## Students, Attention!

### Rare Chance to Secure a College Education.

We have made arrangements that enable us to place within the reach of a limited number of deserving students, opportunities for securing, on easy terms, a classical or commercial education. A little work during the vacation season will secure this for the one worthily striving for such a boon, but who may not be in possession of sufficient money to realize his heart's desire. The facilities at our disposal enable us to offer a year's board and tuition at

### St. Dunstan's College

to any three young men who will fulfill the necessary, easy conditions required. These may be beginners, or former students of the College who have not been able to complete their course. In addition to this we have at our disposal four scholarships at the

### Union Commercial College

of Charlottetown. A full course in this excellent Commercial College may be won by any four young men or women, in town or country, who will fulfill the easy conditions we require. Whenever anyone satisfies the requirements in either of the cases enumerated he or she will be given a certificate entitling the holder to the educational advantages offered. A rare opportunity is here placed within reach of those desirous of acquiring a good education, and no time should be lost in taking advantage thereof. Only a little work is required in order to secure the coveted boon, and all can easily be accomplished during this summer's vacation, so that the winners may enter either college at the opening of the next academic year.

For particulars apply in person or by letter to the editor of the HERALD, P. O. Box 1288, Charlottetown, P. E. I. June 20, 1906—tf

## Made to Measure.

Many who have their suits made to order have an idea that they can get what they want in a Ready made Overcoat. But they are quite as objectionable as ready-made suits and show at a glance the lack of style and fit. We incorporate the very latest style ideas in our tailoring, and by only the best materials, which is a guarantee in itself. Before you buy a new overcoat give us a chance to show our new overcoatings and talk things over with you.

## A Distinguished English Traveller and Author on the Congo Question.

"I was present in the Congo at the birth of the Congo Free State. In 1882-1883 I paid a prolonged visit of eight months to Mr., now Sir Henry M Stanley. During the course of this visit I travelled up as far as the point where it crosses the equator. I came into continual contact with the Belgian officers and officials who had been sent out to assist Mr Stanley. I may mention that I was nobody's man. I paid my own travelling expenses, and had no reason to espouse one cause more than another. I conceived however, the highest admiration for Sir Henry Stanley, personally, and for the work he was doing. I confined myself over again by cross-examination of the natives of the Congo and Zanzibar and Somalia, that Sir Henry Stanley was always just and never cruel, and that the first interests he had at heart were those of the natives of Africa. His memory still lingers in all the regions from the mouth of the Congo to Zanzibar, and any one who doubts the justice of my opinion has only to do as I have done through many years—question the natives as to their impressions of Bulu Matadi." (The Breaker of Stones.)

"Nor did I at that date see anything to object to in the conduct of the Belgian officials. The work of such men as Nils, Gale, Haussen, Coquilhat, Braconnier, Janssen and Roger, not to mention many others, was such as no missionary could or did find fault with."

"Subsequently, when I returned to the vicinity of those regions as commissioner for British Central Africa, I came a good deal into contact with the Belgian officials sent to control those countries. I never received any complaints from natives or Europeans at that time which tended to show that the natives were ill-treated by the Belgians."

"In 1900, while at work in Uganda, I had occasion to visit the adjoining regions of the Congo Free State along and across the Simliki River. In this portion of the Congo (into which I penetrated 30 miles) I questioned many natives—Pygmies, Babira, Bamabab, Lunde, Bakomo and Basonora. From none of them did I receive the slightest complaints as regards the treatment they receive from the Belgians, and, indeed, of their villages, plantations and settlements, the fact that they so freely came and talked with the whiteman, were sufficient to show that they were perfectly content with their present lot. The Belgian and Swedish officers whom I met on this portion of the territory of the Congo Free State were men of the best character. In short this portion of Congo territory left little to be desired, and, in some respects was better organized than the adjoining districts of the British Protectorate. One Maongora chief complained to me that the native soldiers in Belgian employ had taken away some of his wives. He expressed himself so dissatisfied with this treatment that he asked permission to cross over into British territory (where he thought he could have as many as he pleased). That permission was given him, but when he found that he had to pay the hut tax on Uganda soil, he returned to his old quarters. I took into my employ about this time natives of many districts of Upper Congo, from the country of Bangala on the west, to the mouth of the Anzini on the east. I did this with the idea of making studies of their languages, and they lived with me about a year. I questioned these natives of villages all along the great northern head of the Congo. No one of them had any complaint to make against the Belgians. When I was preparing to return to England I offered these men, who were accompanied by their wives, plots of land in the Uganda Protectorate, but they were quite decided in wishing to return to their home in the Upper Congo. It strikes me that if these people were living under a reign of terror they would hardly have been so eager to return to their homes with the wages they had earned."

"There are, no doubt, bad Belgians, as there have been bad, cruel and wicked Englishmen and among African pioneers. In the early days of African enterprise I have seen too many misdeeds of my countrymen in Africa to be very keen about denouncing other nations for similar faults."

"Your law will serve no good purpose. It will settle nothing. You will require more laws, a long series, perhaps, as in France under the Convention and in Prussia under the Kulturkampf. Carry out your work. Only understand well that you have to face men who are mindful of the teachings of their Divine Master, and who know that sacrifice is the law of their belief—sacrifice unto death if necessary."

