Detestable Conspiracy Against Civilization

Spanish Premier Outlines His Program, Neutral Official Education and Reduction of the Religious Orders.

LIBERALS ARE UNITED AGAINST CLERICALISM

PARIS, Aug. 12.—The Paris Temps to-day prints a long, sensational interview with Jose Canalejas y Mendes, the Spanish prime minister, covering the recent events which culminated in the severance of diplomatic relations between the Spanish government and the Holy See as well as his future program. Which, the paper says, the premier dictated.

Premier Canalejas begins by declaring that the movement in the north of Spain is directed by rich Catholics, who are inveterate separatists and enemies of the remainder of the country, and intransigent Catholics, whose only program is the reign of Jesus Christ.

The prime minister affirms that he possesses knowledge that the committee behind the movement spent \$80,000 in giving the manifestos of July 10, 1909, their final form. He said that he had seen the manifestos, and that Canalejas says, the agitators organized juntas, "of which, and I announce this publicly for the first time, village priests are the leaders." He said that he had seen the manifestos, and that Canalejas says, the agitators organized juntas, "of which, and I announce this publicly for the first time, village priests are the leaders."

Education Free From Dogma. Senator Canalejas declares that he does not propose to abuse the power conferred in him, but that he will use it resolutely to establish a preponderance of civil power. It is his intention to pass a law insuring neutral official education not hostile or favorable to any creed or philosophy. Different political groups have different ideas, but they are one against clericalism.

Senator Canalejas frankly states that the time has arrived when the question must be solved. If the Liberals fail, a popular explosion, he says, is sure to follow, and he understands perfectly that his adversaries wanted a rupture with the Vatican in the hope that it would mean his downfall, under the illusion that the return of the Conservatives to power would enable them to maintain the status quo. "But," the premier says, "the status quo is finished forever in Spain."

The prime minister declares the reports that his policies are inspired by the councils of the French government and the royal family of England do not interest him.

PREMIER CANALEJAS
Of Spain, who announces his determination to fight for supremacy of civil government.

HON. RODOLPHE LEMIEUX TO REPRESENT CANADA

Will Be Present at Opening of First Parliament of United South Africa

OTTAWA, Aug. 12.—(Special.)—Hon. Rodolphe Lemieux, postmaster-general, has been appointed by the government the official representative of Canada at the opening of the first parliament of United South Africa. He will sail for England on Aug. 20. The South African parliament opens on Oct. 5.

The Duke of Connaught will be the representative of His Majesty King George at the function, which event prevented his earlier arrival in Canada as governor-general.

It is a commentary upon the cosmopolitan nature of the people who live under the protection of the British flag that the premier of South Africa is a Boer, namely the famous General Botha, while the representative of Canada is of French extraction. Delegates of other nationalities will also be there.

While Mr. Lemieux is in England he will confer with the imperial authorities regarding the question of better and cheaper cable connection across the Atlantic. It is expected that a definite scheme will be formulated and adopted shortly. When this is accomplished the greater scheme of an all-India cable will be undertaken.

FUNERALS OF VICTIMS

Remains of Ismena Scully to be Taken by Father to Windsor.
The bodies of Miss Ismena Scully and Miss Margaret Jaffray were conveyed to the Jaffray home, 17 Pacific avenue, by Undertaker A. W. Miles, in the afternoon. Miss Scully's remains will be shipped to Windsor either to-day or to-morrow for interment in the local Catholic cemetery. Monday morning. The dead girl's father will arrive in Toronto to-day from New York, likewise an aunt from Lake of Bays. Another aunt is a sister in St. Joseph's convent, in which institution deceased graduated.

Miss Jaffray's funeral will take place from the residence of her father, 17 Pacific avenue, on Monday afternoon. These make 23 persons who have been drowned in the tragedy and lake near Toronto since June 1st.

TELEGRAPHIC BRIEFS

The Landgrave of Hesse will visit Canada.
M. Lesulin fell with his aeroplane at Charlottetown and may die.
Thirty thousand hoppers in the suburbs of Tokio are submerged by floods, which have washed away whole towns and villages.

THE SUNDAY WORLD

The Sunday World has got into the life of most of the good people of Toronto. There will be many attractive features to-morrow.

THE ILLUSTRATED SECTION:
Front page of illustrations of some recent sporting events, including the Henley Regatta, the great lacrosse match between Tecumseh and Nationals at the Island Stadium, and Controller Foster's picnic.

Another full page is devoted to the Salvation Army summer camp for poor children at Clarksburg. They show in a striking manner what this splendid organization is doing to bring sunshine into the lives of the unfortunate.

There is a half-page of The Hague Tribunal on the North Atlantic Fisheries question. In the group are many prominent Canadians, including Sir Charles Fitzpatrick, Hon. A. B. Aylesworth, Hamar Greenwood and W. N. Tilley of Toronto.

Several fine views of the opening of the St. Andrew's Locks by Sir Wilfrid Laurier, and a miscellaneous assortment of pictures depicting farm and city life.

MAGAZINE SECTION:
Carefully selected news from foreign countries, with striking illustrations.

Page of editorial comment.
Literary news and views.
Page of interest to music-lovers, including a weekly feature, a popular selection.

Two full pages devoted to the automobile and the motor boat. Green room gossip and happenings of the local theatres, including Sam Landers' labor column is a feature of The Sunday World. He writes with first knowledge of the labor situation.

Accounts of the Fire Overdrawn

Civic Officials of the Town of Cochrane Deny Sensational Nature of the Configuration of Sunday Last.

