### NEW LEGISLATION IN LOCAL HOUSE

#### Includes Bill to Call All Curative Institutions "Hospitals."

### WITHDREW AMENDMENT

#### Col. Price Finds City Bill to Change Highways Act Unpopular.

A great deal of new government legislation was introduced in the local house yesterday. One bill, which is likely to receive public approval introduced by Hon. W. D. McPherson, will apply the one name "hospital" to all the provincial institutions, whether for the insane, the feeble-minded, the deaf and the blind, or others.

A bill by Hon. Dr. Cody will empower the Ontario Veterinary College to confer the degree of bachelor of veterinary science after a four years' course.

Joseph Russell, Toronto, wished his bill respecting mechanics and wages-earners sent to the legal committee. He was asked for an explanation, and said in a general way it aimed at placing head contractors and sub-contractors upon the same basis with respect to liens.

Mr. Proudfoot thought there are radical changes proposed in the present law, but on the plea of Premier Hearst the bill went to the legal committee.

Col. Price, Parkdale, moved the second reading of a city of Toronto bill to amend the Ontario highways act. The city claims that before the highways commission proceeded to spend money it should consult the city as to how much money should be spent and where it should be spent. Also the city wanted the say in respect to expenditure outside the county, in which the city is situated.

J. C. Elliott, West Middlesex, thought it would interfere with the operation of the highways act, if after the lieutenant-governor-in-council had decided upon a plan it would have to be submitted to the municipal council. Suppose they said "No."

Hon. Mr. Macdormid was also struck by the same objection to the bill, and did not think any good could be served by the house admitting its principle. He suggested its withdrawal.

Withdrew it.

Col. Price said the bill had been asked by the city of Toronto, but in view of the fact that it met with no approval he withdrew it.

The house went into committee of the whole on the loan and trust corporation act.

An important amendment was announced by the attorney-general in regard to the ordering of the general meeting of a loan or trust company. Upon the request of the Dominion Mortgage Corporation and the Land Mortgage Corporation the attorney-general may order an investigation, but this supplementary to the ordinary power to hold an investigation upon other responsible request.

In reply to H. H. Dewar the attorney-general said he had decided not to attach the schedule comprising the annual returns to the act, but in the opinion of the government that the return would need too frequent alteration to allow of its being made a statutory schedule.

The house went into committee on Hon. Mr. Macdormid's bill to amend the act respecting the board of stationary and hoisting engineers.

Mr. Proudfoot asked the meaning of the clause demanding that in the examination of candidates for certificates they must furnish evidence as to previous training, experience, sobriety and good character.

Hon. Mr. Macdormid said he did not think it would interfere with the granting of certificates of different grades. Fees are fixed to be paid by candidates upon examination for certificates and upon the renewal of certificates.

No person shall be eligible for examination unless he is a British subject or has resided in Canada for at least one year.

J. C. Elliott asked whether an old country engineer coming out to Canada would be excluded for one year.

Hon. Mr. Macdormid said that was the intention and also the law in the United States.

Just a Conjunction.

Mr. Proudfoot pointed out that a non-British subject who had resided one year in Canada would be eligible for a certificate unless the word "or" was inserted.

was changed to "and". The bill went through committee without change.

J. C. Elliott pointed out a strange clause which allowed a person not a holder of a certificate to operate a plant for thirty days. Why not have a temporary certificate? The penalty of operating a steam or hoisting plant without a certificate or one who employs or permits such operation is \$10 to \$25.

C. R. McKeown introduced a bill to amend the bread sales act.

Hon. Mr. Henry introduced by Dr. Cody introduced two bills, one to amend the veterinary college act.

Hon. W. D. McPherson moved a bill to amend the act relating to public institutions.

Hon. Mr. Ferguson introduced a bill to amend the survey act.

Hon. Mr. McHenry introduced a bill to authorize the lieutenant-governor in council to authorize certain debentures, also a bill to amend the devolution of estates act; bill to amend the succession duties act.

The provincial treasurer explained that the last mentioned bill refers only to a slight change of wording of the act.

Hon. Mr. Lucas introduced a bill to amend the trustee act, also a bill entitled the statute law amendment act.

Hon. Mr. McGarry introduced a bill to raise money on the credit of the consolidated revenue of Ontario.

Hon. Mr. McHenry introduced a bill to amend the act relating to public institutions.

## Oh, Man!

### PREMIER ANNOUNCES THE COMING VOTE

(Continued From Page 1).

same shall be sold by the sales agencies, the management of all matters relating to the sales agencies of liquor purchased by the board, and its duties will consist merely of the receipt and distribution of said liquor.

Where advisable the board may require liquor purchased to be sent direct to sales agencies, but such liquor shall be regarded as having passed through the central warehouse. The central warehouse will simply keep records of the liquor received and distributed, leaving the value of the same known only to the office.

Prices Regulated.

Sales agencies shall be concerned only with the sale of liquor, and shall maintain financial records of a character which will show the receipts and deposits and the payment of necessary expenses only.

They shall maintain records of a character necessary to keep a running inventory of stock and records of all necessary information covering prescriptions honored, and to give any statistical or official information as desired. No purchases of liquor to be made by sales agencies. These agencies will be inspected at indeterminate periods and certified that the same are fairly closely checked up. Operations of sales agencies shall be confined to the sale of liquor supplied to them by the board, which they must sell at prices laid down from time to time by the board.

It is not the present intention of the government to have the act to make regulations dealing with the matters I have mentioned and with all phases of this important and somewhat complicated business that may arise from time to time. I have, however, outlined in a somewhat detailed way, the plan the government proposes to adopt. I do this in order that the house may have not only a clear idea as to what we propose to do, and how we propose to do it, but in order that honorable members may have clearly fixed in their minds the government's proposed system for the sale of liquor when considering the other act to which I will now allude.

The Temperance Referendum Act.

The temperance referendum act will be a separate act, and will contain the necessary provisions for taking the votes of the electors on the liquor question.

The question or questions submitted should be in such form as to enable the government and the legislature to determine what public opinion is on the subject. We all admit a prohibitory law cannot be effective.

Big Hayseed Carnival.

Toronto Lodge, I.O.O.F., invites the members, their wives, sisters, brothers, and their friends and Rebekahs, to the spring carnival and dance (Ye old kind dances), and refreshments, on Tuesday next, April 15, at 8 o'clock sharp, at Oddfellows' Temple, 229 College street.

Prizes will be given for the best dressed costumes met in keeping with farm life.

W. D. Slaght, C. M. E. J. Ogilvy, Chairman, C. M. E. J. Ogilvy, No Charge.

actively enforced unless it has public opinion behind it.

Many good and conscientious citizens, as good and conscientious as we have in the province, do not approve of the act as it stands today, but are absolutely opposed to a return to the old license system. If you submitted the question set forth in the act, the people would either be compelled to refrain from voting or else to vote for an act that they did not approve of in its entirety.

Under these conditions a full verdict of the people could not be obtained. The bill will therefore provide for the submission of the question specifically for the sale through government agencies, for the sale through government agencies, and for a majority of the electors of Toronto had also voted yes to this question. If questions 2 and 3 both carry, provision will be made for sale of light beer in government agencies and in standard hotels.

Question 4—Again with question 4 should the affirmative carry, the government will be called upon to make all necessary and proper regulations for the sale through government agencies, of liquor of all kinds for consumption in homes only.

You will note that the questions are submitted in such a way as not to split either the dry or wet vote—each question stands by itself.

On each question the voter must make a deliberate decision and vote accordingly. The full force of public opinion will therefore be recorded for and against each and every separate question.

Act Unchanged Until Vote.

There will be no change in the prohibition features of the act until the vote has been taken.

The present act to vote on these questions shall be those entitled to vote in the case of an election to the assembly, viz., men and women twenty-one years of age and British subjects.

The date of the voting will be fixed by proclamation authorized by the lieutenant-governor-in-council.

Light Beer.

Light beer, as defined by the act, means and includes beer and any other malt liquor containing more than 2.51 per cent. of alcohol by weight; this, expressed in proof spirits, means 5.46 per cent., a little more than twice the alcoholic content of beer now permitted to be sold, which is 2 1/2 per cent. proof spirits.

We have fixed this strength because this is what the Labor Congress and others desiring light beer, ask for. It is also the same definition of light beer as contained in the Quebec act.

Cannot Prohibit Import.

It is perhaps well to point out that this legislature has no power to prohibit the manufacture or importation of intoxicating liquors, that being a measure resting entirely upon the authority of the Dominion government, and for which they must take responsibility. Any legislation we may enact will, of course, be subject to such laws as may be passed by the Dominion government, regulating the manufacture or importation of intoxicating liquor.

The manufacture of liquor containing more than 2 1/2 per cent. proof spirits has been absolutely prohibited in Canada since the 31st day of December, 1913, and the importation into Canada of such liquor has been prohibited since the 24th December, 1917.

The province voting must have voted in the affirmative on this question.

(2.) A majority of the electors voting in the municipalities must have voted in the affirmative. Take the city of Toronto, a license could not be granted in this city to sell light beer unless a majority of those voting in the whole province had voted yes to question 3, and a majority of the electors of Toronto had also voted yes to this question. If questions 2 and 3 both carry, provision will be made for sale of light beer in government agencies and in standard hotels.

Question 4—Again with question 4 should the affirmative carry, the government will be called upon to make all necessary and proper regulations for the sale through government agencies, of liquor of all kinds for consumption in homes only.

You will note that the questions are submitted in such a way as not to split either the dry or wet vote—each question stands by itself.

### MEN FROM MELITA BRING BACK WIVES

#### Northland Troops Also Arrive at Exhibition, and Are Discharged.

Fifty men for this district from the S.S. Melita, which docked at Halifax on Sunday, arrived at the Union Station yesterday morning, and after being welcomed by their friends, went through the process of discharge at the Exhibition camp dispersal barracks.

Last evening two hundred and fifty more men from the Northland arrived at the Exhibition and were greeted by their friends and relatives. The usual scenes, which have been enacted thousands of times in almost every country of the world during the past five months, were re-enacted last evening, when mother and son, brother and sister, husband and wife came together again, and the joy with which they were welcomed was unabated one jot, for they welcomed the one, who to them was dearer than all the rest.

Capt. Jago of the demobilization centre, speaking of their discharge, fifteen minutes after the arrival of the train, said that even in that short time some undoubtedly had been discharged and in the course of an hour or so they would all have passed through.

Supply From New Zealand.

One dealer in touching upon the general situation pointed out that the New Zealand and Australian butter, which practically supplied British Columbians and also reached other parts of the Dominion, had proved a desideratum in the hour of need. "You may safely state that if these New Zealand consignments had not been received, the storage of butter in this country would have been so exhausted as to make prices far more prohibitive than at the present moment," said the dealer. He also referred to a letter from a Lindsay creamery to the effect that ordinary dairy butter sold there as recently as last Saturday at 67 cents a pound, and that the same butter sold for 57 cents along the road pass.

