## GENERAL ELECTIONS WITHIN EIGHTEEN MONTHS

Laurier Makes Announcement to Delegation from Montreal.

### WANT BRANCH ROAD

Montreal People Would Like to See G. T. P. Extended into the City.

OTTAWA, Tuesday. — Sir Wilfrid Laurier, Hon. G. P. Graham; Hon. L. P. Brodeur and Hon. Sydney Fisher received in the Railway Commission of the House of Commons today a large delegation from Montreal, asking that the government build a branch railway, connecting the city of Montreal with the transcontinental. Sir Wilfrid, replying to the delegation, said that he recognized the necessity of building this branch. The general elections would take place some time between now and the next eighteen months, and the government would have time to enter into various contracts before then. At present their hands were pretty full.

**ARE YOU SUBJECT TO COLDS?**  
Then don't load your stomach with cough syrups. Send healing medication through the nostrils—put it into the passages that are subject to colds and catarrh. Easy to do this with Catarrh Remedy, which cures a cold in ten minutes. Even to the lungs goes the healing power of Catarrh Remedy—all through the bronchial tubes, nostrils and air passages—everywhere a trace of disease remains will Catarrh Remedy follow. You'll not have colds, nor will you suffer from catarrh, bronchitis, or throat troubles if Catarrh Remedy is used. Get it today. 25 cts. and \$1.00 at all dealers.

MONTREAL, Tuesday. — Premier Gouin today received a petition signed by 6,000 members of the Federation of Textile Workers asking that Wilfrid Paquette, president of the federation, be permitted to hold his court house position, at the same time retaining the presidency. Attack, were recently made on the government for retaining Paquette as an official while holding the labor position and Paquette in consequence resigned the Federation presidency. Now the workers with whom he is popular want him to be allowed to hold both jobs.

The Merchants' Protective Association, an organization for account collection purposes, is being proceeded against by the syndicate of the Montreal Bar Association as having violated the law with respect to such collection.

It appears that the merchants' association has taken a lot of collection work away from the lawyers.

### KILLED STEALING A RIDE.

OTTAWA, Tuesday. — Walter Grey who was stealing a ride on a C. P. R. train out of Ottawa, thinking it was going west, jumped off last night just outside of the city limits. The tender ran over him and he was killed.

### ARE YOU SLEEPLESS, NERVOUS?

Two horrors crowded into one life—the product of poor digestion and a poisoned system. There is just one cure for this terrible condition—element of food—but mind you, food properly digested; that's the difficulty. To improve the digestive power of the stomach, get rich nutritious food, strengthen the system and drive out poisons, then comes vitality, endurance, power. Ferrozene does all this and more, it makes sick people well, weak people strong, changes nervous and insomniac into robust health. Take Ferrozene and health is yours, 50 cts. at all dealers.

PITTSBURGH, Tuesday. — Catherine Books, twenty-three years old, was today returned to her parents' home at No. 5 Bedford street by the authorities of Lawrence county after a most exciting experience last evening. Miss Books while in man's attire was chased by a sheriff's posse in Lawrence county which was in search of a negro who had fatally stabbed his wife. In the darkness the girl was mistaken for the much-wanted negro and she narrowly escaped lynching. Her voice saved her as she was about to be hanged on a rope by the mob.

### A Woman Tells How to Relieve Rheumatic Pains.

I have been a very great sufferer from the dreadful disease, rheumatism for a number of years. I have tried many medicines, but never got much relief from any of them until two years ago, when I bought a bottle of Chamberlain's Pain Balm. I found relief before I had used all of one bottle, but kept on applying it and soon felt like a different woman. Through my advice many of my friends have tried it and can tell you how wonderfully it has worked. Mrs. Sarah A. Cole, 140 S. New St., Dover, Del. Chamberlain's Pain Balm is a liniment. The relief from pain which it affords is alone worth many times its cost. It makes rest and sleep possible. For sale by all druggists.

## BENNETT ATTEMPTS TO BROWBEAT ONE FOUND DEAD AFTER SUNDAY DEBAUCH

THE CANADIAN MINISTER OF CUSTOMS

### LOOKS SUSPICIOUS

He and Two Others Had Been out on a Time on Sunday-Inquest Will Be Held.

ST. JOHN, Tuesday. — Frank Nowlin, a young longshoreman, was found frozen to death in a field near the golf links here yesterday afternoon about four o'clock. The discovery was made by Bob King, another longshoreman. The story has some peculiar features. Nowlin, in company with King, who found the body, and another man, named King, were on a debauch Sunday and all three were in this field. Bob King says he and Frank King crawled away and left Nowlin there but there had been no trouble. They supposed he had got home all right until today when his non appearance at work alarmed Bob King who went out to look for him. An inquest will be held and the case probed to the limit.

