## FRIEDMANN WILL ARRIVE ON MONDAY

Dr. Friedmann is expected in Toron-  
to on Monday.  
"Dr. Friedmann's treatment should  
be given a fair show, but as sufferers  
from tuberculosis are extremely san-  
guine, they are the more easily ex-  
ploited and should be protected." Such  
is the attitude of the medical profes-  
sion of this city.  
The following is an authorized re-  
port of the meeting of the Academy of  
Medicine yesterday in its relation to  
Dr. Friedmann:  
"While the Academy of Medicine of  
Toronto disapproves of the specta-  
cular and commercial manner in which  
Dr. Friedmann's treatment of tuber-  
culosis has been presented, it strongly  
advises both the profession and public  
to await results of investigations not  
yet complete.  
"In the cases treated by him there  
is nothing to show that there has been  
any improvement which is not secured  
by other methods of treatment.  
"Dr. Friedmann has not received the  
endorsement of the medical profession  
in Toronto thru the Academy of Medi-  
cine, the University of Toronto, the  
medical faculty of the university, or  
any representative body of the profes-  
sion.  
"Dr. Friedmann was given every  
opportunity in the field of experimental  
medicine by individuals engaged in  
such work.  
"It is the desire of the academy that  
suffering humanity should be given the  
benefit of all that is of value, and  
that they should be protected from be-  
ing exploited for personal gain from  
everything without virtue."

## GOT NO FRESH EGGS SECURED A DIVORCE

Woman Objected to Mother-in-  
Law Getting Best From  
Family Hens.  
Special to The Toronto World.  
CINCINNATI, May 2.—Mrs. Zella  
Cunningham was granted a divorce  
from William Cunningham by Judge  
Warner today.  
Cruelty in that her husband refused  
to give her any of the fresh eggs that  
were the products of the family  
chickens, but gave the eggs to his  
mother, who lived with them, was one  
of the charges.  
Mrs. Cunningham also testified that  
when her husband was away on a trip  
he gave the key to the henry to the  
mother.

## HERE IS A RECORD FOR BIG FAMILIES

Two Brothers, French Peasants,  
Have Had Fifty-Three  
Children.  
Special Cable to The World.  
PARIS, May 2.—(Copyright)—The  
brothers Bossu of the village of Saint  
Usages, it is found, have the record  
as French fathers. Together they have  
had fifty-three children. Jean had  
seventeen boys and one girl by his first  
wife and seven boys and five girls by  
his second wife. Claude had eighteen  
children, of whom nine came in three  
sets of triplets by his first wife, and  
five single children born to his second  
wife. Of the first family ten children  
lived; of the second a dozen. Both  
the fathers are poor peasants, earning  
on an average of 15 cents a day and  
drawing only \$2 yearly from the state  
as a bounty for raising more than three  
children to the age of 16.

## BABY WITH STUMPY TOES WILL BE BAD

Nothing Can Save It From Crimi-  
nal Career, According to the  
Expert.  
Special Cable to The World.  
PARIS, May 2.—(Copyright)—  
Commissaire De La Rocheffoucauld states  
that after ten years of study and re-  
search she has come to the conclusion  
that toes play a large part in the  
science of criminology, and according  
to the countess, "anyone with a  
stumpy big toe is sure to become a  
murderer," and nothing can save a  
child from a criminal career if its toes  
are short and stumpy.

## NITRO GLYCERINE FOUND: WOMEN SUSPECTED

Consternation Spread in Lon-  
don When Bottle Was  
Picked Up at Piccadilly  
Tube Station and Conclu-  
sion Is Drawn That Suffra-  
gettes Intend to Attack  
Human Life.  
Special Cable to The World.  
LONDON, May 2.—(Copyright)—  
Consternation was spread in London  
today by the discovery of a bottle of  
nitro-glycerine labelled "dangerous"  
at the tube station, Piccadilly Circus,  
the conclusion being generally drawn  
that the militant suffragettes with  
their violence increasing to hysteria  
and insanity, had abandoned mere  
plans for destroying property and had  
resolved to attack human life.  
The tube station is always crowded.  
An attendant who found the package  
under a bench turned it over to the  
police. A group of the curious watched  
a "bobby" as he took the bottle out  
of its brown paper wrapping. At eight  
of the inscription "dangerous" on the  
bottle some person passed the word  
in the crowd, and there was a rush in  
all directions to get away from the  
policeman, who all felt sure held in  
his hand a bomb just about to ex-  
plode.  
Lives in Danger.  
Beyond the inscription "dangerous,"  
the label affords no clue to the police,  
who are, however, bending their en-  
ergies to an investigation of the man-  
ner in which it came to be at the tube  
station, where an explosion at any  
hour of the day or night might cause  
the loss of hundreds of lives.  
The finding of the bottle in the tube  
station came while evidence was be-  
ing given in Bow street to show that  
suffragettes planned for the destruction  
of certain buildings also involved the  
deadliest peril to many human lives.  
Drive Them by Terror.  
This newest phase of the situation  
seems clearly to indicate that the suf-  
fragettes, astonished that their cam-  
paign of violence has not already  
brought results, have resolved to drive  
the members of parliament to give  
them the vote out of sheer terror for  
their own lives.  
How the police are also inclined to  
examine every outrage most care-  
fully in the belief that it is not al-  
ways the work of the criminal ext-  
remes of the militant women's move-  
ment, but that other criminals—ar-  
chitects and plunderers—are using the suf-  
fragette sensation to cloak their own  
more selfish crimes of personal re-  
venge and robbery.  
The police say also that it seems ev-  
ident that the militant leaders of Lon-  
don no longer control the action of  
their provincial members, and are in-  
clined to believe, as before stated, that  
many of the outrages outside of Lon-  
don are not really the work of wo-  
men militants, but that they greedily  
take "credit" for them in their pre-  
sented state of mind.  
Drastic Measures.  
There are indications to say the  
strongest of hope that the authorities  
are about to take the most drastic  
measures to bring the lawless suf-  
ragettes to their senses.  
The arraignment in Bow street this  
morning of the band of six militant  
suffragettes, arrested in the police  
raid of the headquarters of the O.W.  
men's Social and Political Union last  
Wednesday, was met with the sensa-  
tion of a list of cotton manufacturers  
said: "I will inspect during the  
next few days and report."

## SIX CANADIAN SCIENTISTS WILL GO NORTH WITH STEFANSSON PARTY

OTTAWA, May 2.—(Can. Press).—The following gentlemen  
have been selected by the Geological Survey for scientific invest-  
igations in the Arctic region with the Stefansson expedition:  
George Malloch, geologist; J. J. O'Neill, geologist; Kenneth Chip-  
man, topographer; J. R. Cox, topographer; Henri Beuchat, anthro-  
pologist; R. M. Anderson, geologist. Each is specially trained and well  
qualified for the work which will be entrusted to him and important  
additions to science and interesting additions to the National Museum  
at Ottawa are expected as the result of their investigations in the  
north.

## LAURIE'S FEARS ARE ALL BASED ON HIGH INDIANS OWN OIL LAND

Times Thinks the Argument  
Against Imperial Federation  
Rather Strained—Naval  
Debate of High Order.  
LONDON, May 2.—(C.A.P.)—The  
principal editorial in today's Times is  
devoted to the Ottawa naval debate as  
set forth in Hansard, which is just to  
hand.  
"Our parliament at Westminster is,"  
says the Times, "in fact as well as in  
name, an Imperial parliament, but it  
is a question whether it has ever at-  
tempted on any occasion since the de-  
bates which preceded the American  
War of Independence to enter as  
thoroughly and earnestly as the Canadian  
Parliament is now doing into the po-  
litical meaning of the bond between the  
mother country and the daughter  
countries."  
The Times then reviews the Borden-  
Laurier speeches and concludes: "We  
must confess to sharing Mr. Borden's  
inability to see how his proposals can  
be held to entail the very wide conse-  
quences which Sir Wilfrid Laurier de-  
scribed, but the argument between  
Laurier and him presents Canadian  
statesmanship in so broad and im-  
pressive a light that it is difficult  
wholly to deplore the divisions which  
have brought the argument out."  
Control of Tariffs.  
"If Laurier's contention that im-  
perial federation is impossible without  
surrender of control of all national  
tariffs within the empire to a single  
body would be generally sustained, his  
proposal would be unwelcome to  
British as to Canadian opinion, but  
for our own part we regard the argu-  
ment as too absolute. The question as  
to what responsibilities in politics and  
administration should be assumed by  
the autonomous governments is a different  
question from that of how the funds  
required for common defence are to be  
raised. It seems to us that the im-  
perial organization need not be com-  
plicated at all by problems of taxation  
which Sir Wilfrid Laurier very rightly  
denies."

## WEST IS WEARY OF WAITING FOR FREIGHT RATES REDUCTION EXPERTS FROM U. S. TO TESTIFY

### Women of Norway Get Votes

CHRISTIANIA, May 2.—  
(Can. Press).—The constitu-  
tional committee of the storting  
decided unanimously to-  
day to introduce a bill be-  
stowing the franchise upon  
women for all classes with  
a radical majority in the  
storting, the passage of the  
bill is assured.

### Cochrane Denies That Gov- ernment Is to Blame For Inaction Period of Apparent Lionization—Bennett Says G. T. P. and C. N. R. Can- not Meet Fixed Charges if Rates Are Cut.

house today discussed at some length  
the discrimination in freight rates pre-  
vailing in Western Canada and the long  
delay which has attended the enquiry  
into this subject by the Dominion  
Board of Railway Commissioners. The  
debate arose upon a formal motion of  
Mr. Martin, the Liberal member for  
Regina, that the house do now adjourn  
for the purpose of discussing a definite  
matter of urgent public importance.  
He recalled that on Jan. 25, 1912, upon  
going into supply a resolution had been  
proposed by W. F. Maclean, M.P.  
for South York, to the effect that "this  
house declares that it is against the  
general interest of Canada and the  
territorial variation in the application  
of tariff changes by the board of rail-  
way commissioners."  
Accepted Borden's Pledge.  
This motion, Mr. Martin said, had  
been withdrawn, upon the assurance  
of the prime minister that an enquiry  
would be instituted without delay by  
the railway commission. Accordingly,  
James Bicknell, K.C., of Toronto, Harry  
Whitlaw of Winnipeg and A. R. Mor-  
rison of Vegreville, Alta., had been  
employed as counsel by the Dominion  
Government, and had brought the  
matter to the attention of the board  
of railway commissioners over a year  
ago. The provincial governments of  
Saskatchewan and Alberta employed  
as their counsel in the case M. K.  
Cowan, K.C., of Toronto. Mr. Cowan,  
as Mr. Martin pointed out, had proved  
to officials of the railway companies  
that freight rates were much higher  
in the west than in the east, altho  
the cost of construction and operation was  
less in western Canada than in eastern  
Canada, while the density of traffic  
was greater in the west than in the east.