"I might point out for your information that the quality of the dairy butter is generally considered an inferior brand to that commonly known as creamery butter, and that if dairy butter were sold at 56 cents a pound, the farmer, creamery butter might well be quoted at a cent higher."

Still another way bill was shown which was made up at the Lindsay creamery, sold to a Toronto wholesale dealer at 61 1/2 cents a pound l.o.b. at the creamery shipping point, consignments of 112,000 lbs. of butter, but that the figures quoted had been insufficient to make an agreement worth while.

Mr. Dewar was further informed of the details of receipts from corporations of the provincial lands included under the department of lands, forests and mines, 1913. The sum total of \$46,769,121. The International Nickel Company accounts for \$46,000,000 of the total, and the Mond Nickel Company \$46,769,121.

### WEST G.W.V.A. SPURS MAYOR ABOUT HOUSING

West Toronto G.W.V.A. executive last night passed resolutions urging upon the mayor and municipality of Toronto the advisability of taking advantage of the suggestions made by both the federal and provincial governments relative to the housing question, and to co-operate with the governments in the matter. The need of dealing in a practical way with the problem was also pointed out by every member of the executive. This body also passed a number of resolutions calling for improved legislation and administration, with respect to pensions both to returned men and to their dependents in the event of their death.

### John Hillison is Held on Charge of Petty Theft

On a charge of theft, John Hillison, 277 Palmerston avenue, was arrested last night by Acting Detective Carter. Hillison, the police say, on different occasions went into the Owl Drug Store at Bloor and Bathurst streets and stole cigars and candies worth \$50. He would ask for an article which would require the clerk to go to the rear of the store. In the absence of the clerk today, the fire has been at all times under the control of the firemen.

### BRASS FITTINGS STOLEN

James Saulter, no home, was arrested last night by Detectives Archibald and Armstrong charged with theft. Saulter is charged with stealing brass fittings worth \$80 from a machine in the Warren Paving Company plant at the foot of Spadina avenue.

### BUTTER DEALERS GIVE THEIR SIDE

#### Claim Shortage in Storage Accounts for Rise at This Season.

### FORCED TO IMPORT

#### Say But for New Zealand, the Situation Would Be Worse.

The opinion of the large dealers in Toronto is that butter may rise in price to 72 cents a pound, but that within the next ten days the great will have been passed, and that production will again equal consumption, the ratio gradually increasing in favor of production, until by the middle of May very reasonable figures may be quoted. It was admitted that the business in Canada, influenced by the market to the extent of creating forced values, should large European buyers offer exorbitant prices for the commodity. But, reputation of men in the business is that there was absolutely no foundation for the opinion that butter was being shipped over to Europe to feed Germany, and inferior grades of butter were left behind for home consumption. Perhaps the best reason for the present crisis in values was that given by one of the best known butter dealers in Canada, and the effect that when Britain, during October, and part of November, 1913, commandeered the entire Canadian supply of this commodity, the storage houses were practically denuded of their stocks, this condition affecting the entire future market until such time as the spring supplies came to hand.

The World gleaned the following facts in the course of investigations among reputable men on the market: In the first place it was estimated that the average consumption of butter per man a week was 3-4 pound, or an average of slightly more than 8,000,000 pounds for the entire Dominion. Figures during the past month had shown that production had failed to equal consumption in a market governed automatically by the supply and demand of the market. As a result of the decrease of production there were no storage stocks to hold the market. One dealer showed receipts of a consignment of butter recently bought from the Flavell creamery at Winnipeg. This consignment was bought wholesale at the rate of 58 1/2 cents a pound for 54-pound casks exclusive of freight charges which amounted to 1-3/4 cents a pound, making the price more than 60 cents a pound by the slab. Once a dealer had a consignment of butter into pound prints. Shrinkage was another factor necessary to take into consideration. It was, therefore, estimated that the price of wholesale butter had to pay at least 61 cents a pound for their butter. Yesterday they had raised their prices to retailers to 63 cents a pound, and today would be 64 cents. They did not believe, however, that the retailers would raise their prices to the consumers or if they did, the price at the retail level would rise above 72 cents a pound.

Supply From New Zealand.

One dealer in touching upon the general situation pointed out that the New Zealand and Australian butter, which practically supplied British Columbians and also reached other parts of the Dominion, had proved a desideratum in the hour of need. "You may safely state that if these New Zealand consignments had not been received, the storage of butter in this country would have been so exhausted as to make prices far more prohibitive than at the present moment," said the dealer. He also referred to a letter from a Lindsay creamery to the effect that ordinary dairy butter sold there as recently as last Saturday at 67 cents a pound, and that the same butter sold for 57 cents along the road pass.

"I might point out for your information that the quality of the dairy butter is generally considered an inferior brand to that commonly known as creamery butter, and that if dairy butter were sold at 56 cents a pound, the farmer, creamery butter might well be quoted at a cent higher."

Still another way bill was shown which was made up at the Lindsay creamery, sold to a Toronto wholesale dealer at 61 1/2 cents a pound l.o.b. at the creamery shipping point, consignments of 112,000 lbs. of butter, but that the figures quoted had been insufficient to make an agreement worth while.

Mr. Dewar was further informed of the details of receipts from corporations of the provincial lands included under the department of lands, forests and mines, 1913. The sum total of \$46,769,121. The International Nickel Company accounts for \$46,000,000 of the total, and the Mond Nickel Company \$46,769,121.

### WEST G.W.V.A. SPURS MAYOR ABOUT HOUSING

West Toronto G.W.V.A. executive last night passed resolutions urging upon the mayor and municipality of Toronto the advisability of taking advantage of the suggestions made by both the federal and provincial governments relative to the housing question, and to co-operate with the governments in the matter. The need of dealing in a practical way with the problem was also pointed out by every member of the executive. This body also passed a number of resolutions calling for improved legislation and administration, with respect to pensions both to returned men and to their dependents in the event of their death.

### John Hillison is Held on Charge of Petty Theft

On a charge of theft, John Hillison, 277 Palmerston avenue, was arrested last night by Acting Detective Carter. Hillison, the police say, on different occasions went into the Owl Drug Store at Bloor and Bathurst streets and stole cigars and candies worth \$50. He would ask for an article which would require the clerk to go to the rear of the store. In the absence of the clerk today, the fire has been at all times under the control of the firemen.

### BRASS FITTINGS STOLEN

James Saulter, no home, was arrested last night by Detectives Archibald and Armstrong charged with theft. Saulter is charged with stealing brass fittings worth \$80 from a machine in the Warren Paving Company plant at the foot of Spadina avenue.

### SPECIAL RECEPTION FOR FIGHTING FOURTH

Altho Unit Will Be Dispersed at Toronto, Deputation Will Meet Brantford Men in That City.

Brantford, Ont., April 7.—The 4th Battalion, from England, and the 4th Deputation, made by General Ashton, will be dispersed at Toronto. A deputation from Brantford will, it is thought, be arranged to meet the battalion, and the Battalion will be dispersed at Toronto. It is likely that the staff of the battalion will also come here for the presentation of the colors. However, nothing definite has been done in the matter, but it is practically certain that the militia department will not try to bring the battalion here as a unit.

### BIG PARAFFIN FIRE.

Petrols, April 7.—A tank containing 600 barrels of paraffin distillate took fire, it is supposed, from lightning, at the Canadian Oil Co.'s refinery here at 2:45 a.m. It still continues to burn at noon today, as the fire has been at all times under the control of the firemen.

### RHEUMATISM CONQUERED

I say that I can conquer rheumatism with a simple home treatment, without medical treatment, without diet, without bathing, and in fact say that my treatment is recommended for the cure of rheumatism, that shut your eyes and say "impossible," but put me to the test.

X-Ray of Rheumatic Hand

You may have tried everything you ever heard of and have spent your money right and left. I say "well and good," for me. Let me send you without expense to you, some of the best medicine I have ever known. It is called DELANO'S RHEUMATIC CONQUEROR. It will take the pain and cure the disease and sure the test will tell.

Send me your name and the test treatment will be sent you at once. When I send you this, I will write you more fully, and will show you that my treatment is not only for banishing rheumatism, but also cleanses the system of Uric Acid and give great benefit in kidney trouble and help the general health.

This special offer will be held open indefinitely. It will be necessary for you as this discovery quickly. As soon as you shall receive your medicine, send me your name and address, and I will send you a copy of my book, which will be in proportion to its great value. So take advantage of this offer before it is too late. Remember the test cost you absolutely nothing. F. H. Delano, 271-B Delano Bldg., Syracuse, N.Y.

NOTE: Orders for Delano's Rheumatic Conqueror will be filled from their Canadian Laboratories without delay.

### BRANTFORD CHURCH BUYS

Brantford, Ont., April 7.—The Bank of British North America is building a new church, purchased by Zion Presbyterian Church, for future use for Sunday school purposes. The purchase price is \$12,500.

### C.N.R. OPENS NEW FIELDS TO MINER

#### District Between Capreol and Port Arthur Rich in Possibilities.

#### FORMATIONS MAPPED Show Prospects Equal to Cobalt and Porcupine District.

Great developments in mining and prospecting are anticipated this summer in the district between Capreol and Port Arthur, along the line of the Canadian Northern Railway. C. T. Young, manager of the eastern lands department of the C. N. R., 5 Toronto street, has just returned from a trip thru the north country, full of enthusiasm regarding the future of this section.

"Is there anything new in the way of mining," asked The World, "when is the next gold rush coming off?"

"I have no prophecies to make regarding a gold rush," replied Mr. Young, "but it is not improbable, and the Dominion government geological department is making all kinds of preparations to aid prospectors. Last year they prepared geological maps showing different formations along three hundred miles of this line, and this coming summer will see a large addition to the acreage they are following out the policy of mapping out rock formations within twenty miles of the railway on each side of the C. N. R. Between Sudbury and Port Arthur last year's maps are now available at my office."

The same formations exist along these new lines of railway as at Porcupine, Kirkland Lake and other gold areas of the north. Formations that occur in the Cobalt district are also duplicated in this area.

"Are there any new mining ventures going ahead there?" asked The World.

"Yes, there are several very promising projects in hand. It is the general opinion that West Shining Tree camp will make good. Its greatest drawback at present is distance from the railway of approximately 24 miles, but water routes and Ontario government roads cover that stretch."

"It is doubtful if richer deposits exist anywhere in the north," continued Mr. Young. "Some sections of Vermilion River were worked during the placer gold rush. This year prospectors are going to see if they can locate the source of that placer gold. The deposit is generally supposed to be in the near vicinity of West Shining Tree camp."