### CAMPBELLTON PEOPLE.

Within Chronic Coughs Need Vinol, It Stops the Cough and Cures the Cause.

This is the season for coughs and colds, and for the benefit of Campbellton people our local druggist, A. McE. McDonald, tells them the best means for a cure.

He says: Take Vinol, our real cod liver preparation without oil. It does not upset the stomach like cough syrups, and it is much more effective. Vinol is not a palliative but a curative.

This is because Vinol contains in a highly concentrated form all of the healing, strength giving and medicinal elements of cod liver oil actually taken from fresh cod livers, with all the useless, non-nutritive oil eliminated and tonic iron added. It tastes fine and cannot upset the weakest stomach, hence its wonderful power to cure.

Considerable new machinery had been installed and more was in the yard in readiness to be set up.

General Manager Frish will arrive at Bathurst today when the company's future plans will be divulged.

### TO MOVE OFF A COLD.

Cough mixtures "done" a cold—but don't cure. Above all else, keep the bowels regular and stimulate the eliminatory organs. More valuable than any cough syrup are Dr. Hamilton's Pills. The clear system of every trace of cold—the dull headache, aching limbs, and cough disappears. Take the pills before retiring, they work while you sleep, and by morning you are free from the cold. All dealers sell Dr. Hamilton's Pills in 25c boxes.

FREDERICTON, Tuesday. — Harold Grant of St. Mary's, one of the night crew employed at the erection of the new span of the Fredericton highway bridge, at a late hour this evening fell from the new structure, a distance of over 50 feet. He was taken to the military hospital and physicians were soon in attendance. It is feared the young man is injured fatally.

A woman in Windsor is being prosecuted for witchcraft and sorcery. A similar crime was committed and punished in Toronto recently. This will make pessimists complain that the Dominion is no making very rapid progress, but the optimists can point to the kinder spirit that has substituted a \$20 fine for the faggot and rope.

### Cured of Rheumatism.

Mr. Wm. Henry, of Chattanooga, Tenn., had rheumatism in his left arm. The strength seemed to have gone out of the muscles so that it was useless for work, he says. I applied Chamberlain's Pain Balm and wrapped the arm in flannel at night, and to my relief, I found that the pain gradually left me and the strength returned. In three weeks the rheumatism had disappeared and has not since returned. If troubled with rheumatism try a few applications of Pain Balm. You are certain to be pleased with the result which it affords. For sale by all druggists.

### IS YOUR CHEST 'WHEEZY'?

Tightness and wheezing means your trouble is deep-seated. To delay is dangerous. Inflammation must be drawn out at once. Rub the throat and chest with Nervilleine, and put on a Nervilleine Porous Plaster. Relief comes in an hour. The counter-irritant effect of the plaster relieves the tightness and strain, draws out the soreness, eases the pain. The penetrating qualities of Nervilleine enable it to soak to the very core of the trouble, and you experience a feeling of warmth and relief that shows the danger is past. For weak chest, sore throat and tendency to colds, the Nervilleine Treatment beats all others, try it.

## LAMKY KILLED; OTHERS BADLY INJURED

(Special to the Morning Graphic.)  
NEWCASTLE, N. B., Wednesday. — The Indian train branch train was held a few minutes late this afternoon to allow Policeman Hill to search a youth, supposed to have robbed a car of this line. Nothing was found. Just west of Derby Junction Conductor Clifford Dixon's special, coming west, collided with the Indian train branch train, demolishing its engine and wrecking the front end of passenger car. Edward Vye, conductor of the branch train and Havelock Jardine, an Indian train passenger, were driven through the car door. Vye was badly hurt and Jardine very seriously injured. The rest of the passengers were only shaken up.

## METEOR CAUSES SHIP DISASTER

Plunged Through the Deck and Hull Into the Sea.

### TERRIBLE SUFFERING

Members of the Crew of Eclipse Undergo an Awful Experience.

(Special to the Morning Graphic.)  
LONDON, Tuesday. — A tale of ship wreck more vivid by far than the strange, imaginations of the writers of romance and adventure has reached

The sailing ship Eclipse, 1,469 tons, was on a voyage from Newcastle to San Francisco. She had been at sea for eighty-five days when she was overtaken by a terrible hurricane. Lightning, followed by deafening thunder, lit up the sky. Suddenly a meteor struck her foremast, which fell in splinters to the deck.

