

TURKEY SETS UP SOVIET RULE

OTTAWA LEGISLATORS HAVE HEAP OF WORK AHEAD

Budget May be Delayed Until Premier Returns

WEST WILL DEMAND A TARIFF
REVISION DOWNWARD.

(Special To The Record)

OTTAWA, April 22.—Legislators returning to Ottawa today after the recess are faced with an exceedingly heavy programme of important business. In fact practically the whole of the government's programme of legislation is still to be dealt with. In addition to the budget there are the Franchise Act, the amendments to the Immigration, Dominion Lands, Grain and other acts. And the prohibition measure, railway legislation, civil service reform act. There are about 40 other items of business to be dealt with, and as a consequence it is anticipated that session will run well on into the hot summer months.

Members so far have been given pretty free play in the matter of expressing opinions. From this forward there will be a considerable tightening up. The Government is taking Wednesday now for government business and private members will have to be content with Mondays only.

There is considerable doubt that the budget will come down until after the Premier gets back and he will not come until the peace terms have been signed inasmuch as his signature and those of his colleagues overseas are to be affixed to them.

At the present time it is quite impossible to predict just what measure of tariff reform Sir Thomas White has in contemplation. The Western members' minimum demands it is stated comprise substantial reductions in and in some cases abolition of the duty on agricultural implements, oils, cement, lumber, the staple types of boots and shoes, cottons and woollens.

If the budget does not satisfy the westerners it is considered more than probable that there will be an amendment moved to it from the government's own side. But there will not, from present indications, be an exodus from the government to the Opposition benches.

Rather there will be a cross-bench section formed. The Opposition has little hope of any accession of strength during the present session at least.

Canadian citizen ship is involved in the new Franchise Act, and in the amendments to the Immigration Act. On the former measure, W.F. O'Connor, K.C. and Hon. Arthur Meighen are at present working and drafts on the new act are now in hands of the ministers.

The controversy in connection with the Hutterites has forced upon government by the probable necessity of discriminating for the present at least, between citizens of any one country desiring of coming to Canada. In this respect a new principle is involved. It is probable that for period of reconstruction a certain elasticity in this regard will be provided for.

Prohibition is still in the melting pot. Civil service reform, one of the knottiest problems which the government has to face, has been under consideration for some time past. A parliamentary committee is to be formed to consider the question of lopping off deadwood and bringing the service to the greatest point of efficiency and economy.

A further committee will sit on the question and still another on the question of technical education. In addition the public accounts committee, which has been dormant for the past three sessions, shows signs of awakening to life and turning its attention to expenditures, as set forth in auditor general's report. Altogether there is a great deal of work still ahead of the legislators of the dominion.

TORONTO, April 22.—Dominion Secretary C.G. McNeil, states that more than 700,000 G.W.V.A. badges have been issued and that 30,000 more are now on order. With four manufacturers endeavoring to fill the demand. He estimates that the present membership of the G.W.V.A. is in the neighborhood of 100,000.

IF A CROSS-OCEAN FLYER LANDS IN THE SEA HERE'S HOW THEY MAY SAVE HIM FROM DEATH.—Any old way to get him aboard, that's the way the trans-Atlantic flyers will be rescued if they fall into the sea on the trip across. Boats will be stationed along the routes to be taken and if a wireless of distress is heard, there'll be a seaworthy craft speeding toward the cripple. These pictures of the recovery of a seaplane after it had vanished a enemy flyer show how it will be done. The machine in the picture was flown from the decks of the Furious and picked up by the Destroyer Empire. Inset is a picture of an airplane which has just landed in the water, and is prevented from sinking by the air-bags that have been inflated just previous to landing.

in vacation time," said one farmer, who was in the city yesterday. "And," he added, "it is not to be wondered at that the farmer is willing to pay a higher price for the sold."

Collingwood is Stirred

OVER THE EMPLOYMENT OF
ALIENS

(Special To The Record)

TORONTO, April 22.—The provincial headquarters of the G. W. V. A. has received word that the taking on of 250 Austrians by the Collingwood shipbuilding company had created some commotion in the northern town. The mayor of the town, at the request of the G. W. V. A., took the matter up with the management and as a result it was agreed that as far as returned men were available the aliens would be displaced in their favor.

Retiring Official Honored by Staff

Mr. H. F. Boehmer, the recipient of the Words and Tokens of Appreciation

Honor and appreciation were shown the retiring postmaster, Mr. H. F. Boehmer, this morning by the members of the staff. The postmaster was made the recipient of an address and a slight token, a handsome ring. The Clerks and Letter Carriers, who made the presentation, expressed their feelings and also congratulations. The address follows: Mr. H. F. Boehmer, Esq., Postmaster.

We learn with sincere regret of your departure from our midst, and we take this opportunity to express the same to you, as well as our hearty congratulations for the recognition you have been shown in the Financial world by being chosen for the Managerial duties in the local branch of the Royal Bank of Canada about to be opened in the Twin City.

We have pleasure, therefore, in asking you to accept this ring as a slight token of our kind regard. You will note the compass emblematic of what you have been to us as our guide as Postmaster, and the Square is also emblematic of the "square deal" which you have given every one of us. These truths will shine as the Sun after you have left us, and be an incentive for us to follow the Golden Rule of the Brotherhood of Man.

Our parting word to you will be, the best of luck and a future full of good things. Signed on behalf of the Clerks and Letter Carriers. C. Shippanowski Pres. C. L. Oswald H. A. F. Pidlush Sec. A. P. Strub Kitchener, Ontario, April 22nd, 1919.

The pleasing event took place at the Post office about ten o'clock when the retiring Postmaster was pleasantly surprised by the staff and presented with the beautiful Masonic Signet ring suitably inscribed. The address was read by Mr. C. Shippanowski while the presentation was made by Mr. Clarence L. Oswald.

Mr. Boehmer although taken completely by surprise replied in a few well chosen words expressing his appreciation of the gift which he said he would always hold in grateful remembrance. During the past four years he had always found it a pleasure to work with the staff who had proved willing workers and had become efficient in the several departments.

Two hundred thousand dollars will be spent on improving Hamilton harbor.

No Clue to McCullough's Whereabouts Yet Found

POSTCARDS REACH TORONTO DAILY

(Special To The Record)

TORONTO, April 22.—Frank McCullough, the condemned murderer who escaped from Toronto jail, continues his efforts to disclose or conceal his actual whereabouts. To-day, a Toronto newspaper received its usual daily postcard from McCullough, being on this occasion written from Massey, Ontario, a small town on the Soo-Line of the C.P.R., midway between Sudbury and Sault Ste. Marie.

On the postcard McCullough brazenly wrote, "I will be here for two or three days," as if to invite the police authorities to come and get him. The police now question the information purporting to be correspondence from McCullough and think the letters are only intended to throw the officers of the law off his track.

Investigation Begun This Morning

TORONTO, April 22.—Investigation into the escape from the Toronto jail of Frank McCullough, condemned murderer, was opened today by A.W. Dunlop, provincial inspector of prisons. The inquiry was private. Hugh MacDonald was retained by the Veterans Association to behead of Private Ernest Currell, the guard at the home of escape.

TORONTO, April 22.—When seen after Pte. Curral, the principal witness, had given his evidence, he said that he could give no statement yet. Sheriff Fred Mowat was present, and took part in the proceedings. The witnesses were all left outside the room of inquiry during the taking of evidence, each being called in turn. Besides Pte. Curral, the two other guards, A. Amory and Sam Polli, gave evidence and also Doris Mytton. The latter was accompanied to the jail building by her mother, Mrs. Gladys Mytton, of Todmorden. Mrs. Mytton stated that she did not receive a summons or subpoena but just a written request to be present at the inquiry.

National Railway Cars Derailed at Elgin

No One Was Injured in Mishap.

TRAIN CARRIED PROMINENT CANADIANS

(Special To The Record)

TORONTO, April 22.—When the regular Canadian National passenger train, which left Toronto at 10:55 last night, was passing Elgin station enroute for Ottawa at 5:08 o'clock this morning, six of the eleven coaches making up the train were derailed from a cause at present unknown. The cars remained upright in the station yard, and no one was injured.

Elgin is 64 miles west of Ottawa, and the train was running sharp on time. Among the passengers were D.B. Hanna, president of the line, Sir Thomas White and General Mewburn. An extra train was made up which the passengers were transferred. This train left Elgin at 9:15 for the capital city.

AN OPEN SWITCH WAS CAUSE.

