Foreigners Were Bent On Mischief

Two Austrians Taken in Charge While Endeavoring to Enter Wireless Crouds

The need of the armed guard at the Wireless Station here was amply demonstrated this week, when two foreigners, evidently Austrians, were captured by sentries endeavoring to gain admission to the grounds. The first capture was made on Monday night, when a sentry noticed a mysterious character watching the guards on duty and when taken into custody proved to be an alien enemy. The second capture was made on Tuesday, and this time the man had entered the grounds. They are very inefficient but are well supplied with money and are a big looking pair. That they were bent on mischief seems only reasonable, especially in the vicinity in which they were captured. It is likely that they will be sent to Amherst for internment.

PRESENTATION TO POPULAR LADY

On Friday evening, Oct. 12th, the members of the auxiliary of the Women's Missionary Society of the Methodist church, Newcastle, met at the home of Mrs. J. Robinson Allison, to do honor to one of their members, Mrs. Swinerton, who leaves shortly for Vancouver, after spending four years with her sister, Mrs. Falmanbee in Newcastle.

After a period of social converse, interspersed with choice musical selections rendered by Miss Edith McLean, on behalf of the members of the auxiliary, Mrs. Leard in a nicely worded address, presented to the guest of honor a beautiful Thomas bottle as a bon voyage gift. Mrs. Swinerton, whose surprise was quite manifest, replied feelingly, expressing her great appreciation of the gift as well as her devotion to the work of the W. M. S.

Before the ladies separated, Mrs. Allison served dainty and delicious refreshments, proving herself during the evening an ideal hostess.

PATRIOTIC FUND MEETING

The Executive of West Northumberland Patriotic Fund met Tuesday night, Pres. C. J. Morrissey in the chair. Others present: E. P. Wiffelston, R. Carry Clark, H. H. Stuart and Rev. S. J. Macarthur.

MID-WEEK MARKET
The Fredericton market yesterday was not large but there was a fair variety of produce on sale. Butter when the automobile was struck by sold at 45 and 48 cents, eggs at 50 cents, lamb at \$1.50 to \$2; potatoes and a heavy man there naturally at \$2.75, turnips at \$1, carrots at \$1, much anxiety was felt for him but chickens at \$1.50, pork at 22 cents and cabbages at 30 cents a dozen, apples at from \$1.50 to \$3.

High Sheriff John O'Brien, is in the Hotel Dieu Hospital, suffering from very serious injuries sustained when the automobile in which he was driving on Saturday, was struck by a C. G. R. train at the Alms House crossing about 11:30 a. m. That he was not killed outright is a miracle. Mr. O'Brien and his son Leonard were driving from Chatham to their home in Nelson with the sides of their car closed, as it was raining. They did not see or hear the approaching train, until the heavy engine struck the car, swinging it completely around and smashing it beyond repair. Strange as it may seem, Leonard O'Brien escaped serious injury. His father, on the other hand, was very badly hurt. He was rushed to the hospital, and at 1:30 o'clock the doctors said his condition was serious. His examination disclosed a dislocation of the hip-joint, severe head bruises, fracture of the nose and in-ense shock. He was thrown 20 feet when the automobile was struck by the train, and as he is 70 years of age and a heavy man there is much anxiety was felt for him but chickens at \$1.50, pork at 22 cents and cabbages at 30 cents a dozen, apples at from \$1.50 to \$3.

TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a 25 cent bottle of Danderine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine. Save your hair! Try it!

James Bremner, Jr., has been appointed to take charge of the Agricultural Office at Chatham, having Northumberland, Restigouche and Gloucester counties. Mr. Bremner is a graduate of the Truro Agricultural College and has been employed by the Provincial and Dominion Departments of Agriculture for occasional work and has proved himself capable to carry on more extensive work for any Department. He will have to do with any agricultural problem before the people, but will be particularly study to the practical questions which are all ways to the fore. He is a farmer and has had special training in potato work besides the college experience. He will take up his duties about November first. Mr. Norbert Leger, of Caraquet, will assist Mr. Bremner in Northumberland, Gloucester and Restigouche counties. Mr. Leger was raised upon a farm, educated at Carleton Place and at the Agricultural School at St. Anne de la Pocatiere. Recently he has been managing his father's farm.

Nations Look To The Future

London Visitor Tells how all Belligerents Have Eye on Times to Come

Ottawa, Oct. 11—The true benefit of the Military Service Act will not be realized in full even when the needed reinforcements arrive at the front and the Canadian Expeditionary Force returns to its work strengthened and reinvigorated. This is the opinion of a London business man of high standing who is now visiting Canada on a Government mission.

All the belligerent nations, this visitor says, are fighting today with one eye on the future. The desire of all is to go through the war with a business and industrial organization as firmly stabilized and normal as possible. The industrial value of the Military Service Act will be that it will leave at their tasks those whose work is needed in the national interest and help to insure future prosperity. Assurance of this coming benefit helped to make the draft law more popular in England than was ever expected despite its drastic provisions.

Lemons Whiten and Beautify the Skin

Make this Beauty Lotion Cheaply for Your Face, Neck, Arms, and Hands

At the cost of a small jar of ordinary cold cream one can prepare a full quartet pint of the most wonderful lemon skin softener and complexion beautifier by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan. It is the ideal skin softener white ner and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quartet pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothen rough, red hands.

