ST. JOHN BRIDE AND GROOM WERE IN RAILWAY WRECK.

Mr. and Mrs. Harold Golding, Passengers on the Boston & Maine Train Which Was Run Into Near Troy—Five Persons Were Killed.

Mr. and Mrs. Harold H. Golding, who returned this week from their wedding tour will have good reason to remember the trip for a long time on account of the narrow escape which they had of being killed or seriously injured by the wrecking of the train in which they were travelling.
Mr. and Mrs. Golding were married here on October 2, and left that night for a tour through the States. On Oct. 5th, at 9.30 a. m. they left New York by the fast express on the Boston and Maine railroad.
About 4 p. m. the train stopped at a small station called Lansdowne, about three miles from Troy, N. Y. While waiting for orders it was run into by a special carrying soldiers for service in Cuba. The regular train was completely wrecked and five people were killed and many injured. Mr. Golding and his bride were in the fourth car from the end at the time of the accident and the shock was enough to throw everybody from their seats, although none in that car were seriously hurt. The other three cars, including the engine, were broken up into pieces as large as an man's arm, and the passengers were all either killed or badly injured. Mr. Golding was at the scene after the wreck was almost indescribable, the cries of the injured and the confusion which ensued were terrifying. The work of taking out the dead and injured was quickly carried on, all the passengers gladly lending a hand in the work. Mr. Golding relates the wonderful escape of one of the passengers. He was standing with his wife on the platform of the last car when it was struck by the special, and although his wife was killed instantly he himself was not injured at all.
Mr. and Mrs. Golding are very thankful for their escape and never wish to see another accident of this kind. After the wreck was cleared up the passengers walked to Troy where they took another train.

BANK OF ENGLAND RATE IS 6 PER CENT

The Highest it Has Been Since 1880.

Stringency of the United States Money and Heavy Shipments of Gold to Egypt the Cause.

LONDON, Oct. 19.—The Bank of England raised its rate of discount to 6 per cent, this morning. Exchanges in the discount of the bank on days except Thursday have been few and far between and not since Friday, Nov. 7, 1880, just before the Baring failure, has the rate been put to 6 per cent. The release in American exchange, indicating a renewal of the demands for gold, and the probability of large withdrawals of the metal for Egypt, were the main contributive causes of the action by the Bank of England. The sum \$5,000,000 in gold leaving the bank today is believed to be destined for Egypt, while financial circles anticipate very large purchases in behalf of the United States irrespective of whether the rate of exchange does or does not render the transaction profitable. Reports are also current that the Imperial Bank of Germany is conducting a large bullion movement for Russian account, while Argentina is in the market as a purchaser of gold. The multiplicity of demands for the metal, it is pointed out, emphasizes the necessity of protecting the already completed reserves of the Bank of England.
The increase in the discount rate was a complete surprise to the members of the stock exchange. Prices gave way sharply and at 2 o'clock consols showed a further loss of 1/8 being quoted at 85 1/4 at that hour.
Other gilt-edged securities declined in sympathy. The American section continued to feel the depression.
BOSTON, Mass., Oct. 19.—The weakness of the New York stock market followed the rate of the Bank of England, but the Bank of England, resulted in a sympathetic depression of the local market in the evening. Later, however, the market recovered and steadied.

CUBA STORM-BOUND.

Communication Has Been Cut Off for Two Days.

Storm is Moving Northward and Warnings are Displayed All Along the Coast.

NEW YORK, Oct. 19.—Up to 9 o'clock this morning Havana was still cut off from the rest of the world so far as cable communication was concerned. No word had been received from the Cuban capital since midnight Wednesday when a severe storm was raging. Reports which are being received from Florida indicate that the hurricane was furious along the coast, and that of Florida and reports of severe damage are apprehended when communication is restored.
WASHINGTON, Oct. 18.—The tropical hurricane which swept over Cuba, breaking cable communication and passing on to the southern and eastern coasts of Florida early today, cutting off the local market in the evening. The storm swept with terrific force but its path was hardly more than seventy miles in width. It raged last night in Havana, passed over the west end of Cuba, its vortex crossed Sand Key and Key West with winds blowing at least 72 miles an hour, tipped the east coast of the peninsula and swept on northeastward over the ocean. The weather bureau tonight announced that the storm has evidently passed northeastward through Florida, straight and is now over the Atlantic some distance east of the Georgia coast. So far as reports from the land weather stations show there is no indication of dangerous winds tonight along the immediate coast and adjacent territory.
Storm warnings, however, are displayed all along the Atlantic coast from Florida to Cape Cod.
FORT PIERCE, Fla., Oct. 18.—The conductor on train No. 35 just in from Miami, reports terrible destruction there by the hurricane today. Fully one hundred houses were blown down and the city is in a demoralized condition. The handsome churches of the Episcopal and Methodist denominations were both blown down. The concrete jail was leaning with danger of turning over and the prisoners had to be removed. The car sheds are down and the top was blown off the Peninsula and Occidental steamer sheds. A two story brick building occupied by a saloon, completely collapsed.

HOPPE WANTS TO MEET SLOSSON

NEW YORK, Oct. 19.—William F. Hoppe, who retained the 1311th Chamberlain's Regiment, Wednesday night by defeating Jacob Schaefer, the challenger for the title, is desirous of becoming champion at the 182 style of play, and has challenged George Sutton, the Chicago billiardist, who won the 182 championship last night from George Slosson. Hoppe has posted a forfeit which he has asked Sutton to cover. He has also asked Sutton to fix the place for the match.

W. C. T. U. CONVENTION.

BOSTON, Oct. 19.—The programme today of the World's Women's Christian Temperance Union included reports from the superintendent of various departments including those of the Sunday school department, to be presented by Mrs. Wilbur F. Crafts of Washington, D. C., and the peace department to be given by Mrs. Hannah J. Bailey, Miss Anna Gordon of Evanston, Ill., was expected to make her report to secretary of the Loyola Temperance Union, the children's organization. The W. C. T. U. memorial service for members who died during the past three years, since the last world's convention, was arranged for the noon hour. Officers will be elected tomorrow.

CHANCELLOR RAMSELL'S DECISION REVERSED

The Case of Member of Freedom Lodge, K. of P., Who Was Expelled Because He Had Negro Blood, Will Be Re-considered.

NEW ORLEANS, Oct. 19.—The supreme tribunal, Knights of Pythias, yesterday handed down a decision annulling the action of Grand Chancellor W. L. Ramondel of Massachusetts in directing the expulsion of a member from Freedom, of Worcester, Mass., on the charge of having negro blood in his veins. The case was remanded for trial on its merits in the Grand Lodge of Massachusetts.

WIND RECORDING STATION ESTABLISHED AT LEPREAUX

Electrical Apparatus Installed—The Information Will be of Great Value to Shipping Men.

Point Lepreaux has been equipped with electric recording apparatus to register wind velocity and direction. The apparatus is of the latest and best construction, was installed last Wednesday by Mr. Hutchinson and has been placed in charge of Robert Fielding light keeper. The vane and anemometer are exposed on mast and small platform at an elevation of 15 feet above the dwelling and are connected by a six wire cable with the electric recording register inside, which gives an automatic and continuous record of the wind's direction and velocity. Point Lepreaux being connected by telephone with St. John, mariners will be able to obtain information of the force of the wind outside at any time.
The wind station will be of value to shipping leaving port during stormy seasons, as the wind force inside the harbor is not always as great as at points outside. During the past reports of wind velocity at Point Lepreaux were estimated by the observer.
Rev. A. J. Prosser, pastor of Waterloo street Baptist Church, received a call to Indian Head, Saskatchewan, a few days ago. When asked this morning if he would accept, Mr. Prosser said that he had not as yet decided. Rev. Mr. Prosser's resignation from the pastorate of Waterloo St. Baptist Church will in all probability take effect some time in November. Mr. Prosser has also received calls from several churches in the province.

STRUCK BY AUTOMOBILE, WOMAN WAS KILLED
Mrs. Kays While Driving With Her Child Was Run Into on a Narrow Road—The Baby Was Not Hurt.

BRANCHVILLE, N. J., Oct. 19.—Mrs. Henry Kays was killed in an automobile accident yesterday near here in the Sussex county hills. She was driving a wagon along a narrow road, and in the vehicle with her was a baby. An automobile driven by Frank Allen of Branchville met the wagon on a sharp turn in the road. Neither Allen nor Mrs. Kays saw the other until each had started to turn the bend in the road. Each tried to avoid the other, but the road was too narrow and the distance too short, and the automobile hit the wagon, the woman and child being thrown out of the vehicle, and the former's neck was broken. The baby was only bruised. Mr. Allen, thinking Mrs. Kays was only unconscious, brought her and the baby in his machine to Branchville. Here a druggist who was appealed to for aid pronounced the woman dead.

