Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

- ☐ Coloured covers/
Couverture de couleur
- ☐ Covers damaged/
Couverture endommagée
- ☐ Covers restored and/or laminated/
Couverture restaurée et/ou pelliculée
- ☐ Cover title missing/
Le titre de couverture manque
- ☐ Coloured maps/
Cartes géographiques en couleur
- ☐ Coloured ink (i.e. other than blue or black)/
Encre de couleur (i.e. autre que bleue ou noire)
- ☐ Coloured plates and/or illustrations/
Planches et/ou illustrations en couleur
- ☐ Bound with other material/
Relié avec d'autres documents
- ☐ Tight binding may cause shadows or distortion along interior margin/
La reliure serrée peut causer de l'ombre ou de la distortion le long de la marge intérieure
- ☐ Blank leaves added during restoration may appear within the text. Whenever possible, these have been omitted from filming/
Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.
- ☐ Additional comments:/
Commentaires supplémentaires:

L'institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- ☒ Coloured pages/
Pages de couleur
- ☐ Pages damaged/
Pages endommagées
- ☐ Pages restored and/or laminated/
Pages restaurées et/ou pelliculées
- ☒ Pages discoloured, stained or foxed/
Pages décolorées, tachetées ou piquées
- ☐ Pages detached/
Pages détachées
- ☒ Showthrough/
Transparence
- ☐ Quality of print varies/
Qualité inégale de l'impression
- ☐ Includes supplementary material/
Comprend du matériel supplémentaire
- ☐ Only edition available/
Seule édition disponible
- ☐ Pages wholly or partially obscured by errata slips, tissues, etc., have been refilmed to ensure the best possible image/
Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below/
Ce document est filmé au taux de réduction indiqué ci-dessous.

10X	14X	18X	22X	26X	30X
☐	☐	☒	☐	☐	☐
12X	16X	20X	24X	28X	32X

The copy filmed here has been reproduced thanks to the generosity of:

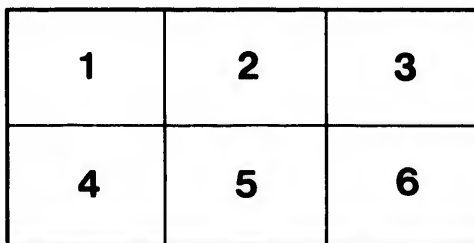

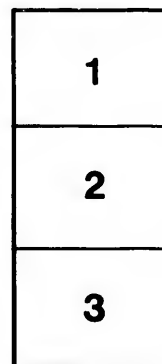

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol ➡ (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole ➡ signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

Richard III.....	1483, June 22		
Henry VII.....	1485, Aug. 20		
Henry VIII.....	1509, April 22		

*Edward III, King of France from January, 1340, to May, 1360. Hereditary right admitted November, 1272.

†In some historical, and all legal documents, the reign of Charles II. reckoned from his father's death.

ANTIDOTES FOR POISONS.

FIRST.—Send for a physician.

SECOND.—Induce vomiting, by tickling throat with feather or finger; drinking hot water or strong mustard and water. Swallow sweet oil or whites of eggs.

Acids are antidotes for Alkalies, and vice versa.

NAVAL STRENGTH OF GREAT NATIONS.

The following table has been compiled from the latest official reports, and includes all vessels built and approaching completion. As the value of torpedo boats and vessels and torpedo boat destroyers has, during the war with Spain, been shown to be problematical, they have not been included in the figures in the columns showing the totals. Omitting these three classes of vessels in the estimate of the fighting strength of the nation, it would show that Great Britain is immensely superior to any other nation.

	Battleships.	Armored Cruisers.	Protected Cruisers.	Unprotected Cruisers.	Armored Coast Defence Vessels.	Special Vessels.	Torpedo Vessels.	Torpedo Boat Destroyers.	Torpedo Boats.	Total Strength (see above).
Great Britain	64	26	119	16	15	3	35	50	46	243
France	35	19	40	16	14	1	15	8	213	125
Russia	18	11	6	3	16	5	17	2	174	59
Germany	22	5	15	21	11	1	2	1	122	75
Italy	16	5	18	1	...	2	15	1	144	43
United States	13	2	15	10	21	...	...	20	30	61
Japan	6	7	17	8	3	...	1	8	56	41

Number of Admissions to the leading World's Exhibitions since 1851.

1851 London	5,170,000
1855 Paris	4,680,000
1862 London	6,117,450
1867 Paris	9,750,000
1876 Philadelphia	9,789,392
1878 Paris	16,032,725
1883 London	2,703,051
1884 London	4,153,390
1885 London	3,760,681
1886 London	5,550,745
1887 Manchester	4,765,137
1888 Glasgow	5,745,029
1889 Paris	23,538,543
1893 Chicago	27,528,400

It is estimated that over 70 million admission tickets to the Paris Exposition of 1900 will be sold. In fact over 62 million tickets have already been sold in advance to cover part of the expense of building up the Exposition. It will last from April 15 to November 7, 1900, being twenty-two days longer than any of its predecessors.

SPECIAL POISONS AND ANTIDOTES.

ACIDS.—Muriatic, Oxalic, Acetic, Sulphuric (oil of Soap-suds, magnesia, of Vitroil.) Nitric (Aqua Fortis) lime water.
PRUSSIC ACID.—Ammonia in water. Dash water in face.

TIDE TABLES FOR HALIFAX.

9

These Tide Tables, with Tidal Differences for other places, are issued by the Tidal Survey Branch of the Department of Marine and Fisheries of the Dominion of Canada. They are based upon direct observations of the Tides obtained by means of self-registering tide-gauges, which are kept in continuous operation day and night throughout the year. The records are reduced by the latest methods of analysis, and the computation of the Tables is made in the Nautical Almanac Office, London.

The Tidal Difference, when applied to the Tide Tables, give the time of high and low water at other places in Standard Time as indicated. The differences applicable to the Halifax Tables are derived from the Establishments given in the Admiralty list. They will therefore be correct at full and change of the moon, and approximate only at other times of the month.

TIDAL DIFFERENCES for the Atlantic Coast of Nova Scotia.—These differences when applied to the Halifax Tide Tables, give the time of high and low water at the places named in Intercolonial Standard Time for the 60th Meridian; which is four times slower than Greenwich Mean Time:—Cape Sable, Clarke Harbour, add 1h. 17m.; Shelburne, add 22m.; Liverpool Bay, add 6m.; Lunenburg, add 8m.; Mahone Bay, sub. 1m.; Sable Island, North Side, sub. 33m.; Sable Island, South Side, sub. 1h. 33m.; Jeddore Harbour, sub. 6m.; Sheet Harbour, add 13m.; Liscombe Harbour, add 5m.; Country Harbour, sub. 16m.; Whitehaven, add 2m.; Guysborough, add 23m.; Arichat, add 11m.; St. Peter's Bay, sub. 30m.; Louisbourg Harbour, sub. 3m.; Sydney Harbour, add 13.

The Time used is Intercolonial Standard, for the 60th Meridian, which is four hours slower than Greenwich Mean Time. It is counted from 0 to 24 hours, from midnight to midnight.

Books in all styles of binding, at Methodist Book Room.

Dalhousie College and University.

* * STAFF. * *

The Staff consists of the President and nine Professors, besides eighteen Lecturers in Arts, Science, Law, and eighteen examiners in Medicine. The Session is eight months long, from September to the end of April. The average amount of fees per session is about thirty-four dollars.

* * COURSES. * *

Instruction is given in Arts, in Pure and Applied Science, in Law. The instruction given by the Halifax Medical College, (together with classes given in Dalhousie College), is recognized as qualifying for degrees in Medicine. For persons who do not wish to take a degree, short courses of instruction are provided. Partial Students may take any class desired without Matriculation. The course in Arts is largely elective and is designed to meet the needs of students wishing to specialize, or to secure a broad general education, or to combine liberal with professional studies.

SCHOLARSHIPS.

The following scholarships, etc., are offered :—

At Junior Matriculation, six : four valued at forty, one at one hundred and twenty, and one at two hundred dollars.

At Senior Matriculation, two : one valued at forty, and the other at ninety dollars.

At the end of the Second Year :

The North British Bursary : value, one hundred and twenty dollars.

The Waverley Prize : value, about fifty dollars,

At Graduation :

The Sir Wm. Young Gold Medal : for Mathematics.

The University Medals : for all other departments.

The Avery Prize : for General Distinction, value, twenty-five Dollars.

The 1851 Exhibition Scholarship : value, £300; for students in Science, awarded biennially.

Calendars with full particulars may be had on application to

At METHODIST BOOK ROOM, Halifax.

How to Destroy Insects in Orchards.

PAPER READ BEFORE NOVA SCOTIA FRUIT GROWERS ASSOCIATION.

From observation and past experience I find the insect enemies on the increase. Their name is legion and they call for earnest vigilance on the part of the fruit grower. In this brief article I wish to direct attention to the seven following insects which prey upon the orchard

CANKER WORM proves very destructive to the foliage. The moth appears both in spring and autumn. The females being wingless, are obliged to crawl up the stems, on which the eggs are deposited. The larva—which is ash colored or dusky brown—appears the first of June. The most effectual way of checking the ravages of this insect consists in fastening a band of coarse cloth covered with printers' ink around the trunk of the tree. The ink must be renewed every two or three days, as the dead bodies soon form a bridge across which the others could pass. Paris green and London purple, dissolved in water, one part of the poison to seven hundred of water, applied with a force pump or syringe, the most effectual remedy. If used too strong the foliage will be destroyed.

APPLE TREE CATERPILLAR (or *figure 8 moth which lays the eggs*) is another very common and destructive pest. The eggs are laid in rings on the young wood in the latter part of July, each ring containing about two hundred eggs. The first warm days of spring they hatch, even before the buds burst, and I have had thousands of them which I had intended burning, but had neglected to remove, hatch in my pocket. This caterpillar, when full grown, is about two inches long, of a yellowish green color, with one dorsal and two lateral pale yellow stripes and a blueish head. In the latter part of June it weaves a brown cocoon on the fences or buildings, and in about ten days a large reddish grey moth comes forth to again lay its eggs. When not feeding, the worms cluster in large bunches along the trunk and larger branches of the tree, when they may be easily killed.

The **TENT CATERPILLAR** is somewhat similar to the above. These weave a white web or tent over themselves as they go, and strip a branch clean, but leave the tent behind them. Hand picking or the torch, is the easiest mode of destroying them.

Another insect pest is the **BLACK CATERPILLAR** (for want of a better name.) The eggs are deposited about midsummer on the young branches and the caterpillars hatch the following May. They feed voraciously on the foliage for six or seven weeks, often completely stripping the tree. They are about two inches long and as large as a lead pencil, when full grown. Several feed on one leaf, and can be easily removed by picking off the leaf. With the least jar or touch they throw the head and tail up; even lie in that position when not feeding.

The **APPLE WORM** (*Carpocarsa pomonella*) is produced by a small grey winged moth, commonly known as the codling moth, which appears in June and lays its eggs in the blossom end of the fruit. The little grub soon hatches and eats its way into, and soon

[1900

1900]

TO PREPARE GROUND FOR AN ORCHARD.

21

spoils the fruit, causing it to fall prematurely. As soon as, or often before it falls, the worm escapes either into the ground or under the rough bark of the tree, unless traps are set for its capture. It lies in the cocoon from seven to ten days, and comes forth a moth again. Thus three crops are produced in a single season.

HOW TO DESTROY THEM :—

1st.—Encourage the black cap titmouse and hairy woodpecker, which destroy the insect in the papa state.

2nd.—Light small bonfires in the orchard on dark nights, which will attract and destroy the moth.

3rd—Pick up wormy fruit as soon as it falls and feed the hogs, if they cannot be allowed to run in the orchard.

4th.—Strips of woollen cloth tied around the trunk of the tree, and occasionally taken off and examined, or, what I have found on excellent plan is, lay two old barrel staves (these for economy) close together—the closer the better—and fasten them with a couple of screws to the trunk of the tree. The worms will crawl in between, where they will be found generally in a transformation state. By examining the staves once a fortnight, removing the worms, and returning the trap to its position on the tree, this troublesome pest can be nearly gotten rid of in one season.

BARK LOUSE or *mussel scale* is occasionally troublesome, but can be exterminated by scraping the old bark off and burning it. An excellent wash is made by dissolving two lbs. of potash in six or eight quarts of water, which may be applied with a mop about the latter part of May, or first of June. Large sums have been paid for this simple recipe.

The APPLE TREE BORER is a fleshy, white grub, the larva of a brown and white striped beetle, which deposits its eggs during June and July in the collar and along the trunk of the tree. The eggs soon hatch and the worms remain just under the surface of the bark until they are strong enough to bore into the wood of the tree. Fastening up the entrance hole with a plug of hard wood is said to be a sure remedy. Lime and ashes piled around the base of the tree is a preventive, and the wash recommended above for the bark louse may also be used with advantage.

By contrasting fruit—in the one case fair and smooth, in the other gnarled and wormy—one is amply repaid for the labor required to produce handsome, perfect fruit.

T. E. SMITH.

NOVA SCOTIA NURSERIES, CORNWALLIS.

To Prepare Ground for an Orchard.

John Manwaring writes to the *Williamette Farmer* he has had twenty-five years' experience in orchard planting, and has best succeeded when this method of preparing the ground has been adopted:—Set stakes whatever distance apart trees are to be planted (say thirty-three to forty feet, Comp) and plow in ridges, harrow thoroughly, and let lay a few days. Then throw it up in

ridges cross-ways, the same distance apart as at first, and harrow as before. Now plow again, throwing ridge right on top of the first, till the dead furrow at one rod from the ridge is about eighteen inches deep. Harrow again thoroughly till mellow and fine. Now apply manure, which has previously been prepared, spread evenly over all the ground, and plow again, throwing furrows back into last dead furrow, this is the place where the trees are to be set. Harrow as before, and repeat plowing cross-ways. You will now have a soil to set your trees in. Some may say this is too much trouble; but I will ensure them a good orchard, if they will follow this plan. No man ever succeeded unless he had depth of soil to set his trees in, and he ought not to attempt an orchard without having the ground plowed, at least, two years before setting out the trees.

BUYING TREES.—Orders should have been sent to the nurseries before this. Better to defer planting until another year than to purchase from the glib-tongued tree peddlers, who will furnish only the refuse of nurseries, impartially named. Order direct from the nurseries (*or from authorized agents, but not tree peddlers—Comp.*).

Nursery trees, when long on the road, often dry and the bark becomes shrivelled. Bury such trees in sandy soil, root and branch, in a few days they will become plump.—*American Agriculturist for March.*

SIZE OF TREES—The *American Agriculturist* says:—In selecting trees for planting the largest is not always the best. Medium sized trees are lifted with better roots, are easily handled, are less liable to injury from transportation, start quicker and grow faster than large old trees, which have wider spread roots, which are certain to be severely abridged in lifting. The top must then be pruned severely to correspond with the destruction of the roots. So there is nothing gained in the way of size. Two-year-old trees of the apple, pear, plum, and cherry, and one-year-old of the peach, are the best sizes, and of these, stocky, low-branched specimens will be found to give the most satisfaction.

TRANSPLANTING TREES—A correspondent of the *Williamette Farmer*, who claims to have had twenty-five years' experience in orchard planting, says:—Having the ground thoroughly prepared, measure off the distance with a pole, and set small stakes right where the tree is to be set (stake out the whole field intended for planting—when done properly they should be in line, looking from any direction. Drive these stakes down so they will not be disturbed in digging the holes—Comp.) This done, dig holes large enough to set the trees without the roots being cramped, *remove the stake and place the tree exactly where it stood, spread out the roots in their natural position*, throw in a small quantity of fine earth, move the tree up and down a little to sift the earth among the fibres, then put in more earth, tread gently till the hole is full, but in no case set the trees more than one inch deeper than they were in the nursery.

SMALL AMOUNTS OF MONEY.

The following shows how easy it is to accumulate a fortune, providing proper steps are taken. The table shows what would be the result at the end of fifty years by saving a certain amount each day and putting it at interest at the rate of six per cent :

DAILY SAVINGS	THE RESULT.	DAILY SAVINGS.	THE RESULT.
One cent	\$ 950	Sixty cents	\$ 57,024
Ten cents	9,504	Seventy cents	66,528
Twenty cents	19,006	Eighty cents	76,032
Thirty cents	28,512	Ninety cents	85,537
Forty cents	38,015	One dollar	95,041
Fifty cents	47,520	Five dollars	475,208

Nearly every person wastes enough in twenty or thirty years, which if saved and carefully invested, would make a family quite independent; but the principle of small savings has been lost sight of in the general desire to become wealthy.

WEATHER GUIDE.

The following Table (the result of many years' actual observation) is ascribed to Dr. Herschel. It is constructed upon a due consideration of the attraction of the Sun and Moon in their several positions respecting the Earth, and serves to show what kind of weather will most probably follow the entrance of the Moon into any of her quarters :—

Moon.	Time of Change.	In Summer.	In Winter.
If New Moon, First Quarter, Full Moon, or Last Quarter, happens	Between midnight & 2 A. M.	Fair.	Hard Frost unless wind be S. or W.
	" 2 and 4 A. M.	Cold with showers.	Snow and stormy.
	" 4 " 6 "	Rain.	Stormy and rainy.
	" 6 " 8 "	Wind and rain.	Stormy.
	" 8 " 10 "	Variable.	Rain if wind W.
	" 10 " 12 "	Showery.	Snow if E.
	At 12 Noon, and to 2 P. M.	Very rainy.	Cold and high wind.
	Between 2 and 4 P. M.	Variable.	Snow or rain.
	" 4 " 6 "	Fair.	Fair and mild.
	" 6 " 8 "	Fair if wind be N. W.	Fair.
	" 8 " 10 "	Rainy if S. or S. W.	Frosty if wind N or N
	" 10 " midnight.	Ditto. Ditto.	E. Snow if S or S W
		Fair.	Ditto. Ditto.
			Fair and frosty.

The nearer midnight any of the Moon's changes occur, the finer will be the weather during the succeeding week; the nearer noon any of those changes happen, the more foul and wet will be the weather that will follow.

SIGNAL SERVICE.

PORT OF HALIFAX.

Superintendent, Major H. B. Roberts, R.E. *Director*, Company Sergt. Major, W. Allen, R. E. Telephone, No. 45.

EXPLANATIONS OF SIGNALS.

Made on Main Signal Staff at Citadel Hill, when Vessels are seen from the Citadel or reported from Camperdown Signal Station.

The approach of all vessels is reported from the Lookout Station at Camperdown to the Signal Station at the Citadel, a man being on watch at either place day and night. These stations are connected by a Military Telephone line, and as the Citadel Station is connected to the Civil Exchange, information regarding any vessel can at any hour be obtained subscribers on the Civil Exchange.

As soon as a vessel is perceived by the man on watch at Camperdown, he at once reports the fact to the Citadel, stating whether she is a steamer or a sailing vessel; if the former, she is signalled at the Citadel by a cross, (signifying unknown steamer) hoisted at the extremity of the upper yard, on the east side, if she is reported to be approaching from that quarter, on the west, if she is approaching from the other direction. This first report is usually made on first sighting the smoke of the steamer on the horizon; as she gets nearer, the man on watch observes whether she is a first class (or ocean going) steamer, or a second class (or coasting) steamer; if he reports her as first class, the cross is hauled down and replaced by a large ball, if second class by a small ball.

As soon as the identity of the steamer is ascertained her name is reported, and if she is a mail vessel the proper mail flag is hoisted half way out on the lower yard, while the house flag of her owners is hoisted on the private staff near by.

Should the vessel, however, be reported to be a man of war, or one of the Dominion Government Vessels, the cross will be lowered from the end of the upper yard, and a ball or cross will be hoisted half way out on the upper yard, a large ball denoting a Flag Ship: a small ball denoting a Cruiser; and a cross denoting a Gunboat, or Torpedo Catcher, or Torpedo Boat, or else a Dominion Vessel, in which latter case the Dominion Ensign will be hoisted half way out on the lower yard. In all other cases the National Ensign of the Country to which the Warship belongs will be hoisted half way out on the lower yard. A further report is made from Camperdown when any vessel crosses the line between Devil's Island and Chebucto Head, and on this report the ball or cross denoting the vessel, is lowered and a pennant is bent on under it, and the signal is rehoisted, signifying that the vessel has entered the Harbor.

It is thus obvious that when the pennant (in the case of a steamer it is white with a blue ball) is seen flying beneath a ball or cross, it means that:—The vessel signalled has entered the Harbor, but as long as the ball, or cross has no pennant below it, the vessel is still outside the line above mentioned.

(Lt'd).—Sec'y,

There is one exception to this rule, namely, in the case of a Fleet entering the Harbor, when one pennant beneath the group of balls, or crosses representing the fleet is sufficient to denote that the fleet has entered. For Merchant Steamers and Sailing Vessels each ball or cross will receive its distinctive pennant as each vessel enters. The distinctive pennant of a Troopship is a white flag with two blue crosses, Sailing Vessels are signalled in the following manner.—

On being first sighted by the man on watch at Camperdown he reports whether the vessel is square rigged, (and if so how many masts she has) or schooner rigged. If she is square rigged, and has three masts or more, she is signalled at the Citadel by a large ball on the end of the lower yard. If she is square-rigged and has only two masts, a small ball is hoisted; and if schooner or cutter rigged, a cross is hoisted.

As she approaches the mouth of the Harbor, the man at Camperdown will ascertain her rig definitely and report whether she is a Ship, or Barque, or Brig, or Brigantine, and when she crosses the line between Devil's Island and Chebucto Head, he will report the fact to the men at the Citadel, who will haul down the ball, or cross, and bend beneath it the descriptive pennant and rehoist.

The descriptive pennants for the various rigs, are as follows:—

Ship, blue; Barque, blue and white; Brig, red; Brigantine, red and white; Schooner, white; Cutter or Sloop, white with red ball.

As in the case of Merchant Steamers, the house flag, if kept at the Station, will be hoisted on the private staff, when the vessels identity is known. If the vessel is a private yacht, a blue swallow-tail burgee will be hoisted on the private staff.

The following are the distinctive Mail flags employed:—

Weekly Mail from England.. Blue flag with white centre.

“ “ for “ .. Blue to white flag quartered.

Fortnightly from “ .. Red flag with white centre.

“ for “ .. Blue and red flag quartered with white ball in first quarter.

Newfoundland Mail White flag with Blue centre.

Bermuda “ “ “ Red “

Should the direct Mail from England, arrive during the night, a red triangular flag is hoisted half-way out on the lower yard (east side) from 7 a. m. to 9 a. m.

When the mail from England is reported to have arrived at Rimouski, a blue flag with white “ R ” in centre is hoisted half-way out on lower yard (west side), for one hour. When the news is received during the night, this flag will be flown from 8 a. m. to 9 a. m.

It will be noticed that the upper yard is reserved for steamers, the outer halliards being for merchant steamers, and the inner for men-of-war.

The outer halliards of the lower yard are reserved for sailing vessels, and the inner halliards for mail flags and national ensigns of men-of-war.

Steamers only are signalled at night in the following manner:—

A steamer approaching from the west will be signalled by hoisting a green light on the end of the west lower yard arm, and a steamer approaching from the east will be signalled by a red light on the end of the eastern yard arm.

If two steamers are approaching from the east, a second red light will be hoisted close beneath the first and so on, one red light for each steamer from the east, and one green light for each steamer from the west.

When a Steamer enters the Harbor (*i. e.*, passes the line between Chebucto Head to Devil's Island) a white light will be hoisted close beneath the colored light which denotes her approach, thus corres-

ponding with the steamer pennant hoisted by day beneath the ball when a steamer enters the Harbor.

When two Steamers from the east have entered, the white light will be hoisted close beneath the two red lights, but if one steamer has entered and the other is still outside, the white light will be hoisted beneath the upper red light and above the lower one which denotes the approach of the second steamer. The same with two steamers from the west.

Night signals for Mail Steamers, and Men-of-War will be made as under, the vertical intervals between those lights being 12 feet.

MEN OF WAR.

Green light above red light, English Man-of-War from west.
Red light above green light, English Man-of-War from east.
Green, red and white lights, Foreign Man-of-War from west.
Red, green and white lights, Foreign Man-of-War from east.
Red, white and green lights, Dominion Gov't steamer from west.
Green, white and red light, Dominion Gov't steamer from east.

MAIL STEAMERS.

Red light above red, weekly mail from England.
White light above white, weekly mail for England.
Red light above white, fortnightly mail from England.
Green light above white, fortnightly mail for England.
White light above red, Newfoundland mail.
White light above green, Bermuda mail.

Vessels in distress or ashore by day.—Red ensign upside down hoisted beneath the ball or cross,

Vessels in distress or ashore by night.—White light above red (for east), green (west) 3 feet apart.

Vessels in tow by day.—Steamer ball, the red square flag, followed by distinguishing pennant of vessel towed, when she enters harbour haul down and insert steamer pennant between ball and red flag.

Vessels in tow at night.—Two red or green lights horizontal close together, when entered harbour put white light below the two lights.

MAIL SIGNALS.

The following are the signals made by Royal Mail Steamers when entering Halifax Harbor, between Chebucto Head and York Redoubt.

Description of Mail.	Day Signals.	Night Signals.
English outward.... (Fortnightly)	The American Ensign at Fore.	Blue, White and Red Rockets and Blue Light.
English homeward.. (Fortnightly)	English red Ensign at Fore.	Blue, White and Red Rockets.
English outward.... (Weekly)	Fires two guns, Bomb rockets and fly's letter "N" at Fore.	Or fires two guns or Bomb Rockets and burns blue light.
English homeward.. (Weekly)	Fires 1 gun or Bomb rocket and fly's Canadian Ensign at Fore.	Fires 1 gun or Bomb Rocket and burns blue light.

