30TH YEAR

DUAL AVIATORS TRYING NERVOUS "STUNTS"

De Lesseps and Johnstone Make High Flights and Circus Descents, as Well as Some Risky Sailing Close to the Ground.

High flying and long periods in the air were the order of the evening at last night's exhibition at the aviation meet at Weston. Both Count de Lesseps and Ralph Johnstone did spectacular work. Johnstone made a record both for time in the air and height of flight for this meet, the first time he went up. Then De Lesseps went up and made a better performance.

The distances estimated were not accurate, owing to a misunderstanding. The aviators were supposed to cross the above line at the centre when at their highest, but one crossed too far to one side and the other went too far to the opposite side.

Count de Lesseps made the initial flight of the day at 6.50. Johnstone went next at 7.10, the count made another flight at 7.24. Duval LaChapelle went for the spin at 7.52 and Johnstone finished the exhibition by going up at 8.11.

The count was up for five minutes in No. 2 monoplane, returning to terra firma at 6.55. While he was up he chased around at full speed, developing quite a gait for a time. De Lesseps is rapidly becoming proficient in the art of scaring people.

Johnstone after taking a few preliminary jaunts around the field commenced to spiral upward. When about 200 feet from the ground he dropped a "bomb" composed of a ginger ale bottle wrapped in cloth. It was directed at earthworks in the centre of the field which were to be blown up.

Count de Lesseps went up for his second trip at 7.24 in the monoplane "La Scarabee" in which he crossed the English Channel. It is a 50 horsepower, 7 cylinder plane and the propeller makes 1800 revolutions per minute.

Ralph Johnstone left the earth below him for his final flight at 8.11. During his trip he exhibited wonderful control of his machine. He went up for quite a distance and then did some spectacular work on the way down.

To-Day's Program at Aviation Meet

Program begins at 5.30 p.m. Speed and control exhibition by Duval LaChapelle with Wright flyer, demonstrating how squarely corners on a given course may be turned in the air.

Altitude trials by Ralph Johnstone with Wright biplane and Count de Lesseps with "La Scarabee" monoplane, making wide sweeps over the grand stand and automobiles and long glides to the ground.

Exhibition of remarkable control maintained over aeroplane in the air at a speed of 35 to 70 miles an hour by Ralph Johnstone, who will do short circle flying and corkscarew turns.

Clifford Harmon's Attempt To Fly From Long Island to Greenwich, Conn., Disastrous.

NEW YORK, July 11.—Clifford B. Harmon, the amateur aviator, made an attempt this evening to fly in an aeroplane from Garden City, Long Island, across Long Island Sound to the residence of his father-in-law, Commodore E. C. Benedict, at Greenwich, Conn.

Not only did he fail, but his machine fell a distance of 150 feet and was wrecked. Harmon was badly shaken up, but not seriously injured.

For several weeks Harmon had been promising to make the flight. After turning up he was off at 5.31 p.m. today, but the weight of pontoons, which he attached to his craft to insure its floating, should be descended upon water, proved too much to carry, and he was forced to alight after going less than a mile.

The pontoons were removed, and at 6.15 he was away again. But as he disappeared, the distance, it was apparent that his engine was missing, and when near Roslyn, L.I., less than seven miles from his second starting place, the engine began to descend rapidly in its perilous drop to the tree tops.

When the crowd gathered Harmon was found floating in the water. The engine alone was undamaged. He explained that just before he dropped only three cylinders of his engine were working and he decided to come down before he could be hurt.

CAMPBELLTON IS GUTTED BY FLAMES

Report Was That Only a Few Houses Are Left—Telegraph Wires Are Down, and It Is Impossible to Get Further News—Dalhousie Assists.

ST. JOHN, N.B., July 11.—(Special).—A report says that Campbellton has been gutted by fire, with only a few houses left. The I. C. R. freight shed and station house have been destroyed. The fire started in Richard's shingle mill.

Dalhousie firemen went over to assist the Campbellton department and soon after a fire occurred in Dalhousie, which for a time looked dangerous.

Campbellton is a seaport town with a population of 4500 in Restigouche Co., N.B., on the I. C. R. It is situated on the south bank of the Restigouche River, 15 miles from Dalhousie, which is at the mouth of the river.

