SUBSIDY SOUGHT FOR NEW SERVICE HERE

BOARD OF TRADE ASKED TO HELP WITH CABINET

Steamship Sailings Between Maritimes and Central Canada CUT FREIGHT TOLL

Prominent Men Consult Saint John Trade Board Council—Aid For Lumbermen

THE Saint John Board of Trade Council was today asked to support a request for a subsidy from the Dominion Government to link the Maritimes by water with Central Canada and to cut large under freight rates as now applying on the railways.

The council also passed a resolution favoring some means of lessening the burden on the lumber industry of the province at the present time.

PROMINENT VISITORS. Sir Thomas Wilson, of Belfast, Ireland, one of the prominent steamship men of Great Britain, T. R. Kirkwood, of the Kirkwood Steamship Line, and C. H. Eason, Toronto, met the council and presented a request that the Board of Trade support their application to the Dominion Parliament for a subsidy of \$200,000 to service between Hamilton, Toronto, Montreal and Saint John and Halifax, if they placed one steamer on the route, and \$50,000 if they placed two steamers on the route.

It was proposed to operate a monthly service between the Maritime Provinces and Central Canada and the freight rates would be 80 per cent below the present railway rates to these points. The first steamer, the "Coburnian" would be in this port during this month to inaugurate the service. The matter was referred to a committee to investigate the feasibility of the project next Tuesday at 11 a. m.

AID TO LUMBERING. The council adopted the following resolution in regard to the aid for the lumbering industry:

Whereas the Lumber Industry of New Brunswick now labors under acute depression which has already resulted in a very serious reduction in the number of operating concerns and thus deprived of thousands of jobs and normal source of livelihood; and

Whereas the economic importance of our lumbering industry is fundamental in the most literal sense. Therefore, it follows that the adversity from which it now suffers is closely and most deplorably reflected, directly and indirectly, upon practically all other lines of business and thus upon the whole people of the province;

Therefore be it resolved that the Saint John Board of Trade do respectfully urge upon the Provincial Government the pronounced gravity of the above situation and express the sincere hope that thoughtful means toward all possible relief be taken without delay, in the form of a reduction in the present stumpage charge and the institution of a scale basis more consistent with the present size of logs, at least, so that the lumber, at least, be placed upon a more even operator with New Brunswick hopeful footing with their Quebec competitors in the markets of the United States.

Further, that a copy of this resolution be sent to the Premier, Hon. F. J. Young, Hon. J. E. Hetherington, and Saint John members of the Legislature.

Communists Yell "Down With Monarchism" But Withdraw As Hindenburg Enters

Canadian Press Cable. BERLIN, May 12.—Field Marshal Von Hindenburg was inaugurated President of Germany today. Except for a brief shout of protest from the Communists, the inauguration was carried out according to schedule, the Field Marshal being sworn into office by Reichstag President Paul Loebe.

The oath taken by the President was as follows: "I swear to devote all my energies to the welfare of the German people to increase their prosperity, to protect them from injury, to preserve the constitution and laws of the Commonwealth, to perform my duties conscientiously and to deal justly with all."

SETS PRECEDENT. To this he added the religious affirmation "So help me God," thereby setting a new precedent for German Presidents.

"Down with Monarchism; long live the Soviet Republic," was the shout raised by the Communist deputies, at their President-elect entered the Reichstag chamber. They withdrew immediately afterward and the ceremony proceeded without a hitch.

The President-elect's route was thronged with people and at many points he was loudly cheered.

N. S. MAN IS FOUND DEAD IN AUTOMOBILE

Charles Alcorn of Lunenburg Goes Over Wharf and is Drowned.

LUNenburg, N. S., May 12.—Charles Alcorn, 32, of Lunenburg, formerly of Charlottetown, was found dead early this afternoon, inside of his car, a small coupe, which was discovered half buried in the mud and rocks at the head of a wharf on the town's waterfront. Alcorn's watch stopped at 12:25, and it is presumed he either backed or went head-on over the end of the wharf shortly after midnight last night. At that time the tide was high. The cruiser Arleux was lying at the dock all night, lights burning and with a watchman on board, but apparently unaware of the tragedy as she sailed this morning.

Utilities Board Hears of Action on Distribution Systems

REPORT ON RATES

Cocagne Pleasure Resort Company Is Given Permission To Sell Securities

THE chairman of the Board of Public Utilities announced this morning that he had written to N. F. Nutter, of the Western Union, Toronto, asking him to continue the work of supervising the clearing up of the interferences between the distributing systems of the New Brunswick Power Company and the Civic Hydro Commission.

The board in special session today authorized the sale of securities of a company who plan a pleasure resort at Cocagne Beach and referred a number of other applications for the sale of securities back for further information.

RATE LIKELY HIGHER. The secretary reported that the rate this year on the various utility corporations would probably be slightly higher than last year.

The board decided to ask for fuller information about the proposed contracts between the Maritime Electric Company and the Canadian Cottons and the company and the Town of St. Stephen.

J. M. Freeman presided and T. C. Borpe and F. X. LeBlanc, members of the Commission, with E. S. Carter, clerk, were present.

The secretary reported that he had received a certified copy of the amendment to the New Brunswick Power Act, passed at the recent session of the Legislature giving the board power to adjust interferences between competing distribution systems and this was now on file.

The application of a company for a certificate to sell securities to the amount of \$10,000 for the purpose of opening up and operating a bathing resort at Cocagne Beach, Kent county, was presented by R. M. Palmer, Moncton.

After hearing Mr. Palmer the board decided to grant the application. The application of the United Algona Mines, Ltd., head office, Toronto, for permission to sell stock in New Brunswick was taken up. The application had been filed by Guy Short of Moncton, but Mr. Short was not present.

The company was authorized to sell 5,000,000 shares of stock, they having no par value, and of these 1,670,000 shares had been sold, leaving 3,330,000 still to be disposed of. There had also been an issue of bonds amounting to \$75,000, and these were all sold. The company is a subsidiary of the Canada Gold Syndicate, Ltd., and was formed to prospect for and lease mining property. It was decided to ask that some representative be present at the regular meeting of the board on May 27 to furnish fuller information.

In Spite of St. Patrick Legend, Snake Is Discovered In Erin

DUBLIN, May 12.—Notwithstanding the legend that St. Patrick banished all the snakes from Ireland, one has been discovered in Dublin and is now on exhibition in the National Museum. It is a very small specimen, less than two feet long and of the harmless variety. News of the find caused much comment in the press. Snakes have occasionally been brought into Ireland from overseas, but they have never been known to breed here.

"Send Your Cream, Not Your Unemployed," Toronto College President Tells Great Britain

Canadian Press Despatch. LONDON, May 12.—Sir Robert Falconer, president of the University of Toronto, who was the guest of honor at a luncheon of the Pilgrims Club yesterday, is achieving a great deal of notice in the London newspapers for his pro-empire utterances.

"We are trying to get the best brains into Canada, and I have just heard from several English university professors, who wish to come to Toronto," said the noted educationist, in an interview today.

He added that Canada was making special efforts to get the best type of settlers.

"But we expect a finer type than we sometimes have had in the past. England must send us her cream, not her unemployed."

Frank Hanfield to Act in Vacancy For Present—Hall is Silent

Canadian Press Despatch. HALIFAX, May 12.—W. L. Hall, K. C., today confirmed the announcement made last night that he had resigned the leadership of the Conservative party in the Province of Nova Scotia. Mr. Hall added that he would have no statement to make today.

Frank Stanfield, president of the Liberal-Conservative Association, announced the resignation of the leader to take effect immediately.

STANFIELD TO ACT. He stated in view of the imminence of an election and the impossibility of having a convention of the party as a whole in the province, he had decided, in virtue of his office, to assume the duties of leadership, pending a conference of the executive of the provincial association and the nomination candidates to be held on Thursday May 21 when this body would be called upon to select a leader in succession to Mr. Hall. Mr. Stanfield further expressed his regret that, for personal reasons, Mr. Hall had found it necessary to take the course he had, "especially" in view of his very great health.

FRENCH GENERAL VERDUN HERO DIES

General Mangin, Who Carried Out Brilliant Attack in 1916, Passes Away.

Canadian Press Despatch. PARIS, May 12.—General Mangin, French hero of Verdun, died today. It was General Mangin who in October, 1916, carried out the brilliant attack at Verdun, which resulted in the retaking of Fort Douaumont. The General was stricken suddenly yesterday with an attack of uraemia.

Charles Marie Emmanuel Mangin was born at Sarrebourg, on July 6, 1869.

His temporary rank of General was made permanent just before his brilliant attack at Verdun in October, 1916.

WAS EXONERATED. Later he became involved in the bitter controversy which followed the costly victory on the Aisne in spring of 1917, and was deprived of his command of the Sixth Army. A commission of inquiry, however, exonerated him from blame, and he was reinstated by Clemenceau. In July, 1918, in conjunction with General Deputte, he carried out the great counter-offensive against the Germans which brought the first of the final series of successes.

After the war, he was made a member of the Superior War Council, and was decorated with the Grand Cross of the Legion of Honor.

VENIOT ATTACKED

Resolutions Are Passed Scoring
Policies of Present
Administration

Special to The Times-Star.

MONCTON, May 12.—An opposi-
tion convention held here yesterday,
with Ferdinand J. Robidoux,
former federal member for Kent,
presiding. The following were chosen
as candidates for Westmorland county
in the approaching provincial elections:

As J. Leger, Moncton; Dr. M. A.
Oudon, Shediac; M. G. Siddall, Port
Elgin; Herbert M. Wood, Sackville.
The candidates spoke briefly, accept-
ing the nominations.

PASS RESOLUTION

The following resolution was unani-
mously adopted:
"Whereas, the leaders and members
of the opposition party in the provin-
cial legislature have at all times fought
for the rights of the people of this
province and opposed in every legiti-
mate way the steadily increasing in-
debtedness of the government's extra-
budgetary activities and the maintenance
of the trunk roads of the province, the
haste with which the Grand Falls hydro
bill was introduced through the House
without the consent of the taxpayers,
and the government's general policy of
waste and extravagance;

"Be it therefore resolved that this
convention place itself on record as
highly approving the stand taken by
the opposition party during the last
session of the House."

PUBLIC DEBT

Another resolution was unanimously
adopted as follows:
"Whereas this convention views with
alarm the tremendous increase in the
public debt in this province under the
present local provincial government,
resulting in over-taxation, stagnation and
emigration; and
"Whereas in the opinion of this con-
vention the said increase is due in large
measure to the extravagance and
poor business management of the
Foster-Veniout administration;

"Be it therefore resolved that this
convention go on record as being
wholly opposed to the present adminis-
tration and in favor of the strictest
economy and honesty in the adminis-
tration of the public affairs of this
province."

RUM ROW SHIFTS
TO PACIFIC COAST
Report from San Diego Says
Five Foreign Vessels Observed
Off That Place.

NEW YORK, May 12.—Reports that
whiskey ships were appearing at Glace
Bay, N. S., and offering their wares at
a cut rate, led prohibition officials di-
recting the rum row blockade on the
North Atlantic coast to declare a com-
bative victory today for the "drys".

The statement was based on the pre-
sumption that the schooners had been
forced to abandon attempts to land
their liquor cargoes in this country due
to the recent inauguration by the pro-
hibition forces of a most stringent "war
on the wets." The "drys" hailed it as a
certain breaking up of the rum row
trade, which commerce department of-
ficials estimate has reached an annual
figure of \$40,000,000.

