FOREIGN CONCESSIONS COMMUNICATION WITH HANKOW CUT BELIEVED TO BE SAFE

Last Word Was That Fighting Had Been Begun—Foreigners Were in Danger From Stray Shells, Conflagrations and Mob Violence—Imperial Warships Said to Have Raised Flag of the Republic.

PEKIN, Oct. 19.—The foreign legations in Peking have received no despatches from Hankow since 6 o'clock last evening. The last message from the American consul-general, Roger W. Greene, stated only that the fighting had begun. It is believed, however, that the concessions in Hankow are safe, as ten or twelve foreign cruisers and gunboats in the harbor are ample protection, even from the joint Chinese army and navy.

But it will be impossible to prevent stray shells from threatening the foreigners, conflagrations and looting by the rabble. It would be difficult to cordon the concessions, because they are not surrounded by a wall. Only narrow streets cut them off from the densely packed Chinese city.

It is hoped that all the women and children have already been safely removed from Hankow, as it is feared that the defeat of the revolutionaries might be followed by excesses on the part of the mob, careful enquiries indicating that the people have more fear of the revolutionaries than sympathy for them.

Germans Not Engaged.

The German legation at Peking has made denial of the report that German troops had been engaged in the fighting in the streets of Hankow.

The board of communication early last evening received two despatches. One mentioned Shaokan, in Hupoh province, as having been captured by the rebels; the other was interrupted while being transmitted.

A report has reached here that imperial troops have refused to detain at Hankow. Other reports state that the Chinese garrisons took little part in yesterday's fighting. Their inactivity is explained by the fact that a direct fire would have endangered their troops, while a flank fire would have involved a bombardment over foreign concessions.

Signs of discontent at Hankow are subsiding after yesterday's fight. The rebels who retreated because of shortage of ammunition and the arrival of government reinforcements, retired in a southerly direction. Some of them re-entered the native city of Hankow, while others made their way towards Wuchang. The loyal troops were not sufficiently strong to press home any advantage they had gained.

Imperial Troops Well Handled.

WILL BUILD SANITARIUM

Tuberculosis Hospital Assured for Waterloo County.

BERLIN, Ont., Oct. 19.—(Special.)—A sanitarium for the treatment of tuberculosis is now assured for Waterloo County and it will be located near this city. The committee having the work in hand report that they have options on three suitable properties and it is their intention to form a trust to manage its affairs. The retails in connection with the formation of the trust will be left to Rev. F. E. Oberlander, pastor of St. Peter's Lutheran Church, thru whose instrumentality the home for consumptives is becoming a reality.

To prove his great interest in the humanitarian work he erected a tent on his church property and supervised the treatment of a boy who was thought to be incurable and to-day the young fellow is able to walk about and enjoy life.

MORE POWER FOR HAMILTON

Mountain City May Decide to Take 200 Additional Horsepower.

Hamilton is considering taking more power from the hydro commission, and also entering upon the 20-year contract, under which they would purchase their power at greatly reduced rates. The Hamilton board of control waited on Hon. Alan Beck in the city hall yesterday afternoon and listened to the proposition. He said that in taking 200 horsepower, 200 more than at present, the cost would be lowered from \$17.90 per hundred horsepower, to \$17.32, and that the more power taken the cheaper it would become.

The Hamilton council will consider the proposition.

Asiatic Roundheads.

SAN FRANCISCO, Oct. 19.—Short hair has been made the distinguishing mark of the Chinese revolutionists, according to a message from Hankow, received to-day by the Chung Sao Yat Po, which says the revolutionary government has given the male inhabitants of Hankow and Wuchang until Oct. 22 to cut off their queues.

"This means that those refusing to lose their queues will lose their heads," says Neg Hoon Chew, editor of the paper, and one of the local leaders of the Young China movement.

AVIATOR ELY FALLS 50 FEET TO HIS DEATH

Was One of Best Known of American Birdmen—First to Make Flight From a Warship.

MACON, Ga., Oct. 19.—Eugene Ely, the aviator, fell while making a flight at the state fair grounds to-day. He was so seriously hurt that death soon followed.

He was rushed to the hospital in an unconscious condition, bleeding and crushed.

He had just risen from the ground and was making his first turn in a dip over the crowd, when his machine plunged to the ground.

Ely died 11 minutes after he struck the earth. He remained consciousness

Scout Idea of Suicide.

Prostrated with grief and on the verge of collapse thru nervousness and excitement, the dead girl's two sisters, Evelyn and Birdie, are staying for the time being at Herman's restaurant on Yonge-st., and are both under the doctor's care. They scout the idea of suicide and maintain that their sister must have been murdered.

There is no knowledge among her friends and relatives here in Toronto of any love affair or jealousy which might have led to the tragedy, in writing to her sisters, Violet remarked that the reports she had heard before coming to Dillon Port that it was a "rough" place, were true, and the longer she stayed the more she realized how rough it was.

Miss Smith had commenced to teach school here at the opening of the fall term, and had intended to stay till the Christmas holidays, anyhow. She had only been in Dillon Port five or six weeks before her mysterious disappearance.

Mr. Herman, who was well acquainted with Miss Smith, says she never was melancholy, but always quiet and reserved. Her hair was dark in color and she was small and slender in physique. She was 19 years old, and quite clever, having passed her matriculation when she was 15. In languages she was particularly proficient.

Her two sisters are anxiously awaiting particulars of the tragedy, which are expected this morning. If it is found that Violet has been done away with, not a stone will be left unturned to bring the culprit to justice.

Important developments in the case are expected to-day by the dead girl's friends in Toronto.

MADE FIRST WARSHIP FLIGHT

NEW YORK, Oct. 19.—Eugene Ely was one of the best known of American aviators. His reputation was international as an expert, conservative and experienced pilot. He has probably done as much or more than any other American aviator in furthering military experiments with aeroplanes. It was Ely who first made the flight from a warship, successfully starting from the U. S. S. Birmingham, off Norfolk, Va., in November, 1910. Subsequently at San Francisco, on July 18, Ely landed a bomb under the deck of the armored cruiser Pennsylvania, and a few minutes later started at the same point and returned to the aviation field some miles away.

In addition to these feats, Ely had demonstrated aeroplanes purchased for the army at San Antonio, Texas, and carried out scouting experiments in connection with the army at San Francisco. He was highly regarded by the army and navy officers and was a general favorite with all of them. He established a home near San Francisco, and being recognized as a resident of California, altho born in Iowa, was given a commission as lieutenant in the California National Guard.

Ely was 26 years old. He leaves a young widow, a native of San Francisco, and who is at present in New York City. Mrs. Ely is the daughter of the principal of the high school at Corte Madera, Cal. She was overwhelmed and prostrated to-night by the news and could not be seen by any newspaper representatives. Ely joined Glenn H. Curtiss at Minneapolis in June, 1910, and since then has made hundreds of exhibition flights.

