

Chignecto Post.

Sackville, N. B., July 11, 1878.

Which is the Liberal Party.

The Telegraph is making strenuous efforts to detach from Mr. TILLEY, those Liberal supporters, whose champion he has been for a quarter of a century...

We do not think that our Old Liberals, who manifest Conservative tendencies, owe it to themselves, to their antecedents, to their former national acts and aspirations to take this course...

In giving our city contemporary credit for honesty in its views, we will have to convict it of the most lamentable ignorance as to the political history of Canada during the last quarter of a century.

At the outset, we distinctly repudiate the assumption of the Telegraph that the present Grit-Rouge combination is the Liberal party of Canada, either in name or principles.

It is 1848-9 that Mr. Baldwin and Lewis Lafontaine were the great leaders of the great Liberal party of Canada, extremists and radicals like the late Malcolm Cameron, not satisfied with the wise conservatism of their leaders...

At that time also, Jean Baptiste Dorian, and others like him, restless and discontented, rebelled against their party and formed the Rouge faction, whose principles were as extravagant and chimerical then as they are to-day.

It was in 1854, that Mr. George Brown, a leader then as now, and a Sore-head, to accomplish his purposes, supported in all the constituencies Tories in preference to Liberals.

What were the measures of that coalition? For neither party names nor party principles are so true a test of what a party is as its measures.

To say that these men are Tories, that they are "animated by narrow local feelings," that they compose the class who refuse to honor Dominion Day, is to state what is untrue, grossly untrue and unjust towards a brilliant galaxy of men...

The Liberal-Conservative party is judged by its record! In 1854, when the Liberal-Conservative coalition came into power, the aggregate trade of Canada was \$63,000,000; in 1872 it was \$154,000,000; an increase of 142 per cent!

Notwithstanding the great expenditures created by subsidies to keep up the various local governments, to pay the interest on such gigantic undertakings as the I. C. R. and the canal, and all the other public works, there was actually less taxation when the Liberal Government left power in 1873 than when they came into power 20 years previously!

What is the Grit-Rouge record? A decrease in the volume of Canadian trade since 1874 of \$50,000,000, and bankruptcies, \$95,000,000; increase of debt, \$30,000,000; deficits in the revenue, 1875 and 1876, \$3,400,000.

Mr. Mackenzie as the cause of all kinds of political principles, of the refusal of all parties, the scrapings of all factions and rubbish of all political schools, without unity or principle or homogeneity, except the common impulse for power and spoil, then deliver the honest worth of this country from Liberalism!

In 1848-9 that Mr. Baldwin and Lewis Lafontaine were the great leaders of the great Liberal party of Canada, extremists and radicals like the late Malcolm Cameron, not satisfied with the wise conservatism of their leaders...

At that time also, Jean Baptiste Dorian, and others like him, restless and discontented, rebelled against their party and formed the Rouge faction, whose principles were as extravagant and chimerical then as they are to-day.

It was in 1854, that Mr. George Brown, a leader then as now, and a Sore-head, to accomplish his purposes, supported in all the constituencies Tories in preference to Liberals.

What were the measures of that coalition? For neither party names nor party principles are so true a test of what a party is as its measures.

Lieutenant-Governor Chandler.

The announcement on Monday that Honorable E. B. Chandler had been appointed Lieutenant-Governor of this Province excited some surprise...

The Directors of the Bellevue Alberte and Oil Company, at their last annual meeting reported that the receipts for the past year, ending 31st May last, amounted to \$10,825.55, and that the expenditure for the same period is as follows: Wages, \$4,015.45; rent, \$57; Charges acct., \$1,724.08; pit contract, \$3,800; plant account, \$1,274.57. Total, \$10,871.10.

During the past year large sales of stock have been made, the proceeds of which have enabled the Company to carry on the work without resorting to more than one call of 25 per cent.

Mr. Chandler's appointment is a reminder that he has witnessed political changes and scenes which extend over a period of time such as is allotted to few men. He was already a politician when Joe Howe was busy at his case in a Halifax printing office.