Editor World: I notice with regret a wild and highly exaggerated account of the fire which took place here in Cochrane, on Sunday, and stating amongst other things, that several families were rendered homeless, and that tents were being hurried from Cobalt.

There is not a particle of truth in this statement. There are four or five tents erected near the scene of the fire which parties have put up to protect their goods, and I should say that the outside number of people living under canvas is from fifteen to twenty. There was plenty of room for everybody whose property was destroyed, and no one who was not offered shelter, and certainly nobody was without cover that night.

With the exception of those belonging to me and to the people in the same building, the contents were saved, and only the buildings on five lots were burned, and no one was hurt. We have some six or seven hundred lots. It is rather a stretch of the imagination to state that half the town was left to burn.

At the outside, from estimates that I can gather, the loss does not exceed \$50,000, with very little insurance. I should like to know who in Cochrane asked for assistance of any kind from Cobalt or any other town, or who sent tents or even a solitary tent to us here.

The buildings that were burned for the greater part were constructed in the winter, and some of the first to be erected, were by no means substantial buildings, which shows that the loss could not have been very heavy.

L. Bradley, Town Clerk, says that the facts as stated above to be as accurate as can be arrived at under the circumstances, and that the original article was misleading and injurious.

T. J. McManus, Mayor.
G. Lloyd, Manager Imperial Bank.
E. P. Keane, Bank of Ottawa.

GRAND TRUNK HAS A SURPLUS OF \$47,200

able to Pay Full Dividends on Four Per Cent First and Second Preference Stock

OTTAWA, Aug. 12.—G. T. R. gross receipts for the half year are \$3,321,600; working expenses, including dividend of \$120,000 in engine, car renewal expense account, \$2,456,000; net receipts, \$65,600.

After meeting revenue charges and deducting deficiencies on working the Canada Atlantic and Detroit and Grand Haven, there is a surplus of \$47,200. This, with \$11,800 brought forward, enables the company to pay full dividends on the 4 per cent guaranteed first and second preference stock; \$12,000 is carried forward.

The Great Western, with balance forward only \$77,000, is expected to meet interest on the first mortgage bonds, leaving \$17,200 carried forward. Of expense account there should now remain only \$17,000 to be wiped out during the current half year. During the second half of last year \$250,000 of revenue was absorbed by this account.

Miss Jaffray's funeral will take place from the residence of her father, 17 Pacific avenue, on Monday afternoon. These make 23 persons who have been drowned in the tragedy and lake near Toronto since June 1st.

AMONG THE SOLDIERS

Col. Hughes May be Appointed Quarter-Master-General of Canada.
OTTAWA, Aug. 12.—(Special.)—With the promotion of Gen. Oller to the position of inspector-general of the forces in Canada, several other changes are on the boards. Of course Col. Lessard goes up. The place of Sir Frederick Borden, and quarter-master-general, goes out of office automatically this year, as a time expired servant. His office, it is said, may be filled by a militiaman who has seen long years in the service and has won no little notoriety. Who he is, is not authoritatively stated, but in some quarters it is said to be Col. Sir Hughes, M.P. Some of his friends say that he is tired of the political game and that soldiering is his own infatuation.

LIKE AN APPLE ON A SPIT

Head of Falling Balloonist Transfixed on Limb of Tree.
NEW YORK, Aug. 12.—Benny Prinz, a young balloonist, met a horrible death this evening at the close of the aviation meet at Asbury Park, N. J. In making a double parachute drop, the second parachute failed to open, and he fell more than 2000 feet. As the awing body neared the ground it struck the limb of an apple tree, and the boy's head was transfixed on the limb, like an apple on a spit. As it struck the ground the headless body crashed into an unrecognizable mass.

THE GRAND TRUNK STRIKE

Was a Great Success—Better Conditions, Better Pay and All the Men to Get Back

A very decided effort has been made by the papers of Toronto, Montreal, Hamilton and elsewhere to make it seem that the late strike of the Grand Trunk conductors and trainmen was more or less of a failure, was ill-advised, etc.

What are the facts? First, that these men gained the recognition of standard pay (same as the C. P. R.) on Jan. 1, 1911, less than 17 months hence. This is the greatest victory. After that date there will be no more working for less than C. P. men "because the Grand Trunk is in financial straits." The only persons doing business with the Grand Trunk who have recognized this claim have been the workmen. The railroads, the bridge builders, the supply men all got market prices. The men will in 1911. That was the big win.

Second, they got standard rules governing their work and the classification of work on that date, same as G. P. R. men. This is a great benefit, and will mean a five to ten per cent betterment.

Third, the men got increased pay right off. The increase is 17 per cent, according to Mr. Hays. The men say it is not quite so much—perhaps 15 per cent.

Fourth, all the men are to be taken back within three months. The Ottawa Government has received a pledge to that effect from Mr. Hays. Why this was withheld from the public statement given out The World does not know. But it is true. Over four thousand men went out, about 1900 are yet to be taken back, and they will be. Some of them have got better jobs on other roads. The men who are waiting to be called back are chiefly at Windsor and Detroit. Why? But they are all to go back, and the company is anxious to get them back, but it seeks to step-down its surrender to the men.

Lastly, the recognition of standard pay and rules for trainmen and conductors means the recognition of these two principles for the other branches of Grand Trunk labor: engineers, firemen, telegraphers, maintenance men, etc. The men are not complaining at the settlement nor saying anything against their leaders. Even the men who are still waiting to be called back are not saying much.

