### BRITISH RETAIN ALL GAINS RECORDED IN YESTERDAY'S SWEEPING OFFENSIVE

**FOE HAS NO SPIRIT FOR THE FIGHT**  
Disheartened by British Vigor, Germans Surrender By Hundreds.  
**DEALT HEAVY BLOWS**  
Full Extent of Yesterday's Disaster to Teutons Unknown.

By Courier Leased Wire  
London, Oct. 5.—Via Reuter's Ottawa agency.—Telegraphing last evening from British headquarters, Reuter's correspondent says:  
"To-day is already being proclaimed one of our greatest victories since the Marne, and it really seems as if the battle, which has rolled onward across the Meuse ridges has gone brilliantly. The Germans are scattered and shaken, prisoners are streaming back in hundreds, many of them without a sign of fighting, but a large proportion of the wounded are officers, all are depressed and agree that it has been a disastrous day for Germany. Never have our troops fought more superbly."  
"South of the main roads where only a short advance was intended, our objectives were reached at an early hour. North of the road the English battalions carried the heights of Polderhoek and Polderhoek Plateau, where sharp fighting occurred and drove the enemy from numerous farms and small woods."  
"The German line was broken. Australian troops captured Molenaersdorp and cleared the houses on the Zennebeke-Broodsseinde road. The Germans took Gravenstafel and on their left other English battalions continued the line of advance and reached the outskirts of Poelcapelle. Within a short time of the opening of the assault our first objectives had been gained on the whole front of attack."  
"The advance against our final objectives was carried out in accordance with the plan and was attended by equal success. English troops took the villages of Reutel and Noordenhoek and the high ground overlooking Beelaere. Australian regiments captured Broodsseinde and established themselves well over the crest of the ridge five miles east of Ypres, which gives observation eastward. On the left of our attack English troops carried the greater part of Poelcapelle village and secured the line of their objectives east of Poelcapelle church."  
"The whole of our objectives had been captured before mid-day. Information obtained from prisoners and confirmed by identifications of German units and by the numbers of German dead established the fact that our attack anticipated by a few minutes an attack in force by five German divisions against our front from Polygon wood to Zonnebeker."

**CANUCKS GIVE TUNG TASTE OF THEIR OWN GAS**  
Pumped Chemical Vapor Into Lens in Large Quantities To-day.  
**ENEMY RETALIATION**  
Red Cross Work at Front of Invaluable Benefits to Men.

By Courier Leased Wire  
Canadian Headquarters in France. Via London, Oct. 4.—(By Stewart Lyon, special correspondent of the Canadian Press).—Gas in considerable volume was again projected into Lens this morning. The enemy retaliation took the form of trench mortar activity, but this was not long maintained. The artillery duel still continues and the Germans use high velocity guns in the bombardment of the area behind the front.  
Behind the German lines one of our aircraft took on a large party of the enemy engaged in loading ammunition at a camp. The aircraft swooped down from a considerable height, firing as they came with both forward and aft guns. The enemy took cover, but not before some casualty had been inflicted.  
Similar encounters between the army and the troops on the ground are more numerous than they formerly were.  
The coming national Red Cross subscription campaign in Canada has aroused great interest here where the Red Cross work can be seen at close range during every spell of active fighting, and all the time in the casualty clearing stations and hospitals. Red Cross supplies are not intended to take the place of army medical issues, but to supplement them in such a way as to give the surgeons the best possible facilities for their work and the wounded a better chance of recovery.  
The problem of light in the advanced dressing stations, for example, was a serious one. Most of these dressing stations are underground or in locations where at night candles or lamps give poor illumination for their work and operations on which hang the issue of life or death. The Red Cross is installing in all the Canadian advanced dressing stations, portable electric plants with a capacity of fifty three candle power lights and hand lamps will be available and by their use wounds can be explored and treated much more quickly than heretofore.  
Another excellent bit of work recently done by the Canadian Red Cross Society has been in connection with poison gas treatment. It was discovered that a certain treatment involving the use of a special kind of baths and clothing was the best remedy. Within four hours after it had been decided by the medical officials of the Canadian corps to carry this, a large number of baths and an ample supply of necessary chemicals and clothing were en route from the Red Cross base to the advanced dressing stations. These supplies were used to treat gas casualties and they reduced the number of serious cases to a remarkable degree.  
Still another thoughtful bit of Red Cross work is the provision of extras for the battalion medical officers during their period in the front line. With every surgeon a package goes containing drugs to lessen the pain when the men are hard hit, tablets for which coffee or cocoa can be made quickly, and for the wounded insect powder and many other essentials for trench efficiency. These comfort packages have saved many lives and much suffering.  
The Canadian Red Cross not only ministers to the need of the men at the front and in hospitals, but devotes special attention to the rest camps and provides comforts there that makes the lot of the men easier and hastens the time of their recovery. The French are also cared for by the Canadian Red Cross, which at present spending \$200,000 on a model hospital in the rear, where a unit of the Canadian Army Medical Corps will be stationed, and a branch store house assists in providing Canadian supplies to the French military hospitals all along the front.  
The Canadian people cannot find a better outlet for their sympathy and their voluntary contributions than to aid the Red Cross work under the flag of the allied nations.

**VILLAGES TAKEN BY BRITISH**  
All Gains Held After Yesterday's Victory, Despite Foe Counter Attacks.  
**ENEMY FORESTALLED**  
Haig's Forces Launched Drive an Hour Ahead of Hun Plans.

By Courier Leased Wire  
London, Oct. 5.—The villages of Reutel and Noordenhoek were captured by English troops who also secured the high ground overlooking Beelaere, east of Ypres. Australian regiments took the village of Broodsseinde and established themselves well over the ridge five miles east of Ypres.  
**BEAT FOE TO IT.**  
London, Oct. 5.—(Via Reuter's Ottawa agency).—Reuter's correspondent at the British army headquarters in Flanders telegraphs Thursday afternoon:  
"No less than five divisions were brought into position by the Germans for a big attack to recover Zonnebeker Ridge and this we forestalled. It is stated that their attack was fixed for seven o'clock. Our was launched an hour earlier, and this was the enemy's undoing. Our terrible curtain of fire swept over the assembled masses of German assault divisions. The slaughter was decidedly the worst of the war. Fresh and blood were unable to continue to face such an ordeal, and when our attacking waves advanced, the Germans in many places, were already bolting like dazed rabbits. The answer of our walking wounded to the question whether they saw any bodies was the almost stereotyped one, 'only their backs, unless wounded.'  
"The Germans are now being driven beyond the zone of their long prepared positions, with the result that they have to depend more upon men and less upon protective works in our advance. As a consequence of this development of open warfare, the fighting is becoming cleaner, that is, there is more of the hot-line and element and less chemical frightfulness."  
**HOLD GAINS.**  
London, Oct. 5.—The Germans have undertaken no further advance.

**SCOUND SEAS FOR RAIDER**  
U. S. Launches Hunt for Two Pirates in South Pacific  
**RAIDERS AT LARGE**  
Manned by Crew of Notorious Commerce Destroyer See Adler.

By Courier Leased Wire  
Washington, Oct. 5.—With definite information of the presence of two German sea raiders in the South Pacific Ocean, announced in dispatches from Samoa to the Navy Department, a hunt for the commerce destroyers has been set in motion.  
The two raiders are named by the crew of the famous See Adler, which made her way last year from Germany through the Allies' patrol into the Atlantic, around South America, preying on shipping, and thence to the South Pacific, where she stranded on Mopeha Island, and had to be abandoned. The See Adler destroyed three American sailing ships, the schooners A. B. Johnson, Manila and C. Slade, in the South Pacific. When she stranded, the See Adler had aboard twenty-five men and 17 native prisoners who, with the crew, reached shore in safety.  
Part of the See Adler's crew came to see again in a paper sloop armed with machine guns, bombs and two months' supplies. Early in September, the French schooner Lutèce arrived at Mopeha, from Tahiti and was seized by the remaining members of the See Adler's crew, who put to sea Sept. 5. The prisoners were left on the island to shift for themselves, and the See Adler's crew was taken to the island in an open boat and reached Samoa September 29, where the crew of the sea raiders was made known to the American naval authorities.  
The number of the raiders' victims, beyond the four mentioned in the dispatches from Samoa cannot be ascertained.

**HAIG'S MEN HAD IT ALL THEIR WAY**  
Enemy Resistance Was Disputed Along Entire Line of Advance.  
**GERMAN MORALE GONE**  
Enemy Attacks in Champagne Region Repulsed by the French.

