#### "A Grand Success."

BAY DU PIN, April 12, 1882

*C. S. Ramsay, Esq., Newcastle:*

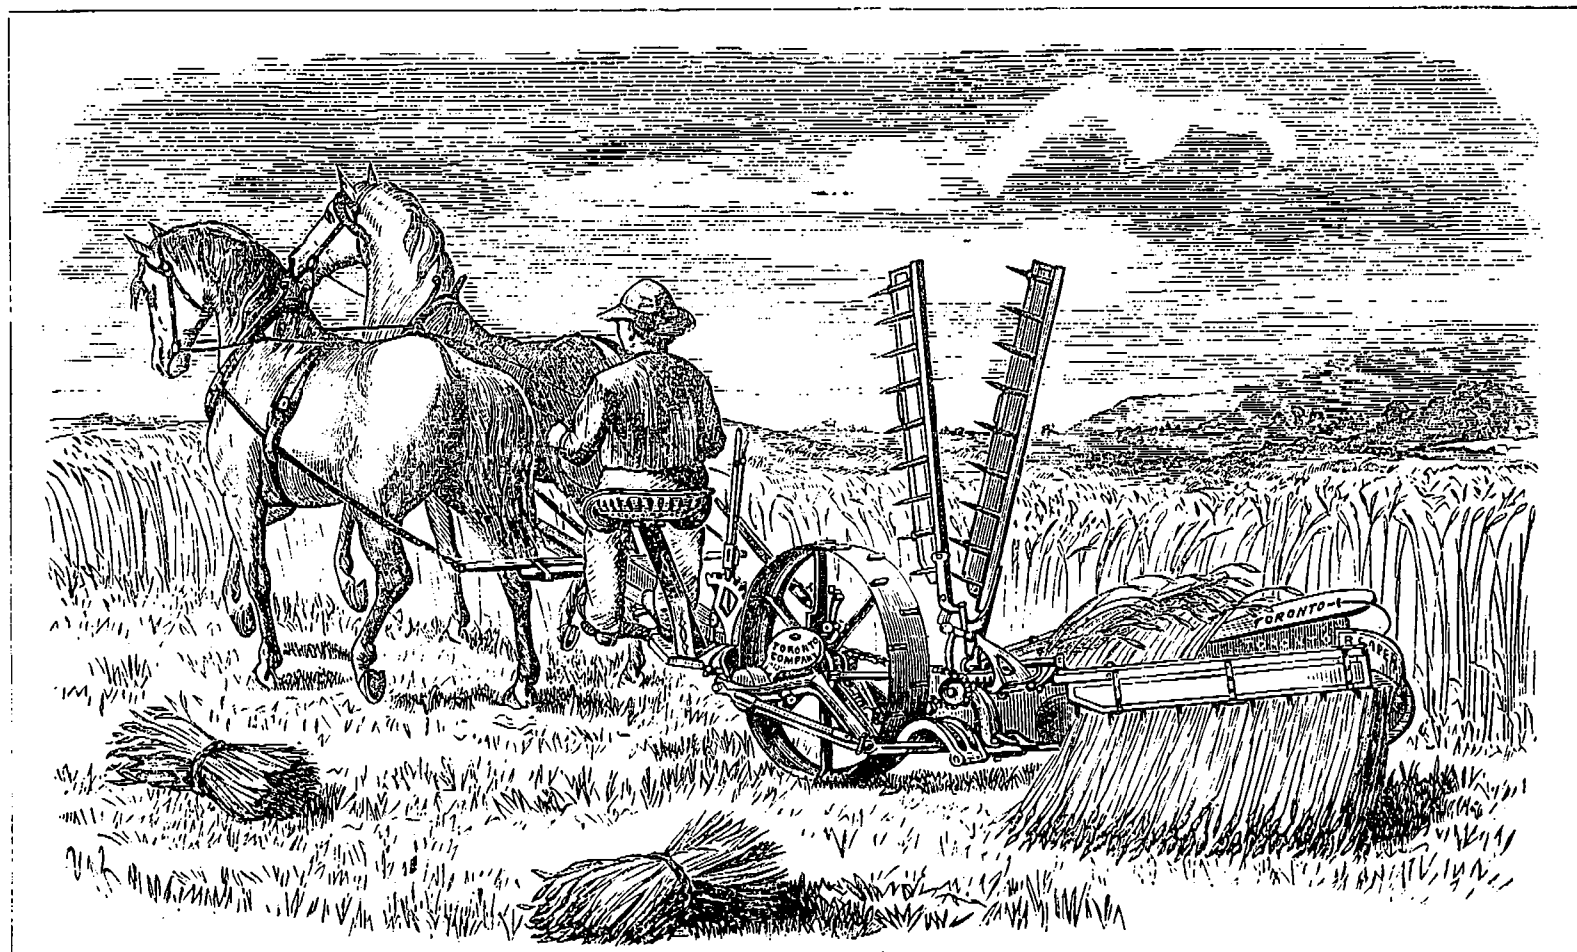

DEAR SIR,—In answer to your inquiry of the 2nd inst., I have no hesitation in saying that the Reaping Machine I purchased from you in August, 1879, is a grand success. The cutter bar is so entirely under the command of the operator, and the power to control the knife is used with every facility by the driver. The adjustment to pick up lodged grain is perfect and used at the will of the driver without inconvenience. In conclusion, I must say that the Whately Reaper is less embarrassing to control, and makes better work than any other Reaping Machine I ever saw, without getting out of order. No breakage has occurred since I had it; I am well pleased with the Machine.

Hoping you every success in the sale of these machines that farmers may have the benefit of the same,

I am, Sir, your obedient servant,

JOSEPH B. WILLISTON.

### THE TORONTO REAPER FOR 1882.

#### Proud of his Toronto Reaper.

SAURIS EAST, P. E. I.,  
June 29, 1881.

*A. P. Tippet & Co.:*

I purchased from your agent, James Keefe, last year, one of your Toronto Mowers and also one of your Toronto Reapers, which I am proud to say has given every satisfaction. I have used both over rough and smooth ground and have given them a fair trial. I have cut lodged grain with the Reaper, which I did not think a Reaper could do, making a good job. I have had no breakage, the cutters run light and are very easily handled. I freely recommend the Toronto Cutters as good, substantial machines, to any farmer in need of one.

WM. MCGILVERAY.

