No Definite Information at Hand From Which It Is Possible to Judge Extent of Advance of Teutons

The drive of the Germans and Austro-Hungarians, begun a kago against the eastern and northern fronts of the Austroweek about theater, continues unabated, but with the Italian cavalry ing rear-guard actions to cover the retreat of the Italians to as chosen for a stand, and the Teutonic allies being impeded whe flooded condition of the Tagliagmento river.

Udine, the headquarters of the Italian army in eastern Venetia, his been captured by the invaders, who are also pressing the Italians restward and invading Italian territory from the north through

es in the Carni Alps. The invasion of the province of Venetia from the east, with Udine the apex of the drive, already is about twenty miles, but as yet no definite information is at hand from which it is possible to judge the extent of the advance of the Teutons in the other districts.

If the movement from the north keeps pace with that from the If the movement from the north keeps pace with that from the ortheast and the east, however, the predicament of Gen. Cadorna's inces necessarily will be a serious one, and it is not beyond the ralms of possibility that unless the eastern armies are able to make a stand on the plains of Friula further considerable numbers of

Italians will be captured. Nothing has been vouchsafed in either the Italian, German or nerian official statements to indicate what the situation is in the rentino sector, which lies to the west and northwest of the present one of activity, but it is not improbable that if, as unofficially mounced, the Austro-Swiss frontier has been closed, reinforcements, both from Germany and Austria are being hurried up for an offensive of great magnitude in this region. The driving back of the Italians southward in this region might seriously affect the plans of the entente allies to send relief to Gen. Cadorna if the route chosen for the purpose were across the Franco-Italian border and

In the retreat of the Italians, the British artillery units which No Decisive Action Has Yet early in the spring were sent to the Isonzo front to aid the Italians in their drive toward Trieste saved all their guns, but the men suffered severely from cold, the inclement weather and lack of food.

AMPLE COAL SUPPLY IS OPINION OF THE FUEL COMMISSIONER

Fuel Commissioner Armstrong Is Not Worrying About City Coal Shortage; May Be Shortage of Certain Grades But Enough for All

While it is possible that some grades of coal may be hard to obtain, it is not at all likely that there will be a shortage of coal in District 18 this winter, according to Fuel Commissioner Armstrong. He has written City Clerk Miller as follows:
"The distribution of the coal and the regulation of the prices charged in the various municipalities comes under the jurisdiction of Mr. C. A. Magrath. So far as a shortage of coal at various points In the western provinces is concerned, I have given the matter a good deal of consideration and have came to the conclusion that unless some uniform circum-stance intervenes there will be ample coal produced within this district to take care of the requirements in the district usually supplied from these mines. So far as Cal-gary is concerned, on inquiry I cannot find that up to date there has been any shortage of coal, and am firmly of the opinion that the supply to cover the remay be that it will not be possible get some particular grades. But I do r anticipate that it will be difficult to tain a satisfactory grade.

"Taking into consideration the increased cost of all products used around mines, I do not think the price quoted in Calgary is exorbitant. I do not think you need apprehend any unusual condition in need apprehend any unusual condition in the way of exorbitant prices."

OGDEN C. JOHNSON DIES IN VANCOUVER

The many friends of Ogden C. Johnson, head counsel of the Modern Woodmen of America, for the western prov-inces, will regret to hear of his death which occurred in Vancouver. The deceased was well known in the city, where he had a wide circle of friends and acquaintances. He resided here for the past seven years and only a short time since moved to the coast city on account of ill health. Much sympathy is felt for his widow, Mrs. O. C. Johnson and two children, Ogden C. 17 years old and Dorothy, 9 years old, who survive him.

Deceased was also a prominent Mason and Shriner, being a member of Fort Worth Masonic lodge, No. 148. His remains were taken to San Antonio fer burial there. Mrs. Johnson expects to return to Calgary in the near future.

