LONDON, April 19, 5.50 p.m. The following official state-ment was issued tonight at the

"A successful action, commencing on the evening of the 17th, culminated last night in the capture and complete occupation of an important point known as Hill 60, which lies about two miles south of Zillebeke, to the east of Ypres. This hill dominates the country to the north and northwest.

"The successful explosion of a mine under the hill commenced the operations, and many Germans were killed by this and 15 prisoners were captured, including an officer.

Repulsed Heavy Attack.

"At daybreak on the 18th the enemy delivered a heavy counter-attack against this hill, but were repulsed with a heavy loss. They advanced in close formation and our machine gun battery got well into them.

"Desperate efforts were made all day yesterday by the Germans to recover the hill, but they were everywhere repulsed with great loss. In front of the captured position, upon which we are now consolidated in strength, hundreds of dead are lying.

"Yesterday two more German aeroplanes were brought down in this area. Since the 15th inst., the total loss to the enemy is five aeroplanes."

Mayor Church Says Court Has Been Tool of Real Estate

Official Arbitrator P. H. Drayton came in for some criticism in yester-day's council meeting, when the question of the purchase of the Miller property in Earlscourt, for park purposes, came up for discussion. Mr. Drayton made an award of \$12,000 an acre for the property, which, along with the other awards already made, meant that the city would have to pay \$176,000

the Waterun property at the Humbers of property annually, and in my opinion it is not property equipped.

Fire Chief's Exit.
Some heavy firing was directed toward the board of control for allowing Fire Chief John Thompson to make his exit from the department when council had already accepted his resignation, adding the rider that he remain in office until a new appointment had been made.

Mayor Church endeavored to prevent a discussion of the matter by announce ing that Judge Denton's report of the enquiry would to ready today, and that the board would lose no time in making a nomination for the position chief as soon as the report had been considered.

"Famous Resignation." The resignation of the chief, in which he stipulated that he was retiring on the understanding his pension was to be half salary, or \$2250, was characterized as the "famous resignation." According to City Solicitor Johnston, Thompson has in no way prejudiced his relation

The action of the board, however, was finally endorsed and the chief's troubles are over, with the exception of the pension settlement.

Objected to Tender.

The question of allowing contractors to change their tenders after they are

pened was the subject for a lengthy debate. Council decided, however, in favor of the Canadian Allis-Chalmers who get the work of supplying four boilers for the main pumping

Garbage Disposal. The aldermen have evidently become weary of hearing about the garpage incinerating plant to be erected on the Don roadway at Wilton avenue, and when the board of control's recommendation that the tenders be awarded to the Canadian Griscom-Russell Company there was very little

dation, which was adopted.

The offer of the Ideal Incinerator and Contracting Company, of Chicago, to build a plant and dispose of the city's garbage by contract occupied only a few minutes of the council's time and met with no support.

Altho the city council has favored a 21/2 per cent. grade in connection with new Yonge street subway, and it has been allowed by the Ontario way Board, the board of control re-commended that the grade be changed to 5 per cent., as desired by the C.P.R., which would mean a saving in prop-erty damages of about half a million dollars.

Adopt Standard Grade.

Alderman Ball wanted to have the utter of the change referred back, so that it could be given further consideration by the people of North Tor-onto, who are vitally interested in Yonge street as one of Toronto's main thorofares. By a vote of 12 to 9, howcouncil adopted the recom mendation to ask that the grade be changed to 5 per cent, which is the

made an award of \$12,000 an acre for the property, which, along with the other awards already made, meant that the city would have to pay \$176,000 for the 12 acres required for the park. The board of control reported against the acceptance of the award, recommending that the bylaw covering the expropriation of the lands required, be repealed.

H. J. Macdonaid headed a deputation and was introduced by Ald. Gibbons. He pointed out that the district was remote from any of the city's breathing spaces, and urged upon council the purchasing of the property.

Mayor's Scathing Remarks.