## THREE SEATS FOR ONTARIO WEST

### Trio of Ex-M.P.'s Are Promi- nently Mentioned to Fill Vacancies in the Senate.

OTTAWA, May 2.—(Special).—There  
is a persistent rumor, which, however,  
lacks official confirmation, that the  
Ontario vacancies in the senate may  
be filled at an early date, possibly to-  
morrow. It is assumed that three of  
the four appointments will go to Wes-  
tern Ontario and Mr. E. D. Smith, ex-  
M.P. for Wentworth, Mr. McLaren, ex-  
M.P. for Perth, and Alex. McCall, ex-  
M.P. for Norfolk, are prominently  
mentioned. One of the appointees will  
probably be a Roman Catholic, as two  
of the present vacancies have arisen  
thru the retirement of Hon. Michael  
Sullivan of Kingston and the death of  
Sir Richard Scott.  
A number of names in this connec-  
tion are mentioned, including that of  
Mr. J. J. Donnelly, sitting member for  
North Bruce. The impression here is,  
however, that no appointment will be  
made from the present membership of  
the house.

### Hope Long Deferred.

Continuing Mr. Martin said that the  
late chairman, Judge Mabey, had de-  
cided that a case had been made out  
and that the railway companies would  
have to justify their discriminatory  
rates in the west or equalize freight  
rates thruout the country. Since then  
the houses have dragged their feet, one  
month to month, being heard for the  
last time on Jan. 7. The counsel for  
the Dominion Government had appar-  
ently allowed the case to drop, one of  
them having been occupied for some  
time as a candidate for the provincial  
legislature in Alberta.

### THE NEWSPAPER BOSS DRIVEN FROM THE CITY HALL.

For years, and until recently, one city  
journal had been newspaper boss at the  
city hall. It claimed to be above the  
politics; it intruded in the way of ap-  
pointments, promotions, elections, to have that  
policy carried out. It went further: it in-  
truded that any policy, however pro-  
gressive, advocated by another paper, was to be  
"quered," to use its favorite phrase.  
Mayor Geary that was, Controllers Foster  
and Church, several leading officers of the  
city, were all in this intrigue to queer  
anything like a big policy for a big city, ad-  
vocated, let us say by The World. An-  
nouncements, via, reports on traction street-  
cars, by experts, etc., etc., were all knocked  
out.  
Then there was the other end to this in-  
trigue: "the holler" in its own columns for  
its own policy and against any policy  
suggested by other papers; there was its  
personal abuse of everyone who opposed  
it; there was its system of intimidat-  
ing aldermen, controllers and officials  
(it is true that it went the length of  
thumb-screwing aldermen and members of  
all it resorted to a campaign of "whisper-  
ings," to use its own word, against those  
who did not accept its policy. The whis-  
perers were all over. A whole system of black-  
mail was centred in its office.  
That system of intrigue and dictatorship  
has been broken. There is no longer any  
newspaper boss—every paper has a chance  
now to be heard, every official is free of  
threats of the thumb-screw. Mayor Hooker  
has broken up the intrigue, sent the parties  
to about other business. No more of tal-  
ling aldermen, officials, "that if you sup-  
port our policy you'll get this and that."  
For clearing the city hall of this system  
of intrigue Mayor Hooker has the undying  
credit of the paper in question. Yet the  
mayor recognizes that he is there to carry  
out the citizens' policy, not any one in-  
dividual's policy; to recognize good advice, no  
matter whence.  
THE NEWSPAPER BOSS IS OUT OF  
THE CITY HALL. AFTER THE DEPARTURE OF  
MAYOR GEARY, THAT IS THE MOST HOPEFUL  
THING FOR TORONTO'S FUTURE!  
And under the guise of a sickening news-  
paper besaviourment of Adam Beck the same  
dictatorship was attempted to be put over  
the Hydro-Electric Commission of Ontario.  
That game, too, has failed. Adam sees all  
the newspapers, if he has to see any.  
Newspaper bossism is worse than any  
other, because it always poses to be in the  
public interest.  
The mayor and most of the aldermen, the  
city press, with one exception, have effected  
this great relief. It is very doubtful, how-  
ever, if even these powerful factors combin-  
ed would have succeeded in so August an  
endeavour as that of the startling in-  
formation voluntarily supplied from day to  
day by our two most venerable and dis-  
tinguished landmarks and civic patriots:  
The Right Worshipful John,  
The Most Honorable Jaff,  
Of them the citizens will long have an  
abiding appreciation; on them will they  
still further rely for guidance and lead-  
ing thru the municipal labyrinths and byways of the  
town.

## TRADE PACT IS NEARLY SETTLED

### Foster's Conferences in Aus- tralia Leading to Definite Results—Reciprocity With New Zealand.

LONDON, May 2.—(C.A.P.)—The  
Telegraph's Melbourne correspondent  
says a provisional reciprocity trade  
agreement has been concluded by  
Premier Fisher of New Zealand and  
Tudor, Australian trade minister, sub-  
ject to the approval of parliaments,  
which, it is fully anticipated, will be  
readily obtained. The schedule of ar-  
ticles included is much smaller than  
that covered by the British preference  
arrangement, but it follows the general  
principle of the latter, providing some  
articles shall be duty free and some  
subject to reductions.  
Negotiations for reciprocity between  
Canada and Australia are proceeding  
between Hon. Mr. Foster and the  
Commonwealth Government. The  
general principles have been accepted,  
and the ministers authorize me to state  
that the arrangement will undoubtedly  
be a happy one.

### Blame Government's Counsel.

Mr. Martin, in opening, character-  
ized as untrue the statement that the  
provinces of Saskatchewan and Alberta  
had withdrawn from the matter. They  
were in the case to stay, Mr. Martin  
said, and their lawyer, M. K. Cowan,  
K.C., of Toronto, was the only one who  
had not accepted anything. The coun-  
sel employed by the Dominion Govern-  
ment had seconded every proposition  
for delay put up by the railway com-  
panies. The usual burden of proof, Mr.  
Martin said, had been placed on the  
railway companies a year ago, and  
since then no progress had been made.  
The railway commission, Mr. Martin  
said, had been forced on the govern-  
ment by the representations of the  
provinces of Saskatchewan and Alberta.  
The enquiry had been instituted, but  
sterilized from the start by the way  
in which it was conducted by counsel  
representing the Dominion Govern-  
ment.

### Delay in Getting Experts.

Mr. Carvell (Carleton, N.B.) said the  
government had not employed men big  
enough for the job. Their excuse for  
the delay now was that they had to  
bring experts from the United States  
to testify. Why had they not brought  
them here a year ago?  
Hon. Frank Cochrane, minister of  
railways, said he had received a let-  
ter from the Grand Trunk Pacific and  
had sent the complainants in 1911, in-  
forming them that he had never  
discussed the matter of discriminatory west-  
ern freight rates brought to his atten-  
tion prior to that time. There was  
naturally some delay in buying business  
to a new chairman, having been ap-  
pointed, and an overwhelming large  
amount of business on hand. Chair-  
man Drayton had also ordered a 20  
per cent. cut in express rates from  
Subury, and he could be depended  
upon to see that the west got a square  
deal.

### Continuing, Mr. Cochrane said that the counsel representing the govern- ment had been sent to the United States to obtain the expert opinions of traffic men in that country.

Hon. Frank Oliver pointed out that  
the railways were putting up the poor  
excuse that their western freight rates  
were not higher than those in the west-  
ern states.  
Mr. Bennett (Calgary) said the prime

## HE TAKES PHOTOS BUT LIKES PURSES

John French Stole Two of the  
Latter and Was Ar-  
rested.  
From police reports it appears that  
John French of 11 Baldwin street  
sometimes takes pictures and some-  
times takes purses.  
The professional photographer called upon Mrs. Parker,  
11 Roden place at noon yesterday, so-  
liciting photo enlarging. Mrs. Parker  
was not anxious to give him any work,  
but after a prolonged debate, she de-  
cided to try him out. She then went  
upstairs to hunt up pictures for photo-  
graphing. After a few minutes she returned  
with the picture, but found that Mr. Pho-  
tographer had vamoosed with two of  
her pocket pictures and 50 cents. Mrs. Parker  
noticed the police immediately, and  
half an hour later French was arrested  
on Davenport road by Constable C.  
Wilson, charged with theft.

## FIRST CONVICTION OF MURDER BY AUTO

Chicago Taxicab Chauffeur Was  
Sent Down For Fourteen  
Years.  
Special to The Toronto World.  
CHICAGO, May 2.—Lawrence Lind-  
blom, a taxicab chauffeur, was con-  
victed of murder today in running  
down and killing Joseph Weiss. It is  
the first conviction for murder by  
automobile in Chicago. He was given  
fourteen years and 90 cents. Lind-  
blom was speeding thirty miles  
an hour in Cottage avenue and struck  
Joseph Weiss, a middle-aged cigar-  
maker. He kept on but was compelled  
to stop after running two blocks  
because the body was tangled in the  
machinery.

## TYPHOID EPIDEMIC CAUSED BY PLUMBER

### Careless Fitter Mis-Connected Supply Pipes Furnishing Water For Drinking.

Special Cable to The World.  
PARIS, May 2.—(Copyright)—The  
present serious typhoid epidemic in the  
Latin quarters, it has been found, was  
caused by the carelessness of a pipe-  
fitter who misconnected the supply  
pipes to the recent Congress on Physi-  
cal Education at the College of Medi-  
cine of the Sorbonne. Thus ordinary  
Seine water was furnished for drink-  
ing purposes to the assembly, the  
physicians, the students and the train-  
ees. The same error in piping to a  
large student lodging-house brought a  
crop of these cases. There were sev-  
enteen typhoid deaths this week as  
against a normal of four.

quences which Sir Wilfrid Laurier de-  
scribed, but the argument between  
Laurier and him presents Canadian  
statesmanship in so broad and im-  
pressive a light that it is difficult  
wholly to deplore the divisions which  
have brought the argument out."  
Control of Tariffs.  
"If Laurier's contention that im-  
perial federation is impossible without  
surrender of control of all national  
tariffs within the empire to a single  
body would be generally sustained, his  
proposal would be unwelcome to  
British as to Canadian opinion, but  
for our own part we regard the argu-  
ment as too absolute. The question as  
to what responsibilities in politics and  
administration should be assumed by  
the autonomous governments is a different  
question from that of how the funds  
required for common defence are to be  
raised. It seems to us that the im-  
perial organization need not be com-  
plicated at all by problems of taxation  
which Sir Wilfrid Laurier very rightly  
denies."