CANADIANS GAINED OBJECTIVES London, Oct. 80 .- British troops in Clanders carried out successful opera-Flanders carried out successful opera-tions today, according to Field Marshal Halg's report tonight. The Canadian troops gained all their objectives on the Passchendaele ridge and beat off five hostile counter-attacks. The text of the statement reads as follows:

"Successful operations with limited objectives were carried out by us early this morning against German positions between the Ypres-Roulers railway and the Poelcapelle-Westroosebeke road. In spite of the marshy nature of the ground on the greater part of the front attacked and notwithstanding heavy rain and gales which made communica tion with our troops extremely difficult, important progress has been made.
"On the right of the attack, in spite of fierce opposition, the Canadian troops gained all their objectives on the main ridge and have reached the outskirts of Passchendaele. The fighting was most severe on the spur west of the village, where five hostile counter-attacks were beaten off by our troops. Captured German machine guns were used effectively in repulsing the attacks.

At the close of the inquiry, Mr. Pringle stated from the figures showing costs in the plants investigated, which had been gathered by the chief accountant, G. T. Clarkson, of Toronto, the newspaper publishers have been given a round \$500,000 by the manufacturers in the past eight months. In the case of one mill, the E. B. Eddy Company, Limited, of Hull, practically their entire output had been devoted to the Canadian trade at the fixed price, although they could have obtained much higher prices from \$60 to \$70 per ton in the United States. In the case of all those mills which have supplied more than their proper share of \$50 paper, the commissioner stated there will be a scheme of adjustment worked out whereby they had sold at \$50, beyond their share, by those manufacturers who have not supplied their proper share

to the Canadian publishers. Producing Book Papers In a few days preparation will be made by Commissioner Pringle to get under way another inquiry, he is authorized to make into the cost of producing book and half-tone papers, including the class of paper used by the vari-

Work of Weeding Out Officers of High Rank Nearly Finished

Toronto, Oct. 30 .- A special cable rom Douglas Robertson at London to the Toronto Telegram today says: "The policy adopted and announced by the Canadian Militia department at Ottawa some time ago, and slightly alaborated since, which concerns the surplus officers overseas, is now in full swing. That small proportions of surplus officers who are still outside Canada above the rank of lieutenant and who, though they may have been attached to some battalion in France for instruction, were not actually absorbed at one time in the strength of that battalion at the front, will have the choice of reverting to a lieutenancy or returning to Canada in due course. Senior officers deciding to accept lieutenancies, though henceforth receiving lieutenant's pay, will continue to draw the separation allowance of their original rank and be entitled to the pension of their original rank. The number affected is not very considerable as, of course, it does not include officers actually on the establishment of the pay corps, forestry battalions, etc.'

Co-operation in floating the loan was already being promised by every line of business men in the country, and cording to Mr. McQueen, and many helpful suggestions were being brought ferward. One citisen of Calgary had offered to buy a bond of \$25 each for every soldier's child in the city between the ages of 12 and 15 years, providing bonds of that figure were procurable. This would, he figured, for 600 children represent an outlay of \$15,000 and would be a Christmas gift as well as the nucleus of savings account for them. The banks were also promising help and information had been given Mr. McQueen by a bank official that banks managers would not only advise in vesting their clients' money in the bonds, but arrange for the financing at a set of the past year of Vancouver. One question was the fact that a great national and patriotic need had been neglected by the people which was in a measure against the spirit of "win the war."

One of the members was emphatic in declaring that by next summer, unless the people woke up to the importance of cultivisting vegetables at home, that they will be living on roots.

N their enthusiasm to serve Canada, a number of men in Class One—bachelors and widowers without children (not otherwise excepted) who were 20 years old on the 13th October, 1917, and whose 34th birthday did not occur before January 1st, 1917—will desire to report for service, when in fact it is in the national interest that such men should continue in their habitual occupations.

The purpose of the Military Service Act is to select the authorized 100,000 reinforcements in such a way that the industries essential in the national interest will not be handicapped unnecessarily. With this in view, the privilege is extended to employers to claim exemption for men referred to in the first paragraph.

This course obviates the possibility of requiring that men be returned to civilian employment after months of military training—a waste of time and money for all concerned. The grounds upon which exemption may be claimed, of special interest to employers, are:

(A) That it is expedient in the national interest that the man should, instead of being em-ployed in Military Service, be engaged in other work in which he is habitually engaged.

