AUSTRIA MAKES MOVE TO END WAR

London, July 25.—The important developments today in the Balkan situation was a demand presented by the Austrian representatives at Athens and Belgrade for an immediate cessation of hostilities, together with a warning that Austria will not allow Bulgaria to be greatly humiliated. It was declared in Vienna tonight that should Greece and Serbia still oppose an armistice a Roumanian army, acting as a mandator of Austria and Russia, will prevent any attack on Sofia, and that Austria will take even more energetic steps, if necessary, to stop the war. Should it be true that Austria and Russia have thus agreed to co-operate, the pressure exercised doubtless will be effective.

In the military sphere the principal news is that the Serbians have invested the fortress at Vidin, Bulgaria, which is situated on the Danube, 130 miles south of Belgrade. The fall of the fortress cannot long be delayed, in fact, a Belgrade despatch reports that General Kutupchew's troops already are beginning to surrender. Vidin, which has a population of 15,000, will be Serbia's biggest capture during the war.

No news was received today from the Turkish side, but it is reported that the Porte has ordered the mobilization of three army corps in Asia Minor.

Sofia, July 25.—The French Minister here was requested today by the Bulgarian women in Philippopolis, to send the following telegram to President and Mme. Poincaré:

"Bulgarian mothers, whose sons are on the battlefield, implore Madame and Monsieur Poincaré, with tears in their eyes to save us from the Turkish massacres which threaten Philippopolis. Your intervention is our last hope. Accept our sincerest thanks and eternal gratitude."

The important town of Banako in Macedonia, where missionaries have established a large settlement, has been burned by the Greek troops, according to an official Bulgarian report.

It is stated that the marriage of Prince Arthur of Connaught to the Duchess of Fife will be celebrated in October before the Prince's father returns to Canada, to take up his duties of Governor-General of the Dominion.

THE PROVINCIAL COAL TRADE

The editor of the Mining Record in his annual review of the coal trade, published in the Halifax papers, said there should be an increase in shipments, 1913 over 1912, of over half a million tons, but he did not see where it is to come from. In saying there should be such increase he had in mind the accepted theory of a natural increase of ten per cent yearly. The probability is that up till the present time he is still unseeing. The net increase in shipments by the larger companies for the five months ending May is less than five thousand tons. At this rate of increase the half million goal by the end of the year will be far off. The big decrease, comparatively at Springhill and at Westville largely discount the increases in Cape Breton County and at Stellarton for anything like substantial increases during the remainder of the year. Though the shipments of the Dominion Coal Company do not loom large as compared with 1912, the outputs are a long way ahead, which means that much coal is in bank available for future shipments. The Acadia Coal Company is making a very fine showing, and though shipments suffered a check the latter part of June, through the unfortunate fire in the "Slopes," the chief producer, the increases in shipments will soon begin to tell again. All the of collieries which do not show decreases will not do much better than hold their own, and so it is quite possible that the doubt as to obtaining a natural increase may be confirmed. And yet at the same time there is room for some surprises, in Cape Breton and Pictou Counties.—Mining Record.

MEXICAN SITUATION SERIOUS.

Mexico City, July 24.—Unofficial advice received here persistently report that the town of Torreon, in the State of Coahuila, has fallen into the hands of the Constitutionalists. The officials of the Mexican Government deny the report. The Torreon garrison consisted of more than 3000 officers and men as well as a number of cannon, and if the report that the town has capitulated be true, it is assumed here the garrison must have revolted and aided the rebels.

INVASION OF THE BROWN TAIL MOTH

The St. John Globe says:—If there were hundreds of brown tail moths in the swarm which visited St. John on Sunday night, there must have been millions that came in on Monday night. In fact the invasion is assuming a serious aspect and although it is true that all the specimens captured were males, there is no way of being absolutely sure that there were no females. To show the immense numbers of the insects, Mr. A. Gordon Leavitt told the Globe that with the aid of several ladies and gentlemen he had collected under one electric light as many as three hundred and sixty-five specimens, all males. He visited a number of other electric lights during the night, but did not attempt to collect any moths. He reports that in most instances the wires and the poles were perfectly white. When the terrible destructiveness of these pests is borne in mind it is a little appalling to think that in four years the progeny of a single pair of insects, barring accidents, will number no less than 166,875,000. No effort should be spared to prevent the moths from getting a foothold in this province.

TRURO POLICE MADE BIG CAPTURE.

(The Morning Chronicle)
Truro, July 24.—The finding of a package of dynamite, a revolver, a bunch of fuses, a pair of rubber boots and a rubber coat on the Pictou line of railway near this town, on Wednesday morning had as its sequel in the arrest this afternoon by the Truro police of five men, who were prowling around the railway yards. The police consider they have made a very important arrest and connect the men with the many daring burglaries which have been committed in the surrounding country during the last few weeks. An examination will be held tomorrow morning.

The discovery of the bundle of burglar's accessories aroused the suspicion of the police. This afternoon two men were seen in the railway yards evidently searching for something. They were immediately put under arrest, and on further search of the yards by the police, three others were brought into custody. One man gave his name as Roy Ross, St. John, another as John McCudden. He, however, will not give his address, but is supposed to belong to Bangor. The others refuse to reveal their identity. The one giving his name as Ross had a coat, rubber coat, pair of rubbers, and cap which were hidden near the track. A letter addressed to Ross found in the coat, associated the clothes with him. One of the burglaries with which the police connect them is that of Acadia Station, about ten days ago the station being broken open as the safe rifled.

OFFICIAL CEREAL CROP REPORT.

A cablegram received today from the International Agricultural Institute gives the following official estimates of the 1913 cereal crops. The final estimates of the 1912 crops are here given for the purpose of comparison:

	1913	1912.
Wheat	bushels.	bushels.
Bulgaria	64,301	63,750
Spain	119,100	109,784
Eng. and Wales	55,080	
Italy	138,417	155,721

NOVELTIES FOR THE COMING EXHIBITION

Fireworks by Day as Well as by Night for Visitors to the Provincial Fair at Halifax. Horse Races, Women's Work Department.

Manager Hall has decided to make a change in the fireworks display at the forthcoming Provincial Fair at Halifax by which a more interesting and thrilling spectacle will be presented with special features and novelties never before seen. The Pyrotechnics at night will be on a magnificent scale but there will also be fireworks by day. This seeming paradox will be a reality and during the afternoon show on the Grand Stand pyrotechnical balloons will ascend and explode with loud reverberations and display of brilliant colors.

The biggest field of horse ever seen on the track of the Provincial Exhibition is expected at the Fair, which opens on September 3rd, and will continue to the 11th. The second payment for the Stake Races has been made and the horses heard from number sixty-two for the six races of this class. This is a very large showing and argues well for good sport. The final payment will be on August 15th and on that date also will close the entries for the other eight races which make up the seventeen of the races of the days of the Exhibition Meetings.

Rule IX as published in the Domestic Department of the Prize List will not be enforced this year as many of our exhibitors may have had their work ready for exhibition before seeing list. The reason for making this rule is that if work were allowed to be washed it is impossible to tell if it were of recent date, as it may have been done one year or ten years ago. It is also to teach intending exhibitors to keep their articles clean while working. In all probability, however, this rule will be enforced in 1914.

Do not forget that judging will begin in the Domestic Department on Tuesday, September 2nd. An exception will be made to Housekeeping, Class 126. Exhibits in this class will be received up to Wednesday morning at 9.30 and judging will begin at ten o'clock.

According to the meteorological report for the year ending March 31, 1912, Nova Scotia leads all the Provinces of the Dominion in respect to hours of sunshine. Even "Sunny Alberta" had eighty-eight hours less of sunshine during the year than Nova Scotia.

We'll send this announcement to YOU.

If you are interested enough to write for the same immediately to insure your having a copy when issued in a few days.

