AMERICANS ORDERED OUT OF MEXICO, HEARS GALVESTON EVERYWHERE THROUGHOUT THE UNITED STATES THE NATIONAL GUARD IS MOBILIZING

Canadian Military Camps Taken as Model by the United States Soldiers NOT FOR EIGHTEEN YEARS HAS THE UNITED STATES SEEN SUCH MILITARY ACTIVITY AS IS MANIFESTED IN HER BORDERS TO-DAY

All Excitement in the Republic Following President Wilson's Call For the National Guard—Only Coast Guard Militia is Not Being Mobilized.

GATHERING IN NEW YORK

Washington, June 19.—Not since the Spanish war has the United States seen such military activity as to-day. More than 100,000 national guardsmen in 45 states are under orders to mobilize for Mexican service. They constitute virtually the entire militia strength of the nation.

Drilling and Recruiting. Only drilling and recruiting will be in order among militia organizations for the present. All must be mustered into federal service. Later they will be sent to the border for patrol duty, releasing about 30,000 regulars for service in Mexico if war actually develops.

The Navy in It. Additional warships also were getting ready to-day to hurry across the Atlantic. Secretary of the Navy Daniels, after the militia order was issued last night, ordered seven destroyers and nine other small vessels to join the American warships already in the Atlantic.

No Offensive Yet. No offensive attack on Mexico is contemplated. President Wilson only wants stronger forces to defend the border against bandit raids, and to be prepared against Carranza troops carry out their threats to strike at American forces engaged in chasing bandits south of the border.

Will Not Withdraw. With about 100,000 militiamen under mobilization and about 50,000 troops already at the border, the United States reply to General Carranza's last note demanding withdrawal of American troops is ready to go forward. It announces a refusal to withdraw until Mexico ceases its own bandits and it is emphatic.

Rushing to Colors. Unofficial reports received here to-day indicated that national guardsmen are mobilizing with a zest. In each state and the district of Columbia, they are preparing to meet in a single concentration camp, where they will drill pending further orders from the War Department. Infantry, cavalry, artillery, signal and sanitary troops are included in the call.

Only coast guard militia is not being mobilized. General Funston, commanding the border forces, will determine when the militia organizations shall be despatched from their home states, and to what points along the border.

New York Mobilizing. New York, June 19.—Fifteen thousand or more troops of the New York National Guard began to assemble in their armories throughout the state in response to the President's call. As rapidly as the com-

State of War Between U.S. and Mexico

By Special Wire to the Courier.

Galveston, Tex., June 19.—The Mexican Government in Yucatan has issued a proclamation ordering all Americans out of Mexico and declaring a state of war existing between the two countries, according to passengers arriving here to-day on the Norwegian steamer Nils from Progreso.

CLASH ALREADY.

Washington, June 19.—Communications from the Mexican embassy announcing that there had been a clash between a boat crew from the gunboat Annapolis and Carranza soldiers at Mazatlan yesterday, and asking that in the present tense situation no men be landed in Mexico from American warships under any circumstances, were delivered to the State Department to-day by an embassy secretary.

The secretary sought an engagement with Secretary Lansing for the ambassador designate, Eliseo Arredondo, but was informed that Mr. Lansing was very busy and was making no appointments for the day.

CONSUL DEAD.

Es-British Consul at Boston Dies in Valetta, Malta.

Valetta, Malta, June 19.—Via London, 2:49 p.m.—Sir John Elliah Blunt, British consul at Boston from 1893 to 1902 died here to-day at the age of 84. Sir John, who was knighted in 1902, had been in the consular service since 1850 much of the time in Turkey.

CARRANZA HAS STILL HOPES OF PEACE WITH U.S.

At Great Mass Meeting Urged Restraint Upon His Hearers.

GIVES PROMISE OF LEADERSHIP

If War Does Come Will Lead in Person the Mexican Troops.

Mexico, city, June 19.—General Carranza addressing a mass meeting in front of his residence last night urged the citizens to refrain from hostile acts against Americans and declared that he had hopes of peacefully arranging the difficulties between Mexico and the United States.

The First Chief said in part: "This is not the time for hasty action. I am trying to arrange our difficulties with the United States peacefully and have hopes of succeeding. I want you to aid me. The encounter between American soldiers and Mexicans near Matamoros has been temporarily solved with the withdrawal of American troops from that region. The matros are now being taken up diplomatically. There was some trouble in Matatlan, caused by the intrusion of an American sailor and that has also been adjusted for the time being. So be assured that I have at all times your homes and are good Mexicans, remembering also that I will do my utmost to preserve the dignity of the Mexican nation. I will lead you in person."

A crowd composed of several thousand people cheered the remarks of the First Chief. Early in the evening a big demonstration had been made in front of the national palace and afterwards the demonstrators had paraded through the principal streets of the city. The metropolis was peacefully calm early this morning and General Carranza's words are expected to have a good effect in maintaining this condition.

FOUR DEATHS WHICH TOUCH BRANTFORD

Pte. Jenkerson, Gunner Moon and Ptes. Burgin Reported Killed.

As V. Jenkerson, who was reported in the casualty list of Thursday last as killed in action. Being an unmarried man with no relatives in Canada, his next of kin was given as residing in England. Pte. Jenkerson, previous to enlisting, was a painter at the Massey-Harris works, and resided at 86 Grey street. He had been for two months a member of the 32nd Battery, though it was in the Dufferin Rifles that he enlisted for active service, going overseas with the second contingent.

Gunner Harry Moon, who has died of his wounds, was an employee for three years of the Crown Electric Co. He was an Englishman, having no relatives in this country. He enlisted with the 32nd battery in the second contingent. While in this city, he boarded at the residence of Mr. E. C. Chevins, Marlboro St.

Gunner Moon enlisted with Gunner Smith, also of the Crown Electric Co., who died of meningitis in the Exhibition Camp, Toronto, and was accorded a military funeral here. Capt. Thompson, the chaplain of the battery, assisted in the funeral service here, and it was in a letter from him that it was learned Gunner Moon died on June first, the same time as Major Vanstarrt.

Mr. Chris. Burgin Porter at the Belmont Hotel, was informed on Saturday that papers were taken from the pockets of two dead soldiers on the battlefield which showed Mr. Burgin was the father. This news not official, but since one of the sons enlisted in England and the other was a member of the Royal Horse Artillery (regulars) at Kingston, it is not thought Ottawa would learn of their death.

CANADIAN CAMPS WILL SERVE AS MODELS TO THE AMERICAN TROOPS

Observer in Canada Returns to Boston to Use Information Gained in Helping Massachusetts--All Over Country Men are Mobilizing Hastily.

By Special Wire to the Courier.

Boston, June 19.—Members of the Massachusetts National Guard assembled at their armories throughout the State to-day, in preparation for service on the Mexican border. In their mobilization at the Framingham camp, the troops will have the benefit of first-hand information from the camps in Canada, Colonel Graves, commanding the Eighth regiment, having been in the Dominion on special detail as observer for several weeks. He was ordered to return to-day.

In Pennsylvania.

Philadelphia, June 19.—Nearly 19,000 National Guardsmen were being mobilized in Pennsylvania, New Jersey and Delaware to-day for border duty in accordance with the call of the War Department.

Away Down South.

Atlanta, Ga., June 19.—Active preparations for National Guard mobilization were under way in the South Atlantic states to-day in response to the President's call. Florida's National Guard was expected by officers to be ready within a day or two. South Carolina and Georgia were expected to be mobilized and in readiness within several days.

Military enthusiasm was at a high pitch among militiamen of those three states.

Chicago in Line.

Chicago, June 19.—Plans for the mobilization of the National Guard of all the states comprising the central department, U.S.A., for Mexican border-service were under way early to-day, according to an announcement issued from the headquarters of Major-General Barrie, commanding the department.

In Chicago it was announced the quota of approximately 4,000 guardsmen from this city is expected to be on its way to the mobilization camp at Springfield within the next 48 hours. Officials of railroads centering in Chicago were early preparing for the immediate movement of troops.

Western States Active.

San Francisco, June 19.—Mobilization of militia is in full swing in California, Oregon, Washington, Montana and Idaho to-day. In those states approximately 9,000 national guardsmen will be ready for service on the Mexican border within 48 hours, according to statements made by adjutants-general commanding the various forces.

Blockade of Germany is Pinching; The Food Problem is Very Serious

Germans Are Looking Forward With the Greatest Anxiety to the Next Two Months Before the Harvest.

