STANLEY'S  
CANADIAN  
ALMANAC,

FOR THE YEAR OF OUR LORD

Being the second after Bissextile or Leap Year, and until the 20th of June, the fifty-third year of the reign of Her Majesty Queen Victoria.

Calculated for the Meridian of Montreal, in Latitude  $45^{\circ} 31'$  North, and Longitude  $73^{\circ} 35'$  West from the Royal Observatory, Greenwich. Also for the Meridian of Halifax, N. S., in Latitude  $44^{\circ} 39' 20''$ , and Longitude  $63^{\circ} 36' 40''$ , and for Ottawa, which is in Latitude  $44^{\circ} 55'$ , Longitude  $75^{\circ} 35'$  West. But the Almanac is arranged to serve without essential variation for most parts of the Dominion.

PUBLISHED BY

W. STANLEY,  
QUEBEC.

# CANADIAN FARMERS' ALMANAC.

1872 Notre Dame Street,

MONTREAL, January 1st, 1890.

The Publishers of this OLD, RELIABLE AND STANDARD ALMANAC. with a view to meeting the wants of their numerous patrons throughout Canada, have had the matter arranged so as to include the Provinces of Ontario, Quebec, New Brunswick and Nova Scotia. This has necessitated a departure from the old and familiar arrangement of the monthly pages. The Ecclesiastical Calendar and Weather Aspects, &c., will now be found at the foot of each month's solar and lunar calculations. The monthly foot notes of sound advice to Farmers have been transferred to pages containing useful information, with many useful recipes.

### ECLIPSES FOR THE YEAR 1890.

During this year there will be three eclipses, two of the Sun, and one of the Moon.

I. January 16-17, there will be an Annular Eclipse of the Sun, not visible in Canada.

This Eclipse begins on the earth generally, June 16th, 18 h. 55 m., meantime at Greenwich, in longitude  $13^{\circ} 58'$  west of Greenwich and latitude  $0^{\circ} 47'$  North.

This Eclipse ends on the earth generally June 17th,  $0^{\circ} 55'$  in longitude  $82^{\circ} 44'$  east of Greenwich, and latitude  $14^{\circ} 27'$  North.

II. December 25-26, there will be a partial Eclipse of the Moon, invisible in Canada.

The details of this Eclipse are not of much importance to us in Canada. The first contact with the shadow occurs at  $14^{\circ}$  from the Northernmost point of the Moon's limb towards the West. The last contact at  $19^{\circ}$  towards the West, in each case for *direct* image.

III. December 11th, there will be a total Eclipse of the Sun, invisible in Canada.

This Eclipse begins on the earth generally, December 11th, 12 h. 28 m., meantime at Greenwich, in longitude  $77^{\circ} 46'$  east of Greenwich, and in latitude  $8^{\circ} 19'$  South.

This Eclipse ends on the earth generally, December 11th, 17 h. 43 m., in longitude  $165^{\circ} 0'$  west of Greenwich, and in latitude  $26^{\circ} 31'$  South.

1890.]

CANADIAN FARMER'S ALMANAC.

5

RECEIPTS.

COLORING FOR FROSTING.—Take 20 grains of powdered cochineal, 20 grains of cream tartar, and 20 grains of powdered alum. Put them into a gill of cold soft water, and boil it very slowly till reduced to one-half. Strain it through thin muslin, and cork it for use. A very small quantity of this mixture will color frosting a beautiful pink.

YEAST.—Upon half a cup of hops pour a pint of boiling water, and boil half an hour. Meantime peel and grate two large white potatoes, add half a cup of sugar and one-third cup salt. Over this pour the hop-water and enough boiling water to make a quart, then stir thoroughly. When luke-warm, add a cup of good yeast. Let it ferment, and seal tightly in glass cans.

OYSTER CRACKERS.—Take two ounces of butter, a small saltspoon of salt, one-half pound of flour, and wet them with milk, using just sufficient to mould them together. Beat the dough thus formed with the rolling pin for fifteen minutes, and then roll it out thin, and cut with an oyster cracker cutter.

MINCE AND MACARONI.—Cook half a pound of macaroni in a quart of warm water for one and one-half hours, one ounce of butter and some salt. Let it boil up, and then simmer till cooked; stir and add more warm water if needed. Butter well the inside of a mould (china), and when cooked, press the pieces of macaroni into the butter, covering the bottom and sides, then put in whatever meat you have minced and fill the mould. Then steam for one hour. When turned out, the macaroni forms the shape with the mince inside.

JOHNNY CAKE.—Beat three eggs without separating until light, then add to them a pint of buttermilk, a pint of Indian meal, and a teaspoonful of salt. Mix well and stir in two tablespoonfuls of melted butter. Dissolve a teaspoonful of soda in two tablespoonfuls of boiling water, add this, mix thoroughly, and pour into a greased shallow baking pan. Bake in a moderate oven for thirty-five or forty minutes.