"BIG DUNCAN" DANCED TH' HIELAN' FLING

Governor Fraser Delighted the Scotchmen at the Smoker Held in Fredericton Last Evening.

FREDERICTON, N. B., Oct. 19.—The smoking concert given by St. Andrew's Society last evening was a most successful affair. Governor Fraser was the chief spokesman of the evening and lighted all present. The governor spoke his own career, how he had been a politician, then a judge and later a governor, but tonight he was one of the boys again. The governor danced the Scotch reel to the great pleasure of all present and in his set he was ably assisted by Dr. McLaren, Major Gordon and Mr. Tennant, of St. John. At the conclusion of the smoker at midnight the visiting guests marched up Queen street and out to the station headed by the bagpipers of St. John.

PLANNING TO BRING SCOTCH SETTLERS

Options Secured on a Number of Abandoned Farms in Nova Scotia.

DIGBY, N. S., Oct. 18.—Options are being taken on a large number of abandoned farms on the North Mountain in Kings County, by persons in close touch with the provincial government, to whom it is believed they will be sold, in connection with a scheme for bringing out Scotch settlers to the province. For some two years now the Boards of Trade have been urging Government action in regard to the securing of permanent settlers, and the Government declared itself ready to give consideration to any scheme which promised a successful issue. The trouble hitherto has been that old countrymen on coming to Nova Scotia have been unable to purchase most unpromising farms, at exorbitant prices. The present plan would obviate this difficulty.

NO NEW BREAKS TODAY.

The high pressure is on today, and up to two o'clock No. 2 high service main stood the test. Tomorrow the pressure will be kept on, and no accidents occur work will be started on Monday testing No. 2 low service main.

The authorities are anxious to get the work over with, and no time will be lost. If the pipes have not been tested when the heavy frosts come it is quite probable that much trouble will result. If a break occurs in the winter the supply will have to be cut off, and the pipes are very apt to freeze.

A report was made at central station this morning by Mrs. C. Wilson to the effect that her 10 year old son George was assaulted and beaten on the Queen street yesterday by Arthur Ellis, Jas. Powers, John Mooney, Ernest McNeil, Thos. Morrissey and Teddy McMan. Mrs. Wilson claims that her son has been annoyed considerably all summer and yesterday was assaulted.

There was a dance and concert in the Globe Hall, Sheffield street, last night. About one o'clock this morning there was a fight on the corner of Duke and Wentworth streets, and as a result Sergt. Campbell has reported Wm. Burns, Fred Dixon, George Alberts and John Blizard as being the participants.

The thick fog in the harbor this morning delayed the sailing of the Calvin Austin for Boston until eleven o'clock. She took a good freight and a fair number of passengers away.

UNIVERSITY Y. M. C. A. HOLDS ITS CONVENTION

Delegates to Fredericton Were Last Evening Entertained at the U. N. B.

FREDERICTON, N. B., Oct. 19.—Last evening the Y. M. C. A. and Y. W. C. A. of the University entertained the visiting delegates to the Y. M. C. A. at a reception at the college building. The guests were received by Miss Rebecca Watson, president of the college organization and Mrs. Jones and Mrs. Bailey. Chancellor Jones delivered an address welcoming the delegates and extended to them the freedom of the college during the meeting of the conference. The library was beautifully decorated for the occasion and an interesting programme of music and addresses carried out. Cadwallader's orchestra furnished music and later in the evening light refreshments were served.
A this morning's session of the delegates Bible study was discussed, each of the delegates from the several universities taking part.

NEW MANAGER FOR THE BALTIMORE TEAM

BALTIMORE, Oct. 19.—Manager Edward Hanlon of the Cincinnati baseball team, whose home is in this city, said yesterday that Thomas Corcoran, shortstop of the Cincinnati team for the last 11 years, would be asked to manage the Baltimore Eastern League club next season. Corcoran has not been approached on the subject, but it is believed there will be no difficulty in coming to terms with him.

BILLIARDS.

SUTTON WORLD'S CHAMPION. NEW YORK, Oct. 18.—George Sutton, of Chicago, who has earned a reputation as an expert billiardist on both sides of the Atlantic, is now the acknowledged world's champion at 18 inch billiard table. In a match game for this title, he defeated George Stinson, of this city, at Madison Square Garden, on Thursday last, by the score of 500 to 375.

The result of this match was not unexpected as Sutton showed such brilliant billiards during the 18-2 tournament held here last April that he was looked upon by the experts as the probable winner. During that tournament he made the world's record a run of 224 and an average of 100.

Since that time Sutton has been practicing steadily and tonight he showed some of the most brilliant billiards ever seen in this city. His best run was 202 which occurred in the tenth inning and at the beginning of which Stinson was in the lead by 73 points.

ATHLETIC

MONTREAL HERALD RACE. MONTREAL, Oct. 18.—The Herald road race took place today, and was won by Tom Shipman of the Gordon Harriers, Montreal, with Harold Nutting of the Civil Service Association, Ottawa, in second place. There were 75 starters and 68 finished the course of 9 1/2 miles in 58 minutes and twenty seconds. The event was watched by crowds of people all along the route.

AT VICTORIA RINK. The results of the races on Victoria Rink yesterday were: Boys' race, one-half mile—1, Leakey; 2, Cunningham; Time, 1:45. Handicap race, one mile—1, Nixon; 2, Johnston; 3, Chase. Time, 3:27.

THE TURF. GOOD RACING AT MONCTON. MONCTON, Oct. 18.—The races on the Moncton track today were very well attended, over four hundred being present. The track was in pink of condition and an excellent day's racing was witnessed. Every claim was keenly contested and the spectators were agreeably surprised at the sport furnished.

Summary of events. Named Race, Half Mile. Robert C. A. Landry, 1st; 2, Prince; 3, J. H. Fullen, timers. Harry Graham, I. Germain, 4; 3, 4. Miss Julia, F. B. Robinson, 4; 3, 4. Settlement, 1st; 2, 3, 4. Time—1:21 3/4, 1:23, 1:21 3/4, 1:21.

SPORTS AT ST. ANDREW'S RINK. The Harmony Club sports at St. Andrew's Rink last evening drew a large crowd and were most successful. The races were all interesting, particularly the three mile game, which was the last race pulled off. McCaw kept the lead for the greater part of the distance, closely followed by Nixon. The race appeared to be between these two, but about the fourth lap Wilson, who had been taking things easily all along, sprang and took the lead of the bunch. He retained his position and won the race by a quarter of a lap. The race between Nixon and Wilson was raced over again.

FOOTBALL AT OTTAWA.

OTTAWA, Oct. 18.—Thanksgiving day passed quietly in Ottawa. The number of football enthusiasts who saw the Ottawa Rough Riders beat the Ottawa St. Patrick football team by ten to one.

NO SCORE ON SHAMROCK GROUNDS.

On the Shamrock grounds the Victorias and Portland Y. M. A. football teams met for the first time of the season. Both teams played a fairly strong game, the Y. M. A. boys having the advantage in scoring. A fair crowd attended the game.

WANDERERS DEFEAT MARATHONS.

HALIFAX, N. S., Oct. 18.—The Wanderers defeated the Marathons of St. John today's football game, scoring one try (three points), which they failed to convert. The day was a hot one, and about 1,500 people were present to witness the encounter between the Wanderers and the Marathons. The Wanderers were led by their manager, D. Donald, who accompanied the team to Halifax to cheer them by their presence during the game. D. Donald, manager of the Marathon football team, also accompanied the team to Halifax. To the credit of the Wanderers, the game was of a somewhat uninteresting character, owing to the fact that from sustaining interest with but few exceptions, it consisted of a series of scrimmages. The Marathons were lighter than the Wanderers had the better of the scrum. The Wanderers, moreover, showed the game with getting it to the half line often.

A few minutes after the game began McKay got the ball from the scrum at the 25 yard line, and by a long punt, which was quickly followed by boys wearing the maroon and gray, forced the Wanderers to touch for safety. The Wanderers kicked into touch and the ball was clearly returned by a punt by Gibson, who played his position well, although the lightest of the ball. The Marathons succeeded in getting the ball down to the Wanderers five-yard line, but Corrie got the ball and cleared it into centre. A scrum followed near the touch line, and the Marathons got the ball. Bauld intercepted the ball and got well away from the St. John half line, but about to be tackled by Gibson, he kicked the ball into touch.

McKay at quarter and Ellis and Dr. Macleod on the half were excellent work for the visiting team. Gibson, the full back, is a sure punt, and more than once prevented the Wanderers from scoring.

U. N. B. DEFEATS ST. JOSEPH'S.

FREDERICTON, N. B., Oct. 18.—The university footballists defeated St. Joseph's fifteen this morning at the college grounds by a score of 3 to 0. The university touch down was made by Robert H. Barry. Both teams do not seem quite satisfied with the score, as each claim they were entitled to more points than they actually scored. There was a rough one but devoid of any interesting feature.

