

RUSSIAN BARRAGES AT LIAOYANG

THE HEAVY BATTLESHIP FIGHTERS MAY THRU

Kuropatkin Faces Attack of Three Combined Armies of Japs. Terrible Havoc—Engagement Becomes Hand-to-Hand Affair—And Still Struggle Goes On.

The heaviest battle of the war raged today around Liaoyang. Following the rearguard action which Kuropatkin has fought in his retreat from Anping and Anshih-shan, he has either elected or been forced to give battle and is meeting the attack of the combined armies of Kuroki, Nodzu and Oku.

BATTLE OF LIAOYANG.

St. Petersburg, Aug. 31.—(3.55 a.m.)—The great battle of Liaoyang, which began early Tuesday morning, raged through the day with increasing intensity, but up to now no further official details beyond the brief telegram given out in the afternoon have been received by the office.

The Japanese forces engaged in the battle can only be estimated here, but they are believed to number about 200,000 men. Gen. Kuropatkin is known to have six army corps and 147 squadrons of cavalry, in which great confidence is reposed.

Reports from the front credit the Japanese with having about 200 guns and many mountain batteries, and it is known that they recently shipped 24 heavy guns to Yinkow.

Gen. Kuropatkin, in addition to his field batteries, has a number of very heavy guns placed at important positions at Liaoyang, where the Russians have been strongly fortifying for some time.

The Japanese claim to have captured the field batteries during the past week. It is stated that a Japanese battery was captured south of Anshih-shan during the preliminary fighting, and that the Japanese have been destroyed since then.

Little of the strategic situation has developed so far, but it is believed from the front that there was desperate fighting on the southern centre, while the Japanese have been steadily attacking the Russian right in the neighbourhood of the batteries. The fighting on the western flank appears to have approached within three miles of Liaoyang.

A despatch from Vladivostok mentions the presence of Gen. Erenskampff, who recently left the hospital at Liaoyang on sick leave.

St. Petersburg, Aug. 30.—In a brief telegram received this morning, Kuropatkin says the general advance of the Japanese began yesterday at noon. The Russian outposts falling back upon the main line, the heaviest fighting was taking place when his despatch was sent from a point ten miles southeast of where the Japanese seem to be concentrating for their main blow.

The Russians suffered principally from the sharp fire of the Japanese artillery. The Japanese selected the military birthday for the decisive battle, and it will not be surprising if to-day is also signalized by a grand assault on Port Arthur.

St. Petersburg, Aug. 30.—A despatch from Gen. Sakharoff, dated from Liaoyang at 10 a.m. to-day, says: "The main Japanese attack is being directed against the Russian centre, and at 9 o'clock a Russian battery within range of the Russian positions during the night. Hot fire was opened at 5 a.m., and by 9 o'clock the Japanese were close to the Russian positions.

The Japanese shrapnel fire inflicted considerable losses on our troops at several points. Lieut.-Col. Kokotkieloff, commanding a battery of the sixth east Siberian brigade, was killed. The Japanese are delivering an obstinate attack on our centre, and at 9 o'clock a Russian battery within range of the Russian positions during the night.

St. Petersburg, Aug. 30.—A despatch from Mukden, Aug. 30.—The stubbornly fought battle which is on foot to-day around Liaoyang since this morning, all attempts of the Japanese to turn the Russian flank have been repulsed. It is said at Mukden that the Japanese lost over ten guns.

St. Petersburg, Aug. 30.—The Russian correspondent of the Associated Press supplies the following: "The historical battle of Liaoyang, which is on foot to-day around Liaoyang since this morning, all attempts of the Japanese to turn the Russian flank have been repulsed. It is said at Mukden that the Japanese lost over ten guns."

DEGREE FOR J. L. MORGAN

AT TORONTO UNIVERSITY

Discussed by University Men, But Vice-Chancellor Thinks Notice Too Short.

Editor World:—That J. Pierpont Morgan is in this country and will be in Toronto on Saturday with the Archbishop of Canterbury, would it not be a good idea to have Toronto University confer an honorary degree on him? He is a born Britisher and has attained eminence in the world of finance.

The question of conferring the degree of doctor of laws honoris causa on J. Pierpont Morgan has been discussed to some extent among university men and professors, but it has not yet been formally broached to the authorities.

Chief Justice Moss, vice-chancellor, who will officiate on Saturday in the absence of Sir William Meredith, stated last night that he had not been advised that Mr. Morgan would be in the city, and he suggested the conferring a degree had reached him.