(Special To The Record)

OTTAWA, April 22.—On the relief train bound for Ottawa, at 9:30 a.m., April 22, Canada's Acting Prime Minister the Minister of Militia caused

members of parliament, the President of the Canadian National Railways and many well known Torontonians narrowly escaped death or injury when the C.N.R. train, which left the Union station last night at 10:55 p.m., crowded with Easter holidaymakers returning to Ottawa, jumped an improperly tracked switch at 6:25 a.m. at Elgin, a little way station about sixty miles from Ottawa. Seven out of the eleven coaches comprising the train were derailed. The track was absolutely obliterated and deep trenches were ploughed by the plunging cars but no one was hurt. The car which suffered most was the third in train, the private car of D. B. Hanna, president of C.N.R. On board with him were Sir Henry Drayton, Chairman of the Dominion Railway Board, Lady Drayton and A. J. Hills of the C.N.R. All of them were badly shaken up but did not suffer the slightest injury.

The car itself was buried up to the steps and now lies at an angle of 45 degrees. The wheel pins are cracked and the observation platform at the back twisted out of shape. So great was the jam that the doors had to be pried open with crowbars to release the distinguished people imprisoned within. Lady Drayton was none the worse for her experience and spent part of the hours of waiting for the relief train seated on a grip in the sunlight.

"It was evidently an open switch that caused the derailment," said Mr. Hanna. "We cannot tell who is responsible until we hold an investigation."

The passengers on the train included Sir Thomas White, Major-General S. C. Mewburn, D. B. Hanna, Sir Henry and Lady Drayton, Major General J. T. Fotheringham, Dr. Michael Steele, M.P. of St. Marys, Ont., Thomas Foster, M.P., East York, Col. Wm. Beattie, C.M.G., D.S.O., Director General of the Chaplain services; G. M. Murray, Secretary of the C.M.A.; Frank Beer, Tom King of the Toronto Times, Wm. Marchington of the Toronto Globe, Arthur Ford of the Toronto Times, Mr. Fry of the Farmers Advocate, London, Ont., and the Star reporter.

R. Carmichael and J. White, both of Trenton, were the engineer and fireman of the wrecked train. According to White, the train was speeding along at 25 miles an hour when they felt the air go up. They looked and saw the carriages beginning to leave the track. They pulled up in record time. The engine stayed on the rails, so did the first baggage car. The second baggage car and seven coaches left the rails. The last two coaches stayed on. Very many of passengers were unaware at the time that an accident had happened.

Only these in the forward coaches felt to any extent the rocking and reeling of the coaches as they plunged across ties and scored deep into the earth. Some of those in the coaches awoke blissfully on until a realization of what had happened sunk into their consciousness. A calm, unharmed, unrocked shaver was the order of the day. Later everyone strolled into the bright spring morning to view the mishap. The train lay in a form of zig-zag curve, right on edge of the Elgin station, right in the heart of the Rideau district. The rails were scattered in all directions. Splinters of wood strewn all around were relics of what had once been ties. Otherwise all was peace. Escaping steam was the only sound that broke the stillness of the morning.

Everyone's thought was breakfast. And very few got any. In time a few enterprising newspapermen did secure a sip of coffee, bread and crabsapelly but they were lucky. Most of the others had to fast.

There were three private cars on the train. One occupied by D. B. Hanna, another by the Acting Prime Minister, Sir Thomas White, and the third by the Minister of Militia, General Mewburn. The first was the only one to suffer. The last two were at the rear of the train and escaped derailment.

An American on board criticized the make up of the train whereby a private car was sandwiched between two wooden cars. Such an arrangement, he declared, was against the law in the United States where experience has shown that in event of a collision two

HUNGARIAN GOVERNMENT HAS, IT IS SAID, RESIGNED

Did so Under Pressure of Hungarian Troops.

SOCIAL DEMOCRATS MAY SUCCEED TO POWER

AMSTERDAM, April 22.—The Hungarian government, headed by Bela Kun has resigned, under pressure of Rumanian troops, according to dispatches to the Central News from Vienna, quoting reports received in that city by serial mail from Budapest.

Chaos is said to prevail at the Hungarian capital. It is reported that Czech forces have joined the Rumanian and have defeated the Hungarian Soviet troops. It is also said that a social democratic regime, headed by Sigmund Kunfi the present Commissioner on Education may succeed to control.

500 Limerick Men Spent Night on Bridge

HAD NO PERMISSION TO LEAVE THE CITY

LIMERICK, April 22.—Five hundred strikers, who went outside the military limits of city yesterday and who were not permitted to return over Sarsfield bridge last evening, because they would not show military permission, spent the night on the bridges and resumed their demonstrations. This morning the soldiers were still endeavoring to not permit the strikers to cross the bridges. Up to noon today there had been no clashes between the opposing forces.

A Package of Money, Case and Cheques, Lost

Monday's Proceeds at G. T. R. Disappears.

HANDSOME REWARD OFFERED FOR ITS RECOVERY

Owing to Easter Monday being a legal holiday, Mr. J. Milhausen, G.T.R. Agent was unable to deposit his day's receipts of cash. He made a package of it and carried it home in the inside pocket of his vest. After supper he visited the Automobile show and called on a neighbor. This morning the package was missing and he has been unable to locate it. It contained several hundred dollars in cash and a number of cheques made payable to the G.T.R. In another column he offers a handsome reward to the finder for its return. The finder will confer a favor on him by returning the package, since were it not recovered Mr. Milhausen will require to make it good to the company. He is convinced that the money was not taken.

Changes in Pension Act SOLDIERS CHILDREN TO GET EDUCATION PRIVILEGE

OTTAWA, April 22.—Some changes in the existing scale of pensions will undoubtedly be made in the new Pension bill being drafted by a special committee. In addition to some increases in pensions allowances, it is understood the bill will in some instances extend the privileges of children of soldiers killed, or who died in service, in regard to education.

Miss Mabel Dunham is 1st-Vice President OF THE ONTARIO LIBERAL ASSOCIATION

TORONTO, April 22.—The Ontario Liberal Association elected the following officers this morning: President, D. M. Grant, Sarnia; First-Vice, Mabel Dunham, Kitchener; Second Vice, W. J. Sykes, Ottawa; Secretary-Treasurer, N. W. Hard, Toronto.

Auto Show Declared to be Canada's Finest This Year

Prominent Members of Ontario Motor League Eulogistic in Their Opinions.

"I always like to come to Kitchener. You are a progressive people and always have been such and I am sure you will be as progressive in the future. You never seem to be asleep here. I wish to congratulate you upon this excellent show. It is the finest Canada has put on this year. Judging by it and the enthusiasm of the automobile men you ought to be on the map in the future even more conspicuously than in the past." Dr. P. E. Doolittle of Toronto said last evening in his address at the opening of the automobile show.

It was the privilege of Dr. Doolittle to formally open the event and he did it well. It was fitting that he should do so for he was the founder of the Ontario Motor League, also he rode the first high wheeled bicycle and the first safety bicycle and drove the first automobile in this country. With him on the platform was Mr. W. G. Robertson, Toronto, the secretary of the Ontario Motor League, who also spoke briefly.

The show on the opening evening revealed a brilliant display of motor vehicles and appliances. There was enthusiasm and optimism among dealers and attendants. Everywhere there was evidence that the conviction was generally held that the show would prove worthwhile. Hundreds of interested attendants, and numerous prospective buyers, not only passed the exhibits but displayed an interest in the same, which indicated that the attendance might prove profitable to the exhibitors as well as to themselves.

The proceedings were opened by "Pop" Philip who introduced the visiting gentlemen. He first called on Mr. E. C. Kabel, city president of the North Waterloo Motor League. Mr. Kabel briefly spoke congratulating those behind the show and the dealers also remarking that they had outdone Montreal. Everybody, especially manufacturers of articles for exhibit should attend the show. He then called on Dr. Doolittle.

SOVIET SET UP AT CONSTANTINOPLE

PARIS, April 22.—A revolution has broken out in Turkey and a Soviet government has been declared. A revolutionary committee has been established at Constantinople, according to a telegram received here from Kiev, quoting the Bolshevik representative at Odessa, who says that the Turkish consult here have received official announcement of the change in government.

German Government Will Take Plebiscite

Within 48 Hours of Receipt

OF ALLIED PEACE TERMS

BERLIN, April 22.—Appurtenances for an election, such as voting booths, lists and clerks are all in readiness for an immediate plebiscite on the peace terms which can be completed all over Germany in 48 hours, according to information secured from sources close to the government.

Preparations have been secretly going on for several days, it is declared, and if the terms are published in the morning a referendum can be taken next day and an answer can go to the entire 48 hours later.

It is asserted that the only probable change of an affirmative answer would be in case there is an agreement to negotiate the details of the terms. Thus, if an indemnity is fixed, Germany cannot hope to dispute the total, but must be allowed to send experts to discuss ways and means of payment it is said.

