MR. FOSTER AGAIN UNDER SHEPLEY'S INQUISITION

More Peculiar Details of the Western Lands Transaction Revealed.

8,640 Acres of Worthless Lands Sold to Trust Company at Same Price as Best Land—Foster Sees No Conflict Between His Position as Director and Investor.

(Special to the Sun.)

TORONTO, Oct. 4.—At the insurance investigation today the examination of Hon. Geo. E. Foster was continued. He explained the subsequent sale to the Great West Land Company of 8,640 acres, in addition to the 200,000 acres which had already been purchased. The land company had field notes of the government survey as a basis upon which to value the land. The offer was made by Pope and Fowler to "us," said Foster, and if the intermediate transactions had been fully carried out, the transfers would have gone through Wilson, McGillivray and himself. The offer was taken over by the Great West Land Company at \$5 per acre. Pope and Fowler got an option for the lands from the C. P. R. The original option defined a large area out of which the land might be selected, but when the actual transfer to the Great West Land Company was made, the land actually taken was specifically described. Foster did not know that the 8,640 acres were comprised within a tract originally travelled over in the work of selection. Although the witness was managing director of the purchasing company, he took no steps to find out whether the lands had been rejected at the first examination.

In the purchase of these lands, he said, Foster, Wilson and McGillivray were acting exactly as they were acting in the previous transactions. They were purchasing from Pope and Fowler and handing it over to company at \$5 per acre advance in stock, absolutely on the same lines as before. Shepley read from the minutes of the Great West Land Co. of July 8, 1903, to show that when the purchase of 8,640 acres was recommended, no mention was made of the fact that the syndicate of Wilson, McGillivray and Foster were interested in the transactions personally.

Foster replied that the report represented the transaction as it was so far as it concerned the Great West Land Co. "Did you think it was necessary or desirable that report which recommended the purchase of these 8,640 acres of land should have stated that you were the intermediate purchaser, having personal interest in property?" asked Shepley.

"I am not sure about that." "Does not that view appeal to you?" "I think it would probably have been better to have mentioned it. I have also the impression that it was thoroughly understood by the members of the board."

Foster admitted that Wilson, McGillivray and himself were the executive board having control of the administration of the lands. "Did you observe the emphatic nature of the dual position, that the very gentlemen who were endowed with executive power in respect to the affairs of the Great West Land Co. were the very gentlemen who were interested in the transaction?"

"Yes, that was true; the dual position is plain and unmistakable." "Do you say that Sir John Boyd knew of it?"

"I can't say that. Schofield knew of it." "Do you say that Schofield knew of it?"

"I do not know that I told him, but I think he knew. I am not sure."

In reply to further questions Foster said that he did not know that this block of 8,640 acres was part of the 17,000 acres which Pope and Fowler had outside the original option.

The evidence of Pope was read by Shepley to show that the 17,000 acres

were cut out of the original selection because of reports received they were not good enough to be selected and that they were part of the land returned to the C. P. R. In the letter Pope said that Fowler had taken this block from Pope, Fowler and others. Foster asserted that he had no interest of Foster, McGillivray and Wilson.

"Could you have bought that land if you had known it had previously been discarded?" asked Shepley. "Certainly not. If anyone told me they were discarded lands it would have made me determine to see that it was not done."

Foster admitted that information regarding the interest of Matthew Wilson, Lieut. Col. McGillivray and himself in the transaction was disclosed by entries in the stock book of the Great West Land Company to the production of which Foster made strenuous objection.

The purchase price of 8,640 acres was \$42,200, of which \$3,200 was in stock and \$39,000 in cash, and Shepley pointed out that a profit of \$1,500 per acre would be \$12,900, which had the same privilege so far as seeing that they were getting lands which were reasonable in price, value and quality.

"You will not say that you do not recognize any conflict between your interest as syndicator and your duty as director?" he asked. "In this respect I think the Great West Land Company had exactly the same position as they would have had if they had bought 200,000 acres of land from the C. P. R. and had transferred 193,374 acres to the Great West Land Company, still retaining 6,678 acres."

"What are you doing to protect the interests of your shareholders in this transaction with Pope and Fowler?" asked Shepley. "We were looking after the interests of the company," was the reply.

"That is what you could have ascertained easily if you had made inquiry?" "I made no inquiry, no direct inquiry, in that direction at all," replied Foster.

"If it had been suggested that they were going to keep some of the lands they had selected?" suggested Shepley. "It would have been quite different. We would have seen that it did not occur," replied Foster, who became visibly annoyed when Mr. Shepley asked: "You are quite sure you have no interest in the land they are retaining?" He stated, with emphasis, that he had not at any time any interest in the lands selected by Pope and Fowler.

