# GERMAN CENTRE FRONT IS COMPLETELY BROKEN

## Prisoners Taken By French and British Now Total 21,000, With Innumerable Guns Advance South of the Somme is Nine Miles and German Left Flank, Placed in Great Jeopardy, Prepares for Retreat—Canadians Capture Rosieres.

### CANADIANS GAIN TWO MILES BEYOND DEFENCES OF AMIENS

#### French Troops Also Make Rapid Progress, and Advance More Than Four Miles, and With the British Continue Severe Fighting on the New Line.

London, Aug. 9.—Fighting was still continuing between the Anglo-French forces and the Germans southeast of Amiens, according to the British official communication received from Field Marshal Haig this evening. The general line of Plerrepoint, Arvillers, Rosieres, Rainecourt and Morcourt had been attained by the allied troops this evening. The text of the communication follows:

#### SO IS EVERYONE ELSE.

Paris, Aug. 9.—Those who have met Marshal Foch in the last few days are unanimous in declaring that he is in great good humor, according to La Liberte. Premier Clemenceau, who dined with the marshal yesterday, said he found him radiant and looking 20 years younger than when he had last seen him.

wood north thereof. North and northeast of this locality French troops made rapid progress, and realized an advance of more than four miles in the course of the day.

"On the front of the British fourth army the Canadian and Australian troops, with admirable dash, having captured the line of outer defences of Amiens, advanced beyond them to a

depth of two miles after severe fighting at a number of points. "Before evening the French and British troops had reached the general line of Plerrepoint, Arvillers, Rosieres, Rainecourt and Morcourt. "Fighting is still continuing on this line.

"North of the Somme local fighting is reported.

"The number of prisoners has reached 17,000 and between 200 and 300 guns have been taken, including railway guns of heavy calibre.

"French mortars and machine guns have been captured in large numbers and also immense quantities of stores and materials of all descriptions, including a complete railway train and other rolling stock.

"Our casualties yesterday were extremely light."

### ALLIES SWEEP GERMANS BACK ACROSS PLAINS OF PICARDY

#### Under Pressure of British and French Troops the Entire Montdidier Sector May Have to Be Abandoned—Many More Villages and Innumerable Guns Captured.

Over a curving front of more than twenty miles the British and French troops are continuing to sweep back the Germans across the Plains of Picardy from the region north of the Somme east of Morlanouet to the eastern bank of the Avre northwest of Montdidier.

As on the first day of the offensive, material progress was made over the entire battlefield. Many additional villages were captured; the bag of prisoners was largely increased; numerous guns and great quantities of war stores were taken, and heavy casualties were inflicted on the enemy by tanks, armored motor cars, the cavalrymen and the infantry. The losses sustained by the Anglo-French forces are declared to be relatively small. To the allied forces there have fallen 17,000 German prisoners and between 200 and 300 guns, many of them of heavy calibre and innumerable machine guns, trench mortars and kindred small weapons.

Ground Ceded in North. To the north of the Picardy theatre the Germans also have given ground on two important sectors—on the famous Lys salient, northwest of La Bassée, and on the equally famous West of Ypres on the equally famous battlefield north of Kemmel. On the Lys sector territory over a front of more than seven miles was evacuated by the enemy, while to the north of Kemmel the British advanced their line over a front exceeding 1,000 yards.

These manoeuvres on the part of the Germans seemingly indicate that they are considering their ground insecure in the face of the heavy forces General Haig is known to have in both

regions to ward off any attempt to reach the channel ports, or that Crown Prince Rupprecht's army has been materially decreased in strength to rush reinforcements to the battle zones where the German army's main south are being sorely harassed.

Deep Penetration. Already having penetrated the Picardy salient to a depth of nearly 13 miles in the centre towards the vicinity of the important railroad junction of Chaules and at other points along the arc pushed forward between five and seven miles, the northern and southern flanks of the battlefield, where the Germans had been resisting desperately, gave way before the pressure respectively of the British and French.

On the north the British captured Morlanouet and pressed on eastward, while on the south, northwest of Montdidier, Plerrepoint, Contoire and Arvillers were taken by the French, who drove in their wedge to a distance of more than eight and one-half miles.

Germans to Run. The tanks, armored cars, and cavalry are still working throughout the entire region, while airplanes are soaring far behind the lines, bombing transport and troop movements and also paying particular attention to the bridges over the Somme by which the enemy is endeavoring to escape from their advancing foes. All behind the line the Germans are destroying the ammunition depots as they quit their positions.

With the new turn of events Montdidier is in an uncomfortable position, with the allies hammering away cross-fire at the Germans holding it and with the only railroad leading into the town also under their guns. A forced evacuation of the town seems not

improbable. In fact, with further pressure eastward by the allies between the Somme and the Avre and ward against the Germans from the line running northwestward from Soissons it is not outside the realm of possibility that the entire Montdidier salient will have to be abandoned.

There has been little fighting of great moment on the Vesle River, except in the nature of reciprocal artillery duels. The Americans, however, have made another crossing of the Vesle and captured the village of Fismette, northwest of Fismes.

#### P.A.Y.E. STREET CARS ARE EXPECTED SOON

Management of T.S.R. Has Abandoned Idea of Employing Women as Conductors.

The Toronto Railway Company's new pay-as-you-enter cars are rapidly nearing completion, and it is thought they will be in operation—probably on Yonge street—in a month's time. War conditions in the United States are responsible for the delay in receiving some of the necessary fittings. However, they may be along any time now. The special miniature engines which open and close the doors of the cars have also been delayed, but they, too, are expected shortly.