Another member of the university staff who did not care to be quoted said he had heard of the proposal but did not believe any official action would be taken. While both the Archbishop of Canterbury and the university authorities would care to be placed in a position such as that of conferring a degree on Mr. Morgan.

With Members of the G.T.P. Construction Commission.

Montreal, Aug. 30.—(Special.)—The commission appointed to construct the government section of the Grand Trunk Pacific will give no interviews to the press.

Mr. Wade, chairman, this evening said he had decided to give no interviews to the press.

Radnor in Canadian water and the best of mixers.

At 3 o'clock the trotting matches furnished some genuinely good sport.

The variety performances cannot well be distinguished from each other in merit, all being so good.

Same Old Stamp 'Success' Marks First Day of Fair

Leut.-Gov. Clark Pressed Button, the Black Watch Played, Ring Performance and Fireworks Pleased, and Exhibits Demanded Admiration.

The things of old, and the things that are forever new, the things of which our fathers have told us, and the things we have made with our own hands, the spirit of the city and the soil of the farm, the beasts of the field and the fruits of the soil, the delights of nature and Vanity Fair—the world in little, are once more displayed in the great Canadian National Exhibition.

The general impression of the first day is of complete preparation, bright freshness, novel exhibits, spacious display rooms and wide passages, and of vaster and more representative exhibits than ever before.

The royal coast guard from President McNaught's remark that His Majesty had accorded them two signal marks of favor in loaning the West picture and in permitting the visit of the Black Watch band.

SAULT STE. MARIE SIGHTS INSPECTED BY LORD MINTO

Northern Town Turns Out to a Man to Extend a Hearty Welcome.

Sault Ste. Marie, Aug. 30.—(Special.)—The people of the Soo to-day tendered a reception to Lord and Lady Minto who, with their daughter, Lady Ellice, arrived last night from Owen Sound on the steamer Britannic, which came on a special trip. The vice-regal party was scheduled to arrive yesterday, but the steamer was delayed along the north shore.

Their excellencies spent the night on board the Britannic and this morning the steamer took short thru the ship canal, giving an opportunity to see one of the world's greatest locks in working order. From the canal they went to the steel docks where the vice-regal party was informally welcomed by Mayor Plummer, the town councillors and a delegation from the board of trade.

The party was escorted thru the steel plant by Mayor Shields, Superintendent Lewis and F. H. Clergue, who showed and explained to their excellencies all the processes from the making of steel from pig iron to the manufacture of rails ready for shipment, in which they showed great interest, making the declaration that it was the most interesting feature of the trip so far.

The charcoal and other plants were also briefly visited, but the shortness of time at their disposal prevented a thorough inspection of any others.

Lord and Lady Minto were warmly received when they came down town in an open carriage escorted by a procession headed by a band. A platform was erected at the court house grounds and an immense crowd gathered to greet the representatives of royalty, who, as they took their place on the platform, were received with cheers. Mayor Plummer read and presented to Lord and Lady Minto an address of welcome from the citizens.

It expressed the honor felt at being visited, an appreciation of Lord Minto's service in Canada, and the hope that both would enjoy long lives after their return to England, and possibly be of service to Canada in other ways while at home.

Lord Minto in reply thanked the people for the reception and said that he would remember Canada and the people in her progress and address from a number of townships were received by his excellency the party were later again escorted thru the streets to the C.P.R. depot, whence they took their departure shortly, to continue their western journey.

TO RECEIVE VICE-ROYALTY.

Fort William, Aug. 30.—(Special.)—Lord and Lady Minto, who arrived here yesterday in the afternoon, will be met at the depot by members of the vice-regal party who will present their excellencies with a farewell address.

JOHN MILLER DIES.

Former M.P. for South Ontario Passes Away Aged 87.

Brougham, Aug. 30.—(Special.)—John Miller, ex-M.P., died yesterday at the age of 87. He was the pioneer cattle breeder and importer of Ontario County, and foremost in the public life of South Ontario for over half a century.

Law Officers to Investigate Incendiarism in Ontario County.

Whitby, Aug. 30.—(Special.)—George Johnston, the man who has been in jail for the past two or three weeks, as a result of the beating he gave his helpless little child, was released yesterday and took the afternoon train home. On arriving there he found his big house had been burned to the ground. As no one had been living there for several days, incendiaries were suspected. County Crown Attorney Fearwell and High Constable Calverley have gone out to investigate, and they will probably hold a fire inquest.