POOR MAN'S SHORT CAKE.—Put one quart of sifted flour into a bowl, add a level teaspoonful of baking powder, and sift again. Now rub into it thoroughly a large tablespoonful of butter or lard. Dissolve a half teaspoonful of soda in a tablespoonful of boiling water, add it to a half pint of buttermilk, add this and a teaspoonful of salt to the flour, mix, roll out, and cut into round cakes about the size of a tea plate. Bake over a slow fire on a griddle. The batter should be as soft as possible to handle.

BEEF SLICES.—Cut slices off any joints of cold beef. Make a force-meat of two slices of ham or lean bacon, two eggs, a few herbs and one gill of bread crumbs half a gill of suet, a little salt, pepper, and a pint of good gravy. Let the slices of meat be half an inch thick and four square, if possible. Pound the force-meat in a mortar, and having bound it with the yolk of an egg, spread it on the meat. Roll them round and tie them, or else fasten with a skewer. Brush them over with egg, and roll in fine breadcrumbs; slightly brown in oven, and then put them into a good gravy and stew until tender. Serve with the gravy and garnish with croutons of toasted bread.

SODA BISCUITS.—Put one quart of sifted flour into a bowl, and add one teaspoonful of salt, and two ounces of sweet lard or butter. Rub the butter or lard thoroughly into the flour, dissolve a half teaspoonful of soda in a tablespoonful of boiling water, add this to a half pint of sour milk or buttermilk, stir and add quickly to the flour. Mix, roll out, cut with a small round cutter, place in greased pans, so that biscuits will not touch each other, and bake in a very quick oven twenty minutes. To have them very light, mix, make and bake as quickly as possible.

CALENDAR, WEATHER ASPECTS, &c.

D

- 1 2nd Moon in Apogee, 2 h.
- S Septuagesima Sunday.
- 3 2nd Purification of Virgin Mary.
- 4 Full moon, and there will
- 5 be abundance of snow and
- 6 severe cold for several days.
- 7 Sleighting down East will be
- 8 difficult, because of drifts.
- S Sexagesima Sunday.
- 10 Changeable, but will
- 11 continue cold and
- 12 uncomfortable for two or
- 13 three days about now.
- 14 St. Valentine's Day.

D

- 15 Some more snow but too cold.
- S Quinquagesima, Shrove Sunday.
- 17 Moon in Perigee. 14 h.
- 18 Shrove Tuesday.
- 19 ASH WEDNESDAY.
- 20 Western Ontario is enjoying
- 21 very agreeable weather, but
- 22 down East still very wintry.
- S Quadragesima, 1st Sun. in Lent.
- 24 St. Mathias.
- 25 Cool and pleasant, but
- 26 now again changeable,
- 27 and the month will end
- 28 rather dull and wintry.

CALENDAR, WEATHER ASPECTS, &c.

- D
- 1 St. DAVID'S DAY. Apogee 14 h.
  - S 2nd Sunday in Lent.
  - 3 Dull cloudy day and
  - 4 the same for to day and
  - 5 this day also. But with
  - 6 to-day's full moon there will
  - 7 come a change, giving us
  - 8 cool bright days.
  - S 3rd Sunday in Lent.
  - 10 Look out for a storm of
  - 11 wind with cold rain or snow.
  - 12 St. Gregory's Day.
  - 13 Prospect of an agreeable
  - 14 change, almost feeling
  - 15 like spring, but cold nights.
  - S 4th Sunday in Lent.

- D
- 17 St. PATRICK'S DAY.
  - 18 17th Moon in Perigee, 15 h.
  - 19 Snow storms prevail
  - 20 in the Maritime Provinces
  - 21 and Ontario has cold rain.
  - 22 Quebec continues frigid.
  - S 5th Sunday in Lent.
  - 24 A fine, bright, cool day.
  - 25 Annunciation—Lady Day.
  - 26 Spring approaches, for
  - 27 the prospects of weather are
  - 28 fair and pleasant.
  - 29 Moon in Apogee, 10 h.
  - 30 PALM SUNDAY.
  - 31 Month ends pleasantly.

# Boston Shoe Store

No. 100, St. JOHN St. Quebec

## BOOTS AND SHOES

Extra Superfine Hand-Made and M. S.

Made Expressly for our Trade

A new Era in the Boot and Shoe Trade, in this city, commenced on Monday, the 9th of December, 1889. Having exceptional advantages in buying, we are enabled to leave the *too too* dear men who sell on the credit system a long way behind. For example : We offer Ladies' Dongola Kid Boots, best quality, (10

- Buttons, or Lace) at.....\$1.75 a pair
- Ladies' Dongola Kid Slippers, Turns, at..... 1.00 "
- Gentlemen's Solid Leather Lace Boots with Brass Rivets, at..... 1.75 "
- (The usual price being \$2.50)
- Patent Leather Dress Shoes, at..... 1.46 "

☞ Skating Boots, all sizes, of first quality, at very low prices

Please, call in at

# No. 100 St-John St.

And examine the stock of BOOTS and SHOES, and enquire prices.