## FARM LABORERS ARE IN DEMAND

### Good Wages Offered, But De- spite Immigration, Men Are Hard to Ob- tain.

The great influx of immigrants has  
been particularly manifested during  
the past month. Over eleven thou-  
sand have landed on Canadian soil  
during the month of April, most of  
whom are Englishmen. The majority  
of this number have taken up farm  
ing occupation in Ontario, but with all  
this increase of farm labor in this  
province, the farmers are still crying  
for further help. The immigration  
department have still a thousand  
names on their register of farmers  
who are seeking help, and they are of-  
fering \$25 to \$35 a month with board  
and lodging, and some are offering  
partly experienced men, while to  
totally inexperienced men they are of-  
fering \$12 to \$15.  
Immigration figures from the begin-  
ning of the year to the present show  
an increase of nearly 9000 over and  
above the total immigration for the  
same period last year.

## ROYAL PATIENT NEARING CRISIS

### Physicians Fear Duchess May Not Have Strength to Endure Acute Suf- fering.

LONDON, May 2.—C.A.P.—A bul-  
letin issued at midnight says her Royal  
Highness's strength has been main-  
tained during the day, but otherwise  
there is no change.  
Directly the King arrived in town  
yesterday afternoon from Newmarket  
he called at Clarence House to enquire  
after the Duchess. The Queen was  
written by him which the police  
deared to show the scientist as an  
arch-conspirator in the women's  
schemes of coming violence.  
One of these letters addressed to  
Miss Annie Kenney, another of the  
prisoners, stated in expressing regret  
in the delay of delivering a certain  
chemical preparation "the prisoners  
are hard to get." It added: "Please  
burn this."  
Another letter signed in the name  
of Clayton put forth a plan for a wide-  
spread scheme of false alarms, and a  
third listed seven timber yards in  
London which "lend themselves particu-  
larly to being set on fire."  
Suspect and Report.  
The chief offices of the National  
Health Insurance Commission were  
also suggested for sacrifice, and re-  
garding a list of cotton manufacturers  
said: "I will inspect during the  
next few days and report."

## CRISIS EXISTS NO LONGER NOW

### England, Russia and France Will Not Interfere in Co- ercive Measures, Says Correspondent.

(Special Cable to The World).  
LONDON, May 2.—(Copyright).—A  
special representative of the Daily  
Chronicle says he is assured on "very  
high and most reliable authority" that  
while adhering to the policy that Scy-  
thia must be evacuated, England, Rus-  
sia and France will take no part in  
active coercive measures against Mon-  
tenegro, believing that if force proves  
necessary, Austria and Italy will be  
strong enough to settle it effectively.  
It is not expected, he says, that Ger-  
many will take any active part. The  
whole matter, therefore, adds the cor-  
respondent, becomes what might be  
termed a local incident and "a first-  
class European crisis may be said to  
exist no longer."

# "Simply Grand"

That's how everyone expresses their feeling with regard to the weather the last few days. We echo the sentiment, and sincerely hope it will continue, because it's "simply grand" for our business and makes our New Spring Suits go with a rush. Truly we have a fine showing of nifty lines to show you. For the young men our Collegian Model is very smart and full of vim. Priced from \$10.00 to \$35.00 and hundreds to choose from, and just here please make a note of this fact, that we are an all clothing house, handling nothing but clothing, which puts us in a position to care for your needs better than houses who are mixed up in other lines.

Furthermore we can fit a man who measures 50 inches in the chest as easy as the one who will go 34 or less. And some of our best customers are mighty big men. We will be open till ten p. m. Saturday night and will guarantee to deliver your new suit, or any other garment, bought up till six o'clock, so that you will have it for Sunday.

### Exclusive Pictures

There's variety, there's attractiveness, and there's exclusiveness in every one of the six big sections that make up The Sunday World. Photographers at home, in England and in the States are always busy getting snapshots of whatever goes on that counts for this paper. We have eight pages of especially good photographic reproductions this week. Among the pictorial features are: The little dwellers in forest and field familiar to Ontario people; several pictures of prominent society people in amateur vaudeville; Dufferin Park horses and horsemen; startling Paris fashions; latest picture of Archbishop McNeil; a fleet of hydro-aeroplanes; Japanese royal personages; Trinity Church Choir, Streetsville; senior class of St. Peter's S. S. and St. Anthony's S. S.; Montreal Art Gallery pictures; prominent actresses; St. Matthew's Church Boy Scouts; Beach Canoe Club Hockey team; Dundas street firemen.

**KINGSTON, LICENSED TO PREACH**  
W. A. Beecroft, a graduate of Queen's, was licensed to preach while lying ill in the general hospital. A deputation waited upon him and went through the ceremony. Beecroft wrote his theological examinations while he was confined to bed in the hospital.

**BOY DROWNED AT BROCKVILLE.**  
BROCKVILLE, May 2.—(Special.)—Norman McDonald, aged four years, was drowned this afternoon at the mouth of the creek which empties into the river. With two other children he was throwing stones into the water, when he overbalanced and fell in. The body was recovered shortly afterwards, but life was extinct.

**TRY IT! SAYS SAGE TEA DARKENS AND BEAUTIFIES FADED, GRAY HAIR**

Mixed With Sulphur Makes Hair Soft and Luxuriant and Removes Dandruff.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is coming in vogue again, says a well-known downtown druggist. It was our grandmother's treatment and hundreds of women and men too, are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage. Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home.

All drug stores sell the ready-to-use product called "Wyeth's Sage and Sulphur Hair Remedy" for about 50 cents a bottle. It is the most popular because nobody can discover it has been applied. Simply dampen a soft brush or sponge with "Wyeth's Sage and Sulphur" and draw this through your hair, taking one small strand at a time. Do this tonight, and by morning the gray hair disappears and after another application it is restored to its natural color. What delights the ladies with Wyeth's Sage and Sulphur is that besides beautifully darkening the hair they say it produces that soft lustre and appearance of abundance which is so attractive; besides prevents dandruff; itching scalp and falling hair. Here, you gray-haired folks, get busy; look years younger. Agents: Robert Simpson Co., Ltd.

### MAN IN CONSPIRACY WITH SUFFRAGETTES

Letters Indicate Clayton, Analytical Chemist, Suggested a Number of Outrages.

LONDON, May 2.—(Can. Press)—Bow Street Police Court was crowded this morning when a band of six militant suffragettes who were arrested in the police raid on the headquarters of the Women's Social and Political Union on Wednesday were brought up before the magistrate on a charge of conspiracy under the Malignant Damage to Property Act. Beside "General" Mrs. Flora Drummond, Miss Harriet Roberta Kerr, Miss Agnes Lake, Miss Rachael Barrett, Miss Laura Lennox and Mrs. Beatrice Saunders were Miss Annie Kenney, arrested yesterday on her arrival from the continent; Clayton, the analytical chemist, taken into custody last night at Richmond, and Sydney Drew, the printer of yesterday's issue of The Suffragette, who was arrested this morning.

Some interesting documents seized by the police were read by the prosecuting counsel. They were intended to show Clayton's connection with the militant movement. One of them was addressed to Miss Annie Kenney, and chemical preparation she had asked for. "The exact proportions are very difficult to get," it said, adding, "please burn this."

To Burn Lumber Yards. Another document bearing the name of Clayton suggested a widespread scheme of false fire alarms, and still another gave a list of seven timber yards in London which "lend themselves particularly well to attack." A third letter said that Clayton had a list of cotton manufacturers in London whose premises "I will inspect during the next few days and report." The chief officers of the National Health Insurance Commission at Bow-church Gate were also suggested as a good place to attack. All the accused were remanded till Monday. Bail was allowed only in the cases of Miss Laura Lennox and Sydney

### MRS. PANKHURST GOES TO HOSPITAL

LONDON, May 2.—(Can. Press)—Mrs. Emmeline Pankhurst, the militant suffragette leader, was today, with the consent of the authorities, removed from the house in which she has been staying in London to a nursing home at Woking, where she will remain under the supervision of the police. She traveled in a motor ambulance, which was followed by a taxicab conveying several Scotland Yard detectives, who were on duty to prevent Mrs. Pankhurst attempting to flee the country.

### Old Winter Coughs Now Easily Cured

A New Remedy Now Cures Without the Use of Cough Syrups or Drugs.

Just think of it—you can clear away that hard, racking cough, drive it completely out of the system, make yourself perfectly well by the new breathing cure that employs no medicine at all. You wonder how; very simple, indeed; you simply breathe in through a Catarrhose Inhaler rich balsamic essences that heal and soothe away the cough in a few hours' time.

In using Catarrhose you bathe the lining of the nose and throat with that powerful antiseptic of the Blue Gum Tree of Australia, which is probably the surest cold and cough cure in the world to-day. Clarence E. Cromwell, writing from Medicine Hat, says: "To cure a sneezing cold in about ten minutes the one thing I know of to do it is Catarrhose. To relieve an irritated throat, quickly, nothing can excel Catarrhose. It simply eats up a cough or cold of any kind. I know of colds that have hung on for months that Catarrhose cured quickly. Nearly every man I know carries a Catarrhose Inhaler with him day and night, and in this country it makes a wonderful protection against all winter ills."

Get the dollar outfit, including the hard rubber inhaler, and medication to last two months; medium size 50c. and large size 75c. at all druggists, or The Catarrhose Co., Buffalo, N.Y., and Kingston, Canada.

### ASPHALT PAVEMENTS

Five-Year Guarantee Is Insisted Upon by Board of Control.

"The property committee is wrong in its recommendation to combine a fire hall and police station at Hazlan's Point," said Mayor Hocken in the board of control. "The fire hall should be more central than the police station."

Controller McCarthy put thru a resolution that plans be prepared for a police station and that there be no residence in connection with the station.