By Courier Leased Wire  
British soldiers now are entrenched on the crest of most of the high ground in the famous Ypres salient as a result of tremendous blows given the Germans yesterday on an eight mile front, east and northeast of Ypres. Driven from the high ground, the Germans now will be forced to go up hill against the British, while the British artillery throws shell after shell upon the German defenses and lines of communication.  
Field Marshal Haig's latest stroke surprised his adversaries as they were about to renew their attacks against him. The British barrage mowed the masses of Germans down and those that remained were annihilated in the rush of the British troops. At no point along the attacking front was the German resistance very great, although the British had difficulty in overcoming concrete redoubts, bristling with machine guns.  
The villages of Reutel, Noordenhoek, Poelcapelle, Molenaersdorp, Broodsseinde and Gravenstafel were captured in their entirety and the greater part of Poelcapelle was taken. From here they can bombard the British established themselves well over the crest of the ridge, five miles east of Ypres.  
In addition to the loss of positions of great importance, the Germans sustained very heavy casualties as a result of the British barrage fire. More than 3,000 German prisoners were taken, half of them being wounded.  
The German losses were so severe that Crown Prince Rupprecht attempted only a few counter-attacks. These were broken up easily.

**ACCUSATIONS OF TREACHERY AGAINST MALVY**  
Former French Minister of Interior Charged With Betraying Country.  
**DEPUTIES AROUSED**  
Leon Daudet to Be Compelled to Substantiate Charges.

By Courier Leased Wire  
Paris, Oct. 5.—Today's edition of L'Action Française has been seized by the government. Its editor is Leon Daudet, whose charges against Louis J. Malvy, former minister of the interior, caused a sensation in the chamber of deputies yesterday.  
The charges made against Malvy by Daudet were denied by the former minister of the interior, in his statement in the Chamber of Deputies yesterday. M. Malvy announced that he had been slanderously accused of abusing his position as a minister to betray the country. He said that M. Daudet had called on Andre Maginot, then minister for the colonies, and accused Malvy in the presence of Maginot of going every week to Vauresson, a suburb of Paris, to meet a German agent. M. Malvy said he had never been to Vauresson. M. Maginot arose and explained that when Daudet visited him he had declared himself absolutely sure of the information he produced.  
Declaring that he wished to put an end to the "Almeryda legend," M. Malvy said he had never been on intimate terms with the editor of the Bonnet Rouge. He explained that as minister of the interior, he was anxious to preserve order without resorting to violence. For that purpose he obtained the cooperation of The Bonnet Rouge, which seemed to exert some influence in certain circles. A year later, he said, his suspicions were aroused regarding The Bonnet Rouge, and he reported the matter to M. Briand, who was then premier.  
M. Briand arose and said that towards the end of 1916 he noticed symptoms of a general campaign in certain newspapers. He used the censorship in acting against them, and gave M. Malvy certain information he had on the new tendency of The Bonnet Rouge. He said he charged M. Malvy to watch the men connected with The Bonnet Rouge.  
"I know he had them watched," said the former premier. "I must declare that M. Malvy, far from hating, gave orders to smite with the greatest severity."  
M. Malvy defended his conduct during the strikes in May and June and amid noisy confusion accused the press of the Right campaigning against him. He concluded:  
"My conscience tells me I have done all my duty. I shall continue any task in the ranks of my friends."  
Premier Painleve asked the Chamber to let justice accomplish its duty. He promised the Chamber that M. Daudet would have to prove his charges contained in the letter to President Poincaré. The Chamber then voted confidence in the government.  
**Must Submit Proof**  
Paris, Oct. 5.—The Chamber of Deputies, which resumed the sessions at 6.20 o'clock last night, discussed the Bolo interpellation, after which M. Painleve said that M. Daudet would be heard by an investigating magistrate on his accusations against M. Malvy, and that justice would take its regular course.  
The Chamber demanded immediate action on M. Daudet's accusation, and M. Painleve declared that if within 48 hours Daudet had not proved his charges, severe measures would be taken against him.  
**RESIDENCE FOR PREMIER**  
By Courier Leased Wire  
London, Oct. 5.—It is announced that Sir Arthur Hamilton Lee, director of general food production, has offered his 1,500-acre Chequers Court Estate in Bucks, to be used and maintained in perpetuity as the official country residence of British prime ministers. David Lloyd George, the Prime Minister, in a letter in answer to the offer of Sir Arthur approves the plan, and has authorized the donor of the estate to take whatever steps are necessary to bring the trust into existence. The premier adds that he will attend a private meeting of the trustees appointed to care for the estate.

**UNEQUALLED TRIUMPH OF THREE YEARS**  
Developments Establish Yesterday's Drive as Among War's Greatest.  
**BODY BLOW DEALT FOE**  
British Penetrated far Into Teuton Lines on a Wide Front.

By Courier Leased Wire  
British Front in France and Belgium, Oct. 4.—(Delayed).—By the Associated Press.—British arms to-day achieved one of the greatest victories of the war in a tremendous assault begun at dawn against the German positions east and northeast of Ypres. Indeed, when the whole story of this battle has been told, it may take its place as unequalled triumph of three years of conflict, for each successive report from the seething cauldron along this front adds to the importance of the success recorded.  
Still Advancing  
From a point near the Ypres-Staden railway on the north, to the Ypres-Meun highway on the south, the men of the British empire have surged forward with an irresistible force which at some places carried them to a depth of 2,500 yards over still more of the German stone positions in the Passchendaele-Hebutel ridge system of defence. On the northern wing of the advance, the British have reached Poelcapelle and Gravenstafel, and have over-run most of the Gravenstafel ridge, which juts out to the west from the Passchendaele-Hebutel ridge. Some of the British troops are reported to be overlooking the eastern slopes of the main ridge, and in some places to have pushed on into the valley below. Not only have the British wringed away many vital strongholds, but they have inflicted almost unprecedented casualties on the enemy.  
As the attacking troops went out in quest of a great adventure over the mist shrouded slopes, their vast protective artillery barrage caught in its merciless swirl large numbers of the enemy who, by coincidence, also had been massing for an early morning attack along a wide front extending from the neighborhood of Zonnebeker to the Polygon wood. Some five divisions of German troops were involved, three of these having been rushed in to reserve to support their comrades in the front lines when the German attack should begin.  
A solid wall of breaking shells plowed through them in a hurricane of death, and they lie in countless thousands amid the devastation that the barrage left in its wake. Part of these ill-fated troops were the famous Guardsmen, in whom the German emperor had taken such pride in the days gone by. But the smash troops were not the only ones to suffer, for reports from prisoners all along the line indicate that the Germans lost heavily throughout the territory involved.  
At many places, Germans ran

## KERENSKY DEFIES DEMOCRATIC CONGRESS BY FORMING NEW CABINET

### Will Announce Coalition Ministry Today, Disregarding Demand of Congress That it Sanction Such Action—State of War Declared in Turkestan

Petrograd, Oct. 4.—Premier Kerensky's reply to the demand of the Democratic Congress that no step toward naming a cabinet be made without the sanction of the convention was a notification that before another day expired he would announce the personnel of a new coalition ministry, which already had been chosen. This announcement was made to M. Tseretelli, of the main committee of the congress.  
Late to-night, after a lengthy session of the present cabinet and others scheduled to occupy portfolios in the new one, the following unofficial slate was announced.  
Premier, A. F. Kerensky; Minister of foreign affairs, M. I. Terestchenko; Minister of the interior, M. Nikitin; Minister of agriculture, M. Masloff; Minister of labor, M. Szebietoff; Minister of supplies, M. Prokopovitch; Minister of finance, Berratsky; Minister of religious, M. Kortsheff; Minister of public welfare, M. Kishin; Minister of trade and industry, A. I. Konovaloff; State controller, M. Smymoff; Minister of Justice, M. Malayanovitch; Minister of education, M. Salaskin; President of communal council, M. Trestyaskoff; Minister of war, General Verkhovak; Minister of marine, Admiral Vedevsky.  
The Constitutional Democratic party against the Democratic Congress has been in opposition is represented by Kishkin, Konovaloff and Smymoff. The portfolios of foreign affairs, war, marine and interior remain unchanged.

By Courier Leased Wire  
Petrograd, Oct. 4.—(Delayed).—The democratic convention by a vote of 839 to 106 has passed a resolution declaring that it is indispensable to constitute a strong revolutionary authority which would follow the program of the Moscow conference of last August and would carry out an active policy tending to the realization of a general peace.  
The convention directed the main committee to choose five of its members to draft a scheme for forming

such authority. The resolution was prepared by the committee representing all the parties in the convention and set forth the views and principles agreed to by a majority of the conference. The resolution was submitted to the congress by H. Tseretelli, former cabinet minister.  
**State of War**  
Petrograd, Oct. 4.—The government has declared a state of war in Turkestan, where revolution movements broke out early this week. The situation appeared to be becoming normal when it suddenly flared up again. As a protest against

the sending of a punitive expedition, the Council of Workmen and Soldiers' Delegates in Toškent, the capital, has proclaimed a general strike.  
**Saved From Siberia**  
Petrograd, Oct. 5.—The provisional government has decided to permit General Soukhomlinoff, the former minister of war, who was convicted of treason last week, to serve his term in the St. Peter and St. Paul prison, instead of Siberia. The general's wife pleaded that if he were sent to Siberia an attempt might be made to murder him.