MONCTON DEFEATS MT. ALLISON.

MONCTON, N. B., Oct. 18.—Nine to three in favor of Moncton was the result of the football match on the M. A. A. ground here this afternoon between Mount Allison and Moncton. The game being one of the hardest fought and most spectacular seen here for some years. The halves were evenly matched that the result was in doubt up to a few minutes before time was called. In the first half the college boys had some advantage, and Moncton was forced to touch for safety to save a score against them. The play for the greater part of the first half was in the home team's territory, and the crowd looked for victory to perch on the visitors' banner. The surprise came in the second half, when Moncton showed great staying qualities and pressed her opponents hard. The college team was more active but lighter than Moncton, and the extra weight told in the extra day's struggle. Up and down the field the pigskin travelled in a lively fashion. First Mount Allison could have a slight advantage, then Moncton would sport and keep them on the defense. The game was marked by many wide side plays and free kicks. Jack McBeath, a former U. N. B. player, did good work. Harry Boyd, former St. John player, showed great advantage, making two out of three of Moncton's touchdowns. The first touch down was made by McBeath, who made a long run. Shortly after Simons secured a second try and repeated the trick a few seconds later. Mount Allison grew desperate and just before the end, Nune by a good run, secured a try and saved his team from a shut-out. During the play Bell and Baird collided and Baird was knocked out for some time. It was feared at first that Bell

The Ludlow, following its usual holiday custom, were around yesterday. While coming across on her first trip at six o'clock, the ferry boat struck on Navy Island bar, and it was very early before she was again in commission. Luckily the day being a holiday, there was not the large number of working people on board which usually require to cross at this time of day.

Thanksgiving Day was quietly observed in St. John. The usual services were held in the morning at the different churches. In the afternoon, the Opera House, the roller rink, driving and a match at the rifle range, occupied much of the public attention. Thanksgiving suppers were held in the evening at the Main street Baptist church and Portland Methodist church, and were both largely attended. Large crowds went to the Harmony Club sports at the St. Andrew's Hallway, and the masquerade at the Victoria. The Opera House also came in for its usual share of patronage at both performances.

Miss Puddington of Rothesay lectured on Heidelberg yesterday afternoon before the St. John's Historical Society. This was the second lecture of the course and was well attended by the members and their friends. The talk was entertaining and upon a thorough description of the different phases of university life as seen at Heidelberg, telling of the different courses of students, their uniforms, customs and "prison." She also spoke very interestingly of Worms, a town near Heidelberg, referring to the famous Diet there, and of Luther's monument, surrounded by the statues of others prominent in the Reformation.

Miss Amelia A. Tuttle, of Henscott Bay, Grand Manan, is spending a few days with Mrs. Fannie O'Flaherty, Mrs. O'Flaherty being ninety-two years old on the fourth of next month. She does all of her own house work and can give you a few steps to the tune "I'm just as young as I used to be."—St. Croix Courier.

Will the Courier kindly say we want another doctor on Grand Manan. There is great need of the second one here, in some times, two days before we can get the one we have, he is so rushed. The chance for the second one is the best in the province.—St. Croix Courier.

The Ludlow, following its usual holiday custom, were around yesterday. While coming across on her first trip at six o'clock, the ferry boat struck on Navy Island bar, and it was very early before she was again in commission. Luckily the day being a holiday, there was not the large number of working people on board which usually require to cross at this time of day.

Thanksgiving Day was quietly observed in St. John. The usual services were held in the morning at the different churches. In the afternoon, the Opera House, the roller rink, driving and a match at the rifle range, occupied much of the public attention. Thanksgiving suppers were held in the evening at the Main street Baptist church and Portland Methodist church, and were both largely attended. Large crowds went to the Harmony Club sports at the St. Andrew's Hallway, and the masquerade at the Victoria. The Opera House also came in for its usual share of patronage at both performances.

Frederick McCavour was seriously injured yesterday on a runaway. Lorneville. He was driving a horse attached to a light delivery wagon, and when opposite Evans' store the animal took fright and bolted down the road. Mr. McCavour had lost control of the horse, and realizing this, attempted to jump clear of the wagon. Unfortunately he fell between the wheels which passed over him. Mr. McCavour was assisted to his home and Dr. D. E. Berryman was summoned. He found upon making an examination that Mr. McCavour had suffered four fractures of the right leg.

The insurance adjustment in the recent conflagration at Summerside Oct. 10 and 11 has been made as follows:—British-American, \$12,200; Norwegian, \$10,875; Home, \$2,700; Union & Crown, \$5,000; Caledonian, \$4,500; Anglo-American, 4,400; Queen, \$4,300; Royal Victoria, Nova Scotia, \$1,000; Y. & L. and Globe, \$3,785; Western, \$1,300; N. Y. Underwriters, \$725; Com. Union, \$700; Canadian, \$500. Total, \$75,000. There were 126 buildings of one kind and another burned and the value of these, including contents, is estimated by E. L. Phillips, adjuster, at \$190,000.

Miss Puddington of Rothesay lectured on Heidelberg yesterday afternoon before the St. John's Historical Society. This was the second lecture of the course and was well attended by the members and their friends. The talk was entertaining and upon a thorough description of the different phases of university life as seen at Heidelberg, telling of the different courses of students, their uniforms, customs and "prison." She also spoke very interestingly of Worms, a town near Heidelberg, referring to the famous Diet there, and of Luther's monument, surrounded by the statues of others prominent in the Reformation.

The Slenca was hauled out on the slip at Halifax on Tuesday and considerable damage done, which was occasioned by the heavy weather during this last trip. Her repairs will probably occupy till next Monday, so that there will be no boat from St. John for the South Shore of Nova Scotia Thursday of this week. It is expected that the Slenca will leave Halifax next Monday to take on the route again.

TWO EX-PRESIDENTS IN THE SENATE

New York and New Jersey Would Each Send One.

WASHINGTON, D. C., Oct. 17.—Two ex-presidents of the United States in the Senate, one a Democrat, and the other a Republican; such a circumstance would be a great show and sounds unreasonable.

A few days ago several eastern newspapers of great political importance, printed stories which their correspondents insisted were well founded, to the effect that President Roosevelt would be selected by the Legislature of New York State to succeed U. S. Senator Platt, whose term expires March 3, 1907.

Not to be outdone, eastern Democratic newspapers have brought forward the candidacy of ex-President Grover Cleveland, as U. S. Senator to succeed Senator Dryden, whose term expires March 3, 1907. It is claimed that should the Democrats get together in New Jersey, and combine with the Republicans who do not think very well of Dryden, the election of Cleveland could be brought about. Whether or not Cleveland would submit to such a campaign is not yet known. He is reported to be busy fishing, and it is reported that none of his friends are in a position to speak for him.

When Their Boat Upset in Mill Lake—They Failed in an Attempt to Swim to the Shore.

Owing to the capsizing of a row boat John Riordan and William Goodell were yesterday drowned in the Mill Lake, near St. George. The two young men who belong to Utopia, were yesterday returning from a hunting expedition, and when they had nearly crossed the lake, a shot was heard, and to ascertain its cause Riordan and Goodell turned the boat around. As soon as this was done one of the two fell over the side of the craft, causing it to capsize.

Instead of clinging to the overturned boat, both started to swim ashore. They had made but little progress when one went down.

Owing to the darkness the other swimmer could not be followed, and as he has not since been seen, it is feared that he also went to a watery grave.

The above facts were told by the sons of Robert White, who witnessed the tragedy.

Grappling from were secured, but John Riordan was not recovered.

John Riordan was twenty years old, and a son of Daniel Riordan, a farmer of Utopia. Besides his father and mother he is survived by one brother and six sisters.

Wm. Goodell was a son of Joseph Goodell, of Utopia, was twenty-two years of age, and is survived by his parents, two sisters and three brothers.

The grappling for the bodies is being continued today.

The beautiful weather of Thanksgiving day drew hundreds of people from town for a final outing. The principal event of the day was the excursion to Fredericton for the unveiling of the Burns monument.

Mrs. Isaac Burpee and her daughter, Mrs. J. P. Busby, of St. John, N. B., who have been visiting Mrs. E. H. Burpee on High street, Bangor, have returned home.

Mr. and Mrs. J. Willard Smith kept open house to friends at Woolastock. Mr. and Mrs. Stephen McAvity, Mr. and Mrs. George Warwick, Mr. and Mrs. George Ewing and Mr. and Mrs. W. Watson Allen with guests enjoyed the holiday at their summer home at Onnetta.

Mr. and Mrs. J. H. Doody are on a trip to New York. Mr. and Mrs. A. H. Hanington returned on Monday from their country home. Dr. J. O. Calkin, of Sackville, spent part of this week in town.