When the report came to be considered, Mayor Church made some scathing remarks about the court of feeted in the purchase price of a park. We want to see a park in Eariscourt, but the same conditions exist as at Victoria Park, where they are asking \$375,000 for a property that could have been bought for \$70,000. Four years ago the land in question was assessed at \$200 an acre: it is now assessed at \$200 an acre: it is now assessed at \$600 per acre. The same conditions apply in connection with the Watson property at the Humber, The court handles five or six millions worth of property annually, and in my opinion it is not properly equipped.

"Had he lived today he would have seen 100,000 men from Canada forced, to offer themselves, fighting for this great empire."

The speaker then went on to explain the difference in the work of the two parties, declaring that the Conservatives of today believe in the ideals of Austen Chamberlain.

In dealing with the coming election, he refused to say if it was wise or not that the election should be brought on, but left it in the hands of those Election Discussed

Thhe conservative party in Canada was never more united than it will be at the forthcoming election," said Mayor Church. "Our government has done its duty in the great struggle and will continue to do its duty until even the 11th and 12th contingent has gone forth. We are honoring today a British statesman whose ideal was "Peace with honor," and we must feel thankful that we still have a govern-ment that is willing to teach Germany the meaning of 'kultur.' The Libera party has said, 'What have we to do England's war?" but Borden and his followers said, 'When England is at war Canada is at war,' and they did not take six months to discuss in what direction their duty lay.'

With regard to the contract scandal the mayor said that Mr. Borden was anxious to keep his skirts clean, and would see that his followers would do the same. The speaker dealt with the senate, and criticized the action of Sir Wilfrid Laurier in this connection When the election comes on," he said, the most important item will be the abolition of the senate on account of the position in which they have placed Canada in the eyes of the world."

With regard to the insurance of the soldiers Mr. Church stated that as far as he was concerned the city would do its duty, and there would be no question of York County with him. Mr. Maclean's Address.

Wearer's Features—A Brave Youth.

Yesterday afternoon, at thirty-two minutes after one o'clock by Big Ben in the city hall tower, he was seen walking westward on Queen street, near Teraulay—the man with the nrst straw hat of the season.

In spite of the very evident fact that the summer headgear he sported belonged to the vintage of last June, it made a brave showing in the bright mellow sunlight, and his progress mellow sunlight, and his progress along Queen street attracted almost as much attention as a 12th of July procession. With light and springy step, the joy of life radiating from his features, he pursued his blithsome way, to all appearances quite unconscious of the ribald jests of the vulgar newsies and the curious, amused glances of the pedestrians, who, lacking his moral courage, still wore their

Altho the casual observer could not fail to notice the expressions of amusement on the faces of the persons who saw him, and overhear the time-worn jests about "rushing the season." the more observant might have noticed that there was something wistful, almost shamefaced, and certainly envious about the scoffers, as if they, too, would like to follow his example, if they only had the nerve.

Four motion picture stories of more than passing interest are being shown at the Photodrome, West Queen st., opposite James. These include "In the Dragon's Claws," "Snatched from a Burning Death," "Hazards of Helen" and a comedy entitled "Curiosity." If one film stands out more prominently than another in this program it is probably the fascinating railway story, in which Helen plays the lead. "In the Dragon's Claws" is extremely interesting, as most of the scenes are taken on the water and the cabin of a private yacht figures repeatedly.

served to a nicety. In the opening group for both instruments—Sonata in A minor (Greig)—the strings and keys blended in harmonhous, poetic unison, neither overpowering the other. There were sustained inelting minor chords from the masterly bowing of Pablo Casals, accompanied by clear, contrasting notes from the dexterous fingers of Harold Bauer, the melting notes of the andante furnishing fine contrast for the more dramatic allegro. The finale brought the players a grand burst of appreciation, to which they had to bow their acknowledgment several times.