As far as the management of the company is concerned, the idea of employing women as conductors has been abandoned, largely as a result of the men's attitude on the matter. The final decision as to whether they will be employed or not rests with the board of directors, and that body has not yet met to discuss it.

### Chaules Junction May Fall

#### Eyes of Allies Are Fixed on Important Railway Centre.

#### FIGHTING AT CHIPILLY

#### Thousands of Germans Laid Down Their Arms on Peronne Road.

London, Aug. 9.—The present advance here already had an important effect upon the strategic situation. German forces at Montdidier are now in a very unprofitable salient, with only one line of railway to supply them, and that line under cross-fire from allied guns.

It seems likely that a withdrawal from Montdidier may be necessary if the Germans cannot force the French and British back from the ground taken by them during the past two days.

Another important result of the advance is that it has freed the main Paris-Amiens railway for use by the allies again. This line heretofore has been within easy range of the German guns, and the restriction thus placed on its use has been a considerable handicap to allied communications. A similar freeing of the Paris-Verdun line was one of the first important results of the recent advance on the Marne.

#### In Narrow Triangle.

Most of the prisoners and guns captured by the British were taken in the narrow triangle between the Roye and Peronne roads. British tanks advanced with great rapidity up the roads. They were followed promptly by infantry, and thousands of Germans within the triangle found themselves well behind the British line when the attack reached them, so they laid down their arms.

The most of the captured guns were also gathered up in this triangle, which contained some of the best German gun positions in the whole front facing Amiens.

After Chaules Junction, which is most important from the point of view of transport, is now the objective upon which the eyes of the allies are fixed. It is already under constant artillery fire, and its fall would be embarrassing to the Germans over a wide area.

There was very heavy fighting today around Chipilly, on the north bank of the Somme, where the Germans were trying to hold up the British advance by striking a determined blow at the advancing troops. The British did not succeed in holding all the ground they had gained in this district, but meanwhile the advance continues further southward, and the situation around Chaules is becoming more dubious for the Germans.

#### ITALIANS BOMB POLA IN AERIAL OPERATIONS

Rome, Aug. 1.—The official communication issued by the war office today says:

"Yesterday morning enemy detachments twice attacked the Col del Rosso salient, but were repulsed. "We have bombed the military establishments at Pola, near Trent. Two hostile machines were brought down."

### GERMANS ABANDONING STORES IN GREAT HASTE TO RETREAT

#### Allied Cavalry and Tanks Run Over the Country, Causing Heavy Casualties, While the Enemy in His Hurry Abandons Everything, Including Maps.

With the British Army in France, Aug. 9, 4 p.m.—The British and French divisions have gained more ground in the great battle raging in the Amiens-Somme district. The latest reports appear to show the Germans are retiring in great haste.

The scenes on the battlefield over which the allies already have passed give evidence of this haste in abandoned guns, stores and even regimental and artillery maps and papers.

Aerial observers report large streams of transport and men hurrying southwestward in full retreat. "Baiscourt fell to the allied forces this morning and Le Queval also was taken after hot all night fighting.

The cavalry is working far back toward the Somme and is still rounding up villages, while tanks and armored cars are running over the country, clearing a way for the troops or killing horses drawing enemy supplies. The drivers of motor trucks and lorries are chasing parties of Germans here and there, scattering them or running them to earth.

Work of Armored Cars. The details of some of the work of these armored cars show that they have performed valiant services. One of them ran into a German held town yesterday afternoon while the German corps stationed there was having lunch. It turned, its gun thru the corps quarter windows, killed some of the staff and then chased others, who escaped from the house. At Rosieres another car set an enemy train on fire.

A group of cars met, far inside the enemy lines, a German supply column, and halted it. Four mounted German officers came up to see what the trouble was and were shot from the cars, which then proceeded to make quick work of the column.

At Framerville the cars engaged a train loaded with the enemy and finally set it afire. Tanks entered this town soon afterwards, helped the armored cars to clean it up and then hoisted flags on the roof of the building which had been German corps headquarters.

One car met a high German officer riding in an automobile along the road. The scene at Bayonvillers today is typical of the rest of the battle area. Broad fields of crops or brown grass fringe the town and spread for miles over the flat surrounding country. Abandoned German field guns are lying here and there, telling the story of what happened. Lying off on the side of the road are enemy motor trucks, one of them with a trailer filled with artillery maps, some of the headquarters staff could not save.

The guns abandoned here, as elsewhere, are in shallow pits three feet deep. Little holes nearby, covered with curved iron slabs, show where the German gunners lived before they

#### THE FRENCH STATEMENT

"Continuing our advance on the right, the forces of the British and our own troops won new successes today after having broken the resistance of the enemy. We have captured the Villages of Plerrepoint, Contoire and Hangest-en-Santerre.

"Beyond the railway east of Hangest we have reached Arvillers, which is in our possession. Our progress in this direction has reached fourteen kilometres in depth.

"Besides considerable material, which has not yet been enumerated, we have made on our part 4,000 prisoners. Our losses and those of our British allies are particularly light.

"On the Vesle American troops captured Fismette, where they took a hundred prisoners."

The officer was killed and his machine captured.

All along the line this afternoon snipers and isolated machine gun bullets were extremely busy, but these were being silenced one by one as the advance proceeded.

It is reported that two regimental commanders have been captured in one sector.

Since daybreak the Germans have been making an extraordinary effort to blow up with field gun fire ammunition and other dumps which they had to leave so hastily yesterday. Their aim was exceedingly poor.

