Excellent Investment—\$5000. Gerrard and Sherbourne vicinity, pair brick-front house, 5 rooms, conveniences. Good rent.

PROBS. Fair; not much change in temperature. EXPLOSION OF GAS. BRICKS BULGINGS. KILLS ONE, 9 HURT.

Row of Stores on Brantford's Busy Street Demolished by Terrific Force of Natural Gas. FAMILY IN THE DEBRIS. BABE DIES FROM INJURY.

BRANTFORD, Sept. 11.—(Special).—A natural gas explosion, the worst in the history of Brantford, occurred at 2 o'clock this afternoon along the south side of Colborne-street, just west of King-street, demolishing several of the important places of business, killing one child, injuring a dozen people and piling the ruins in the street.

There were three shocks, and they were felt in every building in the business section. For a great length, the buildings on one side of the street are caved in, others have only walls standing, and for a distance of many yards no building on one side of the street but is damaged to a great extent.

On the opposite side of the thoroughfare the buildings are also damaged badly. Windows are broken in, and the fronts of business houses badly disfigured. At least six people are injured more or less seriously if not fatally.

The origin of the catastrophe was in a theatrical building, which is the most complete ruin on the street. Strange to say, there was no fire connected with the explosion, except a small blaze from an over-turned stove.

Family in the Debris. One family, Mr. and Mrs. Hornie and two infants, were buried in the debris, and were removed by the firemen. The elder of the children died, and the younger child, who was very seriously hurt, is expected to die.

How Injuries Were Received. Two of the worst injured are Holst and Blaybro, who were sitting on the steps waiting for a key to enter the theatre to do some work. Both were knocked clear across the roadway. Holst, who was in his berth in a state of delirium, while Blaybro was unconscious.

Charles Stover was at work constructing a trench in the street for the gas company, and his condition is reported serious. There were many narrow escapes, Mr. and Mrs. Courtland Smith with children, who were next to the Hornie rooms, were nearly buried in the wreck.

Senate Reading Room. 1140-17764. SENATE P O.

FOREST FIRES. SLEEP TOWN. Several Hundred People in Minnesota Are Reported to Have Been Made Homeless.

DULUTH, Minn., Sept. 11.—Beaver Bay, on the north shore of Lake Superior, 80 miles northeast of Duluth, is reported to be burning. The citizens have appealed to Governor Johnson for aid.

FOREST FIRES DARKEN AIR. London and St. Thomas Streets Filled With Smoke. There was a distinct haze in the city streets yesterday due to bush fires, which are reported in several places in Western Ontario.

Laurence Burpee Said to Be the Likely Choice for Toronto Appointment. Congratulations are due to the Toronto Public Library Board if it can be true that Lawrence J. Burpee is the choice of at least a majority of the board for the vacant librarianship.

STANDING TOGETHER. C. F. R. Strikers Are Still Solid in Montreal. MONTREAL, Sept. 11.—(Special).—A large open-air meeting of strikers was held here to-day. The solidarity of such a cosmopolitan army of men is a surprise to everyone, even to the strike leaders.

TO RESUME SUNDAY CARS ON THE WELAND DIVISION. Company Will Yield to the Wishes of Many Citizens Along the Route. WELLAND, Sept. 11.—(Special).—Interesting developments are expected to follow the operating of a passenger service on the Welland division of the Niagara, St. Catharines & Toronto Railway on Sunday next.

TRIP TO COLORADO FIRST. Hon. J. M. Gibson Will Ret Before Assuming Official Duties. Hon. J. M. Gibson is going to Colorado and will not assume office as lieutenant-governor before the middle of next month.

WASHINGTON, Sept. 11.—In a flight lasting one hour, ten minutes, six seconds, Orville Wright late to-day surpassed all his previous exploits for a heavier than air machine.

Accident at the Race Track. HEELING, W. Va., Sept. 10.—Two men were injured, two of them by the restoration of peace being reopened between the Royalists and the Revolutionists thru the efforts of a British consul.

LACK OF CARS FOR THE BRAIN. Impressive Scene at Albert Hall as Climax of Eucharistic Congress.

LONDON, Sept. 11.—The success attending the Eucharistic Congress reached its climax to-day when some 30,000 Catholics received the blessing at the hands of the legate. It was a remarkable reception, but unfortunately the place of the altar was not of proper organization by lack of confusion and crushiness.

NEIGHBORS CATCH BURGLARS. Notify Police When They See House Entered. Vigilant and watchful neighbors are a blessing—sometimes. Yesterday they saw Wm. Gowland of 47 Emmerson-avenue hide his door key and start out for a drive.

SEVEN DAYS IN CANOE ON WAY TO HOSPITAL. Bracebridge Man With Fractured Skull Undergoes Terrible Experience in Northern Woods. COBALT, Sept. 10.—(Special).—Chas. Manary, a young man of 27, whose home is in Bracebridge, but who was in Cobalt on business, was brought into Cobalt by the Red Cross Hospital suffering from a broken skull and broken nose. He will recover, he was attended by Dr. Dark of Elk Lake and Drs. Hare and Cain here.

BRYAN SUPPORT HEARST? Letter Says He Made a Hit for Tat Offer. ATLANTA, Ga., Sept. 11.—Two thousand persons listened to the formal notification of John Temple Graves as nominee of the independence party for vice-president of the United States at the Casino Theatre to-night.

JUMPS TO HIS DEATH. LONDON, Sept. 11.—At Victoria Hospital about 10 o'clock this morning, Charles Judge, aged 25, a patient with typhoid fever, jumped from a half-open second story window to the cement pavement below. He died while being carried to the operating-room.

FEDERAL APPOINTMENTS. Sir Chas. Pelletier to Be Lieutenant-Governor of Quebec. OTTAWA, Sept. 11.—(Special).—The following appointments are gazetted: Sir Charles A. P. Pelletier, K.C.M.G., to be lieutenant-governor of Quebec.

CHILDREN'S DAY AT FAIR. Children will be admitted to the grounds to-day for 5c and 10c. The automobile symphony and bicycle races will be held before the stand, while at night the fireworks will be particularly fine.

World subscribers in Hamilton are requested to register complaints as to delivery as in his delivery at the office room 7, Upper Building, Phone 985.

RUN DOWN BY CARRIAGE LEFT INJURED IN STREET

Fred Heibner is Victim of Three Men's Carelessness and Calousness—Day's Doings.

HAMILTON, Sept. 11.—(Special.)—Fred Heibner, 292 West Jackson-street, was run over by a carriage containing three men, at the corner of James and York-streets to-night. One of his wrists was broken and his head badly cut. The men did not stop, but speared their horse up the street, and got away before they could be recognized. Heibner was picked up and taken to the city hospital in the police ambulance. The annual mayor's picnic was held this afternoon at Oaklands Park across the bay. Mayor Stewart entertained his guests about seven-hundred in number in a right cozy and comfortable way. The trouble between the two local celebrities, Tom Lee Sing and Lee Hing, has culminated in the former having a writ issued against the latter for unstated damages and for assault, false arrest and imprisonment.

The local officers of the Dominion Wholesale Grocers' Guild resolved a shock to-day when it was announced that the prosecution started against the Bank of Toronto and its directors, which has continued in Toronto on the 21st of this month. Barton Township officials have intimated to the city engineer that if the city declines to pay its share of the cost of building the concrete sidewalks on Sherman-avenue, the costs may be collected thru the courts. The names of A. F. McCallum of Toronto and J. W. Tyrrell of this city are mentioned for the office of city engineer. Mary Walker was committed for trial by Magistrate Smith on the charge of stealing a watch from Charlie Power & Chinaman. James Niblock, to whom the girl is alleged to have given the watch, and on whom it was found, was acquitted. The girl was fined \$10 and threatened with a charge of perjury as the outcome of an assault upon an old man named Rowe. Allan Appleton and J. J. Syme were burned at the Victoria-avenue sub-station of the Cataract Power Co. to-day. Their injuries will mean several weeks' treatment in the city hospital.

Not a Real Doctor. On the charge of practicing medicine without a license, Dr. Colville was fined \$25 at the police court to-day, but as he did not have the money and as the jail is already overcrowded, Magistrate Coffey gave him time to collect the money. Charles Brown, inspector for the Ontario Medical Association, was the complainant. It was shown that Colville sold liniment and other medical preparations, and that which witnesses swore almost killed them.

Judge Snider in the division court to-day handed down his judgment in the action brought by the wife and son of Samuel Pilgrim, to have him declared legally dead, owing to his absence for nine years. The judge declared Pilgrim dead and ordered that the estate be administered. The family will now take action to collect the life insurance. The trustees of Emerald-street Methodist Church have ordered a pipe-organ for the church, to cost \$2500. It is said that J. Hyde, the T. H. & E. clerk who is alleged to have stolen several hundred dollars from the church, had planned to make off with \$2000 more. Cheques, signed by the officer, are ready to be cashed, were alleged to have been made out for "dummy" workmen.

Four Hamilton hotelkeepers, of whom nearly a score were fined recently, have sent in protest against Anna McQueen of the Commercial, R. R. Simpson Co. of the Royal, M. L. Wolfe of the City and John Fitzgerald of the Vancouver. The protest was heard by County Judge J. F. Monck at Hamilton on Sept. 23 at 10 a.m.

The New Arriving. Complete new opening, home comforts, very central. Excellent cuisine. Terms \$15.50. Geo. Midwinter, Phone 3482. Skedden & Son, Electricians, Decorators, Paperhangers, 163 King St. West. Hotel Hanrahan. Corner Barton and Front-streets, Hamilton, modern and strictly first-class. Rates \$1.50 to \$2 per day. Phone 1465.

Pianos to Rent. Heintzman & Co., Limited, 115-117 West King-street, Toronto, make a feature of renting pianos at a small sum per month, and what is paid in this way will, when desired, be allowed on the purchase of a piano. If interested see them.

Kaiser Visits France. An "Simple Tourist," Desirous of Getting a View. PARIS, Sept. 11.—The government to-day received official information that Emperor William, with his army manoeuvres at Alsace-Lorraine being at an end, would this afternoon cross the French frontier for 100 yards in an automobile as a simple tourist for the purpose of enjoying the magnificent view from the top of the Schlucht Mountains.

HOW TO BE BEAUTIFUL. To have a soft, smooth skin, free from eruptions and pimples, the face must be healthy and pure. Ferrozene invigorates enfeebled blood and cleanses it of all impurities and poisons. It brings color to the lips and cheeks, brilliancy to the eyes, whitens the teeth and sweetens the breath. No tonic compares with Ferrozene in rapid action and permanent results. Try it. Price 50c, at drugists, or N. G. Polson & Co., Kingston, Ont.

