RAILWAY PROBLEM SHOULD PRECEDE TIDEWATER ROUTE

W. F. Maclean in House
Urges Need of Consolidated
Government System.

URGES PROMPT ACTION

BY TOM KING.
Ottawa, March 10.—The house of commons devoted this afternoon to discussing the canalization of the St. Lawrence and the making of a deep waterway for ocean-going vessels from the head of the Great Lakes to the sea. The question arose upon the motion of Frank H. Kefer, Unionist member for Port Arthur, for the appointment of a parliamentary committee to enquire into the feasibility, benefits and cost of the enterprise. The motion, however, was not pressed to a vote as a similar investigation upon a much larger scale is already being conducted by the international waterway commission. The feature of the debate was the insistence by certain members upon the necessity of first dealing with the railway situation. W. F. Maclean (South York) said the country had already made vast expenditures in railway construction. There were complaints that freight rates were too high and that the roads were in a state of disrepair, not paying working expenses. The urgent and supreme necessity of the hour was the consolidation of the Great Trunk with the Canadian National Railway system. This would permit many economies to be inaugurated, do away with much duplication of service, and make it possible for the National Railways, under unified management, to pay their way and serve the people at a minimum cost. That consolidation under the (Continued on Page 4, Column 2.)

REGRETS DOHERTY HAS BUTTED IN

Morning Post Insists That
Embargo is Part of Dis-
ease Policy.

London, March 10.—"We regret to see that Hon. Manning Doherty, minister of agriculture for Ontario, has not listened to our advice, but has plunged into what is a domestic political question in this country," is the opening sentence of today's editorial in The London Morning Post. "If Mr. Doherty insists upon speaking, do not let him darken the controversy by importing prejudice." The Morning Post declares that both this week's big meetings raised a cloud of mis-statements. "The embargo is not a measure of protection, but of prevention, and the plain truth is that it has remained as a definite and very important part of the disease policy of the country." "Seven carcasses could be imported in the space necessary for one live beast! We are well aware of the unfortunate words used by Lord Erne, but we would remind Mr. Doherty that the words were not as he asserts, a pledge, but conditional on legislation passing both houses of parliament. The words, indeed, were thought to be so unfortunate that the board of agriculture immediately created by Lord Erne's phrase." The Daily Express gives prominence to a slam by Sir George Younker, chairman of the Unionist party caucus, to the effect that "I have always been in favor of removing the embargo, providing you are sure there is no disease!" The Pall Mall Gazette, referring to the embargo, says that in statements like that of Sir George Perley, Canadian high commissioner, the onus of proof of risk of disease rests with opponents of importation. And danger to justify the maintenance of food prices and the infliction of penalty on the Dominion, must be immediate and actual and not remote and improbable. The Pall Mall says the dispute has now reached a stage at which it cannot drop, and it bemoans the agricultural interests to be perfectly frank, for any suggestion of mere class interests at the back of the embargo will simply damn it out of hand.

SPANISH PREMIER BURIED FUNERAL A SIMPLE ONE

Madrid, March 10.—The funeral of Eduardo Dato, the Spanish premier, which was held today, was a simple one. The body was placed in a hearse drawn by two horses and conveyed to the chamber of deputies and later taken to the San Isidro Cemetery. The coffin enclosing the body of the premier was an unpretentious one. Senator Dato left his fortune, amounting to 2,000,000 pesetas, to his wife and three daughters. The provisional president of the ministerial council is being guarded by police in motorcycles.

LENINE AND TROTSKY, NOT SOVIET SYSTEM, CAUSE OF REBELLION

Situation in Petrograd Obs-
cure, But Admitted That
Kronstadt and Other For-
tresses Holding Out—Ris-
ings in Moscow Suppressed
by Force—Present Re-
volt Greatest Menace to
Bolshevism.

London, March 10.—After ten days of conflicting reports regarding events in Russia, information received in British official circles today is believed to give a somewhat clearer picture of conditions there. The situation in Petrograd, remains obscure, official circles limiting definite statements to the fact that Kronstadt and several fortresses on the south shore of the Gulf of Finland are holding out against the Bolsheviks. The information concerning the exact nature of the Kronstadt revolt is reported to have been received in Finland in a newspaper published by the Kronstadt revolutionaries. In this paper it is stated that no arrangements are being made to re-establishing any thru approaching the Czarist regime, or even to over the socialist system, but that the revolt is against what is termed the military dictatorship of Lenin and Trotsky, by which the people have been robbed of the benefits of the Russian revolution. It is stated that the anti-Bolshevik risings in Moscow, which were more in the nature of a trade union strike rather than military operations, have been liquidated and that the communists are continuing their rule. The belief is expressed, however, that settlement of the trouble was by force, rather than by an amelioration of the economic difficulties, and that strikes may be expected to occur at an time with increasing seriousness.

Bolshevik Propaganda.
This newspaper disclaims the leadership of General Kozlovski and names M. P. Krichenko as the leading member of the revolutionists. It declares that the association by the Bolsheviks of the names of czarists and such reformers as Alexander F. Kerensky with the revolutionists is a dodge on the part of the Bolshevik propagandists to obscure the real nature of the Kronstadt revolt and make it appear to be the truthfulness of foreign propaganda and czarist rather than of the Russians themselves. The presence of Kerensky in London, which became known today after he had been reported to be in Kronstadt leading the revolutionists, is considered in some quarters here as evidence of the truthfulness of the statement of the newspaper.

DERAILED NEAR TILLSONBURG.

Brantford, Ont., March 10.—(Special.)—The Grand Trunk Railway was derailed up for several hours this afternoon as a result of the derailment of two coaches of the regular passenger train. No passengers were injured.

BRITAIN IS AWAITING WORD ON PROBLEMS BY NEW ADMINISTRATION

Washington, March 10.—Altho the new administration is now definitely installed and already at work, it seems unlikely that the numerous questions of foreign policy outstanding, especially with Great Britain, will be taken up immediately, according to a review of the situation prepared by a Reuter's correspondent. President Harding, it is understood, is desirous of settling first the domestic problems demanding his attention, and at the present moment it is in this direction that the energies of the cabinet are centred. The recent visit to England of Sir Auckland Geddes undoubtedly achieved much good in enlightening politicians in Britain, and the British ambassador in Washington may be expected to return to his post fully equipped with the latest views of the British statesmen and ready to deal with the problems pending between the two countries. For some time, however, the British government has felt, it is understood here, that in most questions at issue, the first word must now come from the new administration, whose attitude on foreign affairs has never been specifically stated so far. The rearmament of Britain's war debts to the United States has lately been receiving much attention (Continued on Page 4, Column 1.)

NORMAN GARFIELD GUILTY OF MURDER, IS JURY'S VERDICT

Find He Killed Ben. Johnston
of Woodstock—Dramatic
Court Scenes.

SENTENCE TODAY

Woodstock, Ont., March 10.—At 8.45 tonight the jury which had been deliberating on the Norman Garfield case brought in a verdict of guilty of murder on the charge of the killing of Ben Johnston here on the night of January 29. Sentence will be passed tomorrow. All day long the court room had been crowded, and not even when the jury was sent to deliberate at 6.32 did the room clear. And when the jury returned with its verdict to the court room at 8.42, corridors and entrances to the building were jammed with people. Justice Kelly entered the court room at 8.50 and a few minutes later the jury filed in. Last Ray of Hope. The prisoner, his young wife and brother turned their eyes towards the door from which they entered, evidently trying to penetrate the findings of the men, with a thought of one last ray of hope for the husband and brother. The jury seated, the clerk asked if a verdict had been arrived at. The reply was a unanimous "yes." Then the foreman, W. H. Cookburn, arose and announced that "the jury had reached a unanimous verdict of murder." The words fell on the court with a roar. The man in the box, a stranger to all in the large court room, had been found guilty of murder of one of the city's most reputable residents of Dunnville as well as the magistrate, he seemed to flow out to the doomed man, his young wife of seventeen, (Continued on Page 8, Column 1.)

