The Child's Heart. [Arthur Austin-Jackson.]

The heart of a child,
Like the heart of a flower,
Has a smile for the sun
And a tear for the shower;
Oh, innocent hours
With wonder beguiled—
Oh, heart like a flower's
La the heart of a child. In the heart of a child !

The heart of a child,
Like the heart of a bird,
With raptures of music
Is flooded and stirred;
Oh, songs without words,
Oh, melodies wild—
Oh, heart like a bird's
In the heart of a child!

The heart of a child,
Like the heart of the spring,
Is full of the hope
Of what summer shall bring; Oh, glory of things In a world undefiled-Oh, heart like the spring's In the heart of a child!

"To Throw Good Money After Bad. Will but increase my pain." If you have thrown away money for medicines that did not and could not cure, why should yon not now begin taking Hood's Sarsaparilla, the medicine that never disappoints? Thousands of people who were in your condition and took Hood's Sarsaparilla say it was the best investment they ever made, for it brought them health.

Hood's Pills cure sick headache, indigestion The population of the Yukon districts has dropped from 15,000 to 8,000 in six months. This is due to the many failures of prospectors. Some have become wealthy by going to Dawson but they are exceedingly few compared to the hundreds who have lost the money they possessed before leaving their homes.

A single failure does not brand the project as fuile, though there is reason to doubt the wisdom of some teachings of even so representative a body. At Paris a few days ago the Congress argued to make international arbitration obligatory. In the interests of peace, such a policy would surely be disastrous; more apt to produce war than promote Still the representatives of the nations may trous; more apt to produce war than promote peace. The Paris Congress had under consideration many more problems of national import, and its reports on the China and South Africa situations, are worthy of more than passing notice. Dealing with China it was resolved, that the action of the mission aries was often intolerant; that their religious propaganda should not be backed up by diplomatic or military force; that they should go into China at their own risks and earlis; that Europe should abandon any the first three trades for the church. Ottawa, Oct. 10.—Mr. J. S. Larke, Canadian trade commissioner in Australia, reports to the Department of Trade and Commerce that because of the uncertainty of tariff legislation pending the confederation of all the Australian colonies trade has been somewhat nervous. It is now clear that the federated colonies will not be able to determine their colonies will not be able to determine their tariff before 1902, and in the meantime Sydney is declared a clean port and free. Mr. Larke thinks this will be a splendid opportunity for Canadians, and he thinks dealers here should send out agents. But few of the wholesalers there have taken up Canadian lines, and so far inquiries have been nearly altogether from commission merchants. He thinks it would be well for Canadian exporters to combine in establishing an agency there, as this would mean a big saving in expense.

HARVEY—DUSTAN.

The charming residence of George Gordon Dustan, Dartmouth, was the scene of a pretty home wedding Wednesday the 10th inst, when his daughter Daisy, was united in the bonds of matrimony with Charles H. Harvey, the well known Halifax commission merchant. The room where the ceremony was performed was beautifully adorned with palms and potted plants, and autumn leaves nicely arranged. The ceremony was performed by the Rev. Thomas Stewart, assisted by Rev. John F. Dustan, brother of the bride. The bride looked charmingly handsome in a costume of white bengaline silk, with the regulation bridal veil and orange blossoms, carrying a lovely bouquet of roses. Miss Nellie Dustan, sister of the bride, was bridesmaid, and was attired in a becoming gown of blue and white corded silk alpaca, and wore a hat of a similar shade. Mr. Harry Harvey, brother of the groom, acted in the capacity of best man. After the ceremony a reception was held at which 300 guests were present and extended congratulations to the newly wedded couple, after which they partook of a sumptuous luncheon. The present were most numerous, and consisted of silverware, fancy work, jewels, etc. The groom's present to the bride was a beautiful gold watch and chain, and to the bridesmaid an opal ring. The groomsman's present to the bride was a gold necklace. Mr. and Mrs. Harvey left on the Maritime Express to spend their honeymoon touring Canadian and American cities, and on their return will reside in Dartmouth.

Frederick Eugene Roop, pastor of Economy, Bass River and Five Island Churches, and son of Joseph Roop, Clementsport. The ceremony was performed by Rev. O. N. Chipman, of Great Village. Miss Carrie E. Knight, Bass River, was maid of honor, and A. E. H. Chesley, Kentville, assisted the groom. The bride was dressed in cream satin with pearl trimmings and silk lace, and carried a very beautiful bouquet of white roses and maiden hair ferns. Miss Knight was dressed in pink nun's veiling, trimmed with silk lace. The ushers were F. Roderick, of Five Islands, and P. Davidson, of Baes River. The church was beautifully and artistically decorated. After the ceremony the party repaired to the home of the parents of the bride where a very enjoyable reception and lumch followed The presents were very numerous and costly one, especially from the bride's father being a cheque for a substantial amount. Grateful to Colonials. Capetown, Oct. 16.—The Congress of the South African League today adopted a resolution approving the government's policy and the 'splendid services' of Sir Alfred Milner and tendering sincere thanks to the colonies for the 'imperial spirit which prompted them to send troops to South Africa.'

During the course of his address, Mr.