It is also customary when Steamer is abreast of George's Island to fire two bomb rockets on passage from England, and one bomb rocket on passage from United States or Portland.

Red Cross Line S. S. Co., blue flag, white ball in centre, and red diagonal cross. F. D. Corbett & Co., Agents.

S. Cunard & Co., a blue flag, centre a white star.

Levi Hart, a blue, white and red checkered flag.

George P. Mitchell & Son, a blue and white burgee, blue uppermost.

John Taylor & Co., a blue and white penant, over a blue flag crossed diagonally.

Allan Line, a blue, white and red flag, perpendicular, red next mast, and red penant above.

G. E. Boak & Co., blue flag, crossed white diagonally.

Pickford & Black, a blue flag, white diamond, with P. & B. in red letters in the diamond.

Custom House, a blue flag, Union Jack in the upper corner, a crown in the centre, with a white C II below it

Private Yacht, a blue burgee.

Royal Nova Scotia Yacht Squadron. The Ensign of the Squadron shall be the Blue Ensign of Her Majesty's Fleet. The Burgee shall be blue with a red cross of St. George, edged white and the arms of Nova Scotia in the first quarter. The Commodore's flag shall be the Squadron burgee, swallow-tailed; the Vice Commodore's a small burgee with one white ball in the third quarter; the Rear-Commodore's a similar burgee, with two white balls in the third quarter.

STORM SIGNALS.

Directions to Managers with Reference to Canadian Storm Warnings issued for Quebec and the Maritims Provinces.

I.—Cone, hoisted with the apex downwards, indicates "moderate gale is expected," probably at first from an easterly direction.

II.—Cone, with apex pointing upwards, indicates "moderate gale is expected," probably at first from a westerly direction.

III.—Drum, with Cone underneath, the apex pointing downwards, indicates fresh to heavy gale is expected, probably at first from a easterly direction.

IV.—Drum, with Cone above, the apex pointing upwards, indicates fresh to heavy gale is expected, probably at first from a westerly direction.

The Cone, when hoisted by itself, indicates that it is expected that the wind will obtain a velocity of 30 miles an hour, but will not exceed 40 miles; and it is not intended that an ordinary well found vessel should stay in port, but simply as a warning to mariners that strong winds are expected from the quarter indicated.

The Drum will always be hoisted when the velocity of the wind is expected to exceed 40 miles an hour.

The night signal, corresponding to Nos. 1 and 3, is two white lanterns hanging perpendicular.

The night signal, corresponding to Nos. 2 and 4, is two white lanterns hanging horizontally.

NOTES.—Mariners will be able to obtain further information from Drum Agents or by consulting the daily probabilities. Mariners should always bear in mind that the storm signals are merely cautionary, and do not necessarily mean that a storm will occur at the place where the signal is displayed, but that one is expected either there or within such a distance that vessels leaving port would be liable to be caught in it.

The storm warnings issued for Nova Scotia, are received from the Central Office, Toronto, Ont.

Pruning Trees.

If pruning is attended to annually, there will be *no* necessity for large wounds, which are as injurious to a tree as to an animal. A correspondent writes:—that in his neighborhood all the orchards and trees pruned by an itinerant are declining and dying, while those not pruned then are still sound. The fault is in doing such severe pruning at one time, aggravated by leaving the wounds open to the cold drying winds. When a branch is already dead from any cause, and decaying, it is necessary to cut back to *sound* wood, and a coat of varnish, paint or tar, should be applied to prevent loss to the tree by evaporation of the sap from inside, and further decomposition by access of air from outside. Pruning should not be done when the sap is so abundant—as in *late spring*—that the wound cannot dry. Its continued oozing causes rapid decay, and injures the bark below the wound. —*Farmers' Advocate*.

A fruit tree to be grown in perfection *requires some pruning every year till it gets in bearing condition*. After that it may possibly take care of itself, though such cases are rare.

The fruit grower should have an ideal in his mind of what he wants as to size and shape. If he has this and will attend to the pruning at the proper time, there need be little cutting of large branches, to leave bad wounds or bring disease and decay. A tree should be so shaped that it will be strong enough to hold up its load of fruit, compact enough to withstand severe winds, and open enough to give a healthy growth to all leaves and fruit. A great many trees are neglected till their tops are so thick, and the growth so fine, that large healthy fruit is an impossibility. A certain amount of room for air and sunlight is required for the healthy development of everything that grows. Large fruit can only be produced upon trees that have large healthy leaves, and where there are three or four twigs, or leaves, where there should be but one, the fruit must be small.—*New England Farmer*.

Farmer's Association.

OFFICERS.

President—W. M. Blair, Amherst.

Vice-President—William Corning, Yarmouth.

2nd Vice-President—W. Young, Kings County.

Directors—C. R. B. Bryan, Pietou; George Lawrence, Cape Breton; J. R. Starr, Kings; S. J. Moore, Colchester; F. H. McPhie, Antigonish.

Auditors—S. E. Parker and W. H. Blanchard.

Members of Exhibition Commission—J. R. Wyman, Yarmouth; J. M. McDonald, Hants.

BELCHER'S ALMANACK

FOR 1900.

Calculated for Halifax, Lat. $44^{\circ} 39' 20''$ N., and Long. $63^{\circ} 36' 10''$ W from Greenwich,—and for ordinary purposes will serve, with sufficient accuracy, for all parts of the Province, including the Island of Cape Breton.

Calculated by W. A. GATHRIGHT, Dabneys, Virginia, U. S.

THE SEASONS.

The Sun enters ♈	(Spring begins)	March 20th, 8h. A.
" " ♋	(Summer begins)	June 21st, 4h. A.
" " ♎	(Autumn begins)	Sept. 23rd, 7h. M.
" " ♏	(Winter begins)	Dec. 22nd, 9h. A.

ECLIPSES, ETC.

In the year 1900 there will be three Eclipses—two of the Sun and one of the Moon.

I. *A Total Eclipse of the Sun*, May 28th This Eclipse is generally visible in Western Europe, in Northern Africa, the North Atlantic and Arctic Oceans, Greenland, North America, and the extreme north-western part of South America. The path of total eclipse begins in Egypt, and, passing over the Mediterranean Sea, crosses Spain and Portugal; thence across the Atlantic it enters North America at Norfolk, Va., and bearing to the south-west, reaches the Gulf coast near New Orleans, continuing its course across the Gulf of Mexico and Mexico, it encounters the Pacific Ocean at a point near Cape Corrientes; visible elsewhere in regions mentioned as a partial eclipse. This eclipse begins here about 8.51 a. m. Ends at about 11.23 a. m.

II. *A Partial Eclipse of the Moon*, June 12th; visible here but quite small and unimportant.

III. *An Annular Eclipse of the Sun*, November 21st; not visible here. Visible to Sumatra, Borneo, and some other East India Islands, Australia, Southern Africa, and portions of the South Atlantic and Indian Oceans.

MORNING AND EVENING STARS, 1900.

The Planet Venus (♀) begins as evening star and continues as such until July 8th; then morning star to the end of the year.

The Planet Mars (♂) is evening star until January 16th; then morning star the rest of the year.

The Planet Jupiter (♃) will be morning star until May 27th, then evening star till December 14th, after which he is morning star to the end of the year.

The Planet Saturn (♄) is morning star until June 23rd, after which it is evening star until December 29th, and then morning star the rest of the year.

EXPLANATORY.

Annular Eclipse—An Eclipse of the Sun in which its whole disk is covered by the Moon, except a bright outer ring.

Aphelion—that part of a planet's orbit furthest from the Sun.

Perihelion—that part of a planet's orbit nearest the Sun.

Elongation—angular distance of a planet from the Sun, as seen from the Earth.

Penumbra—a partial shadow resulting from the diminished light of the sun to the earth or moon, during a solar or lunar eclipse, appearing as partial.

Declination—the distance of a heavenly body from the equinoctial line

Ecliptic—the plane of the earth's orbit nearest the sun.

- ☾ Apogee—greatest distance from the earth.
 ☾ Perigee—least distance from the earth.
 ☐ Quadrature. ☿ Opposition. ☿ Conjunction.
 ♀ Ascending node. ♂ Descending node.

The letters M. A., m. a., denote *morning* and *afternoon*; h. m. s., hours, minutes and seconds.

N. north, E. east, ° Degrees,
 S. south, W. west, ' Minutes of Arc.
 " Seconds of Arc.

The Astronomical day is reckoned from Noon to Noon through the 24 hours. Thus July 21, 9h. is 9h. A. of July 21st, and July 21st, 15h. is 3h. M. of July 22.

The Sun's Declination and Equation of Time are given for Noon at Halifax, Apparent Time, *i. e.*, when the True Sun is on the meridian.

The Moon's Southing is given in Astronomical Time for the Meridian Passage at Halifax; and her declination when on that meridian.

Both the rising and setting of the Moon are given for every day in the year.

To find the length of the day—subtract the time of sunrise from 12 hours, and to the difference add the time of sunset.

To find the length of the night—subtract the time of sunset from 12 hours, and to the difference add the time of sunrise next morning.

In this Almanac all the times except for Moon's Southing are Mean time at Halifax, *i. e.*, Civil Time. The Moon's Southing is given for Astronomical Time at Halifax.

Standard time is 15 minutes earlier than Halifax Mean Time, and the Railway Time one hour later than Halifax Standard Time.

WEATHER GUIDE.

An observation said to have been made in London and Florence, extending over a period of fifty years, and observed in Halifax for the past thirty years, shows the weather will be the same as the last three days of the moon through the first three quarters taking a day for each quarter of the moon. It is necessary to make a calculation of the exact time of the beginning of each of the three days, making due allowance for difference of time between the lunar and solar day.

The weather will remain the same during the whole month as it is on the 5th, if it continues unchangeable on the 6th, and like the 14th day if the 6th resembles the 4th. Due observations must be made as to when the day begins, allowing for the difference of time as in the above. *Cont.*

BROWN BROS. & CO., CHEMISTS, GRANVILLE ST.

JANUARY.—The intelligent farmer of the present day rarely fails in receiving a good return for his labour. This is the season to lay out his plans for spring crop. Potatoes and Indian corn yield best in a hot season, and not too wet, while oats, barley, peas, turnips, mangels and grass make most growth in comparatively cool weather and moist atmosphere. The occasional loss of the hay crop from drought shows that it is of the greatest importance for a farmer not only to make a judicious choice of crops suitable to the climate, and to the soils and exposures of his fields, but also to have sufficient variety in his crops, so that whether the season should prove a hot and dry one, or cold or moist,

or of a medium or average character, he may fairly expect a profitable return. Other kinds of forage should also be sown, so that reliance may not be placed entirely upon the hay crop for the winter feed of cattle. Let it be remembered that a moderately cool wet season will give a good lay crop, while a hot dry one will ensure scarcity of this most important article of fodder. To meet this a reasonable plot should be sown or planted with mangolds, turnips, or Indian corn. The latter is always advisable for ensilage in our varied climate and soils. No farmer should depend on hay alone for winter feed. All modern farmers in Great Britain, as well as many in Canada and the United States, use a mixed feed, or mashley as it is called, in the green state in summer time, and

Use BROWN BROS. & CO.'S Albodent for the Teeth.

dried into hay, or for ensilage, in the winter. The following are good mixtures of seeds for mashley:—1 bushel broad horse beans, 1 bushel small peas, 1 bushel vetches, 1 oats. Or, 1 bushel peas, 1 bushel tares or vetches, 1 bushel oats. Or, peas, oats and wheat make an excellent mixed feed, to be cut quite green while the milk is in the kernal. For ensilage, corn should be planted thin; twelve quarts (12) of seed is ample for one acre. Wheat, peas and oats may also be left to ripen, the grain crushed and mixed with the cut straw for winter feed.

FEBRUARY is a most trying month for cattle; we cannot too strongly impress the necessity of care in their feeding, watering and general treatment, at this season of the year. In order to overcome the many difficulties that appear in February, it is a good rule to give extra time

Use Rum and Bitter Apple for the Hair, BROWN BROS. & CO.

and attention to the stock. In feeding grain and meal always mix them into cut hay, moistened,—and season with common salt. Cut hay does not digest any more rapidly than uncut, but it enables the meal or crushed grain feed with it to be more perfectly digested. Our farmers still suffer an immense loss every year in striving to fatten cattle on meal, bran and middlings fed alone, without being mixed with hay cut as here described. When fed alone the meal simply passes through the animals in an undigested form, and is thus lost. In districts where an Agricultural Society does not already exist this is a good time to organize; farmers have leisure to attend a meeting and take steps for organization. Notification has to be made to the Office of Agriculture, so that the new society may be sanctioned by the Lieut.-Governor-in-Council before the end of June, in order to qualify for the grant for the current year.

Use PRICE'S GLYCERINE CREAM for Chapped Hands.

MARCH. The kitchen garden, requiring but a small piece of ground and yet one of the most valuable crops for the comfort of the home, instead of finding on every farm a well-furnished kitchen garden, filled with vegetables and small fruits, sufficient for the family wants during the year and some to sell, such a luxury is the exception rather than the rule. There is no reason why every farmer's family should not be provided to a large extent with supplies from the garden, such as salads, rhubarb, early green peas, lettuce, radishes, cucumbers, early cauliflower and cabbages, early beans, gooseberries, currants, strawberries, raspberries, winter radishes, turnips, beets, parsnips, artichokes, season-

ing herbs, melons, squashes, and dozens of other delicious and substantial articles of food that cost nothing but foresight and some agreeable labor. The nature of our climate necessitates the use of hot-beds for raising seedling plants for those crops that require a long season to mature. A hot-bed is made by piling on successive layers of fine, fresh horse dung, obtained from a stable where oats are freely fed. The manure may be raised to a height of two or three feet above the surface of the soil. On top, spread four or five inches of very fine and rich soil mixed with sand; this should have been prepared in the fall, and kept dry under cover all winter,—otherwise it is likely to become a hard frozen lump or mass. Glass sashes are then put on and kept close till

the hot-bed heats. The steam and heat will soon start the seeds and growth will be rapid. In this way lettuce, radishes, etc., may be ready for the table quite early in the spring.

APRIL.—This is the month to begin seeding as soon as the soil is fit, and this can be done much earlier and more rapidly where the land has been ploughed in the fall. The farmer should be ready to avail himself of the early opportunities presented by the varying years. It is not wise to seed till the soil is comparatively dry, and little is gained by early sowing until the ground is warm. In fields seeded down with timothy last fall, it will now be time to sow clover, a mixture of red and alsike

Use Brown's Astringent Gargle for Sore Throat, BROWN BROS & CO.

is the best for hay. Where early potatoes are required, the seed should be kept in a warm place so as to start the eyes, and, wherever the ground is dry enough, they may be planted. This advice, if not heeded, will lead to potatoes coming up scantily, many rotting in the ground. If farmers, instead of planting inert seed potatoes, taken out of a cold cellar, would first allow the eyes to start, there would be fewer complaints of the seeds perishing in the soil. Last year 1899 the spring opened early, and continued with abundant rains during the whole season, making an excellent season for the growth of all crops.

MAY. In most parts of the Province ploughing will still have to be done; let it be done as soon as the land is fit; if manure has to be taken out for crops, don't wait for a more convenient season; if the weather is

Use Rum and Bitter Apple for the Hair, BROWN BROS. & CO.

not all that is desired proceed nevertheless with your work, vary it to suit the state of the soil and atmosphere. Men cannot fight successfully against the operations of nature, but they can very often turn them to advantage by consideration and forethought. What has to be sown and planted this month? *Everything*, except what has either already been committed to the soil, or requires a warm seed bed like the turnip. Exceptional crops also are bush beans, pole-beans, corn, tomatoes, cucumbers, squash: it is only in warm, sandy soils, and in districts not subject to night frosts in spring time, that such things can safely be put out before the end of the month. One of the principal marketable crops

Halifax and
Charlottetown.

Use Hamilton's Rennet Wine for making Junket, BROWN BROS. & CO.

in Nova Scotia is the potato. It has been found advantageous of late years to plant as early as possible; as soon therefore as the ground is in a fit condition, commit the potato to it; see, however, that the eyes of the seed have started into growth, otherwise it will be apt to rot in the cold seed bed. Neglect of this point, which has been urged again and again in the Farmer's Calendar of this Almanac, has caused the loss of countless thousands of dollars to our farmers. So important is the sprouting of seed potatoes before planting regarded in England that the seedsmen have instructions thereon printed on the labels, which they send out with the seed, assuring their customers that this is necessary in order to obtain a satisfactory crop. In light lands the manure (old

and well rotted) may be ploughed in before planting. In heavy soils, put the manure in the drills, so that the warmth of the air may counteract the deadening effect of the cold wet clods. Superphosphate and other artificial fertilizers may also be used.

JUNE. Planting and sowing will still continue. Corn for ensilage should now be sown. But, while spring operations have to be continued and finished this month, there are others appertaining more especially to the summer that have to be attended to. Garden crops will require hoeing and weeding; potatoes also when sufficiently advanced. It should not be forgotten that we have not only to sow and

cultivate, but to protect our crops, if we would gather a profitable harvest. In localities subject to late spring frosts, it is easy to protect early crops by throwing some spruce or other bush over them on cold nights. A method much used in France, and which may easily be adopted in this country, is to burn brush to windward so as to cover the field in a cloud of smoke. Attention has also been called to such simple and costless devices, and yet year after year we hear of the loss of early crops: it is said "by frost;" we should say "by neglect." The Colorado or potato beetle now challenges attention. Paris green and London purple are undoubtedly efficacious, but they are homicides as well as insecticides, and every precaution should be observed in their use by farmers, and in their sale by apothecaries and store-keepers. The poison

is best applied in mixture of ground plaster. Hellebore is also effective and less dangerous, but too expensive where large fields have to be poisoned. As soon as the currant and gooseberry bushes have pushed out their first leaves and blossoms, it will be found advantageous to give them a sprinkling of white hellebore powder in the morning before the dew is off. This will destroy the first crop of currant worms, and thus preserve the bushes and first crop for the season. The objection to the use of white hellebore on currant bushes (if used early enough in the season) is by no means so strong as to the employment of arsenical poisons, as the white hellebore, being organic, decays, and is thus speedily rendered innocuous, by exposure to rain and air. Summer bedding plants are set out in the flower garden as early this month as the

weather will allow; verbenas may be put out very early, and they thrive better in the moist, cool weather of early June than later, when the soil is apt to be baked by the sun. Stocks are also very hardy and rejoice in hot, dry weather, if they are in good soil. Balsams, Phloxes, Petunias, Geraniums, Heliotropes, and other tender things, need not be put out so early, as they will make no progress in cool weather, and the slightest approach to frost will kill them for the season.

JULY. This month is especially devoted to the *cultivation* of the various field crops. Cultivation, in this restricted sense, means the hoeing of crops, stirring by cultivators and harrows, and such like implements, between or over the drills, hilling up and moulding. The object of these operations is not merely to destroy weeds, as is commonly supposed by many, but to keep the soil open, and thus promote

Use Pearl Dentifrice for the Teeth, BROWN BROS. & CO.

the decomposition of the manure, to enable the soil to retain moisture, allow the free access of air to it, bring it well over and around the roots and stems, and, by those several means, to promote vigorous growth. The sowing of turnips is usually recommended for the month of June, but as the ground has to be remarkably fine for this crop, and as turnips are often put in to fill up land that was originally intended for the earlier sown roots, it frequently happens that turnips have to be sown in July. In fact, if turnips are sown early in June, they are apt to run to seed, instead of forming bulbs. Some even prefer to sow their Swedes early this month instead of June, so as to avoid the well-known "fly" which attacks the young seedling plant, and the soft turnips for immediate feeding need not necessarily be sown till the end of July, although

MEASURES AND WEIGHTS.

To Measure Grain in Bulk.

RULE.—Multiply the length, breadth and height together in feet and tenths of feet; divide by 56 and multiply by 45, and the result will be struck measure in bushels.

To Find the Number of Tons of Hay in a Mow.

Multiply the length in yards by the height in yards, and that by the width in yards, and divide the product by 15. The quotient will be the number of tons. This is only a rough approximation, for hay varies greatly in weight, according to the way in which it was put in, its dryness at that time, and the length of time it has been lying, etc.

To Find the Number of Sq. Yards of Plastering or Painting in a Wall, or the number of yards of yard-wide Carpeting to cover a Floor.

RULE.—Multiply the length by the width or height (in feet), and divide the product by 9, the result will be square yards.

To Measure Boards.

RULE.—Multiply the length in feet by the width in inches and divide the product by 12. The result will be the contents in square feet.

** To Measure Scantling, Joists, Plank, Sills, etc.*

RULE.—Multiply the width, the thickness and the length together, the width and thickness in inches, and the length in feet, and divide the product by 12. The result will be square feet.

To Find the Number of Shingles Required in a Roof.

RULE.—Multiply the number of square feet in the roof by 8, if the shingles are exposed $4\frac{1}{2}$ inches; or by 7 1-5, exposed 5 inches.

NOTE.—To find the number of square feet, multiply the length of the roof by twice the length of the rafters.

BROWN BROS. & CO., CHEMISTS, GRANVILLE ST.

if they get warm genial weather to start with they do much better earlier. Late sowing while it is apt to give a small yield, ensures excellent quality and freedom from fibre, so that turnips intended for table use in winter should never be sown early. The ground should have undergone a thorough pulverization. Light sandy soil is the best for turnips. They start better after the ground is warm, but the bulbs swell most rapidly during the cold dewy nights in Autumn. The soil cannot be worked too deep, or made too fine, for turnips; the surface soil must be made fine for a seed bed. Town manures are valuable for this crop, and crushed bones have been applied with best effects, either when covered in the drills in the manner of ordinary dung, or, preferably, when sown by machine along with the seeds, so as to be in immediate contact with the latter. In many parts of the province, particularly Yarmouth, Shelburne, Queens, Digby and Annapolis, the important operation of hay harve ting will have commenced this month, and on upland will probably be well advanced, or even finished before

For Summer Complaint use BROWN BROS. & CO'S Blackberry
and Ginger.

the end of the month. All other work has to give way to this. If the weather is warm and dull, do not hurry the hay into the barn; put it up in large, well-built cocks, so as to allow it to sweat or ripen before being put in the mow. When mows are large this is particularly necessary.

AUGUST.—In the northern and eastern countries, and on dyke and intervalle land, much hay has, in ordinary seasons, to be taken in during the month of August. Hay making is the most important operation of the Nova Scotia farmer, half of all his land under crop of every kind being occupied with grass destined to be made into hay. More than half a million acres have to be mown every season, and this necessarily employs for the time a large amount of labour. However, where suitable implements and appliances are used there is now no difficulty in

the leading Rubber
the Provinces.

Use PRICE'S GLYCERINE CREAM for Chapped Hands.

farmers usually wait for cold weather before taking up their full crop. The farmer's year is a complete cycle, and before one year's annual harvest is taken in it is needful to be preparing for the next. In fact it is already time, in September, to sow Winter Rye, which is a favorite crop with farmers who have suitable, light sandy soils. It is also a valuable crop for yielding green feed in the month of May, when it is much required. This is the month when county agricultural exhibitions should be held, and by holding such exhibitions it would stimulate the farmers in the several counties and be feeders for the Annual Provincial exhibition held in Halifax.

OCTOBER. The apple crop is yearly acquiring increased importance in Nova Scotia, and our apple orchards are annually extending. But there is still plenty of room, and no farmer who has suitable land, and is

willing to take the necessary care, can make a better permanent investment than by planting an orchard. The best market varieties, at least those that appear at the present to be most in favour among our fruit growers in the counties of Kings and Annapolis, where orcharding is carried on to a great extent, and in a systematic business manner, are: Gravenstein, Yellow Bellefleur, or as it is commonly called here, Bishop's Pippin, King of Tompkins, R. I. Greening, Ribston Pippin, Northern Spy, Vandevere, Golden Russet, Nonpareil and Baldwin. Digby County is at present our cherry county, and Cape Breton has profitable plum orchards, but these fruits may be grown all over the province. Now that the season's work is well nigh over, the young man on the farm may repair to the School of Agriculture and Provincial Farm, Truro, where instruction is given in the art of agriculture and sciences bearing upon it. A post card of inquiry to Prof. Smith, the Provincial Lecturer on Agriculture, will bring full particulars as to the operation and arrange-

Use BROWN BROS. & CO.'S Albodent for the Teeth.

ments of the School and Farm and the terms upon which pupils are admitted. No fees are charged, and students are paid for their work on the farm. Students are not boarded on the farm, but can obtain comfortable board and lodging in Truro at very reasonable rates. The School of Agriculture, which is also aided by the Provincial Treasury, is situated at Wolfville, under direction of N. S. Fruit Growers' Association. Here the several gardening operations, propagation of plants and management of orchards are taught. No farmer should allow this month to pass without ploughing if possible all lands intended for spring crops. Then note favorable and speedy process in getting the crop in the ground in the spring.

