G.T. PACIFIC AFTER GOVERNMENT AID?

Report Current In Ottawa

Company to Seek Loan or Guarantee of Its Bonds

From \$10,000,000 to \$25,000,000 Wanted to Complete Mountain Section—Findings of Gutelius Staunton Commission Has Made Financing of the Road More Difficult Abroad.

(Special to The Telegraph.)

Ottawa, March 19.—A report has been circulated today, which as yet however lacks official confirmation, to the effect that the Grand Trunk Pacific will come to parliament this session for further financial assistance either in the form of a loan or of a bond guarantee, to complete the Mountain section of the line from Winnipeg to Prince Rupert. The report does not state the exact figure said to be asked by the company, this being variously estimated at from \$10,000,000 to \$25,000,000. The general impression appears to be that the assistance said to be required, will be in the form of a loan.

So far the Grand Trunk Pacific has received two loans at the hands of the Dominion government. In 1908 the company received a loan of \$10,000,000 secured by a trust mortgage on the Grand Trunk Pacific. Last session a further loan of \$10,000,000 was voted on the same excellent security.

At the time the loan was passed to the company the Grand Trunk Pacific Railway Company had the power to authorize the issue of \$20,000,000 or \$25,000,000 of its securities, which were intended to be guaranteed by the Grand Trunk Pacific Railway Company and to provide funds for the undertaking. Legislation was also obtained by the Grand Trunk for the purpose of authorizing it to issue its consolidated debentures to an amount not exceeding \$20,000,000. Of this amount two millions had at that time been marketed, but it was not deemed advisable that more should be placed on the market.

N. T. R. Report Hurt Canadian Credit.

It is reported that conditions at present are no more favorable than they were then for the marketing of the company's securities. If the company now desires further aid from the government, one of the reasons is that railway financing has become more difficult since the circulation, at the instigation of the government, of the arbitrary findings of Messrs. Gutelius and Staunton concerning alleged waste in the building of the National Transcontinental.

Despite the fact that the commission was appointed solely for the purpose of ascertaining the facts in the case, and that its findings are based on the assumption that if a cheaper road had been constructed, it would have cost less money, the report has been circulated throughout the Dominion, and in Great Britain under the impression of being the unbiased findings of a properly appointed royal commission.

In view of the commission of the Grand Trunk Pacific with this line, it would not be considered surprising here if the Grand Trunk Pacific were to request further assistance from the government, on account of the difficulty which has been created of financing upon its own security, both through natural causes and through the circulation of the report.

When presenting the case, for the Canadian Northern in the western freight case before the railway commission last autumn ex-judge Plimpton, counsel for the company, declared that it would cost \$25,000,000 to complete the Grand Trunk Pacific and \$40,000,000 to equip it. These figures were not denied by officials of the company mentioned who were present at the time.

London, March 20.—Grave events are impending in Ulster, according to the Ulster news sheets, and a rumor is current that the government is preparing for the military occupation of the province. These are various indications that a crisis has been reached.

The vote of censure on the British government which was moved in the house of commons yesterday by Andrew Bonar Law, leader of the opposition, was rejected 84 to 202. Arthur J. Balfour, summoned by Bonar Law, made a hurried return from the Riviera and arrived in London in time to participate in the division.

There were reports also of the threatened arrest of Sir Edward Carson and other leaders of the Ulster Unionists, but it was officially declared that there was no truth in the statement that warrants had been signed for such arrests.

Mr. Asquith recognized the moderate intervention against the Ulster Unionists, but he also rebuked him for his suggestion that the army could take sides as ordinary citizens in the event of hostilities.

N. B. Branch of Dominion Alliance Will Ask Government to Give Officers a Right to Seize "Booze" at Railway Stations and on Highways—To Make Drunks Tell Who Sold Them Under Penalty of Imprisonment—Will Not Ask for Prohibition—Officers Elected.

(Special to The Telegraph.)