BODY OF MISSING TEACHER FOUND IN THE RIVER

Was Discovered a Quarter of a Mile From the House Where She Boarded—Her Sisters Are Positive That Violet Smith Was Murdered.

PARRY SOUND, Oct. 19.—(Special.)—Word has been received here that the body of Violet Smith, the school teacher who has been missing for ten days, and for whom the whole countryside was being searched, has been found floating in the River Shebashekong, about a quarter of a mile from the house of Peter Ramsay, with whom she was boarding.

Capt. Brock Batten of Port Arthur, Miss Smith's brother-in-law, and Wm. Beatty recovered the body, which was allowed to remain in the water attached to a small boat, pending the arrival of Coroner Davis.

Had Many Friends Here.

Miss Violet Smith, who came from Collingwood, had many friends in Toronto, she having lived at 54 McGill-st. while studying at the Normal School, and all who knew her, speak of her in the highest terms. She is described as extremely retiring and diffident, and her failure to pass her final examination last summer is attributed to lack of self-confidence, as she appeared to be clever and painstaking. The cost of her studies was defrayed by a brother, Joseph, to whom she was deeply attached.

Being anxious to undertake the teaching profession, she accepted the opening at Dillon Port in September last.

Miss Smith's mother passed away on Nov. 14 of last year.

Scout Idea of Suicide.

Prostrated with grief and on the verge of collapse thru nervousness and excitement, the dead girl's two sisters, Evelyn and Birdie, are staying for the time being at Herman's restaurant on Yonge-st., and are both under the doctor's care. DID SAFE-BREAKERS FIRE TORONTO BOX CO.'S FACTORY?

Opened Safe in Office of Taylor-Osborne Company, Occupant of Basement, Gives Mystery to Fire Which Threatened Serious Results—Spectacular Blaze in Oil Works.

What looks very like a fire set to cover entry and looting of the safe in the Taylor-Osborne Printing Co.'s office in the basement of Toronto Paper Box Co.'s new building, on the north side of King, west of Bathurst-street, was discovered by L. Spence of 188 Jameson-avenue, as he was running his motor car in West King-st. at 10:55 last night. He turned in an alarm, and when the firemen, with Deputy Chief Noble, entered, they found that an entry had already been forced by a man who was seen walking to the north end of the basement. This man helped the men in with the first lay of hose and they hurried back to the hoist shaft, where the fire was running to the upper floors. A stream was shot up this and another carried up the rear fire escape and the fire was soon subdued.

A messenger was sent to notify the members of the printing firm of the fire, but several hours after the fire had broken out none of them could be found at the scene.

The damage to the box company was \$2500, full covered by insurance.

and that to the printing company was less than \$500.

Safe Was Empty.

After the fire had been extinguished it was found that a little office of the printing company in the basement under the stairs had been entered, the glass door being forced and a small safe inside was opened by someone who knew or was able to manipulate the combination. Everything had been taken save a receipt for an insurance of \$1000 in the Home Insurance Company. The empty cashbox lay on the floor in front of the safe.

The fire bears every appearance of having been set. It started at the foot of the hoist shaft where it would gain the most rapid headway and where nothing appeared as a natural explanation of its origin. The firemen are quite sure that there was a man inside when they arrived. The heavy fall of debris from the upper floors to the foot of the shaft prevented the immediate discovery of any further evidence of incendiarism if such existed.

Motor Truck's Good Work.

This was the third blaze in the city to be attended by the new Seagrave motor truck in charge of Capt. W. F.

DERNA BOMBARDED BY ITALIAN SQUADRON

Forts Destroyed and Turkish Flag Hauled Down—Turkey Votes Confidence in Government.

TRIPOLI, Oct. 19.—The Town of Derna was bombarded October 18 by the Italian squadron. The forts were destroyed before the Turkish flag was hauled down. A heavy sea was running, which prevented the landing of forces, but it is expected that the forces were able to land at both Benghazi and Derna to-day.

Italy Hastens Dreadnoughts.

VIENNA, Oct. 19.—Italy is reported to be hastening the completion of three dreadnoughts, and has ordered 400 tons of armor plate from an American concern, because the Italian works are unable to furnish it speedily enough. It is expected that the ships will be ready for service by the end of 1912.

Turks to Offer Passive Resistance.

CONSTANTINOPLE, Oct. 19.—The chamber of deputies, to-day, by a vote of 123 to 60, adopted a motion to the effect that it had confidence in the government to safeguard effectively the sovereign rights of the Sultan in Tripoli and the integrity of the empire. The chamber also expressed confidence in the cabinet.

The grand vizier outlined the policy of the cabinet with regard to Tripoli and said that it was the government's intention to continue to offer passive resistance to Italy, while persisting in its diplomatic efforts to secure an equitable settlement. He added that the replies received from the powers with reference to mediation were more favorable than generally understood.

The grand vizier said that the government had been accused of knocking vainly on the doors of Europe. On the contrary, he said, the government had found all the doors open, and the results obtained were favorable as would be discovered later. The cabinet had also been reproached for not making reprisals against the Italians in Turkey. The cabinet's attitude was best for the interests of the country. The critics should remember the heavy indemnity France had to pay Germany for treating Germans in France in a like manner.

The object of the government was two-fold: to resist, and at the same time have recourse to diplomatic means. Should the Pacific endeavors fail and Islam be endangered, he would defend the fatherland to the last drop of blood. The grand vizier opposed the idea of ceding Tripoli for a monetary compensation.

MACKAY AT HELM CENSUS BASIS OF CAMPAIGN

Conference of Provincial Liberals Results in Endorsation of Leader and Attack on Whitney Government's Colonization Policy—Meeting Was Apparently Unanimous

The leading Liberals of the province, to the number of about thirty, assembled yesterday afternoon in the reform headquarters here to discuss the provincial situation and size up their chances. They also discussed the Hon. A. G. MacKay, and just before adjournment the caucus unanimously passed a resolution of confidence in his leadership.

The caucus was attended by all the Liberal members of the legislature and by the Liberal candidates who have already been nominated for the coming election. Mr. MacKay was also there. From what could be gathered later the meeting was fairly harmonious.

A statement was officially handed out in the evening by C. M. Smith of Sault Ste. Marie and was as follows: "The unanimous conviction was expressed that the Whitney government had failed to live up to the expectations of the people of Ontario. The census returns just published, coupled with the conspicuous inability of the administration to take advantage of its great opportunities in the north-country were cited as evidences of the necessity for a change of government at Toronto."

"It was felt that the agricultural policy of the Whitney government so far as old Ontario is concerned and the colonization policy for the agricultural lands in New Ontario is entirely inadequate. The census returns show that the Whitney policy has not only retained the natural increase in the rural population of old Ontario, but has absolutely failed to secure any part of the large immigration for either new or old Ontario. So much so that the rural population of the whole province has actually decreased during the regime of the present government."