The meteor crashed right through the deck, and tearing a large hole in the hull, fell into the sea. Water immediately poured into the ship. The pumps were set going, and for four days and nights the crew worked to save their ship, snatching sleep in short intervals as they could. No effort could keep the ship afloat, however. Captain Lassen and his crew of fifteen were compelled to take to the boats, and a few hours later they saw the ship founder.

The men spent fifteen days in the

GLAD IT DID

SO MUCH GOOD  
Some remarkable stories are being told about town and among the country people coming in of the simple home-made mixture curing Rheumatism and Kidney trouble. Here is the recipe and directions for taking: Mix by shaking well in a bottle one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces Compound Syrup Sassaaparilla. Take as a dose one teaspoonful after meals and at bedtime.

No change need be made in your usual diet, but drink plenty of good water.

This mixture, writes one authority in a leading Philadelphia newspaper, has a peculiar tonic effect upon the kidneys, cleansing the clogged-up pores of the eliminative tissues, forcing the kidneys to sift and strain from the blood the uric acid and other poisonous waste matter, overcoming rheumatism, bladder and urinary troubles in a short while.

A New York druggist who has had hundreds of calls for these ingredients since the first announcement in the newspapers last October stated that the people who once try it "swear by it," especially those who have Urinary and Kidney trouble and suffer with Rheumatism.

Dr. Shoop's Pink Pain Tablets simply coax congested blood away from pain centers. These Tablets—known by druggists as Dr. Shoop's Headache Tablets—simply equalize the blood circulation and then pain always departs in 20 minutes. 29 Tablets 25 cents. Write Dr. Shoop, Racine, Wis., for free package. Sold by A. Mcg. McDonald.

He may die. Blood spattered over the car steps and floor. Driver Andrew McCabe and Fireman Amos Murray, both of Newcastle, jumped. Murray escaped serious injury. McCabe was brought home at nine o'clock on a stretcher, very badly hurt. The rest of the passengers were only shaken up.

Albert Lamky, brakeman of the special, was killed. He belonged to Harcourt. He was about seventeen years of age. The rest of the special's crew jumped. Fireman Melanson was badly bruised and hurt internally. Dr. Pedelin of Newcastle attended the wounded.

The dead man was brought here at seven o'clock. The accident occurred about four fifteen.

McCabe was nearly killed in the accident on the branch about a year ago. Four cars were derailed. The auxiliary car speedily cleared the track and the passengers reached Indian town this evening.

The accident took place on a curve. The special's air brakes are supposed to have failed to work in time. The crew of the special believed till too late that the branch train was on time and had passed Derby Junction and was safe on the branch.

## WORST BLIZZARD OF THE SEASON

Branch Lines Leading Into Winnipeg are Demoralized.

### MOST UNFORTUNATE

Large Amount of Settler's Effects is on the road—Seeding Will be Delayed.

(Special to the Morning Graphic.)  
WINNIPEG, Wednesday. — The worst blizzard of the season is raging and traffic on the branch lines is demoralized. This is most unfortunate as a vast amount of settlers' effects are on the road from the east and south. Otherwise while seeding will be delayed a few days the precipitation was really needed to get the land in good shape.

They shaped a course as best they could for the Sandwich Islands, nine hundred miles from the spot where they were wrecked. Their sufferings reached a climax on the thirteenth day, when three of their men died. Their bodies were thrown overboard and instantly devoured by sharks that followed the boats.

Some days later they sighted the island of Mani, and on the following day the boats reached its shore.

and Fisheries called for consideration by the government. My Hon. friend who is in charge of that department has been engaged for some time as far as his other duties will permit him in investigating his department so as to determine in what respect it could be reformed. In the discharge of that duty one of the officers of that department was suspended by him some few weeks ago. Since the report of the commission has been laid on the table my colleague has come to the conclusion that he should also put under suspension two other prominent officials, J. U. Gregory, agent of the Marine department at Quebec; and J. F. Fraser, commissioner of lights, Ottawa. It is only just to the deputy minister of that department that I should say in this connection that on two previous occasions he tendered his resignation to the minister and this morning again pressed his resignation and that the matter is in the hands of the minister for consideration.

The House is aware that the report of the commission made certain very grave statements with regard to the honesty of the officials in that department. The matter is of such a serious character that the minister did not think it advisable to recommend that a Royal commission should be

issued to deal with that part of the report of the commissioners in order to have the statement of facts which they say exists in the department properly investigated. It has pleased the administrator of the government to accept of this view and to appoint as commissioner Walter Cassels, Judge of the Exchequer Court of Canada.