WAR BURDEN IN CANADA
Ottawa, Oct. 11—Besides the military organization she maintains overseas, Canada keeps up a considerable establishment at home. Coast defences have to be looked after at Halifax, Sydney, Quebec, St. John and Esquimaux. Again, Canada has the duty of guarding at home internment camps, railway bridges, etc., receiving a large number of men, besides hospitals and camps.

In addition to this, there is in home waters the Canadian Naval Service, which since war began has absorbed 5,300 Canadians as officers and men, with its associated services all under direct Canadian control.

A Ford Car Takes the Place of all These Things

WHEN you own a Ford you can do away with many articles that are a source of continuous expense to the man who still drives a horse. For instance, not only your driving-horse and buggy, but the single harness, blankets, whips, currycombs, brushes, horse-shoes, pitch-forks, feed-bins, etc.

In their place you have a speedy, dependable, dignified, roomy Ford Car—complete in itself. It is vastly superior to the narrow, cramped buggy that travels so slowly. And when a Ford is standing idle it does not eat three meals a day, and it requires no "looking after."

A Ford will save you time, trouble, and money. It is the utility car for the busy farmer and his family.

Health for Sick Women

For Forty Years Lydia E. Pinkham's Vegetable Compound Has Been Woman's Most Reliable Medicine—Here is More Proof.

To women who are suffering from some form of woman's special ills, and have a constant fear of breaking down, the three following letters ought to bring hope:—

North Crandon, Wis.—“When I was 16 years old I got married and at 18 years I gave birth to twins and it left me with very poor health. I could not walk across the floor without having to sit down to rest and it was hard for me to keep about and do my work. I went to a doctor and he told me I had a displacement and ulcers, and would have to have an operation. This frightened me so much that I did not know what to do. Having heard of Lydia E. Pinkham's Vegetable Compound I thought I would give it a trial and it made me as well as ever. I cannot say enough in favor of the Pinkham remedies.”—Mrs. MAYME ASHAGE, North Crandon, Wis.

Testimony from Oklahoma.

Lawton, Okla.—“When I began to take Lydia E. Pinkham's Vegetable Compound I seemed to be good for nothing. I tired easily and had headaches much of the time and was irregular. I took it again before my little child was born and it did me a wonderful amount of good at that time. I never fail to recommend Lydia E. Pinkham's Vegetable Compound to ailing women because it has done so much for me.”—Mrs. A. L. McCASLAND, 509 Have St., Lawton, Okla.

From a Grateful Massachusetts Woman.

Roxbury, Mass.—“I was suffering from inflammation and was examined by a physician who found that my trouble was caused by a displacement. My symptoms were bearing down pains, backache, and sluggish liver. I tried several kinds of medicine; then I was asked to try Lydia E. Pinkham's Vegetable Compound. It has cured me and I am pleased to be in my usual good health by using it and highly recommend it.”—Mrs. R. M. Osgood, 1 Haynes Park, Roxbury, Mass.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

NEW CHAMPION RANGE

A GREAT BAKER

Ranges are wonderful bakers because the oven is always just right. The heat is evenly distributed at all times around all sides of the oven, and a steady temperature results.

An oven thermometer tells you the temperature of the oven instantly, and the perfect regulation of heat enables you to have any temperature you want at any time.

Fawcett Ranges are the handsomest, most economical, durable, and satisfactory, as well as the best bakers.

Send for our booklet explaining why. It contains facts about ranges that you, as a housekeeper, ought to know.

QUEBEC GOING DRY

The Province of Quebec not having yet adopted Prohibition of the Liquor traffic, as has every other province of the Dominion, the people of Quebec City voted on the Canada Temperance Act on the fourth instant. The Act was adopted by a majority of 3,272 in a poll of about 16,000. As several cities of Quebec have no license, Montreal and Sherbrooke are now the only or about the only cities where the liquor traffic is legal. A

movement is already under way to make these cities dry. The temperance victory in Quebec should make the passing of a Dominion-wide prohibition law an early possibility. The economic, social and moral gain that will be made by the elimination of the whiskey business, is incalculable. And there are other drugs and narcotics besides liquor, of which the use could be very beneficially discontinued.

AN ECONOMIC QUESTION

That the agitation for prohibition of the liquor traffic is not confined to temperance organizations is shown by the fact that the Industrial Committee of the city of Port Arthur, Ontario, has adopted the following: "That this council take an emphatic stand in demanding that there be total prohibition of the manufacture of spirituous liquors, thus saving to the Empire immense quantities of grain and other food products, and demand that the wishes of the majority of the people be respected and prompt action be taken and that this resolution be sent individually to each member of the Dominion house and to each member of the Senate, requesting them to reply, stating their stand on this vital question and a copy of this resolution with a copy of all replies be kept on file."

Could Not Lift Stick of Wood

Would Almost Faint From Severe Pain in Back.—Doctors Could Not get the Kidneys Set Right

Benton, N. B. Oct. 18—A great many people suffer the results of deranged kidneys and do not understand the cause of trouble or the way to obtain cure. The writer of this letter suffered excruciating pains in the back and in vain his physician tried to cure him. For some reason or other his medicines did not have the desired effect.

