Results Indecisive Although Tremendous Pressure is Being Exerted to Bring Battle to a Finish--Armies Almost in State of Exhaustion.

IBy Special Wire to the Courieria LONDON, Sept. 28.—The past 48 hours have witnessed many scenes of extraordinary activity wherever antagonists faced each other, but none of these has apparently led to anything decisive. The official communications of yesterday stated that the attack on the German right had made a distinct advance, and this version is supported by official Berlin advices which state that the allies have made extensive advances against the German extreme right. The Belgians retained against the threat of the Germans to bring up their great siege guns before Antwerp, by making many desperate sorties.

Along the great western battle line itself, the struggle still continues to be general, with the most determined attacks being made on each flank. Both sides have evidently realized that mass attacks in the center are futile in the present state of the armies.

Another mannestation of the week-end has been the renewal of aerial activity by Germany. Zeppelins and aeroplanes have been out in force, apparently for scouting work, but indulging in bomb dropping wherever feasible.

From the east comes reports of actions from almost every section of the Russian frontier. Emperor William is reported to be in East Prussia, and the German offensive, probably under his eyes,

has recommenced against Gen. Rennenkampf.

The Austrian forces are still retiring on Cracow, and besides having taken some of the forts around Przemysl, the Russian cavalry is said to be pouring through the defiles of the Carpathians onto the plains of Hungary. Although the success of this latter movement is officially denied from Budapest, which announces that the repeated attempts of the Russian cavalry to enter the country have been repulsed, hurried efforts are being made along the Austrian frontier to strengthen the garrisons of the fortresses.

have been reinforced by additional redoubts.

Electric currents are a marked
feature of the defensive arrangements. Wires have been laid all

powerful power station at Riva.

Twelve heavy mortars which

Germans Are Fighting With the Desperation of Losers.

[By Special Wire to the Courier] NEW YORK, Sept. 23.— A London cable to the Tribune

The Central News to-day received the following despatch from its Paris correspondent:

"Both the allies and the enemy, far from being exhausted after more than a fortnight of continusus fighting, appear to be throwing increasing vigor into their operations. Exceptionally fierce engagements are now being fought, particularly on the allies' left.

"The pronounced retirement here is calculated to produce a state of chaos in the lines of communication on which the Germans are relying for support.

"The heavy autumn rains are now harassing the enemy on flanks and rear and will seriously hamper the mobility of the armies as well as serve to depress the spirits of the soldiers."

IMPOSSIBLE FOR STRUGGLE TO CONTINUE MUCH LONGER---STRAIN PROVING TERRIFIC

LOLNDON, Sept. 28-The cor-

respondent of the Telegraph, behind the French front, sends the following communication:

"The great effort on the part of the allies to drive back the right wing of the German army continues with unabated fury. Both sides seem determined to fight the issue to a definite conclusion in the northeast of France and to ignore for the time being Alsace-Lorraine.

"The armies cannot keep up the struggle much longer, and unless one side obtains a decided advantage we shall see stalemate results along the front. Then victory can be won only by the side which is able to bring up absolutely fresh forces which have not felt the strain of two months of continuous fighting.

The strain of this modern inghting is so withing never known before. The troops are under fire some times for days. If they escape the rifles and machine guns, they are within reach of the deadly shrapnel, and if they are too far off for shrapnel they come under

They dig themselves in extremely well and they figure mathematically every range, making their rifle fire deadily, while their field artillery finds the target with precision.

"It is worth noting that officers from the front universally lament the absence of a credited press correspondents on the front. They say the official bulletins only feebly convey an impression of the tremendous nature of the war operations."

Japanese troops, after fighting on Saturday and Sunday, occupied a posotion within seven miles of Tain-Tao, the seat of government of Kaio-Chow, the German leased possession in China. A German despatch says that the Germans retired only from their outpast positions, falling back on the first line of trenches.

A German despatch received here from Tsi-Nan, capital of Shan-Tung province, which probably came from Tuing-Tau, in the Kia Shoe territory by wireless telegraphy, conforms closely to the report given out at the Japanese legation, The German despatch relates that the German outposts, after several encounters with the enemy, retired to the first line of defence beyond the villages of Tsang-Kew and Li-Tsun. It is apparent that the German lines follow the highlands and are avoiding the lowland bordering on Kia-Chow bay.

The hour for the battle which will determine whether the Russians will make their proposed invasion of Germany with Berlin as the final objective appears to be

drawing near.

Official and unofficial advices indicate a struggle in Russian Poland rivalling in desperation and possibly in the numbers engaged, the battles of the Marne and Aisne. The main body of the Russians is moving toward the Posen frontier. On its right another army is supposed to be attempting to protect the larger body by stemming the German southward march.

That Activity of the Enemy is Very Violent But the Situation Remains Unchanged---Brief Announcement Made.

