

TREATMENT FOR THE NERVES

and Other Severe Nervous Disorders Cured Through the Blood.

Very severe nervous disorders the remedy is often a tonic. The most effective treatment is recommended by the highest medical authority to progress of such disease. Dr. Williams' Pink Pills are a tonic that builds the nerves through the blood, restores to the nerves the elements which build them up and restore them to normal condition.

Sciatica, nervous headaches, neuralgia, severe nervous depression, are properly treated by building up the blood with Dr. Williams' Pink Pills. These pills are often entirely cured in such cases, and you can help yourself by refusing to worry, by taking rest and sleep, by avoiding excess of food, by taking out-door exercise, by taking Dr. Williams' Pink Pills. Miss Johnston says: "I have been a sufferer from severe nervous troubles, with the result very pale and weak. Medical treatment did not help me, and various remedies had no beneficial effect, until I was advised to try Dr. Williams' Pink Pills. I began their use and in a few days I felt a great improvement. I am now strong and healthy. I cannot praise Dr. Williams' Pink Pills too highly for what they have done for me."

Dr. Williams' Pink Pills are sold by all druggists. A box of six boxes for \$2.50. Dr. Williams' Medicine Co., Lowell, Mass., U.S.A.

The Board of Health has endorsed a plan to open the Two-in-One Antitoxin in that town. The purpose is to lease the building for a term of years at a nominal rental the factory to have the privilege of using the building at any time. The lease term is \$10,000 at least be employed the year around.

EVERY woman expects more than she gets, and most of them are entitled to more than that.

THOUGH more women than men voted at the election on Oct. 20th the winners will still call it a "man date" from the people.

LET us charge your storage battery this winter. We will keep it charged and filled for 50 cents per month.—**RAY MORNINGSTAR**.

CANADA'S domestic borrowings since the war began amount to over two billion dollars. Previous to the war our borrowings were in foreign markets.

TWO THOUSAND members of the independent Order of Oddfellows of Ontario are expected in London next June when a convention will be held in addition to the annual meeting of the grand lodge.

THE postmaster general has kindly granted permission for mail carriers to deliver in automobiles. Now if he will take one more step and provide the automobiles and a chauffeur the carriers will be supremely happy.

ELGIN KERSEY, son of Mr. John Kersey, had his right hand badly crushed in a machine at the Wire Works on Thursday last. The injured member will require some time to heal.

CRUSHED STONE is being placed on Main street south of the railway bridge and looks as if it would make a very serviceable road bed. This is being done as part of the County Good Roads scheme.

REV. S. P. IRWIN entered upon his fifteenth year as rector of Watford and Brooke on Sunday last. During the fourteen years just closed, no less than 175 of his flock have passed to the great beyond.

SIX HUNDRED AND SEVENTY-THREE million dollars is a tidy little sum for the people of Canada to subscribe for the Victory Loan. It is doubtful if any other country with equal population could beat this. Ontario's donation was 364 millions.

THE progress of cities is measured by the public spirit of their inhabitants. Men whose only interest is in the success of their business may make money for themselves, but they cannot build successful cities any more than a pile of stones can furnish sustenance for growing plants.

NEW sweaters coats, the pullover with the V neck.—**SWIFT'S**.

A PARKILL woman tells a new story about the Prince of Wales. As he boarded his private train in London, a guard stood so stiffly at attention that he put all the ramrods that ever were to shame. Suddenly the Prince gave him a poke with his elbow which doubled the guard up, to the delight of the crowd.

A MEETING was held Monday night to organize for the winter sport of hockey. It was decided to form a club and enter a strong team in the Junior O. H. A. There is the material in town for a fast team and no doubt before the season is over the boys will give a good account of themselves.

IT will soon be time to settle definitely what form Watford's memorial to her war heroes is to take. The fund for that purpose is gradually increasing and will soon assume a substantial amount. The proposition that the memorial take the form of an imposing and substantial gate to the cemetery seems to meet with much favor. On the posts of the gate could be placed a tablet for each man who gave his life for the good of all.

THE following is a very truthful remark: "The man who grows up in his native town is regarded as a boy by his elders until he is well started down the declivity of life that ends in a hole. The stranger who comes into a place is more often pushed to the front than the young man who has grown up with the town. This is the reason why so many young men become dissatisfied with their home surroundings and long to cast their lot in other quarters."

THOSE of the Methodist church and other friends of Miss Virgo who attended the Epworth League service last Friday evening were much interested and edified by the very informing address given by Miss Virgo on her work in West China and the encouraging results from mission work generally among those interesting people so far away. The curious were of special interest to the younger members.

PROF. SHERWOOD FOX, M. A., Ph. D., of the Western University, London, will speak on Ancient Athens in the Lyceum on Wednesday evening, Nov. 26th. The lecture will be illustrated by beautiful pictures. It is expected that a large number will avail themselves of this treat. A musical program will also be given. This is the first of a course of extension lectures that are being given by the University. A silver collection will be taken up.

THE popular vote in the provincial elections shows that the Conservatives led the Liberals by 60,000, and led the U.F.O. by 30,000. Yet they obtained only about one-fourth of the seats in the Legislature. That is an abnormal condition and cannot be permanent. 60 per cent of Ontario people live in towns and cities.

THOS. L. SWIFT, of Bowman River, Man., in renewing his subscription to the Guide-Advocate says:—"I am always pleased when the local news from the old town and district reaches me weekly, and made sad when I read of the passing of the old landmarks, the most recent of which has been my good old friend R. J. McCormick."