D. M. STEWART.

The Meteoric Career of the Former General Manager. The announcement that Duncan M. Stewart is a fugitive from justice will be received with regret by a great many Canadians. It seems to have been a case of that "vaulting ambition which o'er leaps itself."

Duncan M. Stewart was born at Muskoka, Killarney, Ireland, in 1869. He became chief discount clerk at the Bank of Toronto in 1887. He was appointed junior clerk in the Traders Bank there, and in 1887 secretary to the general manager of the Bank of Toronto, and shortly afterwards accepted a similar position with the Bank of Commerce. In 1891 he went to the New York office, and in 1892 became chief discount clerk at Montreal. In 1897 he became inspector at Montreal of the Merchants' Bank of Halifax and assisted in changing the name of the bank to the Bank of Canada. In 1901, on the organization of the Sovereign Bank, he was appointed general manager.

ROBLIN IS OPTIMISTIC.

Gives Borden 94 Majority Outside of Quebec. MONTREAL, Sept. 11.—(Special.)—The Hon. Mr. Roblin, prime minister of Manitoba, expresses the emphatic belief that R. L. Borden will be carried into power by a good majority irrespective of the number of seats that the Conservative leader may receive in the Province of Quebec.

Mr. Roblin said that Mr. Borden had given out some figures as to his estimate of Conservative strength in the next house of commons: Mr. Borden has 48 of the 82 Ontario divisions, a solid seven from British Columbia, eight out of ten from Manitoba, one in the Yukon, five out of eight in Alberta, five out of the ten in Saskatchewan, a solid contingent of four from Prince Edward Island, nine out of eighteen from Nova Scotia, and, but not least, ten out of New Brunswick's thirteen, giving a total of 127 members supporting the Conservative leader.

The prediction of the premier of Manitoba, if it should come to pass, would give the Conservatives a majority of 94, irrespective of anything that may be accomplished in Quebec.

GREGORI ACQUITTED.

Held Not Guilty of Trying to Murder Dreyfus. PARIS, Sept. 11.—Louis A. Gregori was to-day acquitted of the charge of attempting to kill Major Alfred Dreyfus at the Pantheon in this city last June.

During the ceremonies at the Pantheon in connection with the canonization of Emile Zola, Gregori fired two revolver shots at Dreyfus. One wounded him in the wrist, while the other went wild. Gregori declared that he had shot at "Dreyfusism" in the person of the major as a protest against the participation of the army in the ceremonies.

SHOOT'S CHUTES IN AUTO.

Warren Stoneburn Performs an Unadvised Stunt. Warren L. Stoneburn, driving an Oldsmobile at Scarborough Beach last night, performed a daring feat when Stoneburn ran his machine onto the raft in the pond at the foot of the chutes. This was drawn to the foot of the incline and mounted this steep grade. The machine was turned at the top and then with Stoneburn at the wheel the big touring car dipped from the platform at the top and, a second later, in a smother of spray, which hid machine and driver, splashed into the shallow water.

Another auto hauled the performing car from the water. Broke Into Ferry Office. Robert Elliott, 261 Victoria-street, was arrested by P.C. McElroy last night, charged with breaking into the Toronto Ferry Company's ticket office at Bay-street slip Saturday last, when nothing of value was secured.

OBITUARY.

At Centre Island.—William Sinclair, former superintendent of the gas works, at Brandon, Man.—Randall Roberts, a first cousin of Earl Roberts. He was a pensioner and born in Ireland in 1835. At Rome.—Prof. Ludovic Seitz, director of the Vatican picture galleries. At Toulon.—Justin Clerke, the composer.

PRIZE ANIMALS PARADE FEATURE OF REVIEW DAY

Weather Was Not of the Best, But Rain Kept Off and Attendance Showed Increase.

CITIZENS' AND CHILDREN'S DAY

The tattoo bands will include the P.C. & Q.O.R. Royal Grenadiers, 4th Highlanders, Governor-General's Body Guard, 49th Battalion and Q.O.R. Bandmaster Timpon of the Q.O.R.

Altho rain appeared imminent most of the afternoon, Review and Fraternal Societies' Day at the fair was allowed to pass without any further display of hostility by the elements. With the exhibition nearing its close, the attendance fell off considerably as compared with earlier days of the week, but the grounds, nevertheless, presented an animated appearance from mid-day onward. About 40,000 people passed thru the gates, the number being in excess of that a year ago. For the first time since the fair opened the grand stand was not well filled, but receipts were nevertheless satisfactory. A slight fog pervaded the grounds during the evening. The most serious accident was that which befel a youth, William Codner of Turner-avenue, who while passing thru a horse stable was kicked in the abdomen by one of the animals, a black, which required stitching, being indicated.

There have been ten or twelve dog show visitors bitten by the animals, and some complaint is being made that the length of the animal gives the frisk canines too much liberty. They will probably be remedied next year. The building was closed yesterday. The exhibitors in the manufacturers' building have entered into a preliminary agreement with the management of the fair regarding the removal of the building to allow of a general shifting of the location of the fair. When they were first notified by Dr. Orr they were inclined to resent the proposed changes, as they have been established for five years. But it is now stated they have come to the conclusion that in fairness to all, a new arrangement should be worked out next year. The building that the interior of the building will present an entirely new appearance next year.

Madame la Blanche's Future. Madame la Blanche will never again attempt to perform the wire sliding act, which so nearly cost her her life. Manager Vance says he had a conversation with her yesterday afternoon, in which she admitted that she was thru with perilous wire stunts. Madame is an accomplished Spanish dancer, and intends to fall back upon this line of work. The health of the circus is believed to be in a fair way of recovery. The health of the circus is believed to be in a fair way of recovery.

Review of Live Stock. The parade of winning live stock and horses was the chief feature of the day. The prize animals were marched thru the eastern gate of the enclosure and in front of the grand stand, passing out by the west gate, around which a crowd of hundreds of interested spectators had gathered. In all about 300 animals had gathered. The general opinion on the high quality, from the ponderous Durhams to the elegant and in front of the grand stand, in the display of equines, from the substantial general purpose animal to the cleaner-lined driving horse. The procession took about 25 minutes to pass, and at its conclusion there was a general movement among exhibitors to the administrative building, where the prize cheques were handed, about \$30,000 being paid out.

A Jovial party of Cobalters saw the sights yesterday. The visitors included George Leyson, J. H. Hunter and John Martin, business men of the grand town, and M. J. Patterson, mining engineer, New York. Mr. Hunter gave opinion that in two years the people of Ontario would be drawing 20 per cent. on their money out of Cobalt mines, instead of getting bank interest.

Dr. Orr says that the receipts on Americans' Day were \$800 heavier than on the same day of 1907.

C. N. Cosgrave, manager of the

CORNS CURED

You can painlessly remove corns in 24 hours. You can't bleed, or apply any ointment, or use any of the old-fashioned remedies. Only of healing gums and balm. Fifty cents per bottle. Refuse substitutes.

POTTS' PAINLESS CORN EXTRACTOR

This is the only corn extractor in the world. It is the only one that is painless. It is the only one that is guaranteed to cure corns in 24 hours.

PARCEL "E." All and singular, that certain parcel or tract of land and premises situate, lying and being in the unincorporated Village of Atwood, in the County of Perth, and Province of Ontario, being composed of 20 acres, more or less, situate in the sub-division of Park Lot Number Seven (7), in Fuller & Watson's survey of the east half of Lot Number Fifteen (15), Concession 8, in the Township of Elma, containing by admeasurement four-fifths of an acre, more or less, and described as follows: To commence at a point on the north boundary of John-street and the south boundary of said Lot 15, distant 20 feet from the southeast angle of said Lot 15; thence north 60 degrees 31 minutes west, 250.9-10 feet, more or less; thence north 20 degrees 22 minutes west, 140 feet; thence south 60 degrees 31 minutes east, 250.9-10 feet, to a post; thence south 29 degrees 22 minutes west, 140 feet, to the beginning. Together with the right to use the westerly wall of the cement sash door factory, situate on the east side of the parcel, as at present used, so and as the office, boiler-room and door and sash factory, situate on the east side of the parcel is erected a mill designed as a flour and grit mill, 4 stories in height, with a capacity of 100 barrels of flour per day, and a sash door factory, with a capacity of 100 sash doors per day, and a sash door factory, with a capacity of 100 sash doors per day.

PARCEL "F." All and singular, that certain parcel or tract of land and premises situate, lying and being in the unincorporated Village of Atwood, in the County of Perth, and Province of Ontario, being composed of 20 acres, more or less, situate in the sub-division of Park Lot Number Seven (7), in Fuller & Watson's survey of the east half of Lot Number Fifteen (15), Concession 8, in the Township of Elma, containing by admeasurement four-fifths of an acre, more or less, and described as follows: To commence at a point on the north boundary of John-street and the south boundary of said Lot 15, distant 20 feet from the southeast angle of said Lot 15; thence north 60 degrees 31 minutes west, 250.9-10 feet, more or less; thence north 20 degrees 22 minutes west, 140 feet; thence south 60 degrees 31 minutes east, 250.9-10 feet, to a post; thence south 29 degrees 22 minutes west, 140 feet, to the beginning. Together with the right to use the westerly wall of the cement sash door factory, situate on the east side of the parcel, as at present used, so and as the office, boiler-room and door and sash factory, situate on the east side of the parcel is erected a mill designed as a flour and grit mill, 4 stories in height, with a capacity of 100 barrels of flour per day, and a sash door factory, with a capacity of 100 sash doors per day, and a sash door factory, with a capacity of 100 sash doors per day.

PARCEL "G." All and singular, that certain parcel or tract of land and premises situate, lying and being in the unincorporated Village of Atwood, in the County of Perth, and Province of Ontario, being composed of 20 acres, more or less, situate in the sub-division of Park Lot Number Seven (7), in Fuller & Watson's survey of the east half of Lot Number Fifteen (15), Concession 8, in the Township of Elma, containing by admeasurement four-fifths of an acre, more or less, and described as follows: To commence at a point on the north boundary of John-street and the south boundary of said Lot 15, distant 20 feet from the southeast angle of said Lot 15; thence north 60 degrees 31 minutes west, 250.9-10 feet, more or less; thence north 20 degrees 22 minutes west, 140 feet; thence south 60 degrees 31 minutes east, 250.9-10 feet, to a post; thence south 29 degrees 22 minutes west, 140 feet, to the beginning. Together with the right to use the westerly wall of the cement sash door factory, situate on the east side of the parcel, as at present used, so and as the office, boiler-room and door and sash factory, situate on the east side of the parcel is erected a mill designed as a flour and grit mill, 4 stories in height, with a capacity of 100 barrels of flour per day, and a sash door factory, with a capacity of 100 sash doors per day, and a sash door factory, with a capacity of 100 sash doors per day.