OPEN JOINT WHERE CAR TRAILER LEFT TRACKS ON BRIDGE

Passengers Differ as to Speed
at Which Eastbound
Car Traveled.

INQUEST IS ADJOURNED

Evidence given last night during the inquest held by Coroner M. M. Craven on the body of John J. Evans, who died in the General Hospital following injuries received in the street car accident of last Friday, when a westbound car crashed into the trailer of an eastbound car on the Gerard street bridge, went to show that the marks where the eastbound car left the tracks started at an open joint. According to D. W. Harvey, of the civil work department, who made measurements, the north rails were 1 1/2 inches apart, and the south rails 1 1/2 inches apart. The trailer, by the marks on the wooden planking, held close to the rails for some 50 feet after being derailed, and then swerved over to the north tracks for some eight feet, when it crashed into the oncoming westbound car. The hill at the eastern approach to the bridge, Mr. Harvey stated, was as steep as the Yonge street subway, but the road was not in good shape. On the hill the rails were 90-lb. rails and on the bridge 75 lbs., with a drop of about 2-1/2 inches at the eastern end. Motorman's Evidence. In answer to questions by Crown Attorney Eric Arnour, Urvan Shaw, 225 Gladstone avenue, the motorman on the eastbound car No. 1314, said that he had descended the hill after leaving River street, at a speed of eight miles per hour, and after slackening by a gradual application of the brakes on approaching the bridge, had proceeded at about 6 miles per hour, when he heard two quick bells and stopped. His controller had been shut off all the way down the hill. He did not feel the impact nor did he know that anything was wrong. This was about 5.50 p.m. He stated (Continued on Page 8, Column 3.)

LIBERALS AND CONSERVATIVES PILLORY DRURY GOVERNMENT FOR RECKLESS EXTRAVAGANCE

DEWART'S AMENDMENT

The following is the Dewart amendment, moved in the legislature last night, which if adopted would have been tantamount to a vote of want of confidence in the Drury government: "This house condemns the extravagant expenditure of the government involving, despite an increased revenue for ordinary receipts of \$5,172,322.58 for the last fiscal year, a deficit of \$312,848.83, and further, deploras the impudent borrowing of large sums at excessive prices for long terms, notably the loans of \$16,000,000 in December, 1920, and \$10,000,000 in February, 1921, and the same to particular works or purposes, appropriating the same in contravention of constitutional usage and the right of the people thru their representatives in the legislative assembly to control and direct the expenditure of public moneys."

RANEY ORDERS PROBE AT CAYUGA TO PROCEED

Had Been Abrupt Termination in Morning When Suspend-
ed Magistrate Hastings R reflects on Truth of Attorney-
General's Statements—Confidential Letter is Subject of
Dispute.
Cayuga, Ont., March 10.—(By Canadian Press)—When the Peterson commission reopened this afternoon, following the abrupt termination to permit the crown counsel to communicate with the attorney-general when the rather sensational charge was made by David Hastings, the suspended magistrate, R. U. McPherson, crown counsel, announced that Hon. Mr. Raney had instructed that the inquiry proceed and that Mr. Hastings be permitted to continue his defence. Mr. McPherson, however, submitted that the statements of Mr. Hastings and others called in his behalf, or on their behalf be limited to what is germane to the charges in the statement of complaint, that the testimony be confined to the charges and that incriminations be eliminated. Limit Evidence. John Counsel, counsel for Mr. Hastings and other Dunnville residents, said he agreed that the evi-

ASSEMBLIES FORBIDDEN

Dusseldorf, March 10.—The allied forces in Dusseldorf will comprise five thousand men, three thousand of whom will occupy the barracks, the remainder being distributed throughout the town. A proclamation issued today forbids the overcharging of members of the allied forces and declares that lack of proper respect will subject citizens to court-martial. All assemblies of a public or private nature are forbidden without special permission; petitions must be submitted three days in advance, giving the name of the organization and the approximate number of persons who are expected to attend. The display of the national colors is also forbidden.

AVENGE MURDER OF EX-SOLDIERS

Armed and Disguised Men
Shoot Republican Sinn
Feiner.
Belfast, March 10.—A party of armed and disguised men today at Thurles shot and killed Lawrence Hickey, a republican, and Wm. Lughnane, a Sinn Feiner. It is presumed the men were shot in reprisal for the killing of James Maher and Patrick O'Mara, former soldiers, near Thurles Tuesday night. Several houses in Thurles were raided, but their occupants escaped. J. J. O'Kelly, Sinn Fein member of the British parliament and editor of The Catholic Bulletin, has been arrested. He makes the 25th member of the Irish parliament now in custody. May Shorten Curfew. Dublin, March 10.—The military authorities propose to restore the curfew hour tomorrow to from ten o'clock at night to five o'clock in the morning if the present situation remains unchanged, it was announced today. The hour was advanced to nine p.m. on Friday last.

Rev. J. O. L. Spracklin to Speak on the Referendum

Belleville, Ont., March 10.—(Special.)—Rev. J. O. L. Spracklin will be in this city on Tuesday evening next to give an address in reference to the coming referendum to be taken in April. Considerable interest is manifested in the reverend gentleman's visit to the city.

HON. A. B. CROSBY DIES AT OTTAWA

Was Conservative Senator
From Halifax—Had Been
Ill Ten Days.

Ottawa, March 10.—Hon. A. B. Crosby, Conservative senator from Halifax, died here this afternoon at 4.15 o'clock. Senator Crosby came to Ottawa from Halifax for the opening of parliament and took part in the earlier debates in the senate this session. He was taken ill on March 1 and sank rapidly. The funeral of the late Senator Crosby will take place on Monday noon from St. Mary's Cathedral, Halifax. Makes Eighth Vacancy. His death makes the eighth vacancy in the senate. The late Senator Crosby was born in Belfast, Ireland, in 1859, but came to Canada in his early youth, receiving his education at Cape Breton public schools and the commercial college of Halifax. In 1885 he married Mary Cody of Halifax who survives him. Prior to his election to the house of commons in 1908 as member for Halifax (Conservative), Senator Crosby had served as alderman and mayor of Halifax for a number of terms. He was defeated in the general elections of 1911, and appointed to the senate in 1917. In religion, Senator Crosby was a Roman Catholic.

MOBILIZE VOTERS IN UPPER SILESIA

Germany Going About the
Business With True Mili-
tary Precision.
Berlin, March 10.—The mobilization of the men and women thruout Germany entitled to vote in the Upper Silesian plebiscite began yesterday in twenty of the large German cities. Special trains left Berlin for Breslau carrying banners with inscriptions urging Germans to rally to the salvation of Upper Silesia. Bands played patriotic music. Voters have been registered with military precision in every city, and small communities, and the organized voters have been formed into squads, companies and battalions under leaders. Every voter is provided with a free railway ticket and full instructions as to train and car and the place where he will be entertained in Upper Silesia while awaiting the election. It is estimated that at least 200,000 Germans eligible to vote will be sent to Upper Silesia, and consequently transportation is taxed and it will be necessary to send many of the voters early into the election is not until March 20. Rallies are being held thruout Germany daily for the purpose of inspiring all those eligible to go to the plebiscite zone.

