A feature of the French report is the statement of the dropping of 50 ombs of 90 kilos. or about 200 pounds each, from aeroplanes. The hurling of bombs of such a large size is a distinct departure in aerial warfare, for previously aerial projectiler of 20 to 100 pounds were the largest that could be handled. To Ease Pressure on French.

The British advance on La Bassee pears to have been undertaken with object of relieving the pressure on the French troops locked in a desperate struggle with the Germans south of this strong position.

In his attempts to check the progress of the French the enemy has trengthened his force of artillery and delivered a violent bombardment of the vantage points newly won by the French, but the Gallic infantry have clung to these posts with remarkable

obstinacy. The following is the French official account of the day's operations, issued tonight:

"The British troops have made a new advance in the direction of La Bassee. taking sixty prisoners, of whom several were officers, and capturing some ma-

Desperate Engagement.

To the north of Arras the Germans have continued their desperate efforts to retake in the region of Angres the positions which they lost yesterday. The engagement thruout the day was one of extreme violence. "At the Cornailles fortified work a counter attack by the enemy at first compelled us to withdraw, but in less

than an hour we had reconquered the whole position and we have maintained it since then.
"At a neighboring work, further to the south, the enemy, after sanguinary attacks, has retaken part of the north alient, but we have held the west sallent and carried part of the south

which is to be read in all churches June 6:

"After ten months of war we see more clearly than at first the greatness and severity of the ordeal which is putting the spirit of our nation to the test.

"The spirit arrayed against us threatens the very foundation of civilized order in Christendom. It wields an immense and ruthless power. It can only be decisively rolled back if we, for our part, concentrate the whole strength of body, mind and soul which our nation and our empire holds.

Service or Sacrifice.

"We solemnly call on all members of the church and urge upon all fellow citizens to meet with glad and unstinted response whatever demands of service or sacrifice the government decides to make. The great war, righteously waged, calls out that spirit of winning sacrifice with a plainness and intensity which nothing can rival. On behalf of righteousness and in our country's cause there is nothing toe dear or too sacred to be offered.

People Watch for Hostile Aeroplanes Without Sign of Fear.

VENICE (via Paris), May 26, 11:20 a.m.—The military authorities have given orders that no lights be displayed in Venice between sunset and sunrise that can be seen from above the city. This is a measure of protection against attack by aeroplane.

The people of Venice are normally nuch abroad at night, but now they are staying up even later than usual They enjoy the aspect of the city without light, and they are all eagerly looking into the air for the sight of an Austrian aeroplane. Nobody seems to fear a visit form these machines.

The narrow footways along the barks of the canals and the small arched bridges of the city are dark and silent at night. Old people say the city is like it was in the days of their youth, when there were no street their youth when there were no street lights and the inhabitants went about with torches and lanterns.

PETROGRAD, May 25.—The Russians continue attacking over the whole front in Galicia with the exception of one small section southeast of Peremysl. Here the Germans continue to make fruitless attempts to force their way to the main line of the railway in the hope of cutting the Russian communications behind the fortress. Everywhere else the enemy is now definitely on the defensive. This has now lasted 48 hours, a period which should have fully sufficed to refill their complements and stores. If the Germans do not immediately resume the mans do not immediately resume the offensive, we are justified by similar experiences on several occasions on the Warsaw and the Niemen fronts in feeling assured that the tremendous German onslaught from Cracow is yet another blow that has missed its mark nd left a good opening for a return

Strong Advance Southward. Having satisfactorily scotched the terman attack on the west and south, the Russians are developing a strong advance in the eastern section of the front. Moving along the left bank of the Dniesfer in the early hours of Sat-urday, the Russians have now stormed and taken a number of points, cap-turning 2200 men, 40 officers, scores of maxims and a quantity of various military stores. This successful movement continues to develop, while beyond the Dniester the enemy has been almost entirely reduced to quiescence.