THE STRATHROY district is having a special meeting in the Methodist church today (Thursday) in the interest of the Methodist National Campaign. The afternoon and evening sessions commence at 1.45 and 7.45 and are open to the public. The President of the conference, Rev. W. H. Graham of Stratford and a representation from the Central Com., in Toronto, will be present and give addresses. There will be many delegates present from each circuit on the district.

IN the special contest for cash prizes in the European Tour Campaign of the London Free Press, now in progress, Mrs. Vera A. M. Fuller, of Watford, was successful in securing the first prize of \$300 for district No. 2. Mrs. Fuller stands near the top of the list in the tour contest and will certainly be one of the successful candidates for the trip to Europe. With a little extra assistance from her friends she may head the list of contestants.

MISS PHOEBE SAUNDERS received word Tuesday that her nephew Alvin J. Cochran of Dutton passed away in Windsor Hospital on Monday evening. Funeral at Dutton Thursday.

AS SMOKING among women is increasing rapidly the W. C. T. U. of Sarnia will petition the government to pass a law to prohibit the sale of cigarettes to the fair sex. If they would insist that the present law prohibiting the sale to boys was enforced they would be doing a good deed. It seems to be a dead letter at present judging by the number of kids seen smoking.

BOYS All Wool Jerseys and Pullovers.—All sizes and shades.—**A. BROWN & CO.**

THE regular monthly meeting of Lambton's 149, I.O.D.E., was held on Tuesday afternoon, Nov. 11th, at the home of Miss Muriel Taylor, thirteen members being present. The Chapter made a donation of \$25.00 to the Navy League. It was decided to send Christmas parcels to some of the convalescent soldiers at London. After the singing of the National Anthem luncheon was served. The December meeting will be held at the home of Mrs. R. H. Stapleford.

NOTHING like a half price sale of Millinery to interest the women. Did you notice the crowds last Saturday?—**A. BROWN & CO.**

MIDDLESEX Women's Institutes have, at Parkhill, a canning factory which many another district might well seek to emulate. It is located in the armory building of "C" Company, 26th Regiment, where the equipment, although not the best style available, was supplied through the Ontario Government, institutes branch. Those who can use similar equipment no doubt can get it. Housewives can do up their own fruit and vegetables better, more cheaply, more conveniently, much more quickly, than they can at home. In addition it is a plant where surplus fruit and vegetables can be canned for shipment to needy institutions or to soldiers' hospitals, and this work is largely engaged in.

A LARGE number of veterans of the Army and Navy in No. 1 Military District have sent in a protest to District Headquarters against the indiscriminate wearing of the King's uniform in public, also against the wearing of symbols of service, wounded stripes, etc., by those not entitled to wear them. Recently young boys, young girls and women have been wearing service badges, ribbons, etc., without realizing what these articles represent. The veterans say that the indiscriminate wearing of these badges of service tends to belittle the individual who alone may be allowed to wear them, and they are evidences of the legitimate veteran. They ask that the attention of the public be called to this matter and their co-operation requested that the King's uniform be worn only by those who have authority to wear it and only on suitable occasions, and secondly, that the wearing of service badges, medal ribbons, wounded stripes, etc., by those who have not seen service, cease.

AT the probe into shoe prices at Toronto last week Colonel Price said that women are largely responsible for the high prices they pay for their shoes—and that they won't buy unless the price is ridiculously high. He also testified that one can get shoes at any price but a cheaper article does not appeal to the fair sex. If this is so, ladies, do you not think it is high time to drop that rivalry that makes you pay more than you should and that benefits only the manufacturer and jobber and hurts the attention of all buyers. Imagine a shoe jobber making \$190,000 in one year chiefly because ladies like to boast of the high prices they pay for their footwear. So long as buyers are content to pay the big figure there will be no reduction. Why should there be? Manufacturers and jobbers naturally want to make all the money they can and shoe prices will not be lowered so long as buyers are willing to pay the fancy price. The dealer is not responsible for the high prices. Let us understand that you protest against the big price and not against those higher up will see that they must be content with a smaller profit.

THE NEW PROVINCIAL CABINET

The Ontario Cabinet was announced on Friday and is as follows:—

- Premier and President of the Executive Council—Ernest C. Drury, Barrie.
- Attorney-General—W. E. Raney, K. C., Toronto.
- Minister of Agriculture—Manning W. Doherty, Peel county.
- Minister of Lands and Forests—Beniah Bowman, Gore Bay.
- Minister of Mines—Harry Mills, Fort Erie.
- Minister of Education—R. H. Grant, Carleton county.
- Minister of Public Works—F. C. Biggs, North Wentworth.
- Provincial Secretary—H. C. Nixon, North Brant.
- Provincial Treasurer—Peter Smith, South Brant.

Without portfolio—Lieut.-Col. D. Carmichael, Grey.

A short sketch of the members of the Cabinet as it now stands will be of interest.

ERNEST C. DRURY 42 years of age, practical farmer of 250 acres at Crown Hill, near Barrie. Graduate of Guelph College.

W. E. RANEY, prominent Toronto barrister. He has always been an outstanding figure against gambling and the sale of liquor, and has made reports on legal questions for the Government.

H. MILLS, Labor member for Fort William, an Englishman, and a locomotive engineer. He was a miner in Wales. For seven years he has been member of Fort William Board of Education.

WALTER ROLLO, of Hamilton, leader of the Independent Labor party in the new Legislature. Formerly a broom maker, and since May editor of "Labor News."

LT.-COL. D. CARMICHAEL, D. S. O., M. C., Centre Grey, who will represent the soldiers as minister without portfolio, served four years overseas. He will likely be appointed to the hydro commission. He is a farmer of over 200 acres, near Collingwood.