Harold Bauer, who has twenty recitals in New York during the past season to his credit, played the next group by Chopin. Refinement, an exact appreciation of melodic and time values together with a velvety touch that brings up pastoral vistas, are traits of this delightful planist. The Ballade in A flat exhibited all these qualities, and the Schenzo in C sharp minor afforded fine contrasts in the strong chords of the left hand and the bell-like runs in the treble. A great ovathion was given Mr. Bauer. He was recalled three times and after responding by playing a fairy-like morsel again received a triple encore.

Maste rof instrument.

Pablo Casals is simply master of his instrument. His strength does not lie in temperament, but in a fulness, of understanding of the art and science of the medium by which he holds his listeners. He played a suite in C major. Bach, the prelude being given with striking precision, and charm melody, daintiness, tosether with fine emphasis exhibiting themselves as the suite proceeded. Sustained applause and repeated recalls followed his concluding notes.

Shading and contrasts were leading features in his concluding group when both artists perhaps allowed themselves their fullest individuality without, however, forgetting for a moment that each was complimentary of the other.

In this group the andante con moto was particularly beautiful, the strong chords that melted away into tender devotional harmonies reminding the listener of a

British M.P. Fears Discrimina tion Against Certain American Firms.

ecial Cable to The Toronto World. LONDON, April 19.-J. J. Mooney. M.P., has given the following notice of question which will be asked in parament tomorrow: "To ask the prime minister if the banking firm of Morgan-Grenfell have been apponited sole purchasing agents for the requirements of all the British Government departments in American manufactured supplies; if he is aware that the house of Morgan with its financial ramifications in America is interested in various manufacturing concerns, whose productions they favor to the exculsion of firms in whom they are not interested; and seeing that it is against public policy and the British Government's disadvantage in their purchase of war supplies to give such a sole buying contract over so wide an area as the United States to one financial firm with such direct or indirect industrial connections there and that this arrangement with Morgan-Grenfell is damaging to the standing and working to the detriment of numerous British agents representing American interests in England, thus adversely affecting the best interests of traders in this country, will he say what action he proposes to take?" purchasing agents for the require-

dozens of others these old colors hang. solemn for the past, sanguine for the future.

The cathedrals of Britain are no more to the British than the cathedrals of France or Belgium are to the people of those lands. But they are very dear, and their memorials of all kinds, regimental colors, mural tablets. monuments and statues, reflect the history of a world-wide empire. Against such traditions as these Germany has leveled her deadliest spite. A church or cathedral seems to attract the most malevolent antipathy of the German army officers. There would be great rejoicing among the German people if their aerial raiders could demolish such an ancient fane as Westminster Abbey. It is a striking commentary on the German character. They would rather destroy the holy places of their enemies than keep a reputation for civilization.

The beautiful buildings of Belgium, which have stood for centuries and witnessed the wars of six hundred years, have suffered more from six months of German ruthlessness than from all the storms of war that had gone before. If Germany could gain access to England, we may be sure that neither Westminster nor St. Paul's, Salisbury nor Winchester, Exeter nor York would be left standing. It is difficult to know just how to impress the German mind in a case of this kind. They seem unable to appreciate any gentleness of demeanor or restraint of conduct. If we spare his cathedrals and public buildings, the German will think we are afraid to touch them, and will believe us pusillanimous. If we destroy as he has destroyed, we will justify his brutality and violate our own decency.

But we may be sure our men will not fight the less daringly, nor conquer the less surely for the memory of the ragged colors that hang in the sacred aisles of hundreds of British churches. Nor will they forget, even in war, the great maxim of doing as they would be done by.

War and Finance

Theo H. Price, editor of Commerce and Finance, discussed the question: Do wars really cost anything? He began by describing business in the Mesopotamia and the great deposits United States as undoubtedly improv- of petroleum on the Tigris. The ing. "Week by week mills are reopening. of peace and prosperity.