He had been five years a member of the Assembly before the separation of the Legislative and Executive Councils took place. It is exactly forty-five years ago when Mr. Chandler, then a young man of thirty-two, was delegated by the Assembly to proceed to England in conjunction with the late Charles Simons to obtain the surrender of the Crown Lands Revenue, then administered by a Commissioner appointed by the Home Government...

Mr. Chandler was a member of the Government of this Province for sixteen years from '44 to '58 and '67 to '69. He was connected with the I. C. R. as early as 1850, when he went with Mr. Howe to London as a delegate, and a second time in 1852 with Sir Frances Hincks.

How PROTECTION has killed (?) the hat trade of the United States.—The favorite cry of Free Traders is that Protection raises the price of goods at the expense of the consumer to benefit the manufacturer.

Good Logic.—The Telegraph says: As Confederates, they are logically bound to fall in with one or other of the great political parties of Canada; if they did not intend to do this why did they go into Confederation?

It would be graceful set for the Westland Members to nominate Hon. Mr. McQueen for the vacant seat in the Legislative Council. His acquiescence with political affairs and his naturally conservative tendencies would render him an acquisition to that body.

St. John Assessment.—The late fire does not appear to have made a very appreciable difference in its wealth. The total value of real property this year is set down at \$10,235,300 against \$10,587,100 in 1877 and against \$9,287,000 in 1876.

Annual Meeting of the Bellevue Co.

The annual meeting took place on Tuesday at the Mines. Quite a number of stockholders attended. F. W. Hales, Esq., and Hon. G. W. DeLorain, from P. E. I., and Messrs. Foster, Barnes, Collins and others, from St. John, being present.

The Directors of the Bellevue Alberte and Oil Company, at their last annual meeting reported that the receipts for the past year, ending 31st May last, amounted to \$10,825.55, and that the expenditure for the same period is as follows: Wages, \$4,015.45; rent, \$57; Charges acct., \$1,724.08; pit contract, \$3,800; plant account, \$1,274.57. Total, \$10,871.10.

During the past year large sales of stock have been made, the proceeds of which have enabled the Company to carry on the work without resorting to more than one call of 25 per cent.

Mr. Chandler's appointment is a reminder that he has witnessed political changes and scenes which extend over a period of time such as is allotted to few men.

He had been five years a member of the Assembly before the separation of the Legislative and Executive Councils took place.

How PROTECTION has killed (?) the hat trade of the United States.—The favorite cry of Free Traders is that Protection raises the price of goods at the expense of the consumer to benefit the manufacturer.

Good Logic.—The Telegraph says: As Confederates, they are logically bound to fall in with one or other of the great political parties of Canada; if they did not intend to do this why did they go into Confederation?

It would be graceful set for the Westland Members to nominate Hon. Mr. McQueen for the vacant seat in the Legislative Council.

St. John Assessment.—The late fire does not appear to have made a very appreciable difference in its wealth.

The "Alice" Mystery.

Our readers will recollect that one J. F. Kinneer, in March last, at Baltimore, negotiated the sale of the cargo of hides and coffee of the brig "Alice." He is stated to have received an advance of \$1,500, when suspicions being aroused as to the character of Kinneer; inquiries were made, it was found there was no brig "Alice" on the Registry of Canada, whereas she hailed from Hopewell, N. S.

Since the last annual meeting, the pit has been sunk to a depth of 365 feet in all. Three levels have been started from the pit at a depth of 250 feet from the surface, and tunnels have been driven in different directions a distance in all of 174 feet.

On 4th of May last the manager reported to the Board a discovery made the previous day, of a very promising vein of Albertite, varying in width from 1 to 9 inches, on the property of the Company.

At a meeting of the new Board, Blair Botsford, Esq., was elected President, E. B. Chandler, Jr., Sec. Treas., and P. A. Landry, Esq., Solicitor of the company.