This official announcement contains most important information of the latest progress of the Maritime Nail Company. As Monitor readers are doubtless aware, we recently offered the 7 p. c. Cumulative Preferred Stock of this Company at par with a 50 p. c. Common Stock Bonus, and this attractive issue was very largely taken up.

Present stockholders will be greatly interested to learn from this announcement that by the opening of its new rod mill in Germany the Maritime Nail Company has effected a large saving in the cost of raw material. This saving means increased earnings and the placing of the Company in an advanced position among Canadian Nail manufacturers.

More desirable than ever is a purchase of this Preferred Stock. The announcement explains why.

PLEASANT SURPRISE TENDERED REV. AND MRS. UNDERWOOD

An event of somewhat unusual interest took place in St. James church schoolroom last evening. Someone had heard that yesterday was the tenth anniversary of the wedding of the Rector and Mrs. Underwood. The word was passed around and a conspiracy entered upon to spring a surprise. First precaution was taken to secure the presence of the couple to be surprised. This was managed by a parishioner, in a casual way, inviting them to tea, care having been taken that it should be a parishioner living far enough from the schoolroom to prevent the seeing of any carrying to and fro. Immediately after tea a drive was proposed, down Granville way, around Beaconfield and home by way of Church Road. "Such a pretty drive," said the host. Arriving at the town end of Church Road the schoolroom was ablaze with light and through the windows many heads were seen. "Why, what is going on here? It must be something, but nobody has been to the Rectory to get the keys." So said the Rector whilst his wife looked wonderingly. "Better go around to the front door and enquire," said the driver. At the front door it became evident that something unusual was on the tapis. "What is it?" was the query put in many ways by both the Rector and Mrs. Underwood. "Why, you are wanted inside," was the reply on all sides. On entering the room, which was crowded by kindly parishioners, the secret came out. On the platform at the north end was the blackboard bearing the greeting—"Congratulations—ten years married." Whilst immediately beneath was a table ornamented with beautiful flowers artistically arranged, and filled with parcels delicately enshrouded in tissue paper. On behalf of the present Church Warden and parishioners Mr. Edwin Ruggles (who was Church Warden when Mr. Underwood first came to the parish and also when he brought his bride) then explained the object of the gathering and in a brief but felicitous speech asked the Rector and Mrs. Underwood to investigate the parcels lying before them, and to accept the contents with the united good wishes of the whole congregation for "Many happy returns of the day." The Rector was evidently quite moved and, for once, found himself quite unable to talk, getting no further than "On behalf of my wife and myself I thank you very much." The gathering then gave a hearty round of applause, thus relieving the strain.

Personal congratulations, the opening of the parcels, and the serving of refreshments were then in order, after which the singing of "Auld Lang Syne" and the National Anthem brought the proceedings to a close.

In connection with the "Surprise" we should like to say, we doubt if an event of the kind was ever carried out with greater success. The presentation consisted of a splendid variety of aluminum ware, together with a number of useful kitchen articles, all just such as a careful housekeeper delights to have.

TO GET RURAL TELEPHONES.

The Provincial Government has engaged the service of Mr. A. S. McMillan, warden of Antigonish County, to assist in putting into operation the Rural Telephone Act passed at the last session of the Legislature.

This Act provides that any community, now without telephone connection, may organize in a very simple manner and obtain connection with the nearest central exchange of the Maritime Telephone Company, by a payment of a switching rate of five cents per message. The Government will assist the enterprise by a bonus to the amount of twenty dollars per mile.

Mr. McMillan has had a considerable experience in telephone affairs, having been for some years the manager of the Antigonish and Sherbrooke line. He will visit any locality where his service may be demanded, and help the farmers to organize and take advantage of the new Act.

MADE-IN-CANADA EXHIBITION TRAIN

Western Farmers and Their Families Drove Many Miles to See the Exhibit

Enthusiastically greeted everywhere and visited by thousands at every stopping place en route, the Made-in-Canada train has completed its second tour of Manitoba, Saskatchewan and Alberta. The success of the tour shows that the people of Western Canada are not interested solely in their own agricultural products, a charge often levelled at them, but that they are also keenly alive to the great advantages Canada is sure to derive from her tremendous industrial expansion. Wherever the train stopped, addresses were presented by the local municipal councils, and Boards of Trade, and often the press of people trying to board the train was so great that they had to form in line and patiently await their turn.

The local band playing at the station as the train pulled in was of common occurrence, while at practically every place, outside of cities, a holiday was proclaimed covering the period the train was a scheduled to remain. Farmers and their families frequently drove long distances to the nearest point on the train schedule. At Gull Lake nine people drove seventy-five miles to the train, having commenced the journey on the morning of the previous day, while at Bow Island a family of five came by buggy fifty miles from the Milk River district at the boundary. Ponoka sent a carload far and wide, and when the train was in that town two hundred and eighty-four conveyances by actual count had come from the country. No class of visitors was more keenly interested than farmers and their families. They did not hurry through the cars of exhibits, but took time for inspection and asked many questions.

At Winnipeg Mayor Deacon expressed his views of the exhibition in the following words: "It is strikingly suggestive of the great opportunity there is in this country for industries that will make what Canadians require for their own consumption. The home market for cottons, woolsens, iron and steel goods, rubber goods boots and shoes, clothing of all kinds, flour and cereals, and other staple commodities is growing with marvellous rapidity in all parts of Canada but particularly in the Western Provinces, and every encouragement should be given any industry that seeks to meet that need. Here in Winnipeg and Western Canada generally factory life, though it has made great strides during the past ten years, is only in its infancy. There is no agency doing more to promote factory development in Western Canada than the annual visit of the Made-in-Canada Exhibition Train I would advise all citizens of the three Prairie Provinces to visit this exhibition should opportunity come their way."

Local shopping centres in the West left no stone unturned to take the fullest possible advantage of the visit of the Made-in-Canada Exhibition train.

In most places the residents endeavored, quite properly, to reap some advantage from the stop made by the train in their town. Probably the course which yielded best results was where the Board of Trade local council and business men combined in having circulars printed for distribution throughout the adjacent territory. This invariably resulted in bringing a very large number of farmers to the train, and incidentally is an excellent thing for local business, inasmuch as the visitors usually do a certain amount of shopping. This idea is carried out still further by local business men, who are wide awake to the advantage of representing goods which are exhibited in the Made-in-Canada train. In most cases the exhibits are sold locally by some merchants, and the fact that his cards announcing this fact to visitors was placed on the exhibit either by himself or the exhibitor, resulted in trade coming his way. In other words, this method of advertising is always effective. A great deal more, however, remains to be done along this line, namely, taking full advantage of the local trade that is sure to flow in the wake of the Made-in-Canada train.

Special pains were taken to impress the significance of the exhibition on the children, in whom are recognized the future citizens of Canada. In all centres outside the cities prizes were offered for the best essays on "The Industries of Canada, as seen from the Made-in-Canada Train." As a result many of the pupils were seen looking over the exhibits armed with note books and pencils, jotting down their impressions. In this connection the Canadian Home Markets Association, which organized the tour, have borne testimony to the good work of the teachers in preparing the pupils for the competitions.

Another feature of the train which created much interest was the moving picture outfit. Picture displays were given at all night stops, the industrial life of Canada being particularly emphasized in the films. The quaint old landmarks of Quebec, the commerce and manufactures of Montreal, orchards of the Niagara peninsula, surf bathing at Halifax, harvest scenes in Manitoba, Saskatchewan and Alberta were included. These thoroughly Canadian views were witnessed by thousands, and were much appreciated. In all 231,000 visited the train.

NOTED FINANCIER DIES AT MASSACHUSETTS STATE FARM

Bridgewater, Mass., July 22.—A spectacular career was ended under pathetic circumstances Monday when Cardozo F. King, once widely known as a financier and newspaper publisher of Boston, died a convict at the State Farm here in the very hour that his friends, aware of the approach of death, were making desperate efforts to obtain a pardon for him.