ACTIVE ON PACIFIC
Meanwhile, word came that five ves-
sels of the British and Belgian flags,
had appeared off San Diego, Calif., and
it was presumed that an effort would
now be made to pour liquor into the
United States via the Pacific Coast.

TWO SENT UP ON
ROBBERY CHARGE
Hazlett and Nicholson Commi-
ted in Fredericton on Wm.
McNutt's Complaint.

Special to The Times-Star.
FREDERICTON, May 12.—Charles
Hazlett and William Nicholson were
sent up for trial this morning on the
charge of robbing William McNutt of
some \$800. Nine witnesses were ex-
amined. They were the complainant,
W. B. Lint, W. E. Edwards, John Dar-
lington, George Venner, Herbert Mar-
gan and Chief of Police James and
Deputy Sheriff Moores of Woodstock.

Evidence Taken
The evidence showed that McNutt was
intoxicated on the night of April 29.
He had \$400 in 20-dollar bills. He was
taken home in a car and missed
his wallet on arrival.
Hazlett and Nicholson left for Wood-
stock by car that night and spent
money freely in that town next day.
Later \$80 was recovered from Hazlett
in Fredericton and \$80 from Nicholson
in Woodstock.

Accused of Murder

ALFRED ARSENAULT
Who is now in jail at Saint
Andrews held in connection with
the murder of Alpheus Haesel-
pecker.

NOT READY YET IN
ARSENAULT CASE
Judge Barry Sits in St. Andrew's
Court—Murder Suspect Was
in Saint John.

Special to The Times-Star.
ST. ANDREWS, N. B., May 12.—
The circuit court is to open here this
afternoon but as the case for the crown
against Alfred Arsenault, Moncton,
charged with the murder of A. Hasel-
pecker at Bethel recently, is not
ready for presentation yet, it will likely
be set over for a later date at this sit-
ting. Chief Justice Barry will preside.

Arsenault was given protection for
the night of Thursday, April 30, at
Central police station here, according to
Night Deskman Edwin Thomas when
he was shown a writ of Arrest.
He gave his name as Leonard LeLa-
cheur, Moncton.

WILL CONTINUE
TO CLEAR UP
INTERFERENCES
Continued from Page 1.

An application of C. M. Cordasco &
Co. for the approval of the following
securities was read: Austrian Govern-
ment gold bonds; Republic of
France, issue of 1920, German, Ham-
burg and Prussian bonds, payable in
marks. It was decided to inform
Messrs. Cordasco & Co. that the board
would not allow the rate of the three
issues to be named, and they were asked
to give fuller information about the Aus-
trian bonds.

The secretary reported that he had
written the Canadian Cottons, Ltd., at
Montreal, and the Town of Saint John
in connection with a report that the
company were selling light to the town,
but he had not received any reply.
He had also written the C. J. R.
about selling current to the village of
McAdam. The chairman constituted those
companies public utilities and made
them subject to the board.

BOARD FINANCES
The secretary reported that returns
from the utility companies of the
province showed returns of \$2,650,
000 as compared with \$2,500,000 last
year. There was a decrease of \$150,000.
There had also been an increase in the
expenses of the board and the work of
the board had been greatly increased.
The rate for this year would be
slightly higher than last year. It was
said that an adjustment had been
made by which the applicants for au-
thority to set securities would pay
their share of the cost of the opera-
tions of the board.

BORDER LIGHTING
A letter was read from N. Marks
Mills, St. Stephen, asking that the
board approve of a contract entered
into with the Canadian Cottons by the
Maritime Electric Company for the
supply of electric current for a period
of 8 to 10 years and the approval of a
contract between the Maritime Electric
Company and the Town of St. Stephen
for a like period.

The secretary was instructed to
write to Mr. Mills that the board
would have to see copies of the con-
tract and submit them to Mr. Mil-
liran before it could give any approval.
The chairman took the ground
that this opened up the whole matter
of rates for the town of St. Stephen
and would probably have to be in-
vestigated. The Maritime Electric Com-
pany is the company which supplies
Fredericton with current.

Working On Old
Post Office Plans
Plans for the reconstruction of the
upper floors of the old post office build-
ing at the corner of Prince William
and Princess streets, which was recent-
ly damaged by fire, are being made
under the direction of T. W. Fuller, of
Ottawa, now in Saint John. Mr. Fuller
has just returned from Ottawa, where
drawings of the whole structure
had to be made in order to arrange
for the new upper floors. The new
plans will call for an absolutely fire-
proof construction. Mr. Fuller will re-
turn to Ottawa in a few days and there
the plans will be completed and ar-
rangements made for the advertise-
ments to be tendered for the work.

creased membership, Mr. Allan said it
was progressing very well.

Funerals

Charles J. Hamm.
The funeral of Charles J. Hamm was
held this afternoon from his late resi-
dence, 77 Water street, West Saint John
at 3 o'clock. Rev. W. Robbins of
Ludlow street Baptist church conducted
the service. A special quartette from
the choir of the church, composed of
Mrs. Milton Estabrook, Miss Dorothy
Rupert and Messrs. S. Herbert and
Fred Mayes, sang "Nearer My God to
Thee" and "Able With Me," in the
service at the house at 2.30 o'clock. The
usual tributes were numerous and beau-
tiful.

Mrs. Michael Lawlor.
The funeral of Mrs. Michael Lawlor
was held this afternoon from her late
residence, 264 Waterloo street, to the
Cathedral of the Immaculate Conception
for high mass of requiem sung by
Rev. James Brown. Rev. Charles Boyer
was deacon and Rev. T. Melville Nichol-
son, sub-deacon. Relatives were pall-
bearers. Interment was made in the new
Catholic cemetery. Many spiritual offer-
ings were made by relatives and friends.

Mrs. Mary Eleanor Dickson.
The funeral of Mrs. Mary Eleanor
Dickson, widow of S. Z. Dickson, was
held this afternoon from her late resi-
dence, 1011 St. John street, to the Cath-
edral of the Immaculate Conception for
high mass of requiem sung by Rev. James
Brown. Rev. Charles Boyer was deacon
and Rev. T. Melville Nicholson, sub-
deacon. Relatives were pallbearers.

Charm School Presented in St.
Peter's Auditorium Before
Large Audience.

A large audience in St. Peter's Au-
ditorium last evening witnessed a re-
peat performance of "The Charm
School," which was presented for the
first time last week in St. Vincent's
Auditorium. Like the previous pro-
ductions, last night's production was
in aid of the building fund for Stella
Marie church, East Saint John, and
also in aid of the Maritime Maritime
Provinces during the Victoria
Day recess. This was prompted by an
announcement in the press that some
of the Progressives were intending to
visit New Brunswick and Nova Scotia
at that time.

Mayor to Ask Leader of Pro-
gressives to Pay Visit to
Saint John.

His Worship Mayor Potts said this
morning that he intended to wire to
Robert Forke, leader of the Progressive
group in Parliament, an invitation to
come to Saint John while in the Marit-
ime Provinces during the Victoria
Day recess. This was prompted by an
announcement in the press that some
of the Progressives were intending to
visit New Brunswick and Nova Scotia
at that time.

HOLLAND DRIES UP ZUIDER ZEE

Great Dam Being Constructed to Reclaim 800 Square Miles

Country Over-populated and This is Plan to Provide Room.

AMSTERDAM, Holland, May 12.—(United Press).—Holland is overpopulated, so she is drying up the Zuider Zee to provide room for her surplus people. A huge dam or dyke is being constructed. It will be 20 miles long, costing probably about \$28,000,000.

800 SQUARE MILES. It is estimated the completion of the entire reclamation scheme, which includes a large number of minor dykes besides the main dam of Friesland, will cost something like \$160,000,000. The project is designed to add 840,000 acres, or over 800 square miles, to the land surface of Holland. On this new "conquest" Holland aims to take care of the excess from a population now increasing at the rate of 100,000 yearly.

LEAVE ONLY LAKE. Reclamation of these four huge chunks of sea bottom will leave a considerable body of water as bare remnant of the Zuider. This will be known as Yael lake, shaped like a two-pronged fork, with the tip of one prong at Amsterdam and the other at the mouth of the Ysel, while the base of the handle will be the North Holland-Friesland dam which is to hold back the North Sea.

Hundreds of fishers now earn their living on the Zuider Zee, especially in capturing herring and anchovy, and their protests against the new enterprise have been loud and long. The warmer, brackish water on the Zuider suits herring and anchovy extremely well.

The government has arranged to allow a pension to fishermen over 60 years of age thus thrown out of work. And government industrial schools will be opened to teach the new entrants some handicraft, while these will also be paid an indemnity. Some of the unemployed probably will be absorbed in the North Sea fishery.

WILL SPEAK HERE

Dr. A. McMechan of Dalhousie Comes to Saint John For Loyalist Day.

The Women's Canadian Club is planning for a fitting celebration of Loyalist Day on May 18, when it will hold an open meeting in the new enterprise building and have as the speaker of the evening Dr. Archibald MacMechan, of Dalhousie University. It is some time since the anniversary of the landing of the Loyalists has been publicly honored in any other way than the holding of a school holiday and the Women's Club is entering enthusiastically into the preparations for the observance this year.

A meeting of the executive of the club was held last night at the residence of the first vice-president, Mrs. H. A. Powell, Queen Square, Mrs. Powell presided in the absence of Mrs. E. Atherton Smith. It was decided to send special invitations to the Men's Canadian Club, the I. O. O. F. and Historical Society and also to throw the meeting open to the general public.

HEART WAS WEAK NERVES ALL GONE

Mrs. J. H. Hallenbeck, 117-13 Weland Avenue, St. Catharines, Ont., writes: "I was in a gas explosion; it left me with a weak heart, and my nerves were all gone. I suffered everything; couldn't sleep, or endure any excitement, and when left alone I felt as if I could scream. I took daisy pills, often falling and bruising myself. My mother read about your Milburn's Heart and Nerve Pills, and bought me a box, but having taken so many different kinds of medicine it just seemed that I did not have any confidence in any of them. I took one box of H. & N. Pills, and felt so much better I continued with them until I had used five boxes, and after I had taken them I found I did not need any more. I cannot praise, or recommend, Milburn's Heart and Nerve Pills too highly after all they have done for me."

SAINT JOHN, N. B., MAY 12, 1925.

"NO ACTION."

A suggestion was made by His Worship Mayor Potts, at yesterday's City Hall meeting, that it would be well if the city would secure legislation to enable it to go into the business of selling the necessities of life at such prices as dealers in these necessities might be charging excessive rates.

Any such legislation is out of reach. The House is not in session now, and by the time another session comes this proposal may well have been forgotten unless, indeed, some extraordinary session on the part of those dealing in necessities should keep it alive, which seems unlikely enough.

It will be found, on reflection, that citizens generally would regard with a singular lack of enthusiasm the proposal that the Mayor and Commissioners should engage in trade in competition with their fellow-citizens, or should attempt to fix prices by employing civic money and talent to enter into competition with taxpayers.

The necessities of life" is in these days a phrase covering a wide range of buying and selling, and the line of adventure proposed by the Mayor is one of more than dubious wisdom. The articles of food are many, but to these must be added boots and shoes, clothing, fuel, medical attendance, housing and a multitude of other things.

Some citizens, extending His Worship's line of thought, might even go so far as to include auctioneering. At all events, if the city as such were to engage in one line of trade, in order to avoid discrimination and to cover the whole field, it might be logically necessary to set up cut-rate competition in a hundred lines and to employ capital and staff on a wide scale.