#### Typical Scene.

The scene at Bayonvillers today is typical of the rest of the battle area. Broad fields of crops or brown grass fringe the town and spread for miles over the flat surrounding country. Abandoned German field guns are lying here and there, telling the story of what happened. Lying off on the side of the road are enemy motor trucks, one of them with a trailer filled with artillery maps, some of the headquarters staff could not save.

The guns abandoned here, as elsewhere, are in shallow pits three feet deep. Little holes nearby, covered with curved iron slabs, show where the German gunners lived before they

were killed or ran to save themselves.

Harbonnieres, nearby, was shelled to pieces. The gaunt walls show the accuracy of the British artillery fire. Debris lies all over the streets, which bear little signs upon which German names had been written. Here the allied forces found the house which the German mayor of the town had occupied. The whole top had been knocked off and several shells had hit the walls, but there were evidences that the mayor had stayed until the last moment in a room on the ground floor.

#### Trail of Tanks.

Further southward the ground here and there had been ploughed by the shells, and the bodies of men and horses were lying where they fell. In some places machine gun nests were found, which had been put out of action either by artillery, tanks, infantry or armored cars. In one a machine gun which had been put out of business was lying over on its side, while scattered around were the bodies of the Germans who attended it. Apparently they had tried to escape, but were prevented by a tank.

In the wheat fields, of course, the bodies of the dead could not be seen, but in many open places the ground was dotted with German corpses.

The allies inflicted severe punishment as they advanced. In some sections this morning burial parties had already passed thru, but in others the dead are yet untouched. The allied casualties, according to the reports, were extremely light. For instance, one battalion in the thickest of the fighting had only six men killed and four officers and sixty men wounded during an advance of eleven miles. These men were tired when they finished the task before them, but today they pushed forward again.

#### Stoutest Resistance.

In the north it appeared that the stoutest resistance developed, the Germans firing a great number of shells, especially across the Somme in the region of Chipilly. However, Warfusse, Abancourt, Bayonvillers and Harbonnieres are in the control of the British.

The German trenches throughout the whole length of the front were extremely narrow and poorly constructed. This certainly was not caused by lack of material, all kinds of which are being discovered and used by the advancing French and British forces. Aside from the loss of ground and men, this large abandonment of material is certainly the most serious to the enemy.

The allied aircraft today heavily bombed the Germans and carried out a great number of other flights, observing the enemy's movements and keeping his machines within the German lines. This afternoon the absence of German planes was especially marked.

The British and French guns hammered away at the enemy all day, moving forward whenever required. But few German shells were coming in.

#### AMERICANS CAPTURE FISMETTE VILLAGE

Paris, Aug. 9.—American troops on the north bank of the Vesle River, have captured the Village of Fismette, a short distance northwest of Fismes. The village they took 100 prisoners.

#### GREAT ARTILLERY DUEL. Austrians Report Firing in Great Strength in Seven Communes.

Vienna, Aug. 9, via London.—"In the seven communes the artillery duel has increased to great strength," says the official communication issued from Austrian headquarters today. In Albania the fighting has died down."

### British and French Win New Successes

#### Progress East of Hangest Has Reached Nine Miles in Depth and Three Villages Are Taken.

Paris, Aug. 9.—Continuing the advance on the right southeast of Amiens, British and French troops today won new successes after having broken the resistance of the enemy. They captured the Villages of Plerrepoint, Contoire and Hangest-en-Santerre.

Beyond the railway east of Hangest they have reached Arvillers, which is in French possession. The progress in this direction has reached fourteen kilometres in depth.

Besides considerable material, which has not yet been enumerated, the French troops have taken 4,000 prisoners. The losses of the French and also those of the British are particularly light.

## Announcing "JIFFY-ALL" the New Kind of Overall

### Water-proof, Oil-proof, Grease-proof, Acid-proof "Fits Anybody---Fit for Anybody"

The "Jiffy-All" was brought out by a New York Corporation to overcome some of the shortcomings of the ordinary overall. Among the chief things that the "Jiffy-All" obviates is the warmness of an entirely enclosed overall, the great time and trouble it takes to put it on and off, the ruining of clothes due to liquids soaking through and the great expense of constant laundering. Being made of a specially prepared fabric that can easily be sponged off, the "Jiffy-All" never has to be laundered. It may be washed off with either water or gasoline.

There are no seams in the "Jiffy-All," therefore, no breaking out at the seat or seams. The seat consists of two large flaps that overlap. When you bend there is no strain on the seat because it is open around the inner part of the leg.

There is not an inch of unnecessary material in the "Jiffy-All." It is very light in weight and folds up into a small and compact package that can be carried in the tool box or placed under the seat of an auto.

Remember, the "Jiffy-All" protects better, looks better, serves better, than the ordinary overall, and further, that it fits women as well as men. It's just the thing for automobile owners, chauffeurs, engineers, chemists, photographers, tradesmen, mechanics, gardeners, painters, farmerettes---for any man or woman who wants a protection quickly with practically no bother.

They are in all sizes from 29 to 43 and are priced at

### WILL NOT RELEGATE POWER TO OUTSIDERS

Mayor Church Replies to Letter From H. Hartley Dewart Regarding Riot Investigation.