H. C. NIXON, North Brant, is another O. A. C. graduate. He is a strong supporter of prohibition. He has been a lecturer in the Farmers' Institute. Before this election he was a Conservative.

PETER SMITH, stock farmer, South Perth, Cloverbar Farm, near Stratford, clerk of Township of Downey; was school teacher for many years. Presbyterian and formerly a Liberal.

FRANK CAMPBELL BIGGS, of Wentworth, son of stock shipper and farmer, educated at Dundas High School, O. A. C., Guelph, and Canada Business College, Hamilton. Farms 400 acres, member for North Wentworth. Interested in education, hydro and public utilities.

BENIAH BOWMAN, Manitoulin, 33 years old, of Pennsylvania stock, once an employee of Christie Brown Company in Toronto, mixed farmer at Long Bay, Manitoulin, succeeded R. R. Gamey, in by election of October 24, 1918.

R. H. GRANT, Carleton, farmer, educated at Ottawa Collegiate, Ontario Agricultural College and Toronto University. Represented his township in Carleton County Council from 1882 to 1891. County auditor for 12 years.

MANNING W. DOHERTY, born 1875, at Clontarf Farm, 200 acres, Peel County, where he raises stock; once lecturer at O. A. C., Guelph; postgraduate in agriculture from Cornell University. In religion he is a Roman Catholic.

Bothwell music lovers have organized a choral society.

The farmer who owns a farm is the particular person who is fixed. Banks may fail and factories close, workmen strike and mines suspend, merchants fail and towns burn, times may be prickly and even crops may be short—but the farmer who owns his acres will get along. He will live in comfort and quiet with plenty to eat, drink and wear. He is the most independent man on earth. Yet there are lots of them who do not appreciate their situation.

ARMORY DANCE, TONIGHT

You are cordially invited to attend the Dance in the Armory this (Thursday) evening under the auspices of the Junior Progress Club, for the benefit of the Watford Hockey Club. Dancing at 8 o'clock. Kineto Orchestra. Refreshments.

WARWICK.

A treat in store for all who attend at the Lyceum on Wednesday evening.

Misses Ada and Violet Minnelly spent the week end at the home of their aunt, Mrs. Peter Kingston.

Mr. Andrew Harrower, 4th line, has sold his farm, lot 29, to Frank Ward, and will shortly move into Watford.

Our buyer Mr. R. Dimond Swift is in Toronto this week completing Xmas buying.—**SWIFT, SONS & CO.**

Miss Gladys McDougall, London Road spent the week end at the home of Miss Hope Taylor, Second line, North.

Mrs. D. Waller's father and mother, and her sister and husband, arrived in Warwick Village recently direct from the old land, and expect to make this country their home here. We all join in giving them a hearty welcome to this land of ours.

Mrs. Wm. Weedmark, a highly esteemed resident of Strathroy, passed peacefully away at her home, Friday, Nov. 7th. Mrs. Weedmark had only been ill a short time her death coming unexpectedly to all. Of a kindly disposition and cheerful, optimistic manner, she will be remembered by all whose lives have been cheered by contact with her. Besides her husband she leaves to mourn her loss six daughters and two sons, Mrs. G. A. Westgate Watford; Mrs. E. Hill, Mt. Brydges; Mrs. R. A. Dennis, Shawville, Quebec; Reta, Evelyn and Ina at home; Roy and Russell of Strathroy. The funeral was held on Sunday, Nov. 9th, from the family residence, Burns st., Strathroy, to the Watford cemetery. The service was conducted by the Rev. Mr. Haverstock. The pallbearers were six near relatives; Elton Hill, George Westgate, Ray Dennis, Alf Gill, Isaac Weedmark and Joseph Folia. Much sympathy is felt for the husband and family by their many friends.

PEARCE-SULLIVAN

Once more the chiming of bells tell of the marriage of Mr. Gordon Wood Pearce of Brova, Sask., to Miss Caroline Agnes Sullivan, daughter of the late Jas. and Mrs. Sullivan, 2nd line south, Warwick township. The wedding was very quiet, only the members of the bride's family being present. The ceremony was performed by Rev. A. C. Tiffin of Watford at high noon on Tuesday the principals being unattended. Mr. and Mrs. Pearce left on the afternoon train for their home in Sask. They will visit enroute at London, Woodstock and Fort William. The good wishes of a host of friends follow them on their voyage of life.

BROOKE

Don't fail to hear the illustrated lecture on Wednesday evening in the Lyceum.

WE are now carrying a nice assortment of Chevrolet owners will appreciate.—**RAY MORNINGSTAR**.

The ladies of St. James' church, Brooke purpose giving a social evening at the home of Mr. Dan Kelly on Friday evening, Nov. 28th. A fine supper and program will be given. Silver collection. All welcome.

The Brooke branch of the W. I. held its regular meeting at the home of Miss Mary Fisher. The meeting opened by singing The Maple Leaf. Roll call was answered by "New and Novel Fillings for Sandwiches." After the business was disposed of, a very interesting program was presented, an essay on "Thanksgiving" was read by Miss Komelida Clark, a very concise report of the Women's Institute Convention held in London, was given by the delegates Mrs. Shugg and Miss M. Wiloughby. Mrs. M. J. Campbell gave an interesting address of her trip through Western Canada. The recitation by Miss Alice McDonald was enjoyed by all. The meeting closed by singing the National Anthem and a social time was spent while the hostess served luncheon.