By Special Wire to the Courier. 24,000 tons have already gone to Germany, and more are sure to follow.

New York, June 19.—The London correspondent of The Herald, under yesterday's date cables as follows: "Neither in the North Sea nor the Baltic," said Mr. Balfour in his speech before the imperial council of commerce, "can the Germans for many months make any organized fleet effort, which might have been in their power before the battle. And our blockade is tighter than ever."

"If the condition of Germany was ever growing more serious owing to blockade before the North Sea battle, what must the future have in store. From the same authoritative source from which on a previous occasion I obtained first hand information about the effects of the blockade, I have further information on this same matter."

"The whole population," said this same informant, "is on short commons as regards many necessities, though even now things have not reached a point which can justify the cry about starving women and children, raised in order to create prejudice in neutral countries against the British blockade. Still, the blockade is telling, and the Germans are looking forward with great anxiety to the next two months before the harvest."

Desperate efforts are being made by Germany to obtain food supplies from neighboring neutral countries, and such imports are in excess of the quantities obtained in normal times. For instance, 90,000 tons of potatoes exported from Holland this year,

READY FOR CAMP

Instructions were received this morning at the 125th Battalion headquarters, to be prepared to send an advance party to Camp Borden a few days after June 25, and to make all necessary arrangements for the departure of the battalion upon short notice. These instructions are taken to imply that the 125th will in all probability leave Brantford some time next week.

PREPARATIONS MADE AT EL PASO BUT NOTHING TROUBLESOME EXPECTED

35,000, Troops on Guard There and People Feel Confident They Can Hold Their Own, But Excitement is High—Careful to Avoid Unnecessary Clashes.

El Paso, Texas, June 19.—Deployment in the Mexican situation crowding one on the heels of the other in the last 36 hours, caused excitement to-day paralleling that following the crossing of the frontier by the American expeditionary command at Columbus, N. M., more than three months ago.

American military authorities admitted that every preparation had been made for eventualities, but asserted that no trouble is anticipated in this immediate locality.

MEXICANS NEAR

General Bell, commanding the El Paso military district, seemed confident to-day that with 35,000 troops on station here, he is prepared to cope with any emergency. Some confidence, however, was given a rumor that a body of Carranza soldiers, estimated at 5,000, is encamped about 20 miles south of Juarez, prepared, if necessary, to reinforce the garrison of 4,000 and that 8,000 Carranza troops left Villa Ahumada, 83 miles south yesterday for El Valle, southeast of Durban, one of General Forsyth's field bases. This report, however, could not be confirmed and was not generally believed.

Reports also were current that General Jacinto Trevino, Carranza commander of the army of the north, is arming all male citizens above the age of 18, following his recruiting campaign for which orders were recently issued by the Mexican minister of war.

Attack on Hill

321 Beaten Back

By Special Wire to the Courier.

Paris, June 19.—A German infantry attack on the French position north of Hill 321 was repulsed by the French batteries yesterday, according to an official statement issued by the war office to-day. The Germans are continuing their bombardment at Dead Man Hill and in the Chattancourt region.

The text of the statement follows: "To the south of the River Somme an unexpected attack on the part of the enemy in the vicinity of Lihons has resulted in complete failure."

"On the left bank of the River Meuse, the enemy has been engaged in an active bombardment of the southern slopes of Dead Man Hill, and of the country around Chattancourt. Our artillery everywhere responded with certain of fire and preparations against further activity were made."

"On the right bank of the river a pronounced German attack against our position north of Hill No. 321 was repulsed by our fire."

"During the night of June 18-19 two of our air squadrons bombarded the barracks and the railroad station at Vouziers. At the station there had been reported the movement of trains. One squadron threw down 36 shells of large calibre, and one other one 25."

AN ADVANCE.

By Special Wire to the Courier.

PARIS, June 19.—The Havas correspondent at Saloniki telegraphs that news has just been received there that Bulgarian troops in the region of Florina and Monastir have begun an advance.

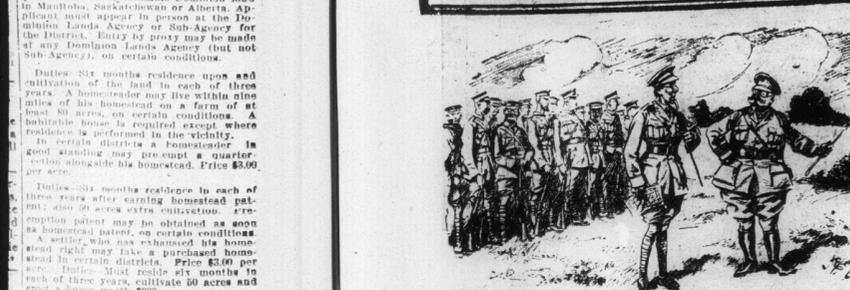

GUESTS OF COUNCIL.

"Anzacs" on route to England Entertained in Montreal.

By Special Wire to the Courier. Montreal, June 19.—The New Zealand party en route to attend the imperial conference in London, England, were to-day the guests of the Montreal City Council, and were driven around the city and shown the historic spots. On Saturday afternoon the arrival of the members of the party from Ottawa they were entertained by the harbor commissioners.

Leaves of absence, which had been granted a number of officers and men of the base camp here, have been revoked by the commanding officer.

WILSON CALLS OUT NATIONAL GUARD, "WATCHFUL WAITING" POLICY WITH MEXICO IS OVER

State Troops to Guard the Mexican Border, Releasing Regulars For an Advance--Navy Ordered Down to Mexican Waters to Help Safeguard American Lives.

Washington, June 18.—Virtually the entire mobile strength of the national guard of all states of the district of Columbia, was ordered mustered into the federal service last night by President Wilson. About 100,000 men are expected to respond to the call, although Brig-Gen. Alfred Mifs estimates that the maximum militia forces available would be 145,000 men.

They will mobilize immediately for such service on the Mexican border as may be assigned to them. Gen. Frederick Funston, commanding the border forces, will designate the time and place for movements of guardsmen to the international line, as the occasion shall require.

In announcing the orders, Secretary of War Baker said the state forces, would be employed only to guard the border and that no additional troop movements into Mexico were contemplated, except in pursuit of raiders.

Simultaneously with the national guard call, Secretary Daniels of the navy department, ordered additional war vessels to Mexican waters on both coasts, to safeguard American lives.

Tension Daily Greater. At the war, navy and state departments it was stated that no new advances as to the situation in Mexico had come to precipitate the new orders.

Within the last two weeks, however, tension has been increasing steadily. The crisis presented by Gen. Carranza's note demanding the recall of Gen. Pershing's expeditionary force has been followed by a virtual ultimatum served on the American officer by Gen. Trevino, the Mexican commander in Chihuahua. To this was added yesterday, the possibility that American and Mexican troops had clashed across the border from San Benito, Tex.

Mobilization of the national guardsmen to support Gen. Funston's line will pave the way for releasing some 30,000 regulars for immediate service in Mexico in the event of open hostilities with the Carranza Government. The guardsmen themselves could not be used beyond the line without authority of congress and until they had volunteered for that duty as they are called out under the old militia law. The new law, which would make them available for any duty under the federal government, goes into effect July 1.

Disposition of Regulars

The entire mobile regular army in the U. S., several provisional regiments of regular coast artillery, several regiments of infantry, and the National Guard of Texas, New Mexico and Arizona, now are on the border, or in Mexico. Definite figures have not been made public, but it is understood Gen. Funston has about 40,000 regulars, and probably 5,000 or more guardsmen, of whom 10,000 regulars are with Gen. Pershing of scattered along his line of communication.

TRAIN HIT TRUCK; FIREMAN KILLED

Captain John Case of London, Ont., Met Instant Death.

London, Ont., June 18.—Captain John Case of London, motor truck No. 1, was instantly killed and two other city firemen seriously hurt shortly before noon Saturday when the fire truck was struck by a swiftly moving G. T. R. freight train at Talbot street level crossing. Albert Bean and Charles Shilley were the two injured. Two other firemen escaped by jumping.

Fire Chief John Aitken, with his chauffeur, Thomas Taylor, crossed the tracks in his roadster only a few feet ahead of the fire truck and missed being hit by a close margin. The department was responding to an alarm and the chief's automobile and the fire truck was halted at the Talbot street crossing to allow a westbound freight train to pass. When the gates were raised they started. Neither the members of the department nor the watchman at the crossing saw the approaching eastbound train, the engine of which struck the big fire truck squarely in the middle, hurled it on its side and pushed it along the track for a distance of 100 feet.

