, and are now in the slip at the foot of Spadina-avenue. There are four of them, each being 30 feet long and 7 feet in diameter. They will be taken over to the broken pipe and sunk by letting the air out of them. Then the pipe will be attached to them and they will again be filled with air and thus float the pipe. Regarding the fear of a typhoid fever epidemic, which is reported to be spreading through the city, the reports of the medical health officer and the city bacteriologist are that so far there is no evidence that there is any great danger from the present water supply. There were eight cases reported at the medical health department yesterday, and of these six were from West Toronto. The other two are from Markham-street and Pope-avenue. One of the latter is in a family that has been using spring water exclusively for the past six weeks. There are only 19 cases from the city, not including West Toronto, so far during the present month as compared with 92 cases in the same area for the same part of March a year ago. It will be noticed, however, that the case on Pope-avenue is the first to be reported this month from across the river. Water Better Than Milk. The following statement was handed out yesterday by Dr. Nasmith, city bacteriologist. Dr. Hastings, medical health officer. Personally, I do not expect any serious outbreak of typhoid fever in Toronto this summer, the more so as we do not have to chlorinate turbid lake water. If the chlorine plant should break down, there would certainly be some reason for alarm, but there is not the remotest possibility of the chlorination plant being put out of commission.

"The water that we are getting now, aside from any aesthetic consideration, is more inferiorly safe than it was when we were getting it from the lake, when, subject to winter and spring conditions of storm, and even from the aesthetic standpoint, it is infinitely superior to the milk we are getting to-day. The highest count in the untreated water we have had this winter has been 19,000 bacteria per one-quarter teaspoonful; the average of samples of loose milk taken from Toronto stores last summer in one investigation was 26,730,000. This bacteria count per one-quarter teaspoonful, presents, in plain language, dirt. The department by this comparison, does not necessarily express its approval of the source of the water supply; it was the only one available in the emergency. We do say that the water is, on the average, safer now than it has been for the past three years. The best proof of this is the lack of any general dysentery or intestinal disorders throughout the district supplied with the city water. It was such an outbreak of dysentery in the Junction which we took as the immediate danger signal, and shut off the Humber River supply. This precautionary signal usually precedes a typhoid outbreak, and in this case proved to be correct. The great majority of people will not, in spite of warnings, boil the water; chlorination renders it safe most of the time. Those who wish to be absolutely sure, can boil it, for boiling will render the most polluted water safe to drink." Barrie Offers Water. Still another offer came to the mayor's office yesterday to come to the relief of the city in supplying the citizens with pure spring water. It is from Mayor Beecroft of Barrie. He says the town has about half a million gallons of water going to waste every

day from the artesian wells from which their supply is drawn. Toronto can have it free. All it will cost is the transportation. Property Commissioner Harris and Dr. Nasmith have also secured samples of the water from the springs of P. J. Loughrin of West Toronto, and an analysis will be made of them. The springs are at the corner of Jane and Bloor-streets, adjacent to High Park. They are believed to be capable of supplying 100,000 gallons per day. When last tested the water was found to be pure.

HOSPITAL DOOR CLOSED TO STRICKEN FAMILY

Mother Has Erysipelas, Daughter Scarlet Fever and Son Victim of White Plague.

Ald. McBride is going to ask the board of control this morning to make some provision whereby special arrangements can be made to admit patients to the hospital at the city's expense when the medical health officer has made an inspection and found the case deserving. The reason for the alderman's efforts along this line is that he discovered a most pathetic condition existing in the home of a working man on Markham-street. There are four members of the family, father, mother, son and daughter. The mother is ill in bed with erysipelas. The daughter, four years of age was in the same bed with scarlet fever, and they were being cared for during the day by the son, just

stage of tuberculosis. The father, who past boyhood, who is in an advanced stage of tuberculosis, is away working during the day. The attending physician was unable to secure admission to the hospital for the child, as the hospital was full. Ald. McBride got into communication with Ald. Rowland, chairman of the board of health, and they succeeded in making a place in the hospital for the little tot. In the meantime the mother and son are both in the home. The son has been unable to gain admission to the hospital, and the disease from which the mother is suffering precludes the possibility of her admission to the public ward of a hospital. It is the proposal of Ald. McBride to have all physicians attending patients who are in need and deserving of assistance, report the case to the medical health officer. He would then have that official make investigation and on conditions being found as reported, place a nurse in charge at the city's expense, providing accommodation cannot be found in the hospital. It is also the intention of the alderman from the third ward to ascertain if some provision cannot be made for the care of city erysipelas patients at the new General Hospital. He thinks it is only fair that there should be considering the fact that the city has contributed \$400,000 towards it. Ald. Rowland, chairman of the board of health, will also be present with Ald. McBride, and there will be some suggestions made for increasing the accommodation at the Isolation Hospital. Dr. Hastings, medical health officer, went to Philadelphia yesterday and will also visit New York for the purpose of ascertaining how they care for erysipelas patients and on what lines their isolation hospitals are conducted. Special Train to Hamilton for Lang- Wildfang Boat. Leaving Toronto, 7 o'clock to-night via Grand Trunk Railway System, and returning after the contest. Secure tickets at Grand Trunk city ticket office, northwest corner King and York-streets. Phone Main 4909, or from T. F. Ryan, Toronto Bowling Club, 11 Temperance-street.