PARCEL "H." All and singular, that certain parcel or tract of land and premises situate, lying and being in the unincorporated Village of Atwood, in the County of Perth, and Province of Ontario, being composed of 20 acres, more or less, situate in the sub-division of Park Lot Number Seven (7), in Fuller & Watson's survey of the east half of Lot Number Fifteen (15), Concession 8, in the Township of Elma, containing by admeasurement four-fifths of an acre, more or less, and described as follows: To commence at a point on the north boundary of John-street and the south boundary of said Lot 15, distant 20 feet from the southeast angle of said Lot 15; thence north 60 degrees 31 minutes west, 250.9-10 feet, more or less; thence north 20 degrees 22 minutes west, 140 feet; thence south 60 degrees 31 minutes east, 250.9-10 feet, to a post; thence south 29 degrees 22 minutes west, 140 feet, to the beginning. Together with the right to use the westerly wall of the cement sash door factory, situate on the east side of the parcel, as at present used, so and as the office, boiler-room and door and sash factory, situate on the east side of the parcel is erected a mill designed as a flour and grit mill, 4 stories in height, with a capacity of 100 barrels of flour per day, and a sash door factory, with a capacity of 100 sash doors per day, and a sash door factory, with a capacity of 100 sash doors per day.

PARCEL "I." All and singular, that certain parcel or tract of land and premises situate, lying and being in the unincorporated Village of Atwood, in the County of Perth, and Province of Ontario, being composed of 20 acres, more or less, situate in the sub-division of Park Lot Number Seven (7), in Fuller & Watson's survey of the east half of Lot Number Fifteen (15), Concession 8, in the Township of Elma, containing by admeasurement four-fifths of an acre, more or less, and described as follows: To commence at a point on the north boundary of John-street and the south boundary of said Lot 15, distant 20 feet from the southeast angle of said Lot 15; thence north 60 degrees 31 minutes west, 250.9-10 feet, more or less; thence north 20 degrees 22 minutes west, 140 feet; thence south 60 degrees 31 minutes east, 250.9-10 feet, to a post; thence south 29 degrees 22 minutes west, 140 feet, to the beginning. Together with the right to use the westerly wall of the cement sash door factory, situate on the east side of the parcel, as at present used, so and as the office, boiler-room and door and sash factory, situate on the east side of the parcel is erected a mill designed as a flour and grit mill, 4 stories in height, with a capacity of 100 barrels of flour per day, and a sash door factory, with a capacity of 100 sash doors per day, and a sash door factory, with a capacity of 100 sash doors per day.

PARCEL "J." All and singular, that certain parcel or tract of land and premises situate, lying and being in the unincorporated Village of Atwood, in the County of Perth, and Province of Ontario, being composed of 20 acres, more or less, situate in the sub-division of Park Lot Number Seven (7), in Fuller & Watson's survey of the east half of Lot Number Fifteen (15), Concession 8, in the Township of Elma, containing by admeasurement four-fifths of an acre, more or less, and described as follows: To commence at a point on the north boundary of John-street and the south boundary of said Lot 15, distant 20 feet from the southeast angle of said Lot 15; thence north 60 degrees 31 minutes west, 250.9-10 feet, more or less; thence north 20 degrees 22 minutes west, 140 feet; thence south 60 degrees 31 minutes east, 250.9-10 feet, to a post; thence south 29 degrees 22 minutes west, 140 feet, to the beginning. Together with the right to use the westerly wall of the cement sash door factory, situate on the east side of the parcel, as at present used, so and as the office, boiler-room and door and sash factory, situate on the east side of the parcel is erected a mill designed as a flour and grit mill, 4 stories in height, with a capacity of 100 barrels of flour per day, and a sash door factory, with a capacity of 100 sash doors per day, and a sash door factory, with a capacity of 100 sash doors per day.

PARCEL "K." All and singular, that certain parcel or tract of land and premises situate, lying and being in the unincorporated Village of Atwood, in the County of Perth, and Province of Ontario, being composed of 20 acres, more or less, situate in the sub-division of Park Lot Number Seven (7), in Fuller & Watson's survey of the east half of Lot Number Fifteen (15), Concession 8, in the Township of Elma, containing by admeasurement four-fifths of an acre, more or less, and described as follows: To commence at a point on the north boundary of John-street and the south boundary of said Lot 15, distant 20 feet from the southeast angle of said Lot 15; thence north 60 degrees 31 minutes west, 250.9-10 feet, more or less; thence north 20 degrees 22 minutes west, 140 feet; thence south 60 degrees 31 minutes east, 250.9-10 feet, to a post; thence south 29 degrees 22 minutes west, 140 feet, to the beginning. Together with the right to use the westerly wall of the cement sash door factory, situate on the east side of the parcel, as at present used, so and as the office, boiler-room and door and sash factory, situate on the east side of the parcel is erected a mill designed as a flour and grit mill, 4 stories in height, with a capacity of 100 barrels of flour per day, and a sash door factory, with a capacity of 100 sash doors per day, and a sash door factory, with a capacity of 100 sash doors per day.

PARCEL "L." All and singular, that certain parcel or tract of land and premises situate, lying and being in the unincorporated Village of Atwood, in the County of Perth, and Province of Ontario, being composed of 20 acres, more or less, situate in the sub-division of Park Lot Number Seven (7), in Fuller & Watson's survey of the east half of Lot Number Fifteen (15), Concession 8, in the Township of Elma, containing by admeasurement four-fifths of an acre, more or less, and described as follows: To commence at a point on the north boundary of John-street and the south boundary of said Lot 15, distant 20 feet from the southeast angle of said Lot 15; thence north 60 degrees 31 minutes west, 250.9-10 feet, more or less; thence north 20 degrees 22 minutes west, 140 feet; thence south 60 degrees 31 minutes east, 250.9-10 feet, to a post; thence south 29 degrees 22 minutes west, 140 feet, to the beginning. Together with the right to use the westerly wall of the cement sash door factory, situate on the east side of the parcel, as at present used, so and as the office, boiler-room and door and sash factory, situate on the east side of the parcel is erected a mill designed as a flour and grit mill, 4 stories in height, with a capacity of 100 barrels of flour per day, and a sash door factory, with a capacity of 100 sash doors per day, and a sash door factory, with a capacity of 100 sash doors per day.

PARCEL "M." All and singular, that certain parcel or tract of land and premises situate, lying and being in the unincorporated Village of Atwood, in the County of Perth, and Province of Ontario, being composed of 20 acres, more or less, situate in the sub-division of Park Lot Number Seven (7), in Fuller & Watson's survey of the east half of Lot Number Fifteen (15), Concession 8, in the Township of Elma, containing by admeasurement four-fifths of an acre, more or less, and described as follows: To commence at a point on the north boundary of John-street and the south boundary of said Lot 15, distant 20 feet from the southeast angle of said Lot 15; thence north 60 degrees 31 minutes west, 250.9-10 feet, more or less; thence north 20 degrees 22 minutes west, 140 feet; thence south 60 degrees 31 minutes east, 250.9-10 feet, to a post; thence south 29 degrees 22 minutes west, 140 feet, to the beginning. Together with the right to use the westerly wall of the cement sash door factory, situate on the east side of the parcel, as at present used, so and as the office, boiler-room and door and sash factory, situate on the east side of the parcel is erected a mill designed as a flour and grit mill, 4 stories in height, with a capacity of 100 barrels of flour per day, and a sash door factory, with a capacity of 100 sash doors per day, and a sash door factory, with a capacity of 100 sash doors per day.

PARCEL "N." All and singular, that certain parcel or tract of land and premises situate, lying and being in the unincorporated Village of Atwood, in the County of Perth, and Province of Ontario, being composed of 20 acres, more or less, situate in the sub-division of Park Lot Number Seven (7), in Fuller & Watson's survey of the east half of Lot Number Fifteen (15), Concession 8, in the Township of Elma, containing by admeasurement four-fifths of an acre, more or less, and described as follows: To commence at a point on the north boundary of John-street and the south boundary of said Lot 15, distant 20 feet from the southeast angle of said Lot 15; thence north 60 degrees 31 minutes west, 250.9-10 feet, more or less; thence north 20 degrees 22 minutes west, 140 feet; thence south 60 degrees 31 minutes east, 250.9-10 feet, to a post; thence south 29 degrees 22 minutes west, 140 feet, to the beginning. Together with the right to use the westerly wall of the cement sash door factory, situate on the east side of the parcel, as at present used, so and as the office, boiler-room and door and sash factory, situate on the east side of the parcel is erected a mill designed as a flour and grit mill, 4 stories in height, with a capacity of 100 barrels of flour per day, and a sash door factory, with a capacity of 100 sash doors per day, and a sash door factory, with a capacity of 100 sash doors per day.

PARCEL "O." All and singular, that certain parcel or tract of land and premises situate, lying and being in the unincorporated Village of Atwood, in the County of Perth, and Province of Ontario, being composed of 20 acres, more or less, situate in the sub-division of Park Lot Number Seven (7), in Fuller & Watson's survey of the east half of Lot Number Fifteen (15), Concession 8, in the Township of Elma, containing by admeasurement four-fifths of an acre, more or less, and described as follows: To commence at a point on the north boundary of John-street and the south boundary of said Lot 15, distant 20 feet from the southeast angle of said Lot 15; thence north 60 degrees 31 minutes west, 250.9-10 feet, more or less; thence north 20 degrees 22 minutes west, 140 feet; thence south 60 degrees 31 minutes east, 250.9-10 feet, to a post; thence south 29 degrees 22 minutes west, 140 feet, to the beginning. Together with the right to use the westerly wall of the cement sash door factory, situate on the east side of the parcel, as at present used, so and as the office, boiler-room and door and sash factory, situate on the east side of the parcel is erected a mill designed as a flour and grit mill, 4 stories in height, with a capacity of 100 barrels of flour per day, and a sash door factory, with a capacity of 100 sash doors per day, and a sash door factory, with a capacity of 100 sash doors per day.