Mayor Church announced yesterday that the board of police commissioners had no intention of relegating its powers to any outside authority, and was perfectly competent to conduct an inquiry into the complaints made as a result of the recent riots. H. H. Dewart, K.C., counsel for the G. W. V.A., had suggested the appointment of a high court judge to conduct the investigation, but the mayor is not favorable to this. It is claimed by Mr. Dewart that it was never contemplated that the powers of the police commissioners should be stretched to extend to a wide inquiry into the whole matter, including the agitation and other circumstances preceding the disturbances.

Mr. Dewart also adds: "It is abundantly clear also that even if the board had the power to enter upon such a wide inquiry, it would require more time to go into the matter systematically and thoroughly and apportion the blame, if any, on various classes, such as aliens, returned soldiers in uniform, returned men out of uniform, members of the Great War Veterans' Association, civilians and police, than the members of the board of police commissioners can reasonably give, consistently with the performance of their other duties. It may also occur to you in the event of irregularities being proved against members of the police force, those proximately guilty of them may take refuge in in-

structions alleged to have been given to them by the chief magistrate of the city, and that the whole conduct of the chief magistrate is equally a subject of inquiry."

There were about 800 children present who took part in singing and scripture contests were held and in these Parliament Street won in nearly every case. There were also field sports.

### DRANK HAIR TONIC.

James Terry, appeared before Magistrate Denison yesterday morning charged with having liquor on his person, said liquor being a bottle of hair tonic. He said he had got it to drink.

Crown Attorney Corley expressed great indignation that druggists are allowed to sell the hair tonic as a beverage. Terry was fined \$200 and costs or three months.

### CHANGE STREET NAME.

The suggestion has been received by Mayor Church that Lansdowne avenue be changed to Currie avenue in honor of Col. John A. Currie. The mayor agrees with Donald C. MacGregor that a change should be made because the street bears the name of a pacifist.

### POLICE ARE FINDING GOODS TAKEN IN RIOT

In connection with the looting of the restaurants and cafes destroyed during the recent riots, considerable information regarding the disposition of the goods has been coming into police headquarters. While no one has yet been arrested on the charge of theft, there are several persons now in custody on whom the more serious charge may be laid. It is understood that the police are recovering much of the stolen goods.

Early on Saturday morning the police arrested a number of the looters in a motor car, and after placing the prisoners in the patrol wagon took them to Court street station. On arrival at the station, after searching the prisoners for loot it was discovered that the men had dumped all of it on the floor of the patrol wagon.

### ASK FOR ASSURANCE FROM THE GOVERNMENT

A deputation of grape growers and wine manufacturers appeared before Sir William Hearst yesterday morning regarding the sale of native wines in the province. The deputation was headed by Dr. Musgrove, M. L. A., Niagara Falls; Dr. Jessop, M. L. A., St. Catharines; and J. T. H. Regan, M. L. A., South Wentworth, who pointed out that the wine manufacturers did not want to purchase any grapes until they were given the assurance that they would be allowed to sell native wines after December 31, date fixed by the federal government for the cessation of the manufacture of all liquors, including wines.

The premier promised the delegation he would give the matter very careful consideration. He will probably consult the license board, but in any case special legislation would be necessary before the province could stop the sale of the wine. An order from the Ottawa authorities could prevent the sale, but it is not at all likely that Ottawa will interfere in a purely provincial matter.

### ARTILLERYMEN ON LEAVE.

Troops From Petawawa Camp Have Five Days in Toronto. Artillerymen to the number of 200 are now in Toronto from Petawawa Camp on five days' leave. They arrived in Toronto at 8.30 yesterday morning on a special troop train. They are due back at their camp on Tuesday. The time spent in traveling down from the north will not be counted in their leave, but they must return, however, in their own time. Four of the 15 batteries at present at Petawawa are composed of Toronto men, these being the 67th, 69th, 70th and 71st.

### ASSESSMENT LOWERED BECAUSE OF SMELLS

The court of revision yesterday reduced the assessment of 4½ acres on land on Eastern avenue to \$55 because of the representations made that smells and sewage sludge from the east end septic tanks were unbearable. Several other reductions in the district were also made for the same reason. The assessment department did not think the smells sufficiently bad to justify the reductions. The city has a number of tenants in the neighborhood and they had not moved because of the smells.

The International Varnish Company was given a reduction of \$1000 an acre on three acres on Carlaw avenue, assessed at \$16,000 an acre. The assessment at the rate of \$17,000 an acre on land owned by W. H. Banfield and Sons on Pape avenue was reduced to \$15,000.

### DAMAGE CLAIMS MOUNTING HIGHER

Latest Reports Estimate Cost at Seventy-Five Thousand Dollars.

### CAFES TO OPEN AGAIN

Secretary of Retail Merchants Says Full Investigation to Be Made.

Latest reports on the recent raids on city restaurants show that the total damage will amount to about \$75,000. W. C. Miller, secretary of the Retail Merchants' Association, is still busy on the estimates and states that most of the damage was upon coffee-urns, marble tables and mirrors. Electric fans and urns in many instances were broken beyond repair. No less than 24 fans were stolen from one firm. In one case the Victrola was left and 200 records taken.

In the New London Cafe cigars and cigarettes were cleaned out to the extent of \$400, besides tablecloths and crusts and \$75 in cash from the cash-register. The Palace Cafe had its cash-register destroyed and cash taken to the amount of \$125. In addition five ten dollar gold pieces that the proprietor was saving to give to his children were taken. In the same cafe cigars and tobacco to the amount of \$400 were abstracted. In the mezzanine of the cafe, and other articles were conveyed away in motor cars, motor trucks and motor deliveries, these being the quickest method of transportation.