STRIKE CLOUD STILL HOVERS OVER G. T. R. No Longer Any Danger, However, in the Case of the C. P. R. Men.

MONTREAL, July 11.—The trammen's dispute with the C.P.R. is practically settled. There is no longer any danger of a strike.

In the Grand Trunk case, however, matters have entered upon an extremely threatening phase. Mr. Hays' proposal to the men is not acceptable and has been forwarded to the 4000 employees of the road for their decision.

It is officially announced this evening at the Grand Trunk office that the company had determined to stick to its original proposition to the men.

MAY NOT GO TO ARBITRATION. OTTAWA, July 11.—While the application of the Intercolonial Railway telegraphers asking for the appointment of a board of conciliation has been received at the labor department, the matter may not go to arbitration.

ROBLIN GOVT. AGAIN ON TOP GAINED 5 AND LOST 4 SEATS

Feature of the Results in Manitoba is the Two Turnovers in Winnipeg Constituencies

CABINET MINISTERS GET BIG MAJORITIES

HON. R. P. ROBLIN.

WINNIPEG, July 11.—(Special).—The Roblin Government has swept the polls by one more of a majority than it secured in 1907.

RETURNS INDICATE AT MIDNIGHT, that the standing of the parties is: CONSERVATIVES 23, LIBERALS 12. Some of the outlying polls have not yet been heard from, but their figures are not expected to substantially change the result.

THE LIBERALS HAVE GAINED North Winnipeg, where J. F. Mitchell was defeated by Hart Green, Lakeside, where C. D. McPherson beat E. D. Lynch; La Verandrye, where J. E. Lauson lost his seat to Wm. Molloy; and Minnedosa, where Wm. Waddell was beaten by Thompson.

SHEARD AT \$6000 IS COUNCIL'S CHOICE

Discussed M.H.O. Question All Afternoon and Couldn't Decide on Anyone Else—Controller Spence Outlines a New Park Policy.

FEATURES OF COUNCIL MEETING.

Voted to continue Dr. Sheard as M. H. O. at \$6000 a year. Voted to appoint a bread inspector.

Voted against increasing salaries of board of revision. Voted to build sea wall 600 feet south of shore line.

Voted \$1000 to provide magistrates to give free ball bonds. Voted to have five instead of three members on Art. Museum Board.

Voted for a "Beautify Toronto" committee. For Dr. A. R. Pyne—Ald. O'Neill, May, Rowland, McBride, Hilton and Graham—4.

Against—Ald. Chisholm, McMurich, Maguire, Anderson, McCausland, Phelan, Hamby, D. Spence, Weston, Welch, Dunn, and Controllers Spence, Church and Ward—14.

For Dr. J. A. Amyot—Ald. Maguire, Anderson, McCausland, Phelan, and Controllers Spence and Ward—6. Against—Ald. Chisholm, O'Neill, Hamby, D. Spence, May, McCarthy, Rowland, Weston, McBride, Hilton, Welch, Dunn, Graham, and Controllers Foster and Church—15.

For Dr. C. J. O. Hastings—Ald. McCausland, Phelan, McCarthy, Rowland, and Controllers Foster, Church and Ward—7. Against—Ald. McMurich, Chisholm, O'Neill, Maguire, Anderson, Hamby, D. Spence, May, Weston, McBride, Hilton, Welch, Dunn, Graham, and Controller Trolinger Ward—8.

New British Record for Height
BOURNEMOUTH, Eng., July 11.—A new British record for high diving was made by J. Armstrong Drexel at the aviation meeting here to-day. He reached an altitude of 2493 feet.

SOLDIERS ARRIVE AT SCENE OF STRIKE

Enormous Crowd Was Congregated on Platform When Military Train Pulled in.

HALIFAX, N.S., July 11.—(Special).—The military special from Halifax reached the colliery districts of Springhill to-night, and two hundred members of the Royal Canadian Regiment with guns are pitted against twelve hundred striking miners.

ANTI-CLERICAL MOVEMENT
Big Petition Endorses Spanish Government's Religious Policy.

MADRID, July 11.—Anti-clerical meetings continue to be held in Madrid, Saragosa, Tarragona, and Toledo. At Saragosa a petition signed by 20,000 women was presented to the governor of that city, endorsing the government's religious policy.

LIUENTANANT-GOVERNOR OF QUEBEC ILL.