"We're not so hard up that we can't help the playgrounds," said Controller Church when the special committee of the Toronto Playgrounds Association asked that the annual grant to the association be given to the recreation branch of the parks department service, which will hereafter have control of all the supervised playgrounds in the city.

"It is something new for the city to supply playgrounds and supervisors," said Mayor Hocken, "and the expense has to come out of the taxes. We will make the grant as much as we can, but don't expect too much, as this is an extraordinary year for paring the estimates."

Will Get Water. At the instigation of Controller McCarthy the board decided that people who live close to the city limits, and on the outside, should be supplied with city water, inasmuch as the housing problem justifies it.

Ald. McBride made a strong appeal to the board to adhere to the policy of a 10-year guarantee for pavement construction. He insisted that the work will not be held up, unless the five-year guarantee policy is continued during the year. "The city should not be held up by the contractors," he declared.

There's no doubt that the asphalt pavements laid in the past few years are not nearly as good as those of previous years," said Mayor Hocken. Jarvis, Spadina and Bay st. pavements were cited as samples of lasting roads under heavy traffic.

The city should call off her inspectors and put the onus on the contractors," said Ald. McBride. "Then the city would have good roads. The city has now one inspector who is a foreigner and can't understand English very well, and possibly knows not much more about asphalt."

Controllers McCarthy and Church held to the five-year guarantee policy, and the board stayed with them.

Construction of a sewer on Queen st. just east of the Woodbine track, is to go on, and vehicular traffic to the next west of the Woodbine will be diverted via Gerrard street and Eastern street.

The claim of Miller, Cummings & Robertson of \$23,000 for balance of account for intake repairs was disposed of by deciding to offer \$7000 in settlement in full.

Bloor Street Viaduct. Tenders for construction of the Bloor street viaduct will be called for in the autumn and building will be in full swing next spring. The policy of the works department is to prepare the plans step by step, so that the structure will be dependable at every point. Foundations, abutments, piers and superstructure are to be given most careful consideration and every detail thoroughly worked out. Then the probability of the city purchasing the Toronto Railway Co. system has a bearing upon the preparation of the plans; also the possibility that an agreement may not be made with Sir William Mackenzie, in which case the viaduct would have to extend to the east end of the tube lines along Eastern street from Yonge street to the Don ravine. In the meantime the construction of the city car lines on Danforth avenue is being rushed so the cars will likely be running before the snow flies.

### NITRO-GLYCERINE AT PICCADILLY

LONDON, May 2.—(Can. Press)—Nitro-glycerine was caused today by the discovery of a bottle filled with nitro-glycerine, and wrapped in brown paper at the Tube station at Piccadilly. The packet was labeled "Dan-gers." The police are investigating the affair, and in the meantime attribute the outrage to the militant suffragettes.

## The Solar Plexus a Great Nerve Centre

With the single exception of the brain itself, the solar plexus is the most important nerve centre in the human body.

Situated just back of the stomach and close to the spinal cord, the solar plexus supplies the major nerves to the vital organs. Injury to or weakness of the solar plexus consequently means incapacity of the vital organs of the body. This explains why a blow which reaches the solar plexus means helplessness to the person receiving it.

These nerve centres all demand an enormous quantity of good, rich blood, and, failing to get this, the nerve cells are starved and depleted, and fail to supply vital energy to the digestive and eliminating organs.

The wonderful success of Dr. Chase's Nerve Food in revitalizing and reconstructing the broken-down nervous system is due to the fact that it supplies nutrition to nerve cells through the medium of the blood stream.

Weakness of the stomach, failure of the liver and kidneys to filter the blood, inactivity of the bowels and feelings of fatigue and discouragement usually arise from an exhausted condition of the nervous system. The nerve centres, such as the solar plexus, have not the nerve force to work the machinery of the body.

The most natural treatment imaginable is Dr. Chase's Nerve Food, and its benefits are lasting, because it actually rebuilds the wasted and broken-down nerve cells.

St. Helen's Sub-Council Women's Auxiliary of the Catholic Church Experimenting, the Wizard Edison has perfected his disc phonograph, which is said to be the most perfect voice recording instrument ever dreamed of. The advantages and exclusive features of the Edison Disc Phonograph over other sound-producing machines, are so many that space could not convey to the reader the true merit of this wonderful invention.

The Edison Disc Phonograph, although perfected has not yet been made in quantities sufficient to supply dealers, but we understand Gerhard Heintzman, Limited, 41 Queen street west, opposite the City Hall, have a few of the machines on exhibition, and will be glad to demonstrate to anyone interested, the wonderful merit and exclusive features of this wonderful and latest invention of Edison's.

BANISH PIMPLES AND ERUPTIONS

In the Spring Most People Need a Tonic Medicine.

One of the surest signs that the blood is out of order is the pimples, unsightly eruptions and eczema that come frequently with the change from winter to spring. These prove that the long indoor life of winter has had its effect upon the blood, and that a tonic medicine is needed to put it right. Indeed there are few people who do not need a tonic at this season. Bad blood does not merely show itself in disgusting eruptions. To this same condition are due attacks of rheumatism and lumbago; the sharp stabbing pains of sciatica and neuralgia; poor appetite and a desire to avoid exertion. You cannot cure these troubles by the use of purgative medicines—you need a tonic, and a tonic only, and among all medicines there is none can equal Dr. Williams' Pink Pills for their tonic, life-giving, nerve-restoring powers. Every dose of this medicine makes new, rich blood which drives out impurities, stimulates every organ and brings a feeling of new health and energy to weak, tired, ailing men, women and children. If you are out of sorts give this medicine a trial and see how quickly it will restore the appetite, revive drooping spirits, and fill your veins with new, health-giving blood.

You can get these pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

THE GARDEN CONDUCTED BY RACHEL R. TODD M.D.

The wistarias. Purple and Green and Lavender.

The wistarias are, without exception, in my estimation, the finest vines for veranda or pillar decoration, or for covering pergolas, that one can possibly choose.

In order to have bloom your second season, buy vines at least three years old, and plant them late in the spring, thus allowing the whole summer in which to form strong roots and new twigs for the coming bloom.

The wistaria sends out its flowers on twigs produced the previous year so that one can readily understand why I advise planting in the spring.

Long slender buds will appear any day, lengthening out as the days go by, until some of them are ten inches or more long. From the base of the bud, pea-shaped blossoms open out, of creamy white, deep blue, or pale lavender, and, oh, the fragrance of these long, drooping clusters! Often the long, graceful raceme will produce such numbers of buds that the first flowers at the base of the bunch drop off before the terminal buds have finished blooming.

There is no other vine that produces such gloriously beautiful flowers.

The tiny, tender pale green leaves commence to clothe the vine when the flowers are about half thru their season. These lengthen also, until commencing to clothe the vine to fifteen leaflets cover the whole vine.

The wistarias are entirely free from pests of any kind, which is one of the vines so that one main stem comes from the root. When it has reached the height of about four feet, the main stem will be broken into three or four branches to shoot out from either side. This will provide a firm support for a thick leafy screen for an open veranda, or to cover a summer house. Do not waste the stakes, they may be used to support other bush that will interfere with its roots near the wistaria. Nor should one use the ground in its immediate vicinity for growing perennials or bulbs.

Why? Because the earth around the roots of these vines must not be in contact with soil. To plant bulbs or perennials here means that they will be frequently digging around in the earth and disturbing or destroying wistaria's wandering roots. Do not do it. Give wistaria undisputed possession of at least a circle of three feet or more in circumference.

Spray constantly through the summer to cleanse the leaves and freshen up things generally.

To procure fresh stock, watch for any new shoots appearing from the base. Allow these to grow until four or five feet long, then layer, which means simply to lay the new shoot level with the earth, placing a handful of earth on the vine six inches from the end. It will take root and when it has sent out three or more leaves, take the spade and cut the main root, the upright shoot and the new vine between the new and old plant. The following year the new vine may be moved safely.

Good, strong wistaria vines that will flower the second year, may be bought for from one dollar up, and the money is well spent.

Watch for buds on the peony bushes. When they appear spray with Bordeaux mixture, to prevent blight.

"RAGGS" WRITES FROM NEW YORK

New York, May 2, 1913. My Dear Toronto-Onters: When one considers the inhumanity of humans it is indeed a relief to find that there are a few noticeably humane people in the world—fearless, perhaps, of a civilization less pitiless. Did you ever sit in church surrounded by the nodding agitates, and when the women (made stylish, if not beautiful, by virtue of suffering bird-life) prayed "God, be merciful to me, a sinner"; did you ever long to stand in the pulpit and cry, "How dare you pray for mercy, you merciless barbarians?"

In Pennsylvania an act has just been approved by Governor Tener and made law, which prohibits the sale of cigarettes and the shipment of such feathers into or out of the state after July 1, 1914. In the language of the act no person may "shoot at, kill, take, or have in his possession any wild bird other than a game bird, or have in his possession any part of its plumage for purposes of sale or shipment from the state."

Oh, give us time, and we'll become civilized! Do you ever scissor little poems out of the daily papers or in the magazines? Or have in his possession any part of its plumage for purposes of sale or shipment from the state?"

"Children are the same the world over—everybody says it, but how many believe it? If you Toronto-Onters saw this child at Shea's, wringing tears from the most hardened, cigarette-wearing fiend of you all, you probably thought her quite a different little girl from those you had left tucked in bed, at home—but she's not! She's the most girly little girl "ever was," and absolutely un-

SOCIETY HOUSEKEEPING

Percy Haswell's Success. Percy Haswell is heading a stock company in Baltimore, Md. This extremely nice person is as popular in the southern city as she is in Toronto. Ont. When her stage ladyhood was recently played Keith's Baltimore theatre with her little Shakespearean sketch, the house played to the very great week, in box-office parlance, of the year. In consequence, a Baltimore manager tried hard to persuade Miss Haswell to play there "in stock" for the summer. She refused to be bound by her Toronto engagement, however, promised them a few weeks, before her Royal Alexandra season opened.

The dear lady is never so happy as when in the city of the future. She is overhanging green boughs of that little river, learning lines, quoting poetry and snoring.

A Successful Drama! That wonderful drama, "Within the Law," is still playing to packed houses! It opened last September, and Bayard Veller, the author, has already made a small fortune in royalties. The play will shortly be produced in London. Mr. Veller is not at all sure that London will appreciate its Americanism. However, with ten thousand dollars in English advance royalties in his pocket, he has, as he says, "no kick coming."