"Looking back on the history of the world for the last hundred years," Mr. Price writes, "we find the same sequence in the commercial and financial records. The first effect of war is panic, caused by the impact of the shock. Thereafter, within a comparatively short period, capital becomes abundant, business revives, speculation is quickened and a period of financial activity follows that generally becomes a veritable boom before peace can be discerned, and continues for several years thereafter." That same sequence may be expected from this war. It will result in a vast outpouring of capital for use in countries that await development of their natural war has destroyed.

The Campaign in Mesopotamia

Altho the campaign in Mesopotamia is overshadowed by the greater operations in Europe it must be peculiarly galling to the kaiser to see British troops establishing a hold on the rich and fertile lands watered by the Euphrates and the Tigris. To bring that district under German control by means of the Bagdad Railway and secure a port on the Persian Gulf was one of the war lord's most cherished orcams, and its realization was prepared for with German thoroness. For years engineers and experts in every science had surveyed and reported on every section of the country to be traversed by the Bagdad line, says Mr. Archibald J. Dunn, in The London Daily Chronicle, Not only were agricultural possibilities and mineral deposits examined and described, but also the means and cost of transport

to suitable markets. Mr. Dunn, who is the author of various volumes dealing with the Turkish Empire and the Persian Gulf, remarks that the railway crosses several immense districts in Asia Minor, In a recent magazine article, Mr. which abound in minerals of every description. But, in his opinion, the chief objective of the Bagdad Railway was beyond doubt the rich lands of whole zone from the tableland of Iran to the Arabian desert. he writes, comprising the districts of Kerkuk, Tekrit seems to be literally impregnated with

Less Crime in Britain Since the war began there has been

marked decrease in the number of criminals in Britain. This tendency was clearly in evidence during the years immediately-preceding, but the decline in the last eight months has been surprising. When charging the grand jury at the recent London sessions Mr. R. Wallace, K.C., said that the calendar was the lightest in the history of the county, the number of prisoners being only a fifth of what resources. Russia, Mesopotamia, the it was three or four years ago. This is only another sign of the change that has passed over the British people at this greatest of crises in their history. All observers agree that a similar transformation has taken place in the case of the Belgian. French and Russian nations. They have all been moved to the very core of their being and the influences that have wakened them into newness of life will remain after war has given of Mr. W. H. Kellar.

DREAM OF KAISER

British Triumph in Mesopo tamia Death Knell to German Hopes.

LONDON, April 19.—Germany's won the most important victory for British arms since the war began. A Turkish force that attempted to

drive the British from the Tigris and drive the British from the Tigris and Euphrates valleys in Mesopotamia has been disastrously routed. The Turks are in full flight and have abandoned their campaign to drive the British from the Persian Guif region.

In their hasty retreat thru the desert they left behind a large part of their munitions of war.

The British apparently are now in undisputed possession of the southern part of the ancient kingdom of Nebuchadnezzar. The kaiser's plans for a new route to the east over a Bagdad-to-the-Guif railway have been shattered.

Berlin Says Garros, Famous Aviator, Was Captured at Ingelmunster.

BERLIN, April 19.—According to a statement issued by the German war office, Lieut. Roland Carros, the famous French aviator, who has been very active in aerial work on the Meuse front, has been captured. It is stated that he was taken prisoner at Ingelmunster, Belgium, seven miles north of Courtrai. Whether he was captured while on the ground or whether he was in his aeroplane and shot down is not made known.

Lieut. Garros was one of France's greatest aviators. In the early days of the war he was credited with ramming a Zeppelin and has been especially mentioned for work with the flying corps.

A few days ago he started in pursuit of a German Taube at Langemarck and brought it to the ground, the pilot and observer being killed.

He won many long distance races in all parts of the world and had to his credit a long distance flight of 583 miles across the Mediterranean in 7 hours and 53 minutes.

In reply to the call for speakers some fifty qualified persons have already expressed their willingness to act in this capacity. The president of the University of Toronto offered free offices in the university buildings, and Dr. A. H. Abbott, who has acted as secretary of the university extension work and has had experience in arranging lectures thruout the province for some time, offered his services as honorary secretary of the league. Both of these offers were accepted by the executive committee. To complete the organization M. C. N. PURCHASING DRUGS THRU MIDDLEMEN

Surgeon-General Jones Denies Statement Made to Accounts Committee.