[By Special Wire to the Courier]

PARIS, Sept. 28 .- The following official communication was given out in Paris this afternoon:

"There is nothing new to report in the general situation. Relative calm prevails along one position of the front. Nevertheless, at certain points, notably between the river Aisne and the Argonne district, the enemy has delivered further violent attacks, which, however, have been repulsed."

PARIS, Sept. 28.-The prolongation of the tension on the two long lines of fire and death frenting each other on the Aisne must have become insupportable to the Germans since reports indicate that they have changed their tactics and attacked with the bayonet. The opinion is express-ed here that General Joffre's master hand is shown in this, as it is believed he has succeeded in pushing his lines inside the range of the dead heavy German guns and ferced the enemy to hand-to-hand fighting.

Since the attacks have been re-

pulsed over the whole line, according to the official communications, the military experts here cannot see now what resources the German emperor's generals can call on to retrieve their fortunes. The Matin expresses the opinion that the new troops the allies found fronting them on the left, were not from the German left wing but are part of the forleft wing, but are part of the for-ces detached after Charleroi and

sent to East Prussia, but now brought back in haste.

pondent says: "The rival armies are now crose to each other. A few hundred yards separated the trenches yesterday. Everywhere the German fury was unavailing and the close of the day found the allies left up still further.

"The battle has become, to some extent, a race between this movement on the left and the enemy's offensive against the center and the right. The failure of the enemy to shake off the tightening grip of the allies on the Oise and north of the Somme was accompanied yesterday by a renewed, attempt to smash the center. Here was massed the flower of the army—the Prussian Guard, which distinguished itself from the outset of the campaign by its ability to give and take hard knocks.

"Further to the right the German offensive at first met with some success. The attack was launched in the morning through the hilly wooded country between the road from the Somme to Chalons and the railway from St. Menehould to Vouziers. TERRIBLE WORK.

MONTREAL, Sept. 28.—Miss Han-son, daughter of Rev. Dr. Hanson, pastor of Erskine Presbyterian Church here, who returned from England a few days ago, has brought back information which she learned from a matron of a London hospital that 13 English nurses serving at the front had their two hands cut off by German soldiers. The matron said that the nurses were being treated in the hospital with which she was connected. Dr. Hanson gave currency to his daughter's information last night from his pulpit, and said that he had mand of the Canadian expeditionary not the slightest doubts as to its accordance.

LOCAL SCOUTS ARE AGGRIEVED

-Championship Contests in Toronto Have Been Called Off This Year.

The local boy scouts are considerably aggrieved over the action of the Toronto Scout headquarters, who have declared that the swimming championships will not be held as

usual this year.

They state that this is an attempto balk them out of the trophy which they hold and which will be theirs it they hold and which will be theirs if they wi nit again this year. As they made a clean sweep last year, they have entertained every hope of cap-turing the trophy finally. The cham-pionship contests, which include the whole of Eastern Canada, will take place with the exception of the swim-ming contests, and this fact rankles in the minds of the local scouts, and it has good reason too, for their vicit has good reason too, for their vic tories last year were were most con-vincing, they carried all before them, and took the three scout trophies for swimming, markmanship and first aid Their points totalled 275 against 147 by Toronto and 145 by Hamilton.

The swimming trophy goes to the winners who carry it successively for two years, and the local scouts think that they would have taken it easily the successive to the successive the successive to the successive

this year, as they are an improved set In view of these circumstances, they claim that the action of Toronto is claim that the action of Toronto is simply a move to deprive them of the cup, which they intend to claim by default. They see no reason why the cup should not be competed for as usual, and they had already began to train under George Mosley, who was largely responsible for their sweeping successes last year. The local scouts are making further enquiries into the are making further enquiries into the matter, and will, in any case, hold their trophies until they are defeated in competition for them.

WAS MADE SUNDAY

Bombs Were Dropped by Germans in Paris and in Many Other Places-Damage in Nearly All Cases Was Trifling.

LONDON, Sept. 28.—The Germans evidently chose Sunday for a general raid by bomb dropping Leppelins and aeroplanes. Visits were paid to Paris, Warsaw and many towns in Belgium. The loss of life was inconsiderable. A despatch from Ostend to-day

(Sunday) says that a Zeppelin passed over Belgium, dropping bombs in Ghent. One man was killed and a hospital damaged. At killed and a hospital damaged. At Thielt the gas factory was badly damaged, but no lives were reported lost. Eight other towns reported being visited by the airship which dropped missiles. Five bombs were dropped at Dynze, which mortally injured an old man and damaged the roof of a hospital. One bomb was dropped at Rolleghem, but did no damage. The Zeppelin disappeared in the direction of France, after dropping bombs at Minelboke and Alost.

