HANBRIDGE AND GUY FISHER WIN HOLIDAY FEATURES OF THE WOODBINE CARD

Four Favorites and Two Second Choices Finish in Front—New Record for Mile and 70 Yards.

THE WINNERS. Rose Queen (second choice) 2-1, Turf Star (second choice) 1-1, Hanbridge (second choice) 1-1, Fisher (favorite) 1-2, Pagan (second choice) 1-1, Duke of Milan (second choice) 1-1, Jock (favorite) 1-2.

The holiday crowd at the Woodbine was one of the largest that have ever been known in the history of the Ontario Jockey Club, the members and public having been crowded to the full capacity. There were about the same number as on opening day, viz., fifteen thousand, including many visitors from Montreal and Hamilton.

There were two trains from Hamilton, bringing down about the same number of lovers of the thoroughbred as on opening day. This time they did not come to the Hanbridge colors go to the front, but to watch the race and take their chances with the rest in picking winners.

The card consisted of seven races which were all well timed, the fields being first-class, bringing together the best of horses at the track. The Woodstock plate was the feature event and was won in handy style and in a great time by Hanbridge, the stable of the Victoria stable of Phil Chinn. The Victoria stakes for two-year-olds was another event bringing out a great field of youngsters and the result came as a surprise, as Flying Squirrel, the public choice, after his splendid race of Saturday, was beaten by the second choice, The Flying Squirrel, who created a great deal of interest as the first two were owned by Canadians and ridden by their owners, Willie Wilson on Flying Squirrel and Nat Ray on Flying Squirrel.

The first race was an easy thing for the favorite, who showed a wonderful burst of speed, assuming the lead soon after the start, and fairly tipped her nose, winning in handy style and in a great time. Flying Squirrel, the public choice, was second, and Hanbridge, who had been the favorite, was third.

A big field went to the post in the second event, which was for two-year-olds, being the Victoria stakes. Flying Squirrel and Pagan were the favorites, but it was flying badly at the end. Turf Star, a Nastrutium filly, came with a rush at the end and soon won the race, winning by half a length. The leader from the Clyde string was well ridden and showed a final burst of speed, beating out the favorite for second money.

The third race, the Queen's Hotel Cup was one of the features of the day and a first-class field faced starter Duke Hanbridge, being the favorite, and choice at as good as three to one in the opening betting. Reidmore was the second choice and was better supported than Hanbridge. This was due to the fact of his first-class race on opening day. There was little or no delay at the post, and when the field left the barrier, Hanbridge was hurried to the front to make his own running. Herbert took no chances of being shut off on the turns and hurried the horse along for the first quarter of a mile, then took hold of him to save him for the finish. Reidmore was always in a contending position until the far turn when he was able to get pinched off, Ontario dropping into second position, where he finished three lengths back of Hanbridge. The rest of the starters were well back of the first three, and in a bunch.

The fourth race was another feature, the Woodstock plate and all of the Canadian stables were well represented. In this race Direct, the recent purchase of the Kirkfield stable, and Detective, who was bought a week ago by Charles Boyle, were starters. This was their first appearance on the Canadian circuit, and both were well supported. Guy Fisher was always the first choice and from the way he won was pounced the best of his field. He was hustled to the front at the start. Mentry looking for clear sailing, he led to the far turn, where he was overhauled by Arondack, and he was dropped back to fourth place, and when Mentry went to the place he came on again, winning by a length from Arondack, who set the pace the last quarter. Detective, who came with a rush at the end, won the race, getting third money, nosing out Direct. This race was one of the best run for this stake, and a better field never went to the post.

The fifth race, which was thru the field, brought together one of the best bunches of leppers that have raced at Toronto in some time. The Ray, Al Powell and Byzantium were the favorites, while Carvas on his race of Saturday was second choice, with Pagan, the winner, at as good as 3 to 1 in the opening betting. At the first jump Denier went to his knees and lost his rider. Reginald then went to the front and made the running for the greater part of the first turn of the race, when he ran out, leaving Byzantium to win.

STEAM LAUNCH BURNED Toronto Yachtmen Have a Misadventure at Lakeside. LAKEFIELD, May 24.—(Special).—Two Toronto yachtmen, H. F. Strickland, electrical inspector for the fire underwriters, and H. O. Frind of Yorkville-avenue, had an unfortunate adventure to-day.