The marriage will take place here on Saturday of Miss Melaney and Mr. Albert White. Mr. White is a former St. John boy, and is now residing in London, Ontario. Mr. and Mrs. Foot will not, however, leave St. John until the first of December.

Mrs. R. S. Cowan and Mrs. R. P. Cowan have issued invitations for an at home on Wednesday evening. Miss Marie Purlong went to Boston yesterday after a four weeks' visit to friends in the city.

Mr. J. J. Foot, manager of the St. John branch of the McClary Manufacturing Company, has been transferred to London, Ontario. Mr. and Mrs. Foot will not, however, leave St. John until the first of December.

Mrs. Bennett Swain, who has been the guest of her mother, Mrs. Henry Niles, Douglas avenue, left last evening for her home in Philadelphia, Pa. Mrs. Swain was accompanied by Miss Swain, Master Harry Swain.

The Ottawa Journal states that Hon. Henry Channing is taking his three charming daughters to Ottawa to reside for the season. They will have with them as their guest their cousin Miss Mary Emmerson.

Mrs. Percy Thomson has issued invitations for an at home on Wednesday next. Mrs. J. W. Stewart and daughter, of Springfield, N. S., left for home by C. P. R. today after a four weeks' visit to her friend, Mrs. G. W. Lindsey of 208 Carmarthen street, St. John.

Rev. J. C. Robertson, general secretary of the Presbyterian Sunday school work of Toronto, is in the city this week. On Sunday Mr. Robertson preached in St. Andrew's church in the morning and St. Matthew's in the evening.

NEW YORK, Oct. 18.—The battleship Maine, the flagship of Rear Admiral Evans, reached port today from the Massachusetts coast, where she engaged in target practice.

Mr. H. A. Powell, K. C., of Sackville, is coming to St. John this week to live. Mr. Powell is going into legal partnership with Mr. W. H. Harrison here.

ST. JOHN'S, Nfld., Oct. 18.—The whaling vessel, K. Smith Snowdrop, which left Dundee, Scotland, April 9, for Baffin Land, arrived here today with but four of her original crew of fourteen on board, the remainder having returned home.

Dr. and Mrs. Broderick are back from a visit to the United States. J. E. Turnbull is in the city, being called from Winnipeg by the illness of his mother, at the home of her daughter, Mrs. R. W. Frink.

BOSTON, Oct. 18.—For approving the payroll of an employee of the city who has been bedridden for two years, Benjamin J. H. Green, a foreman in the state department, was arrested tonight on a charge of larceny of 1,048 from the City of Boston. The money had been drawn each week by the daughter of the workman.

Retailers Are Already Doing an Active Business—Persian Lamb for Smart Set

According to The Dry Goods Review, Toronto, wholesale furriers and manufacturers have completed shipments and already retailers are doing an active early business, especially the large firms in the cities. A few cold days towards the last of the month boomed furriers considerably and gave some assurance of a cold winter and a record trade. Manufacturers expect big assortments of goods, and already struggling requests are coming in. Retailers are demanding the better class of goods in all furs, and some returns are noticed of goods not up to sample. Hurry-up orders are quite numerous for shipment before the middle of the month.

MONCTON, N. B., Oct. 18.—One of Moncton's oldest residents, Mrs. Prince, wife of William L. Prince, a former well known I. C. B. clerk, passed away at her home in Lewisville last night. Her aged husband, one daughter, Miss E. J. Prince and one son, Geo. L., survive.

QUEBEC JEWELLER AFTER STOLEN GOODS
BOSTON, Oct. 18.—Trinity Burrows, of Lewiston, Quebec, arrived here today and identified a quantity of watches and jewelry taken from two prisoners as part of the plunder which robbers took from his store, after holding up a clerk at the point of a revolver on September 24. Joseph Navoloni and Dominick Fulvini were recently arrested here on suspicion of robbing Burrows in Canada. Extradition proceedings will be begun.

PERISIAN LAMB AWAY UP.
Recent reports from Leningrad and London confirm the statement that the trade in Montreal and Toronto concerning exceptionally high prices during 1907 for Persian lamb skins—higher even than this year by as much as 25 per cent, and it must be borne in mind that prices during the present season are the highest in the history of the popular fur. Demand has been exceptionally strong in all markets, and London and France particularly have been heavy bidders for these skins. There has also been a great deal of speculation here as to even made up in dress materials.

CLEARING THE WAY.
 (Philadelphia Ledger.)
 Some humor was interjected into a case in a magistrate's court in Georgetown. Two local lawyers were representing plaintiff and defendant, and became excited and somewhat personal in their argument. Matters proceeded to such a pitch that the lawyers began to call each other names. "You're an ass!" said one to the other. "You're a liar!" was the quick retort of the opposing attorney. Then the magistrate, in a very dignified manner, said: "Now that the counsel have identified each other, kindly proceed to the disputed points."

DREDGING.
 It is difficult to conceive how, by continuing the method of work now followed on the west side, the aldermen can hope to provide at all Sand Point berths the proper depth of water for the largest steamers which should come here during the winter. At berths numbers two and three the last surveys showed that between nine and ten thousand cubic yards of dirt must be removed to give thirty feet of water out to eighty feet from the wharf. The small dredge owned by the city is capable of doing the necessary work in time but it takes up such a small amount in each bucket that it is extremely doubtful whether other assistance should not be secured, even if the city's plant works continuously and systematically. Unfortunately it does not do so.

It has been announced from city hall that at number two berth the dredging will be carried out only seventy feet from the wharf. Such a plan would no doubt prove suitable for the accommodation of certain classes of steamers, but the Allan line turbines are flat bottomed boats, and require at least a width of eighty feet to keep them entirely clear of the mud. If ten feet less is given, these steamers will be listed when lying at their berth at low water.

At number two the dredge has removed the mud to the proper depth for practically the entire length of the berth and for a distance of thirty-five feet from the face of the wharf. Thus there still remains to be done almost seventy per cent. of the whole. The work which has so far been completed at this berth is well done. The same cannot be said of number three. At this berth a different plan has been followed, and, instead of working from the face of the wharf outward, the work was commenced at one end of the berth and is being continued along the length in the direction of number four. At the outer end of number three a large hole has been dug in which there is now found not merely the required thirty feet, but thirty-six feet. This is, dredging entirely unnecessary has been performed, involving an expenditure of time which under existing circumstances is greatly to be regretted. Again, of late the dredge has not been systematically operated but has been moved about from one place to another, probably leveling any marked unevenness noticed on the bottom. Repairs have necessitated delay, but when the dredge resumed operations on Wednesday it was at number two berth, two or number three berth, but at the end of number four where one of Mr. Clark's cranes was placed. What the dredge was doing there was a mystery, but it seemed to be removing mud from around the crib. Another point which might be mentioned incidentally is that this crib, which is claimed to be always afloat, shows one or one and a half tiers of timber above the surface at high water, while on Wednesday at low water six tiers were in sight.

Soundings have been taken at number four berth inside and outside this crib, and there is no doubt that number four berth needs dredging more than any of the others. If the whole area were surveyed it would be found to have an average depth of not more than twenty-four feet at the most. This work must be done for the accommodation of the big steamers but there is grave doubt whether the wharf and approach would stand dredging to such a depth. Every precaution should be taken to prevent a slide, and no matter what is done in this line there will be risk of the work.

This is the present situation. Number two is scarcely half done, but it can be completed if the city dredge stays at work and stops dodging about from one place to another. It is better to finish one berth properly than to be pottering about three of them and not have any in shape.

The dredging for the new wharf and the rebuilding of Union street is now well advanced which will require Mr. Mayes, when number two site has been declared ready, will in all probability resume operations on number three. The site is now partly covered with the earth and rubbish which has slid in from Union street. This slope has not yet reached its natural angle, and it is altogether probable that within a short time even if left undisturbed, further sliding or settling would take place. This will be hastened by the dredging, and the outlook is that the breaking away of the land will carry into the harbor a large portion of the Granite Company's building along with the whole of the structure used as the Shore Line offices.

Aside from the actual work, there is the fact that those in authority are divided into a number of groups working in opposition to each other. Director Cushing, the board of works, and Mayor Sears with a few supporters, are pulling in different directions and when to this is added that two contractors, engaged by the city and the other by the government, are performing the work, it will be seen that nothing other than confusion exists. Petty jealousies, indifference, and conceit influence certain members of the council and while they squabble among themselves the work is delayed.

Thin Blood
 Experience count anything with you? Then what do you think of 60 years' experience with Ayer's Sarsaparilla? Sixty years of curing thin blood, weak nerves, general debility! We wish you would ask your own doctor about this. Ask him to tell you honestly what he thinks of me. "Don't you often find it unpleasant?"

THE SIMPLE LIFE.
 (Elsie Duncan Yale in Woman's Home Companion.)
 "I'm wearied of the white!" quoth she, "Henceforth the simple life for me, Methinks it would be very wise To take my breakfast ere I rise— Of coffee just a single cup."
 (N. B. Her mother brought it up!)

