PREFACE.

IN presenting to the Public the third edition of the ST. JOHN CITY DIRECTORY, the Publisher begs to say that he has spared neither labor or expense to make it a reliable record of the names and occupations of the citizens of St. John. He cannot guarantee that it will prove perfectly accurate; but hopes that it will be found more reliable than any of the Directories which have preceded it.

The STREET DIRECTORY gives the name and position of every street and alley in the city, the names of their inhabitants; together with all vacant houses and lots, which will be found useful to the capitalist and persons wishing to rent or purchase. Owing to the imperfect system of numbering, it was found impossible to attach a number to *each* house and lot; but inquirers will find no difficulty in obtaining the information they may require.

There will be found also a complete Directory of the inhabitants of PORTLAND—that thriving, and (under its present management) well-governed off-shoot of St. John.

The Historical Sketch of St. John will be found well worth a careful perusal. The Appendix contains an extensive budget of useful and general information, including full details of the Customs and Post Office Departments, and full lists of office bearers of the different Societies, Churches, Institutions, Freemasons, Temperance, Orange Lodges, &c., &c. For the convenient reference of our Patrons there is added to the Appendix a full list of the officers of the Dominion Government; and also of the Church services in the City.

Advertisers will find their Advertisements carefully and properly displayed; and the full and copious Indexes will enable the public to discover the great extent and magnitude of the various branches of trade carried on in our good city of Saint John.

The Publisher returns his sincere thanks to the gentlemen who have aided him in bringing to a successful issue this City Directory; and while perfection is unattainable, hopes that it will be found as near thereto as diligence and perseverance could reach.

High Water, (Friday), calling at Parsboro'.

The healthy location and picturesque situation of Parsboro' on the N.W. side of the beautiful and far-reaching Basin of Minas, render it especially attractive to tourists and invalids, and the fine and flourishing town of Windsor, situated on the Avon River, combine to make this route unequalled in attraction.

The above Steamer will also leave ST. JOHN for ST. GEORGE, ST. ANDREWS and ST. STEPHEN every WEDNESDAY and SATURDAY Morning, at 8 o'clock, returning on MONDAYS and THURSDAYS, and connecting at ST. STEPHEN with the N. B. & CANADA RAILWAY to WOODSTOCK, HOULTON and CANTERBURY, and at ST. JOHN with the EXPRESS LINE OF STEAMERS running on the ST. JOHN RIVER.

The fine sail among the beautiful Islands of the Letite Rapids across the expansive Bay of Passamaquody, and up the St. Croix River is much admired by all tourists.

FOR FREDERICTON.

The Swift and Magnificent Steamer *ROTHESAY*, leaves INDIANTOWN for FREDERICTON every TUESDAY, THURSDAY and SATURDAY Morning, at 9 o'clock, returning on Alternate Days, at same hour. HISTORICAL SKETCH OF ST. JOHN CITY AND COUNTY.

PREVIOUS to 1783, that portion of the Lower Provinces now known as New Brunswick, under the name of Sunbury, formed one of the counties of Nova Scotia. More than twenty years before the separation of New Brunswick from the older province, a settlement existed at Maugerville on the river St. John, and the settlers, who were chiefly Congregationalists, obtained a grant of land for a glebe in connexion with their church. Subsequent to 1758, a few families, chiefly of German extraction, who had removed from the other American colonies, or who had lately immigrated from Europe, went into occupation of the lands formerly held by the French in the district now divided into Albert and Westmorland Counties, under agreements to purchase from the Nova Scotia government, or as tenants to joint stock companies, which had bought the land on speculation. The remaining portion of the present Province, with the exception of a few districts peopled by the *habitans*, who had been driven from their older cultivated farms and dyked marshes, and possibly an occasional trading post at the mouths of the great rivers, was wild and untenanted until the year first referred to. The country, however, is far from being devoid of historical interest, as indeed this portion of Acadia—the name originally given to French territory comprising Nova Scotia, New Brunswick, part of the present State of Maine, and of Lower Canada—was the platform upon which many passages of the great drama carried on between England and France in the 17th and 18th centuries were enacted; and in this respect, the present site of the city of Saint John and its environs, may be said to possess special interest. In 1604 when de Monts and Poutrincourt, the true pioneers of French colonization in this portion of America, with the little squadron under their command had first landed on the southern coast of Nova Scotia, and at Annapolis and skirted along the Nova Scotian shore of the Bay of Fundy and the Basin of Minas, they crossed over to the mouth of the Ouegondy, which they named the St. John, in honor of the patron saint of the day on which they arrived. They devoted several weeks to the exploration of this noble stream, and seemed to have spent a portion of their time in recruiting the sea worn energies of the sailors on the shores of the western side of the harbor. In the year 1629, when the seigneurs D'Aulnay, Charnizai and LaTour were contending for ascendancy in Acadia, the latter built a small fortification near Navy Island, in Carleton, where after repelling a fierce attack on the part of Charnizai, his little garrison was at length obliged to capitulate. The incidents connected with the final assault and the heroic bravery of Madame LaTour,

who was at the time in sole command, are referred to by more than one writer, as among the choicest and most memorable reminiscences of French American history. In 1758, it appears that the French were in occupation of a fortress in the same locality, possibly on the same site as fort LaTour; with that want of success, however, which attended their efforts at this period, although really forming a not inconsiderable garrison, they were attacked by a body of British and Colonial troops and compelled to yield. About the same time Louisbourg and Quebec, and several other strongholds, were ceded to England, and France was obliged to relinquish an ascendancy in America she never afterwards regained. In 1760, Mr. James Simonds visited the river St. John, but was obliged by the hostility of the Indians, who were ever more favorably inclined to the French than to the English cause, to return to New England. In 1764 he was joined by Mr. James White and captain Francis Peabody, and with a small party of fishermen they arrived at the site of the present city and commenced the settlement. In 1768 a block house and stockades were erected and dignified by the name of Fort Howe. After the breaking out of the American rebellion, the revolutionists pillaged every unfortified village in Nova Scotia. A party of fillibusters from Machias burned Fort Frederick, before mentioned as captured from the French, and situated near Navy Island. Simonds and White had erected small houses at the foot of Fort Howe hill, and at these the party wantonly discharged a number of cannon shot, having previously robbed the place of every valuable article they could discover.

They also fired at and killed a man named Southacke, who had been rash enough to show himself and attempt to shoot one of their number.