"Before adjournment on motion of Mr. Daniel Reed, M.L.A., for Wentworth and Mr. J. D. Elliott, M.L.A., for West Middlesex, the caucus passed an unanimous resolution of confidence in the leadership of the Hon. Mr. MacKay."

FISHER TO COME BACK.

MONTREAL, Oct. 19.—It is understood that the Hon. Sydney Fisher, minister of agriculture under the Laurier regime, will re-enter the political arena and that Mr. B. H. Bevin, member-elect in Shefford, will resign his seat to make way for his return.

Will Pack the Princess Theatre.

From reports of the advance sale for Maude Adams' engagement in this city next week, the Princess Theatre will be packed at every performance. Local theatregoers are anxious to see Miss Adams in the novel role of "Chanticleer."

A Clean Sweep.

OTTAWA, Oct. 19.—(Special.)—The Dominion Government is believed to be planning a clean sweep of three big semi-permanent commissions, established by the Liberal ministry. These are the international waterways commission, Canadian section, of which Sir George Gibbons of London is chairman; the national transcontinental railway commission; and the board of management of the Intercolonial Railway. The new men who will take the places of the present commissioners have not yet been chosen, but The World is informed that they will be men of proven ability, the most eminent men in their way that Premier Borden can induce to take office.

No decision has been reached as to the beginning of the promised departmental investigation. The probability is, however, that the enquiry will begin with the public works department, which Hon. F. D. Monk has discovered to be in a hopelessly chaotic state. The probe will likely be in the hands of a judge or a royal commission.

FRIDAY MORNING

MRS. HUNTER UNDER FIRE
STUCK FIRMLY TO GUNS

Architect Denied His Evidence
 Glashed With Previous Testi-
 mony—Battle Over "Extras."

"I am giving the straight facts, the best I can without any intention to screen or exaggerate," declared Architect E. J. Lennox yesterday before Judge Latchford, when H. L. Drayton, K.C., counsel for the corporation, attempted to shake his evidence by a severe cross examination made on the claim of \$21,000 for adjusting extras of the many city hall contracts, and Mr. Drayton strove to show that this was part of the architect's duty under his contract with the city, and that it was the usual duty of an architect.

Mr. Lennox claimed that the contract was not a usual one, but a special one. He admitted that the point had not been brought up by him until 1910. "Didn't you know it was necessary for council to pass upon the recommendations of the building committee?" asked Mr. Drayton, going into the matter of the authority under which Mr. Lennox acted.

"No, not for some time," replied the witness. "Not until Mr. Bigger told me that I should have written the contract with the council. I thought the building committee was supreme in these things."

"Can that your understanding of civic matters? Were you never interested in civic politics?"

"Never."

"What I understand that you were a 'king-maker' and a destroyer of kings."

"Which particular 'king' did Mr. Lennox make?" asked Mr. Cowan.

"I never knew I had that honor," declared Mr. Lennox.

"Do you not swear, after all you have told us during the past few days, that you were not aware of the civic machinery?" asked Counsel Drayton.

"I did learn, to my cost, that there was civic machinery," replied the witness.

His Feet Were Cut.

Mr. Lennox stated that when it was decided to build a larger building, he received a verbal agreement that he was to receive 15 per cent. for architect's fees instead of the 4 per cent. promised on the \$400,000 plans. This, he claimed, was done in council, when the report went up.

"Did you protest?" he was asked.

"Yes, you produced the protest?"

"No, it is down in my claim."

"Yes, you put it down in your claim when these men are dead and buried?"

"Then the minutes will show it?"

"There is very little in the minutes about it. The minutes were very badly kept."

"Do you mean to insinuate that in 1897 there was any reason for withholding the truth?"

"No."

"Yet in April of that year you stood up in council and made a protest against your fee being reduced, and there is nothing about it in the minutes."

"The council was unanimous against the reduction of my fee."

Mr. Drayton asked the witness if he suggested the insertion of the clause in the contract as to his action as architect for the city with the contractors, upon which he bases a large claim. He declared that he had not.

"Did you refuse the time to do this work under your contract as architect?"

"No."

"Do you consider that under the circumstances of your evidence and on the question of morals you can force payment of this claim?"

"I must certainly refuse."

"You did not think of making this claim until the occasion arose?" interrupted his lordship.

"No, not until the occasion arose."

"There is a letter here in which you say 'I have no objection to your relieving me of the responsibility' contained in the contract. Do you admit that it was your responsibility?"

"Again Judge Latchford interrupted—"His evidence is that it was his responsibility, but not his duty."

Mr. Lennox's income.

Dealing with the question of Mr. Lennox's income, Mr. Drayton read the architect's statement in an examination in 1906 that his income was \$6000 a year. He compared it with the statement made Tuesday that in 1909 he was making \$20,000.

"How do you account for that, Mr. Lennox?" asked the counsel. Mr. Lennox did not account for it.

"Was the city hall not a godsend to you, Mr. Lennox?" was the next question.

"No, it was a detriment, and nearly ruined my business and reputation," replied the witness. He then admitted that his books could not show \$10,000 a year in 1909. The books were not completely kept, he stated.

In refutation of Mr. Lennox's claim that he had developed the task of hiring workmen, Mr. Drayton read letters showing that Clerk of Works Hunter and others were attending to this work.

The inclusion of Hunter's wages for three years in the city pay sheets was some into. A letter was read from Mr. Lennox's solicitors advising that the city retain Hunter's services. Mr. Lennox claimed that Hunter had no duties in connection with the Elliott & Neilson contract.

"Can you not see that if what you are saying in the box to-day is true, then what is written in those letters of your solicitors and yourself is untrue," Mr. Lennox did not think so.

Conflict of Evidence.

Some history of charges preferred against Mr. Lennox by Hunter were then introduced by Mr. Drayton, who quoted copiously from the police court records. He could not see how the evidence there given, and the evidence given at the present trial could coincide.

"Do you always swear according to your interest in the case?" he asked in a honeyed tone.

"I am giving straight facts, the best I can, without intention to screen or exaggerate," declared the witness.

"And do you expect to win your claims on such evidence as it appears you have given?"

"I expect to be paid for every service I rendered in connection with the building of the city hall," was the heated reply.

"Asked if he contributed any money to the fund to get out the pamphlet that so worked on the citizens when the extra money by law was put, he declared that he had contributed \$2000.

"Why?" queried Counsel Drayton.

"A number of other contractors did so, and I believed I had a perfect right to do so. The money was for the purpose of advertising. At the time

STILL KNOCKING CENSUS

Montreal Claims 25,000 More Than It Is Credited With.

MONTREAL, Oct. 19.—Judging from the inquiries received and the complaints made at the assessment department, the present population of the City of Montreal is about 25,000 short of its actual population, at a conservative estimate. This statement was made to-day by P. W. Collins of the municipal assessment department, in discussing the returns from Ottawa.

Mr. Collins also said that the best method of taking census in cities was thru the assessors. The assessment department had a complete list of the houses in town, and the assessors would prepare cards for each house for filling out. This was a scientific plan, and omissions could be readily detected.