A Zeppelin was shot down and its crew of German officers and air scouts was captured yesterday morning at Warsaw, after a futile attack upon the Modlin fortress. "The Zeppelin appeared over the city at 5 a.m. yesterday. Previously it had dropped two bombs near the station of the railroad to Kaliscz. Only one of these exploded and the damage was slight. The garrison of Modlin had made careful preparations to receive the German aircraft. Guns had been trained and ranges ascertain-A Zeppelin was shot down and its been trained and ranges ascertained. When the Zeppelin ventured within range it was made the target of fierce, concentrated fire. Within five minutes its envelope was pierced and it fluttered to

Four bombs were dropped on Paris from a German aeroplane Sunday. One missile, exploding in Sunday. One missile, exploding in Avenue du Trocadero, at the corner of Rue Freycinet, blew the head from the shoulders of a man who was standing on the corner with his daughter, and crippled the child. The other bombs did little damage. Crowds taking advantage of a beautiful Autumn day were proposed.

"VON DECKEN." The bombs were three feet long and shaped like cook pots. A hail of bullets swept houses near where they fell, and windows were smashed. The Parisians received this visit with more cur-ionity than fear, and the public feeling was expressed by the comment of L'Intransigeant, which said that the bombs were "P.P.C." cards left by the Germans as notice of the withdrawal of the German army from France. The attack began at 11.4 a.m. It is npossible to say whether or not there was more than one aeroplane, since the haze enabled them to arrive, drop missiles, and speed away without being ob-served. From the number of bombs it is believed that several planes flew over the city. At the sound of the explosion the promenaders in that section first rushed for shelter, and then, as the airship moved on, they hurried to the scene of the havoc. A cordon of police was quickly thrown about the debris, and the mangled body of the man killed was found and removed. Near by the body, the girl was discovered. Her lower limbs had been shat-

At the time of the attack services were being conducted in the American Holy Trinity church in Ayenue de L'Alma.. Many of the congregation fled to the street. In the midst of the excitement the aeroplane dropped three more bombs. One landed among a herd of cows pastured on the Auteuil race course. One landed among a herd of cows pastured on the Auteuil race course. One cow was killed and others toppled over stunned. A third bomb fell in Rue Vineuse, and a fourth in Rue de La Pompe, a quarter in which many Americans live. Comparatively little damage was done in either instance. The signing of this declaration these two nations will have no effect in the present war, because it is expressly provided that if either of them has an ally in any war who has not adopted the measure it is not binding on them. So fighting continues on land, on sea, and in the air.

Only Eight Field Marshals A British field marshal never fetires from the army. He may be placed on half-pay, but is still borne on the active list.

By the regulations there must not be more than eight field marshals receiving pay as such; that is, exclusive of honorary field marshals, such as foreign kings, emperors, and princes. Of the eight regular field princes. Of the eight regular field marshals two must be selected from

the Indian army.

The position of field marshal is a great one. The field marshal commander-in-chief in the Mediterranean gets \$25,000 a year. Probably a field marshal actively employed will get at least \$15,000 a year. This is better than the pay of an admiral of the fleet, who may be said

to be a naval field marshal, and gets only a little over \$10,000 a year, exclusive of allowances. General Saw Son Fall

NEW YORK, Sept 28—An unsuccessful attempt to mine the harber at Guernsey, England, said to have been made by a disguised German cruiser, which had on board 1,000 German marines and enough explosives to blow up a dozen warships was reported today by Miss Margaret Daniels, a missionary of the Baptist foreign missionary society, upon her arrival aboard the French liner Espagne, from Havre.

The vessel, according to Miss Daniels, was disguised as a Dutch merchantman. The Dutch flag flying at the topmast aroused the suspicion of the British authorities who had made arrangements with the Dutch government that their vessels entering English ports should fly the Dutch flag at half mast. The ship was accordingly surrounded by torpedo boats, and a search revealed 1,000 German marines hidden below decks. The marines were arrested and sent to a detention camp. [By Special Wire to the Courier] LONDON Sept. 28-How the peoole of Siberia took the news that was had been declared and their action in preparing for it is told in a despatch from Omsk, Siberia, to the Daily Telegraph under date of September 15. Fought Against Gen. French

BORDEAUX, Sept. 28—The Boer general Joubert-Pienaar has arrived at Bordeaux to offer his services to the allied armies.

"I fought against General French in South Africa. Now I am going to tight with him," said the general to the correspondent. "I commanded a Boer army opposed to him at Elandsglaate, where I received my baptism of fire in civilized warfara.

"I have offered my services unconditionally, and do not know as yet how I will be employed, but expect that it will be in an advisory capacity and that I will be attached in this manner to General French's staff. "The war will be long and fierce The German army, which I know well, is the finest fighting machine in the world, but we shall beat it it the end, because our armies are some the end, because our armies are some thing better than a machine.