GATHERING OF NOVA SCOTIANS.

On Friday, July 21st, a large number of Nova Scotians residing in the twin cities of Port William and Port Arthur, Ontario, participated in a picnic held at Current River Park. Among those present were former residents of Halifax, Windsor, Hantsport, Wolfville, Kentville, Yarmouth and Cape Breton Island. Following the supper, typical of Nova Scotian hospitality, speeches and old familiar songs were indulged in, while "old acquaintances" were constantly brought to mind. The reunion demonstrated emphatically the clannishness which characterizes loyal Bluenoses residing outside their native province.—Ex.

The Great Programme For Halifax Exhibition

The Crowning Feature of the Great Fair will be Aeroplane Flights on a Machine for Two Men, one of Whom Drops With a Safety Pack While the Aeroplane is Moving a Mile a Minute.

The Provincial Exhibition Commission announces the opening of the seventeenth of its splendid exhibitions for Wednesday, September 3rd, and to continue for seven days thereafter. The record of the years which have passed will be surpassed at the forthcoming fair. Efforts have been made and will be redoubled to obtain a complete display of exhibits so that every department will have a highly interesting and instructive show.

The Horse Racing will, as previously, constitute one of the chief attractions of the Great Exhibition, and these speed competitions promise to be keenly contested. The horses in the Stake Races were named Tuesday last. The guaranteed amount in these races is \$2,400 and the purses for the whole meeting aggregate \$6,800.

The vaudeville programme will embrace ten distinct acts of varied interest. The great sensational feature will be the demonstration of the "Steven's Safety Packs." Harry B. Brown and Arthur Lapham enter the aeroplane and make an ascension. While they are speeding at almost a mile a minute Lapham leaps from the aeroplane and descends to the earth in a safety pack. Nothing like it has been seen in the province before. The fireworks display will be magnificent.

The attendance will likely reach large proportions, and Manager Hall has made arrangements for a Lodging Bureau to place visitors who may require its service.

During the summer months mothers of young children should watch for any unnatural looseness of the bowels. When given prompt attention at this time serious trouble may be avoided. Chamberlain's Colic, Cholera and Diarrhoea Remedy can always be depended upon. For sale by all dealers.

AMERICAN LADY WILL TRAIL THE CANADIAN WEST WITH INDIAN GUIDES.

Edmonton, Alta., July 21.—Miss Mary L. Jobe, professor of history in the Normal School of New York, one of the first women to set foot on Mount Sanford, the highest peak in the Selkirk range, will arrive in the west in a short time to visit the Athabasca or "carrier" tribe of Indians, along the Skeena and Peace rivers. The purpose of the expedition is to study the language, traditions, habits and ceremonies of the tribe, the only knowledge of which has been brought to civilization by trappers in the employ of the Hudson's Bay Company. Miss Jobe's itinerary includes a "hike" of four hundred miles over Indian trails in the country north and west of Edmonton, and she expects to be out two weeks. She will be accompanied by two Indian guides. The territory through which she will travel is into the practically unexplored regions of northern British Columbia and southern Alaska.

Many British M. P.'S on Their Way to the Dominion

London, July 10.—Canada seems to be well established as a happy hunting ground of the British Parliamentarians on a holiday. Last year something like a hundred members of the British Houses of Lords and Commons spent the autumn recess in the Dominion, and it looks as though this year's record would be almost, if not quite as good. An exceptionally early start is being made this year, thanks to the activities of the Empire Parliamentary Association. The Association welcomes to its membership Unionists and Radicals alike, and there is a happy blend of men from both parties in the company which leaves Liverpool for Canada on July 16th.

LORD EMMOTT OF THE MINISTRY

That rare bird in Canada, a British Minister, leads the party, the under Secretary of State for the Colonies, Lord Emmott, with Lady Emmott. Lord Emmott has been a welcome participant in recent Anglo-Canadian gatherings here and his official status as spokesman for the Ministry on Colonial matters in the House of Lords naturally gives weight to all he says. No member of the ministry is more enthusiastic than he is on the subject of what he calls the "untold possibilities" of Canada. I remember hearing a speech of his at the Canada Club in the early part of this year, when as an old business man he told his fellow business men of England that they ought to pay more attention to Canadian industries. Hitherto the British capitalist's first thought has been the provision of money for Canadian railway and similar enterprises. Lord Emmott pointed to the example of the shrewd men of the United States who found much personal profit and national advantage from the promotion of the industrial expansion in Canada, and added what is undoubtedly true that the British trader does not always take quite as long a view as he ought to take, and both as regards methods of sale and adaptability to the requirements of the country he is apt to lag a little behind the traders of one of our great commercial rivals—Germany.

After Lord Emmott has seen Canada for himself he will be better able to push this advice home on his friends in the English industrial world. He will, no doubt, find opportunities in Canada to develop another theme upon which he feels strongly, namely, the Universality of the Empire feeling among Englishmen of all political parties, and the rapidly with which Empire problems are finding a solution, thanks to the keen feeling of sympathy which animates public men on both sides of the Atlantic, quite regardless of their political persuasions. He is no believer in worrying over the absence of a really imperial Parliament and a really imperial administration. Let us get ahead with what we have, and in doing that we shall best prepare for a future in closer unity.

Two other peers are to be members of the party leaving here on July 16, namely, Lord Sheffield and Lord Castlemaine. Lord Sheffield was better known to a former generation in

England as Mr. Lyulph Stanley, and has done a great deal of useful public work in connection with educational and social administration. Lord Castlemaine is an Irish representative peer, formerly in the army, and the owner of some 12,000 Irish acres in County Westmeath and elsewhere.

TWO EX-MINISTERS.

Turning to members of the House of Commons who are to join the first Canadian party of the season, we see how happily they are taken from the various groups in the House. Each party supplies an ex-Minister. From the Unionist side comes the Rt. Hon. C. B. Stuart Wortley, who was for a good many years parliamentary under-secretary for the Home Department, and now occupies the highly responsible post of Deputy Chairman of the Committee of the House of Commons. He is also a director of the Great Central Railway, and will find much to interest him in the newer phases of Canadian development. From the Ministerial side of the House comes Mr. Thomas Lough, who is accompanied by Mrs. Lough, "Tommy" Lough, as everybody calls him, is a parliamentarian of no small importance. He made his money as a tea merchant and his parliamentary reputation as Secretary to the Board of Education. In recent years he has developed what must be called the cross-bench frame of mind and is now not infrequently found watching zealously lest ministers stray from the paths of Radical rectitude.

INFLUENTIAL BUSINESS M. P.'S.

Sir Joseph Walton is another Liberal in the party. He is an old traveller, member for the great coal-mining constituency of Barnsley in Yorkshire, and much concerned with the new China, in whose development he has of late years taken a considerable part. His only known recreation is Alpine climbing, and it is to be hoped that he will have a chance while passing through the Rocky Mountains to indulge in this form of amusement. From the other side of the House comes Mr. Norton Griffiths, intent upon his large Canadian engineering and other enterprises (and accompanied by Mrs. Norton Griffiths, Mr. Amery with his Canadian wife, a sister of Mr. Hamar Greenwood; Mr. Donald Macmaster; Mr. C. S. Goldman, a South African magnate, who now represents a mining constituency in Cornwall, which has sent so many of its people to the Rand (and with him Mrs. Goldman, who is a daughter of the late Viscount Peel, one of the famous speakers of the House of Commons in the Victorian era); Colonel Yate, M. P., (accompanied by Mrs. Yate,) a great traveller in the east and a former British representative in Afghanistan and elsewhere; and Mr. A. F. Bird, who made his money by Bird's famous custard, and is now member for Wolverhampton.