"If the census enumerators had even come to us after they took the returns we could have checked the figures and told them of omissions."

Mr. William Bobb, the city treasurer, said that the assessment commissioners were going to recommend to the board of control that they should be instructed to take an annual census of the city.

Dr. Louis Laberge, medical health officer, said that according to his estimate the enumerators were at least 4000 short in their count.

NOT LENNOX'S SEAT

Member for South Simcoe Will Not Retire for Mr. White.

Haughton Lennox, M.P., writes The World from Barrie:

"Dear Sir—In your Ottawa special, published to-day, you say:

"The seat for the minister of finance has not yet been selected, although there is no less than three in sight. Best Middlesex is one, Halton is another, and there is talk to-day of a possible opening in the Conservative riding of South Simcoe. Haughton Lennox, it is stated, may go to the high court in Ontario."

There is no justification for this statement so far as it relates to South Simcoe. "Best" in the "in sight" means three (ridings) in sight, awaiting the minister of finance, but South Simcoe is not one of them. Neither is my retirement from public life "in sight," as suggested, and whenever, from any cause, that event occurs, I will, myself, as in the past, select their representative.

SURFACE CARS MUST GO.

BOSTON, Oct. 18.—"The time is rapidly approaching when surface street railway cars in all the large cities will be replaced by subways." So says Chief Engineer Davis of the Boston Transit Commission, and Chief Engineer Kimball of the Boston Elevated, operating all the Boston lines, surface and otherwise, agree with him.

"As the American cities grow," continuing Mr. Davis, "there will be no room in the downtown streets for surface cars, and the manner in which the people use the cars nowadays provides ample traffic to pay interest and profits on subways."

C. P. R. Improvements.

MONTREAL, Oct. 19.—The Canadian Pacific Railway announces that they will spend over five million dollars in hotel extension and rebuilding. Practically the whole system from the Atlantic to the Pacific Ocean is having extensive extensions and alterations made and the improvements include the splendid new hotel now being erected at Calgary.

Served for Thirty-Eight Years.

KINGSTON, Oct. 19.—(Special.)—On the resignation of G. M. MacDonnell as their solicitor, the trustees of Queen's appointed Frank King in his place. Mr. MacDonnell also resigned from the board after service of thirty-eight years. Dean Dupuis, Judge McTavish of Ottawa and J. Macdonald Mowat of Kingston, were appointed members of the board.

Port Mann's Future.

It is announced that the city site of Port Mann, the C.N.R. terminal on the Pacific coast, will be shortly placed on the market. The handling of both railway and steamship traffic at this port has been planned by the company, and when his eastern and western lines are linked together, it is expected that Port Mann will be one of the finest terminals on the continent.

Farmers' Bank Sues Lloyds.

Two writs, of \$25,000 each, have been issued by the Farmers' Bank of Canada against 12 defendants in London, England, members of Lloyds.

These amounts are in connection with the losses incurred by the bank thru W. R. Travers, the former general manager, and are over and above any amount recoverable from the U. S. Fidelity and Guaranty Co.

A Likely Candidate.

KINGSTON, Oct. 19.—(Special.)—J. E. Freeman, a prominent farmer of Frontenac County, is spoken of as a likely candidate for the Ontario house. The county Conservatives will meet on Saturday afternoon.

MAYOR LAID THE STONE.

MONTREAL, Oct. 19.—An interesting ceremony was performed here to-day, when Mayor Guerin laid the corner stone of the new building which is to be erected by the Montreal Herald, at the corner of Craig and Alexander streets. Interest was added to the event by the fact that it was the 100th anniversary of the foundation of The Herald.

SPROULE FOR SPEAKER

Member for East Grey Selected at Cabinet Council.

OTTAWA, Oct. 19.—(Special.)—Dr. T. S. Sproule will be speaker of the house of commons in the twelfth parliament. This was decided upon at a cabinet council held this afternoon. His "election" takes place on the first day of the new parliament.

The East Grey member was in Ottawa to-day and there were also here a number of other Ontario members, with whom the question of the Speakership was discussed. Dr. Sproule has sat in parliament since 1878 without a break, and is one of the best authorities in the house on parliamentary procedure.

The deputy speaker will probably be Pierre Blondin of Champlain. Mr. Blondin was first elected in 1908. The election of an English Speaker in the commons may mean that the senate Speakership will not go to Senator Kirchhoff after all, but to a French senator.

PUBLIC NOTICE

Widening of Crawford Street

Public notice is hereby given that the Municipal Council of the Corporation of the City of Toronto proposes, after the expiration of one month from the date of this notice, to pass a by-law to widen Crawford Street, in the City of Toronto, by setting aside certain lands at the northwest corner of Crawford Street and College Street, as and for part of College Street.

The said by-law and plan showing the land to be affected may be seen at my office at the City Hall.

FRIDAY MORNING, OCT. 20, 1911

THE FLOUNDERING GLOBE.

Before The Globe can charge a supporter of protection, under present world circumstances, with "floundering in theories," it had better dry its own garments. It professes to believe in free trade and indeed develops so much unnecessary warmth in the process as almost to prompt the suspicion that it has little faith in the doctrine it upholds.

In the latest editorial to which reference is made, The Globe asserts that in "countries of lavish wealth like Canada and the United States such burdens can be carried, but they bring down industrial conditions in France and Germany to a level the British workman would not tolerate."

NORTH TORONTO ANNEXATION.

There can be no doubt of the change of opinion on the question of the annexation of North Toronto. The postponement of the plan has led to disclosures which make an early agreement imperative.

It requires some force of character for a public man to change his mind in the face of the storm of criticism having a petty consistency in view. But there are several of the aldermen who can change their minds when they see good cause. A better understanding of the finances and the actual requirements of North Toronto makes it evident that the suburb would be no burden to the city, but on the contrary would be an asset.

Controller Church has stated his intention to move for a reconsideration of the question, and Ald. McCausland has also agreed to support reconsideration. Probably Ald. Anderson, Ald. Maguire, Ald. Sweeney and others will do so. Indeed it is difficult to see why there should be any objection to the part of any alderman to reconsider a matter so important and so germane to the city's welfare.

With reconsideration will come the presentation of many new phases of the question which it will be safe to leave

to the council to judge on the merits of the case.

It is possible that if reconsideration cannot be effected on account of technical rulings, a new recommendation for the annexation of the North Toronto territory with the addition of Moore Park as proposed by Ald. May some time ago, would bring about the same purpose. At all events the question should come before next council, and if it be given a fair hearing, there is little doubt of the result. Toronto cannot afford to have Yonge-st. blocked to the north with railway freight lines, nor the street franchise given away independently of the city's interests.

BRITISH STREET RAILWAYS.

