

European Intelligence.

The steamship Asia, arrived at New York on Wednesday last, with Liverpool dates to the 6th inst.

The Paris Correspondent to the London Times, says: "The confirmation of the Declaration of War, by Turkey, has reached Paris."

The Paris correspondent of the London Post, says the Porte has fixed four weeks as the first time in which the evacuation of the Principalities must take place.

The English and French Governments have notified Russia that it is too late for any modifications, and that these Powers will support the integrity of Turkey.

Commodore Englefield has returned from the Arctic seas—he brings no intelligence of Sir John Franklin.

The following is the reply from the foreign office to the memorial of the Sheffield meeting:

Foreign Office, Sept. 26, 1853.—Sir: I am directed by the Earl of Clarendon to acknowledge the receipt of your letter of the 20th inst., inclosing a memorial agreed upon at a meeting of the inhabitants of Sheffield, praying that Her Majesty's Government will take prompt and decisive measures to cause the immediate evacuation of the Danubian Principalities, to make Russia bear the expenses of the occupation of these provinces, and to prevent her from again having recourse to similar proceedings. I am to state to you in reply, that Her Majesty's Government are fully sensible of the shock given to the independence of Turkey by the late proceedings of Russia in forcibly taking possession of a portion of the Ottoman territories; and as Her Majesty's Government continue to be of opinion that the maintenance of the independence of Turkey is essential, not only for British interests, but for the general interests of Europe, the memorialists may feel assured that Her Majesty's Government will neglect no measures which they may think best calculated to secure so important an object.

I am, sir, your most obedient humble servant.

H. A. ADDINGTON.

Some idea of the relative military positions of the two nations can be obtained from the following extracts. A European staff officer writes from Schumla on the 11th:

The Turkish army is now making the last preparations usual before entering on a campaign. The different bodies of troops are all provided with the necessary means of transport. Great magazines are being formed for the maintenance of the army during six months; and in Roumelia, an army of reserve, composed of Bedlis, is being organized. The marching army now numbers upwards of 80,000 men of regular infantry, (troops of the line), and 10,000 irregular foot soldiers, about 10,000 cavalry, and upwards of 180 pieces of field artillery of different sizes. These lines have been fortified—the Danube, the line stretching from Varva to Schumla, and another line situated further back, commencing at the river Kameck—which is prolonged towards the east, and embraces every part of the Delta to beyond the city of Sana. Upwards of forty-four points are fortified, and altogether one hundred and twenty different fortified works have been constructed. Works of colossal proportions have been undertaken and executed, and the greatest energy has been displayed.

Kossuth has written a letter in reply to an invitation to attend a town meeting at St. Paul, to "memorialize her Majesty on the matter of the Russian invasion of the Turkish Principalities," in which he reviews and denounces the whole policy of the British government with regard to Russia, which he declares to have been "Russian in its results, though not Russian in its motives—it has been worse; it has been anti-liberal in principle;" and this he ascribes to the hatred of the government of "the revolutionary principle."

Permission to Man British Ships with Foreign Seamen.—An Act to amend various Laws relating to Merchant Shipping, was passed by the Imperial Parliament on the 20th August last, the 31st section of which repeals so much of the Act of the 12th Vic., cap. 29, as requires every British ship to be navigated by a Master who is a British subject, and by a crew of whom the whole or such proportion as therein mentioned are British subjects.

The new Act also provides that when seamen volunteer into the Royal Navy from merchant vessels, and others have to be procured in their place at a greater expense than the wages of those volunteering, application may be made to the Registrar of the High Court of Admiralty in England for the repayment of the extra expense, and the same shall be paid by the Accountant General out of the monies granted by Parliament for the Naval service.

A SAD ACCIDENT.—We regret to learn that Mr. Charles Smith, (sparmaker,) while at work in Mr. Sains' Ship yard, back shore, Lower Cove, had his back broken a few days since, by a stick of timber falling upon him, and he now lies in a very precarious state. Mr. Smith's brother met with a precisely similar accident about a year since, from the effect of which he died in a few days.—Mor. News.