CALENDAR, WEATHER ASPECTS, &c.

D

- 1 *St. Philip and St. James.*
- 2 May opens pleasantly.
- 3 Calm and spring-like.
- 4 *4th Sunday after Easter.*
- 5 Summer-like weather, but
- 6 not settled. The nights
- 7 are too cold for plant life.
- 8 *Moon in Perigee, 10h*
- 9 Planetary conjunctions
- 10 indicate a stormy time.
- 11 *Rogation Sunday.*
- 12 Somewhat more settled.
- 13 and now quite warm.
- 14 Very pleasant day.
- 15 *Ascension Day—Holy Thursday.*
- 16 A fine day.

D

- 17 Another fine, warm day.
- 18 *Sunday after Ascension Day.*
- 19 Rather sultry to-day, and
- 20 sure signs of thunder
- 21 with wind and rain.
- 22 Settled and cooler.
- 23 *24 Moon in Apogee, 0.*
- 24 *HER MAJESTY'S BIRTHDAY.*
- 25 *S WHITSUNDAY—Pentecost.*
- 26 Moon changes, and the
- 27 weather becomes quite
- 28 calm and pleasant.
- 29 Threatened with frost for
- 30 a night or two, but the
- 31 month ends serenely.

CALENDAR, WEATHER ASPECTS, &c.

- D  
 1 *Lammas Day.*  
 2 A very pleasant day.  
 3 *S 9th Sunday after Trinity.*  
 4 Haymakers have had no  
 5 reason to complain, and  
 6 some grains, especially rye  
 7 and barley, are forward.  
 8 Weather has been fine, and  
 9 continues most excellent.  
 10 *S 10th Sunday after Trinity.*  
 11 10th *St. Lawrence's Day.*  
 12 Warm—sunny—sultry.  
 13 A heavy thunderstorm.  
 14 *Moon in Apogee, 4h.*  
 15 Changeable—cloudy.  
 16 A fine, cool day.

- D  
 17 *S 11th Sunday after Trinity.*  
 18 Showers or steady rain  
 19 will characterize a few  
 20 days, impeding farm work.  
 21 *St. Francis de Sales.*  
 22 Return of warmth, and  
 23 weather more settled.  
 24 *S 12th Sunday after Trinity.*  
 25 24th *St Bartholomew.*  
 26 A capital season for the  
 27 farmer. Potatoes plentiful.  
 28 *Moon in Perigee, 21h.*  
 29 *St. John Baptist, Martyr*  
 30 A fine, steady, sunny day.  
 31 *S 13th Sunday after Trinity.*

CALENDAR, WEATHER ASPECTS, &c.

- D
- 1 A pleasant, bright day.
  - 2 Another fine day.
  - 3 Very cool evenings, indeed
  - 4 there has been frost.
  - 5 18th Sunday after Trinity
  - 6 A cool, pleasant day.
  - 7 Changeable towards rain.
  - 8 Moon in Apogee, 2 h.
  - 9 We predict a wind storm
  - 10 of some violence within
  - 11 these last three days.
  - 12 19th Sunday after Trinity.
  - 13 On the whole the season
  - 14 after New Moon 13th becomes
  - 15 settled and pleasant.
  - 16 This day fine and cool.

- D
- 17 Changeable and dull.
  - 18 Rain falls to-day.
  - 19 20th Sunday after Trinity.
  - 20 Steady and fine for
  - 21 a few days, but the nights
  - 22 have been chilly, very.
  - 23 Moon in Perigee, 22 h.
  - 24 A fine, cool day.
  - 25 St. Crispin's Day.
  - 26 21st Sunday after Trinity.
  - 27 Full Moon, and therefore
  - 28 not an agreeable change.
  - 29 Wind and rain—indeed
  - 30 to the end of the quarter
  - 31 we look for cloudy days.

CALENDAR, WEATHER ASPECTS, &c.

- D  
 1 ALL SAINTS' DAY.  
 S 22nd Sunday after Trinity.  
 3 Rather cool day.  
 4 Moon in Apogee, 21 h.  
 5 Cold rain, snow down East.  
 6 Sun shiny but a cold wind.  
 7 A cool fine day.  
 8 9th, Prince of Wales' birthday.  
 S 23rd Sunday after Trinity.  
 10 Snow storm. Rain West.  
 11 St. Martin's Day.  
 12 A cool wintry outlook.  
 13 Sunshines, but there  
 14 are sure indications of  
 15 approaching winter.

