## ALL EUROPE MAY BE AT WAR TODAY BRITAIN FACES GREATEST CRISIS IN 100 YEARS

### WHY WE, TOO, MUST FIGHT

If England is drawn into the maelstrom of what promises to be the most gigantic war of history, Canada will have to go in, too. There is no other course open to us; nor would we want any other. England is our mother country, the land of the free political institutions which we enjoy, of social reform, the home of men and women who would like to see and help to bring about the Reign of Peace.

If we go gladly we do not go willingly or without protest. We go because of duty, most of all *because of a growing conviction that the military machines of Europe associated with hereditary autocratic rule must be smashed once and for ever in order to give civilization a chance to help in the work of uplift to all the nations submerged by these awful war machines of the past and that have been so strengthened in these latter days!* Feudalism must come to its inglorious end.

England is the one hope of the race in Europe as against the kaisers, the czars, the sultans and their blood-lust machines—made out of that same down-trodden humanity that their rulers profess to lead and defend! The war-lords would have England off the face of the earth.

The Kaiser believes and consecrates his best energy to the end that Germany ought to be highly organized industrially, educationally and economically, in order that the military machine of which he is the hereditary, and he believes himself to be the divine head, *may be further strengthened and organized in its efficacy for human slaughter!* And what is true of him is true of all the rest. Autocratic rule of nations by a few is their mission. And by a murderous military machine and system!

The people of the British Empire have got past all that; and we think and try to live up to the idea that *a country and a nation ought to be organized, educated and reared in religion, in order to improve the lot of the millions of our race who find themselves submerged by centuries of misrule under these self-constituted sons of the Almighty!*

If one of these great machines can be smashed in Europe it means a new era for mankind and a New Christ. The mass of the people of Germany are ready for the Year of Jubilee if it can be brought about. We have no quarrel with the German people. But apparently in no way can the chance come but by war. It may be the unwished for destiny of Britain to bring it about. If so, it is our destiny, too, and we must not flinch from it.

But if by the aid of Britain's ships and her navy, by her army and by the help of her sons in the great dominions, even the German navy can be smashed, *we must all take our share and help to smash it forever.* For years, now, we have been menaced by the peril of these fighting machines. The people under them, if given clearly to know what we have at heart—their liberation as well as ours—will help in the work. It is the Last and the Greatest Emancipation.

We may be lined up with Russia, which is many degrees worse than the German system; but if the German machine is broken, the others, too, will have to go, and freedom and social regeneration will come to humanity at large, and come at last.

For this reason, and in this hope, if the war clouds burst *there is nothing for us as Canadians but to cheer and to fight for England to the end!*

### ULTIMATUM TO FRANCE AND RUSSIA

LONDON, Saturday, Aug. 1.—A despatch to The Daily Telegraph from Rome says a rumor was in circulation in Rome last night to the effect that Germany had sent an ultimatum to both Russia and France.

There is no confirmation of this rumor and the rumor published by the Exchange Telegraph Company, but it is significant that the official agency at Rome, while repudiating responsibility for circulating these rumors, does not specifically deny them.

### BRITAIN WANTS AID FROM CANADA

Sir Robert Borden Hurries to  
Ottawa to Attend Conference  
at Which Message  
From British Government  
Will Be Received, Asking  
What Canada Could Do if  
War Broke.

That the present European situation is very critical and the most serious that Great Britain ever has had to face, was the assertion last night of Sir Robert Borden, premier of Canada, who spent several hours in Toronto en route from Muskoka to Ottawa, where he was summoned to confer with government officials regarding the Dominion's attitude should a general European war be declared.

Although the premier declined to discuss the situation to any extent, he was of the opinion that the crisis would be reached today in a declaration of war. "It is doubtful if Europe ever has faced as serious a time as the present," said Sir Robert. "I do not know what the outcome of my conference at Ottawa will be, but we expect a note from the British government Saturday asking us what attitude Canada would take in the event of a general declaration of war by Great Britain in the present trouble."

"What our answer will be, I cannot state, but the consideration was of such importance that I necessarily was present before the communication was received."

The premier, who was accompanied by W. B. Northrup, M.P., arrived in Toronto on the C. N. R. Muskoka train at 8 P.M. After dinner at the Royal Canadian Yacht Club, he left in his private car, attached to the 11 o'clock C. P. R. train for Ottawa.

### SOCIALIST CHIEF SLAIN IN PARIS

Jaures, Leader of Party in  
France, Shot While  
Sitting in  
Cafe.

Canadian Press Despatch.  
PARIS, July 31.—Jean Leon Jaures, the socialist leader in the chamber of deputies, was assassinated today.

M. Jaures was sitting in a cafe when a young man entered and fired several shots at him. Two of the bullets took effect in the head of the socialist leader and he expired in a few minutes.

### HIS CAREER.

Jean Leon Jaures, the murdered leader of the French Socialists, was born in Castres, France, in 1859. He was elected member of the chamber of deputies in 1885, and has remained a member for Paris since that date. He was editor of Le Petite Republicain, and author of many books. Social science and economics were his chief studies. He was professor of philosophy at Aite and Toulouse Universities. A Socialist in politics, he was opposed to the reactionary policy of former Premier Briand and equally hostile to the ultra-revolutionary tactics of Gustav Herve, and the materialistic conceptions of Paul Lafargue. He was a protagonist of Eduard Bernstein during the revisionist controversy, and also opposed to Karl Marx, Friedrich Engels and August Bebel, he was their staunchest friend during the bitter struggles that followed the inauguration of the Bismarckian government of Germany.

True Friend of Toller, he was the most sincere advocate of the French workingmen's cause. Strange to say the syndicate revolutionaries fostered a hatred for him because of his attitude towards parliamentary government and many attempts had previously been made to murder him. He was chosen to lead the French Socialists at the international Socialist congress which convenes in Vienna next week. He advocated world peace, industrial co-operation, complete free education and public ownership of industries.

### Britain and France Are Engaged In Final Effort to Avert War Russia and Austria Negotiating

#### FINAL EFFORTS FOR PEACE

Canadian Press Despatch.  
LONDON, Aug. 1.—An extraordinary council of ministers held at Peterhof, according to a St. Petersburg despatch to The Times, was confronted last night with a modified situation, resulting from assurances by the German ambassador following upon messages exchanged between the Russian emperor, the German emperor and King George.