QUEBEC, July 11.—His honor the lieutenant-governor, Sir C. S. F. Pelletier, is seriously indisposed.

PRINCE OF WALES PRIZE.

LONDON, July 11.—Sergeant Major Wallingford to-day won the Prince of Wales prize at Balesy, with the highest possible score, 85. The conditions of the prize call for seven shots at 200 yards and ten shots at 600 yards.

Earl Grey Sails Friday. OTTAWA, July 11.—A cablegram from Earl Grey announces that he will sail for Canada on Friday next.

A RETROSPECT.

July 12, 1759.—The British began to bombard Quebec. July 12, 1812.—General Hull, with 2500 Americans, crossed from Detroit to Sandwich.

Reductions in Straw Hats. The Dineen Company to-day start on the second part of their alterations, and this makes it imperative that the large stock of summer hats should be lightened. The company therefore attacked to-day a superb line of \$3 and \$3.50 straw hats for \$2, and some genuine \$10 American Panamas that were \$10 for \$8. Store open every evening; 145 Yonge-street.

HAMILTON HAPPENINGS

MAYOR AND ALDERMAN SQUABBLE OVER SHED

It is Used as a Fire Station and Annoys Dwellers on the Mountain.

HAMILTON, July 11.—(Special.)—Mayor McLaren and Ald. Morris flashed their knives at each other again to-night at the meeting of the city council. The alderman wanted to know why the board of control, in a report, made no mention of the action it had taken re the application of the shed and mountain residents for the removal of a shed which was placed on the roadway, and which is used as a fire station. The mayor said the matter would be settled satisfactorily, perhaps, not to the satisfaction of those who had lots to sell. The alderman said it seemed to him that the board had not treated the residents with due consideration. The alderman was asked out of order, but he continued to ask for a report, and read a notice of motion to have the subject discussed. After Ald. Allen questioned the alderman of putting in, Mr. Morris dropped the subject for a while. A short time after he tried to introduce his notice again, while the mayor was in the chair. He was told to give it to the clerk.

A Foxy Scheme.

To prevent the introduction of the motion, the mayor appointed the alderman chairman of the committee. The council went into thinking thereby the matter would be dropped. The alderman, however, but after the proceedings had been called a farce and irregular, the matter was dropped. The report that no contribution be granted to Charles Smith, for 50 years city messenger, was adopted. Another report from the works committee, questioning that alderman be asked to enforce the lawn sprinkling by-law, was also adopted. The by-laws to raise \$55,000 for parks, to provide for the firemen's increases, and appointing Dr. Roberts bread inspector, were read a third time. The jury which inquired into the death of Susan Perkins, the nurse killed in the accident to Robert Hobson's auto on June 23, brought in the following verdict: That death was accidental, and recommended that in future all persons obtaining a chauffeur's license be made to pass an examination.

Inquest on Auto Victim.

Keith McCrea, the chauffeur, gave evidence, but was unable to remember anything that happened during the time he left Albion Mills, some distance from the scene of the accident, and that he found himself pinned under the wrecked car. He said the machine was in perfect order. Robert Hobson testified that his daughter, who is still hovering, had her head death, said that just before the accident, a cloud of dust blew into their faces and that they went over the bank before it cleared away. Mrs. Nixon, who saw the car leave the road, swore that it was enveloped in smoke and dust. She said the car came down the road very close to the fence.

A Rising Young Author.

A new story by H. Graham Starr has appeared in "Buyman's Magazine" for this month, entitled "Flies Flies." It deals with some of the horrors of the north country in our own Canada. Mr. Starr is a young civil engineer and evidently knows what he writes by experience. He has written for a great many magazines during the last few years. He is a son of the well-known Rev. J. E. Starr.

Killed by a Train.

DUNNVILLE, July 11.—Robert Woods, about 21 years old, was found dead on the G. W. R. tracks about five miles west of Dunnville. His home is in Hamilton, and he had been working in Seneca.

Liquor Dealer Fined \$100.

BRANTFORD, July 11.—(Special.)—Fred Montgomery, proprietor of a 79-tall liquor store, was fined \$100 and costs here to-day for serving three local men with a drink in his shop.

SCARCITY OF TEACHERS DUE TO WESTERN HIRE

Dr. Pyne States That Teachers Trained in Ontario Go West for Larger Salaries.