FAIR AND COOL.

Micrological Office, Toronto, Aug. 30.—(S. H.)—The weather to-day has been fair and cool through the Dominion, except in Manitoba and Saskatchewan where showers have occurred.

THE GOVERNOR-GENERAL. In connection with the special commission to whom our most governor-general is to be, there is a discussion as to the powers and qualifications of that official.

FIXED DATES FOR ELECTIONS. It is true, as The Globe says, that the American system of fixed dates for elections could not be introduced into Canada without altering the constitution in other important respects.

NO MORE PERPETUAL FRANCHISES. The municipal council of the Township of Scarborough at the regular meeting on Monday of this week took final action on the petition of the Toronto and Scarborough Electric Railway, and declined by a vote of three to two to give that company any further franchise.

THE RAILWAYS AND THE LAW. A story is told by The Chicago Inter-Ocean of a man who falling to find a seat in a railway train, stood on the platform. He was ordered inside, but declined to go unless he were provided with a seat.

Settlers' Low Rates West. The Chicago and North Western Railway, every day from Sept. 15 to Oct. 15, settlers' first-class round-trip tickets, at very low rates from Chicago to points in Utah, Montana, Nevada, Idaho, Oregon and Washington.

Chicago to Colorado and Return. Via Chicago, Union Pacific & North Western Lines. Chicago to Denver, Colorado Springs and Pueblo, daily through-trip tickets, at very low rates from Chicago to all points in Colorado.

has a right to receive fair value for his money. Recently in the Canadian parliament it was said that it would be a rash and terrible thing to reduce the railway fare from three to two cents a mile.

EDUCATIONAL THEORIES. The changes made by the department of education in regard to the study of Latin have revived the controversy as to utilitarian and culture studies.

But in all these things regard must be had to the necessities of daily life and it is cruel to send a human being into active life with an intellect highly cultivated on one side, but incapable of procuring for its possessor the necessities and comforts of existence.

It is true, as The Globe says, that the American system of fixed dates for elections could not be introduced into Canada without altering the constitution in other important respects.

NO MORE PERPETUAL FRANCHISES. The municipal council of the Township of Scarborough at the regular meeting on Monday of this week took final action on the petition of the Toronto and Scarborough Electric Railway, and declined by a vote of three to two to give that company any further franchise.

THE RAILWAYS AND THE LAW. A story is told by The Chicago Inter-Ocean of a man who falling to find a seat in a railway train, stood on the platform. He was ordered inside, but declined to go unless he were provided with a seat.

Settlers' Low Rates West. The Chicago and North Western Railway, every day from Sept. 15 to Oct. 15, settlers' first-class round-trip tickets, at very low rates from Chicago to points in Utah, Montana, Nevada, Idaho, Oregon and Washington.

Chicago to Colorado and Return. Via Chicago, Union Pacific & North Western Lines. Chicago to Denver, Colorado Springs and Pueblo, daily through-trip tickets, at very low rates from Chicago to all points in Colorado.

not be many days before someone else will be quite willing to accept a limited franchise and build the railway. The World is sorry to hear that a number of the people along the Kingston-road profess to think more of the interests of the trolley line than they do of their own interests as residents of the township.

The same kind of question is up in Hamilton, where on Monday night a new gas company asked for a perpetual franchise on the streets of that city. They based their claim on the fact that the existing company had a perpetual franchise. This is poor logic.

After the tirades against Lord Dufferin and all his works which so recently were regarded, it came rather as a surprise the other day when The Ottawa Free Press declared itself out and out for "militarism" in its most obnoxious form.

It is true, as The Globe says, that the American system of fixed dates for elections could not be introduced into Canada without altering the constitution in other important respects.

NO MORE PERPETUAL FRANCHISES. The municipal council of the Township of Scarborough at the regular meeting on Monday of this week took final action on the petition of the Toronto and Scarborough Electric Railway, and declined by a vote of three to two to give that company any further franchise.

Store Closes To-Day at Five o'Clock

Time's Ripe, Sir, for a Stylish New Hat for Fall. Our hat section is a style centre for men. One step inside the Queen Street Entrance lands you right in the middle of it.

But you will find no fancy prices. These hats have all been made for the EATON trade, so they have the EATON label on them. They are priced in the EATON manner, which means they'll cost you less than similar styles and qualities will elsewhere.