"I have taken the matter up with the mayor," said Mr. Miller, "and he has instructed me to file the list of claims which I am now getting, with the city solicitor." Mr. Miller stated that when the trouble arose he rang up the cafe and restaurant keepers and advised as many as possible to close up. By so doing he feels that a good deal of what might have been further damage was averted. All the proprietors in questions are members of the hotel and restaurant section of the Retail Merchants' Association, and those who were not naturalized citizens or not.

Women Took Goods. It is reported that women were recipients of stolen goods, said the secretary. An opportunity is now being given for return of goods that were taken in the excitement of the moment. These may be returned to the police authorities at the city hall. In addition to claims from the merchants it is expected that property-holders will also file claims for damages.

With the exception of two, the cafes have now sufficiently recovered to be in a position to renew business activities and as the mayor has promised adequate police protection they have been advised by the association to re-open. Regarding the action of

police, Mr. Miller is of the opinion they were practically helpless on account of a number being on holidays and overseas and from the fact that they were not anticipating trouble. He is convinced that on Friday night they handled the situation to the best of their ability and with due regard to discretion.

While in Ottawa, where he has just returned, Mr. Miller took up the matter with the Dominion authorities and believes that when it is taken up by the police commissioners, there will be an investigation and the matter gone into fully.

### NEIGHBORS DID NOT PRESS THE CHARGE

Fred Vivian, Scarborough Junction, was charged in the county police court yesterday with letting his cattle run at large. Several of his neighbors appeared against him, but as they did not want the defendant punished the magistrate let him go on suspended sentence.

Mrs. Minnie Shepherd, 11 Redhill avenue, was charged with assaulting Mrs. Rosie M. Martin, 13 Redhill avenue. The trouble appeared to have arisen over the children fighting. The magistrate found the defendant guilty and let her go on suspended sentence. It was alleged that Mrs. Fanny Vansant, 2 Mulberry street, was trespassing on the property of her brother, George Coates, 4 Mulberry street. She was let go on suspended sentence.

The motorists fined were: F. A. Green, 15 Thornburn avenue, \$9.25; H. Hunter, 568 Markham street, \$9.25; B. Ryan, 85 East Front street, \$7.25; Simon and Brother, 1544 West Queen street, \$9.25; A. The board had requested the licensed vendors some time ago to make monthly returns, altho the law does not oblige them to do so. No reports have as yet been received from the Toronto vendors, the Hamilton reports show that 19 doctors issued over 50 prescriptions each, 10 of them having issued over 100 each. In London the figures show that 15 doctors issued over 50 prescriptions each, and four of these issued over 100 prescriptions each.

### 2000 BLOOR WEST PHONE JUNCTION 444

### MISTAKES ABOUT AGE WILL BE CORRECTED

Alleged errors in age stated in claims for exemption from military service is a matter regarding which an announcement from the government was made yesterday thru Toronto military headquarters. An order-in-council of May 3 had laid down the rule that the age a man gave at the time of registration should be counted as conclusive proof. In the announcement received yesterday it is stated that as that order-in-council referred only to Class 1 as defined under the Military Service Act, whenever proof is adduced that the man concerned was not on October 15, 1917, of the age of 20 years the store-mentioned order-in-council does not apply, and he will be struck off the strength of the unit to which he has been attached as "erroneously ordered to report." The registrar is to be notified of that effect.

Proof of age by an official certificate should ordinarily be insisted upon, but where the certificate cannot be obtained the commanding officer of a unit should accept other evidence, such as an entry in a family Bible or statutory declaration by the father of mother. Other evidence will be accepted if the commanding officer is satisfied.

### MAY SEVER CONNECTION.

Central G. W. V. A. May Secede From York District. The Central Branch G. W. V. A. may secede from the York district executive, but it intends to keep to the agreement entered into with the central advisory board at the Carlton Street Club, to take no action for at least two months after the agreement was accepted. The two months has nearly expired. When the time limit has been reached the executive of the branch may take action. The meeting of the branch will be held next Monday.

### FORM ADVISORY BOARD.

West Toronto G.W.V.A. is sending a letter to all the other branches asking them to consider a plan to form an advisory board in place of the present organization of the York District executive committee. The secretary, G. V. Gustar, stated yesterday that it is the best to investigate the present difficulties within the executive committee and to act upon the findings of the special committee appointed for that purpose.

### CLAIMS MORE ALLOWANCE.

Sergt. F. C. Hill, late of No. 2 Special Service Company, who was discharged from the army two weeks ago, stated yesterday that the military authorities had refused to give him the \$5 for a new suit and overcoat to which he claimed he was entitled under the new military order. He has received only \$3.

### EAST YORK HAS BAND.

The East York Military Band of which William Goldsmith is the bandmaster is progressing apace. Among the latest additions to its membership is Walter E. Macgregor, chairman of the entertainment committee of Riverdale Branch, G. W. V. A. Several other members of this branch have joined.

### PART OF HIGHWAY OPEN.

The chief engineer of the Toronto-Hamilton Highway Commission announced that the temporary bridge over Mimico Creek was opened for traffic yesterday. This allows a thru traffic as far as Long Branch. The bridge over the Etobicoke Creek will remain closed for about three weeks. Thru traffic may go as far as Stop 99 on the highway and then turn north to the Middle road west to Dixie road and south to the highway again. Another route is to go out Dundas street as far as Cookville and then south to the highway.

### CHEQUE FOR FIREMEN

### Girlish, Wrinkle-Free Skin Easy to Have

### WAR VETERANS ATTEMPT TO GET RETRIAL FOR MEN

Not Satisfied With Manner in Which Alleged Rioters Were Sentenced.