Great activity is also reported by Mr. Young in the section between Capreol (20 miles north of Sudbury) and Foleyet. There are three thousand men engaged taking out "ties," pulpwood, and saw logs. Upwards of a million ties were taken out in this section in 1948. The ties were sold to the National Railways, at prices up to 75 cents per cord.

This section of country along the C. N. R., said Mr. Young, is not only in Northern Ontario, but in Northern Quebec.

In connection with their industry at Foleyet, the C. N. R. is moving in quantity to Thorold, at about \$10 per cord, and in the past two years, the freight and passenger business accruing from the forestry industry resulted in traffic amounting to \$200,000, which three years ago only totalled \$10,000.

"Millions of dollars in freight will accrue to the C. N. R. from south-bound movement of these forest products," said Mr. Young. "As there is virgin forest for hundreds of miles along this area is a fair-day belt land, the road passing thru the southern extremity of the well-known Northern Ontario clay belt. It is a country much the same as along the T. & N. O. Railway, and a few short miles will show marked development and greater earning power in the Mississauga, and other rivers, particularly Nipigon, can well provide the electric power necessary to operate industries that will develop from pulpwood and mining. The Nipigon River, one of the largest in the province, which drops 240 feet between Lake Nipigon and Lake Superior, is being developed for the Hydro-Electric by Sir Adam Beck. Present developments as at Cameron Falls, and private engineers estimate that this power will be 62,000 horsepower. A large part of this will be used in the manufacture of pulp and paper from the Black Sturgeon and Pick River pulp concessions."

Is there any good trout fishing up there?" asked The World.

"I should say there is," replied Mr. Young. "The Nipigon section is noted for that. Many tourists are being booked for Nipigon Lodge and other stops on the Canadian Northern, between Capreol and Port Arthur."

### COMPANY ASKS TERMS OF ABATTOIR LEASE

Part of a letter received by the city from the Canada Grocery Company, regarding the lease of the municipal abattoir, reads:

"Should you care to lease, kindly state your lowest rate per year for five years, giving us the first year free, so that we will be in a position to put it on a basis to earn the cost of the lease, we to pay you for the second year's lease, or rental, at once, on taking possession."

### STILLMAN APPOINTMENT WILL PLEASE SARNIA

President of Imperial Oil Co. Closely Associated With City as Founder of Refinery.

Outside of the oil industry, C. O. Stillman, the new president of the Imperial Oil Company, is best known as a member of the council of the board of trade. To the oil trade itself, perhaps, he is associated more closely than with anything else, to the Sarnia refinery of the company. It was in acquiring the site for this plant that Mr. Stillman and the late Hon. W. J. Hanna came into contact, and for the twenty-two years they have been very closely associated.

### COUNCIL HAS HARD TIME DECIDING

#### Over Hour's Discussion Required to Settle Question of Welcoming Troops.

### REDUCING COMMITTEES

#### Representatives From Each of the Wards to Fix Number of Members.

Despite the fact that fully one hour of the city council's time was taken up at the session yesterday discussing a grant of \$1,500 to be used for decorating the streets in connection with the arrival of the 3rd Battalion which is expected home about the twenty-third of this month, the order was cleared up shortly after 5 p.m.

Ald. Ramsden, who headed the delegation which waited on the board of council yesterday to provide a bonus of at least \$1,000 for every soldier, as repayment for the earnings they lost while in the army. The council was asked to approve the resolution. It was, however, referred to the G. W. V. A. of the city.

Immediately following the third reading of the bylaw for the reduction in number of the works, property and parks committees, which was passed, the Mayor, Maguire and Cameron, with the senior aldermen from each ward, were delegated to name the members of the reduced committees.

The next aldermen now compose the three committees:

Works—Cont. McBride, Ald. Hiltz (chairman), Winnett, Ramsden, Cowan, Blackburn, Birdsall, Maher and Williamson.

Property—Cont. Cameron, Ald. Ball (chairman), Honeyford, Mordridge, McMahon, Pearson, MacGregor, Ryding and Baker.

Parks committee: Cont. Robbins, Ald. Beaman (chairman), F. M. Johnston, J. W. Johnston, Nesbitt, Graham, Sykes, Whetter and Miskelly.

Ald. F. M. Johnston took exception to the granting of \$1,500 for a reception to the 3rd Battalion, asking that the amount be not stricken out, but that the board of control take the matter up with the military authorities to see if the latter agree that the amount is necessary.

Ald. MacGregor thought the amount was necessary and added that the entertainment alone would cost more than the stated amount. The alderman added that he had never received one cent for his services for entertaining soldiers.

Controller McBride followed and made some remarks to which Ald. MacGregor took exception. For several minutes there was an uproar in the chamber and finally the mayor ordered the committee to rise and instructed the clerk to read section 19 of the annual, dealing with conduct of members. After over one hour's discussion, the grant was approved.

### FARMER SUES COMPANY FOR LIGHTNING LOSS

Justus A. Griffin, of Hamilton, is suing the Guardian Assurance Company of Toronto before Judge Denton in the county court for \$650 for damage alleged to have been done to his buildings and stock in Manitoquin by lightning on May 19, 1948. The property had been insured in defendant company, who, however, refuse to make payment on the ground that Griffin had rendered his policy invalid by selling his live stock without consent. The case is proceeding.

### General Gunn Does Not Contemplate Resignation

Brig.-General Gunn in an interview last evening denied the rumor that he intended resigning from the command of this district. The general is making preparations for the next soldiers' banquet and is enthusiastic over its successful outcome.

At the banquet to be held on the evening of the 24th it is intended to have the soldiers put on an entertainment of their own. Preparations are also being made by the military authorities to make the reception to the 3rd and 15th battalions' great successes.

### VETERANS RAILWAY TRANSPORT MEN WERE LUCKY

#### Few Casualties Considering Constant Repair of Track Under Fire.

A member of the Fourth Canadian Railway Transport Battalion gave an interesting resume of the battalion during its past two years' service to The World yesterday. He stated that this unit was among the luckiest in the whole outfit, and that during the course of its operations the casualties among the rank and file, mostly inflicted by the enemy, did not exceed a total of 700 men. He was unable to account for this piece of good luck, and pointed out that the unit had been engaged in a number of exciting episodes, among them being the battles of Cambrai. The 4th C.R.T. had been engaged in maintenance work at many points and had been by no means uncommon to repair the same stretch of light rail sixteen times the same night. One of the most remarkable fatalities related by this soldier concerned to the R.C.D., the only Canadian unit engaged in the battle of Cambrai on Nov. 17, 1917. By an unfortunate coincidence the great tanks of the imperial forces had fallen thru the bridge, over which the Canadians had rushed after the Hun homes. The tank, however, was protected on the wrong side, and very soon the Huns had taken advantage of the situation with the result that eight of the unit reached the British lines the other side of the wide stream.

### SECOND WEEK OF UNPARDONABLE SIN

#### Attracts as Big Crowds as Ever at Allen Theatre.

"The Unpardonable Sin," showing at the Allen Theatre for the second and last week, is a picture version of the book of the same name by Robert Hughes. It was staged by Marshall Neilan and the leading roles—in fact the two leading roles—are played by Blanche Sweet. In production, photography, supporting cast and every other essential, the presentation measures up to the highest standards. The story of "The Unpardonable Sin" is the experience of the three feminine members of Stephen Paroo's family—his two daughters, Alice and Dimmy, and his wife—in Belgium.

Alice and Mrs. Paroo are there when the Germans invade the country. They fall into the hands of the merciless barbarians. A letter from Alice reaches Dimmy and she resolves to find them. On her way to Washington she meets Noll Windsor, of the Belgian relief forces, and to aid her they enter into a marriage of convenience, so she may obtain a passport. Dimmy and Noll in their joint mission of aid and search finally locate the pair, but when Dimmy gets to the old ruins dwelling she finds her sister dead and her mother heart-broken. The trio manage to escape and, of course, by this time Noll and Dimmy find themselves in love.

Many of the scenes are intense. The search of an American woman by a German soldier, the chase thru the charged wire fences, the fight in the German headquarters and other effects are superbly presented. Matt Moore makes an excellent leading man in the role of Noll Windsor. Much of the comedy in "The Unpardonable Sin" is for there is comedy aplenty in addition to pathos in the extraordinary Harry Garson production—is provided by two able little screen actors, Bobby Conolly, who plays the part of a Belgian Boy Scout, and Wesley Berry, a French faced youngster, does remarkable work as the ragged little American who ran so much difficulty when a terrible tragedy left him helpless and alone in Europe.

Both the youngsters play up to the best traditions of the world-wide organization which they represent. One situation follows another in a logical manner as was ever accomplished on the speaking stage, where the human voice was available as an agency to tell those out in front just what might reasonably be expected. And the whole action moves without a break or interruption to its final and most powerful climax.

### CHILD EDUCATION AS WAR MEMORIAL

#### Daughters of the Empire Will Raise Endowment of \$100,000.

To keep in memory the brave men and women who fell in the war, the Daughters of the Empire thruout Canada are contemplating raising a fund which will serve the purpose thru the highest medium possible—that of educating the children of Canada in the things that make for the best patriotism.

The matter was outlined at a meeting of the national executive held in Toronto in December last. Resolutions then passed with modifications since made will be presented at the coming annual meeting of representatives from all parts of Canada. The war memorial proposed will include the raising of an endowment fund of \$100,000, war memorial pictures for the schools to cost approximately \$25,000, libraries and lectures at a yearly estimate of \$75,000.

In the scheme a lecture foundation and memorial fellowships will be a permanent feature, which it is felt will help to preserve the unity of the empire, for which the supreme sacrifice was made.

### DR. MACGILLIVRAY TALKS ON CHINA

#### Tells Canadian Club That Chinese People Dread "White Peril."

### TRUE DEMOCRACY

#### Would Become Member of the Sisterhood of Nations.

"China as a Member of the Family of Nations" was the subject of the address to the Canadian Club yesterday by Rev. Donald MacGillivray, M.A., D. D., who is home on furlough from his missionary work.

He considered, it he said, a great and gracious privilege to be invited to give the great "middle kingdom," otherwise known as China. He had once looked up an anthology and found only two quotations from Bret Harte, and one from Tennyson—"Better fifty years of Europe than a cycle of Cathay." He thought this was not such a damaging assertion, as the Chinese cycle was only 60 years, and to say that 60 years of Europe was better than 60 years of China was not an injurious comparison. No other nation, said Frank Brinkling, had for so long a time preserved its own theories or kept its literature so free from foreign influences, or kept so high a moral and natural elevation above contemporary states.

He had necessarily studied the language in order to become familiar with the people and the press. Among new terms introduced into the language two were significant—"indemnity," and "to demand" in the big stick sense.