To those would-be playwrights to whom "advance royalties" and "small fortunes" sound good, just one little restraining word: Bayard Veller, who wrote something like thirty plays in the fifteen years preceding his writing of "Within the Law." His plays were exquisite and poetical things—within the law, is extremely dramatic, gripping, entrancing, and vital. It deals with today—not with dreams of yesterday or tomorrow—but the hard realities of this day and generation!

If you Toronto-Onters would write successful plays, study conditions, social and economic of your city (typical of cities of its size all over the continent), and show to the theatre-going public the humor and the pathos of the world we live in.

A Toronto woman I know was recently taken to the women's court in Toronto for the first time—it was a dramatic awakening! She promptly interested herself in social service and has done a great deal of good. But how many of us go out to look for opportunities to do good, unless, in some humbly dramatic way, humanity's need of our love and sympathy is pointed out to us? So, if you would be a playwright, study the tragedy and comedy of humanity—and tell the world about it. But above all, beware the sense of humor that sees absurdity in your fellow-man's tragedy, quite forgetful of the tragedy of your own absurdity!

Yours hastily, "RAGGS."

BOOK REVIEWS BY CHESTER FIELD

THE PORT OF ADVENTURE

The prolog given to this novel by C. N. and A. M. Williamson is, that on a great ship a woman sailed away from the old world, wishing to forget. In her mind was the thought of a far-off place, toward which she was traveling. There were no figures in this mental picture. She painted it as a mere flowery background; for she was very tired of people. In the new world a man lived and worked, and dreamed—when he had time. Between this woman and this man lay six thousand miles of land and sea. They were two among many millions, and they did not know of each other's existence. There was no visible reason why they ever should know. Yet, sometimes when the moon shone on the sea, the woman said to herself that the bright path paving the water with gold seemed to lead on and on beyond the horizon, as if it might go all the way to the Golden Gate. And the Golden Gate is the Port of Adventure, where every unexpected thing can happen. There are three leading characters in the book, Carmen Gaylor, widow of Eldridge Gaylor, the rich rancher, who had married her off the comic opera stage in the City of Mexico; Nick Hilliard, the ranch foreman, and Angela May, Mussions are the publishers.

WITCHING HILL

The Witching Hill estate office was a wooden box with a veneer of rough-cast and a corrugated iron top. The chief duties of its occupant were to look after the letting of empty houses, hear the complaints of the tenants, and keep an eye on paper-hangers and painters. Nice work for an elderly man, but for a hulking youth, fresh from the breeziest school in Great Britain the post was alving death. The Witching Hill estate was a place for crabbled age and drab respectability, and a black coat every day in the week. Life began again one day, however, when young Uvo Delavova, tenant at Mulcaster Park, dropped into the office from another hemisphere, in the white ducks and helmet of the tropics. He complained that he had marked out a tennis court the evening before, and upon returning to it in the morning, he found that the earth had sunk, leaving an absolute hole in the ground about the size of a grave. The estate was near London, and had been formerly owned by Lord Mulcaster, who had committed every crime in the Newgate calendar, and both young men were eager to solve the mystery that cried from this particular back garden, and which resembled, as Uvo said, "a grave starting to yawn." Immediately there was a change in Witching Hill. It became the scene of a series of strange events. There was one suicide; one case of gross intemperance, most scandalous while it lasted; a gang of burglars actually established on the estate, and now the case of attempted arson threatened to put the company to an end as a flourishing concern. The story is brimful of excitement and mystery, and the two young men, agent and tenant, are deeply involved in all the skirmishes and scandals, but escape unscathed in character and the very best of friends.

THE DEVIL'S ADMIRAL

Frederick F. Moore, in his latest book, "The Devil's Admiral," follows very closely the style of Stevenson's "Treasure Island." Captain Riggs had a trunk full of old log-books, and he hoisted any of them upon the wall. He better story than the Kut Sang. He did not wish to write the story. There were things he didn't wish to see in type, perhaps because he feared to read about himself and what had happened in the old steamer in the China Sea. The book is published by Thomas Langton.

Valuable Muskoka Property for Sale.

By reference to our Real Estate columns it will be seen that the executors of the estate of the late J. Herbert Mason are open to receive tenders for the purchase of "Chief Island," Lake Joseph, Muskoka. This island comprises 247 acres, and is one of the most valuable, extensive and beautiful properties in the Lake Joseph district. The property will either be sold en bloc or the residence and its grounds will be sold separately, and the remainder of the island subdivided. This is really one of the most beautiful and attractive spots in Muskoka. Built and maintained by a late and well known Canadian financial man, it is up-to-date in every respect. It commands the attention of anyone who may desire property in that locality.

NO OTHER WAY

By Gordon Holmes (Continued From Yesterday.)

Waverton laughed rather pleasantly. His somewhat hard and severe features changed their expression most markedly when he smiled. Then it was difficult to believe that he could possibly be the man depicted in lurid language by that rhetorical lawyer, Hector J. Hickory, in his "opening" on behalf of the petitioner in "Waverton v. Waverton." "I shall not trouble them long by my presence in Narragansett," he said. "If the opportunity serves, you might give them a hint that I shall be off on Monday to some less popular resort. Meanwhile, I want all meals served in my room. Will you kindly have some strong tea sent up now?"

FRIEDRICH NIETZSCHE

In this interesting work by M. A. Muggs, the writer gives a valuable sketch of the life and principles of the great post-philosopher. Nietzsche was a born artist, his training as a philologist merely increasing his power as a master of form. Disillusioned by certain bitter experiences, oppressed by the monotonous verbalism and the inevitable routine of his duties as a professor of classical philology, Nietzsche, when about 34 years of age, turned from the study of facts. Thereafter his writings show a wonderful blend of the culture of the aristocratic classicist and the science of the hospital biologist. He was distinctively an apostle of the superman, a pioneer of eugenics. This book, which will, above all, bring heroism again into honor, has had in the People's 20-cent edition, Bell and Cockburn.

LEVITY HICKS

"Levity Hicks" is the story of a man who never had a chance in life. From the time of his birth there had been but one future mapped out for him. John Hicks, who all his life had been an accountant for the firm of Notley & Kemp, general merchants, had destined his son, John Levity Hicks, to the same calling. John Hicks carried his devotion to the firm to such an extent as to breed a son to work for it. Five years later another son was born. The mother now asserted herself, and declared that there should be no more Biblical names in the family, and that some lighter and brighter employment for the second-born child should be selected. The life of the one was planned, she was free to arrange for the other. Levity spent his life at the office desk; Horace, for such was the name chosen by the mother, became an actor. He was handsome, pampered, always well dressed, and a constant drain upon the financial resources of his much-loved father. He returned to the office one day and night in the office of Notley & Kemp, and, indeed, often went hungry that Horace might be able to keep pace with the demands of his calling. Levity finally succumbs to the temptation of the open cash drawer. After making repeated entreaties to his brother to return the money, he calls on him for the last time, and in despair begs him to free him from the impending disgrace that is sure to follow the official audit. There was only one thing in the world that he wanted, and that was to live cleanly and decently; his brother had driven him to theft, and, not only that, but he had to be brutal and smirch the soul of the girl he loved; and when this thought came to Levity, he made a sudden spring, as if he would strike him to the ground. "My word, sir!" he said, when his deft hands were busy with sponge and towel, "your illness did take it out of you, an' no mistake!" "Why, don't you think I am as fit as I was?" "Yes, please do; but go easy. I am still sore at the base of my neck and about the lumbar region." Rice was not sure where the lumbar region was; but he had been surprised that his skill as a rubber was not in demand of late, because Waverton, in

BEATING OUT.

Hamilton is a great city. It is burying its wires and opening up its new library, and they do say there is a deal on to take over the street railway and the Cataract Power Company. Toronto has none too big a start. Everybody remembers how Chicago beat out Buffalo and St. Louis and Cincinnati, each once the greatest of its day.

DEGREES AND DESERTS.

Great is the medical profession! We are beholden to them for being born and getting buried and various other interesting and more or less expensive experiences, but they do put it over us sometimes. Nor do they need to pray, as a Scotsman once did, to the Lord to give them a good conceit of themselves. Perhaps we are doing them an injustice, tho' the rumor has gone abroad that Dr. Friedmann, when he arrives today, is to be given a much cooler reception than before, the cooler reason being that he has sold his cure to an American drug firm. But the best evidence the public have yet received that the cure is a cure and not a "specific" is the fact that American business men are willing to put \$1,500,000 into it. There is no need for the doctors to be peevish unless they envy the "drug" firm that bought the cure. If the "cure" is not a cure they do not need to envy anybody, and if it is a cure they will be able to use it, like everybody else, and get the usual reduction for a quantity, no doubt, from the drug men.

"The medical profession, as a profession, is run quite as closely to business lines as any other calling. Individual physicians evince the most generous characteristics at times, just as some business men do. But the general public is aware that doctors' visits, in the main, mean fees. And medical men have such a business conception of life that they decline to let anybody in on their preserves who has not the "high sign" and the pass-word and contributed the proper amounts.

An instance of this is to be found in Ottawa just now, where a new health officer, T. A. Lomer, M.D., C.M., D.P.H. of McGill University, who has taken special courses in pathology and bacteriology and holds as well the diploma of public health, which qualifies him for the office to which he has been appointed, is declared out of the running till he passes the Ontario Medical Council examination. The medicals are quite consistent in their attitude towards Friedmann. He has not passed the Ontario examination and he has made a deal with a drug firm. Even if he should be able to cure people it would be entirely irregular. The public have to be educated up to it; some day possibly they will, but it pains the profession to find that there are still people who object to die from vaccination, quite carefully and regularly administered, and who would not mind prolonging their lives by means of the assistance of a man who had no recognized degree.

RUSSIAN POLICY.

What renders a pacific solution of the Balkan problem more probable than appears on the surface is the restraining influence Russia has exercised on Montenegro. To this is attributable the intimation that a territorial concession may compensate for the loss of Scutari and the exchange may be in no way disadvantageous to the quarter of a million of mountaineers. The possession of their ancient capital is largely a matter of sentiment and they and their allies must also be fully aware that the provocation of a general European war may well have results much less favorable than those to be obtained by negotiation and concession. Many who admire the splendid heroism of the Montenegrins in their struggle to maintain their independence and acknowledge their claim to claim Scutari, perforce admit, however unwillingly, that the peace of Europe is the greater good.