The year 1782 furnishes the first records of St. John, as a port of customs and registry, from which it appears that in this year eleven vessels were entered and twelve cleared; of these the average was about twelve tons, the largest being eighteen tons. Previous to 1783 Mr. William Hazen joined the settlement, and it is worthy of remark that title to the greater portion of landed property in the city is traced through the Simonds, Hazens' and Whites'.

On the 18th of May, 1783, the Loyalists landed at St. John, and in the following year the province, under its present name, was separated from Nova Scotia. In 1785 the city was incorporated, and Gabriel G. Ludlow appointed Mayor. As early as 1765 Mr. Charles Morris, Surveyor General of Nova Scotia, took measurements and observations of the harbor and River St. John, and charts were prepared showing the soundings and the positions of the principal headlands, the reefs and bearings, marked with a tolerable amount of precision. These charts are indeed of more interest to the antiquarian, than of use to the navigator; still they possess some value, if only to show the names of localities before the more extensive settlement of the country. By these it appears that the city proper was known as Parr Town, Red Head as DesBarres' Head, Mispec as Maspec, Negrotown Point as Bruyer's Point, Manawagonish as Meogenes, while the names of Partridge Island and other places were the same as at the present day. It is worthy of remark that Partridge Island received its present name in their own language, from the French. The City was originally divided into four wards; this division, on account of the depopulation of certain districts, was altered in 1803 by an Act of Assembly defining boundaries for newly created wards, to be called King's, Queen's,

Duke's and Sydney Carleton.

In 1786 an Act of the City of St. John with two fire engines making provisions for following notice appeared: "at the Market place chased two fire engines" "those who inclined" "Mr. Munson Jarvis"

Duke's and Sydney, and making provisions for elections in Duke's and Guy's in Carleton.

In 1786 an Act was passed by the Legislature, reciting that "the inhabitants of the City of St. John had at great expense supplied themselves and were supplied with two fire engines," and appointing persons to take care of these engines, and making provisions for putting out fires. On the 3rd of June in the same year the following notice appeared in the Royal Gazette: "The corporation having purchased two fire engines for the use of the City, and having directed one to be kept "at the Market place, Upper Cove, the other at the Market place, Lower Cove, "those who incline to join the two Engine Companies will leave their names with "Mr. Munson Jarvis, and Mr. John Colvill, merchants."

The following extracts are taken from the same paper of different dates. 26th August, 1787: "On Wednesday last, after administering confirmation to a great number of persons, and delivering an excellent charge to the clergy, the Right Reverend the Bishop of Nova Scotia with the accustomed ceremonies, laid the foundation stone of Trinity Church.

18th December, 1787. "At a court of General Quarter Sessions of the Peace, held at the City Hall of this city (St. John) on the 4th instant, Silas Stutt was indicted for a felony, convicted, and sentenced to receive thirty-nine stripes, which were afterwards well laid on."

26th February, 1810, Postscript. "We were last evening favored with a London paper of November 27th; a Liverpool paper of the 22nd and two or three Cork papers to the 15th December, received overland from Yarmouth, U. S., to which place they were brought by the Brig "Dasher" from Liverpool, England."

In 1788 an Act was passed by the Legislature for the support of a light house on Partridge Island.

St. Andrew's Church (the Established Church of Scotland,) generally known as "The Kirk," was built in 1816 and inaugurated in the following year. The Rev. Dr. Waddell, father of the present medical superintendent of the Provincial Lunatic Asylum, preached in the Kirk before, and Dr. Burns after the inauguration.

In 1820 the Bank of New Brunswick was established in St. John.

In 1824, the Legislature passed an Act empowering the corporation of St. John to order the Surveyor of highways, immediately after the first fall of snow, to summon the inhabitants and mark out roads in the city and county of Saint John, with a row of ever-green bushes, erected at distances of not less than four rods from each other; and by the same Act, "persons travelling with their horses, cattle, sleighs, sleds and carriages, of what kind soever," in the winter season, are directed under a penalty "of ten shillings for each offence to leave the said row of bushes always on the left hand." From this it would appear that street communication in those early days was not in the best condition, and that the fall of snow during the winter seasons was probably greater than at the present time. There are indeed one or two old inhabitants who can remember when it was an extremely difficult task to walk from Lower Cove to the head of Jeffrey's hill, especially after a snow storm.

The changes of duty on Baltic timber and the high prices given in Great Britain in 1824 gave rise to much speculation, and the market was soon overloaded with colonial ships and timber. The result was that the price of wood fell one half, many persons were ruined, and the most cautious merchants sustained severe

losses. The great conflagration usually known as the Miramichi fire, occurred in the summer of 1825; the loss of personal property on that occasion was estimated at nearly £225,000, and the destruction of the forest, although scarcely a subject for calculation, is said to have amounted to the value of more than £500,000. This was of course very severely felt in St. John as well as the whole Province. On the 14th January, 1837, another fire occurred which affected St. John more immediately than that of 1825. By this event one hundred and fifteen stores and houses, equal at the time to one third of the commercial portion of the city, were entirely destroyed. The loss was estimated at £250,000. In 1839 disputes arose between New Brunswick and the State of Maine as to their common boundary line; when the latter made preparations to invade this Province, New Brunswick appropriated its whole revenue, and Nova Scotia £100,000 and 8000 men in defence of this Province. Through the exertions of the Governor, Sir John Harvey, however, actual hostilities were avoided. On this occasion the military furor was raging in St. John, and almost all the male population were being exercised in arms, and expecting, if not desiring, war. The boundary disputes were adjusted in 1842.

In 1845 the Gas Light Company was incorporated, and on the evening of the 18th September in the same year gas was turned on for the first time in a few stores and offices on Prince William Street and the Market square.

In 1849 serious disturbances arose between the orangemen and catholics. It is a pleasing reflection, however, that these were almost the last troubles of this nature, and that the old feeling of religious bigotry, once so prevalent in St. John, has since almost, if not entirely, disappeared.

In the month of January, 1853, the Suspension Bridge across the rapids at the mouth of the river St. John, was commenced by the projector, W. K. Reynolds, and in October, 1853, was finally completed.