Mr. Otis' brother was a merchant selling, among other medicines, Dr. Chase's Kidney-Liver Pills, and he heard his customers telling about how they were cured of kidney derangements by their use. This led to Mr. Otis' putting them to the test with the splendid results reported in this letter.

Mr. E. C. Otis, Benton, Carleton County, N. B., writes: "I am glad to let you know how much your medicine has done for me. I suffered from my kidneys, which at one time were so bad I could not lift a stick of wood without getting on my knees, and then would almost faint from the pain in my back. I consulted a doctor about it, and he gave me some medicine, but it did not help me. My brother, who is a merchant, and carries all your medicines, advised me to try Dr. Chase's Kidney-Liver Pills. I got one box, and they helped me, so I got another one, and kept on until I had taken five boxes, which cured me. I have had no trouble with my back since, and am never without Dr. Chase's Kidney-Liver Pills in the house. Last summer I also suffered from piles. I used three boxes of your Ointment and it cured them. I can certainly recommend Dr. Chase's Pills and Ointment."

WHERE THE GOOD GOODS COME FROM

"The Seven Pearls"

Six months to recover the Seven Pearls of the Sultan's necklace or suffer the penalty of being sent to his harem! This is the agreement made by a beautiful young American girl. Her father is held as hostage, and if she fails to return at appointed time, he will die.

It all happens in the 1st episode of Pathé's new serial at the Happy Hour on Monday night. Mollie King is the star with Creighton Hale and Leo Bary featured. Pretty Miss King as Ilma, brought up in the land of the crescent by her foster father, a Turk. He was highly honored, when the Seven Pearls were entrusted to his care by the Sultan. He promised to guard them with his life, but they are stolen from him indirectly through Ilma's fault.

Harry Drake, a careless, susceptible, New York youth, of good family and some money, is traveling in Europe. He is looking for adventure; strolling through the streets, he happens to wander into the vicinity of Ilma's home. Ilma goes out into a little walled garden with a harp in the moonlight. The romantic Harry hears the sound and tries to locate the voice. Finally by edging along a narrow path at the edge of the water, he gets right below her and sings back. Curious, Ilma peeks over the garden wall. Learning over too far, she loses her grip and falls into the Bosphorus. Harry makes a fine rescue, but screams bring averal Turks on the spot.

In her gratitude, Ilma permits Harry to kiss her. This enrages the Turks, who, thinking of the disgrace attendant upon allowing a Christian to look upon a woman's face, beat him, take all his money and throw him back into the Bosphorus. Ilma receives as punishment the penalty of wearing her veil for a month. Harry revives and finds that the Turks have robbed him of everything. He has no funds in Constantinople.

Grady, an American crook, sees the Sultan give the Pearls to Ilma's father, but cannot get in. While he is racking his brain, Harry appears, pours out his tale of woe, and appeals to him as a fellow countryman for help. Grady sees a chance to use Harry's youth and agility. He tells Harry that he too has been robbed of a pearl necklace and that if he will get it back for him, his reward will be one of the pearls.

Ilma, hunting for her veil, finds the Pearls, takes them to her boudoir and tries them on. She then lays them down near the barred window. Harry climbs the wall, reaches in with a cane and literally hooks the pearls. Ilma tries to grab his arm, but not recognizing her in the half-light, he gets away with them. The Sultan returns and the loss is discovered. Losing his temper, he orders the execution of Ilma's foster father. Ilma rushes in, confesses and agrees to return them in six months. If she fails she will enter the harem and meanwhile her father is to be held as hostage. Delighted with the Pearls, Grady wishes Harry to join the gang. Harry then learns to his horror that the Pearls are stolen property, and he refuses his share. Harry knows better than to squabble, as Grady and his gang are a notorious crowd; and he accepts his help to get back to New York. Arriving in New York, Harry is followed by Ilma and a mysterious spy sent by the Sultan. During the trip he receives a note telling him that his crime is known, and that death will follow unless the stolen Pearls are returned. That night in his apartment he receives a note from Grady, informing him not to be a fool, that he had concealed the Pearl in the heel of his shoe. Harry finds the Pearl as Grady instructed. Locking it in his desk drawer, he leaves the room. A few minutes after he hears someone at the desk. Entering he discovers a masked figure. Drawing his revolver, he secures the Pearl. A second figure holds Harry up, and takes the Pearl from him. As the second figure moves towards the door, a strange hand reaches in, and takes the Pearl from the second figure. As

They Killed The Woman, But Not The Spirit !

Joan They Killed. Her Spirit Lives! It has been for five centuries an inspiration for millions of men, women, and children who have heard the story. Half a thousand years have passed since she roused France from bondage and, in her two years of leadership, set burning the light of liberty which continues on its altar of freedom. Never has the story of Joan of Arc been told so beautifully and Realistically as in Cecil B. DeMille's
Cinema Production

'JOAN THE WOMAN'

By Jeanie MacPherson, in which the Marvelous

GERALDINE FARRAR

APPEARS AS JOAN

'Joan the Woman'
Sets - Mark - For
Film Plays!

The question of whether or not the public wants to get high or low class motion picture films seems to have been pretty definitely decided by the reception the New York public has given "Joan the Woman," the wonderful picture in which Jesse L. Lasky is presenting Geraldine Farrar at the Forty-fourth Street Theatre.

