4000 TROOPS NOW PRE ERVE ORDER IN ILLINOIS CAPITAL

Terribly Inhuman Scenes Witnessed in Streets, Where Race Rioters Shoot, Burn and Pillage ---Colored Population Flee in Terror From City.

SPRINGFIELD, Ill., Aug. 16 .- Order has been maintained to-day in this. the capital of the state, only by the presence of 4000 armed soldiers.

The race rioters who terrorized the city Friday night were held in general restraint on Saturday by the troops that were hurrled to the city, but on Saturday night an 80-year-old negro, Wm. Donigan, a cobbler, and respected as a simple and inoffensive citizen, was murdered in cold blood, without cause or excuse, by a mob.

His shop was within two blocks of the state house. In the absence of the patrol a mob set fire to the shop and the negro was compelled by the smoke to run into the street.

His appearance was greeted by a shower of stones and bricks. As he staggered under the fusilade he was seized and his throat cut. A rope was then run thru the wound and the victim bound to a tree. There he was

tim bound to a tree. There he was found later unconscious and all but dead. Death was a matter of hours only. A witness to the firing of the shop turned in an alarm, but when the firemen appeared the blaze was out. It had not gained much headway and had been extinguished by some of the cooler members of infantry and a troop of cavalry were rushed to the scene and at their appearance the crowd ran helter skelter down the street, scattering in all directions when they reached the capitol grounds. Six arrests were made.

Disturbance at Armory.

Coincident with the attack on Dondgan, a less serious disturbance occurred in front of the new state armory. A crowd gathered and threatened to storm the place wherein there were sheltered a number of negro refugees. Two companies of the Fourth Infantry and Troop B. of the cavalry came on the double quick and charged with bayonets leveled. As in the previous incident the mob fied precipitately at modern and all but too late to stop the lynching and devastation of property. Members of Gatling gun squad attacked and injured and Gatling gun seized by mob.

Mayor Reece rescued from mob in shower of stones and bricks and forced to fice for his life.

E. W. Chafin, prohibition candidate for president, struck on head with brick and seriously hurt.

"Burn down every negro home in city," is cry of crazed rioters.

Troops arrived from other cities and fired into the mob, injuring five.

From this time on alarms were frequent. Camp Lincoin, where a large number of the fugitive race were sheltered, reported the appearance of a mob and asked for more soldiers. General Young after consultation with Governor Deneen and Adjutant-General Scott ordered the camp abandoned. With two additional companies as guards the negroes were brought to the new arsenal. Spaulding, a suburb seven miles distant, where there are many colored miners, informed the governor that the blacks were threatening retaliatory measures. General oning retaliatory measures. It was the idea of the military authorities that more effective work could be done with the danger spots re-stricted as much as possible. Another factor in this connection was the large number of warnings of impending trouble. In no other line, however, has Scarboro Beach provided better entertainment than in the free open-air show, where the best performances in the vaudevile world are continually being presented. This week there will appear perhaps the greatest troupe of acrobats that has ever visited America. The Donazettas are a German attraction and promise to give the latest feath of the line of their art that have been developed in that school of aerial performances. Raven's Band will also give concerts.

Another feature at the Beach that has stood the test of a second season is the San Francisco Earthquake, which, as a model of realism, has never been equalled.

Wouldn't Clear Track.

BOSTON, Aug. 16.—During a fight on Atlantic-avenue early this morning between the crew of a train on the Union Freight Railroad, a local transfer line, and a number of Italians, Peter Needham, a switchman, was stabbed to death, Thomas Morse was probably fatally cut, and Thomas Curley, the engineer of the train, was slightly wounded.

The interior of the beautiful Gernan Lutheran Church, Bond-street, Bond-street, always appeals by its perfect symmetry to the artistic sense. This beauty of architectural effect was enriched yesterday by a lavish adornment by the ladies' society of church with bright bouquets and foliage plants. The event will be historic in the annals of the congregation, besidence of the train, was slightly wounded. The interior of the beautiful Gerprobably fatally cut, and Thomas plants. The event will be historic in Curley, the engineer of the train, was The railroad men claimed that the Italians obstructed the train, and that in an attempt to clear the track the Italians pulled knives.