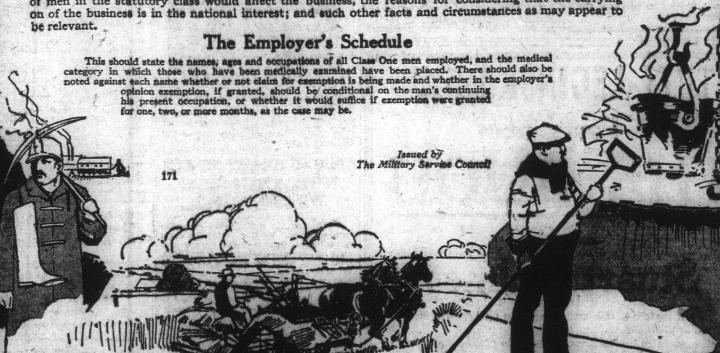

(B) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he wishes to be engaged and for which he has special qualifications.

(C) That it is expedient in the national interest that, instead of being employed in Military Service, he should continue to be educated or trained for any work for which he is then being educated and trained.

The Employer's Statement

Where an employer claims exemption for an employee on the ground that it is expedient in the national interest that the man should continue in the work in which he is habitually engaged, he should prepare for the tribunal a statement and a schedule as follows:

Total number of employees, grouping them according to their respective occupations and qualifications, and stating the number in each group. Indicate the possibility or otherwise of replacing the labour of Class One men with the labour of those not in the statutory class called up; also the extent to which the withdrawal of men in the statutory class would affect the business, the reasons for considering that the carrying

EMILY ANN WELLMAN TALKS TO WOMEN ON DRESS

Extreme versatility as an actress has lways been attributed to Emily Ann Wellman, who is now appearing at the Orpheum in the novel flash drama, "Young Mrs. Stanford," in the minds of American theatergoers, but few have ever become apprised of her talents as an artist and designer. For many years, Miss Wellman studied the subject of art and designing and paid particular attention to the matter of women's dress. Interviewed recently by one who knew her to be exceed ingly competent to speak along those ines, she said:

"The well-gowned women of the present day are those who study most carefully selection, eliminating everything that is non-essential and using most discriminating eye as to the

"All designers agree that the lines are of paramount importance in the question of proper gowning There-fore, a practical knowledge of the season's best styles is necessary, especially as to the correct lines—not alone from the shoulder to the edge of the skirt, but the shoulder, sleeves, underarm, belt and skirt line. One finds in the most elaborate importations the idea of line and proportion which gives to all these gowns their individ-

"Then, again, one must study color both as to its becomingness and mod-ishness. Every season the demand increases for new shades of the primary colors. Frequently these do not harmonize and are unbecoming to the average woman, but yet are so artfully displayed in the millinery and dry goods emporium that they set aside the judgment of the more conservative dressers. In the choice of colors, too, the relation of the new to the old wardrobe each season must be considered. For instance, how the new hat will harmonize with the best of last season's gowns. And yet in all this study of color, the idea of line is first in importance."

Miss Wellman, with her aptitude in combining the modish and becoming lines and colors in her gowns, as well as in her simple style of hair dressing, presents individuality in dress and style to a marked degree.

Try Making Your Own Cough Remedy

If you combined the curative properties of every known "ready-made" cough remedy, you would hardly have in them all the curative power that lies in this simple "home-made" cough syrup which takes only a few minutes to prepare.

Get from any druggist 2½ ounces of Pinex (50 cents worth), pour it into a 16-oz. bottle and fill the bottle with plain granulated sugar syrup. The total cost is about 55 cents and gives you 16 ounces of really better cough syrup than you could buy readymade for \$2.50. Tastes pleasant and never spoils. mever spoils.

This Pinex and sugar syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops

relief. It loosens the phlegm, stops the nasty throat tickle and heals the sore, irritated membranes that line the throat, chest and bronchial tubes, so gently and easily that it is really astonishing. A day's use will usually overcome the ordinary cough and for bronchitis, croup, whooping cough and bronchial asthma, it is splendid.

Pinex is a most valuable concentrated compound of genuine Norway pine extract and has been used for generations to break up severe coughs. To avoid disappointment ask your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded, goes with this preparation. The Pinex Co., Toronto, Ont.

Why We Raise Money by Selling Canada's Victory Bonds

TATHY does Canada sell Bonds to help finance this war? Because that is the least burdensome, most expeditious and fairest way of raising money. Canada now has only two ways of raising money for the war:-

First—by taxation. Second—by borrowing from her people.