CABLED FROM FRANCE

Never Said Goods Could Be Bought Direct From Manufacturers.

By a Staff Repoter.

OTTAWA, April 19.—In connection with the recent evidence given by a witness named Shaver, representative of Bauer and Black of Chicago at the public accounts committee, in which he stated, when questioned re the appointment of W. F. Garland, drug cierk, that he had been told by Surgeon-General Jones, director-general of medical service, that the policy of government was to buy drugs only thru middlemen and not direct from the manufacturers, the following cablegram has just been received by the minister of militia and defence from General Jones, who is now in France.

Never Made Assertion.

"I deny absolutely that I ever made the assertion that no goods could be sold

"I' deny absolutely that I ever made the assertion that no goods could be sold to the militia department except thru middlemen. (Signed) Guy Carleton Jones."

This cablegram bears out the statement of Sir Robert Borden to the house of commons last Thursday when, in the course of a speech dealing with the matters brought before the public accounts committee, he doubted the evidence of Shaver and placed his faith in whatever General Jones would say.

Following an instructional course in Toronto, they will be taken to England and further drilled in aerial manoeuvres before going to the front.

ANCIENT GREEKS LIVED IDEAL LIFE

That the only hope for the betterment of modern social cocneditions lay in turning again to the ideals of beauty as exemplified in the lives of the ancient Greeks, was the point brought out by I. B. Stoughton Holborn, M.A., F.R.G.S., in a lecture on "Art in Life," delivered in Convocation Hall, last evening i naid of the University of Toronto Base Hospital.

Speaking of the social conditions of that timefi, the speaker pointed out that the attitude of the people toward money, was that too much of it was on a par with any other excess, as too much food and drink, and that the common people were in every way far better housed, clother, fed and educated than at the present day.

The speaker compared the cities of ancient Greece with our modern manufacturing towns, and pointed out that not alone were the buildings more beautiful, but the furniture and intimate household articles, including their cooking utensils were copied today and eagerly sought after and treasured as works of art. "Do you think," said he, "that posterity will fight in the auction room for a chance to buy up our old plated-ware, sauce-pans and beer hottles?"

"We are living on two-thirds of our

our old plated-ware, sauce-pans and beer bottles?"

"We are living on two-thirds of our beings," he declared, "we have morality and intellectuality, but we have not developed our love for the beautiful. We are incomplete, and the only way in which we can cope with the social problems of today is by developing

Little Hollander and His Big Bat Beat Durham—Leafs Play Good Ball.

DURHAM, N.C., April 19 .- Toronto kept up its hard hitting today, easily beating Durham, which had trimmed nd three straight. The game was ver in question, but little Hollander ned it in the fifth with a slashing me run inside the grounds to centre. His hitting has been terrific in all the games played. In the same innings Jordaa poled one a mile over right-field fence, six inches foul. The Toronto men hit all along the line, and with men on were the most dangerous. Twice they got three and twice two hits in an innings. The batting order was shifted. In the first five innings, against a right-hander, they scored five runs on seven hits, and off a southpaw in the last four scored three runs on three hits. In the field they played without a skip.

Herbert was in great shape, allowing only a hit to start the second and fifth, but no score even threatened. He got all the others in order without a hard chance. Even the two hits could have been nailed with luck.

Manning was rapped freely in his first innings, but in the other three got his men in order. He let out his kinks and looked a thousand per cent, better than a week ago. He showed nice speed, as well as his slow ball and curves. On this day, he may be a valuable man to the team once he gets right. Three hits were made off him. Infielder Joe Pepe was released to Newark today. No place has been found for Prieste yet. He will go somewhere this week. Toronto plays Durham again the next two days.

LEAFS OFFERED TO OTTAWA.