"There are too many etiquette books—too much about the cut-

ward look of things, and too little about the inward. Manners make a great difference in this world—we all discover that sooner or later; but later we find out that there are some principles which keep society together more than manners. It manners are the flower, these principles are the roots which intricately bind earth and crumbling rocks together and make a safe footing. Today the end of preaching seems to be to teach the outward form without the inward light that gives the form all its value. By preaching I mean the talk and advice that permeates the newspapers and books of social instruction.

Manners are only good, after all, when they represent something. What does it matter whether Mr. Jupiter makes a charming host at his own table or not, if he sits silent a few minutes after some of his guests are gone, and listen to the horrors that one who stays behind tells of them? And if Mrs. Juno, whose manners at her "at home" are perfect, sits down and rips and tears at the character of the acquaintances she has just fed with coffee and whatever else answers to the fatted calf, shall we believe that she is useful to society?

There is harmless gossip which has its place; in life it is like the details in a novel; it is amusing and interesting, because it belongs to humanity—and what that is human is alien to us? So far as gossip concerns the lights and shades of character, the minor miseries and amusing happenings of life, what honest man or woman has not a taste for it? And who values a friend less because his peculiarities make us smile?

By and by there comes into the very corner of the fireside a guest who disregards the crown of roses which every man likes to hang above his door. The roses mean silence—or, at least that all things that pass under them shall be sweetened by the breath of hospitality; and he adds a little to the smile of kindly tolerance, and he paints it as a sneer. "You must forgive me for telling you," he whispers, when he is safely sheltered beneath your friend's garland of roses; "but Tereus spoke of you the other night in a way that made my blood boil."

French Episcopate in Council.  
Eighty prelates of the French episcopate entered on a third plenary council on Tuesday, January 15, in the Chateau de la Muette, near Paris. Prior to the organization of the gathering there issued from the chateau a magnificent chorus of religious devotion as the prelates chanted the "Veni Creator." A crowd of curious people assembled outside were impressed by this traditional song of devotion.

The first act of the assembly was to send a telegram to the Pope assuring the Pontiff of the fidelity and obedience of the French Church. Then the prelates entered upon the gigantic problems that had brought them together. Four committees were appointed to deal with the chief questions—means to continue public worship, the support of the clergy and the continuance of the seminaries. Nothing of an authoritative nature concerning the deliberations of the assembly has been given to the world, nor is any communication to be expected until the council has reached a final decision and has had it approved by the Pontiff.

## New City of the Pacific.

### PRINCE RUPERT, THE GRAND TRUNK'S WESTERN TERMINUS.

Planned to Make it a Model Seaport—The Harbor Commodious and Safe and the Surrounding Territory Picturesque and Productive—Valuable Fisheries.

Victoria, B. C., Dec. 5.—The new city which the Grand Trunk Pacific Railway Company proposes establishing at its western terminus on Kaien Island is already taking shape. The city has been named Prince Rupert, after the cousin of King Charles II. of England, who was first Governor of the Hudson's Bay Company.

A trip to Prince Rupert affords the visitor with the enthusiasm and optimism which the head officials of the road are displaying. Imagine a wide channel leading into a land-locked harbor a mile in width, whose waters extend far inland beyond the expansive basin which forms the harbor itself, and some idea can be formed of the great port which, it may be said without exaggeration, will be capable of accommodating all the fleets of the Pacific. The spacious harbor of Vancouver is frequently referred to as one of the finest on the Pacific coast. It might be lost in that of Prince Rupert.

Fringing the shores of this great bay, Kaien Island and the adjacent mainland presents a panorama of almost unbroken forest, while Digby Island stretches itself across the entrance to the city to protect it from the swells of the Pacific. Mountains towering two thousand feet above the water perform a similar office in shielding the town from the winds blowing off land. The green mass of fir and cedar is scarred here and there by the location camps of the survey parties, while a small wharf provides landing accommodation for the coasting steamers. Apart from these all is as yet virgin forest.

The site is picturesque. The land slopes back gently for distances ranging from half a mile to two or three miles. Here and there the ground rises abruptly, providing the necessary fall for drainage and sewerage, while a short line five or six miles in extent sweeps around the front of the settlement. The view from these elevated stations and from the beach is charming. On the opposite shore mountains slope down to the water.

To the northwest, through a channel studded with islands, is to be seen the famous Indian village of Metlakatla, known on the coast as "The Holy City." This village was laid out by the missionary Duncan. Here he taught his copper colored disciples to embrace the arts and trades of the white man and founded what was intended to be a model settlement. Later trouble arose between Duncan and his Bishop and the Indians migrated to a settlement on the Alaskan coast. Opposite Prince Rupert rises Mount Hays, named after the President of the line. It is more than three thousand feet high.

The railway men are proceeding upon somewhat novel lines in founding the city. Before an acre of land is put on the market the best expert advice is to be obtained in planning the city on the most up to date lines. When the official plans of the railroad were last on the Coast they saw in Seattle houses, hotels and business blocks being torn down in order to permit the lowering of the street grades and correcting other defects in the laying out of that city. This is to be observed in Prince Rupert, which is intended to be the city beautiful of the Coast. Five parties are now engaged in a careful topographical survey of the whole townsite. When this is complete their plans will go before a board of engineers and landscape gardeners, and they will decide upon the best lines to adopt in building the city proper.