Strong Demand Ex- ists for Farm Help

MORE THAN 600 APPLICANTS ON HAND

(Special To The Record)
TORONTO, April 22.—"There is still a very strong demand all over Ontario for farm labor," was the statement made to-day by J. A. Miller, Superintendent of the Ontario Labor Bureau. "We have over 600 applicants for help on our files from various points in the province," continued Mr. Miller, "and the demand is constantly increasing."

"Never before were the farmers in greater need of farm help and never before were the inducements to go on the land so high. Forty to fifty dollars, with house and board, are the average arrangements. Although I have known a number of cases where these figures were exceeded."

"Are there any soldiers going on the land?" he was asked.

"Yes. Quite a number," replied Supt. Miller. "Last week out of 669 men the bureau sent to the farms, 23 were returned men. In nearly all cases we have record of married soldiers are making very acceptable men and are making good."

The reporter has been informed that in many instances Ontario farmers are expressing a preference for returned men because of the fact that the life in the open has accustomed them to outside work. "A soldier can do twice the work of a visiting, office-civilian can do

Regular Meeting of W. and L. Com.

BUSINESS WAS ROUTINE.

The regular monthly meeting of the Water and Light Commission was held yesterday afternoon at 2 o'clock. The business transacted was principally routine. The monthly report for March was as follows:

Report for March 1919.
Water Dept.
Amount of water pumped in March 23,500,000 gallons.

A decrease over Feb. of 420,000 gallons, or an average daily pumping of 753,000 gallons.

The highest number of gallons pumped in one day 1,100,000 gals. The lowest number of gallons pumped in one day 230,000 gals.

Current consumed for pumping 48,240 kilowatts.

Gallons pumped per kilowatt 847.

Time of operating turbine pump 20.5 hrs.

Cost consumed during March 21,751 lbs. or an average of 701 lbs. per day.

No. 1 Boiler was under steam 744 hours with an average steam pressure of 52 lbs.

There was no fire alarm in March. Kitchener got 13,951,230 gallons of water in March or a total of 42,391,875 for the quarter.

The new air compressor is here and installed. The evening service is being increased to 100 per cent.

Referring to water meters, the Neptune Meter Co. of New York propose manufacturing the Trident Meter in Toronto, but we do not know if this will reduce the price.

In my last report I mentioned about the "Leeds" Meter, I wrote to ten towns and cities in Ontario who are using this make, and practically all report them satisfactory, so I placed an order for 25.

We have been contemplating for some time the purchase of a lathe for use at the Waterworks, and got an attractive price of about 1-3 of its cost, subject to immediate acceptance.

Mr. Beam and I went to Preston and examined same found it as represented, and I closed the deal.

Gas Dept.
This department, from the point of view of the manufacturing and that some changes are very necessary; some defects we have discovered and remedied same at no great expense, but further changes will cost from \$1000.00 to \$1500.00.

The electric motor drive for the fan referred to in my last report, is working nicely and will effect quite a saving in coal.

The voltage regulator referred to in my last report is installed and there is a vast improvement in the lighting, including Rural Lines, and the ladies are delighted at the improvement when traveling.

We got a new power consumer, viz. Reitzel Bros. who are installing a 60 H.P. motor; this will necessitate an order for this Commission of about \$1900.00 for installation to take care of this, including transformers.

Street lights were burning a total of 347.3 hours or average of 11.2 hours per night.

I submit for your consideration a financial statement covering the operation of the three plants for the three months ending March 31st.

Respectfully submitted,
C.W. Schiedel
Manager.

Easter Dance at The Orpheus

The grand dance at the Orpheus Hall last night was one of the most successful ever held under the Societies auspices there being over 100 couples present. Krug's Orchestra supplied the music and delighted the large crowd by their up-to-date numbers. Owing to a mix up in dates the special car chartered for the convenience of the Kitchener patrons did not materialize but at that the neighboring City guests did not complain. They had had a good time and rather enjoyed the walk home. So successful

LABOR CLUB DANCE.

There was an excellent attendance at the Easter Dance held in the Labor Club Hall last night and a right good time was had by those in attendance. Rook's Orchestra of 6 pieces supplied the music in their usual highly accomplished manner. The dance was a success in every respect and it is the intention of the committee to hold them regularly.

The Report of the Stationing Committee

Rev. S. E. Schroeder
Slated for Waterloo.

The morning and evening session of Saturday were devoted to Conference business. The evening service was held in the interests of Canada Conference Missions. Rev. K. Gretzinger and Rev. B.R. Wiener were the speakers of the evening.

The Sunday services were full of spiritual joy and blessing. In the morning Lishop Heinmiller preached the ordination sermon to a large and appreciative audience. In the afternoon two young men J.N. Wettlaufer and M.G. Geil were ordained as Deacons.

Rev. B.R. Wiener then conducted a very inspiring Missionary service. The offering received amounted to nearly \$3,800.00.

The evening service Bishop Heinmiller again preached in the power of the Holy Spirit. The Church was crowded. On Monday morning the general business was resumed.

Ireland's Pleaders are To Get a Hearing

LLOYD GEORGE WILL RECEIVE
IRISH-AMERICAN DELEGATION

Paris April 21.—David Lloyd George the British prime minister has agreed to receive former Governor Edward F. Dunne of Illinois; Frank P. Walsh former chairman of the national war labor board and Michael J. Ryan of Philadelphia next week. The Americans were chosen by the Irish delegation in the United States to appeal to the peace conference on behalf of Ireland.

The arrangement for the meeting was made by Col. House of the American peace delegation at a luncheon to-day at the residence of the British premier.

Mr. Lloyd George was unable to receive the Americans this week on account of the pressure of business in connection with the peace treaty and requested them to remain over until next week for a conference.

It is understood that the Americans will be with Mr. Lloyd George the question of receiving the delegates from Ireland who are coming to Paris.

Toronto to London Flight Made in 100 Minutes

AMERICAN AVIATOR AND WIFE
MAKE FAST TIME TO
LONDON

LONDON, April 22.—Flying with his wife in a Curtiss biplane from Toronto to Fort Wayne, Indiana, Lieut. Ranser, of the U. S. Army Aviation Service, alighted behind the Hospital for the Insane grounds yesterday afternoon at 5:40 o'clock to replenish his gasoline supply.

The distance from Toronto to London, about 120 miles, was made in 100 minutes. This included the "take off" at Toronto and some time circling over East London, looking for a place to land.

The motor licenses have brought a big revenue to the provincial government. The Dominion Government has set aside \$200,000 for good roads besides what the province has.

We should continue our efforts to persuade the provincial government to expend a reasonable sum of money on the purpose. The motor truck traffic in this country is only in its infancy owing to the lack of permanent good roadways.

These developed, and greater prosperity will come to this country and to the whole country.

In conclusion I wish you every success with the show, both this year and next year. I believe that you will meet with great success and that Kitchener will be a great success.

Secretary Robertson.

When visiting the Automobile Show see the Bicycle Exhibit of the Canada Cycle and Motor Co., Ltd., of Weston, Ont., makers of the well-known C. C. M. Cleveland, Massey, Red Bird, Columbia and Perfects Bicycles. All the above lines are handled by local dealers.

Butler Bie. Co. handles the Cleveland; H. H. Meyers handles the Red Bird; Geo. Steinmetz handles the Massey & Perfects; A. Shipping handles the Cleveland, Dobbin Motor & Electric Co. of Waterloo handles the Columbia.

The exhibit is in charge of T. B. McCarthy and W. C. M. Lachin.

"TOOTS" ON THE SHOW
There isn't an auto exhibitor who did not make a sale yesterday.

The first sale was made by Mr. L. Sattler; it was that of a bicycle.

The comments of visitors is that the man behind the gun, Pop' Philip, must have had years of experience at auto shows. No, it is his first attempt.

Local boys supply the orchestral music.

The big men are starting to arrive.

SUCCESSFUL DANCE
One of the most successful dances that have been held here in many years was that last evening by the Princess of Wales Chapter L.O.E. in the L.O.O.F. Hall. Over 200 people were present. The sum of over \$200 was realized in aid of the returned soldiers' relief fund. Attendants were present from Guelph, Hamilton, Toronto, Galt, Preston Brantford and the Twin Cities.

Maritime express, from Montreal to Halifax, was derailed on the International Railway at Kent Junction, near Moncton.

Replenishes Gasoline

Lieut. Ranser purchased the plane in Toronto and at first intended to ship it through. He afterwards decided to fly the machine. When he landed here he was assisted and shown every courtesy by the local military authorities, who furnished a motor truck to carry gasoline to him.

Mrs. Ranser was enthusiastic over the trip and enjoyed every moment of it, though it was very cold at the higher altitudes. When asked if she was not somewhat afraid, she replied: "Not in the slightest."