In 1853 the first sod of the European and North American Railway was turned, the day being set apart as a public holiday, and celebrated with a large procession of an elaborate nature, representing all the principal trades and businesses of the city. The sod was turned by Sir Edmund Head, then Lieutenant Governor of the Province. Unfortunately on the evening of the same day, at a public and crowded ball given in a new building, a gallery gave way under the weight of people, and the destruction of both life and limb was very serious. In the summer of 1854, the cholera visited St. John and carried off an immense number of persons, especially among the poorer classes. This calamity caused a fearful consternation among the inhabitants, who for the most part fled into the country districts, and business for the time was suspended to a great extent.

In the latter part of the year 1854, the Crimean war commenced, and owing to the stoppage of trade between England and the Baltic, an excellent opportunity was afforded to the St. John merchants for supplying the home timber market, and during the period in which the war was carried on, very respectable fortunes were realized by them through this source of business. Comparatively handsome subscriptions were collected in St. John and the province generally for the purposes of this war, which was watched with the greatest interest by the colonists; the rejoicings at the different successes of the British arms were most exuberant, and the fall of Sebastopol was received in St. John with acclamations which knew no

In 1860, His Royal Highness the Prince of Wales visited America. On the occasion of his arrival at St. John the city was decorated with flags and garlands; while a number of arches, of the most tasteful description, were erected along the length of Prince William street, to the mansion assigned for his residence. This building, which is still in existence, is surrounded by a roomy park-like enclosure, and was erected by the late Chief Justice Chipman, and is now tenanted by his widow. It had formerly been occupied by the Duke of Kent on a like occasion, and was on that account deemed most suitable for the present purpose. When the Prince made his entry into the city, the fire brigades formed single lines on each side of the street, while the volunteers acted as a guard of honor at the landing. In the evening the city was brilliantly illuminated, many of the citizens displaying great taste in their luminous devices.

On his return from Fredericton, the Prince drove through Carleton, where he received similar attentions, the whole city doing its utmost to exhibit loyal devotion to the heir apparent to the British throne.

Late in the autumn of the same year, what is generally known as the Trent affair occurred, and there was every prospect of war between England and the United States. In the early winter of 1861, several regiments of British troops passed through and were quartered in St. John; great excitement prevailed, and the citizens vied with each other in showing hospitality to the soldiery and giving proofs of their loyalty. The people fêted the Guards, both Grenadiers and Scotch Fusiliers, while other regiments were treated by the townfolk with like distinction. Fortunately the good sense of the two nations prevented a rupture of those friendly relations which had so long subsisted between them, and the Empire and the Republic, but above all the British Colonies were saved from the impending calamity of a great war.

In 1864 delegates from the maritime provinces were sent to Charlottetown, being duly empowered for that purpose, to consider the desirability of uniting their respective colonies in federal or legislative union.

During the conference, a delegation arrived from Canada with proposals that the two provinces of Canada should also form a portion of the proposed union.

Delegates from all these provinces afterwards met at Quebec, where they drafted what is generally known as the Quebec scheme. This measure having been submitted to the people of New Brunswick at the polls in 1865, its supporters were defeated; in the following year, however, the Provincial Parliament having been dissolved and a second general election ensuing, the scheme with alterations and modifications was carried. An Act was afterwards passed by the British Parliament, and under its provisions, New Brunswick now forms one of the Provinces of the Dominion of Canada.

The harbor of St. John is safe but not very spacious, especially at low water. The tides, as is the case with all the harbors and sea ports on the Bay of Fundy, rise to a great height; at St. John as much as twenty-six feet. On this account great facilities are afforded for repairing and launching vessels; for during the retreat of the sea, the shores are left dry. From this circumstance a good oppor-

tunity is afforded for forming dry docks, an idea which it is not improbable may at some future day be carried into practice. During the flow, there is a strong inward current, and the harbor is therefore easy of access to the largest ships. Owing, however, to the great quantity of fresh water which descends from the river St. John, during the spring and autumn freshets, a strong and favorable breeze is necessary to enable ships to enter; in calm weather and when encountered by head winds they are frequently towed in by steamers. Partridge Island is situated at the mouth of the harbor. On this island are erected a battery, lighthouse, signal station, and hospital for the accommodation of sick immigrants and sailors, who are removed from vessels on their entering quarantine station. Here is also a steam whistle, which can be heard at a great distance and is of incalculable service during the foggy season, which usually continues from the latter part of June until nearly the end of July, although sometimes extending later into the summer. Between the island and the main land, westward, there is a long narrow bar, dry at low water. There is a beacon-light of considerable brilliancy and utility, on a reef situated some distance inside the island, towards the city.

Eastward of the harbor is a broad and shallow estuary, known as Courtenay Bay, terminating in a marsh, which produces excellent hay, and a deep ravine that runs westward and separates the parish of Portland from St. John. The city proper is built upon a rocky promontory of very uneven ground, sloping in opposite directions from a central ridge. Carleton, situate on the western side of the harbor, also constitutes a part of the city, at least for civic electoral purposes, and is built on a somewhat gradual but steep ascent, overlooked by rocky heights. The city is divided into Sydney, Duke's, Queen's, Prince's, King's, and Wellington wards; and Carleton, into Guy's, Albert and Brooks. The parish of Portland, which lies adjacent to and almost forms part of the city, includes Indiantown, formerly the site of an Indian village, and is subdivided, for ecclesiastical purposes only, into the parishes of St. Luke and St. Paul.

Two vacant spaces, one at the lower, the other at the upper central part of the City, have been reserved by the corporation and are known as Queen's and King's square. They are both ornamented with trees, and the latter contains a fountain. The buildings in the city, both public and private, are for the most part more noticeable in a utilitarian point of view than for any special architectural beauties. Many private residences, however, both in the environs of the city and the less public streets, are exceedingly attractive, and there are several handsome shop fronts and buildings on Prince William and King streets. There is a substantial stone custom house, fronting on the harbor, and adjoining the principal wharves; a court house built of the same material, fronting on King's square, with a stone jail adjoining; a public hospital built of brick, the provincial Lunatic Asylum, situate in Carleton, built of the same material; and several Banks and other buildings constructed of like durable materials. There are three banks in Saint John, not including the Savings bank; the St. John Branch of the Bank of British North America, the St. John Branch of the Bank of Montreal, and the Bank of New Brunswick. The Savings Bank building is a handsome edifice, situate at the corner of Princess and Canterbury streets. The Skating Rink is one of the finest structures of the nature in America; and the railway buildings are also exceedingly chaste in design. The Provincial Penitentiary, a massive stone structure, is situate on the eastern side of Courtenay Bay, as are also the Poor House buildings. The St. John Rural Cemetery Company are in possession of a beautifully situated piece of ground distant a little more than a mile beyond the city which is adorned with many finely executed monuments. The principal societies of St. John, besides those already mentioned, are the Board of Trade; the Natural History Society; the Gymnasium, having a building on King street; the Agricultural Society; the Bible Society; the Missionary, the Religious Tract, and other associations of a similar nature; the Protestant Orphan Asylum, the Female Reform Society, the Ragged School Association, the different National Societies, several Masonic Lodges, and the various divisions of Good Templars and Sons of Temperance.