#### No Lost Time on account of Breakages.

ROLLO BAY, P. E. I.,  
Jan. 16, 1882.

*The Massey Manufacturing Company:*

I purchased last season from your agent, James Keefe, one of your Toronto Reapers, which I am happy to say has given good satisfaction. I have cut over very rough ground and cut a great deal of grain very much broken down, and found it to work easy; it is easily handled, owing to its simple construction. I have used the Buckeye Reaper for four seasons, and laid it up and bought a Toronto Reaper. I think the Toronto Cutters are just what we farmers want, as they are built of good material. No time lost on account of breakage.

Yours, etc.,

ALFRED CAHILL.

#### Every Farmer in New Brunswick using Toronto Mowers would endorse this letter.

*Toronto Reaper and Mower Co.:*

GENTLEMEN,—The Toronto Mower I purchased from your agent, A. B. Hayes, Esq., of Worton, in July, 1879, has given excellent satisfaction, consequently I have used it for three seasons and it has only cost me ten cents for repairs. I think for lightness of draft and adaptness to work on uneven ground it has no equal; in fact, I can endorse all that I ever heard in favour of it.

Yours respectfully,

JAS. T. KING.

The Sharp's Self-dumping Rake, bought of you three seasons ago, has done its work well in every way in rough or smooth ground. There are several in this part of the County, and I have yet to hear of any complaint about them. You can dump with your foot in light hay or heavy hay, going up hill or down. Although other rakes are offered at a lower price, where the Sharp Rake is known it takes the lead.

**Mr. Kinsman only uses One Horse.**

CANAAN, King's Co., N. S.