PARCEL "P." All and singular, that certain parcel or tract of land and premises situate, lying and being in the unincorporated Village of Atwood, in the County of Perth, and Province of Ontario, being composed of 20 acres, more or less, situate in the sub-division of Park Lot Number Seven (7), in Fuller & Watson's survey of the east half of Lot Number Fifteen (15), Concession 8, in the Township of Elma, containing by admeasurement four-fifths of an acre, more or less, and described as follows: To commence at a point on the north boundary of John-street and

Baseball Royals Turn Tables Westmount Lacrosse Nationals Play Cornwall To-Day

NOTE AND COMMENT

Reports from Montreal are to the effect that the Nationals will surely win Cornwall to-day, and the Tecumseh would be champions without further ado.

Meanwhile the Toronto Baseball Club can still win and lose as they did in the season, especially the latter, and the best thing that can be said now is that Monday, Tuesday and Wednesday will close them out as far as home games are concerned.

The cricket championship season of England was concluded on Aug. 30 when six first-class counties concluded their program.

It was the same day that the Quakers wound up in England when they went to Kent by 4 wickets, completely eclipsing in their second innings when Wisden bowled six wickets for 12 runs, and the tourists were all out for 8.

The English county record at the close of the season is as follows: Yorkshire 28, Lancashire 25, Surrey 23, Middlesex 22, Sussex 21, Gloucestershire 18, Warwickshire 18, Hampshire 17, Leicestershire 16, Derbyshire 15, Nottinghamshire 14, Somerset 13.

One week from to-day, that is to say, Saturday, Sept. 16, the favorite citizen of Toronto will be in the city to open a short season of seven days at Woodbine Park.

Rosen, once the greatest sprinter in America, has probably run his last race. This champion among champions stepped up to some of his racing days at the Stakes at the Sheepshead Bay track Thursday that his trainer, Fred Jones, had thought his charge was fit for racing purposes.

Table with columns: Club, Won, Lost, Pts. Rows include Baltimore, Providence, Buffalo, Montreal, Jersey City, Rochester, Toronto, and Eastern League Record.

Baltimore 5, Providence 2. BALTIMORE, Sept. 11.—(Special)—Baltimore had little trouble in defeating Providence here today by 2 to 1.

Table with columns: Club, Won, Lost, Pts. Rows include Providence, Buffalo, Montreal, Jersey City, Rochester, Toronto, and Eastern League Record.

Reynolds Will Try Again. DORR HOPE, Sept. 11.—(Special)—DORR HOPE, the famous walking barefoot, will walk to Toronto and return on Monday, the 14th, in an attempt to do the journey in 33 hours.

The Well Known Tailor. Is Located at 249 Yonge St. He has been engaged to clear out the bankrupt stock of A. H. Lougheed & Co. and will appreciate a visit from his old customers.

TORONTO DRIVING CLUB. 3 Races-3 TO-DAY AT DUFFERIN PARK. ADMISSION 25c. Ladies Free.

Two Four-Sackers Score 6 Runs Corcoran's Drive Longest Yet

Baltimore Again Defeats Providence and Increases Lead—Bisons Beat Bronchos—Rain Knocked Game at Jersey City.

Those Caseyites not only turned the tables on the Leafs yesterday, but applied a coat of kalsomine, with Bumpus Jones using the brush. So bewildering were his benders that only three Leafs connected, and then only once.

The fielding of Bill Phyth around second, and a shoe-string catch by O'Neil, were some of the features outside the extra base-hitting by Evans and Corcoran.

However, the Royals unhooked a few in the eighth, Jones and Evans striding with Doc Casey on the bench. O'Neil popped a Texas over short that Wiedy Keenan hit for between them, and with the bases filled, Vandy called for a high-walker, as the squeeze play was expected.

Home runs—Evans, Corcoran. Two base hits—Schaffy. Sacrifices—Clark, Keenan. Stolen bases—Casey. Struck outs—E. Jones 10, by Moffitt 6. Bases on balls—Off E. Jones 4, by Moffitt 2. Umpires—Black and Wilkinson.

PRETTY RACE IN AMERICAN. CAN'T STOP THE GIANTS.

At Cleveland—Cleveland made it three out of four from St. Louis to-day by the score of 4 to 1. Jones kept St. Louis puzzled and would have shut the visitors out but for Lajoie's miff of Ferris low liner.

At Detroit—Chicago beat Detroit today by scoring two runs in the eleventh. Game was tied in the eighth on doubles by Crawford and Rosman, and won in the eleventh in singles by P. Jones and Howell.

At St. Louis—St. Louis lost the second game to Chicago by the score of 8 to 3. Pleister held the slab and Salles hit for the bases.

At Washington, first game—R.H.E. Washington 2, Philadelphia 3. Philadelphia won by the score of 3 to 2. Pleister held the slab and Salles hit for the bases.

At St. Louis—St. Louis lost the second game to Chicago by the score of 8 to 3. Pleister held the slab and Salles hit for the bases.

At St. Louis—St. Louis lost the second game to Chicago by the score of 8 to 3. Pleister held the slab and Salles hit for the bases.

ceipt of their copy.

BUFFETED ALL AROUND.
The power policy of Sir James Whit-
ney's government has one or more weak
spots which ought to be rectified im-
mediately. For instance, no great public
policy of the government should be
subject to the whims of municipalities,

in Britain affirms that a measure of
protection for home industries would
render the country free from periods
of trade depression, but still such ob-
ject lessons as British working men
are now receiving will have their in-
fluence on the course of political af-
fairs. And there is little doubt that
the demand for work will be intensi-
fied by the passing of the old age pen-
sion act. The principle underlying this
measure is just that a man who has
given his labor during the years of his
capability has a right to be main-
tained when his capacity to work no
longer remains. There will be an ir-
resistible tendency on the part of the
worker to draw the corollary that
when he is able and willing to earn
his bread, work of some kind or an-
other should be found for him. Cer-
tainly the unemployed of the United
Kingdom will not be put off by a de-
precatory reference to the necessary
effect of a condition where there are
more men and women prepared to sell
their labor than there are employers
ready to buy it. That thoro' capitalis-
tic identification of the worker with
the products of his toil is but cold
comfort to those who want to keep
body and soul together.

No city has done more to alleviate
the distress arising from unemploy-
ment than Glasgow and nowhere are
the conditions more alarming. Dur-
ing the proceedings of the government
committee appointed to enquire into
physical deterioration amongst the
working class General Sir T. Maurice
testified that in many ways the con-
ditions of existence of the great mass
of the population of Glasgow were per-
haps worse than in any other town
in the British Isles; and this because
there was a more serious effort made
to combat these evils in Glasgow than
elsewhere. This statement was fully
borne out by Dr. Chalmers, the medi-
cal officer of health. The key to the
anomaly, in the words of a member
of the Glasgow Workers' Unemployed
Committee, lies in the fact that the
very efforts made by the city to re-
lieve its destitute inhabitants are at-
tracting a similar class of people from
outside. Local authorities, however en-
terprising, are thus unable to do more
than grapple with the fringe of the
problem which in the opinion of the
best authorities is becoming more in-
tensified every year. It is becoming
steadily clearer that the unemployed
question cannot be properly met local-
ly. The problem has become national
and must be dealt with by parliament.
In this connection the cause of un-
employment is of importance and the
last annual report of the Glasgow com-
mittee showed that on analyzing the
returns given by employers no less
than 82 per cent. were discharged
returning to dull trade, reduction of staff,
etc., while only 4 per cent. were dis-
charged for dishonesty or laziness. This

THE UNEMPLOYED IN GLASGOW.
According to the delegation from the
unemployed of Glasgow that waited
on the city council with a demand
for work, never before has there been
such distress in the great Scottish city.
The basis of their appeal was the
claim that "every human being is en-
titled to food," a proposition not very
acceptable to the school of political
economists that class labor with such
other soulless commodities as are
subject to the inexorable law of supply
and demand. Looking to the conditions
admittedly prevalent in the birthplace
and home of free trade it does not
appear that this universal panacea for
social ills and provider of cheap food
and other necessities of life is of much
account in the presence of thousands
of workers who have not the wherewithal
to buy what they need to avoid
starvation. How will their apprecia-
tion of its benefits be heightened when
they hear of the surplus products of
protected foreign countries being
dumped on the home market at slaugh-
ter prices and know that this means
far less custom for British em-
ployers.

No sensible advocate of tariff reform

Illustrates the point that in many
deserving cases it was admittedly im-
possible out of the wages earned to
make provision for old age, sickness,
or loss of employment. And when the
state has intervened to provide for
old age it is impossible to prevent a
demand that it will also deal with the
question of unemployment.

WHEAT'S IN A NAME?
Most people possessed of ordinary
common sense and therefore free from
the prejudice born of fanaticism would
be prepared to welcome a beverage
brewed from malt and hops, yet free
from the intoxicating elements hitherto
present in beer or lager. Indeed
it would naturally be presumed that
if the public had hitherto been con-
suming the noxious liquors could
be induced to prefer the innocuous
fluids a notable advance would be
achieved absolutely in accordance with
the object of temperance endeavor. But
it appears that there are hyper-sensi-
tive souls to whom the names lager
and beer are so antipathetic as to be
a cause of offence in themselves. It
is questionable policy, we are gravely
told, to allow the sale on the premises
of a great educational and industrial
fair of beverages bearing names usu-
ally associated with the licensed bar.
Such names, it is affirmed, have an
unpleasant sound to thousands of vi-
sitors from sections in which prohibi-
tion sentiment is exceptionally strong,
and the haunting of these is scarcely
calculated to popularize the show with
visitors from the sections in question.
And, it is concluded, the exhibition
director would be well advised in
excluding for the future from the re-
freshment booths on the grounds any
thing which carries with it even the
shadow of offence.

This reasoning does not carry con-
viction. Indeed, from a temperance
point of view the weight of argument
appears to be entirely the other way.
Assuming that the alcoholic habit
grows with what it feeds on, as its
opponents are prone to contend, it
would surely be good and advanta-
geous to have its victims educated into
preferring a beer or a lager properly
classified as non-alcoholic. As far as
the argument goes it means that if the
lagers and beers in question were call-
ed by any other names they would
be free from challenge, but because
of the names adopted they ought to
be anathema to the exhibition authori-
ties. It is wonderful to what extremes
fanatical sentiment will go and what
rocks of offence can be manufac-
tured out of shadows. And this per-
petual regulation in non-essential con-
cerns is bad in itself and far more
likely to injure than assist the cause
of temperance. There would be reason
in objecting to a so-called temperance
beverage on account of its al-
coholic nature and quality, but why
an otherwise unobjectionable drink
should be tabooed because it is what
it professes to be, with the alcoholic
quality reduced to well within the
legal limits, is not quite understandable.
To the minds of those reformers more
concerned with facts than words the
production and sale of a temperance
beer should be encouraged in all legiti-
mate ways.