Africa.'
During the course of his address, Mr. Rhodes said:
'Now that the battle is over the disputes on the origin of the war ought to cease. The race question must be subordinated. The league should support three points, the supremacy of the flag, equal rights, and show the Dutch that there is no feeling against them. Having won what it is entitled to, the league ought to demonstrate that the interests of the race are the same.

come with special interest. She says: Amusement, properly understood, is the relaxation from the daily grind, and only when it is taken in that sense, and not as the main object of existence, can it be considered ered hem to the robe, not the robe itself. The moment that amusement, in the shape of games, sport, society even, departs from Its rightful kingdom, it becomes an usurper, and as such cannot claim ethical power. Its true purpose is as a relaxation either to the mind or the body, and this it ceases to be when it occupies an undue amount of time,

brain power or physical energy. It seems to me that if amusement is to be healthful and pure it should depend, first, upon the exercise and use, but not abuse, o eur physical and mental powers; second upon sympathetic companionship; third, upon the certainty that in the pursuit of our wn pleasure we are not injuring others fourth, upon the fact that we are giving

Now, the more we cultivate our faculties the greater will be our possibilities of enjoy-ment. To some a walk between budding hedgerows or through green fields may lea to a paradise of delight, while to others it may simply mean an excursion into the king-

The amusement gained in learning to ol serve Nature closely is infinite; it is a stim ulus from without and in every sense healthful one, leading to many of the pleas

When combined with a love of research and reading, these interests are yet mor valuable. It seems almost trite to dwell upon the ethical aspect of the amusemen gained frem our most precious friendsbooks. With music dancing is, of course, intimately associated. The popular dictum has now given to the rhythmical movements so dear to the young, a very honored place in the scale of amusements. Dancing is taught in primary schools; it has found open doo into the modern working girls' clubs; i wholesome recreation in their parishes, and the young of all classes would count social pleasures as insipid if they did not include a dancing party or a ball. The ethical value ome exercise it entails, upon the fine spirits that it engenders and upon the healthy

Games such as cricket, foot ball, tennis, and golf are simply invaluable. They bring their votaries into the open air. racing their nerves, making them active in body, agile and supple of limb, keen of sight enduring, patient, good tempered, unselfish and public spirited. I regret that the elements of gambling should ever have intruded itself upon these open air pastimes, an beyond this there is a further danger result ing from the hero worship so freely bestowed upon all who show an exceptional pr ficiency in the national games. It must often require great force of character to set tle down to the steady routine of everyday life after the fictitious excitement of injudi

ious and universal adultation I would add that the ethics of those coun tres are in the ascendant where national games are innocent of cruelty. Who does not owe also a meed of gratitude to the edentary games, such as the learned and dignified game of chess; whist, so useful when conversation flags; draughts, dominos, even patience, all of which have helped mer and woman through many a tedious hour? But here again their ethical value is at a discount if they are played for high stakes

or gambling purposes. And then the bicycle. What avenues of fresh delight it opens up ! What possibilities to those who have lived their lives with in city walls! It promotes companionship between men and women, so valuable to both, and in a way realizes the aspirations of

It seems to me that I never knew a scold ing woman who had any influence over her ildren after they grew up. While they are young she prevails over them by dint of nuch speaking; as soon as they get a little older her opinions and protests and scolding are either ignored or resented, and her childen order their lives to their own liking. I don't know that the children of a scold ing mother have very much to be grateful for. I should think she would scold all the nother-love out of her heart. I am sure she effectually banishes love and respect from To be cured, you must not her children's hearts. True it is necessary o give 'line upon line and precept upon pre ept,' but that is very different from the ternal nagging that many mothers indulge . Think a moment! Would you like to be always reproved, your short-comming kept always before you, your sins of omi sions and commissions kept constantly i mind? Does it not irritate you to heve ross and impatient words addressed to you' Are you fond of people who are always tell ing you of your faults? Think then wha ffect continual reproof must have upor hildren, whose sensibilities are more tende ud whose feelings are more easily wounded

han those of older persons. The scolding mother may think because ner words apparently fall upon unheeded ears that they have no effect. Very likely they fail to bring about the result desired but they have their power upon character. They destroy the mother's influence, they harden the children's hearts eventually and make them harder to control and make a last almost unconsciously imitates the acts, the words and ways of those with whom he as ociates. You may hear the little girl scolding her dolls in her mother's manner toward much as he sees his father treat the far animals. Habits that are to shape a life time of thought and activity are being form ed, their inspiration caught from those of

he parents. Then don't scold! It spoils your children's disposition and your own. It makes you unloveable, and it doesen't do an atom of good. On the contrary, it does an incalculable amount of harm.

-A young woman of Washington birth and years past in a small Indiana town, says in the Washington Post that for tact and diplomacy she knows nobody to equal her neighbors there. She had scarcely settled in her new home when one day she heard a hen proudly cackling in her back yard. She went out to see what could have brought a strange hen into her yard, and found that the fowl had just laid an egg in the woodbox outside the kitchen door. While she was still wondering where on earth the creature had come from, the shock head of a thin and tall girl of 12 rose from the yard of the house "Hello," said the girl. "Good morning," answered the Washing "We got a plenty 'o eggs." remarked the girl. "Maw says you kin have that one our