PARIS, July 31.—France and Great Britain are making a final effort to find a way out compatible with the dignity and interests of both Russia and Austria. This is why Premier Asquith postponed making a further declaration in the British Parliament today.

ST. PETERSBURG, July 31.—Great Britain is making a final effort to find a formula acceptable to the antagonists, but there is little hope of success, owing, as is announced here, to Germany's attitude.

#### The Financial Situation

### DOORS OF LAST BANKING ACT TO BE SUSPENDED IN BRITAIN?

After a Period of Hesitation

Bank of England Will Pay

But May Be Forced at  
Any Moment to Alter

Canadian Press Despatch.

NEW YORK, July 31.—The vast and complex machinery of the securities of the world came to a complete halt today for an indefinite period. It was an occurrence unprecedented in history.

With all Europe seemingly on the verge of war, the Continental exchanges closed several days and the London market following suit today, the New York Stock Exchange would have been called upon to bear the weight of the world's financial burdens. It has virtually done so all the week, for while the London market was open, transactions were only nominal. The unloading of stocks here by panic-stricken Europe during the last four days and the consequent collapse of prices made history in Wall street.

Would be Hazardous.  
To continue longer to bear the burden, in the opinion of the bankers whose influence determines the course of events in the street, would have been hazardous in the extreme. After a period of hesitation and extreme nervous tension, it was decided ten minutes before the hour set for the beginning of business today that the exchange would not be opened. That

### TWELVE HOURS IS TIME LIMIT

Germany Said to Have Made  
Peremptory Demands on  
Russia and  
France.

Canadian Press Despatch.

PARIS, August 1.—The Mat. in makes much of the despatch from Rome relating to Germany's alleged demand on Russia and France. The despatch says that The Giornale D'Italia publishes two despatches circulated by an Italian news agency that Germany has given France twelve hours in which to declare her neutrality, and that a similar ultimatum has been sent to Russia, setting the same time limit, to cease mobilization.

The ultimatums expire at noon Saturday.

Peace of Europe Hangs on  
Slender Thread and En-  
deavors Will Probably  
Prove Futile—Russia De-  
fies Germany by Con-  
tinuing Mobilization—  
Veil of Mystery Hangs  
Over War Zone.

Canadian Press Despatch.  
LONDON, July 31.—In the desperate situation there are only two factors tonight, giving the faintest hope of averting a general European war: First, Russia and Austria are engaged again in direct negotiations. Second, both Great Britain and France are using their utmost endeavors in favor of peace.

Other hand, Russia has declared a state of general mobilization, which is undoubtedly a prelude to, if it does not cover, mobilization.

France has not yet mobilized, but at cabinet councils which sat until late at night, decrees were issued establishing a moratorium (general suspension of business), and taking other action which could only be determined upon the eve of war. Unofficially, the French army is being virtually mobilized.

Startling Rumors.  
A very circumstantial, tho as yet unconfirmed, report published in Rome says that Germany is about to demand from both Russia and France the immediate cessation of mobilization. Yet another rumor has it that the German ambassador has notified the French Government of his early departure.

Great Britain is practically, tho not officially, mobilized, and the smaller European states, as a precaution, have ordered the mobilization of their armies—Belgium, Holland and Switzerland to protect their territory from being used as a highway for the belligerents—Norway, Sweden and Denmark to guard themselves on g principles.

Italy Makes Ready.  
Italy makes no announcement, and altho a rumor credits her with the decision not to participate in the struggle, there is little doubt that she is making ready by mobilization.

Communication across Europe has been cut off, and there is a universal application of the censorship, with the result that it is impossible to obtain any accurate knowledge of what military operations are going on in Serbia. In short, all the European nations are becoming isolated from each other by railway and telephone. Many American travelers have been held up by the suspension of international trains.

### RUSSIA'S REPLY TO GERMANY IS A GENERAL MOBILIZATION

Believing Germans Were Purposely Delaying Official Notice  
of Mobilization to Place Russia in Inferior Position, Or-  
ders Were Given Late on Thursday.

Canadian Press Despatch.

LONDON, Saturday, Aug. 1.—The correspondent of The Times, telegraphing from St. Petersburg, says:

"A general mobilization has been ordered. Never within living memory has Russia lived thru a day of such emotion. The government decided on mobilization late Thursday. This step was forced upon it when it became apparent that the Germans were purposely delaying their official notice of mobilization in order to place Russia in a position of inferiority. To have hesitated longer would have been to court disaster."

A despatch to The Times from Paris reports that the Germans have seized French locomotives at frontier points and torn up the permanent railway line at Pagny, in the department of Meurthe-Mosel, where guns have been placed in position.

# The Wall Street Pirates at Bay!

The deal held out by Wall St. fell short yesterday, New York was to be shown to be the true money centre of the world, and to prove this the stock exchange was to be kept open in the American phrase, until "hell freezes over." It was a fine operation as long as the public could be squeezed for funds to supply margin differences, but when it commenced to cut into the vitals of the home brokers it took on a different look. Three New York Exchange brokers fell by the wayside yesterday, and a hurried call was issued to close the market.

What a fine sentiment is expressed in the following, a special despatch to The Toronto Globe yesterday, of a conference held after the exchange closed on Thursday afternoon at the offices of J. P. Morgan and Company:

Members of the conference declared that the closing of the New York Stock Exchange, discussed in some quarters in the street, was unthinkable so long as there remained a single person ready to buy stocks that might be offered. "There is absolutely no reason for closing the stock exchange so long as there are any buyers," said one of the conferees. "What has happened in London is not that the exchange has closed, but that there are no buyers."

Of course there was no reason to close the exchange as long as there were buyers. Poor London ran out of buyers, but nothing of this kind could happen in New York!

And again listen to this, a special despatch to The Toronto Mail, from Mr. Morgan's organ, The New York Sun:

By following its normal and customary courses Wall St. has given a wonderful exhibition of its own intrinsic soundness and made a convincing demonstration of the fundamental strength of the American economic structure. It has maintained its position which at all times even at the worst period of today's securities could be bought or sold, even though as had to be expected, sellers had to make sacrifices under the circumstances which Europe's crisis had created.

