MANY WITNESSES BUT LITTLE LIGHT ON THE MYSTERY

Mrs. Hickey Says Florence Was
Frothing at Mouth When She
Raised Alarm, and Mrs. Kinrade
Is Asked As to Her
Daughter's Mental Condition.

SISTERS FRIENDLY
AND NO REVOLVER
EVER IN THE HOUSE

HAMILTON, March 12.—(Special).—
Suggestions as to possible mental dis-
orders on the part of Miss Florence
Kinrade were the only new features in
the resumed inquest, which was ad-
journing at 12:40 this (Friday) morn-
ing to be resumed at 3:30 in the after-
noon. It is hoped to conclude the en-
quiry to-night.

"Was there ever anything in the de-
meanor of your daughter that made
you apprehensive of any kind of men-
tal trouble?" Mr. Blackstock asked
Mrs. Kinrade, and she replied "No."
"She always seemed a person of
strong mind and character," he en-
quired, and she answered "Yes."

Later when Mrs. Hickey told of Flo-
rence running across to raise the alarm
of the murder, the crown examiner
asked if she had noticed anything
about her mouth when she was shot.
"Yes," the witness replied, "the sal-
iva about her mouth was very thick. It
seemed to be almost like a froth."
Florence, she said, had told her father
she had been shot six times. She had
seemed very much excited.

The witnesses for the night were:
Mrs. Kinrade, Gertrude Kinrade, Ern-
est Kinrade, Mrs. Hickey, Mrs. Dixon,
Mrs. Akers, Dr. McNicol, Police In-
spector McMahon and Detective Black-
stock.

The latter's evidence went to show
that he believed Ethel had been sit-
ting in a chair when she was shot.
The body would fall in that way, he
said emphatically, as indicated by the
position of a chair and a pool of blood
which he had found in the vicinity of
a tooth and a bullet. If so, the
body must have been moved slightly
before the police were called.

He was also positive Mr. Kinrade
had said: "I expected this would
happen" when he entered the house the
afternoon of the day on the witness
stand. Mr. Kinrade said he did not re-
mark when the detective saw Miss
Kinrade after the shooting she had
seemed quite calm.

New Saw Revolver.
Gertrude Kinrade, the youngest of
the family, was asked if Florence had
ever told her that when she was down
south she had shot off a revolver or
pistol. She replied in the negative.
Nor had she ever seen any in the
house. Neither did she think Florence
had brought any back with her. She
had never seen firearms in the house
at all.

A great deal of effort was expended
in the endeavor to elicit from Mrs.
Kinrade what time she left the house
on the day of the tragedy. Dinner was
over about ten minutes past eight. She
had been sewing and dressing till she
went out. She stretched the periods
spent in this way to fill the time which
elapsed between dinner and her depar-
ture. Mr. Blackstock evidently ex-
pected a more particular recital from
her. The day of the tragedy was the
third Thursday of the month, and
days, when she would not have been
expected to go out. Ernest Kinrade,
the eldest brother, explained his ex-
pression when he first entered the
house after the tragedy as being, "I
knew something had happened," and
not "I knew something would happen."

He had been at work with another
carpenter that afternoon.

Mrs. Kinrade First Witness.
When Coroner Anderson called court
to order at 8:15, the police court room
was filled to overflowing. Among the
occupants of seats were to be noted
many of the foremost medical men of
Hamilton, indicating that the case has
aroused keen interest as a pathologi-
cal study.

As an opening night there was notice-
able a large representation of sporting
fraternity, who apparently stand in
fairly well with issuers of passports.
Mrs. Kinrade's name was first called.
She entered on the arm of a nurse,
walking very unsteadily and exhibit-

ing agitation. Her features were
drawn and her face very pale. Mrs.
Blackstock after courteously suggest-
ing that she sit down, commented on
her apparent weakness and assured
her of every consideration.