In the morning the installation was conducted by the president of the Lutheran Canada Synod, Rev. H. Rembe, Hamilton. President Rembe's theme was love, the basic principle of individual Christian and church life, and the second of the control of the co NEW YORK, Aug. 15.—In an effort to escape paying five cents for a ride in the subway, a man believed to have been Edward J. Maher, was killed early to-day near Franklin-street, on the express track of the underground road. According to the story told by the ticket agent, Maher darted past the ticket agent, Maher darted past the ticket chopper without putting a ticket in the box, and hurried to the end of the platform and dashed thru the tube and disappeared in the darkness. Shortly after both ticket agent and the chapper started on a search with lantering for the missing man. A short distance down the tube his mangled body was found. The ticket agent, Jas. Devine, was arrested.

MONTREAL'S WATER SUPPLY. Fine New Pump Has Something Wron and Can't Be Operated.

MONTREAL, Aug. 16.—(Special.)-Montreal's famous 12,000,000 gallon Worthington pump, which was to revolutionize the city water supply, has broken down. It took about three years to build, and cost the city goodness knows how much. The delivery pipe has burst, and it is all up with the pump for a week, or less for more. In addition to this, one of the valves which let water from the aqueduct into the pumping station proper has become the pumping station proper has become wedged and cannot be opened.

OTTAWA, Aug. 15 .- (Special.) -- Ontario cricketers this afternoon easily beat Eastern Canada by 55 runs. Over night the westerners had scored 123

The easterners were got rid of for 107. Ontario did much better in their second venture and made 137 for 9 wickets by free cricket, when the in-

nings were declared closed. His display at the wicket was the feature of the match and tho he marred his performance by one or two chances, it was Southam who won the match, for the other Ontario batsmen fared

yery badly at the hands of the eastern bowlers. In his two innings he made just about half the total Ontario score. Eventually he fell to a brilliant catch by Malone off C. Godwin.

Eastern Canada fared badly in their second innings, and with 98 were beaten just before time was called. The scores were:

17 Tony Bonero is Second in Yonkers Handicap and Jack Atkins Third.

NEW YORK, Aug. 15.-A crowd of about 8000 attended the opening at the Empire City Track at Yonkers to-day. their horses fell. The program proved to be more than usually interesting. The principal event was the Yonkers Handicap at one and one-sixteenth, in which Jack Atkin ruled favorite at 2 to 1. Jut the best he could do was a poor third, Frank Gill winning handlif for J. L. Mc-Ginnis at 6 to 1. while Fleischmann's Tony Bonero, an outsider, was second, a short head behind the winner, which ran a great race, having to go round his field coming into the home stretch.

The betting ring was the only lonesome spot in the big enclosure, but there were pienty of friendly wagers lost and won in the esplanade in front of the stand and around the verandah of the clubhouse.

Betting "on the nod" was all the go, but two men were found with odds marked upon their race programs and they were quickly shown to the gate and cautioned not to return again.

Sheriff Lane of Westchester County, with a corps of deputies, watched closely for transgression of the new law governing betting, but with the exception of the two mentioned, whose names were not even asked for none of the bettors was disturbed and every one who was known as a regular race attendant found no difficulty in getting down a bet.

The Phoenix predicted anywhere from 25 to 33 seats for Scott.

The Saskatoon Weekly Capital (Conservative) of Thursday was a little nearer the mark, but also too optimistic, for its cross-the-page headline declares that "Landside threatens to sweep Scott from office." and its picture of Haultain was given as that of "the new premier." It also gave, considering the issue of the first election, the encouraging information that "Several Roman Catholics in field as candidates for Haultain and against Scott Government."

"It had taken a lot of incessant effort by Mr. Oliver, Mr. Sifton and himself (Scott) and all the western Liberals to bring Laurier and the eastern on with the road at the Dominion's expense. If a western province declared in effect that it did not want the road as a Dominion work, there is only one thing that Laurier can be expected to do, and that is to drop the scheme. Every vote cast for a Haultain candidate would be a vote cast to delay the road. It would mean that they would later have to build at provincial expense, and he could tell them as a fact, because the Dominion Government had found it to be a fact, the government guarantee was not enough to insure construction of the road. Cash or lands were necessary, and it was largely for this reason that Laurier had virtually come to the conclusion to build and own the road as a government work, the to the conclusion to build and own the road as a government work, the same as arranged for the G.T.P. east of Winnipeg."