HIT NEIGHBOR WITH CLUB.

CARMAN, Man., March 23.—Chief Horson yesterday went out to Daniel and arrested Frank Moffatt for assaulting his neighbor. Paul Worrill, who had crossed his farm while looking for lost stock. Worrill said Moffatt knocked him down with a club. Dr. McGavin, who has charge of Worrill, considers his condition serious, owing to blows inflicted upon the skull. Moffatt is held in Carman lockup, awaiting the result of Worrill's injuries.

"Pneumonia"

Pneumonia is nothing more or less than "Lung Fever," or as it used to be called, "Inflammation of the Lungs"; and the results come entirely from a local source; such as taking a violent cold. There is more or less difficulty in breathing; a cough, at first dry, but soon accompanied by raising a thick, sticky, rusty-colored matter, composed of a mixture of phlegm and blood. There is only one way to prevent Pneumonia, and that is to cure the cold just as soon as it appears. Dr. Wood's Norway Pine Syrup will do this quickly and effectively. Mrs. G. W. Bowman, Pattullo, Ont., writes: "Three years ago I caught a cold which ended in a severe attack of Pneumonia. Since that time, at the beginning of each winter, I seem to catch cold very easily. I have been so hoarse that I was unable to speak loud enough to be heard across the room. Last winter, however, a friend advised me to try Dr. Wood's Norway Pine Syrup, saving it had helped her. I bought a bottle and before it was half used I was completely cured. I also find it a good medicine for the children when they have colds." Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper; three pine trees the trade mark; the price 25 cents. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

With Two Such Fighting Men as Mutt and Jeff What Cause for Fear? -- By "Bud" Fisher

A comic strip featuring Mutt and Jeff. Mutt says: "MUTT, THE GENERAL SAYS THE ENEMY IS LOCATED IN YONDER FOREST. HE DESIRES TO LOCATE THEIR POSITION SO HE SENDS YOU AND I ARE TO DRAW STRAWS TO SEE WHO WALKS INTO THEIR CAMP. THE CHANCES ARE, WE WILL BE KILLED." Jeff replies: "NOW, LIEUTENANT I'VE A FAMILY. I THINK I CAN ARRANGE THIS THING MUCH BETTER. I HAVE A LITTLE FRIEND WHO—" Mutt says: "JEFF I'VE JUST DONE TO THE GREATEST FAVOR. ONE FRIEND CAN DO FOR ANOTHER. THE GENERAL HAS SELECTED THE LIEUTENANT HERE TO DO A VERY HONORARY JOB BUT I WANTED TO SEE YOU GET THE HONOR. SO I ASKED HIM TO LET YOU DO IT. NOW LISTEN—" Jeff says: "BOO HOO! THERE HE GOES FOR LITTLE PAL, I HATE TO SEE HIM PUNCTURED BUT—" Mutt says: "LISTEN TO THAT, LIEUTENANT! IT'S HORRIBLE. THINK OF THE POOR LITTLE FELLOW, HE'S LIKE A SIEVE." Jeff says: "BOOM! BOOM! BOOM! CRACK! BANG!" Mutt says: "I MAY NOT CATCH 'EM BUT BELIEVE ME, I'LL MAKE 'EM GO SOME!"

AT THE THEATRES

UNCLE JOSH AND HAPPY JACK In Denham Thompson's 'The Old Homestead' at the Grand next week.

People who love adventure both in novels and plays, will find in 'Sire,' Charles Frohman's latest production for Otis Skinner, four acts of interesting incidents. This does not signify that 'Sire' is a melodrama or a play of dramatic intensity. On the contrary, it is a play with delicate appeals to humorous appreciations, broadened by a fund of comedy and deep feeling tones.

Reuben Whitcomb; Maggie Brewer; Aunt Matilda; Anita L. Flower; the Rickett Ann; Gus Kammerlee, Mr. Hopkins, and Rena Lewis the Mrs. Hopkins.

Next week at Shea's Theatre the big bill will be headed by The Operatic Festival, presenting two picturesque musical episodes, 'Gypsy Life' and 'The Carnival of Venice.'

The title of Wm. Faversham's new play, 'The Faun,' by Edward Knoblauch, which he will present at the Royal Alexandra next week, is as novel as the story or theme of the drama.

It will be glad news that Denham Thompson's 'The Old Homestead,' is returning to Toronto at the Grand Opera House next week. Trite as may be the pathetic situations and the comedy of this simple play, there is a lot of fascination in it.

One of the principal numbers on the program of Alice Nielsen and her Operatic Concert Company, who will appear at Massey Hall on April 3, will be the sextet from Donizetti's 'Lucia di Lammermoor.'