Bombs Are Found in the Home of Irish Chancellor

Cork, March 10.—The authorities claim to have discovered many revolutionary hundreds of rounds of ammunition and eleven bombs in the house of Chancellor O'Riordan, who recently was placed under arrest.

Lenine Admits Mistake In Forcing On Industry

London, March 10.—Nikolai Lenine, the Russian Soviet premier, speaking at the opening of the tenth all-Russian congress of the Bolshevik party in Moscow Tuesday, with reference to the recent events in Kronstadt, predicted that the revolt in that city would be put down quickly, and that the "crisis was due to the fact that the Bolsheviks had attempted to restore industrial life too rapidly after the war. A mistake had been made in the distribution of the food stocks, he declared, although they were considerably larger than in former years." Lenine said the difficulties were bound up with the questions of demobilization, food and fuel, and stated that the "crisis was due to the fact that the Bolsheviks had attempted to restore industrial life too rapidly after the war. A mistake had been made in the distribution of the food stocks, he declared, although they were considerably larger than in former years." He forced to consider most seriously the international situation of Soviet Russia. Lenine said the difficulties were bound up with the questions of demobilization, food and fuel, and stated that the "crisis was due to the fact that the Bolsheviks had attempted to restore industrial life too rapidly after the war. A mistake had been made in the distribution of the food stocks, he declared, although they were considerably larger than in former years."

FOR ONCE OLD LINE PARTIES JOIN FORCES IN DENOUNCING PRESENT ADMINISTRATION FOR "BEDEVILING THE FINANCES OF ONTARIO"—DECLARE PROVINCE HEADING TOWARDS INSOLVENCY— GOVERNMENT SAYS EXPENDITURES JUSTIFIED BE- CAUSE OF ABNORMAL CON- DITIONS, BUT PROMISES TO EF- FECT ECONOMIES IN FUTURE.

Swept with broadsides from both Liberal and Conservative forces, which for once presented a united front, the Drury government in the legislature last night was subjected to the severest criticism, principally on the grounds of extravagance, that has yet been meted out to it. But it withstood the ordeal and told the opposition that it had no apologies to make for its admittedly heavy expenditures, which were more than justified under the prevailing abnormal conditions. At the same time, as if to show that it appreciated that a division would be effected from the province was being strained, the promise was held out that economies of a far-reaching nature would be effected from now on and that the legacy of debts the present administration had inherited would soon be wiped off.

Premier Says Request of Irish

London, March 10.—Answering a question in the house of commons today, Premier Lloyd George declared he had received a resolution passed at a meeting of the southern Unionists in Dublin asking for the postponement of the appointed day for the setting up of the southern parliament. Mr. Lloyd George said the government would consider this request, but that there would be no postponement in the case of the northern parliament. The prime minister denied that 300 military block houses were being erected around the northern counties.

PACKERS' EMPLOYEES TO VOTE ON STRIKE

Ballots to Be Mailed at Once and Result Expected by Wednesday.

Ottawa, Neb., March 10.—The appeal by the conference of the Meat Cutters' and Butchers' Workmen's Association to President Harding to try to prevent wage reductions and changes in working hours from going into effect March 14, has been taken up by Mr. Harding in the department of justice and the department of labor according to information received today from Frank Morrison, secretary of the American Federation of Labor, at Washington.

The conference authorized the union's executive committee to arrange immediately for a strike vote. In his telephone conversation with the union, Mr. Morrison, secretary of the department of labor, said that a call had been issued to all allied unions in the packing industry for a conference in Chicago on Wednesday.

The conference will outline a program for concerted action, if a strike is called against the wage cut, approximating 15 per cent.

The strike-balls will be mailed immediately from Chicago and the final result is expected to be known by next Wednesday.

The executive board, given authority to call and conduct a strike if a referendum vote authorizes it, and to arrange all dates of any settlement.

All locals are warned to refrain from striking or taking other action pending issuance of a general order.

Public Will Not Suffer.

Chicago, March 10.—Assurance that the meat supply of the United States will not be interrupted, regardless of any action that may be taken by the unions on the recently announced reduction of wages and readjustment of working hours was given today by the packers.

"Despite the strike threats being made by the agents of the union, we do not expect any trouble that will interfere with the nation's meat supply," said a statement issued by Armour and Company, "A survey of the packing plants indicates that the individual employees understand the situation and do not wish to be forced to idleness or to be asked to go on strike. The union leaders who are talking strike do not represent 25 per cent of the packing industry."

The country is engaged in an effort to get back to normal which in the main means reduction of prices. Those who are talking strike in order to uphold inflated wartime wages are obstructing the nation's return to normal. We stand with the public in the fight against war prices in time of peace."

BRITAIN AWAITING ADMINISTRATION

(Continued From Page 1).

again on this side, but it now appears doubtful whether Lord Chalmers, who was to have discussed the matter with the United States treasury department, will ever come to Washington at all, and the probable manner of making payments on the war debt will in the opinion of financial men be the issuing of a series of long-term notes, as, indeed, the original loan agreement provided.

Cable Situation Unchanged.

The cable situation remains unchanged, and indeed it is believed how any progress can be made in view of the deadlock reached when the last conference broke up. The few meetings which have been held since have been more formalities.

The oil situation in connection with the mandate over Mesopotamia also offers difficulties. It is understood that the British reply to the note of the Secretary of State Colby will not recede from the original standpoint taken by Britain and will reiterate the opinion of the British government that, while it is undoubtedly helpful to discuss the matter with the United States, the proper channel for such discussions is obviously through the League of Nations.

The feeling in the United States that the European nations are pursuing a selfish policy regarding the oil fields in the former Turkish territories seems hard to understand when it is remembered that the total oil supplies of the British Empire, including the holdings of British nationals in Persia, amounts only to four and one-half per cent of the world's supply, as compared to the United States, which with its holdings in Mexico, controls over 80 per cent.

Not a Secret Pact.

Some sections of opinion in the United States also affect to regard the San Remo agreement as a kind of Franco-British secret pact intended to shut out the United States, whereas in reality Britain, in return for the surrender by France of certain rights in the Mosul area, merely granted her certain privileges in Mesopotamia. The reply further emphasizes the fair and unprejudiced consideration given the claims of United States nationals in the mandated portions of Turkey.

The question of the Yap mandate is another problem which Secretary of State Hughes will have to find means to solve. Japan's attitude seems quite definite and there are at the present moment no indications that she will make concessions sufficiently far-reaching as to satisfy the present opinion in the United States.

Flipped Coin to Decide Precedence in Divorce

New Orleans, March 10.—The flip of a coin in the civil district court today decided that Percy A. Alleger, son of a prominent Louisiana cotton man, should be allowed to file his petition for divorce before that of his wife.

Lawyers representing Mr. Alleger and Mrs. Alleger staged a race for the office of the clerk of the court that resulted in an even break.

Clerk John O'Neil was puzzled so was Judge Fred B. King. Both attorneys claimed to be first.

Witnesses declared it a draw. Selecting a five-cent piece, the judge flipped it into the air, covered it with his hand, and asked the attorneys to choose heads or tails. The husband's attorney won, and his suit was filed first.

COMMIT P. DUBORD ON MURDER CHARGE

Lived With Victor Galette, Found Dead in River With His Head Crushed.

Cochran, Ont., March 10.—Patrick Dubord, brought back from Montreal to face a charge of murdering Victor Galette, at Fredericksburg, last December, was committed for trial when he appeared before Magistrate Dempsey for preliminary hearing today. Galette's body was found in a water hole in the Fredericksburg River with the head crushed in, and Dubord, who was living with him and who had disappeared, was suspected.

