IMPROVED TRAIN SERVICE PROBABLE

General Superintendent and Passenger Agent Here Yesterday Express No Doubt of the Public Need

Yesterday J. M. Woodman, superintendent of the Atlantic Division of the C. P. R. came to Hartland in his private car, "New Brunswick," and was accompanied by N. S. Desbriay, District Passenger Agent, and J. R. Gilliland, Divisional Superintendent. Their purpose in coming here was to discuss with the local people the matter of increased passenger service on this sub-division. They were greeted by a number of representative citizens in the office of Mayor Kelly, where the question was informally discussed. Mr. Woodman expressed himself as entirely satisfied that the people living along the line between Woodstock and Arrolton really needed the additional service which is sought, and stated that both he and Mr. Desbriay were favorable to the inauguration of a double express service. He intimated that very soon the summer time table, which will go into effect in June, will be made up, and that they will press the claims of this section for the increased service. The feeling of all present was that the prospect was bright for the early trials south and the late northbound, connecting with all

It is entirely likely that the additional express will run during the summer months, and its success depends upon whether the people patronize it, and give it a sufficient volume of traffic.

The three visitors were exceedingly courteous and manifestly sincere in their effort to find out just what service the public wants.

There is no chance that an early morning train running north from Woodstock will be put on, since the whole public will be very well served with the two trains each way making through connections.

PRESENTATION

On Friday evening the home of Mrs. M. J. M. was the scene of a pleasant social event when the members of the Methodist choir and congregation surprised Mr. and Mrs. George Lucy by giving them a farewell party. There were a good number present and the following program was very much enjoyed: Anthem by the choir, reading, Mrs. Fred Gray, vocal solo, Mrs. C. B. Baker, reading, M. L. Hayward, vocal solo, Miss Margaret Nixon, duet, Mrs. Nixon and Mr. Lucy, piano solo, Miss Blanch Kelly, remarks by Mr. Faulkner, male trio, Messrs. Lucy, McGinley and Plummer, remarks by Mr. Carr. After the program Mr. A. Plummer on behalf of the choir and congregation presented Mr. and Mrs. Lucy with a purse of money as a slight remembrance, and appreciation of Mr. Lucy's highly valued assistance in the choir. After the presentation refreshments of sandwiches, assorted cakes and tea were served. Mr. and Mrs. Lucy and baby Clara left the following day for Campbellford, Ontario.

WOODSTOCK TRACK NOTES

The race track on Campbell Park is a busy place these days. The season

is a full month earlier than last year. Already 27 horses are quartered there and being worked every day.

C. Mason arrived Saturday with six horses and have them more coming from Boulton on Monday. Clarence Shannon has J. W. Gallagher's string of four. Jimmie Boullier has six. George Stoddard has the Boulton string of eight. E. M. Downer has two and Robert Hamilton one. There are also some local horses being worked that are not stabled at the track.

The white house this year is occupied by H. McKenzie and he is boarding most of the trainers and helpers. The track is in a splendid condition for this time of year, and there sure will be some fast miles run off before the end of the season. Racing prospects are bright and it looks as if there would be plenty of horses racing on the N. B. & Maine Circuit to satisfactorily fill all the different classes.

Racing starts here with a matinee, May 24, followed by a big picnic and matinee about June 23. These races last year were very exciting and provided nearly as much sport as any of the regular circuit races, and this year they ought to be better, as more horses are here to take part.

PROPOSED EXCURSION TO GRAND FALLS

If plans that are being projected are brought to a successful issue there will be an excursion to Grand Falls, probably on June 3—the King's birthday. At first it was thought to have the event come off on May 24, but as Woodstock is to have the first matinee races and a big picnic on that date courtesy demands that there be no competition with their enterprise. The birthday of the King comes next as a holiday and the date will doubtless prove better all round.

The object of the excursion is to raise funds for the support of the base ball teams at Hartland, Florenceville, Bath, Perth and Grand Falls. The Grand Falls people—not alone their base ball fans—are eager to show their hospitality and will provide a picnic, amusements, food, and music. It is expected that the big feature of the day will be a double-header base ball game.

The whole scheme is still in the air and only in the formative state, but the railway promises a train for the occasion to leave Woodstock at about 7 a.m. and to leave Grand Falls about the same hour in the evening. There will be twelve coaches provided, and the cost of the train is such that if the coaches are filled there will be a fair margin of profit to distribute among the teams.