The partition of China had been looked forward to, but Dr. MacGillivray believed that the slicing up of China would never take place, and it had been prevented by Great Britain.

"There was still talk of a new generation and infiltration, and the Chinese themselves spoke of the "white peril."

"You are thinking of another color," he observed, amid laughter.

The Chinese had heard of the blessings of party government. Dr. MacGillivray would apply the term temperance to democracy in China. There were four different contestants for power there now, the president, the premier, the parliament, and the military party. There were foes within, the grafters, those who desired to get rich quick, the seekers for wealth and power at the expense of the public. He believed, however, that China would become one of the sisterhood of nations, and would so be treated by the other nations, that there was a long, long trail awaiting before she had become an entirely competent member of the family of nations.

**Magnificent Resources**

The magnificent resources of China were a guarantee of her development. "I don't much believe in the yellow peril," Dr. MacGillivray asserted. "First of all because God's in His heaven, and all's right with the world, and secondly, China is too pacific a people. She ought to fight. Above all, I don't believe in the yellow peril because it is the reduction of absurdity of human history."

"China has to join herself to something with pulling power to implement her ambitions, which are warm and noble. Give the Chinamen leaders whom they can trust, and they will work wonders. I know some Canadians they trusted, and the Chinese worked under them with devotion, in a breach in a river last year I saw Chinese men standing naked in the water to the waist, working to men to dig, to save the villages which depended on their labor." He paid a compliment to Chinese intellect.

"The brain of the Chinamen set free, infused with new life, new ideas, fruitful ideas, is just starting out on a series of mental triumphs which you and I will get to see."

"Hitherto western critics have not had the appreciation of Chinese art in its finer aspects.

"The world needs the soul of China, and in the days to come it may very well be that it shall fall to the lot of China to place the topmost stone on the temple of truth."

"I want to warn the merchants of Toronto that the Chinese don't like being used. I don't think they will be extraordinary in the things our traders think the Chinese want. Chewing gum? Think of a nation of 400,000,000 each with five salivary glands engaged in producing saliva!" was one of the speaker's satirical remarks.

**To Help China.**

"There is need for merchants who will give the Chinese a square deal; doctors, engineers and such men. We want a league of nations not to exploit China, but to help China. A league of nations, friendly, not envious, not covetous, full of generous resolutions, that is what China needs today to make her a member of the family of nations."

"China is listening, wanting to know what we have to tell."

"China is inevitable, a desirable, and will be an indispensable neighbor."

### Garden Books Exhibit at Public Reference Library

The seventh annual exhibition of books, catalogs, pamphlets and periodicals relating to gardens and garden making opens this week at the public reference library, College and St. George streets. The interest in greater and better production during the period of the war has stimulated this kind of literature, and there is a splendid assortment ready for the amateur gardener.

### SPR. MAPES WELCOMED HOME.

On Thursday evening the home of Mrs. C. Fitzgibbon, Humberdale avenue, was the scene of a very jolly little party given in honor of Spr. Leslie Mapes, who returned on the Mississauga from England in August of 1916 with the 15th York Rangers Battalion. After arriving in England this battalion was absorbed into the Second Battalion, C.R.T., which saw service on all parts of the western front.

FOUNDED 1850. A morning newspaper published every day in the year by The World Newspaper Company of Toronto Limited.

The Hydro Appeal Case.

Inquiry at the Hydro-Electric Commission offices last night elicited the statement that as there were two issues before the privy council, it was not clear from the report given in which of the two the appeal was allowed.

There is not the slightest doubt, however, that enmity to the public ownership principle behind the Hydro-Electric system is the cause of all the difficulties.

"Idiotic Partners"?

The Hamilton Herald says that it believes that the restrictive clauses in the Hydro agreements bear no relation to the self-imposed terms of partnership and asks for "a single example of any private enterprise the partners in which were so idiotic as voluntarily to enter into any such arrangement."

The Herald does not need to step outside its own office for an example. The joint operations of newspapers in their co-operative press enterprises are of exactly the same order, and to the same end, the mutual protection of the joint partners.

The New Spirit of Education.

An entirely new spirit in education, as indeed in nearly all else, is abroad since the war. For one thing, the old idea was very largely to learn to know, and very frequently without any bearing on the value of the knowledge acquired.

life to be lived as some moralists might desire. The day has gone past, however, since parents or, indeed, young people themselves, will be satisfied with courses of learning which may involve academic and intellectual distinction, but furnish no means, when they have been gained, of sustaining the honors won.

Society on this score has failed entirely, both as regards the scholar who cannot make a living, and the wage earner who has been allowed a mere living wage, whether he be married or single.

Sir Auckland Geddes at the notable farewell dinner in London, on the occasion of his departure for Montreal, where he is to assume the principalship of McGill University, expressed some views that mark him as being seized with the new educational spirit.

TRIBUTES TO BEATY BY BRITISH PRESS

Occasion of His Hauling Down His Flag as Commander-in-Chief.

London, April 7.—On the dispersal today of the grand fleet, Vice-Admiral Sir David Beatty hauls down his flag as commander-in-chief. All the newspapers publish articles on the historic occasion, dwelling on the fact that its purpose was achieved with the complete destruction of the enemy's naval power.

Many Canadians Are Eager To Serve in Northern Russia

London, April 7.—The British government hopes to be able to despatch the first part of the relief force for northern Russia on Wednesday, says The Mail, which adds that the appeal for volunteers is meeting with a gratifying response.

Sweden Has Destroyed Mines In Her Territorial Waters

Washington, April 7.—The Swedish ministry of marine has notified navigation interests that Sweden has taken up or destroyed the mines and mine-fields planted during the war in Swedish territorial waters as a protection against belligerent submarines.

IDA RE THE HOUSING QUESTION

By IDA L. WEBSTER.

The housing problem has not only become one of the horrors of spring, but one of the tragedies of life. Citizens in Toronto are walking the streets willing and anxious to make any and all sorts of promises, if they can but induce the landlords to rent a house to them.

THE DAY AT OTTAWA

By TOM KING

Ottawa, April 7.—An old time cat and dog fight between some of the Protestants of Ontario and some of the Roman Catholics of Quebec engrossed the entire time of the house today.

The pretext for the row was a motion proposed by Sir Sam Hughes calling for a parliamentary investigation into the famous raid on the Jesuits by Novitiate. The government immediately promised that a royal commission should be appointed to inquire into the matter.

General Hughes in presenting his resolution for a parliamentary investigation into the famous raid on the Jesuits by Novitiate, developed his usual amount of "pep." He recited the facts he had received from Sir Kennedy C. Palmer, who had read Palmer's charges.

Premise of Railway Committee of Commons to Give Due Notice to Municipalities of Date of Discussion. Ottawa, April 7.—Mayor Thomas Church of Toronto, Mr. F. Proctor, city solicitor, Ottawa, and Mr. G. H. Butler, city solicitor of Montreal, were in attendance this morning at the meeting of the railway committee of the house of commons to watch the rights of municipalities.

CITY COUNCIL OF GALT STRIKES 30 MILL TAX

Galt, Ont., April 7.—The city council at its regular meeting tonight fixed the tax rate for the year at 30 mills, which is three mills less than last year. The finance committee, in its report, pointed out that this year the city did not have to pay a provincial war tax of \$4,800, formerly paid to the province. The total sum required to be raised was \$271,113.50, of which the sum of \$181,838.45 beyond control, that is the control of the council.

GIVE FEDERAL PROMISE OF HUDSON BAY LINE

Ottawa, April 7.—An important conference in regard to the Hudson Bay Railway was held here today when Premier Norris and Federal Treasurer Brown of Manitoba, accompanied by J. A. Campbell, member for Nelson, Man., talked upon the government's attitude. The ministers intimated clearly that they recognize that the Hudson Bay project is one that must be carried on. In this connection it was pointed out that any amount of money which may be raised in the estimates this year will be in the nature of a re-vote, as the sum voted last year was not spent.

WINNIPEG REEKS WITH HOME-MADE LIQUOR

Winnipeg, Man., April 7.—Winnipeg is literally reeking with home-made liquor. We are trying to keep things within reason, but there are so many stills in the city that the situation is beyond control. T. H. Verney, customs collector for the inland revenue department, is very strong and growing stronger daily, he said.

GALT PLANS A PARK AS WAR MEMORIAL

Galt, April 7.—A number of prominent citizens are behind a scheme to give Galt a lasting memorial to the sacrifices made by local men in the great war. Their proposal is meeting with much favor. The scheme is to purchase the opera house block and big lot at the rear for a sum in the neighborhood of \$25,000 and convert the property into a memorial park, which, with Queen's Square, would make a beautiful spot to be proud of.

Col. Jas. Stewart, D.S.O., Returns After Valorous Service

Kingsport, April 7.—Among the returning men who were welcomed here this afternoon was Col. Jas. Stewart, D.S.O., of Postmaster Jas. Stewart who, before the war broke out, was in the city department of public works, on the staff of J. Chaplin. His work on the field of battle stands out with special prominence, as at the age of 26 years, he was made lieutenant-colonel and put in command of a brigade. He was wounded three times.

PETITION OF PARKDALE TO JOIN BRANTFORD

Brantford, Ont., April 7.—The petition of Parkdale residents asking for annexation to Brantford is being forwarded to the Board of Municipalities. The Board has the request for an early sitting of the Board. The petition is very largely in favor of annexation, the total vote being 1,000. Notwithstanding this, the Brantford township authorities will call for a vote.

AT LOEW'S

"Good Gracious Annabelle" Features Billie Burke in Film Full of Situations

Loew's this week stars Billie Burke in a picture very suitable for her clever acting. "Good Gracious Annabelle" is a comedy-drama in which a girl whose unknown husband turns up in the shape of a very desirable young man who wants Annabelle's shares in some mining stock to save him from his rival. The girl in an effort to raise money, had been tricked out of the shares and an attempt all around to recover them results in Annabelle's success. Billie Burke's winsome charm ensures the success of the film. Charlie Chaplin in a revised edition of "Police" is the comedy offering and provokes the usual laughs. The Whirlwind Gypsies offer "A Night in a Romany Camp" an artistic musical offering with all the effective scenery possible. Grace Carliele and Jules Romer in a sketch, feature many old and charming songs and some waltz solos are greatly appreciated. Jack and Tommy Weir, comedians, have an amusing running fire of talk and Walsh and Edwards are entertained well. Montambo and Nap take the honors for acrobatic, and a British-Canadian weekly and a Mutt and Jeff cartoon finish a splendid program of entertainment.

AT THE MADISON.

