How to Get More Banking Funds.

In Canada currency notes for every day use in business are issued: (1) by the government; (2) by the chartered banks. Let us first tell the story of these government notes.

The government is authorized by statute to issue legal tender notes, (a) up to the amount of \$50,000,000 against a reserve of 25 per cent.; (b) to issue notes in excess of \$50,000,000 against 100 per cent. actual reserve.

Of the notes issued by the government there are two kinds: (a) what are known as "legal tenders," (b) what are known as "bank legal tenders."

Legal tenders are turned over to the banks for gold and are legal tender for any debt in Canada. They consist of \$5, \$10 and \$20 bills in the smaller denominations and \$50 and \$100 dollar bills in the larger denominations. The new minister of finance proposes to put out some \$5 and \$10 bills of this same currency. The total issue, according to the latest returns, of these Dominion notes known as legal tenders was \$282,156,161.

But the Dominion Government also issues what are called "bank legal tenders" in the shape of \$500 bills, which the banks use among themselves for the purposes of the clearing house. They get these bills by depositing gold specie against them in the receiver-general's office and they are of the class which the government is authorized to issue beyond the \$50,000,000 already referred to, against a 100 per cent. specie deposit. What the banks do is to turn a lot of their gold over to the Dominion at the receiver-general's office and get these \$500 bills in return and these big bills are held by the banks for the purposes of the clearing house or for the section into which the moment it is required.

The statute authorizing Dominion notes and practically limiting their issue to \$50,000,000 was passed in 1871 when confederation was an experiment, our population three millions instead of eight millions and our entire banking capital and resources less than that possessed by one individual bank in Canada to-day.

Incidentally it may be mentioned here that the banks are required to keep 40 per cent. of their cash reserves in Dominion notes, but as a matter of fact they keep between 30 and 40 per cent. in Dominion notes (mostly bank legal tenders) which are just as convenient and valuable as gold. Of \$11,000,000 of Dominion notes, \$6,750,000 are held by the banks as part of their reserves.

It will be seen therefore THAT NO MORE THAN \$50,000,000 OF GOVERNMENT NOTES ARE EVER IN PUBLIC CIRCULATION IN THIS COUNTRY, and as we said in our paper of yesterday all the rest of the government notes those that are in the hands of the banks, are simply gold certificates and not notes more or less based on credit.

The bank statements for the month of March, the last one to hand, show that the CHARTERED BANKS HAD OUTFLOWING AT THE CLOSE OF THAT MONTH NOTES TO THE AMOUNT OF \$6,915,661. These were in the denomination of five dollars and multiples thereof, of which credit notes with specific names of specie for their redemption, 70 per cent.

Dominion notes in one and two dollar bills only serve the people as money to the extent of \$20,000,000. The banks furnish money to the people practically to the full amount of their issue at any particular time. This issue is frequently up to the \$100,000,000 mark. The banks make a profit on all the money they issue.

The government gets some benefit and benefits the people by issuing paper money against a reserve of twenty-five per cent.; it makes no money on any basis above \$50,000,000 as these are mere receipts for so many ounces or pounds of gold which the government guards and becomes responsible for without any compensation.

Canada is the only country that we know of where both state and banks issue currency notes, and just why this is so we cannot very well tell. We would prefer to see in the interest of both the banks and of the country the whole note issue a national issue instead of mainly a bank issue, and that IF A BANKING MONOPOLY IS TO BE CREATED, THE STATE THAT CREATES IT BE A PARTNER IN THAT MONOPOLY AND SHARE IN SOME OF THE PROFITS.

Our proposal, therefore, is that the right of the banks to issue notes equivalent to their paid up capital be withdrawn and replaced by a national issue of Dominion notes say, up to half a billion dollars, secured by 25 per cent. gold reserve; and that this money be lent to banks under proper restrictions and at reasonable interest for the use of these notes in their regular banking business.

As we pointed out yesterday there is a great lack in Canada to-day of money sufficient to do the business of the country, and as the banks cannot get any more or very little more in the shape of paid up shares, and they seem to have been unable to induce the public to increase their deposits by any appreciable sum, some way must be found to get more money. The world's quick way and straight way to get more money is by having recourse to a national note issue up to a reasonable amount suggested on the lines already suggested. W. F. M.

The Toronto World

HOTEL AT HUMBER BAY IS DESTROYED BY FIRE

Two-Storey Frame Structure Owned by W. L. Hansen Was Burned at Midnight and Loss Will Reach Several Thousand Dollars.

THE DAMAGE.
Humber Beach Hotel.....\$20,000
Restaurant.....3,000
McMillan's Garage.....2,000
Total loss.....\$25,000

Damage amounting to several thousand dollars, fully covered by insurance, was caused by a fire which broke out in the Humber Beach Hotel at 11.45 last evening. The hotel is owned by W. L. Hansen, who took it over last January from T. J. Boland. A refreshment booth, owned by Richard West, not insured, was also burned, and at 1.30 this morning the flames were spreading to a garage west of the hotel and were gradually eating their way thru the roof of the hotel proper. The building to the west of the hotel, which is owned by West, was the old restaurant which was owned by Mrs. Meyers at Sunnyside, and was removed to the Humber when the city bought it in order to make room for the Sunnyside bridge.

The flames broke out in the stable at the side of the hotel, where there were several cows and horses, and one cow was burned to death. From the stables the flames spread thru the hall-room to the hotel proper into the west wing. Most of the goods from the bar were taken out and piled on the roadway. Thru the bar the fire spread into the side rooms, and thence into the large and expensively decorated dining-room on the eastern side, which was erected only two years ago. The loss in this wing alone will be several thousand dollars.

In the past two weeks the whole building has been remodeled.

As soon as the alarm was given several sections of the city fire brigade were called, and reached the scene as quickly as possible. Engines from Cowan-street and Dundas-street were sent out and water was pumped from the Humber River. The pavilion of L. N. Devins, north-east from the hotel, about 40 feet away, was scorched, and for a few moments the Humber Bay Hotel, owned by J. Newton, was in danger. There is no bucket brigade in that district, and

the only means of fighting fire until the arrival of the firemen from the city, is by taking water from the river and lake. Young men who live in the vicinity of the Humber, turned out and by the use of buckets succeeded in keeping the flames from the boathouse of O. L. Hicks, just east of the hotel proper.

Owing to the inflammable nature of the wood, the blaze spread rapidly, and the large verandah, which was erected at great expense, was completely demolished. Twenty guests were in the building when the fire was discovered, but all escaped.

The new dining-room, which had been completed only two summers ago, after a bad fire had gutted the old hotel, was just having the finishing touches put on it. Mr. Hansen courted the return coming in from the business. Less than three months ago he agreed to pay T. J. Boland \$50,000 a year for five years for a lease. The land and building, however, he could not purchase, and rented it, at a sum figuring in the thousands for the five-year term.

The Hicks boathouse to the west is part of the estate, and before leaving the premises Mr. Boland guaranteed to the new tenant that this business would bring in several hundred dollars a year. Negotiations are still going on between Mr. Boland and Mr. Hansen for the building and property, as it appears Mr. Hansen was not satisfied with the return coming in from the business.

At 1.30 the fire had completely destroyed the garage west of the hotel and Meyers' old building, owned by Richard West, and rented to Thomas McMillan, a machinist of Humber Bay. A French car of 50 horsepower was in the garage at the time, as well as a smaller machine, both of which were taken out before the building was destroyed. The garage was valued at \$1000.

At 2 o'clock the flames were still spreading and it looked as if the entire building would be destroyed. The hotel at 3 o'clock this morning was totally destroyed, entailing a loss, including the furniture, of nearly \$25,000. The building was worth \$20,000, the furniture \$5000, and there was \$3000 worth of hand-painted china destroyed.

E. Bradley and A. J. McVicar, motor-man and conductor, on a passing Long Branch radial car, first noticed the fire and raised the alarm. At this time the blaze had gained considerable headway. The railwaymen awoke the occupants of the hotel.

After adjourning the inquest into the Nelson wall collapse the lawyers and the coroner and city architect discussed the situation at the morgue last night, and decided to dig around the foundation of the wall for the purpose of seeing if the new-made ground caused the trouble.

Before many witnesses had been examined at the opening of the inquest into the death of Mrs. Eva Anderson, who was killed when the south wall of the William Nelson Company's building collapsed a week ago Saturday, it was clearly evident that it would take several sessions to hear all the evidence, and this proved to be the case. At 10.30 the coroner called a halt, and both counsel and jury agreed that it would be better to meet each night until the mystery of the disaster is cleared up than to tire themselves with long sittings.

County Crown Attorney Greer did the questioning, assisted by H. L. Drayton, K.C., while Lally McCarthy, K.C., looked after the Nelson Company's interests. A very detailed account of the accident was given by John William Sole, the engineer, who was in charge of the hoisting engine placed in the lot south of the building.

NOT A SQUARE DEAL

THE LITTLE FELLOW: He won't let me catch the big fish and then he goes and nets the little fish and feeds 'em to his big ones.

TO INVESTIGATE MADE GROUND AT FACTORY

An Effort Will Be Made to Determine Whether Wall of the Nelson Factory Collapsed Because of Settling of Filled-in Land—Investigation Continues Nightly Till Concluded

After adjourning the inquest into the Nelson wall collapse the lawyers and the coroner and city architect discussed the situation at the morgue last night, and decided to dig around the foundation of the wall for the purpose of seeing if the new-made ground caused the trouble.

Before many witnesses had been examined at the opening of the inquest into the death of Mrs. Eva Anderson, who was killed when the south wall of the William Nelson Company's building collapsed a week ago Saturday, it was clearly evident that it would take several sessions to hear all the evidence, and this proved to be the case. At 10.30 the coroner called a halt, and both counsel and jury agreed that it would be better to meet each night until the mystery of the disaster is cleared up than to tire themselves with long sittings.

County Crown Attorney Greer did the questioning, assisted by H. L. Drayton, K.C., while Lally McCarthy, K.C., looked after the Nelson Company's interests. A very detailed account of the accident was given by John William Sole, the engineer, who was in charge of the hoisting engine placed in the lot south of the building.

Opened at the Top. The factory was originally two storeys, and they were adding three more to it. On the day of the accident he was working in the third storey. About 10.30 he noticed some bricks falling from the south wall at a distance of 20 feet from the east end. To all appearances the south wall opened at the top and dropped, dragging the western part with it.

"Did the wall appear to fall out?" asked Crown Attorney Greer. "No, it just dropped," answered the witness. "As if there was something the matter with the foundation," was the query. Sole said that no boiler exploded, nor was there sufficient vibration from any of the machinery to cause the wall to collapse.

After the first crash, said Sole, the wall seemed to drop at the end and pull the rest with it. He saw no bricks in the cellar, but the peculiar thing which occurred to him was the fact that all of the brick and mortar was piled in or near the hoist shaft in the basement, and it was here that most of the people were found. Witness was not sufficiently close to the wall to see the bricks gradually break.

Memorial for "Titanic's" Crew

LONDON, May 14.—The London papers publish a statement made by The Liverpool Journal of Commerce, that J. Bruce Ismay intends to provide an endowment fund for pensions for disabled seamen of all classes connected with the White Star Line, and for their widows, as a thank offering and a memorial to the heroism of the Titanic's crew. The fund, it is further said, will probably amount to \$100,000.

BOINGS AT LEASIDE

The C.P.R. Starting Big Improvements.—The C.N.R. May Have Its Car Yards and Sidings on the North Side, the C.P. on the South.

The improvements of the Canadian Pacific line east of Toronto are now getting under way. One of the first is the raising of the grade up the Don Valley to Leaside. This is very steep near to Leaside station, and plans are out and work started to lengthen it and ease it by making a big fill in the Don ravine on one of the Lea farms, immediately to the south of the station. As a consequence, the junction with the main line will be carried further on to the east, by perhaps a quarter of a mile. Big timbers to carry the trestle for the fill were being unloaded yesterday, and they will be driven in position and a steam shovel started at once.

The two big viaducts over the two branches of the Don are to be replaced by larger ones carrying double tracks.

An arrangement has been made with the Canadian Northern for a joint section from Yonge-st. (northern station) to Leaside.

A further proposal is under consideration of the engineers of both companies for the C. P. R. to give their present siding on the north side of Leaside to the C. N. R., and for the C.P.R. to have larger siding on the south side, where the new fill and the new track above referred to is located. This would put the C. N. R.'s sidings and car yards on the north, and the C. P. R. on the south. If this is done, the C.N.R. would have to transfer to the C. P. R. some 60 odd acres that they recently acquired of Lea farms south and east of the C. P. R. tracks. This will also put the C. P. R. alongside of Thorncliffe Farm and the C. P. R. evidently be more amicably with Mr. Davies than the C. N. R.