OTTAWA, April 19.—The fact that there is a surplus of baseball players on the market this season was again shown Saturday, when the Ottawa club received a telegram from President McCaffery of the Toronto Leafs, offering five of the best prospects on his staff. They are: Charlie Isaacs, third baseman; Bobby Auld and Matthew Kirley, pitchers: Harkins, catcher, and Marty Killilea, shortstop.

Clymer's Team Strong Everywhere Else-Can the Pitchers Stand Up?

DURHAM, N.C., April 19.-The Toronto ball team will do. They are young, they are fast, they are good fielders, and they are to date terrific hitters. The argument that their great batting has been ins, catcher, and Marty Killilea, stop.

Marty Killilea, done against class D pitchers is of course a good one, but it must also be considered that these young pitchers down here are ready for their season, while Toronto has a week to train its batting eye to go against heavier guns in class AA company.

speed an shield metal that he follows, and unless the price asked for him remains too high, it will be hard to keep him off the team.

Brown is a youngster coming up and has every qualification to be a great ball player. He hits out like our own Jack White used to do, and he hits hard. Unless the price asked stays up to the unreachable point Brown will in all probability stay with Toronto. If Washington continues to ask an exorbitant price for him it would be out of the question to buy him.

confinues to ask an exorbitant price for him it would be out of the question to buy him.

Graham improves every day and Brackett is up to the standard right now. Brown and Brackett are both very fast on the bases and Graham, for a big man. does nicely.

These are the new ones. O'Hara has shown the same ability as in former years and is of course a live candidate. Wilson, the best prospect of the lot, of known ability in all departments, is still a doubtful case. He is in the hands of an osteopath, who says the trouble lies in the muscles lying under the instep on the inside of the foot. He still hobbles, but he and Manager Clymer are both hopeful. The latter is not better than that, however. One thing is certain, Wilson won't be ready for the opening April 27. However it turns the infield is all right, the outfield is all right, the catchers are all right, and it is up to the pitchers. What the present eight may do is at present problematical. From the work done to date, however. Manager Clymer sees the advisability of a good new man or two, and has sent out a distress cry to President McCaffery.

"At least one first-class pitcher must be secured yet," says Manager Clymer.

AMATEUR BOXING.

The committee in charge of the Ontario elimination boxing contests met last night and completed arrangements for the tournament at the Arena commencing next Saturday. The list of officials will be announced tomorrow. The entries close with the secretary, at 22 College street, on Wednesday, and the draw will be made by the committee and the representatives of the different clubs on Friday evening. The police department has sent notification that the bouts on Saturday evening must conclude at 11.30. This will mean that the competition must start sharp at 2 o'clock on Saturday evening.

making syndicates, which have Beokmaking syndicates, which have been operating for some time on various Canadian tracks, are evidently not going to give up the fight without the greatest show of resistance. Recently it was announced that after this year pari-mutuels would be in vogue on all courses under the jurisdiction of the Canadian Racing Associations. The C.R.A. wished to have the bookies banished this summer, but the Connaught Park and Hamilton Clubs refused to consent, and another year's grace was allowed. The Dorval Club also favors the retention of the book-makers.

Last year it was announced that Judge Moncq of Hamilton had disposed of his stock in the Hamilton Jockey Club, which is one of the most profitable in the Dominion. Allie Louden, formerly manager at Connaught Park, was appointed to succeed him on the board. Considerable mystery surrounded the transaction, On Monday, it became known that the Judge Monck stock had been purchased by Messrs. H. J. Mcintyre, A. R. Louden and Charles Smith. The latter is a member of the firm of Smith & Coleby, which has the betting privileges for Connaught Park, Hamilton, Dorval and elsewhere, where the "iron men" have not yet been introduced. The deal places the controlling interests of the Hamilton Jockey Club in the hands of Messrs. McIntyre, Louden and Smith, and means that parimutuels will not be installed there. Concerning the transfer of Judge Monck's stock, The Hamilton Herald says:

"Regret that the interests friendly to the bookles have secured control is general amongst the true friends of the McGay."