In reply to questions, Foster said that he had not heard of Pope and Fowler making any other payments to the C. P. R. than the first payment which the Great West Land Company had repaid them. The company had also assumed liability, and had made payments to

date to the C. P. R. upon the option which Pope and Fowler transferred to them, which was upon the basis of 200,000 acres of land. But the Great West Land Company had also been issued on a basis of the 200,000 acres having been purchased. Any adjustment with respect to a greater or less amount of land than 200,000 acres would be made in cash payments. It was only a few weeks ago that maps of the last townships showing lands selected upon which the acreage was calculated had been received. Adjustments had been made from time to time as quantities in each township had been determined and if there had been any over-payment made, it would be added over when the final balance was struck.

Foster also testified that as managing director of the Union Trust Company he had been authorized to accept the offer, which, as vice-president of the Eastern and Western Land Company, he had made to sell lands in the West at an advance of 50 cents per acre over the price paid for them. Foster could not see the there was conflict between the interests of vendor and purchaser, both of whom he represented.

Matthew Wilson Shepley continued the examination of Foster in reference to the assignment of the bonus stock held by Oronhyateka for the benefit of the C. P. R. and Union Trust Company. He asked the witness if the previous day regarding his conception of the condition under which Oronhyateka was given the stock originally, Foster said he desired to modify it. He believed that the stock should be used in some way to promote the interests of the Great West Land Company, or if it was not so used to go back to the original owner, Wilson, whom it went to Oronhyateka, with out consideration. Unless something was done to assist the company by means of the stock it would go back to the original owner.

The purchase price of 8,640 acres was \$42,200, of which \$3,200 was in stock and \$39,000 in cash, and Shepley pointed out that a profit of \$1,500 per acre would be \$12,900, which had the same privilege so far as seeing that they were getting lands which were reasonable in price, value and quality.

NINETEEN DEAD THE GOVERNMENT WILL ASSIST IN THE DREDGING

Lives of Thirty or Forty More Despaired Of

Carload of Coffins and Burial Supplies Sent to Scene of Tragedy—Work of Rescue Necessarily Slow

(Special to the Sun.)

POCAHONTAS, Va., Oct. 4.—Nineteen dead and from 30 to 40 more men, entombed and doubtless all dead, is the situation up to a late hour tonight at the West Fork mines of the Pocahontas Collieries Co., where the explosion occurred late yesterday afternoon. The recovery of the bodies brought from the mines was the result of the heroic work of a band of 35 men, constituting a rescue party that worked incessantly. It was not until 7:30 o'clock this evening that the rescuers reached a point near St. Paul entry, where the explosion occurred. The work of rescue was very slow, as the conditions confronting the party were difficult to surmount.

The authorities anticipated the fearful extent of the casualties today by ordering a carload of coffins and burial supplies, which are now on the way. Some confusion was caused in the determination of the exact number entombed by the fact that when the explosion occurred the exchange of shifts was in progress and that a number of men escaped from the mine. The fact that relatives and friends gathered in groups at the entrance and elsewhere awaiting the return of the victims, and the event to their grief as the bodies one by one were brought out.

B. B. Cook, one of the victims, whose body was found within 300 feet of the entrance of the mine, was the only survivor of the big explosion in 1894. Yesterday's explosion piled up timbers and dirt to the height of six feet.

MORAN GETS NOMINATION

Massachusetts Democrats Endorse Leadership and Democracy of Both Bryan and Hearst

BOSTON, October 4.—A new era for the Massachusetts democracy was inaugurated today in the state convention of that party when, after a turbulent and curious struggle over endorsing William Jennings Bryan and William B. Hearst, John B. Moran, district attorney for Suffolk county, who was already the nominee of the Prohibition party and the Independence League, was nominated for governor by acclamation. Save in one particular, the nomination was strikingly and indisputably in control. The possible exception to undoubted democracy was in the endorsement of Bryan for Democratic nomination for President in 1908, for though George Fred. Williams, chief of Moran's political staff proposed his endorsement at the last moment, another of Moran's lieutenants, Edward Brown, for secretary, and intimated that if Moran's wishes were known, they would be in favor of Bryan, but of Hearst. The convention had previously lauded in its platform the democracy of both Bryan and Hearst, though the approval of Hearst was not carried without a wild and tumultuous protest.

The ticket nominated follows: Governor—John B. Moran, of Boston. Lieutenant Governor—E. Gerry Brown, of Brockton. Secretary of State—Charles C. Paine, of Hyannis. Attorney General—John W. Cummings, of Fall River. Auditor—Thomas L. Higgen, of West Springfield. Treasurer and Receiver General—George M. Harrington, of Lowell. Two of the above, besides Mr. Moran are already endorsed by the Independence League. Brown, for lieutenant governor, and Higgen for auditor.

