The present School System is very defective. I wish to see the beneficial in fluences of education extended to the children of the poor as well as to those of the rich. and in the midst of the many influences at work before and at the Election, has not the truth been, that, instead of the Candidate being elected by the free and unfettered choice of the people, he has oftener in a manner elected himself? Is it then to be wondered at that so much of self seekquirements of a good Legislator, and the alents and capacity of the Candidate, have be wondered at that so much of self seek ing and self interest has taken the place of a healthy and onward legislation, which might and would doubtless be productive of so much good to our rich but much ne glected Province.

Gentlemen Electors, Much depends on sound and wholesome legislation; let not the coming opportuni-ty pass unimproved. Send men who will not merely Members of Assembly, but Representatives of your interests, who are able with energy and ability to advocate, and with honesty and integrity of purpose and with honesty and integrity of purpose to carry through such measures as will advance our Bountry's good; men who will strive to bring to light and practical working our yet neglected resources; men who will raise the Agriculture of our Province and uphold it as the main pillar of our Country's pride and profit, and hold our laudable spectragement to the hard stimulus to our vast Fisheries, and aid the des rving fisherman in his foilsome parsuits; men who will desire to place within the reach of the poorest child of our country, the means of a fair and practical Education; men who will look to a proper and adequate remuneration. out laudable encouragement to the hard adequate remuneration being given to our Jurymen in their services to their country; Jurymen to their services to their country;

INDEPENDENT ELECTORS :- At the Hustings I trust I may have an opportunity more fully to express my views and principles. I come out on no particular interest, I have formed no league or combination, nor do I intend to do so. I desire if elected, to be so by the tree voice of a free people; your interests are identical with my own your defeat will be shared in by myself, your success will be mine; and should any other candidate than myself have your preference, defeat will be shared in by myself, your success will be mine; and should any other candidate than myself have your preference, then run steady for such a one, that you may scure his services, and if your free and prudent selection, then I should feel bound to held you in the work, only make a prudent selection and should I be your choice, than I sincerely will-strive that my votes shall be at all times cast on the side of a goodiconactence, and in liberal justice to all my fellow men. To those who are willing to give me support, to them I will feel grateful, and will endeavour by proper conduct to win a returning gration of the subsection of the Number of the Numbe George Simpson Francis Matthews John Mauhews John Spear John Anderson John Hart by proper conduct to win a returning grati-tude; then who feel inclined to support ano-ther in my stead, of them I will think none the less I come not out as a begger of any ones vote or interest, nor shall I use, or countenance the use of any means to obtain my election, which are not consistent in every election, which are not consistent in every particular with that honesty and well grounded principle, which I will ever desire to carry with me throughout life, in whatever station I may be placed in. Again I Say, look well to the qualifications of the Candidates, and be not earried away with the reports of selfish and interested canvassers; in these eventful times it becomes us to pause, and what we do, to do it with equition and indgement; for much we shall discover will depend on the next House of Assembly.
