TUESDAY IN THE HOUSE. Ottawa, Jan. 8.-When the House of Commons met yesterday at 3:15 the galleries were crowded. All the Ministers and ex-Ministers present, except Mr. Dickey, who is sick. D'Alton McCarthy and Col. O'Brien introduced Mr. Stubbs, the new nember for Cardwell, There was no demonstration. Immediately after the greatest enthusiasm exhibited in Parliament for many a day was manifested when Hon. Mr. Laurier and Mr. Devlin, M. P. for Ottawa county, appeared at the bar, accompanied by Mr. Jas. McShane, the victor in Montreal Center, who took his seat amid loud cheers from the Liberal side. Then came Mr. Powell, the new Conservative member for Westmoreland, N. B., which he carried by 1,400 fewer majority than his predecessor. He was introduced by Mr. Foster and Mr. Costigan, and was applauded from his side.

Mr. Casey, the member for West Elgin, having introduced his bills for the better protection of railway passengers and railway employees and for the more effective drainage of land continguous to railways,

Sir Adolphe Caron rose and said: Since the opening of Parliament seven members of the Cabinet have tendered their resignations to the Prime Minister, which were submitted to the Governor-General and accepted by his Excellency. The gentlemen whose resignations have been accepted are: Mr. George E. Foster, Minister of Finance: Mr. John Haggart, Minister of Railways and Canals; Sir Charles Hibbert Tupper, Minister of Justice; Mr. William Bull Ives, Minister of Trade and Commerce; Mr. Arthur R. Dickey, Minister of Militia and Defense: Mr. Walter H. Montague, Defense; Mr. Minister of Agriculture, and Mr. John F Wood, Controller of Customs. At the next meeting of the House, I hope to be in a position to state definitely what course the Government has taken under these circumstances. (Ironical hear, hears.) "Considering the gravity of the situation, he moved that the House adjourn till Tuesday, 21st. nst. Hon. Mr. Costigan seconded.

THE LIBERAL LEADER. Mr. Speaker, said Hon. Mr. Laurier, I really believe that my honorable friend who now leads the House will not be surprised if I tell him at the outset that it will not be possible for me nor for any of those who sit on this side of the House to agree at this moment to the proposition that the House should adjourn at all, except in the ordinary way, from day to day. I understand very well that the Government are in a very peculiar position, and they are entitled, I must say, to some commiseration -(ironical hear, hears)-and I am not disposed to refuse commiseration to them in any way. But, on the other hand, we must have something like Parliamentary Government in this country, and it is time we should put an end to the travesty, the mockery and the sham which has been too long going on here under the name of Parliamentary Government. (Cheers.) It is not at all surprising o me that there should be resignations of embers of the Cabinet. I must say that I we rather expected it ever since we and the resignations on the 8th of July last. I rather expected then that the day would come when another wing of the Cabinet would do the same thing that had been done by the wing of the Cabinet which resigned on that occasion. On that point I have nothing to say further than this: Sir Adolphe Caron has told us that seven of the members of the ad-

ministration have resigned. Sir, the honorable gentleman should have told us what is the cause which has brought on these resignations. Not a word, not a syllable, not a scintilla of information has been given to the House upon this most important subject. We knew before Sir Adolphe Caron spoke, because the fact had gone abroad through the length and breadth of the land, that seven of his colleagues had resigned, but we were in the dark then, and we are in the dark yet as to what are the causes which led to this most extraordinary and important event. What are the causes? I must assume that some extraordinary event has taken place which has induced seven of the members of the administration to take such a course. I cannot assume for a moment that the hon. gentlemen who have resigned have tendered their resignations to the Premier for causes which existed when this Parliament met on the 2nd of this month. To assume that, would be to suppose that these hon. gentlemen had acted not only in a most unparliamentary manner, but that they had acted in a

MOST TREACHEROUS MANNER to the Premier, and in a most unpardonable manner towards the dignity of the Crown. (Cheers.) Why, sir, what is the position we are in this moment? The position is this: On the 8th of July last, when the Cabinet had been tossed to and fro and undecided as to whether or not they would introduce a measure of remedial legislation with regard to the Manitoba school case, based upon the order in council of the 21st March last, they came here with the announcement that they were to reopen negotiations with the Govern-Manitoba, and that in the event of Manitoba failing to give to the minority the redress which the minority was asking for, then they would summon Parliament not later than the 2nd of January, and introduce remedial legislation, and press it to a conclusion. Parliament was sumomned to assemble on the 2nd of January, and Parliament met on the 2nd of January. The whole Cabinet has put in the mouth of his Excellency a statement of the policy which the Government intended to carry on this session, and of the measures which they proposed to introduce. This was assented to unanimously. All colleagues of the Prime Minister All the course, pledged themselves to support

TREATMENT OF THE CROWN. Now, are we to suppose that arrer the whole of the Government have been committed to that policy, after they have taken their course, and after they have placed

which the advisers of the Crown intended to carry on, are we to suppose taken place since then these gentlemen would have resigned on account of causes which existed at the very time they put that language in the mouth the representative of the Crown?

We are indeed told by the Ministerial taken place since that time, but these isted long before Parliament was called. Again, I assume, that some EXTRAORDINARY EVENT must have taken place since the opening of Parliament. It is true the

Ministerial press has given us an event extraordinary in its character, however, did not affect the whole Cabinet, but affected two members of Administration. It is true it been stated in the press that a member of the Administration charged one of his colleagues with having anonymously slandered him to his Excellency the Governor-General, had carried on the investigation behind his back, though they were sitting all the time at the same table in the council, and that under such circumstances there was something to be investigated between these two gentlemen. Well, this is an extraordinary event, I must admit, but it is not an event I would imagine which would bring on such a crisis as we have at present. What is the true cause? I ask.

ernment that the Conservative party are dissatisfied with the leadership of Sir Mackenzie Bowell. As to that I have nothing to say. It is a PURELY FAMILY QUARREL, in which I would not at all venture to take any part. It is for the Conservatives themselves to settle that question. But, sir, if that were the cause, if that is the real reason, and the only reason why we have the present crisis, then, met as we are

here today, to discuss the speech of his Excellency, when we are asked to adjourn the House we had better know whether that is the cause or not. But, sir, this cause existed long Whether the Conservative party 220. at large is or is not satisfied with the leadership of Sir Mackenzie Bowell, it is for the gentlemen on the other side of the House, and not for me, to determine. I have to say that Parliament would be trifled with if that were given as the cause why we should not proceed with the business of the House. Parliament has been called to determine a certain policy, but to me it looks very much as if this were another of those expedients of which we have had too many already, in order to enable the Government to not carry out the pledges which they gave to Parliament.

(Cheens.) Mr. Speaker-Is the motion of Adolphe Caron's objected to?
Mr. Laurier—Certainly. Notice must be given.

Sir Adolphe Caron-Then I will give it as a notice of motion for tomor-Mr. Laurier-For the day after to-

morrow Sir Adolphe Caron-I move that the

House do now adjourn.
MR. FOSTER'S EXPLANATION. Mr. Foster read the following statement: "There is no disagreement between ourselves and the Premier upon questions of public policy, trade or constitutional, with regard to which action has been already taken or in respect to which an attitude has been assumed by the Government under the present Premier. We retain our firm belief in the principles and policy of the Conservative party, with which we are in entire accord, and of which, in comnon with others, we have been and will remain exponents in so far as our ability admits. We have lost none of our confidence in the sound and healthy condition of the Conservative party of Canada, or of our belief that it embodies a policy which a majority of the electorate considers essential to the continued welfare and progress of the country, of our faith that under firm and prudent leadership it will come back triumphant from the polls. Though with many misgivings, I finally agreed to enter the Government under Mr. Bowell in succession to Sir act of John Thompson, we have nevertheless SLANDERING ANONYMOUSLY

of our ability to make it strong and efficient, and it has been with growing regret that we have seen our efforts resented in a measure of success less than that for which we had hoped and

TO GET RID OF THE LEADER.
"We are of the opinion that the
Conservative party ought to be represented by the strongest Government possible to be secured from its ranks. That the necessity therefor was never greater than under existing circumstances, and we believe that such a Government can be formed without delay. This we have repeatedly urged upon the Premier, with the result that we found ourselves face to face with Parliament, having a Government with its number incomplete, and with no assurance that the present Premier could satisfactorily complete it. der the circumstances we thought it our duty to retire, and in this manner to pave the way if possible for the formation of a Government whose Premier could command the confidence of all his colleagues, could satisfy the Conservative party that its strongest elements were at its head, and impress the country that it had a Government which was united and had power to govern. We affirm with the utmost sincerity that the action we have taken has sprung from no feeling of personal dislike or personal ambition, but has been solely dictated by our own great desire that the best

But that is not a circumthat unless something unforeseen has stance to the speed with which these since then these gentlemen new convictions have dawned on the minds of my honorable friends opposite. Now, it does appear to me that these honorable gentlemen, one and all, have

R. spare brakeman, lost his life. The deceased, who belonged to Delmer, was a cheesemaker by trade, and was but 19 years of age. On Dec. 23 last he was appointed spare brakeman, and was on his fourth trip when he was killed.

Col. Tisdale, M.P., has been in consultation with Col. Dick, of the Conneaut Ferry Company, on ways and means of raising \$50,000 which will be required to put the Port Dover harbor in proper shape for the ferry boats. At present, owing to the low water, the boats can carry only about a threequarter load. The work of drilling and biasting is being pushed ahead, and it is said that the pier will also be extended several hundred feet.