The unfriendly newspapers, and they are many, are doing the talking.

CITY IS ALARMED RAILWAY AND MEN FOR BAR PERILS LIKELY TO AGREE

Yachtsmen Pass Strong Resolution of Censure—Sandbar and Weeds Endanger Navigation.
Judge Barron Says Situation is Now Clearing Nicely—William Mackenzie Wants Settlement.

Members of the National Yacht Club have indignantly over the criticisms which they say have come from various sources regarding the management of pleasure craft on Toronto Bay, and at a meeting held last night at the clubhouse, many of them voiced their sentiment very emphatically.

The result was that a vote of censure was passed on the Toronto City Council for alleged negligence in allowing the bay to get in a dangerous and unnavigable state for small boats.

It was the opinion of the meeting that the triple drownings accident of Thursday night would have been avoided had there been no sandbar and the weeds had not been allowed to accumulate in front of Centre Island.

The only entrances we have into Hamilton's Point and Centre Island," said one of the members, "are thru the ferry channels."

That the club are in dead earnest is evidenced by the fact that a letter was framed and addressed to the mayor, council and board of control, a copy of which was supplied to The World. The following is the letter:

Letter to the Mayor.
To the mayor and city council and board of control of the City of Toronto.
Gentlemen—In reference to the comments that have been made in the public press and by civic officials and steamboat companies as to the postponing of the pleasure craft on the bay, we would like to present to you some of the difficulties that pleasure craft have to contend with. In the case of the last sad accident at Centre Island, had the city dredged, been put to work on any other place beside the steamboat channel, the Directors would not have had to get in the way of the ferry, but it is impossible for any small boat to get into Centre Island, without going into the regular ferry channel.

It is impossible for any small boat to get into Centre Island, without going into the regular ferry channel. It is impossible for any small boat to get into Centre Island, without going into the regular ferry channel.

Both steamers are scheduled to leave Quebec on Thursday next, but a report is in circulation that Inspector Dew and Detective Mitchell may convey their prisoners to Rimouski and take passage at that place.

No photographs of the prisoners have been taken, although one enterprising visiting photographer succeeded in photographing a man named Giddiot behind the prison bars and insists that it is Crippen's photograph.

Neither of the prisoners has as yet seen a clergyman, and they have not asked to see one, and their only apparent anxiety is to leave Quebec as soon as possible.

All kinds of offers have been made the prisoners to give out a story of their lives, but in each case the offers were turned down.

Will Be Worth Reading
The Story of PATRIARCHE AND CO. as told by P. H. PATRIARCHE himself will be printed in The Sunday World.

Many creditors of the financial company, whose offices were raided by the Toronto police a few months ago, will be glad to learn that Mr. Patriarache says all obligations will be met in October next.

Mr. Patriarache has recently returned from London, England, where he successfully floated a Canadian oil company.

How West Looks

D. D. Mann Is Back

Southern Portion of Provinces Have Poor Crops; But It's Better up North—300 Miles of New Rails.

D. D. Mann, vice-president of the C.N.R., arrived home yesterday afternoon from his trip of inspection of the western extension of the system. He left Toronto on July 8 and went as far as the Portland Canal.

Speaking of the crops in the western provinces, he stated to The World last night that in Alberta and Saskatchewan the crops were not up to the average. In fact, in the southern portions of all the provinces they were generally short. In the northern part they were better, however, and in the Saskatchewan valley they were very good and there will be an abundant crop. There was a fair crop in the middle and southern part of Saskatchewan.

Mr. Mann was quite enthusiastic over the progress made by the company in the construction of new lines.

"We have put down 300 miles of new rails this year," said the vice-president, "and we expect to put down considerable more this year through the whole three provinces." The Pacific station is now about sixty miles long. Across the Fraser River a new townsite has been surveyed, and as the place is a base of supplies for the construction gangs, quite a little town is springing up. It is understood that it is the intention of the C.N.R. to pool its interests with a whole oil industry on the Pacific coast, which is said to be a most profitable industry.

FARMERS WILL NET MORE

VANCOUVER, Aug. 12.—(Special.)—Reports submitted show that while the wheat crop in British Columbia is the almost million bushels below last year, farmers will derive at least 25 per cent more return than a year ago. This is figured on the prediction that they will net twenty cents per bushel more than a year ago, and labor this season will be cheaper than when last year's crop was harvested.

S.O.E. TO ESTABLISH MANTOBA GRAND LODGE

Niagara Falls Chosen as Next Meeting Place of Supreme Grand Lodge

OTTAWA, Aug. 12.—(Special.)—The supreme lodge, Sons of England, decided upon an important new departure at to-day's sitting, when a report by the general purpose committee in favor of acceding to Manitoba's request for the right to establish a provincial grand lodge was adopted.

No official announcement was made as to the amount of financial assistance granted to Manitoba to establish a grand lodge, but it is understood that \$500 was voted for that purpose, and that the supreme lodge will pay all claims on funeral fund for a period of six months.

Niagara Falls was chosen as the place where the grand lodge will meet in 1912. Among the places competing for the honor were Toronto, London and Vancouver.

In view of the fact that an act has already been passed by the imperial parliament amending the coronation oath, no action was taken in regard to it by the grand lodge. It was decided to refer to the incoming executive committee the question of dreadnoughts and the Canadian navy. The question of the employment of coolie labor in Canada will be referred to the executive and the St. George's Society.