FATHER GAVAZZI.—A deputation of gentlemen has arrived in this City, from Louisiana, to invite Father Gavazzi, to visit that State. Gavazzi being at present in Buffalo, delivering lectures, the deputation will present their request to him here. It is stated that Gavazzi is to edit a new paper in this City to be called "The Crusader."—[N. Y. Tribune.]

THE GREEK GOVERNMENT.—The form of the Greek Government is a limited monarchy. The King chosen by the three allied powers of England, France and Russia, is Otto, a son of the late King Louis of Bavaria; and younger brother of the present sovereign, and is in religion a Roman Catholic. The Queen Amelia is of the house of Saxony, and a Protestant. But the constitutional ordinals that the successor to the throne must be of the Greek faith.—Theoretically the Government is, perhaps the most liberal in Europe. All citizens are equal in the sight of law, for no titles or nobility can be created, and there is no aristocracy. The legislative authority is vested jointly in the sovereign and the two chambers. The lower House consists of representatives chosen annually by the people from the various districts, in which the country is divided in proportion to population. The upper House, or Senate, consists of senators chosen by the King for life, and to their number no limit is fixed by the constitution. The members of both Houses receive salaries; and the King has an annual stipend of 1,000,000 drachms (167,000 dol.) settled upon him by the constitution. The budget of the year is, of course, submitted to the chambers, and voted by them. Thus, in theory the constitutional checks upon the monarch are as great, probably, as are compatible with a legal system.—[Letters from Athens.]

POPULATION OF TURKEY.—A distinguished German scholar gives the population of Turkey in Europe, as being 15,000,000, and that of Turkey in Asia, 18,700,000, making a total of nearly 30,000,000, about half the population of Russia, and nearly equal to that of France, though vastly less compact than the last.

The Sultan of Turkey has sold his Mother's Jewels for 27,000,000 piastres, in order to appropriate that money to the services of his country.

DEMON.—The Russians address Nicholas as the "Star of Empire." The rays of his sacred Crown stream out more dazzling than the sun; millions of steps lead up to his high throne.

UNITED STATES.—New York, Oct. 18. A private letter from Ireland states that Father Cahill, the celebrated Irish Roman Catholic priest, is shortly to visit this country, with a view of checking the defection of the Irish from Romanism.

Capt. Anderson of the brig Ocean Bird, which arrived to day, reports salt as very scarce, and commanding high prices; and that at Bourne there was nothing to be had.

LEWISBURG, Pa., Oct. 18. The steam saw mill and boat yard of Frick, Slipper & Co., were burnt on Saturday night, together with the draw bridge, the new Bridge over Buffalo Creek, three or four new canal boats, and a large quantity of stock. Loss between 20 & 30,000. The editor of the Milonian and another firm were badly injured, so much so that their recovery is doubtful.

CINCINNATI, Oct. 18. The cars containing the Eastern mail due here this morning, and Livingston & Fargo's express packages, between Cleveland and Columbus, took fire last night, by sparks from the locomotive.—The mail was entirely lost, but part of the express packages were saved.

Father Gavazzi lectured in this city to a full house last night. There was no disturbance.

The annual Convention of the American Christian Bible Society, assembled this morning in the Christian Chapel. Among the delegates is the venerable Alexander Campbell.

Lady Stone is lecturing here to crowded houses.

The trial of the parties charged with the North Washington conspiracy, commenced to day at Columbus, before Judge McLean.

BROTHER JONATHAN ABOUT TO BE OBTAINED.—A paragraph has gone the rounds of our papers, stating that a vessel was built in New York which would cross the Atlantic in six days. The London Morning Advertiser announces that by a new and improved construction of vessels, it will be perfectly practicable to accomplish the voyage between Great Britain and America in three days and a half;—the ports connected being Halifax and Galway. The Advertiser adds that the truth of its statement has been thoroughly established by experiments. As we have heard of no vessel having crossed the Atlantic in three days and a half, we question the accuracy of the statement.—[Boston Traveller.]

The 200 Prisoners arrived in Montreal on Wednesday evening under the command of Major Fiddell and Captain Wiley, brother of the old Chief of Police, at Montreal. Colonel Guay, in his capacity of Special Magistrate, has addressed a communication to the City Council of Montreal, suggesting the propriety of certain steps for the preservation of the public peace.—Quebec Mercury.