TEMPERANCE AND THE WORKING MAN.

An interesting Radical in the party is Mr. Arthur Sherwell, accompanied by Mrs. Sherwell, one of the guiding stars of progressive Radicalism. The liquor problem has been his especial study and he is recognized both in the House and out of it as a leading authority on Temperance Reform and kindred subjects. Mr. Hamar Greenwood is taking Mrs. Greenwood with him. Sir Arthur Priestly, another Radical M. P., is a member of a famous family of Yorkshire dress fabric manufacturers. Sir Stephen Collins (to be accompanied by Mrs. Collins) made his money as a stone mason and contractor and his public fame as a London municipal administrator. Mr. A. W. Black is a lace manufacturer of Nottingham, and to give a picturesque touch to the party Mr. Will Crooks is added. Not to know Will Crooks is to write oneself down a particular ignoramus in British politics. He is a Labor member for the great arsenal centre of Woolwich. He began life himself as a working cooper; then as a member of the London County Council fought the cause of the London working man in municipal affairs, and has made many a scene in parliament by his persistence and at times volcanic advocacy of the working man's point of view. His friends love him and even his enemies respect the vigor of his vocabulary.

This, then, is the somewhat kaleidoscopic parliamentary party that is to be visited include Ottawa, Toronto spend three weeks or so in Canada this summer. Two days are to be devoted to Montreal, and other towns Port Arthur, Winnipeg, Banff, Laggan and Vancouver. Seeing how representative of all sections this party is, it is a thousand pities that they cannot spend more time before proceeding to Australia and South Africa, where they are to be the guests of the parliamentarians of those Dominions.

SIR ALFRED MOND, M. P. Notable among the other members of parliament who are to find their

way to Canada during the parliamentary recess must be named Sir Alfred Mond. He is one of the richest members of the Radical party in the House of Commons, chief proprietor of the best of the London Radical journals, the Westminster Gazette, and chairman and chief monetary help of the Free Trade Union. His visit to Canada is chiefly concerned with the affairs of the Mond Nickel Company, of which he is chairman. Happily the company's operations in Canada are proving most successful, and Sir Alfred Mond has just been able to tell the shareholders of developments which should add greatly to the value of their holdings. For one thing the new smelting plant at Coniston, Ontario, is now running continuously and the Company have taken an option of another important property in the same district upon which Sir Alfred will report. Other valuable mining properties in the neighborhood of these they already possess have been bought and having as they claim, the finest and cheapest refining process in the world, Sir Alfred Mond and his associates mean to make hay while the sun shines, the international fever for increased armaments and the extended uses to which nickel is now being put in the industrial world.

THREE CHURCHES WILL UNITE AT COMMON SERVICE.

"Church Union," so much discussed of late years, will be given a trial tomorrow at St. Anne de Bellevue when the Congregationalists, Methodists and Presbyterians will assemble together in the schoolroom of St. Anne's for the first union service to be held on the Island of Montreal. Rev. Dr. Warriner and Dr. F. W. Kelley and a Methodist minister will take part in the service.

For some time past many at St. Anne have been endeavoring to arrive at some basis of union. A united service was attempted at the college, but failed. The Anglicans then offered the use of their church to other denominations. The new arrangement provides for the appointment of Rev. Norman McLeod as the union preacher. Mr. McLeod comes from Brockville and is a Presbyterian. When the congregation is organized on solid lines it will have the right of selecting a man from any of the three branches of religion to represent it. For immediate action the Union Congregation will build a hall and later will erect a church. Two services will be held tomorrow.—Montreal Star.

NEW FOOD IN FISH.

The United States federal fisheries bureau has given the world a new food fish, the cisco, which is now being caught in large quantities in Lake Erie, and which meets with ready sale in the markets of the large cities. The cisco is the result of three years' experimenting in crossing the herring and white fish. The new fish is very similar in appearance to the herring and its flesh tastes like that of the whitefish. It has the pungency of the herring, which means that it will be well able to take care of itself.

A. W. Savary, Esq., M.A., D.C.L., better known as Judge Savary, now a retired Judge of the County Courts of Nova Scotia has well fulfilled the promise to add a supplement to his History of the County of Annapolis.

The Supplement contains a map of the Counties of Annapolis and Digby, and several illustrations of Port Royal at different periods of its history from 1609 to the present time.

The Canadian Marksmen won the much coveted Kolapore Challenge at Wimbledon, Eng., this year, eight men making a total of 532 points.

Mr. J. W. Longley (now Judge Longley) writes an article urging the people of Annapolis County to develop their resources to a greater extent and calls attention to our mineral and forest wealth.

Some miscreant entered the stables of Warden Beckwith on the 23rd and nearly ruined a fine horse by cutting a gash across his hind legs.

One part of the Supplement which will attract close attention is entitled, "Further Remarks on the Acadia Question."

Diplomacy, in the present day, proceeds to a large extent on lines of truth and justice, but, in former times, it was too generally, even in the most enlightened nations, conducted upon the supposition that might makes right.

Note weekly changes in John Lockett & Son's adv. on page eight.

Remember "Uncle Tom's Cabin" at the Primrose Theatre tonight, and one night only.

The Bridgetown Band will give an open-air concert on the school grounds next Monday evening at 7.30.

Found at Lower Granville, a sum of money. For information apply at H. H. Anthony's store or to Mrs. J. S. MacKenzie, Lower Granville.

The date for the start of the Halifax Herald's auto tour has been changed to Monday, Aug. 4th, at 2 p.m. instead of Saturday, Aug. 2nd.

The Inglewood Giants will play base ball with the Bridgetown team at the trotting park grounds this (Wednesday) afternoon at 4 o'clock.

A game of base ball between the Middlesex and Bridgetown High Schools played here last Thursday afternoon, resulted in a victory for the Middlesex team—score 12-4.

The Tennis Club in connection with the Methodist Epworth League will hold an ice cream sale on Saturday afternoon and evening, in the store vacated by E. S. Piggott, Primrose building.

The marriage of Miss Hazel A. Williams, of Round Hill, to Mr. Lewis B. Dodge, of Kentville, will take place in St. Paul's church, Round Hill, on August 6th, the Rev. John Reel officiating.—Annapolis Spectator.

An excursion to Digby by S. S. Valanda for the benefit of the Cemetery Fund will be run on Friday, Aug. 15, leaving about 10 p.m. and returning by moonlight. Keep the date in mind and plan to enjoy this delightful outing.

A man from Port George was up before Stipendiary Magistrate John Irvin, Esq., last week, charged with fast driving and cruel treatment of his horse on the streets of Bridgetown on July 1st. The party was fined \$3.00 and costs, amounting in all to \$23.10.

A subscriber in Yarmouth County sends us the following appreciated letter:—"I sent you word to stop the Monitor, but thinking the matter over I cannot do without it for I want to know what is going on in Granville Ferry, my native home. I am sending you one dollar for another year. Please forward the paper to same address."

The death of Mrs. James Clerk occurred at the home of her son-in-law, Mr. Norman Rumsey, last evening at six o'clock. She was a native of St. John and the remains will be interred there for interment. Her daughter, Mrs. Rumsey, is at present in the Massachusetts General Hospital, slowly recovering from a recent operation at that institution.

A correspondent signing themselves "Reporter" sends a contribution of news to the Monitor this week from the eastern part of the County that we are unable to publish, not knowing the name of the contributor. We again call attention to the fact that we MUST know the names of those sending in news for publication. This is a hard and fast rule of every newspaper office.

Under its constitution the Maritime Board of Trade meets on Wednesday, 20th August. At its last meeting, held at Truro in August, 1912, an invitation was accepted from Newcastle, N. B., to hold its meeting there in August, 1913. The secretary is preparing the agenda paper. Boards that have not sent in subjects for discussion should formulate them as soon as possible. Arrangements are being made for the usual fare concession over railway and steamboat lines.