The city itself is in a trade sense born to the purple. Not only will it be the Pacific terminus of the short-trunk transcontinental system in America, but the lower grades of any line traversing North America, but through its gates will pour the vast westbound trade of that line to the opulent Orient. Immediately behind it lies a virgin territory of immense potentiality, quite equal in coal, gold, timber and agricultural land to the southern portion of the province. Already preparations are being made to open up the great coal deposits of the Telqua, on the main line of the railway.

Immediately in front of the city a rich harvest lies waiting. The richest halibut banks in the world, those of the Queen Charlotte Island, lie within five hours steaming of the docks of the new city. It is to those banks that the New England Fish Company of Boston sends its fleet of steamers, and loads from their catch the halibut specks which carry the frozen fish to the tables of New York, Philadelphia and the New England States. Salmon, clams, herring, and other food fish abound in the neighborhood.

The railway company is fostering new organizations to exploit this wealth. The climate is extremely mild, snow seldom falls and work is carried on in the open year around. Within the past few weeks the work of surveying the actual line of the railway from Prince Rupert east has begun. Several preliminary surveys were made last summer but the line is now being definitely located.—N. Y. Sun, Dec. 9, 1906.

## IF WOMEN ONLY KNEW

Thousands of women suffer untold miseries every day with aching backs that really have no business to ache. A woman's back wasn't made so ache. Under ordinary conditions it ought to be strong and ready to help her bear the burdens of life. It is hard to do housework with an aching back. Hours of misery at leisure or at work. If women only knew the cause. Backache comes from sick kidneys, and what a lot of trouble sick kidneys cause in the world.

## DOAN'S KIDNEY PILLS

will help you. They're helping sick, overworked kidneys—all over the world—making them strong, healthy and vigorous. Mrs. P. Ryan, Douglas, Ont., writes: "For over five months I was troubled with lame back and was unable to move without help. I tried all kinds of plasters and liniments but they were no use. At last I heard tell of Doan's Kidney Pills and after I had used three-quarters of the box my back was as strong and well as ever."

Price 50 cents per box or three boxes for \$1.25, all delivered by The Doan Kidney Pill Co., London, Ont.

## MISCELLANEOUS.

"More trouble," sighed McNulty, putting on his coat. "If it isn't one thing it's another!"  
"What's the matter now?" queried his good wife.  
"More labor troubles," answered McNulty.  
"Not another lock-out, I hope?" said the partner of his sorrows.  
"No; it's worse than that," answered the alleged head of the house.  
"The boss has yielded, and I've got to go to work again!"

Milburn's Sterling Headache Powders give women prompt relief from monthly pains and leave no bad after effects whatever. Be sure you get Milburn's. Price 20 and 25 cents, all dealers.

Marjorie was on a visit to her grandmother on the farm. One day her mother asked her to run to the barn and call grandpa to dinner. She started, but, espying a cow in the lot, ran back, crying "O mamma, there's a cow out there."  
"Why, Marjorie, that's a moulty cow. She can't harm you, but she hasn't any horns." "But, mamma," exclaimed the child, "she might hurt me with her pompadour!"

## Minard's Liniment Cures Distemper.

There is nothing harsh about Lax-Liver Pills. They cure Constipation, Dyspepsia, Sick Headache, and Bilious Spells without griping, purging or sickening. Price 25c.

Farmer.—So you have had some experience—have you?  
Youth—Yes, sir.  
Farmer—Well, what side of a cow do you sit on to milk?  
Youth—The outside.

## Beware of Worms.

Don't let worms gnaw at the vitals of your children. Give them Dr. Low's Pleasant Worm Syrup and they'll soon be rid of these parasites. Price 25c.

Tourist (to boy fishing)—How many fish have you caught?  
Boy—Oh, I couldn't count 'em!  
Tourist—Why, you haven't caught any you little vagabond!  
Boy—That's why I can't count 'em!

**A Lost Opportunity.**

In our article of last week, re-  
 viewing the proceedings of the  
 Provincial Conference held at  
 Ottawa in December last, we  
 pointed out that the official re-  
 port of the proceedings showed  
 that Premier Peters and Hon. Mr.  
 Hughes, the delegates from this  
 Province, presented no claims for  
 special treatment for Prince Ed-  
 ward Island in consequence of  
 our special condition. This as  
 we pointed out, was all the more  
 remarkable in view of the fact  
 that the first resolution of the  
 Conference afforded the opportu-  
 nity for the presentation of  
 such claims. This resolution,  
 which we published last week,  
 reserved "the right of any pro-  
 vince to now submit to such  
 government memoranda in writing  
 concerning any claims it may  
 have to larger sums than those  
 set out in the said resolutions, or  
 to additional consideration or re-  
 cognition."

In line with this resolution, Mr.  
 A. A. McLean, M. P., for Queen's,  
 on the 18th, asked the following  
 question:

1. Did the delegates from  
 Prince Edward Island, at the  
 conference between the Members  
 of the Government of Canada and  
 the Provincial Governments, held  
 at Ottawa in October, 1906, sub-  
 mit to the Government of Canada  
 any memorandum in writing  
 concerning any claims of Prince  
 Edward Island to larger sums than  
 that set out in the resolution  
 adopted by the Conference of re-  
 presentatives held in Quebec in  
 1902? 2. If so, what were the  
 amounts, and the nature of such  
 claims? 3. Has the Govern-  
 ment of Canada received any  
 communications from the Govern-  
 ment of Prince Edward Island  
 since the date of the Ottawa Con-  
 ference, with reference to such  
 further claims? 4. If so, when  
 were they received, and what is  
 the nature of such claims?