Mr. Borden asked if the commissioner was to deal with the department generally or solely with matters advanced by the civil service commission. He also wished to know if the government had come to the conclusion as a matter of policy in regard to civil service reform that they would adopt the system of competitive examination by an independent commission.

Sir Wilfrid replied that the best answer to the first question would be to bring down an order in council appointing a Royal commission which should be done. As to the question of civil service reform it would be preferable before the government made a pronouncement to the House that members should have before them printed copies of the civil service commission's report.

To the query by Mr. Monk, the prime minister stated that all memoranda and documents will be given to the commission.

## GRAPHIC ASTRAY, DECLARES WRITER

Report About Hazing at Wolfville School Was Colored

### HE STATES FACTS

No Students "Actually" Suspended He Declares in Letter.

To the Editor of the Graphic:—

Kindly give a small space in your paper for a few words relative to an article which appeared in your issue of Mar. 19th. The present writer not being a regular reader of your paper, the matter was brought to his notice only at a late date.

The article referred to is relating to 'degradations' and 'shocking' conduct and consequent treatment of the students at the Baptist Seminary at Wolfville—the whole event constituting an interesting story. The alleged shocking conduct is that of hazing; the occasion, the arrival of a new student; the penalty, suspension of five students and the dismissal of two others.

Now, Mr. Editor, let it first be noted, that the only Baptist Seminary in Wolfville is the Acadia Ladies' Seminary. Were it not for the pronoun 'he' used with reference to the new student, your readers that know Wolfville would certainly be compelled to refer the shocking conduct to the students of this institution. But the use

of the masculine makes the report not a little ambiguous. Surely, if a 'he' had attempted to take up his abode in that quarter, the students would have been justified in the free use of water with the purpose of either dissolving his verdant innocence or dissolving his crystallized audacity.

Nor, so far as the writer is able to ascertain, has there been anything in either of the three Baptist schools in the town for months, off at all during this whole academic year; this can be called 'hazing' in the slightest degree.

Again, the statement that two students have been suspended and two others dismissed (which latter term seems ambiguous in this connection), is also aside from the fact. Indeed, it is not known here that any person has recently been actually suspended or dismissed for degradations of any sort. With a view to fairness, however, it must be granted that a certain unpleasantness did recently occur at one of the schools of this town, a fair report of which was doubtless attempted by your paper. But the report there given was to the effect that the shadow often is to the object—a distorted, unrecognizable, unreliable thing.

Trusting, Mr. Editor, that for the sake of the good name of your paper, the events therein reported may in the future, be read instead of ridiculous; and that, for the same reason, you may be hereafter be more successful in getting the object rather than the shadow; and thanking you most sincerely for your space.

I am  
Yours truly,  
Wolfeville, Mar. 20, 1908.

That languid, lifeless feeling that comes with spring and early summer, can be quickly changed to a feeling of buoyancy and energy by the judicious use of Dr. Shoop's Restorative.

The Restorative is a genuine tonic to tired, run-down nerves, and but a few doses is needed to satisfy the user that Dr. Shoop's Restorative is actually reaching that tired spot. The indoor life of winter nearly always leads to sluggish bowels, and to sluggish circulation in general. The sluggish bowels, in turn, cause a customary lack of exercise and outdoor air flies up the liver, stagnates the kidneys, and oft-times weakens the heart's action. Use Dr. Shoop's Restorative a few weeks and all will be changed. A few days test will tell you that you're using the right remedy. You will easily and surely make the change from day to day. Sold by A. Mcg. McDonald.

## More Terrible Than War!

More terrible than war, famine or pestilence is that awful destroyer, that hydra-headed monster, Consumption, that annually sweeps away more of earth's inhabitants than any other single disease known to the human race.

"It is only a cold, a trifling cough," say the careless, as the irritation begins its delicate insidious march upon the throat. When the irritation enters the lungs, it is a matter of time before it reaches the fatal result. To prevent this, a cough is the signal for action. A cough, however slight, as the irritation spreading throughout the delicate lining of the sensitive air passages soon leads to fatal results. If on the first appearance of a cough or cold you would take a few doses of

### PROVINCE OF QUEBEC.

### Municipality of New Richmond.

At a general session of the Municipal Council of the Municipality of New Richmond, held at the City Hall, Campbell's Hall on Monday, the second day of March, nineteen hundred and eight, in conformity with the provisions of the Municipal Code of the Province of Quebec, at which were present John Fallow, Esq., Mayor, and Messrs. John P. Gauthier, Wm. C. Campbell, Thomas Fairbairn, Alphonse Rossignol, Napoleon Cyr, and Edmond Gilkes, Councillors, forming a quorum under the presidency of the mayor.