These are things which must be remembered in Wall Street favor whenever the annals of the present disturbances are consulted. From the above one would be led to believe that Wall St. was a philanthropic institution. The market had been kept open since it is admitted that sellers had to make sacrifices and favorably remembered in history. Undoubtedly Wall St. will be remembered by its poor dupes, but that it will be with "favor" is scarcely likely.

# DOMINION CABINET IS CALLED FOR A COUNCIL OF WAR TODAY

Steps to Be Taken by Canada for Participation in Conflict Will Be Discussed—May Later Detain Austrian and German Reservists—Can Rally Hundred Thousand Men.

By a Staff Reporter. OTTAWA, July 31.—While waiting for the final word regarding the appalling war in Europe, which now seems past prevention, the feeling in the capital is very tense. While some felt there was still reason to hope that Europe is about to be probably the most terrific in all history. In militia circles a diplomatic conversation was taken only as a means of the German and Austria of attaining a greater state of preparedness before they actually strike.

The prime minister will be back in the morning and probably Col. the Hon. Sam Hughes, a cabinet meeting has been called for 11 in the morning and the latest developments will there be discussed and any steps that should be taken by Canada in the way of action or preparation.

The question of preventing the Austrian and German reservists from leaving Canada to go home and join their colors has not been discussed officially, but it is possible that it may be. Such action could only be taken in the event of war with these countries.

In such case the authorities would have the right to hold these people as being citizens of a hostile country. The number and location of the reservists of the various countries in Canada is fairly well known to the militia department through its intelligence branch. In case of a general war it is believed that many thousands of Germans and Austrians would return. General orders have been sent out to all reservists of both countries to hold themselves ready to return, according to word received here.

The Austrians and Hungarians, or the Austrians, Galicians, Hungarians and Ruthenians, as they are classed by the census report, would go back in far greater numbers than the Germans, for while the total population in Canada of German origin is about 410,000, many of these are of the

after London and other responsible markets had closed is estimated to have put \$200,000,000 of outside money into the pockets of Wall St. wolves. Toronto alone is believed to have contributed well over \$1,000,000 during the week to aid J. E. Morgan and others in their donations to charity. It is the belief of many that half the huge sums taken in by Wall St. has been so much "clear profit" and that stocks supposed to be owned in part by outside buyers are nothing more than book entries on brokers' books. Wall St. has had a hard time of late to get the public's money, but the two recent awful days for clients should satisfy the capacious maw for a while.

The World believes that Wall Street is a rat hole for the millions and millions sent to it from all over the United States and Canada, and that the so-called investors are up against a gang of trained and highly organized pirates who steal most of this money. In other words, we do not believe that sixty per cent of the stocks alleged to have been bought on orders from clients and supposed to be carried by loaning concerns were ever bought, or if bought were sold the next day; and in either case the broker simply calls and calls for margins as the market drops and puts the money in his pocket! If stocks rise he borrows enough shares to satisfy the occasional doubting client. The broker knows sooner or later the stocks will fall and the client will be at his mercy for more calls. And the fool client sends the margin!

This thing has been going on for forty years and in that time every section of the people of America have been robbed of untold millions. It is this stolen money that has maintained these pirates in all their sumptuousness and high living. For the last few months the pickings have been few, the killing this week must have far exceeded a hundred millions. Most of this money went straight to the brokers' pockets. He paid little of it to "banks carrying the stocks."

Now that the New York Stock Exchange is closed the president of the United States should order an audit of Wall Street, on behalf of the clients whose money has gone to the brokers, to find out if the stocks are really there. Nor should Wall Street be allowed to open until this is done. The greatest story of loot the world ever knew would in all probability be disclosed.

In the meantime Canadian banks and Canadian law should seek to put an end to the ruin that has come to thousands and thousands in Canada by this system of sanctioned brigandage headquartered in Wall Street!

second and third generation. The Germans arriving in Canada since 1900 numbered only 35,000. These whose origin is Austria-Hungary number 200,000, all but 15,000 of whom have come since 1900. The immigration of these people in the last three years in fact has been 75,000. According to the census of 1911 they numbered 123,000, distributed as follows: Saskatchewan 41,000; Manitoba 33,000; Alberta 25,000; Ontario 11,000.

The Only Difficulty. If Canada is called on to send men to aid the imperial forces, the only trouble will be in getting properly qualified officers and sufficient equipment for the men who would be ready to go. It is believed from the numerous offers that he comes in that fully 100,000 men could be sent over. At present, however, it is said, that barefoot men with no equipment, but plenty of rifles and ammunition, but not enough of other equipment.

The first force that would be called out would be in getting properly qualified officers and sufficient equipment for the men who would be ready to go. It is believed from the numerous offers that he comes in that fully 100,000 men could be sent over. At present, however, it is said, that barefoot men with no equipment, but plenty of rifles and ammunition, but not enough of other equipment.

Col. the Hon. Sam Hughes will go to Quebec Sunday or Monday look after the defence preparations there.

Czar's Fleet of Aircraft Installed With Wireless of Great Carrying Power, and Each Capable of Carrying Crew of Ten—All Prepared Secretly, and Equal in Number Those of Germany and Austria Combined.

(Special Copyrighted Despatch to The Toronto World.) LONDON, July 31.—The universal European war wave we have been hearing about has come. This is it, said Godfrey Isaacs, chairman of the Marconi Company, in a statement issued today. "I expect that the British Government will immediately take over all our wireless stations until the war ends. Our station in Germany has been requisitioned by the German Government, but it has not the same power as the British station. Wireless will play a great part in this war."

Russia's Chance Good. Asked whether he thought Russia would make as poor a showing as in the Japanese war, Mr. Isaacs answered: "All that I can say is that if the Russian army is deployed to the same extent in other respects as in aeroplanes, Germany will have her work cut out. Russia has as many aeroplanes as Germany and Austria together, the biggest and most effective machines existing. German aeroplanes installed with wireless apparatus weighing sixty pounds are little more than toys. We have been filling Russia's aeroplanes with wireless apparatus weighing 300 pounds, the same as we supply battleships. Russia has a great many of them, but they carry ten men, with a wireless apparatus which sends messages hundreds of miles. No other country can show anything like it, and Russia has a fleet of them. They are extremely clever scientifically and indifferent to death. Expects Britain to be involved. Asked whether Great Britain would

be involved in the war he replied: "Undoubtedly as deeply as possible. Our fleet may be the determining factor. I do not think the war can last long enough, if you keep it long enough, but heaven knows when." Isaacs is a remarkably clever and keen and highly informed financier and governmental matters. He spoke coolly but with absolute conviction on the universality of the war. "When Russia repudiated Germany's request about her mobilization plans by blowing up a frontier bridge and Germany retorted by declaring a state of war nothing more need be said. We are all in it from that moment."