At the recent Glasgow Conference of the British Municipal Tramways (street railways) Association, interesting and instructive discussions took place on various phases of the transportation service. A few of the opinions most largely held by the men responsible for the street railways of that country are thus summarized by the special correspondent of The Municipal Journal of London, England.

Mr. W. J. McCombe, manager of the Hull City system, pointed out some striking differences between the principles actuating the running of municipal systems and those actuating the private companies. It was claimed that municipal street railways should be run on what are called "ordinary business lines." What are these lines? Companies were set out for dividends. They used communities for the purpose of recouping the outlay of shareholders, but they had no special interest in these communities. On the other hand, municipalities had to bring their street railway undertakings into harmony with the municipal idea, which included consideration for the well-being of the community as well as the desire for dividends.

Ottawa appears to be an attractive spot these days for Conservative members from Ontario. The Conservative capital yesterday, were Major Sam Sharpe of North Ontario, Dr. Sproule of East Simcoe, John Best of Dufferin, Mr. Henderson and Col. Clark. Departmental business is occupying their attention, but the negotiations over the nomination of a constituency for Mr. White have not yet been completed.

There was a rumor in Orangeville yesterday that John Best, M.P. for Dufferin, may retire in order to provide a seat for Hon. W. T. White. It is said that many of the electors would be opposed to such a move and that if Mr. Best retires, D. C. Hosack, who once lived there, will be offered the nomination, his by-election issue being the No. 2 Temers decree.

WELLAND CONSERVATIVES.

NIAGARA FALLS, Ont., Oct. 19.—(Special.)—The county Conservative convention will be held next Thursday to nominate a candidate for the legislature. Altho those who should know say E. E. Fraser will be re-nominated, Dr. F. W. E. Wilson's name is mentioned by some as a possible candidate. The Star gives the World credit for its alacrity in getting to the front. But we do not expect the likelihood of invasion from James Bay.

BALLOON BLOWN OUT TO SEA.

DUMFRIES, France, Oct. 19.—A balloon left St. Cloud last night and was blown out to sea. It eventually dropped into the water and the three passengers were rescued by a trawler after clinging to the car for more than two hours.

STEAMER TO REPLACE OLCOTT.

A new passenger boat will be seen on the waterfront next season. The boat will be built by the Olcott Beach Line, to take the place of the steamer Olcott, which was only leased by the company for last year. The new steamer will be much larger than her predecessor, but her exact dimensions have not been decided yet. The boat will be built on the Detroit River.

WILL NOT CHECK TRAFFIC.

According to Station Supt. Beck the depot will not be handicapped by the building operations of the new structure. Mr. Beck is of the opinion that switches will be run from Yonge-st. to carry in the supplies needed for the new structure. He went on to say that when the time came to use the new station every-thing could be arranged in such a way as to cause no delay or inconvenience to the traffic.

PORT McNICOLL

THE NEW C.P.R. EASTERN TERMINAL ON GEORGIAN BAY, at TORONTO'S BACK DOOR 117 MILES FROM TORONTO

History repeats itself. What Port William, Port Arthur, and Owen Sound are to-day, Port McNicoll will be in a few short months.

People of Ontario—People of Toronto. We do not ask you to accept the statements made in this advertisement. We do ask you for your sake and your pocket's sake to interview anyone you may know connected with railway work, get what information you can from them about Port McNicoll. Then see us.

We have in our offices maps and photos showing the immensity of the work being so rapidly pushed to completion by the C.P.R. We ask you to see and look these over—it will pay you. We will also show you the best located lots in Port McNicoll. Lots that are situated in the heart of the busiest district. We are selling them at a price that will reimburse you more than fourfold. You do not need a heavy cash deposit—the lots are not high priced.

A little intelligent head work on your part will convince you beyond the shadow of a doubt that Port McNicoll will grow into a City, and an important City at that.

We venture to say Port McNicoll in 1915 will have 15,000 people. Buy your lot to-day. We have sold to date 45 lots. Prices range from \$175 to \$250. Terms, 35 p.c. cash.

OUR GUARANTEE. We guarantee the title to our lots in Port McNicoll to be perfect. We guarantee to furnish a good and valid deed to each purchaser of a lot or lots in Port McNicoll.

We guarantee to pay all expenses, both for time and money expended if any person who upon investigation finds that we have stated anything in printed literature or written letter materially at variance with the facts in regard to Port McNicoll.

We guarantee to return all money paid to us if conditions are not as represented in our printed matter and written letters.

At trial the action was dismissed with costs. Appeal partially argued but not concluded.

DO CENSUS FIGURES LIE? Dominion Government's Estimate Away Below Might's Directory. From figures supplied The World yesterday by John C. Gardner, president of the Might Directories, Limited, it would appear that the Dominion census was not fairly taken in Toronto. According to Might's Directory, the last July the population of Ottawa was 50,798. The Dominion census gives 86,340. Might's Directory estimated Toronto's population in January last at 424,072.

Presuming that Toronto was over-estimated proportionately, as Ottawa was, its population, as shown by the 1911 census, should have been 408,221, but instead of that the figure were 376,240.

SERIOUS OBSTACLE WITH DRAWN. LONDON, Oct. 19.—It is officially announced that as a result of a final conference to-day between Chancellor Lloyd-George and the representatives of the Friendly Societies, at which concessions were made by the societies, opposition to the chancellor's national insurance bill, which has been a most serious obstacle, has been withdrawn and the support of the societies pledged. The bill will be taken up when parliament re-assembles on Oct. 24, and pushed thru.

GAS VICIM IDENTIFIED. At least 15 witnesses will be on the list when the inquest into the death of the men who perished in the gas factory at the Occidental Hotel, West Toronto, is continued at the morgue to-night.

The casket in which George H. Knowles, one of the victims, had been interred, was opened at the cemetery yesterday and the remains identified as those of a man of that name, who lived at Notch, Franklin County, Me.

Motorist Killed. SIOUX CITY, Iowa, Oct. 19.—Elly Pierce, motor car driver, was instantly killed this afternoon, when his Colby machine crashed into the fence while he was speeding at Woodlawn Track. Pierce was practicing for the race meet which opens to-morrow. His home is said to be in Indiana.

OBITUARY.

William L. Marshall. After an illness of about a year's duration, William L. Marshall passed away yesterday morning at his late residence, 75 Grange-avenue.

Deceased was a well-known contractor and real estate agent, and was active in Toronto business circles. For many years he was the town assessor in Port Perry, and for some time acted as representative of the Massey-Harris Co. in Dundalk, Ont. He is survived by a widow and two children, Mrs. Robert Coulter of New York City, and William A. Marshall, a traveler of the Adams Co., Winnipeg.

The funeral will take place at Port Perry to-morrow.

Gordon Sinclair. Gordon Sinclair, B.A., passed away on Wednesday, after a lengthy illness, at his father's residence, 3 Palmerston-square. Mr. Sinclair graduated in arts from the University of Toronto, and had completed his third year in medicine.