A successful graduation recital was given at the Boxato College of Music on Wednesday evening by Miss Margaret C. Vogt, a piano pupil of Frederic T. Egner, director of the Woodstock Conservatory of Music.

Dr. Charles Harris and Dr. Henry Coward, Conductors of the Musical Festival of the Empire, with the Sheffield Choir at Massey Hall, April 4, 5 and 6.

OTIS SKINNER As Denis Roulette in 'Sire,' at the Princess the last three nights of next week.

'The Carnival of Venice.' Every member of the set has a voice of grand opera calibre, and also all are given solos, this calibre is easily discernible in the splendid ensemble effects.

The special feature for the week will be the 'Serenaders,' at the Gayety next week.

MARGARET KING With 'The Serenaders,' at the Gayety next week.

One of the principal numbers on the program of Alice Nielsen and her Operatic Concert Company, who will appear at Massey Hall on April 3, will be the sextet from Donizetti's 'Lucia di Lammermoor.'

be Dolan and Lenhart, presenting their latest success entitled 'Some Mind Reader.' Included in next week's bill are Swor and Mack, black face comedians; The Alpine Troupe, greatest of all aerial wire acts; Miller and Mack, in songs and dances, and the Kinetograph.

The 'New Century Girls' at the Star next week is an attraction which warrants more than passing mention, a whirlwind of merry musical absurdities, entirely new throat, and has been written on the road with magnificent mountings and a company of uniform excellence, and an elaborate scenic investiture has been provided.

The Sheffield Choir, which is to give performances in this city on April 4, 5, 6, and 7, is a choir of the finest calibre from England last Friday, and will occupy the whole of the evening six months in a musical pilgrimage of the British Empire.

The Ontario centres that will be given an opportunity to hear this great organization will be: Ottawa, March 29, 30, 31; Peterboro, April 3; Toronto, 4, 5, 6; St. Catharines, 10; Hamilton, 11; Brantford, 12; Stratford, 13; London, 14; Chatham, 15. Then following a tour in the U. S., Winnipeg May 1, 2, 3, will be their first dates in the west.

Next week at Shea's Theatre the big bill will be headed by The Operatic Festival, presenting two picturesque musical episodes, 'Gypsy Life' and 'The Carnival of Venice.'

Who will be seen in 'The Faun' at the Royal Alexandra next week.

Singer's Serenaders, one of the very best of the present-day burlesque organizations, will be at the Gayety next week, commencing Monday matinee.

For several days the most worthy of all the burlesque attractions in this country, 'The Serenaders' will present two new extravaganza comedies, 'On the Open' and 'Cafe de Paris,' and they are said to be equipped with scenic, costume and electrical effects of the most original and elaborate description.

WHY DO CHILDREN LIKE ZAM-BUK? A Chat With Mothers.

"Whenever my children have any sore places, cuts or skin troubles, they ask for Zam-Buk. They can always depend upon it doing what is needed."

A missionary writing from the West Coast of Africa, says: "One boy who was treated for a bad case of ulcer, came back recently and said: 'I like best that green medicine.' The 'green medicine' was Zam-Buk."

Now why should children, all the world over, show such a marked preference for Zam-Buk?

Children like Zam-Buk because, as soon as applied to a burn, a cut or a sore, it stops the pain and then gradually, but surely, it heals. As soon as the pain of a wound or sore is relieved, a child can go on with its play and leave Zam-Buk to finish off the healing.

Mothers might look a little more deeply into the action of Zam-Buk. First, it is highly antiseptic. As soon as applied it stops all danger of festering, blood poisoning and inflammation. Second, it is soothing. It cools the wound or sore, allays the irritation, stops the pain and smarting. Then, thirdly, it stimulates the cells, beneath the injured part, to healthy action, and causes the speedy creation of new, healthy, tissue.

Just try Zam-Buk for cuts, or burns, or cold sores, or eczema, ulcers, rashes, bad leg, piles, varicose ulcers, or any inflamed or diseased condition of the skin. Its effect will highly satisfy you. All druggists and stores, big or small, have Zam-Buk. Beware of cheap, worthless substitutes.

A CHANGE OF POLICY. WINNIPEG, March 23.—A change of policy to the effect that the government did not intend to build or buy any more elevators other than those now under way, was the announcement made by the provincial treasurer at the conclusion of the discussion on supplementary estimates in the legislature to-day.

New Factory and Warehouse. F. Warren will erect a factory and warehouse at the corner of King and Toronto-sts., at a cost of \$12,000. He secured a permit from the city architect's department yesterday.

Early Buyers Turn Sellers And Market Loses Its Advance

May Option Declines a Fraction and Deferred Futures Rule Easy—Corn and Oats Lower at Chicago.