Finally the platform endorsed the leadership and Democracy of both Bryan and Hearst.

CONSERVATIVE WINS IN EAST ELGIN

TORONTO, Oct. 4.—In East Elgin today, after a well contested fight, the Conservative candidate, David Marshall, was elected over Granville Haight, the government candidate, by a majority of 77. Tonight great crowds of people paraded Aylmer streets cheering, blowing horns and in many other ways celebrating the victory. The Liberal candidate's defeat was largely owing to his late appearance in the field.

FIVE KILLED IN WRECK ON BOSTON AND MAINE RAILWAY

More Than a Score of People Injured—Special Military Train Ran Into Regular Express Near Troy, N. Y.—Scene of Wreck Was Terrible—Engineers of Special Placed Under Arrest—Will Hold Investigation.

(Special to the Sun.)

LANESBURG, N. Y., Oct. 4.—Five passengers were killed outright and a score were more or less seriously injured in a rear end collision between a regular passenger train and a military special on the Boston and Maine railroad, three miles north of Troy, shortly before five o'clock today.

The dead are: F. L. Block, Peoria, Ill.; Mrs. Wallace E. Shaw, Bath, Me.; Mrs. Stevens, Boston, Mass.; Mrs. J. W. Dancy, Arlington, Mass.; one unidentified woman, believed to be from Boston.

The list of injured thus far obtainable at the local hospitals follows: Mrs. VanPassett and wife, Boston, severely burned. Frank Belcher, Medford, Mass., head and both legs fractured. Geo. I. Stevens, Winchester, Mass., compound fracture of ankle and arm smashed. Miss Manson, Bath, Me., back badly sprained. Mrs. Virginia Manson, a sister, three ribs broken. E. T. Laroux, private, Fort Ethan Allen, arm crushed. Mrs. J. W. Dancy, Newburyport, Mass.; Mr. Balch, cut about head; Mrs. Balch, broken nose and severely bruised. W. H. Seymour, Kenton, Ohio, scalp lacerated.

Mrs. Frank Briard, Boston, badly cut about head and face and suffering from shock. Mrs. F. L. Block, Peoria, Ill., fractured skull. Miss Mason, Bath, Me., leg crushed. Miss Randall, Bath, Me., head gashed.

F. A. Mitchell, Palmyra, Me., head and face cut. The wreck occurred directly in front of the Lanesburg station, three miles north of Troy, and at a point where the grade is one of the steepest on the line of the road, which winds its way through the mountainous country to Boston. The elevation is about 20 feet with a steep embankment where the collision took place. The passenger train was one of the best equipped, as well as one of the fastest on the road. It is a regular train, known as No. 5, and leaves Boston daily at 8:30 a. m. for Albany. It generally carries, as it did today, of five cars, a baggage car, smoker, day coach and two parlor cars.

As near as can be ascertained the train was about one hour late today when it pulled up in front of the Lanesburg station to wait for a passenger train to get into the Troy depot. Some of the railroad men say that as soon as the train stopped a flagman was sent to the rear to signal (approaching) the military train, which can be learned on this point. There is a sharp curve a short distance above the scene of the collision. The noise of a locomotive just around the curve was the first intimation of the approaching train, which came thundering along with 13 cars on the second grade, and in the fraction of a second had crushed into the rear of the passenger train, smashing the last two cars, which were Pullmans, like eggshells.

Mrs. Geo. E. Chisholm, Cambridge, Mass., is visiting her parents, Mr. and Mrs. Albert Oulton, Bals Verte. A successful supper under the auspices of the ladies of Bals Verte Methodist Church was held at Bals Verte Tuesday evening. The sum of sixty dollars was realized for church purposes.

Mrs. Albert Wilson returned yesterday to her home, St. John, after an extended visit with her mother, Mrs. C. A. Black, Bals Verte. Point de Bute Division, Sons of Temperance, elected the following officers at their last meeting: Leonard Goodwin, W. P.; Myrtle Fullerton, W. A.; Clarence Hicks, R. S.; Ardell Trenholm, A. R. S.; Annie Gray, F. S.; Albert Colpitts, Treasurer; Grace Carter, Chap.; Roy and Carter, Com.; Adeline Hicks, A. C. Cond.; Laura Carter, S. I.; Albert Finlay, O. S.; Mrs. Hazen Smith, Supt. of Y. P. W.; Nellie Thompson, organist.

MAUGERVILLE, N. B., Oct. 4.—Rev. D. W. Snider of Mt. Forest, Ont., will occupy the pulpit of the Methodist Church on Sunday morning, and will speak in the interest of the Dominion Lord's Day Alliance. If Dredge Can Be Got, Mr. Hyman Will Hire It at Once.