NOVEMBER. To ensure the improvement of cattle, every Society keeps or ought to keep a sufficient number of male animals for the use of members. For beef cattle grades of Short Horn Durham, Polled Angus, Galloway, and Hereford are used. For milk alone, or the cheese

Use **PRICE'S GLYCERINE CREAM** for Chapped Hands.

factory, Ayrshires, Jerseys and Guernseys are the most suitable. The Jerseys have been great favorites, and the increase will promote the manufacture of butter, but it threatens to lessen our capacity for beef production. Fall ploughing will be the principal field work this month. After ploughing do not forget to go carefully over the water furrows to make way for the exit of the rain and melting snows that are sure to flood your fields before seed time. A well ploughed, well drained field may be sown in spring as soon as the frost is gone, while one that is irregularly ploughed or has no water furrows, may long remain a puddle, defying every attempt to improve its condition, until the season is so far advanced as to reduce very much the prospect of a crop. The best part of what is too often left to be "Spring work," can be done in the month of November. At the same time care should be taken not to open up gravelly banks or hilly land, subject to be scoured by the Fall or Spring rains, or melting snows. Every season brings loud complaints of the winter killing of grass in the hay fields. It may possibly be of use to some farmers to say that the winter-killing is merely another name

Use Rum and Bitter Apple for the Hair, BROWN BROS. & CO.

for neglect. If a hay field not on a dead level is drained simply by running water furrows with a plough to carry off surface water there will be no winter-killing. Where land is perfectly flat a more effective system of draining must be adopted. The want of the simple water-furrow costs the farmers of this province many thousands of dollars every year, and is often the real cause of burnt up hay fields that are attributed to drought. Too much importance cannot be laid on fall ploughing; it enables farmers to get in larger crops, and much earlier, and the winter action of frosts has a decided tendency to increase the yield.

DECEMBER.—Agricultural improvement is encouraged and promoted in various ways by the Provincial Legislature in aid of Agricultural Societies throughout the province, with a membership of about six thousand farmers; each society is entitled to draw from the Provincial Treasury an annual grant in aid to promote its operations. The special

Use Pearl Dentifrice for the Teeth, BROWN BROS. & CO.

purpose of a Society to improve the live stock of the district, which is accomplished by obtaining and keeping for the use of its members superior male animals, such as bulls, rams and boars. Societies may also, by permission, introduce seeds of new varieties of grain, roots, and also improved implements, and sell them to members at cost and charges. The whole of the Societies of the Province meet annually on the *first Tuesday in November*, each in its own district, when the members of each Society receive their Director's report, and elect officers for the ensuing year. Full information as to the method of organizing societies, the grants given in aid, and other particulars, may be obtained on application at the Office of Agriculture, Old Province Building, Halifax. In addition to these organizations there is the Nova Scotia Farmer's Association, which meets once a year with delegates from all the Societies of the Province. A register of thoroughbred cattle is kept at the Office of Agriculture, where blank forms of application for registry can be obtained. The printed Herd Register of Nova Scotia Cattle can be obtained from any bookseller for a dollar.

TARIFF.

Corrected to November, 1899.

Her Majesty by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows :—

In this Act, or in any other Act relating to the Customs, unless the context otherwise requires,—

"(a) The initials 'N. E. S.' represent and have the meaning of the words "not elsewhere specified."

"(b) The initials, 'N. O. P.' represent and have the meaning of the words not otherwise provided for."

"(c) The expression 'gallon' means an Imperial gallon.

"(d) The expression 'ton' means two thousand pounds avoirdupois.

"(e) The expression 'proof' or 'proof spirits,' when applied to wines or spirits of any kind, means spirits of a strength equal to that of pure ethyl alcohol compounded with distilled water in such proportions that the resultant mixture shall, at a temperature of sixty degrees Fahrenheit, have a specific gravity of 0.9198 as compared with that of distilled water of the same temperature.

"(f) The expression 'gauge' when applied to metal sheets or plates or to wire, means the thickness as determined by Stubbs' Standard Gauge.

"(g) The expression 'in diameter' when applied to tubing, means the actual inside diameter measurements.

"(h) The expression 'sheet' when applied to metals, means a plate or sheet not more than three-sixteenths of an inch in thickness."

"(i) The expression "plate" when applied to metals, means a plate or sheet more than three sixteenths of an inch in thickness.

Nova Scotia Game Laws.

GEORGE PIERS, Secretary, N. S. Game Soc., Halifax, N. S.
The Nova Scotia Game Society has issued an abstract of the game laws of the Province. Sportsmen would do well to peruse them carefully. They are as follows:

MOOSE, CARIBOU.

Close season from January 15th to October 1st.

No person shall kill more than two moose and two caribou.

Meat must be taken out within ten days from killing.—Penalty for breach of foregoing provisions, \$50 to \$200.

No person shall have in possession any green hide or fresh meat from January 20th to October 1st.—Penalty \$25 to \$50.

No person shall set any snare or trap for moose or caribou.—Penalty \$50 to \$100.

No person shall hunt moose or caribou with dogs.—Penalty \$50 to \$100.

All dogs so hunting may be destroyed by any person.

Provision protecting cow moose, repealed.

Any person bringing moose- or caribou meat to Halifax, or any incorporated town, for sale, shall bring neck and forelegs and keep them exposed till all meat is sold. Penalty \$50. Any member or agent of Game Society, game commissioner, police officer or constable is authorized to examine or mark game, and resistance to him is a violation of the law.

Close season for American elk or red deer till October 1st, 1904.—Penalty \$50 to \$100.

BIRDS.

Partridge—Till Oct. 1st, 1901, no person shall hunt, kill, buy, sell or have in possession, any Partridge, whether killed in this province or elsewhere.—Penalty \$5 to \$10 for each offence.

Woodcock, Snipe, Teal, Blue-winged Duck, Wood Duck.—Close season March 1st to Sept. 1st, save in Cape Breton, where close season for all birds except partridge is May 1st to September 1st.

No person shall kill any game bird except blue-winged duck, between sunset and sunrise. No person shall have any bird in possession in close season.

No snare, trap or net shall be used for any game bird, at any time. Any person may destroy any snare, etc., so set or used.

Penalty for breach of provision as to birds \$5 to \$10 for each bird.

Pheasants, spruce partridge, &c.—Unlawful to hunt, kill, or have in possession, pheasants, spruce partridge, blackcock, capercailzie or sharp-tailed grouse.—Penalty, \$5 for each spruce partridge, \$25 for each of the other birds. Unlawful to have in possession, buy or sell eggs, or injure or destroy the nests of any native birds.—Penalty \$5 to \$10.

RABBITS, HARES.

Close season from February 1st to October 1st.

No person shall have them in possession from February 5th to October 1st. Penalty \$10

BEAVER.

No person shall hunt or kill any beaver until after the 1st day of November, A. D. 1900.—Penalty for each offence, \$100.

OTHER FUR-BEARING ANIMALS.

Mink.—Close season March 1st to November 1st. For all other fur-bearing animals from April 1st to November 1st. The following animals are not protected, viz: bear, wolf, loupervier, wildcat, skunk, musquash, raccoon, fox, woodchuck, otter and weasel, from April 1st to November 1st.—Penalty, \$5. Unlawful to hunt any of the foregoing animals with dogs between 1st February and 1st October.—Penalty, \$30 to \$80.

LICENCES.

No person not domiciled in Nova Scotia shall hunt without a license.

License fees for birds, hares and rabbits, \$10; all other game, \$30.

Licenses may be had at Provincial Secretary's office, Halifax, from all Clerks of Counties and from the Agents of the Game Society in various parts of the Province.

License fee for officers, Army and Navy, on this station, \$5. Such officers if members of Game Society, are not required to take any license.

Penalty for hunting without license, \$50 to \$100, in addition to the license fee.

The hunter, guide or companion of any such person hunting without license, is liable to same fine as the person himself.

NOTE.—No person shall sell or expose for sale, or buy any animal or bird included in the definition of game until after the lapse of three days from the end of any close season.—Penalty, \$25.

Whenever a fine is imposed by the game laws, the person fined is liable to imprisonment if the fine is not paid; and judgment may be recovered in the county courts for amount of fine and costs, and may be recorded so as to bind the lands of the defendant.

When he is imprisoned he shall remain in jail one day for each dollar of the fine.

All the penalties for having game unlawfully in possession, apply whether the game was killed in Nova Scotia or elsewhere.

N B.—Officers and Agents of Game Society, any Game Commissioner, Magistrate, Detective, Police Officer or Constable having reason to believe any game illegally taken is in the possession, or in or on the person or property of any person, or in any bag, basket, box, waggon, cart, sleigh, etc., shall have the right, and it shall be his duty to search the same, and to seize any game if found. Any person obstructing such officer shall be liable to penalty of \$25.

CAPE BRETON.

Close season for moose and caribou in Cape Breton, till October 1st, 1899.—Penalty, \$200.

EXPORT, BIRDS, ETC.

Unlawful to export from Canada, deer, wild turkey, quail, partridge, prairie fowl, woodcock.

FISH.

Salmon.—Close season from August 15th to March 1st, except that salmon may be fished for with the fly alone from February 1st to August 15th. From low water nearest 6 o'clock p. m. of every Saturday, to low water nearest 6 a. m. of every Monday, no one shall fish for salmon in non-tidal waters. In non-tidal waters frequented by salmon, no one shall fish for any kind of fish between 9 o'clock p. m. of every Saturday and 6 o'clock a. m. of the following Monday. Drifting and dipping for salmon is prohibited. The use of nets and other apparatus is confined to tidal waters. Close season in Cape Breton from August 31st to February 1st.

Trout, &c.—Unlawful to fish for or to have in possession any speckled trout (*salvelinus fontinalis*), lake trout or land locked salmon, between 1st October and 1st April. Unlawful to fish for trout by any other means than angling with hook and line, or to fish through the ice.—Penalty for breach of foregoing provisions, \$20 for each offence.

Explosives.—The use of explosives to kill any kind of fish is prohibited under a penalty of \$20.

Bass.—Close season, from 1st March to 1st October, except that Bass may be fished for at all times by angling with hook and line. Bass should not be fished for with any net having meshes of a less size than 6 inches, extension measure, nor by means of seines. Penalty \$20.

Shad and Gaspereaux.—Close season for Shad and Gaspereaux shall be from sunset on Friday evening to sunrise Monday morning in each week. Penalty \$20.

1900]

of holding

liquids, and all packages in which goods are commonly placed for home consumption, including cases, N O P, in which bottled spirits, wines or malt liquors or other liquids are contained, and every package being the first receptacle or covering inclosing goods for purpose of sale, shall in all cases, N O P, in which they contain goods subject to an *ad valorem* duty, or a specific and *ad valorem* duty, be charged with the same rate of *ad valorem* duty as is to be levied and collected on the goods they contain, and the value of the packages may be included in the value of such goods

(b) All such packages as aforesaid containing goods subject to a specific duty only, N O P, shall be charged with a duty of twenty per cent. *ad valorem*.

(c) Packages not hereinbefore specified, and not herein specially charged with or declared liable to duty, and being the usual and ordinary packages in which goods are packed for exportation according to the general usage and custom of trade, shall be free of duty.

(d) All such special packages or coverings as are of any use, or apparently designed for use other than in the importation of the goods they contain, shall be subject to the same rate of duty as would thereon be levied if imported empty or separate from their contents.

Packages inside or outside containing free goods shall be exempt from duty when the packages are of such a nature that their destruction is necessary in order to release the goods

Packages containing Oysters or other Fish, N O P. 25

Packages containing fine salt, not elsewhere specified, to pay same duty as if imported empty, &c. ...

Packages, containing fish and produce of fish, from Newfoundland Free

Packages, approximate value of, see Packages at end of tariff

Packages, Carboys and Demijohns, empty or otherwise 30

Packages, containing goods, paying specific duty, N E S. 20

Packages, containing goods, paying a specific and *ad valorem* duty, not elsewhere specified, to pay same rate of *ad valorem* duty as the goods they contain

All goods not enumerated as charged with any duty of Customs and not declared free of duty, shall be charged with a duty of 20 per cent. *ad valorem*, when imported into Canada, or taken out of warehouse for consumption therein.

The following articles, being the natural product of the manufactures of the colony of Newfoundland, are exempted from Customs duty when imported into Canada, viz. :

Fish and other product of the fisheries.

SHIPS' STORES.

The following list comprises the only articles which may be entered ex-warehouse, free of duty, as ships' stores for vessels leaving a

Canadian port to a port outside the Dominion, on a voyage which is not supposed to last less than 30 days out and home :

The privilege is extended to fishing vessels, when engaged in the Gulf or deep sea fisheries.

Bread and Biscuits, Butter, Coal for steamers on outward voyage to British or foreign ports, Coffee, Cocoa or Cocoa Paste and Chocolate, Dried or Canned Fruits, Flour and Meal, Lard, Meats salted, dried or canned, Molasses, Rice, Split Peas, Sugar, Syrups, Tea, Vinegar, Coal Oil and Tobacco.

Quantities so entered to be whole packages and carefully proportioned to the length of the voyage, and the number of hands to be supplied, in accordance with the ordinary rate of rations allowed in merchant ships.

ARTICLES PROHIBITED.

The importation of the following articles is prohibited, and any such goods, if imported, shall thereby become forfeited to the Crown, and may be destroyed, and any person importing any such goods, causing or permitting them to be imported, shall for each offence incur a penalty of two hundred dollars.

Goods manufactured or produced wholly or in part by prison labor, or which have been made within or in connection with any prison, jail, or penitentiary. Also, goods similar in character to those produced in such institutions, when sold or offered for sale, by any person, firm or corporation having a contract for the manufacture of such articles in such institution, or by agent of such person, firm or corporation, or when such goods were originally purchased from or transferred by any such contractor.

Oleomargarine, Butterine, or similar substitute for butter.

Books, printed papers, drawings, paintings, prints, photographs or representations of any kind of a treasonable or seditious, or of an immoral or indecent character.

Coin, base or counterfeit.

Reprints of Canadian Copyright Works, and reprints of British Copyright Works, which have been also Copyrighted in Canada.

Tea adulterated with spurious leaf or with exhausted leaf or containing so great an admixture of chemical or other deleterious substances as to make it unfit for use.

EXPORTS PROHIBITED.

The export of Deer, Wild Turkeys and Quail, partridges, prairie fowl, and woodcock, in the carcase or parts thereof, is hereby declared unlawful and prohibited, and any person exporting or attempting to export any such article shall, for each such offence, incur a penalty of one hundred dollars, and the article so attempted to be exported shall be forfeited, and may, on reasonable cause of suspicion of intention to export the same, be seized by any officer of the Customs, and if such intention be proved shall be dealt with as for breach of the Customs Laws, provided, that this section, shall not apply to the export, under such regulations as are made by the Governor in Council of any carcasses or part thereof of any deer raised or bred by any person, company or association of persons upon their own lands.

TARIFF.

133

MEMORANDUM OF INFORMATION AND INSTRUCTIONS RESPECTING,
THE BRITISH PREFERENTIAL TARIFF.

By an Act of the Parliament of Canada, assented to on the 13th of June, 1898 it is provided :

1. That all articles except wines, malt liquors, spirits, spirituous liquors liquid medicines and articles containing alcohol ; tobacco, cigars, and cigarettes, which are the growth, produce or manufacture of any of the following countries, and which are declared to be dutiable upon importation into Canada, may, when imported direct into Canada from any of such countries, be entered for duty or taken out of warehouse for consumption in Canada, on and after the first day of August, 1898, at a reduction of one-fourth from the general tariff rates of duty :—

- (a) The United Kingdom of Great Britain and Ireland ;
- (b) The British Colony of Bermuda ;
- (c) The British Colonies commonly called the British West Indies, including the following :—

The Bahamas ;
Jamaica ;
Turks Island and the Caicos Islands ;
The Leeward Islands (Antigua, St. Christopher, Nevis, Dominica, Montserrat and the Virgin Islands) ;
The Windward Islands (Grenada, St. Vincent and St. Lucia) ;
Barbados ;
Trinidad and Tobago ;

- (d.) British Guiana ;
- (e.) Any other British Colony or possession the customs tariff of which, on the whole, is as favourable to Canada as the British Preferential Tariff is to such Colony or possession (See list hereafter of colonies or possessions which have been admitted under this subsection)

2. That manufactured articles to be admitted under such Preferential Tariff shall be *bona fide* the manufactures of a country or countries entitled to the benefits of such Tariff, and that such benefits shall not extend to the importation of articles into the production of which there has not entered a substantial portion of the labour of such countries. Any question that may arise as to any articles being entitled to such benefits shall be decided by the Minister of Customs, whose decision shall be final.

3. That raw sugar, including sugar drainings or pumpings drained in transit, melado or concentrated melado, tank bottoms and sugar concrete, the produce of any British Colony or possession, may, when imported direct from any British Colony or possession, be entered for duty or taken out of warehouse for consumption in Canada at the reduced rate of duty provided in the British Preferential Tariff.

4. That the reduction under the Preferential Tariff shall only apply to refined sugars when evidence satisfactory to the Minister of Customs is furnished that such refined sugar has been manufactured wholly from raw sugar produced in the British Colonies or possessions.

5. That the Minister of Customs with the approval of the Governor in Council shall determine what British Colonies or possessions shall be entitled to the benefits of the said Preferential Tariff under clause (c) of paragraph 1 of this memorandum.

6. That the Minister of Customs may with the approval of the Governor in Council make such regulations as may be deemed necessary for carrying out the intention of the Act.

The Minister of Customs has, under the power vested in him by the said Act, and with the approval of the Governor in Council, determined that the following British Colonies and possessions are entitled to the benefits of the said Preferential Tariff, viz. :—

British India ;
Ceylon ;
Straits Settlements ;
New South Wales ;

Under the power vested in him by the said Act, the said Minister of Customs has also, with the approval of the Governor in Council, made certain regulations for carrying out the intention of such Act, the full text of which Regulations is set forth in the Orders in Council of 14th July, 1898, as per copy annexed hereto.

Unless the regulations be complied with in every respect the articles will be subject to payment of the general tariff rates of duty upon importations into Canada.

It is deemed advisable to draw the attention of exporters to the fact that the Customs laws of Canada provide severe penalties for the making of false invoices and certificates whereby the Customs Revenue shall or may be defrauded. In such cases, the goods are liable to forfeiture, and the exporter making such fraudulent invoices or certificate, as well as the importer using them, is subject to heavy pecuniary penalties in addition to the forfeiture of the goods. Exporters are, therefore, advised and cautioned to use every care in furnishing true and correct invoices and certificates for goods shipped to Canada.

Attention is directed to the following requirements of the Canadian Customs

Laws:—

1. Every invoice of goods imported into Canada shall be certified in writing as correct by the person, firm or corporation selling or consigning the goods, and shall truly show the whole and actual value of the goods in the currency of the country whence the goods have been exported directly to Canada, and the quantity and description of such goods, and the marks and numbers on the packages, in such a manner as to indicate truly the quantities and values of the articles comprised in each exportation package, all of which packages shall be legibly marked and numbered on the outside when of such a character as to enable such marks and numbers to be placed thereon.

2. If invoices are made out at lower prices for goods exported directly to Canada than the fair market value at the same time and place for such goods when sold for home consumption in the country whence so exported, in all such cases the invoices are also to show clearly, in a special column, or by an addition thereto, such fair market value, as aforesaid, for the goods described therein.

Exporters will note particularly that a separate invoice must be furnished for goods entitled to entry under the Preferential Tariff and that the certificates required must be written, printed or stamped on the invoice, and also that the Preferential Tariff does not apply to any of the following articles, viz.: wines, malt liquors, spirits, spirituous liquors, liquid medicines and articles containing alcohol; tobacco, cigars and cigarettes.

Exporters are required to mark distinctly in writing on all invoices of sugars exported to Canada that the sugars described therein are either RAW or REFINED in every case, or for entry under the Preferential Tariff or under the General Tariff.

JOHN McDougald,

Commissioner of Customs.

CUSTOMS DEPARTMENT, CANADA,
OTTAWA, 14th July, 1898.

REGULATIONS FOR THE ENTRY OF GOODS UNDER THE BRITISH PREFERENTIAL TARIFF OF CANADA.

Approved by Order in Council, 14th July, 1898.

1. A separate invoice of articles entitled to entry under the British Preferential Tariff of Canada, upon the face or back of which there shall be written, printed or stamped a certificate of growth, produce or manufacture, in such of the forms (to be had of the Customs Department) shall be produced and delivered to the Collector of Customs at the Port of Entry in Canada, before entry of such articles under the said Preferential Tariff shall be allowed; such certificate shall be made and signed in manner following, that is to say:—

(a.) If the exporter be an individual, either he or his manager, chief clerk or other principal official, having knowledge of the facts to be certified to, shall make and sign the certificate.

(b.) If the exporter be a firm or corporation the certificate shall be made and signed by a partner, manager, director, chief clerk or other principal official of such firm or corporation, having knowledge of the facts certified to.

2. In the case of entry of refined sugars under the said Preferential Tariff, in addition to the certificate of growth, produce or manufacture, to be written, printed or stamped on the invoice referred to in the first paragraph above, there shall be attached to the invoice a certificate of the refiner of the sugar as to the growth and refining of the same, in the form marked "H," set forth and prescribed in the Schedule of Forms hereto attached, before entry under the said tariff shall be allowed.

3. The certificate of growth, produce or manufacture hereinbefore prescribed will be waived in the case of postal packages not exceeding \$25 in value when for entry under the British Preferential Tariff, if the contents of such packages

FRANCO CANADIAN TREATY.

The Franco-Canadian Treaty went into force on the 14th October 1895.

It provides that the advantages granted to France, Algeria, and the French Colonies, shall be extended to Great Britain, to the several British colonies and possessions, as also to the following foreign countries with respect to their commerce with Canada, provided that satisfactory proof of the origin of the article imported is given to Collectors at the time of entry, viz.:—

Argentine, Austria Hungary, Belgium, Bolivia, Chili, Columbia, Costa Rica, Germany (Zollverein, Muscat, Norway, and Sweden, Russia, Salvador, and Spain.

The following are the articles mentioned in the Treaty, with their respective duties, viz.:—

Nuts, almonds, shelled. 3½ cents per lb.

Nuts, almonds, unshelled. 2 cents per lb.

Nuts, other, shelled and unshelled. 2 cents per lb.

Plums. 20 cents per bush.

Prunes. ¾ cents per lb.

Soaps, common soap, savon de marseille (Castile soaps). 1c. per lb.

Wines, non-sparkling wines, containing 26 per cent. or less of proof spirits, whether imported in wood or in bottles (six quart or twelve pint bottles to be held to contain a gallon).

25 cents per gallon

Wines, sparkling wines in bottles, containing each not more than a quart but more than a pint. \$1.30 per doz.

Wines, sparkling, in bottles containing not more than a pint each, but more than one half pint. \$1.65 per doz.

Wines, sparkling, in bottles, containing one-half pint each or less. 82 cents per doz.

Wines, sparkling, bottles containing more than one quart each shall pay, in addition to \$3.30 per doz. bottles, \$1.65 per gallon on the quantity in excess of one quart per bottle, the quarts and pints in each case being old wine measure.

On value of package. 20 per cent ad valorem.

The following articles, of Canadian origin, and exported direct from Canada, accompanied by certificates of origin, shall receive the advantage of the minimum tariff on entering France, Algeria, or the French colonies:—

Canned meats; condensed milk, pure; fresh water fish, eels; fish preserved in their natural form; lobsters and cray-fish preserved in their natural form; apples and pears, fresh, dried or pressed; fruits preserved, others; building timber in rough or sawn, wood pavement, staves, wood pulp (cellulose); extract of chestnut, and other tanning extracts; common paper, machine made; prepared skins, others whole; boots and shoes; furniture, in common wood; furniture other than chairs of solid wood, common; flooring in pine of soft wood, and wooden sea-going ships.

It is understood that the advantage of any reduction of duty granted to any other power on any of the articles enumerated above, shall be extended fully to Canada.

SUMMARY

From the Regulations and Customs Laws of Canada, in regard to the Dutiable Value of imported goods and the certifying of Invoices by Exporters, for the information of all concerned in the exportation of goods to Canada, and in the importation and Customs entry thereof in Canada, UNDER THE GENERAL TARIFF.

VALUATION FOR CUSTOMS DUTY.

Customs Act, Section 58. Whenever any duty *ad valorem* is imposed on any goods imported into Canada, the value for duty shall be fair market value thereof, when sold for home consumption, in the principal markets of the country whence and at the time when the same were exported directly to Canada. 46 V., c. 12, s. 68.

Customs Act, Section 59. Such market value shall be the fair market value of such goods in the usual and ordinary commercial acceptance of the term, at the usual and ordinary credit, and not the cash value of such goods, except in cases in which the article imported is, by universal usage, considered and known to be a cash article, and so *bona fide* paid for in all transactions in relation to such article; and all invoices representing cash values, except in the special cases herein referred to, shall be subject to such addition as to the collector or appraiser of the port at which they are presented appear just and reasonable, to bring up the amount to the true and fair market value, as required by this section. 46 V., c. 12, s. 69.

VALUE FOR DUTY UNDER SPECIAL CONDITIONS.

Customs Act, Section 64. The fair market value of goods shall be taken to include the amount of any drawback which has been allowed by the Government of any other country, also the amount of consideration or money value of any special arrangements between the exporter and the importer or between any persons interested therein because of the exportation or intended exportation of such goods, or the right to territorial limits for the sale or use thereof, and also the amount or money value of any so-called royalty, rent or charge for use of any machine or goods of any description, which the seller or proprietor does or would usually charge thereon when the same are sold or leased or rented in the country whence they have been exported to Canada. When the amount of such drawback, consideration, money value, royalty, rent or charge for use has been deducted from the value of such goods, on the face of the invoice under which entry is to be made, or is not shown thereon, the Collector of Customs or proper officer shall add the amount of such deduction, drawback, consideration, money value, royalty, rent or charge for use, and cause to be paid the lawful duty thereon. 52 V., c. 14, s. 6.