The funeral will not be held till early next week, being postponed till the deceased's mother, who is now crossing the Atlantic, shall arrive in the city.

William Train. William Train, a well-known lumberman of Burk's Falls, who has lately been living with his son of 46 Dear-bourne-avenue, passed away from the effects of gas poisoning received from a gas jet which had not been turned off

Wheat Market Starts Off Well But Fails To Hold the Advance

Prices Reach New Record Early in Day, But React Later—Closed Unchanged for Session—Corn Easier.

CHICAGO, Oct. 19.—An immense business was done to-day in wheat, notwithstanding the price range was narrow. Longs were apparently taking profits and waiting for the gain in futures. Compared with last night, closing figures varied from 1-2c lower to 3-4c advance. The end of the session left corn unchanged to 1-2c and 1-4c down, oats a shade off to a like amount higher, and hog products slanting from the wind-up 24 hours before to 7 1/2c above.

The key to the situation in the wheat trade seemed to be the fact that there had been no milling call worth mention since the recent bulge began. Nevertheless, there was a great deal of covering of short wheat to-day and much fairly enthusiastic new buying. A good share of the purchasing resulted from the fact that in North Dakota, where only 25 per cent. of the crop had been done, with much of the crop there being ruined and a prospect of decreased acreage next year, the conditions in the state would be grave, and according to some authorities, the most serious in the country had ever experienced. The official forecast, however, was for clearing weather in that section.

Steady Tone at Finish. Bearish advices from Russia and the Argentine exercised also a somewhat restraining influence in keeping the market from becoming overbought, despite alarming reports of good grading in the Canadian Northwest. The net result of the opposing influences was a steady tone at the finish. Between the opening and the close, December fluctuated from \$1.00 7/8 to \$1.01 1/8, with the latest sales \$1.01 1/8, precisely the same as last night. The market was for clear, cool weather, the sort needed to mature kernels and promote heading, calmed down the nervousness of shorts in corn. December ranged between 55 1/4c to 65 3/8c and 56c, closing steady at 55 1/4c to 56c net, lower at 55 3/8c to 55 1/2c. Cash grades were in light supply. Oats Show Slight Gain. Oats were sustained by the largeness of the discount at which the spot grain was selling under corn. The width of the separation was said to be unprecedented so long after harvest. Upper and lower limits touched by the December option were 47 3/4c, with the close at 47 3/4c, a net gain of a shade. Fear that hog cholera would reduce supplies at the yards made the livestock market firm. In no case, however, did prices rise more than 7 1/2c net.

Northwest Receipts. Receipts of wheat in cars at primary centres were as follows: Week ending To-day, ago. Chicago 186,221 186,221 Duluth 186,221 186,221 Minneapolis 186,221 186,221 Winnipeg 186,221 186,221

European Markets. The Liverpool market closed to-day unchanged to 1/4c higher than yesterday, wheat, and 1/4c to 1/2c higher on corn. January closed unchanged on wheat, Berlin, 1/4c higher and Buda Pest, 1/4c higher.

Winnipeg Inspection. Winnipeg receipts of wheat to-day graded as follows: No. 1 northern, 20; No. 2 northern, 18; No. 3 northern, 25; No. 4 northern, 12; winter wheat, 8; feed, 5; rejected, 4; total, 82; cars, 50 cars, 15, and flax, 15.

Argentine Estimates. The weekly Argentine estimates are given as follows: This week Last week Last year. Wheat, bush 300,000 472,000 800,000 Corn, bush 3,280,000

Liverpool Wheat Market. LIVERPOOL, Oct. 19.—The strength in America yesterday and the continuing poor grading of arrivals at Winnipeg led to outside buying and values were 1/4c to 1/2c higher, but this strength was largely offset by the continued free offerings of new plate wheat and the rain in the west of Argentina. Buenos Ayres advance was due to American strength and shipments from there are expected to be double of last week, northern, 10c; Russian offerings. Following the opening there was some disposition to cover the advance in spot and an increase in demand for cargoes, which are 1/4c to 3/4c advance and prices gained an additional 1/4c to 3/4c from the opening. At the close the market was 1/4c to 1/2c above last night.

Primaries. Wheat—To-day, Yr. ago. Receipts 1,083,000 81,000 Shipments 451,000 511,000 Corn—Receipts 445,000 496,000 Shipments 253,000 200,000 Oats—Receipts 542,000 542,000 Shipments 373,000 373,000

Damage in North Dakota. Minneapolis—There is only about 25 per cent. of wheat threshing done in North Dakota and no flax cut yet. What wheat is left being threshed by rain, only 15 per cent. of the plowing is done; they have to do it all in the fall, as they do not have the time in the spring. They say it means reduced acreage next spring. It's the most serious situation ever experienced.

Our Western Crop. MONTREAL, Oct. 19.—James C. Cartwright, the grain man, wires: There is enough wheat in interior elevators awaiting shipment to keep the market steady, but the way wheat is threshing out in the northwest looks like it might run 180,000,000 bushels.

ST. LAWRENCE MARKET. Receipts of farm produce were 600 bushels of grain and 30 loads of hay. Wheat—Three hundred bushels sold at 80c to 90c per bushel. Barley—Three hundred bushels sold at 80c to 90c per bushel. Hay—Twenty loads sold at \$17 to \$21 per ton.

EXPORT TRADE ACTIVE. Foreign Demand for Manitoba on Better Basis—Some Business Done. MONTREAL, Oct. 19.—There was an increased demand from foreign buyers for Manitoba spring wheat for prompt and nearby shipment, and sales of over 40,000 bushels were made at an advance in prices of 1 1/2c to 1 3/4c per quarter, but the bids for Nos. 1 and 3 northern for December-January shipment were all the way from 2c to 4c per bushel out of line, based on the closing price of the October option. There was also good demand from New York houses, and sales of a number of loads of feed wheat were made.

Chicago Live Stock. CHICAGO, Oct. 19.—Cattle—Receipts, estimated at 6,000; market, strong; beefs, western steers, \$12.25 to \$12.50; culls, \$8.75 to \$9.25; cows and heifers, \$6.75 to \$7.25; calves, \$10.00 to \$10.50; hogs—Receipts, estimated at 20,000; market, strong to 10c higher; light, \$6.00 to \$6.25; heavy, \$5.75 to \$6.00; pigs, \$5.25 to \$5.50; mixed, \$5.00 to \$5.25; sheep—Receipts, estimated at 32,000; market, steady; native, \$2.25 to \$2.50; western, \$2.00 to \$2.25; lambs, native, \$3.75 to \$4.00; culls, \$2.00 to \$2.25.

St. Lawrence Market. Receipts of farm produce were 600 bushels of grain and 30 loads of hay. Wheat—Three hundred bushels sold at 80c to 90c per bushel. Barley—Three hundred bushels sold at 80c to 90c per bushel. Hay—Twenty loads sold at \$17 to \$21 per ton.