THE TECHNICAL SCHOOL.
Toronto News: The establishment of
an efficient system of technical educa-
tion is one of the most pressing prob-
lems with which Canadians have to
deal, but its solution will not be facili-
tated by a plunge into extravagance at
the outset.
Stewards Sold Whiskey.
ST. CATHARINES, Sept. 11.—Magis-
trate Campbell heard the evidence this
forenoon in the case against the St.
Catharines Country Club, charged by
License Inspector King with violating
the liquor license act. Mrs. Clarke,
stewardess, against whom action was
also entered, swore to having dispensed
whiskey and beer at the club house,
and received money for the same. She
had also ordered liquor when request-
ed by members to do so. Judgment
was reserved until to-morrow morn-
ing.

Little Prices for Organs.
One can buy an organ of almost any
first-class manufacturer from the old
firm of Heintzman & Co., 115-117 West
King-street, Toronto, for a mere trifling
sum, \$25, \$45 or \$50. The firm take these
in exchange when selling their pianos;
otherwise such prices could never pre-
vail. Pay a trifle cash and a small
amount each month and you can own
an organ.

Low Rates to Western Fair.
London and return \$2.40, good going
Sept. 12, 13, 14, 15 and 16; \$2.55, good
going Sept. 15 and 17 only, by Canadian
Pacific direct line and fast trains. All
tickets good to return until Sept. 25th.
Apply at C.P.R. ticket office.

The Toronto Railway Company want
the city to pave the roadway in front
of their property in Scollard-street with
brick instead of asphalt.

BOAT HOUSE IN A BLAZE
MANY LAUNCHES BURNED

Firemen Have to Get Out in Small
Boats to Get at the
Flames.

Joseph F. Passmore, 861 East Ger-
ard-street, was drowned and about
\$20,000 damage done to property in a
fire which broke out at E. Housey's
boathouse at the Queen's Wharf, foot
of Bathurst-street at 2:15 yesterday
morning. Forty launches, boats and
canoes were destroyed, including the
fleet of the Toronto Motor Boat Club.
Their losses are: S. W. Howard, \$2000,
no insurance; P. C. J. Joka, \$900; Capt.
Beattie, \$1200; Arthur Blight, \$1200; A.
Peacy, Shaw-street, \$1600; insurance
\$1000; W. Hart, \$1200; S.
A. Sylvester, \$900; W. A. Walk-
er, \$1600, insurance \$800; F. R. Cald-
well, \$600, insurance \$575; A. L. Ayles-
worth, \$1500; insurance \$200; W. W.
McMunnis, \$500; W. Gardner, \$1500;
George Knapp, canoes and rowboat,
\$150; H. Hooper, and M. Mowry, \$700,
insurance \$400.

Among those who set to work to re-
scue launches was Joseph Passmore.
He owned a launch which he kept at
the Housey boathouse. Passmore fell
into the water, and when taken out
ten minutes later efforts to restore
consciousness failed.
Housey, his loss at \$18,000,
with insurance of \$8000. He says that
there was no gasoline in the place
except what was in the boats. He
left the boathouse at about 11 o'clock.
The firemen had a pretty lively time
of it and once again the absolute ne-
cessity of a proper fire boat was strik-
ingly shown. The Nolle Ely didn't
show up and the firemen had to get
out in small boats and handle the
"boss" as best they could. The boat-
house was all in a blaze even before
the alarm was turned in and with a
brisk wind blowing there would surely
have been an extensive fire. Some
delay was caused by a lay of hose
bursting at the engine.

However the men worked well and
did especially good service in prevent-
ing the spread of the flames to the Con-
nell Coal Co. sheds and storerooms.
Hundreds of thousands of dollars'
worth of property lies along the water-
front. A conflagration can start on
a windy night from even a small blaze.
Sixty thousand dollars invested in
a proper fire boat is an expenditure
which Chairman McBride of the
and light committee would gladly re-
commend if he thought the city would
stand for the expense. And yet the
city is paying several hundreds of dol-
lars a year for a fireboat service that
seems to amount to practically nothing.

FOUND MURDERED.

Woman Strangled and Her Husband is
Missing.

NEW YORK, Sept. 11.—Evidence of
a murder was revealed to-day when
the body of Mrs. Anna Maura, 22 years
old, the wife of an employee of one of
the traction companies, was found
floating in her apartment at 317 East
45th-street. The woman had been re-
ndered unconscious by a blow on the
head, strangled with a long automobile
tire and her hands tied to her waist
by another veil.

ENDS LIFE WITH ACID.

At 65, Wm. McTaggart Was Unable to
Keep Going.
William McTaggart, 65 years old, was
found dead in the Old Fort grounds
just west of the signal station at noon
yesterday. James Fisher, caretaker of
the grounds. He had taken carbolic
acid, and his lips were severely burned.
In an unfinished letter to his sister,
Ellen, he asked for money, and said
that he had been without work for a
long time.

He was a Master Mason of the Grand
Lodge of Scotland, No. 177, and a member
of the International Sailors' and
Firemen's Union.

AT OSGOODE HALL

Single Court.
Before Justice Anglin.
The Metallic Ring. Co. v. Jose.
R. H. Parmenter for plaintiffs moved
on written consent for amendment of
proceedings. Order amending proceed-
ings by striking out W. C. Braks as
party defendant without prejudice to
proceedings had and taken. No costs.
Dennis LeLanc is suing the Mus-
koka Navigation and Hotel Co. for
unpaid damages for alleged neglig-
ence resulting in the death of Miss
Norah LeLanc at Muskoka, Wharf.

For Restitution or for Ball?
Abraham Garskowitz, charged with
theft of \$200 from Louis Rotstein,
Chestnut-street, and brought from
England to answer the charge, plead-
ed guilty on being arraigned in police
court weeks ago. A fresh charge of
fraud has now been laid.
Yesterday morning his counsel, J. W.
Curry, K.C., in police court withdrew
the plea of guilty and entered one of
not guilty.
At the time of Garskowitz's first ar-
raignment \$300 was handed Crown At-
torney Curry, which he contended was
for restitution; while Mr. Curry con-
tends that this sum was for ball and
should be returnable.

WANTS DIVORCE.
OTTAWA, Sept. 11.—(Special).—Jno.
Hagood of Sutton West is suing for
a divorce from his wife.
Mrs. C. H. Keller of Toronto seeks
a divorce from her husband, who is
now living in Detroit.
Italian Stabbing Affair.
HARRISBURG, Sept. 11.—An Italian
quarrel took place last night between
two section men of the Grand Trunk
at Harrisburg. An Italian named Ga-
lillo Puno put a torpedo on the rail
and the train ran over it. Sug Vetro,
a big strong Italian, told him not to
do so and cuffed him. Galillo Puno
drew his stiletto and slipped up be-
hind Vetro and plunged it into his
back, striking his vertebrae, inflict-
ing a nasty wound of about one inch
deep and two inches long. Doctor Reed
of St. George was called and dressed
the wound, putting in three stitches.

TWO YEARS FOR YOUNG SNOW
FOR BREAK FROM THE JAIL
Two years in the Central Prison was
the sentence meted out to Robert Snow,
16 years old, the youngest of the seven
jail-breakers.
Snow laughed when an additional
charge of stealing a set of harness fell
thru, but burst into tears when sent-
enced.

JOHN CATTO & SON

55-57-59-61 King Street East (Opposite the Post Office) TORONTO.

THE SALOME PESTILENCE.

We are having a Salome epidemic. Half-dressed women in all the variety theatres are doing the dance of seven veils and joyfully receiving a human head (in papier mache) on a platter. The cartoonists have taken up the daughter of Herodias and the nearly bare young woman and her wicket ways are more or less familiar to the children throughout the country. The spectacular, theatrical Salome has invaded our homes.

Second-Hand Bicycles AT REDUCED PRICES.

Pumps, Lamps, Bells, Sires and Saddles.

THE WEATHER

METEOROLOGICAL OFFICE, Toronto, Sept. 11, 10 p.m.—The barometer continues high, with fine weather, light winds and high temperature throughout the Dominion. Temperatures of 84 and 86 were recorded to-day in Hamilton and from 85 to 90 in the southwestern counties of Ontario.

THE BAROMETER.

Time	Ther.	Bar.	Wind.
8 a.m.	81	29.76	4 S.W.
10 a.m.	81	29.76	4 S.W.
2 p.m.	81	29.73	6 S.W.
4 p.m.	82	29.73	6 S.W.
8 p.m.	82	29.73	6 S.W.

THE WEATHER.

Anybody who has his eye on the weather these days could have told you the outlook yesterday morning that it was to be a "regular warm un" that day. There was a haze hanging over the landscape, and the sun went at his work as if he'd been up late the day before; his face was red and somewhat swollen. But the haze was a delicious coolness, like the ice cream in an ice cream soda. It was pretty nice up till noon, then it got HOT, but the haze hung around all day like a mantle of sorrow. That haze means something to us people—bush fires, loss of money to somebody, and this lack of rain means something, too; a lessened root crop and perhaps an epidemic of sickness in certain quarters. We are getting a little badly—but the weather man says "fine and warm" for to-day.

Autonola

BUSY MEN NEED HOME ENJOYMENT

Provides That Enjoyment for You

The mere fact that with the Bell Autonola it is possible for anyone to play artistically and well all classes of music is sufficient reason why there should be one in every home where there are lovers of music, all of whom cannot play for themselves.

THIS instrument is TWO PIANOS IN ONE; it can be played by hand in the usual way, or by foot, and can be played by any non-player with the aid of music-roll and treadles.

We can take your present piano in part payment and will arrange if desired easy monthly payments for the balance.

Bell Piano Warerooms 146 Yonge St.

EXHIBITION NOTES

Continued From Page 2.

streets. The firm nave for sale the largest stock of harness, carriages and all kinds of harness offered by any firm in Canada, and owing to the large business transacted they are enabled to sell at the lowest prices. There is nothing in the line of horses and vehicles which is not carried in stock.

Is Palmsistry a Scientific Truth?

Does not a palmist tell us that God placed certain lines in the hands of man that his destiny could be read by those lines? Now call it palmistry, or palmistry, or palmistry, and be convinced that there is no mystery in the lives of man that cannot be unrolled by her wonderful character readings.

