Montreal Stock Market.

SLIGHT ADDITIONAL RECOVERIES — SAGGING PROBABLE TILL AFTER BANK STATEMENT — CONSOLS 3-16 HIGHER.

Montreal, Sept. 20.

Opportunity to buy good stock at low prices was continued today, though not on quite so low prices generally as were yesterday and as were the features of all transactions on Monday. It is not likely that for a time at least any of the securities will regain their old form. Yesterday's recovery was a good one and points to higher values ultimately being restored, but all the conditions are against sudden or even rapid restoration of even the best stocks to their old place. Canadian Pacific, however, regained $\frac{1}{2}$, selling around 93, which agrees pretty well with the London quotation of to-day; 550 shares were sold; 92 $\frac{1}{2}$ was the lowest price today, and it was what was asked for more, while the offer was $\frac{1}{2}$ less. Gas, too, recovered up to the lowest of last week, one sale today being effected at 202. The closing demand, however, did not reach this, being 201 $\frac{1}{2}$, against offer 201. Royal Electric on a deal of no great amount recovered to 190 $\frac{1}{2}$, which is $\frac{1}{2}$ points in advance of its lowest last week, 186. Here, too, closing demand fell short of actual price and the closing offer was $\frac{1}{2}$ lower than this, being 189. Toronto Railway probably would have recovered more had the liquidation in it been somewhat less. It was well taken, and only big selling orders could have kept it so close to its yesterday's figures. Last week its highest was 110 $\frac{1}{2}$, today's its highest was 115 $\frac{1}{2}$, which was also the demand, $\frac{1}{2}$ less being the closing offer. War Eagle improved to-day, but the highest price still wants $\frac{1}{2}$ cents of its lowest price last week, while put and call closing War Eagle transactions being 327 and 320 tend downwards. Republic kept at the yesterday's level and wants 3 of the minimum last week's price.

Payne also wants 3. Montreal Street at 315 is also 3 points below last week's minimum. It is noticeable about the demand and the bidding, that not merely the latter, but the former, is a little less than the actual price got. Indecision of price move-

ment will likely continue till after the bank statement has been issued, when if the limits of legal reserve are further off and other features more favorable than last week, upward price movements will probably be resumed. Business today was of a fairly broad nature, but except in C.P.R. and Toronto Railway was not of so large an amount as it had been for the two previous days.

MORNING SALES.

Can. Pac.—425, 93. 75, 92 $\frac{1}{2}$. 50, 92 $\frac{1}{2}$.

RAILWAY EARNINGS.

The Canadian Pacific Railway Company's return of traffic earnings from September 7th to September 14th:

1899	\$565,000
1898	511,000
Increase	\$54,000

The Grand Trunk Railway system's earnings from 8th to 14th September:

1899	\$553,731
1898	488,840
Increase	\$69,891

STRAWS.

Fifteen cases of yellow fever and one death are reported from Key West.

At Kansas City, Mo., the cattlemen have taken steps to organize a cooperative live stock company to control the cattle trade.

Probably the immigrant rate from New York will be reduced from \$65.25 to \$62.45 to meet the Canada Pacific competition.

National Electric Co. has officially notified stockholders of an assessment of \$2.50 per share payable Oct 16. Books close Oct. 7 and reopen Oct. 17.

The Homestake Mining Company has declared the regular monthly dividend of 25 cents and a dividend of 25 cents extra, payable Sept. 25. Books close Sept. 20; reopen Sept. 26.

A new method of operating copper without so much timbering is reported as being a success. The Arcadian copper mine is successfully worked thus and at much less expense.

Cut rates to Memphis from Omaha allow packers to shave haulage charges to Arkansas and Southwestern States. This is one result of the freight war which is said to be affecting other fields as well as those where it originated.

On September 14 W. U. Telegraph sold at 89 $\frac{1}{2}$, on the 16th Leather at 12 $\frac{1}{2}$, their highest price for the year. Met. St. Ry. at 187 $\frac{1}{2}$, Glucose at 58, Pacific Man at 40 and International Paper at 27 $\frac{1}{2}$, reached a few days ago their lowest prices for the year up to date.

The demand for iron and steel is not being much impaired by rising prices. Foundries are busier than ever, and paying the prices asked by their furnace men and in consequence have to advance their values. Some steel car orders have been stopped, however, till prices are lower.

Leather (c.o.m.) has risen, it is said, because Ruther and Gross had bought 250,000 shares in it. Plans are being matured which will reduce the whole property to a 6 p.c. basis. Common stock will give up 40 p.c. of its holdings in condition that preferred give up its cumulative dividends.

MONTREAL MINING EXCHANGE.

CALIFORNIA ACTIVE — NOBLE FIVE
STRONG — MARKET BROADER AND
FIRM.