It was resolved by By-Law No. 141, upon the motion of John P. Gauthier, seconded by Napoleon Cyr, that this corporation by and in virtue of the powers on it, conferred by Article 561 of the Municipal Code of the Province of Quebec, do prohibit the sale of intoxicating liquors in any quantity whatsoever, and the granting of licenses therefore within the limits of this Municipality and on the territories which are dependencies of this Municipality, saving always the provisions of Article 56 of the Quebec License Law.

That this By-Law will have force and effect only in its having been approved by the electors being proprietors of rated real estate within the limits of this Municipality as the whole is by law provided.

That the present By-Law will come into force and effect from the first day of the month of May following its promulgation provided always that before such period an authentic copy thereof has been sent to the Collector of Provincial Revenue for the County of Bonaventure.

BYE-LAW, passed by the electors at a meeting held at Campbell's Hall on Monday, the 25th day of March, nineteen hundred and eight, there being 182 votes cast in favor of By-Law and two against.

Signed James Campbell, Mayor.

THURSDAY, APRIL 2nd, 1908.

The spring robin was here yesterday.

No one need say after yesterday that Campbellton doesn't want a race track.

The dear bread issue beat the English Tories, and it looks as though the dear bread issue might beat the Liberals.

The German Parliament has surrendered to the Press Gallery. No man is so great that he can afford to go unreported.

With good climatic conditions and Hazen willing the farmers of New Brunswick will doubtless have good crops this summer.

Mark Twain will doubtless feel complimented when he learns that one of his letters sold at a New York auction for \$12.25, while two letters from Col. Theodore Roosevelt brought only \$2.25 and \$2.50 respectively.

Down in Tennessee after a little difference of political opinion, a white delegate broke four chairs over the head of a negro delegate. As the head was still intact, the negro has made good his claim to rank as a hard-headed politician.

An Imperialist like Dr. Sproule, when seeking to make an important inquiry for the classification of civil servants, should reflect that four-fifths of the population of the empire are neither Protestants nor Catholics, but claim faiths that ignore such modern divisions.

### SEARCHING ENQUIRY NEEDED.

It may be a fact that the Civil Service Commissioners went rather far afield in their investigations, it may be true that they have expressed opinions on matters of administration that did not come within the scope of their instructions but if the Marine and Fisheries Department is in any way responsible for the statements of these commissioners as to the way they were perfectly justified in referring to it in their report and they are even entitled to the special thanks of the public.

The statements of Messrs. Bazin and Pyshe regarding this department are most startling. They charge not only gross mismanagement but flagrant dishonesty. True, only generalities are dealt with, possibly for the reason that the Commission had no opportunity or power to investigate far enough to warrant special charges. It is unfortunate for the commissioners that, in the particular cases to which they refer, their inferences should not be in accordance with the facts and very unfair to the officials. The friends of the Laurier Government will sincerely hope that further investigation will reveal similar flaws in the premises on which all the other charges of gross mismanagement or dishonesty are based. It is a happy thing that the case or not, an enquiry of the most thorough and far-reaching character is called for. If the inferences of the Civil Service Commissioners are true, the great Liberal party will feel ashamed that such mismanagement could occur under the administration of their leaders; but they would much rather it be known so that a severe and effective remedy may be provided without delay, than that such a state of affairs should be permitted to continue. The Free Press will watch with interest, the steps taken by Sir Wilfrid and Mr. Brodeur, feeling sure that nothing will be left undone to set at the facts, be they what they may.

The announcement in the House yesterday that an investigation would be immediately instituted shows a commendable desire to let in the light at once, in their references to the Militia Department, the commissioners seem to have gone into the question of policy upon which it is doubtful if they are any more competent to speak than the ordinary civilian on the subject but the Free Press must confess that it has a good deal of sympathy with the Commissioners in their references to the rapidly growing expenditure in this department and the multiplicity of officers. If the report of the commissioners creates discussion of the question good will have been done.