Stockholders were present from St. John, Charlottetown, P. E. I., Truro, N. S., Sackville, Moncton, Shelburne, Dorchester, Memramcook and Petit-colic.

News from the East.

LONDON, July 8.—In referring to the new Treaty between England and Turkey the Telegraph's correspondent says: "This defensive Treaty does not necessarily come within the scope of the deliberations of Congress."

The Batoum question is virtually settled. Prince Gortschakoff declared at Saturday's sitting that the Czar, as a proof of his desire to satisfy legitimate interests, had resolved to make a free port.

A MIRAMICHI correspondent of the New York World has sent to that paper an account of the Lazars, or Tracadie, where the lepers are supported. Regarding the introduction of the disease the writer says: "The disease has been the subject of consideration for several medical congresses appointed by the New Brunswick Government, all of which fix its first appearance in this province in 1758, although they differ widely as to its true nature."

On Monday night, Mr. Jas. Leo saw an Indian with a gun at Jeaks Brook, Upper Sackville, whom he believes to be Bernard. The next day, Mr. Leo saw the same Indian at the roadside drinking at a brook near Robt. Dowse's, Aboussagan. He is believed to have stopped on Monday night at Morice's logging camp and on Tuesday at Wood's logging camp.

MAY 1 **M. WOOD & SONS.**

**Local and other Matters.**

**A New Boat on Morice's Lake.**  
Two liquor sellers of Spring Hill were fined last week.

The Grand Division meets at St. John on July 17th.

Messrs. MASSON and BLAKE have gone to England.

The Berwick Cheese Factory is making 400 lbs. of cheese a day.

Eight Orange Lodges celebrate the 12th, to-morrow, at Spring Hill.

The Spring Hill Provident and Protective Society declared a dividend of 12 p. c. last year.

To-morrow is the twelfth. The proceedings at Montreal will be awaited with intense interest.

**ACCIDENT AT COOKVILLE.**—Mrs. Olive Estabrook had her arm badly broken on Tuesday by the upsetting of a wagon.

**PROF. JOHN ALLISON,** editor of the *Northwestern Testator*, La Crosse, Wis., is coming to New Brunswick on a lecturing tour.

The Rev. Mr. Clarke, will preach next Sabbath at Westcock Hill at 10.30 a. m.; Grand Ance at 3 p. m.; Rockport at 6.30.

**TEA MEETING.**—A Tea Meeting and Strawberry Festival will take place at the Methodist Church, Fairfield, on Wednesday next.

**AQUATIC.**—Ross is practicing on the Kennebecasis for his approaching race with Hanlan, who left Kingston on Sunday for St. John.

**SHIP SALE.**—The barque in course of construction in Mr. P. McGowan's yard, Memramook, has been purchased by Mr. Joseph Ruddock of Portland.

**MR. DOWVILLE** proposes to erect a \$5,000 drinking fountain in Market Square, St. John, and has obtained several hundred dollars subscription for that purpose.

The Rev. Richard Simonds, Rector of Dorchester, will preach and administer the Holy Communion, at St. Paul's Church, Sackville, on Sunday morning next, at 11 o'clock.

**BUSINESS FAILURE.**—Messrs. Erb & Bowman, St. John, one of the most extensive flour dealing firms in this city, has suspended with liabilities amounting to from \$25,000 to \$30,000.

As the Rev. Mr. Simonds expects to be in Sackville on Sunday morning next, the usual morning service will not be held in Trinity Church, Dorchester, but the evening service will be held at the usual hour.

The new lobster factory at Abonshagan, belonging to Messrs. J. F. Allison and Blair Estabrook of this place, has already turned out 20,000 cans this season. They are splendidly put up and are being sold at a profit. Success to their enterprise.

A man named Robert A. Taylor, from Marysville, N. S., was visiting Moncton and having a good time generally, when on Thursday night he was attacked near the railway station and very badly beaten. As he had displayed considerable money and jewelry previously, robbery was probably intended. He has returned to Nova Scotia a wiser man.