# CAN'T HAVE GUN UNTIL AFTER WAR

### Brantford, in Common With Other Cities, Must Wait For Trophy.

Brantford will not receive the German gun that was captured by the 4th battalion, at least, until the conclusion of the war. This information was contained in a letter received this morning by His Worship Mayor Bowly from the Dominion archivist. The letter read as follows:—

Ottawa, October 3, 1917.

Dear Sir,  
In answer to your letter of Sept. 29th addressed to the Minister of Militia, I beg to say that the question of trophies captured by Canadian battalions has been discussed with the British authorities and it has been decided that all such captured guns in existence at the close of the war will be shipped to Canada. I may say that several guns captured by Canadians were in good order and some of them have been taken over by the Admiralty to arm merchant vessels; each gun, however, bears a number and is duly registered at the War Office. An officer has been appointed by the Canadian Government as a member of the committee of the National War Museum in England, and all applications for trophies are lodged with him through this department. The only German field gun captured at Vimy Ridge, which has been brought to this country, is one that is quite unserviceable. It is now in Ottawa. It is not probable that any more trophies will be shipped from England for some time, but every effort is being made to secure a large number of objects for distribution after the war.

Yours truly,  
A. DOUGHTY,  
Deputy Minister.

### MICHAELS TO REPLY

By Courier Leased Wire  
London, Oct. 5.—The German vice-chancellor, Dr. Karl Helfferich, is quoted in an Exchange Telegraph despatch from Copenhagen to the effect that Chancellor Michaelis will reply on Saturday to the Socialist interpellation regarding assistance said to have been given by the German authorities in the dissemination of pan-German propaganda.

### SOLDIERS' VOTES.

By Courier Leased Wire  
Ottawa, Ont., Oct. 5.—Major Wilford P. Furney, president of the Great War Veterans' Association of Canada, a barrister of Liverpool, N.S., has been appointed assistant clerk of the Crown in Chancery in connection with the Military Voters' Act. He went overseas with the 25th Battalion and was wounded and invalided home. He will leave immediately for London to arrange for taking the soldiers' votes.  
The different camps in England where Canadians are located will be divided and military officers secured to preside at the election.

THE SITUATION.

"Completely successful," is the description of General Haig with regard to the latest British drive east of Ypres. The advance has been over a front of eight miles and they now have possession of just about all of the Ridge for the domination of the Plains of Flanders. The number of prisoners taken is thus far over three thousand.

In addition to proving the eyes for the combative forces aeroplanes are more and more accomplishing direct offensive work. Tons of explosives have been dropped by the allied machines on military points, and the word is manifestly also soon to be uttered for them to make reprisals in answer to the murderous visits of German machines to the Old Land. In Washington yesterday Secretary of War Baker made the official announcement that twenty thousand planes were now in process of manufacture, and also the necessary motors and machine guns with which they will be out-fitted.

Meanwhile the handling of the submarine menace would seem to be getting much better in hand and a high official of the British Admiralty is responsible for the statement that more German undersea craft have been sunk during the past three months than during any similar period.

AT OTTAWA All the Capital to-day Premier Borden is meeting several Western Liberals in conference. These include Premier A. L. Sifton and Hon. C. W. Mitchell, of Alberta, Hon. James A. Calder of Saskatchewan, Hon. A. B. Hudson and T. A. Crearer of Manitoba and Premier H. S. Brewster of British Columbia. The object is to see on what basis if any, Liberal leaders from the Prairie Provinces would join a fusion government.

Parliament has been dissolved and writs for an election must shortly be issued so that the complete cabinet must be known. There are those who hold the view that Sir Wilfrid Laurier in offering to be relieved of the Liberal leadership has had the design of bringing matters to a head as far as he is personally concerned.

ATTENDING FUNERAL

Mr. Chas. Roth is in Buffalo to-day attending the funeral of his brother, F. J. Roth, who died suddenly at his home there Thursday.

LET NO ELIGIBLES CROSS

Instructions have been received from Ottawa by the Sanita Immigration staff to the effect that no permits to leave Canada will be issued to any male person, single or widowed, between the ages of 20 and 34 years inclusive until such person has been examined by the medical board now sitting at the armories here.

MOVE FOR INJUNCTION

On Wednesday of this week at Osquode Hall, A. M. Harlev, of this city and G. L. Staunton, K.C., solicitors for the Dominion Natural Gas Company, moved for an injunction restraining the National Natural Gas Company from selling gas to anyone except the plaintiffs, except in a certain area. Motion was enlarged to trial at the next Hamilton non-jury sittings.

BUILD NEW STAND

The bicycle dealers of this city are certainly energetic workers. Yesterday afternoon they visited Agricultural Park and erected a special grandstand, providing a better view of the races, the present stands not being situated right for this purpose.

EVENING CLASSES

The industrial evening classes at the Collegiate Institute will re-open on October 10, pupils registering then and on the two succeeding nights. The commercial classes re-open a week later, October 17. Competent teaching staffs have been engaged in both departments, and the classes present unequalled facilities for all desirous of learning subjects of practical every day use.

VITAL STATISTICS

The monthly returns of vital statistics as issued by the Provincial Department of Public Health, show a considerable decrease in the number of deaths from diphtheria during the last month, when only four deaths were reported, as compared with September, 1916, when 11 citizens of the province succumbed to the disease. There is also a marked decrease in deaths from tuberculosis, with 20 deaths reported during the month just passed, as compared with 36 during September of 1916.

An extra pair of glasses is needed in case of emergency (when you break your everyday pair) and an extra pair is desirable for formal or "dress-up" occasions. We have the latest styles in glasses.

**GREATEST VICTORY SINCE THE MARNE RECORDED YESTERDAY**

**British Attack, Launched on Eight Mile Front, Gained all Objectives; Over 3000 Captives Already Taken in Drive**

British Headquarters in France, Oct. 4.—There was an unusual feature in the battle near Ypres. Three German divisions had been ordered to retake the line the British captured here last week. The attack was set for six o'clock. The Germans were caught in the British barrage as they were preparing to push forward, and lost grievously. Once before, in August, around Lens, the British and Germans planned an attack at the same hour, and Canadian troops going over the top and advancing quickly, came upon masses of Germans moving toward them in the thick haze, and a few minutes later the Germans were making their last stand on the parapet of their trenches.

London, Oct. 4.—The anticipated renewal of Field Marshal Haig's big offensive in Flanders has begun, and all the objectives of the first day have been won and held. Like the preceding attacks the latest one was timed to the minute. The British forces at the given signal at daylight swarmed from their trenches over ground that had been harrowed by myriads of shells from the great array of artillery, and all along the front of more than eight miles, from south of Tower Hamlets to the north of Langemarck, they made notable new gains of terrain, inflicted heavy casualties on the Germans while themselves suffering slight losses, and took many prisoners. Large numbers of whom gladly surrendered to the British. The Reuter correspondent at

**SALTS IF BACKACHE AND KIDNEYS HURT**  
Stop Eating Meat for a While if Your Bladder is Troubling You.  
When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water seals and you are obliged to seek relief two or three times during the night.  
Either consult a good, reliable physician at once or get from your

pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.  
Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

QUEBEC CITY HAS GONE DRY

Prohibition Carried After Bitter Fight by Nearly 3,000 Majority.

TRY MONTREAL NEXT Influence and Example of Clergy Went Long Way to Secure Victory.

Quebec, Oct. 4.—Quebec city has gone dry. By a majority of close to three thousand prohibition was carried to-day after the bitterest fight this city has seen in years.

No political campaign, even in the bitterest contests, took on the gait of the present struggle of bar licenses against total prohibition, and on both sides every sort of argument was brought into play.

Montreal Next Point of Attack The victory of the prohibition movement in Quebec city is no mean step towards a general prohibition movement throughout the entire province, and it is a known fact that now that Quebec city has gone dry, Montreal will be the next tower to be butted by the prohibitionists.

Up to a few weeks ago, in fact, no one in Quebec expected this prohibition move to be set afoot, for only last spring the Quebec Legislators received delegations of the clergy and various temperance workers' unions that demanded a decrease in the number of licensed bars and dealers here, and all their demands were granted by the Government.

In Effect Next May. The present prohibition law goes into effect only next May, so that for seven more months Quebec will keep its forty bars and seventy licensed grocers.