In answer to this question Sir  
 Wilfrid Laurier said that "all the  
 claims of the province of Prince  
 Edward Island presented at the  
 conference which took place in  
 October last are fully set forth  
 in the report of the conference  
 which has been laid on the table  
 of the House" and that "the  
 government of Prince Edward  
 Island have not since presented  
 any further claims."

As we pointed out last week the  
 "Report of the Conference" al-  
 luded to by the Prime Minister,  
 contains not one word to indicate  
 that the Island delegates made the  
 slightest move to secure improved  
 terms for this Province. The re-  
 turn contains lengthy reports of  
 the arguments put forth by the  
 representatives of Ontario and  
 British Columbia in behalf of  
 their respective Provinces; but  
 not a line about any claim for  
 special treatment for our Island  
 Province. We have, therefore, to  
 reiterate our conviction that the  
 delegates from this Province did  
 nothing towards securing a mea-  
 sure of fair play for us, while the  
 Provinces of Quebec, Ontario and  
 the West were accorded immense  
 increases to which we must con-  
 tribute our share. Do our people  
 approve of such conduct?

In the House of Commons on the  
 23rd Mr. Martin, M. P. for  
 Queen's, asked:

1. Was any arrangement made,  
 and if so, what, between the gov-  
 ernments of Prince Edward Is-  
 land and Canada, in the year  
 1900 or 1901, with respect to non-  
 fulfillment of the terms of union,  
 as regards winter communica-  
 tion? 2. Has any demand been  
 made on the Dominion govern-  
 ment by the government of Prince  
 Edward Island, for like breach of  
 contract, subsequent to such ar-  
 rangement? 3. If so, what is  
 the amount of such claim, and has  
 the government decided to pay  
 it? Hon. W. S. Fielding (Minister  
 of Finance). There is no arrange-  
 ment between the Dominion and  
 Prince Edward Island beyond  
 what we have already placed be-  
 fore the House and no correspon-  
 dence beyond what has been  
 brought down.

In reply to Mr. A. A. McLean,  
 M. P., on the 21st inst, the Min-  
 ister of Marine stated that the  
 dredge W. S. Fielding had been  
 at work for seventy-four days at  
 the entrance to Pictou harbor in  
 1906 at a total cost of \$7,786.34.

Of this amount \$2,100 were paid  
 to Captain Joseph Fraser for tug  
 service or at the rate of \$30 per day  
 for each of the two tugs employed on  
 different days. The material re-  
 moved amounted to 60,000 yards,  
 making the channel 25 feet deep and  
 200 feet wide over a length of fifteen  
 hundred feet.

Public Accounts Committee  
 Will Investigate Many  
 Deals.

Ottawa, Jan. 19th, 1907.

This has not been a fruitful  
 week in legislation. Mr. Fisher's  
 Bill to Provide for the inspection  
 of factories preparing meats and  
 other foods for export has been  
 dragging its laborious way  
 through committee, impeded by  
 the Minister's tedious explana-  
 tions. It is still provided that  
 inspection shall be limited to con-  
 cerns, engaged in export or inter-  
 provincial trade. Home con-  
 sumers of canned goods have no  
 protection from this measure,  
 which takes the English and  
 foreign purchaser under its kind  
 care. It is not yet ascertained  
 how large an army of inspectors  
 is to be raised and maintained by  
 this measure. There will be two  
 or three for each large factory,  
 one for each smaller concern,  
 while still smaller factories will  
 have no inspector for several  
 establishments. Altogether a  
 fair number of political workers  
 may be thus provided with a re-  
 ward for their activity, and an  
 occupation between campaigns.

**INTERCOLONIAL PROVID-  
 ENT FUND.**

Mr. Emmerson has introduced  
 his Bill to provide retiring allow-  
 ances for employees on the Gov-  
 ernment railways. By this Bill  
 the Minister collects one and a  
 half per cent of the salary of each  
 employe and provides that at the  
 age of seventy, after a certain  
 period of service, and at an earlier  
 period if the service is longer,  
 a monthly allowance shall be  
 made to those who are set aside.  
 The Government contributes a  
 sum equal to that paid in by the  
 men. Mr. Emmerson explained  
 that a great number of elderly  
 and ineffective men had been re-  
 tained in the service because it  
 would be cruel to discharge them  
 and leave them without means of  
 support. In many cases the work  
 they were supposed to do is per-  
 formed by younger men and they  
 will now need to be replaced  
 on their retirement.

**SUPPORTED BY CONSERVA-  
 TIVES.**

Mr. Haggart former minister of  
 railways, welcomed the measure.  
 Mr. Foster made the criticism  
 that it was not fair to charge the  
 provident fund, to which effective  
 employes are henceforward pay-  
 ing, with the maintenance of these  
 aged men now to be set aside on a  
 pension. He considers that the  
 system ought to start fair, with-  
 out these charges upon it, and  
 that the retiring allowances re-  
 quired to put the railway in pro-  
 per shape would be otherwise  
 provided.

