KEEP FIT

Never let your system get run down -- keep fit all the time

As long as you keep yourself strong and healthy, it is almost impossi-ble to contract colds and other con-

agious diseases. Don't wait until your system becomes weakened, but immediately you notice you are not feeling up to the mark, start fortifying your sys-tem against disease by taking Carnol. These remarks apply specially to children who do not realize the importance of taking proper care of

The peculiar feature about Carnol is that, while it is a preparation containing cod liver oil, it has a delicious taste.

Carnol is the ideal preparation for all run down conditions. It is an excellent remedy for anemia, consumption and all diseases of a

wasting nature, due to impaired nutrition, poor and insufficient blood supply. Carnol provides food for the nerves and food for the body. It increases weight and builds up

the whole system.

Carnol is of special value in the treatment of all nervous conditions marked by depression of the vital forces and usually caused by prolonged mental strain, overwork, nervous prestration. vous prostration.

Carnol has proven an excellent remedy in Rickets, that common disease of ill-nourished children, and in other ailments.

Carnol is composed of that won-

derful nerve tonic—glyeerophos-phate salts. This is commonly know the world over as "The Blood Salts." It is the best blood builder and nerve invigorator yet discovered. Carnol also contains the soluble nutritive properties of fresh beef which stimulates and nourishes the

A nice rug or mat will cost you about \$9.00, but even the best of rugs will wear out after a few years' service; yet you wouldn't consider \$9.00 too much to pay for a good rug or mat.

A Beaver Board ceiling will cost no more than a good rug, but unlike a rug, a Beaver Board ceiling will not wear out, it will last as long as your house, and after 20 years' wear will look as good as when first put on.

Within a month or so you will begin house cleaning, won't you decide to do just one ceiling with Beaver Board? It will wonderfully improve the appearance of your room.

If you do one room this year and your main hallway also with Beaver Board, you will be delighted and you will have a home to be proud of. Think it over.

A Beaver Board ceiling costs less and looks better than a plastered or V jointed ceiling. Beaver Board is good enough for your best room and cheap enough for your kitchen; about \$9.00 worth of Beaver Board will cover your ceiling.

A dining room with walls and ceiling panelled with Beaver Board is the utmost in style and comfort. You can do your dining room—both walls and ceiling—with about \$30.00 worth of Beaver Board

There passed peacefully away at Brigus on Jan. 15th, an old and respected resident of that place in the person of Capt. William Burke. The deceased was born at Brigus eight-one years ago, and up to a few days before his death enjoyed very good health. For over thirty years he carried on a successful fishery business, being one of the good old time planters and schooner masters. In later years he was agent for the Singer Machine Co., until approaching old age, caused him to ratire from business. There was an old custom in ancient Rome of drawing the names of young women from a lottery box at the feast of Lupercalia in February, the season when birds were accustomed to mate in that latitude. The name drawn by a young man was that of the one who should be his partner in the dance, etc., and led to betrothals in some cases. Probably the Christian church by attaching this or similar features to the middle day of the month only strove to work a needed reform in the observance of the festival, which had become degraded, and to enforce the between the Government and the Ava-

Rosalind while on the way to Halifax went to this steamers assistance but was unable to tow her owing to having only a small fuel oil supply. The Thyra had her rudder carried away, but jury steering gear was rigged and under her own steam the ship reached to within 25 miles of Halifax. Here she was taken in tow by the Canadian Government steamer Lady Laurier assisted by Messrs. G. S. Campbell's tugs and successfully brought to port where she is now undergoing repairs. Mandalay's reception of the Prince of Wales will rank among the most emarkable of his experiences in ILdia. No "hartel" marred the harmony of the welcome, which was whilehearted in its eithusiasm. The eitertainment for the Prince by the chiefs of the northern and southern Shan States at their camp on the outskirts of Mandalay was a striking demonstration of the loyalty of these remote communities to the Empire of which they are a fringe. It was in unusual and very picturesque show, which entailed the bringing, over many hundreds of miles, of more than 4,000 men and women of various tribes. An Open Letter to the Housewives of St. John's.

Dear Madam:-

Of course all members of your family like Beans, and perhaps you would serve the canned variety more often if you could be absolutely certain they were prepared with the same regard for cleanliness you would observe in your own home.

Let me tell you the story of Libby's Beans as I saw them packed in our mammoth plant at Chatham, Ont., a few weeks ago:-

The Beans used are Canadian grown, unequalled for flavor and appearance, and until ready for processing are stored in light, dry chambers into which no rust nor mildew can penetrate. From this room they are carried through chutes to long endless belts, lined on both sides by girls in white uniforms, who pick out by hand all broken and spotten beans, or foreign substance of any kind. The beans are then thoroughly washed in running water to remove all dust, etc., after which they enter the first cooker and remain there for twenty minutes in live steam, which swells and prepares them for the final cooking.

From this they pass through automatic filling machines which deposit one pound of beans in each can, together with just the proper quantity of Libby's celebrated Tomato Sauce to give them the delightful "tang" you

In each can is placed a hand cut cube of choicest pig pork, and the cans are then capped and proceed to large retorts where for two hours the beans are cooked in live steam.

After the beans are properly cooked, the cans are passed through a water bath to test for leaks, then to the labelling machines to receive the well known white and blue label, after which they are cased and are ready for shipment to the six Libby branches served by this factory.

Except for the hand picking operation before washing, Libby's Beans are not touched by human fingers during the entire process, and every machine used is carefully cleaned and sterilized when the day's pack is finished. Libby's Beans are thoroughly cooked, but not crushed in the process, and when you open the can you find nearly every bean in perfect shape. Order one can from your grocer and serve for tea to-night, and I think

you will agree with me that Libby's Beans are without an equal. Sincerely yours,

Libby, McNeill & Libby

AN ELECTRICAL LECTURE

Grenfell Hall, Friday, Feb. 17th, 8 p.m.

S. A. Moser Writes of Dr. F. G. Kinsman's Heart Tablets, Dyspepsia Powders.

I can recommend your Heart Tablets with safety to anyone suffering from heart disease, for I have never found a medicine which would give such relief or effect such cures. I had a trouble which three of the best physicians in this country said was heart disease and your Tablets cured it. My father had heart disease for eighteen years and could find nothing to do him good, but after using three boxes of your Tablets has not had a single symptom of the trouble. You are at liberty to publish this letter if desired, for I can stand by these statements anywhere.