Income Tax. Many citizens liable for income tax are not acquainted with the particulars of their assessment, and much confusion results, states city assessor A. G. Ludlow.

VETERANS. Two returned veterans, S. Hayhurst, 1 Blossie street, and A. J. Sharples, arrived in the city yesterday afternoon about four o'clock on the Grand Trunk, and were met and given a civic reception at the station by representatives of the Soldiers' Aid Commission.

MILK INSPECTION. Dr. Devereaux has completed the fall inspection of the milk vendors' premises of the city.

REFUDIATE CANDIDACY. By Courier Leased Wire New York, Oct. 5.—The candidacy of William M. Bennett, a former State Senator for Mayor of New York on the Republican ticket, was repudiated last night by the Republican county committee of New York county by a vote of 245 to 222.

TEMPORARY SCHOOL FOR EAGLE PLACE

Board of Education Fighting to Overcome School Congestion.

SITUATION BETTER Overcrowding at Alexandra Relieved by Use of Dwelling.

School accommodation is still a burning question in Brantford, but action taken by the board of education last night will go far to alleviate the congestion now prevailing.

E.C.I. Attendance High The report of Principal Burt showed an attendance at the Collegiate Institute during September of 503, out of a total enrollment of 526.

Public Schools The report of Inspector Kilmer showed the attendance at the various public schools to be as follows: The At. Av. At. P. C. Central . . . . . 34 29.6 88.2

Kindergarten, Primary, Central . . . . . 34 296.6 88.2 Alexandria . . . . . 35 33.0 94.0

New Classroom. H. B. Charlton was appointed Janitor of Alexandra school, succeeding A. J. Knightly, whose resignation was accepted.

Temporary School. The buildings and grounds committee, in the matter of obtaining additional accommodation, suggested the erection of temporary, or portable schools, as used in Toronto and elsewhere.

Inspector Kilmer reported upon the system in vogue in Toronto, where wooden structures of two class rooms each, were used, being equipped with ample and satisfactory lighting and heating systems, although the ventilation was not perfect.

Mr. Coubeck suggested establishment of class rooms in the other buildings purchased by the board adjacent to Alexandra school.

Mr. Lane laid stress upon the immediate necessity of a new school, declaring that many children in the eastern section of the city were unable to attend school at the present time owing to lack of accommodation.

At the present time, Mr. Kilmer advised, in response to a query by Mr. Coubeck, a number of pupils have been refused admission to the lower classes of the public school.

Mr. Lane demanded immediate action in order to alleviate the situation. The erection of a new school at once was impracticable, owing to financial conditions and the pressure of time, and he accordingly favored the erection of a temporary building at King Edward school.

Mr. Shepperson characterized such discussion as "sitting sand," and demanded concrete action.

Brantford Men Made Brantford

Many cities boast of their natural advantages in location, natural facilities and other material things—but the greatest factor in the making of Brantford has been in its Men.

The products of the brain and brawn of Brantford men scattered world wide, proclaims this fact. Men do not come into prominence and efficiency by accident.

The Genius of The Y. M. C. A. is to Make Men

The Brantford Y. M. C. A. in half a century has made a big contribution to the making of men. A prominent manufacturer said: "So long as the Y. M. C. A. produces such boys as . . . . . (an employee) I will back them."

A group of Business Men in a certain district are calling on returned soldiers—helping them in their problems and to find the way back into business life. "Give me Godly men" said a man in high position.

Brantford's Men of To-morrow

Brantford's future will call for more and better men. Brantford needs the boys who have not had early advantages—helped to places of leadership by the varied Y. M. C. A. agencies.

Brantford and Canada need big men to face war conditions and the re-construction period after the war. No institution can better assist in that task by body building, mental development and stimulating life's duties than the Y. M. C. A.

That is Why Brantford Men WILL Give \$45,000 to the Semi-Centennial Fund Campaign --- Oct. 9th to 12th

MUST INCREASE RATE.

To City Assessor A. G. Ludlow it seems inevitable that the tax rate for next year will be increased a few mills.

MARKET GOOD.

During the past three months there has been considerable improvement in the condition of the market and the produce offered for sale there, according to Market Inspector R. W. Devereaux's report for the months of July, August and September.

COAL QUESTION.

That the city council take action in regulating the price and distribution of coal during the coming winter, is the effect of a resolution passed at a meeting of the Trades and Labor Council on Wednesday night.

## FLYING CORPS STATION

Telegram is Received by Mayor Bowlby in the Matter.

While it is practically settled that the Royal Flying Corps will locate a training station and build an aerodrome in this county near Brantford, such a course is extremely probable. Two engineer officers of the R. F. C. were in the city yesterday, and in company with representatives from the city engineer's department, looked over a probable site a short distance from the city on the Paris road.

About four hundred acres of land will be required for the station, and an ideal site is located in Brant County. The soil on this property is sandy, and of such quality that the rainwater filters quickly through. Only indefinite particulars are available yet, until some decided action has been determined upon, but it is admitted that the Brant County site is the best.

Mayor Bowlby pointed out this morning that the situation now contemplated is most excellent from all viewpoints. It is such that the best railway connections and facilities could be available. The Grand Trunk, Lake Erie and Northern and Brantford and Paris railways all being within easy reach of the site. The first intimation that was received locally that Brantford had been selected as the probable site of an aerodrome, was contained in a telegram received by Mayor Bowlby on Wednesday afternoon that reads as follows:

His Worship the Mayor, Brantford, Ont.  
Two engineer officers of the Royal Flying Corps will call at your office 10.30 a.m. Thursday, October 4th with view of obtaining information as to possible aerodrome sites in your locality. Would be obliged if you arranged that they meet one of your engineer officials who is familiar with the district.

## UNEQUELLED

Continued from page one in terror, or were captured. In large numbers the British attack began. All day long broken prisoners have been pouring into the British cages in the rear. Perhaps half of them were women and some were with shattered limbs, a pitiful sight even to those hardened to such scenes.

Making the best use of the trench, the Germans offered weak resistance to the British advance this morning. But despite the heavy blow dealt to the enemy, it was not considered probable that they would make strenuous counter-attacks as soon as they could reform their shattered forces.

The story of to-day's fighting is that of perfect organization which worked with clock-like precision. It was still dusk when the British saw the steam roller advance for low-hanging clouds blanketed the country and a light drizzle was falling. For days an intense excitement had been maintained over the German front, but the artillery fire which opened as the great barrage dropped was appalling. Guns of all calibres, from enormous howitzers to light field guns, joined in the infernal thunder which shook the countryside like an earthquake.

Solid lines of vivid fire belched from the earth and from the murky sky above as the great shells and shrapnel burst along the German lines. The ruins of the little hamlets perched on the ridges stood out in ghostly silhouette against the flashes, and over the whole scene the clouds threw back a crimson glow.

On the left of the advance the ground in the region of Poelcapelle was not in bad condition, except along the Strombeek river, where it was very marshy, necessitating a slow advance. The tanks operating with the troops here did not offer strong resistance. The British were within reach of the town by 10.30 o'clock. Meantime others were making their way over Abraham Heights, near Gravenstafel. There was some cellular fighting here, but it was brief. The main trouble was encountered near the fort where the Germans had eight strong concrete redoubts. Sharp fighting followed, but the Germans finally were forced, with rifles and bombs, to surrender. Both Poelcapelle and Gravenstafel are masses of ruins. The latest reports show the British have swarmed over virtually all of Gravenstafel Ridge.

South of the Ypres road, a narrow way, which cuts the Passchendaele-Gheluvelt arm joins it, the British were on the crest of the ridge or beyond it throughout the remainder of its length. They had little trouble in pushing it. There was a brief battle near Molesnaerhoek, across road, which were fortified. Just north of here the Germans held a farm, from which they poured heavy machine gun fire into the British ranks until the place was subdued.

Continued from page one in Langemark resulted in severe fighting, but it was unable to drive our troops from the positions they had gained. Later in the afternoon three other unsuccessful counter-attacks were made by the enemy.

The weather which, during our preparations for the attack, gave promise of continuing favorable, yesterday became less settled. The wind increased steadily last night and throughout the battle had blown strongly from the west, at times with the force of a gale and had been accompanied by storms of rain. These adverse conditions added to the difficulty of the advance and to the work of our airmen. Notwithstanding this our aircraft performed valuable work and afforded useful information from time to time, both regarding the positions of our own troops and the assembly of the enemy for counter-attacks.

"The assault was delivered by English, Australian and New Zealand divisions. Included among the British troops were battalions from two divisions of the British Expeditionary Force. There were also two battalions from Scotland, Ireland and Wales. At all points rapid progress was made from the start. The enemy's losses throughout the whole fighting have been exceedingly heavy, being greatly increased by the unusual number of German troops on the battle front in the opening of the attack. Our casualties have been light. In addition to a prisoner taken, we also captured a few guns and much other war material."