The witness said her marriage to
Thos. Kinrade took place 21 years ago.
Her son Ernest was 27 years of age,
Ethel 25, Florence 23, Earl 18, and Ger-
trude 16. Her husband was teaching
school when they were married. They
had occupied the Herkimer-street
house four or five years. Asked as to
family relations, Mrs. Kinrade said
they were most affectionate. "They
were all very loving children," she
said. For if one church could call in
from abroad a man in no way respon-
sible to us, another with the money
could do a much better thing. Where
then should we land?

The Meaning of Terms.
Now that the witness originally
provoked the animadversions is
before the public, no man judge for
himself. I do not find in it a word
about the superintendent of the
revelation, and scarcely a breath about
inspiration, all potent and indispen-
sable factors of a new department
of faith itself, which of course is the
faculty and the spiritual operation
that constitute the true religion. I
believe that He is, and that He is the
rewarder. "Thru faith we understand
that the worlds were framed by the
word of God." These voices from the
heavens with their attestations are
ignored or suppressed. The voices from
earth, who assented to Mr. Black-
stock's suggestion that the family kept
pretty much to itself.

Miss Kinrade's Travels.
Mrs. Kinrade was aware before Flo-
rence went away that she was going
on a concert tour in 1907. She did not
know any of the others who were on
this tour with Florence. Florence
usually traveled with her parents, but
on this occasion went with a lady
friend. With her parents she had visit-
ed Atlantic City, Philadelphia, Buffalo
and other United States cities. The
longest trip she had ever made prior
to going to Richmond was to Philadel-
phia.

Mr. Blackstock enquired minutely in-
to other lesser trips, such as to To-
ronto, St. Catharines and Niagara
Falls. Mrs. Kinrade said that up to the
time of the Virginia trip, Florence was
always accompanied. She made her
travels to Toronto with her father after
the Stratford-Goderich jaunt in the
summer of 1907. Florence went to
Syracuse unaccompanied by any mem-
ber of the family. Witness didn't re-
call how long Florence was away, but
it might have been two weeks. This
was towards Christmas, 1907, a couple

OUT-INGERSOLVED THE HOUSE OF GOD

Methodist Superintendent Re-
plies to the Criticisms of
His Assault on the
Scientists of the
Bible.

—Dr. Carman

Rev. Dr. Carman writes The World
as follows:
While not specially fond of contro-
versy or desirous of its continuance,
I feel in duty bound as at the first
to notice some issues that have arisen.
One could hardly imagine there would
be such a stir, but it is plain enough
some spots were struck, and I am sorry
they were so sore, both on the irregu-
larities as to pulp arrangements and
the utterance of the integrity of
Holy Scripture. This pulp arrange-
ment was conceived in confidence and
good will, and likely so would have
remained but for a manifest dispo-
sition to introduce and propagate
what is known as higher criticism.
One of our leading ministers, care-
ful and earnest student, after reading
the address, writes me as follows:
"Bearing in mind the circumstances
under which Mr. Jackson came to Can-
adian Methodism, and the influential
position from which he speaks, I do
not think your protest is in any way
extreme or the language used too
strong. From his record I did not ex-
pect such a sweeping and unreason-
able delivrance. It was premeditated
and deliberate and because of this he
is to be censured in words he cannot
misunderstand. No special circum-
stances were calling for any such
statement. That he should break up
the peace of church in which he was
only an irresponsible stranger, and
use his influential church as a van-
tage ground from which to throw
wide his glib and unscrupulous
misstatements, and his gross misuse of
the hospitality which has been accorded
him, is a matter of which I am grieved
and indignant."

It must be borne in mind, when I
penned my first note that the circum-
stances of the case were all in clear
evidence before me. I was a pastor in
the church interfering with its pulpits and
pastoral arrangements, and I saw the
instrument of that which was to be
what I conceived to be the highest in-
terests of our ministers and people and
the trustworthiness of the Holy Scrip-
ture. For if one church could call in
from abroad a man in no way respon-
sible to us, another with the money
could do a much better thing. Where
then should we land?