The barrack buildings are situate at the extreme southerly portion of the city, at the mouth of the harbor. There are batteries erected here and at Negrotown point; while heavy guns are mounted on a stone tower on Carleton heights. These have all been transferred by the Imperial Government to the Dominion authorities. As is always the case with cities built principally of wood, St. John has suffered severely from fires, and whole streets, including the North and South Market wharves, have been laid in ruins. At one time the fire engine companies were a source of great pride and satisfaction to the citizens, and acted a very important part in all public demonstrations; within the last few years, however, the corporation have procured three steam fire engines, and the old hand companies are now disorganized.

Of the different places of worship, St. Paul's, Episcopal, and the Roman Catholic Cathedral, are the most handsome, although St. James', the Episcopal church in Lower Cove, St. Jude's in Carleton, the Baptist Church in Germain street, the new Kirk at the foot of Jeffrie's hill, and a few others, present a very respectable appearance.

The following files of newspapers are in the possession of gentlemen in the city, who have agreed to transfer them to the St. John Mechanics' Institute, upon the Directors providing a suitable place for their reception.

"The Royal Gazette and New Brunswick Advertiser;" from April 30th, 1799, to October 15th, 1799; printed by John Ryan, "Printer to the King's Most Excellent Majesty."

"The St. John Gazette and General Advertiser;" from May 30th, 1801, to August 15th, 1801; printed by Jacob S. Mott.

"The Royal Gazette and New Brunswick Advertiser;" from May 19th, 1801, to August 18th, 1801; printed by John Ryan.

"The Royal Gazette;" from December 22nd, 1802, to December 25th, 1805, ending with a "Gazette Extraordinary, containing an account of *Nelson's last Victory*," printed by John Ryan.

"The City Gazette and General Advertiser;" from July 20th, 1811, to September 26th, 1812; printed by William Durant & Co.

"The City Gazette" (continuation of Gazette and Advertiser) from October 2nd, 1812, to February 27th, 1813, by the same. "The City Gazette;" from May 22nd, 1813, to February 9, 1814; by William Durant & Co.; the last six papers by William Durant alone.

A complete file of the *St. John Courier*, commencing with the issue of the 2nd May, 1811, published by H. Chubb & Co., down to the last issue on the 15th July, 1865.

These seem to have been the earliest papers published in St. John, although it is quite possible there have been others of which the record is either lost or not known. Previous to the 1st of July, in this year, there were seventeen newspapers published in St. John; three of these having been absorbed at that date, there are now but fourteen; of these three are daily, nine weekly and two tri-weekly. The following statistics in regard to two of the most important and useful institutions in St. John, are offered to the reader, as affording a slight idea of civil progress for the last twenty-five years, and enabling a stranger to form some estimate of the present condition of the city. The St. John Gaslight Company was incorporated in April, 1845, with a capital of £20,000, which has subsequently been increased to £50,000. During the summer of '45 about $4\frac{1}{2}$ miles of pipes were laid, a retort and rarifying house with workshops and offices built, and the gas holder erected. Up to the 1st of May, 1869, the Company have expended \$196,000 on the works, and have laid over 38 miles of pipes extending through all the principal streets of the city, the parish of Portland and Indiantown; there are about 1200 private services in use and 280 public lamps. The works on Car-marthen street, comprise two retort houses, a purifying and condensing house, limekiln station metre house, three gas holders, blacksmiths and metre repairing shops, store-rooms and offices, with sheds for holding 2800 tons of coals, being the year's supply. The St. John Water Company was incorporated in 1832, the water being first pumped from Lily Lake and the supply up to 1850 was only for two hours each morning. In 1849 twelve inch pipes were run out to Little River and the pumping was abandoned. In 1855 the Company transferred their works to the City and parish of Portland. In 1857 a twenty-four inch main was carried to Little River reservoir, five miles from the city; and there are now over forty miles of pipe, with a never failing supply of water, over the whole city. The Suspension Bridge, built across the picturesque rapids at the mouth of the St. John river, is also deserving of mention, as an instance, not only of the enterprise of the talented projector, Mr. W. K. Reynolds, but also of the progressive tendencies of the citizens of St. John. The entire span of this structure is 630 feet. The towers, 53 feet in height, are 15 feet square at the base, tapering gradually to the top where they are 7 feet square. The roadway is 23 feet wide between the rails; the cables are ten in number, 1030 feet in length by 3 inches diameter, are composed of 300 wires and weigh ten tons each. The aggregate strength of the cables is 2250 tons, and the whole length of wire, if extended, would be about six hundred miles.

The population of St. John, in 1840 was 19,281, in 1851 it was 22,745, and in 1861, it numbered 27,317. Including Carleton, the total population, according to Munroe, in 1864, was 38,817 souls: the result of the census in 1871, gives the population of St. John, including Portland, 41,508.

The manufacture of a very marketable kinds, both in and constantly in demand and the neighboring improvement in one for cotton, paper factories in iron, boat, mill and other for all descriptions work in the city; mechanics; and the home market.

Ship building but it is somewhat this department in the register of ships St. John are built exceed 250 tons; tons were owned.

The manufacturing interests have not, until somewhat recently, received a very marked degree of attention; and for many years, articles of various kinds, both in iron, wood and other materials, and of such a nature as to be constantly in demand over the whole province, were imported from Europe and the neighboring States. At the present day, however, there is a marked improvement in this respect; as there are two or three woollen factories and one for cotton, producing fabrics of superior workmanship; several foundries and factories in iron, turning out almost all varieties of machinery for railway, steam-boat, mill and other purposes, boot and shoe factories, &c., &c.; while the demand for all description of household furniture, carriages and ornamental wood and iron work in the city and province, is supplied to a very great extent by native mechanics; and different kinds of fish, meats and fruit, are potted and cured for the home market, and for exportation.