"And when I'm dressed," thus spoke the maid,
 "I'll tie me to the elm-tree's shade, And with a book there I will find Sweet rest and comfort for the mind." And so in sylvan shade she read.
 (N. B. Her mother ironed her bed.)

"A dainty lunch will suit me best— Sailed with all of Lucca's dresser's. No steaming soup, nor heavy roast, But broiled spring chicken served on toast."
 She ate it all and found it good.
 (N. B. Her mother cooked her food.)

Then when the day at last was spent Her mind was filled with sweet content;
 She donned a dainty gown of white With rosy ribbons all befitting,
 And looked as fair as any rose.
 (N. B. Her mother ironed her clothes!)

"I love the simple life," quoth she; "My heart from care is ever free; A good night's rest I'll have I know, For prompt at nine to bed I'll go." True to her word she retired to rest.
 (N. B. Her mother worked till ten.)

L'ENVOI
 Oh ye who love the simple life, Escaping care and toil and strife, Evading paths where duties lurk, Mark ye! Someone must do your work.
 (N. B. Her mother worked till ten.)

A SATISFACTORY HOLIDAY.
 The following dialogue, translated from a German paper, shows that in Europe the holiday season brings its woes and worries.
 "Well, and have you spent a pleasant holiday?"
 "Yes, thanks. Don't I look as if I had?"
 "Indeed you do. I have never seen you look so merry."
 "On the contrary, it was the cheapest holiday I ever had."
 "But, man, tell me the name of the place!"
 "I stayed at home."

IT WAS A HEN.
 It was not Lord Curzon of Kedleston, but a little girl who started the hen who found himself at a city banquet next to a portly alderman.
 "My grandpa," said the child, "said the latest to the distinguished guest."
 "The emperor gave him a lovely snuffbox," said the portly alderman, "and he replied the vicegeroy."
 "It is probably an eagle, not a hen."
 "No, it is a hen," persisted the alderman, "and he proudly displaying the initial 'N' of the emperor's name in brilliant on the lid."
 (N. B. Her mother worked till ten.)

TWO PRACTICAL JOKES.
 A California Joker sent a telegram to his friend who was particularly fond of money matters. The telegram was, "I am perfectly well," and it was sent "collect." Evidently the telegram sent the man man thinking a week afterward the joker had a very heavy package brought to him, with nearly \$5 to pay on it. On opening it, he found a stone, with his thirty friend's card and these words: "This represents the weight your telegram lifted from my heart."
EASY LESSONS IN HISTORY.
 Johnnie—"Say, who was Pandora?"
 Johnnie's Pa—"Pandora, my son, was a little girl who started the hen who found herself at a city banquet next to a portly alderman."
 Mrs. Upmore (to her son)—"Look at that bulldog! Isn't he the most hideous and repulsive creature you ever saw?"
 Upmore (dog fancier)—"You bet he is! He's a beauty!"
SUSPECTED.
 "And you didn't propose to her?"
 "No."
 "Why?"
 "I was leading up to it, but suddenly he had his voice had a sort of previous-engagement ring."
A DIFFERENCE.
 "I suppose you did lose a little money. Forget it! You ought to take things philosophically."
 "I always do, but it's hard to part with things philosophically."

FOURTEEN PERSONS WERE BURNED TO DEATH
 By a Fire in a Birmingham, Ala., Boarding House—Big Blaze in San Francisco.

BIRMINGHAM, Ala., Oct. 18.—A boarding house located at 12th street and Third avenue was destroyed by fire between 2 and 3 o'clock this morning. From 11 to 14 lives were lost. Bulletin—Up to 9 o'clock ten charred bodies had been recovered from the ruins of Mrs. Moody's boarding house. Four others were said to be missing at that hour, and the search was still in progress.

SAN FRANCISCO, Oct. 19.—Fire last night in the freight sheds of the Southern Pacific Company in Ferry street destroyed \$200,000 worth of property. Four tracks full of freight cars were consumed. It is thought that most of the cars were empty.

If you need glasses you save nothing by waiting. Consult D. Boyaner, graduate optician, 28 Dock street.

There is a special sale of ladies' and children's long coats at J. K. Storey's, Union street, from \$2.00 up.

A rummage sale in aid of the Free Kindergarten will be held in Queen's Park on Wednesday, Thursday and Friday of next week. Contributions of clothing, household articles, bric-a-brac, etc., will be gladly received on Tuesday afternoon or mornings of days of sale, or telephone 1400 and they will be called for.

"The Scarlet Mystery," which is to appear in the John for four nights at the York Theatre commencing on Wednesday, October 24th, has been making tremendous success and has given the greatest satisfaction ever since landing on Canadian soil. The entertainment is so well planned and so well kept the audience in roars of laughter. The costumes are magnificent in every detail, and a more delightful entertainment has never been given in Canada, every body who has seen it has given it with smiling faces. Don't fail to see this splendid company of English artists.—Advt.

The Marathon football team returned this morning from Halifax, where they played the Wanderers of that city yesterday and were defeated by a score of 3 to 0. The boys all speak in the highest terms of their trip, and they were especially loud in their praise of the people in Halifax. They were used most kindly in every respect and have not a single kick to make. The referee knows how to handle the whistle in first class shape, and it is quite possible that will be asked to referee the game between the Marathons and U. N. B., which will be played on Saturday afternoon at the Victoria grounds, when the Beavers meet St. Peter's for the second time, and the Marathons play Carleton.

BAPTISTS DO NOT FEEL SATISFIED
 Unrest is Noticeable About Acadia University
 Correspondent Asks "Why?" Several Times Relating to Loss of Teachers—Denominational Organ Concur.

at Acadia? Why search far afield for men so much needed and overworked as one of our own? If the policy being followed or to be followed could be made public, through the columns of the Maritime Baptist, it would probably relieve the apprehension of many who like myself can sign themselves as among Acadia's Well-wishers.
 The Maritime Baptist seems to concur in the idea set forth by this correspondent, and editorially says: "In common as we suppose, with all the friends of Acadia, our correspondent regrets the loss which the college has sustained during the last year or two by the withdrawal from the faculty of a number of very valuable men, and also the delay in appointing a president. It is certainly desirable, that the presidency should be filled, it is less important to fill it speedily than to fill it judiciously. The college and the denomination can far better afford to wait a few months even yet for the new president than that an unwise appointment should be made. If the Governors have been doing their best to secure a successor to Dr. Trotter and have not yet been able to find the right man, we can afford to be patient with them. But, on the other hand, the feeling that there should be no unnecessary delay is only reasonable, and we may add that, in view of the fact that so little information on the subject has been given to the denomination, the feeling which our correspondent voices in reference to the delay in the appointment is perhaps not unnatural. We accordingly venture to suggest that it would perhaps be desirable, to nominate a successor to Dr. Trotter, should give to the readers of the Maritime Baptist such a statement as it may seem judicious and practicable."

CLEVELAND, Ohio, Oct. 18.—Miss Sarah G. Miller, a cousin of the late President McKinley, and a daughter of Major Chas. R. Miller, commander-in-chief of the Spanish war veterans, died at the home of her parents, here, today.
 "We suppose that all is being done that can be done, but it cannot be denied that there is a feeling of apprehension abroad, which would be greatly allayed could the membership of the churches in the provinces be taken into the confidence of those who have the matter in hand. At a time when men of ability are so much in demand, so hard to get and so hard to keep, it naturally causes concern to see so many of our stronger men being lost. Following the resignation of Dr. Keirstead and Dr. Trotter comes that of Prof. E. W. Sawyer, and Dr. Cecil Jones.
 Was it necessary that Prof. Sawyer's valuable services should be lost to Acadia? Could not Dr. Cecil Jones have been placed in the presidency where a man of ability is so greatly needed? If his own alma mater selected him to fill the presidential chair at U. N. B. would he not have been able to have filled the same position

MARSEILLES, France, Oct. 17.—Mail agencies received today from Indo-China brought another and more revealing story of the doings in Vietnam-Thal of Annam, sometimes called Coch-China, showing that he went to the extent of committing suicide by killing one of his wives he caused the body to be cooked and served up for dinner, forcing his courage to eat it under pain of death.
 Some of the King's wives were bound and burned with boiling oil, and subjected to other cruelties, while naked women were thrown into the cages of wild beasts where they were devoured before the King.
 Finally the French authorities stepped in and made a prisoner of Thuan-Thal, who has been adjudged insane by Dr. Dumas of the French colonial staff.
 The "Royal Guard" which was disbanded, the palace has been placed under the protection of 150 native soldiers, and terror-stricken inmates of the palace have been rescued.
 The majority of the latter were women who bore the marks of revolting tortures. Some of them were terribly mutilated, their faces being slashed and tongues cut out, while others had been suspended by phichers attached to the fleshy parts of their legs to increase their agonies.