If any taxpayer growing fabulously rich by grinding the faces of the poor in the handling of any particular line of necessities, the fact seems to have escaped general observation, and if any such instance were pointed out, it indeed it has mysteriously escaped the notice of men in similar lines, no doubt public announcement of the facts would speedily bring about sufficient competition to produce the desired effect.

The men at City Hall already have a great deal on their hands. In addition to conducting their various departments they are supposed to be on the alert in promoting or assisting movements to better our transportation conditions, to secure new industries, to reduce taxation, and to increase trade. Properly regarded it is a programme sufficient to exhaust all of their intelligence and to absorb all of their energy.

NOVA SCOTIA'S DEMANDS. While the Opposition in the Nova Scotia Legislature voted against the Armstrong resolution asking that the province be given liberty to make its own tariff and ending by arrangements with countries other than Canada, the Opposition leaders evidently wished to make it plain that they are by no means content with existing conditions. They offered an amendment calling for an inquiry into the present fiscal policy of Canada as necessary in the interests of the farmers, fishermen, miners, lumbermen, manufacturers and other producers of Nova Scotia, and it was suggested also that the proposed inquiry should consider the effect of such fiscal changes both upon the cost of living and the cost of production.

The Manitoba Free Press is mildly shocked by the Nova Scotia disturbance and by the Armstrong proposals. It says this scheme of regional tariffs is "of course quite impractical, and Confederation could not survive the further divisive force embodied in such tariffs." But the very fact that such a proposal is made seriously by the Prime Minister of Nova Scotia, and approved with the backing of the province, is regarded by the Free Press as "sufficiently to awaken everybody to the seriousness of the tariff issue."

In the judgment of the Free Press Confederation would be disrupted by giving Nova Scotia the fiscal independence it is asking for, and would be disrupted just as surely by carrying into effect a higher tariff than the present one, which course it obviously believes would alienate the West as well as the Maritime Provinces. It thinks upon fuller consideration Nova Scotia will surely see that its position is unpractical, unless its intention is to break up Confederation.

Premier Armstrong distinctly said that he contemplated nothing like secession, but this spokesman for the West tells him that if Nova Scotia had a regional tariff it would necessarily have the same liberty for the Maritime Provinces, for Ontario and Quebec and the Prairie Provinces, and perhaps

Odds and Ends

"You never know what you'll find among the odds and ends."—From "Notes by a Wanderer."

Cheers! (D. B. M. in Manitoba Free Press.) The Conservatives had cheered lustily when Mr. Meighen had said the Liberal government was ruining the country. The Liberals now cheer out cheer louder than Mr. King tries to show the Conservatives had ruined the country.

Any kind of ruin is loudly cheered in parliament. The members appear to get great pleasure out of ruin. If the country comes to ruin, it is because of it as the politicians the whole Dominion would be vibrating with the shouting.

Mr. King and Mr. Meighen are both well appearing men and college graduates and they sit here 18 feet across from each other and drawing exactly opposite deductions from the same set of figures, processes and country-cross-eyed. Mr. Meighen had taken the financial cut out of the bag and talked it right down to the bottom of the well and talked it right up to the top again.

A TIMELY VISIT. It is evidently necessary that members of Parliament from the Prairie Provinces and those from the Maritime provinces shall come to a better understanding regarding the rights and problems of both sections. The stand taken by Mr. R. E. Finn, M. P. for Halifax, in the House of Commons yesterday with respect to the Halifax grain elevator and Maritime rights generally, comes just as an announcement is made that a large party of the Progressives, led by Mr. Forke, is to visit the Maritime Provinces for several days, leaving Ottawa on May 20.

"You know the first woman who fell for it, she was a real beauty, and she was hard and long that we had to throw biscuits to him to keep him alive."

A Wonderful Invention. "Yes," he bragged. "One invented a rubber pneumatic suit for workmen at great height." "And was it successful?" asked an unassuming one. "I should think it was," he replied. "You know the first workman who fell for it, he was a real beauty, and he was hard and long that we had to throw biscuits to him to keep him alive."

Does Every Meal Cause You Distress? IF IT DOES YOU SHOULD TAKE BURDOCK BLOOD BITTERS. Mr. M. P. Eldridge, Beaver Harbor, N. B., and after having taken several bottles I was completely relieved of my trouble. I can now eat anything I wish, thanks to B. B. B."

CAPTURE OF ABDUCTOR REVEALS TRAGEDY OF BACKWOOD POVERTY

Vermont Police Dog Is Overnight Hero of Search for Missing Girl.

By BOB DORMAN.

RANDOLPH, Vt., May 12.—Through-out the countryside that stretches away from this little Vermont town, where hills are as barren and woods as lonely as the lives they hem in, Deeka, sharp-nosed police dog, has become an overnight hero.

A member of the posse examines a footprint on a path through the mountain woods.

Where hundreds of armed searchers had failed, he succeeded in halting the flight of that most strangely mated couple, Lucille Chatterton, 11, and Earl Woodward, 26, an ex-convict who had been befriended by the child's father.

One sniff of some blankets found in an abandoned farmhouse and Deeka, followed by his master, George Tred and Winfield Dubois, a guide, was off to a hilltop. Here stood a ramshackle barn in which the couple, for whom a search of a week had been conducted, were finding temporary shelter from the heavy rain.

Lucille Chatterton, tragic figure in the backwoods drama of poverty.

Such was the condition of the Chattertons. They were poor to the point of destitution. And Lucille Chatterton grew up undressed and unhappy, surrounded by the gloomy and seemingly futile struggle that poverty breeds.

Woodward would bring the child candy from the store and now and then take her to a movie in the village. This opened to Lucille a new vista—a land of things that ever beckon to a child.

BRIGHTENING UP HOME FURNITURE

Hints For Women Who Want to Wield Paint Brush on Household Goods.

NEW YORK, May 12.—(United Press)—Repainting furniture is one of the pleasurable pastimes of the woman who likes to yield a paint brush.

Much can be done with mixing colors. Suppose one wishes to make a dark-stained end table a lacquer red. This requires a can of vermilion enamel and a can of orange enamel.

There is a fad at present for old greenish bronze tones. Electric fixtures, lamp bases and other brass vases and bowls are lovely when done in antique green tones.

Deaths

Mrs. Margaret Haldane. The death of Mrs. Margaret Haldane, widow of James Taylor Haldane, occurred on May 4, at her home in Stratroy, Ont. She was 81 years of age and was the eldest daughter of the late Samuel and Janet (Elliot) Carruthers of Westminster, Ontario.

John McHarg. John McHarg, one of the oldest residents of Saint John, died at the home of his son, G. L. McHarg, 180 Main street, yesterday. He was a native of County Kerry, Ireland, and was in his 92nd year.

Samuel Purvis. GAGETOWN, May 11.—Samuel Purvis, one of the oldest residents of this locality, passed away Friday at his home at Duck Creek.

Mrs. J. Strayhorn. MONCTON, May 11.—The death occurred in the City Hospital today of Mrs. John Strayhorn, of Alma, after an illness which extended over a year.

Patrick B. Wheeler. NEWCASTLE, May 11.—The death occurred at the Hotel Dieu Hospital, Chatham, on May 8, of Patrick B. Wheeler, one of the oldest and most highly respected citizens of the Miramichi, at the age of 81 years.

PLANT MANY TREES

Private Companies Will Reforest Thousands of Acres in the Adirondacks.

SARANAC LAKE, N. Y., May 12.—Private companies will this year carry out the greatest tree-planting programme on record in the Adirondacks.

Two million three hundred thousand trees are to be set out. They will come from the private nursery of the company at Bluff Point, which has been maintained for several years.

In Parliament Today

THE SENATE will sit in the HOUSE—Trade treaties with Finland and the Netherlands will be considered.

TO RECEIVE DEGREES. Three New Brunswick boys will receive their law degree at Dalhousie today.

Another huge planting project is being carried out by the St. Regis Paper Company, which is planting 1,200,000 trees in wilderness lands in the St. Regis Park, New Brunswick.

A REAL UP-TO-DATE MISS

A president's daughter, perhaps, should strive to uphold the traditions and dignity of her country. But Alicia Calles, 14, daughter of the President of Mexico, is thoroughly modernized after a few months school in San Diego, Calif. A modish bob supplants the long plaits of hair. Rolled down hose and short skirts also appeal to her fancy. And although she came to this country to become a physician, she now wants to enter the movies.

Deserts Dry

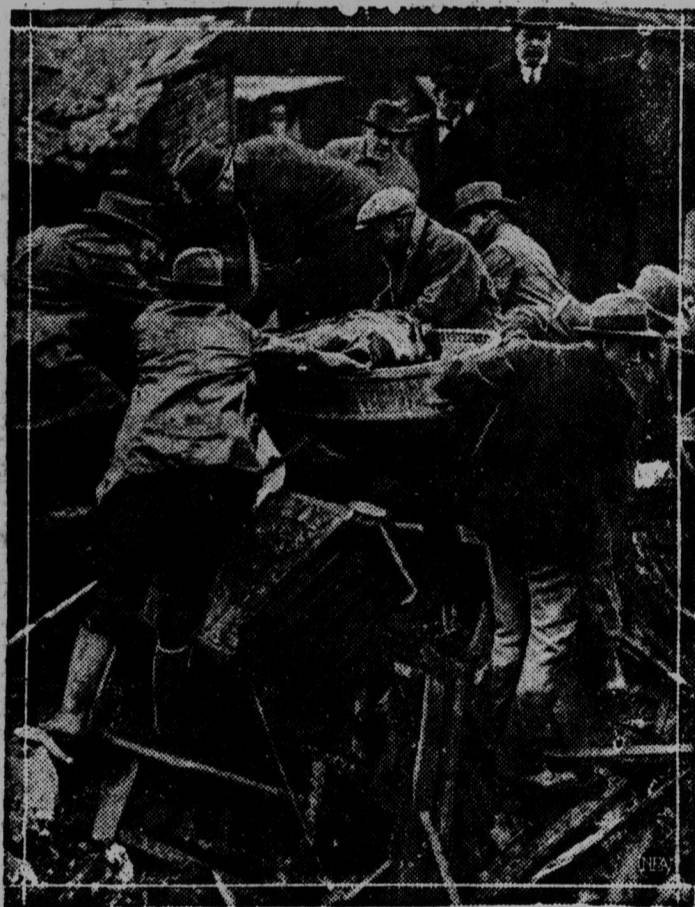

"Prohibition is nearer the grave than I," says Dr. J. P. Stoddard, 81, oldest living graduate of the University of Michigan, who says that while he was behind the early dry moves, that he now believes prohibition laws must be revised. He is a descendant of Jonathan Edwards, fiery theologian of early New England.

SLIPPERY RAILS CAUSE MEXICAN WRECK

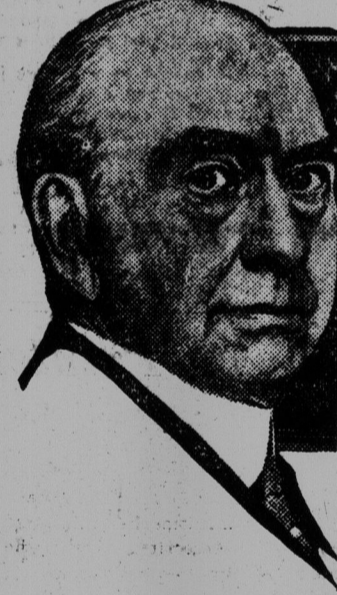

Spouting of a new oil well, which sprayed oil on the railroad tracks, caused a wreck on the line from Tampico to San Luis Potosi, Mex. The engine plowed through a passenger coach of another train, killing several persons.