"As a member of the Conservative party, Mr. Hazen has undoubtedly the right to support that party with his vote and personal influence. But he has not the right to lend to that party his influence and prestige as premier of New Brunswick. The position of Premier Roblin of Manitoba, and of Premier McBride of British Columbia. Premier McBride of British Columbia, who are also to assist Mr. Borden in the approaching campaign, is different. They were elected and hold office as leaders of provincial branches of the Conservative party. They appealed to their provinces and are recognized as lieutenants of Mr. Borden. But Mr. Hazen won the office he holds by a non-political appeal. He pledged himself to conduct a coalition government, to ignore federal issues and affiliations. He was elected, as he has himself admitted, largely by the votes of Liberals who believed that federal and provincial politics should be kept apart, and who trusted his promises to adhere to this policy. He appealed to the people as the leader of a coalition party piedged to administer the duties of office upon coalition lines. Electric Power for Larder Lake. The New Liskeard Speaker says:
A small syndicate, composed of Toronto, Ottawa and Montreal gentlemen, has been granted the privilege of developing the large water power at Raven Lake, which is some three miles south of Larder Lake. Surveys and plans are being prepared immediately, and J. Sampson Handley of New Liskeard has been retained as consulting engineer for the scheme. It is thought that several thousand of horse power can be developed from these falls, and the general outline of the scheme is to convert the power into electric energy for transmitting it to the various mines at Larder Lake on high tension pole line.

"The negro was carried into the yard. He was still alive, but his misery was increased by two more bullet wounds.

"A rope was then tied around his neck and he was dragged to Madison and Twelfth-streets, where there was an old dead tree. A man climbed the tree and carried the rope. He pulled the dead body up and fastened the rope. Then the mob tried to burn the body, but the flames would not catch. "The feet dangled within reach and the men and boys played with the corpse by swinging it back and forth against, the building to hear the dull thud it would make. The face of the black man was covered with blood. The mob was still making merry with the body when the troops filed in behind and opened fire.

"The worst thing that can happen to a Hindoo is profession of Christianity." continued Mr. Phelps. "His conversion is always on the surface for material gain, and in leaving the religion of his forefathers he loses all faith. One rarely finds a native English speaking servant in India who is honsest. His apostacy has loosened all moral restraint.

"What the Hindo needs is a chance of the great and the surface of the mission schools, and attendance upon these usually means that the subject will become a prosective."

A CROP ESTIMATE. WINNIPEG, Aug. 15.—W. B. Snow 13 the Chicago wheat crop expert, is in the city, having returned from a true of the Canadian west, where he has been cicsely studying the prospects.

Mr. Snow believes the crop will not now go over possibly 100,000,000 husbels, 13 tho threshing may turn out better than indications show.

Fatality at Montreal.

MONTREAL. Aug. 16.—Joseph Tremblay was instantly killed on Saturday afternoon by having his head crushed a under the rear truck of a street railway dump car. Tremblay was working on the track and preparing to unload the car, which was full of earth. He was stooping forward when the car, was dumped, crushing his head flat off the track.

vanced several points and on something which no sane reasoning can locate. Of course Morgan, Harriman, Gary and last but not least Lawson, spoke favorable to prices, and as these individuals are interested in having every person make money the market every person make money the marke could not fail to rise. Just when these could not fail to rise. Just when these parties were willing to share part of their holdings with the public they did not state, however, and as this is a most important piece of information it shows an utter neglect of distincterestedness, to say the least. It is certain that a good sized block of steeks has been distributed and at round profits by the pools, and until these syndicates show their willingness to take them back at higher prices, it is as well to assume that they are not again anxious to acquire ownership except at materially lower figures than those at which they sold them.

The only things used to foster bullish manipulation has been the crop outlook and cheap money. Both of these were palpable to the public, but the limits to which prices were to be extended were by no means so plain the limits to which prices were to be extended were by no means so plain. The government deficit of \$25,000,000 in July against a total deficit of \$60,000,000 in July against a total deficit of \$60,000,000 for the last fiscal year was a matter which was passed without comment. The announcements that commercial enterprises were only showing a slow recovery from the panic disturbance of last year were also ignored. When in conjunction with these and a consideration that very many of the companies had increased their capitals and obligations since two years ago, and that earnings are much below he what they were a comparison of stock market prices showed either that quotations were too slow in the spring a stream of heavy was a solution. tations were too slow in the spring time of buoyancy in 1906 or that cur-rent figures are away too high.