Years ago the excursion to Grand Falls from Woodstock and the points between was an annual and always a successful event. There were the days of real sport. Old and young went. All had a good time. The last excursion was in 1910 and fourteen cars were loaded. Since then there has grown up a generation of young people who have never seen the grandest cataract in Eastern Canada, and who know little of the joyful time a good old-fashioned excursion gives. The forthcoming event will prove to the young that there was much fun in the old days, and will give the older ones a chance to relive the happy days of youth. But the big double-header ball games will be the real event.

This article must not be taken as an official announcement. It is not, in any sense—but keep a sharp look out for what the papers state next week!

We have four or five cars of fertilizer arriving next week. Kindly phone your orders. G. M. Rideout.

Mr. and Mrs. Wm. S. Peterson of Tracey Mills have announced the engagement of their eldest daughter, Pauline Alberta, to Frank E. A. Bassett of the same place, the wedding to take place next month.

If you want flowers for Mother's Day, or for any other occasion, place your order with Ade M. Schleyer, Fredericton, N. B., phone 374. Miss Schleyer has in bloom at all times beautiful roses, Carnations, etc., and renders very prompt service for funerals, weddings or any occasion. Orders may be left at the Observer Office for convenience.

A farmer near Hartland recently sold a cow for beef, and the purchaser killed the animal before taking it home, but left the hide lying in the yard and told the farmer it wasn't worth taking away. The farmer brought the hide to Hartland and sold it for \$1.25. This is the lowest price beef hides ever brought. A year ago cattle were slaughtered for their hides only. And still a good pair of shoes come high.

NEW PLAN OF TOWN MANAGEMENT

At the Regular Monthly Meeting New Officers are Appointed—Total of Salary List Reduced

The regular meeting of the town council convened on Monday evening in the town hall, all members being present. After the routine business the Council proceeded to discuss the advisability of continuing the Town Manager plan. The report of the chairman of the various committees on appointment of officers was heard and it was shown that the present system of town manager was too expensive compared with the business done. Hereafter it has been costing the Town \$1200 a year with \$300 for Town Marshall. Seeing that all positions had been declared vacant, it was decided to create a new position known as Superintendent of Roads and Water and still continue the position of Town Marshall at reduced salary. The positions now held are as follows:

Allen Cumming, Supt. Roads and Water, salary \$700
Frank Dickson, Town Marshall salary 100
E. A. Plummer, Sec. Treas., sal. 250
Guy McLaughlin, Fire Chief, sal. 25

This effects a saving of \$250 a year to the Town.

Four applications for water were received from residents of High streets. The same were left with the Fire and Water Committee to handle.

The chairman of the Finance Committee reported that the Town assessment was now complete and a copy of the assessment book was on hand in the post office for public inspection. Chairman of the Fire and Water committee reported that three hydrants had been removed from the street since last meeting.

The chairman of the Road Committee reported that the C. P. R. were soon to begin work on the culvert across their tracks, just north of the starch factory.

FOURTEEN YEARS FOR PREACHER

Judge Barry Says He Could Have Given Steeves Life and Whipping With Easy Conscience

At the circuit court Judge Barry sentenced James McDonald, convicted of breaking, entering and stealing, to seven years in maritime penitentiary at Dorchester.

Rev. Charles Steeves, a Pentecostal minister, for having carnal knowledge of Eliza Brooker, a girl under fourteen years of age, was sentenced to four years in the same institution. The judge remarked that he could have given him a life sentence and a whipping and let him down to sleep to-night with a clear conscience.

Steeves is from Albert county and is divorced from his wife. According to the evidence at the trial he had troubled with other girls during his ministerial career. He was very nervous during the judge's address imposing sentence.

Sheriff Foster accompanied both prisoners to Dorchester penitentiary on Monday.

EAST FLORENCEVILLE NOTES

Rev. F. H. and Mrs. Bishop and Ruth left last week to take up their residence in Newcastle.

Mr. and Mrs. E. W. Saunders returned last Wednesday after having spent the winter most pleasantly visiting the various cities of the Pacific coast from Los Angeles, Cal., to Victoria, B. C. They are being welcomed home by their many friends.

Rev. Theo. Pierce preached very acceptably on Sunday evening in the absence of the pastor, it also being Mr. Pierce's last Sunday here. The family left on Tuesday for their new abode in Woodstock. Mr. Pierce will be especially missed from the Methodist Sunday school where he has been the Adult Bible Class teacher.