Customs Act, Section 65. No deduction of any kind shall be allowed from the value of any goods imported into Canada, because of any drawback paid or to be paid thereon, or because of any special arrangement between the seller and the purchaser having reference to the exportation of such goods, or the exclusive right to territorial limits for the sale thereof, or because of any royalty payable upon patent rights, but not payable when goods are purchased for exportation, or on account of any other consideration by which a special reduction in price might or could be obtained: Provided, that nothing herein shall be understood to apply to general fluctuations of market values. 46 V., c. 12, s. 71.

[1900]

1900]

TARIFF.

137

2. Whenever goods are imported into Canada under such circumstances or conditions as to render it difficult to determine the value thereof for duty, either because such goods are not sold for use or consumption in the country of production,—or because a lease of such goods or the right of using the same is sold or given, but not the right of property therein,—or because such goods having a royalty imposed thereon, the royalty is uncertain or is not, from other causes, a reliable means of estimating the value of the goods,—or because such goods are usually or exclusively sold by or to agents, or by subscription, or are sold or imported in or under any other unusual or peculiar manner or conditions,—of all which matters the Minister of Customs shall be sole judge,—the Minister of Customs may determine the value for duty of such goods; and the value so determined shall, until otherwise provided be the value upon which the duty on such goods shall be computed and levied. 51 V., c. 14, s. 15.

DUTIABLE CHARGES.

Customs Act, Section 66. No deduction from the value of goods contained in any invoice shall be allowed on account of the assumed value of any package or packages, where no charge for such package or packages has been made in such invoice; and where such charge is made the Customs officer shall see that the charge is fair and reasonable, and represents no more than the original cost thereof. 46 V., c. 12, s. 72.

Customs Act, Section 67. No deduction from the value of goods in any invoice shall be made on account of charges for packing, or for straw, twine, cord, paper, cording, wiring or cutting, or for any expense incurred or said to have been incurred in the preparation and packing of goods for shipment, and all such charges and expenses shall, in all cases, be included as part of the value for duty. 46 V., c. 12, s. 73.

CUSTOMS REGULATIONS AS TO INVOICES.

1. Every invoice of goods imported into Canada shall be certified in writing as correct by the person, firm or corporation selling or consigning the goods, and shall truly show the whole and actual value of the goods in the currency of the country whence the goods have been exported directly to Canada, and the quantity and description of such goods, and the marks and numbers on the packages, in such a manner as to indicate truly the quantities and values of the articles comprised in each exportation package, all of which packages shall be legibly marked and numbered on the outside when of such a character as to enable such marks and numbers to be placed thereon.

2. If invoices are made out at lower prices for goods exported directly to Canada than the fair market value at the same time and place for such goods when sold for home consumption in the country whence so exported, in all such cases the invoices are also to show clearly, in a special column, or by addition thereto, such fair market value, as aforesaid, for the goods described therein.

3. In the case of goods consigned to a person, firm or corporation other than the actual owners of the goods resident in Canada, and in the case of goods which have not been actually purchased by the consignee or importer in the ordinary mode of bargain and sale, there shall be annexed to the invoice of such goods a declaration to be made by the foreign owner or exporter of the goods in the form approved by Order in Council.

CERTIFICATES AND DECLARATIONS ON INVOICES.

The Certificate of Value, Form J, is prescribed under a Regulation of the Governor in Council, in order to secure a just, true and faithful appraisal of goods, and applies to Invoices of *Merchandise sold* to importers in Canada, but not to goods for entry under the Preferential Tariff until otherwise ordered, not to goods the value of which for duty has been fixed and determined under the Customs Act of Canada

The Certificate is to be signed by a partner, official or employe of the exporter having a knowledge of the facts certified to and to be written, printed or stamped on the face or back of the Invoice.*

*N. B.—A different certificate or declaration is required to be made for goods shipped in Canada on consignment. See Form 6.

FORM 6.

The Declaration Form 6 is prescribed to be made by the foreign owner or exporter of any goods shipped to Canada on consignment, before the Collector or the Mayor or other chief municipal officer at the place in the United Kingdom, or other place in Her Majesty's Possessions abroad from whence the goods are shipped, or before a Notary Public; and at any other place before any British or other Consul, duly accredited by any established Government, and resident in the country from whence the said goods are exported to Canada.

The Declaration (Form 6) may be written printed or stamped on the Invoice or Annexed thereto and applies to goods shipped *on consignment* for entry under the *Preferential Tariff* as well as to *Consigned goods* shipped for entry under the *General Tariff of Canada*.

PREFERENTIAL CERTIFICATES AND INVOICES.

This Summary does not contain forms of Certificates or instructions relating to Invoices for entry under the British Preferential Tariff of Canada, a Memorandum having been issued by the Department on 14th July, 1898, giving full information on this subject.

POST OFFICE DEPARTMENT.

145

1st Class Matter.

Includes Letters, Post Cards, Legal and Commercial Papers wholly or partly written, (with the exception of those specially exempted,) and all matter of the nature of a letter or written correspondence.

The letter rate to Canada and the United States is 2 cents per oz., to the following countries 2 cents per ½ oz.: Aden, Ascension, Bahama Islands, Barbados, Bermuda, British North Borneo, including Labuan, British India, British East Africa, British Central Africa, British Guiana, British Honduras, Ceylon, Cyprus, Falkland Islands, Fiji, Gambia, Gibraltar, Gold Coast Colony, Hong Kong, Jamaica, Johore, Lagos, Leeward Islands, Mauritius, Malay Straits, Malta, Natal, Newfoundland, Niger Coast Protectorate, Niger Co.'s Territory, Sarawak, Seychelles, Sierra Leone, Straits Settlements, St. Helena, Tobago, Trinidad, Turk's Island, Uganda, United Kingdom of Great Britain and Ireland, Windward Islands, Zanzibar, and to other countries 5 cents per ½ oz.

Letters addressed to any place in Canada upon which any postage has been prepaid by stamp, are to be forwarded to their destination charged with double the amount of the postage thereon not so pre-paid, which amount is to be collected on delivery.

Letters addressed to places in Canada or in the United States, wholly unpaid, and letters addressed to the United States on which at least one full rate (2 cts) has not been prepaid, are sent to the Dead Letter office.

RE-DIRECTED LETTERS.

Letters re-directed to places in Canada, the United States and Postal Union Countries, *without being taken out of the post office, or if handed back to post office as soon as possible after delivery therefrom*, are not liable to any additional postage.

REQUEST AND ADDRESS LETTERS

Letters for places in Canada, Newfoundland and the United States sent in envelopes having printed thereon a request that the letters be returned to the sender, or bearing on the corner the printed address of the sender, will be returned direct to the senders instead of being sent to Dead Letter Office.

POST CARDS.

For Canada and the United States, one cent each. For Great Britain, Newfoundland and all Postal Union Countries, two cents each. Reply cards, for Canada and the United States, two cents each. A post card may be addressed by means of an adhesive tag, but nothing else must be attached to it, except, of course, an additional stamp when necessary, nor must the card be cut or defaced in any way.

Private Post Cards may be sent under the following conditions:—The words "Private Post Card" must be distinctly printed or written on the address side near the top. The name and address of the sender may be printed on the face of the card, but the face of the card is not to be used for advertising purposes. Private Post Cards must not exceed a size of 6 inches in length by 3½ inches in width and must not be less than 3¼ inches by 2¼ inches. Cards not complying with these regulations will be treated as insufficiently paid letters.

2nd Class Matter.

Newspapers and periodicals posted from the office of publication, and authorized to pass free of postage or at a reduced rate to regular subscribers in Canada, Newfoundland and the United States.

3rd Class Matter.

NEWSPAPERS AND PERIODICALS.

Transient newspapers within the Dominion and the United States 1 cent per four ounces or fraction thereof—but a single paper weighing not more than one ounce will be forwarded for $\frac{1}{2}$ cent. For the United Kingdom and all Postal Union countries, the rate is 1 cent per two ounces, or fraction of two ounces.

A newspaper or periodical must have no cover which can not easily be withdrawn. It must contain no enclosure. It must have no writing thereon but the name and address of the person to whom it is sent, or the name of the sender.

BOOKS, CIRCULARS, ETC.

The postage on printed books, pamphlets, circulars, occasional publications, etc., addressed to Canada, is 1 cent per 4 oz. To the United States, Newfoundland, Great Britain and all European countries, 1 cent per 2 oz. The postage on blank books, printers' proof sheets, maps, prints, drawings, engravings, lithographs, photographs, sheet music, printed forms, entirely blank, and printed stationary, etc., addressed to Canada and the United States, is 1 cent per 2 oz. No package must exceed in length 2 feet by 1 foot in width or depth. The limit of weight for Canada, United States and Great Britain is 5 lbs.

Seeds, cuttings, bulbs, roots and scions or grafts can only be sent to the United States as 5th class matter; when posted for delivery in Canada, the postage is 1 cent per 4 oz., and the limit of weight 5 lbs.

Commercial papers and legal documents may be sent to Great Britain, all European countries and United States, at 5 cents for the first 10 oz., and 1 cent for every additional 2 oz. These papers, when posted for delivery in Canada, must be prepaid at Letter rates—but bank pass-books, deeds and insurance policies may be sent if prepaid 1 cent per 2 oz.

PATTERNS AND SAMPLES.

Bona fide patterns and samples of merchandise, not exceeding 24 ounces in weight, may be sent to any place in Canada at 1 cent per 4 ounces. Must be put up so as to admit of inspection. Goods sent in execution of an order, however small the quantity may be, or articles sent by one private individual to another, *not being actually Trade Patterns or Samples*, are not admissible as such. The limit of weight to United Kingdom is 5 lbs., and the limit of size 2 ft in length by 1 in breadth or depth. Postage, 2 cents for the first 4 ounces, and 1 cent for every additional two ounces.

4th Class Matter

comprises such articles of general merchandise as are not entitled to any lower rate of postage. Postage 1 cent per oz., or fraction of an ounce. Limit of weight 5 lbs., of size, two feet in length by one foot in width or depth. Matter claiming to be 4th class *must be open to inspection*, and there must be no correspondence enclosed. Packages of 4th class matter may be sent to the United States for the same prepayment as is required within the Dominion, but the contents will be liable to customs inspection and collection of duty in the United States. Sealed tins containing fish, lobster, vegetables, meat, etc., if put up in a solid manner and labelled in such a way as to fully indicate the nature of their contents may be sent as 4th class matter within the Dominion, but no sealed matter can be forwarded to the United

1900]

POST OFFICE DEPARTMENT.

147

States under this head. Liquids, oils and fatty substances may be sent to places in Canada and the United States as 4th class, if put up in accordance with the ruling referring to such articles in the Canada Postal Guide.

FOREIGN PARCEL MAIL.

A parcel post mail for the United Kingdom and certain other countries, is made up weekly at the Halifax P. O. for transmission by Canadian Packet. A parcel for the United Kingdom must not exceed 11 lbs. in weight, nor two feet in length by 1 foot in width or depth. The postage is 16 cents for the first lb. and 12 cents for each additional lb. or fraction thereof. Parcels can be sent to all the countries and colonies with which the United Kingdom maintains a parcel post. Information as to the principal places, and the rates applicable, can be obtained at the delivery wicket.

A Customs declaration form giving an accurate statement of the contents and value of the parcel, etc., must be filled up by the sender. This form must be affixed to the parcel. The forms can be obtained at the delivery wicket of the Post Office.

REGISTRATION.

Every article intended for registration *must be handed in at the Post Office*, and a receipt obtained therefor. *On no account must it be dropped into a letter box.* The registration fees on letters to places in Canada, Newfoundland, the United States, Great Britain and all European countries, is 5 cents.

All classes of matter may be registered to all destinations in Canada and throughout the Postal Union; and *letters* may be registered to most of the countries not included in the Union.

MATTER WHICH CANNOT BE FORWARDED THROUGH THE POST.

Any explosive substance, liquid; etc., not properly put up, and other matter likely to entail risk or injury to the ordinary contents of the mail, will be sent to the Dead Letter Office, Ottawa.

Glass in any form is also inadmissible, except eye-glasses, spectacles and microscopic slides, which properly put up and prepaid at parcel post rate or 4th class matter rate.

No immoral publication, and no letter or post card bearing injurious words, devices, etc., can be forwarded through the mails.

Letters containing gold or silver money, jewels or precious articles, or anything liable to customs duties, cannot be forwarded by post to any of the Postal Union Countries, except to the United States.

Money Orders.

On Money Orders drawn by any Money Order Office in Canada on any other Money Order Office in the Dominion, the commission is as follows:—

Not exceeding \$2 50.....	3 cents.
Over \$2 50 and up to 5 00.....	4 "
" 5 00 " 10 00.....	6 "
" 10 00 " 20 00.....	10 "
" 20 00 " 30 00.....	12 "
" 30 00 " 40 00.....	15 "
" 40 00 " 50 00.....	20 "
" 50 00 " 60 00.....	24 "
" 60 00 " 70 00.....	28 "
" 70 00 " 80 00.....	32 "
" 80 00 " 90 00.....	36 "
" 90 00 " 100 00.....	40 "

No single Money Order, payable in the Dominion of Canada, can be issued for more than \$100; but as many of \$100 each may be given as the remitter requires.

Not more than one Order under \$100 payable in Canada may be issued to the same person in the same day, drawn on the same place in favor of the same payee.

Money orders are issued in Canada on the following Foreign countries and British Possessions, at the rates of commission shown below:

NOVA SCOTIA LIGHT HOUSES.

207

Meagher's Beach, clear the westward of Thrum Cap Shoal. A fog ball on western side lighthouse tower, strikes 7 strokes every minute.

MEAGHER'S BEACH, Sherbrook Tower, east side of entrance to Halifax Harbor, lat $41^{\circ} 36' N.$, lon $63^{\circ} 32' 50'' W.$, fixed white catoptric light, visible 12 miles, 58 feet high, building granite with red roof, circular, height 48 feet. When Sambro light bears W. S. W., this light should not be brought to the westward of north, which clears the Thrum Cap Shoal. A fog trumpet sounds blasts of 5 seconds, with intervals of 25 seconds between the blasts.

THRUM CAP BELL BUOY, red iron buoy surmounted by a bell at S. W. extremity of shoal. Eastern entrance to Halifax harbor. Lat $41^{\circ} 33' 57'' N.$, lon $63^{\circ} 29' 51'' W.$

DEVIL'S ISLAND, on south point of Island, at the eastern entrance to Halifax harbor, two fixed white catoptric lights, South Point, and W. $\frac{1}{4}$ S., 175 yards apart, visible 13 miles, the light E. 59 feet high, W. light 52 feet, both buildings white, octagonal, wood, height E. 53 feet, W. 45 feet, lat $41^{\circ} 31' 50'' N.$, lon $63^{\circ} 27' 15'' W.$ The eastern light opens to southward of western, clears to the southward of the Thrum Cap Shoal. Lifeboat stationed here.

JEDDORE ROCK, on summit of rocks about 22 miles east of Halifax, lat $41^{\circ} 39' 15'' N.$, lon $63^{\circ} 0' 22'' W.$ one fixed red light, visible 12 miles, white, square, wood, dwelling attached, 86 feet high.

EGG ISLAND, centre of island, lat $41^{\circ} 39' 49'' N.$, lon $62^{\circ} 51' 30'' W.$ catoptric light, a group flashing white or bright light, showing three flashes with intervals of 15 seconds between, followed by an eclipse of 30 seconds, visible 15 miles, 80 feet high, octagonal building, black and white vertical stripes on seaward side, height 45 feet. Visible around horizon. An iron can buoy, painted red, about 200 yards south of the Brig Rock, W. by S. from the light house, about 2 miles. Hand fog-trumpet answers signals.

AN automatic whistling buoy, red, is moored in 37 fathoms of water, 5 miles S Mag. from Egg Island Light, lat N. $41^{\circ} 35' 20''$, lon W. $62^{\circ} 49' 5''$.

SHIP HARBOR, on Wolf Point, west side of entrance to Ship Harbor, lat N. $41^{\circ} 44' 51''$, lon. W. $62^{\circ} 45' 4''$, fixed white dioptric light, 87 feet above the water, visible 15 miles from all points of approach by water. Tower white, square, wood with dwelling attached. Iron, lantern red.

POPE'S HARBOR, on west point of Harbour Island, lat $41^{\circ} 17' 40'' N.$ lon $62^{\circ} 38' 50'' W.$, fixed red light, catoptric, visible 9 miles, 45 feet high, tower white, square, wood, with dwelling attached, height 37 feet.

SPRY BAY BELL BUOY, Fair way buoy, lat N. $44^{\circ} 45' 40''$, long W. $62^{\circ} 33' 20''$. Red buoy with "Spry Bay" in white letters on the deck. Taylor's Head bears N. E. $\frac{1}{4}$ N. 2 miles, and Maloney Rock bears N. $\frac{1}{4}$ W. 2 miles. Bell rung by action of the water.

SHEET ROCK, at the entrance to Sheet Harbor, lat $44^{\circ} 49' 55'' N.$, lon $62^{\circ} 29' 23'' W.$, revolving red light every 40 seconds, visible 10 miles. White, square, wood, with dwelling attached. 75 feet above high water mark. Automatic whistling buoy in 24 fathoms water S by W $\frac{1}{2}$ W 5 and one-sixth miles from Sheet Rock light house.

SHEET HARBOUR PASSAGE, on mainland near eastern end of Sober Island, lat $41^{\circ} 51' 30'' N.$, lon $62^{\circ} 26' 33'' W.$, fixed red catoptric, visible 5 miles. Light shown from window in keeper's dwelling elevated 42 feet above high water. For benefit of vessels navigating Sheet Harbour Passage.

BEAVER ISLAND, S. E. part of East Beaver, or William Island, lat $44^{\circ} 49' 34''$ N., lon $62^{\circ} 20' 10''$ W., a revolving white light showing a flash every 45 seconds, visible 12 miles, 70 feet high, white building with two black balls to seaward, S. S. W., 35 feet high. An iron can buoy, painted black, is moored in 7 fathoms water, three eighths mile from the eastern extremity of the island, to mark Beaver Tail shoal.

BEAVER HARBOUR, on eastern end of Beaver Point, lat $44^{\circ} 52' 23''$ N., lon $62^{\circ} 23' 40''$ W. A pole light red lantern on mast with white shed at base: visible 6 miles.

LISCOMB, on island, lat $44^{\circ} 59' 20''$ N., lon $61^{\circ} 57' 55''$ W., red and white catoptric light, alternating every two minutes, visible 15 miles, 61 feet high, white square wooden tower, with dwelling attached.

LISCOMB Whistling Buoy, painted alternate black and white vertical stripes, in 28 fathoms water, lat $44^{\circ} 55' 6''$ N., lon $61^{\circ} 54' 15''$ W. From the buoy Liscomb light bears N $\frac{1}{2}$ W distant 5 miles, and Wedge Island light bears N E $\frac{1}{2}$ N distant 5 $\frac{1}{2}$ miles. A N $\frac{1}{2}$ W course leads into Liscomb light clear of all dangers.

WEDGE ISLAND, mouth of S. Mary's River, lat $45^{\circ} 0' 35''$, lon $61^{\circ} 52' 23''$, one revolving red catoptric light, shows 1 minute in 3 minutes, visible 12 miles, white, square, wood, with dwelling attached, 81 feet high. Hand fog horn answers signals from vessels.

Automatic whistling buoy off Isaac's Harbor as a fairway buoy, lat N. $45^{\circ} 2' 20''$, lat. W. $61^{\circ} 32' 37''$. From the buoy Country Harbor Light, on Green Island N. E. by N. $\frac{1}{2}$ N. Distance 3 $\frac{1}{2}$ miles. A N. by W. course will lead from the buoy to Ragged Point, distance 9 miles. The buoy is moored in 25 fathoms water, and is painted red, with Isaac Harbor in white letters on the side. Taken up about December and laid in the spring. Lat $45^{\circ} 2' 20''$ N., lon $61^{\circ} 32' 37''$ W.

HOLLY POINT, west side of entrance to Isaac's Harbor, lat $45^{\circ} 10' 6''$ N., lon $61^{\circ} 39' 12''$ W., two fixed white catoptric lights vertically, 20 feet apart, visible 9 miles, 80 feet high, square white building, 20 feet high, with dwelling attached.

COUNTRY HARBOUR, on Green Island, Guysboro' County, lat $45^{\circ} 6' 8''$ N., lon $61^{\circ} 32' 30''$ W., fixed white catoptric light, visible 14 miles, 51 feet high, white square wooden building, with dwelling attached, height 28 feet. Coast light, and to guide vessels frequenting Country and Fisherman's Harbors.

TOR BAY, on eastern point of Berry Head, W. side of entrance to Bay, Guysboro' County, lat $45^{\circ} 11' 37''$ N., lon $61^{\circ} 18' 35''$ W., fixed catoptric light, red to seaward, white northward into Bay and towards Molasses Harbor, visible 10 miles, square wooden building, with dwelling attached, white with vertical red stripes, top of lantern painted black. Height of lantern 51 feet, tower 36 feet.

THREE TOP ISLAND, on the south-east point of Three Top Island, Whitehaven, Guysborough County, Nova Scotia, lat $45^{\circ} 12' 40''$ N., lon $61^{\circ} 9' 40''$ W. The light is fixed white catoptric, elevated 48 feet above high water mark, and in clear weather should be seen 11 miles. The building is a wooden one painted white, and consists of a square tower 32 feet high from base of building to vane on lantern, with keeper's dwelling attached. This light is for the purpose of guiding vessels into Whitehaven, and in order to point out the dangers on the northern side of the Western Passage is obscured when bearing to the eastward of N. E. by E. It is visible from all other points of approach except when intercepted by the high land of Whitehead Island.

WHITEHEAD ISLAND, S. W. extremity of Island, Guysboro' County, lat $45^{\circ} 12' 10''$ N., lon $61^{\circ} 8' 15''$ W., white catoptric light, revolving every

20 seconds, visible 11 miles, 55 feet high, pyramidal wooden building, 35 feet high, with dwelling attached, octagonal lantern. Light not totally obscured during the eclipses: 10 seconds duration of flash, and 10 seconds eclipse.

Life boat stationed at Deming Point.

CAPE BREAKER BELL BUOY, painted black and surmounted by a bell, is moored in 14 fathoms, 4 cables E. S. E. from the middle of the shoal. From the buoy a N. W. by N. $\frac{1}{2}$ N. course will lead up to, and about half a cable to the eastward of, Man-of-War Rock, distant $2\frac{1}{2}$ miles. Lat $45^{\circ} 18' 20'' N.$, lon $W 60^{\circ} 54' 0''$.

CANSO CAPE, north part of Cranberry Island, lat $45^{\circ} 19' 45'' N.$, lon. $60^{\circ} 55' 25'' W.$, two fixed white lights in one tower, vertically, 35 feet apart, upper visible 15, lower 12 miles, 89 and 51 feet respectively, high, octagonal wooden building, horizontally striped red and white, with white dwelling house attached. A steam fog whistle, near the light-house, in thick weather sounds a blast of 8 seconds in each minute.

An automatic signal buoy in 20 fathoms, $1\frac{1}{2}$ miles E. S. E. of Grimes Rock, taken up about December, and replaced in the spring. Lat $45^{\circ} 21' 13'' N.$, lon $60^{\circ} 50' 45'' W.$

CANSO HARBOR, on Hart or Cutler Island, lat $45^{\circ} 20' 47'' N.$, lon $60^{\circ} 59' 55'' W.$, fixed red catoptric light, visible 12 miles, 42 feet high, white square wooden building, with dwelling attached, height 28 ft. Hand fog horn answers signals from vessels.

CROW HARBOR, on Rook Island, Chebucto Bay, lat $45^{\circ} 2' 1'' N.$, lon $61^{\circ} 16' 7'' W.$, fixed white dioptric light, visible 8 miles. Square wooden tower with dwelling attached, painted white.

GUYSBORO' HARBOR, W. side of entrance, near Peart Point, Chedabucto Bay, lat $45^{\circ} 22' 46'' N.$, lon $61^{\circ} 29' 10'' W.$, fixed white catoptric light, visible 8 miles, 39 feet high, white square wooden building, height 20 feet.

SAND POINT, or Eddy Point, south entrance Gut of Canso, lat $45^{\circ} 31' 30'' N.$, lon. $61^{\circ} 11' 10'' W.$, fixed white, dioptric, visible 12 miles, 55 feet high, white square wooden tower, with dwelling attached, black diamond on seaward face. A hand fog horn answers signals.

A black can buoy is moored off the extremity end of Sand Spit.

POINT TUPPER, Ship Harbor or Port Hawkesbury, lat $45^{\circ} 36' 30'' N.$, lon $61^{\circ} 22' W.$, fixed red catoptric light, visible 7 miles, 54 feet high, white square building, dwelling attached, height 31 feet. In consequence of the intervention of the land on the south side, can only be seen three miles in that direction.

CREIGHTON'S HEAD, on the north extremity, lat $45^{\circ} 30' 40'' N.$, lon $61^{\circ} 6' 0'' W.$, white catoptric light, revolving every 10 seconds, visible 10 miles, 29 feet high, square white wooden building, height 20 feet. For guiding vessels into Little or West Arichat.