**A QUEER ARGUMENT.**

The Minister of Railways un-  
 dertook to show that the Inter-  
 colonial was not overmanned,  
 though last year an ardent  
 Liberal Senator gave out the  
 statement that the Intercolonial  
 employees were simply falling  
 over each other all along the line.  
 The Minister states that the In-  
 tercolonial employs only five and  
 one-half men per mile, and read

a list of about thirty railways in  
 the United States and Canada  
 with a larger number. The  
 Canadian Pacific has one man per  
 mile less, the Bangor & Aroostook  
 has three men per mile, and four  
 per mile satisfied the Chicago &  
 Northwestern, The Chicago, Bur-  
 lington & Quincy and some other  
 extensive Systems. On the other  
 hand Mr. Emmerson claimed that  
 the Grand Trunk had six and a  
 half men per mile, the Boston &  
 Maine, ten, the Pennsylvania sys-  
 tem fifteen, while the Delaware  
 & Lackawanna employed no less  
 than thirty-four per mile. Of  
 course this argument refutes it-  
 self. The last mentioned railroad  
 does not employ seven times as  
 many men as it needs, nor is the  
 C. P. R. terribly short handed.  
 As Mr. Borden and other members  
 pointed out the question of the  
 number of men required does not  
 depend upon the mileage but  
 upon the nature and extent of the  
 traffic and the amount of work to  
 be done. Mr. Emmerson's elabo-  
 rate calculations are therefore  
 worthless. The provident fund  
 scheme however, has the support  
 of the Opposition Members, who  
 will assist the Minister in perfect-  
 ing the system.

**HOW TO REFORM A SENATE.**

Five Senators have been ap-  
 pointed this week. The Ontario  
 men are Honourable George W.  
 Ross, former Premier of Ontario,  
 and Mr. Beth, former Member for  
 Durham, whose county is now re-  
 presented by a Conservative. Mr.  
 Ross seems to have outlived his  
 usefulness as a Provincial politi-  
 cian. His administration went to  
 wreck and disgrace under an ac-  
 cumulation of scandals such as  
 has never before recorded in any  
 British colony. It remains to be  
 seen how successful he may be in  
 reforming the Canadian Senate.  
 For New Brunswick one new  
 Senator is Hon. John Costigan,  
 for fourteen years a Minister in  
 the Conservative Government,  
 who remained in the Tupper  
 Ministry until its resignation. Mr.  
 Costigan thereupon transferred  
 his support to the Laurier Gov-  
 ernment and has been a Liberal  
 for ten years and six months.

**A MEMBER WITH A PROMISE.**

It is understood that Mr.  
 Costigan has been carrying round  
 for two years a promise for this  
 senatorship which has been kept  
 vacant meanwhile. He has been  
 sitting and voting in the house  
 notwithstanding. This is such  
 a case as Sir William Mulock de-  
 scribed some years ago, when he  
 spoke of members with promise of  
 appointment, who had thus ceased  
 to represent their constituencies  
 or the people in any true sense,  
 and were going about as "a  
 corrupt and corrupting influence"  
 among other Members. The se-  
 cond New Brunswick appoint-  
 ment is Mr. Gillmor of Montreal,  
 defeated candidate for Charlotte  
 County in the last general elec-  
 tion.

**NON-RESIDENT SENATORS.**

A lively discussion arose in the  
 House over the New Brunswick  
 appointments. Mr. Crockett de-  
 clared that neither Mr. Costigan  
 nor Mr. Gillmor was a resident of  
 the Province. The former had his  
 house in Ottawa and only went to  
 New Brunswick for hunting and  
 fishing trips. He was a citizen  
 and an elector of Ottawa, and was  
 not qualified as an elector of New  
 Brunswick. Likewise Mr. Gill-  
 mor has resided fifteen years in  
 Montreal, where was his house  
 and place of business. He was on  
 the voter's list in Quebec, and was  
 merely a summer visitor in New  
 Brunswick. Mr. Stockton and  
 Mr. Daniel, New Brunswick Mem-  
 bers, joined in the protest against  
 this loss of two New Brunswick  
 Senatorships, which they pro-  
 nounced to be a destruction of the  
 one safe guard which the constitu-  
 tion provides for smaller members  
 of the Confederation. Sir Wilfrid  
 Laurier and Mr. Emmerson de-  
 fended the appointments, claiming  
 that both Senators had become  
 residents, the Premier urging that  
 the Senate itself was the proper  
 body to consider any protest  
 against the qualification of its  
 Members. Against this it was  
 declared that the Government was  
 responsible not to the Senate but  
 to the Commons, that neither Mr.  
 Costigan nor Mr. Gillmor would be  
 declared residents by any court of  
 law. As a matter of fact Mr.  
 Costigan is recorded in the official  
 list of Members with Ottawa as  
 his post office address. Though  
 he usually takes all that is coming  
 to him he has not claimed travel-  
 ling expenses from New Brun-  
 swick, and could not do so because  
 he does not travel to the House  
 from there.