They had tied their brand new 30-foot steam launch to E. R. Tate's dock, at this place, and were enjoying dinner, when fire was noticed at the dock and the yacht and Mr. Tate's boathouse were found in flames. Prompt work prevented the fire from communicating to Tate's fine big boat, but the yacht was damaged to the extent of about \$400, while Messrs. Strickland and Frind's "city clothes" were destroyed. The loss is about \$400, covered by insurance in the Royal.

Mr. Strickland had his hands severely burned. The fire is attributed to boys, and firecrackers. CANCER AMONG FISH Experiments to Discover if It is Thus Communicated to Man. BUFFALO, May 24.—The discovery that cancer is a very common disease with many kinds of fish, and especially brook trout, has been made.

Dr. Harvey R. Gaylord, head of the Butler State Cancer Laboratory, announced to-day that scientists connected with that institution are now conducting a new line of experiments to discover whether or not cancer is communicated to human beings by the fish they eat or whether the water of streams is infected by the cancer germ from the fish.

This new discovery on which the cancer experts are working may give a clue to the manner in which cancer is communicated to the human system. Heretofore cancer research had been conducted chiefly along the lines of a hunt for a cure. The disease was found to be more prevalent in mice and rats, and most of the experiments have been performed with these animals as subjects.

HIS WEALTH FOR THE POOR Canon of Lincoln Cathedral Turns Socialist. LONDON, May 24.—The Rev. Edw. Lee Hicks, Canon of the Church of England, popular clerical figure in Lincoln Cathedral, has developed astonishing socialist tendencies. Addressing a labor meeting he said: "As a follower of one who had not where to lay his head, I have to consider how far I am justified in living on the unearned increment of land. It is a hard problem, but I intend to face it."

It is understood that Canon Hicks intends to surrender the whole of the income from his private fortune. He has arranged to sell his automobile and part with his carriage and he will rely on his salary. His private means he will devote to the alleviation of suffering and want.

HOLIDAY SPORTS CAUSES DOZENS FIRES

Over \$6000 Damage to Show-case, Factory of N. R. Lindsay on Hayter St.—School at Centre Island Burned.

Chief Thompson had a word to say respecting celebrations and fires. "It's this way," said he last night. "For some years the city has issued proclamations warning boys and others against setting off fireworks. This year it wasn't done, and the youngsters have evidently considered they had a free hand."

Two serious fires and a dozen more minor blazes, the latter from fireworks, kept the department busy on the holiday. Over \$6000 damage was done by a fire of unknown origin, which broke out in the second floor of the three-story brick building at 49 to 57 Hayter-street yesterday afternoon. The ground floor is occupied by N. R. Lindsay, 103 Pimlico-street, who also owns the building. He places the water damage to his stock in show-cases and the like at \$100 and to the building the damage was \$2000, as the top floor is occupied by Timothy Crowley, picture frames and mouldings. His loss is placed at \$2000, as that of Corran Bros., spring wire mattresses on the second floor, at the back of which the fire started. All are fully insured.

The fire department can be credited with a splendid stoppage. The blaze had a good headway on two floors, but in spite of the mass of highly inflammable material all around, the firemen, who were fully equipped in heading off the fire. "How in Providence the firemen prevented the whole place going up, with such a start, and head on, was the tenor of the remarks of a member of the firm, on their arrival.

Island School Burned. The island public school a storey and a half frame structure, had been set on fire. The pumping station notified Capt. Goodwin of the Fire Bug Nelly Bly. The schoolhouse is a quarter mile from the fire station, and the run was made in record time. The fire was extinguished by the fire tug Nelly Bly and steaming up the lagoon soon had a stream playing on the blaze, which was burning fiercely. The land forces laid out over 300 feet of hose, and the pressure from the pumping station being good, the blaze was held down, the schoolhouse was destroyed. Capt. Goodwin's house, which stands close to the burned building, was saved by playing kept drenched. This blaze occurred at 11.10 last night. The damage is \$6000.

Capt. Goodwin made a rapid and daring run in the Nelly Bly. In 25 minutes he ran the boat two miles thru the open bay and then a mile up the lagoon in the darkness of the night. The firemen at Ossington-avenue station, above Bloor, saw the reflection and phoned headquarters, thinking it was around the foot of Niagara-street. The operator got in touch with the fire station, who said it was on the island. A call to Mr. Goodwin of the fireboat elicited the confirmation that the Nelly Bly was already on the way.