A statement made to the police, Dubord admits killing Galette, but claims it was an accidental blow dealt while chopping wood. The coroner's evidence to show all traces of blood had been concealed and that the body had been hidden beneath the ice in the river. Dubord is committed for trial until November next, the spring assizes having already been held.

RAILWAY PROBLEMS SHOULD PRECEDE

(Continued From Page 1).

Grand Trunk act would be due next month, and he called upon the government to lose no time in bringing it about.

Build Waterway By Degrees.

Mr. Maclean said he was in sympathy with the project to establish a great waterway connecting the lakes with the ocean, but it involved an enormous expenditure of money at a time when the country was burdened with huge commitments growing out of the war and railway nationalization.

Mr. MacLean suggested that, instead of undertaking the entire work at one time, the first section of it, which involves the canalization of the St. Lawrence from Montreal to Kingston, be undertaken.

This scheme would not only admit ocean bearing vessels into Lake Ontario but would lead to the development of enormous electrical energy which would go far toward paying the cost of the railway nationalization.

J. A. Maharg, farmer member for Maple Creek, agreed with Mr. MacLean that the railway question was a question of national importance to Canada. The western farmer had no trouble with his wheat after he once got it to the head of the lakes, but at present it took too long to get it there.

He complained of the extortion practiced by the lake vessels, but said they got out the grain quickly enough once the railways hauled it to them, and J. A. Armstrong, East Lambton, said the more improved navigation facilities the more outgoing became the tolls charged by inland navigation companies.

Calls It Wild Scheme.

Edmund Bristol of Toronto-Centre saw power possibilities in the project which would pass off the national debt, while Sam Jacobs of Montreal declared it to be the wildest scheme ever submitted to parliament. Toronto naturally favors while Montreal quite naturally opposes a scheme to turn cities of the Great Lakes into ocean ports.

On the other hand, the city of Ottawa, thru her spokesman, Hon. Charles Murphy, declared today in favor of constructing the Georgian Bay ship canal.

Discusses Cattle Embargo.

At the evening session, the British embargo on Canadian cattle was again brought up for discussion and was finally disposed of by the unanimous adoption of an amendment offered by Dr. Steele, Unionist member for South Perth. The amendment, in effect, commends the government for protesting against the continuance of an embargo on the ground that disease exists among the herds of Canada.

Premier Meighen, in speaking on the amendment, deprecated any attempt to stir up prejudice against the mother country. He said that the British government were not now claiming that Canadian cattle were diseased, but as the embargo had been originally imposed as a sanitary measure, its continuance carried an implication, against which Canada must protest. He did not for a moment challenge the right of Great Britain to impose an embargo as a measure of protection.

Sub-Amendment Carried.

Ottawa, March 10.—(Can. Press)—A sub-amendment, supporting the attitude of the present and previous Canadian governments in protesting against the implication of disease in Canadian cattle contained in the embargo against such cattle as now maintained by Great Britain, carried without a division in the house this evening, thus disposing of a somewhat lengthy debate on the question.

Criticizes Doherty.

In moving his sub-amendment, Dr. Michael Steele criticized Hon. Manning Doherty, Ontario minister of agriculture, for going over to Britain on this matter. The Ontario minister, Dr. Steele declared, would go down into history branded as "Meddlesome Manny" of the man who interfered in federal matters when he had no right to do so.

If Keefer's resolution, urging the investigation of deep waterway system from the head of the lakes to the St. Lawrence was again debated, and finally withdrawn by Mr. Keefer.

W. Jacobs (George Etienne Carter) saw in the resolution the "unmistakable signs of an impending election. If the government seriously considered the spending of \$600,000,000 on this project now he said, it was surely open to the suspicion of lunacy.

The prime minister announced the personnel of the special committee on pensions and re-establishment, and in answer to a question, stated that the department had not changed its attitude in the matter of cash bonuses for returned soldiers.

FOUR MORE VICTIMS OF SINN FEINERS

Two Ex-Soldiers Found in Field and Two Others in Country Lane.

Belfast, March 10.—Four men, who had incurred the displeasure of the Sinn Fein, were murdered near here on Tuesday night. The bodies of James Maher and Patrick O'Mara, former soldiers and both residents of the town of Thurles, were found in a field. Maher's body was labelled "A.P." It is stated they were accused of giving information to the police. The bodies of two other men were found in a country lane at Augnacloy, and on their breasts were scars inscribed with the words, "Tried, convicted and executed by the Irish republican army." One was identified as Francis McPhillips, who was taken from his bed at an early hour yesterday morning by six armed men. The identity of the other slain man is unknown.

Not to Affect Farmers.

While the regulations being considered are reported to be fairly stringent, it is not expected that they will in any way affect the coming to Canada of persons who are going to farm work. It is understood that some provision will be made for the relaxation of the money regulations in the case of a farm laborer who is coming to Canada with definite employment arranged for. The same, it is understood, may be made to apply to persons coming to immediate relatives, as in the case of a wife coming to join her husband, or children coming to Canada to join their parents.

FIFTY HOLLAND FIRMS FORM TRADING COMPANY

Amsterdam, March 10.—Fifty of the biggest firms in Holland combined today and founded the Netherlands Baltic Trading Company with the object of establishing business relations and carrying on trade with the east European countries including Russia.

Representatives of the company are leaving Holland to establish offices of the company in Sweden, Lithuania and Poland, and to enter into negotiations with representatives of the Russian Soviet at Berlin.

FOUGHT FIRE AND FUMES TO SAVE JUTE CARGO

Boston, March 10.—The Bank Line freighter, Haleric, brought a \$1,500,000 cargo of jute here from India today after a fight with fire and fumes that lasted the Red Sea and the Mediterranean. The flames destroyed 700 bales of the cargo, but the crew was able to prevent damage to the ship.

of the British embargo against entry of live cattle to their ports. The prime minister stated, in answer to a question, that he would see that the decision of the Canadian parliament was carried to Great Britain.

I. E. Pedlow (South Renfrew), who had moved in amendment to Mr. Steele's supporting it, said many people thought, and he was not free from the idea himself, that the embargo was really protection for the British cattle industry under another name. However, if the British government wished to protect that country's cattle industry it should not do so under the provisions of an embargo which had been enforced 24 years ago on the suspicion that one or two animals were diseased.

IMMIGRATION WALL TO BE STILL HIGHER

Federal Cabinet Considers Action—Increase in Money Needed, Likely.

Ottawa, March 10.—(By Canadian Press)—Some striking changes in the regulations governing the admission of immigrants to Canada are reported to be under consideration by the cabinet. Those which are expected to be passed within the next day or two, will, it is stated, maintain or increase the money regulations at present in force and will admit only bona fide farm workers and domestic help. Immigration from the British Isles, France or the United States will, it is reported, not be hindered by the new regulations, but the bills will be kept up against immigrants from central Europe.

ROBERTSON TO CONFER ON BUILDING INDUSTRY

Ottawa, March 10.—(Can. Press)—A conference of representatives of employers and workmen engaged in the building and construction industry, has been called by Gideon Robertson, the minister of labor, for May 2 at Ottawa. It will be similar to the national industrial conference held in Ottawa in September, 1919, except that it will be confined to the building and construction industry.

STOLE A DIAMOND PIN

Montreal, March 10.—Edna Robinson, arrested five months ago on a charge of stealing a diamond pin valued at \$700 and \$100 in money from Notary J. A. Lagault, of this city, was today found guilty and sentenced to a month in jail.