**A RIDEAU HALL BILL.**

The people of Canada were long  
 accustomed to bear Liberal pro-  
 tests against the cost of maintaining  
 Rideau Hall. Under the late Gov-  
 ernment when the expenditure on  
 the establishment for repairs main-  
 tenance and additions reached any  
 sum near \$30,000, there was loud  
 denunciation. The cost of curtains,  
 carpets and crockery was paraded  
 from Sydney to Victoria. If the  
 Parliamentary and stump orators of  
 that time could have foreseen the re-  
 turn brought down this week they  
 would have been stuck dumb. Here  
 is the bill:

1897.....	\$31 172
1898.....	26 582
1899.....	25 888
1900.....	46 516
1901.....	44 437
1902.....	38 586
1903.....	46 141
1904.....	34 867
1905.....	51 792
1906.....	81 730
Total.....	\$237 651

Of this sum over \$30,000 has  
 gone to construction, over \$200,000  
 to repairs and furniture, and the  
 rest to maintenance. It would be  
 difficult for anyone inspecting  
 Rideau Hall to find where the people  
 or the Governor General or anyone  
 else get value for the expenditure.

**FERRING THE REPTILES.**

Sir Richard Cartwright no longer  
 disapproves about the "Reptile Press".  
 The subsidized organs belong now  
 to his own Party. Statements made  
 on Wednesday in answer to a ques-  
 tion of Mr. Foster showed the follow-  
 ing payments made during the past  
 eighteen months to some of the Gov-  
 ernment organs.

**INVESTIGATION PENDING.**

The Public Accounts Committee  
 met for business on Friday for the  
 first time this year. As yet only  
 one-third of the Auditor's report for  
 the year ending last June has been  
 presented, but Conservative Mem-  
 bers are making use of what they  
 have, between twenty and thirty  
 orders were passed for accounts and  
 vouchers, most of them dealing with  
 the Railway Department. There  
 will be investigation into land pur-  
 chases at Moncton, Truro and Hal-  
 ifax into contracts and supplies for  
 the Government railway and the  
 Transcontinental, and numerous pur-  
 chases and payments by the De-  
 partment of Public Works, likewise  
 into large payments made to Mr.  
 Shepley, counsel for government on  
 the insurance investigation.

**EFFECT OF THE LONDON  
 ELECTION SCANDAL.**

Much interest is felt here in the  
 trial of the London election con-  
 spiracy now about to take place in  
 Toronto. The grand jury has found  
 a true bill and it is understood that  
 much new evidence will be offered  
 in support of the twenty counts of  
 the indictment. Mean while the  
 minister, whose election was ob-  
 tained by these crimes, some of  
 which are confessed, is still in the  
 southern states. The department of  
 public works, about the greatest  
 spending institution in the ministry  
 is without a head, since acting  
 Minister Fisher gives his whole  
 attention to the portfolio of agricul-  
 ture. This is a great public wrong,  
 because there are many things in  
 the public works administration  
 calling for rigid inquiry. One can  
 foresee that Mr. Fisher will plead  
 ignorance of the whole matter, as  
 the new minister of marine did last  
 session in respect to the scandals in  
 that department.

On the 24th inst., Mr. John T. Mitchell  
 of Village Green, aged 57 years, died very  
 suddenly. He had been at work as usual  
 during the day, and in the evening sat  
 down by the kitchen fire. Immediately  
 he fell from the chair dead.

The Reuter Telegram Company reports to London that a tidal wave and earthquake destroyed 1,500 lives in Simala, off Sumatra.

Mr. G. A. Sharp, Superintendent of the P. E. Island Railway, returned from Ottawa on Saturday last and continues the business of Superintendent at the old stand.

There was a good attendance at the market yesterday. Prices were not much changed from those of last market day. There was a large quantity of hay which sold mostly for fifty cents a hundred.

C. W. Gault, Conservator, was elected on the 25th. in the bye-election for St. Anthony's Division. Mr. Gault's majority over Percy Ryan (Liberal) was over eight hundred.

On the prairie in Southern Manitoba, some days ago, a party of Gallians left a train thinking they had no more than a mile to walk to their homes. Apparently they misjudged the distance, and five men and one woman are believed to have been frozen to death.

On the 22nd the Red Star line steamer Vandalia collided with and sank the Dundee steamer Northworth Castle, four miles east of the South Goodwin Headlight near Dover, England. Sixty or more were killed and only three of the Northworth's Castle crew of twenty were missing.

The trial of Collins for the murder of Maryann McAulay, father McAulay's housekeeper at New Ireland, N. B. in August last was concluded on Thursday last at Hopewell Cape. Collins was found guilty and sentenced to be hanged on the 25th of April.

Mr. Ewing of Montreal who has returned from Kingston says that Governor Sweetland has been heavily misreported in the papers. He says that yellow dispatches had been wired to the American press, and that nothing had been mentioned regarding the swagging and blowing of the American sailors.

Two more earthquake shocks, the heaviest since the great disaster on the 14th, were felt at Kensington, Jamaica on the 22nd at 5 p. m. Several buildings were thrown down, and the people were greatly alarmed but nobody was injured. 2000 lives were lost at Kingston and property destroyed to the extent of \$200,000,000.

There was an immense throng at the Burns Concert in the Opera House on Friday night. After all the seats had been filled and all the standing room occupied, the doors had to be closed, and numbers were unable to get in at all. His Worship Mayor Paton presided and the programme was well carried out.