Canadian Associated Press Cable. LONDON, July 31.—Premier Massey of New Zealand says: "So far as it is possible to judge from information received, there is no occasion for serious alarm, but in such circumstances as now exist we have to prepare for possibilities if occasion arises. Situation Most Serious Since Danger of Napoleonic Invasion Hundred Years Ago—Fleet Completely Mobilized and Army Practically on War Footing—Carson Offers Services of Volunteers.

Russia and Austria have resumed direct negotiations. Great Britain and France make final effort to preserve peace, but little hope is felt owing to Germany's attitude. In Britain, feeling is general that the great struggle for supremacy is inevitable, but a remarkable spirit of calmness is displayed. Army and navy preparations are practically completed and only the signal for action is awaited.

Censorship over telegraphic communication exercised by the Austrian Govt. prevents any definite knowledge of military operations leading out, and beyond that Belgrade has been occupied little is known. British army experts count the reports that half a million Austrians crossed the Serbian border on Thursday and that a great engagement followed.

Russia, ignoring Germany's virtual ultimatum of Thursday, is pressing mobilization feverishly. British fleet is believed to be near Fushing in the North Sea, but only Asquith cabinet knows whereabouts definitely.

# CLASH IS IMMINENT

French and German Soldiers Are Facing Each Other on Frontier.

Canadian Press Despatch. LONDON, July 31.—A startling semi-official note was issued at Paris tonight, dealing with Germany's threatened military movements on the French frontier and dealing with breaches of frontier rights and the cutting of railways by German outposts, which the cabinet council discussed.

It is understood that the French troops were withdrawn a short distance from the frontier to avoid the danger of possible collision.

BAN ON GRAIN EXPORTS. Canadian Press Despatch. PARIS, Aug. 1.—The French cabinet council deliberated until early this morning discussing the crisis and prospective measures. President Poincare signed three decrees, the first extending until Aug. 31 the terms for the payment of obligations becoming due within that time, the second prohibiting the export of grain and other products of the soil, and third, abolishing duties on the importation of various agricultural products.

A brief formal statement, setting forth the action of the council, was given out, and a review of the developments to date was sent out by a semi-official news agency. This communication, after referring to the extreme gravity of the crisis, says: "German aggression."

It is learned that since July 25, up to the German frontier, numerous troops are concentrated to the east of Thionville (Diedenhof) and Metz, a number of army corps. Their outposts are formed of numerous troops on the border of our immediate frontier. The patrols of cavalry of Germany have even penetrated our territory.

Business of Hydro Commission Shows Satisfactory Increase.

The plans for New Toronto's water filtration plant and distributing system, prepared by E. A. James, of the firm of James, London and Hertzberg, Toronto, the village engineer, have just been approved by the provincial health department. Tenders have been accepted for the main part of the work, and the New Toronto Council is confident that all parts of the village will be supplied with water by the fall.

The filtration plant and pump house will be situated on the lake shore, on three lots recently acquired by the village, between Sixth and Seventh streets, and just west of the Grand Trunk pumping plant.

The intake will be between 800 and 1000 feet out in the lake. At the 800 feet point there is a depth of about 23 feet.

The main distributing pipe, which will be 10 inches in diameter, will be laid up Seventh street and along the Lake Shore road east and west. The side streets will be taken from these mains by means of pipes 6 inches in diameter. These will be laid on the local improvement system, and the necessary by-laws have already been passed. The village as a whole will pay one-third.

Big Stand Pipe. The stand pipe will probably be situated on New Toronto street, at the top of Sixth or Seventh street. It will have a capacity of 75,000 imperial gallons.

The laying of the mains on the Lake Shore road will delay the work of the highways commission, and it is not anticipated that the good roads work thru the village will be done this year.

For the work in connection with the water system, debentures to the amount of \$27,000, guaranteed by the County of York, have been sold at par, bearing interest at 5 per cent.

Some 40 hydrants for fire purposes will be required, and these will be on the City of Toronto pattern, so that any other hydrant which may be used, the village would have the assistance of the Toronto fire department. That such assistance should be necessary, however, is looked upon as a remote contingency.

The water tank will be erected by the Chicago Bridge and Iron Works at the price of \$20,000, and the contract for this work being completed in ninety days.

Intake Pipe. The 18-inch steel pipe will be supplied by the Thor Iron Works of Toronto, at a price per 20-foot length of \$45, and for laying this pipe at a price of \$1.50 per foot, including connections, of \$85.00. The quotation of J. F. Curley includes the price of \$20,000 for the concrete pipe line to same, and the price of \$200 for erecting timber crib and connecting pipe line.

The cast iron supply pipes will be supplied by the Canadian Alloys-Charms, Limited, at a total price of \$10,222.86, and the same firm will supply the hydrants, valves, and special fittings, at a total price of \$1,548.90.

Tenders for laying the pipes have yet to be considered, but the estimated cost to the ratepayers per foot frontage is \$47.

Sidewalk Contracts. Yesterday the contractor, Walter Buckworth of Toronto, started work on the cement sidewalk on the lake and the Shore Road between Mimico avenue and the Etobicoke limit of the village. When this part is completed there will be a continuous sidewalk from the eastern to the western limits of the village.

All the side streets running up from the lake are already provided with sidewalks on both sides, with the exception of Second street, and a fully signed petition for sidewalks on both sides of this street has been lodged with the council, and the construction by-law will probably be put thru at the next meeting of the council to be held on Monday, August 10.

Three-fourths of the village are already provided with sewerage, and at the next meeting of the council it is probable that a by-law for the construction of a sewer on Second street, from the Lake Shore road down to the Sewage Disposal Plant, will be passed. Four tenders for the work have been received.