Ship building has always been an important branch of industry in St. John; but it is somewhat curious to observe the enormous strides which were made in this department in comparatively few years. For this purpose a few extracts from the register of shipping may be quoted, as the greater number of vessels owned in St. John are built there. In 1782, the total tonnage of the province alone did not exceed 250 tons; while in 1871, it had reached 259,495 tons, of which 226,727 tons were owned in St. John.

One of the most lucrative businesses, however, in the earlier days of the colony was the timber trade, which since the removal of duties on Baltic lumber cannot be considered remarkably profitable, though still carried on with a tolerable amount of success. In 1791, when the export of timber from New Brunswick had barely commenced, the duty on Baltic timber was only six shillings and sixpence per load; that duty was gradually raised, and in 1812 amounted to £2 14 8 per load, while in 1820, though afterwards lowered, it was as high as £3 5 0 per load.

At the present day, mill owners are doing a large and profitable business in the manufacture of sugar shooks, which are sent down in immense numbers to the West Indies. As St. John is the terminus of a line of railway from Shediac, which taps the settled route of the Intercolonial, and of the line of railway running westward towards the United States, a brilliant prospect seems open to the city; and if a renewal of the reciprocity treaty is only effected, it seems not at all improbable that St. John may at some future and not far distant day, fairly claim the name which has already been applied to her as the Liverpool of British North America.

THE
ACADIA COAL COMPANY
 of Nova Scotia.

The undersigned is prepared to contract for the sale of the
 above Company's superior

STEAM, MANUFACTURING & HOUSE COALS,

deliverable free on board vessel, at the Company's wharf, in
 Pictou Harbour, or at any Station on the Nova Scotia
 and Windsor and Annapolis Railways.

THE ACADIA STEAM COAL

is DURABLE, free from SULPHUR, makes no CLINKER, and is NOT
 INJURIOUS TO FIRE SURFACES.

THE HOUSE COAL

burns with a BRIGHT FLAME, MAKES NO SOOT, and but little ASH,
 is entirely free from SULPHUR, and does not throw off UN-
 HEALTHY FUMES WHILE BURNING. Especially adapted
 for COOKING STOVES and RANGES, and can be used
 for broiling and toasting instead of charcoal.

MARGESON'S CALCULIFUGE.

IF YOU ARE SUFFERING, TRY IT!

Cure for GRAVEL, STONE in the Bladder, DROPSY,
and all DISEASES of the Kidneys.

The Proprietors have (after finding the real value of the above medicine) been induced to place it on sale at Brown Bros., and Avery, Brown & Co's, but not before they can testify to it being the sole means of curing about 200 Persons and several Horses.

DIRECTIONS.

Place the contents of one Puckage in an earthen vessel, and pour one Quart of Boiling water on it, steep twenty minutes, not allowing it to boil, and strain when steeped. Take one wine-glass full each morning, noon and night.

In all ordinary cases one package is sufficient, except for beast, when two or three may be required. It will cure all the above Diseases in man or beast. The proprietors would be thankful for the name and address of any person who has suffered a long time and been cured by taking this Medicine.

Mr. R. C. Margeson,—

DEAR SIR:—Feeling it my duty to express my gratitude for the efficacy of your valuable Medicine as a sure and safe cure for the Gravel and Stone in the Bladder, I do not hesitate to recommend it to all who may be afflicted with the same distressing complaint. I suffered for four years, and spent a great deal of money. After hearing of your Medicine I was induced to try it. I took four bottles, and the result was that I passed some dozens of stones, small and large, and in four weeks was well, and continue to be so. You are at liberty to use this in any advertisement you see fit.

JAMES DOYLE,
Bedford, Halifax Co., N. S.

Mr. R. C. Margeson,—

DEAR SIR:—Permit me to contribute my mede of praise for your valuable Medicine as a cure for the Gravel. I only used one bottle, and in less than one week I was perfectly cured of that most distressing complaint. I shall feel great pleasure in forwarding the merits of your medicine to any I may meet who are troubled with the same complaint. You are at liberty to insert the above in any advertisement you see proper.

Line of Steamers between

ST. JOHN, EASTPORT, PORTLAND AND BOSTON,

WITH CONNECTIONS TO ALL PARTS OF THE

UNITED STATES AND CANADA.

The favorite and superior sea-going steamers of this Line.

NEW YORK,	1,000 tons,	Capt. E. F. Winchester.
NEW ENGLAND,	"	Capt. E. Fields.
NEW BRUNSWICK,	"	Capt. S. H. Pike.

leave Reed's Point Wharf, ST. JOHN, at 8 A. M., and EASTPORT at 1 P. M. same day for PORTLAND and BOSTON, as follows:

In **JANUARY, FEBRUARY and MARCH**, one of these Steamers will leave ST. JOHN for EASTPORT and PORTLAND, every THURSDAY morning, at 8 o'clock, connecting at PORTLAND with the Trains for BOSTON, and all parts of CANADA and the WEST; in **APRIL, MAY and JUNE**, will leave every MONDAY and THURSDAY; in **JULY, AUGUST and SEPTEMBER**, every MONDAY, WEDNESDAY and FRIDAY; in **OCTOBER and NOVEMBER**, every MONDAY; and in **DECEMBER**, every THURSDAY, going through to BOSTON.

Usual running time between St. John and Eastport 4 to 4½ hours; Eastport and Portland 15 to 17 hours; Portland to Boston 8 to 9 hours.

CONNECTIONS—at St. John with **European and North American Railway** to Shediac and Steamer to Prince Edward Island, with Steamer "Empress" to Digby and Annapolis, thence by Railway to Windsor & Halifax, N. S. At Eastport, Steam Ferry to Lubec; Daily Stages to Pembroke, Dennysville and Machias, and Steamers "Queen" and "Belle Brown," in regular connection to Robbinston, and Calais, Me., and St. Andrews and St. Stephens, N. B., and from the latter places the New Brunswick and Canada Railway runs Northward to Woodstock and Houlton Station, making this the BEST ROUTE FOR TRAVELLERS TO AROOSTOOK COUNTY, MAINE.