The news from Winnipeg, Regina and other western centres is certainly distressing. Hazzards, traffic blockades, and fuel famines are the predominant notes. There is no doubt of the most direful distress and suffering from cold. It is to be hoped the sufferers will be relieved before long and that the extreme cold weather and storms will abate.

Hon. A. G. Blair, ex-Minister of Railways of Canada, and one of the most prominent politicians in the country, died very suddenly at his home at Fredericton, N. B. on Friday evening last. He was about 63 years of age and had been in public life for about 25 years. He was a lawyer by profession and before entering politics was prominent at the New Brunswick bar.

Twenty miners are known to be dead and scores of others were injured on the 24th, as the result of an explosion in the Primero mine of the Colorado Fuel and Iron Company. Because of the impossibility of penetrating into the shaft the exact number of killed and injured is not obtainable. Only those near the entrance escaped unharmful. The body of Frank Hebat timber man, was the first recovered. It was found near the entrance.

A Sydney despatch of the 23rd says:—Consistent bills of the United Bank of Prince Edward Island and Bank of Nova Scotia are in circulation in Cape Breton, and particularly in the Sydney. The denominations are one and two dollars. Large numbers of people have been victimized, one hotel man being left with five dollars of those suspicious bills yesterday. The bills are well worn, of good make, and at first sight would be taken for genuine currency.

It is announced from Ottawa on what purports to be ministerial authority that a general Dominion election need not be expected before eighteen months at least. It is also stated that in consideration of this the opposition will reserve the greater part of the campaign against the Government and various investigations until next session. This is all very well if the Government are not circulating this report to hoodwink their opponents. The opposition should not allow themselves to be fooled by any fake stories.

Recent advices reiterate the accounts of the cold and snow in the west. Unprecedented severity of winter, tremendous snow falls and the crippling of the long overburdened railway system, have brought about a state of affairs that threaten a national calamity. The railways now announce their intention to devote every effort to supplying the needs of the country with fuel even if passenger traffic has to be sacrificed, and will rush fuel to outlying points with all possible speed. More severe blizzards are reported in Manitoba and Saskatchewan.

A Honolulu despatch of the 24th, says:—The volcano of Mauna Loa on the Island of Hawaii, continues in a state of violent eruption. The light from the flames ascending from the crater is so intense that it is possible to read the print at a distance of 13 miles. The flow of lava that followed the beginning of the eruption is now subsiding, but the other streams are more active. The source of the new flow is 4,000 feet below the summit of the mountain, whence it proceeds in a south-westerly direction to the sea. On a rushing stream of lava has severed all communication by land between Kau and Kona. It is 25 feet in depth. One stream that is flowing to the north is becoming wider. Many of the cones are sporting boulders, be struck by a falling tree at Ocofear four days at the Maunakea. Branch of sufficient intensity to throw down stone fences. The shocks are rotary, a movement hitherto unknown in the earth movements on the island. No deaths have been reported.

LOCAL AND OTHER ITEMS.

Mr. George P. Graham, member for Brookville has been chosen by the Liberal opposition in the Ontario Legislature as their leader.

Word comes from Cayton, that the North German Lloyd's steam, Seydlitz, Captain Dewar, homeward bound from Japan and China, with passengers, mail and merchandise, has arrived at Point Delmal, with her cargo on fire. She is burned out forward. The passengers and mails were rescued by the British cruiser Diadem.

The herring fishery at the Bay of Islands Nfld. has been attended by hardship, loss of life and destruction of vessels. Seven American and five Colonial vessels have been wrecked. The captain and mate of an American carried away by the ice, spent 36 hours on a deserted island without food or shelter. Their signal fire led to their rescue.

It appears Canada is not the only place where winter is severe. Scotland, among other countries, is having a touch of frost and snow. The letter of an artist, who got snowed up at Badenoch says: "From Kingisnie to Tulloch, thirty-three miles, no horse can get through the drifts. I suppose the world is going on somewhere, and even 'buses running; here nothing but snow, snow, snow. Since Christmas Day no mail has reached us till today. A brave post got through on foot from New Invermor, seven miles. The oldest native never remembers such a sudden fall; the drifts are level with the roofs of the cottages, in some places 12 feet deep. Last night (Saturday) the glass registered 21 degrees of frost 24 feet from the ground the night before 24 degrees. Soon we shall have to go on half rations; today the nearest loaf is eight miles away, through impassible drifts. The losses among sheep on the hills will be very great. And the usually timid deer are said to be flocking in droves to the lower grounds to be handled. The present winter by many is likely to be long remembered."

Convention in March. The seventh annual meeting of the Canadian Association for the Prevention of Consumption and other forms of Tuberculosis will be held in Ottawa the 13th and 14th of March next. A public meeting of the members of the association and of the citizens generally, at which His Excellency will preside, will be held in the Assembly Hall of the Normal School here on Wednesday evening, March 13th, at which Dr. Sheard, the chairman of the Ontario Provincial Board of Health, will deliver a lecture upon "Home Treatment of Consumption."