Shaughnessy Says C. P. R. Can Place Mails in Canada, Even in Nova Scotia, Quicker Via St. John than Halifax.

(Special to the Sun.)

OTTAWA, Oct. 4.—Mayor Sears and Mr. Schofield, President of the Board of Trade, had a two hour interview with Hon. Charles S. Hyman, Minister of Public Works, and also saw Hon. Mr. Brodeur, Minister of Marine, this morning and did everything possible to work out the situation satisfactorily. (Signed) C. S. HYMAN.

Mr. Emmerson infers from this that the department intended to send a dredge from the St. Lawrence, but has found it unobtainable, and is now making other arrangements. He is confident that these will be satisfactory, and that the department will be able to assist in the work so necessary to the welfare of the port.

There he told his listeners that he had been married last night at Arlington, Mass. The couple had planned an elopement, but he was making arrangements to pass the hour of his bride shipped to Arlington. Engineer Thomas Holleran, of the special, who lives in Troy, immediately went to the police station in Lanesburg and surrendered himself. He was locked up and would make no statement. His fireman, whose name is said to be F. A. Brown, of Mechanicville, could not be found tonight, which the work will be completed in too short to allow for tenders being called for it, that the government has no dredge at its disposal which it can send to do the work, and to the fact that parliamentary authorities should be obtained for the spending of government money in the improvement of property which is owned not by the government but by the city of St. John. However, after looking thoroughly into the case, Mr. Hyman suggested several plans by which the difficulty might be overcome. Mayor Sears said he would not disclose the details of these offers, and did not feel that he and Mr. Schofield had authority to decide between them. He intends to return to St. John tomorrow but by the city of St. John. However, after looking thoroughly into the case, Mr. Hyman said to your correspondent that the position of Saint John at this time was an awkward one for the city, the government and the C. P. R., which wanted to be assured of accommodation for its steamers this winter. He was willing to do everything in his power to facilitate this work, but had no dredge to send to the harbor, and the marine department had none which could be sent from the St. Lawrence. However, he has given Mayor Sears and Mr. Schofield his assurance that if a dredge could be obtained, he would agree to employ it on the same rate per yard as was being paid to the city of St. John for the dredging contract which that gentleman now has with the government in St. John harbor.

Dr. Colter, deputy postmaster general, this afternoon, and had an informal talk with him about new arrangements for the landing of the mails at St. John and Halifax. The postal authorities have no objection to the two ports being used. It is understood that when Mayor Sears and Mr. Schofield were in Montreal they were told by Sir Thomas Shaughnessy the C. P. R. would undertake to land mails at St. John and deliver them to Montreal and other points in Canada sooner than would be done if the boats called at Halifax and left the mails there. Not only would they do this, but they would undertake to make an hour's better time to Toronto and other points, except Halifax, by sending them on from there. While in Ottawa Mayor Sears saw City Engineer Kerr and discussed civil improvement with him.

MRS. JOHN LYONS. ST. ## For Family Colds

A reliable cough and cold cure should be always in the house ready for use the moment the first symptoms appear. It is always easiest, cheapest and best to check a cold in the very beginning. It is safer, too.

Shiloh's Consumption Cure, the Lung Tonic, has been tested for thirty-three years and tens of thousands of homes in Canada and the United States to-day are never without it.

A dealer writes: "Shiloh's Consumption Cure is without doubt the best remedy for coughs and colds on the market. Once used, my customer will buy no other—L. E. Eley, Nantawagen, Ont."

If it were anything but the best would it do so? Try it in your own family. If it does not cure, you get back all it cost you. We take all the chances. Neither your money nor your health can lose. Isn't that a fair offer? It is the price. All dealers and druggists sell.

the coast and adjacent islands between the mouth of the Mississippi river and Mobile. Mr. Sears did not investigate the lighthouses located between Mobile and Pensacola.

MOBILE, Oct. 2.—No storm appeared during the night and there is none immediately at hand this morning. The barometer is still low but the decline is gradual and although some wind may strike this city, no storm of great severity is expected.

Telegraphic facilities are gradually being restored, all of the railroads except the Louisville and Nashville are running on schedule time, the city streets have been cleared of debris and save for the battered conditions of so many buildings Mobile is outwardly at least as good as ever.

Relief work for the stricken communities down the bay is now systematized and working admirably. Food, clothing and bedding is being furnished and although there is still much suffering it is not as acute as at first. There is still need, however, for all the supplies that can be sent in from outside points.

INDIANAPOLIS, Oct. 2.—While 20 Republican precinct leaders of Hancock county were holding a caucus in the town hall last night at New Palestine, the gas tank exploded, killing one man and injuring eight others.

The gas to light the hall was stored in the tank. The building was almost completely wrecked.