Mrs. Gallups and Miss Juanita Gallups of Boundary Line are visiting relatives here.

OWES HER LIFE TO "FRUIT-A-TIVES"

After Years of Suffering with Dyspepsia, this Fruit Medicine Gave Relief

Mlle ANTOINETTE BOUCHER

917 Dorion St., Montreal.

"I am writing to tell you that I owe my life to 'Fruit-a-tives' for this remedy relieved me when I had abandoned all hope of ever recovering my health. I suffered terribly with Dyspepsia. I had it for years and all the medicines I took did not do me any good.

I read something about 'Fruit-a-tives' being good for all Stomach Troubles and Disorders of Digestion so I tried them. After finishing a few boxes, I was entirely relieved of the Dyspepsia and my general health was restored.

I thank the great fruit medicine, 'Fruit-a-tives', for this wonderful relief."

SUFFERING OF YOUNG WOMEN

This Letter Tells How It May be Overcome—All Mothers Interested.

Toronto, Ont.—"I have suffered since I was a school girl with pain in my left side and with cramps, growing worse each year until I was all run down. I was so bad at times that I was unfit for work. I tried several doctors and patent medicines, but was only relieved for a short time. Some of the doctors wanted to perform an operation, but my father objected. Finally I learned through my mother of Lydia E. Pinkham's Vegetable Compound, and how thankful I am that I tried it. I am relieved from pain and cramps, and feel as if it has saved my life. You may use my letter to help other women as I am glad to recommend the medicine."—Mrs. H. A. Goodman, 14 Rockvale Ave., Toronto.

Those who are troubled as Mrs. Goodman was should immediately seek restoration to health by taking Lydia E. Pinkham's Vegetable Compound. Those who need special advice may write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. These letters will be opened, read and answered by a woman and held in strict confidence.

No Communism for Prussia

THE Prussian elections resulted in gains for the Monarchists or National party, and for some extreme Socialists. But, taken on the whole, the hopes of the Communists allied with Moscow were bitterly disappointed. Prussia is the most conservative section of Germany, despite its inclusion of large radical districts in the industrial areas of the Western end. It is said that the Prussian Cabinet has decided to resign, because it can no longer depend on support from the Centre, which consists of the Roman Catholic, Majority Socialist, and bourgeois representatives. With that particular change, the Allied peoples are not particularly concerned. What they were anxious about was the possibility of wholesale gains for the Communists, aided by Russian gold. This danger seems to be over. Germany is no tool in the hands of Lenin.

During the last few months, the Independent Socialist Party of Germany—the natural ally of the Russian Bolsheviks—has been considering its relations to Moscow. The Independent Socialists profess to be true Marxists, and are not willing to associate with the bourgeois in carrying on Government, or in any other political capacity. The Independent Socialists thus became more antagonistic to the Majority Socialists—who assisted in carrying on the war—than to the other parties. At the last Reichstag elections, the Independent Socialists won much strength, but they have, on their left, an embarrassing body of straight Communists, and rivalry is set up between the two groups. The main question now is whether any part of the Independent Socialists will adhere to the Third International. This is the form of agreement framed by the Moscow Communists for the adherence of all similar-minded bodies throughout the world. The First Internationale was created by Marx and Engels, and came to an end with the war of 1879. The Second Internationale was founded in 1889, and was a loose federation of Labor and Socialist parties of most countries. Meetings were held every three years. The policy of Socialists in the event of war breaking out was the main subject of discussion.

Though the Second Internationale had a permanent commission, and upheld Marxism in its more moderate forms, it failed to function when the great war broke out. The majority of the German Socialists threw in their lot with the Kaiser and the war lords. Liebknecht and Luxemburg were conspicuous exceptions. Thus the way was clear for the vigorous effort of the Lenin crowd at Moscow to attempt to frame a new international pact. The program for this is based on full acceptance of the Bolshevik doctrine. Beginning September, 1920, the Independent Socialists obtained from Moscow the conditions for adherence, and this reply was remarkable. It was stipulated that all propaganda and agitation must be edited by proven Communists. The dictatorship of the proletariat must be preached to every workman. The bourgeois and reformers of all shades must be constantly attacked. All adhering bodies must remove all reformists from all posts whatever. Illegal action must accompany legal action. The Communists must fight the "yellow" Second Internationale. There were many other stipulations, which came from Moscow with a tone of authority. It was as if St. Peter's were speaking to a humble parish church. The German Socialists were not allowed to join on any equality. They were commanded to fall into line.