At no time since 1902 has such a deMberate attempt been made by Canadian promoters to bring about a speculative debauch at the Toronto Stock

say that the high class manipulation
which has been carried on has been
largely confined to the one series of

World Office,
Saturday Evening, Aug. 15.

To all appearances the "Jig" is up on Wall-street, that is to say the continuous bull proposition which has now been in force for upwards of six weeks has exhausted itself. The upward

securities, which are largely under the control of a syndicate with affiliations at Montreal, New York and London. A most deliberate attempt has been made to encourage margin operations in these securities, and Wall-street, with all its records, can scarcely point to a more flagrant manipulation. It is not believed that the operations of the manipulative pools have been altogether successful thus far, but the method of distribution has yet to be worked out, and the measure of success cannot be told until the effect of the flippant advertising in the stock market has had time to show itself.

If the statements of arbitrageurs car be relied upon, London has been a considerable seller of stocks for several days now. British investors have a knack of buying American stocks during panicky periods, and of feeding them out when all reason has been displaced by a wave of speculation. According to precedent it is not hard to believe that London has taken profits during the recent buoyancy. It is also sound reasoning to expect that investors who picked up stocks during the October panic and thereby swelled the lists of shareholders of the companies as noted at the time have also cashed in their scrips and are awaiting another shaughter of margins for another ecup. At the close of the week the market leads to the conclusion that after a further flotation early in the week as small recovery will be followed by lower prices.

Beaty, 14 West King-street, the following from New York:

During all of -to-day's session stocks continually came out for sale. These sales were followed by occasional advances. The advance was not of long duration, however, the volume of business falling off greatly as compared with yesterday's session, and the trading became quiet, apparently lacking the stimulus which characterized yesterday's transactions. The liquidation of stocks seems to be fairly well completed, and the market now appears to be in a position to respond to any good buying. We rather look for a better market next week.

Point, it is quite likely coal in the near future will be shipped from the Little Bras d'Or.

Last year prospecting for coal at Plant Point resulted in the finding of a seven foot seam a distance of 131 feet below high water mark, and on the shores of the Gut a seam of excellent coal nine feet in thickness was discovered. This latter seam is about 161 feet from the surface.

The fact that no shipments of coal have been made this year from New Campbellton, together with the fact that the government have called for tenders for dredging the Little Bras d'Or Gut, leads to the conclusion and belief that a whar, or shirping pler will be erected at the entrance of the Gut, from which coal can easily be shipped to the Atlantic or wes war.

The buying of the coal areas owned by the Burchells is one of the biggest deals to be put thru in Cape Breton for years, involving an cut'ay by the Harmsworth people of \$60.000. The principal object of the latter in buying the areas was to obtain a constant supply of coal for their bir lumber and pulp mills at Newfoundland.

Misjudging the depth of the water, Hubert Simpson, a wrestler of some repute in amateur circles and employed as stoker on the Turbinia, almost broke his neck thru diving from the pier at Turner's baths about 7 o'clock. Saturday evening.

Robert Joselin, 532 Parliament-street, warned Simpson to be careful, as the pier at Turner's baths about 7 o'clock of the water in the water in the water in the pier into only about two feet of water he pier into only about two feet of water he pier into only about two feet of water and brought was seriously hurt and an brought sare planes.

You know it's impossible in the summer for the entire family to escape from cramps, diarrhoea and summer complaint. Better be prepared with a good remedy like Nerviline—it cures cramps in ten seconds, stops diarrhoea quickly, tones the stomach, aids digestion. For protection against all summer ills use Polson's Nerviline. You know it's impossible in the sum-

Speaking of the criticism of the deparemtn, Col. Lambe said the department is not this season promoting im-migration to Canada, as shown by the recent cancellation of seven ships pri-marily intended to have been used for migration purposes this season. He onsiders that in view of the fact that of the 300,000 immigrants coming to Canada within the last four years, less than ten per cent, came under Salvathan ten per cent. came under Salva-tionist auspices, the Army should not be criticized by labor men on that