The Mobile Advertiser and New Orleans Picayune both express regret at seeing so many persons returning to town, though the weather is colder and the number of deaths greatly diminished. The Picayune fears the great destroyer is but sleeping.

SUPREME COURT.—Michalmas Term, 17th Victoria.—James Watson Chandler, Esquire, and the Hon. John Hamilton Gray, having been appointed Queen's Counsel, were called by the Court, and took their seats within the Bar.

THE STANDARD.

WEDNESDAY, OCT. 26, 1853. EUROPEAN NEWS.

A summary of the news by the Asia will be found in another column. The precise state and prospects of Eastern affairs, were as much a subject of doubt and enquiry, as formerly. A cabinet council was held in London, on the 7th inst., for the purpose it was supposed, of deciding some important questions in relation to it, the results of which had not transpired. The only difference is now upon the form which shall be given to the instrument of agreement; for it appears that the Sultan has not signed the Declaration of War; but the Grand Council has voted that war against Russia be declared, leaving to the Executive, the time to proclaim hostilities.

The discovery of the long sought for North West Passage, between the Atlantic and Pacific Oceans, is also announced in the English papers, and to Commander McClure of the British Navy, belongs this honor, having sailed through from Behring's Straits to Davis Straits, in the Investigator.

CHARLOTTE COUNTY AGRICULTURAL SOCIETY'S CATTLE SHOW & FAIR.

The annual Cattle Show and Fair of this Society, was held here, yesterday, 25th inst. Notwithstanding the unpropitious state of the weather, it having rained all night and early in the morning, a large number of Farmers from the various Parishes were present.—We do not believe the exhibition of horses and young cattle, was equal to former years, the grain and root crops generally, were of a superior description, and highly creditable to the County; the domestic manufactures cloths, flannels, &c., were also very good. Owing to not receiving a list of the Prizes awarded, we are unable to publish them this week. We are happy to notice that the Farmers take a greater interest in raising larger and better crops than in former years.

SAD ACCIDENT.—We regret to state that Mr. John Shaw, while at work on board the ship "Star of Empire," off Robinson's, was instantly killed, on Thursday-morning last. We understand that the riggers were in the act of hoisting the main yard, with a new rope, when about fifteen feet from the deck the knot of the rope gave way, and the yard fell on the rail, crushing Mr. Shaw in a shocking manner, and depriving him of life; it is said he never breathed afterwards. He was in the 25th year of his age,—of sober and industrious habits, and generally respected. His remains were brought here to his beloved parents, and interred on Saturday last, followed to the grave by a large and respectable funeral. Thus in the flower of his age, has a worthy young man, who gave promise of much usefulness, been suddenly cut off—giving the solemn warning "be ye also ready."

We learn from the St. Stephen Patriot, that a Coroner's Inquest was held on the body of the man which we stated in our last number, as supposed to be murdered in St. Stephens, on the night of the 15th instant, and that the verdict of the Jury after a lengthy and patient investigation, hearing many witnesses, was—"accidental death, occasioned by careless driving and intoxication, by John Henderson and John Blackburn." The Patriot, however adds "but the public mind in this region is far from being satisfied—and fears are felt and expressed at almost every corner of the town, that there is something mysterious about this tragical occurrence, which may never be revealed until the "great day of Final Account."

The Carleton Sentinel, within a few weeks has apologised for publishing half a sheet, in consequence of being short handed. Br. Segee must surely be aware, that his half sheet is better written, selected, and interesting, than many sheets double the size. For the last four weeks we have managed to publish our paper and do job-work, with a boy only 12 years of age, owing to the indisposition of our compositor.

THE HEAD QUARTERS reaches this week, in a new dress, much enlarged, and otherwise improved. It is at present, the largest paper published in the Province. W. Grigor Esq. is editor, and Mr. John Graham, publisher. We wish our contemporaries that

success, which their enterprise merits.

We learn that Mr. Wilkinson is now employed in surveying the line of country between the Bend and Amherst, with the view of ascertaining the best line for connecting railways of Nova Scotia with those of this Province.