This did not suit the German Socialists of any shade of opinion, except a few wild revolutionaries whose talk was their chief weapon. At a meeting of the German Socialists in October, Crispian and Dittman, who had been in Russia, made a very unfavorable report on Bolshevik rule—much the same as the report by Bertrand Russell and other British Socialists. The Bolsheviks poured a torrent of abuse at them, and obtained a majority vote of the meeting. This led to an instant split, the leaders among the Independent Socialists forming a new party of moderate Marxists. It is this conflict within the Independent party, as opposed to the Majority party, which has presented so complicated a tangle in German politics. The Prussian elections were a test as to what sort of gains were being made by the several Radical groups among the German workers, and they have provided the assurance that the bourgeoisie have German affairs well in hand.

It is in the south of Germany that the most violent opposition to Communism is found, and in which, in the next Reichstag elections, the main strength for the Centre will be found, despite the onerous indemnity conditions. Bavaria has consistently refused to disarm, and Berlin seems to be helpless to make it obey this condition of the Peace Treaty. But Bavaria does not want arms to fight against the Allies, but to protect itself against possible trouble from Prussia. The old quarrel between North and South was reopened during the war, and if Germany remains a constitutional republic, it will be fought out on the political field, with Prussian Socialism and Communism as the main bone of contention. Whichever way things go, the death of Communism in Germany seems assured.

It has been estimated that one Iceland waterfall could be made to yield \$0,000 horse-power and another \$0,000.

"I Am So Tired, Dearie"

IN the recent Advertising Contest the question was asked, "For what is Dr. Chase's Nerve Food most frequently used?"

And the answer in the great majority of cases was: "I have found on inquiry among my friends that Dr. Chase's Nerve Food is most used by women who have their own housework to do and small children to look after."

"When tired and worn out by the continuous monotony of household duties and the care of small children the nerves in time play out and then it is that Dr. Chase's Nerve Food proves the good friend in time of need."

Mrs. W. German, 212 Park street, Brockville, Ont.

writes: "After the birth of my boy I became so weak and gradually lost weight. I was unable to do my work and was in misery because I could not sleep. My nerves would twitch and jump and I would get up in the mornings with tired, aching limbs and aching head. My heart was so weak that it would palpitate at times, and I became greatly discouraged.

"Following personal advice from friends, I began the use of Dr. Chase's Nerve Food and took altogether 12 boxes. I wish you could see how well I am now and how I am enjoying life."

Less Troublesome Adjustments

As a rule the adjustment you get on a defective tire, doesn't quite satisfy you. Mainly, we suppose, because we are all human and want a little more than we are entitled to.

But even our most private opinions on the fairness of an adjustment, can find no fault with the method of settling claims on Ames Holden "Auto-Shoes."

You are always right with ourselves and the manufacturer. We personally look after your interests. There is no needless red-tape, delay or argument in fixing our measure of responsibility and your compensation. Ames Holden "Auto-Shoes" are guaranteed against any defect in material or workmanship without time or mileage limit. They are adjusted on that basis without quibble or evasion.

McLAUGHLIN

THIS car has been truly called the Utility-Standard of Canada. Possessing the rugged McLaughlin quality, the Master Six power and endurance, it surely represents the maximum value in a high-powered six. In body lines, power plant and internal mechanism the Model 21-45-R is a replica of the new Master Six. It is mounted on the well-balanced Master Six Chassis. In finish and appointments it upholds the McLaughlin reputation for coach-building.

Ask to see this new model in either five or seven passenger body styles.

HARTLAND, N. B., MAY 5, 1921.

PREVENTING ACCIDENTS

Hartland parents can do a good deal to prevent serious accidents if they will see to it personally that their children do not play in the streets, and that they are taught to be careful and to keep their ears open when walking along the roads. Too many children have a habit of dodging across the street or road in front of an oncoming auto, believing they can judge the distance and speed of the machine. Others try to be "smart" by dodging first one way and then the other, to confuse the driver, and more than one accident has been the result of this. Teach your children that there is danger in an auto, no matter how careful the driver may be, and no matter how closely they watch. It is always the unexpected that happens, and your own little boy or girl may be the next one killed or seriously crippled.

CAN FISH HEAR?

Dr. Anton Krusie Now Claims That
They Can.

This much disputed question seems
at last to have been settled in the
affirmative, due to the recent re-
searches made by Dr. Anton Krusie.
As there is no portion having cog-
nitions in the auditory organs of
fish, it was assumed that fish had no
hearing powers.