BAGDAD, Fla., Oct. 1.—This region suffered terribly in the hurricane of last Thursday and Friday. The tide ran six feet above ordinary high tide and the whole country was inundated. The lower floors of the immense saw mills were from four to five feet under water. The water in the road between here and Milton is ten feet deep in many places. The streets are blocked with fallen trees and debris and all electric light and telephone wires are down.

At the Bay Point and Robinson Point mills three and five miles from here, respectively, the loss was very heavy.

A number of houses here and along the coast at other points were demolished, but so far as known there was no loss of life.

ST. ANDREWS BAY, Fla., Oct. 1.—The storm here Wednesday, Thursday and Friday last was terrific, the tide rising six feet higher than it has in fifty years before. The wind came from the east, driving the waves from the Gulf directly over the narrow neck of land at the entrance of the harbor. No lives were lost. Every wharf on the bay was demolished.

NEW YORK, Oct. 2.—The threatened general strike of shipwrights in the shipyards of New York and vicinity, following demands which were to go into effect October 5, came off yesterday a few days ahead of time. The demands which were an increase in wages from \$8.50 to \$9 and the Saturday half holiday, were refused.

The shipwrights have opened a bureau for hire, Boston, Baltimore and Norfolk.

MANAGER PHILLIPS INDICTED FOR THEFT

Head of York County Loan Company Sent up for Trial on Charge of Stealing \$2,500.

TORONTO, Oct. 2.—The grand jury today returned a true bill against Joseph Phillips for the theft of \$2,500 from the York County Loan and Savings Company. The charge of conspiracy on which Phillips, who was the former manager of the York County Loan Company, was sent for trial, was wrestled with by the grand jury for several days. The result was that the charge was amended to theft, and the indictment returned, saying the defendant, on or about December 30th, 1905, unlawfully did steal the sum of \$2,500.

FORMER SUPERINTENDENT OF INTERCOLONIAL DEAD

MONTREAL, Oct. 2.—Alexander Rodrigue MacDonald, stock broker, Quebec, died at his home in the ancient capital last evening, at the age of 63. Mr. MacDonald, who was a native of Quebec province, began life as a freight operator, but after a few years started out as a railway contractor. During the building of the Intercolonial Railway he had important contracts. Upon the extension of the road to Levis, he became divisional superintendent with headquarters at Riviere du Loup. He retained this position until the accession of the present government to power at Ottawa, when he was removed from office.

# TRUE BILLS FOUND AGAINST CLARKE

## The Three Charges Will be Tried Collectively—Public Will be Excluded—Trial Begins Thursday

In the circuit court Tuesday morning the grand jury came in at 10:20 o'clock and returned a true bill against William E. Clarke on all the counts in the indictments. Judge Landry thanked the jury for their careful attention and discharged them.

The prisoner was then brought in and the indictment read over to him. He pleaded not guilty. Mr. Baxter raised a technical objection to the indictment and thought it should be quashed. The objection was answered by the attorney general. His honor reserved judgment.

Mr. Baxter then objected to having all the charges tried on one indictment. He thought it better to have that all the counts in the indictment should not have been brought up before a magistrate before taking the case to the grand jury. It is these charges have only come up before the grand jury, and the prisoner does not really know what he has to defend. He thought it not fair by any means that he should be tried under one indictment. At the least the case of attempted rape should be taken up separately and the other two charges together.

The attorney general contended that it was perfectly right to have the two extra charges brought before the grand jury without having them before a magistrate. He thought that Mr. Baxter should feel gratified that the charge of rape had been dropped and the charge of attempted rape put in its place.

Mr. Baxter then moved to quash the count in the indictment charging the prisoner with assault on Mary Tuttle on June 2nd.

The attorney general did not see what power his honor had to quash the count. He thought that if the counts were wished to be tried separately, Judge Landry said that Mr. Baxter had presented his views in a strong, logical manner, but in spite of this fact he was inclined to believe that there should not be three separate trials, as he saw no sufficient reason for having these trials when one would suffice.

Mr. Baxter contended that the count of attempted rape should be tried separately. Judge Landry said, however, that all the counts should be tried together.

At 12 o'clock the court adjourned for twenty minutes. Judge McLeod should have time to open the October sitting of the circuit court. Judge McLeod opened the court, and upon the grand jury being called he informed the court that he had no business either civil or criminal to bring up. The court was then adjourned sine die.

Judge Landry resumed his session and the following jurors were empaneled: Hugh Ryan, Chas. H. Corbett, Michael Cain, Revery Steves, James Wilson, A. Nichol, J. P. Williams, Joseph Semple, Robert McConnell, Wm. Hickman, John Martin, Geo. E. Smith.