MUR MEMORIAL UNVEILING SATURDAY

Granite Pyramid Bearing Inscription and Portrait of the Author of "The Maple Leaf" Will Be Unveiled by Grand Orange Lodge in Mount Pleasant Cemetery.

Testifying to their deep respect for the memory of Alexander Muir, members of the Orange Grand Lodge of British North America will assemble at Mount Pleasant Cemetery on Saturday afternoon next, on the occasion of the unveiling of a granite pyramid beside the grave of the author of "The Maple Leaf."

Col. Scott, grand master, will perform the ceremony, and addresses will be given by Mayor Geary, Controller Hoeklin, Fred Dan and other prominent Orangemen. Orangemen will assemble before the cemetery gates at 2.30 p.m. and the unveiling will take place at 3 p.m.

The granite shaft contains a portrait of Mr. Muir and the inscription: "Alexander Muir, 1830-1904. Father of Canada's National Song, 'The Maple Leaf Forever.' Erected by Orange Grand Lodge of British North America."

The fact that six years have elapsed since the death of Mr. Muir without such recognition taking place, is due to the long cherished hope that either the Dominion or provincial government would take steps to erect a memorial.

More Winsome Than Ever. To the large audience that attended the opening performance of "The Runaway" at the Princess Theatre last night, Miss Billie Burke, the beautiful comedienne, appeared more winsome than ever. Indeed, she seems to grow younger each season.

Something About Cool Hats.

A recent number of The British Hatter gives a very interesting story of the relative summer comfort qualities of the different hats. It finds the Panama the coolest by many degrees. Next follows the cork helmet, and the unlined straw sailor. Strange to say, the top hat or silk hat is next in line with some five degrees cooler. The most surprising surrounding the hat is that with either the stiff or soft felt hat.

SEVEN YEARS AT KINGSTON FOR DINENNI

Judge Changed Charge From Murder to Manslaughter—Prisoner Collapsed When the Sentence Was Explained to Him by the Interpreter.

All traditions to the effect that the Italians are an emotional race of people were amply substantiated yesterday afternoon in the criminal assize court when Raphael Dineni was found guilty of manslaughter in connection with the death of Mrs. Elizabeth Fallon in December last. After listening to the remarks of Michael Basso and others in regard to the man's previous fair character, Mr. Justice Middleton imposed a sentence of seven years in the Kingston Penitentiary.

Interpreter Basso had no sooner explained the length of the prison term to the Italian, when he threw both hands into the air, uttered several incoherent exclamations in his native tongue, and pitched headlong to the dock floor. He cried like a baby during his testings months, and the hot tears flowed down his face unchecked as he was half-carried from the court room by two sturdy attendants. His groans and anguished cries could be heard in the corridors of the city hall as he was taken to a cell.

The Charge Reduced. The original charge was one of murder, but just before the defence counsel, Mr. J. M. Godfrey, rose to address the jury, the judge intimated that he would instruct the jury to try the case as that of manslaughter on the ground that Dineni did not deliberately commit the deed with the intention of causing the death.

Dr. Robinson testified that he had attended the dead woman about ten days prior to her death, but this visit had nothing to do with the subsequent events. After the first he was again called in. Mrs. Fallon was lying on a

Continued on Page 2, Column 4.

GUESSES AND FACTS.

Because of the fact that K. L. Aitken, manager of the Toronto Hydro-Electric system, has been granted six months' leave of absence, several of the Toronto newspapers are making guesses as to the reason.

The fact is that a change in the entire system is to be made. Mr. M. Stewarty, business manager of the hydro, will be in charge of the system while Mr. Aitken is away. It is said that he will be in charge for an indefinite period. When the new hydro offices are opened on Yonge-street, opposite Shuter, the department will be run as a business proposition, with the business manager as its head. A new engineer will be appointed, who will be junior to the business manager.

It is said also that the government hydro-electric commission will be in closer touch with the Toronto department, and that the waterworks department eventually will become part and parcel of the hydro system as in London, Ont., thus affecting the saving in time, money and electrical energy.

THE PROPER ATTITUDE—YIN O' GRIEF.

Jeff: I've got 'th' Wex York Club framed up. John: I'm to be president an' John: What'll I be? Jeff: You can be vice an' till the door, John. John: Who's to be in it else? Jeff: There'll be me an' ye an' Tommas Church, and Maister Ferriss of the cosy but an' yer friend Hiram. Dan Dwyer— John: Dan's dead. Jeff: But we'll pitch in. Lombard Street is 'th' th' landmarks as ye ken. John: What about Robert? Jeff: Maister Flemming certainly. John: Where'll th' club be? Jeff: In th' back of my big store, John. John: But ain't it goin' to be a son of temporary affair? Jeff: It'll be th' ira way, John, for an' aginat, so as to maintain a proper balance. Dinna ye see how Th' O'lob's for lower freight an' 'nae for reduc' th' cost for British connection for makin' Canada an' adjunct of th' United States for public convenience an' gien th' pulp companies a chance— John: If ye don't let Joe Atkinson in I'll join an' take the pledge and buy th' regalia an' all. An' if there's to be any apron, count me in— Jeff: It'll no be apron but tall hats, John. Jeff: Black bands. But th' main thing in an' nor members, John, of th' WEX YORK CLUB, is th' ATTITUDE th' attitude, that ye've an' an' an' nor th' WEX YORK CLUB is now on. An' oh, John, ye see th' attitude th' too. An' we'll be th' hammer in yer haun', John. But I've been th' we hammer or we mauls made till beat th' table when ye want a Bif-eye Maple use something of th' kind at the club. John: Have lots of hammers in the rain, ole man. Jeff: A wee bit hammer I'll go wi' th' badge, John. But look th' attitude, John. An' ye look it, John. What wants I'll see Wex York on th' aggrandise, John?

AT THE THEATRES

At the Princess

"The Runaway." This is a funny world. To see a gay, pretty maiden of eighteen become enamored of a seasoned man of fifty and eventually fall off the abyss into matrimony provides much food for great thought.

BILLIE BURKE

Miss Billie Burke, in her usual coquettish role, with her subtle wit, her expert lovelacing stagers, was "The Runaway" last night. She it was who was the dainty 18-year-old, who showed that even one so young could fall in love with a great artist three times her age.

"The Runaway" was written by Michael Morton, author of "My Wife." This playright hit upon a new idea—something out of the ordinary in writing Miss Burke's vehicle, and judging by the friendly attitude of local theatre-goers, it is not amiss to describe "The Runaway" as her greatest triumph.

Of course, the play was mostly mirth, but here and there was a dribble of grief, which made things all the more interesting.

C. Aubrey Smith, a noted English actor, in the role of Maurice Delonay, the great artist, who was in the afternoon of life, reminded one of John Drew. But it would not be the right thing to make comparisons. The author made this part one where a man who was 60 years old could be 40 years young, and instead of going up the scale of years, was coming down.

At the Star

The opening performance of the fourth week of the Star Stock company at the Star Theatre yesterday were attended by two full houses of burlesque patrons, who gave the company an enthusiastic and appreciative reception.

A man is "complete" without his clothes — and so is an automobile without equipment. But the Ford is complete and equipped—all there but the passengers. It's the perfect completeness of the Ford car that enables us to easily sell seventy-five thousand of them this year.

All Fords are Model T's—all alike except the bodies. The two-passenger runabout costs \$775—the five-passenger touring car \$850—the delivery car \$875—the town car \$1100—f.o.b. Walkerville, Ont., completely equipped. Catalogue from Ford Motor Company of Canada, Limited, 105 Richmond Street West, Toronto, or direct from Walkerville.

At the Royal Alexandra

Durban in Kinemascope. Large audiences are still being attracted by the remarkable picture of the historic Indian durbar, at which for the first time the people of the great imperial dependency met their sovereign. The film are now being shown under the most favorable circumstances and reveal, as no description could, the splendor of the functions that attended the visit of the King and Queen to that part of Asia which has always, more than any other, appealed to the western imagination.

At the Grand

Andrew Mack in "Tom Moore." "Tom Moore," the play that Mr. Mack is presenting at the Grand this week, is one of the cleverest Irish romances dreamed that the popular singer and comedian has ever appeared in. The play is written around one of the most interesting figures in Irish letters, the poet, Tom Moore, one of the world's immortal writers, is the central character of the play.

At Shea's

A Crowded House Week. Clever and highly colored is the novelty costume act with which Miss Grace Hazard entranced Sheagoers yesterday. She comes upon the stage with sufficient costumes to accompany ten different singing numbers and makes all her changes while the audience looks on admiringly. She has a sweet singing voice and renders ten of the popular hits from operas of a decade or so back.

At the Strand

Judging from the attendance at the Strand Theatre yesterday public interest has been generally attracted to the remarkable photo-play, "The Coming of Columbus," which furnishes the principal feature of this week's program. The picturing in living drama of the great events of history and the illustration in this way of words with imagination has of recent years undergone a quite remarkable development.

DINENNI GETS SEVEN YEARS AT KINGSTON

Continued From Page 1. In a back room and had a severe contusion on the left temple. The doctor was unable to elicit any information as to how this wound had been caused, and as a proper diagnosis could not be made by a superficial examination, he ordered the patient moved to the hospital.

LONDON NEEDS CARPENTERS

LONDON, May 13.—(Can. Press.)—There is a bigger demand for carpenters and bricklayers in London than it is possible to fill. The Ontario free labor bureau can place on jobs at once at least a dozen experienced carpenters and bricklayers, a large number of whom could be placed on farms in Western Ontario.

LONDON'S BUILDING BRISK

LONDON, May 13.—(Can. Press.)—Building during April was brisk in London, there being 166 permits, calling for an expenditure of \$180,187 issued by the building inspector. There was a considerable increase over the same month in 1911, there being only 126 permits, calling for an expenditure of \$123,234. The most important permit for the largest expenditure issued last month was to the Molsons Bank, the contract calling for \$40,000.

Mr. George Tate, Blackstock, crown prosecutor, likened the case of the defence to one that occurred in the south, when the state produced evidence showing that a man had drawn a gun and shot a dog. Witnesses told of hearing the report and seeing the animal fall, but the defence insisted on the state bringing forward some one who saw the bullet pass between the gun and the dog.

The Judge's Charge. "In view of the statements of some of the witnesses as to the fair character of the prisoner, the lightest sentence I can award must be fairly severe, as I realize the difficulty of dealing with Italians who do not understand our laws or our ways, but they must understand the way we insist on women being treated. I therefore think that the proper sentence is seven years in the Kingston Penitentiary. I would sooner send the prisoner to some place like the Guelph Jail Farm, but the longest term there is for two years."

BRANTFORD BOY STILL MISSING

BRANTFORD, May 13.—(Special.)—An all day search of the Grand Trunk bridge here to-day by the city fire department, failed to reveal any trace of the body of Ivor Rhodes, the 10-year-old boy thought to have been

Better Than Climbing Stairs

IT'S no joke to have to get up in the night and grope one's sleepy way downstairs to the kitchen to prepare his baby's midnight meal. Then there's the risk of spilling it on the return trip. What is really required is an Electric Milk Warmer. Simply attach cord to light socket, turn the button—that's all. Easy, isn't it?—and so convenient. No need to leave bedroom. Everything handy at your elbow. Equally useful for big shavers. Heats any liquid.

Finished in highly polished nickel—perfectly hygienic. Cleaned like a cup. Sold in two sizes.

IS VON BIEBERSTEIN AGENT OF KAISER'S DARK DESIGNS

New German Ambassador at London is Known as an Iron Man With a Record of Hostility to Britain—"Dove of Peace" Idea is Not Held in Berlin.

BERLIN, May 12.—(Special Cable to The N. Y. American).—The choice of Baron Marschall von Bieberstein as German Ambassador to London is regarded by many in the well-informed inner circles of Berlin as the last act but one in the great tragic drama of Anglo-German relations. This opinion conflicts diametrically with the view of the London papers that the Baron is being sent to England as a "dove of peace."

When the moment comes to deal with England, Germany will need a strong man in London. She will need a man who knows how to advise his government when the desirable moment has come to strike. When Germany strikes it will not be in a declaration of war, but silently, swiftly, suddenly—probably at the time when England is hampered and harassed by some kind of labor struggle like the recent coal and railroad strikes which paralyze her activity.

CONFESSION TO INCENDIARISM

Cyril Charles Wyatt Pleaded Guilty to Setting Fire to a Barn Near Lambton.

Following a confession made to Provincial Constable Reburn, Cyril Charles Wyatt faced a county magistrate yesterday and pleaded guilty to setting fire to a barn near Lambton owned by Arthur Johnston on May 9. The building was razed, and three horses, seven cows and all the farmer's implements were destroyed.

FAVOR SITE ON SHAW STREET

Board of Education to Decide Location of \$200,000 Commercial School on Thursday.