FINDLAY, Ohio, Oct. 19.—After deliberating 32 hours the jury in the case of the State of Ohio against the Standard Oil Company of Ohio, returned a verdict of "guilty" on the charge of conspiracy against trade in violation of the Valentine-trust laws. The verdict was rendered at 4.35 o'clock this morning, the jury having announced its readiness to report exactly at 4 o'clock. The court and attorneys arrived in a half hour when the verdict was rendered as follows:
 "We the jury in this case find the defendants guilty in the manner and form as the defendant stands charged on the information."
 Attorney Troup for the defendant said he wished to make a motion for a new trial of the case. Judge Banker assured him that all such motions would be entertained as a matter of course. The court at once adjourned.

SIMPLE FUNERAL SERVICE FOR LATE MRS. DAVIS

NEW YORK, Oct. 18.—A simple and brief funeral service was held today for the late Mrs. Jefferson Davis at the Hotel Majestic, where she died on Tuesday night. Rev. W. A. Soule of St. Stephen's Episcopal church officiated and was assisted by Rev. Dr. Geo. S. Baker, chaplain of the Southern Society, and Rev. Henry Lubock, rector of St. Timothy's church. The service was private, only the immediate members of Mrs. Davis' family, representatives of the United Daughters of the Confederacy and a small number of intimate friends being present. Numerous wreaths covered the casket, one of which was sent by President and Mrs. Roosevelt. Other floral tributes came from the governors of many southern states and from various societies to which Mrs. Davis belonged.

BANK OF ENGLAND MAKES DISCOUNT RATE 6 PER CENT.

LONDON, Oct. 19.—The Bank of England raised its discount rate to 6 per cent. this morning. Changes in the discount rate of the bank on any day except Thursdays have been few and far between and not since Nov. 1898 just after the Boer war broke out has the rate 6 per cent. The relapse in American exchange, indicating a renewal of the demands for gold, and the probability of large withdrawals of the metal for Egypt seem to have contributed to the action taken by the Bank of England today.

WHEAT RECEIPTS IN WEST.

Over 20,000,000 Bushels Received to Date on Line of C. P. R. Making Record. WINNIPEG, Oct. 18.—Twenty million bushels of wheat have been delivered at points along the track of the Canadian Pacific Railway already this year, which establishes a new record in this line, the total amount received in any previous year up to the corresponding period being millions less than the large total reported this season. The total for wheat this year is six million in excess of last year, the season of 1905 having been also greatly in excess of 1904. Receipts on Saturday at points on the Canadian Pacific Railway were as follows: Wheat, 620,000 bushels; other grains, 69,000 bushels. The total receipts up to the close of business on Saturday were as follows: Wheat, 18,576,000 bushels; other grains, 1,225,000 bushels. In the corresponding period of last year the receipts were as follows: Wheat, 16,950,000 bushels; other grains, 731,000 bushels. The receipts of yesterday will increase the grand total for the present season to a sum considerably over the twenty million mark.

CANADA'S WHEAT.

United States Carries Third of Last Year's Crop. Out of a total of 55,699,720 bushels of Canadian Northwest wheat shipped during the crop ending August 31st, last, United States buyers captured one-third of the water shipments or actually a total of 18,912,631 bushels. The Department of Trade and Commerce has just received the figures of the shipments which passed through the elevators of Port William and Port Arthur. The total of 55,699,720 bushels. Of this quantity 5,822,483 bushels went out by rail and 49,877,237 by water. The ports through which the water shipments passed were as follows:

Port	Bushels
Montreal	1,321,013
Depot Harbor	8,456,842
Midland	3,900,837
Owen Sound	2,782,500
Collingwood	609,340
Point Edward	2,227,864
Godolphin	1,491,207
Medford	888,282
Point Colborne	1,352,215
Thorold	447,063
Kingston	876,583
Fredericton	59,857

As stated, the quantity Northwest wheat which was shipped by United

States routes was 16,912,631 bushels, of which Buffalo alone secured 15,338,449 bushels, only 853,228 bushels of which were carried in Canadian vessels. Port Huron got 619,006 bushels, of which 212,138 bushels was carried in Canadian vessels. An order-in-council has been passed under the Manitoba Grain Act of 1900 giving effect to new regulations for the better protection of the owners of grain which goes into special bins in the elevators. Samples are to be taken as the grain is put into the bins, and when the grain comes out, if the owner is not satisfied that it is his own wheat, further samples will be taken, and the two sets sent forward to the chief inspector at Winnipeg, whose decision will be binding upon both parties.

WALL STREET.

NEW YORK, Oct. 19.—Cotton futures opened weak, Oct. offered, \$19.95; Nov., \$19.90; Dec., \$19.85; Jan., \$19.85; Feb., offered, \$19.80; March, \$19.80; May, \$19.80; June, \$19.80 bid; July, \$19.80.

NEW YORK, Oct. 19.—The unheralded advance in the Bank of England's discount rate to 6 per cent. threw the stock market into confusion at the opening. There was a disorder in the break in prices caused by a heavy unloading of speculative accounts all through the list. The first sales of Union Pacific were of 18,000 shares at 194-3/4 and 185-1/8, compared with 194-3/4 and 185-1/8 last night. Reading, 5,000 shares at 149-1/2 and 149, compared with 151-3/4 last night, and United States Steel, 6,000 shares at 43-3/4 and 47-1/2; Steel, 6,000 at 47-3/4 and 47-1/2. Last night, Amalgamated Copper 12,000 shares at 114-1/2 and 114, compared with 116-3/4 last night; Reading, 5,000 shares at 149-1/2 and 149, compared with 151-3/4 last night, and United States Steel, 6,000 shares at 43-3/4 and 47-1/2; Steel, 6,000 at 47-3/4 and 47-1/2. Losses of \$ 2 to 2-1/2 were shown by St. Paul, Northern Pacific, Canadian Pacific, Delaware and Hudson, Brooklyn Transit and Smeltz; and O. and Southern Pacific. The declines generally ran from a large fraction to over a point.

ITALIAN BANK FAILS.

TURIN, Italy, Oct. 19.—The liabilities of the banking house of Zucerman and Company which closed its doors yesterday, are estimated at about \$1,200,000 and it is believed that the assets will amount to about the same sum.

SWEEP TO BRINK OF FALLS; RESCUED IN NICK OF TIME.

NIAGARA FALLS, N. Y., Oct. 15.—A disabled launch, containing a party of six men and women was swept into the rapids and within half a mile of the brink of the falls late tonight. They were saved from a plunge over the cataract by Albert Greenwood of Chippewa, Ont., who brought them ashore in his launch. The party consisted of Captain Chas. B. Lentz and Mrs. Lentz, Mrs. Chas. Chapman and daughter, Nellie, C. W. Cleemann and Engineer James Herschell. Captain Lentz lost his bearings in the dark and struck near a bar near the foot of Buckhorn Island, smashing the launch's rudder and leaving the little boat helpless. The first anchor chain snapped and the boat started down the river in a 17 mile current. The second anchor dragged along the bottom of the river for some time, the occupants of the boat frantically calling for help. Nothing could be done for them. The second anchor finally caught on a ledge near the Canadian shore and within sound of the falls. Captain Lentz attracted attention from shore by using the launch's flashlight. Word was sent to Albert Greenwood, owner of a small steam launch. Greenwood volunteered to attempt a rescue. He made two trips through the dangerous channels and brought the party safely ashore.

FATHER AND DAUGHTER IN A CRITICAL CONDITION

ST. STEPHEN, Oct. 18.—John P. Grant, the aged cashier of the St. Stephen's Bank, who is suffering with pneumonia, is critically ill this evening. In the same home his daughter, Miss Helen Grant, one of St. Stephen's most estimable and popular young ladies, who has been ill for some weeks with inflammatory rheumatism and nervous prostration, is also in a critical condition.

Everybody Agrees

That **COD LIVER OIL** and **IRON** are beyond question the greatest medicines known. Then why does not everybody take Cod Liver Oil and Iron? Simply because most people cannot take the Oil and few can digest the Iron in any ordinary form. These difficulties have been entirely removed by the introduction of **FERROL**, in which the Iron is scientifically combined with the Oil, rendering the Oil palatable and the Iron digestible. While

FERROL

is manufactured from the best quality of Cod Liver Oil (the whole of the Oil) and is richer in oil than any other emulsion, and while it contains just the right quantity of the best form of Iron and Phosphorus, it is so scientifically prepared that not one person in a thousand finds any trouble in taking it, and infants digest it without difficulty. Moreover the well-established value of the Oil and Iron is immensely enhanced by the process of manufacture, and as the formula is freely exposed it is not to be wondered at that physicians everywhere have fully endorsed **FERROL** and used it largely in their practice. **FERROL** is invaluable for the treatment of any kind of Lung or Bronchial troubles, while for various diseases it has no equal, and "You Know What You Take"

WOMEN'S COUNCIL ROYALLY TREATED

Mrs. Robert Thomson, the Retiring President, Came Home Yesterday—Declined Re-election.