Prior to the production of this picture many of the wisecracks in the film business said that the picture might prove to be over the heads of the public and that a picture on a lower scale would be surer of success.

However, day after day, many of the questions that had been asked began to be answered by the results at the theatre box office. It did not take long for the young folks of the city to realize that love was just as wonderful back in the days of Joan of Arc as it is to-day, and although most of us remember Joan merely as a woman in steel armor, the makers of this picture read her career enough to find that she had the same kind of heart that beats in every young girl's bosom to-day, and that, although she sacrificed this love for greater love of her country, there was enough to her romance to make as pretty a motion picture story as has ever been told.

Then too, the wonderful battle scenes in the picture proved to be just as spectacular as anything that has ever been done on the screen, and a whole lot more real than most picture scenes.

Added to this was the pageantry that pleased every eye, carried out as it proved to be to the best detail. One has but to study the pageantry of the picture to have a perfectly clear idea of how the peoples of those days lived, loved, fought and died.

And, in addition to this, "Joan the Woman" proved to be one of the best history teachers that New York ever saw, with the result that those who were not interested by any of the other many angles took a deep interest in the historical side of the picture with the result that it is now regarded as one of the most assured motion picture successes that has ever been turned out.

The rest of the country has been hearing so much about this wonderful picture that it is being anxiously waited for in every State of the Union, and when the last dollar to be made by the producers is counted up, the result is expected to prove overwhelmingly that the motion picture public is not looking for the tawdry and worthless, but wants to get the finest there is.

Never in the history of moving pictures has any picture touched the hearts of the people as has "Joan the Woman."

Struck by Train And Instantly Killed

Son of Former Newcastle Boy Meets Death in the West

(Marquette Eagle Star, Sept. 24th) William Williston, aged 23 years, was fatally injured when struck by a St. Paul train early Sunday morning at Mauston, Wis., about sixteen miles from Camp Douglas. With other members of Company 1 he had gone to Mauston by auto there to take a train for Milwaukee on a short furlough.

He was crossing the tracks at the station to be on the right side to board the incoming south bound train when he was struck. His body was hurled about fifty feet, part of one foot being cut off and his neck broken, by the fall. He lived about a half hour but did not regain consciousness. His remains were brought to Marquette early this morning and taken to Martin's undertaking rooms.

With Harry Brearley, Jos. Ourada, Geo. Arts and Chas Champagne, Williston had gone ahead to Mauston in an automobile. The five young men all members of Company 1, proceeded to the depot after arriving at Mauston to take the train into Milwaukee on a short furlough. It was after midnight when they heard the incoming train and crossed the tracks to take the train going south. There are two tracks there and Williston was the last man in the party to cross the second track. Before he got over the train hit him hurling him fifty feet. One of the first men to reach his side was Chas. Champagne, who lifted his head and said all he could hear was a groan. Williston was then carried over to a depot truck by his comrades. A physician was called but he was dead when the doctor arrived. His remains attired in the khaki uniform of a member of Company 1 were brought home this morning by his brother, Bert Williston, also a member of Company 1.

(Eagle Star—Sept. 27) The funeral of the late William Williston was held yesterday from the Williston home on Ella Court at 2.30 o'clock in the afternoon. The house was filled with friends of the deceased and his family.

The funeral was a military one, the casket being carried by an honor squad of his comrades, who also acted as an escort to the body. The squad composed of Sergeant John Deschaine, Corporal M. Hofer, Privates John Faucet, Charles Ladusiere, Joseph Goodfellow, Ralph Place, Max Mayville, and Arthur Gunderson, accompanied the body to Forest Home where burial took place.

The services were conducted by the Rev. John H. Boose, whose remarks portrayed well the sacrifice made by

5 YEARS OF SUFFERING ENDED

The little son of Mrs. W. Adams of 489 La Salle Rd., Verdun, Montreal, suffered for over five years with the worst form of eczema. Mrs. Adams tried everything—took the child to various hospitals, where he received the best possible medical treatment, but it was of no avail. The doctors said the case was incurable. Then she heard of Zam-Buk and used it, with the result that to-day the child is completely cured of the terrible disease.

Mrs. Adams writes: "The eruption started on my little son's neck and spread rapidly until his body was entirely covered. It was terrible to see how he suffered with the burning and irritation. I took him to a hospital for treatment of the skin but instead of getting better the sores became worse. I then took him to another hospital, where he remained for some time, and although at first he seemed to be getting better, the improvement was only temporary, and the doctors finally pronounced the disease incurable.

"Five years had now elapsed since the sores first appeared, and I was beginning to fear the doctors were right, when I was advised to use Zam-Buk. This balm was so highly spoken of that I determined to give it a trial, and a few weeks after commencing its use I noticed a decided improvement. This was so encouraging that I continued. Gradually my boy got better and better until after four months of Zam-Buk treatment he was entirely cured and his skin absolutely clear.

"Although it is now six years since this wonderful cure was effected, there has not been the slightest trace of the disease returning."

Zam-Buk is unsurpassed for eczema, chronic sores, ringworm, bad legs, blood-poisoning, pimples, boils and piles, as well as for cuts, burns, scalds and all skin injuries. All dealers, or Zam-Buk Co., Toronto. 50c. box, 3 for \$1.25.