Where the \$100,000 site for the \$200,000 commercial school will be erected is a live question with the school trustees. It will be definitely decided by the board on Thursday night.

OPEN AIR SCHOOLS

Dr. Struthers, chief medical inspector of city schools, has published a report of the year's work. The report expresses regret that the schools do not yet possess a separate room for inspectors. E. Edwards' plan to take 25 children to her Lake Simcoe farm for the heated months is commended.

BOARDED NOTICES DELIVERY ORDER

Express Companies Protested That Some of the Roadways Were Impassable—The New Limits.

As the result of a protest raised by the express companies against the delivery regulations, the railway board has issued an order fixing new express delivery limits for the City of Toronto. By an order issued by the board a year ago, the express companies were ordered to deliver anywhere within the City of Toronto corporation.

TURKEY IN BAD FIX

Blocked From Sending Warships or Troops to Tripoli.

WORKMAN ELECTROCUTED

Killed by High Tension Wire at Transformer Station.

CHINA FAMINE FUND

The national fund for the relief of famine in China needed an additional \$2000 to Shanghai on the 11th, making a total of \$13,000. Many contributions were being received from city councils and boards of trade in cities and towns, particularly from western towns.

Indoor Winter Life

The way we live in winter time is not conducive to health. There is too much living in close, stuffy rooms, and breathing over and over again the impure air. Too much artificial food and too little exercise in the open air.

Dr. Chase's Nerve Food

Makes the blood pure, rich and red. It fills the blood with the red corpuscles which go to build up and restore the system and fight off disease.

DENTAL COLLEGE RESULTS

The results of the recent examinations at the Royal College of Dental Surgeons are as follows: Passed freshman year: John Alexander, Chambers Arbuckle, Richmond Henry Atkey, Joseph Henry Atkins, Russell Atkinson, Blake Byron Mason, Edward C. Boyle, Garnet Percy Britton, Henry Ariside Chart, William James Cooper, Donald Francis Edward Heath, James Gershorn, Deamer Liberty, Albert Gordon Lough, Roy Harvey Mills, Thomas Glover McCarter, Herbert Arnold McClean, Alex. Under McQuinn, Francis Stephen McGroarty, William Gordon McKee, Miss Nicholson, James F. O'Brien, Milton George Parker, Joseph Priestman, Francis Edward Smith, Joseph Thomas Roberts, Harvey J. Donaldson Robinson, Walter Lindsay Sawyers, Stewart Brockmum, Howard Sutt, Joseph Teich, Harold Atkins Thompson, James Elmer Thompson, Thomas Stuart Tucker, James Leonard Walsh, William Wilfred Weir, Frank James Wright, Hedley Wigan Wright, Harry Zinn.

THE CRECHE TO BE ENLARGED

Large Addition to Be Built This Summer Will Include Dining-Room and Rooms for Nurses.

At the fifteenth annual meeting of the Creche, 374 Victoria-st., held yesterday afternoon, announcement was made that an effort would be put forth this summer to erect a large addition to the present building. The new addition planned is to include a large dining room and rooms for the nurses.

DETROIT JEWEL Gas Stoves

The 1912 designs are the last word in gas stove construction.

If you have never used a DETROIT JEWEL you really do not know what good gas stove service is.

BRITISH CAPITAL FOR COAL FIELDS

REGINA, Sask., May 13.—Word was received from England to-day that J. H. Haslem has completed the formation of a \$5,000,000 concern with British capital, for the exploitation of the Estevan coal fields. It is understood that Viscount Haslem and Winston Churchill have been named as directors of the new concern.

Veteran Bandman Died Suddenly

BROCKVILLE, May 13.—(Special.)—Harry McEwen, a veteran bandman, with an honorable career in the Canadian and British militia, died suddenly to-day at his home of heart failure. He was employed in the stores department of the G.T.R.

Died in Lunken Stupor

BROCKVILLE, May 13.—(Special.)—This afternoon James Sheridan was found dead in a lumber pile on the C. P. R. wharf. He had been drinking heavily of late and it is thought he passed away in a drunken stupor. There was no mark of violence to indicate foul play, the coroner will open an inquest.

Big Montreal Tunnel Not Delayed

MONTREAL, May 13.—There will be no delay in the commencement of the work of tunneling Mount Royal, according to the statements of Canadian Northern Railway officials. Work of assembling the necessary equipment is now working away in a short while workmen will start their long burrow between Model City and the Montreal terminal.

Advertisement for Eucalypti, featuring a large illustration of the product and text: 'Eucalypti SURE CURE FOR SKIN INJURIES & DISEASES. A purely herbal balm; best thing for the tender skin of children, yet powerful enough to heal an adult's chronic sores; highly antiseptic; eases pain and smarting soon as applied—that is Zam-Buk. Remember it is purely herbal—no mineral poisons, no animal fats. Power and purity combined!

Baseball Rain, No Games

Note and Comment

According to some there is not a cookmaker doing business at present in the city. However, a witness was cooking for his yesterday with considerable money to back the Seagram horse in the King's Palace. He placed a little with a friend at the odds he desired, viz. 4 to 1, and he wasn't asking too much.

It has been Barney Littlefield's custom to train the province-wide circuit showing his best on the day of the act. However, the sharp are counting Waterloo out of it, giving the present honors to Gold Bed, Amberite and the Dymond pair, with several others having an outside chance, not forgetting his seven-year-old unnamed h.m. that trained with a stable of trotters at London, Ont.

The contest in the International is a lot more open than in the other two baseball leagues. Toronto is only a matter of four games behind Jersey City, and the two straight wins of the tall-enders over the leaders go further to show how well the teams are together.

Chicago has a long lead in the American and going easy with the Philadelphia champions in the second division.

In the National there are only two teams with an average of .500 or better, and as a New York paper says: There is no denying the fact that the Giants are playing the kind of ball which wins pennants. If the present pace is maintained it is hard to pick out a single team in the league, not accepting the Cincinnati Reds, which will be able to check their mad flight. The inevitable slump is almost sure to come, and the team cannot be expected to go on winning games after game, but however, as we well fortified that it is hard to see anything but another world championship series in this city. Daring and brilliant coming down more, perhaps than any other thing so far this season to put the Giants where they were in the past. They have been hitting well and the pitchers have been going smoothly and reasonably strong, but another world has been the factor which has counted against them in at least five games which otherwise would have been lost.

Dr. Smirle Lawson Elected Argo Captain

Annual Football Meeting Held and Committee Appointed for Coming Season.

The Argonaut Rowing Club held their annual football meeting last night. The members were very enthusiastic over the prospects of the team this season. A committee was elected and it is expected the Argos will have a team which will make a hard and long fight for the Dominion championship this coming fall. The following officers were re-elected: Honorary president, Dr. Smirle Lawson; president, W. D. F. Jarvis, W. E. Murphy; secretary, W. D. F. Jarvis, W. E. Murphy; first vice-president, F. E. Boyd; second vice-president, F. E. Boyd; treasurer, W. D. F. Jarvis, W. E. Murphy; captain, W. D. F. Jarvis, W. E. Murphy; manager, W. D. F. Jarvis, W. E. Murphy. The committee will hold a meeting at a later date to elect a manager.

TORONTO SWIMMING CLUB

Splendid Program Arranged for the 1912 Season—The List.

The annual general meeting of the Toronto Swimming Club was held in the Toronto Casino Club's quarters last evening. The different reports read showed that a prosperous season had been passed. The club has a lot of good swimmers up to leave for the summer. A motor boat outing to Ottawa, with a splendid water regatta, including speed races and diving competitions, will be held. The Canadian National Exhibition has also given the club a day at the lake for which they are having up some genuine prizes. The list of Saturday afternoon races for the season will be published later. The following is a list of the officers: Hon. president—H. A. Sheppard; president—Thos. Anderson; vice-president—H. H. Demers; hon. secretary—W. F. Cooper; 465 Spadina avenue. Executive and swimming committee—H. Hamilton, W. Stevenson, C. J. Clarkson. Captain and life-saving instructor—H. Demers. Assistant captain—W. F. Cooper.

Durban and Hackett Again
Eddie Durban has received a communication to the effect that Hackett, the Bally River sculler, has deposited \$500 for a race. Durban is to receive \$50 for expenses, and the event is to take place at Burdette, Ont., July 27. The same conditions to govern as agreed upon for their last race. Durban is to be pleased to accommodate Hackett, but says that the date, July 27, is not a satisfactory one, on account of his other race, but he would be willing to row any time in August or later.

T-Baseball LEAGUE OPENS

Splendid Season Expected by Managers of Eight Clubs—International Games Off on Account of Rain.

The Canadian Baseball League opens its second season to-day. A splendid season is expected by the managers of the eight clubs, who are: Ottawa—Louis Cook; Berlin—Rube Denson; London—Frank Bowdman; Hamilton—Knotty Lee; Guelph—Frank Needham; Brantford—Ambrose Kane; Peterboro—Curtin Templin; St. Thomas—Dad Stewart. The games this week are as follows: Tuesday and Wednesday—Peterboro at Hamilton; Guelph at London; Ottawa at St. Thomas; Berlin at Brantford; Thursday—Hamilton at Guelph; London at St. Thomas; Peterboro at Brantford; Friday—Hamilton at Guelph; St. Thomas at London; Berlin at Ottawa; Peterboro at Brantford; Saturday—Guelph at Hamilton; Berlin at Ottawa; St. Thomas at London; Peterboro at Brantford.

Jacobson Pitcher for St. Thomas
ST. THOMAS, May 13.—The Ottawa Canadian League team arrives in the city to-night from Chatham, where they have been playing preliminary training. The weather conditions are very unfavorable. It rained all forenoon, putting the ball field in poor condition. However, it has cleared up, and unless there is more rain to-night or to-morrow the opening game will be played to-morrow as scheduled. Manager Cook of the visiting Vaughn has his men in fine condition and ready to give the Saints a battle. He would not state whom he would pitch, but said the selection would not be made until he had seen the different twirlers warm up. Manager Stewart will put Jacobson, his big scowper, in the box for the locals.

Highlanders Swamp Tigers in Poor Game

Vaughn Pitched Steady Game While Detroit Twirlers Had Bad Day—Scores.

At New York—The Detroit Tigers played poor ball and were swamped by the Highlanders by a score of 15 to 4. All starting pitchers in the game were ineffective and the Highlanders made runs almost at will in the late innings. Vaughn pitched a steady game for New York and was well supported. Score: Detroit..... 10 11 10 10 0 0—4 R.H.E. New York..... 0 10 0 5 3 2 3—15 R.H.E. Boston..... 1 0 0 1 0 0 0—1 R.H.E. St. Louis..... 4 0 0 0 0 0 0—4 R.H.E. Batteries—C. Brown, Lake, Powell, Mitchell and Stephens; Hall, Buschman, Redent and Carrigan. At Washington—Washington punched into six runs in the sixth inning and defeated Cleveland 3 to 2. The batting of cashion and Ryan featured the game. Score: Washington..... 0 10 0 0 1 3—6 R.H.E. Cleveland..... 0 1 0 0 1 1—3 R.H.E. Batteries—Blanding, Haskette and Eastery; E. Walker and Henry. At Philadelphia—Philadelphia was unable to hit Walsh when men were on the bases and lost the game by 2 to 1. Barry made three singles and a double in four hits at bat. Brown was effective except in two innings. Score: Philadelphia..... 1 0 0 0 0 0 0—1 R.H.E. Philadelphia—Walsh and Kuhn; Brown and Zean.

Motor Boats, Schofield-Holten Co. Limited.
Amateur Boaters Training.
Entries are commencing to arrive for the Canadian boating championships to be held in Riverview, Ont., May 24 and 25. Durban is training four or five novices, as well as a couple of little holders. Charlie Gage has a heavyweight who he claims is good enough to win the white hope class. The British United send word of 25 entries and Harry Westley has six or more drilling nightly in anticipation of landing some of the cups.

Lacrosse City League Schedules

ON WOODBINE FIELD THURSDAY

Sleepchase, Horses, Are Schooling at Scarborough—Notice to Trainers and Jockeys—Slow Trials.

Trainers of sleepchase horses have availed themselves of the Ontario Jockey Club field at Scarborough, which is now in splendid condition, owing to the recent rains. Weather permitting it is intended to open the sleepchase field at Woodbine Park on Thursday morning next. Trainers and jockeys who have not yet made applications for licenses and wish to receive same for the coming spring season, should apply at once if they desire to train and ride, to W. P. Frazer, secretary of the Canadian Racing Association.

Pitcher Wilbur Corey

Who has been let out to the Wilkes-Barre Club of the New York State League.