*The Massey Manufacturing Co.:*

GENTLEMEN,—Having used one of your two-horse Mowers for two years on an upland farm, and having experienced so much satisfaction. I feel safe in recommending it to others. It cuts as long a swath as any other, and being so light of draft I have found that one horse can mow as much in one day as two can with any other machine. When using one horse, my little boy, only twelve years old, has run the machine day after day, and done as good work as could be desired. There is one other of your machines in the neighbourhood, which is as highly appreciated by its owner as mine. I consider my machine to be worth as much to-day as the day I got it. In fact, in comparing it with others, I am perfectly satisfied.

Yours truly, LAMONT KINSMAN.

**Cut Four Seasons, and No Signs of Wear.**

*Messrs. A. P. Tippet & Co.,*

*Agents for the Massey Manufacturing Co.:*

The Toronto Mower I bought of you I have used for four seasons to my complete satisfaction in every way. It is easy to handle, easy on a team, and strong enough for any work in a hay field. It is well made, of the best material, and appears now as if it would last a lifetime, although I have given it rough usage on my own and neighbour's fields. I find that it does its work well on rough and stoney ground. The "Toronto" is fast taking the place of old style machines. A single trial of the "Toronto" will convince any farmer that it is a first-class machine.

*L. C. Neeley, Esq.:*

DEAR SIR,—This is to certify that during the three years I have used the Toronto Mower, it has proved a perfect success. With this experience I can recommend it as the machine that will give perfect satisfaction on all kinds of land.

Yours truly, J. L. READ.

**Pronounced A 1 by Mr. Floyd.**

FAIRFIELD, Jan. 14, 1882.

I have used the Toronto Mower three years, and I find her to be satisfactory in every respect, and has cost nothing for repairs. I have never used any other Mower, but think by what I have seen and heard, that the "Toronto" is A 1.

**A Superior Machine, not Equalled by any.**

LOWER BEDEQUE, P. E. I.

*A. P. Tippet & Co.:*

GENTLEMEN,—I have much pleasure in stating that the Toronto Reaper, purchased from your agent, Mr. E. Kinsman, last season, is a most superior machine, being light of draft and easily managed, so as to be a success in working in rough land and broken-down grain. I reaped grain last season on very rough land and also much broken down, and I can assure you I was delighted at the way it performed this work. As a shearer it is not equalled by any. Having had nearly twenty years' experience in working and seeing worked the best machines out, I must say the Toronto excels all. I do confidently recommend all my friends, who are wanting a first-class Reaper, to buy the Toronto, as in the long run it will be both time and money saved.

Yours truly,

ARTEMAS LEARD.

**Mother and Child.**

BY J. B. HARRIS.

"In Smyth street, at an early stage of the fire a woman's horror-stricken face appeared at an upper window and the form of a child appeared in her arms. A wave of flame swept past the window, and mother and child were seen no more."

By the sea the sun shines brightly,  
Peaceful flows the river on,  
Mirrored in its placid bosom  
Lies the city of St. John.

Throng'd with life—her streets re-echo,  
With a busy, ceaseless hum;  
Woman's laugh and sweet child-voices,  
Through her casements rippling come.

Peace and safety seem to hover  
Over cot and over hall,  
None are dreaming of the danger  
That shall soon envelop all.

Hark! from yonder window floating,  
Comes a baby's plaintive cry,  
Mingling with the tender cadence  
Of the mother's lullaby.

"Hush my babe, lie still and slumber,  
"Holy angels guard thy bed;  
"Heavenly blessings without number,  
"Gently falling on thy head."

Hark! another sound, quick drowning  
Baby's cry and mother's song,  
'Tis the angry, fearful clanging  
Of the fire-bell's iron tongue.

See from roof and lattice bursting,  
How the red flames leap on high;  
See, on viewless coursers charging  
Nigher still, and still more nigh—

How they come in maddened fury,  
Nothing now their course can stay,  
Human skill and might are vanquished,  
Naught that lives may bar the way.

Hark! what sound arrests the flying?  
What dread sights numbs every eye?  
Can it be, 'mid yon red billows,  
One is left behind to die?

