W. G. PARISH,

GEO. G. HUTCHESON & CO.

We want to engage your attention about our Dress Goods Stock. If you have any thought of buying a dress you ought to see it. We are told repeatedly that there is nothing like them in Brockville for style and value. Ladies are good judges, and when they pass judgment it is generally correct. We have all the new makes and styles in Dress Goods, and some lovely new patterns in Challies. We will show the stock with pleasure.

Our stock of Spring Carpets has all arrived. As usual it is the largest selection you will see in this section, probably twice as large as any other stock. It comprises all grades of Brussels, Tapestry, Wool, Union and Hemp Carpets, also Velvet Carpets, Matting, Carpet Squares with border all around, and Floor Oilcloths. Tapestry Carpets range from 80c. to \$1.00 per yard. Brussels Carpets at 95c., 95c., \$1.00, \$1.10 to \$1.25. Borders to match a great many patterns. Also Stair Carpets. Prices guaranteed as low or lower than the same quality of goods can be bought for, either in Brockville or in the city. We tell no tales about our goods—we guarantee them as represented or money refunded. We solicit the favor of a call of inspection. Carpet laying and making attended to when desired.

ROCKPORT.

This renowned river location is materializing the romantic dreams of the days that are gone, that hung like a rosy cloud over its future. A shoe shop, a butcher shop and a new custom house are among the additions indispensable.

In the interim of the building of the new office, Mr. Dixon is located in the post office where he attends to the duties of customs officer in a manner pleasing and just to all concerned, enlightening the same by now and again firing off a good, amusing joke—a habit he seems addicted to.

The post office and general store, under the careful management of Mr. Frank Fitzsimmons, is steadily increasing in business. Mr. F. is a general favorite with the boys. In the evening the P. O. is literally thronged with those who have a leisure hour to spend. They gossip a little, exchange local news items, discuss questions of the day in a very quiet and respectful way—a fair ideal for a chapter in romance. The telephone with its delicate ear and mysterious whispering mingles its wondrous tones with the company.

A phenomenon is brought to view in the ice vanishing suddenly on the 8th of this month. The ice was very thick, but there has been no floating ice. Mr. Hunt says the like has not been known for fifty years. 1800 ice went out on the 1st of April, 1891, on the 27th April; this season it was supposed it would go on the 1st of May.

On account of the low water last fall, the present many pier and waterway improvements around the islands have given much additional employment to the islanders.

Nien Point, where Mr. Andre Cause's handsome cottage stands (attached to the Hunt farm), is receiving a great addition to its convenience and beauty in the fine substantial pier built by Messrs. David and Henry Hunt. These young gentlemen have charge of some of the prettiest cottages and islands in the Bay. Locally they have a thorough knowledge of all that belongs to the tourist's pleasure, and have won a high reputation for integrity and worth.

Mr. Cause, of New York, is a Parisian and belongs to the old school of gentlemen, and is the soul of honor. Mr. Dixon says that many letters have been received at the Bay intimating that quite a few of the guests will open their cottages early in May, and that the prospects on the river are unusually bright.

The Choctaw Friends have organized here. They have built a fine hall and include fifty members with many more members coming in. This organization must possess great vigor to increase with such rapidity while yet so young. Numerous as legitimate secret societies are, we believe there is a broad and ample field open all.

We must the more commend them, because love and benevolence form the basis upon which they are built. Athens will require a representation in this matter, as she has missed no order from the most eminent Egyptian in the present day, not to mention those that existed during the earlier Chinese dynasties 10,000 years before creation's first rosy dawn. But, truly, modern Athens wears the graceful mantle that has fallen on her from bygone ancient mother right royally.

Mr. Mack Bolton and family have moved into the village. He intends leaving shortly for the North West. Some of the boys are doing "stall" fishing at Thompson's Bay, with hook and line. As many as ninety-three bass shiners have been reported for an afternoon's catch. We are afraid this number exceeds the number allowed by the new Fish Regulations.