Here's how to change a tractor into a bobsled in a few minutes. The circular pontoons with the spiral runners revolve and the tractor crawls over the deepest snows. The new device, which has interested William Ford, brother of Henry Ford, has pulled heavy loads of logs over the deepest snow.

WHEEL CHAIR LEAGUE OPENS

When the cry, "Play ball," sounded this spring crippled war veterans at the Veterans' Hospital, Tacoma, Wash., were not to be denied the fun of the great American game. They trundled their wheel chairs onto the field and soon had a spirited game underway. At bat you see I. Day of Seattle, while C. J. Holmgren of Minneapolis, is behind the plate.

BRITAIN WINS POINT ON ARMS CONTROL

WARSHIPS AND AIRPLANES NOT TO BE INCLUDED

Support of Canada, United States and Others Gives British Majority

DECISION REACHED AT INTERNATIONAL MEET

Margin for Plan Grows Smaller Until Deadlock Reached Over Tanks.

Canadian Press Dispatch.
GENEVA, May 12.—Supported by Canada, the United States and enough other countries to get a majority, Great Britain yesterday succeeded in carrying through her proposal to have warships and airplanes excluded from the control which it was hoped to establish over the traffic in armaments. This exclusion applies to submarines, airships, aeroplanes and other war vessels.

The decision was reached by the military, naval and air committee of the International Conference on the Trade in Arms and Munitions.

MAJORITY CLOSE

The majority for the British proposal was close and it got smaller and smaller as the president worked down through the list until a deadlock was reached. When it came to a vote on armored tanks, three votes were taken, and each time they resulted in a tie. The committee finally decided as an exception to retain tanks as armaments, the sale of which should be subjected to supervision and publicity.

PEKING STUDENTS ON THE RAMPAGE

Denounce Government and Scatter Red Literature During Parade.

PEKING, May 12.—Still indignant because they were prohibited by police order from holding so-called "humiliation day" demonstrations on May 7, bands of students paraded the streets and marched to the headquarters of the Chief Executive, Yuan Chi-ku.

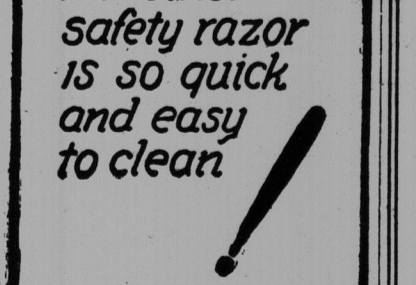

The students demanded the instant dismissal of the Acting Minister of Education, Chang Hih-chow, and Chief of Police Chu Shen. The former offered his resignation, but both were instructed to remain in office without changing their attitude toward the students.

The cabinet decided to issue a mandate advising the students to devote their full energies to study and to refrain from interfering with politics. Otherwise, the cabinet mandate proposed, if illegal disturbances continue, the law will be enforced against them.

Big Strawberry Crops in Kentucky

BOWLING GREEN, Ky., May 12.—Three thousand pickers are expected to gather in the "strawberry camps" in Warren County and its vicinity, for the season opening yesterday and lasting six weeks.

This year western Kentucky has ripened 6,000 acres of Arona berries, a decrease of 18 per cent from last year, but because of the favorable growing season the yield is expected to be larger. Last year the 3,900 acres produced 467 carloads of berries. Owing to the success of the co-operative strawberry-growing territory is spreading, and the berry is the principal crop in many communities.

HOUSE ROARS

LONDON, May 12.—There was a humorous interlude in the House of Commons yesterday over the emblem of the Lion which is being used to advertise the next run of the British Empire Exhibition at Wembley. Critics last year compared this lion to a mastiff, and yesterday Colonel L. V. K. Applin, Conservative member for Enfield, asked the Parliamentary Secretary for Overseas Trade whether he approved a lion of Judah being adopted as an emblem instead of a British lion.

Arthur M. Samuel replied in the negative, and then commander Hon. J. M. Kenworthy, Liberal member for Central Hull, asserted that the traditional lion on the arms of England was the lion of Judah, and that the kings of Scotland always claimed direct descent from the kings of Judah.

The remark caused great laughter in all parts of the house. When it had subsided, Mr. Samuel again rose to say that the Wembley lion was not the lion of Judah.

The Palestinian and Asiatic lion was much browner, he added, and had a curly, short tail. A typical lion of Judah had been excavated a few years ago, and it did not resemble the Wembley lion whatsoever.

NEW "DEATH RAY"

Claim It Will Paralyze Life For Six Miles Over Forty Miles Distance.

WASHINGTON, May 12.—A new kind of "death ray," exceeding in its destructive capacity any previous device, rumored or realized, has been reported to the Commerce Department as the asserted accomplishment of a German inventor.

William T. Daugherty, Trade Commissioner at Berlin, forwarded a summary of a publication describing the invention, which is called "heliotach," with the claim that its mysterious waves are capable of paralyzing life for six hours over a distance of 40 miles and to an altitude of more than 48,000 feet.

Explanation of methods of operation and of the sources of the energy used was lacking.

War Department experts pointed out that the highest elevation reached by an airplane as yet is about 30,000 feet, so that the new device—if it works—would effectively clear the air in any battle.

Canadians Make Test Of New Type Airplane

LONDON, May 11.—Two Canadian V. C. armies—Wing Commander Barker and Colonel Bishop—were present at a demonstration of the Moth light airplane at the Stad Lane aerodrome, Hendon, a few days ago.

The Canadian Air Force authorities are considering the question of suitable training machines, and Squadron Leader Anderson, who is in charge of the training of Canadian pilots, wished to obtain evidence of the flying qualities of the Moth and of the running of the new 4-cylinder Cirrus engine.

Wing Commander Barker flew the machine and, after executing a number of manoeuvres, including several loops, landed and expressed himself delighted with the way the machine behaved.

DENMARK PLANS TO LEAD ALL IN DISARMAMENT

Government Prepares Bill For Abolition of All Fortifications

GUARD CORPS TO BE CHOSEN BY ELECTION

New Venture Will Cut Military Estimates by Nearly Two-Thirds.

COPENHAGEN, May 12.—Though one of the smallest and most exposed members of the family of nations, Denmark proposes to give the world a lead in disarmament.

The government has prepared a bill providing for abolition of all fortifications.

Here, on the site of these strongholds, once stood the retreats of the Viking raiders of more than a thousand years ago. Here were the fastnesses whence the first and second Waldemars went forth to extend the Danish conquests into German and Wendish lands until the Baltic became little more than an inland sea of Denmark, up to the middle of the thirteenth century.

ALL PEACE LOVERS

The Danes of today are peace-loving rather than piratical, conciliatory rather than conquering. Not only does the government propose to do away with the forts and fortresses designed to ward off possible invaders, its bill provides further:

1. To transform both the army and navy into a guard corps, with a state marine to maintain Danish neutrality and enable the country to fulfill its obligations as a member of the League of Nations.

2. To prohibit all private volunteer corps.

3. To substitute for conscription a system of voluntary training.

Denmark's armed forces will be self-elected if the bill goes through, as apparently it will.

BALLOT FOR ARMY.

Under the detailed provisions of the measure, a ballot would take place whereby 1,000 men, drawn from among those willing to serve, would be trained yearly in the guard corps. This force would be equipped with a certain amount of light artillery, mounted on motor-cars, and a small air service would be attached.

The country's naval equipment would consist of the present handful of submarines and torpedo-craft, together with 24 guardships and a mining section. With the North Sea on the west, the Skagerrak on the north, the Cattegat on the east and the

£40,000 Left to Worker's Wife

NOTTINGHAM, England, May 12.—(A. P.)—By the will of George Parkin Cooley, a financier, Mrs. Jane Holt, the widow of a workman, obtains more than £40,000.

For several years Mrs. Holt took care of Cooley's rooms and cooked for him, but, it is stated, she did not expect to benefit from his estate.

The late Nottingham financier owned considerable property in New York.

OPERATED STILL TO KEEP HUSBAND HOME

Knew His Capacity, She Says, When Size of Plant is Remark.

BOSTON, May 12.—When the police liquor squad found a 25-gallon still in a South Boston residence today, a woman who was operating the still explained that she was manufacturing liquor in order to keep her husband at home nights.

"I know his capacity," she said when the officers expressed surprise at the size of the still.

Fifteen private stills, all in the South Boston district were seized yesterday and today in the course of a campaign to cut down the supply of poison whisky in circulation. Complaints by hospitals that the number of cases of alcohol poisoning were on the increase led to the police offensive.

Another woman, surprised in the act of tending a large still at her home, said she was preparing liquor for a wedding feast.

TREE A MILLION

LONDON, May 12.—A fossil tree, 75 feet long, and estimated by scientists to be a million years old, has been unearthed in the Assam mining area of Bengal.

Baltic washing most of its southern boundary, the peninsula would need the mine-laying most of all in time of trouble.

CUT EXPENSES.

Expenditure under the bill would amount to less than 18,000,000 kroner (approximately \$4,800,000 per year), as against approximately 50,000,000 kroner at present.

The minister of defence plans to submit the bill at the next autumn session of the Danish lower house. A few drastic measures were recently referred to committee, but the majority consisting of Socialists and Radicals decided upon the bill now prepared.

Danish Liberals oppose the measure on the ground that Denmark cannot disarm unless all other countries do so at the same time. The Conservatives declare it is entirely out of keeping with the country's obligations as a neutral state.

"FOOD DRUNKARDS" WARNED OF SWEETS

Doctor Says 'Diabetes is Replacing Pre-Volstead Alcoholism'

SACRAMENTO, Calif., May 12.—"Food drunkards" who appease their craving for alcohol by eating rich foods containing a great amount of sugar, have replaced the heavy drinkers of pre-Volstead days, according to a doctor before the convention of the California State Homoeopathic Medical Society.

"These persons love the flesh pots, but try to convince their physicians that they are light eaters," he asserted. "They are just as much drunkards as the man who drinks liquor to excess, and the consequences are equally serious. The Volstead law has lured the dissipation to the sugar-containing products, and diabetes is on the increase."

FACE SURGERY.

In an address on plastic surgery, Dr. George Warren Pierce of San Francisco declared that science delivered the knockout punch which ended the ring career of Jack Dempsey when he underwent an operation for the remodeling of his nose, and he was undoubtedly told so before his operation.

Dr. Pierce denounced "heavy specialists" who attempt face lifting and nose remodeling by the injection of paraffin, asserting that "these people constitute one of the worst types of criminals in the country."

CAPTURE RADIUM RAY

E. J. CHAMBERS, SENATE USHER, DEAD IN OTTAWA

Was Well Known as Soldier, War Correspondent, Editor and Censor

FOR NEARLY HALF A CENTURY IN MILITIA

Took Part in Highest Rebellion and Held Long Service Medal.

By Canadian Press.
OTTAWA, Ont., May 12.—Colonel Ernest John Chambers, soldier, war correspondent, editor, former chief press censor, and Gentleman Usher of the Black Rod, one of the best known figures in the Canadian House of Parliament, died at his home at Vaudreuil, Que., at midnight, after a lingering illness, at the age of 63.