Men's English Fur-Felt Derby and Fedora Hats; calf-leather sweats; silk blend and binding; fashionable shapes for fall wear; colors black, medium and dark brown; EATON'S special 1.00

Little risk of taking cold on chilly evenings wearing this underwear we tell you of to-day. It is well made, fits easy and is comfortable and is durable. Costs comparatively little when you consider the fine quality of these garments.

Have you noticed it? We did years ago. Found out that the ordinary manufactured clothing was not the kind that a man of dressy tastes would care to wear, consequently not the kind we would like to sell.

So we decided on making our own, and what a difference! Maybe you have noticed it. If not, do so in your next suit. The styles portrayed by our cutters are the very latest.

Men's Suits: in single-breasted style; in medium and dark shades of domestic tweeds; sizes 34 to 44; price 6.50

Oldfield Still in Hospital. St. Louis, Aug. 30.—An inquest was begun by the coroner to-day to fix the responsibility of the killing on Sunday afternoon of John Scott and Nathan Montgomery by Barney Oldfield's automobile at the races at the old St. Louis fair grounds.

ENGLISH EXPERT'S VIEW ON THE FIRE

Says, Advisedly—Where Improvement is Necessary.

John Coley Bromfield, C.E. of the Ontario Electric Railway and Ontario Insurance Company, Dryden, and until recently manager of the Scottish Commercial Fire Insurance Company, Glasgow, Scotland, (lately acquired by the Royal Fire Insurance Company), is visiting the city with the double purpose of promoting the interests of his company, and also to inspect the late conflagration with a view to presenting it in a report to a British insurance journal. Mr. Bromfield thinks that the underwriters are justified in advancing rates in the congested districts, where the fire protection afforded was of such an inferior character.

DESERVES SPECIAL MENTION.

Editor World: In referring to the Conservative newspapers in small towns that are advocating government ownership you might make special mention of the Brockville Times.

NIAGARA POWER FOR T.S.R.

Col. Fellatt said yesterday that as the Canadian Niagara Power Co. may have its pole line to Toronto completed this year, power may be supplied to the Toronto Street Railway until the Electrical Development Co., which has the railway contract, is able to give a supply of power hence.

LESSSES AT THE COURT OF REVISION HELD THAT IT HAD NO JURISDICTION TO INTERFERE.

LOSERS AT THEIR APPEALS

Court of Revision Held That It Had No Jurisdiction to Interfere.

The court of revision continued yesterday the hearing of appeals against the assessment of Ward Three, Thomas Bryce, the third member of the court who has just returned from England, was present.

The Carrick property at Bay and Richmond-streets, assessed at \$450 per foot, an increase of \$150, was reduced to \$400, and 21 feet of the lot on Bay-street assessed at \$500 per foot, was reduced to \$200. A similar reduction was made on the land owned by Gordon, Mackay & Co., at Bay and Front-streets.

The King Edward Hotel Co. appealed on the taxation of the Victoria-street frontage, on which it is assessed \$50,000 or \$1400 per foot. It was claimed that the hotel was not liable as the street had not been actually opened to the public.

Nicholas Murphy, K.C., appeared for a number of tenants in St. Lawrence Market. He wished the assessment entirely struck out as no other city with a market charged its tenants taxes in addition to rentals.

THE BLACK WITCH BAND.

What martial strains! wench do they play?

Old John's walls would tottering whirl, And terrible their blows off hand, Before which foes could never stand.

CHRISTENED IRON RANGE.

New Formation at Loon Lake to Be Known as Aniskimik.

Provincial Geologist Miller in a report forwarded to the Crown's Lands Department says that the joint committee inspecting the geological formations in Michigan and New Ontario iron ranges in behalf of the United States and Ontario governments.

HOLD IT TIGHT.

Espey's Herald: A municipality, feeding the franchise for a public utility in its hands, should hold it tight until by careful study it can determine whether it is such a service as can be owned by the people and operated in their behalf.

DUST AND ASSESSORS.

Editor World: For some reason the water-cars of the Toronto Railway Company do not go out Dundas-street any farther than Bloor-street.

LONG LISTS OF CHARGES MARKED DECREASE SHOWN IN INFECTIOUS DISEASE

IN 1900 AND 1901 H. GREY

A. G. McKay Alleged to Have Been Aware of Much Wrongdoing in His Riding.

The returns from 725 division registrars throughout Ontario are most gratifying as indicating the health of the province compared with the same period last year.