The enemy attempted without success several surprise attacks during the night, especially in Champagne, east of the Butte de Souain and in Upper Alsace near Wasbach. "There was violent artillery actions on the right bank of the Meuse in the region of Bezonvaux and Hill 254."

## SCOUR SEAS FOR CLERGYMAN AND DOCTOR DUELLED?

By Courier Leased Wire Russellville, Alb. Oct. 4.—Dr. Tom Hughes, prominent physician and surgeon and Rev. J. F. Terry, pastor of the Methodist Church, both of this city, were found last night near here, the former dead and the latter dying from gun shot wounds. Dr. Hughes had been shot in the forehead with a shot gun. He was also wounded in other parts of the body. His entire right hand was shot off as if he had thrown his hand toward the shot from the face.

Mr. Terry was still alive when parties who had hurried to the scene searched here, but he made no statement. He had been shot through the lungs twice with an automatic pistol. When asked if he and Dr. Hughes had quarrelled, Mr. Terry shook his head negatively. According to the police, when asked if he shot Dr. Hughes he answered "yes" but not defining his head and if Hughes had shot him he answered "yes" again. The two men had left here only half an hour earlier for Rockwood, seven miles south of here, where they frequently went together on hunting trips.

## ROBERT SNOW

Is Arrested in Montreal. He Escaped from Brantford Goal a Year Ago.

Robert Snow, alias William Smith, one of the American desperadoes who escaped from the county goal here a year ago after severely manhandling the late Governor L. H. Brown and Gaoler Cook, was arrested yesterday in Montreal and taken to Ottawa. Chief Sleight was notified this morning of the arrest, and arrangements will probably be made to bring the fugitive back to Brantford.

On the morning of October the 10th, 1916, about half past six, J. L. Cook took in breakfast to Snow and his companion, Joseph Harris, who were awaiting trial for horse stealing in the county of Oxford. As he was about to leave the corridor, and while the Governor was holding open the door for him to do so, the two thieves threw themselves upon the unsuspecting official. The Gaoler was struck a terrific blow in the face, hurled across the room and locked in. Simultaneously the other prisoner caught Mr. Brown, threw him to the ground and knocked his head against the cement floor until he had rendered him unconscious. The culprit then made good their escape through the Governor's house. They took an easterly direction and soon after were pursued by a posse in charge of the sheriff.

Snow, alias Smith was run down that afternoon after a long chase, in a field near Caledonia, the farmers of that district assisting in the chase. He was committed for trial at the autumn assizes, where he was sentenced to a term at Guelph Prison Farm. He later escaped from that institution by again appropriating a horse and since then nothing further has been heard of him until this morning when the welcome news was received that he had been apprehended in Montreal.

The highest ambition of a major league ball player is to participate in the world's series games and win. The same holds true of the umpire. In a certain sense, however, the work of the umpire is a sinecure compared with that of the players. In a way the title games are the easiest contests of the year to umpire. Discipline is never so strict as in the world's series. The appointment of Rigger and Klem from the National and O'Loughlin and Evans of the American League, reveals an interesting story in world's series umpiring. This quartet of arbiters has officiated in two previous series, and this will make their fourth in six years. It is a veteran quartet, O'Loughlin being the dean of the four. "Silk" was one of the officials in the series between the Cubs and Sox back in 1906, the only title game ever decided between the clubs in the same city. Klem's first appearance as world's series official was in 1908, in the series when Chicago won from Detroit. Evans was initiated in the series in 1909, when Pittsburgh beat Detroit. Rigger appeared on the scene a year later when the Athletics vanquished the hitherto invincible Cubs. This quartet first officiated in the classic between the Giants and Red Sox in 1912, when the latter copped in an eight-game series. Three years later the same arbiters rendered a faultless service in the series in which the Phillies met defeat at the hands of the Red Sox. In the series of 1913, which the Athletics terminated the Giants four games out of five, Rigger and Klem were paired as the National League representatives.

By a remote kind of figuring it might be deduced that the forthcoming world's grapple between the White Sox and Giants will be something of a test between the stars of the old Federal League and those of the American League. Four former members of the "outlaw" circuit will be in action against the White Sox but not a Federal graces the roster the National Commission approved for the Sox. Fred Anderson, Benny Kauff, and Bill Rariden were three of the big guns in the old circuit. Jimmy Smith also did some ball playing when Jim Gilmore was in baseball, but didn't class with the trio. Since last spring this trio of ex-Federal has done as much as any other trio to boost the Giants into a pennant. Anderson's work has been not only efficient but efficient. Rariden has held the brunt of the catching and Kauff's hitting almost kicked the Giants into a pennant. It is not further help for it has been his consistency and nerve that won crucial contests. Comparisons between Federal League players and those in the National and American Leagues used to be common, but now that the ex-Federal have done noble duty in the National they're booked to show in American League competition.

Charles A. Comiskey, "the noblest Roman of them all," has been interested actively in seven pennant winners and two world's champions during his long career on the diamond and with the diamond artists. His career has been a long and successful one, and when the White Sox nailed the pennant to the mast a few days ago Comiskey doubtless was one of the happiest men in Chicago. His one ambition, ever since 1906, was to have another pennant winner, and he has spent a fortune in ball players to realize this dream. His present collection of stars is one of the highest-priced and most expensive in baseball. They did what he expected of them, and now he is satisfied. Comiskey is just as popular in St. Louis as in Chicago, and it is understood that hundreds of fans from the Mound City have made reservations for world series tickets at the South Side Park, that they might be present to root for this diamond celebrity and magnate.

While a member of the Browns Comiskey had the distinction of bringing five pennants and one world's championship to St. Louis. His feat of winning pennants for four successive seasons has not been duplicated in the big leagues. McGraw and Chance won pennants in the National League three years in succession, and each failed miserably in his fourth attempt. Detroit was the only team in the American League to win three successive flags, but, unlike the Cubs and Giants, failed to win a world series. Comiskey won pennants for St. Louis in 1888-89-90 and beat the old Chicago team in 1886 for the world's title taking four out of six games. Capt. Anson led the Cubs in the days when he and Comiskey were the great baseball rivals. It was Ted Sullivan who discovered Comiskey in Dubuque. He took him to Milwaukee, where he played his first professional ball for \$50

per month. In 1880 Comiskey went back to Dubuque, and was there in 1881. In 1882 he joined the Browns as a centre fielder. He asked to be shifted to first base "Home Run" Oscar Walker was sent to centre field. Comiskey remained with the Browns until 1890, when he became captain, manager and first baseman of the Chicago Brotherhood club. In 1891 he was back in St. Louis. In 1892-93-94 Comiskey was captain, manager, and first baseman of the Cincinnati Reds. In 1895-96-97 he was captain, manager and first baseman of the Chicago Western Association club. From 1900 until the present day he has been owner and president of the Chicago White Sox.

Mental attitude will go far toward deciding the world series this year and the matter of temperament will play an important part. Never before have two such high-strung, nervous and exceedingly erratic baseball teams been pitted against each other, and brain storms at critical stages should be a common occurrence. On their good days, both the White Sox and the Giants seem unbeatable, but on an off day they look like a couple of ham teams in a Class ZZ league. Let us hope both teams do not have an off day on the same afternoon. The Giants this season have experienced two periods of clearly defined contrasts. Looking over the dope, we find that up to the second western trip in June, they played in flashes, but when they took the road the most effective pennant hitters were put in. This was the time Muggsy McGraw got in bad and suffered a sixteen days' suspension for slugging Umpire Byron on the jaw. It looked bad for the expensive ball club at that juncture, but Charley Herzog jumped into the breach, and the winning stride was resumed. New York took the lead and never was headed. The hitting was effective and timely and the base running was done with good judgment. The fielding was all that could be desired, and the men played together without the usual internal scrap. It was a return of the spirit which carried them through 26 straight victories last year, and gave the players the confidence they seemed to have lost. Then came the sudden change which almost drove the fans frantic. The club came home hailed as conquering heroes and started to play inferior baseball. Instead of trying to play a scientific game, the men attempted to knock the cover off the ball and showed a distinct deterioration. They weren't within 25 per cent. of the same team. Perhaps this was due to overconfidence which breeds carelessness, but it gives us another angle on which to base the dope. No team in recent years has had in it the ability to rise to greater heights than this year's Giants. They are of potential greatness, but very uncertain. Taking it altogether, you can analyze individually and collectively, and now until doomsday, but no amount of analysis can foresee whether a team will be at its best or its worst in the post-season series. The only thing to figure on is this: Which team will be the tenser, the tighter, the more overwrought, and therefore the less likely to play its normal game? Or will they be equally afflicted or neither afflicted? All of which brings us back to the mental

attitude stuff. That seems to be the most important thing to be considered.