ANOTHER VICTIM OF RHEUMATISM

Entirely Well After Six Weeks' Treatment With "FRUIT-A-TIVES"

MR. AMEDEE GARCEAU

32 Hickory St., Ottawa, Ont.
"I was for many years a victim of that terrible disease, Rheumatism. In 1913, I was laid up for four months with Rheumatism in the joints of the knees, hips and shoulders and was prevented from following my work, that of Electrician.

I tried many remedies and was under the care of a physician; but nothing did me any good. Then I began to take 'Fruit-a-tives' and in a week I was easier, and in six weeks I was so well I went to work again.

I look upon this fruit medicine, 'Fruit-a-tives', as simply marvellous in the cure of Rheumatism, and strongly advise everyone suffering with Rheumatism to give 'Fruit-a-tives' a trial."

AMEDEE GARCEAU.

Uncle Sam can compel his citizens to get on the water wagon, but is experiencing great difficulty in inducing them to man his navy.

Mr. Thomas Prest, of the townline east McGillivray passed away at his home on Monday, 27th, after a few years illness. Deceased was for years prominent on the council board of the township of McGillivray and was noted for his physical vigor and independence of mind. As a neighbor he was very highly respected for many kind acts extended to those in his immediate neighborhood. His ailment baffled the best medical attention and he gradually grew worse. He is survived by his invalid wife, three sons and one daughter.

WATFORD, NOVEMBER 21, 1919

WINTER IN ALGONQUIN PARK

As a winter pasarea for coughs and colds Algonquin Park cannot be equalled. Two thousand feet above the sea it is always dry and cold, and unusually bright, and no matter how cold it is the man with a sweater will never suffer. Days spent in snow-shoe tramps, through primitive forests, in the breathless flight of the toboggan or ski, and in the ring of steel against the ice-bound waters of some lake; together with evenings spent in social converse around the cosy warmth of an old-fashioned log fire; these slip away unnoticed but those who have once experienced them return to their avocations with renewed energies, with hardened muscles, and a grateful memory that forever blots out all thoughts of the relaxing South. The "Highland Inn" owned and operated by the Grand Trunk Railway offers comfortable accommodation at reasonable rates. For all particulars apply to N. T. Clarke, Manager, Algonquin Park Station, Ontario.

SQUIBS BY "DAD"

The Frenchman who invented a shock absorber for lawn mowers might now direct his attention to a noiseless coal shuttle.

Geographers differs as to which is the loftiest mountain in the world, but there is general agreement that the "peak" of the H. C. of L. is the hardest to climb.

An old smoker says that he would cheerfully pay five dollars a pound for tobacco if it would afford him half the satisfaction and delight alluringly pictured in the magazine advertisements.

For years Mother Graves' Worm exterminator has ranked as the most effective preparation manufactured, and it always maintains its reputation.

Declaring that it is detrimental to public health, Toronto's medical health officer advises that no person should eat bread until it is from 18 to 24 hours old. How about toast for breakfast if all the "stale" bread is consumed?

As an evidence of profiteering, one of the witnesses at the food price investigation in Hamilton deposited a ter cent cheese sandwich on the commissioner's desk. If it was limburger no stronger evidence could be offered.

The pumpkin vine is noted for its climbing capacity and the popular pie "filler" it bears has the same lofty aim. At a food price investigation in an Eastern city it was shown that the "spread" in the price from the vine to the consumer was about 100 per cent. "Some" pumpkins.

Good-bye to Asthma. Persons suffering from that extremety trying trouble known as asthma know what it is to long with all their hearts for escape as from a tyrant. Never do they know when an attack may come and they know that to struggle unaided is vain. With Dr. J. D. Kellogg's Asthma Remedy at hand, however, they can say good-bye to their enemy and enjoy life again. It helps at once.

Turbans of Gauze.

Some of the new gauze turbans are enormous; so wide that they completely hide the hair, even at the sides. Some lovely ones of this order are being made of silver gauze embroidered in black and veiled in flesh pink tulle. A startling turban seen the other day was made entirely of leaf-green tulle. The fragile material was wound round and round the head in a mysterious fashion. This was worn by a well-known actress.

Coming Fashions.

Short sleeves are unquestionably the vogue among smart women, for these are much in evidence, where fashion congregates. But conservative women seem to be still clinging to the wrist length sleeve in both dresses and blouses.

Glass Neckties the Latest.

In these days of substitutes one must be prepared for surprises, although it would be difficult not to betray at least a passing interest in so novel a departure as a necktie of glass, says a writer in Tit-Bits.

Such a tie was recently shown to the writer by a member of a firm of glass-makers. Everyone has seen the curious multi-colored centres which the glass marbles used by schoolboys often contain. These centres are composed of very fine glass threads, and it is the latter that are employed in the manufacture of glass neckties.

These ties, in fact, are nothing more than lengths of glass thread woven together; and as such they can be twisted and knotted and generally ill-treated, like the ordinary every-day tie.

It was recently announced that collars made of paper would shortly be on the market. They are said to be much cooler and lighter than the perspiration provoking linen or "soft" collar.

Paper can be put to various uses in the matter of providing substitutes for clothing. We are threatened with paper shirts; and a determined effort is being made to produce from the same source a suitable substitute for cloth. One wonders what would be the effect of a heavy shower on these garments.

Underclothing made from surplus supplies of the fabric used in covering the planes of flying machines has already been put on the market; and the experiment looks like aiming a serious blow at the laundries, since it is stated that this material, being less porous than that usually worn, requires far less washing!

Ancient Saws.