### OUT OF THE ORDINARY

(London Tit-Bits)

When His Majesty is to preside at a public dinner a variety of formalities have to be legally observed. In the first place the invitation—including a list of the committee, the toast list, and the speakers—must be received at Buckingham Palace at least a month or six weeks ahead of the date proposed for the function. It is then submitted to the King by his private secretary, and if the date does not clash with arrangements made previously, and all other details being in order, the invitation is graciously accepted.

A statement, must also be sent announcing the hour at which it is expected to end. These two points are most essential, as royalty and punctuality are synonymous terms. Moreover the King does not care to spend more than a certain number of hours at any public dinner, therefore special and other matters have to be arranged accordingly.

After these necessary preliminaries have been satisfactorily arranged the day on which the banquet is to take place is awaited. An hour or so before the commencement of the dinner an official arrives at the banquet hall. It is his duty to examine the plan of the tables and to see that the chair of the King is suitably placed so as to be free from draughts, noise or other disturbances. This official is exceedingly fastidious, and his word is law. On not a few occasions he has thrown every one into a state of consternation by demanding a change in the arrangements of a dinner at the eleventh hour. The requirements of His Majesty in these and other matters, however, are now so well known that mistakes are of rare occurrence.

As soon as the seating arrangements have been passed the special wine which the illustrious guest is to drink arrives in charge of a royal servant. Members of the royal family always send their own wine to the dinner, and, in many cases, their own special brand of cigars. The wine is in charge of a responsible person in the employ of the royal household whose duty it is to stand behind the chair of the King and wait upon him. Like most of the subjects His Majesty has dining whims. He will on no account, for instance, allow two knives to lie on the table before him together. It is believed that the King puts some faith in the well known superstition that ill comes from the crossing knives. Let this be as it may, at all dinners at Buckingham Palace a clean knife is placed beside each guest with every course, and this rule must be rigidly observed at all public as well as private dinners attended by His Majesty. And his servants take special pains to see that it is so.

## Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more, nothing less. It is a hidden day little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling nerve. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing hearts. It is the cause of all this painful, palpitating, suffocating heart distress. It shows that the popular prescription is alone directed to these great and leading nerves of the system. Dr. Shoop's Restorative offers real, genuine heart help. It would have not only Heart strength, strengthen these nerves—re-establish them as needed, with

### THREE Trying Times in A WOMAN'S LIFE

### WHEN MILBURN'S HEART AND NERVE PILLS

are almost an absolute necessity towards her future health. The first when she is just budding from girlhood into the full bloom of womanhood. The second period that constitutes a special trial on the system is during pregnancy. The third and the one most liable to leave heart and nerves unable to discharge their proper functions. In all three periods Milburn's Heart and Nerve Pills will prove of wonderful value to take over the time. Mrs. James King, Cornhill, Ont., writes: "I was troubled very much with heart trouble—the cause being to a great extent due to 'changed life.' I have been taking your Heart and Nerve Pills for some time and I find I am continuing doing so, as I can truthfully say they are the best remedy I have ever used, for building up the system. You are at liberty to use this statement for the benefit of other sufferers."

## NOW I AM WELL

THANKS TO "FRUIT-A-TIVES"

Elli, Manitoba. I wish to state, for the sake of others who may be sufferers like I was, that I suffered from severe indigestion and constipation for years and that there was also womb trouble with unpleasant pains in my back which made me miserable, constantly. I tried physicians and took many remedies but I got no relief. I was induced to try "Fruit-a-tives" and I can truly say this was the first medicine that ever did me any good. "Fruit-a-tives" quickly relieved the constipation and indigestion and completely cured me of all symptoms of womb trouble. I cannot express too strongly my great gratitude to this medicine as I am as well now in every way as ever I was, thanks to "Fruit-a-tives". I can strongly recommend "Fruit-a-tives", it is easy to take and the effect is always mild like fruit.

(Sgd) Mrs. M. BARKLAND. Many women suffer with what the doctors call "Womb Trouble"—"Diseased Ovaries"—"Female Complaints" etc.—when Constipation is causing all the pain. Cure the liver and make the bowels move regularly with "Fruit-a-tives" and the "Womb Trouble" will be cured at the same time. "Fruit-a-tives" or "Fruit Liver Tablets" are sold by dealers at 50c a box—6 for \$2.50—or will be sent on receipt of price. Fruit-a-tives Limited, Ottawa.