Earl Williams seems to be a great favorite with patrons of the Madison Theatre, judging from the enthusiasm with which the Vitagraph production, "A Gentleman of Quality" in which he is starring at that theatre for the first half of this week, was received yesterday. The photoplay is one with a strong vein of mystery, the interest is sustained throughout, and the love story which runs thru the play is of a strongly appealing kind.

PLAYS, PICTURES AND MUSIC

"SEVENTEEN"

A Wholly Delightful and Constantly Laughable Comedy, With Universal Appeal of Love and Youth. Those who know Booth Tarkington's story need no introduction to "Seventeen", but for those who do not it is scarcely necessary to say more than that Stuart Walker's original New York company with Gregory Kelly as William Sylvanus Baxter, presents the stage version at the Royal Alexandra last night. This wholly delightful and constantly laughable comedy has the universal appeal of love and youth and summer-time, and probably chiefly for the reason that everybody in the audience is watching on the stage some half forgotten episode in his or her own life. There is the magic flavor and enchantment of simple but clever and accurate delineation of familiar characters, and a company that is so natural and effective that it seems like a group of people out of a hoosier town rather than a company of actors and actresses. The time that Mr. Baxter comes into the Baxter living room calling "Mary, Mary," and "Jane, Jane," till Billy Kelly is folded in his mother's arms, the audience was practically all the time in a happy cackle of laughter. It is irresistible. Baxter is the conventional father, who was "never like that" when he was a boy. His wife is a sensible, sympathetic woman, Jane, the household detective, who sees and hears everything and blurs it out on dreadful occasions, is remarkably well played by Lillian Rose. Her account of how Mr. Partridge didn't mind the Sunday school class, but couldn't stand that damned boy, brought down the house, and there were many parallel incidents. Gregory Kelly as the boy of 17, who is afflicted with manly ambitions, starts out with utter indifference to the fact that "they may not die" would be "notice." He has been reading "The Tale of Two Cities," and finds in Sydney Carton a romantic hero, and then comes along the only girl, the baby talk lady, who is insufferable in her affection to the boy of 17, but for poor Willie is the queen of heaven. Out of such Barre-like material, Booth Tarkington weaves the story, which makes people laugh in spite of themselves, while all the time they feel the advice to the doctor for the doctor comes from knowing that if ever they behaved like that it was so insufferable around the house, and the boy of 17 is one of the choice moments. His interruption to the Sydney Carton epiphany is a masterpiece of comedy. Ruth Gordon is very clever as the affected Lola Pratt, and Judith Lovry as the girl who is attracted to the boy. The other members of a company of 14 are all up to this standard.

"HEAD OVER HEELS"

Mitzi Delights Large Audience at Princess With Daintiness and Drollery in Genuine Musical Comedy. Mitzi the delightful, Mitzi the humorous, wholly charmed a large audience last night when "Head Over Heels" opened at the Princess Theatre. Daintiness and drollery at all times make an effective combination, and as a leading woman in this musical comedy, Mitzi showed all the qualities which fascinate and at the same time produce genuine laughs. "Head Over Heels" opens in the office of Sterling and Lawson, attorneys, where a bevy of stenographers, telephone girls, etc., offer some effective musical numbers, and await the return of Edward Sterling from his world tour. Sterling (Irving Beebe) arrives, and is greeted by his sister Muriel (Dorothy Mackaye), and his partner, Robert Lawson (Boyd Marshall). He proceeds to raise about one Mitzi whom he has met abroad, an acrobat. Because he made love to her, Mitzi follows Sterling to America, and there learns from Lawson that she was his girl in the first place. The Bambinetti troupe, of which Mitzi is one, takes quarters in the Hotel Ritz, and publicity, to ensure the success of the show, is handled by Squibbs (Robert Keane), an aggressive Yankee, who makes use of Lawson's love for Mitzi to make a newspaper appeal to the audience. Squibbs and his efforts as a press agent make one of the best bits of acting in the show. A feature is the admirable characterization of a vaudeville show by the antics of the star, as the various imitations are hailed with real delight. The whole show is entertaining from all sides, and the "girls" are all here to do their part. The scenery is a stunning ensemble. The scenery is effective and the songs scintillate with gaiety. Mitzi is delightful in her sweet and humorous songs, and her charming actions peculiar to herself. In brief, a light, pleasing show.

"THE ROSARY"

Meets With Enthusiastic Reception at the Grand. Equal to Pre-War Capacities. "The Rosary" like an old friend was given a hearty reception at the Grand Opera House last night, and bids fair to play to the capacity business of the pre-war period. The play is a return to the drama of the good old wholesome type, which theatregoers that is the large percentage of them, are partial to. It tells the story of the attempt to win a man to wreck the happiness of his rival, and of the benign but humorous efforts of Father Kelly, an Irish priest of true Celtic wit, to set things right again. Father Kelly (Oscar O'Shea), goes about his duties with a twinkle in his eye, but he wins his points just the same. He enters the story when the villain, who has failed to win the woman he loves, is trying to wreck her life in revenge. He brings this innocent woman into disrepute, and she is the victim of a disaster. The play is also given for all time, when the priest intervenes, and with his kindly efforts, brings happiness out of what seems an inevitable disaster. The play is full with the lights and shadows of life with the tragic as well as the comical aspects of existence. It is as real as a play, and it is as good as a play, who listens to Father Kelly can ever forget him and his kindly philosophy. His keen humor and his real insight into human nature, the audience last night was thoroughly appreciative and Mr. O'Shea and his supporting company must feel encouraged by the enthusiastic reception accorded them. The play is also given a splendid scenery to equipment and in the church scene the voices of the boys' choir lend an atmosphere to the scene that is thoroughly in keeping with the tone of the play. While "The Rosary" teaches a powerful lesson, it is not a sermon. While it drives home a great truth, it does not do it with the bludgeon of drastic hypocrisy, but with the rapier of fine wit.

VAUDEVILLE AT SHEA'S.

Novelties and Old Favorites Abound in a Full and Excellent Bill. There are many laughs on the bill of fare at Shea's Theatre this week, and while Eddie Leonard's minstrels are the headlining attraction, the audience seemed to thoroughly enjoy the singing and monolog act of Frances Kennedy, and was also highly amused at the skit with Mr. and Mrs. Kennedy, called "The Marriage." Eddie Leonard and his minstrel band, "Daddy Dan's Return," sang some old favorites, intermingled with many new ones. The Barry act, "The Burglar," is an amusing skit, and Jimmie Barry as the rube, does some excellent comedy work. A Frances Kennedy, billed as "The Merrick Comedienne," does a clever monolog act called "Girls," a burlesque on a woman's card party. Her songs are new and humorous. Pat Bonney and Marion Bent in "20 Minutes of Pat and Marion" do some rapid fire repartee and whirlwind dancing. Guerrero and Carmen violin and harpist play some old and popular melodies. De Witt Young and Sister do some juggling, while George N. Brown, the world's champion juggler, assisted by Billy Weston, does a mile walking stunt with a walking machine. Billy Weston is said to be the best walker in the world, and the British and Canadian Revue have some interesting pictures.

AT STAR THEATRE.

Pat White and His Own Show, Brimful of Comedy and Gaiety, Are Well Well Seem. Pat White, an old favorite Irish comedian, and his own show, the Star Theatre, Pat is a big favorite with the crowd that attends this theatre, and this funny son of Erin is brimful of comedy and funny sayings. "Casey's Nightmare" is the opening act of the show, Casey, by mistake, eats some dope prepared for a racehorse, which sends him to a nightmare. Everything appears in his wildest imagination, until the last scene of the show, when he awakens and finds himself back on the racetrack. There is a large chorus of singing and dancing girls. The chorus appear in many catchy numbers, and the principals that head them are all good singers. Prominent in the singing and dancing side of the entertainment are Anna Grant, Elva Grievess and Jessa Bell. Ten solo acts were put on, and the race track scenes provoke much merriment.

AT THE REGENT.

A Deep Conspiracy and Thwarted Plotters Are Features of "A Midnight Romance." A fashionable hotel, a wealthy bachelor, two crooks and a beautiful young woman who might be anything from a Russian countess to a French maid—what possibilities for a mystery? "A Midnight Romance" combines all these things with a delightful love entanglement that fascinates as it mystifies. Anna Stewart has the role of an unknown woman among the refugees from a stranded vessel, who becomes a maid at a hotel where she starts people guessing right away. Her appearance is not in keeping with her employment, and with her advent mystery pervades the place. A young man at the same hotel finds her vows to a life of celibacy quite unappealing, and at the same time becomes the victim of two crooks. Marie, the maid, is aware of the conspiracy in her capacity of an accomplice and manages to turn the tables against the plotters. The romance of it plays an important part and finally all ends merrily. Miss Stewart does some splendid work in a role which suits her to perfection and her acting is a great factor in holding the tension of the mystery. A Harold Lloyd comedy which displays that gentleman in a very mirth-provoking role, and a news weekly complete the film program. For the musical side of the bill the well-known orchestra furnishes an overture, "Keltic Suite," in its usual finished style, with John Arthur and some masterly conducting. An added attraction is a harp solo by Josef Quintille, which was received with much enthusiasm by a crowded and "brilliant" recent audience. The musical program at this theatre is always a treat whether one is initiated into the mystic of true music or not. The quality of it is such that it pleases all.

Brantford, Ont., April 7.—The Brantford Thrift League wind up, dividing its surplus funds between the Children's Aid Society, Social Service League and the Brant Sanitarium.

AT THE STRAND.

"The Rosebush of a Thousand Years" is Beautiful Nazimova's Best Yet. The redemption of a soul, would in brief describe "The Rosebush of a Thousand Years" in which Alla Nazimova, the beautiful Russian star, is appearing at the Strand Theatre this week. "Jollie," a dancing girl of the cabarets, who is beloved by a penniless American student Mlle. Nazimova has every opportunity to display her wonderful and facial expression to the utmost. This picture is well acted, well directed, and well photographed—it is Nazimova's best yet. The House of Cards and an Eldon Field comedy complete a first-class bill.

## LOCAL CATCHER IS SIGNED BY LEAFS

### Russell Gee to Get Trial—First Workout at Island Tomorrow.

With the arrival of Manager Mooney Gibson this morning the stage is set for preliminary stunts of the 1919 Leafs. Manager Gibson will have the first squad out for practice tomorrow morning, weather permitting, and it will be two-and-a-half days until the opening of the season. The players will begin to drop in today, and it is expected that a good-sized squad will be ready for the first workout. Anderson, utility man last year, is already here. Word was received from the Brooklyn Club last night that Catcher Snyder will report Thursday. Russell Gee, the underdog receiver, was signed last night and will be given a three-day trial.