The forbearance of Russia may not be altogether attributable to altruistic motives. The bear that walks like a man is partial to deep laid schemes that conciliate in one quarter while preparing for aggressive action in another more remote. China, just now, with her new Republican government far from consolidated, is more than apprehensive that Russia is preparing to strengthen her hold on Mongolia and Northern Manchuria. Her government is credited with the massing of troops on the frontiers of these provinces and with every other preparation necessary to bring them under control. A war in Europe would remove

THE BRITISH PUBLIC TRUSTEE.

On former occasions The World has devoted some space to the continually expanding business done by the public trustee, a British official, appointed in 1903, thru whom the state acts as executor, or as trustee under any kind of settlement or in other capacities of a like nature. From the beginning the department has been a distinct success, attributable to the recognized public need for such an official, to the fact that the state guarantees his responsibility and to the efficient administration which has been the characteristic of the office since its inception. Another notable feature of the department is the fact that it is not allowed to work for a profit, the scale of fees being adjusted to permit of conduct at cost. The principle is thus identical with that which regulates the Ontario Hydro-Electric Commission.

In April the fifth report of the British public trustee was issued and it again shows the steadily increasing volume of work to which he has to attend. As compared with 1911 it was nearly fifty per cent. greater, and the business accepted during 1912 totalled 1364 estates, with an aggregate value of \$60,000,000. The total value of business of all kinds transacted or negotiated since January 1st, 1908, amounted to no less than \$460,000,000, and the average value of the trusts and estates shows a marked tendency to increase. The obvious inference is that persons of means appreciate the security afforded by a public department, the economy of administration and the opportunity to nominate an executor certain to survive them. For the only appointment needed is that of the public trustee.

The department was originally established to secure the best and cheapest form of administration of small estates and of these there were at the close of last year 1736 under \$10,000, the average value being \$3300. In connection with these small estates one of the most valuable features of the work of the public trustee is the care of children and infirm people. Careful provision has been made for their supervision and the report claims that the advancement in life of a very large proportion of the children has been secured. The public trustee has made it his chief objective, in this connection, to apply the funds that a young man or woman, even the physically handicapped, shall receive a training, by apprenticeship or otherwise, in some skilled trade wherein a livelihood in after life is assured. Valuable assistance has also been rendered the public by placing the organization and experience of the department at the disposal of small investors.

ONE MORE ADDED TO THE LONG LIST

Of Women Who Owe Their Health to Dodd's Kidney Pills.

Mrs. John Cabot Recommends Dodd's Kidney Pills to All Who Suffer from Backache, Headache and Nervousness.

WHITE HEAD PERCE, Que., May 2.—(Special)—As a remedy for women Dodd's Kidney Pills hold an enviable place in the estimation of the people of Quebec, and Mrs. John Cabot, a well-known and highly respected lady, adds her name to the long list of those who stand ready to tell of the good work they are doing. "My trouble," Mrs. Cabot states, "started from a cold, and I suffered for six years. I was always tired and nervous. I was greatly troubled with my back, and as time wore on, neuralgia, rheumatism, and Bright's disease added to my pains. "I had dark circles under my eyes; I perspired freely with the slightest exertion, and my perspiration had an unpleasant odor. "I could find nothing to relieve me till I started to use Dodd's Kidney Pills. I can heartily recommend Dodd's Kidney Pills to all who suffer from backache, headache, and nervousness. "Nearly all women's troubles are caused by diseased or disordered kidneys. Dodd's Kidney Pills bring back youth to women by curing their kidneys."

STRICTEST INVESTIGATION. The startling evidence that many people of the finest homes in Toronto are endorsing the piano-player as they are endorsing their choice, incurs the strictest investigation as to the disposition made of their high grade pianos. It is discovered that these finest products of piano manufacturer—such as Gaurlay, Knabe and Heintzman and others, are on sale at remarkable values in the warehouses of Gaurlay, Winter & Loeming, 188 Yonge street, next to Eaton's. These instruments were taken in part payment for Gaurlay "Angelus" players, and are now being offered at cut prices for quick sale.

LIBEL ACTIONS WILL BE TAKEN

Joseph Bruecker Resents Statements Made in Spanish Newspapers.

NO ATLANTIC FLIGHT But Other Trips Will Be Made During the Summer.

Special Cable to The World. BRITAIN, May 2.—(Copyright)—Joseph Bruecker, who has returned to Berlin from Las Palmas, made the following statement today to The Toronto World correspondent: "The statements in The Madrid Imparcial and other papers that I or anyone connected with my expedition smuggled alcohol is a silly invention, against which I am arranging to take legal steps on the ground of libel. The origin of the silly story was doubtless the fact that among the 1234 bottles of gas delivered by the Tagal branch of the Linde Ice Machine Works 114 were absolutely empty and many others were only half full. Whether this was due to careless handling by the Bremen stevedores or to defective filling I don't know. Anyhow, further waiting at Las Palmas was futile, because it would have taken at least three weeks to obtain a fresh supply, and I could not expect the Spanish authorities to continue to protect the half-filled balloons. "I don't believe there was any leak in the balloon, which, however, has been returned to the makers for an examination. My plans are now uncertain. I shall have a conference with the firm of Suchard, owners of the balloon, shortly and propose to them some experimental trips here during the summer, such as across the North Sea to England or across the Mediterranean or perhaps across the Alps. One thing is now certain, no dirigible airship, except perhaps a Zeppelin, could cross the Atlantic from Las Palmas or the other islands unless a shed was built previously, as it was impossible to hold down the filled envelope while affixing the steering gear, car and other adjustments. I believe a Zeppelin could cross the Atlantic, following the course of the Rhone, to the Gulf of Lyons, thence making further stages to roll at the Canaries, Azores and Bermuda. Non-rigid will doubtless never make a direct trip unless sheds are built."

TO BUILD WORKMEN'S HOMES. GALT, May 2.—(Special)—At the Galt Club tonight, a meeting of representative business men took preliminary steps to organize a house building association under provisions of the new act, which allows a municipality to guarantee bonds of such an association to the extent of 85 per cent. The situation arising from the lack of houses in Galt is acute. Two hundred homes suitable for workmen could be rented or sold at the present time, and the demand is increasing.

CARPENTERS DIDN'T STRIKE. BRANTFORD, May 2.—(Special)—Brantford carpenters did not go on strike here today, as threatened. The association was made that a reply was awaited from the contractors to whom demands had been made. If the carpenters strike two hundred laborers in the building trade will be called out.

SPEEDERS FINED IN POLICE COURT

W. L. McPherson and R. W. Fairbairn Paid Twenty Dollars Each.

W. L. McPherson, 1453 West Queen street, was charged with speeding in the afternoon court yesterday, also with obstructing the road and neglecting to obey an officer's signal. He was fined \$20. For autoing past a standing street car R. W. Fairbairn also paid \$20. The cases of barbers keeping open after 8 p.m. were adjourned until Tuesday, as J. W. Curry, K.C., who is defending the barbers, is seriously ill.

Conservatory Recital. Mr. C. H. Knight, organist of the Avenue Road Methodist Church, and a member of the conservatory faculty, will give a recital of "Modern English Organ Music" in the Conservatory of Music Hall this afternoon, for which most interesting program has been arranged. It is an invitation recital, and cards of admission may be obtained at the conservatory office.

Mr. Lautz's Pupils. Among local musicians, Mr. Henry J. Lautz deservedly holds a very high place in the esteem of Toronto's most cultured circles, and the vocal recital by four of his pupils last Wednesday evening drew a most attentive audience to the Toronto Conservatory. Miss Ada Fellows, soprano; Miss Clara Breckenridge,

#### FEATURE EVENT OF HORSE SHOW

Class For Ladies' Hunters Was Most Interesting of the Week.

#### CHILDREN THIS MORNING

Ponies Will Be Shown For the Benefit of the Younger People.

Another large attendance favored the Horse Show yesterday. In the afternoon the carriage horses had their innings and although they were short on quantity they were long on quality.

The class for ladies' hunters, decided during the afternoon, was the feature of the show to date and the beautiful riding of many of the ladies was roundly applauded.

The Ennislaire Farm entry won in the class for best collection of eight horses, but this class should hardly have been put on, as it is next to impossible to do justice to the different breeds in such a competition.

The competition in class 18, for saddle horses, was very keen between the noted mare Confidante and Last Post, the latter owned by Hon. Clifford Sifton and ridden by Jack Hamilton.

The Vermonts of the Vermont Park League face the champion Red Sox at 4 p.m. today.

#### OFFICIAL INFORMATION CONCERNING O. A. L. A.

Secretary Frank Doyle Reports Busy Days in Lacrosse All Over the Province.

Dave Collins of Dundas has written Secretary Doyle, asking to be grouped in the intermediate series, and the district committee will give him all the necessary attention.

The Fergus Thistles, intermediate champions of the C.L.A. last year, are greatly strengthened this year, and will make a strong bid for the intermediate trophy.

Six hundred certificates were sent out yesterday to the clubs who have paid their membership fees, and next week will see most of these registered.

Today more than 100 gutted stick artists will be in uniform in this town. Lansdownes expect to have about thirty-five players on hand.

Mr. Fawcett of Thornbury will form a team of Thornbury and Clarkburg players, and will compete in the intermediate series with Meaford, Collingwood and Stayner.

An Owen Sound enthusiast was in town the other day and remarked that the Alexandras were delighted with their grouping of Hanover, Durham and Warton.

Herb Wilkins, the 200-pound 20-year-old cover-point of the Owen Sound Alexandras, is working in a bank here, and whoever lands his services will have one of the best defence men in the business.

**WEEK-END TRIPS.**  
When the week's work is over there is nothing more invigorating than a trip to the country, especially at this season of the year, when fields are turning green and trees beginning to show their foliage. For the benefit of the travelling public the Canadian Pacific Railway will issue return tickets at single fare, plus ten cents, from Toronto to many points in Ontario each Saturday, May 3, to Oct. 25, inclusive, good going Saturday or Sunday, valid returning any train up to Monday following date of issue. Secure tickets at city office, 16 King street east. 453

See Nature at Her Best. Spring sings in the blood. It riots in the air. The country lures us with its woods and fields, and the trees reckon with their leafy fingers. Take the advice of those who know and get a wheel, so you can ride out into the sunshine and the open. Hyslop bicycles are selling regularly at twenty-five dollars, and aside from the spring and summer outing, they fit in with your every day work. There will be no more waiting on street corners, no mistaking of cars, no crowding, no missing of four air. You get home sooner and fars saved pay for the bicycle in a short time. ed-7

### THE T. EATON CO LIMITED

### As a merchant are you peculiar?

Is your shop behind the times? The public will think so if you persist in keeping an old-fashioned, dimly-lighted store.