The drillers who are working on the Citizens' gas well at Ridgetown, report having gone through about ten feet of pure rock salt, and another thirty feet of salt and shale. This would appear to be rather discouraging, and a meeting of the company was held to decide what to do in view of the fact that Clinton strata had never reached. It was decided to petition the town council to make a grant of \$200 to complete the hole. Failing this it will likely be abandoned.

OIL SPRINGS.

Oil Springs, Jan. 7 .- On New Year's morning, Dr. Chalmer's pumping rig, situated on the Kelly road, was totally destroyel by fire. The origin is not known, but supposed to be from the boller, in which fire was left after engineer had closed down the night before. The loss is in the neighborhood of \$500. Owing to the bad condition of the roads it was impossible to get the fire engine on the scene in time to be of any use, so quickly was the building consumed. Mr. Joseph Grant, a former reeve of this village, now a prominent ranch owner in the Northwest, is at present

visiting relatives in the village. The snow of last week has stimulated business in the village to a marked degree, and although the mills in the district are not in operation at present, considerable activity in wood is noted, and business men are now entertaining good hopes of an increasing trade during the coming winter. Mr. A. Askew, who left Oil Springs

about six years ago to reside in England, returned to the village la week, and will in future make his home Since leaving Oil Springs his here wife has died.

The Chronicle office was gutted by Thursday morning. The fire company was prompay on hand, and succeeded in extinguishing the flames before the building was destroyed, the damage to which will be about \$150, which is covered by insurance; damage to stock and plant about the same amount, but no insurance. Mr. Joseph Gadd and wife are visiting relatives here. Mr. Gadd was formerly editor of the Chronicle, but

RIDGETOWN. Ridgetown, Jan. 7.—The municipal elections here yesterday were the most exciting we have had for several The council is almost entirely a new body. The election of Mr. T. P. Watson as mayor was a surprise to many. Mr. Watson is a young man who has attained some prominence owing to his industry and success in Mr. John C. Wallace, his opponent, was mayor last year, and had expressed himself as indifferent whether he was elected or not. His views expressed were that the people should of their own accord, and without coaxing, come to the polls and vote for the men they wanted. Mr. Wallace takes the correct view, but in every municipality there are electors who consider it a favor to be asked for their vote, and Mr. Watson was energetic in looking after the delinquent and indifferent voters. Mr. Wallace's friends regret his defeat, as he is looked upon as a man of strong common sense and capable as head of the council. However, Mr. Watson has served as a councilor, having for two years been

reeve, and he may do good work.

The other members of the council who were elected are as follows; Reeve, James Thatcher (acclamation); deputy-reeve. John Revcraft: councilors, James Gibson, R. R. Lowthian, John N. Kenny, John N. Campbell, W. A. Gosnell, Peter Bawden, John Young and J. H. Mitton.

The following school trustees were elected: O. K. Watson, Wm. Mc-Master, H. B. Graham and J. A. Dart. The old council will be asked by the Citizens' Gas Company to consider a petition signed by several ratepayers for the grant of \$200 to enable the company to bore down through the Clinton rock, which is now two or three hundred feet below the bottom of the well as it now is. The council cannot legally make this grant, and may not undertake to do so at its last meeting. If they should undertake to make the grant it would likely be upon condition of the gas company assigning its interest to the municipality, then the municipality, if gas were found, would control the well, and make it a prolific source of revenue for the town. The snareholders of the gas company, too, would be paid back by the town whatever money they had invested in it. This was done at Leamington, and greatly to advantage of the town, notwithstanding it at first appeared like going in the face of the statute; but the people were certain gas would be found in paying quantities, and so the council got over the statute by not granting a bonus, but entering into the undertaking themselves. In the well which is being bored here the indications are very similar to those which preceded the discovery of such an enormous flow of gas in the Essex county wells. Already arrangements for the introduction of new manufactories are made pending the successful result of the work of the gas

A PEREMPTORY ORDER. London, Jan. 8.—Sir Hercules Robin-son, Governor of Cape Colony, has wired Mr. Chamberlain, Colonial Secretary, from Pretoria, that an order has been issued in the name of the Queen, directing the officers of the British South Africa Company, in charge of ordnance and reserve ammunition at Buluwayo and Fort Salisbury, to hand the same over to an Imperial officer. Orders were also sent on Jan. 2 to the civil administrator at Buluwayo calling upon all citizens to maintain law and order. This order was faithfully obeyed. The excitement will be allayed, Gov. Robinson says, when it is known that Dr. Jameson and his comrades have been released.

TRANSVAAL INDEPENDENCE. The Paris Figaro expresses doubt that the cablegram sent by the Emper-or of Germany to President Kruger, implies the absolute independence of the Transvaal. "More than a sovereign's will," the Figaro says, "will be required to cancel the convention of 1884, whereby the Transvaal Government was bound not to conclude any international arrangements without the consent and ratification of Queen Victoria and her Cabinet.'

THE SITUATION. The New York Herald's Paris special says: "The opinion in well-informed circles in Paris is that the exchange of telegrams between Chamberlain and President Kruger shows that neither side is prepared to make any concessions whatever. Emperor William's allusion to friendly powers which might aid the Transvaal Republic in case of necessity, is made the most of in President Kruger's reply to Mr. Chamberlain.

"The situation now is this: The Boers claim their absolute independence and the abrogation of the treaty of which prevents them from concluding engagements with foreign is now in Elmvale, and editor of the powers. The German Emperor upholds them in this attitude. The British Government, on the contrary, declares it will uphold the convention of 1884 at all hazards, even if doing so involves war with Germany.

ENGLAND ISOLATED. The New York Herald's correspondent at Berlin says a member of the Portuguese legation yesterday made

the following statement: "In the present juncture England is completely isolated. Even Italy and Austria refuse to accord her any completely support. The development of the present crisis, which may change completely the situation in Europe, is being followed with the greatest attention in Portugal. A Franco-Russia-German alliance seems to me to be extremely improbable, but an understanding between them on various questions as they arise, threatens the domination of England all over the world. tria will try to bring about an amicable arrangement between Germany and England, without expressing any disapproval of the Emperor's telegram to

President Kruger." A member of the Colonial Depart-ment of the Foreign Office said the Em-teror yesterday assured Dr. Leyds in warm terms of his sympathy for the Boers, whose admirable bravery he described as being that of Teutons. He expressed amusement at the paroxysms into which England had fallen, and which he declared were highly imprudent and calculated to arouse suspicion of official complicity in Dr. Jameson's action, Dr. Leyds expressed

the opinion that no further attacks on the Transvaal were now to be feared. The member of the Colonial Department further stated that Germany absolutely refused to admit English suzerainty over the South African Re-She has no intention of espublic tablishing a German protectorate over the Transvaal, but she will establish a diplomatic agency at Pietoria. It is expected that the attacks on Germany in the English press will continue, but it is thought the crisis has passed the

acute stage. A WAR SCARE. The Globe prints some sensational news under the following "scare" headings: "Activity in the War Office," "Anticipated Military Measures,"
The Globe then states that the War Office sent a special military messenger to the Colonial Office, and that it is rumored important orders are impending. A dispatch received here from the military camp at Aldershot ployed in the ordnance stores are very

prizes to the Middlesex volunteers. Gen. Grenfell made an address, in which he said the volunteers were never more efficient than at the present time. They numbered a quarter of a million. Many of the volunteers who had been retired were coming forward at the present momentous crisis and offering to rejoin the forces. The War Office was receiving similar offers from the reltired members of all the corps in town and country.

READY FOR THE FRAY. The Telegraph says that the Gov-ernment has decided to send to Cape Town as soon as possible strong reinreements of cavalry and infantry. It adds that a second regiment, which is under orders to return home from India, will stop at Cape Town, while other regiments selected from the first army corps in England will shortly leave for that place.

NAVAL MOVEMENTS. The Times says that orders have been sent to Portsmouth, Davenport and Chatham for the immediate placing in commission of six ships to form a flying squadron. It is understood that captains for the vessels have already be composed of two first-class battleships, and two first-class and two second-class cruisers. The names of the vessels are yet unknown, but there is hardly a question that either the Royal Oak or the Revenge, now at Portsmouth, will hoist a pennant. The Endymion and Thesus, now at Chat-

ham, are likely to be two of the cruisers selected. The paper adds that it has been decided to dispatch a naval Cape or the East Indian squadron is unknown. The Telegraph says that a first-class

British cruiser has been ordered to proceed to Delagoa Bay.
THE UITLANDERS WILL SUBMIT. Sir Hercules Robinson, Governor of Cape Colony, cables from Pretoria that he has received a message from the reform committee at Johannesburg stating that the Uitlanders have resolved to comply with the demand of the Transvaal Government that they hold another meeting in a week or relinquish their arms. The people, the so, and then it will step down and committee added, are placing themselves unreservedly in his hands, being confident that he will see that justice is done them. Sir Hercules then night, with Chairman D. W. Blackquotes a message by Sir Jacobus De- well presiding and the following memwet, the British political agent at bers present: Trustees Logan, Dr. taining the reform committee's formal resolution, declaring that the committee had instructed its followers to lay son, Craig, Keenleyside, Murphy, Griftheir arms, relying on the Transvaal Government to maintain order and protect life. Sir Jacobus Dewet added that he was convinced that Secretary McElheran, the foreigners would abandon their arms without further difficulty, and urged that the Republic co-operate with the committee in restoring the normal condition of affairs in Johannesburg. Sir Hercules hopes now to be able to confer with President Kruger and the executive council relative to the prisoners and the redressing of the grievances of the foreign residents

of Johannesburg.