The usual vote of 150 was passed by a vast president's jewel for Mr. D. C. Smith, and the grand lodge president. The executive was instructed to get a jewel of merit for Rev. Dr. Ikon, as a recognition of his services to the grand lodge of South Africa, which is subordinate to the Canadian supreme lodge. At the concluding session in the evening the new supreme lodge officers were installed.

SIR WILFRID AT CALGARY

Premier Greeted by an Immense Crowd and Presented With Address.

CALGARY, Aug. 12.—Sir Wilfrid Laurier completed another leg in his western tour, when he arrived here at 1.30 this afternoon. An immense crowd greeted the premier, and Mayor Jamieson, on behalf of the city, read an address of welcome. In reply, Sir Wilfrid referred to the growth that had taken place since his last visit to Calgary, sixteen years ago, a growth which he had not altogether expected to see. He declared that Calgary was one of the commercial metropolises of the Dominion.

A pleasing incident occurred on the way from Red Deer. As the premier's train was passing thru Bowden at about ten miles an hour, a group of school children had gathered at the station. Sir Wilfrid stopped the train, and the children were allowed to get on the train and did not give up until he had placed the offering in the hands of the premier, who leaned forward to receive it.

Miss Marie Collins of New York, the guest of Mr. and Mrs. Thomas R. Henry at the Prince George, Sir and Mrs. Henry have just returned from a tour of the eastern states.

O. O. R. LEAVING FOR ENGLAND TO-NIGHT

"Girl I Left Behind Me" Will Be Popular Air at 10.30 p.m.—Sir Henry and Lady Pellatt to Be Honored at the Armories.

Toronto will bid farewell to 632 of her citizen soldiery, the Queen's Own Rifles, to-night, and seven weeks or so hence she will welcome them back from their course of military training and, incidentally, sight-seeing. At 10.30 to-night the train carrying them away to distant fields will pull out of the Union Depot.

England is far away from Canada, geographically and the distance in miles has some effect on the intimacy of trade and other relations. But the coming of the Queen's Own will be heralded thruout the British Isles and the uniqueness of the trip will bring it with exceptional force to the attention of Britons of all callings. Canada is a greater country than they thought and worth being on closer terms with. The optics who have read the glowing descriptions telling of the glories of Canada and who

SIR HENRY PELLATT,
Popular citizen soldier, who is promoting imperialism in a practical way

had recourse to the salt-cellar will then their mouths and stand that they will come to the conclusion that there was no need for the salt.

The place where this fine body of men with a knight at their head came from will strike them as being a good country to get better acquainted with. Britishers are gradually losing their lack of interest in Canada, but this journey will help wonderfully to stimulate the loss. Once lost it will be better for the people on both sides of the Atlantic.

When Canadians trooped to South Africa to defend the flag there England was shown that Canada was loyal. This trip on the part of the Queen's Own will again make Canada's loyalty plain and continuous.

EXPRESS CHARGES

Manitoba Free Press. There has been presented to the interstate commerce commission a petition from a hundred and twenty-three great commercial States—a petition calling for a thorough investigation by that body of the methods of the express companies. The express charges in the United States are unreasonable and extortionate, and that the industries to which the shipper is subjected in this particular is flagrant and continuous.

All of which serves as a reminder to us on this side of the international line that we are still waiting to hear the result of the investigation into the methods of the express companies in this country, which was entered upon by the interstate commerce commission. It will be remembered that at the time the express companies' earnings were first brought before public attention at a sitting of the railway commission, the figures produced were such as to indicate a very considerable reduction could be made in the companies' charges, and still the companies would reap very large profits.

On a great difference between the situation in this respect in this country, and the situation in the United States is that in this country we have a parcel post system.

The Wall Street Journal says in a recent issue in regard to one of these reasons: "It looks as if the Wall Street stockholders have been able to eat their cake and have it, too. After increasing their capital stock 200 per cent and declaring a 50 per cent cash dividend, some time ago, a quarterly dividend has now been declared on the increased amount of stock at the same rate as prevailed before that increase took place. This is the real argument against a parcel post, and yet the consumer remains ungrateful."

TWO GOOD CHANCES

You have two good chances for the man you hat line. The Dineen Company are selling all the straw hats at very low prices to avoid packing them away for next season. Some of these hats, principally the Panama hats, were only received about two weeks ago.

To buy a straw hat today is to be prepared for next season with something that you will not be able to duplicate then for twice the price. Also the Dineen Company announce that the advance shipments of fall hats have arrived. The store at 149 Yonge-street is open every evening.

HAMILTON HAPPENINGS

HAMILTON A DUMPING GROUND FOR LUNATICS
The Ambitious City Objects to Out-siders Helping to Crowd Her Asylum

HAMILTON, Aug. 12.—(Special.)—Are the outside cities and municipalities using Hamilton as a dumping ground for insane and useless characters? That is a question that is occupying the minds of the police at the present. During the past two weeks three men have been committed to the local asylum for insanity, one being leaving mad. These three men were Joseph Hunt and Ben Spelman of Montreal and Peter Stafford, no address.

SATURDAY MORNING, AUG. 13, 1910.

BREAD.

Last winter The Globe decided that it was not getting good enough value from its baker when it paid five cents for a 20-ounce loaf. It started an agitation against what it called the "bum loaf" and with the assistance of Mr. Nickle of Kingston, got an act passed whereby the weight of the loaf was reduced from 20 ounces to 12. It is a legal offence for a baker to sell a loaf weighing more than 12 ounces and less than 24. So the public has to pay five cents for a 12 ounce loaf. Presumably The Globe also pays five cents for its 12-ounce loaf, unless it has learned, as it endeavored to teach its readers last winter, to bake at home.