Mr. R. S. HYKE, one of the most popular hotel managers in the country, has re-established himself in St. John at Steeves' Block, corner Union and Germain streets. The hotel is large, splendidly situated, has airy rooms, is finely finished throughout and new, has bath and sample rooms, gas and electric bells throughout and other modern improvements. Success!

THE OSBORN TRIAL will take place in the Circuit Court, next Tuesday. A man named Newberry, who is being held on a charge of murder, is being held on a charge of murder as late as 12 o'clock. He found him on the street in company with a woman whose likeness he has recognized as that of Annie Parker, and with two other men, one of whom he has identified. He left them about midnight, it being then raining—the other parties went off in the direction of the Scudow bridge.

**WALLACE IS KILLED.**—The crops of all kinds are looking very promising. Potatoes and other roots luxuriant. A very abundant return is anticipated.—Large shipments of free stone being made from H. G. S. Co.'s Quarries to Charlottetown, Summerside, Cape Breton, Halifax and Boston; also 3,000 tons to St. Peter's Canal by H. G. S. Co.—The fisheries on shore and in the Straits of Northumberland are said to be very successful.—Dr. Tupper has paid a visit to his friends in Wallace, Worth, Gaysboro, Fox Harbor, &c.

**MAN KILLED.**—Monday morning, a married man, named Stephen Kent, was killed at Amherst while assisting in the removal of a building by means of a capstan worked by horse power. The man was sitting by the capstan, holding the slack of the rope, and while the rope was under great tension, the lever to which the horse was attached suddenly snapped in two and a portion of it struck the man in the forehead, crushing the skull, killing him instantly. Dr. Mitchell, coroner, held an inquest, the result of which we have not yet learned.

**DROWNED.**—A boy named Smith, 17 years of age, was drowned in the Pettoodias River, near Hopewell Cape, on Friday afternoon.—Fred Reid, son of Mr. Gideon Reid, of Miramichi, Village, Cornwallis, was drowned in Killam's Pond on Saturday, while bathing.—Arthur Herbert, aged 14, son of Rev. O. C. Herbert, Lawrenceton, N. S., was drowned on Monday. The fine steamer "Peter Crear" arrived last week.—Rev. Mr. Moore preached his farewell sermon on Sunday last. Rev. Mr. Brine of Parssbury is to be his successor.

**The Crops.**

**GRAIN.**  
grain crops are very late. Buckwheat is just finished. Rains in very early season, have done good. Potatoes very soon, will be a little better than last year. White and yellow weed is very noticeable and must be very injurious to the crops.

**WESTMORLAND.**  
what is looking well and a much greater breadth has been sown than usual. Grass is scarcely up to the average, but the highland is good (the marshes). Potatoes promise well, although the blight has made its appearance in one field, that of Thos. E. Oulton, Esq., whose potatoes are out of blossom. Fry is coming down pretty hard on the turnips, and rain is much needed to save them.

**CUMBERLAND.**  
The prospects of the crops in general good. Hay, upland, good average crop. Marsh, extra; from 30 to 50 per cent. better than last year. The late crops of wheat have been so encouraging that a larger breadth than for a number of years has been sown, which looks very well. It has yet to run the gauntlet of rust and weevil. The increased acreage of wheat sown has lessened the extent of barley this year. Oats have been sown to fully an average acreage, but only limited extent. Not so many potatoes have been planted this year as last. They look well on dry land, where they came on early. Some fields have rotted, necessitating considerable replanting; late planted on wet soil look badly. Apples, &c., are raised only to limited extent. Hence the use in SCARLETTA, MEADLEY, and SMALL FOX, in CANTON and GARDNER'S BRYANPEL, and in all cases in which the system is exhausted under pure and artificial dressings, and the tendency is towards recovery.

As a Tonic it is most advantageously employed in Chronic Diseases with Debility, as SCARLETTA, DROST, PASSIVE HEMORRHOIDS, DIPYPTERIA, CUTANEOUS AFFECTIONS, GONORRHOEA (also called St. Vitus Dance), AMORRHŒA, ISGURDION, and HYSTERIA, and in the advanced state of protracted fevers.