A dispatch received by the Colonial Secretary, Mr. Joseph Chamberlain, from Sir Hercules Robinson says that the arms and ammunition of the British Chartered Company's forces at Buluwayo have been placed in the custody of a representative of the

HISSES FOR THE KAISER. At a large public dinner of farmers and tradesmen given at Chard, county of Somerset, the mayor of the town proposed to drink the health of all the Queen's family except one grandson (referring to Emperor William of Germany). The toast was received with enthusiastic cheers, which were followed by groans and hisses for Emperor William.

There were disorders in the East End Monday night, growing out of the fact that the German and Dutch sailors about the docks wer hissed and molested. The windows in the shops kept by German Jews were broken, and structions, but owing to the low temseveral German clubs were closed. A LETTER OF THANKS.

From a Young Lady Who Had to be Carried About Like a Child, but Who Has Once More Regained Health and Strength.

Some letters bear in themselves the evidence of such sound judgment, good sense, and absolute sincerity that a single word added to them would be a blemish. Happy the man who gets such letters. They are the outcome of honest and discriminating good sense. The following is such a letter. It is dated at Elmsdale, P. E. I.:

Gentlemen, -I am pleased to be able to

add my testimony to the very large accumu-

lation you must already have with regard to the efficacy of Dr. Williams' Pink Pills for Pale People. I am now in my 20th year, and as far back as my memory carries me I have had rheumatic affection in both legs, from the knees to the ankles. I have also been much troubled with erysipelas. One doctor attended me constantly for three years, but looked. Was the committee trying to to no purpose, and another attended me for a short time with equally poor results. Besides this treatment I have used advertised medicines too numerous to mention, but none helped me. I became so bad that abscesses formed on both legs and the bone began to decay. For three years I could not put a foot under myself, and had to be carried about like a child. It is not possible for one who has not been in a similar condition to form any conception of what I suffered. My days and nights were alike filled backed by proof, prevails here that the authorities are considering the mobilizing of the army reserves and part of the militia. The men employed in the ordnance stores are with agony, and at times I felt that death time that an improvement set in. I steadily Princess Louise yesterday presented progressed until now I am in good health, go about easily and can do a good day's work around the house. I unhesitatingly state that I owe my present health, if not my life, to Dr. Williams' Pink Pills, and I trust that others may find benefit from my experience. All who live in this vicinity know of the truth of these statements, and know that my restoration to health is little less than a miracle,

Yours gratefully, LAURETTA J. HAYWOOD. This is not an isolated letter. Every mail brings them from grateful people in all parts of the country who hasten to acknowledge the great benefit they have derived from the use of Dr. Williams' Pink Pills, often after other medicines had utterly failed to give any help. Throughout the length and breadth of the land it is a recognized fact that Dr. Williams' Pink Pills are one of the medical marvels of the age. They positively cure locomotor ataxia, partial paralysis, St. Vitus dance, sciatica, neuralgia, nervous headache, the after effects of la grippe, palpitation of the heart, pale and sallow complexions, all forms of weakness either in male or female. Pink Pills are sold by all dealers, or will be sent post paid been chosen. Mr. E. R Cameron's term as representative of the School Board on the Free Library has expired, and the appointment of another representative or the reappointment of Mr. Cameron was asked by Librarian Blackwell. Trustee Craig moved that Mr. Cameron be reappointed. "He has made a good representative during the years he has been on the board," said Mr. Craig, "and we should have no hesitation in sending him back." Trustee Griffin seconded, and the motion carried unanimously.

Mr. S. S. Jones, chairman of the Collegiate Institute Literary Society, asked the board to defray the expenses incurred in fitting up the institute with electric lights for the recent conversazione. The amount was \$50, and on motion of Dr. Campbell will be paid. The money was considered well spent.
Principal Merchant reported an increase of 55 in the Collegiate Institute attendance for December, as compared with the same month of 1894. The number on the roll last month was 690 and the average attendance was 632. Inspector Carson's report was adopted. It stated that the public schools

cpened on Monday, according to instructions, but owing to the low temprincipal was obliged to dismiss all the rooms at 10 o'clock. As Victoria manent directors be appointed and ANTI-BRITISH FEELING IN BER- that the assistants be disposed of as follows: Victoria kindergarten, afterncon, director, Miss Rudd; Victoria, sistant; Queen's avenue, afternoon, nue, afternoon, Miss Mathews, assistwhatever course the ant; St. George's, morning, Miss Hicks, Transvaal decides to adopt will be assistant; afternoon, Miss Boyd, dilargely shaped in accordance with rector, and Miss Golding, assistant.

The changes in the staff had been carefully considered by the supervisor ines at Lorenzo Marquez and to march of the kindergartens, Miss Mackenzie them to the Transvaal, was not a mere and Mr. Carson, and the recommenda tions were adopted with little discusdefeat arrived just in time to avert sion. The conveniences of the teachhad both been carefully looked into. No. 2 committee's report was unimportant. It was adopted.

No. 1 committee's report did not go through with a rush, although it contained only three clauses. The first gave notice that the several cases re payment of fees at the Collegiate Institute were still under consideration. Trustee Griffin, a member of the committee, brought Trustee Sanders to a halt as he read the clause. "I never heard of the matter before," said Mr. Griffin.

Mr. Sanders-But you are not on the

committee. Mr. Griffin-But I am. "Well, if you are, you were never there when the question was brought up," replied Mr. Sanders.
"I beg your pardon," said Mr. Griffin,
"but I have only missed one committee meeting during the year, and I defy any member to make a better showing than that."

"It then transpired that Mr. Griffin had misunderstood the question referred to in the clause, and the members had a laugh at his expense. Another clause was to the effect that the reconsideration of the salaries of the Collegiate Institute teachers was still under consideration. No mention was made to the question of fees be ing paid by non-resident pupils attending the public schools, and Mr. Greenlees wanted to know how it was over-

burk the matter? It was explained that mention of the matter in the report was unintentionally overlooked, as the secretary was absent from the committee meeting and the minutes were not kept as correctly as usual. The next report will centain information on the subject. The adult committee's report recommended the payment of accounts to the amount of \$8,491 12.

Mr. Perry, who does a large amount of repairing around the schools, has drawn a considerable sum during the year, and as his accounts have been many times inquired into at the board, it was moved by Mr. Griffin that Secretary McElheran furnish a report of the money paid Mr. Perry during 1895. It would enable the board to know whether or not Mr. Perry should be re-engaged for this year. Mr. Stephenson seconded. Mr. Anderson expressed surprise at the seconder taking such a step when he was a member of No. 2 committee. Perry only charged 25 cents an hour for his labor.

Mr. Greenlees thought Mr. Griffin was ever anxious to get "a fling" at No. 2 committee. He invited Mr. Grif-fin to attend the committee's meetings. and gave a guarantee that he would not be frozen out.

The motion carried. Mr. Logan moved that the trustees in each ward be empowered to engage carpenters to do the work in their districts. It would distribute the work. The motion was ruled out of order.

'Such a scheme would result in ward grabbing," said Trustee Murphy. A number of repairs and some sup-plies were ordered for various schools. Mr. Griffin's notices of motion re commercial forms, etc., were laid over until the next meeting of the board.

A LIFE SAVED .- Mr. James Bryson Cameron states: "I was confined to my bed with inflammation of the lungs, and was given up by physicians. A neighbor advised me to try Dr. Thom as' Eclectric Oil, stating that his wife to go anywhere. The squadron will or by the 100 or ounce,) by addressing Dr. had used it for a throat trouble with the best results. Annual Convention of the W. O. A. at Woodstock.

Report of the Secretary, Mr. J. W. Wheaton.

Important Reforms Suggested-Quality of Cheese Must Be Kept Up-President Pattullo's Address.

Woodstock, Ont., Jan. 8 .- The nineteenth annual convention of the Dairymen's Association of Western Ontario opened at the Opera House here yesterday afternoon. There were a large number of delegates in attendance. Among those present were: Hon. Theo. Louis, of Louisville, Wis.; Hon. John Gould, of Aurora, Ohio, besides all the Ontario dairymen.

President Andrew Pattullo, of the Woodstock Sentinel-Review, occupied were a cultivation of the home market and improved quality, which should be obtained by the use of improved machinery, grouping of factories for more preventing the carrying of whey in the milk cans. Decrease in the cost

of manufacture should also be aimed only. He was somewhat of the opinion This might be aided by decreasing the cost of hauling by the improvement of the roads. THE SECETARY'S REPORT. The annual report of the secretary, Mr. J. W. Wheaton, was highly inter-esting. It would not be however, be given to keeping up the quality, and this can only be done by everyone doing his best. The patron made would be fairer. If every patron should be educated as to the proper care and handling of milk for cheese- an annual revenue of over \$7,000, which making; the best means of disposing of the sour whey; the butter-fat system of paying for milk, and several other important features of dairying, and one of the best means of bringing this about is by reaching him at annual or local meetings. Seven successful local conventions were held at Strathroy, St. Thomas, Simcoe, Kin-cardine, Harriston, Flesherton and Newmarket. Invitations for local conventions were also received from Walkerton and Elmira. The report alluded gratefully to the services of Mr. J. cow for the season of 1894 was \$65, and the lowest \$6, making an average of \$23 34, which was \$2 51 per cow less than in 1893. The amount of money any patron receives per cow depends in some measure upon the length of time the factories run and the cost of running. At the factory to which the \$65 per cow man sent, the smallest amount received was \$27 per cow, and where the \$6 per cow man sent, the largest amount received per cow was 830 04. If 184,100 be taken as the number of cows, the estimated value to natrons of the cheese made in 1894 in the district looked after by this association would be \$4,296,894. The average price paid per 100 pounds of milk to patrons in 1894 was \$73 68, ranging from 90 to 60 cents per 100 pounds. The average number of pounds of milk to make one pound of cheese was 10.76. varying from 11.45 to 10.18. There was en average of 61 1-4 tons of cheese made in each factory, ranging from 9 to 245 tons, and taking 350 as the numper of factories, would make a total of 42,875,000 pounds of cheese made in Western Ontario in 1894. The average where only labor was supplied was 38.75 cents per 100 pounds of cheese, and Zavitze; school trustee, R. Small. \$43 25 per month. The cost of manufacturing to patrons, including milk hauling, averaged \$1 99 per 100 pounds of cheese, varying from \$1 15 to \$2 50 and the average cost where milk was delivered ranged from 95 cents to \$1 50 per 100 pounds of cheese, and averaged The average cost of hauling milk was 7.6 cents, varying from 3.3 to 12 cents per 100 pounds."