LAST WEEK'S LIST.

About 7,500 Names, and of These 1,700 Were Killed.

By Special Wire to the Courier.

London, June 19.—(New York Sun cable)—The casualty list for the past week contains the names of 256 officers, of whom 82 were killed and 7,286 privates, of whom 1,646 were killed.

FAIRLY ACTIVE ON BRITISH FRONT

Artillery Fire, Gas Attacks and Mines Vary the Monotony.

London, June 17, 11.40 p.m.—The British official statement issued to-night reads: "There was a considerable amount of activity last night in various parts of our front. The enemy bombarded our trenches vigorously at many points, about midnight. This bombardment was accompanied by two ineffective discharges of gas westward of Vimy ridge. There was no infantry attack.

"Further south we carried out two successful raids, one near the River Lys, the second near Givenchy. In both cases our parties accomplished useful bombing, returned safely. Near Arras, north of Arras we exploded mines with success. Today has been devoid of any particular incident except for continued mining activity in the vicinity of Loos, where three further mines were sprung, one by the enemy, two by us. Of the latter one caused serious damage to the enemy's underground workings."

Simcoe, June 18.—Major Chas. E. Innes received on Saturday a princely mount, the gift of the employees of the Simcoe Canning factory, in which plant he was Superintendent before taking his commission in the 133rd. The presentation was made in the street in front of the factory just before the hands went to work after the noon hour. The steed is a five year old chestnut, about 16 hands high from the stables, of Lloyd of Burford and is an exceptionally beautiful mount. The Major evidenced deep gratitude as he thanked the donors, mounted for a photo and cantered off to the battalion.

PIVOTS ON SIX STATES

The "American" to-day figures out that the result of the coming election, if Hughes and Wilson are the only candidates presented, will depend upon the six states of New York, New Jersey, Connecticut, Ohio, Indiana and Wisconsin. In the three western states the German vote is a factor of considerable importance, while in the three eastern states, including New York, the suspicion that Mr. Hughes is favored by the German-American alliance will probably be enough to insure his defeat.

The "can" in this instance is a small cylinder which is pivotaly attached to the handle of the brush, so that it can be swung over the bristles for the depositing of the powder, or laid back parallel with the handle and forming a part of it. This cylinder, of course, must be filled from another source of supply, and it is so designed that the powder may be ejected gently as it is moved along the length of the brush proper.

MIMICS AMONG BIRDS

Birds, from the ostrich down, are imitative. The ostrich, where he lives alone, is silent, but in a country where lions abound he roars. Why? Because for centuries, admiring the lion's roar, he gradually learned to roar himself. Among small birds, buntings imitate "pips" and green finches imitate yellowhammers. They seek their food in the winter together, and they gradually steal each other's calls. The Jay is an insatiable imitator. Some jays will include in their repertory not only the cries of songs of other birds, but also the bleat of the lamb and the neigh of a horse. Even the nightingale imitates. In a nightingale's song "it is sometimes quite easy to detect phrases he has borrowed from other birds.

HOT CROSS BUNS

Quaint Easter Customs Survive In England.

If the old time Easter custom is still observed, another bun will be added to the Good Friday collection at the Widow's Son, a little tavern in Devon's Road, Bow, London. Many years ago the house was tenanted by a widow, who, expecting her only son, a sailor, home on Good Friday, baked some buns, of which he was very fond, and hung one in the bar. The vessel was lost, at sea and the son was never heard of, but every year the widow hung up a bun as a remembrance, and the custom has been maintained by subsequent licensees.

So recently as 1908 a certain pious lady, Mrs. Catherine Stewart Petre, of Canterbury, left a legacy of £5 a year to the rector at Cavendish, Suffolk, for the purchase of hot cross buns. By her will they were directed to be distributed amongst the Sunday school children and their teachers on the morning of Good Friday.

It may not be generally known that hot cross buns are in some parts of England, believed to possess certain mystic healing virtues. At least one bun is therefore set aside, and when any member of the household happens to be afflicted with stomach or other aches during the ensuing year, a little of the bun is crumbled into water and used as an effective remedy. Buns, it seems, used to be hung up as charms against evil and kept from one Good Friday to another, though whether they were then eaten as yearlings or not does not appear.

CZERNOWITZ VIENNA

Capital of Bukovina Railway Line

ian Army--G Forcements Help Hard P

London, June 19.—After fighting in the suburbs and River Purth, where the Austrians fought desperately with the gaining time for the evacuation of Czernowitz by their army, a removal of military stores, the city, General Letchinsky has entered the capital of Bukovina. The capture is an important event, it entails the command of important railway lines. It has been untenable for several days because of the tremendous bombardment which compelled flight of the civil inhabitants, evacuation of the place by the Austrians.

It is expected that further talks of the capture will show both sides suffered sanguinary.

Comes at Dramatic Time. The capture of Czernowitz, the Russians comes at a dramatic moment, it happening only days after the Austrians, in a posing ceremony, had unveiled the city hall a double-headed trian eagle such as the Russian Russian during their occupation of the city last year.

Russian headquarters announced the capture of Czernowitz in usual laconic terms. It gives a description of the desperate fighting known to have occurred for crossings of the Purth River. The Austrians blew up the bridge but adds the interesting fact that the Austrians are being driven from Rumania where they would have been.

This pursuit appears to show the Russian cavalry are still but the military critics here, ginning to wonder how the Russians can maintain the advance, which must be tempered to attenuate their lines of communication.

Claims Russians Held. Austrian headquarters admitted the loss of Czernowitz, but at the same time that the Austrians are holding the aid of the German army, north of Turya River, which is an attack on the Pripiet, joining the latter north of Kovel.

The Russian official makes the interesting remark.

CZERNOWITZ IS CAPTURED; VIENNA HAS ADMITTED LOSS

Capital of Bukowina, Centre of Many Railway Lines, in Hands of the Russian Army--Germans Rushing Reinforcements From French Front to Help Hard Pressed Ally in the East.

London, June 19.—After hard fighting in the suburbs and on the River Pruth, where the Austrians fought desperately with a view to gaining time for the evacuation of Czernowitz by their army and the removal of military stores, from the city, General Letehinsky has finally entered the capital of Bukowina. The capture is an important one, as it entails the command of several important railway lines. The city had been untenable for several days because of the tremendous Russian bombardment which compelled the flight of the civil inhabitants and evacuation of the place by the Austrian forces.

It is expected that further details of the capture will show that both sides suffered sanguinary losses. Comes at Dramatic Time. The capture of Czernowitz by the Russians comes at a dramatic moment, it happening only a few days after the Austrians, with imposing ceremony, had unveiled on the city hall a double-headed Austrian eagle such as the Russian flag removed during their occupation of the city last year.

Russian headquarters announce the capture of Czernowitz in the usual laconic terms. It gives no description of the desperate fighting known to have occurred for the crossings of the Pruth River after the Austrians blew up the bridges, but adds the interesting fact that the Austrians are being driven into Roumania where they would be interned.

This pursuit appears to show that the Russian cavalry is still active, gaining to wonder how long the Russians can maintain the rapid advance, which must be tending to attenuate their lines of communication.

Claims Russians Held. Austrian headquarters have admitted the loss of Czernowitz, but at the same time claim that the Austrians are holding the Russians in Volhynia, and with the aid of the Germans, north of the Turya River, which is an affluent of the Pruth, joining the latter river north of Kovel.

The Russian official account makes the interesting revelation that German reinforcements have already been brought from the French front to the assistance of the hard pressed Austrians.

Kovel is Important Point. Kovel, while it remains in Austrian hands, is an ideal base for operations against the Russian flank in Volhynia, and it remains to be seen whether Germany can afford to bring enough troops from the Verdun enterprise or the Austrians from their operations against Italy to save the situation and hold the salient formed by the resistance they have maintained on their centre, while the Russians thrust in on the two flanks through Lutsk and Czernowitz. What seems clear is that the Russian drive must have a tremendous influence in all the theatres of war.

According to The Logal Anzeiger of Berlin all the 17-year-old boys in Germany have been ordered to report themselves to the military authorities.

To Compel Retreat. A Reuter despatch from Petrograd says: "The net strategical result of the fortnight's fighting in that the Russians hold practically a straight line between Lutsk, Buczac and Czernowitz. The military critics point out that the capture of Radiviloff, and the driving of the enemy forces to Brody and, in all likelihood, further in the direction of Lemberg, will almost inevitably compel the withdrawal of the Austrian centre from the Tarnopol region."