Coming to Canada with his parents from Staffordshire, England, when only eight years old, he was educated at the high school in Montreal, and early in life went in for newspaper work. Joining the Canadian militia when only 14 years of age, he remained on the active strength until only a few years ago.

In the Northwest campaign in 1885, he was attached to the press as war correspondent, but not satisfied with such inactivity, he took an active part in many of the engagements for which he was decorated with a medal and clasps. Among his other medals are the long service medal, and the colonial auxiliary forces officers' decoration. He was attached to the corps of guides under Lord Dufferin for many years.

On the outbreak of hostilities in the great war, Col. Chambers was appointed as censor at Militia headquarters here, and in 1915 was appointed chief press censor for Canada, a position he held until demobilization.

He was editor for two years of the Calgary Herald, first daily newspaper in the then Northwest Territories.

Returning east, he for many years was editor of the Canadian Military Gazette. Col. Chambers was appointed to the position of gentleman usher of the Black Rod in 1904, a position which he filled with tact and firmness having control of the whole staff of the parliamentary buildings. One of his duties involved that of editing the yearly parliamentary guide.

Where Quality is Essential!

ONE of the most important things in a pumping station is the valve. By valves the water we drink is directed into the pipes at the will of the engineer. Dependable, trouble-proof valves are vital to good water service.

Jenkins Valves—recognized as the standard of quality the world over by the name "JENKINS" within the Diamond Trade Mark—give complete control of whatever passes through them, whether it be water, steam, gas or chemicals.

They are made in types and sizes for practically all purposes. And every Jenkins Valve has the extra weight and uniform strength that guarantee satisfactory service year after year.

Made by skilled hands to serve faithfully in pumping station, boiler room, cold storage plant, mine, factory, office building or private home. Gladly specified by architects and engineers. Obtainable everywhere.

Protestant Orphanage Directorate Presents Picture to D. C. Clark

Later Comments on Denominational Contributions to Maintain Little Ones.

At yesterday's meeting of the N. B. Protestant Orphanage Home directors a hand-drawn life-size picture of the institution was presented to D. C. Clark, president. It was announced that the directors would be pleased to show any interested through the buildings at any time.

Rev. W. J. Bevis led the opening devotions. L. P. D. Tilley paid a glowing tribute to Mr. Clark, who had given unstintingly of his time and means to the institution and for whom the whole new building was a lasting memorial.

**WOMAN RESCUED
AT BATHURST PIER**

Gilbert Steever Saves Her as She Clings to Face of Wharf.

BATHURST, May 11—The timely arrival of a motor boat saved the life of Mrs. Margaret Smith Sunday morning. When Gilbert Steever was passing the Gloucester Lumber Company's wharf about 9 o'clock he noticed what he thought to be a woman clinging to the face of the wharf. He called to some men at the head of the wharf and together they assisted Mrs. Smith to the top of the wharf. They summoned Dr. Duncan, who had her removed to her home.

Mr. Tilley then presented Mr. Clark a large photograph of himself handsomely framed and bearing a tablet with the following inscription: "D. C. Clark, president of the new Brunswick Protestant Orphanage Home, presented by 1265 fellow members of the board of directors."

Mr. Tilley requested that this portrait be hung in the orphanage.

Mr. Clark, in speaking of the treasurer's statement, said it was a shame and a disgrace the smallness of the denominational contributions to maintenance and he was thoroughly "disgusted" with it.

L. P. D. Tilley, reporting for the permanent home committee, told of the purchase of the Manchester property on the Manawagosh River, where a splendid institution had been erected; the payments to date being \$108,048 and accommodation being now provided for 84 girls and 88 boys. The overdraft of \$22,000 would be wiped out when payments now pledged were received.

Mr. Tilley, as chairman of the finance committee, reported the endowment fund income would be increased by \$398 as the result of re-investment of funds and the addition of recent donations and bequests.

**FIRE CHIEF GIVEN
PIPES AND ADDRESS**

Presentation Made to Walter S. Vaughan by No. 2 Hose Company.

Walter S. Vaughan newly appointed chief of the fire department, has received many letters of congratulation, including those from George Ackman, chief of the Moncton department, and Dr. Murray MacLaren, C.M.G., M.P. He received a most enjoyable surprise last evening when George T. Hay, foreman of No. 2 Hose Company, and other members of this company, called to present him an address and a case of pipes.

On the leather case was the following inscription in gold letters:
"Presented to Chief W. S. Vaughan from members of No. 2 Hose Company, 1925."

Before making the presentation Foreman Hay read the following address to the chief, who for many years until his appointment as chief had been foreman of No. 2 Company:

"Dear sir:—It is with feeling of pride that we gather on this occasion to tender congratulations on your appointment as supreme head of the department. We the members of your former company, who have served under you can testify to your worth as a fire fighter and a man to be looked up to and respected.
"We ask you to accept this small token of our respect and admiration, and trust that you have a long and happy term in office to still further direct us in the fulfillment of our duty."
Chief Vaughan expressed his gratitude appropriately.

**WESTERN MEMBERS
TO VISIT MARITIMES**

Fork to Head Party of 60 to Travel in The Three Provinces.

OTTAWA, May 11—Every western province will be represented in the party of members of Parliament organized by S. R. Gordon to visit the Maritime Provinces during the Victoria Day recess.

The party will be headed by Robert Forke, Progressive leader, and will total between 60 and 70, including members, wives of members, and newspaper men. Invitations are being received from points all over the Maritimes, but the itinerary at present decided upon calls for the party to leave Ottawa Wednesday, May 20, stopping at Bathurst, Moncton and Edmundston, New Brunswick; Colchester and Pictou counties in Nova Scotia, and thence to Prince Edward Island, leaving Charlottetown for Ottawa on Monday night, May 25.

DAMAGED IN COLLISION.

Automobile No. 754, driven by George Gray, collided with a Consumers Coal Co. train on Charlotte street yesterday afternoon at 5.15 o'clock. After the conveyances had been separated it was found that the coal train escaped damage, but the automobile was slightly damaged.

**VICTORIAN NURSES
TRYING NEW SYSTEM**

Reside in Own Quarters Instead of General Home—Discuss Plans to Aid Patients.

It is the hope of the Victorian Order of Nurses in Saint John to be able to supply necessary bedside utensils to patients who are unable to procure such sickroom comforts for themselves and are in urgent need of them.

To this end cupboards have been installed in the V. O. N. rooms in the Health Centre to be storage space for the utensils and an endeavor will be made to obtain as many gifts towards the desired emergency supplies as possible.

A gift of infant clothing has already been received from Centenary church friends and at the meeting of the Board of Directors of the V. O. N. yesterday afternoon this gift was gratefully acknowledged.

L. W. Simms, president, was in the chair and Mrs. Margaret Lawrence was present for the first time since her election to the board. A hearty welcome was extended to Mrs. Lawrence and reference was made to the splendid service which her mother, the late Mrs. F. V. Ellis, had given the order while on the directorate for many years.

NEW SYSTEM TRIED.

A new system is now being tried out in the V. O. N. work, each of the nurses residing in her own quarters instead of all being together in a V. O. N. home. There was some discussion with regard to the way in which the new plan is working out.

Reports of the month were very gratifying. Miss H. B. MacKay, new superintendent, was cordially greeted and her report showed that there had been a total of 1,638 visits including 421 infant welfare visits, and 1,048 for nursing care. The total number of patients visited in their homes was 237. At the 15 clinics held the attendance of babies was 140. From the Women's Council free milk fund the nurses had given out tickets for 1,339 quarts of milk which had been distributed among 71 babies.

AZOV'S CAPTAIN ON BRIDGE WHEN SHIP GROUNDS

MacLean Says He Alone Responsible for Navigation of Tanker

EVIDENCE BEFORE COURT OF INQUIRY

Dominion Commission Will Consider Testimony Further Before Finding.

Captain Donald A. MacLean, who was in command of the oil tanker Azov, owned by the Fundy Transport, Ltd., of Saint John, which went ashore off Cape Hogan, N. S., on April 30, during a fog, testified at the inquiry here yesterday in the Board of Trade rooms that he had been confident of the position of his ship when the accident occurred and had feared no danger until the breakers were under the port bow and it was too late to save the vessel.

He insisted several times in his evidence that he alone was responsible for the navigation of the vessel at the time, declaring that he had stayed on the bridge from 4 o'clock in the morning of the day the accident occurred until the boat struck about 10.30 in the evening because of the thick weather and the need for care.

MISTAKEN AS TO POSITION

The first intimation that he was closer to shore than he thought came, he said, when the mate, Mr. Poole, who was on the boat deck, shouted to him that he saw ice dead ahead. He immediately ordered the engines full astern in an effort to lessen the shock.

Then he saw that the supposed ice was in reality the breakers off the shore but was too late to change his course to avoid striking. He had believed himself about five miles off shore when the shock came, he said.

OTHERS TESTIFY

Captain L. A. Demers, of Ottawa, Dominion wreck commissioner, was chairman of the investigating tribunal which included also Captain A. J. M'Clachy, port warden, and Lloyd's agent here, and Captain Brown. Evidence was given by Captain MacLean, First Officer Poole, Chief Engineer Urdler and the wheelman at the time of the wreck, Clark.

Captain MacLean testified that he had been in sole charge of the navigation of the vessel at the time of striking. He had two men on lookout on the bridge, the boatswain and another man, and the mate was on the boat deck where he believed he might see quicker than from the bridge.

THOUGHT REEF PASSED

He had not taken soundings, he said, because he had felt confident that the vessel was well off the shore and, as he had passed the reef off Cranberry Head, they would not aid in telling him his position.

He had heard the horn on Cranberry Head for about five minutes and had judged from its bearing that he had passed the reef.

He described the weather as foggy,

but said that he believed at the time he could see about three miles. He said that he must have been astray in this calculation because he did not see Cape Hogan which was a high point, when the vessel struck.

After passing the reef he kept on for what he thought was long enough to give the shore a wide berth before changing his course to the westward with the intention of running up near Green Island and anchoring until the weather cleared.

POSSIBLE EXPLANATION

It had been his intention to take soundings while working up to an anchorage, he said, but the ship struck before he thought he was anywhere near his objective. He declared that he did not know the reason for his miscalculation, but thought it must have been the result of an exceptional tide and current at the spot.

He had left the bridge for a few minutes to mark the change of course on the chart and was accompanied to the chart room by the vessel's doctor, who had been on the bridge with him. When he left the chart room the mate cried out that he saw ice ahead and he ordered the boatswain to signal for full speed astern.

TOO LATE TO SHIFT

He had not shifted the helm, he said,

because he believed that what the mate saw was ice and he preferred to hit it full on rather than on the quarter. When he reached the bridge he saw that it had been breakers that the mate saw, but they were right under the bows and it was too late to shift the vessel's course to avoid them. They had been running between six and seven knots an hour prior to the accident.

Similar evidence was given by the other witnesses.

Captain Demers, who left last night for Ottawa, said that the result of the inquiry would not be known for a time until the evidence had been thoroughly sifted by the commissioners.

TODAY HOSPITAL DAY

This is Hospital Day and will be specially observed in the majority of hospitals in Canada and the United States, but no special arrangements have been made for carrying out the observance at either the Saint John Infirmary or the General Public Hospital, which in other years have thrown their buildings open and invited a general inspection on Hospital Day. The day will be observed in Moncton and in some other New Brunswick towns.

E. J. BELYEA NEAR TO DEATH IN ACCIDENT

Son of A. W. Belyea of West Saint John Sees Companion Killed in Washington.