STARVATION IN FINLAND

In some parts of Finland the people are facing starvation. Grain is very scarce and to make it last as long as possible the people are mixing it with bark. In Poulango county, for instance, the Government has allotted 3130 pine trees to 101 farmers and 4075 trees to 168 workmen to be utilized for making barkbread. Such bread is now eaten on most of the farms, and in other places bread is made of moss. The prospects for the future are very dark.

THE GOVERNMENT RAILWAYS IN EVIDENCE AT THE BIG CANADIAN EXHIBITIONS

GOLD MEDAL

With an attendance of 920,000 at the Canadian National Exhibition, and some 175,000 at Quebec, and judging from the interest which a large percentage of these visitors evinced in the Government Railways attractive exhibits, they may reasonably expect to enlarge their ever increasing clientele.

At Toronto an immense map of Canada from Winnipeg East to the Atlantic Coast, some sixty feet long by fifteen feet high, was erected. The route of the Government Railways was outlined in electrically lighted red globes, and in order to demonstrate the run of the principal trains a moving shadow by an ingenious electrical contrivance was arranged. For instance, starting from Quebec an illuminated sign flashed the "National Atlantic," and immediately the shadow commenced its run to Quebec, connecting at Cochrane with the line to Toronto, the names of the principal stations flashing as approached. Nearing Quebec another sign announced the Ocean Limited had left Montreal. The two lines connected at Quebec, and the Ocean Limited continued its journey by the shores of the St. Lawrence and thence to Moncton, Halifax and the Sydneys. On the return journey a similar operation was performed.

An announcement on the map stated that over 500,000 of our soldier lads had travelled this route without mishap, a feature in railway operation any transportation corporation might point to with pride—as indeed did a huge statue of Jack Canuck, emblematic of the fact that it was his own railway that had made such a record.

An architectural illuminated model of the new Union Station, which is to be erected in connection with the vast terminals now under construction at Halifax was also displayed together with oil paintings showing the terminals as they will appear when completed.

The Quebec exhibit was on somewhat similar lines, and so impressed the Exhibition authorities that a gold medal was awarded for artistic value to railway advertisements.

At both Exhibitions a large number of the railways publications were distributed.

the man who had volunteered his services to his country.

The Rev. J. H. Boose spoke in part as follows:

"Our nation finds itself in the midst of preparation for the mightiest struggle of its existence. As yet we have scarcely realized here at home that the nation is at war, certainly not as we are doomed to realize it ever many more months pass by.

"This sorrowing assembly, this grief stricken family, this death of a soldier are all strongly prophetic of like scenes that doubtless will be witnessed all over the land and by, when our brave boys come back to us shrouded in their country's flag. We dread to think of this, yet we do not shrink from paying the price.

America has clearly and resolutely made up her mind that she must take a hand in this world war, and having once determined upon a course, there is no turning back. In this decision, our government has the backing and hearty support of the people. Thousands of our young men did not wait for the draft, but swept forward as volunteers.

"In all candor and fairness, we must accord to all those so volunteering, a distinguished honor. By their act they have in substance said to their country: "Here are our lives. If you need them, they are yours." William Williston was a volunteer. Nothing can ever take from his record, its most distinguishing honor or that when his country needed him, he freely gave himself to her cause. He was not permitted to pay the full measure of that sacrifice, in just the form he doubtless imagined, but the mere form of death is not important. Significant that he died while in his country's service."

A quartet composed of Mr. Joseph Gitchel, Mr. E. B. Lewis, Mrs. J. Gitchel and Miss Marie Jackson sang three numbers, "In the Sunshine," "God Will Take Care of You," and "Happy Song Land Fair."

The casket was draped in the American flag and covered with a floral blanket. The floral pieces were numerous and beautiful. A large number of friends attended the funeral. Burial took place at Forest Home where a salute was fired over the grave by the squad of his comrades. The flags of the armory and the court house were at half mast yesterday in respect to the late member of Co. 1.

The deceased was the son of Mr. and Mrs. W. D. Williston, 2205 Ella Court and is survived by his parents and two brothers and sisters. The former are Bert Williston, a member of Co. 1, and Clinton, age 12. The sisters are Love, Maud and Grace all at home. He was fatally injured when struck by a railway train at Mauston, Wis.

(Mr. W. D. Williston, the father of the above mentioned soldier is a former Newcastle boy, his father being the late John Williston, while his mother was formerly Miss Mary McTavish, of South Esk. The deceased soldier was a nephew of Mr. and Mrs. Robert Williston, of Newcastle, and Mr. and Mrs. Nell McIver of Cassilis.)

THROAT SORE?

Don't neglect it because you think it is "only a sore throat!" It is often the beginning of serious trouble, which can be avoided if proper precautions are taken. Peps will safeguard you.

"Sore throat" is a sign that your power of resistance has been temporarily lowered, and your system is therefore unable to withstand the attacks of harmful germs which are being constantly breathed in. The germs have, therefore, settled in your throat and caused inflammation, and to prevent more serious trouble these germs must be destroyed.

A Peps psstille dissolved on the tongue throws off Pine vapor, which is as certain a germ-destroyer as the Pine laden air of the Swiss Mountains, which doctors so highly recommend. These Pine fumes are breathed down into the air passages and lungs, soothing and healing the inflamed membranes that medicine swallowed into the stomach could not possibly reach.