BALMY BEACH GUN CLUS.

The Balmy Beach Gun Club held their regular weekly shoot on Saturday. The weather was ideal and some good scores were made in the 50-bird race for the J. D. Bailey cup. P. J. Boothe made 49, with W. H. Joselin a close second with 48. In class C for the spoon G. T. Dale was high. Next Saturday the club will shoot a match shoot with a team from Niggara.

Scott, K.C., and others, who have been doing their best to free racing from what is regarded as its most objectionable feature, the bookle. Regret is also expressed that the club, which was founded by the Hendries and others, who have worked so hard in the interests of sport without financial gain, should meet with such a fate. Rumors were current to the effect that some of the bookmaking interests had purchased stock in the Connaught Park Jockey Club. One story was to the effect that they—Smith & Coleby—had acquired the stock now held by Buffalo people. This was emphatically denied yesterday by one of the directors. He said that thera was little possibility of the bookmakers getting control here. NO MORE SOCCER

Remaining Games — Local Notices and Gossip.

A London cable says: Football has been put under the ban in Great Britain until the war is over. The Football Association today canceled all cup matches and league games.

At a meeting of the English Football League, held today, the match between Middlesbro and Oldham, played on April 3, but brought to a premature finish was ordered to stand as a completed game.

Cook, one of Oldham's players, who refused to leave the field when ordered, was suspended, sine die.

A fast and clean game was witnessed on Saturday at Kew Beach, when Devonians tied with Queen's Park, there being no score. Both teams played grand football, and, the each goal was in danger at different periods, the defences came out on top. A feature of the game was the clever checking of Devonians' centre forward, Hopper, by the Queen's Park centre half, Lowe. The English selectors would do well to take note of the ability of these two players. Both teams are to be complimented on the absence of all "dirty" play, considering the keenness of the game, and which was thoroly enjoyed by a large crowd.

Cedarvale v. City Dairy.—A good class of football was served up by these two teams on Saturday at Cedarvale. The game was stubbornly contested thruout, and ended in a win for Cedarvale by 3 goals to 1. Mr. N. J. Howar handled the game with his usual fairness.

All players and members of the British Imperial Club will please turn up for training tonight at Earlscourt Methodist Church, at 7.30.

All Mount Dennis players are requested to be up on Wednesday on grounds for practice and training, meeting to be held afterwards at 16 Dennis avenue, Mount Dennis, at 8 o'clock p.m.

The committee and players of Queen's Park are reminded that practice will be held on the new grounds, Queen and Caroline avenue on Wednesday, from 6 to 8 p.m. It is hoped to play a friendly game with the new junior organization, so that a full turnout of members is desired.

T. and D. club secretaries, kindly note new address of Uister United secretary— 1330 Lansdowne avenue.

Cedarvale F.C. will hold their weekly meeting at Clifford's, corner Cedarvale and Danforth, on Wednesday evening, at 8. The teams to play Gunns will be chosen. As there are several important matters coming up, a good turnout of players and members is requested. New players and others interested will be welcomed.

Wychwood players are asked to turn out for training tonight at 6.30 at the Appleton avenue grounds.

It is requested that all players and members of the Parkview Presbyterian Football Club turn out for training as usual this evening in the basement of the church, corner Royce and Perth avenues, at 7.30. The selection committee is specially requested to be on hand.

All players of the Heart of Midlothian F.C. are requested to be at the grounds.

Receipts of live stock at the Union Yards yesterday were 141 cars—1910 cattle, 340 hogs, 34 sheep and lambs, 34 calves and 543 horses, the latter being fed and watered en route to the British army from the United States.