EATON'S

Medium Weight Single Harness

This harness is suitable for a heavy buggy, being made heavier than the ordinary buggy harness. It is made of the best Canadian leather, mounted with solid nickel, made in our own factory and fully guaranteed. The harness has 3/4-inch checks, patent leather blinds, box loops, over-check, good front, rosettes and bit; the breast collar is made with wide fold neat raised layer; box loops; 7/8-inch neck strap, double-stitched, with fold; traces 1 1/4-inch, double-stitched and raised, with punched eye for whiffletree; 3/4-inch flexible saddle, with patent leather skirts and jockey, and all leather panels; 1-inch double-stitched bearers to dec on saddle; 1-inch shaft tugs, box loops, sulkey hitch, belly band; good wide folded breeching body, with neat layer; 3/4-inch hip strap, 7/8-inch back strap, with flax-seed stuffed crupper, 1-inch side straps; good strong 1-inch lines with steel spring billets, either black or russet hand parts; the mountings are solid nickel, and will not rust, corrode or turn yellow. Price \$18.00.

T. Eaton Co. Limited

C.P.R. Hasn't Deserted Whitty

Altered Plans Are Agreeable

WHITTY, May 13.—(Special to The World from the "Man on the Spot.") There is no truth in the report sent out from Ottawa that owing to differences between the municipality and the Canadian Pacific Railway authorities, that railway authority had decided to give the town the go-by and run its new line to the north of the town, at a distance of three miles. The C. P. R. workmen are to-day engaged in drawing the materials for the new line from the south to the north end of the town, and the line will enter and pass thru Whitty as planned by the company's engineers.

There has been no friction, but when it was proposed to run the line thru the south end, crossing the best residential streets, and when the C. P. R. asked to have closed some of those streets which lead to the lake, the municipal authorities filed objections with the railway commission. The new station, as at present planned, will be on the gravel road, where the brick house stands formerly owned by Col. Farwell. The old plans for a station on the house of refuge property have been canceled and the extensive bridge over the Kingston road will be avoided.

Residences Saved.
The line as now proposed means a saving of \$200,000 to the railway and an entry thru the town without the destruction of the many residences that seemed a necessity. There will not only be a change of way, but there will be no difficulty in having any streets closed that the company may wish.

A Future That Glitters.
Whitty seems bound to become one of the most beautiful residential suburban towns in Ontario. Its good roads, magnificent avenue park system, excellent natural drainage, its lake-front and many other natural advantages would of themselves make it most desirable as a "home" town. These are, however, only a few of its attractions. A first-class municipally-owned electric light and water service have been maintained for some years. The fire protection is such that fire losses are practically unknown. Its educational institutions are known continentally.

A new high school and a \$10,000 Carnegie Library are to be built during the next twelvemonth, and many new residences are under construction or being planned, as there is not a vacant house in the town.

CARLING'S SPECIAL SELECT ALE is extra mild. If you cannot drink an ordinary ale, this special brew will not only please you, but can be taken and easily digested by persons with the most delicate stomachs.

"The House That Quality Built." We are featuring the new English Rain or Shine Coat THE "Garbette Raglan" \$25.00 (London's Latest) R. Score & Son, Limited Tailors and Haberdashers 77 West King Street.

TORONTO LACROSSE LEAGUE DRAFTS THREE SCHEDULES The Senior Schedule Will Be Drawn Up Next Week—Junior and Juvenile Sections Well Filled. The Toronto Lacrosse League met last night at the Central Y.M.C.A. and drew up schedules for the junior, juvenile A and juvenile B sections for the coming season. The drawing up of the senior schedule was left for the week's end encounter with Billy Allen at Bassano, Alta. For does a certain amount of mulling, and is on the road for some time.

CARLING'S SPECIAL SELECT ALE. This ale is a Master Stroke in the art of brewing—it contains in the most delicate form all the best qualities of pure barley malt, hops and spring water.

Subscribers are requested to advise us promptly of any irregularity or delay in delivery of The World. TUESDAY MORNING, MAY 14, 1912

THE BIG ISSUE IN TORONTO.

Is the council of Toronto equal to the occasion? By the council we mean people as well, because lack of action in the first is largely due to lack of interest by the others.

Does the council, then, intend to lay out a water system for a million people, or to keep pottering at a plant that is never up to requirements? We ought to keep ahead all the time.

What are we doing in regard to transportation of a million people? AND TORONTO WILL SOON HAVE MORE PEOPLE OUTSIDE OF THE NOW EXISTING FRANCHISE OF THE TORONTO RAILWAY THAN WITHIN IT.

But the one thing now for Toronto is to start a program that will give accommodation to a million people. And it is easier to finance for these things in a big way than by pottering.

Toronto's financial position will improve the day we make it known that our municipal policy has been planned for a million people, and we start in to execute it.

STILL HARRPING ON MY DAUGHTER

Like a petulant child picking at a sore. The Globe continues to restate, to modify and as far as possible get away from its bad break about western freight rates. Thus we read in yesterday's issue:

The Globe does not argue that railway rates should be maintained on a scale that will enable the weakest of the three transcontinental to pay "dividends" on its capital. Railway stock in this country is chiefly water; railway bonds almost invariably represent a real investment by a British or European investor.

And again we are told: The G.T.P. would have only the legitimate revenue of a railway, the C.P.R., and in a less degree the C.N.R., would have the revenues of these land departments to supplement their railway earnings, and the C.P.R. could live and thrive on rates that would drive the landless railway into bankruptcy, even tho' it were operated on the most progressive lines.

No one has the slightest fear but that the bondholders of the G.T.P. will get interest on their bonds, and the same is true of the bondholders of the C.N.R. Nearly all these bonds are guaranteed by the government anyhow; but railway rates will not be reduced to a point which would deprive bona fide investors of a reasonable interest on their money invested in the construction of the road.

But what are we going to do about that "landless" company, the G.T.P.? Would the Globe favor the C.P.R. becoming "landless" by turning over all its western lands to a separate corporation, or would the Globe be in favor of bonusing the G.T.P. by presenting that company with enough land to place it on an equality with the C.P.R.?

And now The Globe having started this whole discussion to avoid answering two questions addressed to it by The World and having thereby apparently fallen from the frying pan into the fire, will it now kindly tell us, yes or no: 1. Should the C.P.R. stockholders

be permitted to carry out their plan as announced in the new columns of The Globe by issuing to themselves stock at \$100, worth \$250, on the market? 2. Should they be permitted to take and hold as a separate corporation the western lands received from the government of Canada by the C.P.R. and now held by that corporation?

What has The Globe to say about these melon-cuttings or either of them? "Under which king? Besonian, speak or die."

ATTRACTING BRITISH EMIGRATION

Canada and other British colonies are profiting by the exodus of agriculturists—farmers and laborers—from the British Isles. Movements of this kind once fairly started are hard to control, as the United States has already found in the continuing migration across the western boundary line. In the latter case it is the lure of cheap and fertile land, added to the knowledge that conditions are substantially similar to those that are left behind. The British emigrant, however, leaves the known for the unknown, and is largely the product of the failure to remedy the evils attending the landed system of his country.

Only after years of persistent agitation did the house of lords concede an imperfect measure of reform, and it will probably be years before the outflow is substantially reduced. Nevertheless the report just issued by the board of agriculture on the operation of the Small Holdings and Allotments Act of 1908 and 1910 reveals a striking record of progress. Up to Dec. 31 last 124,502 acres had been acquired or agreed to be acquired by county councils in England and Wales, of which 78,711 acres were purchased outright for upwards of \$12,900,000, and 46,821 acres leased for rentals of \$278,000. It is significant to find that 94,154 acres were leased to 6716 individual small holders, and only 196 acres sold to 18 small holders. This justifies the contention of the Liberal government that the preference was for leaseholds as against the opposition claim that it was the other way. Only a trifling percentage of the rentals was in arrears at the end of the year.

The demand for land under these acts is certain to increase year by year as the opportunity reaches a larger circle and the co-operation of the county councils is accorded with greater heartiness. The moral is that more advantages must be offered by Canadian provinces if they are to attract the best class of immigrants. Ontario will be confronted with the competition, not only of the improved forms now being offered in the west and in Australasia, but of the small holdings and facilities now opening up in England and Scotland. What is needed in this province is an advanced system of colonization in its northern districts, and it must be initiated and carried into effect by the provincial government. The difficulties with which settlers now have to contend in New Ontario, once these have become known, will retard development years and their influence will be hard to remove. Let the government take a leaf from the book opened by the Australian states and the Canadian western railways, and provide improved farms on easy terms for qualified immigrants.

CANADIAN LAKE FISHERIES

In a letter received from "A Fisherman of Ontario," he states that the United States has no control of the fish or fisheries in the great lakes, as the fish belongs to the several states that front on the great lakes. (See the decisions of the United States district courts and the supreme courts of the United States.)

An amendment to the constitution of the United States will have to be passed before any authority will rest in the United States as to the inland fisheries. Secondly, the American fishermen have caught annually 400 per cent more fish out of the great lakes than Canadians caught out of the same waters. Since 1885, the Americans had no limitation system, no limitation of nets or seines, no bag limits, no closed seasons, and the result has been that they caught many million dollars' worth more fish than Canadians were permitted to do under the very unwise restrictions imposed upon them by officials who never were fishermen.

Hon. J. D. Hagen, minister of fisheries, should have the various fisheries hatched for each great lake, and propagate only whitefish, as they are the only kind of fish that are depleted. The catch of salmon, for example, is larger to-day than 20 years ago, and they devour the whitefish. For these reasons no trout or pickers should be propagated for the great lakes.

Consider the following statement, taken from the Dominion fishery report for 1910. The United States census, and U. S. fish commission reports, and what Prof. E. E. Prince has reported, namely, that Canadian fish will be exterminated across the international boundary line. (See the Roman numerals in Dominion fishery report for 1910.) Of course Canadians should not be hampered with a treaty with the U. S., but a more equitable arrangement should be given to Canadians by the abolishment of close seasons, and the free fishing of the great lakes.

Three billion whitefish fry were propagated each year for each side of the plentiful and cheap close seasons unnecessary. American catch of fish out of the great lakes:

1880 65,742,000 pounds. 1885 99,849,076 " 1890 117,985,586 " 1895 118,173,750 " 1900 190,800,700 " Total in five years 499,340,084 pounds. Canadian catch out of the great lakes:

that old Dame Nature cannot be entirely dispensed with. The report of the Ontario Fisheries and Game Commission, just now published, makes a strong plea for extensive Ontario hatchery plants, but it is equally emphatic in the necessity of not only close seasons but of closed areas and agrees with Prof. Prince in his Georgian Bay Fisheries Commission report in recommending the prohibition of the export of white fish and the establishment of governmental fish agencies with the avowed design of breaking up the malign control over Ontario fisheries and fishermen of the American Fish Trust.

The letter which we have just received from "A Fisherman of Ontario," recommends the absolutely divergent policy of throwing our waters wide open, observing no close seasons and depending entirely upon extensive hatchery plants.

Unfortunately, the question of our inland fisheries has not been studied very deeply by our public men, and it may well happen that a plea such as is made by certain U. S. fish hatchery enthusiasts, and which might be quoted by net fishermen, would influence them in the direction of a wide open fishery, but if they read the debate at Washington during the fourth International Fisheries Congress, September, 1906, upon this very question they would find that Prof. Prince, and Mr. Kealy Evans, and one American quite held their own with the American fish hatchery superintendents who were present, and who took the other side. The World will be glad to see both the Dominion and provincial governments adopt a forceful, energetic and up-to-date fisheries policy, but it realizes that the statements of net fishermen must be taken largely as ex-parte, and that local political influences should not overweigh the recommendations of the commissioners who have generally appointed.

CANADA SHOULD WITHDRAW FROM THE U. S. FISHERIES TREATY.

Editor World: The United States has no control of the fish or fisheries in the great lakes. The fish belongs to the several states that front on the great lakes. (See the decisions of the United States district courts and the supreme courts of the United States.)

An amendment to the constitution of the United States will have to be passed before any authority will rest in the United States as to the inland fisheries. Secondly, the American fishermen have caught annually 400 per cent more fish out of the great lakes than Canadians caught out of the same waters. Since 1885, the Americans had no limitation system, no limitation of nets or seines, no bag limits, no closed seasons, and the result has been that they caught many million dollars' worth more fish than Canadians were permitted to do under the very unwise restrictions imposed upon them by officials who never were fishermen.

Hon. J. D. Hagen, minister of fisheries, should have the various fisheries hatched for each great lake, and propagate only whitefish, as they are the only kind of fish that are depleted. The catch of salmon, for example, is larger to-day than 20 years ago, and they devour the whitefish. For these reasons no trout or pickers should be propagated for the great lakes. Consider the following statement, taken from the Dominion fishery report for 1910. The United States census, and U. S. fish commission reports, and what Prof. E. E. Prince has reported, namely, that Canadian fish will be exterminated across the international boundary line. (See the Roman numerals in Dominion fishery report for 1910.) Of course Canadians should not be hampered with a treaty with the U. S., but a more equitable arrangement should be given to Canadians by the abolishment of close seasons, and the free fishing of the great lakes.