Coal Wanted in the West. Winnipeg, Jan. 23.—Winnipeg is threatened with a fuel famine. Harper Wilson, city fuel inspector stated this morning that there was not enough fuel in Winnipeg to last a week. Winnipeg consumes one hundred cars of coal daily, but the dealers report that only fifty cars daily are being received. It is impossible to secure fuel from any dealers. The city schools have wood enough to last only a couple of days and there is danger of closing them. The board of control was in session all this morning discussing the situation. Out in the country the situation is becoming very serious. On Friday when the U. P. R. pulled into the village of Windyhurst, near Grenfell, Saskatchewan, the entire adult male population was there to meet it. They asked the conductor for part of a car of coal and offered the payment thereof and on being refused nine men armed themselves with shovels and picks, which had been hidden in the snow, boarded the car and shovelled out the coal, leaving enough to run the train to the next station and return, while nine others threw a rail across the track in front of the engine and fastened it down with chains and despite the curses and threats of shooting, prevented the crew from moving the train. They gave their names to the conductor and one of them drove to Grenfell and sent a report to C. P. R. headquarters by mail, leaving a list of names and the amount of coal each one got, and offering payment thereof. They are now awaiting developments, but will be able to keep themselves warm while doing so.

They asked the conductor for part of a car of coal and offered the payment thereof and on being refused nine men armed themselves with shovels and picks, which had been hidden in the snow, boarded the car and shovelled out the coal, leaving enough to run the train to the next station and return, while nine others threw a rail across the track in front of the engine and fastened it down with chains and despite the curses and threats of shooting, prevented the crew from moving the train. They gave their names to the conductor and one of them drove to Grenfell and sent a report to C. P. R. headquarters by mail, leaving a list of names and the amount of coal each one got, and offering payment thereof. They are now awaiting developments, but will be able to keep themselves warm while doing so.

Coal Wanted in the West. Winnipeg, Jan. 23.—Winnipeg is threatened with a fuel famine. Harper Wilson, city fuel inspector stated this morning that there was not enough fuel in Winnipeg to last a week. Winnipeg consumes one hundred cars of coal daily, but the dealers report that only fifty cars daily are being received. It is impossible to secure fuel from any dealers. The city schools have wood enough to last only a couple of days and there is danger of closing them. The board of control was in session all this morning discussing the situation. Out in the country the situation is becoming very serious. On Friday when the U. P. R. pulled into the village of Windyhurst, near Grenfell, Saskatchewan, the entire adult male population was there to meet it. They asked the conductor for part of a car of coal and offered the payment thereof and on being refused nine men armed themselves with shovels and picks, which had been hidden in the snow, boarded the car and shovelled out the coal, leaving enough to run the train to the next station and return, while nine others threw a rail across the track in front of the engine and fastened it down with chains and despite the curses and threats of shooting, prevented the crew from moving the train. Students, Attention.

Rare Chance to Secure a College Education.

We have made arrangements that enable us to place within the reach of a limited number of deserving students, opportunities for securing, on easy terms, a classical or commercial education. A little work during the vacation season will secure this for the one worthily striving for such a boon, but who may not be in possession of sufficient money to realize his heart's desire. The facilities at our disposal enable us to offer a year's board and tuition at

St. Dunstan's College to any three young men who will fulfill the necessary, easy conditions required. These may be beginners, or former students of the College who have not been able to complete their course. In addition to this we have at our disposal four scholarships at the

Union Commercial College of Charlottetown. A full course in this excellent Commercial College may be won by any four young men or women, in town or country, who will fulfill the easy conditions we require. Whenever anyone satisfies the requirements in either of the cases enumerated he or she will be given a certificate entitling the holder to the educational advantages offered. A rare opportunity is here placed within reach of those desirous of acquiring a good education, and no time should be lost in taking advantage thereof. Only a little work is required in order to secure the coveted boon, and all can easily be accomplished during this summer's vacation, so that the winners may enter either college at the opening of the next academic year.

For particulars apply in person or by letter to the editor of the HERALD, P. O. Box 1288, Charlottetown, P. E. I. June 20, 1906—f

Big Stirring Ten Days' Sale

PREVIOUS TO STOCK-TAKING.

Commencing this Friday morning, we will during the next ten days give extraordinary bargains in all departments in the store.

In every department there are accumulations of broken lines and odds and ends, left over from a big year's selling, which we would like to see cleared out before stock-taking; and we have marked the prices so low, as to ensure their going rapidly.

We have made extraordinary sales in our Mantle department this season, but on the few handsome ladies' jackets left over, we

Itching Skin

Toward the close of his eloquent address, the distinguished Jesuit, referring to the lavish generosity with which various societies had been supported, expressed a view that some may be disposed to regard as advanced, but the propriety of which will be recognized by those who give serious thought to the subject.

Hood's Sarsaparilla

But under his successor, M. Comber, the Association Law was applied in a manner not anticipated by its author, and was supplemented by other legislation, which included the law of July 5th, 1904, suppressing teaching orders.

Archbishop Bourne Sees M. Briand.

When the students were expelled from the Seminary of St. Salpêtré, Paris, by order of the French Government, the Abbe Garriguet informed M. Monquin, the police officer, that amongst them were young men from England, Ireland, Scotland and the United States, who joined their fellow-students in protest against the expulsion.

Dr. Wood's Norway Pine Syrup

It stops that tickling in the throat, is pleasant to take and soothing and healing to the lungs. Mr. E. Bishop Broad, the well-known Galt gardener, writes: "I had a very severe attack of sore throat and tightness in the chest. Some times when I wanted to cough and could not I would almost choke to death."