BRITISH JOINED BY ARAB FORCES

Junction Effected With Gen. Maxwell's Troops MOVE ON JERUSALEM Speedy Concerted Action by the Combined Forces is Expected.

New York, Oct. 5.—Interesting military possibilities in Palestine are forecasted in advices from Mecca, as reported in Arabic newspapers reaching New York, to the effect that the Arabs in Arabia, in revolt against the Turks, have effected a junction with the British army in Southern Palestine.

The Arab revolt was making increased headway when the latest British official statement regarding it, issued on August 22, reported its progress. The King of the Hedjaz, as the new head of the Arabian revolution is styled, was then declared to be conducting military operations on a comprehensive and well-thought-out scale, and to have definitely attached his cause to that of the allies. Already a considerable section of the Medjaz railway, running parallel with the Red Sea coast northward from Medina, had fallen under Arab control.

The current advices state that this railway is now controlled by the Arabs as far north as Maan, about 70 miles north-east of Akaba, at the head of the Gulf of Akaba, on the easterly side of the Sinai peninsula.

It is pointed out that the reported Arab junction with the British, whose advance in Palestine is now in the vicinity of Gaza, apparently has proved of notable importance as regards the occupation of Syria. With the close of the hot, rainless summer, campaigning is again possible and the Turks apparently will have to cope, not only with the British on the south and west, but the Arabs on the south and east. A speedy report of concerted action by the combined forces is forecast in the advices.

Kirkland Lake Gold:—Kirkland Lake, Ont.—The central shaft at the Kirkland Lake Gold property is now 22 feet under and has reached a depth of about 22 feet. The new shaft is being sunk closer to the centre of the McKean claim and a few feet south of the main vein which dips slightly to the south. This vein will ultimately come into the working at depth, as the dip is said to be about ten feet to the horizontal. The main working at depth to the east boundary of this claim and has reached a depth of over 700 feet. At the 400-foot level a drift on the vein was run towards the west centre of the claims and proved the ore body to persist the full 600 feet of the drift, with good ore showing in the face throughout at this point. It is therefore fully expected that this ore body will be encountered by the working to be known as the central shaft. The connection of these two workings will greatly improve the ventilation of the mine. Excavating for the foundations of the new 150-ton mill is well under way.

## THE LIBRARY INSTITUTE

### First of its Kind Was Held in Brantford Ten Years Ago, While This City is Today the Scene of Similar Gathering

The following paper was read this afternoon by E. D. Henwood before the Library Institute meeting in the Conservatory of Music.

The 14th of July, 1907, just ten years ago, the Public Library Institute was organized, the first meeting being held in the Brantford Public Library.

Through the influence of the Executive of the Ontario Library Association, backed by the Inspector of Public Libraries, the late T. W. H. Leavitt, the Ontario Legislature made a small additional grant to the association. On account of this the executive of the association decided to hold a Library Institute meeting at some convenient centre. In 1907 Brantford had been chosen as the meeting place for the executive of the Ontario Library Association, and in view of this Mr. Leavitt came up and asked if we would hold the institute meeting here on the same date that the executive meeting was to take place. It was thought to be an excellent opportunity of organizing a Library Institute for this district.

The matter was brought to the attention of our Library Board, and on motion of his Honor Judge Hardy and the Ven. Archdeacon MacKenzie, the following resolution was passed: "That this board heartily approves of a Library Institute meeting being held in Brantford in July next in connection with the meeting of the Ontario Library Association executive, and that this board will assist in the organization and furthering of such a meeting."

A special committee of the Ontario Library Association, consisting of Norman Gurd, E.C.L., of Sarnia; E. A. Hardy, B.A., of Toronto; and A. W. Cameron, of Streetsville, was appointed. This committee in conjunction with our local committee, immediately began work under the direction of the Librarian of the Brantford Public Library.

The institute meeting proved to be an unequalled success, and was of great value to all those who attended it. Delegates were present from Chatham, Streetsville, Kitchener, Toronto, Sarnia, St. Catharines, Simcoe, Tillsonburg, Ottawa, Drumbo, Scotland, Tavelock, Galt, Paris, Jarvis, New Durham, Haspel, Dundas, St. George, Stratford and Hamilton.

Morning, afternoon and evening sessions were held. Mr. Norman Gurd, president of the Ontario Library Association, called the meeting to order and read an excellent paper on "Co-operation in Library Work." Papers were also read by A. W. Cameron, E. A. Hardy, and the subject "What a Small Library Has Accomplished." E. A. Hardy, B.A., of Toronto, on "The Selection and Purchase of Books."

The permanent Library Institute for the Brantford District was organized to include the counties of Brant, Oxford, Wentworth and Norfolk, with the following officers: Dr. E. E. Kitchen, St. George, president; E. D. Henwood, Brantford, secretary; the executive, Dr. Steele, Tavistock; Wm. Imrie, Tillsonburg; Rev. Mr. Clark, Drumbo; Miss Jack-

### "VERY GOOD EDDIE."

The patrons of the Grand Opera House will no doubt be pleased to learn that they will have an opportunity of seeing Marbury-Comstock Company's delightful musical comedy, "Very Good Eddie," shortly. Manager Whitaker will have this musical gem for his attraction on Tuesday evening, October 9th. The reason for the success of "Very Good Eddie" is several fold. In the first place it has a plot which founded on the successful farce, "Over Night," is good enough to stand alone. In the second place it has a blithe and gummy score that is punctuated by tunes that have been danced to or ukuleled for a long time melodies that are stirring. Thirdly, it is presented by a cast full of snap and vigor.

### "THE LOVE OF A KING."

No actor who visits Canada has a larger following than Albert Brown, and he will be doubly welcome in a part which will enable him to show the higher order of acting. Such a part he has in "The Love of a King," which will be presented at the Grand Opera House on Saturday, October 6th, matinee and night. The play is from the pen of Paul Kester, whose famous niece, "When Knighthood Was in Flower," secured an enormous success a few years ago. Mr. Kester has chosen for his romantic theme the love story of George, Prince of Wales (laterwards George III.), and the lovely Guinevere, Hannah Lightfoot. Though the plot is historic, it is handled in the easiest and most appealing way. In every respect it should prove refreshing after the long list of crook plays and rough farces with which the stage has been deluged. Mr. Brown himself has a superb opportunity and rises to the occasion at every point. Prominent in a carefully selected cast are the beautiful young actress, Lenore Phelps, who in the role of Guinevere will stamp herself as a permanent favorite with the Canadian public.

### WEAK BOYS AND GIRLS

It is a mistake to think that anemia is only a girl's complaint. Girls probably show the effect of weak waters, though more plainly than boys. The signs are, a pale face, listless, headache, palpitation, and a feeling of listlessness, call attention to weak blood in the case of girls. But many boys, too, have pale faces, they are "weedy," and have pimples on their face, showing that they have not enough blood. The anemic boy is just as likely to become a victim of consumption as the pale, breathless girl with her headaches and worn-out look. Let the boy in this condition catch cold and he will lose his strength and his health becomes precarious.

To prevent serious disaster to those of the rising generation, let both boys and girls be given the new rich blood which Dr. Williams' Pink Pills are famous the world over for making. When given these pills watch how soon the appetite returns and how the indolent girl or the weak boy becomes full of activity and high spirits. Remember that the boy has to develop, too, if he is to make a strong, hearty man. Give both the boys and girls a fair chance to develop strongly through the new, rich blood Dr. Williams' Pink Pills actually make. You will see active boys and girls, instead of weakly children scold you.

Dr. Williams' Pink Pills are sold by all medicine dealers or may be obtained by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

### MYSTERIOUS DEATH.

By Courier Leased Wire  
Montreal, Oct. 5.—Mystery surrounds the sudden death of a man, whose name is either William Day or William DeCourcy, who was found dead in his room yesterday at his boarding house at 69 St. George street. The man had several letters in his pockets addressed some to Dan and some to DeCourcy, general delivery, Toronto, none of them revealing anything concerning the man. Yesterday morning he failed to get up at his usual hour and at noon the landlady found him dead.

By Courier Leased Wire  
Winnipeg, Oct. 5.—Private Billy McKenzie, of Winnipeg, a member of the Royal Flying Corps, scored a well deserved victory over Gus Bloom, of Minneapolis, here last night after twelve slashing rounds.

### TWO KILLED.

By Courier Leased Wire  
Halifax, N.S., Oct. 4.—Two of an automobile party of five were dashed to death of Haze Hill, near Canso, N.S., Tuesday night while returning from a wedding at Guysboro. Percy Boutillier and Will Hart were the victims of the accident, while Mrs. Boutillier and two other lady occupants of the car escaped without injury.