JERSEYMAN ISLAND, Arichat Harbor, lat $45^{\circ} 30' 20'' N.$, lon $61^{\circ} 3' 10'' W.$, fixed red catoptric light, visible 11 miles, 39 feet high, white square wooden building, height 28 feet. This light is for the purpose of guiding vessels through Grid Passage, in and out of Arichat Harbor. There is also a Range Beacon on the S. E. Point of Jerseyman's Island, that marks Hautford Shoal, off the entrance to Arichat Harbor. When the beacon and spire of the Roman Catholic Chapel in Arichat are in range, it leads over the West Part of the shoal in 10 feet of water. Vessels bound into Arichat, Cape Breton, should pass to the west of the shoal, or bring the beacon in range of the cupola on the Convent, which stands 130 yards east of the R. C. Church, which will lead in clear of the shoal. Only those well acquainted should pass to the eastward of the shoal, or

bring the beacon to bear to the N. of N. E. An Iron Can Buoy painted red has been placed about one cable's length S. W. of the Hautford Shoal in six fathoms of water. The buoy will be placed on or about the 1st of May in each year, and taken up about the 10th December. Hand fog horn answers signals from vessels.

ARICHAU, Marache Point, south entrance to Arichat Harbour, lat. $45^{\circ} 29' N.$, lon $61^{\circ} 1' 50'' W.$, fixed white catoptric light, visible 8 miles, 31 feet high, square white wooden building, height 25 feet. Hand fog horn answers signals from vessels.

PETITDEGRAT, on Mouse Island, south-east of Madame Island, lat. $45^{\circ} 29' 54'' N.$, lon $60^{\circ} 57' 21'' W.$, fixed red catoptric light, visible 10 miles, 38 feet high, white square tower, with dwelling attached, height 31 feet.

GREEN ISLAND, summit of Island, lat. $45^{\circ} 28' 50'' N.$, lon $60^{\circ} 53' 40'' W.$, red and white catoptric light, revolving alternately every 45 seconds, visible 14 miles, 70 feet high, white square wooden building, height 31 feet. Light, centre of keeper's dwelling. Visible around horizon.

CAPE LA RONDE, west side of entrance to St. Peter's Bay, lat. $45^{\circ} 31' 45'' N.$, lon $60^{\circ} 53' W.$, fixed white catoptric light, visible 14 miles, 92 feet high, white square wooden building, with dwelling attached, height 28 feet. For guiding vessels into St. Peter's Bay.

GRANDE DIGUE, on beach near wharf, Lennox Passage, lat. $45^{\circ} 35' 41'' N.$, lon $61^{\circ} 1' 50'' W.$, fixed red dioptric light, 30 feet above high water mark, visible 5 miles, lantern on mast with white shed at base. Building 25 feet high. SEAL OR DOG ISLAND, Lennox Passage, lat. $45^{\circ} 35' 31'' N.$, lon $61^{\circ} 4' 0'' W.$, fixed red dioptric light, 34 feet above high water mark, visible 5 miles, lantern on mast with white shed at base.

GLASGOW POINT—On N. W. extremity of Madam Island western entrance to Lennox Passage. Lat N. $45^{\circ} 31' 0''$, lon W. $61^{\circ} 7' 50''$. Fixed red dioptric, 65 feet high visible 8 miles. Tower square white with dwelling attached. Iron lantern painted red, 32 feet base to vane.

NOTE.—The Pole Lights in St. Peter's Inlet are the same as above.

OPETIQUE ISLAND, on south point, lat. $45^{\circ} 36' 40'' N.$, lon $60^{\circ} 57' 15'' W.$, fixed red catoptric light, visible 9 miles, 78 feet high, white square wooden building, with dwelling attached, height 28 feet. For guiding vessels through Lennox Passage.

JEROME POINT, east side of St. Peter's Bay, near Canal, lat. $45^{\circ} 39' 5'' N.$, lon $60^{\circ} 52' W.$, a fixed red light, visible 8 miles. Square wooden tower, with dwelling attached, 40 ft. high, painted white. Hand horn answers signals from vessels.

SAINT ESPRIT ISLAND, east end, lat. $45^{\circ} 36' 30'' N.$, lon $60^{\circ} 29' 10'' W.$, revolving white catoptric light, intervals of 30 seconds, building white, with two red bands, square, wood, with dwelling attached. Height of building 55 feet, of light 78 feet. Bad Neighbor Shoal, S. W. $\frac{3}{4}$ W. $1\frac{1}{2}$ mile from this light is not more than 12 feet below water.

A Bell Buoy off Fourche Head; taken in about December.

GUION ISLAND, about 230 yards from west end of Island, lat. $45^{\circ} 46' 10'' N.$, lon $60^{\circ} 6' 30'' W.$, red revolving light, catoptric, attains its greatest brilliancy every 30 seconds, visible 12 miles, 74 feet high, tower white, square, with dwelling attached, height 54 feet.

GABARUS, on Harbour Point, southern shore of Gabarus Bay, Lat N., $45^{\circ} 59' 40''$, Lon W. $60^{\circ} 8' 30''$, fixed red, dioptric, 47 ft. above water, visible 8 miles. Wooden hexagonal tower white, iron lantern red. Base to vane, 32 feet.

NOVA SCOTIA LIGHT HOUSES.

211

LOUISBURG, north side of entrance to harbor, 120 yards inshore of point, lat 45° 54' 35" N., lon 59° 57' 15" W., fixed white catoptric light, visible 16 miles, 85 feet high, building white, with a black vertical stripe on each side of dwelling, height 35 feet.

LOUISBURG RANGE LIGHTS. Two square towers, white. Front light on gravelly point on west shore of harbour. Lat N. 45° 54' 15", long W. 59° 58' 6". Tower 28 feet high. Fixed red light, 26 feet above high water, visible 7 miles, dioptric. Back tower 1330 feet N. 67° W. from front tower. Building similar to front one shows red light, catoptric, 51 feet above high water, visible 7 miles. The two lights in one, bearing N. 67° W., lead into the south-west arm from the Atlantic ocean. The least water in the line of range outside Nag Rock shoal anical buoy is 45 feet.

NAG ROCK, Louisburg Harbor. A conical iron buoy, painted red, is moored in 30 feet water, on the W extremity of the shoal extending from Nag Rock to mark the turn in the deepest channel.

The two red spar buoys marking the shoaler water channel off Nag Rock, are distinctively marked as follows: The outer or more southerly buoy has a cone shaped top mark, and the second or more northerly buoy has a spherical top mark.

A bell buoy is placed at the entrance to Louisburg harbor; it is black with "LOUISBURG" in white letters on the deck; moored in 13 fathoms, and is 1½ cables east from centre of harbor shoal. Lat N. 45° 54' 13", lon W. 59° 56' 30". From the buoy, light bears N. W. by N. ½ N six-tenths of a mile. Leaving the buoy ½ cable on the port hand, a N W by W. course will lead in through mid-channel.

LOUISBURG Automatic Whistling Buoy, in 36 fathoms water, 3 miles S. E. by S. ½ S. from Louisburg lighthouse, lat N. 45° 52' 43", lon W. 59° 53' 41". From the buoy a N. W. by N. ½ N. course leads direct for the lighthouse and will bring a vessel to the Bell Buoy, which she should round, leaving it on the port hand.

MAINADIEU on south side of west point of Scatterie Island, lat 46° 0' 30" N., lon 59° 47' 30" W., fixed red catoptric light, 90 feet high, white square wooden building, height 40 feet, visible 10 miles.

SCATTERIE, north-east point of Trap Rock, lat 46° 2' 15" N., lon 59° 40' 15" W., white catoptric revolving light, visible a minute, eclipsed half a minute, visible 15 miles, 90 feet high, white octagonal building, height 70 feet. The light should never be brought to bear to eastward of N. N. E., or to southward of S. S. W., nor approached nearer than 1½ mile. Life boat is stationed here.

Fog Whistle near the light-house. Sounds two blasts of 5 seconds, with interval of 10 seconds, in every minute.

COW BAY.—Light discontinued.

FLINT ISLAND, on island, lat 46° 11' N., lon 59° 45' 55" W., white, catoptric light, revolving every 15 seconds, visible 12 miles, 65 feet high, white octagonal building, height 43 feet. Visible around horizon.

LINGAN HEAD, north side of entrance to Bridgeport Harbor, lat 46° 14' 10" N., lon 60° 2' 10" W., fixed red catoptric light, visible 10 miles 50 feet high, white square wooden building, height 20 feet. For guiding vessels into Bridgeport Harbor.

LOW POINT, Flat Point, east side of Spanish Bay, Sydney Harbour, lat 46° 16' 20" N., lon 60° 7' 16" W., fixed white catoptric light, visible 14 miles, 70 feet high, building octagonal, red and white vertical stripes, height 51 feet. Marine Telegraph and Signal Station.

SYDNEY BAR, on west end of South E. Bar, lat $46^{\circ} 12' 26''$ N., lon $60^{\circ} 12' 39''$ W., fixed red catoptric light, visible 10 miles, 30 feet high, white square wooden building, height 20 feet.

CRANBERRY HEAD, fog horn, on northern side of Spanish Bay, entrance to Sydney Harbour, lat $46^{\circ} 15' 53''$ N., lon $60^{\circ} 12' 7''$ W. A steam fog trumpet sounds a blast of ten seconds duration every minute.

POINT ACONI, on high cape, north side of entrance to Little Bras d'Or, lat $46^{\circ} 19' 30''$ N., lon $60^{\circ} 17' 10''$ W., fixed red catoptric light, visible 11 miles, 91 feet high, square white wooden building, with dwelling attached, height 20 feet. For guiding vessels into Little Bras d'Or.

POINT ACONI BUOY, lat N. $46^{\circ} 21' 0''$, lat. W. $60^{\circ} 16' 27''$. An iron can buoy painted black with Point Aconi in white letters on top is moored in 7 fathoms water, $\frac{3}{4}$ mile E. by N. $\frac{1}{2}$ N. from the extreme of Point Aconi.

BLACK ROCK POINT, south side of entrance to Big Bras d'Or, lat $46^{\circ} 18' 30''$ N., lon $60^{\circ} 23' 20''$ W., fixed white catoptric light, 45 feet high, white square building, height 23 feet. White cross on red ground. Visible 12 miles.

CAREY'S BEACH, N side of entrance to Big Bras d'Or, $46^{\circ} 17' 45''$ N., lon $60^{\circ} 25' 0''$ W. Pole light red. Visible 5 miles.

MCNEIL BEACH, Big Bras d'Or, a pole light. Red. Visible 5 miles.

MCKENZIE'S POINT, N. side of Bras d'Or Lake, about 2 miles S. W. of Port Bevis, lat $46^{\circ} 7' 15''$ N., lon $60^{\circ} 39' 39''$ W., fixed white catoptric light, visible 11 miles, 95 feet high, square white wooden tower. For guiding vessels through Bras d'Or Lake.

KIDSTON ISLAND, on N. E. Point, at entrance to Baddeck Harbor, N. side of Bras d'Or Lake, lat $46^{\circ} 5' 58''$ N., lon $60^{\circ} 44' 20''$ W., fixed red catoptric light, visible 7 miles, 31 feet high, square, wooden building, white.

LITTLE NARROWS, eastern entrance, lat $46^{\circ} 0' 0''$ lon $60^{\circ} 58' 25''$. One fixed white light, visible 10 miles, white, square, wood, 35 feet high. Catoptric.

"WHYCOCOMAGH," on FRASER'S POINT, north side of St. Patrick's Channel, lat $45^{\circ} 57' 57''$ N., lon $61^{\circ} 4' 39''$ W., fixed red light, shown from a dioptric lantern, hoisted on a mast 25 feet high, with a shed painted white at its base, visible 5 miles.

GILLIS POINT, on N. side Little Bras d'Or Lake, and W side of entrance to Bonaccet Harbour, lat $46^{\circ} 1' 32''$ N., lon $60^{\circ} 4' 18''$ W., dioptric, fixed, white, 74 feet above water, visible 12 miles, building wood, square, tower, dwelling attached.

GRAND NARROWS Railway bridge with swing has been erected. Red light will show up and down Channel when swing is closed, green when open. Lat $45^{\circ} 57' 42''$ N, lon $60^{\circ} 47' 33''$ W.

PIPERS COVE, on western bend of Derby Point, Grand Narrows, lat $45^{\circ} 56' 30''$ N, lon $60^{\circ} 17' 45''$ W, fixed red dioptric light, 77 feet above high water mark, visible 11 miles, white square wood. Building 38 feet high.

CAMPBELL ISLAND, on east side of L. W side of entrance to McKinnon Harbour, lat $45^{\circ} 54' 46''$ N, lon $60^{\circ} 55' 54''$ W, fixed white light. Pole light.

RED ISLANDS, on McKenzie Point, S. shore Great Bras d'Or Lake, lat $45^{\circ} 47' 32''$ N., lon $60^{\circ} 44' 40''$ W. Fixed red dioptric light, 47 feet, visible 8 miles. White square wood tower 37 feet high.

r Lake,
47 feet.

CAPE GEORGE, south side of Bras d'Or Lake, west side of entrance to St. Peter's Inlet, lat 45° 41' 28" N., lon 60° 48' 20" W., fixed white catoptric light, visible 10 miles, 50 feet high, white square wooden building, height 20 feet. To guide vessels through St. Peter's Inlet. A hand fog-horn answers signals from vessels.

FREESTONE ISLET, on Gregory Island, lat 45° 42' 50" N., lon 60° 47' 50" W. White square tower, 25 feet high. Fixed red dioptric light, 31 feet high, visible 8 miles.

BEAVER ISLAND, on S. E. point of island, lat 45° 10' 10" N., 60° 49' 47" W., fixed red dioptric light, 30 feet above high water mark, visible 5 miles, lantern on mast, 25 feet high, with white shed at base.

GOOSEBERRY ISLAND OR MARJORIES ISLE, W. from Sandy's Point, lat 45° 10' 7" N., lat 60° 51' 1" W., fixed red dioptric light, 31 feet above high water mark, visible 5 miles, lantern on mast 25 feet high, with white shed at base.

CLARKE'S COVE, N. side West Bay, Bras d'Or Lake, lat 45° 19' 10" N., lon 61° 1' 55" W. Red pole light on mainland facing entrance to channel. The light run for on a N. W. course leads clear of three out-lying shoals, which are marked by spar buoys.

BIRD ISLAND, Ciboux Island, $\frac{1}{2}$ mile from N. end, lat 46° 23' 10" N., lon 60° 22' 30" W., red catoptric light, revolving every minute, visible 16 miles, 77 feet high, white octagonal building, height 33 feet.

ST. ANN'S HARBOR, on south point of Beach, lat 46° 17' 15" N., lon 60° 32' 25" W., fixed white catoptric light, visible 8 miles, 41 feet high, white building, height 38 feet. The light exhibited to guide through entrance.

INGONISH HARBOUR, on beach southern side of entrance to harbour, lat 46° 38' 10" N., lon 60° 23' 12" W. Light fixed red dioptric, visible 9 miles, elevated 45 feet above high water. Building square tower, white, 38 feet from base to vane. To mark entrance.

INGONISH, on Island, lat 46° 41' 20" N., lon 60° 20' 10" W., fixed white light, visible 20 miles, 237 feet high, white square building, height 40 feet.

NEAL HARBOUR on head at eastern side of entrance, lat 46° 48' 41" N., lon 60° 19' 12" W. Fixed red light, 73 feet high, visible 8 miles. Square wooden tower 31 feet high painted white, iron with lantern painted red.

CAPE NORTH, on Money Point, $\frac{3}{4}$ mile S. E. from Money Point, lat 47° 1' 45" N., lon 60° 23' 15" W., red and white catoptric light, revolving every 45 seconds, visible 15 miles, 74 feet high, square white wooden building, height 26 feet. Coast light makes a complete revolution every $1\frac{1}{2}$ minute.

CAPE ST. LAWRENCE—Lat N 47° 2' 55" Long W 60° 35' 10", 2 fixed white dioptric lights vertical, 12 feet apart. Upper light in lantern 137 feet above high water, visible 17 miles. Lower light on lower floor of tower, 95 feet above high water, visible 15 miles. Building square wooden tower, with dwelling attached, painted white. 56 feet from base to vane on lantern.

CAVEAU POINT RANGE LIGHTS. The Lights are shown from square wooden towers surmounted by wooden lanterns, each 27 feet high, the whole painted white. The front tower stands on extremity of Caveau Point, lat N 46° 39' 20", long W 60° 59' 50", 77 feet back from top of cliff, on land 30 feet high, and shows a fixed white light 52 feet above high water, visible 8 miles. Illuminating apparatus, pressed lens. The back range tower stands 710 feet S 59° E from the front one, 75 feet above high water, fixed white catoptric, visible 8 mile. The two lights in one bearing S 50° E lead into the entrance of Caveau Harbor clear of the north end of Cheticamp Island, and

between it and Caveau shoals. They should be kept in alignment until Eastern Harbour Range Lights are brought in one.

CHETICAMP, Eastern Harbor, Range light, lat $46^{\circ} 38' 15''$ N., lon $61^{\circ} 0' 25''$ W. Front light, red, 45 feet above high water, 60 feet back from edge of land. Back light, 330 yards S by W, $\frac{3}{4}$ W from front light, 60 feet above high water; colour white. Both lights shown from white square towers, and kept in range will lead through dredged channel.

CHETICAMP, near south end Island, lat $46^{\circ} 36' 20''$ N lon $61^{\circ} 3' 10''$ W., white catoptric light, revolving every 45 seconds, visible 20 miles, 149 feet high, white square wooden tower on N side of dwelling, height 24 feet.

ST. PAUL'S ISLAND, on rock off N. E. point of island, lat $47^{\circ} 13' 55''$ N. lon $60^{\circ} 8' 20''$ W., fixed white light, dioptric, third order, visible 20 miles, 140 feet high, white octagonal building, height 40 feet. Obscured between N. by E. $\frac{1}{2}$ E. and E. N. E.

ST. PAUL'S ISLAND, S. W. point of island, lat $47^{\circ} 11' 20''$ N., lon $60^{\circ} 9' 40''$ W., white dioptric light, third order, revolving every minute, visible 20 miles, 140 feet high, white octagonal building, 40 feet high. Obscured when bearing from S. S. E. to W. $\frac{1}{2}$ N. A fog whistle on the S. E. side of the island, S. E. of Atlantic Cove, about half a mile from the Humane Establishment, sounds once for five seconds in each minute during thick weather and storms. Marine telegraph and ice report station at main establishment on island.

MARGAREE HAREOUR, on outer end of breakwater pier, lat $46^{\circ} 26' 35''$ N., lon $61^{\circ} 6' 40''$ W., seaward light fixed red, white light eastern and western sides lantern, visible 7 miles, 29 feet high, square white building.

MARGAREE, summit or middle of Sea Wolf Island, lat $46^{\circ} 21' 30''$ N., lon $61^{\circ} 15' 39''$ W., fixed white catoptric light, visible 21 miles, 298 feet high, square white building. To vessels in dangerous proximity to the island the light may become obscured by the abrupt cliffs on the sides of the island.

MABOU, two range lights, lat $46^{\circ} 5' 30''$, lon $61^{\circ} 28' 10''$, each, small dioptric lantern, hoisted on mast, the outer, fixed, white, 25 feet high, visible 9 miles; the inner, fixed, red, visible 7 miles; lead into harbour, through dredged channel past breakwater.

PORT HOOD, S. E. side of entrance to harbor, lat 46° N., lon $61^{\circ} 31' 25''$ W., fixed catoptric light, red N., white S., visible 10 miles, 55 feet high. Square white building.

IRON CAN BUOYS have been placed at the following Shoals:—Port Hood Harbor C. B., Portsmouth Point, Spithead, Smith Spit, Dean Shoal, also one at Judique Shoal. Judique Shoal and Dean Shoal Buoys are painted red, the other three are painted black. These Buoys will be placed on or about the 1st May in each year, and taken up about the 10th November.

NORTH CANSO, north entrance, west side, 120 yards inshore, lat $45^{\circ} 41' 50''$ N., lon $61^{\circ} 29' 0''$ W., fixed white catoptric light, visible 16 miles, 110 feet high, white square wooden building, height 35 feet. There is good anchorage under the light when the wind is off shore. Lantern on dwelling.

HARBOR AU BOUCHE, two lights in separate towers, lat $45^{\circ} 41' 0''$ N., lon $61^{\circ} 31' 15''$ W., fixed white catoptric light, visible 9 miles, 36 feet high, white square wooden building, 32 feet high, 473 yards S. W. $\frac{3}{4}$ S. from front light, one fixed red catoptric light, 107 feet high. Range lights to lead through dredged channel over the bar.

POMQUET ISLAND, north east end of island in St. George's Bay, lat

ge's Bay, lat

45° 39' 40" N., lon 61° 44' 30" W., fixed red catoptric light, visible 9 miles, 50 feet high, square white building, height 23 feet. Obscured on easterly bearings.

CAPE ST. GEORGE, north side of Cape, lat 45° 52' 50" N., lon 61° 55' 0" W., white catoptric light, revolving every half minute, visible 25 miles, 350 feet high, white square building, height 39 feet.

ARISAIG, northern extremity of point, 130 feet from end, lat N 45° 45' 53", lon W 62° 10' 5". White, square, wood, tower 32 feet high, showing fixed red light, 70 feet high, dioptric, visible 7 miles.

PICTOU ISLAND, south-east point, lat 45° 49' 10" N., lon 62° 30' 30" W., fixed white catoptric light, visible 12 miles, 52 feet high, square white building. Life boat stationed at eastern end of Island.

PICTOU HARBOR, south point of entrance, lat 45° 41' 30" N., lon 62° 39' 30" W., two fixed catoptric lights vertical, 25 ft. apart, upper white, lower red, visible 11 miles, lantern 65 feet high, building octagonal, striped red and white vertically, height 55 feet. Lighted when navigation is open. The small red light is seen below lantern. By keeping light W. S. W. vessels clear the east reefs off Pictou Island.

In tower of new Custom House a fixed white light, in range with lights at the entrance to harbor, leads through the channel up to the bar. Lat 45° 41' 0" N, lon 62° 42' 6" W.

PICTOU HARBOUR RANGE.—Two lights in separate towers on northern side of entrance to harbour, inside of western end of London Beach, to guide vessels through the channel clear of the bar shoals. Lat N. 45° 41' 50", lon 62° 40' 15". Front light, square white tower 39 feet high, 600 feet back from the shore, fixed red catoptric, 66 feet above high water mark. The back tower is 384 feet N. W. by W. $\frac{1}{2}$ W. from the front tower, and is 38 feet high. The light is fixed red catoptric, 78 feet above high water mark, visible 8 miles. These towers have replaced the Pole Lights formerly in use. Both are painted white.

Vessels entering keep the Pictou Bar and Custom House lights in one W. $\frac{1}{2}$ N. until reaching the alignment of Fraser's farm range which they should keep N. W. by W. $\frac{1}{2}$ W. until the Bar light is nearly abeam, when a W. $\frac{1}{2}$ S. course will lead to safe anchorage in the harbour.

CARIBOU ISLAND, north-east part of Island, lat 45° 46' 15" N., lon 62° 40' 20" W., white catoptric light, revolving every minute, visible 10 miles, 35 feet high, white square building, height 26 feet.

AMET ISLAND, centre of island, Northumberland Straits, lat 45° 50' 15" N., lon 63° 10' 20" W., fixed white catoptric light, visible 10 miles, 44 feet high, white square wooden building, height 26 feet. Visible around horizon.

MULLIN'S POINT, range lights, north side of entrance to Wallace Harbor, Cumberland County, lat 45° 49' 45" N., lon 63° 25' 5" W., fixed catoptric white, light visible 11 miles, 39 feet high, white square wooden building, height 25 feet. Inner red light shown from a lighthouse built summer of 1894, standing 1473 feet N. W. $\frac{3}{4}$ W. from the front range light. Two lights in one, form a range to lead across bar, and in channel up to Mullin's Point.

A can buoy marks entrance to channel, and two fairway buoys.

PUGWASH, in harbor, lat 45° 52' 30" N., lon 63° 40' 20" W., fixed catoptric light, red seaward, white towards harbor, visible 8 miles, 48 feet high, white square building, height 44 feet. Black buoys to be left on port hand, and red on starboard when entering the harbor.

COLD SPRING HEAD—Lat N 45° 58' 5" Long 63° 51' 50" white square tower, iron lantern red, height base to vane, 36 feet. Light fixed white, 60 feet, visible 13 miles, dioptric.

WEST FROM HALIFAX.

HERRING COVE, Western Head, lat N. $41^{\circ} 33' 57''$, lon W. $63^{\circ} 32' 58''$, fixed red, square white tower, 22 feet from base to vane on lantern. Fixed red 45 feet above high water. Visible 8 miles.

HERRING COVE Life boat stationed here.

CHEBUCTO HEAD, west side of entrance to Halifax Harbor, lat $44^{\circ} 30' 4''$ N., lon $63^{\circ} 30' 50''$ W., white light, revolving every minute, visible 18 miles, 132 feet high, white square wooden building, height 22 feet.

A steam fog whistle sounds blasts of 10 seconds duration, with an interval of 50 seconds between.

An Automatic Whistling Buoy, painted red, placed in lat $44^{\circ} 31' 40''$ N., lon $63^{\circ} 30' 2''$ W., in 20 fathoms of water, N. E. 1 nine-tenth miles from Chebucto Head lighthouse. From the buoy Chebucto Head light-house bears S. W. 1 mile 9 cables; Sandwich Point, bears N. $\frac{1}{2}$ W., 3 miles 8 cables; Devils Island west light-house, bears N. E. $\frac{3}{4}$ E., 3 miles $5\frac{1}{2}$ cables. Passing to the westward of the buoy at the distance of half a cable and steering a N. course magnetic, will lead up the harbor to the eastward of the Neverfail Shoal, and at a distance of two cables to the westward of Meagher's Beach light-house.