Gonzales, the shortstop, will not arrive for about ten days. He has been playing ball in Cuba, and will need passports before he can come. This will take some time. Manager Gibson is in good shape himself. He got into uniform while at the Giants' camp at Gainesville, Fla. The results of Gibby's trip south will soon begin to show. Gibson has the promise of a couple of pitchers and may also land an infielder.

With the addition of Snyder the Leafs have two experienced catchers, and a good boy in Gee, the local lad. There is plenty of infield and outfield material and a host of pitchers. This means that there will be a fight for every position and that goes to make a good club. All that is needed is sunshine, and if this is not available, the staying power. The following are the clubs in the new International League: Toronto, Buffalo, Rochester, Birmingham, Baltimore, Jersey City, Newark, and Reading, Pa.

## DID NOT FEAR FEDERALS WHEN PEACE PACT MADE

### Organized Ball Was Just Trying to Restore Confidence in Game.

Reasons for the "peace pact" between organized baseball and the Federal League were given yesterday by Chairman Herrmann of the national commission at Washington. Under the terms of the agreement in opening the third week of the trial of the Baltimore Federal Club's \$500,000 demand suit against the National and American clubs and officials. That Federal League competition was feared was denied by Mr. Herrmann. When the peace pact was signed he said he was satisfied that the organization was on its last legs. Objects of those negotiating for dissolution of the Federal League, he said, were restoration of public confidence in baseball and prevention of contract jumping. Organized baseball, he said, was not organized to fight the Federal League, but to restore confidence in the game. The "indefinite" list, Mr. Herrmann said, "is not a blacklist." In every instance, he said, the national commission has taken players from the ineligible list upon request.

Clubs Get Profit. In connection with the Baltimore Club's charges that monopoly was the aim of the defendants, its attorneys secured statements from Mr. Herrmann that the former Brooklyn Federal League is now leased to the government and \$50,000 for their franchise, without other property rights. Council drew Mr. Herrmann's attention to his previous statement that the national commission was not conducted for gain, and Mr. Herrmann stated that each club is run for profit. His salary as commission chairman, Mr. Herrmann stated, is \$7000. He did not receive the salary of President Ben Johnson of the American League, but said Mr. Johnson was not in baseball eleven years ago. Chairman Herrmann testified to the statement of losses of \$100,000 by the Baltimore Federals in 1914 and 1915. Gate receipts in 1914 were \$50,000, and decreased in 1915 to \$20,000. The initial returns, he said, were 50 per cent, less than required for success of the venture.

## EARLY BIRDS ARE GETTING WORMS IN FULTZ LEAGUE.

Jack Dunn's Baltimore Orioles will have the jump on the rest of the International League. Dunn has his team working daily in the hot Maryland sun, and they will be in great shape when the Fultz league gets under way.

The Birds played Connie Mack's Athletics at Philadelphia yesterday, and Dunn's flock also outbit the Mackmen, 6 to 2.

Dick Rudolph tried his hand against the Detroit Tigers yesterday, but the Braves were beaten a run, and the Tigers rapped out eleven hits.

Jawn McGraw sent his recruit pitchers against Ed Barrow's world champion Boston team, and the result was a Bush for as many safeties as Barrow's buffers collected off the New York troopers, but Boston scored the plate four times and the Giants only twice.

The Dallas Texas League outfit the Cincinnati Reds, 7 to 6, but Cincinnati had a one-run margin.

## The Program at Canadian Henley Will Be Considerably Modified

### Races for Returned Men and Two or Three Championship Events—Montreal to Send at Least One Crew, But Not Winnipeg.

Major O. Heron, president of the Canadian Association of Amateur Oarsmen, gave it as his opinion yesterday that the program at the Canadian Henley, at Port Dalhousie, would have some modification this summer to suit conditions and the many returned soldiers to get them back into rowing. There would likely be two or three championship events and special races for junior clubs and veterans back from overseas. They are awaiting the return of ex-Controller Joseph Phelan, vice-president of the C.A.A.O., who is expected back in a few days, before holding the annual meeting.

Connelly, the old Winnipeg Henley oar, is back from the front, where he held the rank of major. The secretary of the Winnipeg R.C. states that they will hardly be in shape to send oarsmen or scullers to the regatta, but will spend their time the first peace year in club races and on the water.

## AMATEUR BASEBALL IS MAKING GREAT STRIDES

### Leagues Springing Up All Over Province—Toronto's Big Share.

Baseball leagues are springing up all over Ontario and this season will know all records in a cocked hat. Secretary Smith of the Ontario Amateur Baseball Association reports that it is hard to keep track of all the new leagues. Toronto has gone into the diamond game with a vengeance, and has the honor of five senior leagues will be hoisted to eight.

Two intermediate leagues will be found going business in the Queen City, and the Midland Ontario League will have in addition to this three or four of the juvenile and mid-level leagues. The big trouble will be finding playing space for all these leagues.

It is the same all over the province. The Ontario League will have six clubs and every town in this league will also have a town league. The Trolley League, which is taking on a new lease of life, and the Kitchener and Preston. Woodstock announces a town league, and Brantford will again be in line with league of their own.

Hamilton will have three leagues working in place of two last year.

The executive of the O.A.B.A. will meet in Hamilton on Saturday to deal with applications for re-licensing and to get things in shape for the annual meeting, which will be held in Toronto on April 15.

The Senior Y.M.C.A. Baseball League had a most enthusiastic meeting at Central Y.M.C.A. last night. Two new teams were admitted to the league, which is now composed of West End, Broadview and Central Y.M.C.A.'s Grand Army of Association. The following officers were elected: President, G. Walker; second vice-president, W. O. Stephens; second vice-president, W. K. King; secretary, J. Johnston and Gerry. The selection of an umpire was held over till next meeting. In the meantime, the selection of umpires will be held over till next meeting. The league will open the first Saturday in May, with games at West End, Broadview and Central meeting Broadview. Sons of England drew a bye. The league will play twilight games each Wednesday.

East Toronto Y. M. C. A. Baseball Club meet Thursday night at 211 Wilmersley. The players will be made welcome.

The second game of the Central House Indoor Baseball League was played between the Young Men's team vs. Seniors. It proved to be a very exciting game, the Young Men overcoming the Seniors, one to zero, in the last inning, and winning the game by a score of seven to six. Line-up: Young Men—Barton, Woods, Reeves, Boland, Johnson, Duckworth, Niscent, pitcher and Wells (catcher). Seniors—Hitting: Stevenson, Brown, Crawford, McDonald, Cattle, Winfield (pitcher), and Greenberg (catcher).

## OPENING SOCCER GAMES ARRANGED

### Get Under Way on Saturday in Two Divisions—The Referees.

The council of the United District Football League met last night and adopted the schedule for divisions one and two. As the entries for division three are not yet closed the schedule for that division will not be arranged till after April 14, when entries will positively close. The prospects for the season are exceedingly bright, and the fans are eagerly awaiting the opening of the season.

A good program of games has been arranged for the opening, and granted favorable weather they should be attended by large crowds.

## Roger Hornsby a Star Of the First Water

ROGER HORNSBY—Bought for \$600 by the Cardinals in 1915, Weeghman offered \$50,000 for him in 1917. Lived on a diet of bread and milk for the winter of 1915 to increase his weight so he would reach the major league weight. Telle why he stands so far away from the plate and how he developed from a .225 Texas League batter to .300 in the National League. The Sunday World will give his baseball career in an article to appear shortly. This is the first one of twenty stories of big league celebrities. Don't miss them. In the Sunday World every week.

Mid-level series—Robert Zeidenberg, 450; Cliff Biggart, 383; Jack Crawford, 374; Art Becker, 355; Wm. Calvert, 323.

## FUNERAL OF JOE HALL TODAY AT VANCOUVER

Hockey Star to Be Laid at Rest—Other Players Improve.  
Vancouver, April 7.—The funeral of the late Joe Hall, former Canadian hockey player, who died of pneumonia following influenza at Seattle Saturday, will be held here Tuesday.  
The body was forwarded to Vancouver from Seattle, arriving Sunday morning, and accompanied by Mrs. Emily Hall, and Bert Hall, mother and brother, respectively, of the late hockey star, who went to Seattle last Thursday when informed that his condition was serious.  
REST RECOVERING.  
Seattle, Wash., April 7.—All of the Canadian hockey players were pronounced out of danger last night and all expected to be able to get on their feet today. MacDonald was reported as resting easily and his temperature is nearing normal.  
Fergus "Lalonde" was up for the first time yesterday, and while weak is feeling fine and is making his plans to return to his home. Manager George Kennedy expects to get up today. The two plan to leave for Vancouver Wednesday night.  
Chisholm, Couture and Berlangette left last night for Vancouver on their way to their homes.  
ST. CATHARINES BOOSTING CANADA'S NATIONAL GAME  
If all cities would take St. Catharines for a pattern it would not take the grand old game of lacrosse long to come back into its former glory. St. Kitts are taking the sport revival earnestly, and the result is that lacrosse will have first place on the program.  
Already a junior city league has been formed and now the boosters of lacrosse are busy trying to line-up an inter-city league. Of course the Athletics will be found in the senior series of the O.A.L.F.A.  
FERGUS THISTLE BOWLERS.  
Fergus, April 7.—An enthusiastic meeting of the Fergus Thistle Bowling Club was held this evening, at which the following officers were elected for the coming year: Patron and patroness, Mr. and Mrs. C. K. McGregor; hon. president, D. Ross; president, R. W. Wilcox; vice-presidents, R. Kerr and J. R. Brown; secretary, J. R. Goltzart; life member of the club, William Burr. It was decided to hold a tournament this year, commencing Aug. 5, and following time on these days, as a hearty welcome will be extended to all comers who will well know the club.

# The House of Eddy

## A Factor in Canadian Life

It is probable that not a day goes by in which the House of Eddy does not make life more comfortable and convenient for you. Eddy Products—Eddy Conventions—are woven into the very fabric of Canadian life. You light the kitchen fire, or the gas-grate of a morning—or perhaps your pipe, and the comfortable glow springs from the end of an Eddy match-stick.

### Eddy's Products are Products of Convenience

Eddy's Indurated Fibreware Pails, Washtubs and Washboards are widely used on the farm and in the cities. Your butter was shipped in an Eddy Butter Tub, which kept it free from taint or odor. Eddy Milk Pails play their part in keeping your supply clean and sweet. Your purchases from the store are sent home in Eddy Paper Bags. It is highly probable that the newspaper you are now reading is printed on paper which was made at Hull—by Eddy.

Eddy's Matches, Indurated Fibreware, Paper and Paper Specialties all contribute to make Canadian life more convenient. Since 1851 the House of Eddy has been bending its energies toward this one end.