CHICAGO, March 23.—Collapse of the dry weather flour and wheat came today. The fact was authoritatively pointed out that the rainfall upon which the spring crop depends does not arrive as a rule until after April 1. In consequence the market closed 1/4 to 3/8 lower to a shade higher than last night. Corn finished 1/4 to 1/8 down; oats 1/4 off to a 1-1/2c up, and hog products unchanged. Heaviness of cash wheat acted as a drag on the whole lot of futures, but in particular on May. Trading narrowed on that month to one side line. Sept. figures meanwhile went above July for the first time this season. A large part of the day's activity consisted in the buying of deferred options against sales of May. During the early hours dry weather talk from the northwest helped the bulls. Enthusiasm cooled later when word was received that the best information from Minnesota was not yet worried by drought conditions. More-sovereign reports here declared that the south and South Dakota as well as North Dakota all had extra moisture in February, and that anywhere it was altogether too soon for a scare concerning dryness in the northwest. Thereafter the course of prices headed downwards. At the close, tho, a steady tone prevailed. High and low levels for May were 90 1/2c and 89 1/2c, with last week's closing at 89 1/2c, a net decline of 1/4 to 3/8. There was considerable local pressure on corn, so that when wheat turned weak the corn again made a sharp descent. Weather conditions were favorable, early demand little, if any, improved, and receipts at the larger distributing centres much heavier than last week. Cash corn ranged from 48 1/4 to 49 1/4, and closed 1/4 net lower at 49 1/4 to 49 3/4. Cash corn was steady. Oats, after a rise, due to covering by shorts, declined at the last under general selling. Reports from the south and southwest said that seeding was making good progress. The top and bottom price limits for May 31 1/4 to 33 1/4 and 30 1/4 to 32 1/4, closing at 31 1/4. A falling off in price of hogs carried provisions along. At the end of the day pork had sunk 1 1/2c to 35c; lard was unchanged to 1/2c lower, and ribs of a nickel to a dime.

European Grain Markets. The Liverpool market closed today unchanged to 1/4d lower on wheat and 1/4 to 1/2d lower on corn. Buxida Post, closed 1/4 higher for wheat, Antwerp 1/4 lower, Berlin unchanged, holiday at Paris.

Argentine Estimates. Broomball estimates the Argentine shipments as follows: This wk. Last wk. Last yr. Corn, bush, 4,000,000 2,500,000 1,800,000. Wheat, bush, 2,000,000 1,500,000 1,200,000.

Liverpool Wheat Market. LIVERPOOL, March 23.—The firmness in America yesterday and closing steadiness in Buenos Aires were offset by forecast of large shipments from Argentine this week and values were 1/4 lower. There was pressure to sell in Plata and Indian offerings and Australia was offering freely. India and Argentina crop advices were favorable and the general belief here is that the American winter outlook is satisfactory.

Crop Report. Snow waters from Kansas. Have traveled 100 miles in wheat belts of Kansas. West of a line north and south and involving about 2,000,000 acres of wheat. This is so late that germination uncertain, chances against anything like a fair stand at best. Close row of counties, including 500,000 acres are already definitely a failure, three-fourths of this acreage out to other crops. Wheat failure to germinate until after February rains. The remainder of the state about 4,000,000 acres, present prospects. Even if winter a district finally proves a complete failure still can still make from 60,000,000 to 70,000,000 bushels.

Minneapolis and the Dakotas had well above normal rains. The weather is still so wet that it is altogether too early to talk dry weather in the northwest.

Secretary Coburn of Kansas estimates perfect weather conditions in his state at 10 by 100 acres. Snow says there are 4,000,000 acres of perfect wheat, which would yield 72,000,000 bushels with doubtful success eliminated. The big wheat area is always in the eastern part of the state. Other figures that 4,000,000 acres of perfect wheat in Kansas in 1911. Kansas nearer 100,000,000 bushels than 70,000,000 bushels.

Price-Cut out says: Weather the next week mild and springlike and winter wheat being planted in good condition; damage from freezing and thawing less than usual. Present indications only small area will be abandoned for other crops.

Flour Output. Minneapolis flour output last week decreased 15,000 barrels, being 238,100 barrels. This week the same number of mills are in operation. Flour sales by Minneapolis mills last week did not exceed 2 1/2 per cent. of the output.

ST. LAWRENCE MARKET. Receipts of farm produce were 300 bushels of grain, 30 loads of hay and a few lots of dressed hogs. Barley—nearly hundred bushels at 65c to 66c per bushel. Hay—Twenty loads sold at \$15 to \$17 per ton. Straw—Five loads sheaf sold at \$15 per ton.

Dressed Hogs—Prices steady at \$8.25 to \$9 per cwt. Wheat, bushel, \$0.80 to \$0.81. Wheat, coarse, bushel, \$0.73. Rye, bushel, \$0.68 to \$0.69. Barley, bushel, \$0.65 to \$0.66. Corn, bushel, \$0.47 to \$0.48. Buckwheat, bushel, \$0.43 to \$0.44. Peas, bushel, \$0.73 to \$0.74.