A similar buoy, painted black, in lat $44^{\circ} 28' 25''$ N., lon $63^{\circ} 22' 10''$ W., in 36 fathoms, from this buoy Sambro Island light bears W. $\frac{1}{4}$, N. $8\frac{1}{2}$ miles. Devil's Island light N. $\frac{1}{2}$ W. $7\frac{1}{2}$ miles, and the inner automatic buoy N. W. $\frac{1}{4}$ N. 6 miles.

SAMBRO AUTOMATIC WHISTLING BUOY, in 25 fathoms, near S. end of Sambro Outer Bank. Painted black, and white vertical stripes. From the buoy Pennant Point bears N. W. by N. $\frac{1}{4}$ N., $7\frac{1}{2}$ miles. Sambro Light, N. $\frac{1}{4}$ W., $5\frac{1}{2}$ miles. Chebucto Light, N. by E., $\frac{5}{8}$ E., 8 $\frac{1}{2}$ miles. Lat N $44^{\circ} 21' 30''$, lon W. $63^{\circ} 30' 15''$.

The Portuguese Buoy is colored red and black horizontally; the Rockhead Buoy black and white vertically. An Iron Spar Buoy painted red and black horizontal bands, $1\frac{1}{2}$ cable S. from $4\frac{1}{2}$ fathom line of Neverfail shoal. The other buoys of Halifax Harbor are colored red on the starboard hand and black on the port hand, entering the harbor.

DUNCAN'S COVE Life boat station near Chebucto Head Light.

SAMBRO, middle of Island, lat $44^{\circ} 26' 10''$ N., lon $63^{\circ} 33' 28''$ W., fixed white dioptric 2nd order, visible 16 miles, 115 feet high, building white, octagonal, 60 feet high. The steam fog whistle has been replaced since the 10th June, 1891, by explosive bombs, fired every 10 minutes.

A Bell Buoy, painted black, placed in 22 fathoms water, S. E. by E. $\frac{1}{2}$ mile from the Blind Sister.

Iron Can Buoy has been placed off the S.W. Breaker, Sambro, wooden spars on the Pollocks, on the Whippley Shoal, Stapleton, Morris Point, Bell Rock, and Duncan's Reef, near Sambro.

SHIPLEY HEAD, Terrance Bay, lat $44^{\circ} 27' 40''$, lon $63^{\circ} 42' 10''$, fixed red, on mast, 55 feet high, visible 7 miles.

BETTY'S ISLAND, on Brig Point, near Prospect, lat $44^{\circ} 26' 22''$ N., lon $63^{\circ} 45' 54''$ W., revolving red catoptric light, greatest brilliancy every two minutes, 75 feet high, visible 14 miles, building white, with two horizontal red bands, square, wood, height 54 feet, dwelling attached. Coast light.

DOVER, on southern end of Callaghan Island, lat N. $44^{\circ} 29' 34''$, lon W. $63^{\circ} 51' 33''$, fixed white dioptric, 50 feet high, visible 12 miles.

White square tower with dwelling attached. A red can buoy on western side of Shag Bay breakers, to guide into Dover Harbor.

PEGGY POINT, east side of entrance to St. Margaret's Bay, lat 44° 29' 30" N., lon 63° 55' W., fixed red catoptric light, 65 feet high, building white, square, 26 feet high. Lantern on dwelling. Visible 8 miles.

CROUCHER'S ISLAND, on south point of island, in St. Margaret's Bay, lat 44° 38' 24", lon 63° 57' 20", fixed white light, visible 15 miles, square tower, 40 feet high, with dwelling attached, painted white.

MARGARET'S BAY, on Green Island, Lunenburg County, lat 44° 22' 57" N., lon 64° 2' 45" W., red and white catoptric light revolving alternately every one and a-half minutes, building white, square, wood, 66 feet above water, with dwelling attached. Coast light. Red 50 sec., eclipse 38 sec., white 52 sec., eclipse 38 sec.

NORTH EAST SHOAL, AUTOMATIC WHISTLING BUOY. 2 miles E. by N. $\frac{1}{2}$ N. from N. E. Shoal, off Green Island, between Margaret's Bay and Mahone Bay, lat N. 44° 25' 51", lon W. 64° 0' 2". Buoy painted black with "N. E. Shoal" in white letters; moored in 21 fathoms. From the buoy a N. W. $\frac{1}{2}$ N. course will lead into Mahone Bay, and N. E. by N. $\frac{3}{4}$ N. will lead into St. Margaret's Bay.

HUBBARD'S COVE, on Green Point, W. side of entrance, lat N. 44° 37' 14", lon W. 64° 3' 10". Fixed red dioptric, 60 feet high. Building white, square, wood, with dwelling attached.

CHESTER, E., Ironbound Island, a little to the eastward of centre of island, in Mahone Bay, lat 44° 26' 20" N., lon 64° 4' 50" W., fixed white catoptric light, visible 16 miles, 150 feet high, white oblong tower on dwelling, 46 feet high, wood, lantern. Seen from all points of approach. The lantern alone is visible, building hidden by trees.

QUAKER ISLAND, on highest part of island, lat 44° 30' 55", lon 64° 13' 48", fixed red light, 109 feet high, visible 11 miles. Square tower, 35 feet high, with dwelling attached, painted white. To guide into Chester Basin. Hand fog horn answers signals from vessels.

HOBSON'S NOSE, Mahone Bay, lat 44° 24' 55" N., lon 64° 13' 46" W., red fixed dioptric light, visible 8 miles, 68 feet high, building white, square, wood, 29 feet high.

WESTHAVER'S ISLAND, Mahone Bay, lat 44° 26' 15", lon 64° 20' 12". Fixed white, dioptric 54 feet high, visible 12 miles. White square tower 27 feet high, with dwelling attached.

CROSS ISLAND, east point Lunenburg Bay, lat 44° 18' 45" N., lon 64° 9' 57" W., 2 white catoptric lights vertical, 35 feet apart, upper intermittent revolving every minute, and visible 14 miles, 100 feet high, lower fixed, visible 6 miles, and 65 feet high, building red, octagonal base, height 58 feet. Pilots resort here, and vessels may take refuge in case of necessity. Upper bright 45 seconds, dark 15 seconds. A fog rumpet sounds 20 seconds every $1\frac{1}{2}$ minutes.

BATTERY POINT, Lunenburg, lat 44° 21' 45" N., lon 64° 17' 35" W., fixed red catoptric light, visible 8 miles, 50 feet high, white, square tower on dwelling, height 24 feet. This harbor is easy of access, buoys are placed in the bay and entrance to harbor on Ovens Reef, Sculpin Rock, Haddock Shoal, Battery Point Shoal, and Head Shoal. Hand fog trumpet answers signals from vessels.

LUNENBURG FAIRWAY AUTOMATIC WHISTLING BUOY, off western entrance to Lunenburg Bay. Red and black horizontal stripes. From the buoy Battery Point Light bears N. W. by N. $\frac{1}{2}$ N $6\frac{1}{2}$ miles; Cross Island Light N. E. $\frac{3}{4}$ E., 2 miles; West Ironbound Light, S. W. by

W. $\frac{3}{4}$ W. $4\frac{1}{2}$ miles; and Rose Point N. W. $\frac{1}{2}$ W. $1\frac{1}{4}$ miles; lat N. $44^{\circ} 17' 0''$, lon W. $64^{\circ} 11' 25''$

WEST IRONBOUND ISLAND, near Cape LaHave, mouth of LaHave River, lat $44^{\circ} 13' 42''$ N., lon $64^{\circ} 16' 20''$ W., white catoptric light, revolving every 30 seconds, visible 13 miles, 72 feet high, building white, square, with dwelling attached, height 29 feet. Near edge of cliff 40 feet high.

LAHAVE BELL BUOY, painted red, off LaHave River, in 22 fathoms water. 3 miles S. by E. from Moser's Island Light, and $2\frac{1}{2}$ miles S. S. W. from Ironbound Light; lat $44^{\circ} 17' 16''$ N., lon $64^{\circ} 20' 55''$ W.

LAHAVE, on Fort Point, lat $44^{\circ} 16' 55''$ N., lon $64^{\circ} 21' 1''$ W., fixed red catoptric light, visible 8 miles, 48 feet high, building white, square, wood, with dwelling attached, height 35 feet.

MOSHER'S ISLAND, on island, west side of entrance to LaHave River lat $44^{\circ} 14' 15''$ N., lon $64^{\circ} 18' 50''$ W., fixed red catoptric light, visible 8 miles, 55 feet high, building white, square, height 26 feet. Hand fog-trumpet answers signals.

MEDWAY HEAD, Port Medway, west side of entrance, lat $44^{\circ} 6' 10''$ N., lon $64^{\circ} 32' 15''$ W., fixed white catoptric light, visible 10 miles, 44 feet high, building white, square, with black square seaward, height 23 feet. Like a dwelling house. Spar Buoys are placed in the channel to Port Medway Harbor, on the breaking ledges, Nautilus Rock, corner ground and edge of flats off Bang's Point. In passing in from seaward the red buoys must be left on the starboard, and the black buoys on the port hand.

PORT MEDWAY Bell Buoy, in 14 fathoms water $1\frac{1}{4}$ miles S S W from the S W Breaker. Lat. N $44^{\circ} 3' 15''$, lon W $64^{\circ} 31' 25''$. Alternate white and black vertical stripes. From the buoy a N $\frac{3}{4}$ E course will lead clear of the S W Breaker up through the channel to the iron can buoy off Neil Point, $\frac{1}{2}$ miles distant.

PORT MEDWAY, on eastern end of breakwater in harbor. Lat N $44^{\circ} 7' 58''$, lon W $65^{\circ} 34' 20''$, square wood tower, 33 feet high, painted white. Fixed red light, 31 feet high, dioptric. Light is obscured to southward of extremity of flats off Neil Point, and, entering, is not opened until the Luck buoy off Neil Point is reached.

COFFIN'S ISLAND, south point Liverpool Bay, lat $44^{\circ} 1' 55''$ N., lon $64^{\circ} 37' 32''$ W., white catoptric light, revolving every two minutes, light 30 seconds, dark 90 seconds, visible 16 miles, 65 feet high, building octagonal, horizontal stripes, red and white, eight in number, height 50 feet.

BROOKLYN PIER, Pole light, green on outer end of wrecked pier, 30 feet above high water, visible 4 miles, 220 feet from shore and 500 feet from submerged extremity of pier; lat $44^{\circ} 2' 45''$ N., lon $64^{\circ} 41' 20''$ W.

LIVERPOOL WHISTLING BUOY, lat $44^{\circ} 0' 26''$ N., lon $64^{\circ} 36' 55''$ W. iron buoy painted white and black, vertical strips, surmounted by 10-in. fog signal whistle, whistle sounded by action of waves. From the buoy, Coffin Island Light bears N. $\frac{1}{4}$ E. $1\frac{1}{16}$ miles. For Point Light N. W. $\frac{1}{4}$ N., and Western Head W. $\frac{3}{4}$ S., $2\frac{1}{2}$ miles. From buoy a course N. W. $\frac{3}{4}$ N. for 4 miles clears all danger to anchorage off Brooklyn Pier. An iron can buoy, red, has been moored outside of submerged end of pier.

FORT POINT, Liverpool Bay, south entrance, lat $44^{\circ} 2' 35''$ N., lon $64^{\circ} 42' 20''$ W., fixed red catoptric light, visible 7 miles, 30 feet high, building white, square, height 17 feet. Left on port side when entering the harbor.

PORT MOUTON, north-east point of Spectacle Island, Queen's County, lat $43^{\circ} 55' 5''$ N., lon $64^{\circ} 48' 5''$ W., fixed red catoptric light, visible 11

[1900]

1900]

NOVA SCOTIA LIGHT HOUSES.

219

miles, 47 feet high, square wooden building, height 20 feet. For guiding vessels into harbor.

PORT MOUTON ISLAND, Life boat station: at eastern end.

LITTLE HOPE, Queen's Co., nearly on centre of island, lat $43^{\circ} 48' 30''$ N., lon $64^{\circ} 47' 15''$ W., white catoptric light, showing three flashes with intervals of 10 seconds between their points of greatest brilliancy, followed by an interval of 30 seconds, complete revolution in 50 seconds, visible 12 miles, 43 feet high, square white building, height 26 feet. Centre of keeper's dwelling, visible around horizon. A mechanical hand fog trumpet will be sounded in answer to a steamer's whistle or vessel's fog trumpet in thick weather.

SHINGLE POINT, east side of Port L'Hebert Harbor, lat $43^{\circ} 48' 40''$ N., lon $64^{\circ} 55' 23''$ W., fixed red catoptric light, visible 10 miles, 33 feet high, white square wooden building, height 29 feet.

CARTER'S ISLAND, Ragged Island Harbor, lat $43^{\circ} 42' 15''$ N., lon $65^{\circ} 6' 00''$ W., fixed red light dioptric, visible 11 miles, 66 feet high, white wooden building, height 29 feet.

RAGGED ISLAND, Gull Rock, lat $43^{\circ} 39' 12''$ N., lon $65^{\circ} 5' 50''$ W., fixed white catoptric light, visible 10 miles, 56 feet high, white square wooden building, height 31 feet. Hand fog trumpet answers signals.

An Automatic Whistling Buoy, as a Fairway Buoy, is moored off the approach to Ragged Island harbor, lat. N. $43^{\circ} 37' 23''$, lon. W $65^{\circ} 1' 44''$. From the buoy a N. N. W. course will lead about midway between the $4\frac{1}{2}$ fathom patch and the Blow Breaker up to the southern end of Cranberry Island. The buoy is painted red with letter L in white.

LOCKEPORT BELL BUOY Lat N $43^{\circ} 39' 30''$, long W $65^{\circ} 4' 0''$. Fairway Bell Buoy, red and black horizontal bands, (to be changed to black and white vertical stripes next year,) moored in $12\frac{1}{2}$ fathoms water. From the buoy Gull Rock Light bears W $\frac{1}{2}$ N 1 and five-sixteenths miles. A N N W course from the buoy leads up to the southern end of Cranberry Island, clear of dangers.

BULL ROCK, an Iron Can Buoy with cage, painted black, has been placed in 10 fathoms water S. S. W. $\frac{1}{2}$ W., about 150 yards from the Bull Rock, off Western Head, Shelburne County.

FARM LEDGE, Iron conical buoy, red, 200 yards S of Ledge.

EASTERN BULL, red spar buoy.

BLACK POINT BREAKER, red spar buoy.

SAND SPIT, at east side of entrance to Shelburne Harbor, lat $43^{\circ} 41' 25''$ N., lon $65^{\circ} 19' 28''$ W., fixed red catoptric light, visible 11 miles, 47 feet high, white square wooden building, height 44 feet. Built on a pier.

SHELBURNE HARBOR.—A red Iron Can Buoy has been placed in $4\frac{1}{2}$ fathoms, on west side of Middle Rock Shoal; a red Can Buoy off extreme of Sand Spit, in four fathoms, and a black Spar Buoy on east end of Adamant Shoal.

CAPE ROSEWAY, near south-east point of MacNutt's Island, Shelburne harbor, lat $43^{\circ} 37' 15''$ N., lon $65^{\circ} 15' 45''$ W., two white catoptric lights, vertical, 55 feet apart, upper light visible 18 miles, and 120 feet high, lower 65 feet and visible 12 miles, octagonal building, vertical black and white stripes, height 77 feet.

CAPE ROSEWAY, fog trumpet near the light house sounds a blast of 10 seconds duration with an interval of 110 seconds between the blasts.

A black Can Buoy S. S. E. from the Jig Rocks, in 9 fathoms water.

NEGRO ISLAND, on north side lat $43^{\circ} 30' 54''$ N., lon $65^{\circ} 26' 58''$ W., red and white catoptric light, revolving every minute, visible 12 miles,

60 feet high, white square wooden tower with keeper's dwelling attached, height 44 feet. For guiding vessels in and out of Clyde River or Negro Harbor.

NEGRO Harbor Range Lights, in curve on the east side of harbor between John's Point and Shingle Point. Lat N 43° 32' 44", lon W 65° 23' 34". Front tower 34 feet high, fixed white light catoptric, 34 feet high. The back tower is 44 feet high, and is 850 feet N W from the front tower. The light is fixed white, dioptric, elevated 44 feet in the line of range, and also towards the western entrance. Entering by the eastern entrance, the two lights in one bearing N W lead in from sea clear of Grey Rocks, and midway between Bridget Rock and East Point Shoal, both of which are marked by spar buoys. Entering by the western entrance, only the back light is visible. Brought to bear N $\frac{1}{2}$ E it leads up from Shag Rock through mid channel.

BLANCHE, Life boat station.

PORT LA TOUR, eastern end Page's Island, Lat N 43° 29' 27", long W 65° 27' 04". Fixed white light, dioptric, 46 feet high, visible 12 miles. Tower square, wood, with kitchen, all white, iron lantern, red. Tower, base to vane 34 feet. Hand fog horn answers signals.

BACCARO, on east side of entrance to Barrington Bay, lat 43° 26' 54" N., lon 65° 28' 12" W., fixed red catoptric light, visible 10 miles, 49 feet high, white square building, with black ball seaward, height 35 feet. An automatic Whistling Buoy red is placed off the "Bantam," $\frac{1}{4}$ mile S. W. of ledge.

BARRINGTON E. BAY LIGHTSHIP, at 43° 31' 5" N., lon 65° 34' 25" W., two lights vertical, 20 feet apart, upper white, visible 12 miles, lower red, visible 6 miles, hull and spars painted red, with word "Barrington" in white letters on both sides. Height, white 44 feet, red 23 feet. Moored in 6 fathoms at low water. Wessex' Ledge bearing S. W. by W. $\frac{1}{2}$ W., distant $\frac{3}{4}$ mile, Baccaro Light bearing S. S. E. $\frac{1}{4}$ E., distant 6 and 3-16 miles, and Bantam Rocks, bearing S. by E. $\frac{1}{4}$ E., distant $6\frac{1}{2}$ miles. To guide vessels into Barrington East Bay, and through Barrington Passage. A hand fog trumpet sounded in answer to signals.

In passing through Barrington Pass to the westward, the dangers to be left on starboard hand are marked by red buoys, those to be left on port hand by black buoys.

CAPE SABLE, on Cape, lat 43° 23' 19" N., lon. 65° 37' 15" W., white catoptric revolving light, bright 15 seconds, dark 25 seconds, visible 12 miles, 53 feet high, white octagonal building, 50 feet high. A steam fog whistle on Cape, elevated about 40 feet above high water, sounds in thick weather, fogs and snow storms, a blast of ten seconds' duration each minute, with an interval of 50 seconds between each blast.

BRAZIL ROCK.—A Bell Buoy marks this danger, painted red and black horizontal stripes, moored in about 22 fathoms $\frac{1}{2}$ mile S. by W. from Rock.

WEST HEAD, Cape Sable Island, lat. N. 43° 27' 17", lon. W. 65° 39' 10". Fixed white, dioptric, visible 10 miles. White square tower 36 feet high. Light 42 feet above high water. Hand fog-trumpet answers signals.

STODDART ISLAND, on N. W. point of island, lat 43° 28' 26" N., lon 65° 43' 7" W., fixed red catoptric light, visible 9 miles, 22 feet high, white small square tower. To guide vessels into the anchorage of Stoddart Harbor and Shag Harbor Sound. Hand fog horn answers signals.

BON PORTAGE ISLAND, on south point, lat 43° 27' 14" N., lon 65° 44' 44" W., red catoptric light, revolving every minute, visible 12 miles,

[1900]

[1900]

NOVA SCOTIA LIGHT HOUSES.

221

46 feet high, white square wooden building, with dwelling attached, height 28 feet. For guiding vessels into Barrington West Bay and Shag Harbor. Hand fog-trumpet answers signals.

PUBNICO HARBOR, Beach Point, east side of entrance, 120 yards from low water mark, lat $43^{\circ} 35' 45''$ N., lon $65^{\circ} 46' 54''$ W., fixed white dioptric light, visible 11 miles, 40 feet high, square white building, with dwelling attached, surmounted by iron lantern 40 feet high. Open westward of St. John's Island, bearing N. E. by N., clears the ledge; in making harbor from any other direction, the light must be brought to the northward of E. N. E. before it can be steered for to avoid shoal spot off St. Ann's Point. Spar buoys mark the channel. Black left on port hand, red on starboard in approaching the harbor. Hand fog horn answers signals.

ST. JOHN LEDGE BELL BUOY, in 22 fathoms, $1\frac{1}{2}$ miles S. W. by W. $\frac{3}{4}$ W. from the middle of the ledge. Red iron buoy with "J. Ledge" in white letters. From buoy Pubnico light is open to westward off St. John's Island N E by N $6\frac{1}{2}$ miles. Lat $43^{\circ} 29' 50''$ N., lon $65^{\circ} 49' 36''$ W.

ABBOTT HARBOR.—On in in' and 1-5 mile east of southern extremity of Abbott Island, lat N. $43^{\circ} 39' 25''$, lon W. $65^{\circ} 49' 36''$. In operation during the fishing and lobster season. Lantern on mast, with white shed at base. Shows a white light. Height 40 ft., visible 8 miles.

ARGYLE, on south point of Whitehead Island, Yarmouth County, lat $43^{\circ} 39' 40''$ N., lon $65^{\circ} 52' 4''$ W., fixed red and white catoptric light, visible 12 miles, 115 feet high, building white, square, wood, with dwelling attached, height 28 feet. For guiding vessels into Argyle Harbor. Shows a white light towards harbour; red seaward.

GULL LEDGE BUOY, lat N. $43^{\circ} 37' 0''$, lon W. $65^{\circ} 51' 50''$. A conical iron buoy, painted red, moored in 7 fathoms of water, S. W. from Gull Rock Ledge. From the buoy Fish Island lighthouse bears N. $5\frac{1}{2}$ miles; and Whitehead Light, N. E. by E. $3\frac{1}{2}$ miles.

TUSKET RIVER, Big Fish Island, south-west point, lat $43^{\circ} 42' 10''$ N., lon $65^{\circ} 57' 10''$ W., two fixed white catoptric lights, horizontal, 8 yards apart, visible 12 miles, 50 feet high, white square wooden building, height 23 feet. Visible seaward; in windows each end of a dwelling house.

SEAL ISLAND, south point, $\frac{1}{2}$ mile from shore lat $43^{\circ} 23' 31''$ N., lon $66^{\circ} 0' 52''$ W., fixed white light, dioptric, 2nd order, visible 18 miles, 98 feet high, white octagonal building, height 60 feet. The Blonde Rock lies S. by W. $3\frac{1}{2}$ miles from light house. Between this Rock and the Island there are some dangers, the ground is rocky throughout, and large vessels ought not to attempt passing between them. A fog whistle near light house, during fogs and snow storms, sounds in each minute a blast of 5 seconds duration, and after an interval of 5 seconds gives another blast of 5 seconds, with an interval of 45 seconds. Life-boat station.

BLONDE ROCK, an automatic whistling buoy has been placed in 16 fathoms water about $\frac{1}{2}$ mile S $\frac{1}{4}$ E from the Rock. Black iron buoy, 10 inch whistle.

PEASES ISLAND, on the south point of Peases Island, one of the Tusket Islands, Yarmouth County, Nova Scotia, lat $43^{\circ} 37' 35''$ N., lon $66^{\circ} 1' 40''$ W. The main or sea light is revolving catoptric, showing alternately red and white, each color visible for 15 seconds, with intervals of 45 seconds between the flashes. It is elevated 56 feet above high water mark, and in clear weather should be seen 12 miles from all points of approach from the southward, and also through the Schooner and Ellenwood Passages. A fixed red catoptric light is shown from a window in the tower, 16 feet below the main light. It

is intended to mark the channel between the two dangers known as the Old Man and Old Woman Rocks, and is, therefore, visible between the bearings W. by N. $\frac{1}{2}$ N., and N. W. by W., and in no other directions. It should be visible 4 miles. The tower is a wooden building, painted white, and consists of a square tower 42 feet high from base to vane on lantern, with a keeper's dwelling attached. Hand horn answers signals.

PEASES ISLAND BELL BUOY.—Fair way. Lat. N. $43^{\circ} 37' 2''$, lon W. $65^{\circ} 59' 0''$, red and black horizontal bands (to be changed next year to black and white vertical stripes). To guide vessels into southern entrance to Schooner or Ellenwood Passage. From the buoy, Peases Island light bears N. W. by W., distant 2 miles. Hand fog horn answers signals.

SCHOONER Passage Buoys, on north side of Schooner Rock, an iron can buoy painted red and black horizontal bands. Off extremity of Owl's Head Shoal, an iron can buoy, painted black, to be left on port-hand going westward.

CANDLEBOX ISLAND, N entrance to Schooner Passage, lat N. $43^{\circ} 39' 34''$, lon W. $66^{\circ} 2' 45''$, fixed red, dioptric, elevated 56 feet, visible 8 miles, white, square tower, with dwelling attached. Hand fog horn answers signals.

WHISTLING BUOYS OFF YARMOUTH.—1st, Cape Forchu automatic, red, in 22 fathoms, 5 miles N. W. by W. from Cape Forchu light. 2nd, Yarmouth Fairway automatic, black and white vertical stripes, in 34 fathoms, 10 miles S. W. by W. $\frac{1}{2}$ W. from Cape Forchu light; lat N. $43^{\circ} 40' 16''$, lon W. $66^{\circ} 18' 55''$.

YARMOUTH OR CAPE FORCHU, east cape, south point, lat $43^{\circ} 47' 30''$ N., lon $66^{\circ} 9' 25''$ W., white catoptric light, revolving, showing three bright flashes with intervals of 20 seconds between their points of greatest brilliancy, followed by an interval of 40 seconds. 18 miles, 117 feet high, octagonal tower, vertical stripes, red and white, height 59 feet. Fog whistle on west side, sounds in fogs and snow storms, 10 seconds in every minute.