The Baltic provinces' raid continues to be slowly liquidated. Meanwhile the Russians have occupied a line of rivers, the Vindava, Venta and Dubussa, and have forced the Germans back a considerable way to the west of the last named stream, over several hundred miles of front, namely the Niemen, Narew, Bzura and Rawka, as far as the upper reaches of the Vis-

Germans Quieter.
Nothing has occurred during the past 24 hours since the Germans made a series of reconnaissances and at-tacks over the whole lines. They must have quite satisfied themselves on one point, namely that the costly onslaught into Galicia has not caused the Russians to reel in their power of offense upon what must always be the main preoccupation of the Germans, the Warsaw-Berlin direct route. Another day or two must suffice to indicate whether the Germans accept failure of their rush into Galicia or have been recuperated and reinforced with the ntention of tempting fate yet fur-

When I intend serving coffee for Bob alone I find I can use a special recipe for coffee for one person, thus: Add two tablespoonfuls of ground coffee to one cup of cold water, cover closely, and let it stand over night. In the morning this is brought to a boiling point, and then poured carefully so that a clear cup of coffee is served. Two other good tested recipes for cof-fee for two I find recorded are:

Four tablespoonfuls of coffee. Four cupfuls of boiling water. Place the coffee in the strainer and the strainer in the coffee pot, and add boiling water gradually as it is on the stove. It must be covered between additions of water. Also when pouring, sugar and cream (or scalded milk) should be put in the cup before coffee

Every child has, a mental and moral nature, the development of which positively refuses to be postponed. It begins to grow very early, whether we take a hand in it or not, and is firmly established long before a child is four years old.

So it is well to begin with him early and make the habits that are formed good ones. Train him to do the right things from the start and you will have no undoing.

things from the start and you will have no undoing.

The first time a child understands a spoken command he begins a habit either of obedience or disobedience according as the command is enforced or not. The first time he kicks and screams in a rage at some denial or disappointment marks a dividing of the trail.

If he is given in to he is well started on the road of disobedience and selfishness; if he finds that such methods only bring trouble en himself, he has learned his first big lesson and is already on the way to self-control.

If he is allowed for two or three years to suppose that he is the only person who has decided wishes or any rights worth considering he will form a habit of selfishness and disobedience that can only be overcome by the most severe experience.

The Pentstemons are tramps of the wild, wandering from the rocky canyons of the Colorado to the farthermost ridges of the Rockies. Thru the eastern states they run rioting, wild, but can be transplanted to any home garden. Here in Canada our gardeners must guard not so much against the dangers of extreme frost as against the dangers of too much moisture, collecting beneath a too-thickly piled mulching left on late in spring.

Where possible, start your specimens from your own seedlings, transplanting the plantlings early in the spring of the second year. Care should be given to prevent the forming of too many branches from the base of the plants. All cuttings should be propagated, and so increase stock.

### ADVANCE UNDER WAY

Russians Occupy Number of Villages on Left Bank of Dniester.

PERONRAD, May 26 - Altho Ger activity continues in central Gacia, on both sides of the San River tween Jaroslau and Peremysl, the sussians assert they now have the ituation well in hand.

They state that the German drive from Cracow thru Galicia, and also the parallel movement on the left side of the Vistula, which ' reached 'the Kielce and Radom districts, have lost their impetus and that the Russians are now ready to take the initiative. Less optimistic observers believe that the check taken by the German move is due to the necessity of bringing up fresh supplies of ammunition, after which their aggressive will resume its former intensity.

I venture to express the hope that at that time immigrants only of a very high standard will be permitted to enter this country, and that regulations will be very strictly enforced.

The war tax on note circulation now imposed is a heavy one, and in the case of this Bank, in conjunction with stamps, will probably amount in a year to nearly 14% of its capital. It is very difficult during such times to load this off on the borrower, so that taking all things into consideration it would appear to be proper to look forward to further reduction in banking profits.

The Auditors of the Bank, whom you appointed last year, will present In rising to move the adoption of the Report, my first duty is to refer the extraordinary combination of circumstances which has placed me this position.

Since the last Annual Meeting the Bank has lost through death its Since the last Annual Meeting the Bank has lost through death its President and General Manager, its Vice-President, a Director and its Chief Counsel and Solicitor.

I have much pleasure in seconding the adoption of the report, and also without elaboration in most heartly seconding what the President has said in his address, except that perhaps I am a little more optimistic than his remarks might be construed to mean.

you must all regret his absence.