Yesterday the particulars in the election protests against the return of A. G. McKay, Liberal, North Grey, and C. N. Smith, Liberal, Sault Ste. Marie, were filed at Osgoode Hall.

In the former there are nearly 500 charges. There are six classes in which Cap Sullivan figures, having made McKay or his agents are charged with having agreed to secure immunity from prosecution for voters violating the bribery law.

McKay mentioned freely. Mackenzie Galloway, Leon Mulley, John McCarty or John Freeman are alleged to have given sums of money to influence the election.

It is alleged that boats of the Consolidated Lake Superior Company and the Ontario Central Railway conveyed voters with the object of influencing voters; that officers of the company conspired to intimidate the auditor, J. C. Ramsey; that respondent offered the position of joint registrar to the Ontario Liberal Association.

ANOTHER TOWN IN LINE.

Gal Report: A few weeks ago Preston voted to establish a municipal electric light service.

The town having obtained fairly good offers the business of public ownership in the service starts off under the auspices of a committee.

On application to J. D. McDonald, District Passenger Agent, Grand Trunk Railway, Toronto, enclosing four cents in stamps, contains 48 pages of illustrations and descriptive matter of a dozen years.

CONCERN AND CAR FEASIBILITY.

Mayor Urquhart proposes to take up the question of trolleys and brakes on city street cars.

VIKING GOES ASHORE.

St. John's, Nfld., Aug. 30.—The Canadian cable repair steamer Viking, which has arrived here from Belle Isle Strait, reports that the steamer Tyrk, from Halifax for Hamilton, left Labrador during a fog, and is likely to prove a total loss.

EXHIBITION FOR ORIENT.

Seattle, Wash., Aug. 30.—The Steamship Victoria will sail from here Nov. 15 carrying only exhibits and exhibitors for a visit to several oriental ports.

MARKED DECREASE SHOWN IN INFECTIOUS DISEASE

IN 1900 AND 1901 H. GREY

Both in Cases and Deaths Records for July Are Most Encouraging to the Authorities.

The returns from 725 division registrars throughout Ontario are most gratifying as indicating the health of the province compared with the same period last year.

Both in cases and deaths records for July are most encouraging to the authorities. The marked reduction in smallpox, as in other infectious diseases, is pleasing.

The total deaths from all causes as reported are 1881 from a reporting population of 1,960,250, or 96 per cent. of the previous year.

SPECIAL

PRICES HELD DOWN BY GRASS

A larger number of cattle than heretofore has been fattened for export upon the grass in the western counties of Ontario. In the past year or two much land that is of ordinary cultivation has been turned into grass land, to fatten cattle. Some farmers assert that they could not obtain proper help to keep the land in cultivation. Evidently the fattening of grass cattle this season and the two previous years has been remunerative, but the success of the past three seasons does not insure good profits for the coming season. The experience of the past seasons should instruct for the future. Two seasons ago the high price and poor quality of corn put the corn-fed cattle at the top notch; giving a chance for the grass cattle to climb up in value; last season the number of corn-fed steers was sufficient to absorb the market. This season the partial tie-up of the big packers has enabled feeders of grass cattle to obtain a fair price. A sudden change came over the Chicago market last Tuesday, Aug. 23. An excessive contingent of grass cattle, which had to be sold, brought only \$15.00, owing to competition with western ranges. Even the tops of one large consignment of Montana grassers brought only \$13.00 for export. These picked grass cattle are forwarded to Britain to compete against Canadian ranchers and Ontario grass cattle. It was an odd shipment, it would not affect the market to any extent. It is well known that the big packers have since the tie-up lost very heavily in striving to run their plants. They will keep down the price of range and Ontario grass cattle to a low figure, calculating to make some money. They have contracted for all the space on the cattle steamers, thus shutting out the ranchers from shipping any cattle. The Ontario feeders of grass cattle and the ranchmen of Alberta and Assiniboia have all been struck the market at an opportune time. The large number of held back range cattle will now come upon the markets for some weeks to come in trainloads. The Canadian exporters cannot afford to pay any higher prices and will be reluctantly compelled to pay a lower price for export grass and range cattle.

HOG PRICES SEE FREQUENT CHANGES.