Blasting and Rubbing Machines.

Blasting or burning of veneered, solid or polished wooden surfaces is prevented by the variable speed and pressure of the rubber rollers. The company's machines, exhibited in machinery hall. A flaw can be sanded out without reducing the thickness of the edge.

The "Buffalo" Safe Popular.

The Buffalo safe is the most popular of the Buffalo safe. It is the most popular of the Buffalo safe. It is the most popular of the Buffalo safe.

Glasgowers' Tent.

Those citizens and citizens' children in Toronto who had not paid a visit to the O. H. Johns tent, had better hurry to it, for this is the last day of the fair and in all probability no other opportunity of watching the work of these skillful handers of glass will be provided in the city until next exhibition time, when the tent will be found occupying its old place in the line on the midway. This very fact alone is enough to commend the show to that critical class of people who are for ever fearful of being guided, even in such an event as this, by the average man, who does not know himself as the midway has proven itself to be this year.

The Successful Businessman.

To make a scene in the world—to attract the attention of the crowd!—Such has always been my ambition, but I can never realize it now. Here I am on a tickle on the cart on Park Road, but without a chance to realize them.

The Ravished Watermelon.

I am growing quite big now. You ought to see the handsome stripes that outline my figure.

Salary Paid During Illness.

Make provision against the monetary loss entailed through accident or illness by taking out a sickness and accident policy. The premium is small and the indemnity will cover the most protracted periods. All the chances covered in our policies. London Guarantee & Accident Co., corner Yonge and Richmond streets. STRIKEBREAKERS UP AGIN IT.

Will Have to Find Quarters in West Toronto.

WEST TORONTO, Sept. 11.

The strikebreakers who, for want of accommodation outside, have been provided with bed and board in the repair shop at the West Toronto C.P.R. yards, have been officially notified to clear out by the middle of this month, as the building is going to be utilized for engine and car repairing, as was the case before the strike began.

British United Road Race.

The British United A.C. held their first road race on the 10th inst. at 7:30 p.m. Thursday night, with 20 starters. The distance was about 4 1/2 miles, and the first man to break in each of the races was 25 minutes 40 seconds, who won the special silver medal put up by the club; H. Field second, 28 min.; Clark third, 29 min. 5 sec.; W. Turley fourth, 30 min. 20 sec. The sealed handicap was won by P. Latton, with 4 1/2 minutes handicap; T. Madocks second, 3 min.; W. Turley third, 3 min. 30 sec.

British United Road Race.

The winner, W. Jones, looks like a corner, and needs watching in the coming Marathon races, for which he is in active training. The prizes will be given at their first social Saturday evening at 8 p.m. All members are requested to attend and bring their lady friends. All are welcome.

Symbols in Olden Times.

In olden times there was a sign representing a hare and three women. This device was supposed to indicate that trade in the shop was performed with swift and great care forness.

Latest Cause For Divorce.

Because her husband won't dye his hair to suit her new furniture, a Parisian dame demands a divorce. Wants him to blend in with his artistic surroundings, as it were.

The World's Water Power.

Summarizing the world's water powers, a French authority finds a total of 11,000,000 horse power available for Russia, 4,500,000 for France, 4,500,000 for Italy, 1,000,000 for Japan, 800,000 for Norway, 750,000 for Sweden, 700,000 for Germany, and an undetermined horse power for other countries. For the United States, 1,500,000 horse power is credited as available. France already uses 800,000 horse power, Norway, a large part of its total, Switzerland, 500,000, Germany, 100,000, Russia, 50,000, Great Britain, 30,000, Japan, 20,000, India, 50,000 and Italy 20,000.

WORD TO ISLANDERS.

Editor World: Could we ask the Toronto Humane Society, thru the medium of your paper, to make some special and speedy effort at this time of year, appealing to the island residents, when returning home, not to leave the poor cats, and often dogs, behind them.

Humane.

It is the same pitiful story every year, and if the owners, who return to their comfortable homes, could but see the condition of the emaciated poor creatures abandoned to a lingering death by starvation, it would be a more hearted person indeed who would vilify do this thing.

In Society. Prof. Dr. Landouzy, dean of the medical faculty of Paris, will probably arrive in Toronto on the 17th or 18th of this month. In addition to private instruction the Academy of Medicine is arranging to extend suitable hospitality.

Mr. and Mrs. Robert Wilson, Jarvis, William Metcalf, Owen Sound, Mr. and Mrs. C. T. Bennett, Warton, are the guests of Mrs. Walter Burnill, West-Queen-street.

Mr. and Mrs. Thomas Williamson, Emerson Williamson, St. Mary's, and Mrs. A. C. Williamson and child, London, are stopping at Mrs. C. W. Kerr's, West-Queen-street.

Mr. and Mrs. William Graham, Miss Mary Dossitt, and Frank Killean, Rochester, are the guests of Mrs. Pettiford, Northcote-avenue.

Miss Frankie Brooks, daughter of Rev. John H. Brooks, Omaha, Neb., is the guest of Governor Chambers.

The Sheffield Choir. The greatest undertaking that has yet been attempted in the cause of imperial music is the visit of the Sheffield Choir of England (230 members), who are coming across the Atlantic on a flying tour of Canada, consisting of twelve nights.

Getting Rid of Piano Players. Since the introduction of the Auto-piano, the wonderful combination play-piano made by the Bell Piano Company, a great number of people have parted with their cabinet players.

Magistrate Laughed Last. John Walsh was given 30 days for theft of a pair of boots in police court yesterday morning. John Walsh laughed and was given an additional 30 days.

AT THE THEATRES

One of the biggest hits scored on Broadway, New York, last season was made by Victor Moore, in Geo. M. Cohan's musical success, "The Talk of New York," which Messrs. Cohan and Harris will present for an engagement next week at the Princess Theatre.

connection with the cast is that John H. Hunting plays the role of Col. Ipswich Jones, superintendent of an insane asylum, and he has a daughter, Daisy Jones. In real life they are father and daughter, and, in fact, the Four Huntings are all members of one family. During the week the usual matinees will be given on Wednesday and Saturday.

Mildred Elaine and Ophelia Acree Supporting Victor Moore in a Scene From George M. Cohan's Musical Play, "The Talk of New York."

land, and, indeed, the finest choir in Western Europe."—Pall Mall Gazette. "The Sheffield Choir again was, beyond all words, wonderful."—The World.

SAVE THE CHILDREN.

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather months. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer.

At the Grand. The Four Huntings open an engagement at the Grand on Monday evening in the latest version of "The Pool House," a musical comedy that, which is different from other productions of a similar nature in that the chorus can actually dance.

At the Majestic. Chas. E. Blaney in speaking of his latest melodramatic effort, entitled "His Terrible Secret," which will be the offering at the Majestic next week, has this to say, of anger and the emotional effort necessary to properly portray the character of "Melmoth" in the above-named play.

Keeps Children Healthy

Many of the ailments of middle life are due to the slow accumulation of poisons in the system from Childhood up.

That is the one great reason why parents should teach their children to drink "MAGI" WATER

Magi will keep their bowels right and not only prevent many of the ills of childhood, but also many of the diseases that afflict age. Magi is very pleasant—and the purest water on earth.

Bottled at the Springs in sterilized pints and splits (sealed) and half-gallon bottles (still).

The Caledonia Springs Co., Limited Caledonia Springs, Ont. TORONTO DEPOT: 86 King St. W. Main 4390.

The distinguishing point in connection with the HEINTZMAN & CO. PIANO

The Grand Piano, selected by the Prince of Wales, Sir Louis Jette, Sir Mortimer Clark, Honorable Mr. Snowball, Honorable Mr. Parson, and many other distinguished citizens of the British Empire.

is that it has been made the choice of the world's greatest artists, and Canada's most distinguished citizens, not occasionally, but practically at all great functions and musical gatherings.

The latest to honor this great Canadian made piano—to-day the most distinguished piano made under the British flag—is the famous Sheffield Choir of Great Britain, which will leave shortly for Canada, to give a series of concerts in the leading cities of the Dominion. They will use only the Heintzman and Company piano in all their concerts.

"To think that I have travelled the world over and used the finest of pianos, then to reach Canada and discover the Heintzman & Co. Piano, a veritable Prince among pianos, compared with any I have ever used!"—DE FAUCHMANN.

Piano Salon of Ye Olde Firme of Heintzman and Company, Limited, 115-117 King Street West, Toronto, Canada.

tiful girls of the Gibson type have been chosen for the song and Gibson pictures. The special extra attraction that Manager Shea has provided for the company in Mr. Gillingswater's one-act comedy, "The Wrong Man."

"MELMOTH" at the Majestic.

In "His Terrible Secret" at the Majestic. Of the desert in their human pyramid building and in tumbling and acrobatic work have no superiors.

At the Gayety. With years of experience and the prestige of success behind him, it is considered among the foremost amusement caterers in the burlesque field, and as sole proprietor of the Trocadero Burlesques at the Gayety.

At the Alexandrian. Owing to the tremendous business and the great demand for seats the Imperial Opera Co. at the Royal Alexandrian will continue "Florodora," the greatest of all musical comedies, another week.

Both pieces will be under the personal direction of the author, Frank Finney, who is recognized as one of the cleverest Irish comedians in the burlesque business, having already made a reputation for himself as a writer and producer of musical farces and burlesques. He will be supported by such capable performers as Harry Buckley, Charles Madison and Frank Ross, and such handsome and accomplished burlesquers as Annie Hill, Lillian Waters, Minnie Burke and Tilton.

Henry Lee's Last Performance

Henry Lee and his wonderfully entertaining "Cyclo-Dramatic" will be given in Toronto for the last time to-night, at Massey Hall, at least for the novel entertainment. Mr. Lee has succeeded in introducing on something that has the stamp of originality.

At the Star. Nowhere in the entire burlesque world is there to be found such an aggregation of funmakers as will be found in "The Cherry Blossoms" at the ever-popular Star Theatre next week.

At the Gayety. With years of experience and the prestige of success behind him, it is considered among the foremost amusement caterers in the burlesque field, and as sole proprietor of the Trocadero Burlesques at the Gayety.

At the Gayety. With years of experience and the prestige of success behind him, it is considered among the foremost amusement caterers in the burlesque field, and as sole proprietor of the Trocadero Burlesques at the Gayety.

Mile Loubet's Last Leap

Mile Loubet, the sensational loop-the-loop performer, will conclude his engagement with a leap this afternoon and another one to-night. The big park itself is no indication of closing until the cold weather comes, and at to-day it will take the place of the exhibition as the chief amusement resort of the province.