It has, however, been demon-
strated that not the receiving apparatus,
but the auditory nerve, which can
spread out in all directions close un-
der the surface of the body is the
chief organ for hearing purposes.
Whereas the removal of the inner ear
of fish had apparently no effect, they
were no longer on the contrary af-
fected by waves of sound as soon as
the auditory nerve had been cut
through.

The fish can hear has been shown
by experiments made with no less than
thirty-five different species. Former
attempts made to settle this question
have all led to very conflicting results.
Mater, for instance, in 1909 observed
in a very shy specimen of the silurus
glanis or sheath fish, that it dis-
appeared like a flash of lightning
when he whistled, and this led him to
repeat the test with other fish, and
with the same result. Dr. Benjamin
Strook also observed that fish
would quickly disappear behind
stones or plants upon stamping on
the floor, or knocking at the walls
of the aquarium; whistling, shouting
and singing, however, the fishes had
no effect whatsoever.

Dr. Krusie experimented with a
silurus glanis of about twelve inches
long. Conversation held in an ordi-
nary tone of voice at a distance of
three or four yards, or of peep to
and walking over the floor in an ordinary
manner also did not disturb the spec-
imen. Stamping, however, caused the
fish to dart away at once, although
the aquarium was protected against
vibrations by means of felt. A
shrill whistle had the same effect al-
though, upon whistling quietly or
knocking at a distance of about two
meters, the specimen remained mo-
tionless. On repeating these experi-
ments regularly, the fish gradually
ceased to react regularly to these
tests; for instance on the 12th day
when loud whistling and knocking
were commenced the fish only moved
three times in eight separate tests.

Krusie assumed from this that the
silurus glanis hear loud noises, but
finally became accustomed to them.

As Meek as a Lion Cub.

There are certain men who are
classed as "armchair aviators,"
writes Henry Woodhouse in the Amer-
ican Magazine, on how animals act
in airplanes. "Perhaps the most fam-
ous among armchair animal aviators
are Whiskey and Soda, two lion cubs,
pets of the Lafayette Escadrille.

The cubs finally had to be sent to
a zoo in Paris because they were too
nervous under fire. The men of the
squadron declared that the men of
the squadron with Whiskey and Soda,
that there was something wrong with the
old saying, "As brave as a lion." When
a bombardment was going on,
the cubs would roar, sure enough,
but they roared with fright. They
simply ran amuck with terror, dash-
ing headlong among the men and
clawing blindly at anything and
everything.

Whiskey stood especially in awe
of—what do you think? An ordinary
rabbit and a rooster. One day the
cub was noosing round when he en-
countered into a corner where the rabbit
had been put. At the approach of
the investigating Whiskey the rabbit
turned round and let out a kick that
landed squarely on the cub's nose.
Whiskey never forgot that kick. It
gave him a wholesome respect for
rabbits. And he stood equally in awe
of another pet, a rooster that delig-
hed in pecking on him. At sight of
either the rabbit or rooster, young Mr.
Lion would lie for cover.

Use Both Hands.

A French surgeon has recommended
the French Academy of Medicine to
advocate teaching school children to
make equal use of both hands.

Every Can of B-H Adds Value to Your Home!

A Tempting Offer to Sell the Old Home

If you possess an old family residence above
average in value, you can add to its
property value. It is something which a care-
less man often sells and the man who is
fortunate enough to inherit the home of his
forefathers, knows that proper protection means
ultimately a much larger selling price.
A comparatively small outlay in paint will add many
times over to the added value of your home as an
investment.

B-H ENGLISH PAINT

The outstanding record of B-H English Paint's enviable
reputation as a surface cover is its guaranteed formula right
on the face of every can yet manufactured.

These important basic ingredients, 70% Brandram's
Genuine B-H Pure Lead and 30% Pure White Zinc
give to B-H English Paint its remarkable covering
capacity and durability—insures that your home will be
covered with a complete quantity of paint than you would
have to use if you bought a paint of lower quality.

Do not be extravagant, therefore buy B-H English Paint, for then you
will be sure of real economy and real surface protection.