In one paper Saturday there were 200 advertisements for public or separate school teachers, one calling for 200 teachers for Alberta and Saskatchewan, and 40 for collegiate and high school teachers. Salaries offered ranged, for public schools, from \$350 to \$600 a year in Ontario. In the west, one advertisement from Saskatchewan offered \$850 for a principal and \$575 for assistant; another in Saskatchewan offered \$700 a year. One Ontario community offered \$500 a year for a teacher of three years' experience, with a second-class certificate, to teach a senior class.

"Yes, the scarcity of teachers, which has been felt for about seven years, still exists to some extent and will continue to be felt for another year at least," said John Dr. Pyne, minister of education, yesterday. "The two chief factors in the situation are the movement of Ontario teachers to the western provinces and the inadequate scale of salaries in Ontario. The substitution of normal for model schools has not affected the situation. All our normal schools, except that at North Bay, were filled last year and the applications thus far received for the coming session indicate an even larger attendance. In this respect the government's policy has worked out exactly as was expected, and the supply of candidates to enter the teaching profession is quite satisfactory."

"But the question is, will the teachers trained in Ontario stay here? I have investigated the subject as far as it is possible to do so and am greatly impressed by the heavy drain to the west. Salaries are higher there, and we are losing both experienced teachers and the new graduates of our training schools. The conditions are serious and I cannot urge too strongly raising salaries still higher if we are to keep qualified teachers in the province and prevent the westward movement of our best talent. The teaching profession is being drained away from the province and it rests with school boards to apply the remedy."

"The province is producing enough teachers if they can be induced to remain. This year we have granted 1600 teacher certificates. This rate of supply is ample. The number of 80, or so, to be employed this year is apparently larger. But this is due to the enforcement of the regulation that, with a few exceptions, school boards are not permitted to employ a teacher with lower than a second-class certificate, unless after due advertisement in a newspaper with a provincial circulation they are unable to procure one. Accordingly the recent increase in the number of advertisements for teachers is greater than usual. The trustees, I repeat, have the matter in their own hands. By giving liberal grants on the basis of the salary share, a government has done its part. A circular has been issued to public school inspectors, in accordance with which they can recommend to the department special action in cases of emergency."

Advice to Labor Men.

Addressing the Building Trades Council at the Labor Temple, last evening, James Simpson, the labor representative on the royal commission investigating industrial and technical education, urged council to present the best informed man to present the case at Toronto at the meeting in October. The following will gather data and prepare information to give before the commission on workmen's compensation: J. W. Bruce, W. Mouldie and W. Nettleship.

See the Flying Machines at Weston.

Grand Trunk trains land you direct at Aviation Park. Leave Union Station daily until July 16: 3.40, 4.15, 5.00, 6.00 and 7.00 p.m. Time 25 minutes. \$1 round trip, including admission. \$1.00. Secure tickets at city ticket office, northwest corner King and Yonge streets, phone Main 4209, or at depot ticket office.

Robbed on the Train.

OTTAWA, July 11.—(Special.)—Russell Bridges, a Gowanda man, reported to the police to-day that he had been robbed of \$150. Bridges was coming by C. P. R. train from North Bay when the loss occurred. He felt asleep, and when he awoke the money was gone.

Plan Your Civic Holiday Trip.

Now is the best time to plan your Civic Holiday trip. Call at 58 Yonge Street, Travel Bureau, Bank Building, and Niagara Navigation Co. for rates and assist you. Cheap rates everywhere. Telephone Main 636.

Not Moving Blast Furnace.

The Standard Chemical Co. deny that they intend to move their blast furnace from Deseronto to Kingston.

"Economy" BOILER

California weather in every room the cold winter months

"Economy" Boilers combine comfort with low cost. They give out nothing but pure, clean heat, making every nook and corner of the home livable and enjoyable. "Economy" Boilers put new life into old houses, and are the heart of the most modern heating system for new buildings. Easy and safe to operate. "Economy" Boilers embody special advantages which insure the greatest volume of heat from the smallest consumption of fuel. The firepot, being corrugated, has one-third more live heating surface than ordinary firepots. This also provides a continual draft, insuring lively combustion where coals lie dead around the ordinary smooth interior—another proof of the perfection of "Economy" construction. You should know more about "Economy" Boilers before investing in any heating system. Send to-day for free booklet—"Boiler" Information."