Ayer's Cathartic Pills,

For the relief and cure of all derangements in the Stomach, Liver and Bowels. They are a mild aperient, and an excellent purgative. Being purely vegetable, they contain no mercury or mineral whatever. Much serious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest and best of all the Pills with which the market abounds. By their occasional use the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish, are cleansed by **AYER'S PILLS**, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution, or diet, or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these Pills rapidly cure:

For **Dyspepsia**, or **Indigestion**, **Listlessness**, **Langour**, and **Loss of Appetite**, they should be taken moderately to stimulate the stomach, and restore its healthy tone and action. For **Liver Complaint** and its various symptoms, **Bilious Headache**, **Sick Headache**, **Jaundice** or **Green Sickness**, **Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it. For **Dysentery** or **Diarrhoea** but one mild dose is generally required. For **Rheumatism**, **Gout**, **Gravel**, **Palpitation of the Heart**, **Pain in the Side**, **Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear. For **Dropsy** and **Dropsical Swellings**, they should be taken in large and frequent doses to produce the effect of a drastic purge. For **Suppression**, a large dose should be taken, as it produces the desired effect by sympathy.

As a **Dinner Pill**, take one or two Pills to promote digestion and relieve the stomach. An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

AYER'S HAIR VIGOR,

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy and effectual for preserving the hair. It soon restores faded or gray hair to its original color, with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests, and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a **HAIR DRESSING**, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

Prepared by Dr. J. C. AYER & CO., Practical and Analytical Chemists, Lowell, Mass.

The Act also authorises the appointment of a clerk for each Court, who shall be an attorney. The sittings of the respective Courts shall be held at or near the County Court-house in the shire town.

The County Courts have not cognizance of any action—

1st. When the title to land is brought in question; or,
2d. In which the validity of any devise, bequest, or limitation is disputed, except as hereinafter mentioned; or,

3d. For criminal conversation or seduction; or,

4th. For breach of promise of marriage; or,

5th. Of any action against a justice of the peace for anything done by him in the execution of his office.

Subject to the above, the County Courts have jurisdiction, and may hold plea in all personal actions of debt covenant, and assumpsit, when the debt or damages do not exceed the sum of one hundred dollars; and in actions on bail bonds given to a sheriff in any case in a County Court, whatever may be the penalty or amount sought to be recovered.

REGISTRATION.—Letters for registry must be posted fifteen minutes previous to the closing of the mail by which they are to be sent. The postage, as well as the registration fee, *must be prepaid*. The registration of a letter addressed to any place in New Brunswick or the Dominion is 2 cents, to the United States 5 cents, to the United Kingdom 8 cents, to Australia and all other places, when passing through the United Kingdom, a fee equal to one rate.

Registration is applicable to all descriptions of letters and parcels, whether they contain articles of value or not. Registration is not an absolute guarantee against the miscarriage or loss of a letter; but a registered letter can be traced when one unregistered cannot, and the posting and delivery or non-delivery can be proven. A registered letter is thus secured against many of the casualties which, from incorrect address, forgetfulness of the receiver, or other error, may affect an unregistered letter. "Moreover the safety of an unregistered letter is dependent on the integrity of a post-office clerk during the whole time it remains in his custody, frequently for hours, and even days; whilst a registered letter will almost invariably have to be acknowledged at the moment of its passing into an officer's hands, and cannot therefore be suppressed without leaving him individually accountable for its disposal." "If the consequences were limited to the mere risk of the loss of the money so sent, the senders of money in unregistered letters might reasonably urge, that if they choose to encounter the risk, they should be free to do so; but higher considerations are involved in the question, and the chance of loss to the careless remitter is really but the smallest part of the evil associated with the practice." The attentive perusal of the above remarks by those who are in the habit of sending money by mail in unregistered letters is strongly recommended, and it is further suggested that letters containing money should invariably be secured with *wax*, and not by the usual method, by maulage, or self-sealing envelope.

All letters are charged by weight, irrespective of distance, and a uniform rate of postage of 3 cents per $\frac{1}{2}$ oz. has been established throughout the Dominion of Canada. The rates of postage mentioned all refer to a *single letter*. If it exceeds the $\frac{1}{2}$ oz. it is charged double, and so on, according to weight. Ship letters, 5 cents; *letters for consignees free*.

PRINCIPAL RATES OF POSTAGE.

Letters.

On letters passing between any two places within the Dominion of Canada, a uniform rate (irrespective of distance) of 3 cents per $\frac{1}{2}$ oz., if prepaid; and 5 cents per $\frac{1}{2}$ oz., if posted unpaid.

Newspaper Rates.

Newspapers printed and published in Canada may be sent by post to subscribers
 from the office of publication to any place in Canada, at the following rates, if paid
 quarterly in advance, either by the publisher, at the post office where the papers
 are posted, or by the subscriber at the post office where the papers are delivered :

For a paper published once a week,	5 cents per quarter of a year.
Do. twice " 10	do. do.
Do. three times 15	do. do.
Do. six times 30	do. do.

If the above rates are prepaid by the publisher, the Postmaster receiving pay-
 ment must be careful to have the papers so prepaid separately put up, and marked
 distinctly as prepaid.

When the above rates are not paid in advance, by either the publisher at the
 office of posting, or by the subscriber at the office of delivery, the papers are to be
 charged one cent each on delivery.

Canadian newspapers, addressed from the office of publication to subscribers in
 the United Kingdom, the United States, Prince Edward Island, British Columbia,
 Bermuda, or Newfoundland, may be forwarded, on prepayment at the office in
 Canada where posted, at the above commuted rates, applicable to such papers
 within the Dominion.

Publishers of newspapers in Canada may post such numbers of their papers
 addressed to parties *within* the Dominion who are not subscribers at a rate of one-
 half cent prepaid by stamp.

Exchange papers passing between publishers in Canada, and between publishers
 in Canada and publishers in the United States, Prince Edward Island, Bermuda,
 and Newfoundland, are to pass free—one copy of each paper to each publisher.

Transient newspapers include all newspapers posted in Canada *other than*
Canada newspapers sent from the office of publication; and when addressed to any
 place within the Dominion, to the United Kingdom, to the United States, Prince
 Edward Island, Bermuda, or Newfoundland, must be prepaid *two cents* each by
 postage stamp.

Newspapers coming into Canada will be subject to the following charges on
 delivery:—

If from the United Kingdom, by mail packet to Quebec, Halifax, or Portland,
 free on delivery.

By mails *via* the United States (New York), two cents each.

If from the United States, and posted by a publisher, one cent each. Transient
 papers two cents each, to be rated at the Canada frontier or exchange office receiv-
 ing mails from the United States.