Mrs. Robert Thomson who has been president of the National Council of Women for a number of years, returned yesterday from Hamilton, Ont., where she presided at the meetings of the council. Mrs. Thomson was again asked to take the presidency, and on declining the council elected Lady Edgar its president for the ensuing year. The sessions began Tuesday, the 16th of October, and were held in the city hall. The mayor kindly placed his private rooms at the disposal of the council. Mrs. Randolph, president of the council, was unable to be present owing to the illness of her husband, Senator Frost.

CABBAGES AND KINGS.

The Star's New Series of Short Stories, by O. Henry.

DICKY.

(Continued.)
There is little consecutiveness about the Spanish Main. Things happen there intermittently. Even time seems to hang his scythe daily on the beam of an orange tree while he takes a siesta and a cigarette.
After the ineffectual revolt against the administration of President Landa, the country settled again into quiet toleration of the abuses with which he had been charged. In Corralo old political enemies went arm-in-arm, lightly eschewing for the time all differences of opinion.
The failure of the art expedition did not stretch the fat-footed Keogh upon his back. The ups and downs of fortune made smooth travelling for his nimble steps. His blue pencil stub was at work again before the smoke of the steamer on which White sailed had cleared away from the horizon. He had but to speak a word to Geddie to get his credit negotiable for whatever goods he wanted from the store of Brannigan & Company. On the same day on which White arrived in New York Keogh, at the rear of a train of five pack mules loaded with hardware and cutlery, set his face toward Arizona, interior mountains. There the Indian tribes wash gold dust from the auriferous streams; and when a market is bought to the trading is brisk and many bueno in the Cordilleras.
In Corralo Time folded his wings and paced wearily along his ranks of soldiers who had most cheered the torrid hours were gone. Clancy had sailed on a Spanish barque for Colon, contented with the quiet and genial nature had once served to mitigate the frequent dull reaction of lotus eating, was now a home-made, happy with his bright orchid, Paula, and never even dreaming of regretting the unloved, sealed and monogrammed bottle, which she had not inconsiderable, were held safely in the keeping of the sea.
Well may the Valrus, most discerning eclectics of beasts, place sealine-wax midway on his programme of topics that fall pertinent and diverting upon the air.
Arrows was gone—he of the hospitable back porch and ingenious cunning. Dr. Gregg, with his resplendent whiskers within him, was a whiskered volcano, always showing signs of imminent eruption, and was not to be considered in the ranks of those who might contribute to the amelioration of evil. The new consul's note chimed with the old, and waves, in a government monopoly; and to keep a government dispensary assured respectability is not good. Moreover, the sudden of prelatians could find no fault with the conduct of the shop.
There in the least of spirits and fearfully, as in the shadow of the dead; for Madama's ancient and her husband's discomfited even to the husband's best to be merry. For, was she not of the Iglesias, who landed with Pinarro the Yorkshire Observer that it is evident Terry did not take much trouble for the district?

ARTHUR PERLEY DEAD AT WOLESELEY, SASK.

Was the Eldest Son of Senator Perley, and Went West With His Father in '83.

A telegram announcing the death at Wolesley, Saskatchewan, of Arthur Perley, eldest son of Senator Perley, formerly of this province, has been received here by E. W. Slipp, of the firm Slipp and Flewelling. He was one of the most successful young farmers in the West.
Perley succumbed to an attack of typhoid fever, after a comparatively short illness. He went West with his father when the family removed there in 1883, and was a most estimable young man. He leaves a widow, formerly Miss Boileau, of Toronto, and five children. He is also survived by one brother, Ernest, and two sisters, Mrs. Levi Thompson, and Mrs. Edward Barbour. E. W. Slipp and Robert B. Slipp, of this city, are uncles.

MATE'S CONDUCT IS CONDEMNED

His Certificate Cancelled by Commander Spain.

Foundering of Steamer Princess on Lake Winnipeg Due to Severe Weather—Crew One Man Short.

OTTAWA, Oct. 18.—Judgment has been given by Commander Spain on the wreck of the steamer Princess on Lake Winnipeg on August 26th. The vessel foundered in a gale and six lives were lost. Those drowned were the master, two stewardesses, a deck-hand and two fishermen. Commander Spain found the vessel was seaworthy and fully manned with the exception of a second engineer. To have had one would have been beneficial. He was surprised the captain did not make for shelter when the gale was increasing. The foundering was due to weather too severe for such a vessel to live through. If proper discipline had been maintained Commander Spain does not see why lives should have been lost.
The conduct of the mate, Joseph Alexander Joyce, is condemned. He made no attempt to look after the safety of anyone but himself and was among the first to leave the boat. In a great measure he is responsible for the fact that the two women were drowned. He holds a certificate for inland navigation, but Commander Spain said it would be a menace to the safety of crews and passengers to allow such a man to continue, and therefore cancels his certificate.

ERNEST TERRY ABOUT CANADA Says That Government Refused Him Opportunity of Visiting the West.

LONDON, Oct. 18.—Ernest Terry, replying in the Yorkshire Post to Smith, the commissioner, declares that the government refused him an opportunity to visit Western Canada in order to personally test the stories told him. He denies any antagonism to Canada, and alleges that the circulation of glowing accounts by the government agents which, he says, Germany recently prohibited, challenges Smith to deny that there is a house famine in every industrial city in Canada, and asks if Smith's invitation to go out to the West is official. He remarks that England would be glad of disinterested information referring to the Barr Colony, and says he understands that the greatest ambition of the settlers was to see Dr. Barr hang-drawn and quartered. He reiterates that if the Englishman is unpopular it is not a good sign for Canadians are impatient of criticism in the West.
A man by the name of Parkinson, a Frederickton, N. B., emigrant, writes in the Yorkshire Observer that it is evident Terry did not take much trouble for the district.
Sir Howard Vincent, referring to the statement of agents from the Southern States coming to Britain to attempt to divert emigration, says the English people are not suited to employment there, and adds: "Moreover we ought to do all we can to turn the stream of emigration to the colonies."
In the last 40 years eight millions of emigrants were allowed to discard their British allegiance, and at a meeting of the Colonial Continental Church Society at Leeds, the vicar of Leeds, especially to Canada, called for vast help.
Rev. James Boyle, district secretary, gave an interesting experience, as chaplain of an emigrant steamer, and stated that many emigrants would have no church at all in their new homes.

RUNAWAY ACCIDENT.

Mrs. James Whalen Had Several Ribs Fractured

A runaway on Brussels street on Wednesday evening resulted in serious injuries to Mrs. J. Whalen of Beaver Lake Road. Mrs. Whalen was driving along that street with a horse belonging to her husband's farm when the animal bolted. Mrs. Whalen was taken by surprise and thrown out of the carriage.
When picked up it was found that she had suffered severe injuries, having fractured her ribs on the left side, and being badly cut around the mouth. She was carried into Simon Stockford's house on Brussels street and Dr. Lewin her assistance. Later Mrs. Whalen was driven to her home.

BISHOP MATHESON, OF RUPEST'S LAND, MARRIED AT WINNIPEG.

WINNIPEG, Oct. 18.—A wedding of much interest was solemnized at Holy Trinity church yesterday morning at 11 o'clock when Bishop Matheson, of Rupert's Land, was quietly married, the bride being Miss Alice Talbot. The ceremony was performed by the Ven. Archbishop Fortin, brother-in-law of the groom. The bride was given away by her brother-in-law, Douglas Clarke. His grave was attended by his eldest son, Godfrey Matheson. The ceremony was very quiet, the only persons being present being Miss Adele Matheson, Miss Maule Matheson, Mrs. Fortin, Mr. and Mrs. Douglas Clarke, Miss Edna Talbot, Miss Munson, Miss Winsterman and Mr. and Mrs. Strath.

CARNIVAL OF CRIME IN ALL MANITOBA

Murder Trials in Each of the
Judicial Divisions.

Seventy Indictments to be Presented at
Winnipeg Assizes—Two Important
Cases.

WINNIPEG, Oct. 18.—The Fall Assizes for the four judicial districts open this month, and the big lists are published tomorrow morning. The calendar is such as to indicate that during the last half-year there has been an awful carnival of crime throughout the whole of Manitoba, it being confined to no particular district, though in the eastern portion it is most alarming to note the number of men charged with murder. For the first time in the history of the province juries will have to try men for capital punishment in each of the judicial divisions of Manitoba. In Winnipeg charges of murder will be preferred against nearly a dozen men and charges of a like nature will be laid in Brandon, Portage la Prairie and Morden. It is estimated that about 70 indictments will be presented to the grand jury at the sittings, which open here next Tuesday, all of which are of a most serious character, the gravest offences being against the Galician and other foreign elements in the north end of Winnipeg.