**HANINGTON'S QUININE WINE and IRON** is a perfect combination of IRON and QUININE, with the Finest Sherry Wine, pleasantly flavored.

Hence its decidedly CURATIVE POWER in the treatment of the above-named diseases, besides curative effect arising from its FEVER-REMOVING, or a debilitated state of the system.

Price 50c per Bottle. Six for \$2.50.

**HANINGTON BROS., Chemists,**  
Foster's Corner, St. John, N. B.  
Our name is on the Bottle. mar 29

**Local and other Matters.**

We have had some very hot weather here. The thermometer has indicated as high as 100° in the shade; and we have had no rain for two weeks, grass and crops in general have suffered.—The spring being quite favorable, crops were mostly in the ground in good time and condition. Having realized the great necessity of growing more of our own bread and seeing prospects more favorable for the growth of wheat, our farmers all, again renewed the growing of wheat. I think the best seed wheat raised in this section this season, is sown in this section than any previous year, and the present appearance is favorable to a good yield.—Wheat that was sown in April is now quite in head, and will be much affected. I think by the drought.—Grubs, worms, &c., have been doing much damage here this season. Cabbages, turnips, carrots, as well as flowers, all have suffered from the ravages. A FARMER.

**PORTLAND, Oregon, July 8.**—Gov. Chadwick, now at Umatilla, telegraphs under date of the 7th as follows: "The volunteers under Sperry, five hundred strong, were defeated at Willow Springs, thirty miles south of Pendleton, yesterday. Sperry was killed with nearly all his command killed or wounded. We can hear of but seven left."

The following has been received from N. B. Simonds, dated the 6th: "Seven city reports that the hostiles are strongly fortified twenty-five miles from Canyon city, waiting to give Howard battle. Howard's forces were expected up to engage the hostiles on the morning of the 5th. There are about 1,600 Indians reported to be on the march. Howard is 26 miles from Camas prairie yesterday morning, and would move on. Howard told a scout that the Indians would cross the Columbia River at the falls, and thence in great danger here from the Indians. Our troops that went to the front from here, 500 strong, were attacked today at Willard Springs, and those who got in, there must be over half not two thirds killed. Of those who were in there are wounded before they got out. We have about three hundred men here and not one half armed. A hundred soldiers left here at 7 a. m. to relieve our men."

**THE SEA SERPENT AGAIN.**—Mr. W. Lawrence of Maitland, N. S., of the "Electra," describes the appearance of a sea serpent on the 31st of May, in latitude 49° 5' N., longitude 51° 30' W. While the vessel was heaving to her crew were surprised to see a huge serpent rise out of the water a hundred yards from them. It stood upright, at least 45 feet above the water, and remained in that position for about thirty seconds, after which it gradually sank. It appeared to be about eight feet thick, and its color was white, except its back, which was black. Captain Lawrence says he knows that many persons do not believe in the stories about the sea serpents, but that he can rely on the Commander of the "Electra," Captain G. B. Winchester, certifies to the truth of the report.

**A Sense of Weariness** is often felt by persons who cannot locate any part of a disease. If they work it becomes laborious; if they walk, they soon tire; mental efforts become a burden, and even the most trifling duties are attended with weakness which is cast over their lives. Recourse is had sometimes to stimulants of a dangerous character. The advice of physicians to refrain from active labor produces no happy result. Why? The fine system of "Peter Crear" is still pushing the work vigorously along at the stone quarries. It is a very enterprising man like him, were engaged in other industries in this vicinity, we might look for brisker times. The fine steamer "Peter Crear" arrived last week.—Rev. Mr. Moore preached his farewell sermon on Sunday last. Rev. Mr. Brine of Parssbury is to be his successor.

**MARRIED.**

On the 6th inst., by Rev. D. Chapman, Capt. Timothy Outhouse, Mrs. Margaret Outhouse, all of Sackville.