E. J. Belyea, formerly of Gagetown, son of Abner M. Belyea, West Saint John, and now local manager of the Standard Oil Company in Crane, Wash., had a narrow escape from death recently in an accident in which Harold Elliott, the man with whom he was working, was almost instantly killed.

The local paper at Crane gives the following account of the fatality: This community was startled Tuesday afternoon when it was known that Harold Elliott was almost instantly killed while working on the base of a concrete upright pier that supports large oil tanks at the Standard Oil plant in East Crane.

A few weeks ago, a large oil tank was removed from its concrete piers, and Monday, E. J. Belyea, with Harold Elliott and Elba Turner, commenced to tear down the structures. A ditch or excavation was dug along the inside of the west pier's base, with the intention of felling the pier.

Pier Falls.

Elba Turner was not working on the job Tuesday afternoon; but Belyea and Turner continued to excavate, and about 3 o'clock the accident happened. The ditch was dug to a depth of three feet, and when Belyea and Elliott were in the ditch a sudden gust of wind is supposed to have started the heavy pier to fall. Belyea saw that the pier was falling and at the same time that he dropped to the bottom of the ditch, he shouted to Elliott to drop. Elliott, however, did not escape. The huge pier, weighing several tons, fell inward, crushing the unfortunate victim against the side of the ditch.

Belyea got out of the ditch and attempted to release Elliott from his pinned position without success. Mr. Belyea is a son of Abner M.

Belyea, West Saint John, and a brother of William C. Belyea, manager of Hotel Belyea, Gagetown. He served with the 26th Battalion in France.

After 12 years' suffering with constipation Kellogg's ALL-BRAN brought lasting relief

This woman feels ten years younger. No more headaches or medicine.

Think what it means to be everlastingly free from the dull, throbbing headaches, sallow skin and perpetual tiredness which are constipation's toll. But let Mrs. Bevis tell you her inspiring story:

Words can't express my gratitude for Kellogg's all-bran. For 12 years I suffered with constipation, always taking medicine, had dull headaches and never felt well. For the past 12 months I've eaten all-bran and haven't taken one drop of medicine. I've gained in weight, my health is so improved I feel 10 years younger. (Signed) Mrs. F. S. Bevis. (Address on request).

Kellogg's ALL-BRAN will bring sure relief to you just as it has to Mrs. Bevis and thousands of others. It is a bulk food that doctors recommend. It is guaranteed to be permanently effective, if eaten regularly, or the purchase price will be returned by your grocer. Only ALL-BRAN brings sure relief.

Eat at least two tablespoonfuls daily—in chronic cases, with every meal. Try the recipes given on the package. Kellogg's ALL-BRAN is nature's own way of cleaning the intestine. Made in London, Canada. Served at leading hotels and restaurants. Sold by all grocers.

4 out of 5 Dental statistics prove that four out of every five over 40—as well as thousands younger—say Pyorrhea's toll. Do you want to elude this dread disease?

Just as a ship needs the closest attention under the water-line so do your teeth under the gum-line.

The gums are the keys to health. You must keep them firm, strong and healthy if you would elude Pyorrhea and its attendant ills—loosened teeth, neuritis, indigestion, anaemia and similar diseases.

Forhan's For the Gums counteracts the effects of harmful bacteria; hardens soft, tender gums, keeps them sound, firm and pink. Furthermore, it cleans and whitens the teeth and keeps the mouth fresh, clean and wholesome.

If you don't care to discontinue your favorite dentifrice, at least brush your gums and teeth once a day with Forhan's.

It is a preparation of proved efficacy in the treatment of Pyorrhea. It is the one that many thousands have found beneficial for years. For your own sake, make sure that you get it. Ask for, and insist upon, Forhan's For the Gums. At all druggists, 35c and 60c in tubes.

Formula of R. J. Forhan, D. D. S. Forhan's, Limited, Montreal.

Outdoors or Indoors— or Both

Transmitting Power or Carrying Materials

It doesn't matter what the operating conditions are, there is a Goodyear belt specifically designed to meet the need. There are Goodyear belts for farm use, where the work is all outdoors. There are Goodyear belts for brick plants, partly outdoors, partly indoors. There are Goodyear belts for laundries, operating in steamy rooms. There are Goodyear belts for flour mills, continually in a dusty atmosphere. There are Goodyear belts for conveying all kinds of materials from pulp-mill chips to crushed rock, ore and coal. No matter what the operating conditions, you will find that Goodyear engineers have studied them and designed a belt specially for them. One thing these belts all have in common—Goodyear quality. They all transmit the maximum of power or carry the light or heavy material over the longest period. They all go on serving long after you would have expected them to quit. No matter what you need, there is a Goodyear belt to fill it. Get in touch with the Goodyear dealer or the nearest Goodyear branch.

Stiff Resistance to Campaign for Higher Stock Levels Develops
OPENING IS DULL IN MONTREAL MARKET
Strength in Lyall and Howard Smith Preferred Are Only Features.

NEW YORK, May 12.—Pool managers encountered stiffer resistance in their campaign for higher prices at the opening of today's market. Buying demonstrations continued unabated, however, in the motor, tire and accessory stocks, including gains of a point or more being recorded by Willys Overland, common and preferred, Mack Trucks, United States Rubber and Stromberg Carborator.

Dull in Montreal.
MONTREAL, May 12.—Strength in Lyall and Howard Smith preferred, the former the least inactive issue, featured the very dull opening of today's stock market. Lyall, after opening up 1 1/2, quickly advanced to 23. Howard Smith preferred led higher at 97, a new high for the current upward movement. Other changes were a drop of 1/2 to 132 in Shawinigan, a similar fraction advance to 82 in Ontario Steel Products, and a decline of 1/4 to 32 1/2 in Cuban Sugar preferred. A small lot of National Brick appeared stronger at 73 1/2, up the fraction. Other leaders were neglected.

Fought Cancer For Two Years
LONDON, May 12.—Having pitted his will-power against cancer for two years, so well that at times friends hoped that he was conquering the disease, James L. Norton, well known in motor-cycle circles since the pioneer days, has just died at his residence at Birmingham.

MURDER GIVES MOUNTAIN LAD CHANCE TO MAKE GOOD IN LIFE

Will Leave Primitive Home to Enjoy Luxuries of Real Education.

KNOXVILLE, Tenn., May 12.—A mountain feud of quarrels and violence has been the means of giving to an 11-year-old orphan a chance to make good in life.

ROY SHIELDS.

Instead of being sent to prison for murder, Roy Shields, a true child of the hills, will leave his mountain cabin to live in a beautiful home to enjoy all the advantages of luxurious surroundings.

A tragic incident resulted in giving Roy his opportunity in life. All his life he had played around the mountain hills, knowing little of the outside world. His was to be a life of a mountaineer, a king in mind of all he surveyed, nothing more.

Then he and his father, now deceased, shot and killed an aged woman, a sequel to a quarrel over a boundary line, typical feud of the mountain country.

It was the father's fault, said the neighbors. Roy was a good boy, but he had had learning, they said. His father died before being brought to trial and Roy faced charges of murder alone. Then his attorney pleaded guilty to a charge of manslaughter and Roy was sentenced to remain in the state agricultural training school at Nashville until 21 years of age.

But Judge T. A. Nelson believed the neighbors who insisted Roy was a good boy and should have a chance. He paroled the lad to R. E. Boring, prominent real estate man of this place.

So Roy will leave the 'swimmin' hole and mountain paths he knows so well to live in a beautiful home on fashionable Kingston Pike. He will be sent to school and will enjoy all the advantages of Boring's own children.

For back there in the mountains Roy had but few shoes and would have worn but few had not a quarrel occurred to give him a chance to make good.

OTTAWA, May 11.—Seventeen of the Canadian National Railways receive salaries or remuneration amounting to \$15,000,000 a year or over, it was stated in the House of Commons today in answer to a question from Sir Henry Drayton.

In giving the information, Hon. George F. Gurnham, Minister of Railways, remarked that he did not think it quite fair to ask the Canadian National to give out information which no other railroad would ever vouchsafe. He did not think there was anything in the matter which he hoped it would not be taken as opening the doors to all sorts of questions about N. R. employees and their salaries.

New Halifax Grain Elevator Causes Prolonged Discussion in Commons.

OTTAWA, May 11.—Criticism by Progressive members on the construction of the new elevator at Halifax in the House of Commons this evening, brought strenuous support of the project from R. E. Finn, Liberal, Halifax.

While he was not a believer in secession, and while he deprecated talk of secession, Mr. Finn declared that the time had come when the Maritime Provinces must be given the rights which were guaranteed under the Confederation pact.

MR. FINN'S SPEECH.
The West, said Mr. Finn, was "gratified with railways to the construction of which the Maritime Provinces had contributed their fair share. Only one railway connected the Maritime Provinces with the rest of Canada."

URGES GRAIN RATE PARTY.
Mr. Finn declared that people in the Maritime Provinces did not intend to allow Western grain to be shipped constantly through American ports during the winter months.

GERMAN TRADE IN BRAZIL INCREASES

Figures For 1923 and 1924 Show Heavy Advance Over Previous Year.

By U. GRANT KEENER
United Press Staff Correspondent
RIO DE JANEIRO, Brazil, May 12.—Leading German business men here express satisfaction with the present situation of their business. They voice the belief that existing occurrence of unforeseen circumstances, interchange of merchandise between Germany and Brazil should show striking development during the next few years.

Statistics for the whole of 1924 are not yet available, but official figures for 1923 and the first half of 1924 show heavy increases over 1922 in both importation from the exportation to Germany.

German traders point with pride to shipping figures compiled by the Brazilian Government showing increases for 1923 over 1922 and for the first six months of 1924 over the corresponding period of 1923.

The total value of imports from Germany during the first half of 1924 was \$210,016 pounds sterling, as compared with \$202,000 pounds for the corresponding period of 1923, and 1,520,000 pounds sterling for the first six months of 1922.

Exports to Brazil during the first six months of 1924 were valued at \$1,520,000 pounds sterling, as compared with \$1,420,000 pounds for the corresponding period of 1923, and 10,000,000 pounds for the first six months of 1922.

OCEAN TRAVEL ON HOTEL PLAN IS PREDICTION

E. A. Filene of Boston Advocates Abolishing 3-Class Ships
ROUND TRIPS TO EUROPE AT \$125
Would Introduce Cafeteria System and Cut Down Expenditures

NEW YORK, May 11.—Class limitations on trans-Atlantic liners are rapidly giving way to the new "democracy at sea" and existing types of three-class ships will gradually be replaced by others on the hotel or one-class plan, Edward A. Filene, president of William Filene's Son's Company of Boston, said at the annual banquet of the American Marine Association at the Waldorf.

Mr. Filene said that the shipping board, which has plans to suggest to Congress for the construction of two fast motor liners for first, second and third class passengers, should change its recommendations for ships of the new type. This would not only be good for business in preparing for the new era in overseas travel, but would be in line with American desires and ideals, he said.

Immigration restrictions have put an end to the need for class restrictions and have made the third-class quarters obsolete, Mr. Filene continued. He predicted vessels of a type to meet the needs of every kind of passenger, with some offering round trips to Europe at \$125 and complete voyages with a week ashore for \$175. He made the following suggestions to steamship lines:

1. A number of available ships—those of the older types which are barely kept in operation on the basis of two or three classes—should be changed to one class on the hotel plan. The passenger would pay according to the desirability of his quarters, but should have the entire use of the ship.