His devotion to the interests of the Bank was extraordinary; it was first in his thoughts, and he was prepared to make any sacrifice of time and energy on its behalf. There is no doubt that his anxiety for the autome of the crisis through which the world has been passing had mistic as to its future, and especially the future of this Bank. As indicated stcome of the crisis through which the world has been passing had mething to do with hastening his end. He was a sound banker; he was in the President's address, there was a decrease in the amount of land under cultivation 1913-1914 of about 13%, but it should be known that also public-spirited, and his ability, forcefulness and foresight had an influence on the general affairs of the country, as well as on its banking. there is, at the very least, 15% (principally wheat) more land under cultivation this year (1915) than in the year 1914, and since I have had an opportunity of knowing what Mr. Howland was going to say, I have ascertained that the rainfall up to a recent date in this year in Saskatoon was President of the Bankers' Association at the time of his death.
On December 16, just about a month after Mr. Wilkie's death, the Ionorable Mr. Jaffray, who had been elected to the Presidency, died after district was 1.6 inches as compared with 1.75 in the whole of last year. very short illness; he had reached an advanced age, but was so active in In the Medicine Hat district the rainfall has been 3.2 inches this year, as against practically nothing last year. In Calgary district it has been 2.4, or at least twice as much as the whole of last year. In the Lethbridge oody and clear in mind that it was thought the benefit of his judgment Suitable resolutions have been passed by the Board, which, with your currence, will be printed in the proceedings of this meeting.

Mr. Elias Rogers has been elected Vice-President, and the Directors district it has been 2 inches already this year, as against practically none last year. In South Saskatchewan there has very recently been five days of continued rainfall. These figures, together with the prospective prices mentioned by Mr. Howland, to my mind, are most encouraging as to the prospects up to the present time of this year's western grain production. In the Calgary district alone in the year 1914, 281,188 head of horses, The vacancies on the Board have been filled by the election of the Hon. Mr. Hanna, Mr. Jno. Northway and Colonel Michie, who are all well known to you. The Bank can be congratulated upon having obtained their cattle, hogs and sheep were exported, as against 83,252 head the previous year. The value of these exports last year, in round figures, was \$6,500,000. I do not have the figures for the other districts. In Ontario and eastern You will be interested in knowing that one of your Directors, Major Wm. H. Merritt, has volunteered for active service and has left for Europe Provinces the conditions are well known.

As to the Bank, it is well organized, and has a splendid staff of officers, a large number of the Managers having been in the Bank's service. Upon Mr. Wilkie's death Mr. Edward Hay, who joined the Bank before it opened its doors in 1875, and who had been occupying the position of Assistant General Manager since 1902, was appointed General Manager, for many years. Mr. Leslie, Manager at Winnipeg, has occupied that position for a long time. His management, as well as that of other and I am sure he will successfully conduct the affairs of the Institution, and Managers, has been most efficient. He is present to-day, and I hope we' will hear from him before the meeting closes. Mr. Moffat, the Assistant that he will have able assistance from the other members of the Executive. The Chief Inspector, Mr. W. Moffat, has been made Assistant General Manager, and Mr. G. D. Boulton promoted to the position of Chief Inspector. Our Chief Western Inspector, Mr. A. E. Phipps, has been given the title of Western Superintendent.

Referring to the report, you will notice that profits this year are reduced. This was to be expected. Strong as was the position of the Bank, when war broke out it was thought advisable to immediately further increase its holdings of actual cash in order to be ready for any possible western Superintendent, has been with the Bank twenty-four years. Mr. Moffat as Chief Inspector, is a comparatively young man, but has been in the Bank's service as boy and man thirty-two years. Mr. Phipps, increase its holdings of actual cash in order to be ready for any possible western Superintendent, has been with the Bank twenty-four years, and is also present, and will doubtless have something to say about Western to liabilities on April 30 being considerably higher than last year. Interest I can corroborate all that the President has said about the loyalty

I can corroborate all that the President has said about the loyalty and zeal of the staff as a whole, and the exceedingly favorable statement under the prevailing conditions, which is now presented, is almost entirely due to the effective service and co-operation of the General Manager, of the business of the country, which reduction has also diminished the Managers and staff.

The Bank has for a number of years foreseen the inevitable result Here are some figures that will show the state of affairs for the past of over-speculation in land, etc., and apart from the war, has expected and four months, and which it seems to me may be taken as some guide to

prepared for the slump in prices which has occurred.