Dozen Small Blazes. More than a dozen fires were caused by fireworks of one kind and another. Most of these were small and were started in rubbish heaps and roofs. At 11.19 in the morning a blaze which did \$5 damage was started in the cellar of J. T. Seitz, 182 West Richmond-street, where a blaze costing \$20,000 was fought last week. This time it was only a rubbish heap. At 3.25 in the afternoon fire crackers were responsible for a blaze in Mrs. J. May's shed in rear of 248 Bathurst-street. At 3.15 a rubbish heap near 427 Pape-avenue burned. The same cause set fire to the roof of A. B. Beasley's home at 6 Bruce-street. In both these cases the damage was nominal. At 8.43 firecrackers set fire to the roof of T. J. Pettigrew's house at 596 Church-street; no damage. At 5.56 \$5 damage was done to Fred Harris' home at 571 Lansdowne-avenue. At 10.10 Peter Whitlock's roof was set alight at 205 Manning-avenue. The damage was slight, and J. Mulligan, 61 Perth-avenue, and J. Masly, 40 Borden-street, suffered slightly from the same cause. A spark from the last fire also set fire to the roof of A. W. Miles' undertaking establishment in College-street.

Railway Strike May Spread. ATLANTA, Ga., May 24.—Hope of the settlement on Washington. The firemen on the Georgia Railroad centre on the visit to-morrow of the U. S. Commissioner of Labor P. Neill, who is coming to enforce the law. The firemen are on strike to force the dismissal of negro firemen. The firemen's national organization may vote on whether the roads shall accept diverted freight.

All Toronto Holidays Half Million On the Go

Rest Resorts and Amusement Places Have Record Crowds on Victoria Day—Ideal Weather for Outdoor Sports and People Enjoy Themselves to Limit. The Victoria Day weather was of a kind that just naturally lent itself to holiday-making, and Toronto as usual rose to the occasion with the zest of a schoolboy, turned loose on vacation. Everybody was infected with the care-free spirit of the day from the man at the post office to the milkman who hurried thru his early morning rounds with the unalloyed delights of a day at the island or one of the many pleasant spots of parkland in or around the city.

Queen's Weather. Seldom has the weather been more graciously kind. The sun only occasionally hid himself behind a cloud, and there was never any danger of rain, so that the observatory was abundantly justified. The sky was of that pleasing azure which gives inspiration to the magazine poet, and the air was warm itself, tempered with enough breeze to make it altogether delightful. Pyrotechnics do not cut so big a figure on Victoria Day as they did a few years ago, but the youngsters still cling to the cannon cracker and many brightened the faces of the bookies' gripsacks, a good deal of consternation.

CELEBRATED EMPIRE DAY 7,000,000 Children Observed It—Parade in London. LONDON, May 24.—(C. A. P.)—Messages received indicate that Empire Day was celebrated in all parts of the empire with greater enthusiasm than ever. There was a splendid display of imperial patriotism in London and the great cities, while the British colony in London, where his grace is on a pastoral visit, the chief item in the program was the review of 10,000 children by "Boba." It is estimated that throughout the empire nearly 7,000,000 children celebrated the day.

MR. ROADHOUSE SECRETARY Will Assist Commission in Enquiry Into Milk Supply. Sir James Whitney has announced that W. Bert Roadhouse has been appointed secretary of the milk commission, which is to enquire into the question of pure milk for Ontario. Mr. Roadhouse is well known in newspaper circles in Toronto. For six years he has represented the Evening Telegram in the legislative press gallery, in 1907-08 holding the office of president. In 1906 he was London, Eng., correspondent for the Canadian Associated Press, where he was well appreciated and made many friends. The Press Club of Toronto also claims him as a member. In reporting Mr. Roadhouse writes in a bright, ray style. He is a good speaker, and popular among his conferees in the profession.