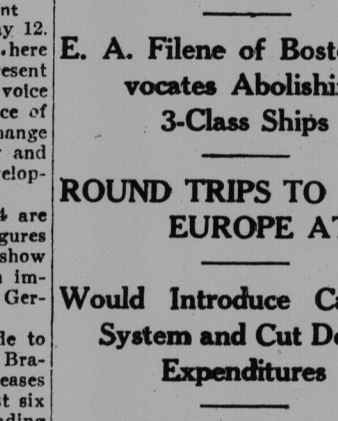

2. Other available ships should be changed to one-class "tourist" ships with one uniform fare, say \$125 for the round trip, with four, five or six in each room, according to its size.

SHIP CAFETERIA.
"By the introduction of the cafeteria system each voyager would buy and pay for what he wants and eat upon himself, a great saving of food waste would be avoided, and the operating costs of the ship reduced by the fact that the number of dining room stewards would be reduced by 50 per cent."

MANY ATTEND CARD PARTY.
The card party held in St. Patrick's hall last night under the auspices of the Women's Society of the Church of the Assumption was highly successful. Cards were played at 48 tables and the prize winners were as follows: Ladies, Mrs. Marion Farren, second, Mrs. Thomas Graham; consolation, Mrs. J. Joyce; men's, first, E. McNulty; second, Edward Flannigan, and consolation, Leonard Lynch. Mrs. Thomas Morrisey, president of the society, was the general convenor. Refreshments were served by an efficient committee of ladies, assisted by the Assumption troop of Boy Scouts under the direction of Scoutmaster Harry Peters.

NERVOUS WRECK FROM BOWEL TROUBLE

Ten Years of Suffering Ended by "Fruit-a-tives"

"For over ten years, I was a complete nervous wreck, owing to severe Bowel Trouble and Acute Indigestion. Though a big man, I could hardly lift the smallest weight without suffering pain. As a last resort, I started using 'Fruit-a-tives.' Like a cloud, the nervousness left me after using the first box. I use the tablets according to directions and follow carefully your diet rules. The result is, today I am free of Indigestion and Bowel Troubles, and cannot recommend the wonderful Fruit Treatment too highly."

"Thus writes Mr. Sullivan of 59 Pine Street, Geneva, N. Y. 'Fruit-a-tives' are made from naturalized juices of laxative fruits—there is no other medicine like them. 25c and 50c. at all dealers."

ECONOMIC HANDICAPS.
The solution of the American foreign commerce problem depends to a great extent upon the ability of the merchant marine to meet foreign competition by overcoming obstacles, Mr. Drake said. He remarked that in addition to economic handicaps due to higher wages and other costs, there are disadvantages within the government which should be eliminated. He referred to the activities of the Department of Commerce in promoting standardization in operation, construction and repairs. This was proceeding satisfactorily with the cooperation of the industry, he said. In his opinion the elimination of waste would be of the utmost importance to the future of shipping.

Commenting upon the numerous functions performed by the government in relation to shipping, Mr. Drake said that many difficulties encountered by steamship men were due to the fact that these duties were not concentrated in one department, but distributed among a large number. He said that the work of seventeen branches should be consolidated into one.

WALTER JOHNSON'S MASTERFUL PITCHING BLANKS WHITE SOX

VETERAN SHOWS OLD TIME SKILL ON THE MOUND

World's Champions Are Still Trailing The Mackmen

NEW YORK, May 12.—Walter Johnson, 38 years old here in the rise of the Washington Americans to the world's championship, shows no sign of slipping in his 19th year as a major league pitcher.

Johnson yesterday pitched his 108th shutout, the White Sox falling victims to pitching skill which limited them to five scattered hits. Only two Chicago players were able to reach second base as he club went down to a nine to nothing defeat.

Johnson yesterday pitched his 108th shutout, the White Sox falling victims to pitching skill which limited them to five scattered hits. Only two Chicago players were able to reach second base as he club went down to a nine to nothing defeat.

Washington still trails the Mackmen, who maintained a comfortable lead on the champions by noting out a 2 to 1 verdict over the Indians.

The New York Yankees started off with promise of their wind-up of the four game series with St. Louis by counting three runs in the opening inning, but the advantage was soon wiped out as the Browns rained hits all over the park, rapping six New York pitchers for 17 hits to win by 10 to 10.

Two Home Runs. Contributions to the stick work of the Yankees were two homers by Meusel and one each by Pipp, Schang and Paschal, the last named hitting in the outfield for Babe Ruth. While the Browns were winning, George Siler hit safely in his 26th straight game.

The Boston Red Sox leap-frogged the Detroit Tigers back into the cellar by scoring a 7 to 4 victory in Detroit. Boston moves on to Cleveland today to open a four game series with the Indians.

THE NEW SERIES of "Baseball Simplified," which The Times-Star has secured from Billy Evans, the famous American League umpire, is an exceptionally good one and every fan in the city, young and old, should read carefully every insertion and then file them away for future reference.

There are a good many turf enthusiasts in this city who are closely following the big classics being run in England. On Wednesday the Newmarket Stakes will be held and already there is considerable interest being manifested in the outcome.

TY. COBB, the veteran of 21 seasons in the American League is certainly making some of the present day stars—so called—look like novices. His terrific hitting last week sent him to the fore with a percentage of .400.

BOTH MIKE McTIGUE and Paul Berlenbach are training for their bout on May 29, which is to be the feature event of the Milk Fund's annual outdoor carnival.

SILAS E. RICE ARRANGES FOR OPENING CARD

Has String of Horses in Training at Track

Silas E. Rice, who has secured a lease of Moosepath Park for the season, announced today that he will conduct matinee races there on May 24. His programme will include a free-for-all, a named race and one for green trotters and pacers.

In addition to local horsemen two entries have already been received, Lucky Strike from Wickham, and Jeffrey from Gagetown.

Horses in Training. At the present time Mr. Rice has his string of racers in training at the track. It includes David Hal 2.12 1/2, Dr. Gano 2.06 1/2, Abbie Brino 2.06 1/2, and Guy Spear, a green trotter by Guy Axworthy. All four are rounding into shape and are expected to be in good condition for the opening of the season.

No Big Cards. No big cards will be held at Moosepath this year, Mr. Rice said. He explained that several matinee cards would be arranged, but he could not see his way clear to take a chance on staging any of the New Brunswick & Maine circuit events which would involve big financial risks.

Potash and Perlmutter in Hollywood Entertain Well on North End Screen.

Laughs, thrills, an occasional sob, and more laughs are the ingredients that make "In Hollywood with Potash and Perlmutter," now playing at the Palace Theatre, one of the most entertaining and pleasing First National pictures of the year.

BLACKMAILING OF ACTRESS ADMITTED

Ex-convicts Sentenced For Demanding \$10,000 on Pain of Death.

NEW YORK, May 12.—Confessing that they wrote Mrs. Frances M. Nelson, a motion picture actress, a letter threatening her life if she did not send them \$10,000, two ex-convicts were each sentenced to the penitentiary by Judge Francis X. Mancuso for not less than six months or more than three years.

NEW CAR TO HAVE 180 M. P. H. SPEED

Will Have 450 H. P. Cylinder Capacity—Takes 3 Miles to Start.

LONDON, May 12.—(United Press.)—The speed demon is forever making progress. Its latest achievement concerns the automobile world.

This mammoth of the speedway is being assembled for Malcolm Campbell, the well-known racing motorist, who last year lowered the world's record with a speed of 146 miles an hour.

On the test bench the engine has developed close to 600-h.p., but the designers estimate that it could be tuned up to give 700-h.p. Theoretically this would give a speed of over 200 miles an hour.

A large area is required for demonstration purposes. The car will require three miles to get going, a mile for timing purposes, and three miles in which to slow down. It is to be called the "Lion-hearted."

FORD CO. IS SUED FOR \$12,000,000

Corporation and Agents Declared Illegal in Violation of Mississippi Law.

JACKSON, Miss., May 12.—The Ford Motor Company and its agents throughout Mississippi are at legal combat in violation of the Mississippi anti-trust statute and should pay \$12,000,000 in penalties to the state.

The suit seeks attachment of all funds of the Ford Motor Company deposited in all the banks of the state and the banks are made co-defendants, so as to effect a complete tie-up of Ford funds.

The bill of complaint is based on contracts between Ford and its local dealers and alleges that the contracts violate the anti-trust laws of the state, that they are in restraint of trade, inimical to the public welfare of the state and constitute an illegal and criminal conspiracy.

Price fixing. The bill charges also that the Ford Motor Company and its distributor for this district, the Bluff City Motor Company of Natchez, require an agreement with local dealers fixing the retail price of Ford cars and that the dealers are required to sell to the public at the exact price fixed in the agreement.

The suit is the largest filed in the state since Miller's predecessor sued the insurance companies for \$80,000,000 penalties for alleged violation of the state anti-trust laws.

A plea was made by the meeting for sending chaplains especially to out-of-the-way posts. "In isolated posts and on foreign stations, where no churches are accessible, these men should not be left without religious privileges."

The increase in chaplains should be in step with the increased army personnel, they insisted.

"It should be our duty to be trained and organized for possible service, and unless the nation is willing to face the possibility of large bodies of American youth called to military service with adequate or thorough preparation to safeguard their moral and spiritual interests."

Expert Says Marriage Is Road To Beauty

United Press. CLEVELAND, Ohio, May 12.—Over-sleep and "single blessedness" have made more women ugly than overwork and sleeplessness, according to Dr. Joseph P. Bibeau.

A happy marriage and no more than seven hours sleep a night comprise the natural solution for every woman's quest for beauty, says this specialist.

"Undoubtedly a happy marriage makes a woman more beautiful. Marriage is the natural destiny of a woman."

"Beauty is due in a large measure to health. The enemies of health are over-eating and over-sleeping. Both make women sluggish and fat."

IS RE-ELECTED. HALIFAX, N. S., May 12.—Norman G. Ralston, Halifax, was re-elected president of the Amateur Baseball Association at the annual meeting here last night.

ATHLETE THRILLS ON GAITY SCREEN

Fred Thomson in The Dangerous Coward—Spirited Bout With Al Kaufman.

Fred Thomson, starring in "The Dangerous Coward," thrilled the large crowd at the Gaiety Theatre last night, in a half-raising four-round fight with Al Kaufman, former heavyweight pugilist.

The story starts with a real Wild West rodeo and plenty of action. Thomson brings his athletic ability into play by competing against the pick of the cowboys, showing great versatility as a horseman and roper.

MORE CHAPLAINS NEEDED IN ARMY

Plea Made For Facilities For Religious Services at U. S. Stations.

WASHINGTON, May 12.—More chaplains are needed for the United States army to maintain moral and religious standards among the troops, according to the Council of Chaplains.

Civil clergymen and M. C. clergymen are useful but they cannot take the place of the army chaplain, the council maintains.

"The clergyman or religious worker outside the military organization, who is not under whom danger threatens or hardships become too severe, however his talents or convictions, labor under heavy handicap as compared with the chaplain who belongs to the outfit and in whom every man has a sense of ownership and pride," chaplains at a meeting here said.

William Boyd, Cyril Chadwick and Alway Wang are in the cast. This picture will be shown for the last time tonight.

How "Off-Color" Teeth Now are quickly restored to dazzling whiteness

A NEW method urged widely by leading authorities. Make this remarkable dental test. See what gleaming cleanliness is beneath the dingy film that clouds your teeth

DENTAL science now proves that dull, off-color teeth are a folly; that gleaming whiteness can be obtained with but little effort. New methods of tooth and gum beauty and protection have been found.