It is rather remarkable, but it may be worth mentioning, that the exports from Great Britain for the month of January last were \$12,845,416, as against \$9,273,017 in the same month last year, and in February the exports were \$14,461,712, as against \$7,223,573 the previous year. The number of immigrants coming into Canada during the period from January 1 to April 30, 1915, was 16,145, as against 69,823 for the The building permits granted in thirty-one principal cities for the four months of 1915 are reported as amounting to \$7,622,757, as against

Regarding this most disastrous war, I am a peace man myself, but believe in the immorality of non-resistance. In all communities we find those who require to be restrained by physical force—lunatics, drunkards, thieves, murderers and disturbers of the peace. As in communities, I do not know of any good reason why throughout the civilized world law and order should not prevail. Germany, apparently, went mad over militarism: and must be subjected, and I am greatly in hopes that the ultimate outcome of this war will be an international court, with an international police to enforce the decision of the court, and international control of all armaments. I think the President has correctly indicated present conditions and the immediate effect in this country, and it is unnecessary for me to add anything in that connec

Before taking my seat I want to say that in the election of Mr. Howland as President a wise step was taken by the Directors. I have known Mr. Howland for many years, and have always regarded him as a with \$552,771,500 in 1913. It is strange in this young and growing country to note that notwithstanding the immigration of 384,878 persons, the total acreage of field in crops in 1914 was 35,102,175, as compared with 35,371,430 in 1913, a reduction of about 270,000 acres.

Undoubtedly we were getting well into our period of retrenchment when the war began, and had it not broken out would have been facing when the war began, and had it not broken out would have been facing president of the Bank from its organization, in 1815, until his death, in As it is we are getting the benefit of the increased prices for grains and produce, have disposed of large numbers of horses, many of our factories that otherwise would have been idle or slack have been busily

The customary motions were made and carried unanimously. Mr. R. J. Dilworth, C.A., Toronto, and Mr. George Hyde, C.A., Montreal, were re-appointed Auditors of the Bank for the ensuing year.

Our Branch Managers have all sent in recent reports with reference to their districts. These would indicate that manufacturers other than those engaged on war orders are not busy, that wholesalers and retailers The scrutineers appointed at the meeting reported the following share-holders duly elected Directors for the ensuing year:—Messrs. Peleg Howland, Elias Rogers, Wm. Ramsay (of Bowland, Stow, Scotland), J. Kerr. Osborne, Cawthra Mulock, Hon. Richard Turner (Quebec), Wm. Hamilton Merritt, M.D. (St. Catharines), W. J. Gage, Sir James A. M. Aikins, K.C., M.P. (Winnipeg), Hon. W. J. Hanna, M.P.P., John Northway, J. F. Michie, A. S. Subsequent meeting of the Directors Mr. Peleg Howland meeting. are dull, but hopeful, and that generally speaking there is an increased acreage in grain, with good prospects, though in parts of the northwest there has been some damage from frost, from high winds and from lack of rain. (I am glad to be able to state that a good rainfall has taken place since.) A hopeful feature of the situation is the probable near At a subsequent meeting of the Directors Mr. Peleg Howland was re-elected President and Mr. Elias Rogers Vice-President for the ensuing year.

#### The New Coalition Cabinet

Altho the formation of a coalitio government in the United Kingdon could be sufficiently explained by the gravity of the issues presented by the war it is evident that other reasons existed for the temporary abandonmen of the party system. It has becom of late increasingly apparent that all was not well with the Liberal cabinet. and that it had to some extent ceased to command "the entire confidence of its supporters in parliament and in the press. Antagonism developed in the first instance over the appointment of a purchasing agent for timber and over the prices and commission paid. The government was severely criticized in London and provincial Liberal newspapers, and the explanations offered by its spokesmen in the house of commons were far from satisfactory.

Another matter where the late gov nent showed itself out of touch public opinion was that relating to the treatment of non-naturalized enemy aliens. For months an evergrowing demand came for their in ternment. Not until after the sinking of the Lusitania did the cabinet consent to adopt a more drastic policy. On Thursday, May 13, Mr. Asmons that all non-naturalized German males between the ages of 1 and 35 would be immediately interned, and that all women and children would, as far as possible, be repatristed. The prime minister explained when announcing the new scheme that 19,000 had been already interned. and that the number of non-naturalized aliens, registered but not interned, was 40.000, of whom 24,000 were men and 16,000 women.

Still another proposal resulted in further weakening of the Liberal government's prestige. The problems associated with the drink question in Great Britain and Ireland are even during peace complex and difficult. arising in part from the state of public opinion and in part from the differing circumstances in the three countries. Complete prohibition and the establishment of a state monopoly were discarded as impracticable, and the cabinet proposed to place spirits dropped by Germany. Canada has and heavy ales under a tax little short hopes in the same quarter. Both light ales. Ireland at once rose in the competition of the British exarms, and so extensive became the porter, who has a strong foothold and opposition in Britain that the proposal had to be withdrawn and a compromise effected. Here too the government offended the temperance party, who considered the proposals not to be drastic enough.