The saw is the earliest tool that has been traced in Egyptian history. It was found first in the form of a notched bronze knife in the third dynasty, or about five thousand years before the Christian era, and was followed in the fourth and fifth dynasties by larger-toothed saws, which were used by carpenters; but there are no dated specimens until the seventh century before the Christian era, when the Assyrians used iron saws. The first knives on record were made out of flint and were, in fact, saws with minute teeth. They probably were used for cutting up animals, as the teeth would break away even on soft wood. Rasps, which are but a form of saw, were first made of sheets of bronze punched and coiled round, but the Assyrians in the seventh century used the straight rasp, which specimens still in evidence show to have been made of iron similar to the modern type.—Family Herald.

Amenities for Cabmen.

That the tradition of wit in the lower courts of Great Britain is not being allowed to languish is indicated by the words of wisdom vouchsafed recently by a judge who had before him the case of a cabman who had complained because three soldiers had damaged his vehicle when he had not stopped in response to their signal. Quoth the judge, "If you drive a taxicab yourself, always be civil to those who wish to hire you. Of course, I know you will never stop if signalled to in the streets, but do not pass by rudely. Do it gently—a smile and wave of the hand—and then the would-be hirer will feel that he has been let down lightly."

AN IDEAL TONIC FOR WEAK PEOPLE

Dr. Williams' Pink Pills Act Directly on the Blood and Nerves

Food is as important to the sick person as medicine, and in most cases a badly chosen diet may retard recovery. In health the natural appetite is the best guide to follow; in sickness the appetite is often fickle and depraved.

Proper food and a good tonic will keep most people in good health. Dr. Williams' Pink Pills are the most popular tonic medicine in the world, harmless and certain in their action, which is to build up the blood and restore the vitality to the run-down system. For growing girls who become thin and pale, for pale, tired women, and for old people who fail in strength Dr. Williams' Pink Pills are the ideal tonic. Thousands of people have testified to the health-giving qualities of Dr. Williams' Pink Pills, and in many homes they are the only medicine used. Among the homes in which the benefit of this medicine has been proved is that of Mr. E. A. Underwood, Kingston, Ont., who says: "I have used Dr. Williams' Pink Pills with the most beneficial results. As a result of hard work I was very much run down, and my appetite was very poor. I got a supply of the pills which I used regularly for some weeks with the result that they restored me to my old-time strength. They also proved a blessing to my daughter, who was in a very anemic condition and who seemed not to get more than temporary relief from any medicine until she took Dr. Williams' Pink Pills. She took the pills for about three months and is now enjoying the best of health. For these reasons I can strongly recommend Dr. Williams' Pink Pills."

At the first sign that the blood is out of order take Dr. Williams' Pink Pills, and note speedy improvement they make in the appetite, health and spirits. You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

BUILD IT NOW

If You Need That House BUILD IT NOW

Your first peace-time work is the building of that new house you had to go without while the war was on.

Both labor and materials are available once more and a great deal of government building, state work and factory construction already is under way. Measure the amount of satisfaction and service your new home would bring and you'll want to get started at once.

The sensible thing then is to BUILD NOW and we have all the material to build the sensible way—framing, siding, trim, shingles, doors and Beaver Board—the manufactured lumber, knotless and crackless—for the walls and ceilings. Speak to us about it today.

THE FALL WEATHER HARD ON LITTLE ONES

Canadian fall weather is extremely hard on little ones. One day is warm and bright and the next wet and cold. These sudden changes bring on colds, cramps and colic and unless Baby's little stomach is kept right the result may be serious. There is nothing so great as Baby's Own Tablets in keeping the little ones well. They sweeten the stomach, regulate the bowels, break up colds and make baby thrive. The Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brookville, Ont.

THAT CHANGE IN WOMAN'S LIFE

Mrs. Godden Tells How It May be Passed in Safety and Comfort.

Fremont, O.—"I was passing through the critical period of life, being forty-six years of age and had all the symptoms incident to that change—heat flashes, nervousness, and was in a general run down condition, so it was hard for me to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles, which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared."—Mrs. M. Godden, 926 Napoleon St., Fremont, Ohio.

Such annoying symptoms as heat flashes, nervousness, backache, headache, irritability and "the blues," may be speedily overcome and the system restored to normal conditions by this famous root and herb remedy Lydia E. Pinkham's Vegetable Compound.

If any complications present themselves write the Pinkham Medicine Co., Lynn, Mass., for suggestions how to overcome them. The result of forty years experience is at your service and your letter held in strict confidence.

CHIC LACE BLOUSE

Effective Garment Designed for Early Fall Wardrobe.

May Be of White or Colored Material, to Suit Skirt With Which It Is Worn.

The sketch shows a very smart little blouse of lace which will be found a valuable addition to the early fall wardrobe. It may be made of black, white or ivory-colored lace, or, if desired, a lace may be dyed to match the skirt with which the blouse is to be worn. Dyed laces have been very much favored during the last season or two. This blouse is finished at the waist with a narrow ribbon girde, and as originally designed the garment was made of ivory-colored chantilly lace. The girde was of inch and a half wide double-faced satin ribbon, green on one side, black on the other.

The woman who is economically inclined can usually supply herself with several smart and dressy skirts from the remains of sheer net, georgette or silk voile frocks, as the dress waist nearly always wears out first, and with several good-looking blouses at her disposal she can develop an afternoon frock for early fall with very little expenditure of time or money.

Paris designers are sending over some very smart separate skirts as models for the American trade, but before these reach the consumer there is little doubt that they will be greatly modified.