There was a falling off in the number of factories using the butter-fat system of paying for milk last year. The secretary was of the that it would pay maker to do the work for nothing rather than have the system discontinued, as it will insure him a better quality of milk delivered at the factory. The returns from the factor's showed that the average number of pounds of milk to the pound of cheese in 1894 at the factories where the test was in operation, was 10.703, while the average at the factories where the pooling system was used was 10.817. These figures furnished a strong argument as to the effect the system has in keeping up the quality of the milk. Returns show that 77 per cent of the factories return the sour whey to the patrons in ors, Cole, Woods and T. Brown, the milk cans; that 15 per cent do not return any whey, and that 8 per cent do not return any whey, and that 8 per cent first deputy, I partially return it. McKenzie; having the sour whey returned, and will not run the risk of having the cheese injured by the sour whey flavor. Where the whey is not returned, everything considered, the cost of hauling milk is less. The average cost of hauling at the factories where the whey s not returned, was 6 3-5 cents per. 100 pounds of milk, while the average cost where the whey was returned was 8 3-10 cents, a difference of nearly 2 cents per 100 pounds, or about 25 per

It is also found that the average length of time the factories were in operation in 1894 was 6 1-4 months, A Better and Quieter Feeling The Miserable Conduct of the ranging from 3 1-2 to 12 months. The factories running all the year made butter during the winter. The average length of the milking season for the patrons was about 8 1-5 months, varying from 6 to 11 months. The number of factories that applied for and received visits from the inefficient inspection and instruction, and spector was not as large as in 1894. There were, however, a large percentage of applications for milk inspection that the association would be justified in refusing to inspect milk at all, and in limiting the work of its inspection to giving instruction in cheese-making only. If this were done, there is no doubt that more factories would be prices would obain. Unless the factorwould pay in 25 cents, there would be would enable this syndicate scheme to be carried out by the association. The report outlined the similar scheme in operation in Quebec, where it worked

Springing Up.

(From the New York Outlook, Lyman Abbott's Paper.) The excitement created by the Presi-

in the earlier part of the season, and heard; and that sober second thought not only insists upon the utmost detwo effects, which will by no means counterbalance its evil effects, but which will be of positive advantage to the country. Of these one is the burning of the war powder in advance of the election. Whatever capital lay in the irritation and sensitiveness which some of the Republican leaders and some of the Republican newspapers have been sedulously stirring up for months past for campaign pur poses has been entirely appropriated by President Cleveland, and, unless e are mistaken, will be entirely spent before the Presidential campaign The message will also have opens. the result of making it clear to foreign diplomatists that the people of this country are sensitive about the Monroe doctrine. That doctrine is in no sense international law, and this country is not, as Secretary Olney declarsovereign on this continent; but there is a very general and a very strong feeling that, as a policy, the Monroe doctrine must be sustained, and that, while this country is not sovereign, it holds an easy primacy on the continent, and has a right to protect its interests in that position. The sentiment of the country today, so far as it can be ascentained, reaffirms the Monroe doctrine as a national policy, but disavows entirely the belligerent spirit. The press, which just now follows, instead of leads public opinion, has been quick to recognize that its belligerent tone was too hasty and too marked, and many of the journals which were crying for war are now innocently wondering what all the excitement was about, and pluming themselves on a calmness followed the publication of the mes-

In England, on the other hand, there is a necessity for clearer knowledge of American opinion and for some modification of the English attitude in dealing with American questions. English public morals are probably, on the whole, the best in the world, but English public manners are often, as the Spectator recently confessed, remarkably bad. They are aggressive and irritating. Tne Growth of Total Abstinence.

A woman who has spent much of her time of late abroad says that it is quite astonishing to see how the principle of total abstinence has grown among fashionable prople in England, and how it has worked in a somewhat curious way, on the Continent. In Great Britain, she goes on to state, some twenty years or less ago, it was to be marked and peculiar to refuse wine at a dinner. Now, the bottles of different sorts of waters are offered one, instead, if one prefers, quite Quin Zimmer, Sep. Whittaker and Wm. as a marter of course. Throughout Europe generally she finds that the same principle results in advanced rates on the wine-cartes. The hotel-keepers urge, in extenuation of this advance in prices, that there are so many total abstainers among their English and American boarders, especially among the feminine tourists, that they cannot make any profit at all, any more, with their liquor traffic, unless they charge more than they did when wine was oftener called

How Puffs of Tupper Are Man ufactured in Britain.

Junior Tupper.

Pretending to be a Friend of Bowell, but Ready to Knife Him.

The Strikers Knew They Would be Beaten in the Country, and Went Out as a Last Resort.

Ottawa, Jan. 8.—Premier Bowell has taken advantage of the absence of his striking Cabinet associates to effect a stroke of patronage distribution, from which he was restrained while Mr. Foster, Dr. Montague and the other kickers were anxious to keep the offices till the eve of an election campaign. Today, it is said, he has appointed the following friends to the Dominion Senate, who have stood by him, as against those who have played traitors to him: John Carling, Hon. J. C. Aikens, M. M. Adams and Mr. G. B. Baker Nominally, the appointment of Sir John Carling makes a vacancy in the representation of London, but in reality the city has a member in the person of Mr. C. S. Hyman, M.P. Mr. Baker has been member for Mississquoi for some time. Judge Foster was the Foster-Montague choice for the senatorship given to Mr. Baker, and the choice now made will cause much trouble in the constituency.

.... A close personal friend of Lieutenant-Governor Chapleau, who met him in Montreal yesterday, says he has no part in the present crisis at Ottawa, and would never join the resigned Ministers' faction if he did return. His friends assert that Chapleau considers the men who resigned from the Bowell Cabinet adopted decidedly poor tactics in choosing the present time to divide the party. His friends say that Chapleau would not consent to accept a secondary position in the Cabinet, and they declare that they are satisfied that Sir Charles Tupper, sen., will not accept. Chapleau as Premier, they say, can alone prevent Mr. Laurier sweeping Quebec for the Liberals.

Dr. Montague denied today the report that he intended to charge that Clarke Wallace wrote the anonymous letters about Caron which have caused a great sensation.

Tupper's friends in Great Britain are causing to be published in English papers, ments favorable to him as successor Premier Bowell. It is easy for Tupper, a well-paid public servant to have these notices of himself circulated in England, for over there he has posed as a very big man-a much larger fellow than any one has ever considered him here-and the Canadian Government officials have been in the habit of circulating Tupper puffs of the most fulsome character. Meanwhile, everyone in Ottawa understands the anxiety of the Tupper faction to upset Premier Bowell and to erect a Tupper regime at this time. There is wide condem nation of the junior Tupper for remaining in the Cabinet, and being a party to every piece of legislation down to the hour at which he and his fellow-traitors put the knife to the throat of the aged Premier, The high commissioner, it now appears, was in the ring from the start. He came here pretending to be on official business with the Government, but he must have really known of the plot from the start, and as the conspiracy neared a head he cancelled his passage back to Great Britain. And all this time he is drawing pay from the whole people of Canada at the rate of \$20,000 a year. The treachery to Premier Bowell required to bring these even ts about is unparalleled in the annals of public life in the English-speaking world.

.... The Ottawa correspondent of the Toronto World says:

"The consensus of opinion among members of the House is that the explanation furnished by Mr. Foster is no explanation at all. It is felt that if the bolting Ministers had any ground for complaint against the Premier at all it was equally as strong last Thursday, the day of the opening of Parliament, as it was on Saturday, when they resigned. It was as strong three months ago as it was on Thursday. Here, then, is the weakness of the ex-Ministers' position. There must be some other reasons for their action and members are curious to know what these are." The reason was they were afraid to face their constituents on the programme, and wished to have a two-faced arrangement.

* * = * The same correspondent gives this interesting explanation of the action of the conspiring Ministers: "The antipathy to Sir Mackenzie Bowell is simply a pretext for resigning, and that the really gloomy outlook impelled them to their recent action. will be remembered that last session there were practically no subsidies for railways and public works. This was a matter of disappointment to many Conservative members, and since then considerable pressure has been brought to bear by several constituencies to secure an adequate dispensation of Government favors at the coming session. Moreover, the friends of the Chignecto Ship Railway are clamoring for financial assistance, and it is said that strong influence will be brought to bear to secure it.

"In the present condition of the public treasury it will be impossible to meet these numerous demands, some of which are said to be of a very perious character, and rather than meet them the bolting Ministers thought the present a good time to step out."