Geo. Murrell, secretary of the central branch G. W. V. A., stated yesterday afternoon that the branch was far from satisfied with the trial and sentence of the men in khaki who were alleged to have been implicated in the recent riots. The branch has engaged William Roebuck of the firm of Crooks and Cameron, to take up this and other matters with the minister of justice. Mr. Roebuck on behalf of the central branch stated that he had received every assurance from Col. Bekford, D.O.C. for the Toronto district, that the men in khaki would be tried by court-martial, and not by the civil authorities. The court-martial, Col. Bekford had said, would comprise officers who had seen service overseas.

"When the men were tried by the civil authorities, and given sentences ranging from six months to a year, they were not given proper representation at the court," said Mr. Roebuck. "They had no counsel to represent them, and were given no chance to get bail. At least, this was the case with some of them. Others were successful, and were able to get leading counsel on their behalf. In respect of the question of their guilt or innocence, they are entitled to fair justice."

Mr. Roebuck stated that he understood that the military authorities were incensed at the action of the civil authorities in traveling the streets of the city in uniform from the military to civil jurisdiction.

### PLAYS PICTURES AND MUSIC.

"Seven Keys to Baldpate." The more sincerely one enjoys the thrills of genuine melodrama, the more surely and keenly will one realize the frankly fearless hilarity fun of George M. Cohan's master mystery farce comedy, "Seven Keys to Baldpate" which Edward H. Robins and his players are presenting at the Royal Alexandra Theatre next week. This is the comedy which really made the Robins Players famous, for it was with this comedy that Edward H. Robins introduced his players to local theatregoers four seasons ago. So popular did the comedy prove then it had to be repeated the next season, still the patrons did not seem to weary of it and since then Mr. Robins has at least received a dozen requests a week that he give this play one more presentation and this he has decided to do next week.

Shea's Opening Week. On next Monday afternoon Shea's Theatre will reopen for the 1918-19 season, presenting an all-star bill of the same high standard which has characterized the offerings at Shea's Theatre for so many years. Johnny Broderick and Yvette Ruzel with an entirely new act will head the bill while Santi, presenting a cycle of oriental dances, will also be a feature. Bonnie Browning is a dainty singing comedienne with an assortment of new songs while "Somewhere in France," a dramatic sketch, has many thrilling situations. Officer Vokes and his inebriated canine "Don" will provoke plenty of laughter, while Brennan's comical, black-faced comedians Van and Belle in the pleasing sketch "Noah's Ark" and Bert and Lottie Walton are also included in this excellent bill for opening week.

At the Hippodrome. A thrilling story of the wonderful work of the Royal Northwest Mounted Police in Canadian-Alaska border is "Ace High" the five-part feature produced by William Fox and starring Tom Mix, greatest of all western characters. This afternoon a pretty love story runs through the piece. The eight variety dancers will present a revue of new and old-time dances while Ben Harney sings and coped songs in a manner that is all his own. Viola Lewis and her chums present a series of new and old-time dances while Ben Harney sings and coped songs in a manner that is all his own. Viola Lewis and her chums present a series of new and old-time dances while Ben Harney sings and coped songs in a manner that is all his own.

The chaps, runs and cow pony are laid aside in "Shark Monroe," featuring William S. Hart at Loew's Theatre and Winter Garden. The wheel, compass and sextant have taken their places. Hart is seen as the master of a sailing schooner, The Sorrento Quinet, in a repertoire of the choicest operatic and popular selections, will head the vaudeville. The Larimer-Rudson troupe, comedy cyclists and jugglers, have an act that is put of the ordinary. The O'Neill Sisters are versatile performers. Irving and Ward, the nifty funmakers, are comedians of ability, while Hall and Guilda, singing and dancing comedians, specialize in torch-songs that are new. Glenn and Jennie will be seen in a new act called "The Street Musician," which is said to be a hummer for fun. The "Mutt and Jeff" animated cartoons and Loew's Wives.

"Step Lively, Girls," with a show practically new in every detail, will come to the Gayety Theatre as the opening attraction on Monday. A two-act farcetta called "The Advanced Hotel" has been provided and is said to contain an abundance of those features that constitute a rattling good entertainment of this kind. Witty dialogue and exceedingly funny scenes and situations are said to have been provided in abundance. These are punctuated at frequent intervals with lively musical numbers and vaudeville specialties that keep the performance moving rapidly from beginning to end.

costumes such as you never in all your life laid eyes on, a company of headline comedians and comedienne, a cibus of twenty vivacious beautiful damsels and a special musical director represent the outfit of the Monday, "Speedway Girls" the amazing big burlesque knockout that will be the jam-to capacity attraction at the Star Theatre next week. For speed, snap, dash and all around bigness and superiority the "Speedway Girls" has anything in the burlesque field piled into insignificance.

At the Strand. Those who have not yet seen Charles Ray in the very striking Paramount photodrama, "Playing the Game," which is forming the feature at the Strand Theatre for the latter half of this week, should make sure of seeing it today. For Monday, Tuesday and Wednesday next the feature at the Strand will be the five-act Metro screen drama of romance and the great southwest entitled, "The Only Road," with the beautiful and bewitching Viola Dana in the principal part. In the course of the photoplay Viola Dana dances a fandango in most spirited style.