ELECTRICAL METHOD OF PURIFYING WATER

Toronto's Attention Herewith Directed to Interesting Experiments at Pittsburgh.

The attention of The World was recently attracted by the interesting experiments being made for the purification of water by the electric ozone method.

President Wallace of the American Society of Civil Engineers conducted an investigation in reference to the electric production of atmospheric products adapted for water purification by Dr. Leon Girard the Belgian scientist.

In an instance of President Wallace's report on the adaptation of the latest electrical discoveries to the problem of the purification of water, a special plant has been installed at the Homeopathic Hospital in Pittsburgh.

The engineer who installed the plant writes: "The plant has been in operation six or eight weeks, is doing its work thoroughly and is practically automatic."

"Our pathologists have taken a number of bacteriological samples from the report to-day of 80 tests made yesterday is very gratifying."

"The first cost of installation is not prohibitive, being somewhat less than slow sand filtration. The operating cost is also somewhat less than slow sand filtration. You will be interested to know that we have analyzed made by eminent bacteriologists of official standing in which they conclude their report by saying that ozonated waters are virtually sterile."

Dr. Sheard, medical health officer, was interviewed by The World at the City Hall. He said that he had noticed the efforts which were being made to purify water by the ozone electric process.

"It is in operation to some extent in Holland," said Dr. Sheard, "but it is very much in the experimental stage."

However, The Electrical World gives the following interesting account of the successful tests at Pittsburgh and it might pay the city well to accept the invitation tendered to them by an expert to look into the operation.

G. M. Dyott, writing in The Electrical World, on "Ozone Water-Purification System," says: "At the present time considerable interest is being manifested in the purification of water supply of large cities throughout the United States, and for this purpose a number of expensive filtration plants have been installed."

However, the cost of generating the ozone has been large, and the efficiency of the plants so low that its use has been confined to a few instances where complete sterilization was desirable, and, in fact, absolutely necessary, as in the case of the water supply of the Gerard Ozone Process Company, to develop and exploit the results achieved by Dr. Leon Girard, the Belgian scientist.

The Gerard Ozone Company, 165 Broadway, New York, thru its engineers and general agents, Westinghouse, Church, Kerr & Co., has recently made an installation of special interest in the application of the Gerard system at the Homeopathic Hospital in Pittsburgh. This plant has a capacity of about 250,000 gallons per 24 hours, and it is now treating 100,000 gallons during each 10-hour day at an approximate cost for electrical power of 25 cents. No attendance is required beyond an occasional visit from the engineer in charge of the hospital power plant.

Atmospheric air, after being passed thru a drier, is ozonized during its passage thru the Gerard apparatus. It is then mixed with the water to be purified in an injector and a further degree of mixing secured by allowing the water to flow thru a tower in which a number of perforated trays are arranged one over another. As the water overflows at the top of the tower, a small cascade any remaining ozone is removed, and the pure, sterilized water is conveyed to the general distributing tank for use as desired.

At first it has a slightly milky appearance, due to the entrained air, but this soon passes away, leaving the water clear and sparkling. Ozone is not only employed for purifying water, but is also used in the sterilizing rooms for sterilizing instruments, bandages, etc. Experiments are also being made for the sterilization of foodstuffs.

Dr. Hamilton says: Look to the stomach and bowels—see if they are not sluggish and overloaded. System needs cleansing with Dr. Hamilton's Pills; they cure headache, biliousness and dyspepsia; 25c per box.

NEW FLAG ON NEW STAFF RAISED AT THE OLD FORT

"Preserve Historic Spot" Keynote of Address by Lieutenant-Governor.

In the presence of Lieutenant-Governor Sir Mortimer Clark and Lady Clark and an assemblage of a couple of hundred ladies and gentlemen the red ensign of England was hoisted yesterday afternoon on the new flag staff erected on the old fort grounds by the Toronto branch of the Daughters of the Empire.

"Preserve the old fort" was the keynote of the addresses. Among the gathering were Col. G. S. Ryerson, Rev. Canon Macnab, Major J. F. Macdonald, Col. J. Vance Gravelley, Col. Septimus Denison, Col. Clarence A. Denison, Col. George A. Shaw, whose great-grandfather, General Aeneas Shaw, was commander of the fort in 1812, Major Frank A. Fleming, Mayor Oliver, Col. John Bruce, M. O'Connor, who helped to load and fire the last gun fired from the grand battery; General Cotton, F. B. and Mrs. Featherstonhaugh, Mrs. S. Nordheimer, Mrs. A. E. Gooderham, and representatives of His Majesty's Army and Navy Veterans, the Veterans of '66, and the York Pioneers. The flag, which was presented by F. B. Featherstonhaugh, was hoisted to the top of the staff by Sergeant-Major Fisher.

The chairman, Col. G. S. Ryerson, in opening the proceedings, said the gathering was to commemorate the establishment of British supremacy in Western Canada. One hundred and thirteen years ago at York, then a wilderness, and on this spot had ever since waved over the country. They were there to demonstrate their loyalty to the flag, which represented civil and religious liberty and freedom from attack from without, for it was obvious that we were unable alone to protect ourself. They should remember they had the right to preserve the fort. Proposals

for its demolition were made, but he hoped they would not be considered, and that an alternative entrance to the exhibition would be found at the fort.

His honor the lieutenant-governor observed that if there was one place more than another which should be held in reverence it was the fort. It was a matter of profound satisfaction that after the struggles of the past the ultimate result was that we are to-day British subjects and that we are standing on British ground.

After giving credit to the Daughters of the Empire for their efforts he said the people of Toronto undoubtedly had vested rights in the old fort. This fort was an object lesson to the people of Toronto, and he hoped it would be an object lesson to the municipality. The meaning of the magnificent flagstaff ought to be impressed upon the mind of the municipality to destroy the fort—they ought to preserve it. In closing his honor noted the presence of the veterans and recognized their great services to the empire.

Accompanying the raising of the flag the gathering sang the national anthem and gave three cheers for the King, after which Rev. Canon Macnab offered a prayer.

Canon Macnab also addressed the gathering, observing that he did not think the government would permit an act of vandalism such as had been proposed or the commercializing of this historic spot. It was a great thing that the people were getting more interested in the flag, but it would be a great thing if the schools gave more instruction in its meaning and offered prizes for the best essays on it.

Mayor Oliver assured the gathering that the city council were desirous of preserving the fort, and proposed, with the assistance of the Daughters of the Empire, to restore it to the condition in which it was before it was dismantled. The government had been asked for guns to be mounted there. But Toronto had arrived at that stage in its progress when something must be done to improve the means of ingress and egress and he believed a solution of the difficulty satisfactory to everybody would soon be reached.

Others who spoke were Col. Clarence A. Denison, General Cotton and Mr. Featherstonhaugh.

R. S. Rider, manager of the Canadian Steel & Wire Co., Limited, Hamilton, Ont., is making an auto tour thru Western Ontario in the interests of "American" and "Ellwood" Woven Wire Fencing. The auto as an accessory to the "drumming" trade is a new idea, but one that will commend itself to houses whose patronage is drawn largely from the rural districts. By means of the modern "runabout," territory that has heretofore been inaccessible except by long and tedious drives, that made the work unprofitable, can now be covered quickly and business landed at comparatively small expense. While the innovation is a new one in Canada, it is much in keeping with the progressive ideas that seem to dominate the Canadian Steel & Wire Co., who are known from one end of the Dominion to the other for the quality of the woven farm fencing they manufacture.

Street Railway Receipts Fall. There is a falling off of \$22,256.00 in the street railway receipts for August, and a consequent decrease of \$4,451.54 in the city's share.

CITY WILL ASSESS

But Government Will Appeal Against the Tax.

The court of revision yesterday decided to assess the Simcoe-street property leased by the Dominion Government for five years for military purposes. The government claim exemption and will appeal to the county judge.

The following secured reductions in assessments: Mrs. Jennie E. Davis, 246 St. George-street, from \$15 to \$70 a foot; Albert A. Thompson, 250 St. George-street, same; Academy of Music, exempted; Edward Gurney, 44 Walmer-road, reduction of \$2000; Mrs. Barbara Heydon, 246 West Bloor-st., from \$110 to \$100 a foot; Liederkranz Club, exempted from business tax; H. H. Suydam, reduction of 20 per cent. on Admiral-road building lots.

Lake Michigan Floated

BROADSTAIRS, Ont., Sept. 11.—The British steamer Lake Michigan, from Montreal Aug. 29, with passengers for London, which stranded yesterday near Margate, was floated to-day. Tugs will dock her at Millwall.

Suburban Service

C. M. Hays of the G.T.R. suggests a suburban railway conference in Toronto on Oct. 6, when the Eastern Canadian Passenger Association will be meeting here.

HURRICANE WRECKED TOWN

Sloop Foundered With All Hands—Damage to Property.

GRAND TURK, Turk's Island, B.W. I., Sept. 11.—The Town of Grand Turk has been devastated by a hurricane. The wind has done much damage to property and the streets to-day are one mass of wreckage. Trees have been uprooted and portions of buildings blown away.

The Haitian sloop Telegraph, which had taken shelter at Hak's Nest, founded with all hands.

Union Labor Safeguarded Life

NEW YORK, Sept. 11.—Fifty-five men have been killed in building the new Blackwell's Island bridge over the East River, according to the report of a committee of the Central Federated Union appointed to ascertain the fatalities in that work. The committee also found that 15 workmen have suffered death in the Chelsea dock improvements. The union workmen who investigated the subject said that city inspectors tried to conceal the loss of life, which the union men attribute to the employment of non-union men in experienced work at lofty heights and to the absence of proper precautions. The investigators declared that no life had been lost in building the new Manhattan bridge, where union labor is employed.

AN ITALIAN'S REVENGE.

Misplaced Stake and Cost to Government Will Be \$875,000.

HEIDELBERG, Sept. 11.—An act of revenge on the part of an Italian laborer, because he considered he had been dismissed without cause, has cost the government of Baden the sum of \$875,000.

The government has been constructing a railroad thru Black Forest Mountains, working in from each end to meet the centre. It was discovered to-day that the two halves, which should come together at the Village of Forbach, miss each other by 26 feet. The reason is a mistake in the survey, which arose from the purposeful misplacing of a surveying pin. The act was the work of the Italian who had a grudge against the government.

Changes at Queen's

KINGSTON, Sept. 11.—O. B. Skelton, M.A., will be given the professorship of the chair of political and economic science at Queen's, in succession to Prof. Short. The assistant professor goes to W. W. Swanson, M.A., a graduate of 1905.