TF Canada were to raise by taxation all the money required the economic burden on the people would be unbearable.

So much money is required to carry on Canada's share of the war that to attempt to raise all of it by taxation would be out of the question.

Much of it, therefore, must be borrowed from the people.

Canada asks her people to lend their country money in exchange for Canada's Victory Bonds.

Within the next six weeks the people of Canada will be asked to supply, through the purchase of Canada's Victory Bonds, the money at present required to carry on

And because the purchase of Canada's Victory Bonds is voluntary, the hearts of all the people who buy Canada's Victory Bonds will be even more closely united in support of Canada, backing her up in the

VICTORY bond financing spreads the repayment of the bonds to the the rising generation and the next generation, so that this generation which is doing all the fighting, suffering most of the privations caused by the war, will not have to do all the paying.

Generations yet unborn will reap the harvest of freedom this generation is fighting for and it is only fair that a portion of the burden of paying the tremendous cost should be borne by the future beneficiaries.

But your money is not tied up. Buying a twenty-year bond does not mean that your money is locked up for that term. You can sell Canada's Victory Bonds at

AND

Twelve days of that time is left to work for the Ford special prize. If there ever was a time when good work counted two ways, that time is

The candidate winning the Ford special will have made a great burst of speed toward one of the regular prizes—likely a big one. Then, again, the winner of the Ford may put all of his or her energy into the three weeks and not be in the running at all for anything big at the close.

Don't believe many of the "whopper" stories about millions of votes unless it be your own votes—for people talk very much at random at this stage of a newspaper contest. Work like the proverbial beaver, and THEN YOU WILL HAVE NO REGRETS THAT THE RACE IS RUN.

Nobleford Candidate Leads Contest Today

MISS MARIAN TACKABERRY

Nobleford, Alta. Miss Tackaberry hails from the champion wheat district of Alberta, where big things are done agriculturally-and there is no reason why big bunches of votes should not be secured in The Albertan Automobile Contest for the candidate chosen to represent this part of District No. 3. This young lady is receiving encouraging support and is showing by her energy that she merits the help given. In her last letter this paragraph is self-explanatory: "I wishe to say that it is my greatest desire to win a car and be able to have The Albertan give \$100 to our local branch of the Red Cross society. The support of friends will be greatly appreciated."

Adoption of System of Mini mum Prices Came With Great Surprise

Montreal, Oct. 30 .- As a result of the inusual situation brought about by the shortage of credit supplies f market purposes the divers vestment funds from the older st into the war loans, and the syr thetic depreciation in values re from a protracted decline in the New York market, the Canadian stock ex-changes decided today to adopt a system of minimum prices. The decision came suddenly rather unexpectedly, although the necessity for some protective measures has been evident for some days. freer supply of credit was r of finance the ordinary business of the exchange or further depreciation was supported by the depreciation of speculative accounts, with unsettling effects on the financial situation and to the detriment of the coming campaign for Canada's fourth war loan Generally Approved

The decision to meet the situation by going back to a plan of minimum prices, similar to that instituted after the markets reopened following the forced suspension in the autumn 1914, met with the general approval the authorities in charge of loan campaign and the banks. The subordination of all other consider tions in the investment markets to the new war loan appealed very strongly to the former. The stabilizing of the market position while the loan can paign was in progress, was considered of more importance than a temporar stay to the ordinary course of busines on the stock exchanges. Further, the arrangement of a minimum price basis, the situation is largely that the oring. Our cutting and fitting please the lades. 1211 1st St. West. CORN TRADERS MARKING TIME

Holding Back Trades for Liberal Movement of

New Corn Chicago, Oct. 30.—Corn traders as a rule marked time today waiting a lib-eral movement of new corn. Prices closed unsetled at 118% to 118% for December, and 103% for May. Oats gained %c to %c. The outcome in pro-visions varied from unchanged figures

to 50c decline.