- D  
 S 24th Sunday after Trinity.  
 17 Unsettled and variable.  
 18 Moon in Perigee, 5 h.  
 19 A snow storm down East.  
 20 Heavy rain in the West.  
 21 More settled to day.  
 22 St. Cecilia's Day.  
 S 25th Sunday after Trinity.  
 24 23rd St. Clement's Day.  
 25 More snow than usual  
 26 for the season, but the  
 27 winter has not fully  
 28 set in, although there has  
 29 been considerable frost.  
 S 1st Sun. in Advent. ST. ANDREWS'

## THE ROYAL FAMILY.

## THE QUEEN.

**VICTORIA**, of the United Kingdom of Great Britain and Ireland, &c., Queen, Defender of the Faith, Empress of India. Her Majesty was born at Kensington Palace, May 24, 1819; succeeded to the throne June 20, 1837, on the death of her uncle, King William IV.; was crowned June 28, 1838; and married February 10, 1840, to his late Royal Highness Prince Albert. Her Majesty is the only child of his late Royal Highness Edward Duke of Kent, son of King George III. The children of Her Majesty are:—

Her Royal Highness Victoria-Adelaide-Mary-Louisa, PRINCESS ROYAL OF ENGLAND AND GERMANY, born November 21, 1840, and married to his Imperial Highness Frederick William, Crown Prince of Germany, January 25, 1858.

His Royal Highness ALBERT-EDWARD, PRINCE OF WALES, born November 9, 1841; married March 10, 1863, Alexandra of Denmark (Princess of Wales), born December 1, 1844, and eldest daughter of the King of Denmark.

Her Royal Highness Alice-Maude-Mary, born April 25, 1843, married to H.R.H. Prince Frederick Louis of Hesse, July 1, 1862; died December 14, 1878.

His Royal Highness Alfred-Ernest-Albert, Duke of Edinburgh, Earl of Kent and Earl of Ulster, born August 6, 1844; married to the Grand Duchess Marie Alexandrowna of Russia.

Her Royal Highness Helena-Augusta-Victoria, born May 25, 1846; married July 5, 1866, Prince Frederick Christian of Schleswig-Holstein.

Her Royal Highness Louisa-Carolina-Alberta, born March 18, 1848; married March 23, 1871, to the Marquis of Lorne, late Governor-General of Canada.

His Royal Highness Arthur-William-Patrick-Albert, K.G., Duke of Connaught born May 6, 1850; married March 13, 1879, to Her Royal Highness Princess Louisa-Margaret of Prussia.

His Royal Highness Leopold-George-Duncan Albert, Duke of Albany, born April 7, 1853; married April 27, 1882, to H. R. H. Princess Helena of Waldeck; died 28 March, 1884

Her Royal Highness Beatrice-Mary-Victoria-Feodora, born April 14, 1857; married July 23, 1885, to Prince Henry of Battenberg.

Arthur W. Reynolds, *Assistant Secretary and Accountant.*

**JANUARY.**—Good advice must needs be repeated, because of forgetfulness and carelessness. There may be proper time for recreation, but good farmers will keep wide awake, and not allow valuable time to be wasted. They will wisely embrace every opportunity to acquire practical and scientific information pertaining to their honorable occupation. They will not only study instructive works on rural subjects, but they will gladly attend those associations where agricultural topics are freely discussed by practical workers in the field. We may suggest, as we have done in former years that every country home should be well supplied with good books and useful periodicals. Facilities for mental improvement, for recreation and for innocent amusement should always be amply provided.

Captain the Hon. Charles Colville, *Governor General's Secretary*; Charles J. Jones, *Chief Clerk*; William Campbell and Charles L. Lawrence, *Clerks*; George Smith, *Messenger*; Sergeant Clerk, *Orderly.*

### BOARD OF CIVIL SERVICE EXAMINERS.

John Thorburn, L. L. D., *Chairman*; A. D. Decelles, Peter LeSour, *Secretary.*

### LIEUTENANT GOVERNORS.

Their Honors the Hon. Sir Alex. Campbell, K. C. M. G., Ontario; Hon. Auguste Real Angers, Quebec; Hon. A. W. McLellan, Nova Scotia; Hon. Sir Samuel Leonard Tilley, O.B., C.K.M.G., New Brunswick; Hon. J. S. Carwell, Prince Edward Island; Hon. J. E. Schultz, Manitoba; Hon. Joseph Royal, North West Territories; Hon. Hugh Nelson, British Columbia.

**FEBRUARY.**—In regard to winter occupations, there are a thousand things to claim consideration and practical attention. A farmer should be gifted with foresight equal to foreknowledge. He should now plan and forecast operations for the ensuing season and thus prepare in winter for the active labors of the rapidly approaching spring and summer. It is always wise and profitable to arrange and provide for the campaign in field, orchard and garden. Guide as to the crops to be grown and make early arrangements to secure the necessary seeds, fertilizers and implements. Thus there will be no delay when the time for action arrives. Many a farmer has lost money and profit by thoughtlessness, besides being often vexed by various annoyances.

COMMANDING HER MAJESTY'S FORCES IN BRITISH NORTH AMERICA.