Fredericton, March 19.—New Brunswick branch of the Dominion Temperance Alliance met in annual session today. Officers were elected as follows: President, C. W. Weyman, Sussex; first vice-president, J. Willard Smith, St. John; second vice-president, Rev. W. G. H. Smith, Fredericton; third vice-president, L. R. Hetherington, Newcastle; treasurer, A. C. M. Lawson, Fredericton; secretary, Rev. G. B. McDonald, St. John; field secretary, Rev. H. H. Staver; executive, St. Stephen; H. A. Lutz, C. N. Mills; E. W. Rowley, St. John; W. G. Clerk, Fredericton; Rev. H. E. Thomas, St. John; J. Vernon Jackson, Moncton; Rev. W. B. Robinson, St. John; George V. Clarke, Miramichi; M. M. Benson, Percival; Mrs. J. W. Seymour, St. John; Mrs. M. L. Stevenson, Fredericton; Rev. R. J. Colpitts, Keswick; Miss Velle Asker, Campbellton; Dr. W. C. Kesteven, Fredericton; Rev. W. G. Schramm, Hartland; E. W. Stockford, St. John; W. G. Adams, Campbellton; George Sackville, Miramichi.

The meeting considered the report of the executive which met this morning and decided to urge upon the provincial government amendments to the liquor license law. The amendments are to give officers of the law a right to seize liquor at railway stations, or while in transit on highways; to make drunks tell who sold them under penalty of imprisonment; to tell where they obtained liquor to make it possible to bring action against persons shipping liquor into a prohibited district; to empower officers to destroy liquor which is without owner; to provide a penalty for shipping liquor under false designation and labels; to provide penalty for shipping liquor to fictitious persons.

LIBERALS SELECT NEW SENATE LEADER

Hon. Hewitt Bostock, of British Columbia, the Unanimous Choice—Successor to Late Sir George Ross is Fifty Years Old and a Cambridge Graduate.

(Special to The Telegraph.)

Ottawa, March 19.—At a meeting of the Liberal members of the senate this afternoon, Hon. Hewitt Bostock, senatorial representative for Kamloops (B. C.), was unanimously chosen to succeed the late Sir George Ross as the Liberal leader in the upper house.

During the illness of Sir George Ross Senator Bostock was asked to take the temporary leadership, and his selection today to permanently fill that responsible and honorable position is popular and fitting. The new leader is well equipped by character, training and ability for the task. He has been a member of the senate since 1904 and has always held the esteem and confidence of members on both sides of the chamber. He is an able debater, a good speaker and an informed student of all public questions. At the time of the selection of the late Sir George Ross as Liberal

Committee Reported on the Company's Affairs

Moncton, Man., March 19.—Evidence was given by eye witnesses of sections of the Plum Coulee tragedy who were placed on the stand today by the crown prosecutor, W. H. Hastings, in the case against John Krafczenko, charged with the murder of H. M. Arnold and with the robbery of the Bank of Montreal at Plum Coulee.

John Welbe, of Plum Coulee, said he had been on the point of entering the bank at the time of the crime and through the doorway was seen the back of a man who was facing Arnold. He could see Arnold with two hands above his head.

Their examination of the books of the company was not, of course, an examination of experts, but their report was as to a character as to a long disquisition as to whether it was advisable to permit the company to continue the work even with the assistance of the second large guarantee asked for. Many members seemed to think it was inadvisable to ask for more than the first guarantee. Demands of a similar nature would probably be made again and the credit of the province impaired beyond remedy. It would be better, it was argued, to shoulder the responsibility now and complete the work as well and as cheaply as possible.

LOVE-SICK MAN KILLS HIMSELF IN MONCTON HOUSE

Simon Leger Quarreled With Bride-elect, Willed Her His Property and Then Suicided.

Moncton, March 19.—Apparently dependent over a love affair, Simon Leger, aged 28 years, an apprentice in the building department of the R. F. & M. Co., this afternoon retired to his room on the third floor of his boarding house, kept by Thomas Bourque, corner of Marquette and Main streets, and put two bullets into his breast, succumbing to the wounds about forty minutes later.

Deceased was engaged to be married to Ezzelle Bourque, daughter of the proprietor of the boarding house, and was about to leave for his bride on the morning following. It appears that Leger and his bride-elect had had a disagreement a few days ago and although Miss Bourque says they were to have been married next September, it is believed the falling out was the cause of the tragedy.