A merchant who expects to draw trade must keep his windows well lighted to show that he is wide awake.

Half-lit windows are like half-shut eyes—they make your store look sleepy.

Electricity furnishes the most favorable light under which customers can shop.

The public appreciate this advantage by giving the bulk of their business to the electric-lighted store.

Our illumination experts thoroughly understand the principle of successful store window and shop illumination, and are at the disposal of merchants who would like specific information and suggestions. Their services are given without charge.

batted for Demaree, singled, scoring two  
runs. Crandall went in to pitch in the  
home team's half. With two out Phila-  
delphia won the game on Kruller's single,  
a pass to Cravath, who batted for Seaton.  
After Kruller's double and Knabe's single  
took Seaton's place, Chalmers, who  
took Seaton's place, ended the game by  
fanning Burns with runners on third and  
second. Score:

#### MILLER'S FINE HITTING

Had a Triple and a Double  
That Both Figured in the  
Scoring.

PITTSBURG, May 2.—After suffering  
five straight defeats, Pittsburg nosed  
out St. Louis this afternoon. By get-  
ting long hits off Griner at the right  
time they won, although the game was any-  
body's until it was over. Hendrix was  
wild, but he kept nine hits fairly well  
scattered, and nine St. Louis runners  
were left on base. Hard hitting by  
Miller won the game for Pittsburg.  
Three batters and two batters figuring in  
the second inning. Hendrix's wildness  
has given St. Louis a run needed to tie  
the score. Miller's triple and double  
and a double play by Butler and Miller  
saved him from further damage with the  
first and third and a run needed to tie  
with two out in the ninth. Viox made a  
fast play on Mowrey's hard smash and  
retired the side. Score:

WASHINGTON, May 2.—Washington  
played faultless ball in the field, bunched  
hits in three innings today, and won  
from Boston, 5 to 4. Grum allowed the  
world's champions but one hit up to the  
sixth inning. Then three singles and  
two bases on balls gave Boston three  
runs, tying the score. Washington bunched  
hits again in the seventh inning, net-  
ting two runs, and Boston in the eighth  
tried to even it up again, but one run was  
all they could score. Score:

Pittsburg Wakes Up and

BROOKLYN, May 2.—Boston evened  
up the series with Brooklyn today by  
hammering out a 4 to 1 victory in the  
ninth inning. The score was tied at the  
end of the eighth after a fine pitcher's  
duel between Tyler and Allen. With  
two on bases in the ninth Martin smashed  
out a long liner to centre, just as the  
base-runners started a double steal.  
Stengel was coming in fast to back up  
an expected throw to second and the ball  
shot over his head for a clean-up home  
run. Tyler pitched a splendid game.

### GLEN STEWART IS BEING SUBDIVIDED

May Go on Market This Year—New Houses Sold Before Roofs Are on.

Surveyors are now plotting out Glen Stewart, Senator Cox's property, on the Kingston road, and while this is not determined, it is quite likely it will go on the market this year. Sixteen thousand feet of frontage will be secured, most of it elevated and overlooking lake and city. Restrictions of a minimum of \$4000 will cover the property. Thirty acres are being reserved by A. E. Ames for his residence. For the 16,000 feet prices will range from \$55 to \$130 a foot, judging from what is being secured in the neighborhood, but prices or date of offering are not fixed. Cox and Cummings will be exclusive agents. The firm, composed of Alfred Cox and P. J. Cummings, are now putting up 28 houses, to sell at \$2800 to \$7500, on Minerva avenue, part of Glen Stewart. Five of these houses, which are opposite the new school, have been sold, although the roofs are not on.

**GALT'S HOUSE FAMINE.**  
GALT, May 2.—(Special.)—The statement was made today that Galt intended 300 new houses for increased artisan population. Building permits for the past month were \$60,000, and for May promise to be double, mostly residences. Notwithstanding that individual enterprise in overcoming the house famine, a committee of representative business men began work today.

### Money Working Slightly Easier

Money has been a little easier the last two weeks, although there has been no perceptible shading off of rates. Loan companies say that people who want money will have to pay high for it and accept loans on small percentages of securities until the fall at least. Small borrowers from private funds can get money with greater ease than a month ago, but, for large borrowers, cash remains scarce. One of the local life insurance companies has placed a mortgage of \$50,000 on the I.O. O.F. Hall, now building on College street, near St. George street, at 5 1/2 per cent.

### LEASE ON LOMBARD AND CHURCH LAND

Synod Gives Twenty-Year Perpetual to Henry M. Stevenson.

A 21-year renewable, perpetual lease has been given to Henry M. Stevenson by the Incorporated Synod of the Diocese of Toronto on the southwest corner of Church and Lombard streets. The lot is 37 by 32.2 feet and the rental is \$1480 a year. The lease dates from July 1, 1913. Rentals on future 21-year periods are to be fixed by arbitration.

### R. W. EATON BUYS BIG AVENUE RD. CORNER

Southeast Corner of Balmoral Brings Forty-Four Thousand Dollars.

The southeast corner of Avenue road and Balmoral avenue has been sold by William R. Wilson to Robert W. Eaton at \$43,875, half cash. The Avenue road frontage is 149 feet and the depth 200 feet. The house on the property is occupied by James G. Worts.

### LIBERALS OF LINCOLN LOOKING TO LOVELACE

Convention Re-Nominates Former Postmaster—Laurier to Speak at Picnic.

ST. CATHARINES, May 2.—(Special.)—E. J. Lovelace, former postmaster of St. Catharines, was re-nominated as the candidate for the Dominion Commons at the Liberal convention for Lincoln county, held here this afternoon. M. J. McCarron, Ald. Thomas Nihan, J. B. McIntyre and Andrew Riddle of St. Catharines, and Robert Thompson of Granby, were also named, but they withdrew. An evening meeting, which was to have been addressed by Hugh Guthrie, M.P., was canceled. It was announced that a Liberal picnic will be held later, probably at Grimby Beach, at which Sir Wilfrid Laurier will be present.

### DART HURLED BY BULL MAN'S HEART PIERCED

VALENCE, Department of Drome, France, May 2.—(Can. Press.)—An infuriated fighting bull in the bull ring here yesterday, shook its head in an effort to rid itself of the steel-tipped darts with which the banderilleros had pierced its shoulder and neck, that one of the darts was torn out of the flesh and hurled among the spectators in the amphitheatre. It penetrated the heart of a young man, who was instantly killed. A moment later the matador killed the bull, and the body of the young man was carried out at the same time as the carcass of the bull was dragged from the arena.

### YORK PIONEERS

The regular monthly business meeting will be held in the rooms, 198 College street, on Tuesday, May 6, at three o'clock sharp. Interesting paper by Rev. R. J. Hutcheon, M.A., on "The Value of the Pioneer Spirit."

### STATE WIDE PRIMARIES DEFEATED

ALBANY, N.Y., May 2.—(Can. Press.)—Governor Sulzer's state-wide direct primary bill was defeated by the assembly early today after a long debate, by a vote of 102 to 87. The vote in the senate on the measure Wednesday was 8 to 42.

In the Shade of Your Own Apple Tree
Doesn't this look good to you?
Isn't this what you have dreamed of again and again?
Prosperity, ease, and comfort. Long, cool evenings in an easy chair in your own orchard.
That's what you've dreamed of, but what have you got? You've got a job? You've got a number on the time-clock. It may even be your time-clock, but that only makes it worse. The only bright spot on your horizon is pay-day, or dividend day, and even that is dimmed by the thoughts of the bills that are due. Your rent, your gas, your groceries, and the countless other expenses of city life.
Aren't you tired of it all? The constant weary struggle that accomplishes nothing? The same weary, soul-sickening grind, the sordidness and the pettiness of it all? Don't you want to get out where the air is clean and sweet? Days of wholesome work, and nights of restful sleep? Don't you want to get miles and miles from the factory whistle, and the clang of the trolley cars?
You do. You know you do. And you will, too, some day, you say. But you've said that before, and you are still in the city, no farther along than you ever were. Can't you see, brother, that it's time to stop dreaming; that it's time to act, time to get some land?
There are plenty of Farm Land opportunities right in this paper every day. They are right in the Want Ad Section of this paper you are reading now. They are all even labeled under the heading of Farm Lands, so you could not possibly miss them if you tried.
Begin answering a few of them today. Begin making active plans, and before you know it you will be sitting beneath your orchard trees and your dream of dreams will come true.
And mention this paper please each time you answer an Ad.

# Stock Markets Continue Drift Lower

## ADVANCE CHECKED TRADING NACTIVE

New York Market Lacked Stimulus of Short Covering Yesterday.

## TORONTO RAILS IN LEAD

Sentiment Cheered by Optimistic European News—Some Weak Spots.

## SOME LOW RECORDS

Further Drop in Timiskaming the Feature—McIntyre Rallies Again.

NEW YORK, May 2.—Speculation reached a state of deadlock today. Extensive covering having been forced by the sharp rise of stocks yesterday, the demand from this source was diminished. Altogether some gains were registered in the early trading, no aggressive efforts were made on the long side, and the market resumed its familiar aspects, with narrow and irregular movements and a sagging tendency. The aggregate liabilities were the largest since 1910.

Commercial failures in the Dominion of Canada during April were more numerous than in the same period of recent preceding years, while the aggregate liabilities were the largest since 1910. The total suspensions reported to Dun's agency last month numbered 135 and supplied \$1,514,969 of defaulted investments as against 107 for \$745,622 in the previous year, 115 for \$1,416,931 in 1911 and only 85 reverses in 1912. However, the amount involved was much less than in 1912, \$3,898,366. The very heavy mortality in the latter instance was due to a few insolencies of exceptional size, while the liabilities this year were distorted by the addition of deferred figures for a large manufacturing default which occurred in March.

Despite the fact that speculation dwindled to very small volume and public interest in the trading was narrow in the extreme, the undertone continued very firm in the Toronto Stock Exchange yesterday. Some anxiety had been expressed concerning the manner in which London would view the sharp upturn in Wall street on Thursday when the old country market was holidaying. As soon as it was seen from the early cable news of Friday that Americans had maintained their improvement, the bulls took heart again and bought stocks sparingly.