CAT ROCK BELL BUOY.—In 12 fathoms water 3 cables S. S. W. from Cat Rock off the southern extremity of East Cape, on the western side of entrance to Yarmouth Harbor, lat N. $43^{\circ} 47' 2''$, lon W. $66^{\circ} 9' 26''$. The buoy is painted black, with Cat Rock in white letters on top.

YARMOUTH Bell Buoy, red moored in 10 fathoms water, off Yarmouth Sound. From the buoy the Roaring Bull bears E N E, distant $1\frac{1}{2}$ miles, and Cape Forchu light bears N E by N, distant $3\frac{3}{4}$ miles; lat $43^{\circ} 44' 0''$ N., lon W. $66^{\circ} 10' 47''$.

An Automatic Buoy, painted red and black horizontal bands, with "Lurcher Shoal" in white letters, has been placed in 13 fathoms $\frac{1}{2}$ mile W from Lurcher shoal, which lies 15 miles N. W. by W. $\frac{1}{2}$ W. from Cape Fourchu light.

BAKER'S COVE, Life boat stationed.

BUNKER'S ISLAND, on end of reef, off S. W. point of Island, east side of entrance to Yarmouth Harbor, lat $43^{\circ} 48' 36''$ N., lon $66^{\circ} 8' 42''$ W., fixed red catoptric light, visible 10 miles, 27 feet high, the lantern on a dwelling house, built on a steel and concrete pier. A red beacon light for the purpose of guiding vessels into the harbor. Visible from the southward between the bearings of N. E. by N. and N. $\frac{1}{2}$ E. It can also be seen over Stanwood's Beech, when bearing from S. $\frac{1}{2}$ E. to S. E. $\frac{1}{2}$ E., but cannot be run for on these bearings, the only entrance to the harbor being through Yarmouth Sound and round East Cape. Fog Bell at light gives one stroke every 15 seconds.

GREEN COVE, or Port Maitland, Lat N 43° 59' 5" Long W 66° 9' 30". A square white tower 27 feet high. Fixed red light, dioptric, 26 feet high, visible 6 miles. Erected on the outer end of westerly breakwater.

TRINITY LEDGE, an Iron Bell Buoy, painted red, moored in 8 fathoms, W by N ½ N, 600 feet from Trinity Ledge.

N. W. LEDGE, BRIER ISLAND.—A bell buoy is moored N. N. W. ½ W., 400 yards from the N. W. rock, in 15 fathoms

CAPE ST. MARY, east side of Bay, lat 44° 5' 10" N., lon 66° 12' 40" W., red and white catoptric light, revolving alternately every 30 seconds, visible 17 miles, 103 feet high, octagonal white building, height 43 feet.

MTEGHAN RIVER, at extreme end of Breakwater, lat 44° 13' 10" N., lon 66° 8' 42" W., fixed green dioptric light, visible 6 miles, 23 feet high, building vertical, red stripes on seaward side, 21 feet high, lantern painted black. Beacon for guiding vessels into river. Must be left on starboard hand and passed close aboard. Tide leaves breakwater one hour before low water.

CHURCH POINT, east side of St. Mary's Bay, Digby County, lat 44° 19' 55" N., lon 66° 7' 35" W., fixed red catoptric light, visible ten miles, 36 feet high, square white wooden building, with dwelling attached, height 20 feet.

BELLIVEAU COVE, lat N 44° 24' 20", long W 66° 3' 10". Fixed green light, shown from a square tower painted white, 22 feet high, on outer end of eastern pier. Light is elevated 24 feet above high water mark, visible 4 miles.

SISSIBOO, south side of entrance to river, lat 44° 26' 25" N., lon 66° 1' 00" W., fixed white catoptric light, visible 8 miles, 36 feet high, white wooden building, pyramidal, height 33 feet.

WESTPORT, Peter's Island, entrance to Grand Passage, lat 44° 15' 27" N., lon 66° 20' 21" W., 2 fixed white catoptric lights, horizontal, 24 feet apart visible 10 miles, each 46 feet high, square white building, height 15 feet. Visible from the northward between the bearings of S. by W. and S. S. W., and from the southward between the bearings of N. E., by E., and N. N. W. ½ W. Hand fog-trumpet answers signals.

A red and black Can on Passage Shoal, and a black Can Buoy off Cow Ledge, and a red can buoy off Dartmouth Point.

A black beacon on Cow Ledge.

BRIER ISLAND, West Point, lat 44° 11' 57" N., lon 66° 23' 38" W., fixed white catoptric light, visible 13 miles, 92 feet high, white octagonal building, height 55 feet. A steam fog whistle on N. W. of Brier Island, south side of light house, sounds during thick and foggy weather and snow storms as follows:—Blast of four seconds, interval four seconds, blast of four seconds, interval of four seconds, blast of four seconds, interval of forty seconds—making sixty seconds.

BOAR'S HEAD, 17 yards from edge of cliff, on W. side of N. entrance to Petit Passage, lat 44° 24' 10" N., lon 66° 13' 34" W., red and white catoptric light, revolving alternately every minute, visible 14 miles 70 feet high, white square building.

POINT PRIM, south point of entrance to Annapolis Basin, lat 43° 41' 30" N., lon 65° 47' 10" W., fixed white catoptric light, visible 13 miles, 76 feet high, square tower, vertical red and white stripes, height 22 feet. Fog whistle on Prim Point sounds in snow storms and in thick or foggy weather 8 seconds in each minute, making an interval of 52 seconds between each blast.

DIGBY PIER, Red Pole Light on outer end of pier.

SHAFFNER'S POINT, on N. side of Annapolis River, lat $44^{\circ} 42' 40''$, lon W. $65^{\circ} 37' 12''$. Fixed white dioptric, 55 feet high, visible 8 miles. Building white, square, wood. Indicates Goat Island Shoals.

ANNAPOLIS, on "Engineer's Lot" in Annapolis town, lat N $44^{\circ} 44' 51''$, long $65^{\circ} 31' 06''$. Fixed red light, dioptric, visible 8 miles. Square tower, painted white. After passing the black spar buoy off Marsh Point, this light affords a direct course E by N $\frac{1}{4}$ N clear of shoal ground. It must not be shut in to the southward.

MARSHALL COVE OF PORT WILLIAMS, south shore, Bay of Fundy. lat $44^{\circ} 56' 53''$ N., lon $65^{\circ} 15' 56''$ W., 2 fixed white catoptric lights, vertical, 22 feet apart, upper 92 feet high, lower 70 feet, visible 10 miles, white square building, height 22 feet. Lantern on top of dwelling; lower light in bow window, visible from seaward from E. by S. through S. to W. S. W. $\frac{1}{4}$ W.

PORT GEORGE, on outer end of Eastern Pier, lat. N. $45^{\circ} 0' 25''$, lon. W. $65^{\circ} 9' 25''$. Fixed green catoptric, 25 feet high, visible 7 miles, square white tower, 21 feet high.

MARGARETVILLE, on extremity of point, south shore, lat $45^{\circ} 3' 20''$ N., lon $65^{\circ} 4' 0''$ W., two fixed red catoptric lights, 30 and 27 feet high, visible 8 miles, square building, horizontal white and black stripes, height 22 feet. Visible from seaward from N. W. by W. $\frac{3}{4}$ W., through S. to E. by N. $\frac{1}{4}$ N.

ISLE HAUTE, on highest point, lat $45^{\circ} 14' 55''$ N., lon $65^{\circ} 0' 45''$ W., white revolving catoptric light, 365 feet high, shows 40 seconds in every minute, visible 20 miles, white square wooden building, dwelling attached, almost hidden by trees; height 53 feet.

BLACK ROCK, south shore, Bay of Fundy, lat $45^{\circ} 10' 5''$ N, lon $64^{\circ} 45' 50''$ W., fixed white catoptric light, visible 12 miles, 45 feet high, square, white building, height 35 feet. Light on top of dwelling, visible from all points of approach.

ADVOCATE HARBOR, southern side of entrance, lat $45^{\circ} 19' 30''$ N., lon $64^{\circ} 47' 30''$ W., fixed red dioptric light, 36 feet high, visible 7 miles, square white tower with dwelling attached, 27 feet high. Coast light, and to indicate entrance to harbor, over the bar.

KINGSFORT, on Oak Point Pier, lat $45^{\circ} 9' 35''$ N., lon $64^{\circ} 21' 30''$ W. fixed white dioptric light, height, 27 feet. White tower, 23 feet high, visible 10 miles from S. W. $\frac{1}{4}$ W. round by E. to N. W. by W. $\frac{3}{4}$ W.

HORTON, on bluff, west side of Avon River, lat $45^{\circ} 6' 30''$ N., lon $64^{\circ} 13' 20''$ W., fixed white catoptric light, 100 feet, visible 20 miles. Square tower with dwelling attached, 33 feet high.

WALTON HARBOR, Basin of Minas, Hants County, E side of mouth of La'ete River, lat $45^{\circ} 14' 1''$ N., lon $64^{\circ} 0' 45''$ W., fixed red catoptric light, visible 10 miles, 60 feet high, square white wooden building, height 20 feet. For guiding vessels into Walton harbor.

BURNTCOAT, Basin of Minas, north-west extremity of head, S. shore, lat $45^{\circ} 18' 40''$ N., lon $63^{\circ} 48' 30''$ W., fixed white catoptric light, visible 13 miles, 75 feet high, square white building, height 35 feet. On dwelling. Visible from all points of approach.

SALTER'S HEAD on the shore of Minas Basin, lat. N. $45^{\circ} 20' 10''$, lon. W. $63^{\circ} 32' 10''$. Pole light fixed, red, shown from lantern hoisted on mast 20 feet high, with small shed at its base. Light 60 feet above high water, visible 5 miles.

MASSTOWN or DEBERT, on eastern head entrance to Moss Creek. Red lantern; lat $45^{\circ} 22' 45''$ N., lon $63^{\circ} 29' 0''$ W.

1900]

NEW BRUNSWICK LIGHT HOUSES.

225

LITTLE DYKE, on western head entrance Folly River. Red lantern; lat $45^{\circ} 22' 45''$ N., lon $63^{\circ} 33' 20''$ W.

PORTAUPIQUE, western head entrance to Portauquique River. Red lantern; lat $45^{\circ} 23' 35''$ N., lon $63^{\circ} 43' 30''$ W.

ECONOMY, on point of bar running out from N. side of entrance to Economy River. Red lantern; lat $45^{\circ} 22' 45''$ N., lon $63^{\circ} 55' 00''$ W.

The above four lights are only kept in operation during the fishing season.

CAPE D'OR. A steam whistle on extreme point, opposite side of channel from Black Rock, sounds 6 seconds in every 30 seconds; lat $45^{\circ} 17' 25''$ N., lon $64^{\circ} 46' 40''$ W.

CAPE SHARP, on southern extremity of Cape, lat N. $45^{\circ} 21' 55''$, lon W. $64^{\circ} 23' 20''$. Fixed red dioptric light, 60 feet high, visible 10 miles. Square white tower, with dwelling attached.

PARISHORE, or Partridge Island, west side of river, lat $45^{\circ} 23' 30''$ N., lon $64^{\circ} 19' 50''$ W., fixed white catoptric light, visible 9 miles, 37 feet high, white square building, height 32 feet. Lantern on dwelling.

SPENCER POINT, on north shore, Cobequid Bay, at mouth of Great Village river, lat $45^{\circ} 23' 30''$ N., lon $63^{\circ} 37' 30''$ W., fixed white catoptric light, visible 6 miles, 35 feet high, window in building 20 feet high.

APPLE RIVER, on Cape Capston on Hatty Point, north entrance, lat $45^{\circ} 28' 20''$ N., lon $64^{\circ} 51' 50''$ W., fixed white catoptric light, visible 12 miles, 64 feet high, building white, oblong, with tower, height 45 feet. A fog trumpet, immediately E. of tower, sounds blasts of 11 seconds, with intervals of 46 seconds.

NEW BRUNSWICK BAY OF FUNDY.

HILLSBORO' WHARF, Petitecodiac River, lat $45^{\circ} 55' 15''$ N., lon $64^{\circ} 37' 45''$ W., fixed white catoptric light, visible 8 miles, 24 feet high, structure open frame, height 22 feet. To guide vessels going up the river and to the coal and plaster wharves. Discontinued Oct. 1896, until further notice.

FORT FOLLY POINT, on extreme point, lat $45^{\circ} 52' 50''$ N., lon $64^{\circ} 33' 55''$ W. Fixed white dioptric light, visible 14 miles, 77 feet high. White, with iron lantern red, square wood, with dwelling attached. At junction of Petitecodiac and Memramcook Rivers.

GRINDSTONE, west point of island, lat $45^{\circ} 43' 16''$ N., lon $64^{\circ} 37' 21''$ W., fixed white catoptric light, visible 14 miles, 79 feet high, octagonal white tower. Visible over 315° from S.W. by W. through N. to W. by N. In thick weather a steam horn sounds blasts of 15 seconds with intervals of 30 seconds.

WARD'S POINT, ROCKPORT.—Lat $45^{\circ} 43' 35''$ N., lon $64^{\circ} 29' 40''$ W. Fixed white dioptric light, visible 10 miles, 72 feet high. Building white square wood. Visible from E. N. E. through N. to S. W. $\frac{1}{2}$ W.

CAPE ENRAGE, on pitch of Cape, lat $45^{\circ} 35' 40''$ N., lon $64^{\circ} 47' 00''$ W., one fixed white light, visible 15 miles, 120 feet high. Visible between bearings N. W. round S. to N. E. A steam fog horn, 130 feet S. W. from the light house, at an elevation of 100 feet, sounds blast of 8 seconds with intervals of 20 seconds.

ANDERSON'S HOLLOW, on eastern end Government breakwater, lat $45^{\circ} 37' 30''$ N., lon $64^{\circ} 49' 45''$ W. Fixed red dioptric light 23 feet high, square white wood, with red roof, 24 feet. Visible 6 miles over an arc of $56\frac{1}{4}^{\circ}$ between bearings of N. E. $\frac{1}{2}$ E., and N. by W. $\frac{1}{2}$ W. Vessels may run for harbor one hour before high water, giving the light 50 feet of a berth on port hand.

QUACO PIER, on outer end of E. breakwater pier, lat $45^{\circ} 21' 20''$ N., long $65^{\circ} 31' 55''$ W. Fixed red dioptric light, 20 feet high, white square wood structure, visible 6 miles, between W. by N. $\frac{1}{2}$ W. and N. W., and between N. $\frac{1}{2}$ E. and N. E. by E. The deepest water on entering the harbor is close to the light. Obscured from N. $\frac{1}{2}$ W. to N. $\frac{1}{2}$ E.

QUACO WEST HEAD, on pitch of Cape St. Martin's, lat $45^{\circ} 19' 30''$ N., long $65^{\circ} 32' 10''$ W. Revolving white catoptric light, 20 seconds interval, visible 16 miles, 110 feet high, building white square wood with dwelling attached. General coast light to guide to St. Martin's Harbor. Steam fog horn, 70 feet from lighthouse, gives blasts of 9 seconds with intervals of 30 seconds.

QUACO BELL BUOY, black iron buoy, surmounted by bell, off reef at west head, in 14 fathoms, $\frac{1}{2}$ mile S. S. E. from light; lat $45^{\circ} 19' 30''$ N., lon $65^{\circ} 31' 30''$ W.

QUACO LEDGE BELL BUOY, red iron buoy, surmounted by bell, in 10 fathoms, N. W. of ledge. Lat $45^{\circ} 14' 35''$ N., long $65^{\circ} 22' 40''$ W.

CAPE SPENCER, pitch of Cape, lat $45^{\circ} 12' 50''$ N., lon $65^{\circ} 54' 35''$ W., red and white catoptric light, alternating every 45 seconds, visible 20 miles, 207 feet high, white square building, with tower, height 35 feet. Visible between the bearings from E. S. E. round by S. to W. N. W., Partridge Island light bearing by compass N. W. by W. $\frac{1}{2}$ W. northerly, distant $6\frac{1}{2}$ miles.

BLACK POINT WHISTLING BUOY, black iron buoy, surmounted by a 10 inch whistle, in 16 fathoms, outside entrance of St. John harbor. Lat $45^{\circ} 14' 30''$ N., long $66^{\circ} 1' 0''$ W. From the buoy Partridge Island light bears N. $\frac{1}{2}$ W. $3\frac{1}{4}$ miles; Mispeck Point E. $\frac{1}{4}$ N. $1\frac{1}{2}$ miles, south west end of Meogenes Island N. W. by W. $3\frac{1}{2}$ miles.

PARTRIDGE ISLAND, St. John harbor, lat $45^{\circ} 14' 30''$ N., lon $66^{\circ} 2' 43''$ W., fixed white dioptric light, visible 17 miles, 119 feet high, building red and white in vertical stripes, height 40 feet. In foggy weather a steam whistle sounds for 10 seconds every minute. A bell boat near E. side of Partridge Island Reef.

NEGRO POINT, on end of Government breakwater W. entrance to port of St. John, lat $45^{\circ} 14' 13''$ N., long $66^{\circ} 3' 19''$ W. Fixed white dioptric light, 40 feet high, visible 8 miles, white with red lantern, open framed hexagonal tower on circular stone foundation, 35 feet high.

ST. JOHN HARBOR, on pier on W. side of channel, lat $45^{\circ} 14' 58''$ N., lon $66^{\circ} 3' 12''$ W. Fixed red dioptric light, 35 feet high, visible 10 miles, building 15 feet, vertical black and white stripes.

REID'S POINT, on Prince William Street foot of St. James Street, St. John city. Lat $45^{\circ} 15' 41''$ N., long $66^{\circ} 3' 28''$ W. Fixed red and white electric light, 64 c. p. incandescent lamps on a three branched lamp post, 42 feet high above high water, shows red to seaward, over an arc of $67\frac{1}{2}^{\circ}$ from N. E. to N. N. W., white on other bearings.

MUSQUASH LIGHT, lat $45^{\circ} 8' 35''$ N., long $66^{\circ} 14' 30''$ W., fixed green. seaward, fixed white towards harbor, 112 feet high, visible 10 miles, White, square, wood, 40 feet high, dwelling attached, catoptric.

SPLIT ROCK WHISTLING BUOY, in 30 fathoms, off Split Rock. Lat $45^{\circ} 7' 10''$ N., long $66^{\circ} 14' 0''$ W. Iron buoy, surmounted by a 10 inch whistle. Location S. W. by S. $\frac{1}{2}$ S. from Musquash light, S. $\frac{1}{4}$ W. from western head of Musquash, and W. S. W. from Partridge Island.

DIPPER HARBOR, on S. point of Campbell's Island. Lat $45^{\circ} 5' 30''$ N., long. $66^{\circ} 25' 0''$ W. Fixed red light, 30 feet high, visible 6 miles. Building white square wood with red roof. Visible seaward and in the harbor when bearing from S by W to S. E.

NEW BRUNSWICK LIGHT HOUSES.

227

POINT LEPREAU, lat 45° 3' 32", long 66° 27' 45" W., 327 feet from extremity and 250 feet N by E from the fog alarm building. Octagonal wooden tower, 54 feet high, red and white horizontal bands surmounted by iron lantern. Revolving white light 80 feet above high water, flashes attain their greatest brilliancy every 30 seconds. Steam fog horn gives blasts of 5 seconds duration, with intervals of 25 seconds. Should the horn get out of order a whistle will sound two blasts of 5 seconds duration, with an interval of 5 seconds between, in every minute.

LEPREAU WHISTLING BUOY, in 23 fathoms, 1 mile S. S. W. from light. Lat 45° 2' 31" N., lon 66° 27' 50" W.

DREW'S HEAD, on W. side of Beaver Harbor, Charlotte County, lat 45° 3' 45" N., lon 66° 44' W., fixed white catoptric light, visible 10 miles, 45 feet high, white, square, wooden building, height 36 feet. Seen at all points between eastern and western heads of harbor.

BEAVER HARBOUR whistling buoy, in 22 fathoms water 1½ miles S. from Beaver Harbour light, as a fairway buoy, lat N 45° 2' 20", lon W 66° 43' 30". Red and white vertical stripes with Beaver Harbour in black letters on side. From the buoy Pea Point lighthouse bears W by N ¾ N 3½ miles. Point Lepreau light bears E by S ½ S, 11 miles. Head Harbour light bears W by S ½ S, 9 miles.

PEA POINT, lat 45° 2' 20" N., lon 66° 48' 40" W., east side of entrance to LeEtang Harbor, fixed green light, visible 10 miles. White, square, wood building, dwelling attached. Visible from seaward from W. through N. to S. An iron spindle painted black on the Grey Mare Ledge, marks the W. side of entrance.

BLISS ISLAND, W. end of Island, S. side of western entrance to Bliss Harbor, lat 45° 1' 15" N., lon 66° 51' W., fixed red catoptric light, visible 12 miles, 45 feet high, white, square, wooden building, height 30 feet.

LATITE PASSAGE, on Mascabin Point, lat 45° 2' 20" N., lon 66° 53', 30" W. A fog trumpet has been erected on Mascabin Point, south entrance to Latite Passage, sounds blasts of 7 seconds, with an interval of 30 seconds between each.

MIDJIC BLUFF, Passamaquoddy Bay, Charlotte County, lat 45° 6' 53" N., lon 66° 54' 30" W., fixed white catoptric light, visible 15 miles, 130 feet high, building white, square, wood, height 29 feet, lantern brown. A bar extends E. N. E. from light house, and vessels require to keep off a distance of 260 yards to clear it at low water.

PORT ST. ANDREW'S, on sand reef at E. entrance, lat 45° 3' 45" N., lon 67° 0' 50" W., fixed white catoptric light, visible 10 miles, 40 feet high, structure white, square, wood, on a framed pier, height 10 feet. To guide to all ports in inner bay, and to vessels going up the River St. Croix from Latite Passage or West Quoddy. There is only a depth of 4 feet of water on the N. W. extension of the reef towards mainland.

PORT ST. ANDREWS, N. point of entrance, lat 45° 4' 0" N., lon 67° 3' 0" W., fixed white catoptric light, 42 feet high, visible 10 miles, white octagonal building, height 22 feet. Visible between the bearings of N. W. by N. and S. E. by S.

SPRUCE POINT, St Croix River, Charlotte County, lat 45° 10' N., lon 67° 10' 25" W., fixed white catoptric light, 32 feet high, white square building, height 28 feet, visible 10 miles. The course from Spruce Point to ballast ground is E. by S. ¼ S., distance 2 miles. From Spruce Point to Mark Point W. N. W., distance 2 miles. A vessel after leaving Dochet Island, to clear the reef, should steer N. until the Spruce Point light bears N. W. by W., and thence take a W. N. W. course.

MARK POINT, St Croix River, Charlotte County, lat $45^{\circ} 10' 10''$ N., lon $67^{\circ} 12' 30''$ W., fixed white catoptric light 32 feet high, visible 10 miles, square white building, height 28 feet.

HEAD HARBOR, E. Quoddy Head, N point of Campobello Island, lat $44^{\circ} 57' 30''$ N., lon $66^{\circ} 54' 10''$ W. Fixed white light, dioptric, 64 feet high, visible 13 miles. Octagonal building, 34 feet, white with red cross, dwelling attached, iron lantern red. Fog trumpet sounds blast of 8 seconds duration, with intervals of 35 seconds between them.

MULLHOLLAND POINT, on E. side Lubec Narrows, Campobello Island, lat $44^{\circ} 51' 40''$ N., lon $66^{\circ} 58' 50''$ W. Fixed white light, dioptric, 60 feet high, visible 13 miles from N. N. W. through E. to S. S. W. Building white octagonal wood, 44 feet.

SOUTH WEST WOLF ISLAND, on S. E. point of the island, lat $44^{\circ} 56' 30''$ N., lon $66^{\circ} 44' 00''$ W., white catoptric light, revolving every $1\frac{1}{2}$ minute, visible 16 miles, 111 feet high, building white, square, wood, height 35 feet. Lantern on dwelling; visible from all points of approach. An automatic whistling buoy is moored in 52 fathoms, $1\frac{1}{2}$ miles S. S. E. from S. W. Wolf Island light.

SWALLOW TAIL, N. E. part of Grand Manan, lat $44^{\circ} 45' 46''$ N., lon $66^{\circ} 44' 20''$ W., fixed white dioptric light, visible 17 miles, 148 feet high, white octagonal wooden building, height 50 feet. Visible between the bearings of S. W. round by S. to N. W.

LONG EDDY POINT FOG WHISTLE, extreme N. W. head of Grand Manan, 80 feet above high water, sounds blasts of 4 seconds duration, with intervals of 16 seconds; lat $44^{\circ} 48' 00''$ N., $67^{\circ} 47' 15''$ W.

GRAND HARBOR, Grand Manan, on Fish Fluke Point, lat $44^{\circ} 46' 20''$ N., lon $66^{\circ} 45' 8''$ W., fixed white catoptric light, visible 11 miles, 40 feet high, white, square wooden building, with dwelling attached, height 32 feet. Visible from all points seaward.

BIG DUCK ISLAND FOG HORN, S. end of Island, lat $44^{\circ} 41' 50''$ N., lon $66^{\circ} 41' 40''$ W. Sounds blasts of 6 seconds duration, with intervals of 35 seconds.