Nothing can equal this breathable remedy for all affections of the throat and lungs, coughs, colds, hoarseness, asthma, bronchitis, etc. All dealers or Peps Co., Toronto. 50c box, 3 for \$1.25.

To all to whom these presents shall come, or whom the same may in anywise concern—GREETING:

A Proclamation calling out the men comprised in Class 1 as described by the Military Service Act, 1917.

E. J. Newcombe
The Deputy Minister of Justice, Canada

WHEREAS it is provided by our Militia Act of Canada, Revised Statutes of Canada, 1906, chapter 41, Section 69, that our Governor-General of Canada in Council may place our Militia of Canada, or any part thereof, on active service anywhere in Canada, and also beyond Canada for the defence thereof, at any time when it appears advisable so to do by reason of emergency;

And Whereas that part of our militia of Canada known as the Canadian Expeditionary Force is now engaged in active service overseas for the defence and security of Canada, the preservation of our Empire and of human liberty; and it is necessary owing to the emergency of the war to provide reinforcements for our said Expeditionary Force in addition to those whose inclination or circumstances have permitted them to volunteer;

And Whereas by reason of the large number of men who have already left agricultural and industrial pursuits in our Dominion of Canada in order to join our Expeditionary Force as volunteers, and by reason of the necessity of maintaining under these conditions the productiveness or output of agriculture and industry in our said Dominion, we have determined by and with the advice and consent of our Senate and House of Commons of Canada that it is expedient to secure the men so required, not by ballot as provided by our said Militia Act, but by selective draft; such re-enforcement, under the provisions of the Military Service Act, 1917, hereinafter referred to, not to exceed one hundred thousand men;

And Whereas it is accordingly enacted in and by the provisions of an Act of our Parliament of Canada, holden in the 7th and 8th years of our reign, and known as the Military Service Act, 1917, that every one of our male subjects who comes within one of the classes described and intended by the said Act shall be liable to be called out on active service in our Canadian Expeditionary Force for the defence of Canada, either within or beyond Canada; and that his service shall be for the duration of the present war and demobilisation after the conclusion of the war;

And Whereas the men who are, under the provisions of the said last mentioned Act, liable to be called out, are comprised in six classes of which Class 1 is, by the provisions of the said Act, defined to consist of all our male subjects, ordinarily or at any time since the 4th day of August, 1914, resident in Canada, who have attained the age of twenty years, who were born not earlier than the year 1883, and were on the 6th day of July, 1917, unmarried, or are widowers but have no child, and who are not within any of the following enumerated

- 1. Members of our regular, or reserve, or auxiliary forces, as defined by our Army Act.
- 2. Members of our military forces raised by the Governments of any of our other dominions or by our Government of India.
- 3. Men serving in our Royal Navy, or in our Royal Marines, or in our Naval Service of Canada, and members of our Canadian Expeditionary Force.
- 4. Men who have since August 4th, 1914, served in our Military or Naval Forces, or in those of our allies, in any theatre of actual war, and have been honourably discharged therefrom.
- 5. Clergy, including members of any recognised order of an exclusively religious character, and ministers of all religious denominations existing in Canada at the date of the passing of our said Military Service Act.
- 6. Those persons exempted from military service by Order in Council of August 13th, 1873, and by Order in Council of December 6th, 1898;

EXCEPTIONS—

- 1. Members of our regular, or reserve, or auxiliary forces, as defined by our Army Act.
- 2. Members of our military forces raised by the Governments of any of our other dominions or by our Government of India.
- 3. Men serving in our Royal Navy, or in our Royal Marines, or in our Naval Service of Canada, and members of our Canadian Expeditionary Force.
- 4. Men who have since August 4th, 1914, served in our Military or Naval Forces, or in those of our allies, in any theatre of actual war, and have been honourably discharged therefrom.
- 5. Clergy, including members of any recognised order of an exclusively religious character, and ministers of all religious denominations existing in Canada at the date of the passing of our said Military Service Act.
- 6. Those persons exempted from military service by Order in Council of August 13th, 1873, and by Order in Council of December 6th, 1898;

And Whereas it is moreover provided by our said Military Service Act that our Governor-General of Canada in Council may, from time to time, by proclamation call out on active service as aforesaid any class of men in the said Act described, and that all men within the class so called out shall, from the date of such proclamation, be deemed to be soldiers enlisted in the military service of Canada and subject to military law, save as in the said Act otherwise provided; and that the men so called out shall report and shall be placed on active service in the Canadian Expeditionary Force as may be set out in such proclamation or in regulations; but that they shall, until so placed on active service, be deemed to be on leave of absence without pay;

And Whereas it is also provided by the said Act that at any time before a date to be fixed by proclamation an application may be made, by or in respect of any man in the class to be called out, to one of our local tribunals, established in the manner provided by the said Act in the province in which such man ordinarily resides, for a certificate of exemption from service upon any of the following

GROUPS OF EXEMPTION—

- (a) That it is expedient in the national interest that the man should, instead of being employed in military service, be engaged in other work in which he is habitually engaged;
- (b) That it is expedient in the national interest that the man should, instead of being employed in military service, be engaged in other work in which he wishes to be engaged and for which he has special qualifications;
- (c) That it is expedient in the national interest that, instead of being employed in military service, he should continue to be educated or trained for any work for which he is then being educated or trained;
- (d) That serious hardship would ensue, if the man were placed on active service, owing to his exceptional financial or business obligations or domestic position;
- (e) Ill health or infirmity;
- (f) That he conscientiously objects to the undertaking of combatant service, and is prohibited from so doing by the tenets and articles of faith in effect on the sixth day of July, 1917, of any organised religious denomination existing and well recognised in Canada at such date, and to which he is in good faith belongs;

And that if any of the grounds of such application be established, a certificate of exemption shall be granted to such man.

