The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

|  | M'LE CHRISTINA NILSSON.             |                 |

In the year 1867, Monsieur Ambroise Thomas, the great French Composer, was engaged to write a Grand Opera for the Imperial Opera House of Paris. The subject selected for the occasion was "Hamlet;" the collaborateurs of Mr. Thomas were the celebrated Dramatic authors, M. M. Barbiere and Carre. The announcement of a new work to be produced at the Imperial Opera House, by so renowned a composer as Mons. Ambroise Thomas, and such popular authors as M. M. Barbire and Carre, created great excitement among the critics and operatic habitués of Europe. The general opinion was, that Shakespeare's "Hamlet" was an impossible subject for an Opera. However, the Opera was composed. When the rehearsals commenced it was discovered that none of the PRIMA DONNAS (eminent as they were) could at all realize the ethereal and poetical "Ophelia." Several of them rehearsed the rôle, and gave up in despair. It was then decided, in theatrical parlance, "to put it on the shelf;" and such would have been its fate, but for a happy thought of the celebrated music publisher of Paris, Mr. Hengel, who waited upon Mlle. Christina Nilsson and showed her the score of the Opera. On perusing the same, she became enamoured of the part, and consented to undertake it. The composer, the author, and the opera-world of Paris were delighted. A large sum of money was paid by the Director of the Grand Opera to the Théâtre Lyrique to release Mlle. Nilsson from her engagement at the latter Theatre. We need scarcely inform our readers that the Opera of "Hamlet" is one of the most successful ever produced on the French Lyric Stage; that the French opinion of Mlle. Nilsson was, that she gave a poetic reading to Shakespeare's ideal character—Ophelia—that no other artist of the present day could give, and that the French opinion has been endorsed by the British public. The recent revival of Rossini's "Otello," in which Mlle. Nilsson's impersonations of "Desdemona," and, last week, her marvellous performance of Goethe's "Mignon," has confirmed the opinion created by her in the Opera of "Hamlet," that in the Poetical Lyric Drama, Mlle. Nilsson is without a rival.—THE LONDON "DAILY NEWS," July 4th, 1870.

Messrs. STEINWAY & SONS' Mammoth Manufactory is now conceded to be not only the most perfectly arranged, but at the same time the most extensive establishment of its kind in the world, the Official Revenue Returne as published for the year 1866-'69 having revealed the startling fact, that the number of Pianos sold by them, and the amount of their sales, are Nearly Double those of the next largest manufacturer in America, and exceed those of the twelve largest Piano Makers of New York combined.

STEINWAY & SONS beg to announce A GENERAL REDUCTION in their prices, in accordance with the decline in the premium on gold, and consequent decreased cost of imported articles used in the manufacture of Piano-fortes. In addition to their established styles of Piano-fortes, STEINWAY & SONS, in order to meet a long felt and frequently expressed want by persons of moderate means—teachers, schools, etc., have perfected arrangements for the manufacture of an entirely new style of instrument, termed