The market prices for hogs in the various centres of the United States have been changing almost daily during the past seven weeks. On some days the heavy hogs have been in demand with a firm price; then a change would come over the market and the buyers were purchasing light hogs. The live stock dealers and hog feeders have been in a quandary as to the prices they would be offered for their hogs on the market. For several markets days the price paid for "selects" at Toronto was the best for a continent. The Ontario farmer's standpoint, for all the hogs on our market come in within a radius of 150 miles, entailing only a slight shrinkage in weight, and no expensive freighting. The present price for "selects" is \$15.00, which compares favorably with present prices in the United States. Our market reporter noted quite a few lean, lanky, light hogs, that were properly culled last week. Whether it is the farmer's pressure to sell, or the dealers' carelessness in buying, it is unprofitable work. The class of hogs is not wanted at the pork packing establishments. One live stock dealer, whose hogs are delivered at a town not far from Toronto, when he receives light weights he pays light weight figures, disposes of them to hotelkeepers of the town, who resell the hogs to the market. The present stocks of hog products are not over cumbersome; the lengthened out war between Russia and Japan will bring both those countries again into the United States markets for more hog products, thus lessening the quantity for export to Europe. The Ontario farmer can keep on raising and fattening the best hogs for our own and British consumption. A steadily increasing demand will absorb all the good hogs that can be well prepared for market at satisfactory prices to the producer.

WORLD'S WHEAT CROP.

A sharp turn in the price of wheat has occurred since a week ago, and at the Chicago markets quotations reached ten cents a bushel within two days. The value of this season's crop is still a matter of great question, and it will be some time before a steady foundation of value is found. The principal difficulty at the moment appears to be to get a satisfactory estimate of the world's yield. There is now no doubt that the crop of North America will be short anywhere from 50 to 75 million bushels of that of last year, and on this groundwork much of the bullish sentiment at Chicago is based. As far as prices in the United States are concerned, local conditions will prove much of a governing factor. The United States tariff will prevent interference from outside markets up to the margin provided by the duty. It will be altogether otherwise with Canada. J. K. Carthew, a well-known English grain expert, in a recent estimate of the world's wheat crop computes the total yield at 2,654,000,000 bushels, a decrease of 250,000,000 from that of last year. In this computation Mr. Carthew estimates the Indian crop considerably below that of last season, on the general ground that last season's was the largest on record, and that a bumper crop is not likely to be repeated. No increase in the Argentine and Australasian crop, although both were planted under favorable conditions, and no detracting circumstances have as yet appeared. In closing his summary of the estimate Mr. Carthew says, "Accordingly there is no ground for expecting anything approaching a boom in prices, unless something out

OF THE REGULAR COURSE SHOULD HAPPEN FOR INSTANCE, SERIOUS POLITICAL COMPLICATIONS OR MATERIAL INJURY TO THE "INDIAN, ARGENTINE OR AUSTRALIAN CROP."

To this class of reasoning must be attributed the steadiness of the British wheat markets as compared with those in the States. Canadian wheat prices will have to be equalized with other large exporting countries. At the present time nearly half of the wheat supplied to the British markets is coming from India, and as most of the Canadian crop has ultimately to find its way into the same market, it is evident that a parity of prices must be reached. New wheat on the Toronto market is being raised on a bushel. The Ontario crop being a moderately successful one, the price would have proved highly remunerative to any farmer, but with the loss through winter killing, even present prices will not compensate for the shortage. Only those who have adequate capital can afford to speculate, and in holding wheat there is a tendency to any exhibit of tenacity, unless the Liverpool prices, speculation comes into play. Wheat values in the immediate future will exhibit a tendency to a higher level, but unless the Liverpool prices show more signs of stiffening it cannot be expected that the highest prices will be made in our home markets.

GETTING AWAY FROM THE DAN- GER POINT.

Whether conditions during the current week will be of material importance to the Canadian farmer, damage has already been done by the continuous wet weather, but it is necessary that the next few days remain dry if a more serious loss in Ontario is to be averted. Thus far the damage has been confined to the potato crop and to barley. Heavy rains have lodged much of the grain, but except for increased cost of harvesting no other damage is reported. The prospects for the wheat crop now favorable to much of the harvest being completed before the appearance of frost at the end of the present week a large proportion of the western crop will be beyond the danger point. Many of the reports of a serious loss appear to have been exaggerated. Given a completed harvest without any more serious occurrences, the Canadian farmer will have enjoyed another moderately successful season. This means much for the country at large, and will be welcomed by all classes of the community as an indication of a continuance of the present prosperous conditions.

NOXIOUS WEEDS OF EASTERN CANADA

Instructions How to Prevent Distribution of the Common Varieties.