The landing of the airplane party created great interest east of the city, many automobiles with city and country people, flocked to the scene.

Lieut. Ranser, who is of the opinion that he has relatives here, will, with Mrs. Ranser, continue their flight westward this morning, following the C. P. R. tracks.

THE HOUSING ACT OF 1919

In discussing the Ontario Housing Act more stress was laid on the point that a Commission appointed by the city could extend assistance to mechanics and others who have no ready money than to those who have some means or own a lot. The latter instance are provided for.

In Section 12, Clause B provides that a private person who desires to erect a house for his own occupation, on land owned by him, may borrow the full cost of the house, up to \$2500.

And Clause C enacts that a private person who is able to buy a lot or is willing to pay 10 per cent. of the cost of the land and house, may secure a home.

While framing this legislation it was endeavored to provide for all points that could be foreseen. No new law is likely to be perfect. When it is attempted to apply it, instances will arise which were not anticipated. Seemingly the framers attempted to meet unforeseen contingencies by giving broad powers to the Director of Municipal Housing. Section 25 permits him to draw regulations which will make the Housing Act elastic in its application. He has already drawn a number of rules and regulations, which will broaden the terms of the Act. Among these are methods dealing with security which a borrower may give and apparently tending to shorten the period of repayment of the loan.

The Director would consider the acceptance of a proposal where a borrower would deposit with the Commission or a Housing Company, if formed, stocks, bonds, debentures, or other securities for money.

Or the borrower giving the Commission or Company power of Attorney or other authority to receive moneys whether in the shape of salary or otherwise and authorizing them to apply it on account of payments.

Or to accept the guarantee of a responsible resident of the municipality that the payments which the borrower is required to make under such agreement, over a stated period, will be made.

These regulations may guard against more houses being constructed than are needed and seek to establish that the persons for whom they are erected are responsible persons, who can be relied on to fulfill their parts of the undertaking.

The successful working of the Housing Act will largely depend upon the practical-mindedness of the Director. This city will have the opportunity of hearing him explain the intent and scope of the Act at a public meeting to be held here on May 7, next.

To provide needed housing is a problem. Therefore it is to be hoped that all concerned will attend, hear its workings explained and put any questions they may deem relevant.

A MESSAGE TO THE YOUNG MEN OF THESE COMMUNITIES

PHILOSOPHY OF THRIFT—IN THREE PARTS

PART 1—METHODS OF THRIFT

By F. W. Harding
Thrift is much written about and often talked of, but very little, if anything, is said as to a proper method of practicing it. The interpretation of the idea ranges from the one who saves every penny to the one who occasionally saves.

One man conceives the idea that thrift means the laying aside of every penny, the denying of himself and those dependent upon him of everything that makes life worth living. He would spend money for only the barest and plainest food and clothing, shriveling his very soul and stunting the spiritual life of himself and his family. He is rarely a person worth meeting, for he probably denies himself good reading and has not developed mentally. His apparel is such as to cause him to stay at home and literally bury himself.

Another has the happy-go-lucky idea of saving a little now and then, and somewhere between these two extremes is the level-headed idea of methodical living and saving.

The first example, if followed by all, would at once plunge the country into the direst of financial distress and hard times, and only those engaged in the production of food and cheap clothing would have employment, the rest would be in want. This is a strong statement but true, and it is caused by the thoughtless and miserly to stop and think, it has served a good purpose.

Civilization demands not only necessities, but some luxuries and many semi-luxuries. The large proportion of the population are busy and happily engaged in supplying those whole needs. It is easily seen then that the happy-go-lucky man in scattering his money freely, helps to make the country prosperous by keeping money in circulation. He would not be able to buy many Government bonds, it is true, neither has he done much to provide for a rainy day or for his old age, but he has enabled others to do so. He is the better man of the two extremes at that, for he has added to the happiness of his fellows. It is well for the country though that all are not like him for our property would be fictitious and inflated and there would be no money in the banks to promote enterprises or to assist the Government when it needs assistance.

Artificial wants and desires create a mental habit of dissatisfaction with life, and it has been found that no ordinary salary, however large, can cover all those desires. A man is happy in proportion to the absence of artificial wants, and it takes firmness of mind and purpose to prevent their creeping in.

A sensible, thrifty man realizes that to properly support his brain, he must have plenty of good and wholesome food, (but he does not waste it) and that good clothes enhance his self-respect, enabling him to appear among his fellows without embarrassment. Also that good reading and music enlarge and exalt the mind and make him a desirable companion and good citizen. By the indulgence of these modest wants he helps others to prosper, and if a man of family, his children are likely to be happy, and a happy childhood is the best kind of foundation for a country's future manhood. This is a simple, fine line and his real needs go no further. These are the people whose lives and savings are

methodical, the ones who have bank accounts and who can buy Victory Bonds or Thrift Stamps and provide for old age.

All of this is obtainable at a comparatively small expense above the barest necessities of life, and is within the reach of most people, in proportion to the position of life they occupy.

PART 2—HOW TO GET RICH ON A SALARY

The wailing cry we ever hear is: "You can't get rich on a salary." This is the excuse of the self-indulgent and thoughtless. The pity of it is that so many believe it because it is oft repeated.

The word "Riches" really does not mean much, for it cannot be defined to the satisfaction of every one. To one man it may mean a comfortable reserve fund that will tide him over adversity, and be large enough to provide for his old age in the way of life he has been accustomed to.

To another, it means unlimited wealth and to such a man the possession of a half million of dollars would not make him feel rich. Riches are relative. It depends upon our mental attitude toward the world. Each must decide for himself the definition of riches. No ordinary income, however large, will satisfy those who have vain and foolish wants.

It is to the first man that these lines are addressed and a method outlined. The saving of much money above a fixed scale of comfortable living, is altogether dependent upon a regular habit of service, occasional savings will not do it. It is a mathematical proposition entirely, based on the fact that money makes money, and this interest money, and all raises of salary, bonuses, etc., go into the reserve fund.

To illustrate, suppose that a man received \$125.00 per month and saves \$25.00 per month or \$300.00 per year. He receives a raise to \$150.00 per month, and by keeping on the same scale of living he will save \$600.00 per year or 100 per cent. more saved on a 20 per cent. increase of salary. How many will do this? Very few, but the wise man will if he was comfortable before, at least until his reserve fund warrants an increase in his way of living. To show how money makes money, suppose that the ordinary man at the age of thirty-five has a reserve of \$5000. In twelve years, at 6 per cent. this will be \$10,000, and in twelve years more \$20,000, without bonuses or increases being taken into account, and this too without having saved another cent after thirty-five years old. It shows plainly that if one kept on saving after thirty-five he would accumulate a large sum.

This is an appeal to the young man to form the habit and begin saving regularly now. The advice is good for the older man, too. It is only the old, careless, thoughtless men who originated the saying quoted above. Regularity, method and habit of saving bring home the bacon.

PART 3—FEAR

Fear is mankind's worst inheritance from the remote ages. One can almost imagine the scene when he first appeared on earth and his plight must have been pitiable in the extreme, for he was defenseless as compared to other animals. He had neither claws nor teeth for defense, and could not fly nor could he run very fast. The great beasts, reptiles and birds of prey, in those far-off days were his physical masters, and it is a wonder that he ever survived. His abode was either in trees or caves and neither was safe from intrusion, further, his subsistence was very precarious. He was in constant terror all of the time, and a form of this fear is instinctive in all of our minds to this very day. It is true that at that time he was nearly, if not quite, an animal himself, but his experiences have left their mark upon our minds. When he learned to throw stones and use clubs he made a little progress towards survival.

Not only did he have the beasts of prey to contend with, but he also had to defend himself from his fellow savages. The strongest killed the weakest and appropriated all of his belongings.

As time went on, men formed in clans and tribes for mutual protection. The upheavals of mountain ranges and gradual cooling of the earth's surface, caused great climatic changes, which resulted in the extinction of some of the larger and fiercer beasts and birds of prey, and man began to have an ascendancy over the remaining animals. Mankind then began to multiply but they still had the fear of death in some violent form from either animals or their fellows in numerous tribal wars.

As civilization advanced this fear became somewhat lessened and the fear of death from starvation became more prominent. If he was starved out of the tribe, death was sure from either starvation or violence, so he became afraid of other men. In patriarchal times men were more or less slaves and lived by the favor of the Master and feared it withdrawal. This debasing fear of man and the fear of starvation is our inheritance from those far off times.

Fear is paralyzing and it more or less prevents our best efforts and full development. If we were without fear we would be more likely to courageously attack the biggest problem with our heads up and chins in the air facing the world squarely.