Sale - THURSDAY, FRIDAY and SATURDAY - Sale

This ONE CENT SALE Plan was originated by the United Drug Company for the Rexall Drug Stores. The United Drug Company are the largest manufacturers and buyers of Toilet Articles, Remedies, Chocolates, Perfumes, Rubber Goods, Stationery and Drug Sundries in the world, and this is an advertising plan pure and simple, of which they bear most of the expense. Instead of spending money in the regular way, such as Free Samples, etc., it is their desire that we place full size packages, or articles, in your hands, giving you an opportunity to judge the real value of these goods, the cost of which they charge to advertising. We will only be permitted to run this sale occasionally. Beware of imitations in other stores, and take advantage of this exceptional opportunity. We can not afford to charge or deliver goods during this sale. Come in and see the display of all New Merchandise.

SHE COULD HARDLY WALK ACROSS ROOM

St. John Woman Says Her Life Was A Burden—Restored To Health By Tanlac

"Before I took Tanlac I was so weak I could hardly walk across the room, but now I can do all my housework with ease," said Mrs. Robert Clayton, of 25 Hanover St., St. John N. B. "For three or four years I suffered terribly from indigestion, which was so poor I could scarcely eat anything and every morning I got up with a sickening sensation that I could hardly endure. Just as soon as I ate anything gas would form on my stomach and cause such terrible pains around my heart it seemed that I couldn't stand it. I often turned almost deathly sick after meals, sometimes could not retain my food and would just have to give up and lie down. At times I had such severe headaches I had to go to bed and I was troubled a lot with pains in my shoulders, neck and back. All the time I felt so tired and drowsy I could hardly stay up, and just to walk a few steps would tire me out completely.

"Finally I got to the point where life was a burden to me, but I happened to learn about Tanlac and before I finished my first bottle I could see a wonderful change in my condition. I have taken three bottles now and my appetite is splendid, and, although I am eating just anything I want, nothing hurts me the least bit. I never feel tired and drowsy and my housework is a pleasure. Tanlac is the grandest medicine I ever heard of, for it certainly has made life worth living for me."

FERTILIZER==For Profit

We have been carrying a series of advertisements in the various local papers for the past several weeks urging the farmers the necessity of planting their usual amount of all crops this season. This we have based on the conditions as we have seen them for the past several years which have shown that particularly in the potato crop every year following a very low price there has been a corresponding high price the year following. With the planting season coming immediately after or while potatoes are bringing a very high or a low price the farmer is lead by conditions at that time either to plant a heavy crop if the price is particularly high or to plant a short crop if the price happens to be low.

The most natural result is the variation in price from year to year, high prices following the low prices of the previous season. A heavy crop planted when prices are high creates a surplus of potatoes the next digging season with a correspondingly low price.

We are now advising all farmers not to be influenced by the present low price but on the contrary consider that many farmers have withheld planting in the south and many farmers in this section will do the same and a short crop next year will mean better prices.

Farming is a business and subject to all the influences which affect other business one of the most important being to consider the market on which you expect to sell. Will it be a high market or a low one? If it follows that of the past ten years the crop planted now will be sold at a good price.

The papers a few days ago reported an interview with the Secretary of Agriculture for Nova Scotia and he warns the farmers against being too greatly influenced by today's market but to consider the prospect of the future by the lessons of the past.

The report says, "While it is impossible manifestly to foresee the future, at the same time the Secretary pointed out certain facts which furnish a pretty reliable basis of judgment. He stated that it is worth noting that in those Southern States where seeding is now nearly completed or at least well under way, fertilizers have been bought in much smaller quantities than formerly, and this would indicate a much smaller crop than a year ago.

This being the case, Nova Scotia farmers would seem to be well advised to see to it that the crop production of a year ago is at least equalled. It is also noteworthy, especially in the case of potatoes, that past history declares that after a year of high prices there is almost sure to be a surplus produced, and, consequently, a year of low prices and vice versa. The fall and winter of 1921 has been a season of low priced potatoes and if the past history is to be repeated it seems reasonably safe to expect at least good paying

prices next year. No one can say more than this but the wise farmer will do well to think the matter over carefully before deciding to curtail his production undertakings for the season of 1921."

An analysis of the market and prices the last ten years show the rise and fall of prices follows each other strictly as the cropping is large or small.

Two years ago, and immediately after the end of the war there was a general feeling prices would be lower and farmers particularly were advised not to buy fertilizer as holding off would make a break in prices and they could buy much lower than the prices quoted.

This is being repeated the present season and just when the farmers are on the eve of planting and need encouragement to go ahead are advised to take the opposite course. Those who followed the advice to hold back and curtail two years ago did not have a good crop with the record price for potatoes. Those who took their regular course, planted for a year ahead and sold at the top prices of last year. This seems to be a good time to go so again.