### Wisdom for Women

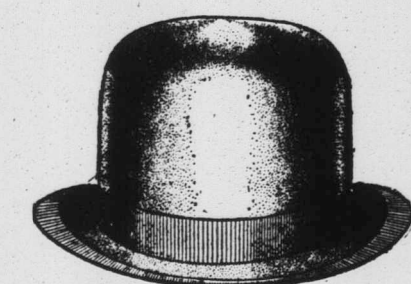

### ROOMS FOR CHILDREN

The children of today are, as a matter of course, provided with a few toys and are especially their own and equipped with those things that not only please them, appeal to them and supply their needs, but are helpful in developing their growing nature. Every home or home in which there is a child should have a nursery or play room. The playroom may be so small that it is not much bigger than a closet, still it is infinitely fitted up, it will supply a great need in a child's life. Even the very young child can be made to feel the privilege of having a place of his own where all his belongings can be found and where his personality can be exercised and his individuality developed. To give a child a room for which he is in a way, responsible is to create early a self-reliant disposition that is valuable later.

In regard to the furnishings to go into the nursery, of course the available floor space is the first thing to be considered. Secondly, whether it is a nursery, pure and simple, or a bedroom or a bedroom or schoolroom in addition. If it is to do for two purposes it is better to make it a nursery, pure and simple, and a bedroom or a bedroom or schoolroom in addition. If it is to do for two purposes it is better to make it a nursery, pure and simple, and a bedroom or a bedroom or schoolroom in addition.

New things for wall decorations in children's rooms are constantly being brought out of the dealers. Crocheted and papered both are used for these, the latter being the most popular. A scheme of decoration much in favor has a plain paper reaching to six feet with a wide band of scenery or a flower design paper above that, the latter being the most popular. ## GRAPHIC STORY IS TOLD BY OFFICER OF TORPEDO BOAT TIGER

*Suddenly the Torpedo Boat Destroyer Was  
Struck By the Big British Cruiser  
Berwick.*

### SECOND ACCIDENT

PORTSMOUTH, Saturday.—An officer, who was an eye witness of the sinking of the torpedo boat destroyer "Tiger," in the collision with the British cruiser "Berwick," yesterday, gave the following account of the accident: "The first we knew that anything had happened was when we saw a flash and heard a loud report. This, we supposed to be a gun. In reality, however, the flash and the report resulted from the sea water reaching the boiler room of the 'Tiger.' This caused an escape of steam, which must have scalded to death everyone in the water. Many of the men went under just as help was within their reach. I do not think there is any hope of raising the 'Tiger' or recovering the bodies, as the wreck lies in too deep water."

The "Tiger" was in a serious accident last September, when during the night manoeuvres she pulled herself up on the Portland Breakwater.

A stoker, rescued from the "Tiger," gave a vivid account of the accident.

## JOHN SMITH, AGENT BEHIND IN BOARD FARES ON POLICE

*Landlady Swore Out Warrant And Police Were Serving it When  
Smith Opened Fire—Chief Detective Carpenter one of the  
Injured—Smith also Injured.*

### ALL NOW IN HOSPITAL

(Special to the Morning Graphic.)  
MONTREAL, Monday.—One of the most remarkably tragic affairs that has ever happened in this city was enacted this evening and as a result, one policeman is dead, shot through the heart, two more policemen are seriously wounded, Chief Detective Carpenter was shot in the thigh and received a serious wound, and the man who did the shooting was finally shot himself and badly wounded and taken to the hospital. The man is John Smith, a book agent of 60 years of age who boarded with Miss Pritchard at 34 Mace street in the centre of the city where the affair took place. Smith got behind in his board and when expostulated with by his landlady threatened her with a gun and she frightened her that she went down and got a warrant out for his arrest. Two policemen went up to the house about half past five this evening to serve the warrant. When constable Facault tried to get into Smith's room the latter opened fire with a Winchester rifle and shot the policeman, who fell into his comrades arms. Later several more policemen were sent to the scene and when constable Shea tried to enter the room he was shot through the heart and fell dead. The news of the battle soon spread over the entire city and thousands of people gathered at the scene. A big force of police were now sent to the scene and surrounded the house but for several hours Smith kept them at bay. Finally the firemen were called and the house was turned on Smith who was standing at the window watching his besiegers. No sooner had the fire been turned than Smith fired into the crowd and Chief Carpenter who was directing the police fell wounded in the groin. The police then started a fusillade on the house and finally Smith fell wounded in several places and he gave in. He was taken to the hospital desperately wounded and is not expected to recover. Chief Carpenter is badly wounded but is expected to recover. It is thought that Smith must have gone suddenly insane.

He was 73 years of age and is survived by his widow and one daughter.

## DALHOUSIE ELECTIONS WILL BE HELD SOON

Old Board of Aldermen Are Seeking Re-election—Other Interesting News.