DOUBLE PHONE RATES RANK

Bell Charges Two Prices, But Service Is Same—Thirty-Five Dollars All Round Would Be Enough Anywhere in City. If you are a patron of the Bell Telephone Co., there are some things you ought to take into consideration. There is a lot of phoning talk about. There is an evident desire to boost the rates as near the standard \$75 rate which the Bell Company holds up for a model in the United States as Canadians are willing to stand for. All manner of arguments are advanced to show why subscribers should pay all sorts of fancy prices for service which at a flat rate of \$30 all round would amply satisfy. The citizens would be acting generously if they paid \$35 a year all round for a service anywhere inside the city limits. Service is held by the company on cost of extensions and cost of mileage, and stock is inflated to prove that dividends are required, and all the usual stock-jobbing devices are resorted to. The railway commission should have demonstrated that half of the Bell Company's capital is genuine cash and it ought to have better evidence than the Postal Telegraph Company is willing to furnish. Anomalies of System. The rate of \$60 and \$30 for what is called a business telephone instrument and \$45 and \$25 for the Blake instrument is one of the outrageous anomalies of the present system. Subscribers get exactly the same attention, and operators give them exactly the same service whatever rate they pay. If the any presence of a better service there would be some excuse for the higher charge, but the business phone is actually cheaper than the residential phone and the discrimination between private and business phones is a perfect absurdity to those who are acquainted with the conditions. It is well-known that the discrimination in this case is all in favor of the rich society people, who get cheap private phones, as against struggling business people, who have nothing like as many calls in the day as a society leader uptown. How Public Charges. It is believed that 1000 subscribers pay the \$45 and \$25 rates per year. From 17,000 to 18,000 pay \$30 per year. The \$30 rate is a refund of the cost of the telephone. This figure out in the neighborhood of three-quarters of a million dollars a year. Besides the extensions, which are bought and placed for \$2 or \$15, are charged for at the rate of \$3 to \$15 a year. These are the rates of the present system. Switch boards and fixtures of all kinds may be a convenience to the public, but they are a manifest means of increasing business. The old telephone chestnut of not wanting to be taken in by the public is a cost increases, but the public are learning the true value of this plea. Up to a certain point it is true, but beyond that point it is a lie. As the exchanges increase in numbers, the cost does not increase out of proportion to the profits. On the Humber line the charges are nothing short of robbery, and if any law of equity prevailed a refund would be insisted upon. In addition to the fixed charges which in all countries are high enough, a rate of \$30 a mile is imposed on Sunnyside and the Humber. The poles on these "leads" or routes carry 30 pairs. Long distance lines are also carried on the Humber. The Lake Shore telegraph poles are used to carry telephone wires. Sixty pairs may be cut on the Humber lead. The cost of the pair, four rates would be \$15 a mile, covering everything, the contracts being for three years, thus insuring good interest on investment. The present rates at \$30 a mile run up to ridiculous sums. The three-mile charge is thus \$90, the five-mile charge is \$150 for a phone service which is by no means more costly than much of the regular city service. A four-mile service rate similarly would run up to \$120. West Toronto Hold Up. The charge of ten cents a refund Toronto messages is one of the worst practices of the Telephone Co. It does not cost one penny more to telephone West Toronto than it does to telephone East Toronto or the beach exchange generally, or in any part of the city one the exchange is built. But the West Toronto people are under this handicap as well as the higher regular rates. Then if a citizen wishes to go into one of the head office parts of the city to make a city call he is held up for ten cents, although any pay station gives him the same service for five cents. The island service is also put on the ten cent schedule, although it does not cost a penny more to operate than any other line. These vexatious discriminations are part of the burden the city has to carry on account of the telephone monopoly. HOGS AT \$9 Porkers Command Record Price on the Montreal Market. MONTREAL, May 24.—(Special).—At the Montreal Stock Exchange, hogs advanced 25 cents a hundred pounds due to small supplies and demands. The packers. Selected lots brought \$3 7/8 to \$4.85 per cwt., weighed 200 lbs. and a few instances \$4.90 and \$9 was paid a new record.

LIVING UP TO THIS CONTRACT. Does anybody know of any corporation that has kept faith in all points with this municipality with which it has had a contract?

The "widow and orphan" have a great deal to do with this, according to the corporation managers and directors. If it were not for the vested rights of the poor "widows and orphans" the corporation people would always give the municipalities a square deal.

It was all on account of the "widows and orphans." No doubt, that the Toronto Electric Light Company absorbed the Incandescent Light Company, also both of them splendidly undertook never to do anything of the sort.