"The Russians advancing across the Volhynian-Galician frontier are according to the latest despatches, less than 60 miles from Lemberg. The fact that Russian cavalry has been able to occupy Radiviloff shows Austrian recognition of the futility of endeavoring seriously to oppose the Russian passage of the frontier."

The recapture of the Potechka monastery causes much rejoicing among Orthodox Russians.

Russians Have New Shell. Thus the forward sweep of the Russian armies continues, despite the desperate resistance of surviving Austrians and German auxiliaries, with fresh troops brought up from other fronts. In the fighting the Russians are greatly assisted by their artillery, which is equipped with a new shell which is extremely deadly in its effects. It is reported to have been invented by the scientists of various Russian universities working in collaboration.

In the north the Russians have opened a heavy and effective bombardment of the lines of von Hindenburg before Dvinsk, and it is believed in some quarters that the intense fire presages an offensive against the German armies in the north.

The Russian bombardment, Petrograd announces, has seriously damaged the German trenches and works fronting on the Dvinsk positions and southwest of Lake Narocz.

Defeat Stochod River. Owing to the peril which the occupation of Kovel would bring to their armies in Eastern Poland, the Germans have hurried up troops and are putting up a desperate resistance to the advance of the Russians west of the Stochod river. They are also attacking the Russians in the region of Kolkoi on the borders of the Pripiet marshes. Successes have been won over them by the advancing Russians.

In order to resist the Russian advance on Lemberg, the enemy, Russian headquarters says, strengthened by elements brought from other fronts has made furious counter-attacks at many points against the troops of General Brusiloff. West of Kolkoi, on the Sty, the enemy took the offensive near Gadoffiche village. He encountered a violent fire from the Russian artillery and his attack was repulsed.

Keeping right at the heels of the beaten enemy the Cossacks broke through his positions and captured 15 officers and over 800 men.

Takes Many Prisoners. General Kaledines who is still engaged in furious fighting with the enemy on the left bank of the Sty, and in the region of the Stochod river, a short distance south of the Pripiet, a marshes, where the Germans have brought up reinforcements from France, is continuing his success. In all, between June 5, and captured 83 guns, 236 machine guns, and an enormous quantity of material.

The Russian Siberian troops, under command of Gen. Kislye, captured Svidniko on the left bank of the Stochod river. The Germans left four officers and 800 prisoners in their hands. White Russian Russians brilliantly rushed through three extended lines of the enemy

THE SITUATION.

The successful Russian offensive on so large a scale has come as a complete surprise to the world at large, and also to the enemy, but it was clearly part of a well-co-ordinated plan. Without any doubt, Earl Kitchener had full knowledge of what was in contemplation, and at the time he met his lamented death he was on his way to Petrograd for still further conference. The Allies are now working in such harmony that, as in the present instance, the troops of the Czar received the signal to strike at a most opportune time for themselves and their associates. As the inevitable result of the rapid advance of the Russians, German and Austrian forces have had to be called from other fronts to try and help check the on-flooding rush. They have made some difference, and may do more, but the advantages gained by Brusiloff's army are enormous, and it is now official knowledge that Czeronowit, capital of Bukowina, has been taken, and that the Austrians are in retreat towards the Carpathian mountains.

Reinforced by their characteristic weapon of liquid fire, the Huns have made several renewed attacks upon French positions at Dead Man Hill, but without result.

MAINTAIN PEACE.

Given like ideals, Hon. James M. Beck of New York, in a recent notable speech in Toronto, did not see why this could not be done, but even then he admitted that there would be many agreement difficulties in connection with such a plan. The speaker pointed out that formerly the maximum of military preparation was reached by an army of 700,000 men, the Grand Army of Napoleon. To-day the combatants are numbered by the millions, and battles between armies equal in size to that mighty host with which Napoleon crossed the Niemen are dismissed with a brief paragraph in the daily communique. Formerly the longest battle did not last a week. To-day, after three months of continuous conflict day and night, a battle still rages at the eastern gateway of France in which it is possible that a half million of men have already perished, and which in its stupendous horror has never had a parallel since the world began. In five days Brusiloff has captured more Austrians than Napoleon commanded men at Waterloo, and yet this crushing advance is dismissed by a few fleeting paragraphs in the daily press. In the sixteen principal battles of the eighteenth century 100,000 men fell that have already fallen at Verdun, while the 46 greatest battles of the nineteenth century, including Austerlitz, Borodino, Leipzig, Waterloo and Gettysburg, reaped a smaller harvest of death than the admitted losses of Germany in men killed outright in action.

Such figures serve to bring home the appalling magnitude of the conflagration, but then only to a slight extent. The idea of an ultimate combination of nations to check any future outbreaks must be regarded as largely Utopian. Wars have existed since the commencement of the world, and in all probability always will. Meanwhile the present job on hand is to lick the Austro-German-Turkish outfit in such a way as to put the quietus on them for a few generations, at any rate.

MAJOR BALLACHEY.

The death at the front of Major Ballachey marks the passing of a splendid type of soldier and citizen. He was a Brant county boy by birth with sterling stock among his forefathers, and it may be said of him that his own leading characteristics were thoroughness and determination. He carried these qualifications into his student days, into the acquirement of his dental degree, and in a marked manner into his acquisition of military knowledge. He had been an enthusiast in the latter respect years before the outbreak of hostilities and had been through every grade of the Dufferin Rifles until his final rank as Major and Adjutant. His friends know how

MAJOR BALLACHEY.

eager he was to go with the First Contingent, but he had the claims of a small family to consider and business interests to arrange. However, he lost no time in making the necessary preparations, and there was no happier man than he when he sallied forth to do his duty as he plainly saw it, second in command to Lt.-Col. Genet, also a Brantford man. The rapidity with which this Battalion reached the firing line, passing others of much longer formation, was undoubtedly due to the excellent organization and training, in which Major Ballachey had a leading part.

As a citizen he found time to take an active and valuable interest in municipal affairs and was for many years elected to the Public School Board, and latterly as a member of the city-wide Educational Board. As a husband and father he was exceedingly thoughtful and devoted. He was a life long member of Grace Church and never allowed any other duties to interfere with regular attendance at the services. In all of his dealings he was inclusively upright and outspoken. Those who might differ with him on any point always felt that the Doctor's decision had been reached after most careful consideration and honestly held.

Many an old friend will long have in tender memory that grave over yonder where as loyal and true a heart as ever beat, is stilled in the last long sleep.

GERMANS CLAIM RUSSIANS ARE BEING CHECKED

Hand Out Report of Repulses and Many Prisoners Taken.

By Special Wire to the Courier.
Berlin, June 18, via London 4.45 p.m.—German troops under General Von Linington are holding in check the Russians advancing toward Kovel from the southeast, army headquarters announced. The Russians were repulsed on both sides of Styrd and nearly 3,500 prisoners, one cannon and ten machine guns were taken by Germans. Russian attacks near Przewloka also failed. A French attack in Thiamont wood north of Verdun broke down.

The text of the statement is as follows:
"Western front: At various points on our front between the Franco-Belgian frontier and the Somme there has been lively artillery and patrol activity."
"During the night on the left bank of the Meuse (Verdun front) there was patrol fighting for advanced trench sections on the southern slope of a hill."
"On the right bank of the river a French attack on German positions in Thiamont wood preceded by artillery fire the last several hours broke down. A small first line trench taken by the enemy was cleared during the night. Air attacks against military works at Bar-le-Duc were again repeated."
"A French airship was brought down near Lassigny by our anti-aircraft guns and smashed to pieces."
"In the region of Besang-la-Rand south of Chateau Salins, Lieut. Wintgens brought down his sixth, and Lieut. Hoendorf his fifth airship. The occupants of one machine were killed. On the evening of the 16th the wreckage of a French airplane brought down in an aerial battle, was observed in flames northeast of Hesse wood."
"Eastern front: General von Linington repulsed Russian attacks on the Styrd on both sides of Kolki. Between the Kovel-Lutsk road and the Tora sector our troops in successful engagements captured 11 Russian officers, 3,446 men, one cannon and 10 machine guns."
"Before General Count Von Bothmer's army, enemy attacks north of Przewloka broke down under our curtain of fire."

NOTES AND COMMENTS.
Recently they bestowed knightship upon the Canadian gentleman familiarly known as "Old Probs." In view of this year's performances he should have been given the order of the bath, with a coat-of-arms including an umbrella rampant and a pair of rubbers couchant.