There will be two of the murder trials of more than ordinary interest. That of Eli Grob will take place at Portage la Prairie, for the shooting of Bailiff Clarkson. The trial of Martin Doyle for the murder of Vincent Wellor, both Dakotas, near Snowflake, Man., five miles from the international boundary, last winter, and which will be held at Morden, will be of a sensational nature, being of the nature of the famous Elwell case.

Given a staple article, and no amount of advertising will give it a permanent and profitable sale unless it is backed by merit on the other hand. If you do not make it known it will fall, however great the merit.—Earl & Wilson, N. Y.

THE WEATHER

Forecasts.—Westerly winds, fair today. Saturday easterly gales with rain. Synopses.—A tropical storm is moving northward near the south Carolina Coast. Another cold wave is now probable over the Western Provinces. To Banks and American ports, moderate winds today; Saturday, heavy easterly gales with rain. Highest temperature, 55. Lowest temperature, 32.

WASHINGTON, Oct. 15.—The weather bureau's general forecast says—"The centre of the tropical disturbances is apparently at sea, some distance off the Carolina Coast. Its influence, however, still extends to the South Atlantic coast where winds have increased in strength over night. "Storm warnings are displayed on the Atlantic coast from Savannah to Eastport."

LOCAL NEWS.

On and after Monday next, the market will open at 7.30 a. m. and close at 5 p. m.

Gordon Powell, a young lad who resides on Exmouth street, and a companion were walking along the Midgic Lake road yesterday afternoon when they saw in front of them a large deer. The animal showed signs of fight for a few minutes but decided not to do any damage. The boys were not armed and the deer soon disappeared into the woods.

In the equity court this morning Judge Barker gave his decision in the Cushing Sulphite Fibre Co. Ltd. case. This was the result of a petition presented by the liquidators of the company to find out what articles were to be sold as plant on Saturday. The honor decided that such things as office furniture and other articles were not absolutely necessary for the carrying on of the business and did not come under the specification of plant, but that saws, machinery and articles of a like nature did come under that specification and are to be sold.

SUMMER HOUSES AT RAGGED POINT ENTERED

Unknown Persons Broke Doors and Windows and Fired Rifle Bullets Through the Buildings.

There are three St. John citizens who have summer cottages at Ragged Point, near Bear's Head. Rev. F. P. McKim, John M. Robertson and Fred Foster. Year after year these cottages are broken into by unknown parties. Repeatedly entrance has been made, and the contents of the houses stolen, until at last the owners got tired of leaving articles there to be carried away, and when returning to the city in the autumn they have lately been bringing everything with them. The fact that there is nothing left to steal has not, however, put a stop to the conduct of the miscreants.

Twice this fall the houses have been entered. On Sunday last, they were broken open, the locks were smashed off the doors and off drawers and closets inside the buildings. The windows were broken and numbers of rifle bullets were fired through the houses, doing a great deal of damage. On that same day three young men carrying fire arms were seen coming towards the city from Ragged Point, and the matter has been reported to the police who are now working on what they consider a strong case. These are the only three houses at Ragged Point, and as there are no neighbors in the near vicinity those persons who feel like doing damage have every opportunity.

MUSIC FOR THE SUNDAY SCHOOL CONVENTION

This evening in St. Andrew's church at 7.30 o'clock, Mr. Meredith, of New York, will conduct a practice of the music for the Provincial S. S. Convention, which is to be held in St. Andrew's Church on Wednesday, Thursday and Friday of next week. The singers of the city churches and Sunday schools have been invited to assist, and it is hoped that there will be a large chorus to meet Mr. Meredith tonight as he has come on from New York a day earlier so as to have this practice.

Mr. Meredith is a member of the music firm of Tullar-Meredith Co., New York. Both Mr. Tullar and Mr. Meredith are well known in St. John and throughout the province, as both have been here before conducting the music at different conventions. They are to conduct the music at the Prince Edward Island S. S. Convention, which opens in Charlottetown next Monday and closes Tuesday night. They along with Mr. Pierce, of Chicago, and Rev. G. D. Ganon, Field Secretary for N. B. and P. E. L. will return to St. John on Wednesday ready for the N. B. convention.

NO WORD YET.

Those Dredge Inspectors Have Evidently Lost Themselves in Boston.

Has Capt. Wright finished his inspection of the dredge Bothwell? This question is asked by many persons around City Hall and in one of the capable of answering it. One alderman this morning said that if the Bothwell was to be purchased, she should be brought here as soon as possible. The time is fast approaching when the winter port steamers will be arriving and if the Sand Point work is to be finished in time no more delay than is absolutely necessary should take place. Alderman McGoldrick expected word from Capt. Wright several days ago, but nothing has yet arrived and mixtures are at a stand still awaiting the report from the inspectors.

WIDOWS THREATEN BREACH OF PROMISE

How John Orchard Got Himself in Hot Water.

By Loving Indiscriminately—A Marriage that Was Postponed When the Old Sweetheart Arrived.

An amusing situation is reported from the Chipman, Queens county, district, which, however, is not so very funny for the parties concerned. It is a tale of an elderly man who loved wisely but two well, and who is now in hot water.

It appears that John Orchard, a well-known and prosperous farmer in White's Cove, some time ago met and fell in love with Mrs. Poole, a North Shore lady, who happened to be visiting for the parties concerned. An announcement was made, it was understood that the couple became engaged and shortly afterwards Mrs. Poole returned to her home, the belief in the district being that she was to prepare for her wedding to Mr. Orchard. This was regarded as a very wise proceeding, for Mr. Orchard, who is a widower, was living alone and his friends thought that it would be a good plan for him to have a companion in his latter years.

However, a Mrs. Smith—known hereafter as Number Two, while Mrs. Poole will be classed as Number One—who belongs to St. Stephen, went to Jemseg to visit friends and through the efforts of a common acquaintance Mr. Orchard and Mrs. Smith met. They fell in love, so it is stated, and before long were reported as engaged. Number One, following the example of Number One, came to St. John to prepare for her wedding. She is said to have drawn quite a large sum of money from a bank in St. John and proceeded with the making of her trousseau. The date of the marriage was fixed for some weeks ago, and relatives and other guests were invited. It was the constant expectation of those most directly interested, Number One, who had seemingly dropped out of it running for a time, unexpectedly turned up.

Then there was excitement. The unhappy would-be bridegroom worked the matter for all he was worth, cancelling the invitations to the wedding and also notifying Number Two in a letter, of what had happened. Number Two proceeded from St. John to White's Cove, and found the bridegroom. Both reminded Mr. Orchard of his tender vows and both desired to be married.

Mr. Orchard, meanwhile, had renewed his former acquaintance with Number Two. This did not suit either a most estimable lady, seemed inclined to go back to the old love and forsake the new. This did not suit either, and the affair has been the talk of the district for some weeks. It is reported that in this condition, that Mr. Orchard has transferred much of his property to Number One, that he is prepared to marry Number One, but does not own one; that he is also willing to marry Number One, but is unable to give her a home, because in such a case dreads the result of a breach of promise action, although his property has passed beyond his control; and that by declining to marry either one he not only loses his place but leaves himself open to two breaches of promise suits. In the arranging of this mix-up, the village gossip is given a large share of credit, and is said to be responsible for most of the complications. There is talk, too, of a third widow, at Chipman, who fell tenderly in love with Mr. Orchard, but she has not appeared prominently in the case. A fact that adds to the interest in the affair is that Mr. Orchard is 65 years old, and has twelve or thirteen children living. Mrs. Poole's age is such a case as to be anywhere between thirty-five and fifty, while Mrs. Smith, Number Two, is in the vicinity of seventy. At least one of the women has taken legal advice, but up to the present Mr. Orchard has not become greatly worried. Speaking to a St. John reporter yesterday he said that the stories told of his love affairs were somewhat exaggerated, that he hoped to come out all right, to be a married man before long and did not expect any serious trouble.

NO. 2 SITE IS READY

Soundings Taken Yesterday by Government Engineer Show That the Proper Level Has Been Reached.

On Wednesday G. R. Mayes informed the government engineer that the site for No. 2 crib was ready. By a roundabout way this information was conveyed to D. C. Clark, who took soundings and found that on the northern side of the site and extending about half the length there was an elevation which would interfere with the proper placing of the crib. Gradually this information worked its way back to Mr. Mayes, and yesterday he put the dredge at the old job. The mud was removed through the forenoon and afternoon, and later in the day Engineer Scammell took soundings. He has decided that the site is now fully prepared and will notify Mr. Clark to that effect. Mr. Clark will again take soundings this afternoon, and states generally will sink the crib tonight. Work will be continued all night.