But we are held back by fear. If we labor for others as most of us do, we hesitate to take a chance because a failure may mean being thrown out of employment, and thus through fear we become craven in a more or less degree. Worry too takes something out of us, and we are handicapped by it to a large extent.

What is the remedy to-day for fear and worry? Simply money, a Reserve Fund, such as a wise business man provides to carry him over bad times. You are a business man too, for while he sells commodities, you sell skill. How to get a Reserve? It is to be had by denying yourself the things not absolutely necessary to procure for your happiness and comfort. If you are the head of a family it is true that it is hard to deny others some of their foolish desires, but it is your duty as the provider and head of the family to do so, until you have a reasonable reserve. It is a mistaken kindness not to refuse. A man with a reserve against sickness, or lack of employment, even though small, has little fear, he is more cheerful, and because he is so he is more apt to be given better employment and socially sought out. His work is better and he is more likely to be advanced in position, because the employer realizes that a man who can manage his own affairs well can help to manage his. Is it not then worth while to get rid of FEAR?

KING GIVES MAUNDY MONEY

Maundy Thursday was observed in Britain to-day with the many quaint ceremonies and practices which the custom of years has established for the occasion. In London the most picturesque feature of the observance was the historic ceremony of distributing the King's Maundy money to the poor of the realm. Fifty-three aged and penniless subjects of the King were gathered in to be the beneficiaries of His Majesty's bounty. This number corresponded to the King's age. A notable gathering of the aristocracy filled Westminster Abbey to look on while the rites of the old custom were carried out.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh, and to Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft curved line of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are usually due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by A. J. Roos in Kitchener and most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate quickly produces a welcome transformation in the appearance; the appearance; the increase in weight frequently being astonishing.

This increase in weight also carries with it a general improvement in the health. Nerve stress, sleeplessness and lack of energy, which nearly always accompany excessive thinness, soon disappear, and eyes become bright, and pale cheeks glow with the bloom of perfect health.

CAUTION—Although bitro-phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, it should not, owing to its remarkable flesh-growing properties, be used by anyone who does not desire to put on flesh.

THREE PRELATES TO RECEIVE PALLIUM.

During the coming month there will be witnessed in three widely-separated cities of the United States a most impressive ceremony, and one which has never before been conducted in that name in Rome by the Apostolic See. This is the conferring of the sacred pallium upon the new archbishops of New York, Philadelphia and St. Paul. According to the canon law, a newly appointed archbishop must within three months after his appointment apply to the sovereign pontiff for the pallium. This is the archbishop's insignia of office, without which, under ordinary conditions, he can not invoke councils, consecrate bishops, ordain priests or consecrate churches. However, in the present cases of the new archbishops of New York and Philadelphia, the Most Revs. Patrick J. Hayes and Dennis J. Dougherty, respectively, a special dispensation was given to permit them to exercise the functions of their high office previous to the formal bestowal of the pallium, this because the wartime conditions made it difficult to send the sacred vestment from Rome within the customary time. After the newly appointed archbishop has applied for the pallium, and after appropriate ceremonies in Rome, it is forwarded to the archbishopal see and an archbishop or other high dignitary of the church is delegated by the Pope to confer it upon the new incumbent.

The pallium is a small band of white lamb's wool which is worn upon the shoulders. The wool from which the pallium is made is obtained from lambs specially selected from amongst the flocks owned by various monastic orders in the vicinity of Rome. Annually on the feast of St. Agnes two or three lambs are brought to the church of that name in Rome by the Apostolic Subdeacon while the Agnus Dei is being sung. The lambs are presented at the altar and received by two canons of the Lateran Church. They are then sheared and the wool is sent to the

Grandma Never Let Her Hair Get Gray

She Kept Her Locks Dark and Glossy with Sage Tea and Sulphur

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though at home is messy and troublesome. At little cost you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two your hair becomes beautifully darkened, glossy and lustrous.

Gray, faded hair, though no disgrace is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger. This ready-to-use preparation is a delightful toilet requisite and not a medicine. It is not intended for the cure, mitigation or prevention of disease.

Convent of Torre de Spechi, where the wool is woven and the pallium made by the nuns of the convent. The pallium is then sent back to Rome, and the Apostolic Subdeacon receive it in great pomp and proceed with it to the tomb of St. Peter. The pallium is laid upon the tomb and remains there a day and a night. It is then sent by a trusted messenger to the see which the new archbishop is to govern.

The coming consecration ceremonies will take place in the cathedrals of New York, Philadelphia and St. Paul. Archbishop Bonzano, the Apostolic Delegate at Washington, will be the officiating prelate. In attendance will probably be the three North American cardinals, together with archbishops, bishops, monsignori and clergy from many parts of the United States.

The ceremony will begin with the celebration of a solemn pontifical mass, during which the pallium lies upon the center of the altar. At the conclusion of the mass the newly made archbishop takes his oath of office, after which, while the Agnus Dei is being sung, the officiating prelate solemnly invests him with the pallium. The new archbishop then pronounces the archiepiscopal blessing, the ceremony concluding with a solemn procession in which all the clergy present take part.

The archbishop retains his pallium for life, and when he dies it is buried with him. He cannot wear it outside of his province, and can use it only on certain days. It can be worn on all Sundays and on the following feast days, Christmas, Circumcision, Epiphany, All Saints, Palm Sunday, Easter, Corpus Christi, St. John the Evangelist, St. John the Baptist, St. Stephen, the feast of Apostles, and at all ordinations or ceremonies at which the archbishop may officiate.

"No? You mean the Am I then so believe this friendship of yours was contracted here—since you came into my house?"
"I met him" began the girl in a breathless stammering fashion, utterly daunted by the poverty of her case and the cruel brilliance of the searching eyes brought to bear on her.
"So much I know" pitilessly "You let him yesterday for example. That I witnessed for myself. What I am desirous of learning is, how it was you first arrived at a knowledge of his existence. You will excuse my persistence I am sure" with abominable sweetness "but may I ask the name of the mutual friend who introduced him to you?"
Dead silence.
He paused, and fixed her with his unrelenting eyes. There is something revolting in the smearing tone in the cruel smile, that makes even thinner the already too thin old lips.
"I think—if you will let me explain" interposed Vera hurriedly I may be able to set right what now seems a little obscure a little open to misapprehension." She comes quickly forward as she speaks, but Dyerat putting up his hand checks her.
You are really too good coming to my help like this, trying to take the trouble off my shoulders, but I assure you I am quite capable of undertaking this case" he says idly and your presence, as I before remarked, in not wanted here. What" turning again to Griselda—not a word Am I to understand that you, my niece, have commenced a low flirtation with a man unknown to you, a man who may be, for aught you can say to the contrary the common son of a common butcher, or baker or—"
He is the son of no butcher or baker" interrupts Griselda, her cheeks aflame her eyes flashing.
No? You have discovered so much? You have made strides in your friendship apparently. Does he rise to the giddy height of the law? Is he, perhaps the fifth son of the local attorney?"
No," says Griselda.
You are better informed than I believed. This idyll of yours must have been of stronger growth than I imagined. You seem to have got a good deal of information out of the young man, person information, which, between lovers, I am told is always the most interesting. If not the son of the resident butcher, or baker or attorney, perhaps he told you whose son he was? If so, pray satisfy my burning curiosity!"
He has told me, certainly," says Griselda defiantly.
And sworn you in not to betray the knowledge I see" says Mr. Dyerat with an irritating laugh Cautious youth!"
"He swore me to nothing; nevertheless I shall tell you nothing" retorts she.
The truculence of your attitude and expression conveys that to me without words" says Dyerat with a contemptuous shrug. "Unhappily for you, however heroes are completely thrown away upon me. Now hear me" his manner grows suddenly hard and stern, and leaning forward he compels her gaze to meet his "One word for all—you shall meet this lover of yours no more!"
"Lover?" cries the girl, stung by the insolence of his tone.
"Ay, lover. You forget, perhaps, that scene I saw with my own eyes yesterday. Capital eyes they are still in spite of my years—have you ever noticed their brilliancy?" fixing them with such a steady glare that Griselda shivers. Surely there is something uncommon about those awful eyes "They showed me this young man of yours, this wail and stray cast up out of the mud of humanity to gratify your vanity—this fellow whose name you are ashamed to pronounce—kneeling prostrate before you, worshipping at your feet so close to the public highway that all who ran might read—It was charmingly romantic, no doubt; ideally perfect, deliciously unconventional al, and—permit me to add—grossly vulgar and indecent!"
"Gross!" breaks in Vera tremulous

Mother's who have used Zam-Buk say it is so fine for the many little accidents of daily occurrence in the home—and especially where there are children—that they would not be without it. Not only so, but children who have had Zam-Buk applied to an injury or sore, when again injured, cry for Zam-Buk to be applied. They know that Zam-Buk stops pain. Nothing ends the pain of a cut, bruise, burn, or skin disease like Zam-Buk, and nothing soothes, draws out the soreness and heals so quickly.
Mrs. I. Wilson of Sarnia, Ont., says: "I could not do without Zam-Buk for my children. It is the best ointment we have ever used for burns, sores and cuts."
Mr. L. B. Andersen of 1407 E. 22nd St., Minneapolis, Minn., writes: "When any of the children in my wife or I get with an accident, we immediately apply Zam-Buk. It has saved us many a doctor's bill."
Mrs. C. B. Ricey of Riverport, N.S., writes: "My baby had sores on her face, caused by teething. Zam-Buk completely healed them."
Zam-Buk is equally good for eczema, ringworm, running sores, blood-poison, ulcers, abscesses, warts, boils and pimples. All Druggists, 50c. box, or Zam-Buk Co., Toronto. Send 1c. stamp for free trial.

Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink hot water each morning before breakfast.

Why is man and woman, half the time, feeling nervous, depressed, worried; some days headachy dull and unstrung; some days really incapacitated by illness.

If we all would practice inside-bathing what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty-muddy complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out else it ferments and forms ptomaine-like poisons which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women whether sick or well are advised to drink each morning before breakfast a glass of real hot water with a teaspoonful of limestone phosphate mix as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material waste, sour bile and toxins. This cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

ly, but beyond a glance at her full of virulent malice, he ignores her interruption.
"I am your guardian" he goes on, a d-essing Griselda always "an unwilling to be a guardian, but still your guardian and as such I shall see that or the future you do not disgrace yourself or me."
"I forbid you to speak to me like this" says Griselda in a low choked tone that vibrates with wounded modesty. "It is you who disgrace yourself when you speak of—of—"
"Of your evident longing to fling yourself into the arms of the first man you meet?"
"Vera will you permit this!" demands the girl passionately, turning to her sister a face from which the angry blood of a moment since has flown leaving it white and set as marble.
"It is intolerable!" says Vera.
"Uncle Gregory I shall not stay here to listen to such words addressed to Griselda."
"I am not aware that I ever pressed you to remain. The first moment it occurs to you to leave this room I beg you will let no consideration for my comfort detain you. I shall not allow you so to insult my sister."
"No? And how do you propose to prevent me?" asks Dyerat leaning back in his chair and surveying her with a studied smile "But—to continue what I meant to say when you so—er—brusquely interrupted me—if you ever again once more concentrating his attention to Griselda, "seek this lover of yours if you ever again dare to disobey my orders, and go beyond the precincts of my garden and pleasure-grounds—all of which are to be seen from the front windows—if, in effect, you go out of reach of my eyes, I shall turn you and your sister out upon the highway to starve!"

The Invisible Conflict

From the moment of birth—and before—until the hour of death, there is going on within the body a constant conflict, unseen and usually unfelt, between forces that seek to defend, and others that strive to destroy.

Germs that enter from without are attacked and destroyed by the living guardians in the blood, the white blood cells or phagocytes. Poisons generated within seek entrance into the blood and are removed or destroyed by the functions of the intestines, liver and kidneys.

Food waste allowed to stagnate and remain in the intestines, unevacuated, poisons the blood and destroys its power to defend against outside or inside enemies. Such self-poisoning causes over 90% of human illness.

Constipation turns the tide of the invisible conflict against the body, in favor of the invaders. Nor does the taking of castor oil, pills, salts, mineral waters, etc., to force the bowels to move enable the

body to defend itself. Not only will the constipation grow worse with the continuance of such remedies but the dose must be constantly increased with an ever-weakening effect.

On the other hand Nujol overcomes constipation and brings about the habit of easy, thorough bowel evacuation at regular intervals, because Nujol is not a drug, does not act like any drug. Nujol brings about a return to Nature's methods by supplying necessary lubrication of the bowel contents, by facilitating intestinal muscular action, by absorbing poisonous matter, and thus securing necessary cleansing of the intestinal canal and protection of the defensive properties of the blood itself.

Get a bottle of Nujol from your druggist today and send coupon for free booklet—"Thirty Feet of Danger."

LOYALTY BASIS OF ALL CIVILIZATION

Every Citizen Owes Moral and Legal Obligation to His Government. SAME IN COMMUNITY LIFE.

People Have Duty to Their Home Town Which is No Less Binding Because It Is Not Fixed by Law.

(Copyright, 1917, Western Newspaper Union.) Loyalty is the foundation upon which the whole structure of civilization rests. Loyalty to one's country, loyalty to one's state, loyalty to one's city, loyalty to one's business associates, loyalty to one's friends! Loyalty is essential to the ordinary progress of the world. Without it the world must be chaos. There would be no stable government in the world were it not for the loyalty of the people to their government. There would be no successful business enterprise on the face of the globe were it not for the loyalty of the men and women who are connected with it. No church could exist for a month were it not for the loyalty of its members. The sacredness of the home would be a myth were it not for the loyalty of the members of the family group.

The loyalty of a people to its government is based partly upon sentiment and partly upon the recognition of an obligation that a people owes to its government. A people that has the benefit of good government owes a duty to that government. Those who do not recognize this duty and perform it voluntarily are compelled by law to do so. The man or woman who is protected by the government in the pursuit of life and happiness, must contribute in money and service toward the support of the government. The man or woman who, under the protection of his government which preserves law and order, is able to accumulate property, must pay taxes on that property to help maintain the government which has protected him or her. In time of war the government has the right to call upon its citizens to take up arms in its defense.

Property is a moral obligation. In government affairs these things are regulated by law, and the man who receives the benefit of orderly government is required to fulfill the obligation which that entails, but in the ordinary affairs of life, loyalty is a moral rather than a legal obligation. There are laws which prevent a man from stealing from his employer or his business associates, but there is no law that requires him to be loyal to them. The success of a business institution, however, depends more upon the loyalty of its employees than upon the laws which prevent them from stealing its money. Likewise the stability of a government depends more upon the loyalty of its people than upon the laws which compel them to fulfill their obligation to the government.

It is equally true that the prosperity and growth of every individual community is dependent upon the loyalty of the people who live in it. Every citizen owes an obligation to his community, and the obligation is a moral as well as a legal one. The good citizen pays his taxes cheerfully and willingly. He serves upon the jury which administers the laws of the community. He fulfills every legal obligation that is imposed upon him by his government, but there is a moral obligation which is of still greater importance to the community. This moral obligation consists in doing everything that is in his power to promote the prosperity and happiness of his community. The man who is enabled to make his living in any community is under a moral obligation to spend his money in such a way as to help his community.

Anything worth having is worth protecting, and if the prosperity of a community is worth anything to the people living in it it is worth protecting. If the chance for a man to earn a good living, to live well, to give his children a good education, is worth anything, it is worth protecting. There is just one way to protect the prosperity of a community, and that is to keep the community from being drained of its cash—working capital. The only way to do that is for the people of the community to keep their money at home. Every time the citizen of a community sends money away from home to a mail order house instead of spending it in his home stores he is disloyal to his community. It is disloyalty to the merchants only indirectly. It is disloyalty to the community of which the merchants are only a small but a very important part.

This is the moral obligation that every citizen owes to his community, just as the payment of taxes and the loyal support of his government are his legal obligations. Disloyalty of a large body of the citizens spells disaster to any government and disloyalty of any large part of the people to their community is followed inevitably by the downfall of the community. Self-interest, if nothing else, should convince every citizen of the advisability of fulfilling his moral obligation to his community.

MAKES 727-MILE FLIGHT IN PERFECT ORDER

Mineola N.Y., April —Flying
at an average speed of 106.38 miles an
hour for six hours and 50 minutes
Capt. E. P. White an army aviator
completed the first non-stop flight be-
tween Chicago and New York at 5:40
o'clock this afternoon landing at
Hazelhurst Field.

The distance covered was 727 miles.
Most of the flight Capt. White said,
was made at an altitude of 12,000 feet.
White who was accompanied by his
mechanician said that the trip was
without incident. He will remain at
Hazelhurst for a few days and then
will fly to Washington. He said he
would not attempt to a non stop flight
back to Chicago.

White said that the flying conditions
he encountered were almost perfect.
Rains within the last 48 hours had
cleared the atmosphere so that for a
great part of the trip he was able to
discard his compass and steer by eye,
although more than two miles above
the earth. No severe winds were en-

countered and those that were met
with were in the flyer's favor and
served only to increase his speed.

White shaved 10 minutes off the
time he had estimated as necessary
for the trip and found upon landing
that he still had enough of his original
194 gallons of gas left to have flown
a considerable distance farther.

BUTTERCUPS

(May 1917)

It has rained sun upon the fields.
Golden drops glitter on every blade of
grass.