The completed returns for the Quebec House show: Liberals, 75; Conservatives, 6. The verdict mainly stands for the sinister school agitation also backed in the House by Sir Wilfrid Laurier.

The fact that Wilson has ordered out the entire national guard on the Mexican frontier is pretty good evidence that matters are commencing to shape up seriously in that quarter. The sombrero has been thrown into the ring, and Uncle Sam cannot do anything less than take it up.

When the average married man heard that dresses were going to be fastened up the front instead of the back he gave a whoopee of delight. Poor chappie; his joy was short-lived. Along came the boots which lace up to the knee. There was only one back, but there are two of the other apparatus.

ITALIANS NOW TAKE OFFENSIVE

Vienna Issues Official Statement That Attacks Are Failing.

By Special Wire to the Courier.
Berlin, June 19.—(By wireless to Sayville)—Italian troops are on the offensive in many sections of the front, but are being held in check by the Austrians, the official statement issued in Vienna on Saturday says. The statement follows:
"The enemy maintained spirited artillery fire between the Adriatic and Dei and Seibus mountains. Italian attacks on our positions were repulsed."
"On the ridge southeast of Monfalcone there was fighting with mines and hand grenades. An attack of the enemy on Mrzilvrv failed as did repeated assaults on our positions in the latter sector. In the latter sector, near Rurfd and before Grede Del Aneona, attacks delivered by the Italians broke down. Stocks of assaults in the sector of Primolano made on our positions near Grenzcek and against Monte Melitta, met with the same fate."
"Italian forces in considerable strength attacked our front southeast of Aziago and were repulsed. We captured 13 officers, 354 men and 5 machine guns."

DEAD AND DYING IN A DUG-OUT.
Letters received from men of the Lincoln describe hot fighting, with mining and counter-mining and withering scora. Hun-burds, and shells and bullets were flying all over the place, and it was literally a rain of fire," writes Private Lionel Lee to his mother, who is a Poor Law Guardian at Boston, Lines. After one mine explosion, the writer says: "Lieutenant Morris and several of our bombers, who took the crater, had a very hard fight when the Germans attacked us, but they bombed and shot them as fast as they came, and stopped them. Lieutenant Morris was very brave, for he stood up and shot them down with his revolver, and our mates

were all killed or wounded, except four, and they held it. They are to be recommended, and I am sure they deserve it."
The Fate of a "Bobbie's" Helmet.
A Scotchman, belonging to the Gordon Highlanders, after describing a skirmish with Germans in their trenches, says:
"The situation was not without its humorous side. Our brawny Sergeant-Major X (an Aberdeen bobby) was striding up a communication trench when a 'football' burst at his shoulder. His helmet was flung ever so far, and he himself was blown about five yards up the trench in the other direction. He landed on his back, badly shaken but still game,

and generally undamaged. He turned round with a look of thorough disgust on his face, picked up his dented helmet, solemnly put his fingers to his nose with a glance of withering scora. Hun-burds, and then resumed his route." Probably he concluded that, after all, by way of a Strafe, the Boches' little flare-up wasn't up to a Pittodrie scrum.

"At the moment there is a terrific Strafe going on to our right, and the Huns are throwing over huge liddie 'crumps.' Rumor has it that the trenches in front of us are now held by troops straight from Verdun. At all events they lie low, like Brer Rabbit, and we hardly ever get a glimpse of them, though their taubes and aviatics come buzzing over every now and then."

NOW IN SCOTLAND
A letter received in town to-day from Major Bert Newman, who has been ill, states he is now in Perth, Scotland. He reports Scotland is looking particularly fine, and he is recovering rapidly.

BOMBING CLASS
The usual class of two N. C. O's and 21 men of the 125th battalion left this morning for Hamilton, there to take a week's bombing course under Major Buchanan at the ranges.

ELM AVENUE
The service at Elm Avenue Methodist church last evening was in charge of Mr. F. W. Thompson of Colborne St. Church, who took his text from the First Book of Kings, iii-5: "And God said, ask what I shall give thee." Mr. Thompson based his remarks upon the choice of life, referring to Solomon, who asked God for wisdom.

AT ALEXANDRIA
A large congregation assembled at Alexandria Church last evening to commemorate the Sacrament of the Lord's Supper. The service was most impressive and reverently conducted by Rev. Prof. Kilpatrick, whose message to the people was appropriate and most inspiring. Dr. Kilpatrick also had charge of the pre-communion service on Friday evening last.

CUSTOMS GETTING BUSY
The Custom officials at Niagara Falls and Bridgeburg are very busy just now in regard to bringing goods in from Buffalo to Canada, by way of Toronto, Hamilton and Brantford. Buffalo stores have been doing a large business in shoes and clothing, and the Custom officials are determined to put a stop to this "underground" evasion of the tariff dues.

30 MORE MEN REQUIRED.
There are still vacancies in the ranks of the 125th battalion for at least 30 good men, the officers are desirous of enlisting, and all who are contemplating enlisting should hasten to do so at once, in view of the probability that the battalion will go into camp next week. This should be an added inducement to many who have, until the present, deferred enlisting.

WITH THANKS.
The Red Cross wish to acknowledge with thanks the following donations: Mrs. Chas. Champion, \$10; Mrs. D. M. Lester, New York, \$5.

KNOWN HERE.
Lieut. Allen G. Shenstone, Royal Engineers was recently mentioned in despatches for gallantry in the field. Lieut. Shenstone lives at 40 Walmer Road, Toronto, and is the son of Mr. J. N. Shenstone, formerly of the Massey-Harris Co. of this city.

CREAM REQUIRED.
Any milkman, or milkmen, who wishes to help the tattoo, might notice that six gallons of cream will be required. Donations should be left at the Hygienic Dairy before noon on Wednesday.

COUNTY COURT
The hearing of the case of Killeleagh versus the City of Brantford was commenced at the opening of this morning's court sessions. The evidence occupying the forenoon.

RETURN FROM COURSE.
Lieuts. Coghill, Rehder and Wood-yatt returned this morning from a course of instruction at Niagara Camp. Lieut. Andrews and Corp. Wood have also returned to the city after attending a class of machine gun instruction.

RAIN INTERFERED.
Owing to the inclement weather, the open air service of the 125th was postponed yesterday morning and was conducted in the armouries by the chaplain, Rev. Capt. Lavell. He referred feelingly to the passing of Major Ballachey, and drew an interesting lesson from the fact that yesterday was the day of Waterloo.

NEW CURATE AT TRINITY.
Rev. John Whalen, B.A., the newly appointed curate to Trinity church, conducted the services yesterday (on Trinity Sunday, by a happy coincidence) for the first time in his new office. Rev. Mr. Whalen was ordained only a few weeks ago at St. Paul's Cathedral, London, is a young man, and comes to Brantford with the best of recommendations. He is the son of a noted divine and a nephew of Bishop Stringer of the Yukon. At yesterday's services, Rev. Mr. Whalen officiated most pleasingly, making a favorable impression with the entire congregation.

Y. M. DIRECTORS MEET.
The meeting of the Y. M. C. A. board of directors took place Thursday evening, when the report of the Boys' Department was read, being very favorably commented upon. The boys' membership during the period from April 15 to June 13, increased from 300 to 365, owing to the energetic efforts of Boys' Work Secretary Moseley. Thirteen boys were transferred to the Older Boys' division. The number of outstanding memberships had materially decreased. Thirty-one dollars was raised during the month of May in the Boys' Department in order to build a portable hut which is almost completed, and which will provide for accommodation for swimming on the river in the summer and a dressing room at the rink in the winter, as winter will be run in the coming winter by and for the boys. The swimming classes are being very well attended, the equipment in good shape, the billiard tables and cues are being renovated. Consideration having been given to these matters the report was discussed very favorably.

MAJOR BALLACHEY'S DEATH IS MOURNED

The death of Maj. P. P. Ballachey, which was contained in a telegram to his people here on Saturday as well as in the official casualty list—came as a great shock to Brantford people.

As soon as he heard the news Mr. W. H. Lane, of the Board of Edu-

MAJOR P. P. BALLACHEY.

cation visited the schools and arranged to have the flag fly at half mast for three days in honor of the former member of the Board. Yesterday at Grace church fitting reference was made to his passing by Dr. Mackenzie. He paid a high tribute to the character and ideals of a faithful member of Grace church since he was baptized there. The flag on the tower flew at half mast during the day, and a memorial hymn was sung in his honor.