ENSLAUGHT FOR CATTLE.
 Mr. Isaac Simpson considers enslavement the cheapest and best food for cattle. Last year he built a silo on his farm lot 11, con. 6, Township of Kingston. The tenant filled it last autumn, and has been feeding the cattle with ensilage and is very much pleased with the results. He says he can afford to pay \$100 a year more rent than heretofore, the increased value being caused by the great saving in cattle food, the increased milk production, and the better quality of butter produced. About 20 or 25 tons of corn suitable for ensilage is generally grown to the acre, and when properly cured will keep over from year to year. The cattle eat it with avidity. Mr. Simpson thinks farmers would do well to begin at once erecting silos on their farms, and grow corn for food for their flocks, and herds. These could be very largely increased and easily fed with ensilage. One American farmer has over 100 head of cattle, besides sheep and horses, which he can keep well on one hundred acres of land, and he says he does it by ensilage.

An eccentric young lady of Irish Creek was asked by a minister visiting her if she had religion. She replied, "I have slight touches of it occasionally."

OH, WHAT A COUGH!
 Will you heed the warning. The signal perhaps of the sure approach of that terrible disease consumption. Ask yourself if you can afford for the sake of saving 50c., to run the risk and do nothing for it. We know from experience that Shiloh's Cure will cure your cough. It never fails.

DEATH OF THE OLD REFORM LEADER.
 Hon. Alexander Mackenzie is dead. Early Sunday morning his pure spirit passed peacefully away. For days and weeks his death has been expected almost hourly, and when after long suffering—the summons came, there was mingled with the deep grief that the people of Canada felt for a comforting thought that he was ready when the Master called. His was in every respect a blameless life. He lived to see the vindication of his fair name and fame from every suspicion and stain by his political enemies. From 1873 to 1878 he ruled our country wisely and well, but being a man of sterling principle he refused to grant to the manufacturers the tariff concessions they demanded, and was defeated by the N.P. advocates in 1878. But whether as leader of the Government or sitting in the cool shades of Opposition the hon. gentleman's unflinching advocacy of what he thought was best for the country gained at all times the admiration of his friends and the respect of his opponents.

On Sunday morning, Rev. Dr. Thomas, pastor of the Jarvis street Baptist church, of which deceased was a worthy member, paid the following tribute of respect to the departed premier.

His was a name, he said, of which Canadians had good reason to feel proud. Through all the years of his public life he had exhibited the highest qualities of Christian manhood. In every position of trust that he had ever filled he had maintained a reputation for honesty and integrity that even his political opponents could not venture to question. He served his country with all the ardor and fidelity of a patriot. And with the usefulness and nobility of one who had patterned after the divine ideal he had gone down to posterity with a name fragrant in the memory of this generation, and which the generations coming would mention with enthusiasm. He was one of whom it could be said that he loved his Master, and governed his life by the strictest principles of righteousness.

He remains the great Reform leader will be interred in Lake View Cemetery, Sarnia, at 2.30 p.m. on Thursday.

DEEMING DECLARED GUILTY

Australian Jack-the-Ripper Will be Tried for Murder.

A WILD BONE AT THE INQUEST.

The first evidence submitted was that of the doctor who found the body. There was intense excitement as the witness gave a glowing description of the body, which, he said, had been found in a ditch, with the object of saving labor in digging the grave.

Throughout the hearing Deeming wore a careless air, and on several occasions he laughed loudly as some of the witnesses testified. An ironmonger named Woods and his wife testified that they had the prisoner's keys, a frowny and a barrel of cement on Dec. 17th.

He became wild with rage, and breaking through his guards rushed upon those who had identified him and struck one of them a severe blow. He was then taken away, but he eluded him, and finally the infuriated man was overpowered. He believes his hands were bound, but that the watch was kept to prevent him from killing himself.