SHEARD AT \$6000 IS COUNCIL'S CHOICE

Continued From Page 1.

himself, and Controller Church urged that he do so or give a reason. On the next division he supported Dr. Sheard and Ald. McCausland, becoming mixed, did likewise, making the count 16 to 7. This was halted with a joyful demonstration, but Ald. McCausland insisted another vote. He declared warmly that Dr. Sheard was a compromise candidate, and that members had said they would vote for him if they couldn't get the man they wanted.

Dunn Blamed Controllers.

Another vote taken showed a score of 16 to 7, and Ald. McGuire, McBride and Dunn pleaded that they were broken and that council cease acting "like a lot of schoolboys." Ald. Dunn asserted that the matter would not have resigned, but for insults heaped upon him at conferences with the board of control, and accused Controller Spence of being chiefly responsible. The controller retorted that no uncivil word had been spoken to the doctor, and that he would vote for him if they couldn't get the man they wanted.

The City Wants Five.

The city will insist on having five representatives on the board of trustees of the museum of Toronto, instead of three as proposed by the museum. The committee on the museum's plan, which is being prepared by the city, is expected to report on the acquisition of the grounds and spending \$5000 yearly on the maintenance of the museum. Controller Spence held out for the larger representation and was solidly supported. No objection was made to the acquisition of the St. Patrick-street and Bay-street properties as proposed by the board. Hereafter it will not be necessary to authorize the issue of debentures amounting to \$528,910.78 for repairs and laying pavements upon portions of streets occupied by the right of way of the Toronto Railway Co. The bulk of the amount is made up of \$227,880.23 spent in 1908, and \$299,747.57 in 1909, on reconstructing track allowances for the remainder of 1909.

Improved Park Policy.

A notice of motion which freshens an important change in the city's policy of handling its parks was given by Controller Spence. It proposes legislation authorizing the creation of a board of trustees or commissioners, to be called the Toronto Civic Improvement board, which shall have power, at the request of the city council, to acquire, lay out, construct, extend, or improve any park, garden, playground, or other public work deemed necessary for the benefit of the city and the citizens; and for such purpose, to have authority to purchase, lease, borrow, or take any land, building or other property necessary to be acquired for the carrying out of the said improvement, and to have power to sell, lease, rent, or otherwise dispose of any such property when not further needed; and to have power for the purpose named to borrow money by the issuing of debentures, which may be guaranteed by the city, and to carry on any further financial operations necessary for the repayment of such money or for the purposes hereinbefore set out.

"The Fighter."

Last night, before a large audience, appearing at the Royal Alexandra Theatre, presented George Fawcett in a new play, "The Fighter," adapted by Hilliard Booth from Albert Payson Terhune's popular novel "Gale Conqueror." In its general lines it follows the story of the strong drama of modern life in which an athlete, who marks a success two seasons ago, finds himself in a situation of financial straits, and is developed in the last two acts of "The Fighter," which has closer human interest than the power of arousing stronger popular interest.

The drama may be taken as a satire on the social ambitions of a certain class of the United States society. Conover, who is a typical political boss, and a "ruthless" in his methods, has a healthy human side and even despises the social conventions into which he has been introduced. His daughter has married an Italian prince, and he is disillusioned, his son has married a New York chorus girl that old is not without a genuine, if rough, affection that is prepared to yield even when it appears most indifferently.

Band Concerts at Hanlan's.

For this week the Hanlan Point management have provided an exceptional good musical entertainment by engaging Antinarello's famous band of forty artists. This organization has achieved a high and deserved reputation for its first time. Its first appearance at the Point yesterday afternoon attracted a large audience and was rewarded by a choice selection of classical and popular numbers, all admirably rendered. The band contains many soloists who are thorough masters of their various instruments, and as a whole it is a conspicuous feature for the quality and solidity of tone, precision of attack and artistic co-operation.

At Scarborough Beach.

A performance of unusual merit highly pleased two large crowds in front of the open-air stage at Scarborough Beach yesterday afternoon and evening. It was given by the Four have saved a troupe of aerologists, who have been getting away from the beaten path of getting away from presented some novelties that won for them hearty applause. The most striking feature of the performance was the teeth of a man, which were being from a trapeze by his toes. A comedy tinge is given to the performance by the appearance of the fourth member of the troupe, in black-face.

town on Saturday, the 9th, for a trip of four months visit to relatives and friends in the Northwest and British Columbia.