The Honourable John Sparrow David Thompson, Minister of Justice.
The Honourable C. H. Tupper, Minister of Marine and Fisheries.
The Honourable J. J. C. Abbott, Leader of the Senate.

MARCH.—We fear there is not now the attention paid to the value of ashes as was formerly the case. The best hardwood ashes often contain nearly ten per cent. of potash, while those from some of the softer woods may show less than three per cent. The inferiority of soft wood ashes is not admitted by all. They are lighter and are easily lost by being blowing about while burning. The New England Farmer says, that the ashes from small twigs are much richer than those from the trunk of the tree. The potash and phosphoric acids which they contain are very valuable. Independent of these ingredients ashes have a beneficial effect. The amount of manurial substance can only be determined by the chemist, but experiments will enable the intelligent farmer to judge for himself.

*Clerk of Executive Council—E. F. B. Johnston.*

APRIL.—There are so large demands for poultry and eggs in these days that we devote a couple of our monthly notes to this subject. There is not that care there ought to be in the matter of feeding fowls. They are too often left to themselves instead of being regularly fed. The "American Poultry Yard" says: "We believe by cooking corn whole until quite soft and swollen to the fullest extent that a flock of hens may be kept in good laying condition when fed with corn almost exclusively. We have been experimenting with corn boiled very soft, roasted and parched until well baked through and a very little fed in its natural state, and find our hens laying splendidly upon it. They have been fed as much as they cared to eat, were running upon good grass and were fed on no other dry or green food."

 " Archibald Harrison,  
 " Gains S. Turner, } *Without Office.*

*Clerk of the Executive Council—F. A. H. Straton.*

MAY.—Continuing our remarks on poultry feeding, we remark that corn, oats and wheat are increased almost double size by cooking, and as a natural result the hens will not get fat because they get only half as much solid matter when fed cooked as when fed dry grains. They relish it greatly. All soft foods and vegetables make better food for fowls if cooked or scalded well. Cooked food should not be kept until sour or stale, but must be sweet to be wholesome.

Bran is a very good article of food for poultry, but the same food without variations should not be given for a y considerable time. All kinds of poultry should be frequently supplied with green food, such as cabbage, cauliflower, turnip and lettuce. They will devour worms and insects when these are to be had, and the refuse of the kitchen may be fed daily.

JUNE.—Those who make butter for home use or for the market ought not need to be told that milk and cream readily absorb odors and retain them. If the stable is unclean and foul, milk which is drawn in such an atmosphere is pretty sure to taste of those unpleasant odors, and the same may be detected in the butter and cheese made from such milk. Nothing could be more destructive of purity of air than tobacco smoke, and only the most careless ever indulge in the use of the pipe in the immediate vicinity of the milk. There are two or three other strong smelling articles that do far more injury than is by some supposed, and they are onion and cabbage. These are strong smelling foods and will cling to the breath and clothes of the dairyman a very long time—longer than is suspected.

RYE CAKES.—To one tea cup of white sugar add two well-beaten eggs, a piece of butter the size of an egg, one quart of milk. Mix thoroughly with a quart of rye-meal two teaspoonfuls cream tartar, and one of soda; stir this into the milk and eggs, and add enough more to make a thick batter. Drop on a well-greased pan, and bake half an hour.

APPLE TRIFLE.—Peel, core, and boil till tender a dozen tart apples, with the rind of a lemon grated; strain through a sieve, add sugar to taste and put into a deep fruit-dish. Make a custard of a pint of cream and the yolk of two eggs with sugar to taste. When cold lay it over the apples with a spoon, and over the whole place whipped cream.

MOLASSES CAKE.—Dissolve one teaspoonful of soda in two tablespoonfuls of boiling water, and add it to a half cup of New Orleans molasses. Beat one egg and a half cup of brown sugar together until light, add two ounces of butter melted, add the molasses, a half cup of buttermilk or sour milk, two cups of flour, and beat until smooth, and, if you like, a tablespoonful of ginger or teaspoonful of cinnamon. Pour into a greased shallow pan and bake in a moderate oven about thirty minutes.

**JULY.**—Apiculture, or the Bee industry, is receiving more attention than formerly, and it is well that the old, slipshod way of bee-keeping should go out of fashion. It must never be regarded as a plaything; but must be considered an occupation worthy of the closest attention by all who desire to profit by it. We give no details how the business should be conducted; but recommend our friends to procure the best treatise in the literary market. Bees can do a great deal for themselves, but only with intelligent care and watching can they be made profitable. Winter is the time when bees should be carefully guarded from the effects of ice and storm, and all hives standing in the open air should be protected against mice. Beware of the mischievous skunk and set a box trap for it, as the best preventive. See our bee notes of last year.

Governor, Commander-in-Chief and Vice-Admiral—Lieut.-Col. Sir John Teren  
Nicolls O'Brien, R.C.M.G.

Premier—Hon. Robert Thorburn.