Madge Kennedy at Regent. Admirees of the little comedienne, Madge Kennedy, who are familiar with her many successes this season, will know at once how entertaining she will be at the Regent next week in a story with the title "Friend Highway." The name alone suggests fun and amusement. To marry a man on agreement in order to obtain an inheritance and then to find that he had no intention of keeping the bargain but was deeply in love is one of the strange experiences Miss Madge interprets. The Regent's Graphic current news events, the famous Regent orchestra and other interesting features should commend the program to everybody.

Mae Marsh at Madison. In "The Glorious Adventure," her newest Goldwyn vehicle in which she will be seen on Monday, Tuesday and Wednesday next, Mae Marsh has a role after her own heart. She takes the part of a girl who seeks, and finds, romance on the open road.

Hanlan's Point. Toronto will have the pleasure of hearing the famous 1st Regiment Band of New York City for two weeks commencing this afternoon at Hanlan's Point where they will open a two weeks' engagement. This is the first time this band has ever left the United States since it was organized long before the Civil War, and the visit they are making now is only possible owing to the friendly relations between the two countries at present. Lt. Lambert Eben, the conductor, promises some fine programs.

"The Naughty Wife." For his closing week of the present season Edward H. Robins and his players will present at the Royal Alexandra Theatre the latest of New York's comedy successes, "The Naughty Wife." This comedy enjoyed a run of nearly six months at the hands of the Robins Players week of August 19.

The Result of Lloyd George's Organization

We shall probably hear this morning that Chaulnes has been taken. This will mark the advance which the enemy must concede to be vital.

There was studied method in the time and the substance of Premier Lloyd George's speech on Thursday. For the first time in any degree of detail he recounted the achievements of Britain in organizing victory.

Premier Lloyd George has had much to do with the organization of victory. Scarcely a department has not felt his hand.

The army was possibly the most difficult task of all. The war office conditions were a great deal worse than the laws of the Medes and Persians, which are long ago extinct.

The changes in war are very swift, and it is scarcely credible to some that the overthrow of the whole German power is quite possible.

Mutual Obligations of Soldiers and Citizens

A correspondent writes, in view of the recent riots, to point out that for some time past the attitude of the public has been affected towards the returned soldiers by the conduct of some of the returned men.

"Every returned soldier who has not a home in Toronto should at once be sent away from here, unless he is having hospital treatment, or being fitted out with limbs.

### Home comfort in all weathers

A poor furnace well installed might give satisfaction for a time. But a good furnace poorly installed can never be successful, while a good furnace properly installed will give best results from the day it is fired up.

The Sunshine Furnace, installed the McClary way, is guaranteed by McClarys to warm every room in your house—to warm it with the right quality, as well as quantity, of heat, to make your home healthy, pleasant and enjoyable in all weathers.

And it is to do these things a furnace is for—those are the results which mark the successful furnace. The furnace that fails to do them all the time is only a nuisance.

The Sunshine Furnace is a never failing source of pleasure, satisfaction and home comfort.

Engineering Service Free. McClary's own heating engineers are at your service when you buy a Sunshine Furnace, to give you free expert advice on your home-heating requirements. Write to the nearest McClary Branch and ask for particulars about this service. A booklet, "Comfort in the Home," makes clear all the things you want to know about furnaces, and it is sent free on request.

### MAJOR HUME BLAKE GOES TO HOLLAND

To Represent Red Cross Society and Help Canadian Interned.

The Canadian Red Cross Society has sent Major Hume Blake as a special representative of the society to Holland to endeavor to better the conditions of Canadian Interned there. It is satisfactory to learn that also some

of the prisoners have undoubtedly suffered hardship in Holland, others have had a more satisfactory experience. A Canadian prisoner of the 29th Battalion writes, as follows:

"Dear Sister:—Here I am at last, but even at that I am ahead of when I expected. I did not tell any of you that I expected to be exchanged so soon, in case that thru some accident I might have been missed and then it would have been such a disappointment to you. I sent mother a postcard just after I crossed the frontier and I suppose they won't know what to make of it for I don't suppose they were expecting anything like that.

We are billeted in some of the most beautiful barracks that ever I have seen, fitted up with every modern convenience possible to mention—from new beds with new mattresses, woolen blankets (white), with sheets and pillows and pillow cases. (Is it a dream?) to gas heated tubs and shower baths, gas ranges where we can do any extra cooking. Also writing room and library—and the greatest of all—free footings—go where you please from 2 p.m. to 10.30 p.m. and later if you wish to apply for a free pass. Thank God it is impossible for you to understand just what this means to us poor devils after our long time in the prison camps of the Devil and his Imps. We are living just at The Hague, and this is one of the most beautiful places imaginable, with its lovely sandy beaches and canals running everywhere thru the towns and country. I will be able to tell you more about it after I have been able to have a look around and get acquainted with the place. Mal Stewart is with me, also Corporal Henderson and Girling, who have been with me all along. We met one of our old sergeants that was captured with me and there is an officer here also who was taken with me, but I have not been able to see him yet.

CHOLERA INFANTUM  
Cholera Infantum is one of the fatal ailments of childhood. It is a trouble that comes on suddenly, especially during the summer months, and unless prompt action is taken the little one may soon be beyond aid. Baby's Own Tablets are an ideal medicine in warding off this trouble. They regulate the bowels and sweeten the stomach, and thus prevent all the dreaded summer complaints. Concerning them Mrs. Fred Rose, South Bay, Ont. says: "I feel Baby's Own Tablets saved the life of our baby when she had cholera infantum, and I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

### RETURNED SOLDIERS CHEER WAR PICTURE

Every Veteran in Toronto Will Be Guest at Allen During Next Two Weeks.