It has snowed flakes of summer and
light.

Upon our bitter winter's barren
shields

It has rained sun upon the fields.
It has rained here, it has rained there
Beyond the Channel, the same flowers
are found.

The same birds' songs, the same sum-
mer scents.

The Earth seems to know we are fight-
ing for her.

She feels our weakness and so takes
pains.

To make herself still more fair.
To stir our zeal and sharpen our
regrets.

She seems to tell us to do as these
flowers.

Which ceaselessly turn toward the
sun.

And these only joy.

Before they are mown down, is to have
seen the sky.

—Emilia Cammerer (English tr. by
Tina Brand-Cammerer.)

A NORTHERN EASTER

Snow on the slope, and all the moun-
tains white.

blue.

Crytals a-sparkle, see, the sunbeams
brighten.

Tokens of purer loveliness and true.

Bare are the moorlands, brown the
dusky heather.

indigestion, diarrhoea, give a tea-
spoonful of "California Syrup of Figs"
and in a few hours all the foul waste,
the sour bile and fermenting food passes
out of the bowels and you have a well
and playful child again. Children love
this harmless "Fruit Laxative" and moth-
ers can rest easy after giving it, because
it never fails to make their little "in-
sides" clean and sweet.

Keep it handy, Mother! Little given
today saves a sick child tomorrow but
get the genuine. Ask your druggist
for a bottle of "California Syrup of
Figs" which has directions for babies;
children of all ages and for grown-up
plainly on the bottle. Remember there
are counterfeiters sold here, so care-
fully look and see that yours is made by the
"California Fig Syrup Company".

SURE WAY TO GET RID OF DANDRUFF

There is one sure way that never fails
to remove dandruff completely and that
is to dissolve it. This destroys it en-
tirely. To do this, just get about four
ounces of plain, ordinary liquid arvon;
apply it at night when retiring; use
enough to moisten the scalp and rub it
in gently with the finger tips.

By morning, most if not all, of your
dandruff will be gone, and three or four
more applications will completely dis-
solve and entirely destroy every single
sign and trace of it, no matter how much
dandruff you may have.

You will find, too, that all itching and
digging of the scalp will stop instantly,
and your hair will be fluffy, lustrous,
glossy, silky and soft, and look and feel
a hundred times better.

You can get liquid arvon at any drug
store. It is inexpensive, and four
ounces is all you will need. This simple
remedy has never been known to fail.

Rev. J. P. Hauch Is Presiding Elder

The forenoon session on Good Friday
was of importance. Bishop Heilmiller
spoke on the Crucifixion of our Saviour.

Memorial services were then con-
ducted in behalf of the two members of
the Conference who died during the year.

Rev. G. D. Damm spoke on the life of
Rev. D. Grey who had served the
Church very acceptably for twenty
years as pastor and eight years as pre-
siding elder. He also served for a
number of years as missionary in Texas,
U.S.

Rev. L. H. Wagner spoke in memory
of Rev. L. P. Amacher, who had given
the church sixteen years of efficient
service.

On Friday afternoon Miss Agnes
Good of Kitchener, presented the inter-
ests of the W.M.S. giving a survey of the
splendid work done by this missionary
Auxiliary of the Church and made an
appeal for the organization of more
Women's Missionary Societies in the
Church.

Rev. B. R. Wiener, Field Secretary
for Missions presented the interests
of the Missionary work of the Church.

Prof. E. E. Damm, B. A. B.D. of
North Western College, Naperville,
Ill., addressed Conference in the inter-
ests of the denominational institution
of learning.

The Ontario division of the Church
was divided into three presiding-elder
districts with the appointment of pre-
siding-elders as follows:

Stratford District—W. J. Zimmerman.

Waterloo District—J. P. Hauch.

Ontario District—J. G. Litt.

The North West division to be left
as one district with Rev. L. H. Wagner
as Superintendent of Missions.

In the evening Rev. B. R. Wiener
preached an impressive Communion
Sermon after which the celebration
of the Lord's Supper was observed.
The Spirit of God was manifest in this
service.

CLEANLINESS IS HEALTH

By the use of Gillett's Lye, house cleaning is made a pleasure instead of a drudgery. It softens the water and cleans thoroughly whether the dirt is visible or invisible. Destroys all bacteria and infectious germs, removes obstructions from drain pipes, closets, sinks, etc. Refrigerators are made delightfully fresh and clean by using one teaspoonful of Gillett's Lye dissolved in two gallons of water.

"GILLETT'S LYE EATS DIRT"

TALKING IT OVER

With Lorna Moon

A NEW BIRDS IN AN OLD NEST

"Dear Lorna Moon

"I'm an island in the midst of a
stormy sea. I am bounded on the
north, south, east and west by in-laws.
My husband is the best man on earth
and the most devoted husband; we
would be ideally happy if my husband's
mother, five sisters, and two aunts
didn't spend their time looking for
flaws in me.

"is marriage to me is a mistake
in their eyes. They had a rich farmer's
daughter picked out for him, then he
came to the city and picked out a poor
little stenographer person like myself.
My husband's people are wholesale
grocers. My husband is the eldest
son, and as such is manager of the head
office. We occupy the home which
his father lived in when he was newly
married. The furniture is the same
that his mother bought for her first
home, there is very little that I have
been allowed to buy (for it was well
fitted out when my husband brought me
home a bride). I feel somehow
that I am an intruder in a home that
isn't my own, and the whole family
contributes to make me more so.
For they never, never visit me so
they don't remark on this and that
saying "mother's couch, or father's
chair" and so on. They even remark
about the fact that my maid sometimes
the furniture when she sweeps. Now
all this stuff was given us by them
when we were married, (goodness knows
I wish I had never seen a stick of it)
yet they always elai in ownership when

they speak of it.

"That wasn't all, there are a hundred
little things like sand under the eyelid,
that fret me. I sometimes feel like
running away."

Of course, you do, you poor in-
laid to death dear, but you won't.
You'll just be the real level headed
girl you are and laugh over it. Don't
let them become too familiar with you,
and don't let your husband with them,
he probably knows their short comings
better than you do. I'd make a
quiet but firm stand to get away from
that before-you-came-furniture. Every-
body deserves her own setting. Just
tell your husband how you feel. He is
the one to settle it. Get a new head
of your own, only a meekop can be
really happy in a nest of another's
building.

THE LAKE OF BAYS

There was never a region better
designed for vacation purposes than
the "Lake of Bays" district. It unites
the Grand Trunk Railway 145
miles north of Toronto is the gateway
through which you pass to this lovely
summer playground. Good fishing,
high altitude (1,000 feet above the
sea)—immunity from hay fever, level
water trips, good hotel accommoda-
tion and golf are some of the many
attractions. An interesting booklet
telling you all about it sent free on
applications to C.E. Horning D.P.A.,
Toronto Ont.

The States in which women now have
presidential suffrage control almost
half the votes in the party conventions
and forty per cent of the electoral
college.

By presenting each one with a nice
new doll Mrs. J.B.A. Roerhton wife
of Oklahoma's governor made happy
fifty little girl inmates of the State
Industrial School.

Following years of agitation the
British Parliament has finally passed
a bill providing for the admission of
women to the practice of law not merely
as solicitors, but as barristers as well.
The historic battle of Waterloo was
begun and finished in eight hours.

Children's Diseases Are Not Necessary

They Add Nothing to the Well-being of the Child and Invariably Leave the System in Worse Condition Than Before They Came

In fact, they often sow the seed which,
in adult life, develops into disorders of
the heart and blood vessels and de-
generative diseases of the kidneys.

So if children escape any child's disease
they are the gainers in general health by
just that much. It may be that years are
added to their lives or chronic invalidism
avoided. Then there is the enormous risk
which every child runs who has measles,
whooping cough, scarlet fever, or other
diseases.

Perhaps this does not agree with your
idea of letting your children have these
ailments when young, with the belief that
they must have them some time. This old
idea has cost many thousands of lives. It
is time to forget it, and to put forth an
effort to save the children from these
ailments.

All these children's diseases are known
as germ diseases, and germs are harmless
to a body strong enough to fight them.

Rich blood is the greatest of germicides.
Therefore, seek to keep your children's
blood rich and pure by giving them whole-

some, nourishing food, and by allowing
them to exercise freely in the open air.

If they grow pale and weak and languid
—if they fail to derive proper nourishment
from the food they eat—if their nervous
systems get run down from the tax of
school work—use Dr. Chase's Nerve Food
as the best means which medical science
affords to enrich the blood and build up
the exhausted system.

Children whose blood becomes thin and
watery are helpless before an attack of
measles, scarlet fever, whooping cough, or
other contagious disease. They seem to
"catch" everything that is going. They
are always "catching" cold. Their resist-
ing force is nil.