WILL NOT BE OPPOSED. Mr. John Dickenson, the Liberal nominee for South Wentworth, will not be opposed in the bye-election.

Emphasizes Recent Changes. The Canadian Manufacturer, an or-

gan of the high tax system, says: "Why was it that Antigonish, so long and honorably represented by Sir John Thompson, should at his death fall into the possession of an enemy of the National Policy? Why was it that Mr. Geoffrion, a staunch opponent of the National Policy, should obtain Vercheres, that had previously been held by a friend of protection? How about Jacques Cartier? Why was it that Mr. McShane should defeat Sir William Hingston in Montreal Cen-Why was it that Mr. McGillivray, a good Conservative, should have gained his election in North Ontario, a remarkably strong Conservative constituency, almost by the skin of his

Let us whisper to you. The friends of a revenue tariff and free or low taxed materials made these phenomenal gains because the people have found the trade restrictionists out. The people are really tired of the men and methods at Ottawa, and they are everywhere demanding a change. Look at the results, not only in these constituencies, but in Victoria, B. C., where a Minister of the Crown, who in 1891 was elected by a majority of 600, has now been re-elected in a byeelection by the skin of his teeth. It is in the best interests of Canada that the mismulers at Ottawa should be sent about their business. Our contemporary professes to speak for the manufacturers. Let us tell it that a the present rulers, and they, with the great mass of the people, everywhere await the opportunity to decree a change.

West Huron Election Next Tuesday.

It is satisfactory to find that in West Huron there will be a straight fight between Mr. M. C. Cameron, representing the policy of the united Liberal party, and Mr. Weismiller, of Hensall, who is the candidate of one or other of the sections of the warring Cabinet, now hopelessly split at From Mr. Weismiller's speeches, it is difficult to ascertain to which of the hostile high tax camps, arrayed against each other in Ottawa, he belongs. Indeed, Mr. Weismiller himself may even between now and election day have a new programme of his own, for he has made many sharp cuts within the last few years. In 1890, Mr. Weismiller, who had generally supported the Liberal party, went over to the Equal Righters. In the following year he ran in South Huron as an "Independent" in the Dominion election contest, and was beaten by Mr. John McMillan, M.P. When the Provincial elections came on in 1894, he came out as a straight Conservative and P. P. A. candidate, and again suffered defeat-the successful man being Mr. McLean, M.P.P. Mr. Weismiller now appears in West Huron as the candidate of a Government which is hopelessly split by the weakness of its policy, and he, too, attempts the task of riding two horses at one and the same time. He would fain have it understood that he is for the coercion of Manitoba, and in some parts of the riding his canvassers make much of the alleged plank in his platform, but in other places Mr. Weismiller says he wishes to go to Parliament unpledged to do either one thing or the other-to drift along with the wreck now trying to hold itself together there.

At one time, it was asserted, that Mr. M. C. Cameron, the Liberal candidate, would have in the field against him not only this chameleon-like opponent, but Mr. Newman, a straight P. P. A. nominee, and Mr. Forrester, a Patron. Mr. Newman held several meetings, and remained in the field till nomination day, when his withdrawal was effected. Mr. Forrester was strongly urged by many persons who seemed to be more anxious for the triumph of Mr. Weismiller and his views than for the carrying out of those reforms which the Liberals and Patrons have at heart in common, to enter the field and thus secure a triangular fight. But Mr. Forrester had in view the high tax triumph in North Ontario, which was effected solely by the running of a Patron and a Liberal against a Conservative. He noted, as all intelligent opponents of tive Patrons forsook their candidate of adding a day to February every and supported Mr. McGillivary, therevote of the Liberal Patrons of no serted not at the end of the month, kind that cures.

too, that in West Middlesex Dr. but six days earlier, forming a second Roome has, at two general elections, been returned through the fatuous course of running a Liberal and a Patron candidate, thereby dividing the forces opposed to the men in power, and letting the candidate with onehalf the votes be elected. And with a patriotism which must be appreciated by all true friends of trade freedom and economical government, Mr. Forrester resolutely declined to be the agency for securing a defeat for his principles, and refused to enter the field, as did every other West Huron

Patron approached. It is better far that the consistent friend of the riding, the veteran representative, Mr. M. C. Cameron, whose seat was filched from him in the byeelection of 1892 by most unfair means, should have the united support of every opponent of the disunited, disorganized, disgruntled Cabinet at Ottawa, and that he should be sent down to the capital with one more message that the country demands a change of men and measures, and means to have it. He has the support not only of united Liberalism, but of many former Conservatives, who believe that a term of opposition will best purge their party of the wrong-doers who have had too much to say in the running of the country in recent years. Mr. Cameron is not only sound on the trade question, but on the Manitoba school question as well. He is opposed to the coercion of Manitoba by foolishly-compiled remedial orders; but favors a thorough investigation of the whole matter by an impartial commission, and if any privileges or rights which the Manitoba Catholics had prior to 1890 have been taken from them or encroached upon by the Local Legislature acts

ous trouble. This view of the question has been expressed by Mr. Cameron at his meetings, and has been well received by the electorate. Every reader of the "Adventiser" who has a vote will be doing a patriotic deed if he polls it for Mr. M. C. Cameron, who is a stamp of man that is needed at Ottawa today. Of halfhearted, nondescript, political waverers there are already plenty at

It is mean of the Dominion Cabinet to wreck itself before the people get the chance.

Sir Mackenzie Bowell may take comfort in the assurance of the Conservative press that he is "much respected." He probably thinks that is more than can be truthfully said of some of his ex-colleagues.

Premier Bowell intends to preserve the Cabinet if he has to do the whole job himself.

It is said that Mr. Bowell has abandoned the idea of resigning from the Senate and offering for re-election in Kingston.

the present crazy-quilt combination he would have the good sense not to try. It seems that not only Mr. Foster, but his bulldozing companions in the ex-Cabinet cabal at Ottawa, have their 'moments of weakness."

A correspondent asks why this is called leap year? It is because the fourth year was introduced, provided tating humors. Sold by druggists at

sixth day. Hence arose the word bisextile, which is still retained as the name of the year in which the additional day is inserted, though now it is added at the end of the month. The name leap year refers to the fact that for a year after the insertion of the additional day, each date comes two days later in the week than it came the previous year, instead of on the following day of the week, as in the ordinary years. The dates may be said to leap over a day, and hence the

A QUARTER OF A CENTURY. It is announced that the Canada Presbyterian commenced with the 1st of January its 25th year of publication. The paper has gradually grown from small beginnings, until now it is recognized as second to no religious family journal in the Dominion. Its columns have always commanded the best talent in the large and influential denomination it so worthily represents; and for the coming year all the oldtime favorites are retained, while a number of new writers have promised to contribute to the various depart-ments of the paper. The "make-up" of the Presbyterian is simple and comprehensive. Its table of contents each week falls under the following headings, viz.: Notes of the Week, Our Contributors, Teacher and Scholar, Christian Endeavor, Pastor and People, the Family Circle, Our Young Folks, the Missionary World, Health and Household Hints, British and Foreign, along with a strong editorial page. The yearly subscription continues at \$2; any of our readers who desire rates should write the office, 5 Jordan street, Toronto.

The Humanitarian opens with a very interesting paper embodying Sir Walter Besant's views on social problems. The frontispiece is a fine portrait of Sir Walter. The editor, Victoria Woodhull Martin, contributes the fourth part of "The Pharmacy of the Soul," and C. C. Massey "Fallacies in Physi-cal Research. (London: The Humanitarian, 34 Paternoster Row.)

Frank Leslie's Pleasant Hours is full of entertaining reading for girls and boys. The latter may learn the pleasures, duties and trials of "The United States Naval Cadet" from Joseph C. Groff, and how to make and manage an ice boat from W. P. Pond, while for the girls is Miss Walworth's serial, "Three Little Heroines," and both will enjoy the Indian pony race as told in "Rising Fawn." (New York: Frank Leslie's Publishing House.)

One of the most delightful articles in this month's Century is F. Marion Crawford's "A Kaleidoscope of Rome," illustrated by A. Castaigne, which is as full of color and sparkle and odd groupings as a real kaleidoscope. Equally attractive is Thomas Janvier's 'A Feast-Day on the Rhone," pictures are by Louis Loeb. Ruth McEnery Stuart furnishes one of her characteristic sketches of rustic life "A Slender Romance," while Trumpeter of the Troop," fathered by Thos. A. Wilson, is an army episode that is full of humor. A. W. Greely writes of "Borchgrevink and Antarctic Exploration," and the subject is con-tinued in "The First Landing on the Antarctic Continent," by C. E. Borchgrevink. Some personal Indian life are given Fletcher's "Tribal Life Among Omahas." "Tom Grogan," F. Hop son Smith's story of labor troubles increases in interest; Mrs. Ward's serial, "Sir George Tressedy," languishes a little, and there is an ample install-ment of Sloan's "Life of Napoleon." G. E. Woodbury and Frank Dempster Sherman furnishes the poetry. New York: Century Publishing Company).

In McClure's for January the life of Lincoln, edited by Ida M. Tarbell, is continued and is illustrated by several portraits, a hitherto unpublished one taken in 1861 forming the frontispiece. Cleveland Moffett in "Eugene Field and His Child Friends" makes an addition to the reminiscences of well-beloved writer, which embodies some of his poems of childhood illustrated by photogravures of his little friends. "The Sun's Light," by Sir Robert Ball, alternate with a story by Anthony Hope, "The Wager of Marquis de Merosailles" and Elizabeth Stuart Phelps' autobiographical reminiscences of life in Andover. MIDDLESEX MAN ROBBED.