The "widow and orphan" blight, which afflicts corporations as the San Jose scale does peach trees, has spread to the Bell Telephone Company. That corporation guaranteed uniform rates, or at least no discrimination, within the city, but the fatal weakness has manifested itself, and the company is now out with a policy of contract reduction in the interests of the "widow and orphan."

West Toronto is one of the districts to suffer. It costs no more to serve the West Toronto exchange than the East Toronto or Beach exchange, but that is not how the "widow and orphan" champions regard it.

The "widow and orphan" with no telephone has to pay, in addition to the high rates imposed, ten cents extra in order to call up West Toronto, and this class of "widow and orphan" is much more numerous than the shareholding variety.

The railway commission would do well to investigate the "widow and orphan" scale in corporations. A little spraying would do none of the corporations any harm—even if it included the pruning they much require.

YONGE STREET WIDENING. It is now declared that Yonge-street property owners do not want to improve their property by widening the street. There can only be two reasons for such an attitude.

In neither policy is there any public spirit. Nor is there any profit to the dog in the manger or to the monkey with the nuts. By grasping too tightly what they have, the Yonge-street property owners are quite likely to lose all.

BRITAIN AND FOREIGN SPIES. One of the curious features of the war scare in the motherland first now is the continual publication of circumstantial narratives recording the exploits of the multitudinous foreign spies who are supposed to haunt every nook and cranny of the country.

the ordinance survey, whose accurate and detailed plans can be bought by anyone willing to expend the moderate sum necessary for that purpose.

In this connection Major B. F. S. Baden-Powell told a good story at the annual dinner of the Iron and Steel Institute in London. Talking recently to an officer in a foreign army he did not specify, the major asked if it was a fact that the war office of that country had filed every detail about England.

That of course sounds very alarming, but the initiator of the boy scout movement was not satisfied till he had discovered how all that mass of information had been obtained. "I asked him," said the gallant major, "if it was true."

The foreign officer answered in the affirmative. "How did you get it?" pursued the major. The answer was, "We spent 10s 6d and bought a Kelly's County Directory."

PRINCIPLES OF TOWN PLANNING. In Germany it is not unusual to lay out plans for new districts anything from 20 to 40 years ahead of actual development and for cities to prepare for this by buying up the land before it is affected by increases in speculative value.

The projected road is described by a member of the delegation on town planning that visited Germany last Easter, as 200 feet wide and consisting of three sections, that in the centre being 12 or 14 feet below the level of the side roads abutting on the buildings.

At the reception in the Cologne City Hall an address was delivered by a leading civic official, Dr. Rehborst on "Town Planning," and his remarks on the general principles of such undertakings deserve recapitulation. In his opinion the planner of towns must have a broad enlightened conception of all that goes to make up civic design.

ATLANTIC SEABOARD SWEEP BY A STORM

Vessels All Along the Nova Scotia Coast Are Damaged in Seeking Ports of Refuge

HALIFAX, N.S., May 24.—(Special.)—A terrific wind and rain storm, the severity of which is unprecedented for this season, has swept the Nova Scotia coast for the past thirty-eight hours, carrying devastation in its path.

Early Sunday morning, rain began to fall and with daylight rose a wind which has since blown unceasingly at the rate of forty miles an hour. The telegraph lines are deranged and it is impossible to estimate the damage, but from all points where the wires are intact, come messages of loss.

On the coast line the storm wrought the greatest havoc and from North Sydney on the west, comes news of marine casualties, while every harbor and inlet is filled with craft of all descriptions, seeking shelter from the terrific wind and mountainous seas.

At Liverpool, two vessels were driven ashore and are likely to become total loss. Gloucester fishing schooners "Judith" and the "Lena Maud."

The schooner "Taimouth" of Sherbrooke, bound for Louisbourg, is ashore on White's Point at the entrance of Canso.

The Grandbank (Newfoundland) fishing schooner, "Blanche M. Rose," ran ashore on Cranberry head at 9 o'clock Sunday morning, when entering North Sydney and remained aground till 6.30 o'clock last evening, when she was towed off.

There are forty-five schooners in North Sydney for shelter. The schooner "Taimouth" of Sherbrooke, bound for Louisbourg, is ashore on White's Point at the entrance of Canso.