AID PICTURE STUDIO.

Kingston, Ont., March 10.—(Special)—The city has given three acres of land to the Dominion Motion Pictures, Limited, Toronto, for the establishment of a studio.

FISH INDUSTRY AT STANDSTILL

Fishermen Cannot Live on Wages and Employers Are Unable to Pay More.

Boston, March 10.—Conference here today of the executive board of the Fishermen's Union of the Atlantic with representatives of owners of Boston and Gloucester steam trawlers resulted in withdrawal from the fishing fleet brought no new suggestions for settlement of differences, which are keeping about 1,200 fishermen and fish handlers idle.

Fishermen cannot work at the lower wage scale offered by the owners, it was stated, and owners' representatives declared trawlers cannot fish at a profit at present fish prices and rates of pay.

The union submitted a detailed report of its inquiry into conditions, finding that again trawlers would have to raise at least forty trips of an average \$4,000 gross earnings each year to be able to pay a fisherman wages totaling \$1,700 annually. This amount would not support him and his family and buy his equipment, the report said. It added that trawlers do not make forty trips a year, and that the average gross earnings do not amount to \$4,000 for each voyage.

William H. Brown, president of the Fishermen's Union, asserted that federal or state supervision at fish piers might stabilize fish prices and work to the betterment of the industry.

Slayer of Wm. A. Holland Will Not Stand Trial

Montreal, March 10.—Major Robert W. Griffith, self-confessed slayer of William A. Holland, Montreal stock broker, who was shot and mortally wounded on Jan. 14 in the office of MacDonagh Brothers, 11 St. Jacques street, of which firm he was manager, was this morning found to be unfit by reason of insanity, to stand trial for the murder, and will, therefore, be confined until instructions as to his future are received from the lieutenant-governor. This was the finding of a special jury held at the trial of the King's bench this morning.

ANNUAL SPRING SALES

Today's Sale Event---Orchestral Programme Twice Daily During Opening Week

A Trio of French Frocks This season the cloth frocks are vying with the suit for first place as the favored street attire, and when the frocks are of French origin, owing their simple tailored lines and original embellishments to Parisian inspiration, they are sure to receive first place.

Women's English Topcoats for Spring \$85 and \$95 For thorough good style and perfect adaptability these topcoats from England have no equal. The assurance with which they meet the demands of the changeable days of Spring, the long motor or boat trip of Summer, and the end-of-the-season Fall days give them an unassailable place in the smart wardrobe.

Important Clearance Smart Suit Blouses at \$4.95 Closely connected with the Spring suit question is that of the suit blouse claiming immediate attention. In this sale are a number of the prettiest models—the smartest sort of blouses, well worthy of the Spring suit. Made oforgette, lace-trimmed, beaded, embroidered and finished with fine pleatings. Colors White, Maize, Sand, Pink and Black. All sizes. Second Floor.

Just Arrived in the French Room New Models in Women's Gowns The nearness of Easter is bringing out some of the loveliest frocks in our French room bearing the imprint of Paris in line as well as label. One of fine French serge in Navy has a wide panel of taffeta in front, embroidered and applied in silk and ribbon in tiny pots of flowering plants, girdled with a scarlet leather belt. Priced \$95. A Black Taffeta is heavily embroidered in white string-like silk. A cluster of red cherries is found at the waist. Others equally lovely and individual are of Taffeta, Satin and Serge, all with odd different touches characteristic of Paris. Priced \$95. Second Floor.

100 Pure Irish Linen Tablecloths at \$11.95 Many of these Formerly Were Priced \$18. You will begin to realize the importance of the offering only when you consider that these tablecloths are made of finest quality Irish linen. All of them have been selling above today's price. They are in single and double Damask, and are in attractive patterns, satin finished, 72 x 72 inches wide. Irish Poplin Suitings \$1 Yard This fine corded, lustrous finished, low-price quality, suggests itself for smart suits and dresses for Spring and Summer, especially as it is in popular Spring shades—Blue, Jade, Green, Rose, Contance Brown, Copen, Navy and White. 36 inches wide. Formerly this quality sold at \$1.50. Fine Nainsook, 59c Yard The price is so low it is not surprising we have only 1000 yards. Fine quality, with soft finish, suitable for women's or children's wear. 36 inches wide. Crash Towelling, 29c Yard This will interest those who want some good wearing towelling for kitchen or bathroom use. Union quality with narrow red borders. 17 inches wide. Fine Soft Bath Towels, \$2.49 Each A very low price for this towel, which is one of our best qualities. Good wearing and absorbent and finished with wide borders of Rose, Blue, Pink or Gold. 20 x 40 inches. Second Floor.

New Shipment of Fine Wilton Rugs Goes on Sale Today at About One-Third Under Today's Lowest Regular Prices This shipment of 90 Wiltons which has come to our floors just recently, is part of a great collection we bought a few months ago at a low special price. Those who need a 9 x 9 or a 9 x 6 ft. 9 inch rug now have their opportunity, for just these sizes are included. No fear need be entertained as to the designs and colors, for the choice covers the need of every room. The rugs are all of good quality—firm heavy weave, rich velvety pile—and will give splendid service. As you see below, we've marked them quite one-third below the usual regular price.

Hundreds of Rolls of Fine Wall Papers Selling Today at Averaging Half-Price It would not be advisable to take advantage of these special prices if this meant securing papers not properly suited to your need. The appearance of one's wall papers is too important to be sacrificed to economy. But the papers included in this sale are all of high grade and good effect is assured by using them. Furthermore, the choice includes attractive patterns for every room.

First Group English Wall Papers, including Chintzes, plain effects and Tapestries. Values up to \$3. Special, roll \$1.75. Second Group Imported and Domestic Wall Papers, suitable for Halls, Living-rooms and Dining-rooms. Values up to \$1.25. Special, roll \$0.75. The delightful rough surface, the charming colorings, the durability of it are contributing factors. These homespuns are especially suitable for spring coats. They are in attractive heather effects, medium weight, and measure 84 inches wide. Special price. Today. Main Floor.

An Even Hundred Men's Finely Tailored Suits Special at \$30

There's a Thrill of Pleasure in Wearing a Suit That Looks \$50, But Costs Only \$30

All the properties of the custom tailored are embodied in these suits. The hand-finished button holes, the smooth, carefully tailored edges, the graceful lines that betoken the well groomed successful business man—yes, all these and something else—a cunningness of detail which only the genius of the master designer is capable of imparting—that misty something which makes you say at times, "My! I wish my clothes looked as smart as that man's"—"Some praise," you'll say, but deserving, every word of it, for the suits are without a doubt representative of value away beyond the price at which we've decided to sell them.

Exactly 100 Suits In Sizes for Slender and Medium Men The cloths are very choice grades in Tweeds and Fine Chevots, Business Greys, Browns, Navy with White stripes, Black with White strip. Two and three-button models, semi-fitted, and the conservative business man's sack style, chest measure 35 to 44. The biggest value of the year.

Today and Saturday \$30 Main Floor.

Dress Goods Remnants Clearing at \$3 Yard These who have not yet solved the spring coat and suit problem will do well to see what is contained in this collection. Many good-looking materials are included—Serges, Broadcloths, Costings, Tweeds, Diagonal Serges and others—in lengths 1 1/2 to 5 yards. The savings, in many instances, amounts to half so it is well worth while from the economical standpoint.