MAN MISSING
The local police have been requested by Mrs. Shute of Mount Pleasant to keep a watch out for her husband, who is missing from his home. He is 47 or 48 years of age, of slim build, dark complexion, wearing dark brown clothes.

COOL SUMMER COTTONS Are Such a Delight

You can hardly imagine anything more thoroughly delightful for a warm day than these crisp embroidered Swisses or pretty embroidered or flower-printed voiles.

France, England and Switzerland have sent splendid assortment of their finest cottons, such an assortment as we are assured is to be found nowhere else in this city, and American cottons this year are almost, and something quite their equal.

Voiles have even been printed in sports stripes, and there is every variety of sports skirting anybody could ask for in both cotton and silk-and-cotton.

Ginghams are here also. Fine Anderson gingham, and others less expensive, but remarkably good for their price.

White skirtings are another special feature, ratine and various kinds of cotton materials. Silk-and-cotton materials are most satisfactory for Summer wear, and there is a good choice, ranging from poplins to crepes de chine and crepes.

BODY FOUND IN THE GRAND RIVER

Decomposition So Advanced It Could Not be Identified.

The body which several persons had reported seeing in the river in the past few days was finally found by County Constable Taylor last evening, floating in the river a short distance below Cainsville. Being very badly decomposed, the body could not be identified, though it is the opinion of the authorities that it had come some distance down the river. It was that of a man between 30 and 35 years, so far as could be judged wearing a blue coat, vest and trousers, a light shirt, soft collar and tan shoes, nearly new. In the pockets were found \$2.10 in money and two white handkerchiefs. Contrary to rumors, the body was that of a white man. Owing to the advanced state of decomposition, it was ordered buried at once by Dr. Fissette, interment taking place at Mt. Hope cemetery. No inquest will be held.

PARIS CASUALTIES.
In common with other parts of Brant County, and of the whole of Canada, the town of Paris is being seriously affected by the recent heavy casualty lists of the past week. The little town has given a very large percentage of its eligible men to the empire's cause, and many of these are now making the supreme sacrifice. This morning's list contains the names of two Paris men killed, Pte. Harold Hartley and Pte. J. Hensholwood. Pte. Albert E. Frost Robinson, also of Paris, is reported missing.

Lt. J. Lamont Brandon, son of Mr. Alex. Brandon of the Brandon Shoe Company, has returned to the city, after successfully completing his six weeks' course of qualification as a cavalry officer. Contest was begun in the Superior Court at Providence, R. I., over the \$6,000,000 estate of Theodore M. Davis, who left a \$1,000,000 collection of Egyptiana to the Metropolitan Museum of Art.

PTE. J. JENKINSON. Painter, of 66 Grey Street, Killed.

Fort Will be Erected on the Grounds, and at the Evening Performance Platoons of the 125th Will Defend It From Attacks of Other Platoons.

Grand March
If the weather man will only be- have himself, Brantford will have a military carnival on Wednesday afternoon, and evening, that will surpass anything of the kind ever at- tempted in this city. The event will be a farewell celebration for the 125th Battalion, which will be leav- ing for camp in the course of a cou- ple of weeks, and a varied and most entertaining program has been ar- ranged. The carnival is being given under the auspices of the Women's Patriotic League, and the proceeds are to be expended for another field kitchen for the battalion. In the afternoon, in front of the big grand stand there will be a grand march past of the battalion, by platoons, followed by a program of military drills, exhibitions of bayonet fight- ing, signalling, etc., interspersed with some army sports and comics. At the close of the afternoon per- formance, in front of the grand stand, the grand Midway will open, which will include in its attractions, refreshment booths, side shows, vaudeville performance, Monte Car- lo, Fortune Telling, etc. The Mid- way Tatoo in which four massed

bands will take part, will commence. A feature of the evening perfor- mance will be the attack and defence by the platoons of the 125th bat- talion, of a fort, which will be erected on the grounds. In the engagements, the machine guns will be used. A magnificent display of fire-works will conclude the evening's performance.

Is Handsome New Booklet
The attention of the public is di- rected to the new publication just issued, dealing with the wonderful Alpine Playgrounds in the Rockies served by the Grand Trunk Pacific Ry., and with the route of the Grand Trunk Pacific Steamships through the "Norway of America" to Alaska. This new booklet is of 48 pages and has striking cover de- signs in color with gold embossed lettering. The booklet contains more than 40 half tone illustrations and carries maps of Jasper and Mount Robson Parks, of the Grand Trunk System and its connections and the routes of the Grand Trunk Pacific Steamships in the North Pa- cific coast waters. It is a worthy re- presentation of the "Route of Char- acter Service."

"ONE RECRUIT FOR EVERY EGG LAID" IS MOTTO

Bantams Have a Hen to Set the Pace in Obtaining New Men.

A new slogan has been adopted by the local recruiting depot of the 216th battalion. In their window at 108 Colborne street, three bantams are on view, one of them a hen, and the motto of the local Bantams now is "One recruit for every egg laid." To the present, the average has been maintained, for since Fri- day three eggs have been laid in the window, while one recruit was secured on Friday, and on Saturday two more men availed themselves of "the small men's opportunity." The Bantam platoon attended di- vine service at the headquarters of the 215th battalion yesterday morning. The Bantam's new office at 108

Colborne street assumes every day a more and more attractive aspect. The show window is a masterpiece of its kind, containing three caged bantams, their coops surrounded by a mass of green foliage. A large number of flags and recruiting pos- ers also adorn the window, calling the attention of all to the inducements of the 216th Bantam bat- talion.

The newest recruits of the local squad were measured for their uni- forms to-day. The men present wore a fine appearance when on parade, and will have an even better aspect when all are thoroughly outfitted with uniforms and all essentials.

Laid at Rest

David Golding
The funeral of David, infant son of Mr. and Mrs. Arthur J. Golding, 24 Nelson Street, took place from Reid and Brown's undertaking parlors last Thursday to Greenwood. Rev. L. Hawkins officiated.

Andrew Fonger
The funeral of the late Andrew Fonger took place on Thursday afternoon from his father's residence, Pine Grove to Mt. Hope cemetery and was very largely attended. Rev. Mr. Shepherd conducted the services at the house, the Masonic Order from Lynden taking charge of the services at the grave. The pallbearers were Messrs. Norman Houlding, D. Van- sicker, Dr. Gibson, M. Knox, J. Archer, H. Miller.

During the services the choir from Lynden Methodist Church, of which deceased was a member, sang, "Some day we will understand" and "Across the River Jordan."

The floral tributes were as fol- lows:—Wreath, Our Boy, parents; wreath, Earl and Eric; Compass and Square, No. 5, his lodge; wreath, Lynden young people; wreath, Mrs. Catherine Johnston; wreath, from Hattie; sprays, Lynden Methodist Choir, Pine Grove church and Sun- day school, Uncle Harry and Aunt Gertrude, Mr. and Mrs. R. Fonger, Mr. and Mrs. E. Porteous, Miss A. Gram, E. B. Matthews, Uncle Bill and Aunt Isabel.

To keep her father from spending so much time and money there, an Oklahoma girl burned down a liquor joint.

People more Particular

THE demand for package goods grows greater every year.

Why? Because the world is ever growing more and more particular about foods. Packages keep the goods in wholesome, sanitary condition. They keep out dust, flies, moisture and odors, preventing deterioration. They preserve flavor, freshness and strength, insuring value for the money.

In sealed packages only.

To The Editor

"A THEORY OF ZONES."

To the Editor of the Courier:
Dear Sir,—Here is a plan, if taken up by the Government, ought to settle this daylight fad. To divide Canada up into zones, either named or numbered. The line between each zone running direct north and south and so many miles apart of equal distance, and establish a sun- dial anywhere north and so on, in the exact centre between the east and west line of each zone. And when the sun registered due south on each dial that to be the legal 12 o'clock noon hour in that zone. By this means it would suit all traffic and commerce, as well as legal and local purposes, and thus measuring time by distance, wouldn't matter what zone a person was in, they could tell the time in any other zone. Thanking you, Mr. Editor, for your space in your valuable journal.

VON MOLTKE IS DEAD, FORMER HUN ARMY CHIEF

Nephew of Famous Leader of War of 1870 Dies of Apoplexy.

Amsterdam, June 19, via London, —Lieut.-General Count Helmuth von Moltke, chief of the supplementary general staff of the army, died of heart apoplexy yesterday afternoon during a service of mourning in the Reichstag for the late Field Marshal von der Goltz, says a Berlin telegram last night.