CITY COUNCIL PROGRAM

Schedule of Power Rates Up For Consideration—Ward 7 Interested.

The city council will be asked at to-day's meeting to approve the schedule of rates prepared by the city's electrical department for the supply of power to manufacturers and other wholesale users of white coal.

The board of control has approved the rates, and as there hasn't been any ripple of dissent among the aldermen, it is practically assured that the schedule will be adopted. The rates, which have been previously published in full, prescribe a minimum monthly bill of \$44 for \$500 horse-power and \$175 for 2000 horse-power, which latter amount is the limit provided for.

There are several matters of interest to the new seventh ward to be dealt with. One is the changing of those street names in the suburb which conflict with designations elsewhere in the city.

KIDNEY DISEASE COMES ON QUIETLY. Perhaps no other organs work harder than the kidneys to preserve the general health of the body and most people are troubled with some kind of Kidney Complaint, but do not suspect it. It may have been the system for some time. There may have been backaches, swelling of the feet and ankles, disturbances of the urinary organs, such as brick dust deposit in the urine, highly colored scanty or cloudy urine, bladder pain, frequent or suppressed urination, burning sensation when urinating, etc.

Do not neglect any of these symptoms, for, if neglected they will eventually lead to Bright's Disease, Dropsy and Diabetes. On the first sign of anything wrong Doan's Kidney Pills should be taken. They go to the seat of trouble, strengthen the kidneys and help them to filter the blood properly and flush off all the impurities which cause kidney trouble.

GRAND OPERA IN ENGLISH Metropolitan Company of New York to Try Experiment.

PARIS, May 24.—After spending a fortnight here, Signor Gatti-Casazza and Herr Andreas Dippel, of the Metropolitan opera house, New York, have drawn up a general program and settled engagements with most of their artists.

SEVERAL OPERAS will be produced in English next season. Those first given will be new works. If they succeed, Wagner's operas will be performed in English, as was done in London recently. Among the operas to be given in English are: "The Cricket on the Hearth" by Goldmark, a Hungarian; "The Pilpe of Desire," an English; and "The King's Children," in which Geraldine Farrar will sing the principal part.

IN ADDITION to the operas, including "Parsifal," will be given as usual, and also the more familiar Italian operas, both classic and modern. There will also be performed for the first time in New York "Le Donne Curiose," which is a musical edition of one of Goldini's plays by Wolf Ferraro, and Tchaikovsky's "La Dame de Pique," both in Italian. The salary list for the season will amount to about \$2,000,000. Curuso will continue to receive \$2,000 nightly, and one or two others will receive from \$1250 to \$1500 nightly.

DODGE AND FITZPATRICK ELECTED BY THE O. R. T.

In Spite of the Threatened Opposition Due to Stories of Trafficking in Office

COLUMBUS, Ohio, May 24.—(Special.) Strenuous opposition to the election of T. R. Dodge of Chicago and Cleveland, as assistant to the grand master—or president as the office will be known—pettered out at the last minute in the annual election of officers for the Brotherhood of Railway Trainmen to-day, and Dodge was elected by a two-thirds vote.

VAY FITZPATRICK of Columbus, against whom there was no opposition, was re-elected as first vice-grand master, or vice-president.

IT HAD BEEN claimed that Dodge and Fitzpatrick feared re-election in the convention in Atlanta two years ago and joined forces for mutual protection, an alibi Dodge would not touch upon as first vice-grand master and Fitzpatrick as second vice-grand master, no opposition candidates being presented.

Under the constitution, Dodge was elected, and Lee was retained as master, as a favor to Dodge's head, P. H. Morrissey then was grand master and W. G. Lee was assistant, as they had been for 14 years.

MEET IN BRANTFORD NEXT Labor Educational Association of Ontario Hold Annual Meeting.

BERLIN, May 24.—(Special.)—The seventh annual convention of the Labor Educational Association of Ontario was held in Berlin to-day, with practically every industrial centre in Ontario represented.

Among the delegates were the following from Toronto: J. W. Harmon, of the Painters' and Paperhangers' Union; Sydney Jones, carpenter; Thompson, brewer; James Watt, tailors' union; W. H. The attendance was the largest in the history of the association.