Temporarily, corn seemed to have been sold at a standstill, so far at least as future deliveries were concerned. Commission houses and close were said to have been realously back-ing efforts to prevent undue inflation of prices and had reached a stage where the market needed a balance as would be afforded by increased stocks. At first today cold weather was likely to stop damage to corn, and this tended to ease the market and se did Wall street weakening, but the effect was counter-balanced later by lack of increased feeding demand and by advices that the movement of the new crop had been much hindered by snow. Oats developed a little firmer owing Oats developed a little firmer owing to lightness of rural offerings. Provisions underwent a decline after an early advance. The initial strength was

LOWER GRADES IN DEMAND Winnipeg, Oct. 30 .- There was an active demand for the lower grades of cash wheat and more inquiry for Nos. 4 and 6 wheat with offerings fair. The Wheat Export Company was taking all offerings of wheat at the fixed prices. The demand for cash oats was indifferent, with the range of prices narrow. Offerings increasing in the lower grades. The higher grades were being placed against futures. There was little demand for barley, with prices ic off from yesterday. Cash flax was unchanged, with no de-

associated with an upturn in quotations

Winnipeg oats futures closed 1/3 to %c higher, on extremely narrow fluctuations for the day. Barley was off ic for both months. Flax was ic higher for October. Unchanged for November and 1c to 21/2c lower for

NEW YORK'S KEEN MAYORALTY BATTLE

T. Roosevelt Takes a Hand in Support of Mitchel

New York, Oct. 80 .- New York City has swumg into the last week of the municipal campaign with programs ar-ranged for the four mayoralty candi-dates and their chief supporters that will provide a strenuous wind-up for the most exciting political contest in the history of the city. Aside from the many important municipal issues that many important municipal issues that the stock exchange that the brokers are in the balance, the war has been the stock exchange that the brokers injected into the campaign and the are all anxious to help with the war injected into the campaign and the Socialist candidate for mayor, Morris Hillquit, has made "peace without victory," a direct issue.

Minimum Prices Toronto, Oct. 80 -Trading on the Toronto stock exchange is again on a basis of minimum prices following the procedure adopted as a safeguard when trading was resumed in October, 1914,

after the close-down at the end of July ments start coming in they will be exceptionally heavy. This will have the tendency to depreciate prices.

There were no hogs offered yesterday though the ware and sympathetically the Toronto exchange was the college. pool operations in certain specialties. Steel of Canada and Canada Steamships are mentioned in this regard. Rumors were current here yesterday that two Montreal brokerage houses were heav-

ily involved, that the banks which had loaned money on these specialties as collateral were calling for more margin money at once as an alternative to throwing the stocks upon the market. With the funds not forthcoming, the brokerage firms, it is said, asked that measures be taken to stem the tide.

The imposition of the minimum scale had an immediate check on the wave of selling. Brazilian, which was thrown heavily on the market at the opening, actually sold 1/4 above the opening, actually sold % above the minimum at the close. Dominion Steel was dealt in to a smaller extent at 52. Steel of Canada, which opened weak at 49%, closed at 50%. % above Mon-

day's close. Toronto Railway, selling at 581/2. new low record, was bought later at the minimum of 60. Mackay was un-changed at 74%. The war loans were actively traed in closing in each case on the level of Monday. Dealings in the 1925 issue were particularly heavy. Total trades were 1,211 shares and \$49,400 in war bonds.

C.P.R. STATEMENT SHOWS DECLINE

Stock of Canadian Road Is Storm Center on September Report

New York, Oct. 30 .- External devel opments were again the disturbing and uncertain influences in the stock mar-

ket here today. Latest advices showing the extent of the Italian defeat were supplement-ed by the restrictive measures adopted by the Canadian stock exchanges, appointment of a new German chancel-lor and publication of several unfav-orable statements of earnings, notably that of the C.P. railroad, which disclos ed a net decrease of almost \$1,400,000 for September.

for September.

C. P. was the storm center, falling 6 points to 132% during the morning on the temporary suspension of operations in the Montreal market. From this minimum the stock rallied to 135 %, closing a point under that figure at a net loss of 4% points. Other rails, especially transcontinentals and the west-ern division, yielded 1 to 2 points. United States Steel moved active list, ranging from 101% to 103%, its final quotation of 102% representing a net loss of % of a point. Other steels recorded extreme reactions of

2 to 51/2 points.
Sales amounted to 980,000 shares. The quarterly statement of the United States Steel corporation, disclosing a decrease of about \$22,000,000 in total earnings from the preceding quarter and the retention of the three per cent extra dividend on the common shares, did not issue until after the close of the market.