Mr. Asquith and his colleagues war. Mr. Asquith and his colleagues may have recognized that the weight Canada Permanent of responsibility was too great to be borne alone and would be more easily shouldered and met by a national gov-

ernment. Coalition cabinets formed for political ends have not commonly been very successful or efficient. But the circumstances today are unprecedented, and it cannot be doubted for a moment that all parties in the United Kingdom stand as one in the defence British civilization. Then men in this cabinet, however much they may have differed over internal policies. have never forgotten the higher duty Janowed to the nation and the empire. By order of the Board. OBO. H. SMITH.

The Toronto World ever sky he makes his home, can rely with assurance on their loyalty, their patriotism and their service. we take it, will prove a stronger bon of union in this emergency than car be found in a purely party cabine under normal conditions. It cannot but inspire this ministry of all the talents to turn their every power, individual and collective, in the achievement of the one compelling purpose that of crushing once and for all the menace of Prussian militarism, restoring the right of every nation however little, to live its own nationa life, and establishing the supremacy of international law.

#### Pan-Americanism

It is not surprising that the United States at this time should foster continental solidarity" with Spanish-American republics. The present Pan-American Conference at Washington may not accomplish a great deal more than any of its predecessors, but it reveals the growing anxiety of the Washington Government to kindle a Pan-American spirit. That barriers of reserve and suspicion must be broken down is fully realized. Indeed. Mr. Wilson did not ask the delegates from the Central and South American states to assume that their Uncle Samuel was entirely unselfish Speaking to them in the east room of the White House the other day Mr. Wilson said:

If I am selfish for America, I at least hope that my selfishness is enlightened. The selfishness that hurts the other party is not enlightened selfishness. If I were lightened selfishness. If I were going upon a mere ground of selfishness, I would seek to benefit the other party and so the him to myself; so that even if you were to suspect me of selfishness, I hope you will also suspect me of intelligence and of knowing the only safe way for the establishment of things which we covet, as well as the establishment of the things which we desire and which we would feel honored if we could earn and win.

steamship communication with the and branches now number 125. South American countries if private capital fails to do so. Evidently the ship purchase bill or some substitute for it will be forced thru Congress at the next session. The delegates were also told that they might soon look for cheap cables, branch banks and extensions of credit.

All these things will go to make better trade relations, but the president hopes for more and in the same speech he told the delegates:

We cannot know each other unless we see each other; we cannot deal with each other unless we communicate with each other. So soon as we communicate and are upon a familiar footing of intercourse with one another, we shall understand one another and shall understand one another and the bonds between the Americas will be such bonds that no in-fluence that the world may pro-duce in the future will ever break

Barriers of race, religion and language separate the Latin republics from the United States far more than any waste of waters. Moreover, the memories of the Mexican war and the Spanish-American war still rankle, Spanish-American war still rankle.

Much real solidarity there cannot be at present. Possibly if the Central American states at some future date

American states at some future date came into the Union and were fairly dealt with, South America could draw closer to Washington. Just now the first task of the United States is to disarm suspecion, and this has made the Wilson administration almost helpless in dealing with the Mexican situation

The United States will try to pick up some of the South American trade countries, however, will have to face a big start.

## NAME COMMANDER OF NEW BATTALION

Col. Logie Will Make Choice of Officers to Command Fifty-Eighth.

HAMILTON MEN ARRIVE

Had Busy Afternoon Hauling Baggage and Equipment From Trains.

NIAGARA-ON-TH-LAKE, May, 26-Following the order sent out from headquarters at Ottawa, authorizing he formation of a 58th Battalion, C. E. F., the commanders of the various regiments have been notified about the number of men they may furnish for the expeditionary force. Speculation is rife as to who the commanding officer will be. Col. Logie has been ask ed to name a man to take command, but thus far no hint has been given out about the appointment. An an-nouncement will probably be forth-

ing tomorrow. Meanwhile the organization of th battalion is going forward with all possible celerity. There will be four captains exclusive of the staff. The establishment of 790 men will be drawn form the following regiments: 2nd, 19th, 12th, 15th, 19th, 20th, 23rd, 31st, 34th, 35th, 36th, 37th, 38th, 39th, 44th, 48th, 51st, 77th, 91st, 07th, 109th.