There was considerable trouble in getting a jury, as a large number were challenged by Mr. Baxter and several of the attorneys general. Morton L. Harrison and W. G. Magee were eligible to the jury or not. They decided that Mr. Harrison was eligible. Mr. Baxter then preemptively called Mr. Harrison. Mr. Magee on being sworn stated that he was not notified that he was to serve as a juror in the Clarke case. He made the statement that he thought the prisoner should be hanged, and he was of the same opinion. Upon hearing this it was decided that he was not eligible as a member of the jury.

Why the Usefulness of all Organs is Destroyed by Costiveness.

Most important to health and comfort is proper action of the bowels. By nature these organs are intended for the removal of the waste particles of matter which accumulate in the system.

Retain these wastes and you poison the blood, ruin digestion, bring on nervousness and mania.

Habitual costiveness is best overcome by Dr. Hamilton's Pills, which establish regularity that is entirely consistent with nature.

Not a drastic purgative—not even a pain or sensation of gripe, because Dr. Hamilton's Pills are vegetable and free from irritating mineral substances found in so many widely advertised remedies.

In every case Dr. Hamilton's Pills do cure and bring relief from headache, biliousness and other manifestations of constipation.

Just a copy of Walkeron writes: "Since I was comparatively a young man I have not enjoyed real good health. My appetite was good and strength kept up, yet I knew something was wrong. Frequently I took bilious attacks and violent headaches. My stomach was disordered, skin was murky, under my eyes were heavy dark rings. Last winter I read through the 'Poison's Almanac' and decided my trouble was constipation. I used Dr. Hamilton's Pills, and each hardly used the help they have brought. I am now a fresh, strong and well as a boy."

Just try the wonderful magic of Dr. Hamilton's Pills. Sold by all dealers, 25c per box, or five boxes for \$1.00. By mail, send 10c to Dr. Wm. W. Walkeron, Hartford, Conn. U. S. A., or Kingston, Ont.

Advertising, even moderately well managed is one of the shortest roads to success.—Artemus Ward, "Sapolio."

PREMATURE CONDEMNATION.

The attitude of The Ottawa Journal and the P. R. L. Borden with reference to the preclusion into which Messrs. Foster, Fowler, Pope et al have been forced by the Insurance Commission's resolution, is scarcely judicial.

Explanation. The opportunity should be given without delay, and all his friends and his decent opponents will hope his explanation may be satisfactory. It would be nothing short of tragedy if a career so distinguished and honorable as Mr. Foster's should come to an end unprofitably and unaccomplished.

THE TARIFF.

The Toronto Globe explains that its free trade agitation has been inspired by and is intended to counteract the Canadian Manufacturers' Association's campaign in favor of high protection.

Theoretically the men who have the Canadian tariff in charge are probably inclined toward freedom of trade, as are the majority of political economists. But they are business men whose common-sense view of Canadian business affairs is not clouded by theories.

ISLAND BOY CHARGED WITH MURDER OF HIS FATHER

LENN, Oct. 3.—Edgar Melkie, the 15-year-old boy who was indicted in the grand jury session of the criminal court at Lawrence, for the murder of his father, Charles S. G. Melkie, on Monday, Nov. 6, 1905, was arrested at the home of Joseph E. Trimble, 13 Lexington street, early this evening by state officer W. Harry Proctor.

Charles G. Melkie was a man 50 years old and an employe in the River works of the General Electric Company. Shortly after 10 o'clock on the day of Nov. 6, he was found dead on the kitchen floor of his home at 23 Congress street, with a bullet wound in the right side of his head.

When the police arrived the revolver was found on top of a refrigerator in some feet away from the body of Mr. Melkie was found. When asked to explain this the boy said that as soon as his father fell to the floor he ran and picked up the revolver and placed it where it was found.

When Melkie recovered consciousness he offered no explanation of the affair and Mrs. Melkie did not question him. This was an argument brought forth in the defence of the boy.

PREPARATIONS STAND FOR FULL PROHIBITION

MONCTON, N. B., Oct. 5.—The first business transacted at this afternoon's session of the Synod was the settling of the time and place for the next meeting. Rev. Theo. Fowler, in the name of the Ministerial Association of Halifax, cordially invited the Synod to meet there.

At this stage the order of business was suspended in order that the Synod might hear Rev. Dr. Mowatt, who appeared on behalf of the Point Aux Trembles school. Dr. Mowatt testified to the noble response Synod had made to the various calls from foreign and home missions.

The following resolution was moved by Mr. Murray and seconded by Rev. Dr. Mowatt: The Synod thanks the Rev. Dr. Mowatt for his presentation of the claims of French evangelism, especially in connection with the Point Aux Trembles schools, and cordially commends their object to the liberality of our people.

CHOSEN AS THE COADJUTOR BISHOP

Elected This Morning on the Eleventh Ballot After a Long Contest.