In a short time you can work a transformation on your teeth, can literally change your whole appearance.

Now a test is offered you the most remarkable of all dental tests. Simply use the coupon.

It's only a dingy film. The reason your teeth look off color is that they are coated with a film and the method you now use fails to successfully remove that film.

You can't see that film with your eyes. But run your tongue across your teeth and you will feel it—a viscous, slippery coating that absorbs discolorations, and clouds your teeth.

Remove it and you'll be amazed at what you find. You probably have beautiful teeth without realizing it.

Film, too, is charged with most tooth troubles. It clings to teeth, gets into crevices and stays. Germs by the millions breed in it. And they, with tartar, are a chief cause of pyorrhea and gum troubles.

Now new methods have been embodied in a dentifrice called Pepsodent, different in formula, action and effect from any other method.

Its action is to curdle film and harmlessly to remove it, then to firm the gums—no harsh grit dangerous to enamel.

Most of the sparkling, white teeth you see are due to it. Largely on dental advice, it has changed the teeth cleaning habits of the world.

Results are quick. Make the test. Then note results. Mark the gleaming whiteness it brings; the beautiful polish and luster of your teeth. Clip the coupon before you forget.

Comedy at Opera House Is Best Carrols Have Given

The biggest surefire comedy that has been presented in the city this year by the Carroll Players earned the unqualified approval of one thousand and more present last night in the Opera House when the concluding bill of the third season here for the company was presented.

"The Flirting Flapper" is the title of the play and it is the most enjoyable farce in many moons, with Howard Blair, New York, specially engaged as a female impersonator.

Mr. Blair was ably assisted by other members of the cast, particularly Frank Harrington, who in addition to his usual highly satisfactory performance, was heard to pleasing advantage in a solo.

"SEA HAWK" DRAWS MANY TO UNIQUE

Milton Sills Leads Cast in Splendid Sea Story of Corsair Days.

"The Sea Hawk" sailed upon the screen of the Unique Theatre last night, trained his big guns on the audience and fired a broadside which is echoing today in every corner of the city.

"The Sea Hawk" is Frank Lloyd's picture version of Sabatini's colorful epic. It is a great story, with an exceptional cast and possesses every element of really great entertainment.

Never have there been ships of such size nor many of them actually engaged in combat on the screen; in fact never have there been such ships seen on the screen, never so many big incidents, so many important, surprising incidents in one picture and so many famous people so active in these incidents.

DO YOU KNOW Where Mary Buys Her Hats?

Mary always has the most adorable Hats! All the girls think so. Some of her hats are large and some are small, but each one has that roguish "I-don't-care" attitude, that youthful verve and beguiling originality which distinguishes Hats that are "personalities" from Hats that are just Hats! Every girl in her crowd longs for a Hat that's as smart as Mary's. And—whisper—she buys them at the Marr Millinery Co. Limited.

Mary knows just how to tilt her hat at the sauciest angle. But then, so do the other girls—it's really a matter of Hats. Let a girl be "hatted" at the Marr Millinery Co. Limited and she can be just as smart as Mary.

3 COTTAGES AT SAND POINT ON RIVER BURNED

Geo. N. Hatfield and W. L. Stewart of City Among Owners

THIRD PROPERTY OF FREDERICTON MAN

Some Talk of Incendiarism—Other Places Feel Touch of Vandals

Summer cottages at Sand Point on the main Saint John river, owned by City Engineer Geo. N. Hatfield, Wm. L. Stewart of the sales staff of the E. K. Partridge Co., Ltd., and William McMullin of Fredericton, were destroyed by fire early this morning. There is no certainty yet as to the cause of the blaze, but incendiarism is talked of. There was \$500 insurance on the Hatfield property, but none on the Stewart place. It is not known whether the McMullin cottage was covered or not.

Word of the fire was sent to the city this morning by J. Buckley, a river resident, who rowed across to the Westfield side of the river to get the message through. He reports that Ingelids residents saw the blaze at 3 a.m.

VANDALISM

In addition to the burning of the three summer homes several of the other cottages at Sand Point have suffered at the hands of vandals. All the glass has been broken and other damage done. This is the first season the property in this secluded locality has been tampered with.

Sand Point is marked by a light-house standing on an iron frame and is one of the popular summer resorts on the eastern shore of the river. There is no main roadway leading to the point is a devious passage through a long series of hills, constituting a ravine.

25 YEARS OLD.

The W. L. Stewart place was the pioneer cottage on that shore. It was erected by the Lewis family of Saint John when the William Lewis & Sons ironworks staff were building the light-house on the point over a quarter century ago. From that beginning a community of friends, relatives and neighbors built the group of bungalows and other buildings that has made the place so happy as a retreat in summer time. There is a little hall at the place in which church services are held and it is furnished with a piano.

W. L. Stewart is out of the city at the present time and does not know of his loss. Engineer Hatfield, however, will investigate as soon as possible. Mr. McMullin has been advised by telephone. It is not known yet what plans these people have about rebuilding.

Word received late this afternoon states that the house owned by the father of Engineer Geo. N. Hatfield had also taken fire but had not been wholly consumed. It was reported the McMullin cottage was saved from complete destruction as well.

A man named Stevens living on the Sand Point side of the river also rowed across to Westfield and telephoned the city. He said he would hasten back and try to save some of the property. It is therefore assumed he succeeded to the extent mentioned.

Engineer Hatfield and his brother Herman are both up this afternoon inspecting their losses.

The McMullin property was occupied last summer by Dr. G. G. Corbett's family.

Paving Work At Beatty Location

The south side of King Square has been closed for a brief period whilst repairs are being made to the Macadam surface and to the sidewalk in front of the Admiral Beatty Hotel, particularly the former. Men have been cutting up the old asphalt sidewalk, and city trucks have been taking it away. They are making a new job of it. The hotel walk will be cement flagstones, similar to the paving in front of Imperial Theatre. It is being laid under the civic improvement plan of repayment.

As Hiram Sees It

"I see you're going here two big fellers from Ontario down here tomorrow to tell what they think about what folks in the Maritime Provinces—'an' about there bet'n' no east or west in Canada."

"We are," said the reporter.

"Well," said Hiram, "if they ferret about if you might remind 'em that I hadn't seen 'em for 'Noo Brunswick' 'an' Nova Scotia in 1867 they'd be livin' now in the Yankee State of Ontario with the Stars 'n' Stripes over 'em. I been readin' up again what George Parkin 'n' Jim Hannay wrote about them times—'an' it was a close shave for the old flag. I sint sorry about the way it come out—but unless Ontario 'n' Quebec wakes up 'an' 'an' what folks is thinkin'—they'll be some fellers to be mendin' afore we're much older—yes, sir. We got to git together—yes, sir."

CONTINUES MUSIC STUDIES IN PARIS

Mrs. T. J. Gunn is to Leave For French Capital Next Month.

Saint John people will be interested in the fact that Mrs. Thomas J. Gunn, outstanding as a violinist and noted as an organist, is going to Paris in June to perfect herself in the two branches of music. Mrs. Gunn will sail on June 8 and will take the summer course at the National Conservatoire, Paris. She plans to take violin with Henry and organ with Widor, names familiar to musicians and music lovers.

STARTED EARLY

Mrs. Gunn started her musical career at six years of age, when she took her first violin lessons. At seven she played in a church concert in Lunenburg, N. S. where she was born. Her name was Meda Claudine deLong. She was sent to Mount Allison, Sackville, at the age of 14 and took the full musical course there in violin and piano, with later some lessons in pipe organ. Her teacher was Dr. Raymond Archibald, who is renowned as a musician and mathematician, in the United States and Canada. He was born in New Brunswick, his mother the late Mrs. Mary Archibald being from Prince Edward Island, and for years lady principal of Mount Allison Ladies' College.

When still very young, Mrs. Gunn went to Boston, where she studied with Felix Wintermets at the Milton school of music and then to New York, where Franz Kiesel was her teacher. Mr. Gunn and their son will remain in Saint John, while Mrs. Gunn is abroad for her advanced training.

REDS ARE WINNERS IN CHURCH CONTEST

Have One Point Over Blues—Carleton Methodist Y. P. A. Elects.

At the annual meeting of the Carleton Methodist Young People's Society, it was announced that the Reds had won by one point over the Blues in a contest held during the winter in Bible study. Rev. F. T. Bertram gave them a course in teaching the young people at school work and the winning side was to be feted by the losers. The Blues will give a picnic at MacLaren's Beach on June 3 and thus cheerfully pay the penalty.

Clarence Beattie, president of the society in 1924, presided at the meeting. A good report came from each department. There were 23 meetings during the season and an attendance of nearly every member. The treasurer reported \$65 as a balance on hand.

Rev. Mr. Bertram was thanked for the interesting Bible study course; Mrs. Charles Waters for her good work in training the young people for their successful play, "Martha Made Over"; and Mrs. Bertram for her assistance in making the costumes for the play.

Officers.

The election resulted as follows: President, Clarence Beattie; recording secretary, Miss Helia Tupetta; corresponding secretary, Miss Evelyn Allingham; treasurer, Miss Eva Adams; vice-presidents, who are the head of various departments: Literary, Miss Marguerite Barrett; missionary, Miss Helen Henderson; social and entertainment, Miss Richmond Smith; organists, Misses Helen Henderson and Marguerite Barrett.

2 Trousers SUITS

Your appearance is a real business and social asset. With two trouser suits you always have an extra pair of trousers nicely pressed and ready to put on a minute's notice so that your appearance does not fail in an emergency.

Incidentally a two trouser suit has almost twice the life of a one trouser suit and costs so little more that it's a true economical investment.

EPWORTH LEAGUE OFFICERS CHOSEN

Fairville Methodist Society Elects H. C. L. Sweet as President.

Rev. James M. Rice, pastor of the Fairville Methodist church, was extended a cordial vote of thanks by the Epworth League last evening at their annual meeting, for his help in their work during his pastorate among them. Regret was also expressed on account of his departure this summer to another parish. H. C. L. Sweet, president, was in the chair, and spoke on behalf of the League. Rev. Mr. Rice made a short address and thanked the young people in turn for their helpfulness to him in carrying on the work of the church. A short devotional service was held.

Officers Chosen.

The election resulted as follows: President, H. C. L. Sweet; recording secretary, Miss Muriel Kirkpatrick; treasurer, Miss Lottie Kelly; organist, Miss Audrey McColgan; convener of flower committee, Miss Gladys Scott; vice-presidents and heads of departments: Christian Endeavor, Miss Audrey McColgan; missionary, Miss Selena Ryan; social, Miss Annie Shaw; citizenship, Miss Edna Shaw. The membership has increased during the winter and the funds are in a flourishing condition, the reports showed.

J. MCKEE PROMOTED

Succeeds Late Owen Cameron as Freight Claims Agent of C. N. R.

James McKee, of Moncton, has been appointed regional freight claims agent of the Canadian National Railway in succession to the late Owen Cameron. Since 1908 he has been traveling freight claims agent under Mr. Cameron.

Mr. McKee entered the service in the freight office in Campbellton in 1899. Three years later he was transferred to Moncton in the freight claims department. He was there for four years and then promoted to be traveling agent.

A. A. Wright, new manager of C. N. R. A. broadcasting station, Moncton, will probably be heard from the Moncton microphone for the first time on Tuesday, May 12.