Husbands Should Answer Promptly.
FIVE HUSBANDS, July 11.—I shot my husband because I thought he was a burglar and I would do it again under similar circumstances. Men who stay out late at night should answer promptly when their wives call "Who's there?" This is what Mrs. J. T. Burns said to-day about shooting her husband in the arm at their home on McPherson boulevard last night.

THOSE FIGHT FILMS

The Movement for Prohibiting their Exhibition Spreads.

MANILA, July 11.—In fear of the effect which they might have upon the Filipinos, the municipal board of Manila has resolved to prohibit the exhibition of the Johnson-Jeffries fight pictures.

CLEVELAND, July 11.—The Johnson-Jeffries fight films will not be shown in Cleveland, Mayor Baehr today instructed Chief of Police Koehler to notify the proprietors of picture shows.

OTTAWA, July 11.—Rev. Father Duhaunt, from his pulpit in Hull yesterday, assailed the civic and Quebec authorities for countenancing the fight pictures of the Jeffries-Johnson battle, which it is proposed to show in Quebec Province.

LONDON, July 11.—The moving pictures of the Jeffries-Johnson fight will be exhibited in England without interference on the part of the authorities. Home Secretary Winston Churchill announced today in the house of commons that the government had no power to prevent the exhibition of the pictures.

CHICAGO, July 11.—The African Methodist Episcopal Ministerial Association of Chicago and vicinity adopted a resolution condemning the "preparation of any exhibition of the brutalities of the prize fight, whether it be in the ring itself or by moving picture reproductions," and requesting the mayor of the city to "prohibit the fight pictures" of the Johnson-Jeffries fight.

Pianos at 50c a Week.
 On the eve of removal to their new warehouses, Yonge-street, the old firm of Heintzman & Co., Limited, 115-117 King-street west, Toronto, find themselves with nearly one hundred square pianos on their hands, that they intend to clear to first comers on payments of fifty cents a week. Every instrument has been put in good repair, and prices range from \$50 to \$150. 56246

Use Gibbons' Toothache Gum
 Price 10c. 246.

The American plan dining room of the King Edward Hotel is admitted by travelers of repute to be one of the most magnificent dining rooms in America—in conjunction with the lounge floor, where guests dining may spend several social hours and listen to their orchestra playing, makes an ideal for one to entertain one's friends of an evening.

Harper, Customs Broker, McKinnon Building, 10 Jordan St., Toronto ed

WRIGHT—On Monday, July 11, 1910, at her late residence, 191 Wright-avenue, Jane, widow of the late James Wright, in her 86th year.
 Funeral from above address on Wednesday, July 13, at 2.30 p.m., to the Necropolis.

Horse Burned This Morning.
 A horse was burned to death and two wagons destroyed in a fire in a stable in rear of 119 Blecker-street, at 1 o'clock this morning. The damage will be \$400. The cause is unknown. The place was occupied by Herbert Hadrill, 715 Ontario-street, and owned to Mrs. Burford, 117 Blecker-street. Policeman McLaughlin had his hands severely burned in an effort to take out the horse.

Health by Human Electricity is a normal process. You learn how to generate and apply the electricity of your own body. Thus, repair, preserve and increase your own good health and working power indefinitely without doctors, drugs or appliances. Information, literature, etc. free. Human Electricity, 83 College-street, Toronto, Ont.

Mr. Ames to Resuscitate.
 MONTREAL, July 11.—(Special.)—H. B. Ames, M.P., who has been suffering with colic for months, will leave for the Laurentides on Friday, where he will remain for the middle of August, after which he will proceed to Cape Breton.

May Have Been Electrocuted.
 OTTAWA, July 11.—John Mathias, an employe at the Canada Cement Works, Hill, was found dead in the cinder room of the works this evening. It is thought he was electrocuted.

Drowned Attempting to Save Brother.
 OTTAWA, July 11.—Willie Burnet, a 14-year-old boy, residing at Cascades, Que., was drowned yesterday while attempting to save the life of his older brother, who got beyond his depth. In handing him an oar the younger lad lost his balance and got over his depth.