Three billion whitefish fry were propagated each year for each side of the plentiful and cheap close seasons unnecessary. American catch of fish out of the great lakes:

1880 65,742,000 pounds. 1885 99,849,076 " 1890 117,985,586 " 1895 118,173,750 " 1900 190,800,700 " Total in five years 499,340,084 pounds. Canadian catch out of the great lakes:

1880 14,720,000 pounds. 1885 27,178,180 " 1890 32,159,022 " 1895 38,377,894 " 1900 51,566,517 " Total in five years 157,512,202 pounds. The American catch exceeded the Canadian catch by 372,827,882 pounds. Catch of fish in Lake Erie, American side of Lake Erie:

1880 29,087,800 pounds. 1885 51,566,517 " 1890 62,843,332 " 1895 58,332,354 " 1900 41,832,840 " Total in five years, 244,429,333 pounds. Canadian catch out of Lake Erie:

1880 2,098,600 pounds. 1885 7,853,900 " 1890 9,245,752 " 1895 10,930,040 " Total in five years, 33,978,412 pounds. Thus, the American catch exceeded the Canadian catch by 210,450,921 pounds out of Lake Erie in the past 30 years. The American catch out of Lake Erie in the past 30 years, 1880, 1885, 1889 and 1906 has exceeded the Canadian catch of whitefish in the same period by 1000 per cent. This is the result of the American planting more whitefish fry from hatcheries into Lake Erie than the Canadians have in recent years. Canadian hatcheries have not been permitted to catch close seasons and restrictions to catch their share of the fish out of the great lakes.

of the great lakes has averaged yearly 200,000,000 pounds. The report of the Ontario Fisheries and Game Commission, just now published, makes a strong plea for extensive Ontario hatchery plants, but it is equally emphatic in the necessity of not only close seasons but of closed areas and agrees with Prof. Prince in his Georgian Bay Fisheries Commission report in recommending the prohibition of the export of white fish and the establishment of governmental fish agencies with the avowed design of breaking up the malign control over Ontario fisheries and fishermen of the American Fish Trust.

Consider the folly that prevents the use of pound nets and seines in Lake Ontario, but side the use of the mostly used kind of net, namely, gillnets, and the result is that less than five or six million pounds of fish are caught yearly in the great lakes. The water supply is not good and the few produced, at an annual expense of \$700, is ridiculous. Let all speckled trout fry, and about devoured whitefish. Stop all propagation of salmon trout fry for the great lakes because they cost 16 times more than whitefish fry, and about devoured whitefish. Prof. Ramsay Wright has reported that the reason trout grow to a weight of 25 to 30 pounds and upward is because of the many varieties that they devour. Prof. William Parker has reported removing a four-pound whitefish from a trout caught in Georgian Bay.

A hatchery that will accommodate 200,000,000 whitefish eggs could be operated at Toronto at a yearly expense of \$4000. This is far better than expending \$7000 at Newcas hatchery to propagate only 2,000,000 trout fry that afterwards will devour the whitefish, the most valuable commercial fish in Canada. A Fisherman of Ontario.

ANOTHER CANADIAN MERGER.

From The United States Investor, New York.

We should say that Canada is fast developing conditions which will cause the emergence of a Canadian Trust. It is at least on a class of business, concentration of control into fewer and ever fewer hands is going on rapidly. But in banking it is that we find the tendency toward centralization most pronounced. This is interesting in view of the fact that on our side of the international boundary line we are inclined to think that a money trust is the most to be dreaded of all monopolies. We have an idea that it is the mother trust of them all.

That Canada should witness with so little concern a development which would throw the United States into paroxysms of terror seemed to us difficult of explanation. It is worth noting, too, that the total assets of the new combination (Trusts and Royal) will be only about \$187,000,000. There are several institutions in this country who have a larger aggregate of funds to handle than that. Reason for becoming wild with terror is that the magnitude of the new combination is so large that it is more for thought and perhaps some ground for real apprehension is that this bank and two others will now possess between them more than three-eighths of the total resources of all the chartered banks in Canada.

If the resources of three other somewhat smaller banks are added, the six institutions will possess three-fifths of all the resources of the Canadian banks. It may be reported, and no reason for alarm in such concentration of funds to handle than that. Reason for becoming wild with terror is that the magnitude of the new combination is so large that it is more for thought and perhaps some ground for real apprehension is that this bank and two others will now possess between them more than three-eighths of the total resources of all the chartered banks in Canada.

UP-TO-DATE.

Accurate information on the Titanic Disaster and Other Events.

To keep well informed on current events is a necessity to every man who realizes that education is a problem of life, and not terminated when school or college years are over. The daily newspaper is probably the chief source of information on which the modern man relies in order to keep up with the times, but it is difficult for him to sift out from the mass of news published each day the things that really matter.

The wreck of the "Titanic," for example, is an event of world-wide significance, and the newspapers for some time to come will doubtless contain a great deal about the disaster and its results. What the man of liberal education needs, however, is a permanent, concise record of such an event, and the lessons to be learnt from it. The ordinary encyclopedia is of little use in this respect, for it gives information about the history of the world prior to its publication only. There is, however, one encyclopedia in this world which is up-to-date, and which is just such a happening of importance as is Nelson's Perpetual Loose-Leaf Encyclopedia, and its unique feature is that it is up-to-date. As a matter of fact, it is up-to-date. As a matter of fact, it is up-to-date. As a matter of fact, it is up-to-date.

At Osgoode Hall

ANNOUNCEMENTS.

Judges' Chambers will be held on Tuesday, 14th inst. at 11 a.m.

The following gentlemen have passed the third year examinations of the Law School at Osgoode Hall, for call to the bar, the first six having obtained sufficient marks to entitle them to honours: J. M. Langstaff, W. G. Jackson, A. C. Craig, F. C. Carter, A. E. Langman, A. E. Day, D. L. Constable, W. G. Atkinson, H. V. Laughton, C. B. Scott, M. A. Miller, E. G. McMillan, H. B. Wormwood, J. H. L. Morgan, E. F. Rancy, J. H. Cavell, W. H. McLeod, C. V. Jones, C. M. Johnston, L. E. Avey, W. A. Goss, W. H. Chapman, H. B. Daw, F. J. Foley, J. H. Shannon, D. W. O'Sullivan, W. C. Davidson, G. F. Brown, G. Newman, A. L. McCoy, J. H. Smith, J. O'Rourke, H. K. Harris, S. C. Atrol, Geo. Keogh, H. B. Vallin, A. M. Garden, C. L. Fraser, R. J. Mackenzie, A. Cochran, W. D. Herdridge, W. D. Cooper, M. K. Leonard, H. C. Mackenzie, S. H. Slater, B. Collins, J. A. Campbell, M. J. Folinnee, J. H. Smith, J. O'Rourke, H. K. Harris, S. C. Atrol, Geo. Keogh, H. B. Vallin, A. M. Garden, C. L. Fraser, R. J. Mackenzie, A. Cochran, W. D. Herdridge, W. D. Cooper, M. K. Leonard, H. C. Mackenzie, S. H. Slater, B. Collins, J. A. Campbell, M. J. Folinnee, J. H. Smith, J. O'Rourke, H. K. Harris, S. C. Atrol, Geo. Keogh, H. B. Vallin, A. M. Garden, C. L. Fraser, R. J. Mackenzie, A. Cochran, W. D. Herdridge, W. D. Cooper, M. K. Leonard, H. C. Mackenzie, S. H. Slater, B. Collins, J. A. Campbell, M. J. Folinnee, J. H. Smith, J. O'Rourke, H. K. Harris, S. C. Atrol, Geo. Keogh, H. B. Vallin, A. M. Garden, C. L. Fraser, R. J. Mackenzie, A. Cochran, W. D. Herdridge, W. D. Cooper, M. K. Leonard, H. C. Mackenzie, S. H. Slater, B. Collins, J. A. Campbell, M. J. Folinnee, J. H. Smith, J. O'Rourke, H. K. Harris, S. C. Atrol, Geo. Keogh, H. B. Vallin, A. M. Garden, C. L. Fraser, R. J. Mackenzie, A. Cochran, W. D. Herdridge, W. D. Cooper, M. K. Leonard, H. C. Mackenzie, S. H. Slater, B. Collins, J. A. Campbell, M. J. Folinnee, J. H. Smith, J. O'Rourke, H. K. Harris, S. C. Atrol, Geo. Keogh, H. B. Vallin, A. M. Garden, C. L. Fraser, R. J. Mackenzie, A. Cochran, W. D. Herdridge, W. D. Cooper, M. K. Leonard, H. C. Mackenzie, S. H. Slater, B. Collins, J. A. Campbell, M. J. Folinnee, J. H. Smith, J. O'Rourke, H. K. Harris, S. C. Atrol, Geo. Keogh, H. B. Vallin, A. M. Garden, C. L. Fraser, R. J. Mackenzie, A. Cochran, W. D. Herdridge, W. D. Cooper, M. K. Leonard, H. C. Mackenzie, S. H. Slater, B. Collins, J. A. Campbell, M. J. Folinnee, J. H. Smith, J. O'Rourke, H. K. Harris, S. C. Atrol, Geo. Keogh, H. B. Vallin, A. M. Garden, C. L. Fraser, R. J. Mackenzie, A. Cochran, W. D. Herdridge, W. D. Cooper, M. K. Leonard, H. C. Mackenzie, S. H. Slater, B. Collins, J. A. Campbell, M. J. Folinnee, J. H. Smith, J. O'Rourke, H. K. Harris, S. C. Atrol, Geo. Keogh, H. NO APARTMENTS OR GARAGES IN THE RESIDENTIAL DISTRICTS

Sweeping Measure Passed By City Council—Private Garages, However, Are Not Affected By Bylaw—No Action on Knox College Expropriation Nor Rosedale Bus Line.

UNIVERSITY AVENUE TO BE THE BIG STREET

A bylaw preventing the erection of apartment houses and garages in all residential districts was passed by the city council at the meeting yesterday.

What the City Council Did Passed bylaw prohibiting the erection of apartment houses and garages in residential districts.

Decided to improve University-avenue, according to original scheme—one big thoroughfare.

Deferred the third reading of bylaw to expropriate the Knox College and the University-avenue.

Deferred the closing of Herick-street, as requested by the board of education, so that the street would not interfere with new technical high school.

Decided to send Mayor, Ald. Chisholm and Assistant Engineer Powell to City Planning Conference, Boston, May 27 to 29.

Decided to sell city's land at the southeast corner of King and Dufferin-streets to the Toronto Carpet Co. for \$81,000.

Decided to have the land on Drummond-road to be acquired for the Bloor-street viaduct added to the parks acquisition fund.

Decided to accept the offer to acquire the Knox College and the University-avenue.

Deferred the closing of Herick-street, as requested by the board of education, so that the street would not interfere with new technical high school.

Decided to send Mayor, Ald. Chisholm and Assistant Engineer Powell to City Planning Conference, Boston, May 27 to 29.

Decided to sell city's land at the southeast corner of King and Dufferin-streets to the Toronto Carpet Co. for \$81,000.

der way came up in the board of control's report. Ald. McBride objected to this land being labeled for park purposes.

ST. THOMAS GARRIE RAILWAY BYLAWS. ST. THOMAS, May 13.—(Special.)—Both street railway bylaws, providing a total of \$20,000 for street railway equipment and extensions, were carried to-day.

RECEPTION TO PREMIER In the council chamber at 8 o'clock to-day a civic reception will be given to Premier Borden.

Who is Your Customer? HAVE you ever met your real customer? Have your salesmen a speaking acquaintance with him?

When the user wants your goods and won't take any other—then you are independent of all but him, your real customer.

To make the user want your goods you must do two things: (1) Produce an article of value.

When are the makers of piano actions, for example, going to discover that they do not know their real customers; and, what is worse, that their real customers do not know them?

What is it going to be worth to the piano-action maker who first discovers that his real customer is the Public, and not the piano manufacturer, who incorporates the action into the complete instrument?

Your real customer is the Public—the Public who wears your clothing, eats your pickles, uses your safety razor. You've got to sell your goods to the Public.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 303, Lumden Building. Enquiry involves no obligation on your part—so write if interested.

Mrs. George C. Burnham and Miss Betty Burnham have gone to Kentucky for a month's visit.

Mrs. E. W. Cox and Mrs. Burr have returned from a month's motor trip through Atlantic City, Philadelphia, New York, Lakewood, New Jersey, and from thence home thru Buffalo.

