Technical and Bibliographic Notes / Notes tec-

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

- Coloured covers/  
Couverture de couleur
- Covers damaged/  
Couverture endommagée
- Covers restored and/or laminated/  
Couverture restaurée et/ou pelliculée
- Cover title missing/  
Le titre de couverture manque
- Coloured maps/  
Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black)/  
Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations/  
Planches et/ou illustrations en couleur
- Bound with other material/  
Relié avec d'autres documents
- Tight binding may cause shadows or distortion  
along interior margin/  
La reliure serrée peut causer de l'ombre ou de la  
distortion le long de la marge intérieure
- Blank leaves added during restoration may appear  
within the text. Whenever possible, these have  
been omitted from filming/  
Il se peut que certaines pages blanches ajoutées  
lors d'une restauration apparaissent dans le texte,  
mais, lorsque cela était possible, ces pages n'ont  
pas été filmées.

The copy filmed here has been reproduced thanks  
to the generosity of:

Douglas Library  
Queen's University

The images appearing here are the best quality  
possible considering the condition and legibility  
of the original copy and in keeping with the  
filming contract specifications.

Original copies in printed paper covers are filmed  
beginning with the front cover and ending on  
the last page with a printed or illustrated impres-  
sion, or the back cover when appropriate. All  
other original copies are filmed beginning on the  
first page with a printed or illustrated impres-  
sion, and ending on the last page with a printed  
or illustrated impression.

The last recorded frame on each microfiche  
shall contain the symbol → (meaning "CON-  
TINUED"), or the symbol ▽ (meaning "END"),  
whichever applies.

Maps, plates, charts, etc., may be filmed at  
different reduction ratios. Those too large to be  
entirely included in one exposure are filmed  
beginning in the upper left hand corner, left to  
right and top to bottom, as many frames as  
required. The following diagrams illustrate the  
method:

1	2	3
---	---	---

1	2

duced thanks

L'exemplaire filmé fut reproduit grâce à la générosité de:

Douglas Library  
Queen's University

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

A TABLE, GIVING THE DATE A NOTE OR BILL  
MATURES WHEN GIVEN FOR A  
STATED TIME.

THE intention of this table is to show correctly what month and day of the month that promissory notes, bills, etc., mature, when drawn for any certain length of time, with or without the three days of grace.

Should you give a note 100 days on the 25th day of August, and wish to know when it becomes due, turn to Time Table, run across top of table from left corner, until you get to August, run down August column first line of figures until you get to 25th day; opposite to 25th day, in same column, you will find 237, which amount put down, and add to it the 100 days, which will make 337; then look for the 337th number of the table opposite, which you will find the 3rd day of December, the day your note or bill becomes due.

You can add three days grace to the 100 days if you wish; it will then come due on the 6th December.

This table is designed for ordinary years; therefore, when you pass over February in leap year, your note falls due one day sooner.

Should your note fall due on Sunday, it must be presented and paid the day previous.

315612X

## **EXPLANATIONS OF TIME TABLE.**

SHOULD you want to find the number of days from October 20th to June 12th, turn to Time Table, and run your finger across the top until you come to October; run down the days of the month, which is the left hand row of figures, in October column until you get to 20; opposite 20, in same column, you will find 293, which number put down; then run across top to the right as before until you get to June; run down June column until you get to 12, opposite which you will find 528. Said number place above the figures 293, and subtract 293 from 528, which leaves 235 days.

Should you want to reduce that to months, divide 30 into 235, which will make 7 months 25 days.

### **EXAMPLE**

$$\begin{array}{r} 528 \\ 293 \\ \hline 30)235 \\ \hline 7 \text{ mos. } 25 \text{ days.} \end{array}$$

In counting interest on a note that is given a certain number of days from date, the actual number of days must be taken without regard to the month; but in counting interest by months, the number of months must be used.

In passing over February in leap year, add 1 day.

## EXPLANATIONS OF INTEREST TABLES.

THE principal or amount on which you want to count interest, will be found on the top of each page, with the word Dollars attached to it.

The figures 5, 6, 7, 8, 9 and 10 at the head of columns, are the different rates per cent.

The time for which you want to count interest will be found in the first column of each page, headed time.

Above the double line, near the bottom of each page, is Simple Interest; below the double line is Compound Interest.

To find the interest on 100 dollars, at 10 per cent., for 2 years, 6 months and 18 days, turn to 100 dollars page, run down to 18 days, and across to 10 per cent. column, where you will find 50 cents, which is the interest for 18 days; go on down to six months, and across to 10 per cent. column, as before, and you will find the interest on 6 months is five dollars; go on down to 2 years, and across to 10 per cent. column, and you will find that the interest for two years is 20 dollars, making in all 25 dollars and 50 cents.

### EXAMPLE FIRST.

Interest on 100 dollars for 2 years 6 months and 18 days:

Interest for 18 days	50
" 6 mos.	5.00
" 2 yrs.	20.00

\$25.50 Interest on \$100 for 2 yrs. 6 [mos. 18 days.

to find the interest on 150 dollars for 2 years 6 months  
18 days, get the interest on 100 dollars as in first example,  
then turn to page 50 dollars, and calculate same as in first  
example, and add together.

#### EXAMPLE SECOND.

Interest on 150 dollars for two years 6 months and 18  
days:

Int. on	{	For 18 days	50
\$100	"	6 mos.	5.00
	"	2 yrs.	20.00
Int. on	{	18 days	25
\$50.	"	6 mos.	2.50
	"	2 yrs.	10.00

—————  
\$38.25 Interest on \$150 for 2 yrs.

[6 mos. 18 days.]

6 months  
t example,  
as in first

us and 18

18 days.  
or 2 yrs.

To find the interest on \$150.50 for two years 6 months 18 days, get the interest on \$150, same as example second, then turn to page 50 dollars and run down to 18 days, and across to 10 per cent. column, and you find 25 cents, which is  $\frac{25}{100}$  part of a cent interest, and of which you will keep no account; then run down to 6 months as before, and across to 10 per cent. column, you will find \$2.50, which in cents will be  $2\frac{50}{100}$  cents, which you will put down 3 cents, having a fraction to carry from 18 days; go on down to 2 years, opposite which you find \$10, which in cents will be 10 cents; put said amount under three cents, which will make 13 cents, the interest on 50 cents for that time.

It is but  $12\frac{75}{100}$  cents, but as we do n't count fractions, we will call it 13 cents.

#### EXAMPLE THIRD.

Interest on \$150 for 2 yrs., 6 mos., 18 days, . . . . .	38.25
"      50 cents for 6 mos., . . . . .	03
"      50 cents for 2 years . . . . .	10

Interest on \$150  $\frac{50}{100}$  for 2 yrs., 6 mos., 18 days, . . . \$ 38.38

The interest on dollars is shown in dollars and cents, and on cents in cents and hundredths of a cent.

All other per cents. are calculated same as 10 per cent.  
Compound Interest is computed same as Simple Interest.