THREE PERISH IN \$100,000 DETROIT FIRE

Detroit, Mich., March 19.—Two bodies were recovered and a third body believed to be in the ruins of a five-story brick building at 57-57 Woodbridge street, which was swept by fire this afternoon. Two men were injured and two women, including a number of children, escaped from the burning structure. The property loss was estimated at \$100,000. The names of the victims are: Mrs. Libbey, Newark (Ont.), and Mrs. Newkirk (N. J.), and the cause of the fire has not been determined. A man named Todd, who worked in the building, is missing.

MR. GUTELIUS AGAIN. Mr. Gutelius, general manager of the Intercolonial, is proposing to spend large sums of the people's money in making certain improvements on the government railway, and, curiously enough, the improvements he proposes are of the same sort he condemned in his report on the National Transcontinental. Let us examine the facts.

"Ottawa, March 12—A survey of the Intercolonial Railway from Moncton to Halifax and Sydney, with the view of eliminating the present heavy grades, replacing light bridges with heavier steel structures, and estimating the cost of a cut-off at Truro, has been ordered.

Mr. Gutelius, general manager of the railway, states that by reducing the grades to a maximum of six-tenths, the tonnage on the trains could be doubled, and by increasing the strength of the bridges, stronger engines could be used.

"By this means the cost of handling the Sydney business would be reduced less than one half, and the total cost of operation of the Intercolonial by twenty-five per cent."

weighing two pounds had reached eight pounds in weight when recaptured in the following August. In four months and two days it had increased six pounds in weight.

The general opinion of students of this fish is that it does not feed at all during five or six months of the year when it is in fresh water.

THE NEGLECTED EAST. Under the caption "The Neglected East" the Montreal Mail discusses Maritime representation, and says that the question of redistribution lends support to the argument that the Maritime Provinces should unite under a single provincial administration.

What these provinces need more than anything else—and this refers more particularly to New Brunswick and Nova Scotia—is enlarged and more effective agricultural production.

TOO MANY LAWS AND LAW-MAKERS. A "roddes jumble," is what Cromwell called the legislative activity of his day; and the legislative output has not decreased, but greatly increased since his time.

THE GOVERNMENT'S DEFENCE. Hon. Mr. Hazen and The Standard have come to the defence of Mr. F. P. Gutelius. Mr. Hazen led off some time ago, when, in the course of his speech here, he told the people of St. John that Mr. Gutelius was a railroad man of experience, and that consideration must be given to his assertion that the Gutelius-Bowworth agreement was a good one.

THE CITIZEN'S RESPONSIBILITY. At long intervals a considerable number of the citizens of St. John display a keen interest in the administration of civic affairs.

own advantage of distort it into an instrument of profit. They always need watching, but it is beyond the capacity of the men who have to work for their living to watch them.

MR. HAZEN AND MR. GUTELIUS. It is the opinion in some quarters that Hon. Mr. Hazen does not intend to be a candidate in St. John City and County again.

NOTE AND COMMENT. Boston, according to figures just compiled at Washington, is the richest city per capita, in the United States.

Friends of Mr. A. A. Wilson naturally rejoice, but the disappointed applicants had friends too, and they have long memories.

Business men everywhere in the province are asking for the route of the Valley line, the cost, and the time of completion. They do not expect Mr. Fleming to get it blid to the tune of another \$2,000,000.

Sixty steamers averaging more than 10,000 tons each are now being built by South American countries in view of the opening of the Panama Canal.

Candidates for civic honors are not rushing into the breach in great numbers. Can it be that many of those who might run are asking themselves whether they could have done any better than the present commissioners, considering the money and machinery available?

As the Manitoba Free Press puts it: Mr. Cochrane gave the particulars in regard to contracts let by the present government, which show a contract for a 185.3 mile section of the Hudson Bay railway for \$3,078,324.90.

take more advanced ground in regard to taxation reform, inasmuch as a better distribution of the tax burden would enable the city to raise its present revenue without much of the present injustice, and would permit of the expansion of the city's revenue to meet public requirements fairly.