Weeds not only cause a great deal of unnecessary work and annoyance during the harvesting, thrashing and cleaning of grain, but they sap the very vitality from the plants or crops grown. Impure seed, particularly of grasses and clovers, is largely responsible for the alarming spread of noxious weeds, consequently it is always advisable to sow the best seed available. Early maturing crops, such as clover hay, can be cut before the weed seeds mature, thus preventing the distribution of seeds. Summer cultivators, and the stubble land, followed next season by a good plow, properly cared for, will destroy all the weeds and nuisances near the surface to germinate. To eradicate weeds it is important to know the nature of their growth and direction and allowing them to grow in the first instance, the soil gets too much enriched, which is not desirable. In the case of the common varieties of weeds, which are the same time they are a little danger that it will grow and get her seed. It is necessary to run that the soil will grow through the lack of exercise.

Where one is obliged to sow a brood mare in the field, it is necessary to run that the soil will grow through the lack of exercise. Where one is obliged to sow a brood mare in the field, it is necessary to run that the soil will grow through the lack of exercise. HORSE MARKET GOOD FOR THE RIGHT KIND

But They Should Be Offered for Sale in Some Sort of Decent Condition.

The horse market undoubtedly continues in good condition, but buyers demand good, sound horses. Weeds are not wanted at any price. People are better posted on the quality of horses than they were a few years ago, and what they want they want, but what they don't want they won't have at any price. Everybody realizes to-day that an unsound horse is an expense, and in reality a greater luxury so far as cost is concerned than a horse of health and bone. Yesterday's sale at the Reservoir, Simcoe-street, this state of things was most marked. Good horses went well, but others were brought into the ring. The supply was limited of the right kind, but the net, some 75 came under Mr. Harland Smith's honest hammer. Three Frenchmen from Three Rivers took the majority that were up to requirements, purchasing some good purpose animals for \$140. A pair of well-bred geldings went for \$465 and would have brought more had they been offered in a better condition. In this case the buyer will reap the benefit of the seller's negligence. As a rule, the sides indicate large litter-bearing tendencies, but sometimes this is not the case. The warm characteristics are advisable. Activity, size, 12 to 14 teats, well developed, the back, if anything, slightly arched, the hind legs, the last trait denotes weakness. The sow will stand firm on her legs, which will be a good sign, but not overdone, and the appearance in general should be that of a good, easy feeder, and that is the best of all. The sow will sell for a good price, and it is one that will seldom give any trouble at farrowing.

The sow may be bred at 6 months of age, if she is well developed, but that is the earliest that an one should be mated at, and in the majority of cases, probably, 8 months would be better. The warm characteristics are advisable. Activity, size, 12 to 14 teats, well developed, the back, if anything, slightly arched, the hind legs, the last trait denotes weakness. The sow will stand firm on her legs, which will be a good sign, but not overdone, and the appearance in general should be that of a good, easy feeder, and that is the best of all. The sow will sell for a good price, and it is one that will seldom give any trouble at farrowing.

When farrowing time is near, if there are any signs of trouble, the sow should be kept in a box or basket and covered with straw. The sow should be kept in a box or basket and covered with straw. The sow should be kept in a box or basket and covered with straw.

Trade Fairly Good for the Better Cattle, But Slow for Poorer Grades.

The fruit division, Ottawa, reports as follows regarding the prospects for the fruit crop: Apples—Prospects have not changed materially since the last report. In southern Ontario the fruit will at least equal the crop of last year in quantity and surplus is in quality. In the Georgian Bay and Lake Ontario district existing points to a medium crop, cleaner than usual. Nova Scotia is developing considerable fungus. Prince Edward Island reports no appreciable change. Peaches are a light crop. Plums are a total failure in more than half the orchards, and only a slight crop anywhere. The prospect for peaches have not improved. Fifty per cent of the correspondents report a total failure. Blackberries in the larger varieties, but the crop will still be fair. The first American apples in Glasgow at 12 to 14 shillings. The British and continental crops fill the market, but the fruit crop is lighter than was anticipated, the still a good crop. American apples are 75 per cent, of the total crop, and grapes 50 per cent, of a full crop.