Work on the new steel railway bridge across the river was continued last Sunday, the men working from 6 a.m. to 7 p.m. The old beams and stangers are now being replaced with the new ones. The concrete work on the abutments was finished last week. The structural work is in charge of Mr. H. Vroom, of Deep Brook, who has had a long experience in bridge building all over Canada. It is expected the work will be completed in about two weeks.

Following the entertainment given here in the Primrose Theatre last week, a party consisting of Mrs. H. Ruggles, Mrs. A. R. Bishop, Miss L. Ruggles, Messrs. H. LeMoine Ruggles, A. Dodge, F. V. Young, F. R. Beckwith, A. Burns, G. Brown and F. Longmire, went to Lawrenceton on Wednesday and repeated the larger part of the County Recreation Hall Fund. Apart from the monetary consideration ample reward was received in the hearty welcome and generous applause accorded the visitors by the audience. The Lawrenceton Band kindly rendered selections outside the Hall and also during the entertainment, and the thanks of the Committee was voiced by the Secy-Treas of the fund to them, the donors of the hall (N. H. Phinney & Co.) and all who in any way contributed to the effort of the "Old Gossberry" to save the place from being made into a bit. The party were generously conveyed to and fro by Mr. Fred Bath and Mr. Norman Chute in their autos.

LOCAL AND SPECIAL

The Bridgetown Tennis Club will play a tournament with the Wolfville club at Wolfville on Friday and Saturday of this week.

The Canada Iron Corporation have closed their works at Torbrook Mines and Nictaux Falls for an indefinite period. Shipments of iron ore to Port Wade have ceased in consequence.

At last automobiles have legal toleration in Charlottetown, P. E. I. and vicinity. During three days of the week, Monday Wednesday and Thursday the auto has the running rights, the remaining four belonging to the horse and bicycle.

The large audience at the Primrose Theatre last Saturday evening thoroughly enjoyed the staging of little Miss Marguerite Murphy, five years old, who with her mother is visiting at Dr. Dechman's. Her sweet voice and childish ways completely captivated her audience.

In addition to the ordinary first Sunday-in-the-month services in St. James church next Sunday, viz., 8 a.m. Holy Communion and 7.30 p.m. Evening Prayer, a sermon and the sacrament of baptism will be administered at three o'clock in the afternoon.

The annual picnic of the Methodist Sunday School came off at Hampton last Saturday instead of Friday, the day first set, that day being rainy. The weather on Saturday was all that could be desired, and the large number of children and grown ups who attended the picnic thoroughly enjoyed the outing.

Mr. Avar-L. Beeler has entered his Overland car in the five hundred mile auto tour being arranged by the Halifax Herald. There are twenty-six entries and the cars will start from Halifax next Monday morning, Aug. 4th, at eight o'clock. It is uncertain whether the cars will pass through Bridgetown or cross to the south side of the river at Paradise.

It was a crowded house that greeted the performers at the Mock Court Trial in the Court House last Thursday evening. There were many local hits on prominent citizens and the audience was kept in an uproar throughout the performance. Col. Col. A. V. Newton, of Worcester, Mass., conducted the entertainment, and all connected in the affair carried their parts very creditably.

At the evening service next Sunday in the Baptist church the choir will be augmented by a number of voices and will sing Gounod's "Praise Ye the Father," one of this renowned composer's brightest compositions, and a ladies' double quartette will render Ambrose's "One Sweetly Solemn Thought." The pulpit will be supplied both morning and evening.

The funeral of the late W. H. MacKenzie which took place last Thursday afternoon from the home of his son, Arnold B. MacKenzie, was largely attended. The service at the house was conducted by the Rev. J. P. Duxan, assisted by Revs. B. J. Porter and N. A. MacNeill. The funeral cortege was headed by a large representation of Crescent Lodge, I. O. O. F., and the burial rites of the Order were read at the grave. The employees of MacKenzie, Crowe & Co. also marched in the procession. There were many beautiful floral tributes.

Letter of Appreciation

Dear Sir:—Kindly permit me, through your columns to thank, on behalf of my wife and myself, our friends who so kindly contributed to the very delightful surprise gathering and presentation in our schoolroom last night. As then, so now, I find it impossible to put our feelings into words. Let it then suffice to say that the brief sentence which I found it possible to utter last night after Mr. Edwin Ruggles' far too generous speech, expresses in a very small way what we feel. The years spent here—ten for my wife and thirteen for me,—have been truly among the happiest of our lives, and this has been entirely due to the great and continuous kindness of those amongst whom these years have been spent. Truly Yours, ERNEST UNDERWOOD. The Rectory, Bridgetown, July 30.

Death of Mrs. Louisa Allen

At the home of Rev. B. J. Potter, where she has been visiting since last October, Mrs. Louisa Allen passed away on Saturday night at the age of sixty-three years. She was born in Bermuda, and was the widow of the late Captain James R. Allen of Allendale, Shelburne County who died twenty years ago. The immediate cause of death was a stroke of paralysis. Her only son L. W., of Colorado, visited his mother a week ago. Beside him there are three step-daughters,—Mrs. Jas. H. Goodwin of New York, Mrs. Hope Sumners of Paris, France, and another one living in Australia. The deceased was a member of the Methodist church at Allendale, where a funeral service was held on Monday. The remains were taken to Allendale on Monday accompanied by Rev. B. J. Potter.

Mrs. (Dr.) Lawrence Braine and two children are visiting her mother, Mrs. W. Graham.

Mr. Horace Moore of Boston is spending his vacation with his sister, Miss Lizzie Moore.

Miss L. M. Henigar, Boston, and Mrs. Josephine Chute, Grand Rapids, are guests of Mr. and Mrs. Geo. T. Tupper.

Miss Ada Chute arrived from Boston on Monday last to spend three weeks' vacation with her parents, Mr. and Mrs. Scott Chute.

CLEMENTSPORT

Clementsport, July 26.—The railroad bridge, which spans the beautiful Moose River, is nearing completion and presents a very imposing effect as one views it from the various viewpoints from which it may be seen. This bridge, indeed, adds very much to the beauty of the river and will naturally have a great attraction for strangers visiting or pictures of the village as well as for the people who reside here permanently.

The farmers are very busy getting their hay which, we are glad to state, is a very good crop and of good quality.

Schrs. Mercetese and Bro. cleared from this port recently laden with wood and piling, ready fully, for Boston and Liverpool.

The prospect is that the apple crop in this vicinity will be very light, in some orchards there will only be enough for local wants.

We have had a very cool July, and one could slip under as many wraps during most of the month as in winter weather, unless extremely cold.

Judge and Mrs. Longley, who are stopping at present at Colonial Arms at Deep Brook, paid a short visit to friends in this village on Tuesday of last week.

Mr. Reginald Lockward arrived home from Havana recently, where he has been employed for some time as a branch of the Royal Bank of Canada.

Dr. Richardson, of Somerville, Mass., made a flying visit here on Friday of last week to see his numerous friends. He formerly practised here.

Cherries are quite plentiful here this year and of fine flavor and the people are enjoying this delicious fruit, by all appearances, at the best of their ability.

The ladies of the Baptist church here gave a tea recently in the Baptist hall for the repairing of the Mission Home. We understand they did well.

A number of our citizens attended the Guides' Association held at Millford, Annapolis County, on Friday last. They report a good time and a very pleasant outing.

We have been visited of late by several commercial men in the interest of their different lines, and as far as ascertainable, each received their share of patronage.

The tern schooner Emma E. Potter, which has been undergoing repairs during the last two or three months at this port, cleared from here laden with wood and piling recently for Boston. By the repairs put on her she has added many years to her duration and we hope will do well for her owners, who have endeavored to make her a good sea worthy vessel.