More than 60 returned veterans from the Spadina military hospital were guests of the management of the Allen Theatre yesterday to see D. W. Griffith's latest triumph, "Hearts of the World." This is the first group of returned heroes from the various military hospitals in the city who will be guests at the showing of the production. Director Luigi Romagnolo, Thru the courtesy of the Toronto Street Railway Company, the boys were carried to and from the performance in a special car. They arrived in the theatre 15 minutes before the start of the performance, and kept the audience on the edge of their seats by singing many popular songs of the trenches. The best proof of the good singing of the veterans was the outburst of applause from the audience after each song.

Just before the opening of the picture, Director Luigi Romagnolo, the Allen orchestra provided an extra entertainment for the boys by playing "Pack All Your Troubles in Your Old Kit Bag" and "Keep the Home Fires Burning." Mr. Romagnolo received a warm hand for his selections.

The boys chorally enjoyed their picture, as was shown by their warm applause and enthusiasm throughout the entire showing. After the first act, when the Germans are found in possession of the village, and the French begin preparations for a huge attack, one of the veterans remarked: "I wish they would not have five minutes' intermission between the two acts, for we have to recapture that village before we go home tonight."

Another hero, recently returned from France, declared this to be the most realistic story of the war he has ever seen. Mr. Griffith has shown all of the latest methods of attack in this picture. His scenes in the trenches make me think of the many days that I spent in the front line, and when the boys go over the

REQUIEM MASS FOR HOSPITAL SHIP

Lieut.-Col. Father Workman is Celebrant in London Chapel.

Ottawa, Aug. 9.—A solemn requiem mass was celebrated in St. Etheldreda's (13th century chapel of the Bishop of Ely), London, for the victims of the Canadian hospital ship the Llandovery Castle, ruthlessly murdered by a German submarine at 9.30 on the night of June 27. The service was distinctly Canadian. The celebrant was Lieut.-Col. Father Workman, M.C., assistant director of chaplain services (R.C.) of Montreal, assisted by Major Rev. J. J. O'Gorman, Ottawa, and Captain W. J. Kelly, Toronto, as deacon and sub-deacon. Brig.-Gen. Bishop Keating, C.M.G., assistant principal chaplain of the British army, was present in the sanctuary with Major Father Day, D.E.O., as his chaplain. The sermon was preached by Captain Father Workman, Lieut. Chaplain, of Edmonton. The catafalque was draped with British and Canadian flags and covered with swords, C.M.C. cap, the nursing sisters' insignia. A guard of honor was under the command of Maj. MacDonnell, of the medical headquarters, London. Many nursing sisters and officers of the Canadian army medical corps were among the chief mourners, and the service was marked by an intensity of feeling which accentuated its deep significance and gripped the hearts of the congregation. Those who attended were Sir George Perley, high commissioner for Canada, and Lady Perley; Surgeon-General Sir Wm. Donovan, director of the Canadian medical services; Brig.-Gen. Ross, paymaster-general, and Mrs. Ross; Matron-in-chief MacDonnell, Canadian nursing services; C. Macdonald, officer who commanded the first Canadian hospital ship; Mr. and the Misses Donald; Col. GERMANS OVERTAKEN GATHERING IN WHEAT

Paris, Aug. 9.—The French war ministry at 12.30 o'clock today issued the following statement: "The brilliant operation which we, in concert with British troops, executed yesterday, has been a surprise for the enemy. As occurred in the offensive of July 18, the soldiers of Gen. Debénye have captured enemy soldiers engaged in the peaceful pursuit of harvesting the fields behind the German lines. "Our artillery preparation was short, lasting less than an hour. The enemy artillery had made no counter-preparation at the beginning of the action, merely replying feebly. "The original front of the attack was only four kilometers, situated south of the Amiens-Roye road, where our infantry went over the top at 6 o'clock but gradually the offensive developed all along the right bank of the Avre in the region of Hargicourt. "The French war official reports operations during the night as follows: "There is no change on the battle front south of the Somme. "During the night there was a good deal of activity on the part of the German artillery forces in the Champagne. The Germans undertook several raids in the regions of Frosses, the mountain without a sound or the delivery of any flour. "This action was taken by the Canada Food Board because Mr. Drolet continued to use substitutes in the manufacture of bread. It is the intention of the Canada Food Board to deal sternly with all bakers who do not use substitutes or who offend against the food board's regulations in other ways.

BRITISH YACHT SINKS GERMAN SUBMARINE

London, Aug. 9.—Details of the sinking of a German submarine by a British armed yacht in the English Channel are now available. Just after sunset one day a call for help was picked up by the yacht, which immediately headed in the direction indicated, diverting several steamers from the danger zone as she went. Half an hour later the vessel sighted the periscopes of a submarine, which was apparently preparing to attack merchantmen approaching from the opposite direction. The periscope was barely 150 feet from the port bow of the yacht. Full speed was at once ordered and the yacht dove right over the submarine just as the periscope disappeared, a distinct flash through the water pointed to the probability that she had rammed the enemy's conning tower. Two depth charges were dropped almost immediately afterwards. While bringing his vessel around to pass over the spot again the captain of the yacht observed a disturbance in the water, and as he approached there appeared in the centre of the disturbance a bubbling rush of water, evidently caused by volumes of air escaping to the surface. A third depth charge was dropped in the centre of the disturbance which presently died away. One survivor, covered with a thick coating of oil, was picked up. Everything possible was done for him aboard the yacht, but it soon became evident he had suffered serious internal injuries. He died about three hours later.