The importance of fertilizer to production cannot be over emphasized. In Europe the leading countries have placed fertilizer as the leading cause of doubling the crop yield indeed of greater importance than all other agencies combined. In a recent pamphlet from the New Jersey Experimental Station the director says, "Hard work, plus experience plus plenty of fertilizer in Maine produced 200 bushels of potatoes to the acre. Hard work plus experience plus little or no fertilizer in Michigan, Minnesota and Wisconsin produced 100 bushels to the acre."

This is forcibly brought out by a contribution a few weeks ago to the "Canadian Countryman," showing the comparative yield of potatoes per acre in Ontario and Maine. They started almost even and towards 1890 when the use of fertilizer hardly started Ontario produced about 120 bushels to the acre and Maine 110 bushels.

Immediately after that Maine, particularly Aroostook County, began to try fertilizer while Ontario used no fertilizer. In ten years the yield per acre in Maine had increased 20 per cent. and that of Ontario had decreased 10 per cent. In another ten years the yield in Maine had increased a further 40 per cent. while Ontario had remained stationary.

Today the average yield in Maine has increased over 100 per cent while that of Ontario has declined about 10 per cent. Frequently an Aroostook County farm will show 400 bushels to the acre and even 500 bushels to the acre, are found.

This increase in yield has come in a great part from the use of fertilizer and in all cases of high grade complete fertilizers which give results. Such fertilizers are the "Made in Windsor, N. S." brands. They are made from the best materials, in the right proportions, properly mixed, and will come to you in good condition dry and in drilling condition. There are no better fertilizers made than the "Made at Windsor, N. S." fertilizers.

Mrs. Kearney of Bath spent a few days with Mrs. Ebbett.

A. D. McCain went to St. John to a meeting of the Masonic Grand Lodge last week.

Mr. and Mrs. Beecher McCain and son Wendell motored to Tracy Mills on Sunday.

We are sorry to report that Mildred McCain is confined to her bed with an attack of heart trouble similar to that which her sister Helen had a short time ago. We wish her a speedy recovery.

Mrs. Nicholson and family motored to Hartland on Sunday.

Miss Armstrong and Mrs. Howard made a short visit last week to the former's mother, Mrs. W. E. Hagerman.

A meeting of the members of the Women's Institute living on this side of the river was held at the home of Mrs. Nicholson on Tuesday afternoon for the purpose of making clothes for the motherless children of one of our returned soldiers. About 20 ladies were present and a part of good outfit for the three children was made. During the afternoon Mrs. Nicholson served delicious refreshments, much enjoyed by all present. At the conclusion of the meeting a hearty vote of thanks was passed and tendered to Mrs. Nicholson. The east side members met on the same afternoon at Mrs. Bert Bell's for the same purpose.

Mrs. W. H. Fowler attended the Health meeting in Woodstock on Tuesday.

Mr. and Mrs. George Foster spent Sunday with their sons in Lansdowne.

The May meeting of the Women's Institute will be held at the home of Mrs. Charles Hunter, East Florenceville. Roll-call to be answered by "Conundrums." Besides other interesting items on the program there will be a paper on "References to Canada in Poetry" by Rev. F. A. Wightman. Don't forget the date—Tuesday, May 10.

Who Wants This Beautiful Home in Hartland

Allen A. Waters offers for immediate sale his fine house situated just off the Main street, south end. The location is a beautiful high and slightly one and the house is surrounded by lovely shade trees. The house itself has 10 rooms and bathroom, nicely fitted up and with a constant supply of running water. The house is thoroughly well finished throughout and is warm and comfortable in winter and accessible to pure, fresh air in the summer. There is a large woodshed attached and a clapboarded and painted barn that will accommodate several horses; also a garage. Never-failing supply of water in the yard and at the kitchen sink. Enough ground for a good-sized garden. This is an ideal home for a couple that wishes to retire, or for any family. The house has four sleeping rooms and more could be finished in the attic, which is reached by stairs.

Mr. Waters also offers for sale a farm in Ashland district, three miles from the river, with a down-hill haul to market. Of this 100 acres, 30 acres are cleared and a part freshly seeded, 10 acres ploughed and the remainder in grass. There are 70 acres of woodland that will yield enough fire-wood to pay for the place and leave many years supply. There is also a good quantity of pulp and lumber. The prices of both these properties will interest any buyer, and full particulars of the whole may be had from Mr. Waters, at the house. DON'T DELAY. These properties will move quickly. Part of the purchase price may remain on mortgage if desired.