There is, at time of this writing, quite a number of tourists in the village spending the summer months and shunning the warm weather of the United States. You will permit me to remark that I truly believe that one could not find a better place for this purpose. And why I think so is because we have a beautiful cool air from the beautiful Annapolis Basin, scenery that cannot be surpassed, good roads, plenty to eat and drink and a very hospitable people.

PRINCE DALE

Princetale, July 26.—Rev. O. E. Steeves of Nictaux Falls, and Mr. Daniel Huley of Clementsvale, called at George Wright's Thursday.

Miss Ruth McCormick spent a few days with her sister, Mrs. Eustace Wright.

Master Dennis Wright spent a few days with her aunt at Clementsvale this week.

Mrs. S. A. Beck of Deep Brook, visited her brother, Edward Berry, this week.

Ileen Wright spent Sunday with his brother at Harbor View House, Smith's Cove.

Miss Emma Baird of Clementsvale, spent the week with her cousin, Miss Nettie Fraser.

Misses Lena and Lillian Brown of Ipswich, Mass., visited at George Wright's this week.

Messrs. William and Noble Dondale, Walter Dunn and Harry Sanford spent Sunday at Wakelee.

Peace

Peace on Earth! The general assembly of the Presbyterian Church, during its session in Toronto, passed a resolution of which the following sentences are the essential part:—

Further the Assembly, reaffirming all parts of the Declaration of Canada, eminently a land of peace, while expressing the love and loyalty of its people to His Majesty the King, and to the Empire of which we form a part, resolves to use every reasonable effort in our power both as individuals and as a body to secure the abolition of war and to bring about the glad day of peace on earth and good will to men.

This is excellently well worded. Its expression of loyalty to the King and to the Empire are well designed to save it from the imputation, generally cast on any peace advocacy, that it is treachery to the government. The resolution will be read in different ways by different people. Many will read into it, a call for the gift of battleships, many will read into it, a call for the creation of a Canadian Navy, others again will read into it a call to cease building armed vessels. Each will be sincerely convinced that his is the best way to abolish war, and bring about the glad day of peace on earth.

It would be entering the field of politics, and arousing enmity in their congregations, if the ministers read into it any one of these three interpretations. Theirs alone to preach the Christian doctrine of peace on earth on which the governing body is resolved to take action. Peace is a subject that one seldom hears referred to in the Canadian pulpit, though a year ago, the pulpits of the United States were ringing with it in response to Mr. Taft's assertion that universal arbitration could be achieved. We have the official opinion of the British Foreign Office, that any dispute arising between England and the United States could be settled by arbitration if the United States would agree to enter such an unrestricted arbitration treaty with Great Britain. We have the official opinion of the French Government that any and all questions of dispute that may arise between France and the United States can be settled by arbitration if the United States would agree to a binding arbitration treaty, Germany and Japan also went some distance toward signifying acceptance of Mr. Taft's proposal. Neither Sir Edward Grey, the Foreign Minister at Great Britain, who went so far as to draw out a treaty of unlimited international arbitration with the United States, nor the cabinet of Mr. Poincare, one of the greatest of French premiers, who took a like step, are people whose actions can be disregarded or called visionary. We think we are not over-stating the case when we say that according to the best authority, universal arbitration between civilized countries is today practicable.

The greatest hindrance to peace is probably that nations have not got over their greed for land and expansion, and do not see how that greed could be further satisfied after the establishment of courts of arbitration. When morality, education and health take the place of land grabbing as the ruling passion of nations, there will be little reason left for fighting. Canada has no direct control over British and Foreign affairs, nor has she any power over the foreign policy of the United States. An active campaign for peace vigorously carried on by the church in Canada could not help, however, but have the effect of greatly changing the attitude towards the question of both these nations, and would be a strong incentive to them to get together in the arbitration treaty drafted out by the British Government. Once they have signed up with each other, other nations will demand admission to the pact, and will be gladly accorded it. Let us have peace.

A GRAVES STORY

It is interesting to note that Mr. Geo. Graves had been selected to appear at the command performance at Knowsley Hall, Lancashire, held recently during the visit of the King and Queen to Lord Derby.

Mr. Graves tells innumerable funny stories. One of them is about an enthusiastic wife who was boring a friend with tales of her husband's cleverness.

"My husband is such a handy man about the house," she exclaimed. "He can do anything. Only the other day he took the cuckoo clock to pieces and cleaned it and put it together again. Now it runs as well as ever."

"Really," said the bored friend, "it goes all right again?"

"Yes, indeed," was the reply. "But we're a bit worried about the cuckoo; it will persist, when it calls the hours, in putting the 'oo' before the 'cuck'."

PLANS FOR PEACE CENTENARY

The Canadian Peace Centenary is now in a position to prosecute with vigor the program recommended to it by its delegates to the recent International Conference at New York for the discussion of methods of celebrating the hundred years of peace between peoples of the British Empire and the United States. These recommendations chiefly have relation to two important aspects of the commemoration, the erection of visible monuments and the establishment of educational influences looking to an increase in international good-will. With regard to the former, the general feeling favors numerous monuments of identical design on both sides of the frontier, in preference to a few very large monuments. It was held that the object was to set up emblems of good will in as many centres of population as possible. The educational efforts to be aimed at include the establishment of lectureships on Anglo-American history, based on the principle of interchange of professors; the employment of traveling scholarships to enable journalists and writers to visit various English-speaking countries, the awarding of prizes in schools, colleges and universities for essays on the hundred years of peace; the preparation of a history on the centenary of peace, from which text books and school books in the several countries may be prepared or revised, and an annual peace day celebration in the school.

ONE OF TWO EVILS

The Rev. Sylvester Horne, who is associated with the Whitefield Tabernacle, London, Eng., is numbered among the most eloquent of Nonconformist ministers. As a publicist also his pronouncements invariably attract attention, and he has met with gratifying success in the House of Commons.

When Mr. Horne was returned for Ipswich in 1910, he enjoyed the reputation of being the only active Congregational M.P. and in this connection he tells an amusing story against himself. One of his canvassers when going the rounds came across a workman intently studying the portraits of the two candidates.

"Well, what do you think of them?" asked the canvasser.

The workman merely shrugged his shoulders by way of reply.

"What candidates do you intend to vote for?" persisted the canvasser.

"Don't know anything about none of them," replied the elector, "but what I seen of them, I think 'Eaven as only one can get in."

HOME RULE BILL AGAIN DEFEATED

LONDON, July 16.—The House of Lords, by a majority of 238, for the second time in six months rejected the Home Rule Bill. The result was a foregone conclusion, but says the Daily News, (Liberal), it has nevertheless inaugurated a serious crisis between the two houses. On the one hand Lord Curzon withdrew what he understood to be Lord Lansdowne's promise of yesterday to accept the Home Rule Bill if a general election were won upon it. On the other hand, the Prime Minister in the House of Commons announced definitely that the Lord's Bill will be tabled at the next session. The challenge on both sides, says the Daily News is complete and uncompromising.

The importance of Lord Curzon's speech in the fact that for a whole afternoon he was in close consultation with Lord Lansdowne who drafted what appeared to be an ultimatum to the Government.

THE REFORM OF LORDS

NEW YORK, July 15.—A cable to the Tribune from London says: The latest political sensation is the Asquith announcement that the Government will next year bring in a bill to reform the Lords. There can be no doubt that this will set all the present peers preparing for a life and death fight. It looks as though the Prime Minister were going to bring in a bill for the formation of a new second Chamber and then dissolve and go to the country on it. The Cabinet has apparently been formulating plans for sometime.

Kidneys Wrong?