The Jews of Constantinople have made a voluntary offer of a million of piastres toward the expense of the military operations. The Jews of Smyrna proposed to do likewise.

FRAUD IN FRUIT TREES.—Persons in the Province who are importing Fruit Trees from the United States, require to be careful or they may be cheated. We learn from a Worcester paper, that many of the trees are manufactured by a short process called root grafting, which is done by taking the root of old trees in the winter, cutting them in short lengths and grafting a scion into them; they grow well for three or four years, but when they come to a stand, and will hardly bear at all.

As another proof of the boasted unanimity on the Jackson Railroad system in Canada, and the great dependence placed in that gentleman and his associates there, we give the following from the Toronto Globe of the 4th ult. "The Editor is alluding to the various topics introduced by Mr. Jackson at the Quebec dinner, and among others, the highly impertinent observation—that Canada must shortly become independent, says:—'We are much obliged to Mr. Jackson for his kindly intimation that Canada will eventually be independent.' Perhaps it would be better to tell the Canadians themselves to decide that point. They imagine they know a little more about their own wants than any stranger. Mr. Jackson was undoubtedly quite right in saying that he did not anticipate any loss; if half is true that we hear of the way in which the Richmond and Quebec and the Grand Trunk are being constructed, the gain on the contract will be enormous. Montreal Gazette says on this subject.

THE QUEBEC AND RICHMOND RAILWAY.—We are informed, on most reliable authority, that this road which Mr. Jackson represented he was to make "not like one of your Yankee roads, but equal to a first class English road," may not all likely to come up to the intention; nor is the plans of such works as plans have been furnished.

As a large amount of Provincial money is invested in the undertaking, the press can have no hesitation in giving facts to the public mind, and possibly induce such action in Parliament as may procure at least decent work from Jackson & Co. in return for the extravagant prices paid them under their contract.

By the contract they are bound to provide and pay for the Engines on the road. But they have saved this expense by not having had an Engineer stationed on the works at all. This may seem incredible, but it is nevertheless perfectly true. The sub-contractors are, consequently, left to the rule of thumb as to grades, and get through culvert work in a way which has not yet been seen, even on what Mr. Jackson in true English style, calls "one of your Yankee roads."

THE LAUNCH.—On Tuesday, a few minutes past twelve, a large and beautiful ship was launched from the Calais shore, near the lower end of that City, she was built by James Porter, Esq. of St. Stephen—competent judges pronounce her faultless in model and workmanship.—We chose a suitable position to notice her descent into that element, upon the bosom of which, we hope this noble ship will enjoy a long career of successful employment.—She glided with all the ease and gracefulness of a sea fowl into the sparkling waters of the St. Croix, and moved upon the river with swan like beauty. Her tonnage is about 1,800 tons, and her name "Beconocery." May her enterprising builder continue to reap a rich reward for his spirited and laudable exertions.—[St. Stephen Patriot.]

Masonic Funeral.—On Tuesday afternoon 18th inst. the remains of Robert Livingstone, the person whose death has created so much excitement, were conveyed to the tomb, and deposited within their last resting-place by a respectable body of Freemasons. A Masonic Funeral is at all times solemn and imposing; but on this occasion it was peculiarly so. The groans of the widow, the tears of the daughters and the sighs of the sons, communicating with the beautifully impressive service, as read by one of the brethren, were wafted among a dense concourse of attentive listeners with powerful effect.—Where were Blackburn and Henderson then? Would that they had been present! The midnight revel and its concomitant curses, might have then appeared so hideous to them as to work out an effectual renovation!—[Ib.]

MARRIAGES.—At Miltown, on Monday Evening the 10th inst. by the Rev. Robert Cooney, M. A., M. John McLaughlin to Miss M. Anna Gilmore, both of the above place.

On the 10th inst. by the Rev. E. N. Devereux, Mr. Valentine Harding, to Hannah, second daughter of Mr. Henry Fowler, of Upland.

DEATHS.—On the 23rd inst., Thomas W. Stubs, aged 20. The deceased was son of Peter Stubs, Esq., formerly Cashier of the Charlotte

County Bank. Possessing a very amiable disposition, he died, much regretted by his relatives and all who knew him.