As a rule, the French-designed skirts are very short and tight, with elaborate over-drapings. A drapery that flares on one hip only is a favorite. The really dressy separate skirt will almost certainly be in great demand during the coming fall and winter, due to the fact that the elaborate

Smart Blouse of Chantilly Lace.

over-b blouse has finally been accepted by American fashion authorities and the public at large. Two-color combinations are frequently seen in the handsome skirts of satin and soft silks and two-faced fabrics are excellent selections, one side serving as a trimming for the other, or making the arrangement of the novel draperies easy.

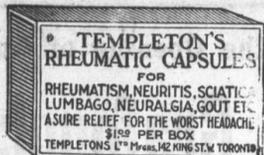

SMALL GIRLS LIKE SMOCKS

Fashion Never Seems to Lose Its Popularity, With the Little Ones or Their Elders.

For little girls of six years and less dresses of the smock type are unquestionably favorites. One manufacturer given to figures has estimated that wash frocks, especially smock dresses, sell twenty to one of any other style. This may be exaggerating things a trifle, but the fact remains that the little, comfortable, straight-line smock frocks are liked by the children as well as by their elders, and each season witnesses the introduction of many little novelties that may still come under the "smock" heading.

Wash dresses are generally considered the best selection for little girls of six years and less regardless of season or weather. Houses and apartments are so well heated these days that children do not require to be warmly dressed when indoors, and when out of doors warm sweaters and wraps give the necessary protection, no matter how light the garments that are worn underneath.

Children Cry FOR FLETCHER'S CASTORIA

Humanity has lacked a practical rheumatic remedy since time began. Fortunes are spent yearly at hot springs, electric baths and hospitals to obtain relief, yet better results are achieved right at home by using T.R.C.'s "the common sense treatment." Just compare cost and results with any other treatment and you will be convinced. Ask your druggist or write us for our new booklet; it is interesting and costs you nothing (Templetons, 123 King W., Toronto). We mail anywhere on receipt of \$1.00.

NEW DESIGN FOR SMART BAG

Receptacle Will Be at Its Best in Black and Gold Ribbon, or Silver Brocade.

This bag is extremely smart and at the same time very easily made. It looks particularly well in ribbon of black and gold or silver brocade, as in our sketch.

One yard of ribbon is required about 9 inches wide. This you double in halves wrong side out, and stitch up both sides within 7 inches of the top, and turn out.

Next cut lining same shape, allowing 1/2-inch turnings. This you also join within 7 inches of top. Place

Novel Bag.

this inside bag. Now get a bone ring, either in black or color, and put one side of the bag through; after this is done, stitch to the other side, making a seam in the ordinary way, with turnings wrong side. Join up your lining in the same way, seeing that your turnings are outside, so that when lining and ribbon are placed together both lining and bag are perfectly neat, with bone ring between both.

All that is now required is to slip-stitch opening at sides of bag neatly together, when the bag will be ready for use.

BLACKS AND BROWNS AGAIN

Sober Colors Just Now Showing a Revival of Popularity Hard to Account for.

Why the recent vogue for black evening frocks?

At the present time there is just the right setting for colors so brilliant and colorful—and gaudy, if you will—as to suit the most primitive of us. Fact is, dark colors were put on the shelf when the armistice was signed and there was a striking showing of colors of brilliant hue.

But these new black frocks that a good many smart women are getting are rather different. They are of lace and they are sometimes trimmed with brilliant ribbon or silk sashes. They are as diaphanous and as sprightly as the wing of a dusky butterfly. Still they are black, and it does seem strange that one should want to wear black when peace has come and summer is here.

But even odder is the persistence of the brown frock. This made its appearance just before the end of the war, and it was extremely smart, but with the craze for bright Victory colors it went into short retirement, only to blossom forth more interesting than ever. And this is even stranger because now that it is summer one would think that brown, which is warm, if any color ever was, would have no place in our wardrobes. But somehow it is true that the brown frock even in the evening has a certain distinguished appearance that is hard to account for.

Sometimes it is a golden brown that goes very well with metallic gold and bronze tints in evening gowns, and then sometimes it is mordore, a reddish brown. And by the way there is an accent on that "e," giving to the word three syllables, a fact that does not seem to be recognized by all who speak of the color.

Add to the list of obsolete punishments the custom of heaping coals of fire on your enemy's head. Owing to the price of coal few can afford it.

More Width 's the Decree of Leaders of Fashion.

Extensive Choice Will Be Allowed Wearers in the Selection of Favorite Goods and Colors.

The phrase that sums up the new fashions for the autumn is "more width." There is a very distinct movement on foot to get away from the narrow, constricted styles. Paris never adopted the lead-pencil silhouette with its long tight skirt that was used by some American houses. To the easy width that they have been using they have added even more fullness, in tunics, circular skirts, gathered skirts and hip draperies. The most distinct departure in the styles is the circular tunic, circular flounce and circular skirt. This new cut not only gives more width, but a new silhouette, because there is a flare at the bottom. For street dresses these skirt styles will be used in tricotine, soft twills, light-weight duvety, serge, gabardine, broadcloth, checks and plaids. The same materials will be used for the chemise dresses which Paris goes on creating with fresh variety and interesting details in the way of new vests, tucked skirts, etc. For afternoon dresses the smartest materials will be the satin-finished silks like satin, charmeuse and crepe meteor. Faille and moire will also be good, because they have a certain stiffness and body which accents the new silhouette. Taffeta will be used, but will not be as fashionable as satin. These same silk materials will be employed for evening, for the theater and for dancing dresses. For their most formal evening gowns older women will use the velvet and metal brocades and metal cloths, while young girls and debutantes will use tulle, chiffon, georgette or net as well as the soft silks and satins.