The quality of cattle offered as fat was the best since Christmas, that is, taking them in bulk, Trade was good at steady to strong prices, considering the quality. them in bulk. Trade was good at stead; to strong prices, considering the quality Cows and bulls sold steadily at stronger values. Stockers and feeders were in demand and brought as high prices as have been paid for some little time. No many milkers and springers were of sale, and they sold at firm, but no higher quotations.

caives, sheep and lambs were scarce, not enough to make a market, and the same can be said of hogs, and the prices recorded could scarcely be relied upon as being rel'able should a heavy run come on Tuesday.

straight loads of cattle.

Market Notes.

Victor Bowes of Meaford, Ont., was on the market with a carload of cattle of his own feeding, weighing 1300 lbs. on the average. There were none better on the market and the man who fed and took care of them all winter certainly knew his business and did Mr. Bowes great credit, as the only complaint registered against them was that they were too fat and too good for the trade. These cattle were sold by McDonald & Halligan and brought the top price paid on the market yesterday.

A Barbon and Westerday.

brought the top price paid on the market yesterday.

A. Barber and Wm. O'Neill brought in four carloads of extra choice cattle, which were fed by D. M. Shoemaker & Son, Allan, and Irwin Shoemaker and Samuel E. Shantz of Berlin, Ont. For six years Messrs. Barber and O'Neill have handled D. M. Shoemaker's cattle, which yearly brought the top price, and yesterday there were three steers among his shipment that have not been excelled in quality since Christmas.

Corbett, Hall and Coughlin sold one of the best loads of 17 steers, weighing 1160 lbs., at \$7.75, which was the high price recorded for a straight load of steers.

H. L. Shearer, buyer of cattle for Swift & Company (successor to Roy Brainard, who has gone on a holiday trip), was on the market doing business for the first time and was favorably received by the T. E. Good, who succeeds I. H.

Erstwhie war specialties, with a few exceptions, were relegated to positions of seondary importance thruout the session. New York Airbrake and several other quipment issues yielding much of last week's gains. Not all the specialties were sent to the rear, however, as was seen in the further phenomenal rise in Mexican Petroleum, with a sympathetic advance in Texas Co. American woolen also gained five points on rumors of additional war orders.

Among the better known shares the coppers held rather more consistently than any others, their strength being accompanied by another rise in the refined metal. Rock Island was almost the only railroad stock to hold back thruout, losing 31½ points.

All general news of the day, which included railway advices from the west, pointing to a reduction of the tonnage movement and some firmness of exchange on Germany, was ignored in the day's inverish market. Total sales of stock amounted to almost 1,500,000 shares, exceeding all records since 1911.

Trading in bonds exceeded all recent anys with an upward trend. Enquiry in the N. Y. Central debenture 6's on isady advances was the noteworthy lature. Total sales of bonds, \$6,536,000.

WINNIPEG, April 19.—May wheat was sold this forenoon at \$1.61%, which exceeds all previous records for 1914 crops. July wheat was bid at \$1.61%, which is only ¼c under the previous record of \$1.62 for this month on Feb. 3. Later higher figures were touched for May. Trading in futures was light and chiefly in the speculative element. There was little or no cash demand for wheat on the local market, while for oats there was a fair enquiry, and a few carschanged hands. Flax was dull, practically nothing being offered on the cash market. No new business in export was reported.

Total inspections on Saturday were 297 cars, as against 391 cars last year, and in sight today were 345 cars.

Wheat futures closed 2%c to 3%c higher, cash 2½c to 2%c higher for contract grades, oats %c to ½c higher, and flax %c to 1c higher.

MONTREAL, April 19.—There was some demand from foreign buyers for Manitoba spring wheat today and sales of a few odd loads were made for nearby shipment, but the prices bid for future shipment continue to be out of line. The tone of the local market for coarse grains is firm, but there is no improvement in the volume of business, the demand being still limited from both local and outside buyers. In flour the feeling is strong with a better business doing for export account, but the local trade is quiet. The trade in milifeed is rather slow. slow.

Butter is fairly active and firm, Cheese is quiet. Demand for eggs good. Dressed bogs have advanced 25c per cwt.