MONTREAL, May 2.—Following an early display of activity and strength local stocks became dull after the first hour, but a firm tone prevailed throughout the market and most of the active issues closed with substantial gains. Reassuring news of the stock market abroad gave the market a strong tone at opening. At the close C.P.R. showed a loss, but other active issues as a rule were up. C.P.R. was a quiet feature of today, transactions footing up only about four hundred shares as compared with some 500 on Wednesday. There was a decrease in the afternoon, but the close was firm at 22 3/4, leaving a loss of a little more than one point as the day's change.

Pending the incoming of some new and favorable factor to inspire a broadening in the public interest in the day-to-day trading, the mining market has drifted into a rut. For several weeks stocks have moved up and down in a very perfunctory manner, with the declines on the whole longer drawn out than the successive rallies, so that prices have gradually worked down below their recent levels. As things are now, many issues are considerably below the quotations current during the months of January and February, and the establishment of new low records for the year every little while plainly evidences the fact that the market is still vulnerable to pressure.

A substantial gain in cash by the banks on the week's operations was indicated by known movements of currency. Estimates of the week's gain ranged from \$4,000,000 to \$7,000,000, according to "over the counter" payments on May 1, which may affect the rate on the lower basis, which has prevailed recently. Bankers were of opinion that if the more favorable information for the passing of the Balkan crisis were borne out, the European markets, which were marked temporarily by the reduction in the Bank of England discount rate to 4 1/2 per cent. two weeks ago should be resumed.

## BIG INCREASE IN OUR BOND SALES

Municipal Offerings in April Were Four Times Those of Last Year.

The news concerning the European crisis was, if anything, slightly more cheerful, the continued uncertainty was not calculated to build up confidence. Further improvement was scored in our market by half a dozen of the prominent issues. Brazilian, Toronto Ralls, General Electric and the season. Brazilian gained another half point at 95 1/2, making a net advance of 4 1/2 from Wednesday's low level. The announcement of the appreciation of just 3-8 bid left an advance of 1-2 points to 112 1/2, without improvement. Twin City continued to rise, with a bid of 104 1/4, up nearly a point above Thursday's closing. Toronto Railway was particularly active, advancing 3-8 points to 148 1/2, and closing just fractionally below that figure. The shares sold at 140 on Tuesday. Other firm spots were Dominion Iron, Cement, Mackay and Duluth Superior, but prices for these were little changed.

## MORGAN ELECTED TO MANY BOARDS

Will Be Director in Sixty-Eight Companies—Takes Father's Mantle.

Nothing new developed in the exchanges yesterday, and the speculation was as dull as to be practically devoid of interest. The porcupines small changes were the general rule, and at the close values were pretty closely in line with those of Thursday. Some Extension made a new low record in 2 months at its lowest since last November, but those were the only weak spots. Both have been under pressure for some days. Hollinger at \$7.50, Pearl Lake at 47 and Porcupine Gold at 19 were merely steady. McIntyre moved up to \$3.25 again and wound up bid there.

## LONDON MARKET IN CHEERFUL MOOD

European Outlook Continues Slightly More Favorable—Settlement Is Concluded.

## SLIGHT REACTION IN CANADIAN PACIFIC

Ericksen Perkins & Co. (J. G. Beatty) will sell stocks in reaction after the first hour today, with lowest prices not pronounced. It was merely a normal reaction after a sharp recovery. Losses did not as a rule extend beyond a point. Canadian Pacific was an exception but it should be remembered that it had recovered more than nine points in several days' time and its setback was in order. It was back to 238 1/2, just 2-8 points under Thursday's closing.

## APRIL FIRE LOSS LOWEST FOR YEAR

Gradual Decrease in Toll Exact During the Last Four Months.

## GREATEST DEPTH IN COBALT CAMP

Beaver Will Continue Its Main Shaft to Eight-Hundred-Foot Level.

## FELL FROM WAGON

Yesterday afternoon, near the corner of Yonge and Adelaide streets, E. A. Linton, of 85 Robinson street, an aged expression, sustained a severe scalp wound when he fell from his wagon. He was proceeding along Adelaide street towards Yonge street when, in turning out of the car tracks, his horse slipped on the greasy pavement and in recovering itself jolted the old man from his seat. After about 15 minutes he recovered sufficiently to be driven to the hospital, where his wound was dressed.

LONDON, May 2.—The strength in Wall street yesterday and the absence of unfavorable developments in the Balkans caused a cheerful and higher later the market was helped by good news from Paris, and all sections below the best in some improvement. Finance owing to profit taking the market closed steady. Copper shares were strong features. The settlement was concluded without trouble and money was easier and discount rates were steady.

As usual, a few weak spots served to take away from the general improvement. Winnipeg Railway sold down a couple of points to 205, Bell Telephone at 146 was at its lowest. Some issues lower. As usual, a few weak spots served to take away from the general improvement. Winnipeg Railway sold down a couple of points to 205, Bell Telephone at 146 was at its lowest. Some issues lower.

WINNIPEG, May 2.—The wheat market was quiet and dull and trading in options in prices lower on Liverpool cables. Following the 1-10-11-12-13-14-15-16-17-18-19-20-21-22-23-24-25-26-27-28-29-30-31-32-33-34-35-36-37-38-39-40-41-42-43-44-45-46-47-48-49-50-51-52-53-54-55-56-57-58-59-60-61-62-63-64-65-66-67-68-69-70-71-72-73-74-75-76-77-78-79-80-81-82-83-84-85-86-87-88-89-90-91-92-93-94-95-96-97-98-99-100-101-102-103-104-105-106-107-108-109-110-111-112-113-114-115-116-117-118-119-120-121-122-123-124-125-126-127-128-129-130-131-132-133-134-135-136-137-138-139-140-141-142-143-144-145-146-147-148-149-150-151-152-153-154-155-156-157-158-159-160-161-162-163-164-165-166-167-168-169-170-171-172-173-174-175-176-177-178-179-180-181-182-183-184-185-186-187-188-189-190-191-192-193-194-195-196-197-198-199-200-201-202-203-204-205-206-207-208-209-210-211-212-213-214-215-216-217-218-219-220-221-222-223-224-225-226-227-228-229-230-231-232-233-234-235-236-237-238-239-240-241-242-243-244-245-246-247-248-249-250-251-252-253-254-255-256-257-258-259-260-261-262-263-264-265-266-267-268-269-270-271-272-273-274-275-276-277-278-279-280-281-282-283-284-285-286-287-288-289-290-291-292-293-294-295-296-297-298-299-300-301-302-303-304-305-306-307-308-309-310-311-312-313-314-315-316-317-318-319-320-321-322-323-324-325-326-327-328-329-330-331-332-333-334-335-336-337-338-339-340-341-342-343-344-345-346-347-348-349-350-351-352-353-354-355-356-357-358-359-360-361-362-363-364-365-366-367-368-369-370-371-372-373-374-375-376-377-378-379-380-381-382-383-384-385-386-387-388-389-390-391-392-393-394-395-396-397-398-399-400-401-402-403-404-405-406-407-408-409-410-411-412-413-414-415-416-417-418-419-420-421-422-423-424-425-426-427-428-429-430-431-432-433-434-435-436-437-438-439-440-441-442-443-444-445-446-447-448-449-450-451-452-453-454-455-456-457-458-459-460-461-462-463-464-465-466-467-468-469-470-471-472-473-474-475-476-477-478-479-480-481-482-483-484-485-486-487-488-489-490-491-492-493-494-495-496-497-498-499-500-501-502-503-504-505-506-507-508-509-510-511-512-513-514-515-516-517-518-519-520-521-522-523-524-525-526-527-528-529-530-531-532-533-534-535-536-537-538-539-540-541-542-543-544-545-546-547-548-549-550-551-552-553-554-555-556-557-558-559-560-561-562-563-564-565-566-567-568-569-570-571-572-573-574-575-576-577-578-579-580-581-582-583-584-585-586-587-588-589-590-591-592-593-594-595-596-597-598-599-600-601-602-603-604-605-606-607-608-609-610-611-612-613-614-615-616-617-618-619-620-621-622-623-624-625-626-627-628-629-630-631-632-633-634-635-636-637-638-639-640-641-642-643-644-645-646-647-648-649-650-651-652-653-654-655-656-657-658-659-660-661-662-663-664-665-666-667-668-669-670-671-672-673-674-675-676-677-678-679-680-681-682-683-684-685-686-687-688-689-690-691-692-693-694-695-696-697-698-699-700-701-702-703-704-705-706-707-708-709-710-711-712-713-714-715-716-717-718-719-720-721-722-723-724-725-726-727-728-729-730-731-732-733-734-735-736-737-738-739-740-741-742-743-744-745-746-747-748-749-750-751-752-753-754-755-756-757-758-759-760-761-762-763-764-765-766-767-768-769-770-771-772-773-774-775-776-777-778-779-780-781-782-783-784-785-786-787-788-789-790-791-792-793-794-795-796-797-798-799-800-801-802-803-804-805-806-807-808-809-810-811-812-813-814-815-816-817-818-819-820-821-822-823-824-825-826-827-828-829-830-831-832-833-834-835-836-837-838-839-840-841-842-843-844-845-846-847-848-849-850-851-852-853-854-855-856-857-858-859-860-861-862-863-864-865-866-867-868-869-870-871-872-873-874-875-876-877-878-879-880-881-882-883-884-885-886-887-888-889-890-891-892-893-894-895-896-897-898-899-900-901-902-903-904-905-906-907-908-909-910-911-912-913-914-915-916-917-918-919-920-921-922-923-924-925-926-927-928-929-930-931-932-933-934-935-936-937-938-939-940-941-942-943-944-945-946-947-948-949-950-951-952-953-954-955-956-957-958-959-960-961-962-963-964-965-966-967-968-969-970-971-972-973-974-975-976-977-978-979-980-981-982-983-984-985-986-987-988-989-990-991-992-993-994-995-996-997-998-999-1000.

# The Robert Simpson Company, Limited

## Co-operation in the Matter of Clothes

There was a time, not so many years ago, when each man decided pretty much on the style of what he would wear. The general lines were pretty well fixed and the styles were slow to change. Today the local tailor finds it difficult to follow the shades of fashion which give smartness to clothing, and only in the rarest cases is he able to give the fit and proper set to the clothes he makes without charging a disproportionately large price. Our ready-to-wear clothing for men is excellent in style, sturdy and pleasing in material and has all the finish and much more of the style than the average custom made suit at half again the price.

## Trousers \$1.50 to \$5.50