### A NEW FIRM

DALHOUSIE, Monday.—The election for Mayor and Aldermen for the town of Dalhousie will be held on Tuesday, 21st day of April. Several names are mentioned as probable candidates seeking town honors. The following persons have issued cards to the electors of the town: for Mayor, W. S. Montgomery; Aldermen, Daniel McDonald, B. J. Chiverton, W. C. Arsenault, Dugald D. Stewart, Edward Gisliger, Henry H. McNeil, P. M. Shannon, John McNeil. The above ratepayers were all members of the present town council except D. G. Stewart, who will replace Alderman Colquhoun, who has left for British Columbia.

The appeal that the present board is making to the electors for re-election is that they are deeply interested in the successful completion of the water system of the town as

speciously as possible, and the organization of a good and efficient fire company which is already started.

The full vote for town election according to law, list will be over 200. Another valuable property has changed hands here recently. The removal of Mr. Benjamin Windose to New Mills where he is to take charge of his late brother's business has brought about the sale of the large store on William Street, which contains a very comfortable dwelling, large front store and office below and tin shop in the rear with lots of yard room. The lucky purchaser is Mr. Geo. E. Mercer, who will form a company with his son-in-law, J. Valentine, Mace, barrister, now residing in St. John. Mr. Mercer in addition to his practice of law in Dalhousie will conduct a company business among the lines of established successfully by Mr. Wind-

## MANY NEW REGULATIONS FOR MARRIAGES AMONG CATHOLICS

*After Easter Engagements of Catholics and Protestants Must be in Black and White to be Binding.*

### IN FORCE AFTER LENT

Many of our readers will be interested in the new regulations with regard to marriages, in the Roman Catholic Church, which were read in the churches some time ago and will come into force at the end of Lent.

Mixed marriages are not forbidden, except when they are performed by clergymen of other denominations or public officials, but in the marriages between Catholics the proposals of marriage have to be made in writing and duly attested to before witnesses, and as far as possible, the contracting parties must be married in the parish in which they live.

Some of the important clauses in the marriage regulations are:

"The marriage of all Catholics (both parties being Catholics) before a minister or a civil magistrate will be no marriage at all."

"Marriage of fallen-away Catholics (who have become Protestants or infidels) before a minister or civil magistrate will be no marriage at all."

"The marriage of all Catholics (both parties being Catholics) before a minister or a civil magistrate will be no marriage at all."

"Marriage of fallen-away Catholics (who have become Protestants or infidels) before a minister or civil magistrate will be no marriage at all."

"There will be no marriage at all unless there are two witnesses with the priest."

"Bishops and priests should not witness marriages until they are morally certain that the parties to be married are free to enter the matrimonial state hence as far as possible dispensation from the publication of the marriage banns should not be sought."

"The bishop outside his diocese or the priest outside his parish cannot validly marry their own or other subjects without due authorization."

"When the contracting parties are to be married in a church where they were not baptized, they should before marriage secure their baptismal certificates."

"If for an entire month parties cannot secure baptism, parish priest or any priest appointed by either of these, they may in the presence of these witnesses, declare their consent to marry."

## CALLANT RESCUE OF SHIPWRECKED FISHERMEN BY S. S. TURCOMAN

PORTLAND, Maine, Monday.—The Dominion Line steamship Turcoman, which arrived here this afternoon reports a thrilling rescue of the French barquentine Beam et Bretagne which was out on a five months' fishing trip, bound for Newfoundland banks. On the morning of the 27th the Turcoman saw the signals of distress which the Bretagne was flying and on bearing down on her found that the latter, a craft of 600 tons with 25 men on board, was in a sinking condition. The seas were rolling mountains high and the wind was blowing a gale. The vessel's foremast had been carried away and before the steamer could reach her the main and mizzen masts were overboard. The vessel had sprung a leak and the efforts to keep her afloat with the pump were fast becoming fruitless. The Turcoman's crew made several trips in small boats and each man had to be hoisted on board of the steamer with a rope but in spite of the terrible conditions, Chief Officer P. P. Williams and his four assistants rescued the men.

## TREATY DRAFTS ARE SATISFACTORY

(Special to the Morning Graphic.)  
LONDON, Monday.—The foreign office recently received drafts of treaties having as their object the settlement of questions pending between the United States and Canada. These treaties were considered satisfactory with the exception of a few minor points which were referred back to Ottawa and it is fully expected that a complete agreement was about to be reached. The news cabled from the