Montreal, Sept. 20.

There was a considerable revival in the volume of business transacted this morning. The trend of prices being upward, in some instances, this was quite noticeable, the most pronounced strength being in California and Noble Five, although in the latter instance no sales were transacted. There is to be a meeting of the shareholders of Noble Five on October 3rd at Spokane, when the question of incorporation under British Columbia laws will be discussed; it would, no doubt be satisfactory to all concerned that this should be accomplished.

California made a further advance to 15, it having sold yesterday at 13. The demand in this case was quite brisk and large blocks would no doubt have changed hands had not the sellers withdrawn as the price advanced. 2000 shares were sold at 15 and 13, sellers demanding 16 on the call.

Montreal-London was fairly active, although the price was not quite up to the mark, several 500 share lots finding buyers at 53, the highest price paid this forenoon being 54, but this was during the earlier part of the session.

Prices throughout the list are gradually working on to a trading basis. Slocan Sovereign was freely offered at 36, with plenty of buyers within a point of this figure; 1200 shares were traded in at the above named prices.

Deer Trail No. 2, for a block of 5000 shares, sold for 23, and Rathmullen for a like sale of 5000 shares sold for 8. A broken lot of Golden Star changed hands at 40. Buyers, however, were scarce for this stock. Mr. T. G. Blackstock informs us that no official action has so far been taken in regard to the flotation of the Centre Star property. "No action will be taken until the question of power is decided upon" he says. In all probability a new power plant will be installed, as the electric power plant at present in use on the War Eagle is taxed to its utmost capacity.

The remaining sales were made in Rambler Cariboo and Old Ironsides, the latter selling for 500 shares at 110, and the former at 48 and 48. The market had on a much steadier appearance, and looks to us to be in a much healthier state. The basis for operation is also more accessible as orders are more plentiful.

Fresh reports of new discoveries are to hand from the North Fork of the Kettle River district on the Diamond Hitch and Mammoth properties.

There was a unanimous welcome accorded to Mr. Percy Taylor by the members on his reappearance on 'Change this morning, he is the first of the members to return from the West.

MORNING SALES.

Deer Trail No. 2—5000, 23.
Montreal-London—500, 54. 1500, 53.

NEW YORK EXCHANGE.

FEATURE TO-DAY WAS GAMBLING IN B. R. T. — MARKET THEN BECAME NERVOUS AND WEAK — RATES DISCRIMINATE AGAINST NEW INDUSTRIALS.

New York, Sept. 20.

The market in London is fairly steady and temporarily, there seems rather less alarm over the Transvaal situation.

The strongest stock in the market list is So. Pa., which is selling at 56½. Presumably this activity is due to a story published in this morning's papers to the effect that the Crocker estate has disposed of the whole of its So. Pac. holdings to Speyer.

Yesterday's market showed considerable strength until the last half hour, when the whole list yielded with comparative ease. It was thought that an operator who has been quite aggressive on the bull side sold out a large line.

Pressure was especially noticeable in B. R. R. and it closed heavy.

There is no change in the financial situation, the feature is the discrimination on the part of the banks against the new Industrials; this discrimination is now so marked that many commission houses are refusing to buy these industrials except for cash.

Such a policy is wise and conservative, and it is to be hoped will have the effect of checking the crazy speculation in the securities of the company, whose earning powers are still problematical.

New York, (noon), Sept. 20.

In the first five minutes today there seemed to be considerable pressure to sell. As soon as the selling orders were filled the market showed considerable strength and enjoyed quite a sharp rally. London houses sold about 20,000 shares during the first hour. Commission house business was rather small and the bulk of the trading was in B.R.T. and was between professional operators on the floor. The gambling in this stock is the heaviest that the Street has seen for several years.

It is not an uncommon thing for a block of 3000 shares to change hands at one figure. In fact today one floor operator sold another floor operator 5800 shares at 79. It is said that Mr. Keene is depressing the stock while support comes from the Wormsers and to a smaller extent from Flower & Co. All sorts of theories are advanced to account for these tremendous transactions one story being that one of the largest speculators in Flower & Co.'s office is closing out his line and using Keene Brothers to do so.

The sharp fluctuations in B.R.T. created a feeling of nervousness all over the market, and considerable liquidation made its appearance after the first hour resulting in a lower range of prices all round.

It is said that a good many commission houses are insisting on customers either taking up the industrials which are being carried for them or else to sell them out. This policy is due to the increased discrimination on the part of the banks against the new industrials.

P. O. was decidedly heavy. It is said Chicago authorities intend to make a material increase in the taxes.

Money rates remain unchanged. There still continues to be a difference of 2 to 3 p.c. on rates on railroad stocks and rates on the industrials.

MINING NEWS.**PRINCESS MAUD.**

(From the Republic Miner.)

