Schemers, such as Vanderbilt and John A. Gould, piled up stupendous monetary mountains, and what enriches a few adroit and unscrupulous sharpers impoverished the many and crippled the business industries of the many and crippled the business industries of the whole nation. ## VEGTINE

For Dropsy.

Central Falls, R. I., Oct. 19, 1877.

Dr. H. R. Stevens:—

It is a pleasure to give my testimony for your valuable medicine. I was sick for a long time with Dropsy, under the doctor's care. He said it was water between the heart and liver. I received no benefit until I commenced taking the Vegetine; in fact I was growing worse. I have tried many remedies; they did not help me. Vegetine is the medicine for Dropsy. I began to feel better after taking a few bottles. I have taken thirty bottles in all. I am perfectly well, never felt better. No one can feel more thankful than I do.

I am, dear sir, gratfully yours,

The low price of butter and cheese, which prevails, teaches that the only way to command a good price for butter is to have it of the best kind, put up in the neatest style and in not too large packages.