Mayor Hahn, also president of the Trades and Labor Council, welcomed the delegates, who were entertained to a German lunch.

Two shop entries. Two shop entries were reported to the police yesterday morning. At 11:40 Sunday night thieves visited the grocery store of Mrs. Brown at 97 Cumberland-street. They gained entrance thru a window to a rear room, but a barking bulldog on the other side of the next doorway caused them to hastily depart. W. H. Cox's drug store at 796 Yonge-street was also entered from the rear and \$10 taken.

Policeman's Plucky Act. Policeman Morris (303) did a plucky thing and probably saved a number of limbs if not lives when at the Woodbine gates, just as the great crowds were leaving the tracks, he jumped to the head of a team hitched to one of Maher's cabs, and after being dragged several yards, he himself severely bruised, brought the mob to a stand. The driver had lost the reins and was helpless to control the frightened horses.

GIpsy TELLS LIFE STORY FROM PULPIT TO PULPIT

Remarkable Farewell to Great Romany Evangelist Who is Returning to England

In a summer blizzard of fluttering white handkerchiefs the "Ave Agape Vale" of Toronto was spoken to Gipsy Smith last night in Massey Hall by an audience which occupied every available seat and stood up wherever it was permitted. It was a remarkable sight when he entered to see the great building one mass of waving cambric, and the scene was repeated at the close, when the people stood up and sang "God be with you till we meet again."

Natural to the last the Romany Gipsy called out as they began "You've begun too high," and the piano brought the singers down several tones.

Laughter and tears mingled all thru the night, the speaker ranged over the whole gamut of human vice and virtue, of passion and emotion, striking chords in his thirty previous meetings and astounding those who listened with the vastitude and originality which continued to pour from him from a store that had already yielded incredible wealth.

This gipsy boy, who could not read his own name at 17, at 48 is an example of the miracles that are wrought by the grace of God. It is a phenomenon that staggers theology itself and commands the respect more than ever to the heart of the masses.

"I tell you that to sell you this," he remarked after he had related some of the pieces he had been honored to sing, "I have no dukes and duchesses, with the noble and wealthy of four continents—I tell you that to sell you this—Grace talks beggars from the dunghill and sets them among princes. The man is a fool who allows the kindness of the Lord to turn his head for a moment."

Gipsy Smith talked for two hours and there never was a moment given in Canada before. Being Victoria Day, two little Canadian flags were presented to Mr. and Mrs. Smith and the national anthem, then the national anthem, then the national anthem.

THE RECAL of his life story was interspersed with comment, anecdote, warning, admonition, denunciation and encouragement. His picture of the virtue of the gipsies was particularly impressive.

"I have no Bible and no Christ, but the gipsy boy is taught that whatever else he does in the world he must honor and protect women. No man is a strikings if he does not treat another man's sister as he would like his own to be treated."

"I'm sound on the drink question," he declared, telling of a little girl who sat on his knee in a fashionable company where the temperance question was discussed.

"When you take it, some of you," added Gipsy Smith, "and the children are about, see that you make a face." The applause that followed was loud.

"Now, if you are honest, go home and turn it out of your cellars and sideboards."

Sail For England. Mr. and Mrs. Smith leave this morning for New York, whence they sail June 2 for England. Gipsy Smith expects to be in Chicago in October. He has declared that he is spending the remainder of his life in New York, his wife and children, and his business in particular.

NEW RUSSIAN LOAN. LONDON, May 24.—It is announced that Russia will issue \$4,250,000 sterling 4 1/2 per cent. railway loan at about 90, thru a group of English capitalists.

THAW DENIES IT. POUGHKEEPSIE, N. Y., May 24.—Harry Thaw emphatically denies that Lawyer Hartidge spent \$75,000, as he says he did. Thaw says: "Any newspaper man in New York can tell you that Hartidge's pretense of having suppressed anything is humbug. A person like Hartidge could not close one eyelash of the thousand-eyed press."

HIS BURIED TOES PAIN HIM. NEW YORK, May 24.—Complaining that pains in the toes of his right foot were the next door to death, the remainder of his leg, will prevent his complete recovery unless cured, Ernest Frye of 226 West 56th-street, is spending his days in a hospital, being attended by physicians. He was injured in an automobile crash in Central Park on April 18.