Captains and subalterns will be drawn from each of these regiments. The quota to be furnished by the 2nd Regiment will number 90, and that of the remainder is ten detachments of 45, and a like number of detachments

No time will be lost in getting these men together and in active training. With the appointment of the com-manding officer, the organization of the battalion will be perfected quickly. The commanders of the various regiments to furnish men have been in-structed to send in the names of the captains and subalterns whom they select for service, together with their ations. In all probability, Nia-

Gara will be the scene of the training.

Hamilton Men Arrive.

Col. E. C. Ashton's command, the

Seth Battalion, arrived from Hamilton shortly before from Hamilton shortly before noon today. Majors Crassy and A. N. Nelles are the commanders of the right and left half battallons. On the parade state there is a complement of 1033 men. The entire battallon has been train-ing in Hamilton since March 26. The men have reached a high state of efficiency, and altho Col. Ashton stated that he had no idea when he would be ordered to the front, he was ready to so at any time.

The men entrained at Ham-ilton at 11 o'clock and pro-ceeded to Niagara by T., H. and B. On their arrival here the men moved into their tents, which were exected beside the machine gun battery, the ground formerly occupied by the varsity men. The settling-in process obliged the men to spend a busy afrnoon hauling their equipment and from the trains. Board floors are being put in the tents as far possible. The men from Hamilton were kept on the qui vive until late in the day getting their camp in order. Reinforcements have been asked for to complete the 37th Battalion, to make up for the overseas quota of a full company from each of these battalions. This order has been con-

firmed from Ottawa, and the draught will be made as soon as possible. Cavalry Training Proceeds.
While no orders have yet been issued from headquarters regarding the replacement of the cavalry equipment

Special Cable to The Toronto World.
London, Wednesday, Many 26.—A Morning Post editorial says: "It cannot be too clearly understood that this coalition government is not merely a great experiment. It is an experiment of which the success is vital to the British Empire. We may admit precedents are all against it, but it is incumbent on the nation today to create a precedent and to falsify forbidding words of the wise. From the step that has been taken there is no retreat except by way of irreparable disaster."

Hundred Fans Braved Bay Breezes to See Them Lose -New Man on Second

About a hundred fans braved the icy Newark. bay breezes yesterday to see the Leafs hand the last of the series to the Newark Indians. Not that Toronto looked much like winning after the visitors tied up matters in the fourth, but the game might have been going yet had not Trout and Roach stood still and watch Snow's pop fly drop between them in the seventh. There were two down and Zimmerman was on second. Zimm naturally ran any way and was the most surprised man in the park when he

surprised man in the park when he scored.

Toronto got one in the first and another in the third, putting them two to the good. With Herbert pitching his usual brand of ball the fans had hopes for a few innings. The Leafs piled up three juicy errors in the third, however, and it was good-night ball game.

Mowe got on when Herbert bobbled his drive; he went to second on a sacrifice and took third when Hollander dropped Roach's throw from Callahan's fielder's choice. The double steal was tried and Mowe was out at the plate. Graham contributed a boot by dropping Herbert's throw on Kraft's hit and the runner was safe. Zimmerman then came thru with a slashing hit to right, scoring both runners.

THE SKEETERS TODAY. Manager George Wiltz, late of the Giants, and his Skeeters, will be here to-day at the Island, when they play the first of a four-game series with the Leafs, the teams playing a doubleheader on Saturday. Jim Thorpe, the famous Indian athlete, is also a member of the Skeeters.

Indian athlete, is also a member of the Skeeters.

When the Leafs were down at Durham it was feared the pitching staff would not be up to the mark, bu they more than holding their own. Yesterday Herbert pitched shut-out ball, only a same from Guelph in the Canadian lose thru errors. The management realizes that several changes have to be made in the team before it is a winning one, and it would not be surprising if announcement was made in the next few days of new players being purchased.