Mulid Hatid Defeated

PARIS, Sept. 11.—A special despatch from Tangier says that Chief Mfougi won a great victory over the Hand forces near Morocco City Sept. 8-5.

BALLOONISTS IN PERIL.

Picked Up Just in Time After Being Blown to Sea.

ROTTERDAM, Sept. 11.—A pilot steamer in the North Sea to-day picked up a balloon containing two aeronauts named Tennet and Short. The balloon ascended at Battersea, a district of London, at 10 o'clock last night and was blown out to sea.

When discovered the balloon was close to the water and could not have been kept up long enough to reach land.

STRIKE IN PAPER MILL

MILLINOCKETT, Mo., Sept. 11.—Responding to a telegram from their union headquarters, the 1200 men employed in the mills of the Great Northern Paper Co. here and at East Millinockett, went on strike to-day. Members of a rival labor union have taken positions of strikers in the same company's mills at Fort Edward, N.Y.

"That Looks Like the Man"

OMAHA, Neb., Sept. 11.—"That looks like the man I saw coming from the murder home the night of the murder," said Dr. J. P. Lord to the chief of police when Charles E. Davis, under arrest charged with the murder of Dr. Frederick Rustin, was brought before the court this morning for arraignment.

Davis came to the police station to-day accompanied by his millionaire brother.

PACIFIC COAST BOOMS.

Leopold Goldman Enthusiastic Over Conditions in West.

Mr. Leopold Goldman, general manager of the North American Life, has just returned from an extended trip to the west, when he went as far south as Seattle and spent much time in British Columbia.

He reports that there are no hard times in the west nor in all Canada. He scoffs at the idea of hard times, because, he says, Canada is like a thoroughbred horse running a race; she has gone a very rapid speed, and the present lull in rapid progress is only a breathing spell. Everything tends to show that the sure, steady, and even, speedy, pace of progress will be picked up in a very few months.

He finds through the west every sign of optimism. In Vancouver, for instance, the leading citizens have invested heavily in real estate, and think nothing of holding large blocks of land at \$50 per foot, looking for the day when Vancouver will have grown up to their properties.

Speaking of Vancouver, Mr. Goldman says that if he were a farmer man there is no place in Canada that would sooner live than in this Pacific town. The climate is delightful, the people are hopeful and enthusiastic, and the chances for the diligent worker are large and remunerative.

Mr. Goldman estimates that the wheat crop of the west will be 100,000,000 bushels, of which 50,000,000 bushels will be hard. He spent several days in Gary, and reports that the crops of northern Alberta are the finest the farmers have ever had. Much of the crop runs as high as thirty bushels to the acre. It is true, he says, that some spots the crop is a bit green, having been frost-touched, but altogether everything looks good to the farmer of the west.

Mr. Goldman is loud in his praises of the hospitality shown him during his trip west, and thinks that in all the world there are no more open-hearted, warm-hearted gentlemen than those that he met with on the coast.

Colored Baptists Convene

The Amherst Baptist Association of colored Baptists are holding their sixty-eighth annual convention at the Edward-street Baptist Church, about church between Toronto and Amherstburg, are attending.

The work this year shows a marked increase over the last year. The association are considering branching their mission fields.

A noticeable feature is that all the members are well educated and can talk on all the current events of the day. The session will last until Sunday.

Girl Shoots Men

CRIPPLE CREEK, Col., Sept. 11.—Armed with a rifle, Miss Annie Coplen, as rapidly as she could into a group of men who were making a disturbance in front of her mother's home last night. Two were injured.

New Peterboro Pastor

PETERBORO, Sept. 11.—Rev. H. B. Trampour of St. John, N. B., was chosen by congregation of All Saints' Anglican Church as successor to Rev. William Major, who has been appointed to the position of first assistant at St. George's Church, Montreal.

PILLES

It is stated by prominent Medical men that 9 out of every 10 people you meet on the street are suffering from Piles. Rich and poor are alike afflicted with this torturing and aggravating complaint, and being a delicate subject they often suffer in silence. This applies more especially to women. Piles are of two kinds, Blind and Bleeding. The pain is often so intense that the sufferer can neither walk or lie, and are utterly unable to work or think while the pain lasts. Why men and women should suffer is a mystery when Carol will relieve the pain immediately and effect a cure.

Carol is a pure Antiseptic Salve, with wonderful curative powers. Its penetrating and healing powers are simply wonderful.

We ask you to test our statement. We have proved that the people are the best judges as to the merits or otherwise of a preparation, and to this end we are asking every MAN, WOMAN and CHILD suffering from Piles or any skin disease to write us about it, and receive in return a sample of CAROL free of cost. All we ask you to do is to make your need known by sending us Free Trial Coupon.

In long standing cases Carol goes to the root of the difficulty with a determination which is simply marvelous. The healing done by Carol is well done, for it positively will not heal until the wound is clean and free from impurities. Not so with salves containing Zinc, Mercury, Lead, etc. These poisonous salves may heal quickly, but do a great deal of damage by driving the impurities into the body, often causing very serious consequences. You should shun such and use only a salve free from these harmful minerals. Such a salve is Carol.

There is a total absence in CAROL of caustic, fusty substances, so often found in cheap ointments, and does not cake, dog, or become hard. It is immediately absorbed by the skin, and thus penetrates to the seat of the disease. This fact alone makes CAROL popular. It is pure, and we have no hesitation in saying the best 25 cent salve on the market. We ask you to prove this statement by sending coupons for a free sample. All druggists and stores sell at 25 cents a box, or postpaid from CAROL SALVE CO., Spadina Avenue, Toronto, 6 boxes \$1.25.

HEALS

Eczema, Bad Legs, Ringworm, Ulcers, Cuts, Burns, Poisoned and Festering Wounds, Scalds and Cold Sores, Scaly Sores, Chapped Hands, Itch, and all Skin Irritations and troubles. It is a positive cure for Blind and Bleeding Piles.

FREE!

The Proprietors want you to test this wonderful Healing Salve free. Send this Coupon to CAROL SALVE CO., Spadina Ave., Toronto, when a trial box will be mailed you.

COBALT --- Mining Brokers Overwhelmed With Orders --- COBALT

MARKET CLOSES BUOYANT IN FACE OF OPPOSITION Biggest Day's Trading of the Week in Cobalt Stocks at Both Toronto Exchanges.

World Office Friday Evening, Sept. 11. To-day was the biggest market on mining stocks for the week. On both the Toronto exchanges the contest was so keen for stocks that it was difficult at times to properly execute orders. Prices in many issues responded to the increased buying power, and profit-taking was accepted without the slightest concern in nearly every issue.

Chambers-Ferland Being Energetically Sought After at Toronto and Montreal. Off the exchanges, Chambers-Ferland was the mining security most in demand yesterday, and several brokers affirmed that the sales of this stock outnumbered any other on the exchanges.

GO AS SKEPTICS. But Return Convicted and Filled With Amusement. Stewart & Lockwood say in their weekly letter: "We have had only one line of advice for our clients for the past four months, and that was to buy good Cobalt stocks."

Smelter Ready for Business. A significant feature of the business is that the Trout Lake Smelter is ready for business. This means that Cobalt ores can be smelted in Canada at a spot within easy distance of the mine.

Short Sellers Are Hit. Advances in several of the Cobalt stocks are believed to have caused heavy losses to speculators who have continuously endeavored to depress these shares for many months.

Standard Stock and Mining Exchange. Cobalt Stocks: Amalgamated 3.00, Buffalo 1.50, City of Cobalt 1.75, etc.

New York Curb. R. R. Bongard (Charles Head & Co.) report the following transactions in Cobalt stocks on the New York curb:

Salvationist Made a Mistake. An unfortunate mistake was cast an equally unfortunate reflection on a well-known Salvationist. It was reported to the Children's Aid Society that an attempt had been made by a woman in Salvation Army garb to burglarize their collection box at the Rossin House.

The Dominion Bank Pays Special Attention to Savings Accounts

Speculators Not Always Successful—Cobalt Development Grows Apace Regardless of Market.

COBALT, Sept. 10.—(From the Man on the Spot.)—Advisors from New York and Boston go to prove that Mr. Mendalla, president of the New York Curb, spoke truly when he said that the brokers of these cities would strongly recommend to their clients Cobalt mines as profitable investments.

"The Man of the Spot" has never wavered in his efforts to impress upon Canadians the advisability of holding on to any Cobalt stocks in mines that were shipping and paying dividends.

Like many others thoroughly familiar with the camp at the end of the last boom, he found himself loaded with stocks, some of which had probably cost him more than they were worth.

Only a small percentage of the buying public prove to be lucky at trading, but any man who has Cobalt stocks that are paid for cash should put them away, knowing that no matter how the stock market fluctuates, he will be able to sell at a handsome profit.

It must be remembered that not only does the camp's output for 1908 show a heavy increase in tonnage, but a more proportionate increase in silver production.

A well-known mining engineer the other day made a statement in Cobalt that the silver mine never peters out. Underground development in Cobalt certainly tends to bear out the truth of that theory.

The dividend-paying among Cobalt mines companies have attained another very gratifying position, namely, they have invariably large cash reserves from the one million dollars in the New York Curb.

Take the great La Rose mine, which only a few short weeks ago was held over to the La Rose Consolidated Co. It has already earned for the new company one-quarter of a million dollars without any effort on the part of the mine superintendent, who, in addition to taking out his ore without encroaching on the ore reserves, is doing an immense amount of development work on the La Rose and other properties owned by the Consolidated Company.

Cobalt last year produced one-twentieth of the world's output of silver. It may this year produce one-tenth, and it is no rash prediction to make that within five years it will be one of the world's production of silver.

There are many who think that the low price of silver was a godsend for Cobalt. It has enabled this camp to shed within five months the surplus of 1907, Ontario has a camp that makes rapid strides and attracts world-wide attention.

It is said that nature always provides compensation for any apparent lack of natural advantages and circumstances. The rocks and hills of Niagara are a truly marvelous proof of this.

Cobalt's output for 1907 amounted to a little more than fifteen thousand tons. For the first eight months of 1908 Cobalt mines have shipped nearly fourteen thousand two hundred tons, and the silver contained in the output for the year 1907, the camp in this period of 1908 has shipped over five thousand tons more than in the corresponding period of 1907.

La Rose mine in August of 1908 shipped one hundred and thirty-five tons more than it did in the first eight months of 1907.