The Globe has said a good deal lately on the loaf issue, but has avoided saying anything about the 12-ounce loaf for five cents. Yesterday, "A Consumer of Small Bread," had a communication in The Globe columns protesting against the change in the former custom whereby every loaf had its weight stamped upon it, so that the consumer knew just what he was paying for. This correspondent considers that "the recent bread legislation has given every one interested in a most important branch of trade—the manufacturers, dealers and the public—very considerable trouble, inconvenience and annoyance, which, of course, would be quite justifiable if a compensating good resulted from it, but it has yet to be explained in what way a single human being has been or will be benefited by it."

In reply to this, The Globe has nothing to offer but a dissertation on the fallacy that a loaf equally with a gallon, a yard and a pound, is a standard measurement and should not be interfered with. The idea of placing the loaf on the same basis as the yard, the pound or the gallon is one for which The Globe should have full credit. The Globe should now proceed to establish a standard specific gravity for editorial articles.

Conditions in Canada, are quite unlike those in the old country in the matter of the sale of bread. What is called household bread there is scarcely in demand here at all. The Globe is to be commended for its endeavor to set a standard for this household bread, so that the very poor may not be defrauded. But Canada is in such good circumstances that fortunately the very poor are very few, and most of our people buy a better quality of bread than that which is graded as for household consumption.

Former legislation provided for the better quality of bread as "fancy bread," and this superior quality is in very general use. That The Globe has been the means of compelling people to pay five cents for 12 ounces of this quality where they used to get 15 or 20 was perhaps not intentional, but that is how it has worked out.

The Globe is in error also in going to England for precedents in the weight of a loaf of bread. Bread in England is sold by weight and not by loaf. Nor is bread cheaper in England than here, when the quality of the bread, the grade of flour used, and the fact of delivery being made, are taken into consideration. In England bakers use second and third grade flour for household bread, and the first-class flour that is generally used here is kept in England for pastry. Weight for weight, and grade for grade, bread is quite as cheap here as in Britain.

DANGERS OF THE BAY.

In the tragedy of the bay of Thursday night there is cumulative evidence of the saddest kind that the people of Toronto do not realize the intensified conditions under which they are living. They are still acting as they did when the city had a fourth or less of the present population.

Visitors to the city and those who come to reside here are apt to forget that they cannot do in Toronto as they might in Port Hope or Cobourg. The rules and regulations which are satisfactory in a village community are not as a rule adaptable in larger places, and necessarily the freedom of the smaller community has to be restricted in one of larger proportions. People have to sacrifice some of their freedom for the sake of the advantages which a large centre offers.

Much more stringent regulations will have to be adopted in connection with the traffic in Toronto Bay, and they must be adopted at once. No amount of regulation will entirely prevent accident, but it is clear that a great deal too much is being done. The plea of one of the survivors is pitiful in its inconsequence.

"We expected the ferry would slow down, because the people on the boat saw us." Of course, they should not have "expected." Where human life is at stake

there should be a reasonable degree of certainty. And there should have been such an appreciation of the presence of danger as to prevent such a situation arising. Small boats and crafts of all kinds should be kept away from the dangerous ferry courses. The bay is large enough for all sorts of aquatic sport, but the sport and the traffic should be as widely separated as possible. And people should never forget that water drowns.

MOVING TRAIN TELEPHONING.

Man's inventiveness is steadily extending the sphere of electrical service. British papers publish accounts of the successful trial of a system of wireless telephoning from a moving train perfected after four years' labor by a Munich electrical engineer, now resident in Birmingham. Hitherto the great difficulty has been to avoid the induction caused by the telegraph wires which in Britain line the railway tracks, but that has been obviated by placing a band or bridge of wire entirely round the carriage containing the apparatus. It is claimed that the system can be applied to any length of line, no matter how many wires are in the neighborhood, at a cost of less than \$50 a mile.

The experiment was made over a stretch of four miles between Harley and Three Bridges, on the Brighton Railway, during the passage of a fast train. Conversation is reported to have been held as clearly, and easily as if the train had been stationary and connected by wire with the box. One apparatus was placed in the brake van, while the other was in the signalman's box at Three Bridges. Altogether the train was running at a speed of forty miles no trouble was experienced in giving and receiving messages. The distinguishing feature of the new discovery is that no contact is needed between the moving train and the stationary wire, the electric waves passing from the carriage to the ground wires thru an open air space of 18 inches.

RAILROADS AND PUBLIC NEEDS.

Thirty-five years ago Sir Henry Tyler declared of England that "if the state could control the railroads, the railroads will control the state." That often quoted aphorism has lost nothing of its truth and force when applied to Canada. Indeed it deserves to be kept more steadily in mind since under Canadian conditions railroad domination is both more easily accomplished and maintained in a vast thinly populated country than it can be in a thickly settled and highly developed state. Britain to some extent saved itself by exercising thorough parliamentary control over the construction, location and capitalization of its railroads, as well as over rates and fares. Canada now has a commission with considerable regulative powers, but these do not include the matter of capitalization, which is the determining factor of the amount of profits to be exacted from the public in the shape of rates and fares.