Hydro Extensions. The village clerk, G. D. Scott, has received a letter from the Etobicoke Township council urging that the extension of the hydro line from Fourth street to Brown's Line, providing for 12 street lights, which was passed some little time ago, should be gone on with without undue delay. It is understood that a deputation of Etobicoke ratepayers will wait upon the new Toronto commission at its next meeting to urge the installation of domestic electric lighting in connection with this line. The petition pressing this matter, it is said, already contains some 45 or 50 signatures, and this petition will be presented to the council.

Since the beginning of the year, the new Toronto commission has obtained about 200 domestic customers. The new Toronto Hotel has become a commercial user, and Brown's Brass Forging Mills has contracted for 200 horse-power, while the H. S. & T. Claremont Citizens' Band.

Under the auspices of the Erskine Presbyterian Church a monster garden party will be held at the home of Mr. Graham, one mile west of Claremont on Aug. 4. Refreshments will be served from 5.30 to 8 o'clock. Addresses will be given by Rev. A. S. Orton, B. D., John Mutch and R. Ferris, M. A., and a first-class entertainment by Elwood Genon Quartet, Broadview Presbyterian Mixed Quartet and local talent. Sections will also be given by the Claremont Citizens' Band.

To maintain a high standard of quality, stocks are essential. The largest stocks of Scotch Whisky in Canada are held by James Buchanan & Co., Ltd., guaranteeing the continued superiority of Black and White.

Crystal Company use 10 horse-power. The new Toronto Football Club held a practice game with the Ritchie and Ramsay team last night, and at the close of the game attended a meeting called by the secretary, T. Scott, at Mr. Gourlay's residence for the purpose of organization and affiliation with the amateur football league.

RUSSIAN KILLED BY FALLING BEAM

Stephen Kapachemsky Met Death When Girder Broke Loose.

Half an hour after starting work in the Canada Foundry on Lansdowne avenue yesterday morning, Stephen Kapachemsky (or Capen), a Russian, living at 1011 Keele street, ironworker, was almost instantly killed. The man was working in the casting works, beneath one of the huge carrying cranes, and one of the heavy iron girders, which were being transferred to another part of the works, broke and fell, striking Capen on the right temple and shoulder.

The man was knocked prostrate. A moment afterwards he sprang to his feet and walked about five yards, then fell to the floor, dead.

Inquest Opened. Dr. Mooney, the foundry's physician, of Perth avenue, was immediately summoned, but death must have been almost instantaneous. The body was removed to the city morgue, where Coroner Russell opened an inquest last night. The funeral will be held from Speers' undertaking parlors this afternoon to Prospect Cemetery.

COMMISSIONER CHAMBERS INSPECTS PARK SITE

Viewed Properties on Bathurst Hill Proposed by Hillcrest Association.

Yesterday forenoon Park Commissioner Chambers, accompanied by President J. U. Warren of the Hillcrest Association, visited J. C. Eaton's grounds, Connaissance Home and other properties in the Bathurst Hill district, recently suggested for a scenic park and recreation ground. The park commissioner expressed himself as saying that in his opinion the sites are the only suitable one in the locality, as there are beautiful trees on the property which could be displayed to advantage with park planning.

LUMBER DEAL CHARGES TO BE DISCUSSED AGAIN

Joseph Larmon, real estate agent, Fairbank, informed The World yesterday that he read with considerable surprise and dissatisfaction, the statements made by Deputy Reeve Miller and Councillor William Graham at a meeting of the West Fairbank Ratepayers' Association on Tuesday evening, in reply to the charges made by J. Nudd regarding a lumber deal put thru by the township council.

"Since Deputy Reeve Miller has brought my name into the matter, without informing me of his intention to do so, and giving me an opportunity to be present, to verify or controvert his assertions," said Mr. Larmon, "I will be present at the next meeting of the West Fairbank Ratepayers' Association and I trust that Deputy Reeve Miller, Councillor Graham, Commissioner Snider and Road Foreman Waite will also be present and the meeting will hear my account of the lumber deal."

CLAREMONT

Under the auspices of the Erskine Presbyterian Church a monster garden party will be held at the home of Mr. Graham, one mile west of Claremont on Aug. 4. BRITAIN WANTS WHEAT

War Office Asks How Much Canada Can Supply This Year.

By a Staff Reporter. OTTAWA, July 31.—It is reported here that the Duke of Connaught will return to Ottawa as soon as if Britain is drawn into the war, in order to aid in the mobilization of Canadian troops. His long and distinguished military experience would be of great value.

It is also understood that a message will be sent to the imperial authorities tomorrow that Canada will be ready to send 20,000 men at the earliest possible moment and 100,000 men within a month if they required. The war office today cabled the Canadian Government to let it know how much wheat Canada would be able to send to Britain this year. The Russian wheat crop cannot be depended on by the old country this year if the war goes on.

EVERY EGG HAS ITS OWN FLAVOR

It May Vary From a Sweet and Wholesome One to Most Objectionable Kind.

Nearly every egg has its own flavor, and that flavor may vary from a sweet and wholesome one to a most objectionable one. There are comparatively few people who can distinguish any particular difference among eggs, and although the quality of all new-laid eggs is fairly uniform, there is much difference in flavor even in eggs produced on the farm. The average farmer or producer does not distinguish any difference in flavor between summer and winter eggs. The eggs as they are more in favor than eggs fresh on the farm. The longer eggs are kept after they are laid the more pronounced will be unpleasant flavors. Especially is this the case in the case of a summer new-laid egg and the article as served on the city table very great. The heat of the summer makes transportation very hard on eggs, and while they are still good in flavor will be slightly off. These eggs have a better taste than those which are laid in the winter. In the summer the birds have access to green food, and this will always improve the flavor of the eggs. The poultry man should make a practice of having a good supply of well-cured alfalfa or hay cured green to feed his fowls in the winter, as besides improving the flavor of the eggs it also improves the general health of the birds. If the birds are allowed to have the run of the barn yard a decided difference will be noticed in the flavor of the eggs. Fish scraps and

THE NEW HOUSEKEEPING

BY MRS. CHRISTINE FREDERICK

The Buying of Utensils and Tools

SEVERAL points should be kept in mind before we buy any tool or device. The first, do we really need it? Too many women buy a profusion of small and cheap devices which they use only a few times.

Again, is this a comfortable tool to handle? Some excellent labor savers have awkward handles, or strain the armholes of the dress, have rough surfaces, or catch and tear the clothing.