LOCAL AND PERSONAL ITEMS

Mr. and Mrs. J. R. D. White and family spent part of last week with Mrs. Alice White, returning to Aroostook Junction on Wednesday.

Miss Marion White, R.N., of Presque Isle, is visiting her mother, Mrs. Alice White.

L. Burton Clark spent Thursday and Friday in St. John.

Mr. and Mrs. D. F. CME and family and Mrs. Mary Banks of Mars Hill spent Sunday in Centreville with relatives.

C. R. Violette has returned to Hartland leaving his brother, Peter Violette, in charge of the branch here.

Mr. and Mrs. A. R. McLean returned from their honeymoon on Monday and the young people of the vicinity treated them to a good old time-honored charivari. Mr. and Mrs. McLean will occupy the apartments over A. J. Lee's store.

Mr. and Mrs. Elmer Falton of Bridgewater were in town on Sunday to visit the latter's father, J. R. Gormier, who has been ill.

The U. Farmers held a stockholders meeting on Thursday evening.

Miss Pauline Balloch spent part of last week in Fredericton the guest of Miss Fair.

Merritt Johnson of Fredericton is the guest of Mr. and Mrs. F. K. P. MacKenzie.

Mr. and Mrs. Roy Huggard of St. John have returned home after a week's visit with the latter's parents, Mr. and Mrs. James Crona.

Amos White of Boundary is the guest of Dr. and Mrs. B. R. Field.

J. B. Hawthorne of Fredericton and Thane M. Jones of Woodstock held court in the Opera House on Thursday on matters pertaining to vendorship proceedings. The affair was somewhat of a fiasco and resulted chiefly in a waste of valuable time and useless hot air.

Malbourne Sawyer left on Saturday for California. During his absence and until he gets located his family will occupy part of the E. A. Hoyt residence on Mill street.

Mr. and Mrs. Cole York of Mars Hill were the guests on Sunday of Miss Addie Irvine.

Mr. and Mrs. B. E. CME have moved into their new apartments on Main street.

Miss Phyllis Clark of the Vocational School, Woodstock, is visiting her parents, Mr. and Mrs. L. L. Clark.

Mrs. G. B. Wilkinson of Hartland is the guest of Mr. and Mrs. Charles Wilkinson.

Amos Downey and Mrs. Bewala Campbell are making quite extensive F. Barrett of St. John, liquor inspector, spent Saturday here, but got no

more patent evidence of liquor than a few alcohol laden breaths. A strange coincidence it seems that hip pockets are distributed to males in the proportion of two to each pair of trousers he possesses and yet he can be relieved of fifty bones on being caught with anything in one. Queer, isn't it? And still they go on building hip pockets!

Improvements on their adjacent lots on Main street.

Mr. and Mrs. C. F. West of Presque Isle spent Sunday with Mr. and Mrs. E. L. West.

R. W. Balloch sold his beautiful residential property on Wednesday to Dr. F. M. Brown. Mr. and Mrs. Balloch have owned and occupied this property for about forty years and 'twill seem strange for the townspeople to see it in other hands. Mr. and Mrs. Balloch plan on removing to Woodstock in the near future and their going will be a distinct loss to the vicinity and to friends and neighbors among whom they have lived so long.

Mrs. Charles Gray and daughter of Somerville, Mass., have been visiting her sister, Mrs. Mildred Beckwith of this place.

On May 8 Rev. H. R. Bell will preach as follows: Centreville 11 a.m., Lakesville 3 p.m., Good Corner 7 p.m.

THERE IS ONLY ONE GENUINE ASPIRIN

Only Tablets with "Bayer Cross" are Aspirin—No others!

If you don't see the "Bayer Cross" on the tablets, you're taking something else, not Aspirin at all.

Insist on genuine "Bayer Tablets of Aspirin" plainly stamped with the safety "Bayer Cross"—Aspirin prescribed by physicians for sixtieth years and proved safe by millions for Headache, Toothache, Rheumatism, Lumbago, Cold, Neuritis, and Pain generally. Handy tin boxes of 12 tablets—also larger "Bayer" packages. Made in Canada.

Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Mononitrochloride of Salicylic Acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitation, the Tablets of Bayer Company, Ltd., will be stamped with their general trade mark, the "Bayer Cross."