Mrs. A. H. Burritt and Mr. Andrew Smith have returned from Atlantic City.

Mr. and Mrs. Bethune, Miss Bethune and Mr. Hugh Bethune leave tonight for Montreal, whence they sail for England on the 17th.

Mr. and Mrs. W. A. Anderson, 2 Delaware-avenue, are the guests of Mr. and Mrs. W. A. Hall, Peterboro. The marriage will take place quietly at the end of this month.

Miss Major Smith and her daughter, Miss Harriet Smith, 556 Brunswick-avenue, are spending the summer in Victoria, B.C. They will also visit Moose Lake.

The Daily Hint From Paris

The Stripe Used Effectively

Altho plain in outline this suit is very desirable, owing to the way in which the striped material is used. Both materials are blue serge, the stripe being a coarse thread of white. The wide lapels extend to the waist line in the back, where they are fastened by buttons and loops. These buttons are of white pearl with loops made of white satin cord. The cord also passes through the buttons to fasten them in place. The skirt is of the envelope variety and closes at the side front.

Home Helps

Use a coarse cloth when rubbing the skin from new potatoes.

A little tomato catsup added to the diet of herring served on toast, as an appetizer, is a tasty touch.

Asparagus slipped thru rings of red pepper makes a pretty salad. A fine cut of cold carrots, sliced, and a little oil makes a pleasing color scheme.

Pass marsh mallows with hot chocolate. When the candies are dissolved a pleasant flavor is given to the chocolate.

Dustpans with the long wooden handles or others which may be held in position with the foot are more sensible than the old-fashioned kind with the short handles, for these necessitate constant stooping.

A bicycle pump is a good substitute for a vacuum cleaner in getting dust from rugs and crannies in marble stairways, plaster, woodwork, etc. A bicycle pump is a good substitute for a vacuum cleaner in getting dust from rugs and crannies in marble stairways, plaster, woodwork, etc.

A fair play, "Beauty and the Beast," will be given at the assembly hall of Bishop Strachan School at 8 o'clock this evening.

ROYAL PARTY RETURN TO OTTAWA.

MONTREAL, May 12.—Their Royal Highnesses the Duke and Duchess of Connaught and Princess Patricia left Montreal for Ottawa at 1 o'clock this afternoon, after a week's social engagements here, the centre of which was the horse show. The royal party will be accompanied by the general's special train, which consisted of the "Cornwall," "York," and "Canada," with one baggage car.

MR. COOTE'S LECTURES

William A. Coote, secretary of the National Vigilance Association of Great Britain, will be the guest of the local Council of Women this week. He will address a conference of workers and those interested in the work at the city hall on Friday afternoon, for which invitations have been issued. A public meeting will be held in Margaret Eaton Hall, North-street, on Wednesday, May 22.

PARKDALE W. C. T. U.

The last meeting of the season will be held by the Parkdale W. C. T. U. at 8 o'clock this evening at the home of Mrs. and Mrs. Torrance Jack, 29 Maynard-avenue.

DEATH OF MRS. STEVENSON

Mrs. E. J. Stevenson, wife of the chief ranger of the Independent Order of Foresters, died on Sunday night at the home of her sister in Peoria, Ill. Mrs. Stevenson had been ill for some time and made the visit thinking the change would benefit her, but from last Wednesday her condition gradually worsened, until death took place Sunday night.

"Complexion Secrets Of An Actress"

In a recently issued volume bearing the above title, the author says: "Continuous use of grease paints, rouge and the like, had ruined my complexion. My skin was wrinkled, flabby, coarse and punctured with large pores. In England I heard of the virtues of mercurized wax; my first experience with this marvelous substance convinced me it was more valuable than all cosmetics combined. Now whenever my complexion begins to go wrong I get an ounce of mercurized wax at the nearest drug store, spread on a thin layer of it before retiring, washing it off next morning. The wax after a few such treatments, seems literally to absorb the worn-out cuticle, when a brighter, healthier, younger-looking skin appears. "For the enlarged pores, wrinkles and flabbiness, I began using a solution of axolite, one ounce dissolved in a half pint of water. Soaking the face in this soon relieved the condition most wonderfully."

The Nursery

We are inclined to judge a child's success by his standing in class, and by the number of examinations he passes. It is vastly easier to cram facts into a boy's head, than it is to really interest him in the subject. And without this interest in what he learns his education is in a sense a failure. If a child is thoroughly interested, he educates himself. In this respect we see the value of play and playthings. Children love toys and things, they can play with by themselves. Toys interest them, they appeal to his sympathy, his originality, his patriotism, and thus thru his emotions they direct his thoughts; thru his thoughts they educate his will. Children exercise their imaginations in their play with toys. They live the life suggested by the toy, and they learn to control their emotions by constantly imitating. It is said that nations famous for their artists, artisans and "financiers" supply their children with toys. Not only does the toy direct the child's education along emotional lines, but it forms the foundation between his little world and the broad world of reality. He learns much of animals from his toy menagerie, he learns of counting and people from his blocks, soldiers and picture-books. He takes great interest in helping his mother, and in the play between his mother and child—the understanding that comes from playing together which means character-building and conquering together.

LADIES ASKED TO BE PRESENT

Arrangements Made to Accommodate Them at Y.M.C.A. Ceremonies This Afternoon and Evening

CLARA MURRAY

The board of directors of the Young Men's Christian Association wishes to especially invite ladies to attend the laying of the corner-stone of the Central Building on Tuesday afternoon. Arrangements are complete for this function and for the annual meeting of the association which will follow at 8 o'clock in the evening of the same date. Up to the capacity of the galleries, provision will be made for seating ladies. Reports from the office of the association indicate a very large number of tickets for the banquet.

MISS WHARTON'S RECITAL

A recital of much charm and artistic interest was that given by Miss Florence Hazel Wharton at the Conservatory School of Expression last evening. A program which included very distinctive varied excerpts from writers of such far apart periods and methods as Shakespeare, Crockett, Ouida and some lesser and later authors, those latter more remarkable for facility of diction, and broad comedy than for any other quality—but still remarkable—required for its exponent an eloquentist of no little talent and considerable versatility. These qualities are possessed very conspicuously by Miss Wharton, and she gave a gift of gesture and facility of facial and local expression not too frequently encountered, combined in one person. Her Shakespearean scene—Dobarry, Youse and the Watch—from "Much Ado About Nothing"—was rendered with an appreciation of its humor and a clearness of different voices for the separate characters, not generally believed possible to Miss Wharton's sex. In widest scope she gave a comedy monologue which was her showing of the excited

MISS WHARTON'S RECITAL

American (rather stumpy) girl in the excitement of watching a baseball match. The sporting element was cleverly betrayed in Ouida's Military Steeplechase, and his broad humor in a sketch of an excitable Irish wife having her mild husband and children photographed. There were a few other items in the program, and it may be said that each, in its separate atmosphere, was a very clever, very convincing piece of speech-painting. Assisting Miss Wharton were Miss Florence Fenton, a young mezzo of good round tone and clear expression, who sang Margaret Ruthven Lang's "The Love Song" very prettily and effectively, following with two short one stanza songs, "A Regret," and "In My Little Garden" a youthful, but accomplished pianist, Miss Marjorie Harpen, who played the Verdi-Lied Rite, "Fantasia," Miss Wharton should, if she so wished, climb high, and her two assistants did fair, in their separate, different lines, to obtain, also, easy and early recognition.

BEST END "HAD GOOD YEAR"

Last Season in Old Building the Most Successful. Since the Branch Was Opened—Good Reports Given

The annual meeting of the West End Young Men's Christian Association was held in their parlors last evening, there being a good attendance of members, subscribers, and the ladies' auxiliary. The chair was occupied by the president, Thos. Findlay, and reports from the various committees showed the work to be in a most excellent condition. An endeavor had been made to make the last year in the old building the best of all, and the object had certainly been accomplished, every department showing increase over the preceding year. Several new lines of work had been opened up, two of the most important being the shop work and the teaching of English to new Canadians. In the former about ten thousand men in the shops in the west end and west side had been interested, and in the teaching of English 120 students had been enrolled, with a total attendance of nearly two thousand. In the physical report, presented by Chas. Bauman, the outstanding feature was the work of the leaders' corps and the health talks given in the various shops. Spectacular swimming classes had drawn a great number of men, many of whom had learned how to swim, and the school of athletic work had been a strong attraction. Messrs. E. H. A. Watson and S. B. Chadsey presented the educational reports, showing 30 students in the classes, special success having attended the class in estimating, and plans for next year included many technical subjects in addition to the regular commercial and business courses.

CANADIAN WRITER DEAD

Miss Agnes Deane Cameron Succumbs to Attack of Appendicitis.

VICTORIA, B.C., May 13.—(Can. Press).—Miss Agnes Deane Cameron, well-known writer and lecturer, died at St. Joseph's Hospital this morning, following an operation for appendicitis, after a short illness.

HOT SHOT FOR MORROW

Pastor Severely Criticized for Marrying Chinaman to White Girl.

Rev. J. D. Morrow was the object of severe criticism in yesterday morning's police court, when he appeared on a charge of having united Lou Fraser, daughter of a staff inspector of the Salvation Army, in marriage to Frank Young, after the hour of 10 at night. Mr. Corley favored both the defendant and the prosecution with sharp remarks at frequent intervals. Two sisters of the minister testified that the time the ceremony was performed was 10.15, and that the bridegroom had been called on the phone at 10.10. The bride, who was a white girl, told him that there was a couple waiting to be married. It was several minutes to 10 when he arrived home. Miss Jessie Morrow stated that she always kept the clock a few minutes fast to save before 10, and Mr. Morrow said that he was not late in the morning when leaving to take charge of his class in one of the schools. The unfortunate first woman Crown Attorney called "Miss Fraser" said that the hands of the clock on the mantle registered the time 10.08, when they entered the room. Mr. Adams contended, however, that this clock had not been going for four years.

Decoyed Over Line By White Slaver

Point Edward Woman and Straydog Discovered at Bay City, Michigan.

SARNA, May 12.—(Special).—Mrs. Mary Williamson of Point Edward, Mich., disappeared from her home on May 2, and in company with Thomas Harrison, a well-known local fisherman, was discovered at Sarnia, has been found in Bay City, Mich. The immigration officer at Port Huron was notified by her husband Harrison, who was under a charge under the White Slave act before he and his wife were detained as a witness in the case. This is the second woman that Harrison has enticed across the line for immoral purposes, and the other woman who has returned to her home in Sarnia, has also been secured to give evidence against the prisoner.

CAR STRUCK WAGON

Driver for Piano Company Received Nasty Scalp Wound.

John Rogers, a driver of the Bell Piano Co., was taken to the General Hospital last night about 6.30, suffering from a severe scalp wound, which he sustained when the wagon he was driving collided with a Broadway car at the corner of Berkeley and Queen-sts. Rogers was driving west on Queen-st. and upon turning down Berkeley, a rapidly approaching westbound Broadway car collided with his wagon, smashing it up badly and throwing Rogers to the pavement. The man was picked up by the police ambulance and taken to the General Hospital, where he is said to be doing nicely. The motorman of the car says that he was not traveling at an excessive rate of speed, but that the slippery rails caused his car to slide into the wagon.

ROUGH WEATHER AT NIAGARA

NIAGARA FALLS, Ont., May 12.—While a 60-mile gale blew down the river, raising the water ten feet, snow fell for two hours this afternoon. Farmers expressed that the crops will be damaged as a result of the storm.

Day's Doings in County

Big Interest in Election—Met Locals

WEST TOWN

MILFORD, May 13.—The village of West Town, which is one of the most beautiful in the county, is the scene of a great deal of business. The village is situated on the shore of the lake, and is a popular resort for the summer months. The village is well known for its beautiful scenery and its excellent fishing. The village is also known for its excellent schools and its excellent churches. The village is a very attractive place to live, and it is a very popular resort for the summer months.

Berlin's Park Bylaw Causing Warm Fight Before Railway Board

BERLIN, May 12.—(Special).—The Ontario Municipal Board will be held to-morrow afternoon for the purpose of hearing the application of the Berlin Board of Park Management to ratify the bylaw passed setting aside a portion of the grounds of Victoria Park for athletic and amusement purposes. A quartet of citizens several weeks ago set out to defeat the object of the bylaw, and the Ontario Municipal Board has now been called upon to consider the matter. The bylaw provides that a portion of the grounds of Victoria Park be set aside for athletic and amusement purposes. The bylaw was passed by the Berlin Board of Park Management on May 10. The bylaw provides that a portion of the grounds of Victoria Park be set aside for athletic and amusement purposes. The bylaw was passed by the Berlin Board of Park Management on May 10. The bylaw provides that a portion of the grounds of Victoria Park be set aside for athletic and amusement purposes.