When buying new utensils choose them of the right shape for the fuel you are using. The old-time fuel, such as coal, demanded a deep, quiet fire.

How much should this pot hold to be just the right size for your purpose? Do you know, for instance, how much your yellow mixing bowls hold?

SATURDAY MORNING, AUGUST 1

A TIME TO KEEP OUR HEADS!

Canadians are confronted with a condition never before experienced, and new happenings in ordinary financial affairs may have to take place...

TO REDUCE THE COST OF LIVING.

Ald. David Spence in his argument against the proposed new market made one point that is worth consideration by those chiefly affected by the high cost of living...

THE GERMAN ARMY.

For more than half a century after the fall of the great Napoleon, the reputation of France as a military power rested on the achievements of her army during the first republic...

whether the German army has maintained the standard of efficiency it then possessed. Very serious charges have been made regarding the brutalities perpetrated on the rank and file by the commissioned and non-commissioned officers...

WAR AND THE LABOR MARKET.

With the spread or prolongation of war in Europe there would be a considerable modification of the labor market in Canada. Toronto especially would be affected by the withdrawal of many men who are now swelling the ranks of those out of work...

THE MOTOR BUS BYLAW.

Mr. Wallis T. Fisher of Ward Seven is said to be bursting with indignation over the postponement of the balloting on the bus bylaw till New Year's Day...

OUR OWN VIEW.

Our own view is that the bus in Toronto is an experiment, and the first expenditure is for the purpose of getting experience. If the bylaw had been submitted in September...

WHAT MOBILIZATION MEANS.

In military parlance mobilization, a word much in evidence in these straggling days, is used to describe the process of raising the peace establishment of the troops to a war footing...

TORTURED NO LONGER WITH ASTHMA

Sometimes He Had To Sit Up All Night For Weeks At A Time—Suffered For 15 Years Until He Cured Himself With "Fruit-a-tives."

D. A. WHITE, ESQ. 21 Wallace Ave., Toronto, Dec. 22nd, 1913.

"Having been a great sufferer from Asthma for a period of fifteen years (sometimes having to sit up nights for weeks at a time) I began the use of 'Fruit-a-tives'...

Asthma is a disease of the Nerves. It usually attacks those of a highly strung nervous system—those whose nerves are easily affected by any disturbance of digestion...

Why? Because "Fruit-a-tives" acts directly on stomach, bowels, kidneys and skin. "Fruit-a-tives" cleans the whole system of the poisons that are irritating the nerves...

MORE PROFIT-SHARING BY FORD COMPANY

But This Time It is the Public That Will Benefit by New Plan.

Henry Ford today makes another revolutionary announcement to the automobile trade and the public in general. It is still along the line of profit-sharing, but this time it is the general public and not the Ford organization that is to benefit.

The Ford Motor Car Co. of Canada, after announcing a cut in prices, goes on to state that if between Aug. 1, 1914, and Aug. 1, 1915, they can reach an output of 30,000 cars, they will attain their minimum cost of production and selling. They will therefore pay back to the buyers' share of the savings thus effected between \$40 and \$80 to every retail buyer who purchases a Ford car between the above dates.

The Ford car is eminently good value for the money and if this profit-sharing plan goes into effect, as it probably will, it will place the Ford car far beyond the reach of all competitors in regard to price.

Further particulars in regard to the profit-sharing plan may be obtained from the Ford makers and dealers.

LOCAL STEAMSHIP OFFICE ADVISED OF CANCELLATION

Confirmation of the report that some ocean liners would not carry out their schedule was received by Mr. S. J. Sharp, steamship agent of 19 Adelaide street, yesterday morning. The telegram reads as follows:

"In view of the uncertainty of the present European situation we have decided to postpone sailings of the steamships Vaterland, from New York; America, from Boston, Aug. 1, and Imperator, from Hamburg, July 31. Due notice will be given on the eventual sailing date—Hamburg American Line."

No word has arrived in regard to any other liners.

MOTOR AMBULANCE SERVICE. 186 THOUGHT THE BOY WAS GOING BACK Abe Orpen, Jr., Saw Lad Turn, and Judged That He Would Stop. "Samuel" Book came to his death in the City of Toronto on July 25, 1914, as the result of being struck by an automobile driven by Abe Orpen, Jr. We are of the opinion that Mr. Orpen tried to avoid the accident, but thru an error in judgment contributed to the boy's death. The above was the verdict brought in by the jury last night. It was brought in after a hearing by Mr. Orpen, who, as he approached the boy, who was marly walking east on Jarvis street, someone whistled on the west side; the boy turned as tho to retrace his steps; the mid-guard, the "error in judgment" referred to simply means that Mr. Orpen thought the boy would continue west, whereas he turned back east again. SOCIETY CONDUCTED BY MRS. EDMUND PHILLIPS Mrs. George Dunbar was the hostess of a very charming luncheon, yesterday at the Diet Kitchen, Isabella street, in honor of Miss Jean MacPherson, whose marriage takes place on Monday to Mr. Nicholas Garland. The party of seventeen were ably entertained at a table set with a gold and silver centerpiece, of orchids and a shower of lilies, resembling a bride's bouquet. The other flowers used being pink sweet peas, gladioli, pink stavlism, white centurias and gypsophilla, the card for the guest of honor being held by a tiny bride and there was a very decorative floral arrangement on the tables, which looked very lovely. A miniature wedding cake was brought in, decorated with a cupid, silver slippers and orange blossom and the bride's health was drunk. After luncheon, there was a linen shower in her honor, and then the guests played by Miss MacPherson, Miss Evelyn Taylor, Mrs. John Walker, Miss Mary Treat and the lone hand by Mrs. Harry Love. SILVER WEDDING OF FIRE CAPTAIN Head of Yorkville Station and Mrs. Everest Remembered by Friends. When Captain Alfred H. Everest of No. 10 fire station, Yorkville avenue, arrived at his home, 105 Maitland street, last night for supper he was greatly surprised to find the house filled with unexpected guests, who had arranged a little surprise party for Mrs. Everest and himself, the occasion being the twenty-fifth anniversary of their marriage. Twenty-five or thirty friends and admirers of the captain and his wife presented themselves, bringing with them a goodly supply of delectable things to eat for supper and a number of very handsome and useful presents, which were presented to the happy couple with the compliments and congratulations of their guests. The evening was given up to merriment and the peals of happy laughter that floated thru the open door and windows of the house might well have given the impression to the passing stranger that a party of light-hearted youngsters were indulging in a romp, rather than that the celebration of a "silver wedding" was in progress. It indeed seems hard to believe that the stalwart captain and his smiling spouse will for a quarter of a century faced life together, so lightly has the hand of time rested upon them. The party was a huge success. The struggle and toll of the past years were all forgotten and every one gave themselves unreservedly to the enjoyments of the evening. Progressive card games were played and simple, but appropriate prizes awarded. Captain and Mrs. Everest are both natives of Toronto, having been born here. As a boy the captain attended the old Cherry street and Louisa street schools. He has been attached to the Toronto Fire Brigade for twenty-two years, and is now in charge of the Yorkville avenue station. Special Train Service for Toronto Civic Holiday. action closed the last great market of the week. All the other American exchanges quickly followed suit.