At Miltown, on Friday the 14th Inst., Mrs. Jane E. Hiltz, wife of Mr. George W. Hiltz, aged 27 years and 3 months.

By JOHN TALLIS & CO. OF LONDON, THE LIFE AND TIMES OF THE LATE Duke of Wellington; By Lieut. Col. Williams; (a Companion in Arms, of His Grace) Comprising the Campaigns and Battles of Wellington and his Comrades, the Political Life of the Duke and his Contemporaries, and a detailed account of England's Battles by Sea and Land, from the commencement of the Great French Revolution to the present time, interspersed with Anecdotes, Personal Incidents, and Adventures, etc.
ADDRESS.
The earthly career of Arthur Duke Wellington has closed; one of the greatest men of the nineteenth century, the foremost military commander of any age, has paid the debt of nature. The time has now arrived for giving to the world a History of the Great Captain—of the Events of his Life and Time—a life marked by patriotism, probity and honour, and events the greatest which have ever agitated the civilized world, and whose influence will be felt upon society till the end of time. Such a work must appeal to the best and proudest feelings in the heart of every Briton—the glory of his country, the honour of its name and position among the nations—may his own existence as a freeman, are recorded and engraved in the annals of the "well fought fields," and "the deadly imminent breaches, the immortal battles and the glorious sieges in which Wellington and his Companions in arms gathered unending laurels, placed their country's honour and renown on the highest pinnacle of fame and glory and tore the victor's wreath from the brows of heroes decorated with the trophies of Italy, Egypt, and Germany.
To supply such a desideratum in English literature, the publishers of The Life and Times of the Duke of Wellington have determined to produce a book which shall present to the reader, not only the dry details which a mere biographical sketch would afford, but a comprehensive work, embracing the contemporaneous history of the period; exhibiting the circumstances which brought about the great events in which the Duke and his contemporaries were engaged, and giving to the reader a connected narrative of the lives and actions of the Warriors and Statesmen of the nineteenth century; and this from the pen of one who was a companion in arms of the great hero, and participated with him in many a well fought field.
In order to carry out their views, the Publishers have determined that the work shall be profusely illustrated by Portraits of the Warriors and Statesmen of the last half century who have shed a lustre upon the history of their country; also representations of the most important engagements by sea and land from the period of 1780 till 1852; so that the work, when finished, shall form an Illustrated Gallery of the Naval and Military Exploits of England.
It has been well said, "Character is the true strength of nations; true glory their best inheritance. When the time shall come that the British heart no longer thrills at the names of Cressy, Poitiers, Agincourt, Blenheim, Ramilies, Oudenarde, Malplaque; of Talavera, Salamanca, Toulouse, Waterloo—the last hour of the British Empire will be struck." The promotion and elevation of national spirit and feeling is therefore the duty and interest of every true and loyal son of England. May Heaven inspire the hearts of every one of us with that spirit and feeling.
Conditions of Publication—The work will be issued on the 1st and 15th of every month, in Parts at 1s. 3d. and Divisions handsomely bound at 9s. 4d. printed on Imperial 8vo. double columns, each part will be embellished by two highly finished steel Engravings, and will contain 32 pages of letter press. A beautiful steel Engraving, 13 by 19 inches, the storming of Seringapatam, the first victory in which the late Duke of Wellington was engaged in India, to every subscriber to the work.

JUDSON'S CHEMICAL EXTRACT OF CHERRY AND LUNGWORT,

FOR THE CURE OF
Coughs, Colds, Hoarseness, Spitting of Blood, Night Sweats, Asthma, Liver Complaints, and CONSUMPTION.

DO NOT NEGLECT IT.
CONSUMPTION.
Can be and has been cured in thousands of cases by this only certain remedy.

JUDSON'S CHEMICAL EXTRACT OF CHERRY AND LUNGWORT, and no remedy has ever before been discovered that will certainly CURE CONSUMPTION.
The most strongly marked and developed cases of Pulmonary Consumption, where the lungs have become diseased and ulcerated and the case so utterly hopeless, as to have been pronounced by Physicians and friends, to be past all possibility of recovery, and at times thought to be dying, has been cured by this wonderful remedy, and are now as well and hearty as ever. It is a compound of medicaments which are peculiarly adapted to and essentially necessary for the cure of

COUGHS AND CONSUMPTION.
Its operation is mild, yet efficacious; it loosens the phlegm which creates so much difficulty, relieves the cough and assists nature to expel from the system all diseased matter by exhalation, producing a most delightful change in the breathing and chest, and this, after the prescriptions of the very best medical men and the inventions of kind-sorrowing friends and Nurses, have failed to give the smallest relief to the Consumptive sufferer.