If from Prince Edward Island, Bermuda, or Newfoundland, when received by
 regular subscribers in Canada from the office of publication, the ordinary commuted
 rates applicable to Canada newspapers.

Transient papers, two cents each.

The Canada postage rates on newspapers coming from or going to the United
 Kingdom and United States will thus be the same as those charged in the United
 Kingdom and the United States on newspapers there received from or sent to
 Canada.

Franking and Free Matter.

The following matter is exempt from *Canadian postage*:

All letters and other mailable matter addressed to or sent by the Governor General of Canada.

All letters and other mailable matter addressed to or sent by any department of the Government, at the seat of Government at Ottawa, under such regulations as may from time to time be made by the Governor in Council.

All letters and other mailable matter addressed to or sent by the Speaker or chief clerk of the Senate, or of the House of Commons, or to or by any member of either House, at the seat of Government, during any session of Parliament, or addressed to any of the members or officers at the seat of Government as aforesaid, during the ten days next before the meeting of Parliament.

All public documents and printed papers sent by the Speaker or chief clerk of the Senate (or of the House of Commons) to any member of either House during the recess of Parliament.

All papers printed by order of either House sent by members of either House during the recess of Parliament.

Petitions and addresses to either of the Provincial Legislatures of Ontario, Quebec, New Brunswick, and Nova Scotia, or to any branch thereof; and votes, proceedings, and other papers, printed by order of any such Legislature or any branch thereof, during any session thereof,—provided such petitions and addresses, votes, proceedings and other papers, are sent without covers, or in covers open at the ends or sides, and contain no written communication to serve the purpose of a letter.

Letters and other mailable matter (except that provided for as above) addressed to or sent by the Provincial Governments or Legislatures of Ontario, Quebec, New Brunswick, and Nova Scotia, will be liable to the ordinary rates of Postage.

Public documents and printed papers sent under the foregoing clauses should bear, as part of the address, the *bona fide* superscription of the Speaker, chief clerk, or officer specially deputed for this purpose to act for those functionaries, or of the member sending the same.

The privileges of free transmission, as above described, has effect only as respects Canada postage rates.

All letters and other mailable matter to and from the Postmaster-General and the Dep. P. M. General, and all official communications to and from the post-office department, and to and from the post-office inspectors, are to pass free of Canada postage.

All letters containing a remittance on account of the public revenue sent by any postmaster in Canada to a bank or bank agency, and all remittances or acknowledgments sent by a bank or bank agency on account of public revenue to any postmaster in Canada, pass free through the post, as respects both postage and registration charge.

The box at the Marsh Bridge will be visited at 2.10 and 8.00 p. m.; and the boxes in Portland, near St. Luke's Church, and at Orange Corner, at 9.00 a. m. and 3.00 p. m.

All letters containing money should be mailed at the Post Office and registered.

No printed paper, whether newspaper, book, pamphlet, or other paper, shall be transmitted either free or at a reduced rate of postage, unless it is sent—1. Without a cover, or in a cover open at the ends. 2. There shall be no words or communication printed on the paper after its publication, or upon the cover, nor any writing or marks upon it, or upon the cover, except the name and address of the sender and of the person to whom sent. 3. There shall be no paper or thing enclosed with it. Where these conditions are not fulfilled, the whole will be charged letter postage.

The word "Newspaper" means any publication issued not less frequently than once a week, and containing notices of passing events; and the word "Periodical" means any publication issued at regular intervals, but less frequently than once a week.

Masters of vessels are entitled to receive for each letter they may deliver when inward bound 2 cents.

PATTERN POST.—Patterns of merchandise can be sent by post between New Brunswick and Great Britain at the following rates:—For a packet not exceeding 4 oz. 7 cents; under $\frac{1}{2}$ lb. 12 $\frac{1}{2}$ cents; not exceeding 1 lb. 25 cents; above 1 and not 1 $\frac{1}{2}$ lbs. 37 $\frac{1}{2}$ cents; above 1 $\frac{1}{2}$ and not 2 lbs. 50 cents; every additional $\frac{1}{2}$ lb. 12 $\frac{1}{2}$ cts. No parcel to exceed 2 feet in length, breadth, or depth. *Must be prepaid.*

DUTIABLE GOODS BY MAIL.—Postmasters are authorised to detain any post letter coming into the Dominion, supposed to contain any wares or merchandise liable to duty, and forward the same to the nearest collector of customs, who shall notify the person to whom the same may be addressed to be present; and if on opening the same, it contains no dutiable goods, it shall be handed over to him on paying the postage, if liable to any; if it does contain dutiable goods, the collector shall detain letter and contents for the purpose of prosecution.

PORT CHARGES.—Rates of Pilotage.

Established by Law of Ordinance of the Common Council of the City of St. John.

One dollar per foot for bringing any ship or vessel into the harbor of St. John, and mooring her into a safe place or berth, or securing her alongside one of the wharves; and one dollar per foot for removing and taking any ship or vessel out of the harbor.

In case where pilots shall be detained on board vessels, under and by virtue of the quarantine or health laws of the Province, they shall be entitled to demand and receive from masters of such vessels the sum of two dollars per day for every day of such detention, in addition to the allowance.

Coasting vessels going from one part of the Bay of Fundy to another, British steamboats, or British vessels drawing under six feet of water, are not compelled to take pilots; when employed, they are to be paid according to the rate above mentioned.

For removing vessels from any mooring ground to any wharf, or from one wharf to another wharf, and seeing them properly moored or secured, the follow-

LIGHTHOUSES.

Commissioner of Lighthouses in the Bay of Fundy—George W. Smith, Esq.

Cape Sable Seal Island Light—The first light in approaching the Bay of Fundy is on the south point of Seal Island. This is a plain white light, elevated about 80 feet above high-water mark, and may be seen in approaching the Island from any point of the compass. A very dangerous rock under water, but upon which the sea always breaks, called *Blonde Rock*, lies about $3\frac{1}{2}$ miles, S. by W. by compass from the lighthouse. Between this rock and the Island, there are some dangers—the ground is rocky throughout, and large vessels, therefore, ought not to attempt passing between them.

Brier Island Light—In advancing up the Bay the next light is situated on Brier Island, about half a mile N. E. from the N. W. point thereof. A plain white light.