The value of state ownership and operation of railroads and the manner in which they can be made to subserve the public interest, was well illustrated in a speech delivered by the premier of New South Wales in June last, defining the government's policy in anticipation of the then approaching general election. His principal proposals related to the widening of the area of settlement in the state, and they included the overhauling of the whole railway system. Freight on long distance journeys are to be modified, the main lines duplicated up to certain important junctions and new lines are to be built in advance of settlement there. Congestion of traffic is to be met by the duplication, by new lines connecting the systems and by the opening of more harbors along the coast. These ports will be operated by a commission with expert knowledge of railways, harbors and the land. When this method of meeting and anticipating requirements is contrasted with the endless difficulties attending attempts to compel private companies to meet public needs, the case for public ownership can stand without other argument.

His friends will be glad to know that Mr. William Crawford is able to be about a little. There is nothing likely to be immediately fatal. Mr. Robert Cook's generous offer to donate fourteen feet frontage from his Yonge-street property for the purpose of widening the street should receive attention from the city authorities. The other property owners may desire to emulate such a public spirited proceeding and assist in carrying out this desirable improvement.

A PUBLIC SPIRITED CITIZEN.

Editor World: I see by your paper that the council has appointed Mr. Fossler to interview the property owners on the west side of Yonge-street to find out what they would take for ten feet of their frontage with a view to widening the same. Now, Mr. Editor, I proposed that 20 feet should be taken of the west side, but on giving the matter further consideration, I find that 14 feet would be about the most desirable width that can be got, so that the railway company would not need to move their present tracks; then allow eight feet for a devil strip and six feet for another track, and by placing the electric and telegraph poles in the devil strip and reserving the feet on either side of street for sidewalks and boulevard, you would have a 20 foot driveway on either side of the street. The telegraph company should not allow their poles to obstruct our highway. It would be as easy for them to be put in the devil strip as to put them on the sidewalk. Fourteen feet would cost very little more than ten feet as regards grading and keeping in repair. Now, Mr. Editor, if every property owner gives 14 feet as a gift to the town I will give my 14 feet frontage. Or if they will sell by arbitration I will follow suit. You are aware that the good roads movement is talked about, and Toronto's representatives at their meeting give it their support. Now, again, Yonge-street thru our town should in my opinion be made a pattern for all other roads leading into Toronto, as we hold the key to the greater Toronto movement. Without our town Toronto cannot extend its limits in any kind of shape or to any advantage.

BEFORE PARK.

P. S.—I was forgetting to state that if ever there is a main sewer put down there would be ample room on either side for the same, while the other side could serve as traffic way. As you know we are bound to have heavy traffic thru our town whether we be part of Toronto or remain a town, as at present. The double tracking of the street might induce the railway company to give us single fare to any part of Toronto or vice versa. It might be part of an inducement at any rate.

Local Grain Men Think West is Now Ravages of the Bread Scourge in Russia Estimated as High as 40,000 Deaths.

BERLIN, Aug. 12.—The Austrian and German health administrations are pursuing common measures against the invasion of Russian cholera. Telegrams from points on the Austrian frontier intimate that the pestilence is most alarming in the Provinces of the Don Cossacks, Yekaterinobsk, Kherston and Kuban. Medical agents from both the Austrian and German governments stationed in Russia, report the scarcity of physicians. It appears probable that the number of deaths is larger than is indicated in the official report received here. This report placed the number of fatalities on July 31 at 25,544. Unofficial opinions vary in estimates, some of them placing the number of deaths as high as 40,000.

Japan's Railways in 1909.

Japan's first railway was a line eighteen miles long, between Yokohama and Shimabashi, opened for traffic in 1852. Construction and ownership of a national railway system by the government appears to have been the original purpose, but the plan was abandoned a few years later because of belief that private enterprise would establish more rapidly the much needed routes.

BIG BASEBALL PROFITS IN THE MAJOR LEAGUES

Net Margin on the Average for One Club per Year \$200,000, Says Sam Crans.

The profits of a major league baseball club in a big city are something enormous, writes Sam Crans in New York Press, and while club owners endeavor to hide their business affairs from the general public, baseball fans and the baseball public who make the national game popular and prosperous and the business profits possible have a right to know something about where all the good money that they produce at the box office every day, goes to and whom it benefits. As a general thing the major league clubs do not readily let the public attend to the details of their business, and that is their privilege, if they so desire; but to one who has had experience in sizing up crowds for years, a guess at the number which a crowd is not so very far out of the way.

Seating Capacities. The various grounds are well known. They are not kept secret, so it is not a very difficult proposition to come within a few hundred of the correct numbers of a baseball crowd. The Polo grounds will seat 31,000 people; Highland Park, 18,000; Fenway Field, 25,000; Shibe Park, 25,000; Philadelphia Park, 20,000; West Side Park, 30,000; South Side Park, 25,000; and nearly every club of the sixteen in both major leagues can seat 15,000 people or over. Consequently there could hardly be any limit established for a total attendance, if every day was a Saturday, a Sunday or a holiday. But you do not have to go that far to figure out about how much one of our metropolitan baseball clubs can count on for profits under a reasonable season. And I will promise, too, that I will be very conservative.

The Expenses. In the first place, let us take the prospective expenses of a club during a season, and mind you, I am going to put them big enough so that even a club owner who wants to hide figures cannot find fault. Well, we will take the salaries of the players, which I place at \$250,000. This is an average of \$5000 a man

and any baseball man will acknowledge that is going sky high. President's salaries, \$5000; assistant secretary and treasurer, \$5000; southern training trip, \$5000; season's rent of ball park, \$20,000; traveling expenses during championship season, \$20,000; and incidentals \$20,000. And this, mind you, is for a season of about seven months. A pretty hefty amount for every club to spend—when you say it quietly.