And Whereas moreover it is enacted in and by the provisions of an Act of our Parliament of Canada holden in the 7th and 8th years of our reign and known as the War Time Elections Act that certain persons thereby disqualified from voting with such of their sons as on polling day are not of legal age, shall be exempt from combatant military and naval service;

And Whereas it is further provided by our said Military Service Act that applications for exemption from service shall be determined by our said local tribunals, subject to appeal as in the said Act provided, and that any man, by or in respect of whom an application for exemption from service is made, shall, so long as such application or any appeal in connection therewith is pending, and during the currency of any exemption granted him, be deemed to be on leave of absence without pay;

And Whereas our Governor-General of Canada in Council has determined to call out upon active service as aforesaid the men included in Class 1; as in the said Act and hereinbefore defined or described;

Now Therefore Know Ye that we do hereby call out the said Class 1; comprising the men in our said Military Service Act, 1917, and hereinbefore defined or described as to the said class belonging, on active service in our Canadian Expeditionary Force for the defence of Canada, either within or beyond Canada, as we may, in the command or direction of our Military Forces, hereafter order or direct.

And we do hereby strictly command, require and enjoin that each man who is a member of the said class shall, on or before the 10th day of November, 1917, in the prescribed form and manner, report himself for military service, unless application for his exemption shall then have been made by him or by another person entitled to apply on his behalf; wherein our loving subjects, members of the said class, are especially charged not to fail since not only do their loyalty and allegiance require and impose the obligation of careful and implicit obedience to these our strict commands and injunctions, but moreover, lest our loving subjects should be ignorant of the consequences which will ensue if they fail to report within the time limited as aforesaid, we do hereby forewarn and admonish them that any one who is hereby called out, and who without reasonable excuse fails to report as aforesaid, shall thereby commit an offence, for which he shall be liable on summary conviction to imprisonment for any term not exceeding five years with hard labour, and he shall nevertheless, if we so require, be compelled to serve immediately in our said Expeditionary Force.

And we do hereby proclaim and announce that for the greater convenience of our subjects, we have directed that for the reporting for service, and for application for exemption from service, may, at any time on or before the said 10th day of November, 1917, be obtained at any post office in our Dominion of Canada; and that reports for service and applications for exemption from service, if obtained at any of our said post offices and properly executed, shall be forwarded by our postmaster at the post office from which the same are obtained to their proper destinations as by our regulations prescribed, free of postage or any other charge.

And we do further inform and notify our loving subjects that local tribunals have been established in convenient localities throughout our Dominion of Canada for the hearing of applications for exemption from service upon any of the statutory grounds, as hereinbefore set out; that these our local tribunals so established will begin to sit in the discharge of their duties on the 8th day of November, 1917, and that they will continue to sit from day to day thereafter, as may be necessary or convenient, at such times and places as shall be duly notified, until all applications for exemption from service have been heard and disposed of; also that men belonging to the class hereby called out who have not previously to the said 8th day of November, 1917, reported for service, or forwarded applications for exemption through any of our post offices as aforesaid, may make applications in person for exemption from service to any of our said tribunals on the 8th, 9th or 10th day of November, 1917.

And we do hereby moreover notify and inform our loving subjects who are within the class hereby called out, that if, on or before the 10th day of November, 1917, they report themselves for military service, or if, on or before that day, application for exemption from service be made by them or on their behalf, they will not be required to report for duty, or be placed upon active service as aforesaid, until a date, not earlier than the 10th day of December, 1917, which will, by our registrar for the province in which they reported or applied, be notified to them in writing by registered post at their respective addresses as given in their reports for service, or applications for exemption from service, or at such substituted addresses as they may have respectively signified to our said registrar; and we do hereby inform, forewarn and admonish the men belonging to the class hereby called out that if any of them shall, without just and sufficient cause, fail to report for duty at the time and place required by notice in writing so posted, or shall fail to report for duty as otherwise by law required, he shall be subject to the procedure, pains and penalties by law prescribed as against military deserters.

Of all of which our loving subjects, and all others whom these presents may concern, are hereby required to take notice, rendering strict obedience to and compliance with all these our commands, directions and requirements, and governing themselves accordingly.

In Testimony Whereof We have caused these Our Letters to be made Patent, and the Great Seal of Canada to be hereunto affixed. WITNESS: Our Right Trusty and Right Entirely Beloved Cousin and Counsellor, Victor Christian William, Duke of Devonshire, Marquess of Hartington, Earl of Devonshire, Earl of Burlington, Baron Cavendish of Hardwicke, Baron Cavendish of Keighley, Knight of Our Most Noble Order of the Garter; One of Our Most Honourable Privy Council; Knight Grand Cross of Our Most Distinguished Order of Saint Michael and Saint George; Knight Grand Cross of Our Royal Victorian Order; Governor-General and Commander-in-Chief of Our Dominion of Canada.