DECIDED REDUCTION IN OUR MILLING WHEAT

Chicago Hears Discouraging Reports from Canadian West—Brokers' Comment.

J. P. Bickell & Co., from Logan and Bryan: "There was some hesitation about taking hold of the buying side of wheat this morning around 8:00, the same as there was yesterday morning around par. The trade in a way expected a little more reaction than was recorded. It must be apparent to everyone that the public is showing a much larger interest in this trade than for some time. The bullish conditions which have been developing and have been apparent to some of the local leaders, are so better understood. Leading local houses had some very bullish returns from inquiries sent out over Canadian territory, claiming that the weather in the probable volume of choice milling wheat.

Conditions for this corn trade were about as bullish to-day as they were yesterday. The secret of the greatest strength came from the fact that the corn prices were 1/2c to 1 1/2c up yesterday and there was further advance of 1/2c to 1c for corn on the 10-day. A group of leading traders friendly to the buying side saw the strong position of the market and decided to buy. The result that a considerable short interest was stamped to cover. A leading house sold 100,000 bushels of top, and market had 1/2c to 3/4c reaction from best figures. Some of the new corn arriving here and at Florida is showing less moisture than a few days ago. Corn traders cannot ignore the importance of weather conditions for the balance of the month.

There was no important action in the futures market for the day. The market was limited to \$5,000 bushels. Market reacted a little with the easier feeling in the No. 2 inspected steers and cows. Provisions—Offerings in the provision market were limited for this reason and bulls, but the volume of covering by outside shorts to give prices a fairly strong upturn during the morning. Calicains, per lb. 12 1/2c. Lambkins, each 10c to 11c. Horses, No. 1, per lb. 3.00. Horses, No. 2, per lb. 2.50. Horses, No. 3, per lb. 2.00.

Winnipeg Wheat Market. WINNIPEG, Oct. 19.—The wheat market was active and strong, the short interest covering the market. The market gradually reacted to the fact that the weather was passing. An expanded number of points was a contributing factor to the market. Cash wheat was wanted, but higher grades were more liberal. Receipts were very light for to-day, and offerings were in sight. Farmers not showing the disposition to hold to wheat, but to sell. The volume of trade for two weeks ago was very large, and towards the close of the morning some of the strong offers were made. The close was 1/2c to 3/4c higher than yesterday. May unchanged, and December, and morning was 1/2c to 3/4c, and October of the up to 1/2c to 3/4c. Oats were pretty active and the advice was to buy. November was unchanged, December 1/4c to 1/2c lower. Flax was up 1/4c to 1/2c for both October and November. INVESTING \$53,000,000
 What is Being Done With Rockefeller Foundation.

The investment of a trust fund of \$53,000,000 is the most important and therefore it is interesting to note how the general education board of New York has solved it in the case of the Rockefeller Foundation. The securities into which \$43,000,000 of the fund have been put are revealed by the report to the secretary of the board, by Frederick T. Gates, chairman of the finance committee of the board. The investment of the other \$10,000,000 will be explained in a supplementary report.

The \$43,000,000 covered by the report recently issued the principal part has naturally been invested in bonds. Some of the largest bond investments are the following securities: Colorado Industrial 5's, series B; Western Pacific first mortgage 5's; United States National 4's; Duluth, Mesaba and Northern first 5's; general 5's; Atlantic City Line-Louisville and Nashville collateral 4's; Grand Central 4's; Denver & Rio Grande refunding 5's; Norfolk and Western convertible; New Haven debenture 4's; Lake Shore debenture 4's; Union Pacific convertible; Pennsylvania convertible; and Virginia-Carolina Chemical 5's.

There are also large holdings of short term investment securities, mostly in the form of equipment trust certificates, with Missouri Pacific's issue heading the list of the latter.

PILING THEM ON

U. S. Steel Corporation Overwhelmed With Many Problems.

Not since its organization has the United States Steel Corporation been confronted with so many problems threatening its progress and development, among them the following:

Threatened suit of the government to dissolve the corporation.

Activities of the Stanley Committee.

Movement on the part of independent steel and iron manufacturers in the Pittsburgh district for a reduction in freight rates on iron ore, coal and coke.

Breaking up of the harmony of interests planned for maintaining prices for steel products.

Reduction in steel prices to a level that forces lower earnings. In fact, several of the steel companies, on a basis of present prices, are not earning current dividends.

Movement to segregate the railroads of the corporation and force iron ore freight rates to a much lower level.

New construction work over the last five years that has brought the capacity of the steel mills and blast furnaces of the country to a point far in excess of consumptive requirements.

Threatened reduction in steel duties.

The impairment of earnings as a result of lower steel prices is more serious than some people realize. As an example, steel prices are about 38 a ton lower than they were in 1907. Had the corporation been compelled to accept the present prices in 1907 its earnings would, theoretically, have been impaired by \$80,000,000 and \$35,000,000.

LONDON MARKET IRREGULAR.

LONDON, Oct. 19.—Money and discount rates were easy. The stock market was quietly irregular. Glit debentures improved on the bank statement, which was better than was expected, and Chinese bonds and home rails hardened, but foreign shares, Mexican rails and Kafirs yielded under profit-taking.

American securities were quiet and featureless during the first hour. Then prices improved on light covering and New York buying, but the market sagged in the late trading and closed dull.

Great Northern ore was flat, and there were sales at 41 3/4.

ON WALL-STREET.

Erickson Perkins & Co. had the following: Today's stock market was very irregular and the close it was difficult to diagnose the position of banking interests. That they rendered support during the first hour was apparent—particularly in U. S. Steel. But it is not clear whether this stock is likely to come on to the market on any further rally. Railroad stocks are not out of the level of the last few days, and it is likely that they are being distributed with great care. Wall-street is much depressed in regard to the position of U. S. Steel in connection with the anti-trust law. We doubt if the latest report would give up its lease of the Great Northern Ore lands had a detrimental effect on values this morning. Steel, however, gained at the outset 1-4 and later 5-8 additional, selling up to 59 on belief that the action on the part of the directors would prevent the threatened government suit, but later traders sold the stock down to 57 1/2, largely short selling. Great Northern Ore certificates dropped from 47 to 46, with a partial recovery later. The value of these certificates is problematical, for after the expiration of the lease, the ore company will have to find a market for its ore to the best of its ability, but this may not prove wholly unprofitable and the company will benefit by the large expenditures of the Steel Corporation on the property, amounting, it is said, to about \$1,000,000. In the afternoon the market gathered strength and all stocks sold up, closing strong at best prices. We still advise the trading position, buying on weak spots.

Wider Fluctuations in Prices Market Develops Strong Tone

Early Recession in Wall Street Followed by a Sharp Bounce—U. S. Steel Developments—Toronto Market Irregular.