**EARLY DAYS OF YALE UNIVERSITY**

Some Quaint Laws of the College Reproduced.

Play Acting and Religious Neglect Punished.  
No Marriage or "Damnifying" College Fence.

(By James B. Carrington, in the New York Sun).

Nothing could be written that would throw more light upon life at Yale in the early days than the quaint "laws," a copy of which every student of the college received in 1774 as a certificate of matriculation. On the back of each pamphlet, printed in a type with the quaint old-style long s's, was written the name of the student, certified by the steward, to whom he had duly given bond for the proper payment of his dues, and there appeared as well the names of the president and several tutors.

Life at Yale in the old days was evidently taken very seriously, by the administration at least, and the boys must have had a pretty hard time to live up to requirements. The laws are quaint in phrasing and full interest as a reflex of the spirit that dominated the teaching of youth in those days. The paper of the copy from which the following paragraphs are taken is yellow with age, and the ink with which the signatures of the learned professors were written has grown faint with time.

It bears the name of an old grad's great-grandfather, a preacher and a patriot who shouldered a musket and went out to the French and Indian wars. The old grad himself marched only a few years ago with the class of '45, still vigorous in his old age, and a rooter for Yale whenever opportunity offered. The certificate, for that is what it amounted to, lay for years in the garret of a certain New England home, as old as itself, and was only recently rescued from a lot of other "old things not worth saving."

The fear of God and a close regard for morality were quite as, if not more, essential than scholarship in 1774. One can't help wondering what the learned and pious President Era Stiles, who signed this document, and his tutors would think of a modern game of football and the celebration attending a victory. The college authorities were pretty good business men evidently, and took few chances with their young men.

SIR WILFRID LAURIER. Who as stated on his own initiative expressed his desire to retire from the leadership of the Liberal party.

every instance of Absence, without a sufficient Reason, i.e., when any one shall come in after the President or go out before him. "If any student shall profane the Lord Day by unnecessary Business, Diversion, or walking abroad, or shall admit any other student or Stranger into his Chamber, or on the preceding or following Evening, shall make any indecent noise or Disturbance, or shall behave indecently or profanely at the Time of public Worship, or at Prayers in the Chapel, he may be punished by Admonition, or otherwise, as the Nature and Demerit of the Crime shall require."

College was a serious business and the student was expected to keep busy and apply himself diligently to the work in hand. "If any Student shall very frequently neglect the public Exercises aforesaid, or perform them very flippantly, or if he be frequently absent from public Papers, or from his Chamber in studying Time, or spend the Main of his Time, in Sloth and Idleness, he shall be punished by Fine, Admonition, the having some extraordinary Exercises appointed him, or by Dismissal from College, as the Nature and Degree of the Crime shall require."

Getting married while still in college incurred dismissal. "Whereas the Marriage State is very ungracious with a State of Purgatory in this college, it is ordered, that if any Undergraduate shall contract Matrimony, he shall be dismissed from College."

A regular moral behaviour was well provided for in the following and must have kept some of the young fellows guessing: "If any Scholar shall be guilty of a profane Oath or Vow, of Profanity, of contemptuous refractory Carriage towards his Superiors; of Fighting, Striking, Quarrelling, Challenging, turbulent Words or Behaviour, Drunkenness, Lasciviousness, Wearing Women's Apparel, Fraud, Injustice, Idleness, Lying, Defamation, or any such like Crime, he shall be punished by Fine, Admonition, Rustication, or even Expulsion, as the Nature and Circumstances of the Crime may require."

The spiritual welfare of the young men was carefully looked after, as witness the paragraphs dealing with "the spiritual and religious life." "All the Scholars are required to live in a religious and blameless Life according to the Rules of God's Word, diligently reading the Holy Scriptures, that Fountain of Divine Light and Truth, and constantly attending all the Duties of Religion." The President, or in his Absence, one of the Tutors, in their Turn, shall constantly pray in the Chapel every Morning and Evening and read a Chapter, or some suitable Portion of Scripture, unless a Sermon or some Theological Discourse shall then be delivered. And every Member of College is obliged to attend upon the Penalty of one Penny for

rum, wine or any other strong drink, he may be fined not exceeding the value of the drink brought in or otherwise punished as he shall deserve."

It was very bad form to "damnify" anything about the college buildings.

"If any scholar shall damnify the college house, grounds, fence or any thing belonging to college, he shall be fined a shilling, and make good the damages; and if the crime be repeated, shall pay double damages."

Play acting or going to the theater was a risky business and likely to cost more than it was worth.

"If any scholar shall anywhere act a comedy or a tragedy, he shall be fined three shillings, one shilling if he be caught at the acting of one; and if in acting he shall put on women's apparel, he shall be publicly admonished."

The good citizens of New Haven were carefully prosecuted for their familiarity upon the part of the students.

"All the students are required to behave inoffensively and blamelessly towards the inhabitants of New Haven, not needlessly frequenting their houses or interesting themselves in any of their controversies; and upon complaint of any injury done by a scholar to a town dweller, or to another scholar, the president, with the advice of the tutors, shall give judgment and order restitution to be made, and if any scholar shall refuse so to do, he shall be publicly admonished and if he shall obstinately persist therein, he shall be expelled."

Freshmen must have had a rather strenuous life with the upper class men.

"Every freshman is obliged to do any proper errand or message, re- quired of him by any one in an upper class, which if he shall refuse to do he shall be punished. Provided in any study time no graduate may send a freshman out of college yard, or any undergraduate send him anywhere at all without liberty first obtained of the president or tutor."

The cost of an education in 1773 was somewhat less than in the year 1917.

Towards the End of every Quarter, the Steward shall write out a Bill containing the several quarters' dues payable by each Student, with a Duplicate thereof, viz.:  
For Tuition ..... 0 9 0  
For Study Rent ..... 0 1 2  
For Repairs and various charges ..... 0 1 0  
For Cellar Rent ..... 0 1 4

Together with the Sums charged for broken Glass and other damages done, as also fines, commons, and provisions signed by the graduated students are exempted from Tuition and contingent charges, and the Steward shall show both these bills to the President, which being approved by him and one of the Tutors, shall be signed by the President; one of which the President shall deliver to the Steward, and keep the other himself, together with the Bond signed by the Steward acknowledging his receipt of the bill, and that he will be accountable to the President, and Fellows for the whole sum therein contained. The Steward shall collect all the money contained in the Quarter Bills, and two pounds ten-shillings of the Butler, and also seven shillings and six pence for the maintenance of every one that takes a degree, and shall pay out the whole sum of the money according to orders given by the President and Fellows.

The money mentioned in these laws is to be understood to be sterling, i. e., good and lawful money of England."

If the students old Yale were anything like those of to-day the butler must have worked overtime. "The Butler is allowed to sell in the Buttery Order, Metherlin, Strong Beer, not exceeding twenty barrels a year, and such like necessities for the scholars which are not sold by the Steward in the kitchen; nor may any scholar buy Cyder or Strong Beer anywhere else but in the Buttery; the Butler observing the President's Orders in selling these things, for which privilege he shall pay fifty shillings into the College Treasury, and also provide candles as they shall be needed in the Chapel at prayers and on other occasions."

Books taken from the Library were to be read, not edited and annotated:

"Whoever shall take a book out of the Library, shall make good all Damages done to it, and shall be punished for every word wrote by him in the Book, at the discretion of the President or one of the Tutors."

Freshmen were freshmen, even in those pious days, and required watching and rules framed for their special suppression and edification:

"If any freshman near the time of commencement shall fire the great guns, or give or promise any money, counsel or assistance towards their being fired; or shall illuminate college with candles either on the inside or outside of the windows, or exhibit any such kind of show, or dig or scrape the college yard otherwise than with the liberty and according to the directions of the president, in the manner formerly practised, or run in the college yard in company, they shall be deprived the privileges of sending freshmen three months after the end of the year. And if any at commencement time shall make a great noise or disturbance, or exhibit any unusual snow, they shall be punished by the president and fellows at their discretion."

The strong religious work of inating and inspiring throughout these old laws and every member of the faculty was performed a professed Christian.

Everyone who shall be chosen president of this college, a fellow, or professor, or tutor, before he enters upon his public business, shall publicly in the chapel declare his assent to the confession of faith, and ecclesiastical discipline received by the churches of this colony, and established by the laws of this government."

There is certainly sincerity of

Phraseology in these old laws. They give a strong impression of the earnestness and high motives of the men who did so much to build enduring fame for the Yale of to-day. Much of the spirit of Old Eli has apparently survived in spite of the differences in modern life and the purposes of the college as an institution—if not all of the old moral force—are pretty much the same now as in 1774.