Population (1881), including Labrador, 197,332.

AUGUST.—We were a little amused the other day on reading an article from the "Ploughman" on the subject of water for crops. The philosophy of the article is all right. The importance of water is shown by the fact that plants contain from seventy-eight to eighty-five, and, in some instances, as high as ninety-five per cent. of water, showing that water is by far the most important constituent of growth. The quantity of water required by a growing crop is simply enormous. If water fails the growth is checked. A dry season is therefore to be dreaded, but the philosopher does not suggest the profit of the dews. He recommends the turning aside of brooks and streams, and where there are none of these then dig a well—fix a wind mill and pump with which six or eight acres could be irrigated. Just think of it!

CRULLERS.—Beat two eggs without separating, add to them one cup of brown sugar, a half nutmeg grated, beat and add one cup of buttermilk. Dissolve a half teaspoonful of soda in a tablespoonful of boiling water, add it and three cups of flour. Beat well. Roll out on a board, using as little flour as possible, cut with a round cutter, take out the centres with a smaller one, and drop the cruller quickly into smoking-hot fat. Brown on one side, turn and brown on the other. When done, drain and dust with powdered sugar. These, to be good, should be used when fresh. As they contain no shortening, the dough must be as soft as can be handled.

SCORCH SCONES.—Put three cups of sifted flour into a bowl, add a teaspoonful of salt, and mix. See that the oven is hot, grease your gem pans and put them to heat. Dissolve three-quarters of a teaspoonful of soda in two tablespoonfuls of boiling water, add it quickly to a pint of sour milk or buttermilk, stir this into the flour, at the same time adding four tablespoonfuls of melted butter; beat until smooth. Fill the hot gem pans two-thirds full, and bake in a hot oven about twenty minutes.

## RATES OF POSTAGES.

## LETTERS ADDRESSED FROM OR TO PLACES IN CANADA AND UNITED STATES.—3 cents per ounce.

On all letters transmitted by post for any distance within Canada, except in cases herein otherwise specially provided for, there shall be charged and paid one uniform rate of three cents per ounce weight, any fraction of an ounce being chargeable as an ounce; and such postage rate of three cents shall be prepaid by postage stamp or stamps at the time of posting the letter, otherwise such letter shall not be forwarded by post, but letters addressed to any place in Canada and on which any postage has been prepaid by stamp, shall be forwarded to their destination charged with double the amount of the postage thereon not so prepaid, which amount shall be collected on delivery.

## CITY OR DROP LETTERS FOR THE CITY DELIVERY.

On letters not transmitted through the mails, but posted and delivered at the same post office, commonly known as local or drop letters, the rate shall be one cent per ounce weight, which shall, in all cases, be prepaid by postage stamps affixed to such letters; except that in cases where there is a delivery by letter carriers the rate shall be two cents per ounce, which shall be also prepaid, by postage stamps.

## POST CARDS.

Post Cards are issued at one cent each, and may be sent to any address in Canada, Newfoundland, or United States. Post bands can be obtained at the rate of \$1.25 per hundred. Post Cards are also issued at two cents each for transmission to the United Kingdom and European countries.

## MATTERS WHICH CANNOT BE FORWARDED THROUGH THE POST.

Any explosive substance, glass, with the exception of spectacles or eye-glasses, liquid or other matter, likely to entail risk or injury to the ordinary contents of the Mail, will be sent to the Dead Letter Office, Ottawa.

Letters containing gold or silver money, jewels or precious articles, or anything liable to Customs duties, cannot be forwarded by Post to any of the Postal Union countries, except such as may be addressed to the United States.

**SEPTEMBER.**—We have come to the season of agricultural fairs. Of course they were established for the benefit of farmers and farming interests, they have undoubtedly accomplished their object to a very considerable extent. They have brought families into a nearer acquaintance, and more friendly relations. There is at the annual gathering of farmers a good opportunity to compare notes on farming operations. The products of various farms may also be compared, in a laudable spirit of rivalry, and ought never to assume in the least degree a feeling of jealousy. Objectionable features should never be introduced, and mere catch-penny methods of show and trickery should never be allowed. The directors should always remember that all amusements ought to have a rational basis and a useful object.

**A NICE FRUIT CAKE.**—One pound of butter; one pound of flour; one pound of sugar; two pounds of raisins seeded; one pound of citron; one pound of almonds; one pound of currants washed; twelve eggs; one-half pint of milk. The great art of making cake is first to prepare every separate ingredient nicely, and then when they are mixed smoothly together, there is no possibility of failing if the oven is kept at a moderate heat and not allowed to alter until the cake is done. The modern stove cooks more rapidly than the old Dutch oven, but still at least three hours ought to be allowed for the baking of a fruit cake. The almonds must be blanched and pounded, the currants washed, picked clean, and dried, the raisins stoned, and the citron sliced fine or chopped. More than half the flour is used in flouring the fruit. Then the butter must be creamed, the eggs whipped until perfectly light, and if attention is given to all these details you cannot possibly have a failure.—HARPER'S BAZAAR.