Drowned by Rickety Boat.
 LONDON, Ont., July 11.—Duncan, 13-year-old son of John McVicar, fourth vice-president, North Dorchester, with some other boys, went for a row on the Foster pond. When out a little way from shore the rickety old craft began to sink and the occupants jumped into the water. All reached shore in safety except McVicar, who was drowned.

Will Lay New Cable.
 QUEBEC, July 11.—The government steamer Tyrian left to-day for the gulf. After calling at Gaspe, the vessel will proceed to the Magdalen Islands to lay a cable to Entry Bay.

J. McIntosh, business manager of The Stratford Herald, is spending a few days in the city renewing old acquaintances.

Many Women who are Splendid Cooks

dread having to prepare an elaborate dinner because they are not sufficiently strong to stand over an intensely hot coal range. This is especially true in summer. Every woman takes pride in the table she sets, but often it is done at tremendous cost to her own vitality through the weakening effect of cooking on a coal range in a hot kitchen.

It is no longer necessary to wear yourself out preparing a fine dinner. Even in the heat of summer you can cook a large dinner without being worn out.

New Perfection Oil Cook-stove

Gives no outside heat, no smell, no smoke. It will cook the biggest dinner without heating the kitchen or the cook. It is immediately lighted and immediately extinguished. It can be changed from a slow to a quick fire by turning a handle. There's no drudgery connected with it, no coal to carry, no wood to chop. You don't have to wait fifteen or twenty minutes till the fire gets going. Apply a light and it's ready. By simply turning the wick up or down you get a slow or an intense heat on the bottom of the pot, pan, kettle or oven, and nowhere else. It has a Cabinet Top with shelf for keeping plates and food hot, drop shelves for coffee, teapot or saucepan, and even a rack for towels. It saves time, worry, health and temper. It does all a woman needs and more than she expects. Made with 1, 2, and 3 burners; the 2 and 3-burner size can be had with or without Cabinet.

Every dealer everywhere; if not at yours, write for Descriptive Circular to the nearest agency of the

RIVAL AVIATORS TRY NERVY 'STUNTS'

Continued From Page 1.

He would turn an imaginary corner quickly and during the operation his plane would careen as tho a 40-mile gale had struck it. While going around the wings would be at an angle of at least 20 degrees.

Taking Chances.
 Then he went close to the ground and flew about the field barely five feet, and oftentimes less, from the vines. As tho he were experimenting with his elevating planes, or else trying to follow the contour of ocean billows during a storm, he traveled along the field in upward jumps and dives. When low, he would be within three or four feet of the ground and when up he would be probably 15 feet high. The sport was all the more nerve-racking calculation might have caused him to run the nose of the plane into the ground and wreck the whole machine.

It began to grow dark while he was in the air, but there was some delay in making satisfactory financial arrangements, and it was stated in some quarters that the Dominion concern would not go into the merger. It is learned to-day that it is now assured that the company will go into the merger.

Try This When Your Hair is Dusty

(From The New York Herald.)
 "When the hair is dusty and dull, and you want to clean it quickly, just sprinkle through it a little dry shampoo powder made by mixing four ounces of borax root with four ounces of throx."

"Then brush the hair thoroughly and not only will it clean, but it will have a rich and glossy lustre, that can be given in no other way. So little time is required for this dry shampoo that it can be done profitably whenever the hair is dressed."

"Throx is excellent for the scalp and gives the hair new life and vigor. The regular use of this mixture heightens the natural color, while washing the hair with water too often causes it to lose color and become dull and brittle."

To-morrow will be a semi-military day, with a special program showing the aviator over his aeroplane that has been very presented.

in by the Canadian engineers and the four steamers, with eight trips out to bombard the forts. Boy Scouts will be in uniform, with staff, haversack, and full equipment. The uniform will admit into the grounds without a ticket. As many Boy Scouts as can are requested to come. The boys should see their scout-masters at once to get full instructions. They should be in the grounds by 2 p.m. Car fares, etc., will be paid or refunded.

WILL JOIN STEEL MERGER.

MONTREAL, July 11.—One of the well-known, which it was announced, would become a part of the Hamilton merger, the Steel Company of Canada, was the Dominion Wire Manufacturing Co. The merger interests, it is known, but there was some delay in making satisfactory financial arrangements, and it was stated in some quarters that the Dominion concern would not go into the merger. It is learned to-day that it is now assured that the company will go into the merger.