Digby Gut Light—The next light, on the coast of Nova Scotia, is placed on the west side of Digby Gut—from Brier Island, north eastward. The coast is very bold, and not indented; the light is, therefore, chiefly intended as a guide into Digby Basin—a white light.

Gannet Rock Light—This light is intended to warn vessels of their approach to a very dangerous range of shoals and ledges, which extend from the Old Proprietor to the Seal Islands off Machias, a distance of about 20 miles. It is a flash light—white—twenty seconds dark and forty light in each minute. The lighthouse is painted in stripes, vertical, black and white. Bearings and distance by compass from the Gannet Rock Lighthouse:—The light bears from the lighthouse on Brier Island N. N. $\frac{3}{4}$ W. 22 miles; from the Gannet Rock to the Old Proprietor, E. $\frac{1}{2}$ S. distance 7 miles; from the Gannet Rock to the Black Rock, off White Head Island, N. E. $\frac{1}{2}$ E. 7 miles; from the Gannet Rock to the south-west head of Grand Manan N. N. W. $6\frac{1}{2}$ miles; from the Gannet Rock to the northernmost of the Murr Ledges N. W. $\frac{1}{2}$ N. $2\frac{1}{2}$ miles; to the southernmost of ditto, called St. Mary's Ledge, W. S. W. 2 miles; from the Gannet Rock to Machias Seal Island, W. and by N. 13 miles; from Brier Island Light to Old Proprietor, N. and by W. $\frac{1}{2}$ W. $18\frac{1}{2}$ miles; the Blonde Rock from the southernmost point of the Cape Sable Seal Island, S. and by W. $2\frac{1}{2}$ miles.

Note—Between the northernmost and southernmost of the Murr Ledges there is a range of dangerous rocks and shoals, many of them always above water, and which extend westward from the lighthouse about four miles; from this range, farther westerly, about six miles from the Gannet Light, lies a dangerous breaker called the Bull. This may be avoided by keeping three remarkable headlands near the S. W. end of Grand Manan open.

Machias Seal Island Lights—There are two fixed white lights upon the Machias Seal Islands, elevated about forty-five feet above high-water, and bear from each other E. S. E. and W. N. W. distance about 200 feet, by which circumstances of two lighthouses at the same station, they will be immediately distinguished from all other lights on the coast (British or American). Both the buildings are painted white. The following are the bearings from them, viz.: To the southernmost Murr Ledge, (St. Mary's) E. S. E. easterly; to the Gannet Rock Light, E. by S. $\frac{1}{2}$ S. 13 miles; to the southern head of Grand Manan, E. by N. $\frac{1}{2}$ N.; to the northern head of Grand Manan, N. E. $\frac{1}{2}$ E.; to the N. E. Rock, distant 2 miles, N. E. by N.; to the Little river head, N. by W.; to the Libby Island Lighthouse (American), N. W. by W. Vessels standing to the northward between these lights and the Gannet Rock, should tack or haul off the moment they bring these lights in one, as they will not then be more than three-fourths of a mile from the Murr Ledges, if more than five miles to the east of these lights.

N. B.—It is recommended that the ship's compasses should be well compared and adjusted (particularly in new ships), before they leave Partridge Island, as serious errors have frequently occurred from want of attention on this point; and

as the variation in the Bay of Fundy is seventeen degrees westerly (or $1\frac{1}{2}$ points), it will be found by the latest published Admiralty charts that the course from Partridge Island down the Bay (south channel) between the Old Proprietor and N. W. Ledges is S. W. $\frac{1}{2}$ S., but the course to be steered must depend on the direction of the wind on leaving Partridge Island.

Head Harbor Light.—Next in order after passing Grand Manan, and the plain white light (American), on West Quoddy Point, is Head Harbor Light. This is placed on the north-east extremity of Campo Bello, and is a guide to vessels entering the main channel to West Isles, Moose Island, and the inner Bay of Passamaquoddy; it enables vessels also at all times to enter Head Harbor—it is a fixed white light. The building is painted white with a red cross on it.

Point Le Preaux.—Upon this projecting headland two lights are placed, one above the other, in the same house, and distant 28 feet. Both lights can be seen from every point of compass where they may be useful—both are fixed and white. The lighthouse is painted red and white, in stripes of five feet broad horizontally.

Partridge Island Light.—This light, at the entrance of the river and harbor of St. John, having been established upwards of forty years, requires no particular notice, further than that it is a fixed white light, and that the lighthouse is red and white in vertical stripes. A fog-horn or steam whistle (the first of the kind ever used for this purpose), was placed on Partridge Island, near the lighthouse, in Sept. 1864, and is sounded at intervals of ten seconds in every minute, during the prevalence of fogs and snowstorms. The whistle can be distinctly heard at the distance of four to six miles. There is also a bell buoy anchored at extremity of the ledges at the eastern end of the island, which is very useful to vessels in thick or rough weather. The sound of the bell can be heard three miles distant.

Beacon Light.—Within Partridge Island, and upon a spit or bar which extends about half a mile S. S. E. off Sand Point, and which dries at two-thirds ebb, stands the Beacon Tower. Upon this tower a light is established, which is eminently useful to the coasting trade of St. John, and to all other vessels having pilots on board, as it enables them to enter the harbor at all hours of the night. A fixed white light.

Quaco.—A revolving white light is placed on a small rock off Quaco Head, showing twice full and twice dark in a minute. This light can be seen from any quarter where a vessel can approach. The lighthouse is painted white and red in horizontal stripes.

Cape Enrage Light.—On the point of that name, in Westmorland, nearly opposite Apple River harbor, N. S. A plain white light. The house is painted white, and is about 120 feet above tide-mark.

West Quoddy Light.—This is an American light, and is placed on the west side of the entrance into the St. Croix by Lubec and Eastport.

Cape Forchu Light.—On Cape Forchu, on the western side of the entrance to Yarmouth (Nova Scotia), in lat. $43^{\circ}39'$ N., long. 66° S. W. It exhibits a plain revolving light—visible one minute and a quarter, and invisible half a minute. The building is painted white, and is elevated 135 feet above the level of the sea.

Grindstone Island Light.—An octagonal tower, sixty feet above the level of high water, on Grindstone Island, in Chignecto Bay, in lat $45^{\circ}43'13''$ N., lon. $64^{\circ}37'25''$ W. The tower is painted white, as is also the keeper's house, one story, situated about 50 feet to the eastward of the tower.