## COSSACK OFFICERS STOLE 4,000,000 BOLSHEVİK RUBLES

### Seized War Chest When Red Army Fled in Northern Russia.

### KIDNAPPED CONSULS

### Astonishing Story of Inner Details of Days Before Allied Landing.

Archangel April 6.—The theft of four million Bolsheviki rubles by a band of Cossack officers whose activities also included the arrest of the British, French and American consuls at Archangel and the kidnaping of the North Russian government, was explained at the trial of the officers today before the supreme judicial authority of Northern Russia.

tain Bers and Col. Melia, were convicted and sentenced to imprisonment and deprivation of their rank and decorations. Because of their military valor the court recommended that they be pardoned.

The defendants unfolded an astonishing story of the inner details of the days before the allied troops landed at Archangel and of the political plots that occurred afterward. They admitted nearly every accusation, pleading old Cossack laws and the political situation as justification.

Last July, when an allied landing at Archangel seemed imminent, Captain Bers and the other Cossacks were aligned with the Bolsheviki. As the allied transport approached the city, the bulk of the Bolsheviki force fled, but Bers and the Cossacks remained behind as did Colonel Potapoff, the Bolsheviki commander, who was arrested later.

Seized Bolsheviki War Fund. Captain Bers seized the safe containing the Bolsheviki war fund of four million rubles. Then, with Col. Potapoff, the Cossacks arrested the British, French and American consuls and the French military mission. The allied officials were taken to a barn and hidden, the Cossacks holding them and the money as hostages until something definite happened.

out, kept the four million rubles as a Cossack prize of war.

At the trial it was revealed that the money furnished the financial sinews for the attempted coup against the North Russian government early in September when, under the direction of Col. Tchaplín, the Cossacks kidnaped President Tchchakovsky and other members of the provisional government at midnight and spirited them away to a lonely monastery near the White Sea. The defendants said that much money was spent in bribing various officials not to interfere with the kidnaping. Political conditions were pleaded as justification for arresting the members of the provisional government.

From some source the defendants were able to restore all of the four million rubles they had taken and they have handed the money over to the present government. They were tried on a charge of taking funds belonging to the government.

### City of Quebec Experiencing An Epidemic of Criminality

Quebec, April 7.—Never in the history of Quebec has criminality taken such a bold grip on the city said Judge Langeler, today, in police court, when he sentenced William Nulons to three years in the penitentiary for robbing a downtown restaurant Saturday. Judge Langeler said he will show no pity to the aid of the police, he says he will stamp out the numerous robberies that are being committed.

## MEETING OF WOMEN'S CANADIAN CLUB

### Rev. P. Bryce Speaks on Housing, and Mrs. Robson on Women's Repatriation.

### FINE TYPE OF WOMEN Is Description Given to 75,000 British Brides From Overseas.

A lengthy program carried out with despatch under the presidency of Dr. Helen MacMurchy, marked the eleventh annual meeting of the Women's Canadian Club, held in the new Masonic Temple yesterday afternoon. The meeting opened with the singing of "O, Canada," and a prayer by Rev. Peter Bryce, who was also the first speaker, his address being on the vital question of "Housing" in Toronto.

Mr. Bryce told of enquiries made in different parts of the city, beginning with Earlscourt, in the course of which various real estate men had testified that for weeks they had not had a single house to rent, the calls for rented houses were continually coming in. He emphasized the need to at once begin building, and outlined the plan of the government to give assistance to such a movement. To facilitate the work the Dominion government has promised to advance \$25,000,000 for houses for working-men, this to be advanced to municipalities, and fifteen per cent. of the cost of the house to be otherwise provided.

In Twenty Years. The man who wants to buy a house must provide \$600 down and pay \$19 a month for twenty years. This will get him a six-roomed house with facilities for comfortable living. The speaker quoted a case of a house with six rooms advertised at \$27 a month. Under the terms of the program, a man owns his own house in twenty years at less than half of \$40 a month by paying \$300 down. A. M. Fry of the Toronto Housing Company explained that it was the purpose to build forty houses in the Earlscourt district, and asked the members of the Women's Canadian Club to take stock, so that the work might begin at once.

Some of the things being done by the Repatriation and Citizens' League of Toronto were outlined by Brigadier-General Gunn, the cases quoted showing that fact and understanding do much to solve many problems of the returned soldier and his bride.

Meeting the Wives. One of the most concise and interesting addresses yet given on reconstruction was that of Mrs. Charles Robson, chairman of the women's department, repatriation committee, of the repatriation government. The speaker told of her own experience with the wives and children of the 75,000 Canadian soldiers who married overseas, at the rate of 300 a month. When these women arrive at the port of St. John they are met by a committee, which give them personal service, relieving them of their children, whom they attend in every way. They also look after the luggage and pockets of the women, provide them with a cup of tea and see them to their train. On the shipboard and on the shore, a military doctor and nurse, and at the occasion nine women had died from influenza.

Generally the women who are coming home are a fine type, said Mrs. Robson, the wives of 75,000 men or women there would surely be some undesirable, said the speaker. It will take two years before the newcomers can adjust themselves to their new surroundings, and Mrs. Robson urged all women and particularly such a body as the Women's Canadian Club, to put forth their best effort to help the new citizens. Our debt to the men who died is not paid until we educate their children and give them the same that their fathers would have given them, was the contention of the speaker.

The secretary, Mrs. John A. Cooper, reported that the club has now 1145 members, the largest number in its history. Since the war 1547115 has been raised for patriotic purposes. Motions of condolence were passed on the death of Mrs. Stearns-Hicks, a Hanna. At Christmas Mrs. J. W. Stewart, Mrs. E. J. Hathaway, Mrs. Gerhard Heintzman, Mrs. Palm, Mrs. Walker, the Misses Kerry, Miss Elizabeth Woodhouse, Dr. C. Woodhouse, Mrs. Selby, Mrs. Gerald Ball, Mrs. Campbell, Mrs. W. D. Webb, Miss Dalton, Mrs. Alexander Niven, Mrs. W. M. Burden, Mrs. F. W. Lee, Mrs. W. E. Baker, Miss Alice Scott, Mrs. E. A. Lowndes, Mrs. Selwyn Holmstead.

Mrs. H. C. Tomlin very kindly invited the Women's Board of the Western Hospital to hold its meeting to arrange the "Fakir" Fair for the autumn and then gave them an exceedingly good tea at the conclusion of the business. The hostess looked very handsome in violet satin and georgette crepe with jet ornaments and was efficiently helped by her pretty daughters, who not only assisted, but had made all the good things dispensed. The round mahogany table was covered with a very handsome Madeira embroidered cloth, centered with yellow tulip, Easter eggs and a silver basket filled with parrot tulips, which were in profusion throughout the beautiful suite of rooms. Among those present were Dr. Agusta Stowe Gullen, who was in the chair, Mrs. Trebble, Mrs. W. J. Wilkinson, Mrs. McIlroy, Mrs. W. J. Clarke, Mrs. McIlroy, Mrs. Frank

### UNIVERSITY WOMEN WELCOME MISS SOULSBY

Many members of the Women's University Club turned out at the regular meeting of the organization, in Annesley Hall, last night, to welcome Miss Soulsby, formerly readmistress of the Oxford High Schools in England, who had just concluded a two year visit to this country.

In response to the address of welcome, Miss Soulsby gave a short address on her visit and then told of the bright outlook for women in the future. Mrs. J. P. MacGregor, the president of the club, assisted by Miss A. E. Addison, dean of the hall, received.

### PROMINENT DAIRYMAN DIES AT EIGHTY-FOUR

At the age of 84 years, John Young of 161 Kendal avenue, died last Saturday. # Your Other Brain

Down in the abdominal cavity lies a great "plexus" or network of nerve centres, that has been called the "abdominal-brain." It cannot think. Its functions are to superintend and keep in operation various mechanical processes, such as the proper secretion of moisture by intestinal glands and adequate action of intestinal muscles in the walls of the bowels. It receives messages from nerves in various regions of the body, but being unable to reason, it often acts blindly, imperfectly, or improperly. It may stop secretion, lessen muscular action—and the result is constipation. Castor oil, pills, salts, mineral waters, etc., do not reason with the abdominal brain, they force it to temporary action, to unnatural effort, until the bowels move. But this is followed by a sulky attitude or even a "strike" by your other brain, and the constipation is increased not cured.

90% of human illness results from self-poisoning, caused by constipation. But Nujol acts differently. Nujol is not a drug, does not act like any drug. Nujol acts mechanically to coax the bowels to move easily and thoroughly at regular intervals. Nujol supplies necessary moisture to bowel contents, makes it easier for tired intestinal muscles to act, absorbs poisonous matter, overcomes stagnation and by so doing persuades the abdominal brain to trial and efficiently. Nujol acts rationally and efficiently. Nujol has no deleterious after effects, forms good habits instead of bad ones, overcomes constipation at any age, under any conditions. Get a bottle of Nujol from your druggist today and send coupon for free booklet—"Thirty Feet of Danger."

### LORD READING DENIES UNFOUNDED RUMOR

Says Lloyd George Never Advised Recognition of Bolshevik Government.

Washington, April 7.—Lord Reading, the British ambassador, authorized the statement today that suggestions that Premier Lloyd George had advised the recognition of Lenin and Trotsky, the Russian Bolshevik leaders, were wholly unfounded.

The ambassador made the following statement:

"With regard to the suggestions which have appeared in some quarters, that Mr. Lloyd George had advised the recognition of Lenin and Trotsky, I am in a position to state that these suggestions are wholly without foundation. Mr. Lloyd George has never suggested that Lenin and Trotsky should be recognized."

There have been many reports out of Paris that French influence was being brought to bear to have the associated governments recognize the Bolshevik regime in attempting to work out a solution of the Russian problem. Some of these rumors have connected the name of the British premier with the movement.

### BOLSHEVIKI EVACUATE NORTH LITHUANIA

Stockholm, April 7.—Bolshevik forces are withdrawing from all of northern Lithuania after severe fighting, in which they have lost severely. Bolshevik soldiers have mutilated at several places, according to an official statement issued by the Lithuanian Press Bureau at Kovno. The statement reads:

"The Bolsheviks are evacuating the whole of northern Lithuania after a series of fights in which they have suffered severe casualties. At several places Bolshevik soldiers have mutilated."

The Lithuanians have captured the towns of Peneviej and Kupijskis after violent fighting, the Bolsheviks retiring in disorder toward Dvinsk."

### DELEGATES VISIT DEVASTATED AREAS

Paris, April 7.—Fifty members of the various delegations to the peace conference yesterday visited the devastated regions of Northern France, as guests of the French government. The party visited Lens, Arras, Denain and other points, and was shown evidence of the systematic destruction carried out by the Germans.

Queen Marie of Rumania visited Rheims yesterday, and inspected the ruins of the famous cathedral. Before returning to Paris, she said: "This surpasses anything I had imagined, for it is impossible to conceive of such things."