The Receipts. Now we will take up the matter of receipts. There is not a single club at the Polo Grounds on a pleasant afternoon, but it is not good for a 2500 attendance, ball is allowed, the Giants are sure of a but a few short of that number. But I will allow the home club \$500 for each of the thirteen Saturdays, making \$6500. Each club is scheduled for 71 games at home and abroad. With the thirteen Saturdays off, that will leave 54 week days, and they ought to average the home club \$2000 each, a total of \$108,000. Seven club days away from home at 2000 each, \$140,000; 12 Saturdays abroad at \$4000 each, \$48,000; and 55 week days abroad at \$1500 each, \$82,500. This totals up all told for receipts, \$332,500. Here is the summary:

13 Saturdays (at home), \$5000	\$65,000
21 week days (home), \$2000	42,000
7 Sundays (abroad), \$2000	14,000
12 Saturdays (abroad), \$4000	48,000
55 week days (abroad), \$1500	82,500
Privileges, home grounds	19,000
Total receipts	\$332,500
Expenditures.	
Players' salaries	\$250,000
President's salary	25,000
Secretary and assistant salary	5,000
Rent of ball park	20,000
Employees	3,000
Season's training trip	5,000
Traveling expenses	20,000
Incidentals	20,000
Losses by postponements	24,000
Total expenses	\$322,000
Net profit	\$10,500

RESTIGOUCHE WINNER STAKE AT SARATOGA

Shilling Lands the Feature, Also Two Other Races—Entries for To-Day.

SARATOGA, Aug. 12.—Restigouche, outclassing his field, easily won the Schenectady stake, one mile, the feature of the card here to-day. Shilling led a good day, riding the winners of the second, third and fourth races. Butwell was severely criticized for his ride on Heckimer in the second. He was riding the best horse, but he pulled on the rail in the deep going which brought about the defeat of the colt.

FIRST RACE—Selling, 2 years, \$400 added, 5/8 furlongs: 1. Helen Barbe, 110, (Archibald), 6 to 1. 2. The Hague, 110, (Kocner), 8 to 1. 3. Vansee, 110, (Butwell), 30 to 1. 12 to 1. 4 to 1. Time, 1:10 2-5. Pleasant, Eden Hall, Whin, Isabelle, Excellence, Indora, Decency, Indian Girl, Pickanline, Inschorp, Busy Miss, and Mars also ran. **SECOND RACE**—Handicap, 3 years, \$500 added, 7 furlongs: 1. Shannon, 106, (Shilling), 3 to 1. 6 to 1. 2. Herkimer, 110, (Butwell), 7 to 1. 3 to 1. 4 to 1. 5 to 1. 6 to 1. 7 to 1. 8 to 1. 9 to 1. 10 to 1. 11 to 1. 12 to 1. 13 to 1. 14 to 1. 15 to 1. 16 to 1. 17 to 1. 18 to 1. 19 to 1. 20 to 1. 21 to 1. 22 ARGUMENT FOR TARIFF REFORM.

In an old country paper, the "Halifax Guardian," is published an interview with a Yorkshireman, who has, in short time in Toronto as a carpet weaver, earned sufficient to pay a holiday visit to his home...

THE LURE OF TORONTO.

It was about this time that a friend, who had "struck oil" in Toronto, wrote and told him that work was there for good men. With things in the state they were in at home, "J.H.S." decided he could not be much worse off, so on September 10 last he sailed, leaving behind his wife and grown-up family.

NOT IN MY LINE OF BUSINESS.

Going on with his narrative, he said of course it depends on the man. If he was a good man at carpet weaving he need not be without a job.

CITY BONDS

Next to Government Bonds the securities of our Canadian cities make the safest form of investment—are issued to provide for public improvements, making them a direct obligation of the community—the principal and interest being payable from tax collections.

In our current list we submit offerings of city bonds at prices to net the investor the best interest return consistent with present monetary conditions.

The rate of income ranges from 4 1/2 to 5 per cent.

Definite Strength Exhibited By New York Securities

Wall St. Displays All-Day Bullishness and Closes Near Top. Canadian Exchanges Also Buoyant.

World Office, Friday Evening, Aug. 12. Speculative securities on the Toronto Exchange were in better demand today, the trading was still of a small amount.

A recovery on Wall-street acted as a tonic to local traders and stock which was pressing on the exchange yesterday was held at higher quotations.

The upward movement was confined to the active issues, such as Mackay, Rio, Twin, and C.P.R., each of which made further gains on the recent rally.

Among the investment stocks in the market the strongest issues were the Maple Leaf Milling shares, which sold at a good advance, both common and preferred being in excellent demand.

The strength of the market today was largely due to the small amount of offerings from outside holders, who are satisfied with the dividend rates at current prices. Bank shares and other securities of this kind held with a steady firmness, and in this department, as in the more speculative securities, there was a moderate demand from investors who are not looking for immediate profits.

WALL STREET POINTERS.

London settlement concludes to-day. Meeting of General Chemical to-day to increase capital stock.

American Sugar Refineries again running full time despite strike.

Serious German shipyard strike continues, affecting all principal German ports.

Pittsburg metal brokers talking of 50 per cent. cut in iron.

Gain of New York banks in currency for the interior for July \$21,472,000, largest month on record.

Employees on Atchafalaya of Rock Island and Atchafalaya systems adopted resolutions asking President Taft, the industrial commerce committee and all national state law makers to permit a raise in freight rates.