SOUTH-WEST HEAD, Grand Manan, edge of cliff, S. extremity of head, lat $44^{\circ} 36' 0''$ N., lon $66^{\circ} 54' 16''$ W., revolving red and white catoptric light; visible 20 miles, three red flashes 40 seconds, eclipse 20 seconds, 3 white flashes 40 seconds, eclipse 20 seconds, 200 feet high; white, square wooden building, with dwelling attached, height 43 feet.

GANNET ROCK, S. of Grand Manan, lat $44^{\circ} 30' 38''$ N., lon $66^{\circ} 46' 57''$ W., intermittent white light, 45 seconds, eclipse $5\frac{1}{4}$, flash $4\frac{1}{2}$, eclipse $5\frac{1}{4}$ in every 60. Visible 12 miles. Vertical black and white stripes, octagonal, wood, 41 feet high. Cotton powder bombs exploded every 20 minutes. Dangerous rocks extend 4 miles eastward of the light house.

MACHIAS SEAL ISLAND, near middle of island, lat $44^{\circ} 30' 7''$ N., lon $67^{\circ} 6' 13''$ W. Fixed white light, dioptric, 54 feet high, visible 12 miles. Also, 64 yards S. E. from westerly light, fixed white light, dioptric, 66 feet high. Both buildings white, octagonal wood. In range N. W. will lead $4\frac{1}{2}$ miles S. of Murr Ledges. A fog whistle sounds 5 seconds in each half minute.

SABLE ISLAND.

SABLE ISLAND, west end light house, lat $43^{\circ} 56' 40''$ N., lon $60^{\circ} 6' 0''$ W. A revolving white light, giving three flashes at intervals of half a minute, then a cessation of light during one and a-half minutes; visible 17 miles. White octagonal tower, 38 feet high. $2\frac{1}{2}$ miles W. of Main Station.

[1900]

1900]

PRINCE EDWARD ISLAND LIGHT HOUSES.

229

SABLE ISLAND, 6 miles from east end, lat $43^{\circ} 58' 10''$ N., lon $59^{\circ} 46' 20''$ W., fixed white dioptric light, 2nd order, visible 18 miles, 128 feet high, octagonal building, white and brown alternately, height 86 feet. Telephone connects the two lights and four residential stations.

PRINCE EDWARD ISLAND.

STRAIT OF NORTHUMBERLAND SIDE.

EAST POINT, 250 feet from S. shore of point, lat N. $46^{\circ} 27' 10''$, lon W. $61^{\circ} 58' 10''$. White catoptric light, revolving every 3 minutes, visible 15 miles, 100 feet high. White, octagonal, wood, drab fog-alarm building in front of tower, white dwelling near by. Light visible from S. E. by S. through W. to E. by N. $\frac{1}{2}$ N.

Fog-alarm building stands 100 feet eastward of lighthouse, and in line with tower roughly indicates range of outer point of reef. Steam horn gives a blast of 8 seconds every $\frac{1}{2}$ minute.

SOURIS, EAST, Knights Point, 300 feet S. E. of breakwater, lat N. $46^{\circ} 20' 50''$, lon $62^{\circ} 14' 30''$ W., fixed white dioptric; height 85 feet, visible 15 miles. White, square, wood with dwelling attached. Visible from all points seaward.

SOURIS EAST BREAKWATER, on outer end of breakwater, lat $46^{\circ} 20' 50''$ N., lon $62^{\circ} 15'$ W., fixed red dioptric, 40 feet high, visible 2 miles from all points of approach seaward. Lantern on a mast, 34 feet high, with a hexagonal shed at base. It may be impossible to keep this light in operation in very heavy weather.

CARDIGAN RIVER, between Ferry Wharf and Morrison's Beach, west shore of river, lat N. $46^{\circ} 12' 50''$, lon $62^{\circ} 31' 45''$ W.; fixed catoptric, green to seaward, white across the river to N.E. ward, 43 feet high, visible 8 miles, white, square, wood building 32 feet high. In entering river vessels should stand northward inside Boughton Island until Panmure Island Light bears S. by W., and Cardigan River Light N. W. when they can stand in keeping light open on port bow. When white light is opened safe anchorage has been reached.

PANMURE HEAD, S. E. extremity of Cardigan Bay, lat N. $46^{\circ} 9'$, lon $62^{\circ} 27' 35''$ W., fixed white dioptric, 96 feet high, visible 16 miles. White octagonal, wood dwelling near by. This light should be kept open off Terras Point to clear reef off Cape Bear.

GEORGETOWN, on St. Andrews Point, S. W. side of entrance, lat $46^{\circ} 9' 57''$ N., lon $62^{\circ} 31' 30''$ W., fixed catoptric, red seaward, white across the harbor, between N. E. and N. W., visible 8 miles. White, square, wood, 32 feet high with iron lantern rising from middle of roof.

On Westaway's farm, $\frac{1}{2}$ mile N. W. by W. $\frac{1}{2}$ W. from front light; fixed white catoptric, 62 feet high, visible 12 miles; white, square, wood building, 46 feet high. The two in range lead in N. W. by W. $\frac{1}{2}$ W. to the point clear of obstructions.

MURRAY HARBOUR, on Beach Point, S. side of harbour, lat N. $46^{\circ} 1' 23''$, lon $62^{\circ} 28' 30''$ W., fixed white catoptric light, 33 feet high, visible 8 miles; white, square wood building, 30 feet high.

On mainland, about a mile W. by S. from front light; fixed white catoptric, 57 feet high, visible 10 miles; white, square wood building, 40 feet high. In one, these range lights show the channel to the outer buoy.

CAPE BEAR, on the headland, lat $46^{\circ} 6' 45''$ N., lon W. $62^{\circ} 27' 15''$, red catoptric, revolving 30 seconds; 74 feet high, visible 12 miles. White square wood building with dwelling attached.

WOOD ISLAND, off south point, lat $45^{\circ} 57' 22''$ N., lon W. $62^{\circ} 44' 10''$

fixed white dioptric, 80 feet high, visible 15 miles; white, square wood building with dwelling attached.

INDIAN ROCKS WHISTLING BUOY, in 10 fathoms S westward of rocks, lat $45^{\circ} 54' 50''$ N., lon W. $62^{\circ} 49' 10''$. Red iron buoy surmounted by a 10 inch whistle. Whistle sounded by action of the waves. From the buoy, Bell Point bears N. by E. $\frac{1}{2}$ E., and Wood Island Light E $\frac{1}{2}$ S.

POINT PRIM, S. E. extremity of Hillsborough Bay, 100 yards from the point, lat N. $46^{\circ} 3' 10''$, lon $63^{\circ} 2' W.$; fixed white catoptric light, 68 feet high, visible 12 miles. White, circular brick building, covered with shingles, white dwelling near by. Bell-buoy on E. side of channel, black buoy on W. side $2\frac{1}{2}$ miles N. by E. $\frac{1}{4}$ E. from bell-buoy, harbourward.

DOUSE POINT RANGE, on Douse Point, N of Nuttock Point, lat N $46^{\circ} 8' 45''$, lon W. $62^{\circ} 52' 55''$, fixed red, 16 feet, catoptric, white square wood. Back tower 1,315 feet N E by E $\frac{1}{2}$ E from front light, fixed red light 28 feet high.

Brush Wharf Range, inside S W angle of Brush wharf. Back light 500 feet E $\frac{1}{4}$ S from front light. Both towers white square wood, showing fixed green lights.

To enter Orwell River bring Douse Point lights in one N E by E $\frac{1}{2}$ E until black beacon and clump of spruce bushes on China Point Shoal are abeam on the port hand. Then change course to N by E $\frac{1}{2}$ E until the Red Beacon on Douse Point Shoal is reached and the Brush wharf range lights are brought in one. The red beacon is left on the starboard hand at the town.

FITZROY ROCK BELL-BUOY, in $4\frac{1}{2}$ fathoms, west of shoalest part, lat N. $46^{\circ} 7' 17''$, lon $63^{\circ} 6' 8'' W.$ Red iron buoy surmounted by bell. This buoy is $4\frac{1}{2}$ miles N. N. E. from Point Prim can buoy.

HASZARD POINT, front range, on the point, Bellevue farm, 35 feet back from shore, E. side of entrance to Charlottetown Harbour. Lat N. $46^{\circ} 11' 50''$, lon $63^{\circ} 4' 5'' W.$, fixed red catoptric light, 45 feet high, visible 8 miles. White, with brown roof, square, wood building, 47 feet high. Maintained during general navigation and whenever winter steamer is running to Charlottetown.

Back range, in rear of Bellevue farm buildings, 2,244 feet N. E. $\frac{1}{4}$ N. from front light; fixed red catoptric light, 125 feet high, visible 12 miles; white, with brown roof, square wood building, 47 feet high. Lights visible over a small arc on each side of alignment. Alignment can be taken off Point Prim and followed in N E $\frac{1}{4}$ N with no where less than 5 fathoms, passing W. of Fitzroy Rock bell buoy and E. of St. Peters spit buoy until Brighton Beach range lights are brought into one.

BLOCKHOUSE POINT, at W. side of entrance to Charlottetown Harbour. Lat $46^{\circ} 11' 36'' N.$, lon $63^{\circ} 7' 28'' W.$; fixed white catoptric light, 56 feet high, visible 12 miles; white, square wood building, with dwelling attached.

BRIGHTON BEACH, front range, on N. W. extremity of Hon. G. W. Howlan's property, E. side of N. river. Lat. $46^{\circ} 14' N.$, lon W. $63^{\circ} 8' 20''$, fixed red catoptric light, 41 feet high, visible 7 miles. White skeleton tower with slatted face, brown iron lantern, red diamond inside facing channel. Maintained during navigation and whenever winter steamer is running to Charlottetown.

Back range, on old Asylum grounds, 1275 feet N. from front. Fixed red catoptric, 77 feet high, visible 9 miles. White, skeleton tower with slatted face, brown iron lantern, red diamond inside facing channel. Lights visible over a small arc on each side of alignment.

Alignment to be taken where it intersect Haszard's Point alignment, about $\frac{1}{2}$ mile S. of St. Peter's Spit Buoy, and followed due north to

Street,
HALIFAX.

PRINCE EDWARD ISLAND LIGHT HOUSES.

231

Canseau Point, where the course up the harbour can be judged by the town lights.

ST. PETERS ISLAND, on S. side of Island, Hillsborough Bay. Lat N. $46^{\circ} 7' 20''$, lon $63^{\circ} 11' 35''$ W., occulting white light, dioptric, 70 feet high, visible 14 miles. Light visible 30 seconds, eclipsed 6 seconds. White square wood building, 38 feet high. Visible from all points of approach except where obstructed by the high ground of St. Peter's Island.

LEARD'S RANGE, CRAPAUD, west end of bridge, at head of harbour. Lat. N. $46^{\circ} 13' 15''$, lon. $63^{\circ} 29' 10''$ W. Fixed white catoptric light, 11 feet high, visible 6 miles. White, with red diamond on side facing channel, square, wood building, 38 feet high. Light visible from all points of approach.

Inner range light, about $\frac{1}{2}$ mile N. from outer one. Fixed white catoptric light, 60 feet high, visible 6 miles. Shown from dormer window of a house. Day beacon of slatwork, 29 ft. high by 12 wide, painted white, shows above ridge of house. To enter Crapaud Harbour from the Strait of Northumberland vessels should bring the Leard's range lights into alignment and keep them in one on a N. course until the lights of Wright's range are in alignment, when they should follow this range N. W. $\frac{1}{4}$ N until the red light in Palmer's wharf is in alignment with the front light of Leard's range. These two in one will lead in from the black buoy at the entrance to the dredged cut, through the cut to the wharves N N E, but strangers entering at night are advised to anchor in the road at this last described turning point near the black buoy, as they will be in good anchorage inside Tryon Shoals, while it is not safe to attempt the dredged cut at night.

TRYON SHOAL WHISTLING BUOY, in $5\frac{1}{2}$ fathoms, off south extremity. Lat. N. $46^{\circ} 8' 55''$, lon. $63^{\circ} 31' 48''$ W. Brown iron buoy with "Tryon Shoal Buoy" in white; surmounted by 10 inch whistle. Left to starboard going up strait to North Westward. From the buoy Crapaud Chapel N. E. E. 51 miles, just open of range light on point and Carleton Point N. N. W. $\frac{1}{2}$ W. $9\frac{3}{4}$ miles just open of C. Traverse.

SEA COW HEAD, lat. N. $46^{\circ} 19' 10''$, lon. $63^{\circ} 48' 25''$ W. Fixed white catoptric, visible 15 miles. White, octagonal, wood building, white dwelling near by.

INDIAN POINT, E. edge of shoal, on S. side of channel, in Bedeque Bay. Lat. $46^{\circ} 22' 50''$ N., lon. $63^{\circ} 48' 45''$ W. Fixed white catoptric with green sector, 48 feet high, visible 13 miles. White octagonal wood building on a circular stone pier. Green between E. by N. $\frac{1}{2}$ N. and E. S. E. over Miscouche Shoals only.

SUMMERSIDE, railway wharf, Bedeque Bay, fixed red in line of range, white in harbour, square tower on roof of railway freight shed.

Back range, $\frac{3}{4}$ mile E $\frac{1}{4}$ S from front light, fixed red, 65 feet high, white square wood, open frame work, boarded in front and surmounted by a red lantern.

After Indian Point light is abeam, haul in E. by S. until range lights are in one, and keep alignment up to railway wharf.

CAPE ELMONT, on point, lat. $46^{\circ} 24' 20''$ N., lon. W. $64^{\circ} 7' 45''$; fixed red catoptric, 72 feet high, visible 10 miles. White square wood building, 45 feet high, with dwelling attached.

WEST POINT, on Sand Beach, lat. $46^{\circ} 37' 30''$ N., lon. $64^{\circ} 23' 20''$ W. Red and white catoptric light, revolving $22\frac{1}{2}$ secs. One red and three white flashes in $1\frac{1}{2}$ minutes. Visible 13 miles. Broad red and white horizontal bands, square, wood with dwelling attached, 67 feet high.

West Point whistling buoy, painted red, in 13 fathoms water, $\frac{3}{4}$ mile W. of the middle of the outer shoal.

BIG MIMINEGASH, 500 feet south of breakwater, lat $46^{\circ} 53' N.$, lon W. $64^{\circ} 13'$. Fixed red and white catoptric light; 30 feet high, visible 5 miles. Lantern on a mast with white shed at base. Shows red from N. E. round through E. to S. covering Miminegash Reef, and white from S. to S. W. by W. which includes line of range. Vessels N. of reef bearing westward will be clear of it when red disappears.

Rix's Point, 1 mile S $\frac{1}{2}$ W. from front light; fixed white catoptric light, 45 feet high. Lantern on a mast with white shed at base. Shows over a small arc on each side of the line of range. These lights in line lead to the outer end of N. breakwater.

NORTH POINT, on point, lat N. $47^{\circ} 3' 46''$, lon $63^{\circ} 59' 10'' W.$, white catoptric, revolving one minute; height 80 feet, visible 14 miles. White octagonal, wood, surmounted by a red iron lantern, dwelling near by.

ST. PETERS.—Two range lights, white, catoptric. Buildings white square wood. Outer 40 feet S. W. from outer end of breakwater. The back range light 1458 feet S. by W. from the front light. Buoys indicate best channel. Lat N. $46^{\circ} 26' 40''$, lon W. $62^{\circ} 44' 50''$.

SAVAGE HARBOUR.—Two range lights, white catoptric, shown from lanterns on masts with brown sheds at base. Outer light on McEachren's farm on inner shore of harbour, lat N. $46^{\circ} 25' 40''$, lon W. $62^{\circ} 48' 30''$. Lights in range lead to mid-channel buoy outside bar. Vessels open the lights on starboard bow, after passing buoy, until inner fairway buoy is reached, where channel leaves range. Only 5 feet water on bar at low tide. Outer light liable to be moved.

TACADIE.—Two range lights, red lat N. $46^{\circ} 25' 35''$, lon W. $63^{\circ} 2' 30''$. Outer light on beach W. side entrance 1800 feet back from shore line. Open square frame work. Back tower, white, square wood 28 feet high, 1200 feet S. S. W. from front. In one, lead in about S. W. by W. past the buoys, leaving the buoy outside bar on starboard, buoy inside bar on port hand. Not more than 5 feet water on bar. Positions of both towers liable to be changed to suit the shifting of the channel.

COVE HEAD.—Two range lights, showing white lights from lantern hoisted on masts, lat N. $46^{\circ} 26' 10''$, lon W. $63^{\circ} 8' 45''$. Front light close to edge of sand beach at entrance to harbour. Back light 600 feet from front.

NORTH OR GRAND RUSTICO.—Two range lights. Back light, west side of entrance to harbour, lat N. $46^{\circ} 27' 42''$, lon W. $63^{\circ} 17' 15''$, white square wood with dwelling attached, 35 feet high, shows fixed white light, catoptric, 40 feet above high water mark. Front range light 225 feet from main light, shows fixed red light from lantern hoisted on mast, 22 feet above high water. The alignment leads to black can buoy outside bar in 13 feet water, after passing which vessels must open lights leaving them on starboard side to clear breakwater on N. side of entrance to harbour. A small spar buoy marks outer extremity of breakwater, of which the part above water has been carried away. Outer light liable to be moved to suit channel.

NEW LONDON.—Two range lights visible over 110° between Sim's Point and sand hills on E. side of harbour. In range they show the entrance to the harbor. Outer range light liable to be moved to suit shifting of the channel. The outer light is a white square wood, open

framework below, brown 21 feet high, showing a white catoptric light, elevated 24 feet above water. The back light is on bench 1500 feet S. W. of main light, building white square wood with dwelling attached. Iron lantern brown, height 35 feet from base to vane. Shows a fixed red catoptric light, elevated 45 feet above high water. Lat N 46° 31' 10", lon W. 63° 28' 52".

DARNLEY POINT, lat N. 46° 34' 0", lon W. 63° 39' 0". Two range lights, red, catoptric. Both buildings, white, square, open frame tower, slatted, facing line of range. Front range near shore line 6½ cables south-easterly from C. Aylesbury. Back range 1341 feet S. W. by S. from front range light. Alignment leads to black can buoy at Eastern Passage over bar at entrance to Malpeque harbor. Vessels entering keep the alignment until they bring the Fish Island lights in one.

FISH ISLAND, lat N. 46° 34' 52", lon W. 63° 42' 17". Entrance to Malpeque or Richmond Bay, white square wood with dwelling attached, on inside of island, 46 feet base to vane, fixed white catoptric light, 50 feet high. Front range 1200 feet S. E. by E. ½ E. from main light, open frame work, lantern white, fixed white light 18 feet high. The main light is a sealight, the smaller one in range with it shows the channel over the bar with 15 feet, and ranging with the fairway buoy inside the bar, whence the channel is marked by the harbor buoys. There is a 13 foot spot between the Eastern Passage buoy and the fairway buoy.

DARNLEY BASIN.—Two range lights, green, catoptric, visible 3 miles. Front range, west side of Darnley Basin. Back range, 380 ft. S. by W. front light. Both open frame work, lanterns white.

LITTLE CHANNEL.—Two range lights, fixed white, lat N. 46° 40' 0", lon W. 63° 52' 40". Outer light on Conway Inlet, N. side, white square wood, with kitchen attached 30 feet base to vane, light fixed white catoptric 26 feet above water. Front range 200 feet from main light, open framework, lantern white, fixed white light, catoptric, 10 feet high. In one, lead through channel with 5 feet at entrance to harbour. There is a ballast heap in the alignment at the point of the S. sand hill, to pass this the front light must be opened to N. Outer light liable to be moved to suit the change in the channel.

CASCUMPEC, back range light, lat N. 46° 48' 22", lon W. 64° 2' 20", on inner face of south sand hill, tower with dwelling attached painted white, fixed white, 48 feet high visible 12 miles. A light shewn from lantern on mast on the outer edge of south sand hills, leads over the bar at entrance to harbour into the best water.

Northport Range Lights. The masts heretofore in use have been substituted by two open skeleton lighthouse towers. Each tower is an open framed wooden building surmounted by a square wooden lantern, and has its side facing the channel slatted to make it a more conspicuous leading mark. The whole building is painted white. Both lights are fixed red and should be visible 3 miles on the line of range. The front tower stands on a bank 500 feet W. of Railway wharf. It is 29 feet high from the ground to the vane of the lantern. The light is 31 feet above high water. Lat N. 46° 48' 16", lon W. 64° 3' 6". The back range tower stands 1125 feet W. ¼ N from the front one and is 41 feet high and the light is elevated 42 feet above high water mark.

Vessels entering Cascumpec harbour keep the Savage Island range lights in one until the Northport range lights are nearly closed when

they should change their course for the Northport range, being careful not to overrun the line of range, as the channel at the point of intersection is narrow and the tide strong. The Northport range leads in to the wharf clear of all obstructions.

BIG TIGNISH.—Two range lights. Back range light on bench at inner end of N. breakwater pier. Lat N. $46^{\circ} 57' 35''$, lon W. $63^{\circ} 59' 20''$. Building white square wood, with a black horizontal band 33 feet high. Fixed white entoptic 35 feet high, visible 11 miles. Front light on outer end of N. breakwater pier 620 feet S. E. $\frac{1}{2}$ E. from main light. Fixed red light is shown from a lantern on a mast with white shed at base. Light elevated 18 feet above high water mark, and visible 5 miles. These two lights in range guide N. W. $\frac{1}{2}$ W. between the breakwaters.

ECCLESIASTICAL DEPARTMENT.

CHURCH OF ENGLAND IN NOVA SCOTIA.

CATHEDRAL STAFF.—Bishop, Right Rev F. Courtney, D.D.; the Very Reverend Edwin Gilpin, D.D., Dean of Nova Scotia; Venerable J. A. Kaulbach, M.A., Archdeacon of Nova Scotia; Rev Canon Thomas Maynard, D.D., Windsor; Rev Canon Isaac Brock, D.D., Kentville; Rev Prof Vroom, A.M., Windsor.

THE TRAPPIST MONKS, at Tracadie, had a flourishing establishment, destroyed by fire, but now in course of reconstruction. The Monks are principally natives of Belgium. Here also, there is a Convent of the Trappistine Sisters, all natives of the place, and generally of French and Scotch origin.

THE SISTERS OF THE CONGREGATION OF NOTRE DAME, of Montreal, have flourishing academies for female education of the highest order at Arichat, Antigonish, Pictou, New Glasgow, West Arichat, Sydney, Port Hood, New Glasgow and Mabou. Besides, there are throughout the diocese several academies, and superior and common schools, partly supported by government, and partly by contributions of the people. There are also superior schools at Stellarton, Little Glace Bay, North Sydney, and Harbour Bouche, conducted by the Sisters of Charity.

SCHOOL FOR THE BLIND.

This Institution provides for the education and training of blind persons of either sex throughout the Maritime Provinces. Pupils from the Province of Nova Scotia between the ages of ten and twenty-one are admitted free of all charge. The school is open to the public on Wednesday of each week, at 3 p.m. C. F. Fraser, *Superintendent*.

The Superintendent of the Institution is anxious to obtain Names, Ages, and Post Office Address of all Blind Persons in the Maritime Provinces Clergymen and Physicians are in a position to supply this information, and will confer a favour by so doing.

DEAF AND DUMB INSTITUTION.

This Institution which has been forty-three years in operation is not an Asylum, but a School. It provides for the education of the

deaf and dumb of the Maritime Provinces. Pupils from the Province of Nova Scotia between the ages of *eight* and *eighteen*, are admitted free. Both the Sign System and the Oral Method are employed in this School. *Principal*, James Fearon.

President, Hon D. McN Parker, M.D. *Secretary*, Rev. President Forrest, D. D. *Treasurer*, Andrew Mackinlay. Hon Provincial Secretary, J. F. Kenny, Wm. Tobin, M.D., H. H. Woodbury, D.D.S., C. C. Blackadar, Geo E. Faulkner, Hon L. G. Power.

The Principal of the Institution will feel thankful to clergyman, physicians or others who can give him the names, ages and Post Office address of all uneducated deaf and dumb persons in their neighborhoods, in order that such may be brought within the reach of instruction.

Dr. Herrick's Liver Pills.

This Medicine without a doubt has made more wonderful cures than ten other medicines combined.

DR. HERRICK'S LIVER PILLS

have stood the test of sixty-three year's investigation, and to-day stand at the head as positively curing SICK HEADACHE, INDIGESTION AND ALL IMPURITIES OF THE BLOOD. FOR TONING AND BUILDING UP THE WHOLE SYSTEM THEY HAVE NO EQUAL. Try them, reader, you are not experimenting with an unknown medicine, but simply following those who have used DR. HERRICK'S PILLS for years, and know of their great curative powers.

Sample for a Cent if you mention this Book.

Pain - Killing Magic Oil.

Is another one of our grand preparations. It is invaluable for RHEUMATISM, COLDS, SORE THROAT, and PAINS AND ACHES OF ALL KINDS. RENNIS PAIN KILLING MAGIC OIL is safe and clean to use, and is not of an oily nature. Try it and convince yourself as thousands have done that RENNIS MAGIC OIL gives speedy relief and a sure cure. Sold at Druggists and General Stores.

DR. HERRICK'S FAMILY MEDICINES.

SYDNEY COAL!!!

This Celebrated Coal, mined by the General Mining Association, Ltd., of London, G. B., at North Sydney, Cape Breton, has long been generally known under the name of Sydney Coal, and this name is registered as a Trade Mark. To guard against deception from other Coals being sold with the prefix of "Sydney," or as "Sydney Coal," a Certificate is issued with each cargo of Genuine Sydney Coal Shipped.

"Sydney Coal" stands at the head of all Nova Scotian and Cape Breton Coals in its reputation for House Use. It is also an excellent Steam Coal.