### CANADA HONORS CREW OF BRITISH EMPRESS

Ottawa, April 7.—As a mark of recognition for their gallant conduct in rescuing the crew of the Canadian schooner Mildred of Harbor Grace, N.S., the Canadian government has made presentations to a number of officers and men in the British Empire, of London, England. The rescue took place last November under most dangerous circumstances, when the Mildred, completely disabled by a series of gales, was in a sinking condition.

### GEN. BADEN-POWELL IN MONTREAL MAY 17

### News of Reinforcements Has Delayed Rising

London, April 7.—There has been an improvement in conditions at Kandalaksha, at the base of the Kola peninsula, at the White Sea side, it is announced in an official despatch from Murmansk under date of April 5. A rising of the Finns, Karelians and Bolsheviks had been planned on a large scale, the account states, but the announcements that reinforcements for the allied troops were on the way and that other military preparations had been taken to meet the situation, had overthrown the leaders for the time being.

The leaders of the Finnish Legion (among which, according to recent London reports, a defection had been threatened) have signed an agreement to the effect that they will in the future comply with the wishes of the commanding officer. This, says the despatch, does not imply that the danger has completely passed, but it is a step in the right direction.

### TREND OF PRICES

Somewhat more strength was displayed last week by the cash prices of the articles of chief consumption, there being 23 advances in the 313 quotations received by Dun's Review, as against 28 declines. Conspicuous strength was displayed by the better grades of butter and eggs, largely as a result of lower temperatures and a brisk demand, both domestic and for export, but in cheese a slightly easier feeling was noted. Light receipts and a steady decrease in the visible supply sharply advanced quotations of corn, and higher prices were scored by rye, and barley was inclined to yield. In live meats, beef again tended downward, but sheep were strong, and large foreign purchases had a stimulating effect on hogs, advances in which were followed by a substantial rise in provisions. No further changes of importance have been made in iron or steel, but a material expansion in business sent prices of copper sharply upward. There was no change in lead or spelter, however, but aluminum moved to a lower level. The feeling in hides continued very strong, and leather was firm on its former basis, but concessions were made in some kinds of cotton goods. Drugs and chemicals, spices, rosin and paint materials were weak, but this was more than offset by a rising tendency in beans, silk and numerous vegetables and fruits.

### STOCKS MORE ACTIVE IN MONTREAL MARKET

National Breweries and Atlantic Sugar Issues Are Particularly Strong.

Montreal, April 7.—Today's market for local securities was one of the strongest in some time. The volume of trading was relatively large, and, with the exception of the Asbestos issues, which reacted 1 1/2 points to 6 1/2 for the common and a small fraction to 7 1/2 for the preferred, and a small decline in Spanish River, those issues traded in to the extent of a board lot closed unchanged to 10 points higher.

The largest gain for the day was made by the National Breweries issue, the common advancing five points to 35 and the preferred 10 points to 30, with the best price of each case bid for more stock at the close. Another strong specialty was the Atlantic Sugar issues, the common of which advanced 1 1/2 points to 7 1/2 and the preferred 2 to 7 1/2.

The main interest of the market however, was centred in Saturday's strong favorites, the cotton and the milling stocks, which, without being particularly active, scored material gains of 1 to 4 points for the former and a fraction to 6 points for the latter.

Total business for the day, with comparisons for the corresponding day a year ago:

Table with 2 columns: Item and Price. Shares: 1919, 1918. Shares, unlisted: 6,729, 6,542. Bonds: 197,500, 220,500.

### BRITISH TRADE IN MARCH

London, April 7.—The board of trade figures for March show that imports during the month decreased £1,450,000 from March, 1918, while exports increased £17,106,000 over that month. The principal decreases in imports were in cotton, £4,500,000; food, £2,000,000, which were offset by increases in tobacco and semi-manufactured articles. The export increases were all in manufactured goods, including a £2,400,000 increase in cotton textiles.

### U. S. BANK CLEARINGS

Total bank clearings last week at the principal centres in the United States, according to Dun's Review, amounted to \$8,313,565,889, an increase of 48.8 per cent over the week ending April 1, 1918, and 17.6 per cent over the corresponding week two years ago. The gain at New York is 24.0 and 14.1 per cent, respectively, over the previous years, and at the cities outside the metropolis the expansion is 10.2 per cent, as compared with 1918, and 24.6 per cent over 1917.

### U. S. FAILURES

Commercial failures last week in the United States, as reported by R. G. Dun & Co., were 146, against 132 the previous week and 217 the corresponding week last year. Of the failures 39 were in the east, 36 south, 41 west and 30 in the Pacific states, and 63 reported in the territories or more, against 63 the previous week.

### PELLETIER REFUSES HABEAS CORPUS WRIT

Declines to Issue Writ Requested by Capt. J. A. Goulet.

Quebec, April 7.—Judge Pelletier today refused to issue a writ of habeas corpus against the military authorities to remove from the jurisdiction of a court-martial, Captain J. A. Goulet, who is being tried before that tribunal in connection with an alleged exemption scandal. Goulet is to appear before the criminal court Thursday on a similar charge, and he claimed he could not be tried before the two tribunals simultaneously. Judge Pelletier said that only a writ of prohibition could stop the court-martial, but this was applied for and refused before the superior court. Goulet's counsel applied immediately for another writ of prohibition.

### Gazetting of Canadians To Order of British Empire

London, April 7.—(By mail.)—The following appointments of Canadians have been gazetted to the Order of the British Empire: Commanders: Lieut.-Col. Lawrence A. Dowie, generalist; Lieut.-Col. Jas. R. Hyde, artillery; Lieut.-Col. Duncan G. Macpherson, Force Garry's; Lieut.-Col. W. T. Workman, chaplains. Officers: Major Herbert R. Alley, 1st Central Ontario; Captain Abernethy, Major Walter Miller, Major James M. Bell, Quebec Regiment (for services in North Russia). Member: Lieut. Geo. W. Cripps, 18th Railway Troops.

### WASAPIKA SCORES ANOTHER ADVANCE

Good Demand for Higher-Priced Silver Stocks—Beaver in Demand.

Wasapika, consistently a headliner for some days in the local mining market, upheld its position yesterday by selling up 1 1/2 to 58, as compared with the former high record of 56 1/2, established on Saturday last, and closing at the top. Definite announcement is made that 51 per cent of Wasapika stock has been sold to United States interests at 50c a share, and a further appreciation in the market price of Wasapika is regarded as a logical outcome. The market in general was not particularly active, as the turnover of little more than 64,000 shares indicated, but the tone was steady to firm, with a good demand in evidence for some of the higher-priced silver stocks.

In addition to Wasapika, gold stocks to finish with net gains including the following: Baldwin, up a point at 3 1/2; Teck-Hughes, up three points at 28; Dome Lake, up half a point at 23 1/2; and Hollinger, up five points at 8.30. Davidson held its ground at 68, but McIntyre declined a point to 1.63, and Dome Extension a point to 26, while losses of half a point were shown by Porcupine Crown at 23 1/2 and Kirkland Lake at 45.

Dome was firm at 13.10. Concerning the reopening of the mill of the Dome Mines, considerable diversity of opinion appears to exist. In some quarters it is thought the mill will not be brought up to full capacity before the late summer. Others take the opposite view, and contend that there is nothing in the way to prevent full operation within a very few weeks after reopening.

In view of the fact that the Dome is recognized as a big, low-grade mine, it is obvious that in treating a large volume of ore daily lies the only means of realizing full benefits from operation. In the north it is expected that the Dome will be employing 500 men or more in a few months.

Men are reported to be pouring into the gold camps of the north. The result is increased activity. By mid-summer, at the present rate, activity will be pronounced as compared with one year ago. In this is the day for which the gold mines have waited.

The change began early in the current year. One of the first indications was a surplus of forces at the mines. Next came an increase in the number of men employed by the gold mines which have not ceased to operate. Then came the resumption of work at the Porcupine Crown, followed by the reopening of the Tough-Oakes Mine, and the enlarging of operations at the Miller-Independence. One of the very recent developments was the commencement of milling operations at the Kirkland Lake Gold Mines, Ltd., as well as the increasing number of miners at the Dome Mines.

Beaver showed firmness on publication of the annual report which showed the company to be in a strong position. Sales were made between 1-1-2 and 43-1-4. Nipissing at 8.90, ex-dividend, was firm as was Kerr Lake at 5.40 bid and Conlangue at 2.50. McKinley-Dawson at 491-3 and Trethewey at 393-4. Adanac at 18 was off 1-4.

### ON NEW YORK CURB

Hamilton B. Williams received the following wire at the close of the New York curb market yesterday: Key-Stone Tire scored a sharp advance of over 50c a share to \$22.50. High prices above the 98c mark. Philip Morris, in which stock there is a large short interest, was in demand at advancing prices and sold up to above 81 1/2. International Petroleum was active and advanced about two points into new high ground above the 82 1/2 mark. Although no official information has been made public, those who are usually well informed regarding the company believe that a 100 per cent stock dividend will be announced shortly.

### ON CHICAGO MARKET

Hughes, Harcourt and Company, 307 Royal Bank building, received the following wire at the close of the Chicago market yesterday: The volume of trade in corn was much lighter with local feeling inclined to lower markets. The selling was not large enough to have any more than a temporary effect on the market. Scattered commission house buying took the offerings on the early dip and from then on the market worked irregularly higher. The shorts are timid of the lack of stocks which makes the position of the market precarious and whenever the seller has made a stand it has meant considerable loss. There are more hedging sales, as the offerings are fairly liberal. The close, while showing a slight gain in price over Saturday, was rather weak in tone.

### FOREIGN AND DOMESTIC DEVELOPMENTS INSPIRE BRISK DEMAND FOR STOCKS

New York, April 7.—Trading in today's active and strong stock market was governed to a far greater extent than at any recent period by the confident tone of advices from across the water.

Statements from influential quarters to the effect that the peace treaty is progressing towards early ratification caused a hasty retreat of the shorts, and probably prompted renewed buying of standard shares by conservative interests. Home developments, such as the further relaxation of call money on last Saturday's favorable bank statement, and reports from western and southern centres, which reflected the growth of optimism over crop prospects and general trade conditions, doubtless contributed to the movement.

The prominence of commission houses in the day's broad operations was accepted as evidence of an extension of public participation from interior points, which have provided much of the market's momentum of recent weeks.

Rails and U. S. Steel made relatively little headway, dealings in transportation being limited to popular leaders at gains of 1 to 2 points, coppers and sundry specialties also making moderate advances. Sales amounted to 975,000 shares.

Deals in bonds were comparatively light and featureless. Liberty issues and other domestic holding, and international easing slightly. Total sales, par value, aggregated \$11,700,000.
