# ● INTRODUCTION ●

We give below in tabular view the number of individual names in the alphabetical directory, showing a total of 6,483 or an increase over last year of 393 names.

It is usual for directory publishers to estimate the population by multiplying the number of names in the directory by 3. This method of computation gives for Kingston a population of 19,449.

There are 771 individual names in the five suburban villiages given in this book which by the same method gives a population of 2,343 for suburbs, or for city and suburbs 21,762.

KINGSTON  
**Street Directory.**

The occupation is given in the Street Directory only at the place of business: This is done, 1st, to distinguish a residence from a place of business; and 2nd, because the occupation can be given much more fully in the alphabetical than in the Street Directory, the latter being merely a plan of the streets showing the relative position of the buildings.

S. E. for side entrance is used in the Street Directory to show that the building in question faces the cross street.