Notwithstanding the fact that the jury which was investigating into the death of Mrs. Deeming, who was murdered at her home in Whitechapel, on the afternoon of yesterday returned a verdict of wilful murder against her husband, Deeming, to-day the conduct of the trial was a study in the mark since his arrest. The verdict does not seem to affect him in the least, and he looks as usual. The more the man is studied the deeper becomes the belief of many persons that his conduct is more than a mere whim, and equally devoid of fear. Those who have studied him closely, however, say he is a cold, calculating man, and when he finds the noise tightening about his neck he will become an object of fear.

The irrepressible Henry George men are now to the front with something new in the way of Congressional petitions. For over two years they have been circulating signatures requesting the House of Representatives to appoint a special committee for the purpose of making a study into and to report upon the expediency of raising all public revenues by a single tax upon the value of land.

Each signature is on a separate slip of paper containing the petition in full. The slips are numbered, and they come from parts of the Union, and are signed by people whose names, in many cases, will be surprised to learn that they have been in the list. The list is in the form in which the petition is arranged, and the slips are numbered, and they come from parts of the Union, and are signed by people whose names, in many cases, will be surprised to learn that they have been in the list.

These books are arranged by States in a series of drawers set in a handsome oak cabinet, and the names of the subscribers are given. On the top of the cabinet is an enlarged copy of the signed petition by Henry George, and the names of the subscribers are given. TRANSFER OF MINISTERS.

Rev. John Laycock Goes to the Northwest—Other Transfers.

The Transfer Committee of the Methodist Church met in Toronto yesterday. The following transfers were recommended: Rev. Manly Benson, from Toronto to Montreal; A. C. Crews, from Toronto to Montreal; W. G. Henderson, from Montreal to Manitoba; W. J. Whitcomb, from Bay of Quinte to Whitington; James Elliot, D. D., from Montreal to Toronto; E. H. Kyles, from Niagara to Bay of Quinte; N. E. Smith, from Niagara to Bay of Quinte; James Allen, from Manitoba to Northwest; Nicholas Nigara, John Laycock, from Niagara to Manitoba and Northwest; William Leith, from Guelph to Niagara; James H. Hill, from Guelph to Niagara; C. O. Johnson, from Bay of Quinte to Ontario; A. J. Anderson, from Toronto to Montreal; J. C. Antell, D. D., from Montreal to London.

A Helena, Montana, dispatch says: The first result of the work looking to the extermination of rattlesnakes in Montana and Wyoming came to light yesterday, when the body of a man was found on the prairie. It is supposed to be a Wyoming "rattler" en route to Canada. Two other men suspected to be in communication with the rattlesnake are also named. They are located in Wyoming, with a thousand stolen horses in their possession.

Four men arrived in Southampton yesterday and asked the Magistrate to enable them to reach their homes. The cable says these four men are the sole survivors of a party which numbered 80 persons when it left for Brazil last August. All their companions died of yellow fever or cholera, and the only survivors were the four men.

General Surprise at the Result of the New Germany Murder Trial.

JUDGE ARMOUR'S ORGASMS.

Story of the Crime as Told by These Present—A Quizzical—Miserable—The Two Headsy—Statements—And the Judge's Orgasms.

A Berlin dispatch says: The trial of Martin Reinhardt, charged with the murder of Michael Hans, of New Germany, on Dec. 10, 1902, is now in progress. The case is a sensational one, and the trial is being watched with intense interest. The judge, Michael Armour, is known for his quizzical and sometimes orgasmic behavior during the trial.

PRISONER'S STATEMENTS.

Andrew W. Zinger says: I remember the 10th of December at my home about 10 o'clock. Some body tapped at my window and I went out to see who it was. I heard Hans and Reinhardt speak. Hans said to me, "Reinhardt has a knife, and he is going to kill me." I went back to my room and hid myself. I heard Hans and Reinhardt speak again, and Hans said, "Reinhardt has a knife, and he is going to kill me." I went back to my room and hid myself.