afternoon. The weather was cold, but sunshiny. Only two horses faced the starter in the chief feature, the King Edward Hotel Cup. Four were scheduled on the program to start, but Indolence and Fountain Fay were withdrawn, leaving Tactics and Boxer to fight it out. Tactics who captured this race last year, was much the best, was never fully extended, and won, pulling up, by eight lengths. Boxer raced well up for three quarters, where he dropped back, This was Tactics' second win at the meeting, and he won this race a year ago. By winning. F. J. Coleman gets the purse, but not the cup, owing to the conditions of the ropperty of different owners, must start, or the win of the cup is void for that year. The value of the cup, is \$1500, and it must be won either four times by the diminutive jockey. He was should to improve the thayes, and this race is bound to improve the three-year-old son of Stanhope II. Charlie Keans' Seagram castoff, Meissen, captured the second division of the Whitby Purse in a driving finish from thorse, Irish Heart. Caper Sauce, who was second a nose in front of the Montreal horse, Irish Heart. Caper Sauce, who was a two-year-old going to the post. Last year he lost this purse after winning it for many years and quite a few of the followers of the veteran had tickets on him, thinking him the horse to beat, and he was.

Mike Daly made it three wins straight yesterday when Garter captured the Helter Skelter Steeplechase file Michael set the early pace, followed by Garter and Mystic Light. The latter fell at the fourteenth jump. Idle Michael was second it must be won either four times by At Detroit.—(American)—Seven of Detroits eight hits coupled with three of the contingent of the contin

Amos Turney's Electioneer filly, Anxiety, by winning the first race of the day, graduated from the maiden ranks while Jockey Cooper, who piloted the rank outsider, Cuttyhunk, who won the last race of the day, paying better than 30 to 1, rode his first winner. Cuttyhunk, who raced over the half-mile tracks last year under the colors of W. C. ## **SUPPLY EQUALED DEMAND OF TRADE**

Consequently in Some Classes Business Was Rather Quiet.

### CHOICE STEERS FIRM

Heavy Weight Steers Were Barely Steady at Former Prices.

Receipts of live stock at the Union Stock Yards on Wednesday were 56 carloads, comprising 642 cattle, 1519 hogs, 147 sheep, 113 calves.

The 642 fresh arrivals, combined with several hundred of left over cattle, made supply that was quite equal to all demands of the trade.

Mands of the trade,

As a consequence trade for the fat classes, and more especially the heavy weights, was quiet.

Values for choice light steers and helfers were firm, while the heavyweight steers were barely steady with Tuesday's quotations. Cows, bulls and canners sold readily at firm prices.

Stockers and feeders, for which there was only a light demand, were not selling quite as well. Several outside dealers being on hand for a supply of milkers and springers caused values for them to be very firm

per cwt. higher.
Sheep and lambs were firm at steady Altho there was a moderately large supply (1519) hogs, drovers were asking more money than the buyers were prepared to pay, and values were very firm at steady quotations.

Butchers' Cattle.

Choice heavy butchers' steers sold at \$2.25 to \$8.40, with few at latter figure; choice butchers' at \$8.10 to \$8.35; choice butchers' at \$8.10 to \$8.35; choice butchers' at \$8.10 to \$8.35; choice of \$1.750 to \$7.50; common at \$7.30 to \$7.50; choice cows at \$7 to \$7.25; good at \$6.75 to \$7; medium at \$6 to \$6.50; common cows at \$4 to \$5.25; good bulls at \$7.25 to \$7.50; medium bulls at \$6.50 to \$7. Stockers and Feeders.

Good to choice, \$300 to \$900-1b. steers sold at \$7.40 to \$7.65; medium, 700 to \$00-1b. steers at \$6.75 to \$7.25; stockers, 500 to 650 lbs. sold at \$5.65 to \$6.25.

Milkers and Springers.

Choice fresh milkers and extra quality forward springers sold at a range of values from \$80 to \$100 each; good to choice at \$70 to \$80; medium at \$60 to \$70; common to medium at \$45 to \$55 each.

Veal Calves.

Choice calves sold at \$9 to \$9.50; good at \$7.50 to \$8.75; medium at \$7 to \$7.50; common calves at \$5 to \$6. Not many choice calves are being offered.

Sheep and Lambs.

Heavy sheep, clipped, \$4.50 to \$5.50; heavy sheep, unclipped, \$5.50 to \$6.0; light sheep, unclipped, \$7 to \$8; spring lambs, \$5 to \$9.50; good at \$7.50 to \$8.50; unclipped, \$5.50 to \$7.50; common calves at \$8.50 to \$6.50; light sheep, unclipped, \$7 to \$8; spring lambs, \$5 to \$9.50; good \$9.50; good \$7.50; good \$9.50; goo