Prices at which re-cleaned seeds are being sold to the trade: Alaska No. 2, bush, \$1.00 to \$1.05. Alaska No. 3, bush, \$0.75 to \$0.80. Red clover No. 1, bush, \$0.50 to \$0.55. Red clover No. 2, bush, \$0.30 to \$0.35. Red clover No. 3, bush, \$0.20 to \$0.25. Timothy No. 1, bush, \$0.30 to \$0.35. Timothy No. 2, bush, \$0.25 to \$0.30. Timothy No. 3, bush, \$0.20 to \$0.25. Alfalfa No. 1, bush, \$0.75 to \$0.80. Alfalfa No. 2, bush, \$0.55 to \$0.60.

Hay and Straw. Hay, per ton, \$15.00 to \$17.00. Clover or mixed hay, \$12.00 to \$15.00. Straw, loose, ton, \$5.00 to \$6.00. Straw, baled, ton, \$6.00 to \$7.00.

Fruit and Vegetables. Onions, bag, \$1.50 to \$2.00. Potatoes, per bag, \$0.90 to \$1.00.

CATTLE TRADE STEADY WITH SOME ACTIVITY

Good Butchers Firm—Light Unfinished Stuff—Sheep and Lambs Higher.

The railways reported 73 cars of live stock, consisting of 774 cattle, 286 hogs, 96 sheep and lambs, and 42 calves. The quality of cattle was about the same as has been coming all week, not enough of the best, and too many of the light unfinished class. Trade was firmer on account of light supply and while there were no cattle sold over the top price of Wednesday, buyers stated they had to pay the per cwt. higher for the same quality of cattle.

Butchers. George Rowntree, who has been the largest buyer of cattle all week, bought 250 cattle on Wednesday and Thursday for the Harris Abattoir Co. as follows: 100 choice steers and heifers, \$5.35 to \$5.55; and for a few odd lots, prime cattle, \$5.35 to \$5.55; 20 to 25 yearling calves, \$4.10 to \$4.25; butts, \$4.35 to \$4.55.

Stockers and Feeders. A few lots of stockers and light feeders changed hands at \$4.25 to \$4.50 and as high as \$4.75 for those weighing up to 170 lbs.

Milkers and Springers. There was a good supply of milkers and springers, the bulk of which were medium and common quality, general run of prices being from \$4.00 to \$4.25.

Veal Calves. Veal calves, a few of the light cheeper, selling at \$3 to \$3.25 per cwt. and 2 extra new milk-fed veals sold at \$2.75.

Sheep and Lambs. Prices were firmer for sheep and lambs, a few 1000 Suedes, \$4.75 to \$5.00 per cwt.; 2000 Suedes, \$4.50 to \$4.75 per cwt.; 2000 Suedes, \$4.25 to \$4.50 per cwt.

Hogs. The hog market was not very firm, as there was a good supply. Prices unchanged to 1/4c lower for hogs, 1/4c to 1/2c higher for drovers for hogs, f.o.b. cars, at country prices. Thick fat heavy hogs over 220 lbs. 10c per cwt. less than the above prices.

While one thing essential to a culturing lawyer is the knowledge of Latin, it is not necessary that he should parade his classical knowledge, for he might be "taken down a peg," as was the young lawyer who displayed his learning before an Amateur jury. His opponent replied: "Gentlemen of the jury, the young lawyer who just addressed you has been a large short interest covered during the past few days and stocks remain excessive large as compared with the demand, and we expect the market to drop to a lower level."

Porcupine Stocks Stronger But Cobalts Continue Weak

Hollinger Up to New Record at \$9.50—Other Gold Issues Steady to Firm—Liquidation in Cobalt Stocks.

World Office, Thursday Evening, March 23.

Outside of a further advance in Hollinger and an exhibition of buoyancy by Porcupine Gold shares (Vipond) and West Dome, there was little in the mining market today worthy of comment. Trading was of substantial volume, but much of this partook of a liquidating nature, and the outstanding tendency proved more reactionary than anything else.

The Cobalt stocks were plainly under pressure, and declines were in evidence almost throughout the list. Holders were evidently disposing of their stocks, and it was apparent that they were willing to accept losses to certain instances, for prices were depressed in the easiest possible manner when realizing put in an appearance.

Timiskaming stood as low as 73 to-day, a drop of over two points from yesterday. Sentiment in connection with this issue is still influenced by the small shipments, which are being made, contingent to the failure of the power company to supply sufficient energy to warrant aggressive development operations.

The decline in Timiskaming found its reflection in Beaver, and this issue is quoted lower in sympathy, the shares dropping back to 36 1/2, and closing with that price bid.

The higher priced Cobalts were not influenced by the weakness in other sections, and both La Rose and McKinnon-Dar-Sav were firmer. Porcupine moved in direct contradiction to the silver mining stocks. Hollinger, the big Porcupine issue, continued its advance of yesterday, and added another 35 points to its value, selling as high as \$9.50 during the session. A small reaction occurred at the close when profit-taking came into play, but the price did not lose much. The other Porcupine securities showed signs of strength, Vipond sold up to 65, but was off late in the day. West Dome gained 9 points at \$25, but was lower on the afternoon board. Preston was about unchanged, and the other issues were also about on a parity with previous quotations.