The showing in the Princess Maud winze is simply magnificent. A representative of The Miner was in the winze Thursday afternoon and at that time the ore body was about four feet wide and apparently gaining in magnitude. It had widened about a foot in two or three days. The ore body is clean and well defined. The hanging wall separates from the ore and is very regular, but the foot is more "frozen", stringers of quartz running out into the country rock. The vein is straightening to a marked degree, having changed perceptibly in the last ten feet. There is now a pay streak of fully twelve inches of ore on the foot wall with bunches or bands of rich ore all through the main body. The high grade ore can be readily distinguished from the other by the black spots of sulphide and silvanite, by which it is marked. Some of these sulphide spots are as large as a pea, and a number of these are grouped together in places. The quartz is a clear gritty steel white; it also has a white ground with a steel cast. No more beautiful quartz was ever seen in any mine.

A FINE PAY CHUTE.

There is no longer any doubt about the fact that the Princess Maud has a rich pay chute. The winze is now down about 40 feet and its bottom is about 250 feet from the surface of the claim. This is a respectable depth and below the point of usual surface disturbance. The fact that the vein is straightening indicates permanency, and the further fact that the ore body gained a foot in width in two or three days indicates that the chute is a large one. The uncertain quantity is its length, and this can not be determined until drifts are run both north and south.

The continuance of the ore to an unlimited depth is now practically assured and as the values are known to be high the Princess Maud is in a very fair way to become one of the foremost mines of the camp. Both day and night shifts are now at work and a fine lot of quartz is being raised every 24 hours. An ore house has been erected and other improvements about the mine have been made.

GETTING READY TO SHIP.

The higher grade ore is being sacked for shipment and several tons are now ready. The medium and low grade ore will be reserved for local mill treatment. A car will probably be sent to the Trail smelter, as it can be hauled in wagons to Grand Forks at reasonable expense and shipped over the C. P. R. Should the present favorable conditions continue to exist, no doubt a compressor and hoist will be put on the property in a short time, as these can be purchased with

the returns from the shipments of high grade ore.

No event in the camp during the past few months has had a more stimulating effect than the strike on the Princess Maud. The stock has had many ups and downs and is very widely distributed. Another splendid proof has been furnished of the value of deep mining.

Victoria papers are booming the "Three W's" group of claims near the headwaters of Granite Creek. They say the vein is but 14 inches wide on the surface, but can be traced up the mountain for a distance of 1200 feet. A tunnel has been run in for a distance of 130 feet, and a winze sunk to a depth of 50 feet, while the ledge has been trenched at various points on the surface. Several trial shipments of ore have been made to the Tacoma smelter, the return averaging \$135 per ton. At various points along small shutes of most phenomenally rich ore have been met with.

Mr. William J. Harris, who derived \$500,000 as his share of the profits of the sale of the Le Roi mine to British investors, is the representative of the English-Canadian Development Company, which is operating the group.

CHICAGO MARKET.

INVESTMENT BUYERS OF WHEAT APPEAR ROUND THE 70 MARK — PRESENT PRICES DO NOT ATTRACT THE RESERVES — STRONG WHEAT OPENINGS.

Chicago, Sept. 20.

It has been noticed that as the market approaches the 70 cent level for wheat several well known investment buyers make their presence felt. The inference from this is that at present prices wheat is, in the opinion of those most able to judge, a profitable investment and that the market cannot be depressed below 70 cents per bushel for any length of time. These prices, however, are not sufficient inducement to bring out the vast reserve supplies which accumulate every day. They must be reduced to supply the export demand and they will come out whenever this demand and the home demand are accompanied by better prices. Of the 39 million bushels of visible supply, Chicago has 6½ millions, New York 5½, Duluth 5, Minneapolis 4½, St. Louis, Kansas, Toledo over 2 million each, etc., and Montreal 142,000 bushels. Liquidation by Barrett of 2 or 3 million bushels of wheat for the Pillsbury account was reported this week as putting wheat a little lower and on the other hand 23 loads having been taken for export. Closing cables were not at all unfavorable, but traders at New York and elsewhere are said to be afraid of manipulation at Chicago. Liverpool cable this morning gave wheat ¼ higher, though inactive; corn ¾ higher, affected by American advices. Wheat opened better than other classes of grain today, May wheat 73½ was ¼ higher than previous close; Sept. wheat 71½ was ¼ higher and though December wheat at 70½ was the same as yesterday's close, this opening was followed by some active trading on higher levels. Corn, while not opening higher than the previous close, indicated a tendency towards higher ground, the May, Sept. and Dec. varieties opening at 30½, 34½, 39½. The accompanying table gives openings in oats and in provisions. Local demands keep business running on, but they do not prevent inactivity.