Lieut.-General von Moltke was a nephew of the late Field Marshal von Moltke, the great strategist, who directed the victorious movements of the German armies when they achieved their memorable triumph in the Franco-Prussian war of 1870.

During the fall of 1914 announce- ments of Gen. Moltke's illness were followed by reports that he had been superseded as chief of the general staff. These, however, proved un- founded, but in December of that year he retired from the post, his failing health, it was said, prevent- ing his return to the front. He was succeeded by the present head of the general staff, Gen. von Falkenhayen. In January following he was ap- pointed chief of the supplementary general staff.

ANNUAL CHURCH PARADE OF A.O.F.

Rev. Mr. Wrighton of Park Baptist Preached to Men of Order.

AN APPEAL TO COME TO CHRIST

Number of Russians at Af- ter-service Worship in Native Tongue.

The annual church parade of the local courts of the Ancient Order of Foresters took place last evening to Park Baptist church, where service was conducted by the pastor, Rev. W. H. Wrighton. Accompanied by visiting brethren from Hamilton, Paris and St. George, the Foresters assembled at their lodge rooms, pro- ceeding from there to the church, via George, Colborne, and Sherwood streets. The members of Sherwood Forest of Hamilton, a uniformed branch of the order, per- formed fancy drill en route to the church. Mr. Arch. Martin, of Hamil- ton, the High Chief Ranger of the A.O.F. was in attendance.

Before commencing his sermon, Rev. Mr. Wrighton paid tribute to the ideals which the Ancient Fore- sters strove to maintain—sympathy, never needed so much as at the present time, in order to dispel the gloom and alleviate suffering by fol- lowing the path of duty. He said that could be rendered only when Christ was made our help; the visiting of sick, the fatherless and the widows, for which an unspotted life was nec- essary.

To Be Cleansed of Sin.
Mr. Wrighton chose his text from Isaiah i: xviii, and delivered a most eloquent appeal to all to hasten to be cleansed of their sins, while the opportunity presented itself. In Adam, we received the taint of sin, and fell; yet, if we died eternally, it was because of what we ourselves did, because we refused to avail ourselves of the remedy sent to us by Christ. The stain of sin, the spot of iniquity, could be cleansed only in one way, through the precious blood of the Redeemer.

"God," declared the speaker, "is a God of divine urgency. He knows how to time His actions, in the un- certainty of life, many may be snatched away not knowing Christ. The world moves rapidly, and we do not know when Christ may return to establish His kingdom. Now is the only time to seek salvation; we have no pledge that the future will be ours, that we will live for an- other month, for another year."

An Appeal to Come.
The very joy and peace experi- enced by those who followed Christ should be sufficient to induce all to do the same. God desired to talk with us, to reason with us, to point out the reasonableness of salvation.

"Let us come to the Lord," urged Rev. Mr. Wrighton, "and the blood- stained hand of Christ shall blot away the stains upon our face of life, so that this may not be read by the angels of God. None who come to Christ will be refused; He will receive and keep us. But he that believeth not, the lips of Christ Himself tell us, is condemned already. Our lives have been pur- chased at a great price by the Lord our Redeemer, and through Him we may be brought back to the purity of Eden, and to a closer and devout union with God."

"The Story of Jesus Can Never Grow Old" was beautifully rendered in the course of the service by Mrs. Baird and Miss Dorothy Baird.

Russians at Service.
At the close of the service, the usual informal half hour was spent in the school room in prayer and social intercourse. A number of Russians were present here, who prayed and sang in their native tongue. Quite a number of Russians attend service at Park Baptist church.

The parade was in charge of Mr. Percy Farnsworth, Chief Ranger, Court Endeavor. There were 200 Foresters turned out. There were present the Knights of the Sherwood Foresters of Hamilton, in charge of their captain, the High Chief Ran- ger, A. Martin. The District Chief Ranger, A. Salpe, also accompanied them. Upon the return to the lodge room from the church, several speeches were made by the High Chief Ranger and others.

The Cook Quit

And we were "up in the air" about it because the wife knew nothing about cooking. She tried her best and meant well, I guess, but her first attempt at a meal convinced me.

So we had just about decided to eat in restaurants when suddenly my wife struck a bright idea. "Why don't you call 139 and insert a help wanted ad for a cook in The Courier?" she said. And I did—

CUBS TAKE THE LEAGUE BATTLE TO ACHEIVE F

Stars Bit the Dust so the 215th Baseball at Being Rather Very Even.

The Cubs took the lead City League as a result of Sat- urday's two games when they defeat- ed Stars in a close encounter, 6-5. The 215th went down to defeat the hands of the Alerts by a score 12-9, both games being featur- ed prominently base stealing and considerable loose playing with lifts and detracts from the inter- est of the games, which, nevertheless, patronized by a fair-sized crowd.

Delay at Start.
The start of the first game delayed for a few minutes by the Stars being one man short, vacancy being filled by Bill Jo who covered second base and fielded satisfactorily during the game. He also had two runs and two hits in his credit.

Hits and Errors.
The Cubs took the lead third inning, when Tim Slattery and Summerhayes walked and scored. Slattery's error, however, was not a factor in the game. Slattery singled. One more added by each team in the making the score 3-1, which Cubs promptly boosted to 5-1 sixth.

Nearly Lost Out.
The Stars came back with more in their seventh, but in the eighth inning, Slattery and Summerhayes walked and scored. Slattery's error, however, was not a factor in the game. Slattery singled. One more added by each team in the making the score 3-1, which Cubs promptly boosted to 5-1 sixth.

CUBS TAKE THE LEAD IN CITY LEAGUE BALL GAME; ALERTS ACHEIVE FIRST WIN OF SEASON

Stars Bit the Dust in Defeat as Did Alerts, the 215th—Some Rather Weird Baseball at Times, Hts and Errors Being Rather Frequent—Race Still Very Even.

The Cubs took the lead in the City League as a result of Saturday's two games when they defeated the Stars in a close encounter, 6-5 and the 215th went down to defeat at the hands of the Alerts by a score of 12-9, both games being featured by pronounced base stealing and considerable loose playing, which at times detracted from the interest of the games, which, nevertheless were patronized by a fair-sized crowd.

Delay at Start.

The start of the first game was delayed for a few minutes owing to the Stars being one man short, the vacancy being filled by Bill Johnson, who covered second base and right field satisfactorily during the game. He also had two runs and two singles to his credit.

Hits and Errors.

The Cubs took the lead in the third inning, when Tim Slattery singled and Summerhayes walked, both stealing later and scoring when Beckett was safe on an error and Tom Slattery singled. One more was added by each team in the fifth, making the score 3-1, which the Cubs promptly boosted to 5-1 in the sixth.

Nearly Lost Out.

The Stars came back with two more in their seventh, but instead of resting content with a seven inning victory, the Cubs insisted on going the full nine innings, which very nearly cost them the game, as the Stars tied it up in the 8th, on a walk to Johnson, a single by Moss, and a double by Ed. Sears. The Cubs were unable to accomplish anything in their half of the 8th, but succeeded in holding their rivals scoreless in the 9th, and in snatching the winning run for themselves. Tim Slattery singled, Summerhayes walked, and Slattery stole third. Beckett lifted a fly to left field, but Tom Slattery came through with an unnecessary clout, and his brother crossed the plate.

LEAFS WIN TWO GAMES FROM ROYALS SUNDAY

Montreal, June 19.—The Leafs cleaned up the series with the Royals by winning both ends of yesterday's doubleheader, the first by 14 to 1 and the second 2 to 1. The games were played on a field that was unfit for baseball, pools of water dotting the infield and outfield, handicapping base runners and fielders alike.

Shocker's Seventh Straight.

Shocker, the undated Toronto pitcher did not have much trouble in adding his seventh straight victory in the first half of the bargain offering, as his team-mates clouted Sammy Smith to six parts of the picture for a total of twenty-two hits, six of these being doubles. Six scattered bingles were all that the Royals could collect on the six-canvases, and it was the latter's own wild heave to first that paved the way for the local solitary tally.

Leaf's Second Game.

The second game was a battle between McGee and Colwell and the former was victorious because of better pitching in the pinches. A two-base hit was the forerunner of every run, the Leafs getting both of theirs after two were out, while an error gave the locals a single counter after two were down also.

SOLDIERS BEAT THE CIVILIANS

Cricket Game on Saturday a Khaki Win by 33 Runs.