Mr. Brownley, of Ailsa Craig, Held Up by a Confidence Man in California

Los Angeles, Cal., Jan. 8.—A. H. Brownley, of London, Ont., formerly a jeweler at Ailsa Craig, was held up on the beach at Santa Monica, and at the point of a pistol forced to sign ten American Express Company checks for \$50 each. Brownley made the acquaintance of the man by whom he was robbed while traveling, and the two were walking on the beach when the stranger drew a pistol and demanded Brownley's money. Brownley had none but the express checks, which he was compelled to sign.

MRS. VANDERBILT'S WEDDING

To Occur Very Soon-Her Husband Will Also Wed Shortly.

New York, Jan. 8.-The Press this morning says:
Mrs. W. K. Vanderbilt told a representative of the Press that her marriage to O. H. P. Belmont would take place on Jan. 28. On the following day she and her husband will sail for Europe on the steamship Teutonic. On Jan. 22 there will be a musicale in the home of Mrs. Vanderbilt at Seventy-third street and Madison avenue. This will serve as a sort of farewell. Mrs. Vanderbilt has asked her personal friends and the friends of Mr. Belmont to be present. Madame Melba, Madame Nordica and others will sing. It was also announced at Mrs. Vanderbilt's house yesterday that after the wedding the house in Madison avenue will be practically deserted for a long time. The family will go to Europe with about three of its servants. The rest have been informed that their services will not be required after the first of next month. Mr. Vanderbilt will remain in New York until after the wedding. It is reported that then he will become the husband of Amy Bend, the daughter of Mr. Geo. After that he will take a long cruise on his steam yacht, the Valiant. He has asked to accompany him on this cruise his close frame, Fred Beach, Winnie Hoyt, Louis Webb, and probably Creighton Webb and Mr. and Mrs. James M. Waterbury. The Valiant dropped down off Stapleton, S. I., yesterday afternoon. Mr. Herit, who was on board, said that Mr.

Vanderbilt's party would board the yacht at some southern port. COLIC AND KIDNEY DIFFICULTY -Mr. J. W. Wilder, J.P., Lafargeville, N. Y., writes: "I am subject to severe attacks of Colic and Kidney difficulty, and find Parmelee's Pills afford me great relief, while all other remedies have failed. They are the best medicine I have ever used." In fact, so great is the power of this medicine to cleanse and purify, that diseases of almost every name and nature are driven from the pody.

THE GRAVITY INCREASING.

London, Jan. 8.-The gravity of the political crisis here is increasing instead of diminishing. The attitude of Emperor William towards Great Britain in the matter of Dr. Jameson's freebooting expedition into the Transvaal upon closer study seems to have been deliberate and long and carefully planned. The Transvaal incident, it

would appear, was only the pretext seized upon by the Emperor in order to enter the field as an executive opponent of Great Britain's policy of aggrandizement in Africa. It has served to incense the British to a degree not witnesed since war with Russia was threatened some years ago. To make matters worse, it is now reported that the Transvaal Republic will demand an indemnity of £500,000 (\$2,500,000) from Great Britain as one of the results of Dr. Jameson's invasion of the little Dutch republic. If this turns entertained that Emperor William, in his recent interviews with Dr. W. J. Leyds, the Secretary of State for the Transvaal, prompted this demand and may also have announced his intention of supporting it. Under these circumstances, and in view of the war preparations by land and sea now being rigorously pushed by Great Britain, it is not astonishing that there was an ominous drop in consols, which, as much as anything, is a clear indication of peace. that the gravity of the political situation is not newspaper exaggeration. Dispatches from Berlin announce that Booker, Ernest Baxter, Ruby Campbel, Bessie Dealey, Pansy Dyson, Elsie Kayser, chief of the German Colonial Office, and that further dispatches have been exchanged between Berlin and Pretoria. Great Britain is evidently determined not to be caught unprepared for war. The report that orders have been sent to Portsmouth, Devonport and Chatham for the im-

mediate commisioning of a FLYING SQUADRON OF WARSHIPS is confirmed this afternoon, and has caused a profound impression in all circles. The flying squadron is ordered to be ready for sea by Jan. 15, Tuesday next. It will consist of the

following ships: Revenge, first-class battleship of 14,-150 tons, four 67-ton guns, ten six-inch quick-firing guns, 36 smaller rapid-firing guns, 18 inches side armor;

speed, 17 1-2 knots. Royal Oak, first-class battleship of 14,150 tons, four 67-ton guns, ten sixinch quick-firing guns, 36 smaller rapid-firing guns, 18 inches of side ar-

mor; speed, 17 1-2 knots. Gibraltar, first-class steel cruiser of 7,700 tons, two 22-ton guns, ten six-inch quick-firing guns, 24 smaller quick-firing guns; speed, 19 5-10 knots.

Thesus, first-class steel cruiser of 7. 350 tons, two 22-ton guns, ten six-inch quick-firing guns, 24 smaller quick-firing guns; speed, 20 knots. Charybdis, second-class steel cruiser of 4,360 tons, seven quick-firing guns, thirteen smaller quick-firing guns;

speed, 19 5-8 knots. Hermoine, second-class steel cruiser of 4,360 tons, two six-inch quick-firing guns, seven quick-firing guns, thirteen smaller quick-firing guns; speed, 19 1-2

knots. In adition, Admiral Sir Frederick George Denham Bedford, in command of the Cape of Good Hope and West Africa station, has been ordered to proceed to Delagoa Bay on board the flagship St. George, a steel cruiser of the same tonnage and equipment as the Gibraltar, and he is now on his way there, accompanied by another cruiser, with all possible speed. The German Emperor, it appears, had

planned to land A FORCE OF GERMANS at Delagoa Bay in order to assist the Boers against the British, and only desisted from so doing when he learned Dr. Jameson's defeat and capture. This, it is claimed, is proof that his nesage to President Kruger, congratulating him upon his victory over the British, and his Majesty's reported announcement that Germany refused Transvaal, were well-weighed moves and the result of a pre-arranged polinstructed to report immediately to the Admiralty what additional steps made a very appropriate speech and are necessary to reinforce his squadron, and they will be sent to him as promptly as possible. Besides these preparations, the greatest activity is displayed at all the dockyards making RIGHT ready for a call for the commissioning of more ships as soon as needed, and the naval reserve lists are being prepared in readiness for an emergency. The military authorities no longer at-tempt to conceal the fact that they are actively pr paring for the

POSSIFILITY OF WAR. All the reg ments of the British army (army rese ve, volunteers, militia, etc.) have been ordered to make immediate returns of their strength for mobilization; but as yet no further steps in this direction have been deemed necessary. Among the volunteers and militia there is a strong feeling in favor of enrollment for active service, and on all sides the greatest enthusiasm is displayed. There seems to be a feeling here that Great Britain has endured about all she can stand in the way of studied opposition upon the part of Germany, even if the latter is backed by France and Russia, which is not considered to be by any means certain. The commanding officers of the different regiments of

volunteers have been overwhelmed with letters from men under their command, expressing the desire to be enrolled for active service.

At the War Office this afternoon it

was stated that the troops returning from India or bound for that part of the British Empire had been obliged to call at Cape Town before the crisis occurred, and all that is necessary is to instruct the commanding officers to land drafts at the Cape. It was further stated that detachments of troops are now on the way to Cape Town to relieve the troops there, and that the latter will be instructed to remain at Quoted the explanation which had been the Cape for the present, so that double forces will shortly be available at Cape Colony, besides the Indian troops on passage, which can be landed there shortly. Without desiring to be in any way sensational, it can safe-

ly be said that THE WAR SPIRIT is hovering over the British Empire, and that people of all classes are eag-erly supporting the attitude of the Government in resenting the attitude of Germany towards Great Britain. The press is unanimous in its approval of the preparations of the naval and military authorities, and the news-papers of all shades of opinion agree as to the manner in which Germany's

attitude must be met.

The Globe, for instance, says this afternoon: "There is absolutely no difference of opinion among Britons in their keen resentment of the wholly unprovoked affront put upon this proud land by Emperor William and his foolhardy councilors. Instead of working England harm with the Americans, the Emperor's insolent interference has revived the feeling of kinship, and is making easier a friendly arrangement of the Venezuelan ques-

Owen Sound, Jan. 6 .- Mr. Shipman tellshis story in the hope that he may benefit others, and says: As the result of a tumble when a boy which injured my back, I have been troubled with weak kidneys all my life. For the past year I have been a great sufferer, growing worse until a friendly druggist advised me to us Dodd's Kidney Pills. Tests of the urine snowed Diabetes and I realized my danger. I had found it impossible when tired to stand upright and at such times was drawn down sideways. In all I have used about one dozen boxes and am now hearty and healthy as ever in my life.