Travel by Water.

Avoid the excessive heat and travel by water. Niagara Navigation Co.'s four steamers, with eight trips out to Toronto, offer you best connections with all trains for anywhere in United States.

Originated in Drying Room.

The explosion is thought to have originated in the drying room. The factory has been in operation for a year and a half, and consisted of several frame buildings, formerly used as a saw mill. The countrywide was greatly disturbed by a rumor that sixty children at Arnprior.

Of the three people killed, Earl Murphy was an eight-year-old Arnprior boy; Frank Pittner and John Hewart, aged 35 and 30 respectively, were explosive experts from Philadelphia. Pittner leaves a widow and two children at Arnprior.

Of the eight people injured, John Lynn is the only one whose condition is critical. He was engaged in rolling cartridges when the explosion happened, and was struck by flying debris, his skull being fractured.

Shock Terrific.

TERRIFIC EXPLOSION CAUSES THREE DEATHS

Works of the Dominion Explosives Co. at Sand Point, Near Arnprior, Wrecked.

OTTAWA, July 11.—(Special.)—H. G. Nichol of New York, manager of the works of the Dominion Explosives Company at Sand Point, which were destroyed by an explosion to-day, which caused the death of three men and the injury of eight others, refused to make any statement as to the cause of the disaster or the loss until he has had an opportunity of visiting the scene.

He was on his way to Ottawa when the explosion occurred, but has gone back to Sand Point. The explosive, as "The Blastor's Friend." It was supposed that it could not be affected by impact or by any degree of heat or cold.

Fire, which broke out after the explosion, continued until the evening, doing considerable damage to the bush, which the factory was surrounded. The Arnprior fire brigade was able to return to town this evening.

Originated in Drying Room. The explosion is thought to have originated in the drying room. The factory has been in operation for a year and a half, and consisted of several frame buildings, formerly used as a saw mill. The countrywide was greatly disturbed by a rumor that sixty children at Arnprior.

Of the three people killed, Earl Murphy was an eight-year-old Arnprior boy; Frank Pittner and John Hewart, aged 35 and 30 respectively, were explosive experts from Philadelphia. Pittner leaves a widow and two children at Arnprior.

Of the eight people injured, John Lynn is the only one whose condition is critical. He was engaged in rolling cartridges when the explosion happened, and was struck by flying debris, his skull being fractured.

Shock Terrific.

The shock when the building went up was a terrific one, the noise being

CIGARET SALES INCREASING.

OTTAWA, July 11.—Statistics issued by the inland revenue department show that, in the face of obstructive enactments, the sale of cigars in Canada for the fiscal year that closed on March 31 exceeded the sales of the previous year by about one hundred million. Foreign cigars, which are classified by the pound, were imported to the extent of 25,049 pounds, as compared with 25,822 pounds in the previous year. Domestic-made cigars entered for consumption during the twelve months totaled 236,220, 851, as against 192,105,371 in 1909. The importation of cigars amounted to 106,733.

Have something light for your noon or evening dinner this hot weather. Albert Williams serves a full course hot or cold dinner at 25c that acts as an advertising medium for our restaurants. Branches at 83 Yonge, 179 Ontario and 207 Yonge-street.

Trade Outlook Brighter.
 OTTAWA, July 11.—To the trade and commerce department, J. A. Chesley, commercial commissioner at Capetown, reports a notable betterment in South African trade conditions. The imports last year increased by three, and the exports by five million pounds. The outlook for trade with Canada is much brighter.

DUMP WENT DOWN.

KENORA, July 11.—The War Eagle, C.P.R. dump went down about 3 o'clock completely out of sight, water flowing over it.

Four Galician laborers were thrown into the water, three scrambled out and one body was recovered four hours after and brought here.

CARLINGS GOLD MEDAL ALE & PORTER

From Canada's GREATEST Brewery. For sixty years we have brewed by the old English methods as adopted by BASS & CO. and GUINNESS & CO. WE DO NOT CARBONATE, and by so doing destroy Nature's best and finest health-giving properties of barley malt and Bohemian hops. No fads, no new methods, as used by some brewers who don't compete with genuine methods. **DEMAND CARLINGS, AND GET THE FINEST MADE IN THE WORLD.** Every dealer everywhere.