JUPITER MINES, LIMITED

Property Has Excellent Location—Should Prove Attractive.

Recent news from the Porcupine gold camp bears out the idea that that section lying near Pearl Lake in the western portion of Tisdale Township is as rich as anything in the gold field, and on this account alone the flotation of the Jupiter Mines, Limited, is attracting more than ordinary attention. The Jupiter Mines, Limited, possess the advantage of an excellent location and this itself is no mean factor to those who contemplate investing in Porcupine. The property is situated next to the well known McIntyre claim, while to the north lies the Pearl Lake Mining Co. property. The Hollinger main shaft is not more than 20 chains away, so far as neighbors are concerned, the Jupiter Mines are in an enviable position.

The capitalization of the company is \$2,000,000, the total value of one dollar. There are 1,500,000 shares in the treasury and a portion of this is now offering at 50 cents a share.

Valuable veins are indicated on the property, and it is expected that development work will prove the claims to be of exceptional richness.

ABRIDGED PROSPECTUS

JUPITER MINES, LIMITED

PORCUPINE

Below we give an abridged prospectus of the Jupiter Mines. In introducing this Company to the public we wish to point out a few facts. First of all, it should be noted that the Company is only capitalized for Two Million Dollars, of which One Million Dollars are Treasury Shares. Out of this Treasury Stock the Directors are now offering 600,000 shares for sale at 50c per share. We want to point out that this property is not a mine as yet. If it were, the shares would not be bought for \$10.00 or more. But it is an excellent prospect.

It lies beyond the Hollinger Mine on the south-west and the Rea property on the north-east. On the south is the Schumacher claim. On the north is the Pearl Lake Mine. All these properties have been sold at high prices. As far as can be ascertained, the Jupiter claims are situated in the centre of apparently the richest section in the district. From all indications and the engineer's reports the Jupiter Mines appear to be one of the most promising prospects in the country, and we respectfully urge you to read the following abridged prospectus and report and send in your application promptly.

THE JUPITER MINES, Limited

Vice-President—**CHARLES VANE**, Porcupine, Vice-President Porcupine Telephone Lines, Limited.

Directors—**GEO. W. BAXLETT**, St. John's, Newfoundland.
EDWARD G. O'KELLY, Civil Engineer, Toronto.
JAMES PEARSON, President Constructing and Paving Company, Limited, Toronto.

Registrars and Transfer Agents—**THE TRUSTS AND GUARANTEE CO., Limited**, 45 King Street West, Toronto.

A copy of the full prospectus, with maps, has been filed at the Office of the Provincial Secretary, on March 21st, 1911. Copies of this may be obtained on application to the Secretary of the Company, Mr. J. A. Murray, 14 King Street East, Toronto.

known McIntyre claim, on which extraordinary finds have been made. On the north is the property of the Pearl Lake Gold Mining Company, Limited. Adjoining on the east are the Armstrong-Booth, the Miller and Middleton and the Rea Mines of the Consolidated Gold Fields of South Africa. On the south, across the lake, is the Schumacher veteran claim.

So far as location is concerned the Company's claims are situated absolutely in the centre of the richest section in the district; they are surrounded on all sides by properties which have spectacular showings. A report has been obtained from Mr. Jas. H. Miller, one of the best known consulting engineers of the camp, who states, moreover, that in his opinion the Company's property is an extremely valuable one. Mr. Miller's report in full is appended.

It will be noted that the unusually large amount of one and a half million shares is left in the treasury, being considerably more than one-half total share capital.