SENATOR SCOTT.

made in the other House byMr.Foster in which it was stated that the quarrel the dissidents was not with policy of the Conservatives, but with the capacity of the Premier. "What deduction?" asked Senator Scott. 'What is the insimuation thrown out? That the Premier of this country is not mentally capable of leading the party which he was selected to lead a year ago? I scarcely think that opinion of the people of Canada will confirm the statement made by the ex-Minister of Finance. Certainly, the universal verdict will be that the time selected for the resignation was in all respects a most extraordinary one. and a very unfair and improper one. say it is most extraordinary and is entirely without precedent. English history affords but one instance of having occurred, and that was in the reign of Charles II.; but my recoilection is that in Canada no event of a similar character has occurred, except in reference to the manner in which the late Sir Allen McNab was driven from the Premiership; but in that case the circumstances were different, and there was no striking below the belt. Sir Allen McNab had been in feeble health, and not like the Premier, who has shown extraordinary vigor in the last few months. He was not able to remain in the Chamber for any length of time, and the public press of Upper Canada and Lower Canada demanded that a change should be made. A question came up in the House, not a very important one, in which the Covernment were defeated on what was known as the double majority; that is, they were unable to command a majority of members from Upper Canada and Lower Canada, and it was made the pretext for the change, and Sir Allen McNab reluctantly was obliged to retire in consequence of four of his Ministers resigning. Though charges may from time to time be brought against Ministers, it has never in the past been charged that they could be guilty of a conspiracy against the leader of the a matter of great regret, and when the future historian of Canada comes to refer to it it will be marked with severe censure. I think, therefore, it would be very much better if the leader of the House and the Premier of this country could have given his explanation of the causes that have given out to be the case, no doubt will be nations, as proposed by Justice Harlan in rise to this extraordinary revolt himself. It is not necessary for him to be obliged to comment upon the utterances of gentlemen who have made their statements in the other Chamber. We should have preferred to hear from himself what he believes to be the causes which have led to this extraordinary action.

The Senate then adjourned until tomorrow evening at 8 o'clock.

Elliot reserved the question of a non-suit. Hodgins sued

at a recent court, but was non-suited. -The death took place about 9:30 last night at the residence, Ridout street, after an illness of about six months, of Mr. John Goulding, an old and respected resident of London township in his 70th year. He had been troubled for some time past with heart disease and died from that ailment. He was born in London township near Birr, and had resided on a farm there until about 18 months ago, when he moved to this city. His widow and three daughters survive him, viz., Mrs. A. Rowell, city; Mrs. Thos, Reeves, Ilderton, and Mrs. Frank Walton, city. Deceased was a Conservative, and one of the oldest Orangemen in the western district.

-Conrad Miller, a young shoem ker from the village of Clifford, in the county of Wellington, was before the police magistrate today on a charge of obtaining goods under false pretenses. Mr. R. F. Lacey, of this city, was the complainant. He alleges that in July, 1894, Miller wrote for some supplies, representing that he had no outstanding debts. On the strength of the representations Mr. Lacey supplied Miller with leathers and shoemakers' supplies to the extent of \$94 59. Millar subsequently assigned, and asked Lacey to accept 25 cents on the dollar. The accused elects trial by the magistrate, pleads not guilty, and will be tried tomorrow. Miller wept like a child when told that he would have to go to jail for a day. Thomas Murray, drunk, was fined \$5 or twenty days. He has a bad character. The charge of non-payment of carter's license, preferred against W. M. Waldock, was withdrawn. Angus Morri son, drunk and disorderly, was discharged. HIGHWAY ROBBERY.

James Connor, a well known farmer, of Caradoc, was stunned and robbed by an un known desperado on Monday night. He was returning home from the village of Delaware between eight and nine o'clock, and when walking his team up the hill a short distance west of the village, he was suddenly struck from behind with a club on the side of the head and rendered insensible. When he recovered consciousness he was bleeding from the would in his head. His pockets had also been rifled of \$27 50. A tramp is suspected.

FREE LIBRARY BOARD. At last night's meeting of the Free Library Board a deputation from the geological section of the Entomological Society consisting of John Law, Dr. Woolverton and Rev. Mr. Sherwood, was present and requested a room in the Library building in which to display collection and hold meetings. The board dacided to take no action at present. The board will acknowledge the receipt of the collection of specimens o minerals, rocks, etc., presented by the Geological Survey of Canada. Donations were received from Mr. Wm. Colt, of three volumes, Pitman's shorthand system; from the Educational DODD'S KIDNEY PILLS Department, catalogues for public libraries. The electric light bill for December was \$35 12, and the board will consider the advisibility of burning gas. Accounts amounting to \$131 76

were passed. THE WELLAND CANAL MISSION. The friends of the above mission will be pleased to see Mr. Bone, the veteran missionary, again in the city. He is now visiting the churches and Sunday schools and giving brief addresses, reporting the progress and prosperity of the mission and the several branches of the Tract Society's work. Personally he has made 550 visits to vessels and propellers; 227 to houses and shanties; 27 to the city market, and 90 to religious services in different places. He has also made a free distribution of literature as follows: Religious and temperance tracts, 10,230; periodicals, 3,525; booklets, 1,605; Bibles, 8; Testaments, 2; portions, 240. He has sold: Books, 149; scripture mottoes, 85; Bibles, 4. This noble mission is unsectarian and reaches a large class who are deprived by reason of their calling of the religious privileges enjoyed by others. It is sustained by the liberality of the Christian community.

Protruding Knot Wound - Entered the Body Four Inches-Bladder Injury -Kidney Disease -One Box of Dodd's Kidney Pills.

Barrie Bay, Jan. 8.-Universal interest has been taken throughout this newly settled region in the cure of Mr. Hudson, of Combermere, hunter, trapper and lumberman. Personally well known to every man, woman and child, his case, both before and since the cure, has created much talk. The accident occurred over eight years ago when he fell upon a protruding knot in such a way as to enter the body from beneath, injuring the bladder and affecting the kidneys. Speaking of his sufferings and cure, he says:

"I was confined to my bed for six weeks to commence with, have suffered from pain across the back, weakness and loss of time for over eight years.
"I have taken one box of Dodd's Kidney Pills, and since taking the first four doses have been free from pain.
"One box to me has been worth more than one hundred dollars, as only one was necessary to complete my cure.

'I have not had the least symptom of any return and am able to work as well as ever I could in my life."

World, London, Eng. Affectation is trying to make brass pas for gold. Free and easy expectoration immediately

relieves and frees the throat and lungs from viscid phlegm, and a medicine that promotes this is the best medicine to use for coughs, colds, inflammation of the lungs and all affections of the throat and chest. This is precisely what Bickle's Anti-Consumptive Syrup is a specific for, and wherever used it has given unbounded satisfaction. Children like it because it is pleasant, adults like it because it relieves and cures the disease.

In the collecting of perfumes two processes are employed. In one the grease process, boxes with glass bottoms are prepared, the bottom being covered with purse grease, or suet. and the flowers, gathered fresh every day during the season, are laid on trays in the box, the grease being left to absorb their fragrance.

Inquirer .- A person without money wishes to further his education. Please state the best way to get money by giving insurance on the person's life? State fully the manner of procuring it. Ans.-A life insurance policy is not a commercial security for a loan unless it has been several years in existence If you have such a policy the company which issued it will advance a certain amount on it. As a matter of business you cannot borrow money unless you give security. A new policy on the life of a person who may not have the means to pay a renewal premium can

City of London Disfranchised Once

Latest News About the Manitoba Cam paign.

(By telegraph from our own correspondent this afternoon.

Ottawa, Jan. S.-London has been again disfranchised and her voice stifled in the popular representative chamber. Conser vative jokes are heard in the corridors such as, "Where is London, anyway?" and the laughing reply, "Oh, in the back woods!" When Mr. Hymam was here representing London he was a leading figure in Parliament and always held the attention of the House when he spoke. In a slate of the new Liberal Cabinet, published here last evening, Mr. Hyman is given the portfolio of Minister of Customs,

The reputation of Lakehurst Institute. Oakville, for effecting cures of the alcoholic appetite does not rest upon the testimony of a few solitary individuals. Unlike any other known remedy for any known disease the treatment at Oakville produces but one uniform result, perfect freedom from the appetite, and the volume of testimony received by the management-if published without comment-would fill whole newspapers. Selections from some of the letters received are so convincing that we are content to give these, so that readers interested may get at the pith of the question in short order. -The regular meeting of the London West Council called for last night was postponed until Monday night to allow of the presentation of the auditor's report.

-Master Lorne Fortner, of South London, and Miss Mabel Portsmouth, of Delaware, have returned home from visiting relatives in Thamesford, and report having spent a very pleasant and enjoyable time. -Although the diamond crossings over both the G. T. R. and C. P. R., are just about ready for use, it may be months, owing to the demoralization at Ottawa, before the Street Railway Company secures the right to cross without pushing a horse

along with the fender. —The funeral of the late Mrs. Morgan took place yesterday afternoon from her residence, Ann street, to Mount Pleasant Cemetery, and was largely attended. Rev. Ira Smith conducted the services. The pall-bearers were Messrs. Andrew Dale, J. W. Wes-It is reported that the Premier sent tervelt, John Beardsall, George Jeffery, G. W. Stuart, and G. Griffiths.

—The city clerk, as returning officer has posted up the official returns of Monday's election. The changes from the already printed list are slight and immaterial. Ald O'Meara's total is increased by one and Ald. Wm. Heaman loses one. Slight changes are made in the votes polled by Neil Cooper, A'd. Garratt and Mr. Scarrow in ward four. Dr. Teasdall's majority as school trustee i increased by one and the majority for the Western Fair bylaw is swelled by three.

The Meteor bicycle boys enjoyed at Niagara; Mr. White, M.P., Shel-burne; Dr. Bain, M.P., Soulanges, a through the center of the city for a short time, the boys started for South London, where a call was made on Mr. R. F. McAuliffe, one of their most popular members, who has been laid up 3:10 p.m.—The end has come. Sir with a severe cold for some time. Bob Mackenzie has gone to Rideau Hadl to thanked the boys warmly for their visit, and they responded with three cheers and a tiger for him. The 'busses were then headed for the city, and a first-class supper was served at Bradford & Hodgins'. The remainder of the evening was spent in speeches and song.