KILTIES ARE AT MONTREAL
The 236th "McLean" Highlanders, over 1,100 strong, arrived at Montreal Wednesday from Vankarier Camp, and took up their quarters at the Peel street barracks. The McLean Highlanders came from Valcartier by two Canadian Northern special trains under Lieut-Col. Guthrie and marched with their fine pipe band to their quarters on Peel street. It is expected that the battalion will remain in Montreal for a few weeks, having been driven away from Valcartier by the cold weather, which proved too much for a kilted battalion under canvas.

"Joan, the Woman", Is A Grand Picture

Hearts Were Touched by the Pathos of the Wonderful Production at the Casino

Halifax Herald, Sept. 2
In these days when the power of women influences and sways the affairs of the world along channels that tend to the uplift of humanity, no greater portrayal of their influence could possibly be imagined than the wonderful production of "Joan, the Woman," which was presented at the Casino. "Joan the Woman," stands super-eminent in power of story, in the lesson that it teaches for good, in patriotic feeling and in everything that pertains to the making of a great educational spectacle.

So gigantic is its scope that it is all that a human mind can do to grasp it in its entirety. Geraldine Farrar brings Joan of Arc back to life. She lives as one of us, and one can almost hear her speak, so vivid are the scenes in which she appears. "Joan the Woman" does not want for thrills. Never have such battle scenes been seen on the screen before, and it is doubtful if they will ever be surpassed. Never has an audience been so swayed by any photodrama, and the spasmodic bursts of applause came like volleys from a host of machine guns.

There were few heartstrings that were not tautened in the moments of pathos in this production, and many tear-filled eyes when the last moments of France's wonderful heroine were shown.

This photodrama is like a living page from history, but "o based on the doings of ancient times, it spells many a lesson to be heeded by we moderns. It teaches that nothing can be gained without self-sacrifice. It teaches also that the humblest among us can become useful and rise to greatness if we only will it. But, best and greatest of all, it teaches respect for the power and hearts of womankind who can rise to the highest pinnacle of success without the aid of men.

"Joan the Woman," is a production that will take the conceit out of the male mind. What a wonderful contrast there is between the brave, courageous Joan and the spiritless King, Charles VII of France!

So much for the story and its effect upon the humans who see it and who cannot help but be benefited by its glorious lessons. Looking at the production from its other side, namely, the acting, the photography and the direction, there is only one other photodrama in existence that may equal it. For perfection in arrangement and artistic beauty it stands alone. The man who cut this film and fitted it to its various scenes is an artist. The credit for this, as well as for the wonderful direction, must be given to Cecil R. DeMille, who ranks among the greatest of our producers and who, by this picture, has proved my contention to be correct.

The average director finds it difficult to stage even an ordinary battle scene correctly. These battle scenes are anything but ordinary. The least slip or mistake could easily have changed their atmosphere into one of comedy, instead of dramatic. The bow and arrow soldiers are so far back in the distant past that in these days of sixteen-inch guns it is hard to grasp the fact that their winged shafts were as deadly and almost as accurate as bullets. The heavy and unwieldy swords would seem sadly out of date were it not for the fact that the excellent direction of this picture brings forth their real deadliness in true form.

The character portrayals are wonderfully carried out. It is by far the greatest piece of acting that Geraldine Farrar has ever done upon the screen. No one could have filled the place in photo drama of Joan of Arc as this wonderful actress has done. Her every emotion is displayed with startling vividness, and her self sacrificing spirit is shown thru it all. In costume as well as manner she lives up to all our ideals built around the historical character. In her love scenes she is sublime. Where she abandons love to duty, she shows, without overdoing the part, just how greatly she is torn by conflicting emotions. And when she dies in the fire one can almost hear the crackling of the fagots as the flames leap up about her.

Wallace Reid deserves a lot of credit for his characterization of the reckless Englishman who is finally brought to the feet of the girl he laughed at. The work of Theodore Robert and Hobart Bosworth is par excellence.

One of the many wonderful things of this production is the coloring, which is nothing short of marvelous. The secrets used in the fire that consumes Joan of Arc makes the flames so realistic that it is hard to believe that they are only photographs.

As a work of art alone this picture should be seen by everybody, but its worth as an instrument for uplift and patriotism is incalculable.

Guard the Children From Autumn Colds

The fall is the most severe season of the year for colds—one day is warm, the next is wet and cold and unless the mother is on her guard the little ones are seized with colds that may hang on all winter. Baby's Own Tablets are mothers' best friend in preventing or banishing colds. They act as a gentle laxative, keeping the bowels and stomach free and sweet. An occasional dose will prevent colds or if it does come on suddenly the prompt use of the Tablets will quickly cure it. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont. (adv.)

A Dominion Express Money Order for five dollars costs three cents.

They were the recipients of many useful and pretty presents, consisting of cut glass, silver and other fancy articles both useful and ornamental. Among the commonest symptoms are headaches, feverish flushes, palpitation of the heart, dizziness, back aches, depression and other recognized disturbances of the health which signalizes that the blood requires attention.