AND PRICES ARE LOW. Many citizens who have cause to know the price of light, heat and power in St. John will be interested in the following from the Ottawa Journal:

"Another year's balance sheet of Ottawa's Municipal electric plant shows a handsome net profit after payment of interest on the cost, payment of a sinking fund which in time will wipe out the original capital cost, and payment into a reserve fund of a considerable amount to meet repairs and depreciation.

"This good showing has not hurt the private electric company here, which says a big dividend."

"Meanwhile the city enjoys cheap electricity.

"The municipal electric plant has been a winner from the start. It has been one of the best things ever accomplished for Ottawa."

It long had been admitted that cheap light and power are necessary in St. John, and that their absence constitutes a heavy handicap, not only for manufacturers but for the average private citizen.

Mr. J. L. Stewart, M.P. for Northumberland, has thrown some light upon the Fleming government's expenditures on bridges.

S. KERR, Principal

Rockwood Park has received some further additions to its live stock collection. W. D. McLeer, of Scott's Brook, Charlotte county, on the road to the south branch of the Oromocto, having thoughtfully sent, through Cornelius Rogers, of Magalloway street, North End, a fine large specimen of the Great Horned Owl. This bird is described as being an aerial pirate and highway robber of all other birds, so persistently seizes its prey, that it is distinguished by its large size and conspicuous scar tufts. Its nocturnal and solitary habits are thus referred to by Gray:

From yonder ivy mantled tower The pondering owl does to the moon complain, When wandering near her secret bower, Molest her ancient solitary reign.

The varieties of rodents have been added to by a pair of Angora rabbits given by Colonel McAvity. These are characterized by the extreme elongation and fineness of the fur. In some parts of the continent they are kept by the peasant and clipped regularly.

The park management is anxious to add to its collection of native birds and animals gifts of partridges—spruce and brace—eagles, hawks, raptors, and specimens of the many different species of birds, such as the screech, the barred, the barn, the hood, the borrowing, the snowy, the so-called flying squirrels, tortoises, bats, muskrats, moles and foxes, as distinguished from the wild cat, and other suitable animals and birds, will be welcomed, and the association will gladly pay the postage expenses. Those who are not inclined to donate, but who are willing to sell are requested to write to the Treasurer, Rockwood Park, St. John.

HOUSEHOLD HINTS.

Small scraps of bread can be toasted in a corn popper.

Heavy window hangings are practically a thing of the past.

Linten is a fabric which can be quite easily dyed at home.

Granumet is one of the best tonics on the market.

If the kitchen range gets a spot of rust, use sandpaper on it.

ONTARIO TO LIFT THE BAN ON PULP WOOD EXPORT

(Canadian Press)

Toronto, March 19.—An important bill was introduced in the Ontario legislature today by the minister of forest and agriculture, the object of which is to remove the ban on the export of pulpwood from the provincial crown lands for one year.

To make a cat stay in a new house, rub its forepaws with butter, a proceeding that is said to destroy the scent of the old home. This is an old English custom.

Bookcases should never be forgotten in furnishing the living rooms or, rather, book shelves. Any carpenter can make them very satisfactorily.

A washable cotton rug is a comfort in the up-to-date kitchen.

Gadsby's Friend on Hudson Bay Could See Little Use for the Mace Except to Club Members—Blue Books, Pages and Other Things Fail to Arouse His Enthusiasm.

Do not have a high opinion of the oratory he was listening to. This was only another instance of a man in a supply and when supply is not dull, as it usually is, it is an excuse for a great mass of prosaic information. Bill came back at the subject in another way.

Use of Blue Books

"They don't go so far as that," I replied. "Some blue books they send to their clerks as Christmas presents. But most of them they had at each other at division time and other moments of supreme jubilation. Nothing expresses the glad spirit of a majority of forty-seven like a bundle of blue books."

High spirits

"High spirits," answered Bill, who was still suspicious. "So the blue books are not always blue?"

They wear their hats in the house?

"Yes, they do," I replied with some pride. "They never read even when the government is in power is Rouge. When the government is Blue they are always in the habit of reading the Blue books."

Bill's question

"Bill's question," said Bill, "is not a question at all. It is a question of fact. The table was set for the committee, Bill said 'Not' or words to that effect."