## REGISTERED LETTERS.

On letters intended to be registered, and other matter passing by mail, as well between places in Canada as between Canada and the United Kingdom, or any British Possession, or any foreign country, the charge to be made for the same, not exceeding five cents per each letter or article.

All classes of permissible matter can be registered to the United States.

All letters for Registration should be posted 15 minutes before the hour of closing ordinary Mails, and 30 minutes before closing of English Mails.

Registered letter stamps have been issued to the denominations of 2, 5 and 8 cents, which may be obtained at the usual places.

It is to be clearly understood that Registration does not make the Postmaster General responsible for the contents of a letter if lost or stolen.

## NEWSPAPERS AND PERIODICALS ADDRESSED TO PLACES IN CANADA, NEWFOUNDLAND AND UNITED STATES.

The rate of postage on newspapers and periodical publications printed and published in Canada, and issued less frequently than at intervals of one month, from a known office of publication or news agency, and addressed and posted by and from the same to regular subscribers or news agents, and on all specimen newspapers, shall be one cent for each pound weight, or any fraction of a pound weight, which shall be prepaid by postage stamps or otherwise as the Postmaster General, from time to time, directs; and such newspapers and periodicals shall be put up into packages and delivered into the post office, and the postage rate thereon prepaid by the sender thereof, under such regulations as the Postmaster General, from time to time, makes in that behalf.

Such newspaper or periodical is known and recognized as a newspaper or periodical in the generally received sense of the word, and consists wholly or in great part of political or other news, or of articles relating thereto, or to other current topics, and is published regularly at intervals of not more than one month.

On all newspapers and periodicals posted in Canada, except in the cases herein expressly provided for, and on books, pamphlets, occasional publications, printed circulars, prices current, hand bills, and other matter wholly in print, and on packages of seeds, cuttings, bulbs, roots, scions or grafts, patterns or samples of goods or merchandise, the rate of postage shall be one cent for each four ounces or fraction of four ounces; and on all book and newspaper manuscripts, printers' proof sheets, whether corrected or not, maps, prints, drawings, engravings, lithographs, photographs when not on glass or in cases containing glass, sheet music, whether printed or written, documents partly printed or written, not being letters or intended to serve the purpose of letters—such as deeds, insurance policies, militia and school returns, or other documents of like nature,—and on all other miscellaneous matter transmissible by post, and not otherwise herein expressly provided for, the rate of postage shall be one cent for each two ounces or fraction of two ounces; and the postage rate shall in every such case be prepaid by postage stamp or stamped post bands or wrappers, whenever any such articles as are mentioned in this section are posted in Canada.

Newspapers and periodicals weighing less than one ounce may be posted singly; if prepaid by postage stamp, one half cent each.

Newspapers from office of publication posted for City Delivery are not delivered by Letter Carrier, unless prepaid by stamp of one  $\frac{1}{2}$  cent each.

Newspapers and periodicals published in the United Kingdom, and reposted by news agents to regular subscribers, are not liable to any additional postage.

**OCTOBER.**—A few words about Turkeys, and the Bronze Turkey in particular. We need not say a word about the many excellencies of this species, and we are surprised that so many farmers should neglect the raising of this fine bird. Observe it always pays to get good stock for breeding purposes. In the selection of turkeys, their age, size, symmetry, and general appearance of healthfulness must be taken into consideration. The marks of age are unmistakable. The plumage of young birds is black and glossy, their legs and feet are smooth and of a dead black. They are slender in shape, and their movements are quick and lively. Young hens have no beard, and their heads are covered with short, black hair, growing among the wattles. As they grow older their legs become scaly and somewhat lighter in color, until when four or five years old they are a light pink. Turkeys do not require rich food, but require variety, else they will droop.

PARCEL POST RATES WITHIN THE DOMINION.

The rates to be prepaid by postage stamp, on parcels posted in Canada for destinations within the Dominion to which parcels can be sent, are as follows:—

For each parcel weighing not more than 4 ozs..... 6 cents.

For do exceeding 4 ozs., and not exceeding 8 ozs ..... 12 cents.

For each additional 4 ozs., or fraction thereof. .... 6 cents.

Parcels intended to pass through the Mails should not exceed 5 pounds in weight or 24 inches in length or 12 inches in breadth, and should be marked "by parcel post." Parcels may be registered by affixing a five cent Registered Letter Stamp thereto in addition to the postage.

TRANSMISSION OF SPECTACLES AND EYE-GLASSES BY MAIL

The exclusion of glass from the mails is so far modified that spectacles, eye-glasses, and microscopic slides, if securely put up in cases not likely to allow the contents to escape, if broken in course of conveyance, may be sent by Post within the Dominion on pre-payment of parcel post rates.