Synod Sat Almost Continuously from Afternoon Until Long After Midnight — On Motion of Archdeacon Neales, Election Was Made Unanimous — Sharp Dispute Over the Payment of His Salary.

FREDERICTON, Oct. 2.—After a prolonged session marked by a strong feeling between the supporters of the candidates for the coadjutor bishop, Canon Richardson was elected this morning on the eleventh ballot, when for the first time during the contest he obtained the necessary two-thirds majority of the clerical vote.

When the Synod assembled this afternoon at 3 o'clock the regular business of the session was taken. After prayers and roll call, the secretary presented the memorial from the Shedd deanery protesting against the interference with any missionary funds in the diocese for paying the bishop coadjutor.

A. C. Fairweather from the standing committee reported that since the last meeting, on account of criticism and inquiries made by the committee, he interviewed the bishop to ask him if he could contribute towards the coadjutor's salary from the endowment fund.

Rev. Dr. Neales said that the late metropolitan was both bishop and dean. The speaker spoke of the generosity of the present bishop as coadjutor, and he thought it would be disgraceful to go to the bishop and ask him to contribute. "When we think of the great work the bishop has done for one would be ashamed to ask him to contribute."

Chancellor Allen said that since Justice Hamilton's speech some explanation should be made of the cathedral fund, that no one should be under a misapprehension. The cathedral held no fund in trust for paying the dean's salary. The fund was for the cathedral and the dean's salary was paid out of the cathedral fund.

Rev. Dr. Neales regretted that the question of finance should occupy such an important part, and he believed the synod should rise above such small matters. Mr. Cowie spoke in high terms of the bishop's generosity. From the time of his appointment to 1894 he lived on \$2,500 per year and had been very generous. He spoke of cases in which his lordship had rendered assistance. The dean can do the work and be the bishop coadjutor consistently.

Archdeacon Neales said that he wished to say a few words. He would not express any opinion as to what the bishop could give in way of salary, as he was not in the confidence of the bishop. In that respect, but he wished to add his strongest appreciation of the great work Bishop Kingdon had done in the way of missionary work.

Rev. Dr. Raymond moved that the resolution be not put. Mr. Justice Hamilton maintained that it would also prevent the resolution being put, and Chancellor Allen ruled according to the view expressed by Justice Hamilton. Dr. Raymond then withdrew his motion and Justice Hamilton's amendment being put was declared lost and the original resolution that the report of the standing committee be adopted, carried, the vote standing 18 to 74.

The synod then proceeded to ballot on the choice of a bishop coadjutor. While the scrutineers were counting the ballots Mr. Justice Hamilton moved the following resolution in a few appropriate remarks, which was seconded by Rev. Dr. Raymond. Resolved, That the synod would impress upon the clergy and laity of the diocese the importance of a generous support of the British and Foreign Bible Society through its Canadian auxiliary in aid of its good work, within which the missionaries of the church would be unable to carry on their work effectually.

The first and second ballots resulted as follows: First. Clergy. Laity. Second. Neales, 23. 22. 21. Richardson, 21. 23. 21. Farthing, 3. 3. 2. Tucker, 2. 2. 1. Pentreath, 1. 1. 1. Newnam, 1. 1. 1. Williams, 1. 1. 1. Cowie, 1. 1. 1.

this city and entered upon his duties as rector in August of that year. Since coming to the city Canon Richardson has been prominently identified in his form and philanthropic work and has given much valuable assistance to various societies that have for their object the alleviation of distress and the uplifting of the people in his church work he has been singularly successful, being an earnest and thoughtful preacher and indefatigable in his efforts among the younger element of his congregation.

While rejoicing at his election to the high office of coadjutor bishop, his congregation here and the people of the city generally will regret that his acceptance of the appointment will make necessary his relinquishing of the rectorship of the church in which he has labored so faithfully, and his removal from the city.

HAS NO INTENTION OF RESIGNING

Chief Justice Tuck Says He Cannot be Removed From His Office Against His Will

EDMUNSTON, N. B., Oct. 2.—Madrasa circuit court opened here this morning, Chief Justice Tuck presiding. There was no docket, criminal or civil, presented and the court adjourned without transacting any business. The bar of the county, feeling that the bringing into force of the Judicature Act was likely to transfer the chief justice to the appellate division of the court, presented the chief justice with an address and a souvenir. In which he distinctly stated that he had no intention of resigning from his present position, and expressed the opinion that nothing but an amendment of the British North America Act, or impeachment by both houses of parliament, could remove him from his office.

Rev. Subden Street, then, as a supporter of Archdeacon Neales, asked the clergy in the interest of the church, since the laity had thrown such a strong vote for Canon Richardson, to support Canon Richardson and have the bishop elected.