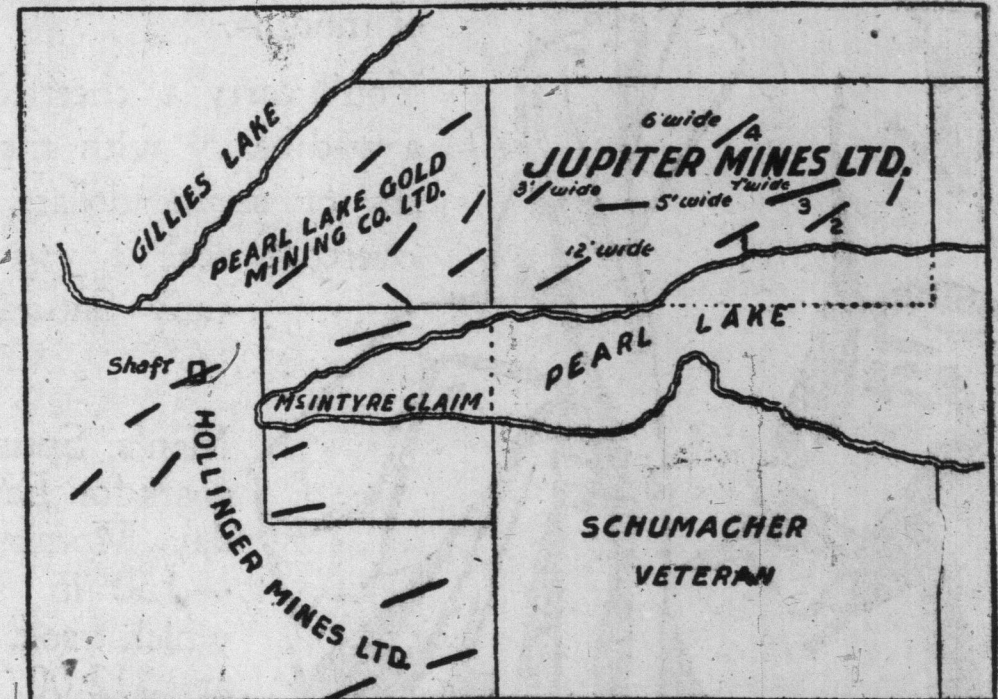

ENGINEER'S REPORT

Report of Mr. James H. Miller, Consulting Engineer.
Porcupine, Ontario.
Dated 15th February, 1911.
Dear Sir,—In accordance with your request I now beg to submit my report. In compliance with your instructions I have eliminated so far as possible all technical and scientific terms and matters, rendering my report in the simplest possible terms.

I should state in opening that I have spent the last six months examining a number of mining properties situated in the Porcupine Mining District. I have carried out by myself and also in conjunction with other well-known consulting engineers, many careful and detailed examinations and done much research work, and I have come to the conclusion that the most valuable section of the mineral deposits, so far as is known at present, is located undoubtedly in the region immediately surrounding Pearl Lake.

My conclusions are based on the following reasons—

1. That the sulphides which appear on the surface seem to have been deposited in that series at the same time as the gold, thus assuring that the veins are of the same age and of the same formation.
 2. That the surface showings have been proved to exist at considerable depth in several of the neighboring mines, for instance at the Vipond, at the 100-ft. level, at the Hollinger at 200 ft., and at the Rea Mine at over 230 feet.
 3. The more valuable veins are mostly in two different rock series, the first being a massive green stone, so highly altered that it is difficult to classify its genesis without further research. The other I regard as being in the Keewatin series. To this latter I attach the greater importance, because it is located in the talc schists, and while disclosing little visible gold, assays made invariably are comparatively uniform and satisfactory, frequently being of high grade. A feature of note is the presence of chalcopyrites.
- In corroboration of my statement I may state—
- The surface showings have been proved to exist at considerable depth in several of the neighboring mines, for instance at the Vipond, at the 100-ft. level, at the Hollinger at 200 ft., and at the Rea Mine at over 230 feet.

So far as the Company's two claims are concerned, sufficient development work has not yet been done to enable me to pass a definite opinion as to the value of the claims in general or the property. At the same time I am highly impressed with what I have seen and with the results obtained from various assays I have made. There are several veins running through the property which have not been uncovered for the present. Four veins have been exposed and among these the most promising to me appears to be Vein No. 3, which is highly mineralized and is about 7 feet wide. Samples have given me the following results—

SAMPLE NO. 1—Across the vein, 7 feet, including 5 inches of hanging wall.	\$14 20
SAMPLE NO. 2—Sectional pure quartz, 2 feet 9 inches across the centre of the vein.	4 30
SAMPLE NO. 3—Foot wall, 7 inches of quartz, with highly defined planes carrying chalcopyrites.	80 80
SAMPLE NO. 4—Grab sample taken from surface across 3 inches of the foot wall.	200 00
SAMPLE NO. 5—Across the vein, 8 feet from first sample.	39 60

SAMPLE NO. 6—Across the vein, 6 feet further.

I consider these results, such as they are, more than sufficient to hold out every hope that you will have on further development an extremely valuable proposition, and I would strongly urge and recommend that serious work on a commensurate scale be undertaken at once. (Signed) JAMES H. MILLER, Consulting Mining Engineer.

Send your order for shares now—write, call or phone—either to the Toronto Office of the Company or to the Stock Transfer Agents, The Trusts and Guarantee Co., Limited, 45 King Street West, Toronto.

Please file my application for shares, at par value of \$1.00 each, of the Jupiter Mines, Limited, no personal liability. I enclose \$..... being full payment for same.

VIPOND VEIN PICKED UP ON CROWN CHARTERED
Eighteen Inch Lead Found in Drift at 48 Foot Level—Plant Ordered.

OPENING UP NEW LEAD ON PRESTON EAST DOME
Four-Foot Lead of Quartz Uncovered—Extends For Twenty Feet.

PORCUPINE CITY, March 21.—(From Our Man Up North.)—What gives every appearance of being the Vipond free gold vein was caught up at 3 o'clock this afternoon in the drift 18 feet east of the 48-foot level, on the shaft on the Crown Chartered Co.'s property, in Western Tisdale, and so encouraged are the management that Managing Director Hetherman of Montreal ordered by wire a 30 horsepower boiler and steam hoist with buckets to be delivered at once. Samples of the rock, which carries a brown tint in the fine grained quartz, are now being assayed for values.