Silk from The Lingerie Shop

For Spring or Summer nothing is more satisfactory than silk for lingerie, it is so cool, so easily laundered and so appealing in itself. Envelope Knickers, a sensible little garment to be worn with the camisole, is made of Pink Jap Silk in step-in style, slashed at the side, hemstitched at the bottom and finished with elastic at the waist. Priced \$3.75. Camisoles, at once practical and dainty, of wash satin in Pink or White, with double elastic shirring at the top and straps of self. Priced \$2.75. Second Floor.

Oxford Tie Shoes and Pumps \$9.45

Those who have yet to choose the Spring Footwear will find today's special collection attractive in more than one way. The footwear is all of good grades, regularly worth \$10.50 to \$13.50; the styles include the Brogue, Semi-Brogue, and plain models that are correct for Spring; and most of the popular leathers are included—Brown Calf, Black Kid, Gunmetal Calf and Patent Leather. They have Goodyear welt soles. Cuban and Military heels. All sizes in nearly every style. Second Floor.

The qualities are good, the designs are in a variety of patterns, and the prices are very special. Divided into two groups. Values up to \$5.75, for Values up to \$8, for \$3.75. Third Floor.

ARCHITECT OPPOSED TO REMOVAL OF GARGOYLES

The proposal to remove the gargoyles from the city hall because one of them fell the other day has aroused the indignation of E. J. Lennox, who designed the building. "It is one of the most absurd proposals I ever heard of," he said. "It is evidently being put forward by someone who doesn't understand good architecture and hasn't any idea what it is. Any piece of stone is likely to drop at some time. That is why repairs are constantly being made to old buildings on the continent. Those historic old buildings are not deteriorated because a small piece of stone may drop now and then."

PROPERTY CHANGES HANDS

Anna Zipper and Dora Volles have sold the present occupant the property at 128 to 151 West Dundas street, corner of Chestnut street, for \$25,000.

Assessment Pay Roll Shows Large Increase

The wage bill of the assessment department has been increased \$20,000 a year by work of compiling the new roll of citizens entitled to vote in provincial elections and the computations involved in adjusting the assessment to conform to the bylaw approved by the people last January giving partial exemption on dwellings up to \$4,000.

SUIT AGAINST T.S.R.

J. A. Edwards is suing the Toronto Railway Company in the supreme court for \$2,000 damages for personal injuries and damage to a motor truck received in a collision on Feb. 10, at the corner of Yonge and Grenville streets. The plaintiff alleges negligence on the part of the street railway company in permitting the motor-truck to drive at an excessive rate of speed.

APPORTION COST OF YONGE ST. WIDENING

A report by the assessment commissioner on the widening of Yonge street will probably be laid before the committee of works this afternoon. It is recommended that 75 per cent of the cost shall be borne by the city at large, and the other 25 per cent against the properties benefited. The widening as proposed will be made on the east side of Yonge street between the C.P.R. tracks and Heath street and from that point to the city limits the additional 50 feet will be acquired on the west side.

BUILDING PERMITS ISSUED.

The city architect's department issued the following permits yesterday: Gaylord & Wood, pair of dwellings on north side of Chestnut avenue, near Glenwood avenue, \$3,200; I. O. F. alteration to entrance to office building, northwest corner of Bay and Richmond streets, \$18,000; Allen N. Davies, dwelling, 267 Humboldt avenue, \$4,000; H. E. Warrington, three dwellings, northeast corner of Cassels avenue and Golfview avenue, \$9,000; Weismiller & McKenzie, five dwellings, north side of Berwick avenue, near Duplex avenue, \$22,500, and G. K. Heaman, dwelling, 42 Fairmount crescent, \$4,500.

FOUND DEAD IN CELLAR.

Brookville, Ont., March 10.—William Humphrey, employed as a laborer at the Revere Hotel, was found dead this morning in the cellar, where he had evidently been stricken with apoplexy while tending the furnace.

GOT OFF MOVING CAR; WAS HIT BY AUTO

John Yorgen, aged 36, 133 Mutual street, who was struck by an automobile yesterday morning driven by T. J. Allen, Hazell avenue, was stated last night at St. Michael's Hospital to be resting easier. He had jumped from a moving car between Church street and Market street when the automobile struck him. He was badly injured about the head and body.

City Will Supervise Heating Installation

The city will hereafter supervise the installation of heating plants under powers provided in legislation just passed. No attempt will be made by the city to regulate the size of heating plants, but merely the location of furnaces and the angle of the pipes and other details.

CHICKEN THIEF BUSY IN GARBAGE MAN'S DISGUISE

A chicken thief is said to be operating in Toronto, who goes about in the early morning with a cart, which looks very much like a city garbage vehicle, with a canvas over the top. Thus he gets access to the back yards without arousing suspicion, and seems able to lug half a bag of chickens out with a can of ashes without causing a disturbance. Dozens of citizens have reported that their pens have been raided in the last few weeks.

WIDOW GETS ESTATE.

Mrs. Lucy Mathewson, sole beneficiary and executrix, has been granted probate of the will made April 18, 1906, by her husband, Andrew Enoch Mathewson, a carpenter, who died in Toronto Dec. 27, leaving \$160 in household goods and personal effects, \$4,000 secured by mortgage, \$1,330 cash, and his home at 248 Shaw street, valued at \$5,000.

BAIL IS REDUCED IN CASE OF BANK TELLER

The Bank of Montreal, thru their solicitors, obtained a signed statement from Edgar M. Brown, the teller, now awaiting trial on charge of defalcation of bank moneys, that he disposed of the \$5,000 legal tender note by tearing it up and disposing of it in the lavatory of the bank. It is understood the statement will be used in securing a similar note from the government.

U. S. Railroad Situation.

The railroads in the United States are in an awful mix-up. The increase in rates has not relieved the situation to any extent.

The railroads would like very much to bring about a reduction in the operating costs, but the labor organizations are in a threatening attitude at any attempt to reduce wages.

A solution will have to be found for the trouble and the Canadian railroad situation is such that any changes in the States will be watched with considerable interest from this side.

Building Material Prices.

A few days ago we drew attention to the remarks of a Toronto builder who was firmly of the opinion that prices could be no lower costs anticipated.

The progress of the radial probe reminds one of the story about "off-again-on-again, gone-again, Finnegan."

Terms of Canada's Credit to Belgium

Three-fifths of Twenty-five Millions to Be Taken Out in Manufactures.

Ottawa, March 10.—(Can. Press)—In answer to J. L. Paquod (Megan) in the house of commons this afternoon, the minister of finance stated that the credit of \$25,000,000 extended to Belgium had the following provision:

The credit shall be, by the said government of Belgium, utilized exclusively for the payment of purchase price, free on board at Canadian ports, of goods, produced in Canada, of kinds and descriptions approved by the said government of the Dominion of Canada, and shall be as nearly as possible distributed in the following proportion:

One-fifth for foodstuffs, one-fifth for raw materials, and three-fifths for manufactures.

There was nothing in the agreement, it was stated, to prevent Belgium purchasing Canadian goods.

A REVELATION OF PROGRESS IN TORONTO'S GROWTH

Toronto's growth in the last twelve years could not be more strikingly illustrated than by the phenomenal development of the Danforth district. Twelve years ago one or two stores only stood isolated along the Danforth highway; today the same highway is a bustling business street fully two miles in length, with the reputation of being one of the best shopping districts in the city, a claim well substantiated by a large and continuous patronage from outside points. Danforth is a residential district and promises to maintain that distinction. Subdivisions offering the most attractive home-sites in the city are now being put on the market and these will prove highly remunerative investments, either for homes or for speculative purposes, for Danforth is in the vanguard of Toronto's progress. Last week \$40,000 in home-sites was the turnover of one land agency on Danforth Avenue. People are seeking to establish homes where land values are now reasonable and where they have the advantages of such a convenient and profitable shopping district as Danforth Avenue.

WHEAT AT WINNIPEG IS SLIGHTLY LOWER

Trading Not Heavy and Fluctuations Within a Narrow Range.

Winnipeg, March 10.—Trading on the local wheat market was not heavy today, and business was to some extent devoid of any market feature, fluctuations being within a narrow range.

There was a much better cash demand today. Premiums, however, did not advance, millers obtaining enough to fill their requirements at present prices.

Course grains continue to act in sympathy with wheat. Oats closed 1/4c lower, barley, 3/8c to 1/2c higher, rye, 1/4c lower, and rye, 1/4c higher.

BOND ISSUES SHOW DROP IN FEBRUARY

Big Decrease From January, But Gain Over February of Last Year.

While there were no provincial or railroad issues in February, the total bond sales for that month amounted to \$17,660,500, as compared with \$38,054,036 in January, and \$7,886,405 in February of a year ago.

The following figures show the comparison of the volume of bond issues in the various provinces, with the exception of Prince Edward Island, participated. The total sales of municipal securities was swelled considerably by the \$5,000,000 Toronto issue, but the volume of small issues was greater than in any month in 1920 or in the previous year.

With the exception of one corporation issue, and perhaps a few odd blocks of provincial issues, the financing was arranged in Canada. The municipal bonds, particularly those of the better class, are ready to sell at a profit, and the yields were also lower, notwithstanding the generous offerings.

THE CATTLE TRADE WOUND UP STRONG

Prices Little Off for the Week—Small Stuff is Firm.

With a light run of cattle locally at the Union Yards yesterday, around 700 head the market held fairly steady, in fact the whole week has shown a steady to strong tendency, with values well maintained from a week ago.

The inquiry for stockers and feeders is picking up, but strange to say this class of cattle are hard to get hold of these days, the trade running more to the finish of the market, and a few farmers, stock and regular feeders were in looking for their young cows for the grass and good to choice steers and cowboys, and a few spoke pretty well for his general strength.

Some of the local live stock men do not think that the removal of the English embargo on Canadian cattle is a very good thing, but the majority of them are strongly behind the move as it would give a good show of business to the local cattle, a boon, it is said, especially in the small stuff line.

The local market wound up at \$13.75 f.o.b. with Monday's quotations on Saturday's leading. The local market wound up at \$13.75 f.o.b. with Monday's quotations on Saturday's leading. The local market wound up at \$13.75 f.o.b. with Monday's quotations on Saturday's leading.

WHEAT DEPRESSED BY LABOR TROUBLES

Talk of Green Bug Damage and Export Business Has Little Effect.

Chicago, March 10.—Strained industrial conditions had a bearish effect today on the wheat market. Prices closed heavy at 1 3/4c to 2 1/4c net lower, with March 1921 and May \$1.57 1/2 to \$1.57 3/4.

Despite temporary lull, due to revival of talk about crop damage by green bugs and to ward of some new export business, the market closed at practically the bottom figures of the day.

Factors again inclined in sympathy with wheat, notwithstanding continued export call for corn.

SUGGEST ABOLITION OF SOCIAL COMMISSION

Special Council Committee Defers Definite Action Pending Further Information—Board of Trade Declines to Get Mixed Up in Question—Several Charity Organizations Protest Against Statement Made.

The special committee appointed by the city council to consider and report on the proposal to abolish the social service commission and to establish in its place a welfare department has decided that it has heard all the essential evidence bearing on the situation, and will arrive at a decision at a meeting to be held next week.

In the meantime, the chairman, Ald. Phinmore, will make a trip to Buffalo at his own expense to study the methods there of handling social welfare work and will be prepared to suggest a plan on his return. Several members of the committee were prepared to dispose of the question at their meeting yesterday, but finally delayed Controller Gibbons' motion to delay a decision for a week.

It was announced by the chairman at the last meeting that the board of trade would lay a plan before the committee yesterday, but a letter was read from the secretary to the effect that the board had no desire to get mixed up in the question.

Money Credited to City. Wm. Duncan of the Children's Aid Society forwarded a copy of a letter he had written to T. McMillan, asking for an explanation of his statement made at the last hearing that the parents had collected money from parsons and also from the city for the same cases. He wanted to know why Mr. McMillan had not stated that money collected from the parents was credited to the city.

Several other charity organizations wrote complaining of statements made before the committee by one speaker or another.

Nearly every member of the committee flashed a resolution after the decision was reached that no further evidence would be called for.

Call For Resignation. Ald. MacGregor got in ahead with a resolution calling for the resignation of W. H. Smith, chairman of the social service commission, because of the fact that he had ignored the committee and the further fact that he had been connected with the Inglewood Park hotels said the resolution would be all right if the committee had decided to retain the services of the commission as a whole, but if the time had come to abolish the commission and set up a social welfare department, then Ald. MacGregor's resolution would be unnecessary. All the members of the commission would be asked to resign, perhaps with an expression of "thanks for good services rendered."

Controller Gibbons felt that it would not be well to show ill-will towards Mr. Smith. The complaint was against the system perhaps more than against the individual. He would favor letting the matter rest for a few days and, in the meantime, consult some social service expert before taking definite action.

Ald. Baker said he was in sympathy with Ald. MacGregor's motion, but felt that they should first decide on a question of policy. He believed the commission was the proper body to handle the welfare work, and if the personnel of the commission was not satisfactory, resignations should be called for. He then moved the following resolution:

"That this committee still approve of the principle of the social service commission having charge of all the city's charity expenditures but would suggest to the social service commission that they ascertain if any of their members are unwilling to work with their colleagues, and if not to resign, as evidently there has been somewhat of unanimity of policy, which has been communicated to outside charitable institutions, which have been detrimental to the general welfare of charitable work in certain allied organizations in this city. We would suggest that more consideration be given to the opinions of our splendid body of interested workers, among our city charitable organizations, than in the past."

To Protect City's Purse. It was necessary, said Ald. Baker, to have a referee to pass judgment on all cases and protect the city's purse, as volunteer workers often had more enthusiasm than judgment. The commission had cut off families who had been getting paid from the city for two generations.

Mrs. A. H. Hamilton said she would like to have a modern plan of public welfare organization laid before the committee before making a decision. Ald. Johnston said he preferred to deal with the commission as a whole rather than with the chairman, as Ald. MacGregor proposed. He felt that the present commission could not carry on because of dissension among themselves and with charity organizations.

Ald. Ryding said he was not prepared to take sides against the commission at this stage, but merely against the chairman.

Ald. Ryding was not prepared to vote at once to abolish the commission, although he was in sympathy with the motion to call for the chairman's resignation.

DROP IN COST OF SCHOOL BUILDINGS

Tenders Fall \$8,000 per Room Below the Original Estimates.

TRUSTEES THROW BOUQUETS ON RAPID PROGRESS OF CONSTRUCTION IN HAND.

Trustee John Laxton, chairman of the property committee of the board of education, and his colleagues are wondrously pleased with the rapid progress of the school buildings which are now under construction. The building operations are to go ahead three times as fast as ever before, school additions which formerly took sixteen months to complete are to be started and finished in six months.

The Lower Schools Per Room. The joy was expressed by J. Dyanon, of the building department, announcing that all the schools and additions now under construction would be ready by Easter, and that several school additions, notably the \$4,000 four-room addition to Roden School, and the \$28,000 two-room addition to Balm Beach School, would be completed by the end of November.

Four Months Ahead. Chairman Laxton said that the acceptance of tenders yesterday was four months ahead of other years. The building department was authorized to advertise for tenders for four other school additions.

The four additions, for which the tenders are to be called will be six rooms for Gledhill avenue, six rooms including a large kindergarten room for Manning avenue, three rooms at the King Edward School and three rooms at Ryerson.

Some discussion with the overcrowding at Lansdowne Avenue School resulted in an emphatic refusal to give a rush order there for portables. The solution adopted was four rooms to be rented from the Baracca club on Orchard street at a monthly rental of \$200 to include heating, caretaking, light, and the use of the gymnasium until 6 p.m.

Non-Sleeping Cars For Ottawa Service. The effectiveness of a railway from a service standpoint is largely determined by the sleeping cars it operates. The Canadian National Railway, with a view to affording Ottawa patrons the best of everything, have arranged to replace the present fleet of sleeping cars on night trains, Nos. 7 and 8, by eight new cars, all steel, like those now in service.

The first of the new, "Ottawa," will be on the run within the next few days, and the remaining cars, "Yale," "North Bay," "Canora," "New Westminster," "Dauphin," "Neepawa," and "Portage la Prairie," will follow in due course.

The cars now in service contain every known device for passenger comfort, and while there is no room for improvement, the new fleet will be fresh from the shops and each will be equipped with the latest Canadian National Ottawa service.

CITY

Make your thumb-print in blank square next to Miss Dean's, fill in your name and address, clip coupon and send to Editor of "The World." You may win \$25. Competition open to all; but thumb-print must be on coupon clipped from "The World."

EVERYBODY is interested in thumb-prints these days. The reason is plain. The World offers a prize of \$25 cash to the one whose thumb-print most nearly resembles Priscilla Dean's. In the accompanying coupon, there is a reproduction of Miss Dean's print, and in the square opposite her's, you are to make the impression.

Use an ink pad to ink your thumb, or rub the thumb with a soft lead pencil. Use the coupon from "The World" or it won't be counted. Be sure it's your right thumb, too.

The answers are coming in fast. Thousands of people are becoming interested, and it seems almost sure that the judges will have a busy time making the comparisons. But that doesn't matter. The contest will be open several days, and at its conclusion the names of the first ten will be published, together with their thumb-prints. There are ten prizes, the first being the \$25 mentioned, and the other nine being a pair of tickets to see "Outside the Law," in which Priscilla Dean, supported by Lon Chaney and a big cast, will be starring at the Regent Theatre.

Now, get busy! Send in your thumb-print today. You may be the prize winner!

DOES O.T.A. CONFER RIGHT TO SEARCH?

View Expressed That There Must Be Belief Liquor on Premises.

IS YACHT A VEHICLE?

Arguments in Spracklin Appeal Against Damages Awarded for Trespass.

Judgment was reserved by the second division court yesterday in the appeal by Rev. J. O. L. Spracklin against the decision of Justice Middleton who awarded damages of \$500 against him in favor of Oscar E. Fleming, K. C., of Windsor for trespass on the latter's yacht under the guise of searching for liquor while the yacht was lying in the Detroit river.

The view was expressed by more than one of the appeal judges that the O. T. A. did not confer the right to search on mere suspicion but that there must be a belief that there is liquor on the premises unlawfully before a search is justified.

Is a Yacht a Vehicle? Mr. Rodd, who appeared for Mr. Spracklin, contended that the O. T. A. gave the right to search a vehicle, that the yacht was a vehicle and that the river was a highway. He contended, in any case, that the damages should be merely nominal. Mr. Rodd cited dictionary authorities to show that the word vehicle was synonymous with carriage. A stoneboat might be a vehicle, the dictionary defined it as anything in which something is carried. Chief Justice Meredith said the proper construction was the popular meaning and showed moving pictures in building up a forest estate, self-sustaining and ever a source of revenue.

Ravages in Ontario. Damage by fire in British Columbia, he continued, accounted for twenty-two times as much timber as was utilized, while in Ontario the rate of destruction was very severe. He felt that both governments deserved whole-hearted public support in their efforts to secure adequate fire protection and showed moving pictures of the irreparable damage caused by carelessness as well as the methods employed by fire rangers in stamping out fires.

POINTS TO NEED OF FOREST PROTECTION

Should Rank as Foremost Government Policy, Empire Club Speaker Says.

PULP DEMAND GROWS

Predicts Timber Famine in United States and Closing of Mills.

That the problem of forest protection, constituting a real first-class concern and should rank as the foremost policy of the government in that it would only be a question of time until the centre of gravity of timber areas was moved across the border from the United States and established in Canada, owing to the growing demand for pulpwood was the belief expressed by Robson Black, secretary of the Canadian Forestry Association, before the Empire Club yesterday.

The realization that 22 per cent. of Ontario's forests was owned by the people, said Mr. Black, was offset by the utter unconcern displayed simply because of the distance separating the forest areas from the massed population. The United States faced a real timber famine, he believed, which in eight years would necessitate the closing of some three to five thousand mills, and the reforestation policy there was greatly hindered as three-fourths of the timber lands were alienated by the state. In Canada nine-tenths of our forests were vested in the name of the people, and although much of the timber was alienated, it did not lessen the responsibility since in every case universal raw material acted as a balance wheel of every constructive effort.

Forest Fire Problem. The forest fire problem constituted one that needed both foresight and immediate action. About one million square miles or two-thirds of our timber resources had been laid waste by the fire demon which had created ten times as much havoc as the lumbering industry in the country.

Mr. Black pointed out the persistence of wood in the ordinary needs of mankind, in shipbuilding, farming, etc. Some twenty million railroad ties were needed every year, and it would take 9,600 miles of pulpwood, four feet square, to supply enough pulp to run off the 4,000 newspapers every day in the United States and Canada. He spoke of the forest conservation policies of different countries in Europe and stated that owing to foresight the French were able to relieve the pressing demand for timber in the fighting line. Canada, on the other hand, had a non-agricultural area of 80 per cent. Quebec had only 10 per cent. of its 150,000,000 acres under plow, and some 30,000,000 acres in Saskatchewan were destined to be used for reforestation. With all this available acreage it was of the utmost importance that Canadians used foresight in building up a forest estate, self-sustaining and ever a source of revenue.

40 MEN OBTAIN WORK IN FACTORIES

Demand for Farm Help Grows—New Registrations Show Decline.

There was a decided improvement in the demand for industrial workers at the government employment bureau yesterday, when more than forty men were procured positions with Toronto factories.

That the demand for farm help is on the increase has been demonstrated by the fact that the men sent out to farms so far this week has been over the hundred mark and it looks as though the week would establish a new record for this class of work.

New registrations yesterday were 148 and repeats 813, a total of 961, which was a decrease of 50 compared to the previous day, and the lowest so far this month.

Only 51 new applications for relief were made at the Krausmann Hotel yesterday. The day's total was 2,033. The total number of men who have received relief to date is over 6,900, which shows that about 5,000 of this number must have again secured positions, or they would still be receiving relief. This goes to show that the average Toronto citizen will not impose on civic relief if it is possible for him to secure a job again, and also that matters are gradually righting themselves.

One relief seeker put it over the officials yesterday, however. On the excuse that he needed an extra dime to make up the money for his laundry one of the workless borrowed ten cents off all the different relief officials, and it was not until one of them mentioned his having lent the man the money that the trick was discovered. "He must have collected the price of a new shirt before he got thru with us," said the comment made by an official.