Yes! beside the open casement,  
Terror-stricken, crazed and wild;  
While the flames are round her leaping,  
Stands the mother with her child.

Ah! sweet babe, no more for ever  
Shalt thou hear thy cradle hymn;  
Never more, oh! poor young mother,  
Shalt thou sing again for him.

Yet an instant, speechless, breathless,  
Looked the pitying thousands on,  
Then a fierce wave swept the casement,  
Child and mother, both were gone.

**Would Trade Anything Before their Toronto Mower.**

*Massey Manufacturing Co.:*

GENTLEMEN,—The Toronto Mower we bought of Mr. A. P. Tippet, St. John, N. B., 1881, has given us entire satisfaction; it works like a charm on rough and smooth ground. We would not exchange for any other we have seen.

Yours truly, E. V. BOAM,

*Massey Manufacturing Co.:*

GENTLEMEN,—

Having purchased one of your Mowers last season, of your agent, T. A. Perley, and cut my hay with it, I feel justified in recommending it to every farmer intending to purchase a Mower. I feel well satisfied with mine, I believe it to be the best machine in use.

JAS. E. PORTER.

**We have heard of the Toronto Mower Pulling Stumps, but never before Mining Iron.**

BABINGTON, Queen's Co., N. B.,  
Jan. 17th, 1882.

*Daniel Mott, Esq.:*

DEAR SIR,—I have used the Toronto which I purchased of you last season, with perfect satisfaction. Several of my neighbours came to see it at work, and pronounced it all that could be wished for in a Mower. It is light of draft, with scarcely any noise while at work. I consider its strength has been well tested, for as I was cutting the first day, I hooked the outside slide in a piece of iron, and bringing the horses to a stand still. I backed out and started all right.

(A Buckeye agent in the neighbourhood reported my mower was used up, but she is all right.)

I have much pleasure in recommending the Toronto Mower to the Farmers.

Yours truly, JAMES BABINGTON.

**We wish our Neighbours to know it.**

PICTON, N. S., 10th Jan., 1882.

*The Massey Manufacturing Co.:*

This is to certify that we have purchased Toronto Mowers from your agents, D. N. Murray & Co., and we are highly pleased with them. They gave us great satisfaction. We have mowed over forty acres each year since that time, and we have not had one cent's worth of repairing to pay for. The machine is of good material, and light draft. We wish our neighbours to know the best is the cheapest. We have much pleasure in recommending your Toronto Mower to the farmers of Picton County.

**Yes, Sir! The Demand for them is Immense This Year.**

ST. CROIX, N. B., Jan. 13th, 1882.

*The Massey Manufacturing Co.:*

The Toronto Mower I bought from your agent, J. S. T. Maxwell, has given complete satisfaction. It runs with very little noise; it is very light of draft. In fact, it completely eclipses all other machines in this district. I have no doubt you will sell an immense quantity of them next year.

MOSES GREENLAW.

**Again Pronounced First-class.**

ST. STEPHEN, N. B., Jan. 19, 1882.

*The Massey Manufacturing Co.:*

The Toronto Mower I purchased of your agent, J. S. T. Maxwell, has given perfect satisfaction. I have no hesitation in recommending it to any one wanting a first-class Mower.

ALBERT JACKSON.

**Still Another Title for the Toronto Mower.**

JOHNSTON, Queen's Co., N. B.

*Massey Manufacturing Co.:*

Having purchased a Toronto Mower, I must say it gives me every satisfaction I could desire. It is very light of draft, is easily handled, has many good points not in other mowers; it will not hurt the horses neck; it will cut anywhere where a square harrow can be driven; makes very little noise. It is the king of mowers.

ROBERT H. PHILIPS.

**A Severe Test.**

COVE HEAD, P. E. I., March, 1882.

*The Massey Manufacturing Co.:*

You ask my opinion as to the merits of the Toronto machine I purchased from your agent last year. I can testify that it has given me great satisfaction, and its strength and power of action were not accidentally put to the severest test, as you can explain.