Four Assignments. As it was, there were four assignments, three of them announced on the cotton exchange.

Banker's Position Sound. It was the impression tonight that the worst of the storm had passed.

How long the stock exchange will be closed is a matter of conjecture, the answer depending upon the course of events abroad.

Shout of Relief. For an instant, while the significance of the words was sinking in there was not a sound.

Banking business was not greatly deranged, and there was no loss of confidence as to the outlook in that direction.

BANK OF ENGLAND RATE DOUBLED WITHIN TWENTY-FOUR HOURS

OUTCROPPINGS OF OPTIMISM IN SPITE OF DEVELOPMENTS

Immediate Effect Upon Canada Would Be an Increase in Value of Her Exports—Financiers More Reserved—Every Market in the World Closed.

Early yesterday morning the news was received that business on the London and New York Stock Exchanges had been suspended indefinitely. The knots of interested people who had frequented the several brokerage offices were not as large or as numerous on that account.

Bankers, brokers, heads of financial institutions generally refused to give any interviews. "It would not care to be quoted at the present time in view of what has transpired within the last hour or two," they said.

It has been said that during the Crimean war, Canada, being an exporter of foodstuffs, was greatly benefited. Wheat went up to a very high price, with the result that the Canadian farmer received the bigger profits.

While in the present case all past experiences and precedents have been discarded, it would not be unreasonable to expect that in the event of a general European war such conditions might prevail again.

The carnage of war would undoubtedly mean the destruction of manufacturing plants. Therefore, those things which are manufactured in Canada would be in greater demand than ever before.

As far as can be learned there were no new developments locally. It was rumored that one small firm had "gone under," but confirmation of this could not be had.

Yesterday was the first day in the history of the world, as far as can be ascertained, that every stock exchange in the world was closed.

Bankers here had been trying for days past to get their customers to take up this stock, but the impossibility of doing so had been gradually sinking in.

There is no cause for undue alarm concerning the present local financial situation in London has become so abnormal that it is understood that the British Cabinet at its meeting today discussed the possibility of taking measures to prevent a possible panic.

There has been nothing whatever in the nature of a panic or a run, but the gold and silver since the opening of the bank this morning.

It is reported that on curb Twin City was bid for yesterday at 22. None was offered under 21.

LONDON EXCHANGE DECIDES TO CLOSE

The chief reason for the unprecedented action of the London Stock Exchange committee was the fact that the system of credit had practically broken down, and it was impossible to carry on business in the ordinary way.

Settlement Has Been Postponed—Situation Did Not Arise Thru Speculation.

The committee also announced that the settlement due August 3 has been postponed until August 17, and that the consols settlement due August 8 has been put over until September.

CREDIT BUSINESS STOPS

The suspension of business here reached a virtual halt. New York for the last few days had been the only great market of the world to carry on business as usual.

BUSINESS IN NEW YORK IS BROUGHT TO A HALT

Exchange is Closed Following Meeting of Bankers in J. P. Morgan's Office—Movement of Gold to Europe Exceeds Any Former Shipments.

The only other occasion in the history of the stock exchange when similar action had been taken was in 1893, or the famous "Black Friday."

The movement of gold to Europe, which has reached unprecedented proportions during the last few days was continued. Two engagements were made, amounting to \$2,500,000.

The total amount of the cargo was \$11,250,000. The amount of the outflow of the metal since January 1 is \$125,835,000.

At a special meeting of the board of governors of the stock exchange, President Noble was authorized to appoint a committee of five governors to make rulings regarding deliveries on the curb.

A FIXED DATE IN FINANCIAL HISTORY

From Everywhere Comes the Word "Exchanges Are Closed Today."

That every stock exchange throughout the world was closed, that stock transactions the world over were nil, with the exception of a few curb transactions, is the record which will go down in history fixed upon the date, Friday, July 31.

From all quarters comes the message, "Stock exchanges closed today." Those first to cease doing business were situated near the seat of trouble in European centres.

Then followed the New York Curb Exchange, the London Metal Exchange, Liverpool, Glasgow, Edinburgh, the New York Curb, Philadelphia, Boston, Pittsburgh, Chicago and Winnipeg.

Those which rapidly followed the closing of the London house include Manchester, Amsterdam, the New York Curb Exchange, the London Metal Exchange, Liverpool, Glasgow, Edinburgh, the New York Curb, Philadelphia, Boston, Pittsburgh, Chicago and Winnipeg.

CHANGES NOT SO GREAT. CHICAGO, July 31.—At the opening of the board of trade today first sales of wheat closed changed not to exceed 2 1/2c, as compared with a variation of 7c at the opening yesterday. The primary prices were downward.

GERMAN BANK RATE. BERLIN, July 31.—The rate of discount of Imperial Bank of Germany was raised from 4 to 5 per cent. today.

SHIPMENTS SUSPENDED. VIGO, Spain, July 31.—The agents of the German export houses here received instructions today that shipments were suspended until further notice.

VIENNA RATE INCREASED. VIENNA, July 31.—The bank rate here today was advanced to 6 per cent.

May Suspend Bank Act

LONDON, July 31.—A deputation of leading bankers called on Premier Asquith this evening for the purpose of requesting him to suspend the Bank Act according to a local agency. The premier promised to consult the chancellor of the exchequer and to consider the request fully.

PARIS MAY EXTEND TERMS OF PAYMENT

Trades People Refuse to Take Government Money From Banks.