Work on this claim was begun two months ago, when manager Cavanahish started in to raise the shaft. On the surface appeared two outcroppings of quartz, one running from northeast to southwest, and the other in a contrary direction, northwest to southeast, and it is at the juncture of these outcroppings, under the surface, that the vein has been picked up. A light shaft has been put on to hurriedly drive the cut thru the quartz, in an effort to determine the full width of the vein. Eighteen inches are so far exposed.

With the picking up of the Vipond lead on this claim, which is an east and west run, there is every indication that the claims directly to the east, the Cluskey, Digby and Clifford, are in line for the same vein, and this goes a long way in helping to prove up this part of Tisdale.

The Crown Chartered also hold claims in the north and east of Tisdale, where their big plant is located, and where diamond drilling is now in progress, with good showings reported. Messrs. Hetherman and Heneault, who left for Montreal to-night, have spent in the neighborhood of \$100,000 in proving up Porcupine lots, and are doing considerable credit for what they have so far accomplished, as every claim in the vicinity of their work has been materially enhanced in value thru what they have done.

Two-drill Compressor On Vipond Property

Hand Drilling Operations to Be Expedited—Considerable Prospecting Planned.

PORCUPINE CITY, March 21.—(From Our Man Up North.)—A two-drill compressor plant has been placed on the Vipond property, purchased from G. A. Greener, who brought the outfit here last fall but did not use it, and soon with the additional power made by installing a 30-horse power boiler, the drills will be at work. Considerable prospecting is outlined by the company for this summer and the drills will be largely used for that work. This surface work cannot start till the snow is off.

So far hand work was the means of sinking the main shaft to a depth of 100 feet. The drifting and cross-cutting was also done by hand drilling.

FRANCIS BEAMISH, J.P., DEAD

Prominent Farmer of Toronto Township Succumbs to Pneumonia.

ERINDALE, March 23.—(Special.)—Francis Beamish, J.P., aged 67, a well-known farmer of Toronto Township, died last night of acute pneumonia, at the home of his son-in-law, George W. Gordon.

Deceased was a Presbyterian, a member of the Home Circle and prominently connected with the Orange Order. In politics he was a Conservative, being appointed a Justice of the Peace by the Whitney government.

He is survived by a grown-up family of two sons and six daughters, namely, Adam of Erindale, and James of the Standard Field Co., West Toronto; Mrs. King, Erindale; Mrs. Gordon, Port Credit; Mrs. Porter, Mount Forest; Mrs. Thomas Goddard, Weston; Mrs. Henry Rowntree, and Miss Louise Beamish of Toronto.

The funeral will take place on Saturday, 25th inst., at 1:30 p.m., to Streetsville Cemetery.

OBJECTED TO OPERATION.

Dr. Joseph Bescom was awarded judgment in Division court yesterday against James C. McDowell, Brockton, for \$225, being for professional services on his wife.

McDowell, in defence, said that the doctor performed an operation upon his wife without his consent.

"He had an ambulance at my door and two policemen there to drive my wife away to the hospital. When I protested he said she would die if she didn't submit to the operation."

Mr. McDowell told the court that he would appeal.

Porcupine Syndicate

A syndicate is now in process of forming, to take over through this office a group of properties at Porcupine, Ontario.

The properties are in the southeastern portion of Tisdale Township. They are separated by only four hundred and forty yards from the Dome property and directly on the strike of the Dome ore body. On the report submitted they have the largest surface showing in the camp outside of the Dome Mine itself. Our report shows that the work done up to date has disclosed a Domelike quartz.

Schist outcrop 60 feet wide by 200 feet long with liberal quantities of coarse free gold showing all over the exposed formation. The indications are that further striping will greatly enlarge this area.

The plan of organization provides for the absolute taking over of the properties by a company to be formed. Title will not depend on the making of future payments.

The operations will be under the directions of one of the best-known Canadian mining engineers.

STABBED IN THE NOSE

Rhode Island Legislator a Victim of Deadly Hatpin.

PROVIDENCE, R. I., March 23.—The crusade against long hatpins gained a strong supporter to-day in Representative John B. Leclerc of Woonsocket who, after being wounded by one of the so-called "dangerous weapons," announced that he would introduce a bill in the legislature limiting the length of this feminine accessory. While riding to the state house to-day Representative Leclerc was stabbed in the nose by a long hatpin protruding from the new spring headgear of a woman passenger. The steel prong sank deep into the legislator's nose and blood flowed freely.

X-rays For Deafness.

Purely by accident it was discovered in London recently that certain forms of deafness can be cured by means of the X-rays. A man who had been deaf all his life was treated by the rays for an ulcer on his tongue. The ulcer was cured—and he was surprised to find his hearing had returned at the same time.

He lived on a very noisy street, but had never noticed the noise. Gradually he found himself being waked up very early in the morning, and it was some time before he realized that it was because he was beginning to hear the sounds around him.

Other cases of deafness have been treated by the same method with success. The belief of the doctors is that the rays stimulate the tiny nerves in the ear which have been deadened by disease or shock, so that they become sensitive again to sound waves.