On Saturday last a good cricket game was played on the O. S. B. grounds between Civilians and Soldiers, resulting in a win for the soldiers by 33 runs. Special mention should be made of the bowling of Sergt. Oldham, which was good, as was also the batting of Andrews for the Civilians. Andrews, by the way, is a new man on the Brantford Cricket club. Following was the score: Civilians.

SUNDAY SCHOOL BASEBALL.

At a meeting held on Friday night of representatives of different Sunday Schools of the city, some ten schools were represented. All were enthusiastic at the projected Sunday School baseball plan, and affairs were started in good shape. The election of officers took place, the following being chosen: J. Whitaker, of Oxford street church, president; Mr. H. Elliott, of Brant Ave. church, vice-president; Fern Sayles, of Colborne St. church, secretary-treasurer. The next meeting will be held on June 27, the first games being played on July 1.

GOLF

The qualifying round for the "Canadian Shield" took place Saturday afternoon. The following players qualified and will play off (match play) in the following order: C. G. Ellis vs. C. J. Watt; W. H. Wabing vs. I. Champlin; D. L. Large vs. J. W. Fittin; H. McKay vs. W. F. Paterson.

HOLDING THEIR OWN.

French Repulse German Attacks on Dead Man Hill. Paris, June 19.—Several attacks by the Germans on the new French positions in the Dead Man Hill northwest of Verdun were repulsed, the French maintaining their recent gains, the war office announced. The Germans suffered heavy losses as they did also in futile attacks on French trenches in the Thiaumont sector to the east of Meuse.

When the electric lights failed in a Zionsville (Ind.) church, automobiles were brought to the doors and windows and the headlights used.

THREE HUNDRED CHURCHES

On Patmos Island, Made Famous by St. John

Of deep interest in the eyes of most of us is a little island called Patmos. Patmos has an entirely Greek population of four thousand, mostly sponge fishers, and although in close proximity to Turkey, no Turks dwell on the island, and no mosque has ever been erected where John was in the spirit of the Lord's Day. The only export from Patmos, according to an old geographer who visited the island a hundred years ago, was at that time cotton stockings, which were sent to Venice.

The same authority adds that there were three hundred churches on the island, which, seeing that the number of dwelling houses was only seven hundred, suggests a rather handsome surplus of places of worship. The monastery in which John's name is perpetuated is a massive building flanked by towers like a fortress, and the visitor is shown inevitably the grotto on the mountain in which it is claimed that John wrote his book. Over the grotto a small church has been erected. The isolation of the island gives a pathetic interest to John's description of the heavenly Jerusalem when there should be "no more sea."

Avoid Most Soaps

Soaps are not advisable on the fine finish of the modern car, for most soaps are not pure in the sense that they contain limesed oil. The latter is not harmful to the finish, but as most soaps are made with chemical cleaning agents in them these are obviously detrimental. In garages of the highest class, they go to the expense of procuring pure soaps, but such cost more money.

The double knock at the door generally opens it more quickly.

PLANTS OFTEN ARMED

Many plants protect themselves from their enemies by the use of spines or prickles, and yew, just as certain animals do. Of those using the first named device there are—numerous examples. The bramble, the rose, and the holly are familiar instances of shrubs and trees "armed to the teeth," so to speak. Many plants incline to the second class, and are simply protected by their disagreeable taste. The common buttercup, which is one of these, is generally shunned by horses and cattle. A plant which, like the skunk, is protected by a disagreeable smell is the figwort. Only that hardy and insensitive animal, the goat, will touch it.

In Spain and Southern France there are trees believed to be more than 200 years old which bear from fifteen to eighteen bushels of nuts each annually.

Altogether there are some 145 species of holly from Canada to India, Brazil, and from Russia, to Texas varieties are found. China and Japan also have hollies of their own.

"KEEP THE HEAD UP"

Good Advice For All on More Ways Than One

"He is running with his head down. It's a pity," said the man who sat in front of me. We were on one of the swift moving trams that carry city workers to seashore homes in the summer. His remark concerned a handsome, tawny collic that, separated from its master, who was walking on the edge of the high bank of the railroad cut, had chosen to follow the railroad track. Everyone who watched the dog knew the dog's doom. From the opposite direction came a warning whistle. Around the curve came a huge engine, snorting, powerful. In his head, unless his eyes should raise the channel to his brain of the warning of the imminence of the engine and his own approaching fate.

But he did not look up. He ran straight ahead with his head down, his eyes unseeing. The next second, women turned from the windows with muffled cries. Men set their jaws a little firmer than they had been set to meet the onslaughts of the day's business. The dog uttered no cry. Or if he did the rumble of the train drowned it. The few who had the hardihood to look back, whose nerves were of a steadiness to withstand the sight, saw a crushed heap of yellow and white, a plumed tail outstretched upon the track and a fast spreading stain of crimson. Down the shelving bank of the railroad came two men, one of them the dog's master and a friend who were taking this Saturday afternoon stroll that ended in the petty tragedy.

There's a moral in this tale though it be but the story of a dog. The man who sat in the seat in front of me was right. "It was a pity he didn't look up." It is a pity that so many of us do not look up. A fine old book has said "I will look unto the hills whence cometh my help." The fine old book that did not mean literal hills. At least I prefer to think it did not. I like to think that it meant that whatever our environment, what our task, that while we are doing our work, we shall look unto the hills of inspiration, "whence cometh our help."

Workers have need to remember the law of gravitation is a hard master. Always it draws us toward the earth. Always it combats our desire to rise upon the wings of spirit. Yet of the chief differences between individuals and peoples is in their buoyancy, their habit of looking above and beyond the sordidness of to-day to the beauty of to-morrow. When I see a man of head bent and brooding brow going sullenly about his task I think of the dog that would not lift his head.

COOLING HATCHING EGGS

A very common mistake in artificial incubation is made with regard to the daily cooling of the eggs. It is seldom that the owners allow sufficient time for this, which can only be accounted for by the fact that it is usually believed to be harmful. It must be remembered that an egg takes a long time to lose its heat, and therefore if only allowed to cool for a few minutes it has very little effect. Again, the time for this also varies, depending on the temperature of the room, for the eggs lose their heat more rapidly in a cold room than in a warm one. The average temperature of 60 degrees, the eggs should be cooled for twenty minutes in the morning and fifteen in the evening. The difference in length is suggested, for usually a longer time elapses between the night and morning cooling than between the morning and evening. If the temperature in the room is only 50 degrees, then fifteen minutes in the morning and twelve minutes in the evening is sufficient; if the room is only 40 degrees, then twelve minutes and ten minutes is ample. If, on the contrary, the room is 70 degrees, then fifteen minutes in the morning and twenty minutes at night, while if it is 80 degrees, then thirty-five minutes and thirty minutes respectively should be allowed.

Notarized and endorsed "Tender for Examining Warehouse, Toronto, Ont." will be received at this office until 1:00 P.M. on Monday, July 17, 1916, for the Plans, specification and form of contract can be seen and forms of tender obtained at the offices of Mr. Thomas A. Hastings, Clerk of Works, Postal Station 212, Toronto, Ont.; Mr. R. L. Deschamps, Central Post Office, Montreal, P.Q.; and at this Department.

Persons tendering are notified that tenders will not be considered unless made in plain English, and signed with their actual signatures, stating their occupations and places of residence, and the nature of the occupation, and the name of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract which is called upon to do so, or if the tender is not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS, Secretary,
Department of Public Works,
Ottawa, June 16, 1916.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

PLANTS OFTEN ARMED

Only Goat Will Attack One Plant—Some Carry Poison

Many plants protect themselves from their enemies by the use of spines or prickles, and yew, just as certain animals do. Of those using the first named device there are—numerous examples. The bramble, the rose, and the holly are familiar instances of shrubs and trees "armed to the teeth," so to speak. Many plants incline to the second class, and are simply protected by their disagreeable taste. The common buttercup, which is one of these, is generally shunned by horses and cattle. A plant which, like the skunk, is protected by a disagreeable smell is the figwort. Only that hardy and insensitive animal, the goat, will touch it.

In Spain and Southern France there are trees believed to be more than 200 years old which bear from fifteen to eighteen bushels of nuts each annually.

Altogether there are some 145 species of holly from Canada to India, Brazil, and from Russia, to Texas varieties are found. China and Japan also have hollies of their own.

All advertising is an attempt to change the habits of the people. I try to make people change their habit of using somebody else's soap—Sif.

Mustard mixed with soft food for fowls increases and quickens the egg supply.

Mustard, to obtain the full flavor, should be mixed with salad oil and not water.

It takes over one-third of a second for the eyelid to open and close.