Judge Hamilton spoke strongly, asking the clergy in the interest of the church and Christianity to join with him in electing Canon Richardson. Revs. Mr. Sampson and Kubring also spoke in support of Canon Richardson.

BORDEN REPUDIATES WESTERN LAND DEAL

Declares He Had Nothing to do With Transaction of Foster, Fowler, Pope and Lefurey

OTTAWA, Oct. 2.—R. L. Borden, opposition leader, being interviewed today in regard to his name being mentioned in connection with the examination of Mr. Lefurey, M. P., in Toronto, before the insurance commission, said: "I have not had the slightest interest in, or connection with the purchase of those lands, or any other lands in the west of Canada."

"My discussion of the proposal with any of those gentlemen was during our trip to the west in 1902, before any details of the purchase had been made. The discussion was of a very casual and general character, and I was so much occupied with political matters that I gave it very little consideration."

YOU NEED STRENGTH

Not a emulsion to sicken the stomach, not a "dope" cure, nor bitter—but a nourishing tonic that will increase weight, strength and spirits. Try Ferrone and watch the result. Because it gives instant effect and steadily builds up new flesh, it is used by thousands in ill-health.

HER STATEMENT

"I was sick. I was broken down, had no strength, couldn't eat. I was sleepless. My nerves were irritable. I was thin-blooded and continually unhappy. I tried Ferrone. It gave me new energy, force, vim. It brought me comfort, strength—it made me well."

SAVERY HAS LEFT PROVINCENCE

Believed to Have Gone to Plymouth

Forgot to Pay His Landlady and Other Creditors at St. Martins—His Late Parishioners Incensed

It seems now quite probable that New Brunswick has heard the last of "Rev." H. S. Savery, who has occupied a large space in the public eye the past few days. The Sun's exclusive special despatch from Plymouth yesterday cleared up the mystery of his antecedents, and established for the first time that his wife, formerly a Pictou girl, was still living and being cared for at the home of her husband's mother.

The Sun in conversation with several prominent citizens of St. Martins learned that Savery had not returned to the people of the town generally. While a man of considerable natural talent, he was very silly and gave evidence of caring rather more for the material things of life than it was thought a person should. His treatment, too, of his wife, who was obviously suffering from a hopeless malady, is said to have been extremely callous.

When Mr. Savery first came to St. Martins he said he was a Congregationalist, but he appeared to be without sectarian prejudices, and gladly consented to act as the spiritual adviser of the Presbyterians.

"After delivering a strong lecture one evening on 'What We Should Make Out of Ourselves,' in which he spoke in no unimpassioned terms against certain moral evils, he often the possible danger of his own position, and he is said to have exerted himself for a paltry silver collection."

GAINED 10 POUNDS

It was all run down and could not do my own work. Ever since my wife made me sick. In nursing others I had seen the good results of Dr. Chase's Nerve Food and resolved to try it. As a result of this treatment I have gained ten pounds, do my own work alone and feel like an entirely different person."

BOARD OF TRADE FAVORS NATIONALIZATION

At the meeting of the board of trade held yesterday the following resolution, moved by W. F. Hatheway and seconded by James Pender, was passed: "That we reaffirm the opinion of this board that the preferential duty rebate of 23-1-2 per cent, should only apply on goods imported through Canadian ports."

CHINESE PUPIL IN CENTENNIAL SCHOOL

He is Good Looking, a Favorite With the other Boys and Very Apt as a Student

Principal Town of Centennial school, Brussels street, can doubtless enlighten the thinking of China to a realization of her possibilities. It is not least affects that good looking Mongolian youth, Hum Oak, who regularly attends Mr. Town's school nowadays.

For a day or so Hum Oak was the centre of attraction at school assembly, and, as it were, the star of the hour. He is a large boy for eighteen, but perfectly boyish, and were it not for his raven curls, secreted under a cloth cap, he might easily have passed off for a stalwart Canadian by right of nativity.

So quickly did the Oriental chap win his way to the hearts of the better class of boys by entering into their baseball, French-foot-and-a-half and other amusements, and his quickness in the study of his school books, that he was administered a group of boisterous pupils who endeavored to quack him.

Centennial school teachers say Master Oak is an apt pupil. He is in the fourth book, as children say, and among his studies are Canadian history, English history, geography, reading, writing, arithmetic and Latin. There are other branches of learning in the curriculum of this standard, but the Chinese boy is concentrating on these at first. He studies industriously and is making satisfactory progress, much to the delight of his worthy uncle and English friends.

Should Master Oak, who is a high-grade citizen of the Flowery Kingdom, succeed particularly well in the public schools, his relatives will doubtless give him a higher education, and who can blame them? It has been said that the singular day school pupil from the Orient may be a factor in Chinese state affairs a quarter century hence.