For day dresses there will be the short sleeve, the open neck, either collarless or with one of the new stand-away or plaited collars, the long blouse, the redingote styles, the use of multitucked skirts, versions of the vest, and the draped hip-length body that suggests the line of the figure.

The wide circular skirts are used for street dresses, afternoon dresses and evening gowns, but not for suits. For the suit there is a slightly wider skirt with straight lines, but with no unnecessary width, which would be burdensome in walking. For the suits the coats are also cut on a straight silhouette, even when there is the effect of soft fullness that you get in the new blouse coats. The autumn suits will be made on more tailored lines, especially when they are used for hacking and walking. You will find them at their smartest in striped and checked materials, in men's-wear mixtures, tweed, oxford and covert cloth. They are also made of serge, poplin, gabardine, tricotine and twills. These last materials can be used for either the tailored or the semitailored suit, and for the latter there are also the duvety, velveteens, wool velours, meltons, camel's-hair cloth and broadcloth. The very long belted coat is used by the French houses and is extremely good looking.—From Deineator.

Why the recent vogue for black evening frocks?

At the present time there is just the right setting for colors so brilliant and colorful—and gaudy, if you will—as to suit the most primitive of us. Fact is, dark colors were put on the shelf when the armistice was signed and there was a striking showing of colors of brilliant hue.

BEAUTY SECRETS!

Where she gets her good looks, her healthy skin, her pink cheeks, is known to every one.

because it is apparent that it is not due to cosmetics, paint and powder. But the true womanly beauty comes from good health, and this good health is a woman's secret.

Health comes with good physical machinery and good spirits, an active digestion. A body free from pains and aches comes with a tonic known for over fifty years as the best "temperance" tonic and nerve for woman—namely, Dr. Pierce's Favorite Prescription. It can be obtained in any drug store in liquid or tablet form, or send 10c to Dr. Pierce Invalids' Hotel, Buffalo, N. Y.

Cleansing of the intestinal tract is important. Take castor oil or select a vegetable pill. Such a one is composed of May-apple, leaves of aloe, root of jalap, and made into tiny sugar-coated pellets, to be had at every drug store as Dr. Pierce's Pleasant Pellets.

Got a Cold?

Peps will give you relief. Simply dissolve a Peps tablet in your mouth. Your breath carries the medicinal Pine vapor, which is released, to all parts of the throat, nasal and air passages, where a liquid medicine could not possibly reach. This vapor destroys all germs with which it comes in contact, soothes and heals the inflamed membranes and fortifies you against coughs, colds, sore throat, bronchitis and grippe. Peps contain absolutely no harmful drugs and are therefore the safest remedy for children.

FALL STABLE CLEAN-UP

The Health and Comfort of Live Stock Demand It.

Need of Ventilation, Light and Cleanliness to Avoid Tuberculosis and Other Diseases—Use Whitewash, Whether Sprayed or Brushed, and Brighten Interior.

(Contributed by Ontario Department of Agriculture, Toronto.)

THE observance of the laws of health, so vital to the well-being of man, is regarded even in this enlightened age, with considerable indifference in the treatment of animals upon whose good health that of man himself depends to a considerable degree. That animals are not more affected by disease, of some form or another, to a greater extent, is purely providential, for the sanitary conditions under which they are often reared is of the worst. Why this apathy concerning the state of the stables, in which frequently valuable animals are housed, is difficult to understand, since cattle, any more than man, cannot maintain their health and vigor for long in such unfavorable conditions; yet the stockman who keeps cattle for profit must know that to gain maximum returns for his investments and trouble, and to guard against loss from disease and death reasonable care and comfort and sanitary conditions are necessary.

The first considerations to this end are ventilation, light and cleanliness. These essential elements of sanitation should be attended to at least once every year. This may be most conveniently done during the early fall before the cattle are housed for the winter. Effective ventilation is required to carry away the foul air and maintain constant and adequate supply of fresh air. The window space should be ample so that every corner of the interior may be flooded with light and sunshine, the source of health and destroyer of germs. Dirt and filth make productive breeding places for insects and bacteria. Cleanliness gets rid of conditions which produce them and prevents the possibility of infection and contagion, reducing possible loss from disease to a minimum. That much-dreaded disease, tuberculosis, is in a measure the product of dark, dirty, ill-ventilated stables. It is caused by organism or germs gaining entrance into the animal's system with the food. It is not easy to detect, and usually when symptoms become evident it is too late to apply any remedy, hence the necessity of making every effort to secure and maintain sanitary conditions in the stable. Every fall, then, the stable should be systematically cleaned; cobwebs swept from wall and ceilings; accumulated dirt and debris cleared from manger, trough, window-sills and all recesses in walls; the fresh air intakes and foul air outlets put in order; fill all cracks and holes in floor and walls with cement; replace all broken glass in windows and clean them; disinfect the whole stable thoroughly with some good disinfectant, such as chloride of lime, crude carbolic acid, or zoleum, which can be easily applied with a scrap pump or a watering can with a fine nozzle. Give particular attention to pens or stalls which have been occupied by stock suffering from contagious disease or have been used by animals during parturition.