**CONSTRUCTION HIGH Point Reached While Aerial Campaign Will Not Affect REPRISALS ADOPTED**

**Britain Now Fully Prepared for Aerial War on Germany.**

London, Oct. 5.—England's impending retaliation for the German air raids is the main feature of the London papers, made conspicuous with big headlines. There is no opposition expressed, even in quarters where the reprisals have been deprecated in the past, while elsewhere the decision is welcomed with enthusiasm.  
It is asserted that the Government's decision does not indicate any sudden change in policy, the matter having long been under consideration, and that acquiescence to the popular demand is in no wise implied. The apparent delay in adopting the policy of retaliation was due, it is said, to considerations of construction and the necessity of keeping the requirements of the army on the western front supplied.  
War planes of every type can now be produced by the allies in far greater numbers than by the enemy, and it is asserted that the allies are fully equipped to carry on aggressive air warfare on a great scale.

**The Total Casualties**  
At a meeting here last night, which received messages from various organizations and mayors throughout the country, a resolution was carried demanding one responsible head of the air service, adequate defence against raids and sufficient machines both at the front and for a great air offensive. Joseph Hicks proposed machines with a speed of 250 instead of as at present, 150 miles per hour, would be able to ascend higher than twenty thousand feet, the present breathing limit, and out of range of the guns, using a special breathing apparatus, and also able to carry a considerable weight of bombs. He asked the following question, the answer of which cannot at the moment be confirmed: "Last week the London official casualties were 52 killed and 257 injured. Do you know what the total casualties of the civilian population of Britain from air invasion to date are greater than the whole casualties of the civilian population of Belgium during the invasion?"

Winnipeg, Oct. 5.—The sentence of death on Oscar Robitoux, convicted of the murder of Henri Roch, and sentenced to be hanged on October 17, has been commuted to life imprisonment.

**ATTEMPTED BURGLARY.**  
Toronto, Oct. 5.—Tempted by the sight of a display collection of bills in the window of E. G. Templeton, drugist, a man thief heaved a stone through the window. The sound, however, awakened the drugist. In an effort to grasp a hand which he saw stuck through the opening made by the stone, Templeton fell headlong through the window. Although bleeding profusely he chased the thief, who, however, made good his getaway.

**SICK, SOUR, STOMACH INDIGESTION OR GAS**

Take "Pape's Diapesin" and in five minutes you'll wonder what became of misery in stomach.  
Wonder what ailed your stomach— which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; heavy dizzy and aches; belch gases and acids and grating undigested "food" breath foul, tongue coated—just take a little Pape's Diapesin and in five minutes you wonder what became of the indigestion and distress. Millions of men and women today know that it is needless to have a bad stomach. A little Diapesin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.  
If your stomach doesn't take care of your liberal limit without rebellion if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapesin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.

**TWO LIBERALS ENTER CABINET**

Hugh Guthrie Becomes Solicitor-General of Win-the-War Ministry.

Ottawa, Oct. 3.—C. C. Ballantyne, of Montreal, a Liberal prominent in commercial circles in Montreal, was sworn in as Minister of Public Works for Canada to-day, and the first step toward the realization of the Prime Minister's desire to reconstruct his Cabinet on the basis of a union of the war parties in the country was taken. A second such step will be made, it is rumored, to-morrow, when Hugh Guthrie, M.P. for South Wellington, is to arrive in the capital. Mr. Guthrie, it is reported, will enter the Cabinet as Solicitor-General, a post which Hon. Arthur Meikhen relinquished to become Secretary of State.

**MEDICAL BOARD**

Medical Boards are now ready to examine all men who apply as to their physical fitness for military service. These boards are established throughout this district.

Upon examination, the medical board will classify each applicant according to his fitness; into Category A if he is fit for service in overseas fighting units; Category B if fit for service overseas in Army Medical Corps, Forestry Battalions, etc.; Category C if fit for service in Canada only, etc.

Only men whose medical examination places them in Category A will be included amongst those required to join the colours in the first instance; the man placed in any other category will remain at home until men in the category to which he has been assigned are called to the colours. The men placed in Category A may still apply for exemption on any ground.

Men between the ages of 20 to 34 inclusive, who were unmarried or widowers without children on July 6th, 1917, are strongly advised to report before a Medical Board at once. This is the quickest and surest way for them to find out their status under the Act.

Parents and employers are also urged to have those in whose cases they are specially interested visit a Medical Board and undergo examination. The methods of examination are simple and will result in no discomfort or inconvenience.

Now is the time for employers to obtain facts of the greatest value to them in making their calculations. The Medical Boards will determine how many of their employees will be left at home for physical reasons and how many will be selected for service unless an application for exemption be made with success.

Issued by The Military Service Council.

Sweet Potato Meringue Pie. Scrape clean 2 good sized sweet potatoes; boil until tender and rub through a colander; beat the yolks of 3 eggs until light; add 1 pint of sweet milk; pour slowly into the potatoes and stir until well mixed; add 1 cup of sugar, 1/2 teaspoon of salt, and flavor to taste with fresh lemon juice; bake with a lower crust, and when done cover with a meringue made of the beaten whites of the eggs and 3 tablespoons of powdered sugar; brown lightly in the oven. This is nice.

Mr. and Mrs. Wellington Hunt attended the funeral of Mr. Hunt's mother, Mrs. Thompson last week.

Miss Cora Stuart, G.N., of New York City, is visiting the parental home.

A very quiet wedding was solemnized at high noon September 26th by the Rev. W. E. Bowyer, B.A., of the Trinity Church, at Brantford. The bride, Miss Gertrude Turner became the wife of William Dickie. The bride, unattended, was attended by Miss Nellie Holding. The bride wore a hat to match, and carried a beautiful bouquet.

The groom's gift to the bride was a set of furs. After luncheon was served by the Rev. W. E. Bowyer, the bride and groom left on the 1.53 p.m. train for Toronto and hotels in Muskoka.

The stores in the village will be closed next Monday.

### NEWPORT

(From our own correspondent.)  
Rev. James Drew conducted the Sabbath evening service and delivered a very helpful address.

Miss Mabel Phillips spent over the week-end, the guest of Miss Florence James, Erie avenue.

The young people's meeting on Wednesday evening was very well attended. Miss Beaman gave a very interesting paper on books.

### BURTCH

(From our own correspondent.)  
Rev. Mr. Vale conducted the afternoon service on Sunday. Rev. Mr. Torrey, B.A., of Toronto, will officiate next Sunday at the harvest home and Thanksgiving service at 7.30 p.m.

Mr. Frank Chapin of Flint, Mich., visited last week with Mr. and Mrs. Russell Hartley.

Drawing away wheat is the busy time around here.

Miss Minnie McIntyre and Mrs. Douglas Eldridge spent Sunday at Townsend Centre.

On Saturday evening when the September moon was at its brightest, a group of carefree young folks from Burtch and Newport, about 40 in number, gathered around a huge bonfire in an open field close by an autumn woods, for a corn roast. It was not a disappointment either for the corn was there in abundance.

With pitch forks an pronged sticks they proceeded to roast cob after cob of the Indian wheat of bygone days, upon the glowing embers.

Other luxuries were also indulged in, among them were water melons, which had been previously purchased, but cooled. It was certainly a jolly bunch which dispersed for their respective homes about eleven o'clock, giving thanks for the occasion to Miss Gladys Smith, who so kindly extended the invitations to what will prove to be an event of the season as corn is exceedingly hard to procure in this district this fall.

The members of the Burtch Baptist Sunday school are inclined to be real busy these days, gathering recruits to the already large attendance which they have at their school. The rally day service is to be improved by its being postponed. Everyone interested in putting forth their best endeavor to make next Sunday, October 7th, one that will not be forgotten. Rev. Mr. Torrey will address the school in the morning at 10.45.

Miss Isabella Chapin visited with Miss Nellie Holding on Wednesday.

**ENEMY AT LENS**—Neglected sorrows never thrive; they must be nursed if they're to be cured. I grew around and scowl to hope; I grouch around and scowl and sulk, and dish up sighs and groans in bulk. If people note this woe of mine, and try to stop the flow of brine, I sigh more deeply than before, more furiously walk the floor. There is no fun in being blue. If no one stops to pity you, if when I grieve and tear my hair, the folks around me do not care, but stir me up, I'll give a yell, for any skunk's lament, "I wipe the teardrops from my face, and leave the well-known wailing place. I plant my sorrow right away, and smiling greet the sunny day. No hermit ever has the peevish; no hermit ever sulks and grieves. There must be company for gloom; a lone-some sorrow will not bloom. The man who sulks and broods at home, like Manfred in a Byron poem, would quit it if his kids and wives would, just pursue their workday lives, and give no heed to his despair, and act as if he were not there."