—The Free Press last evening in an attempt to infer that two old-time friends were antagonistic to one another, states that Ald, Callahan on Mondy lent his aid to secure Cooper's election in No. 4 ward as against Mr. Wm. Scarrow. Both Mr. Callahan and Mr. Scarrow were in the City Hall together this morning when an "Advertiser" reporter asked Mr. Callahan if the statement was correct. He was emphatic in his contradiction and authorized the publication of a denial, saying that the whole story was entirely untrue. And Mr. Scarrow, who was standing by, added the information that Mr. Callahan had worked for him all day.

-Mr. Thomas Johnston, a well known resident of the city for a number of years, died at his residence, 72 Maitland street yesterday afternoon, aged forty-eight years. Mr. Johnston was a Scotch man by birth, and ever showed an interest in Scottish affairs in the city. He was a member of Clan Fraser, and for several terms was honored by his fellowmembers with appointments to office. He was also a member of the King Street Presbyterian Church. Mr. Johnston was a stone cutter, and succumbed to consumption. His wife died two years ago. There is still left a family of two boys and three girls. The funeral will be held to the Scotch Cemetery on Friday afternoon. -The annual entertainment of the

Adelaide Street Baptist Sunday school was held last evening in the church. An excellent tea was provided for the scholars by the parents and friends. About 30 sat down. After tea they adjourned to the church proper, where an excellent programme was given by the scholars of the school, consisting of singing by the infant class and older scholars of the school. On the platform were Rev.T. S. Johnson, pastor of the church, and Superintendent Bayley, who made a short address. The singing was led by Mr. Charles Maynard, assisted by Miss Rendell, the organist of the church. A beautiful mantelpiece, constructed of boxes filled with candies, etc., was placed on the platform. During the evening Miss L. Maynard sang a solo, the school taking up the chorus, which wase well rendered. Prizes for regular attendance were presented. The successful ones were: Mildred Moorhead, Pearl Bedggood, Sadie Richards, Lily Wil-mer, Sadie Moran, Pearl Smith, Essie Bedggood, Arthur Smith, Chas. Moor-head, F. Pierce, H. Pierce, Ed Wilmer, E. G. Bedggood, David Presson.

Catarrh in the Head is due to impure blood and cannot be cured with local applications. Hood's Sarsaparilla has cured hundreds of cases of catarrh because it purifies the blood and in this way removes the cause of the disease, It also builds up the system and prevents attacks of pneumonia, diphtheria and typhoid fever.

Hood's Pills become the favorite cathartic with everyone who tries them.

STRATHROY.

("Advertiser" Agent, J. D. Meekison.) Strathroy, Dec. 8.-A regular meeting of the Strathroy Council was held Monday evening at 7:30. Mayor Smith was in the chair and all the councilors present. The several reports from the different committees were read and confirmed. Mayor Smith was asked to leave the chair, and Dr. Berdan was elected chairman pro tem. The Doctor read a motion from Deputy Reeve Avery and Councilor Armstrong thanking the mayor for the kind and courteous treatment that the had received from his hands during 1895, and passing a hearty vote of thanks. This was very heartily endorsed by the whole Council. Mayor Smith in a few well chosen words feelingly thanked the Council, and complimented them very highly for the way they had assisted him in his work. Several of the members responded with short speeches. Upon the mayor resuming his seat, votes of thanks were tendered all of the town officials for the good work they did in 1895. This speaks well for the council of 1896. They have all worked harmoniously together and with the one end in view, the advancement and prosperity of the town.

The funeral service will be held tomorrow, at 1:30 p.m., at the above named residence, after which the remains will be conveyed to Evergreen Cemetery for interment.

Excitement ran high in our town last night over the local elections, the chief cause of which was the mayoralty contest. In wards 2 and 3 Mr. VonGunten had rolled up the handsome majority of 44, and everyone was positive that the election was his, but when it was announced from the booth of ward I that Mr. Ferguson had a majority of 59 the crowd stood amazed for a moment, and after the necessary mental reckoning had been done and it was found that the latter gentleman was elected by the narrow majority of 5 votes, a mighty cheer from his followers went up. The Foresters' band then turned out and serenaded all the councilors who had been elected, and it was nearly 12 o'clock when the usual peace and quiet was restored.

STRUCK DOWN.

I am the son of a British officer and was born at Niagara. I followed the trade of shoe-making until the confinement and continual sitting posture began to tell on me, which was fully 20 years ago. Since then, up to 1886, my life was one of constant pain and misery. At first the pain was like a gnawing sensation over the bladder; becoming worse, it passed up the spine to the kidneys, causing intense suffering, so that I have often fallen to the ground in an agony of pain, perfectly helpless. I have been confined to my bed for weeks and could not urinate without using a catheter. I was never well and had to abandon my trade.

I tried local physicians, a specialist at Detroit, electric belts, shocks, patent medicines, etc., without relief, and felt that death would be a deliverance. At last happening to see an advertisement of Doan's Kidney Pills, I sent and got a box, and the immediate relief I experienced was astonishing. I kept on taking them and soon found I was cured. The ago nizing pain stopped and has never returned The cure has been sure and lasting, and I am glad to let the world know it. I travel up and down the country a great deal and have seen many equally bad cases cured by these pills. A. H. FLETCHER, Kingsville, Ont.

THE HYAMSES.

Toronto, Jan. 8 .- The Hyams case was esumed yesteday before Magistrate Denison at the police court. Dr. Temple testified as to the health of Mrs. Hyams, who is at present in his private hospital, and whom, it is alleged, the prisoners conspired to murder during the month of December, 1894, and January, 1895. The doctor said that Mrs. Hyams was still very weak physically, and was not in a proper condition to be brought into court. It was decided to take Mrs. Hyams' evidence at the hospital. The prisoners, at their own request, will not be obliged to be present.

"I Have Had Rheumatism for years, and Nerviline is the only remedy that has done me any good." So writes Thomas McGlashan, North Pelham, July 24, 1890, and his testimony is supported by thousands of others who have experienced the wonderfully penetrating and pain subduing power of Nerviline—the great nerve pain cure. Nerviline is just as good to take as to rub on, and is the best family remedy in the world. Nerviline is sold by dealers everywhere.

Prevents ent that somewhere in life, whether in learning or one of the sterner avocations, there was a prize for each pupil: He quoted Hon. George W. Ross as mentioning punctuuality, regularity and attention as the tree gave avenues to success, and he added three others, which he assured his hearers were just as potent in leading to prosperity. They were perseverance, industry and obedience. Without the last it was impossible to succeed in any calling. Mr. Murphy created a storm of applause by referring to the London high school as the leading collegiate institute in North America. In conclusion, he tendered the line "Learn to labor and to wait," from Longfellow's "Psalm of Life," as an appropriate motto to be taken to heart by

the children. Mayor Little received a perfect ovation. Before presenting the medals, he took the opportunity of stating the pride he felt in the school. He agreed with Mr. Murphy, and not only was the school a credit to the city, but a credit to the Province. He had very little idea of the number of pupils attending the school. He had a sort of hazy notion that they had a large number of pupils, but he almost felt puzzled in standing before such a large He was not in the habit of addressing such an audience, but was more than delighted to see so many happy faces, so many healthy facesand so many good-looking faces. (Applause.) He did not come to advise or lecture—he was sure they got enough of that in school. (Laughter.) Proceeding, the mayor complimented the much better than that observed at the school he attended, or even at the Sunday school with which he was connected in his youth. (Laughter.) To the maxims laid down by the former speaker he added maxims laid down by the former speaker he added another—"Aim at being transparently honest and truth-Then the mayor told how a sneak ful." was despised in business. Employers did not mind their hands having a little quiet fun, but they disliked to see them making a big pretense at working as soon as the boss appeared on the scene. The characteristic of absolute truthfulness combined with per-severance, regularity and obedience, was certain to bring success, no matter in what line of life their lot might be

"The late Mr. Wm. Robinson, the donor of the medals which are to be presented here today, was born in Ireland in the year 1812, and came to Burford, Canada, in 1833," said the "In the spring of 1839 he came to London, and remained about two years. He then went to Toronto and Montreal, returning to London in 1853. In the year 1857 he was appointed city engineer, and held that office for over 21 years. He resigned after the com-pletion of the waterworks in 1878, and from that time until his death in 1894 lived a comparatively retired life. He was in the front rank of his profession. and whilst quiet and unassuming in

his manner, enjoyed the respect of all parties. He was of unimpeachable integrity, scrupulously honest and conscientious even in the smallest mat-ters. I mention these facts because I am sure you will all appreciate the value of medals the gift of such a

After reading the conditions laid down in the will, the mayor called for Miss Minnie Cripps, and, amid the applause of the school, presented he with the first medal for being the most industrious pupil in the institute. The mayor said that Principal Merchant had informed him that the recognition was well merited.

and rather humorous speech, presented Miss Jessie Anderson, with the Mc-Robert medal, for standing highest at the recent entrance examination in the fourth ward. Miss Anderson was also presented by Dr. Campbell with the Boyle memorial medal for her high standing in the same examination. Trustee Greenlees presented Arthur Woods with his modal, while Trustee Logan did a similar favor for Drewe Jarvis, who won the Governor-General's medal, for passing highest in the city. Trustee Sanders made a short address, and called on Albert Powe, but the lad has since removed to Manitoulin Island. Trustee Wilkins presented Charles Christy with his medal, and Trustee Stephenson brought the proceedings to a close by conferring a similar honor upon Miss Gertie Arm-After a few closing remarks by the chairman, the classes were dismissed.