CIRCULARS PRINTED BY THE ELECTRIC PEN, &c.

The term "printed circulars" is extended to include circulars produced by the electric pen or other mechanical process, easy of recognition, by the officers of the Post office, as well as when printed by the ordinary process of printing types, engraving, or lithography.

MISCELLANEOUS POSTAL MATTER.

Books and pamphlets, limits 5 pounds, printed circulars, prices current, hand-bills, book and newspaper manuscript, printers' proofs, maps and prints, engravings, sheet music, photographs, insurance policies, militia and school returns, seeds cuttings, bulbs, roots, legal papers, for Canada, Newfoundland, the United States, may be posted prepaid by a stamp at 1c. per 4 oz., provided they be sent in covers open at the ends or sides, and so put up as to admit of the contents being, if necessary, easily withdrawn for examination; if enclosed with written communications, or in sealed envelopes notched at the ends or sides, letter rates will be charged.

The weight of packages of seeds, cuttings, bulbs, roots, scions, or grafts, 4 lbs., and all other miscellaneous matters are limited to 4 lbs. in weight, 21 inches in length, and 12 inches in breadth or depth. To all parts of British Columbia, the North West and Manitoba, except the city of Winnipeg, to which the 5 pound limit applies, the limit of weight is 2 pounds 3 oz.

Post bands, with an impressed one cent stamp for this purpose, may be obtained at any Stamp Agency at the rate of 4 for 5 cents.

NOVEMBER.—The "Country Gentleman" some time ago had some excellent plain talk about farming and farmers. It says: "We have some farmers who say they can make nothing at farming, for although they may have fair crops, at the end of the year they have nothing to show for their labor. Of such farmers I would ask if they have not, with their farm, tried some other hobby and let that waste the proceeds of the farm? Let any farmer try to raise a trotting horse, or a fancy team of horses for the market, or try speculating in shipping produce, or selling implements on commission, and at the end of the year his hobby has wasted the proceeds of the farm. He is ready to say "farming doesn't pay." He is ready to quit farming, to give his whole time to the hobby. In all probability within a comparatively short time the farm, farming and the hobby are all gone. Stick to the farm. Avoid hobbies."

PATTERN AND SAMPLE POST. CANADA.

Patterns and samples of merchandise, not exceeding 24 ounces in weight, when posted in Canada for places within Canada, must be prepaid by postage stamp at the rate of one cent per four ounces weight, and put up in such manner as to admit of inspection. Goods sent in an execution of an order, however small the quantity may be, or articles sent by one private individual to another, not being actually Trade Patterns or Samples, are not admissible as such.

UNITED STATES.

Patterns and samples of merchandise posted for places in the United States will continue to be subject to the special rate of ten cents each, prepaid by postage stamp, and must not exceed 8 ounces in weight.

BEAR THIS IN MIND.

- Register all valuable letters, and use sealing wax for letters containing money. Transmit money by money orders. Make complaints and inquiries in writing. Preserve, and request correspondents to preserve envelopes of mis-sent or delayed letters. Send to the Postmaster envelopes of letters about which you seek information or make complaint. Business men should be careful to authorise but a limited number of persons to receive their letters, and only those in whom they have full confidence.

MONEY ORDERS.

Every money order office in the Province of Quebec, Ontario, New Brunswick, Nova Scotia, Prince Edward Island, Manitoba and British Columbia issues money orders on every other money order office in these Provinces, as well as on every money order office in the United Kingdom. Every money order office in the United Kingdom also issues money orders on every money order office in these Provinces.

All the money order Post Offices are authorized to draw money orders on each other from any sum up to \$100, and for as many orders of \$100 each as the applicant may require, upon the following terms only, viz.:

Table with 2 columns: Amount and Commission rate. Rows include: On orders up to \$4 (2 cents), 10 (5 cents), over 10 and up to \$20 (10 cents), 20 (20 cents), 40 (30 cents), 60 (40 cents), 80 (50 cents).

The other Countries and British Colonies upon which Money Orders are granted the rates of Commission in all cases are as follows:—

Table with 2 columns: Amount and Commission rate. Rows include: If not exceeding \$10 (10c), Over \$10 (20c), 20 (30c), 30 (40c), 40 (50c).

DECEMBER.—Did you ever consider as a rule it is not advisable to fatten stock in winter. On this timely topic a Western journal wisely observes, that unless warm stabling is provided, and a high price assured in the spring, winter stable feeding is bad economy. It requires twenty-five per cent. more grain to lay on the same amount of fat than is necessary in ordinary autumn temperatures. Fattening animals require a regular supply of pure water, and no more exercise than is necessary to maintain a good appetite. Animals that chew the cud cannot long maintain good health without hay or some similar substance to masticate. Chewing promotes the flow of saliva which is a necessity in the digestion of starchy food. Exclusion from a strong light, in addition to warm temperature, must not be overlooked by those who propose to fatten stock in winter.