Then prepare your whitewash and don't postpone it because you do not possess a barrel spraying outfit. The whitewash brush is an effective and efficient tool—use it. Small brushes are best and may take you a little longer time to do. There are many good whitewash recipes. President Grant used the following to whitewash the White House in Washington: Take a bushel of unslaked lime, slake with warm water, cover it during the process to retain the steam, strain the liquid through a fine sieve or strainer; add a peck of salt, the same previously well dissolved in warm water, add three pounds of ground rice boiled to a thin paste and stir in boiling hot, add one-half pound of glue which has been previously dissolved over a slow fire and add five gallons of hot water to the mixture; stir well and let it stand for a few days, covering it up to keep out dirt. It should be put on hot. One pint of the mixture, properly applied will cover a square yard. There is nothing can compare with it for outside or inside work and it retains its brilliancy for many years. Disinfectant may be added or coloring matter may be put in and made to any hue desired.—Prof. J. Evans, O. A. College, Guelph.

A Standard Medicine.—Parmelee's Vegetable Pills, compounded of entirely vegetable substances known to have a revivifying and salutary effect upon the digestive organs, have through years of use attained so eminent a position that they rank as a standard medicine. The ailing should remember this. Simple in their composition they can be assimilated by the weakest stomach and are certain to have a healthful and agreeable effect on the sluggish digestive organs.

Live Stock Scarce in Europe.

France has 2,366,000 fewer cattle than in 1914; Italy, 896,000; Denmark, 345,000; Sweden, 599,000; Germany, 2,200,000; and Austria-Hungary, considerable. These figures alone show a decrease of 6,306,000 head of cattle and many countries which have suffered are not named. The sheep decrease in France, Italy, Denmark, and Holland alone is over two and one-half millions, and in pigs there has been a wholesale decrease to the number of 24,952,000 in France, Italy, Denmark, Sweden, Holland and Germany. Denmark, Canada's strongest competitor in the British bacon market is 1,878,000 short of a normal supply of pigs. Germany is 19,396,000 short of her 1914 hog population. These figures should prove interesting to the Ontario live stock breeder. Reserves of food material in the world are very low. Stock with which to increase these reserves is not up to normal numerically. Indications are that a good demand must continue for the finished product of the farm.

Economy of Ford Service

WEAR is unavoidable even in the best car, but certain parts wear out more quickly than others. There is no need of scrapping your car because the piston rings have seen their day, because the platinum points of the vibrators are worn out. Probably the rest of the car is as good as new.

Medical men agree that the human body is renewed, cell by cell, every seven years. You can do the same with your Ford Car and prolong its life at minimum cost by replacing worn parts from time to time.

Ford service has been the means of doubling the lives of hundreds of Ford Cars, and cutting down the cost of motoring. The fact that a Ford Touring Car, which costs \$690, f. o. b. Ford, Ont., can be purchased part by part separately for \$917 is ample proof of the economy of driving a Ford Car.

It will pay you to have your car overhauled during the winter months. 700 Canadian Dealers and over 2,000 Service Garages supply genuine Ford parts and prompt repair service.

When buying, choose a Ford, and take advantage of the economy of Ford service.

Methodist National Campaign

The congregation of the Methodist church last Sunday morning adopted the program of the Methodist National Campaign and assumed their share of the various objectives pledging themselves to do their best to reach them. They also approved of the following organizations for the prosecution of the campaign. Central Com., Chairman, A. B. Steer; Vice-chairman, J. H. Hume; Sec., A. C. Tiffin. The territory is divided into two wards, Ontario street and all south is No. 1, and Erie street and all north is No. 2. Captains of the League of Intercessors—Mrs. J. V. Humphries and Mrs. Joseph Keller in No. 1, Mrs. Baker and Mrs. Tiffin in No. 2. Captains of League of Personal Workers—Mrs. S. Stapleford and Mrs. Cadwell for No. 1, Mrs. Fowler and Mrs. Moody for No. 2. Captains of League of Christians Stewards not yet appointed. Captains of S. S. objective—Dr. Hicks, Mrs. A. J. Hagle and Mrs. Fortune. Captains of E. L. objective—Miss Mansfield, Miss Moore and Miss Harper. Publicity bureau—Miss Mansfield. Besides these a number of "Minute Men and Women" are being secured to speak on different phases of this campaign from time to time in the various services on Sunday and through the week. Much enthusiasm in manifesting itself in this work which is full of promise to the church and community.

TUBERCULOSIS SUNDAY

With the co-operation of the Clergy of all denominations and endorsed by the Department of Education, Sunday the 23rd and Monday the 24th inst. will be observed as Tuberculosis Sunday and Tuberculosis Day in the schools.

Literature has been prepared by the National Sanitarium Association, setting forth the nature and treatment of consumption. Only through a widespread understanding on the part of the Public of how this disease may be avoided, how it may be cured, will this great plague be overcome.

Drastic measures were taken last fall in the "flu" epidemic; this fall we have an outbreak of smallpox, which is receiving the anxious and careful consideration of our Medical Officers of Health. Consumption is a more dangerous disease than any. More deaths occur from this cause than from all other contagious diseases combined. Every one is urged to acquaint themselves regarding tuberculosis. Ministers and teachers have a special opportunity to instruct those under their care.

A farmer living near Owen Sound, was killed by a yearling colt dragging him around a stony field. He was holding the colt by a rope wound around his body talking to a neighbor, when the animal became restive and ran away.

A FAMILY TREAT

A real good treat for every member of one's family would be a year's subscription to the Family Herald and Weekly Star of Montreal. It costs only \$1.25 and each subscriber receives a handsome souvenir portrait of the Prince of Wales, 16x22 inches. The portrait alone is well worth the money. The Family Herald and Weekly Star is a credit to Canada. It has over three quarters of a million readers and thousands more are being added each week. It is a wonderful combination of a newspaper, family magazine and agricultural journal, the best of its kind in America. It is well worth a trial for a year. Every member of your family would be benefited by the weekly visit of that great paper.