FARMING AND LIVE STOCK PAGE

WHEAT PRICES DECLINE UNDER BEAR SELLING

Crop News Not Favorable to Bullish Campaign, and Market Sagged Off Under Its Own Weight—Corn and Oats Lower.

CHICAGO, May 13.—Announcement of the opening of the Dardanelles to motor would release nearly 10,000,000 bushels of wheat had a depressing effect on the market here. Closing under Saturday night. Corn at the time was 1-3/4 to 1-3/8 down, with a decline of 1-1/2 to 1-3/8 on the 1-1/2. Courage on the selling side developed rapidly among speculators in wheat. At the outset greatly improved crop advice, the outcome of recent rains formed an influence in favor of the bears. Then, too, there were offers of new grain from Texas to be forwarded to St. Louis by June 20. Besides, world's shipments were larger than expected and supplies for importing countries were estimated at 2,000,000 bushels in excess of a year ago.

Dardanelles Release Big Supply.
Surprise over the largeness of the visible supply decrease brought about a temporary upward jerk in prices. Opinion, however, was progressively backed that the market had been over-bought. The climax came when news arrived that cargoes of wheat amounting to the aggregate of 2,500,000 bushels, which had been tied up in the Dardanelles, would probably start forward tomorrow thru the straits and would be available for millers in France and other European countries.

Rush to Unload Corn.
Fine weather and reports of increased acreage made the corn market heavy. Holdings were unloaded without stint, some going over on stop loss orders. The opening of the Dardanelles, also, counted against values as well as the wheat, for more than 5,000,000 bushels of corn had been held up by the same embargo.

Texas farmers sell new oats for early shipment north led to considerable weakness in the market for that cereal. A leading house here led a big line. Outside limits touched by the July option proved to be 84 and 83 1/8, with the close 83 1/8, a loss of 3-4 compared with Saturday night.

Active buying on the part of stockyard speculators had a bracing effect on provisions.

Northwest Receipts.
Receipts of wheat at northwest primary ports, with usual comparisons, are as follows:

Week	
Chicago	St. Louis
2,250,000	1,200,000
2,250,000	1,200,000
2,250,000	1,200,000
2,250,000	1,200,000
2,250,000	1,200,000

European Markets.
Liverpool wheat closed unchanged to 1/8 lower than Saturday, and corn 1/4 lower. Paris wheat closed unchanged to 1/8 higher. Berlin and Antwerp unchanged. Middling—Paris wheat, 83 1/2; corn, 83 1/8; shorts, 87; Ontario bran, 85 per ton; shorts, 87; car lot, track, Toronto.

World's Shipments.
The weekly world's shipments, with usual comparisons, follow:

This Week		Last Week	
Wheat	Corn	Wheat	Corn
1,750,000	1,200,000	1,750,000	1,200,000
1,750,000	1,200,000	1,750,000	1,200,000
1,750,000	1,200,000	1,750,000	1,200,000
1,750,000	1,200,000	1,750,000	1,200,000

United States Visible.
A comparison of the visible grain supplies in the United States to-day and on the corresponding dates of the past two years is as follows:

1912		1911	
Wheat	Corn	Wheat	Corn
1,750,000	1,200,000	1,750,000	1,200,000
1,750,000	1,200,000	1,750,000	1,200,000
1,750,000	1,200,000	1,750,000	1,200,000
1,750,000	1,200,000	1,750,000	1,200,000

Canadian Visible.
The Canadian visible wheat supply this week is 13,670,000 bushels, a decrease of 1,000,000 bushels; oats, now 7,400,000 bushels, a decrease of 300,000 bushels.

Western Stocks.
Stocks of grain at the Canadian ports, Port William and Port Arthur, with the usual comparisons, follow:

This Week		Last Week	
Port Arthur	Port William	Port Arthur	Port William
1,200,000	1,200,000	1,200,000	1,200,000
1,200,000	1,200,000	1,200,000	1,200,000
1,200,000	1,200,000	1,200,000	1,200,000
1,200,000	1,200,000	1,200,000	1,200,000

ST. LAWRENCE MARKET.
Receipts of farm produce were 4 loads of hay, four loads sold at 87 to 88 per ton.

Winnipeg Grain Markets.
Wheat—Open High Low Close. Close. May 13, 1912. 104 1/2 104 1/2 104 1/2 104 1/2. May 12, 1912. 104 1/2 104 1/2 104 1/2 104 1/2.

CATTLE TRADE STEADY WITH HEAVY SUPPLY

Farmers' Fed Cattle Steady—Distillery Fed Steers Sold at \$8.00

Receipts of live stock at the Union Stock Yard were 29 cars, comprising 410 horses.

The quality was generally good to choice; in fact, the largest number of best-finished seen on any market this year.

There were several American firms represented in the market by buyers for export.

There were several buyers from outside points in Canada for butchers' cattle, besides nearly all the local wholesale butchers and abattoirs were operating, all combining to make a heavy trade, but not strong enough to clean up the market.

Prices for butchers and exporters, fed by farmers, were steady to strong at last Monday's quotations.

There were seven carloads of distillery fed steers and bulls brought on the market, out of which 31 steers, 20 bulls, per cent, the highest price reached this season, being 87 cents for any previous record. These were sold to J. H. Corbett & Co.

Trade in sheep, lambs, calves and hogs was unchanged.

Exporters.
Geo. Rowntree bought for S. & C. Company 123 export steers, 105 lbs. each, at \$8.00 average price, and 45 export bulls, 1200 lbs. each, at \$8.00.

Mr. Howard bought for Swift & Co. 123 export steers, 1200 lbs. each, at \$8.00 average price, and 45 export bulls, 1200 lbs. each, at \$8.00.

Mr. Howard bought for Swift & Co. 123 export steers, 1200 lbs. each, at \$8.00 average price, and 45 export bulls, 1200 lbs. each, at \$8.00.

Stocks and Feeders.
One load, 900 lbs. each, was reported at \$8.50.

Milkers and Springers.
Only a limited number on sale, all of which were bought by Fred Rowntree at \$40 to \$50.

Veal Calves.
Prices for veal calves ranged from \$5 to \$8 per cwt.

Sheep and Lambs.
Sheep, ewes, sold at \$7 to \$7.25; lambs, \$6 to \$6.75; spring lambs at \$6 to \$7.

Hogs.
Prices for hogs were unchanged at \$8.50 for select, fed and dressed, \$8.25 to \$8.50 for f.o.b. cars at country points.

Representative Sales.
Exporters—20, 1200 lbs. each, at \$7.75; 15, 1200 lbs. each, at \$7.50; 10, 1200 lbs. each, at \$7.25; 5, 1200 lbs. each, at \$7.00.

Butcher—20, 1200 lbs. each, at \$7.75; 15, 1200 lbs. each, at \$7.50; 10, 1200 lbs. each, at \$7.25; 5, 1200 lbs. each, at \$7.00.

Butcher—20, 1200 lbs. each, at \$7.75; 15, 1200 lbs. each, at \$7.50; 10, 1200 lbs. each, at \$7.25; 5, 1200 lbs. each, at \$7.00.

Winnipeg Grain Market.
Winnipeg, May 13.—Trading was indifferent and prices easier. Options opened unchanged to 1/8 lower, and with continental cables lower and Liverpool's closing figures unchanged, and weak American markets, business was dull and quiet for most of the day.

ROOT CROPS FOR FARM STOCK

We make a distinct specialty of ROOT SEEDS, and are careful to see that our stocks keep pace with all the advances being made from year to year. Anyone wanting the best should insist on

Steele, Briggs' "Royal Giant" Sugar Beet.
Steele, Briggs' "Prize Mammoth Long Red" Mangel.
Steele, Briggs' "Giant Yellow Oval" Mangel.
Steele, Briggs' "Giant Yellow Globe" Mangel, and
Steele, Briggs' "Giant White Sugar" Mangel.

No other Root crops produce so large an amount of desirable cattle food for winter feeding. Insist on having them—they're the best—refuse substitutes and others said to be just as good.

Plans to Refinance Dome Extension--Stock Drops Back to 34

MINING MARKET STILL IN GRIP OF WEAKNESS

Another Abrupt Decline in Dome Extension Undermined Sentiment--New Financing Deal Under Way--General List Inclined to Sag.

Monday Evening, May 13. Another sharp break in Dome Extension, which dropped back to 34 under a heavy liquidating movement, gave a black eye to the whole Porcupine list today and especially checked any speculative enthusiasm which might otherwise have been in evidence. Trading was in its customary narrow status, and closing prices throughout were generally at net losses for the day. At its low price today Dome Extension stood a full 17 points below the level current of just a week ago. This represented one of the most drastic shakeouts which have occurred in the history of the Porcupine stocks since the inception of trading, and that it has not had a greater influence on the rest of the list has been only due to the fact that the bear campaign has been concentrated in that one spot, to the relief of other sections of the market. Many rumors regarding Dome Extension have been circulating on the street and widely divergent reports have been cited in explanation of the break. The truth of the matter is that the insiders have temporarily withdrawn their support from the market pending the completion of a financial deal. The re-velopment of the property has entailed a heavy expenditure and it is understood that the treasury is fast being depleted. An arrangement is already under way to refinance the company, however, and it is expected that this will be closed within the next 24 hours. An authoritative statement to that effect is expected from the management within the very near future. The stock closed today at 34 1/2 bid, nearly four points below Saturday. The general Porcupine list did not record any material changes and outside of the fact that a disposition to sag was observable in some issues, there was nothing of interest in the transactions. Crown Chartered sold out to 23 1/2 again; Hollinger closed at \$11.75 bid, and Standard was a shade higher at 8 1/2. One of the periodical purges in Island Smelters carried that stock up over a point to 11 1/4, but much of the improvement was lost before the close. Another rumor of an impending test by the experts was cited, the latter carried the same lack of authenticity which characterized its predecessors.

PORCUPINE OUTPUT \$500,000 A MONTH

PORCUPINE, May 11.—(From Our Man Up North).—The Dome's output camp will reach the \$500,000 a month mark in production before the fall is over, is the prediction of mine men here to-day, with six properties operating with stamp mills and crusher plants. "I figure," said Thor Warner, who leaves for Highgate in California, on a business trip, "that with present mill capacity by October, Porcupine's production will be up to the \$500,000 mark." Engineer McLaren is equally as optimistic, but places no set figures as the market that will be attained. It will be readily seen that these figures are extremely conservative, for with the Hollinger mill running at full capacity on 250 tons of ore, the production from this one mine alone will be above \$200,000 a month. Chas. Fox.

LOOK WHO'S HERE, GEORGE H. MUNRO!

NEW YORK, May 13.—(Special).—George H. Munro, one-time head of Munro & Munro, apostles of high finance, who headed the Canadian and United States public opinion for many hundreds of thousands a few years ago and about the city again, and all Broadway is wondering where his bond will next appear. Munro floated the Montreal and Bond set-quick game several years ago, and later started in to organize a bootblack trust. Next he bled to Canada, where he put out the Barton Mines of Gowganda, the Berna Motors and Tascabac, in which many Toronto people sunk a lot of money, and several other shady enterprises. When the crash came, Munro, the genius who pulled the wires and who had diverted the funds of the companies to his own use, folded his tents and faded away. He was later apprehended in New York and convicted. Munro's sentence was three years in Atlanta Federal Prison, and as he was sent down just about a year ago, all Bond and Wall-streets are wondering how he got out. The newspapers have chronicled no accounts of his release.

FAVORABLE RESULTS IN SWASTIKA CAMP

While no extensive development work is being done on the Otto Gold Mines in Swastika, the owners, who include Wels, Young, Bro, Young, C. A. Richardson and others, are working as slowly and diligently on the surface prospecting of the properties. Excellent results have been obtained. Several good surface showings have been opened in addition to those known to exist before, and in the test pits good free gold finds have been made and heavily mineralized walls have been opened. Similar work is being done on the Wright-Hargrave properties in which Wels, Young and others are interested.

FEELING OF HOPE AND CONFIDENCE SEIZES PORCUPINE STOCK

Mine All But Shut Down Temporarily--Can Use Wood About June 1. Shafts Are Linked Up at Dome Extension--No Time Lost in Proving the Property.