Canadian Press Despatch. PARIS, July 31.—Gold was at 1 1/2 premium here today. English sovereigns were selling at 28f each, instead of the normal rate of slightly more than 25 francs. A cabinet council is to be called tomorrow to consider an extension of the terms of payment for obligations falling due.

The apprehensions of the smaller trades here have gone to such an extent that many of them refuse to take the new government new 20-franc and five-franc bills.

Department stores are doing about only half the usual business owing to the lack of small change. Managers of large concerns remark that the mail has shrunk to a third and even to a quarter of its usual proportions.

POWERS PROHIBIT THE EXPORTATION OF GRAIN

Decision Arrived at in View of Rise in Price.

PARIS, July 31.—The French ministry of finance issued the following notice tonight: "The rise in the price of wheat in all the markets of the world, the prohibitions that the harvests of France will be below the average and the prospect of seeing this commodity go into hiding as gold does on the eve of grave eventualities, have caused the government to prohibit the export of grains and farinaceous foods of all kinds. This measure was taken by Belgium and Germany today and is supplemented by the prohibition of the export of various products, which are considered contraband of war."

ANNOUNCEMENT OF FAILURE BLOW TO COTTON MARKET

S. H. P. Pell and Company Suspend—Fluctuations Become Heavy—Exchange is Closed—Two Other Small Firms Have Also Gone Under.

Canadian Press Despatch. NEW YORK, July 31.—The Coffee and Cotton Exchanges followed the lead of the stock exchange and suspended operations here today, the former voting not to open and the latter closing after a trading session of little more than an hour.

The suspension of two small concerns, F. J. Frederickson & Co and Homer, Howe & Co., announced on the floor of the cotton exchange, failed to affect the market. After the suspension of S. H. P. Pell & Co. was announced the cotton market became convulsed with fluctuations of 20 or 30 points between sales in some instances and a falling off of more than 100 points from last night's closing.

Market Rallied Sharply. Huge supporting orders from spot interests rallied it sharply. However, it was felt that it would be advisable, however, to suspend activity until the situation would become more settled, and shortly after 11 o'clock the board of managers voted to close the exchange until 10 o'clock next Tuesday.

Tremendous blocks of cotton were traded in, and at the time of closing the undertone was steady. October cotton was quoted at 10.50, December at 10.75 and January 10.70, representing a net decline of 60 to 70 points from last night's closing.

Members of Firm. The S. H. P. Pell & Co. held membership in the New York Stock Exchange, Chicago Board of Trade, New York Produce Exchange, New York Cotton Exchange and the Liverpool Cotton Exchange. The members of the firm are Stephen H. P. Pell, Charles A. Kittle, C. H. H. Pell and associate member, Robert M. Thompson, who was a member of the famous Pattons cotton pool. The failure caused the market to fall off 140 points.

A statement of assets and liabilities was not made. During the excitement that followed the news, members of the cotton exchange house themselves went into the pit and made heavy purchases. Some of these brokers had not been in the pit themselves for years. Single purchases of as high as 25,000 bales of cotton were made before the closing.

Information Withheld. At the offices of Pell & Co. all information as to the suspension was withheld. It was reported, however, that a statement would be forthcoming later. The failure of the firm, one of the largest doing business on the cotton exchange, was attributed in financial circles to the sensational drop in cotton values during the week.

October Wheat Down. At 10 o'clock October was down to 96c and December month followed in sympathy. Prices at noon stood at 94 1/2c for October and 88 1/2c for December, showing a decline of 9 1/2c on the former and 1 1/2c on the latter.

Oats were comparatively steady, while fax continued its downward course, being at noon 2 1/2c to 5c lower than yesterday's close. Closing prices for wheat were 8 1/2c to 4c lower.

Cash Trade Good. The cash trade is good for Nos. 1, 2 and 3 Northern wheat, but little or nothing doing. Cash grains closed: Wheat, 3 1/2c to 4 1/2c lower; oats, 2c lower; unchanged; fax, 5 1/2c to 5 1/2c lower; barley unchanged.

Inspections totaled 178 cars, as against 134 last year, and in sight 110 cars. Cash wheat, No. 1 northern,

- ☐ Four years ago we began to pay transportation charges on all our mail order business. Since then this business has increased five-fold.
- ☐ In emulation of this success, the whole mail order business of Canada is GRADUALLY measuring up to our prepayment methods.

## But Our Clean-Cut Policy

of paying all charges on everything in catalogue

## Is Still Unapproached

- ☐ In this the last six months we have installed a complete new plant for handling our mail order business. It occupies four times the floor space of our former one and is one of the most complete and most modern equipments on this continent. This has enabled us to give all our mail order customers a one-day service, that is,

## We Now Ship Your Order Within One Day of Its Arrival

- ☐ This new speed service is now inaugurated because we are determined to deserve still greater business from our customers. It will give them a far more efficient service than has been possible in the past.
- ☐ Our new Fall and Winter catalogue, the most beautiful catalogue we have ever published, full of fine colored prints that show the actual appearance of the goods, is now ready. When you get your copy peruse it carefully.

## Remembering These 4 Points

- 1 Every article in a Simpson catalogue is prepaid to your post office or nearest express office.
- 2 Every order for goods from a Simpson catalogue is despatched within one day of the time we receive it.
- 3 Every customer gets the benefit of Toronto styles and prices just as if the Simpson store was in your home town.
- 4 Every order goes to our customers by fast train. We no longer make any freight shipments.

# TORONTO AND THE STAGE--PICTURES GATHERED HERE AND THERE

Miss Percy Haswell gives a jolly little party to the Toronto girls who took part in her musical comedy, "Marrying Mary" at the Princess Theatre. From the left, they are: Vera Butcher, Doris Cuffs, Gladys Jones, Geraldine Kirkland, Ruby Long, Bertha Merriam, Luby Hambourg, Marcella Kirkland, Della Alderson.

Seldom is a picture like this taken, for actors and actresses do not often mingle with stage crews. The group shows the unique spirit of friendliness that prevails "back stage" at the Princess Theatre, where Miss Percy Haswell has captured the hearts of her helpers quite as surely as the affections of summer theatre-goers. The people here, grouped especially for The Sunday World, include scene shifters, flymen, scene artists, chorus ladies and actors and actresses, just as they completed a matinee performance.