The Maritime Apple Crop. Halifax Herald: A Halifax man who is closely in touch with the apple producing and shipping interests of Nova Scotia, says that after careful enquiry, and after driving through the great orchard districts of the province, he has concluded that the apple crop this year will be fully as large as that of last year, which was a phenomenal one. He says, however, that while the quantity of apples will be fully equal to that of 1903, the quality this year will be much inferior as to appearance at least. The fruit is spotted and lacks the beautiful purity of color that marked last year's crop. This and the fact that other apple-growing regions have large crops, he believes, will result in a fall-off of the price that will be realized in England as compared with the figures of last year. A Wolfville correspondent writes that the Saturday night's gale caused considerable damage to orchards, many branches being broken off, numerous trees uprooted, and fruit strewn on the ground. Certain kinds of apples, such as Yellow Waters, Ben Davis, Kings and Baldwin, were suffered most, but it is estimated by specialists that the whole crop will be 50 per cent of the whole crop. Many of these crops are going forward to the city, and Halifax should have cheap apples.

Do not feed little chickens wet, slop food. Quarrelsome cocks are a nuisance in the poultry yard or on the farm. Fowls having a free run find their own feather-making food. Provide dusting boxes and keep them filled with loose dirt. When whitewashing the poultry house add a small quantity of carbolic acid. Chickens may be made grow rapidly by feeding them often. Sour milk and buttermilk are excellent to mix with soft food. Coal ashes are not fit for the dust box, but the cinders have been sifted out of these they are very rapid growers. For exhibition fowl feed seed meal with other food is excellent to put on an extra finish. Keep plenty of fresh bone on the farm. Growing chicks. It will help to develop strong, healthy specimens. As a rule, old ducks are preferred for breeding, as their eggs are more generally fertile. Give powdered charcoal and sulphur mixed occasionally with the feed when the birds are young or brooding. In whitewashing the inside of the poultry house whitewash the under side of the roof. Laying hens may readily be made too fat when fed on corn or other fattening grains, as this is detrimental to egg production. I have often seen Wyandotte hens recommended as good sitters and good mothers, but from our experience the last two years I cannot recommend them. Our hens will set broody, and they will usually sit long enough to hatch the nest in about 10 or 12 days. Some persons may say that this is not the case, but it is not the case with our hens. The hens soon go to laying after quitting the nest. Late in the season they will usually sit long enough to hatch. The Wyandotte chicks are certainly hardy, and if given plenty of food they are very rapid growers. They beat all other kinds we have ever tried as rapid growers.

Last year was our first year with Black Langshans, and they did a very poor business, laying, but they have done better this year, so much better that we have decided to keep over a few for another year's trial. When a broody hen gets broody she sits on the roost poles and flutters and clucks as if her life depended on it. Then the Pekin ducks—well, some people may make money out of them, but we have failed so far that we have tried them three years. They certainly lay the least for food consumed and trouble bestowed of any fowls that we have tried. If allowed to run at large they will eat just about everything that they can swallow, even the young chickens and guinea. Then they have

RECEIPTS WERE HIGHER AND SUPERIOR IN CLASS

Trade Fairly Good for the Better Cattle, But Slow for Poorer Grades.

Receipts of live stock were not as heavy as usual—74 cars all told, consisting of 1020 cattle, 549 hogs, 1767 sheep and lambs, 30 calves and 16 ponies. Of the above number of cars, there were 4 loads of Chicago, which were not for sale, as well as 12 loads from the Junction. The quality of fat cattle generally was not good, only a few of good to choice lots being offered. The highest price quoted for a load of 1000 lbs. was \$1.20, and for a load of 1000 lbs. was \$1.20, and for a load of 1000 lbs. was \$1.20.

There were only five cars of fat cattle, but the quality was good, and the price was \$1.20. The quality of fat cattle generally was not good, only a few of good to choice lots being offered. The highest price quoted for a load of 1000 lbs. was \$1.20, and for a load of 1000 lbs. was \$1.20, and for a load of 1000 lbs. was \$1.20.

The best lots of Ontario stock readily sold at \$2.00 to \$2.50, and for a load of 1000 lbs. was \$1.20, and for a load of 1000 lbs. was \$1.20, and for a load of 1000 lbs. was \$1.20.

The run of live calves being moderate, prices held steadily at \$1.50 to \$2.00 per cwt. The quality of calves was good, and the price was \$1.50 to \$2.00 per cwt.

Deliveries of sheep and lambs were moderate, and prices were steady, especially for the best quality. The quality of sheep and lambs was good, and the price was \$1.50 to \$2.00 per cwt.

The run of hogs was light, but prices were steady at \$1.50 to \$2.00 per cwt. The quality of hogs was good, and the price was \$1.50 to \$2.00 per cwt.