PORCUPINE, May 11.—(From Our Man Up North).—Fuel problems at the Dome are becoming so acute this week that the management was obliged to close work on No. 2 shaft, continuing with but two men at No. 1, where trucking is in progress. The pumps are also kept running to free the underground from water. About June 1, according to Manager Cleveland, when the swamp to the west and south has dried up so that wood can be taken to the power plant from the south claim, work will stand in full force again. The company has one lot on which the timber still stands, but which was being saved for timbering for the shafts and underground. In order to get into the summer's work early, coal deliveries will not be awaited as the coal supply is short and orders could not be filled for many months. The timber, consequently, which was being saved for underground timbering will be used as fuel. At No. 1 shaft 850 feet of underground timbering work was done, and here the lower shafts were cut, one a 19-foot shaft which showed a strong auriferous value. South of the shafts a cross-cut encountered porphyry. At No. 2 shaft, which is 115 feet deep, 180 feet of the underground has been cut and here the lower shafts were cut, one a 19-foot shaft which showed free gold in fine particles were intercepted. At a point where the work was closed the veins apparently are widening. Nos. 3 and 4 shafts are down 75 and 105 feet respectively but were closed down at the beginning of the winter. A total of 17 cross-cut drill holes were made last summer and fall for a total aggregate depth of 4000 feet, the depth of each being 200 to 300 feet. The main ridge for 100 rods was punctured along the center and near the west edge. Manager Cleveland plans to sink No. 5 shaft from the 125-foot level to the 250-foot, and cross-cut the ridge as at the first level, to deepen No. 2 shaft to the 350 foot level and again cross-cut the ridge. The veins cut at the first level. In all 100 feet of underground work is planned for the summer and early fall. The equipment is all that is necessary to carry on underground work down to the 500-foot level. Chas. Fox.

DOME OUTPUT OVER \$60,000

Gold Bullion Weighing 279 Pounds Produced at Big Stamp Mill--Not Working Full Capacity.

PORCUPINE, May 11.—(From Our Man Up North).—The Dome's third shipment of gold bullion, approximating 150 pounds, not officially announced, added to two former shipments of 129 pounds for that property since March 20, of 279 pounds, with amalgam in store which must always be on hand till the last clean-up is made. There may also be bullion on hand not accounted for in the shipment. This total value of over \$60,000 has been sent to market from the first 40-stamp mill to operate in the district. But, not since the first 10 days the steady advance in the market for gold bullion has been so high. The market supply for sale on the market is very scarce, consisting of 400 cwt, 75 sheep and lambs, 200 calves. A feature of the trade was the stronger feeling which developed in the market for cattle and prices advanced 25c per lb. and 50c per cwt, which was due to the scarcity of good finished stock through the country and the fact that drovers have been compelled to sell their stock at a price higher than in the Canadian market. The steady advance in the market for gold bullion has been so high. The market supply for sale on the market is very scarce, consisting of 400 cwt, 75 sheep and lambs, 200 calves. A feature of the trade was the stronger feeling which developed in the market for cattle and prices advanced 25c per lb. and 50c per cwt, which was due to the scarcity of good finished stock through the country and the fact that drovers have been compelled to sell their stock at a price higher than in the Canadian market.

BUILDING MILL AT DOME LAKE

Excavation Started for Ten-Stamp Crusher--One Year's Ore Supply Blocked Out.

PORCUPINE, May 11.—(From Our Man Up North).—Plans for the building of the Dome Lakes Mines stamp mill and tube grinders are out, and ground is being broken for the basement of the structure. Ten stamps to be operated with tube grinders which give an added capacity of 10 stamps, a total of 100 tons every 24 hours, is the size of the latest Porcupine ore separates. Under the plan, the Dome Lake's property contains 40-acre claims, adjoining the West Dome of the south, and two claims south of the same. Under the plan, the Dome Lake's property contains 40-acre claims, adjoining the West Dome of the south, and two claims south of the same. Under the plan, the Dome Lake's property contains 40-acre claims, adjoining the West Dome of the south, and two claims south of the same.

BULLISH ON THE COPPERS

The crop position, with warmer weather, must now steadily improve in prospect, and both business and the market are immeasurably more influenced by crop considerations than any other. Such liquidation as was pressing has apparently been absorbed, as evidenced by the ease with which the market now rallies. Money is easing everywhere. The market should now be subject to some irregularity, affording an opportunity on reactions to buy profitably. But probably the most attractive purchase as a business risk is the Coppers, because of the stable revival in the metal, bidding fair, as in any temporary disturbing conditions in any one country.—J. S. Bach & Co.

START VIPOND MILL ON JUNE 1ST SURE

PORCUPINE, May 11.—(From Our Man Up North).—The burning of the bridge over the Boston River on the T. & N. O., which held up freights as well as passenger trains for several days, makes it impossible for the Vipond crusher plant to start till June 1. The people grinders are not here and cannot reach here in time to be placed and ready for operation on the start of day. Also, there is extra mill work to be done. Manager Porter states that June should see the plant in operation. Chas. Fox.

MONTREAL STOCK MARKET.

The Montreal Stock Exchange closed on Tuesday, May 13, with a net gain of 1/2 point. The market was characterized by a general upward movement, with most of the leading stocks showing gains. The Canadian Pacific, Canadian National, and the Dominion Steel and Coal Corporation were among the most active. The market was well supported, and the closing prices were generally higher than those of the previous day. The total volume of business was reported to be one of the best of the season.

SHIPPING MARKETS

Shipping markets are generally quiet, with some activity in the grain and oil trades. The market for wheat is firm, and prices are steady. The market for oil is also firm, and prices are steady. The market for other commodities is generally quiet, with some activity in the sugar and cotton trades.

GLASSGOW LIVE STOCK

GLASSGOW, May 12.—Cattle—Receipts, 270 head; active and 10c to 25c; mixed, \$8.25 to \$8.75; milkers, \$7.50 to \$8.00; choice cows, \$6.50 to \$7.00; medium, \$5.50 to \$6.00; poor, \$4.50 to \$5.00. Sheep—Receipts, 15,000; market, \$4.50 to \$5.00; active, \$4.75 to \$5.25; mixed, \$4.25 to \$4.75; milkers, \$3.75 to \$4.25; choice ewes, \$3.25 to \$3.75; medium, \$2.75 to \$3.25; poor, \$2.25 to \$2.75. Pigs—Receipts, 1,000; market, \$6.00 to \$6.50; active, \$6.25 to \$6.75; mixed, \$5.75 to \$6.25; choice, \$5.25 to \$5.75; medium, \$4.75 to \$5.25; poor, \$4.25 to \$4.75.

CHICAGO LIVE STOCK

CHICAGO, May 12.—Cattle—Receipts, 1,200; market, \$6.00 to \$6.50; active, \$6.25 to \$6.75; mixed, \$5.75 to \$6.25; milkers, \$5.25 to \$5.75; choice cows, \$4.75 to \$5.25; medium, \$4.25 to \$4.75; poor, \$3.75 to \$4.25. Sheep—Receipts, 8,000; market, \$4.50 to \$5.00; active, \$4.75 to \$5.25; mixed, \$4.25 to \$4.75; milkers, \$3.75 to \$4.25; choice ewes, \$3.25 to \$3.75; medium, \$2.75 to \$3.25; poor, \$2.25 to \$2.75. Pigs—Receipts, 1,500; market, \$6.00 to \$6.50; active, \$6.25 to \$6.75; mixed, \$5.75 to \$6.25; choice, \$5.25 to \$5.75; medium, \$4.75 to \$5.25; poor, \$4.25 to \$4.75.

LIVERPOOL CATTLE MARKET

LIVERPOOL, May 12.—Cattle—Receipts, 1,000; market, \$6.00 to \$6.50; active, \$6.25 to \$6.75; mixed, \$5.75 to \$6.25; milkers, \$5.25 to \$5.75; choice cows, \$4.75 to \$5.25; medium, \$4.25 to \$4.75; poor, \$3.75 to \$4.25. Sheep—Receipts, 8,000; market, \$4.50 to \$5.00; active, \$4.75 to \$5.25; mixed, \$4.25 to \$4.75; milkers, \$3.75 to \$4.25; choice ewes, \$3.25 to \$3.75; medium, \$2.75 to \$3.25; poor, \$2.25 to \$2.75. Pigs—Receipts, 1,500; market, \$6.00 to \$6.50; active, \$6.25 to \$6.75; mixed, \$5.75 to \$6.25; choice, \$5.25 to \$5.75; medium, \$4.75 to \$5.25; poor, \$4.25 to \$4.75.

STAMPALE MARKET

STAMPALE, May 12.—Cattle—Receipts, 1,000; market, \$6.00 to \$6.50; active, \$6.25 to \$6.75; mixed, \$5.75 to \$6.25; milkers, \$5.25 to \$5.75; choice cows, \$4.75 to \$5.25; medium, \$4.25 to \$4.75; poor, \$3.75 to \$4.25. Sheep—Receipts, 8,000; market, \$4.50 to \$5.00; active, \$4.75 to \$5.25; mixed, \$4.25 to \$4.75; milkers, \$3.75 to \$4.25; choice ewes, \$3.25 to \$3.75; medium, \$2.75 to \$3.25; poor, \$2.25 to \$2.75. Pigs—Receipts, 1,500; market, \$6.00 to \$6.50; active, \$6.25 to \$6.75; mixed, \$5.75 to \$6.25; choice, \$5.25 to \$5.75; medium, \$4.75 to \$5.25; poor, \$4.25 to \$4.75.

STAMPALE MARKET

BROKER DEPLORES POLITICAL FIASCO ACROSS BORDER

Henry Clews, member of New York Stock Exchange, comments as follows on the situation: The disturbance to business arising from the presidential election once more emphasizes the desirability of making the term of office six years instead of four. The present campaign began a year ago and has been unusually bitter and full of personal recrimination. It promises to be even more exciting before the end is known. Why should the legitimate activities of 90,000,000 of people be arrested or hindered by the election of a president? The country will consume as much food, and wear as many clothes, and require as much shelter as at any other time. Nevertheless, the material property of the nation is inevitably checked, simply because election day is a day when the country is divided into two camps. New projects are deferred, risks are avoided, and the total business consequent is diminished. Labor, quite as much as capital, is injured by this harmful election. WOMEN'S AND MISSES' TAILORED SUITS.
A Discount of One-Third From Every One Sold Wednesday
Included in this sale are the season's most desirable models in plain and trimmed effect, made of fine serges, whipcords, and striped mixtures all from our high-priced suits, heretofore from \$27.50 to \$59.50. All lined with white, shaded, and black silk or satin. A variety of shaped collars with long revers, fastened with 2, or 3 pretty buttons. Skirts are gored, pleated, or inset. Colors include tau, black, brown, green, navy, and other shades. Prices, \$18.50, \$21.75, \$25.00, to \$39.65.

GIRLS' SUITS, SPECIALLY PRICED, \$3.50.
Tweeds, serge and vicuna cloths, well tailored, go to the making of these suits. The skirts are gored and trimmed with self strappings. The coats are slightly fitting, with mannish collar and tailored sleeves. Colors navy, green, brown, and tweed mixtures. Sizes 6 to 14 years. A limited number. Far below the usual price, at **3.50**

A Collection of WOMEN'S AND MISSES' DRESSES AT \$2.98.
Made in lingerie, chambray, muslin, gingham, mulls, and linens. Waists have semi-low or high collar and short or long sleeves, all prettily trimmed with piping, lace, or embroidery insertions. Some with raised waistline, others self belt. Skirts have correct lines, and are trimmed to correspond with waists. Colors are greys, tau, pink, and blue, and good stripes and mixtures. Splendid value **2.98**

SPRING COATS, \$7.65.
Made of light-weight tweeds and grey mixtures, also in brown tones. There is a variety of styles, for spring and summer wear, on semi-fitting or straight lines, with shawl collar. Trimmed with Novelty buttons. Regularly \$13.50. Wednesday **7.65**

SEPARATE SKIRTS FOR WOMEN.
A big offering in this splendid line of Skirts, made in plain-gored styles and one-sided effects; materials are in tweeds, in brown, grey, and green tones; serges, in black and navy, shepherd checks and lustres. These skirts were made to sell at \$4.00 **1.98** and \$5.00. Wednesday

Summer Materials That Will Wash

Great Special in Wash Silks—30c Value for 17c.
We have purchased from a New York manufacturer a select stock of Pretty Wash Shantung Silks, with fancy pattern woven in. A splendid assortment of colors and five designs. Colors are cream, sky, pink, champagne, navy, pearl grey, steel, Jasper, helio, Copenhagen, golden brown, mais, butter, beige, russet, and mulberry.
This fabric is of a very superior quality, and wide width, viz., 27 to 28 inches. They will wash well and always look the same after repeated washings. We expect such a rush at eight o'clock for these that we are making special arrangements, and shall show them both on the Main Floor, in a special circle near Queen Street Doors, and also in our splendid Wash Goods Department, on the Second Floor. Owing to there only being a limited quantity of each, we cannot fill mail or phone orders. Regular value 39c. Special **17c**

New Ribbon Arrivals
With the warm weather, comes both the need for fresh new Ribbons, and a new stock of 6-inch Taffeta Ribbon, in all colors. A new shipment has just arrived, bringing a big quantity of white, pink, and pale blue. Wednesday, per yard **15c**