NEW YORK, Oct. 19.—Fluctuations of stocks were much wider and more active to-day than during the recent dull sessions. The market developed a fairly strong tone and buying at times was conducted on a heavy scale. The effect of this influence was offset at times by extensive selling and at one period of the trading the market seemed to be entirely under the influence of the bears. At the end of the day of contradictory movements, the list stood well above the previous day's close. U. S. Steel, which had been the mainstay of the market, lost 1/4 and Canadian Pacific made net gains of two points or more, and most of the other active shares rose by substantial amounts.

Bears Went Too Far.

United States Steel, which was sold yesterday for the ostensible reason that the Steel Corporation was to cancel its lease of the Hill ore properties, was bought to-day for the same reason. They bear the cancellation of the lease would improve the corporation's status under the Sherman law. The whole movement was so thorough that the market was thrown into a panic. However, the market is of little significance. United States Steel rose rapidly at the opening, in common with the remainder of the list. Bears developed pronounced weakness in the face of an energetic bear movement. The bears apparently extended their effort so far for they were put to rout in the last hour when prices were sent upward with a rush.

Great Northern ore certificates were affected by the announcement of the Steel Corporation's decision. The stock broke 7 points, making a temporary loss in two days, and selling down to 40, its lowest quotation since 1907. It subsequently recovered part of this loss.

Coppers Strong.

Movements of the copper group attracted considerable attention, on account of the advance of the price of the metal to 12 1/2 cents a pound. This, which lost ground rapidly early in the day, recovered its loss and closed with a gain of nearly a point, and Amalgamated Copper rose 1/4. Representatives of the copper trade said that there had recently been a pronounced improvement in the situation. Domestic copper has assumed considerably larger proportions. The decline in stocks of copper in Europe, however, has strengthened the foreign metal market.

TORONTO STOCK MARKET.

World Office.
 Thursday Evening, Oct. 19.
 The Toronto stock market showed further irregularity to-day's session, a mixture of small advances and declines being evolved in the quiet speculative movement. In evidence was a movement also to adopt any specific attitude, being shaded in accordance with the momentary indications of the market.

Public speculation has fallen off to a moderate extent during the last few days, and it is on this account that the market has run into a period of hesitancy. Wall-street continues to move along in a decidedly erratic manner, and the uncertain motion of the big expansion across the border is probably playing its part in withholding a broad movement on this side.

September Bank Statement.

The September statement issued from the finance department at Ottawa was about what had been anticipated, showing a big increase in the circulation, and an increase in the total loans in the Dominion increased seven millions during the month, but this was offset by a decrease of nearly eight millions outside of Canada, thus reflecting the calling in of loans from the banks in New York.

The tendency of deposits to increase was further reflected in the statement. Both savings and current deposits gained some two millions each. The circulation of the banks was increased by over six millions, this of course representing the crop moving in the west. The bank statement was a favorable one, reflecting as it did further expansion of business, tho to a safe and sane extent.

Trend to Prices Uncertain.

In the stock market the trend to prices was somewhat uncertain. The traction issues were again the favorite, but even here there was some irregularity. Sao Paulo continued weak, losing nearly another point at 17 1/4, and closing with the best bid at 17 1/4. Twin City and Duluth Superior each lost a fraction. Rio, on the other hand, was firm, maintaining around 114 without any trouble. The range for the day was 123 3/4 to 114 1/4.

Some of the specialties showed a medium of buoyancy, and further advance were made by such issues as Pichellou, which touched 121 1/4; Canada Steel, Russell common and preferred, and the Maple Leafs.

Another Rap of the Stick.

WASHINGTON, Oct. 19.—It is reported here that the government will begin suit for dissolution of Corn Products Refining Co.

FAVORABLE DEVELOPMENTS.

That the U. S. Steel Corporation is apprehensive over the rumors of a government investigation of its affairs, and that it will work hard to combat any such measure, is proven convincingly by the abrogation of the corporation's lease of the northern ore lands. Wall-street views the development favorably and discounted it yesterday by advancing over a point all round.

The inside interests are making market capital out of every new event, and pending the occurrence of something of considerable import will see that stocks do not go out of bounds either way.

Bank of France Statement.

BERLIN, Oct. 19.—Bank of France statement will show gold increased francs 2,563,000, silver increased 2,900,000 francs.

Chinese Bank Notes.

AMOI, Oct. 19.—Chinese bank notes declined from par to 70 to-day. A further fall to-morrow is expected.

Have You Seen Them?

Bank notes of the new International Bank of Canada, which obtained its charter only this week, are already in circulation. They bear the signature of Mr. Rodolphe Forget, M.P., the president of the institution.

Advance in Copper Metal.

NEW YORK, Oct. 19.—The United Metals Selling Co. has advanced its prices of copper to 12 1/2 cents a pound. Similar advances in Canada, this reflecting the calling in of loans from the banks in New York.

European Bourses.

PARIS, Oct. 19.—Prices were irregular on the Bourse to-day.

BERLIN, Oct. 19.—Reports from the American Iron market had a depressing effect on the Bourse to-day. Trading was quiet.

THE BANK STATEMENT.

The September bank statement, issued by the finance department at Ottawa yesterday, bears out the predictions of a big increase of circulation, due to the putting out of the emergency currency permissible during the crop moving period.

The total circulation of the banks increased \$5,000,000 during the month. This is reflected in the loan statement, current issues in Canada showing a gain of nearly five millions, while call loans in the Dominion increased over two millions. This, of course, represents crop moving activities. Call loans outside of Canada show a decrease of nearly eight millions, due to the calling in of funds from New York, as shown in the recent gold imports from across the border.

Deposits with the Canadian banks continue to show improvement. During September savings bank deposits increased nearly two millions while demand deposits increased about a like amount. The statement is a highly favorable one.

The statement follows:

**The China Sale**

We would remind Saturday shoppers that this Saturday is the last on which the great facilities for China buying are available. The sale has been remarkable for the amount of first quality china sold at prices usually attached to inferior kinds.

People have not been slow to realize this. "The proof" of the sale has been its popularity. On Saturday, tremendous drops in prices are in evidence in every section, and our Basement will be a bonanza for those who want any kind of china or glass.

Concerning Men's Clothes--Especially Overcoats

The Simpson Overcoats are well worth looking at. They will stand the very closest expert examination, and are not the kind that only do well under a glass case.

Some of our better quality coats will stand looking at after the storm and wear of six winters. We have the proof, get one, and so will you.

Here is a special **Fall Weight Overcoat Bargain** for Saturday. If you come early to the Simpson Store, you will **save at least a ten dollar bill.**

There are 150 coats made from the finest Imported English and Scotch Tweeds. Medium grey in color and smart in appearance. These Herringbone weaves are distinctly up-to-date.

They are cut on new two and three button models, and have mohair linings and satin sleeve linings. The tailoring leaves nothing to be desired. Sizes 35 to 44, and we are able to fit you perfectly. The coats sell regularly at 12.50, 14.50, 18.00 and 20.00. Saturday's bargain price **8.90**

Space forbids description, but this partial list will give you some idea of the many styles included in our new stock:
