NTER AT MUSKOKA

TAKING THE CURE IN FREE HOSPITAL FOR

The Muskoka Free Hospital for Consumptives is dependent on the good-will and gits of the Canadian public. Money is urgently needed at the present time to make it possible to care for the large and increasing number of patients that are entering the institution.

Will you help? Where greater urgency?

Later in the afternoon Mrs. Walter Carey, wife of a prosperous automobile manufacturer; of Dayton, Ohio, who was Carey, wife of a prosperous automobile manufacturer; of Dayton, Ohio, who was registered at the Herald Square Hotel, was held in \$300 bail on a charge of petty lar-ceny. Miss Tillie Brew, a detective for a Broadway department store, said that she had seen Mrs. Carey secrete various atticles, including hose and bottles of per-fumery, in her muff. Mrs. Carey said that in her home city she was lalways in the custom of gathering together whatever ari-ticles she needed and paying for them in a lump sum. The bail her husband supplied in cash, after which he and his wife returned to their hotel, paid their bill and departed hurriedly for home. Two other cases, of shoplifting were staged in the Adams street court, Brook-bin, when young and pretty women, giv-ing the names of Delia Herderson and Sadie Burgess, were accused of filching various articles from the counters of Ful-ton street stores. "Miss Henderson," who admitted that her name was fictitious, said she was a magazine writer seeking local color. She was held in \$100 bail for ex-amination, and was bailed out by Dr. Rob-ert B, Anderson, of No. 925 Sterling place, Brooklyn. Sadie Burgess, pronounced by detectives

It is also claimed that the deputy of each department, through the men who report to him, knows very well whether a clerk is doing good work—and hence is deserving of promotion.. Mr. Payne pointed out that when men in other walks of life had their pay in-creased it was done on their merits—be-cause their employers realised they were giving better service, and any such sug-gestion as a special examination to decide their fitness for promotion would never be thought of.

## Not Authorized

It is asserted that the deputy ministers would very naturally object to having the civil service commissioners dictate to them as to who they should or who they should not promote, and the commissioners would also probably be just as adverse to doing

also probably be just as adverse to doing so. One object the members of the depart-ments of railways and canals and public works also make, is that the step taken by the executive was by no means formally authorized; and that before the execu-tive proceeded they should have had a vote of the whole civil service or of the ad-visory committee of each department. Mr. Payne has no hesitation in saying that three-fourths of the service is op-posed to the recommendation made. It is understood that there is a strong probability of other departments taking the same course that the railways and canals department, have taken. It was asked; if the plan outlined above is not practical, what suggestion would be made. The reply was that so far there has

be made. The reply was that so far there has been no formal decision; but that the re-commendation made by the executive last Saturday certainly could not be carried out and that something more practical must take its place before the majority of the members of the association can be satisfied.

A Message to Men WHO ARE WEAK AND AILING

The failure of medicine, of quacks, and even of other so-called electric belts is no argument against Dr. McLaughlin's Electric Belt. No other treatment, no other belt is in the same class with it. Everything else may fail, but Dr. McLaughlin's Belt will cure. It HAS cured thousands who tried other remedies without success.