If they are you are in danger. When through weakness or disease the kidneys fail to filter the impurities from the blood, trouble comes at once. Backache, Rheumatism, Sciatica, Gravel, Diabetes, Gall Stones and the deadly Bright's Disease are some of the results of neglected kidneys. Dr. Morse's Indian Root Pills contain a most effective diuretic which strengthens and stimulates the kidneys so that they do their work thoroughly and well. Try

A MESSAGE FROM A WOMAN TO WOMEN

"Every Woman Should Take 'Fruit-a-tives'"

LAKELET, ONT., MAY 12th, 1911
"Kindly publish this letter of mine if you think it will benefit other women who might be afflicted with the diseases I have had in the past, but am now, thanks to 'Fruit-a-tives', completely cured. It is my firm belief that every woman should take 'Fruit-a-tives' if she wants to keep herself in good health."

Before taking "Fruit-a-tives", I was constantly troubled with what is commonly known as "Nerves" or severe Nervousness. This Nervousness brought on the most violent attacks of Sick Headache, for which I was constantly taking doctors' medicine without any permanent relief. Constipation was also a source of great trouble to me and for which the Doctors said "I would have to like medicine all my life", but "Fruit-a-tives" banished all these troubles and now I am a well woman!

LARGE CONSIGNMENT OF FOXES SHIPPED FROM WEST TO EAST.

Edmonton, Alta., July 21.—Two hundred and nineteen live foxes ranging from black silver to red crosses, valued at \$320,000, have been shipped from Edmonton to points in the provinces of Nova Scotia, Prince Edward Island, Alberta and New York and Pennsylvania since the opening of the season. The most valuable consignment, which went forward yesterday, consisted of ten pure black puppies, for which Kane Brothers of Brooklyn, N. Y., paid \$30,000. The animals were sent to Ogden, Penn., for propagation purposes.

Frederick M. Lee, president of the Western Fur Company, who recently shipped thirty-four foxes, valued at \$31,000, to breeders in Prince Edward Island, announces that he will not dispose of any more animals to eastern ranchers, having decided to establish a fox farm at Tess, Alta., where forty foxes are now domiciled. He said:

"Advices from eastern Canada are that prices of live foxes have decreased during the last thirty days. This slump is accounted for by large shipments through Edmonton from all over the northern country, between the Yukon and the province of Saskatchewan. There will be a reaction next fall, when prices will be higher than they have been during the last few months.

"Fur trappers in the north are reaping a veritable harvest now, as the foxes are easily obtained by digging the pups out of the holes before they have left the nests. After this month the young foxes will leave their dams and can only be caught singly in traps. This means fewer animals and higher prices."

Fish Hatcheries and Fish Food

Available Food Supply Must be Considered.

Some people have the idea that all that fishes require is water. Given a Providence will accomplish the rest. pond or lake or stream, all that is necessary is to put in a few thousand eggs or fry and a beneficent But no intelligent farmer would sow on soil not containing the plant food necessary to growth and fruition. Similarly, to ensure success in the introduction of fish fry, they must be known that food of the right kind introduced into waters in which it is not in sufficient quantity is present. Of this food, insect life forms, in fresh waters, the preponderating element.

For a number of years the Department of Marine and Fisheries has been carrying on the work of restocking and of introducing new species, on a large scale. The fish fry distributed in 1911 consisted (exclusive of salmon) of various species of trout and also of white fish and perch. Altogether 332,278,000 fry of these species were distributed. In view of what we know as to the requirements of fishes in the way of food, the question naturally arises whether, in this distribution, the available insect food was sufficient and of the right kind. Are we certain that the species of trout placed in a certain lake would find the right kind of food there and sufficient quantity of that food?

If the farmer, wishing to sow his seed, finds the soil poor in nitrogen food, what does he do? Everyone knows he sows a crop such as clover, that will give the soil the necessary nitrogen, or, by many of the known fertilizers he supplies the deficiency, whatever it may be. In fresh water fishery work the same methods should be followed. Associated with the fish hatchery there should be, if it is found necessary, an insect hatchery. When in fishery work, a stage of advancement equivalent to the present stage of advancement in agriculture is reached, we shall have the cultivation of the food of fishes carried on in conjunction with the hatching and introduction of the fry.—Selected from an address by Dr. C. G. Gorton Hewitt, printed in the Fourth Annual Report of the Commission of Conservation.

If you are a housewife you cannot reasonably hope to be healthy or beautiful by washing dishes, sweeping and doing housework all day, and crawling into bed dead tired at night. You must get out into the open air and sunlight. If you do this every day and keep your stomach and bowels in good order by taking Chamberlain's Tablets when needed, you should become both healthy and beautiful. For sale by all dealers.

An Amazing Verdict

A transaction occurred recently in a Philadelphia court which must have caused great astonishment as well as no little uneasiness among stockholders in financial concerns. An official of a trust company had stolen \$1,400,000 in cash and securities from the company. He absconded to foreign parts and by successful speculation so increased his holdings that he was in a position to refund what he had stolen. He then entered into negotiations with the trust company which led to his return and appearance in court for trial upon the understanding that complete immunity would be granted him in return for restitution of the funds he had embezzled. This was accomplished through the judge ordering the jury to find a verdict of not guilty. That he did this in compliance with the urgent plea of the trust company that it was the only way in which the concern could be saved, and great loss and suffering to depositors be prevented, was stated in the report of the proceeding in the dispatches. To an outsider this whole case seems an extraordinary transaction, and how it could be possible or how it could be compatible with anything like an observance of the requirements of the law, not to speak of the first principles of justice, it is difficult to see. But according to the Philadelphia "Ledger" the transaction was legal. The "Ledger" says: "Was there any thing underhand in this remarkable miscarriage of justice? On the contrary, it was entered into deliberately by the Attorney-General of the State the District-Attorney, and the attorneys in the case, themselves officers of the court. Nor does it appear that the transaction was illegal for Judge Hall points out that a statute enacted in 1909 specifically makes embezzlement subject to settlement. Embezzlement itself, states the Judge, is not a felony, it is a misdemeanor. So it seems the law holds out an invitation to dishonesty. It encourages trust officers to be recreant to their trust. 'Be not alarmed,' says the law in effect, 'if you have embezzled thousands of dollars, for you can effect a settlement with those despoiled by returning all or a part of the money. You can arrange to receive immunity from prosecutions.' The 'Ledger' speaks out strongly and firmly for the repeal of the law. It is a flagrant violation of the requirements of criminal justice, whether viewed from the standpoint of morality or of expediency. Its direct effect on the class of crimes immediately involved may become most serious; according to the 'Ledger' the bonding companies have become alarmed at the prospect of what this exhibition of immunity may lead to. But more important is the general moral effect. The spectacle of this wealthy rogue being given a clean bill of health by the court, while poor men are daily sentenced to long terms of imprisonment for petty stealing, is incalculably demoralizing.—Presbyterian Witness.

THE BABY NEEDS. Sleeping robes for babies in sizes up to two years are made of soft white wool elderdown, with satin ribbon bindings of pink, blue or white. They are shaped something like grown-up sleeping bags, with a hood over the head, and are excellent for the baby carriage, for the crib or for use on any occasion when the baby should be kept out of a draft.

Folding bath tabs made of rubber on light wood frames and used for babies, are especially serviceable for use in small quarters or when traveling. They are water tight. Nowadays little blankets for babies can be decorated with bears and bunnies, chickens and other objects of interest to small children.

Wooden pens, inside which a baby can play, safe from harm, are made of white enameled bars. In the center of each of the four sides is placed a group of cut-out animals,—cats, horses, dogs or squirrels.

A baby's bathrobe is made of coarsely quilted cheesecloth, on cotton wadding, with a dainty touch of color in the form of baby ribbon rosettes. Being of cotton, it is washable, yet it is thick enough to be really warm.

HOUSEHOLD HINTS.

Keep a bit of cut lemon near the sink and rub the faucets with it occasionally if you would have them bright.

If the oven is too hot after placing cake in it, set a pan of water beside the cake. It will keep it from burning.