Joseph says: "Unquestionable improvement in the general market is impending. Buy Pacifics. A big rise will be forthcoming in New York Central and other stocks. Pennsylvania and other stocks may safely be taken on all little dips."

NEW YORK AUG. 12.—(Special) Farquhar, who has been prominently connected with the so-called Pearson Syndicate whose stock holdings in several railroad were taken over by a New York banking institution recently, is reported to have contacted a group of syndicate holders to-day that any syndicate had existed. Mr. Farquhar was an arrival from England on the Lusitania. The English capitalist said: "The members of the so-called syndicate were simply individuals who had stocks in their own lines and various railroad properties. It may be a more or less direct line of connection between the Atlantic and the Pacific coast, but that there was any concerted action to obtain control of a transcontinental chain of roads by a body of Englishmen is simply absurd."

MAPLE LEAF STOCKS

Are Absorbed by Investors and Show Resiliency.

No securities in the Toronto market have shown greater resiliency or more resistance to pressure from sellers than the Maple Leaf securities, both common and preferred. During the depression in the market a couple of weeks ago a few holders of the big things that have been made by the Ogilvie and Lake of the Woods shareholders.

Annual crop and business summary of Continental and Commercial National Bank of Chicago will say that the extreme optimism of last autumn was not warranted, but situation righting itself. West in better shape and general crop conditions satisfactory. Western buyers feel that the worst is over and business outlook now more hopeful. Disturbing elements have been eliminated.

Latest information indicates that unless manipulative interests responsible for the recovery shall resume operations for improvement, professionals who have been working for a reaction will extend their selling into an attack to bring about lower prices be-

HIGHER PRICES ARE PROBABLE.

World Office, Friday Evening, Aug. 12. Interest in Canadian securities is still of a laggard description, but supporting interests have evidently come to the conclusion that higher prices can be evolved at the present time without encouraging liquidation. The movements in the speculative securities are tentatively bullish on this account, and it can be said in its favor that realizing on the small advances is as yet causing no embarrassment. There is undoubtedly a division of opinion in regard to what might be considered fair prices for some of the speculative stocks, and sufficient latitude exists to admit of sufficient changes to back up the opinions of both sides. The Toronto market shows a substantial undertone at the moment, and higher prices are not improbable before selling is sufficient to retard the upward progress and produce a decline.

Dividends Declared.

American Chiclé declared regular monthly dividend of 1 per cent.

ON WALL STREET.

Erickson Perkins & Co. had the following: Stock closed at high prices, with the Grangers, Penna., and Steel leading. Steel touched 71 for the first time in many days. The buoyancy of Union Pacific and Reading was suggestive of a drive at the short end of the market. The close looked better than earlier in the day. From the looks of things there was temporary support in this issue. The market may carry somewhat higher early tomorrow; if it does, it will invite sales on long stocks again and perhaps result in another state law makers to permit the supply of stocks is not large, which fact suggested to traders the propriety of covering contracts. There was a dearth of news to-day, but with a further large increase in cash and a possibility of another good bank statement to-morrow, chances favor a higher level for stocks. The local market appears to have gained some \$200,000, mostly from the interior. Surplus reserves should be enlarged in to-morrow's exhibit. The market strength of the corn market was ignored by stocks.

Canadian Failures.

Dun's Review says: The number of failures in the Dominion during the past week has increased as compared with those of previous week, and corresponding week of last year, is as follows:

The **SIMPSON** Store

No Dull Days Here

All This Month the Store Has Been Humming With Activity

The **Hosiery Sale** is making all its own past records look sick. News of this spectacular selling has reached every province in Canada and we are getting big orders from distant points every day.

The **Furniture Sale** is fitting up hundreds of homes with the better kind of furniture and closer to factory prices than has ever been done before.

The **Black Silk Sale** is a boon to prudent women who want to get their black gowns ready before all the dressmakers are too busy. At present our range of black silks and dress goods is one of the finest displays on this continent.

New Goods from Europe are arriving weeks earlier than usual, and all through the store genuine enthusiasm pervades the departments as they note customers' appreciation of the new goods.

Summer Visitors

Excursionists make this store their rendezvous, because it is THE BEST PLACE FOR SOUVENIRS. Novelties in Neckwear, Hair Ornaments, Leather Goods, Toilet Articles, Fancy Work, China, Bric-a-brac, Silverware and Jewelry can be had at marvelously low prices.

In the daylight basement, cool and well ventilated, there is the best equipped Ice Cream and Soda Water Service in Canada.

The restaurant on the top floor, with its wonderful view, is the delight of tired and hungry shoppers. A fine orchestra adds to the pleasure of the meal.

The ladies' rest room (third floor) is a boon to travelers, the check office for parcels and hand baggage (main floor) is not the less efficient because the service is free.

N.B.—Special delivery to railway stations and docks.

Telephone Orders

Bar accident, you can shop here by telephone just the same as if you came to the store. We would choose the pleasure of seeing you as well as hearing you, but if you choose to 'phone we'll do our best to cut out even the accidents that "happen in the best regulated families." In filling about ten million orders a year of one kind and another, of course there are ten thousand thousand chances for mistake, but we aim at the minimum of the railways of the United Kingdom, which last year hurt only one passenger in three and a quarter millions. We'll be as careful of your feelings as the railways are of their "fares."

Try ordering something every day by telephone till we get used to the sound of your voice. Fifty lines to central. No delay. Direct communication with departments.