THOUSANDS OF CONSUMPTIVE persons have been deceived in buying medicines which were said to be infallible cures, but which have proved only palliatives, but a cure for ulcerated lungs. It contains no deleterious Drugs, and one trial will prove its astonishing efficacy better than any assertions or certificates in curing consumption and all diseases of the Lungs, such as Spitting of Blood, Coughs, pains in the side and chest, night sweats, &c. &c. About 1000 certificates of almost miraculous cures, performed by this medicine from some of the first Doctors, Clergymen and Merchants, have been sent us for the medicine, but the publication of them looks too much like Quackery, [will show them to any person calling at our office.] This medicine will speak for itself and enough in its own favour wherever it is tried.
Caution.—This medicine is put up in a large bottle and you must find the name of Constock & Brother, Proprietors, New York, on the splendid Wrapper around the bottle. All orders must be addressed to Constock & Brother, No. 9, John St. New York.

TO OWNERS OF AND DEALERS IN HORSES.

CARLTON'S FOUNDER OINTMENT.
For the cure of Founder, Split Hoof, Hoof bound Horses, and contracted and Foulish Feet, Wounds, Bruises in the flesh, Galled Brecks, Cracked Heels, Scritchies, Cuts, Kicks, &c., on horses.

CARLTON'S RING-BONE CURE,
For the cure of Ring Bone, Blood Spavin, Bone Spavin, Windgalls, and Splint—a certain remedy.

CARLTON'S CONDITION POWDER FOR HORSES AND CATTLE.

The changes of weather and season, with the change of use and feed, have a very great effect upon the blood and sinuous fluids of horses. It is at those changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Heaves, Worms, Botts, &c. All of which will be prevented by giving one of these powders, and will at any time cure it when any symptoms of disease appears if used in time. They purify the blood, remove all inflammation and fever, loosen the skin, cleanse the water, and invigorate the whole body, enabling them to do more work with the same feed. The action of these powders is direct upon all the secretory glands, and therefore have the same effect upon the Horse, the Ox, the Ass, and all Herbivorous animals—all diseases arising from or producing a bad state of the blood are speedily cured by them.

THE subscriber has just received, per schooner "Enterprise," via New York, 300 Barrels No. 1 Canada S. F. FLOUR, From St. John;

100 Bags Flour,
12 Pieces Cumberland Butter,
30 Packages Raisins, &c.
DONALD CLARK, St. Andrews, Feb. 8, 1852.

Valuable Properties for SALE OR TO LET.

105 Dwelling House, Stores and Wharf, in the town of St. Andrews, formerly known as the Jones' property.

115 Dwelling House, Out Houses and Wharf, in the town, formerly known as the O'Neil property.

100 Acres of Land in St. James', about one hour's drive from Milltown, St. Stephen.

100 Acres of Land in St. Patrick, through which the St. Andrews & Quebec Rail Road is projected, and in which, or in its immediate vicinity, will be established a Depot, which will very materially enhance its value.

15 Acres of Land, within five minutes walk of the town of St. Andrews, a delightful situation for a Country Seat. If not shortly disposed of, it will be laid off in suitable lots for building purposes, and let to lease or improvement.

The subscriber begs to announce to the Public, that he has had his Lands, which are within ten minutes' walk of Chamcock, and of which will sell or lease Building Lots on a long and easy terms. It is evident, that, owing to the Railroad passing through it, the property is well and commodious harbor accessible to all winds, to vessels of the largest tonnage, with an unlimited and unobstructed passage, which there are strong reasons to believe, will be one of the most desirable situations within the British North American Colonies for the Geopline, the Mechanic, and Engineer. It is in view of which the said Building Lots are offered to the Public on the most reasonable terms.