But their young bodies soon respond to
the nourishing, invigorating influence of
Dr. Chase's Nerve Food. As their blood
is enriched they become healthy, robust
and rollicking—they enjoy their food—
their play—their work at school, and grow
into strong, healthy men and women.

Dr. Chase's Nerve Food, 50 cents a box, 6 for
\$2.75, all dealers, or Edmanston, Bates & Co.,
Ltd., Toronto. On every box is the portrait and
signature of A. W. Chase, M.D., the famous Re-
sult Book author.

A Freak of Nature.

A freak of nature was shown the Record today by Mr. J. Davenport, 13 Pine street. It is a chick with three eyes and three beaks. When shown it was much alive although the indications were that it would not survive. It was one of fifty white chicks hatched from forty white leghorn eggs at the home of the owner.

FIND LIQUOR STILL.

Three Complete Outfits Found in Swamps in Man Oba.

WINNIPEG, April 21.—The office of Inspector Spencer, of the liquor enforcement department, contains three complete stills captured in the Rembrandt district.

The officials waded knee deep through swamps in the dead of night and found Ben Zeish and Anton Lemecowski in their trucks preparing a mash of potato peelings, rye and sugar for the next day's manufacture.

Each had a complete plant for the distilling of liquor and there and a third still located in an isolated portion of the woods were confiscated.

Will Ask Ratepayers

London City Council sent for a vote in January the requisition of the Board of Education for an issue of \$195,000 debentures with which to build a branch Collegiate Institute and effect other improvements. The board's plans are now definitely halted for the year, and it is claimed that even a favorable vote of the people at a special election would not facilitate matters.

Little Boy Killed

George T. Marshall of 319 Rectory Street, six-year-old son of J. T. F. Marshall, London, fell beneath the wheels of a westbound Grand Trunk freight train in the East London yards near Rectory Street last night, and was instantly killed. The little boy was playing with a number of other children, who, seeing what occurred, ran away. The body was found some time afterwards, practically cut in two across the abdomen. Death had been instantaneous.

The victim's father is a returned soldier who has been in hospital there for two years. Coroner Dr. Ferguson has ordered an inquest.

Mrs. Grundenberg's Death

Mrs. Margaret Grundenberg died at the home of her daughter, Mrs. G. J. Smith, 494 Huron Street, Stratford, after a comparatively short illness. She was born in Kesteven, 77 years ago, and lived the greater part of her life there and in Sebringville. Her husband, Simon Grundenberg, passed away seven years ago. She is survived by two daughters, Mrs. G. J. Smith, Stratford; Mrs. Philip Goetz, Mitchell; two sons, John of Cobourg, and Louis of Toronto; a stepson, Edward of New Hamburg; one brother, Henry Schelbenberger of Downie; three sisters Mrs. F. Pauli, Milverton; Mrs. C. Wetlaufer, Tavistock; and Mrs. N. Seebach, in the West.

BATTLE CREEK'S MATERIAL.

Battle Creek April 21—White there isn't much shouting going on over Battle Creek's part in the Michigan-Ontario League. Manager Danny Jenkins has a team lined up which will soon be working out at Athletic Park. For the pitching staff he has Tommy Caesar southpaw who formerly played for London, in the Canadian League; W. F. Johnson, late of the Northern League, but later of the U.S. navy; Walter Geyer from the Blue Ridge; John Wieneke Western League; "Red" Hayes an Indianapolis semi-pro, player Herman McMilla, Battle Creek and Camp Custer semi-pro, and a number of promising youngsters.

For catchers there is Johnny Hoving for whom many clubs are bidding, and Mort Main last year with Blooming-ton in the Three-I.; George Boyle of the Northern League, and George Star-buck of Indianapolis are candidates for first base, while Jack Hiffer now with the Philadelphia Athletics will probably play shortstop. Infielders are: Bert Lamb, Southern League; Ray Worley, Lancaster Pa., a protégé of "Churo" Deal; Frank Gratke, Chicago semi-pro, and Larry Lebrun, Detroit Sox.

Jenkins will play in the outfield other prospects being "Red" Koyler, who won the "Honey Boy" Evans' cup by hitting .393 in the Three-I. League later going to Los Angeles; James Shippe, a Marion, Ind., semi-pro, and Lovell Genedosh, University of Michigan catcher and outfielder.

Stropping reforms the saw-like edge that results from shaving and provides you with a keen edge for every shave.

AutoStrop SAFETY RAZOR

Manager Keenan of the London Club has accepted terms to have Alexander Hill, of Toronto, and Jack R. McKelvey, of Brantford, report for training on April 28 with the balance of his team.

These two Canadian Outfielders have had considerable experience and it will undoubtedly develop into a fight between them for a regular outfield berth here. McKelvey has had minor league experience and he is counting on his speed and throwing ability to aid in becoming a regular.

With the announcement that two Canadian boys are going to tryout for positions on the Michigan-Ontario League team brings to light the fact that there are also four additional Canadian who will also report in London next Monday on similar missions.

Catcher Summers and Pitchers Blake McCoig, Fred Hess and Bill McLeachman are the others. The provincials will compete with the American boys in an effort to bring Keenan's attention to them.

The report that Bob Long, the local champion all-round athlete, has signed a contract to play with the Hamilton Ontario-Michigan League Club is not correct, a Toronto report says. "Dye has received an offer from Manager Shaughnessy, but he will not sign unless he is assured that he will be allowed to play amateur hockey next season. He is on the black books of the O.H.A. for an attack upon Referee Steve Vair in the final game of the season for the city championship. Dye is a left-hand pitcher and a star rugby and hockey player. He is only 20 years of age. Last year he pitched for the Petawawa camp champions and also for the Hill-crofts, O.B.A.A. title winners."

MANITOBA GOLFERS WILL BE IN INTERPROVINCIAL CONTEST.

The Manitoba Golf Association, at its annual meeting, in Winnipeg decided to accept the invitation of the Royal Canadian to send a team of ten men to Toronto, June 30th, for the inter-provincial championships at the same time as the Canadian amateur championships.

C.W.A. IN LONDON ON JULY 1
At the 39th annual meeting of the Canadian Wheelmen's Association held at Toronto it was decided to hold the Dominion bicycle championship race meet in London on the 1st of July. The championship race meet was suspended during the war. George Wenige of London attended the meeting on Saturday and managed to have the meet held in London.

BRANTFORD'S O.A.B.A. TEAM

Brantford April 21—The Water-boys team line-up in the local branch of the O.A.B.A., has been announced and shows them well fitted for contesting the championship this year. The team is: Pitchers "Ack" Johnson, Buckborough O'Connor and Baird catcher, Symons; first base, Jeffries; second base, Crandell; shortstop Scott; third base, McDonald; outfield McKimmon; manager Vince Tracy.

AD WOLGAST'S WIFE IS SEEKING DIVORCE.

Cadillac, Mich.—Divorce papers were filed in the Wexford county circuit court Thursday by Mildred Wolgast, who separated from the local prize fighter, Ad Wolgast, in 1917. Wolgast is in Los Angeles, having recently left St. Mary's Hill sanitarium in Milwaukee, where he was under mental treatment for many months. The couple were married in 1911. There are no children. The bill of complaint charges extreme cruelty, Mrs. Wolgast claiming that her husband earned large sums at prize fighting, but spent them lavishly in riotous living which finally undermined him physically and mentally. It is further charged that the Wolgast fortune was neglected and mismanaged. An injunction restrains Wolgast from disposing of any property.

OUTFIELDER RILEY SOLD.

The Toronto Ball Club sold Outfielder Riley to Indianapolis. They bought him from the same club last year. Herb Dale is arranging a game with Toronto against the 3rd. Battalion team, which was the old 198th nine. The date will be announced as soon as the battalion comes in this week.

Some Features That

On the second evening at the mobile show the attendance also increased over the number on the evening, a favorable indication that there was the same evident interest and undoubtedly there will be a record this evening. Even in the rooms numerous attendants p and out of the building.

Today a number of the provincial automobile men of the province expected, especially general sales and managers. Others will co-morrow. A number of helpful references among the respective and the general sales managers representatives are contemplated the week at which various point trade will be considered and a hour will be spent.

The visitors to the show, it is to the observer, are greatly as at the variety of the displays, only here that they realize the points that count when select automobile or an appliance, machine. Interest soon turns to secure information and doubt as to what or what not removed. The courtesy of the firm and the agents is a noticeable. It is appreciated not only those who may have or may have a notion to buy but also by those intentions to buy are about as moved from actuality as the from the moon. This show revealed the wonderful diversity automobile line. It has brought notice cars and articles of which may have never been co by the average person.