NEW HAMBURG, May 24.—Joe Lane fell beneath a train this morning and was fatally hurt, his left leg being crushed and his hip injured.

High Park Golfers Win and Lose at Gait GALT, May 24.—The High Park Club golfers visited here to-day and were one-and two up in a match with the Royal Purple, Whitey Puse, Moun Royal Purple, Whitey Puse.

Simpson Suggestions on Housefurnishing

The Unconventional Living Room

WE WILL give our idea of three ideal living rooms as a beginning of these little talks on Housefurnishing. Commencing with the room that most people unconsciously prefer, the unstudied, natural, livable living room.

We will not advocate any ceremony in the treatment of this room, but will try and suggest a cosy, comfortable effect in which there will be no discord.

Let us begin with the Carpet. It is understood that no particular period or style is recommended, and the furniture may be of any wood or color or finish so long as it is comfortable and spacious. The floor covering we suggest would be preferably a genuine Oriental Rug, or a clever reproduction from the English or the American looms. The portions might consist of one of several all-wool fabrics in monotone, harmoniously contrasting with the carpet. The window curtains would be of heavy rough silk or fine cotton case-ment cloth, with plain net sash curtains, relieved with horizontal insertions of torchon. Plenty of cushions covered with antique tapestry or real leather would be conveniently at the disposal of those who frequented the room. A window seat would also be covered with a serviceable tapestry or an artistically-colored leather.

The walls could be treated in a number of ways, but the very nicest would be tapestry in some good, old rich-colored design.

Such a room could have the "tools and toys of a family" in evidence without losing any of its feeling of comfort. It is a Living Room. When necessary it could be used as a drawing-room with little no re-arrangement, save that which every housekeeper makes for Reception Day.

As to Approximate Cost

- Carpet \$35.00
Portieres—(two pairs) 36.00
Casement Windows—two pairs Silk 15.00
Curtains 7.50
Four Sash Net Curtains 12.00
Four Pillow Cushions 22.50
Wall Tapestry—\$1.50 per yard—say 22.50
Total \$128.00

At \$15—A Good Staple Grey Suit

WE have a line of suits at \$15.00 in those staple serviceable greys which make the best all-around wear for a man of quiet tastes.

You know the dark greys that show no dust or spots, which always look quiet and nice and eminently wearable. Men of middle age would be interested in these \$15.00 suits. You get tired of a suit of pronounced pattern—these staple greys are always easy to live in. See them.

Men's Suits, in fine fancy and plain English worsteds, handsome new importations, showing a very distinguished effect, in an excellent quality of genuine worsted materials. The shades are plain and fancy greys, plain and fancy browns and olive and elephant tones, with colored thread mixtures; made up in three-button single-breasted sack style, designed on this season's latest model, best interlinings and high-grade trimmings, tailored and finished with the greatest care, guaranteed perfect fitting in every respect. Special value \$15.00.

Distribution of 2000 Waists

WE are getting through our contract quantity in splendid style, the number is getting pretty far down now, but some of the waists we put on sale to-morrow are as fresh and new looking as those placed on the tables for the first day's selling. For to-morrow we specialize those undernoted. See them.

A Very Smart Tailored Waist of Fine Mercerized Vesting, looks like silk and wears as well, made in military style, fastened to left side on front, with four large pearl buttons, shirt sleeves, link cuffs, laundered collar. Wednesday, \$1.75.

The second one is also of fine mercerized vestings, has two large tailored tucks on each side of box pleat front, tucked back, link cuffs and laundered collar. Wednesday, \$1.50.

SO says the Silk Department Man. EACH piece contains 8 to 10 yards. They represent the most exclusive designs we can import. They are only imported one of a kind, no two are ever alike, and no other store in Canada has these designs and patterns. Fabrics comprise Chiffon Voiles, Silk and Wool Voiles, Silk and Wool Striped Eoliennes, and Voile with Filet Net combined. Colors include the very newest shades, amethyst, taupe, canard, mustard, Copenhagen, tan, golden brown and navy. Weights are such as go into gowns for evening and summer wear. Display of Summer Millinery on Wednesday

NEARLY every case in our department will be fitted with new summer styles—airy effects in mohair braids, lingerie, creamy leghorns, white chip and dainty lace hats. A special display will also be made of jaunty outing hats with novelty scarfs, which promise to become very popular.