Common floor wax rubbed on the surface of a scratched table will make it look like new. Polish with a soft dry flannel.

A very little boiled beef mutton or fowl once a day is sufficient meat allowance for a child old enough to eat meat at all.

When making apple pie the flavor is much improved and the apples will keep in good color if a few drops of lemon juice are squeezed over the apples just before the crust is put on.

Remove grease stains by saturating the spots with alcohol rather than benzine, as the alcohol will not leave the ring around the spots that is left by the benzine. Wash with cold water.

Nothing is more helpful in dusting polished floors than the absorbent broom bag, which can be purchased for a few cents or may be made at home from a piece of cotton flannel.

HATPIN GUARDS.

There are many devices for protecting the points of hatpins and the wonder is that so many thousands of women still go forth with points sticking dangerously out.

There are the useful little acorn-shaped guards which fasten firmly on the point of the pins and can be taken off in a moment, in fact, helping women to find the position of pins themselves, often very elusive, especially when one is unhatting in a hurry. To grope for them at their business ends is likely to result in a scratch, whereas the little guard is neatly found.

It may not be generally known that some score of women are in prison in Sydney, New South Wales, their offence having been the wearing of protruding hatpins and refusing to pay their fines on conviction.

The Home

DO NOT BE A FRETTER.

There is one sin which is everywhere underestimated and quite too often much overlooked in valuation of character. It is the sin of fretting. It is as common as air, as speech, so common that unless it rose above its usual monotone, we do not even observe it. Watch any ordinary coming together of people and see how many minutes it will be before somebody frets; that is, makes more or less complaining statements of something or other which most probably everyone in the room, or in the car, or on the street corner, it may be, knew before, and which probably nobody can help. Why say anything about it? It is cold, it is hot, it is dry, somebody has broken an appointment, ill cooked a meal; stupidity or bad faith has resulted in discomfort. There are plenty of things to fret about. It is simply astonishing how much annoyance may be found in the course of every day's living even at the simplest, if one only keeps a sharp eye out on that side of things. Even Holy Writ says we are prone to trouble "as sparks fly upwards." But even to the sparks that fly upwards, in the blackest smoke, there is a blue sky above, and the less time they waste on the road, the sooner they will reach it. Fretting is all "time wasted on the road."

Joker's Corner

"Father," said the little boy at the dinner table, "what is a suffragette?" "Well, boy," replied the father, "a suffragette is a being who has ceased to be a lady and is no gentleman."

The Old "Un"—"Pluck, my boy, pluck; first and last, that is the essential to success in business."

The Young "Un"—"Oh, of course, I quite understand that; the trouble is finding someone to pluck."

Old Lady (to beggar at door)—"What's this gilded paper? You'll have to tell me what it says, for I haven't my glasses."

Beggar—"Please, mum, it can you spare me a few cents?"

Smith is a young New York lawyer clever in many ways, but very forgetful. He was recently sent to St. Louis to interview an important client in regard to a case then pending in the Missouri courts. Later the head of his firm received this telegram from St. Louis: "Have forgotten name of client. Please wire at once."

"Client's name Jenkins. Your name Smith."

NOT PLAYIN'.

Pat, thinking to enliven the party, stated with watch in hand, "I'll present a box of candy to the lady that makes the homeliest face within the next three minutes."

The time expired, Pat announced: "Ah, Mrs. McGuire, you get the prize."

"But," protested Mrs. McGuire, "go way wid ye! I wasn't playin' at all."

IT WAS SAFE.

The captain of a merchant vessel gave an Irish seaman his spyglass, of which he was very proud, and told him to clean it carefully. Pat met with an accident during the cleaning, and went to the captain, asking: "Captain, will yez tell me if a thing can be said to be lost when one knows where it is?"

"Lost when one knows where it is?" said the Captain, "why, of course, not. How foolish you are, Pat."

"Well, sor," said Pat, "thin yer spyglass is safe, for it's at the bottom of the sea."

AN ELOQUENT SERMON.

The young pastor considered himself quite an orator, but he sometimes slipped up in his sermons where older and more experienced preachers passed in safety. He was preaching about the omnipotence of the Creator and wound up with the following flight of eloquence, which surpassed all previous efforts: "He made the mountains and He made the valleys. He made the mighty rivers and He made the babbling brooks. He made the giant trees of the forest and He made the grass. He made the elephant and He made the mouse. He made me and He made a daisy."

James C. McReynolds, who investigated the Tobacco Trust for the American Government, thereby bringing on quite a lot of things, says that just after he started practicing law in a small town down in Tennessee, a few years ago, a very stout hillsman came into his office one day and announced that he desired to sue a neighbor for ten thousand dollars damage.

"Two years ago," he stated, "he called me a hippopotamus."

"Two years ago!" echoed McReynolds. "Why didn't you sue him sooner?"

"Well, suh," said the injured party "until that there circus come through here last week I thought all the time he was payin' me a compliment."

NOT NOW.

A girl, a great lover of Nature, went to the seashore for a holiday, and, approaching a typical fisherman, said:

"Ah, sir, how well you must know the face of Nature, and know it in all its moods! Have you ever seen the sun sinking in such a glass of glory that it swallows up the horizon with fire? Have you not seen the mist gliding down the hilltop like a scepter? Have you never," she went on impassionedly, "seen the moon struggling to stake off the gap of the ragged, rugged storm-cloud?"

"No, miss," responded the fisherman. "I used to see dem things, but I'm on the water wagon now."

Dysentery is always serious and often a dangerous disease, but it can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has cured it even when malignant and epidemic. For sale by all dealers.

Thrills Galore for Crowds on Ocean Steamer

It was an exciting voyage across the deep that the "Pomeranian" reported when she docked at Montreal last week from London and Havre. There were fifteen days at sea, two days filled with dense fog and strong north west winds but that was the least of the events of the trip. There was a big dead whale that brought the passengers out on deck in a hurry, a shoal of porpoise in a merry battle with a thrasher, a pelican drifting sedately down the Gulf on a log, "monarch of all he surveyed," and a Hebrew passenger who fiddled night and day, through fog and shine. That makes a voyage almost without parallel in the annals of the port.

There was something doing all of the day over. Soon after the "Pomeranian" was well at sea she was notified by wireless to beware of the drifting relic "Gimmaric" reported here by the C. P. R. liner "Montezuma." Although she passed close to the place where the danger had been boarded, and the day was clear and bright there was no sign of the rusty hulk.

The next day the dead whale was sighted. It was a big fellow at least fifty feet in length. The huge head was floating above the blue, a sea gull or two using it for a rest while nature converted the mass into a dainty morsel for them. The "Pomeranian" reported the creature as it was a menace to small ships.

Then the fog came down—thick and steady. Four bergs loomed up through it at different times, but they were not monsters.

PELICAN RIDING ON LOG.

Over the port bow one morning after the weather cleared watch caught sight of a drifting boat with a man standing up in it, evidently waiting for rescue from a horrible death. He summoned the officers of the vessel. They agreed with him that it was a case for immediate assistance. The boats were got ready for lowering as the liner drew nearer the drifting craft. Suddenly the old skipper rang "Full speed ahead." Their horrible case of ship wreck at sea was a big pelican riding down the Gulf on a log about twenty feet in length.

The next day the porpoise and the thrasher had the fight. It was in the Gulf too. The thrasher had evidently gotten too friendly with the shoal of porpoise, and they were giving him a merry time of it when the boat passed. The finals in the struggle were not seen.

The climax of all the trouble was the Hebrew with the fiddle. He worked it ever time, and it groaned in desperation. Morning, noon and night, in fog and shine, whales or porpoise excitement, he fiddled away it got on the nerves of the officers, and it nearly drove the passengers crazy. But it made no difference to the musician; he played on as if he was delighting everybody with his strains. He left London playing the fiddle; he came into Quebec playing away.