The Meaning of Terms.
Now that the witness originally
provoked the animadversions is
before the public, no man judge for
himself. I do not find in it a word
about the superintendent of the
revelation, and scarcely a breath about
inspiration, all potent and indispen-
sable factors of a new department
of faith itself, which of course is the
faculty and the spiritual operation
that constitute the true religion. I
believe that He is, and that He is the
rewarder. "Thru faith we understand
that the worlds were framed by the
word of God." These voices from the
heavens with their attestations are
ignored or suppressed. The voices from
earth, who assented to Mr. Black-
stock's suggestion that the family kept
pretty much to itself.

Miss Kinrade's Travels.
Mrs. Kinrade was aware before Flo-
rence went away that she was going
on a concert tour in 1907. She did not

time of the Virginia trip, Florence was
always accompanied. She made her
travels to Toronto with her father after
the Stratford-Goderich jaunt in the
summer of 1907. Florence went to
Syracuse unaccompanied by any mem-
ber of the family. Witness didn't re-
call how long Florence was away, but
it might have been two weeks. This
was towards Christmas, 1907, a couple

Revelation and Knowledge.
If the creation of the universe be
a fact and not a myth; if the creation
of man and woman be facts and not
myths; if man is not concerned just now
about the literary dress—and if the
fall of man be a fact and all duly re-
corded, then we have history up to its
date and the basis of all history, and
we have science up to its date and the
foundation of all science. This is im-
bedded in and a part of our Christian
faith. Further than that: is revela-
tion a source of knowledge? Is inspi-
ration a source of knowledge? Is
faith a source of knowledge? Can
they shed any light on our other knowl-
edges? Can they attest and confirm
history as related to the acts of God
and his dealing with men? Who dare
deny it? And this is what is unbeli-
evably claimed for Christ and the
apostles, that when they touch human
history their statements are perfectly
trustworthy.

The rules of interpretation set forth in
the lecture might well startle us some-
what, considering that it had been
previously pronounced, as is said, in a
Methodist Church. We must lay
aside our theological preconceptions,
forget what of religion we had learn-
ed. "Suppose we should read these
wonderful Genesis in some other
book, we would say at once myth, le-
gend." But if it were interpreted, these
are other wonders in subsequent scrip-
ture; "then we must determine as to

Another Manitoba Election?
Opposition Paper Predicts One In Fall
on Boundary Issue.

WINNIPEG, March 11.—(Special).—
Commenting on the departure of Pre-
mier Roblin last night for Ottawa,
where he goes in response to a request
of the Ottawa government, in regard
to the proposed boundary extension
The Free Press (London) says that
the Manitoba Government will un-
doubtedly refuse the terms offered and
that a special session of the legislature
will be called for that purpose imme-
diately, following which—that is to say,
in the early summer—the issue will be
made the pretext for an appeal to the
electorate.

New Pastor For London.
LONDON, March 11.—(Special).—Rev.
Thos. Manning of Windsor has accept-
ed the invitation of Dundas Centre
Methodist Church to become their pas-
tor in June, when Rev. E. B. Lancelotti
goes to the First Church, Hamilton.

Organize Labor Club.
At a meeting of the Independent
Labor party at the Labor Temple last
night it was decided to organize a
club for ward five.

The World-Famous Dunlop Hats on
Sale.

Men are entitled to a Spring Hat
opening if women are, and the big
particular one is on now at Dineen's.
The reason that it is a particular oc-
casion is because of the spring display
of Dunlop's soft hats, Derbys and
sifts, for which Dineen is sole Can-
adian agent. The soft hats and stiff
felt Derby hats sell at five dollars, the
sift at ten dollars. There is but one
price the world over.

A TERROR TO THE NEIGHBORHOOD

MADAM EUROPE - I was hoping those gaffs might be taken off, but I really believe they're being sharpened.

DR. POLLARD ARRESTED ON ABORTION CHARGE

Mrs. Mary Tinsley Also in the
Toils Accused of Procuring Op-
eration on Windsor Woman.

Dr. Stephen B. Pollard, 425 Jarvis-
street, was arrested at his office yester-
day evening by Detectives Kennedy
and Newton, charged with performing
an abortion on Elizabeth O'Brien, a
young shopgirl from Windsor, Ont.

Mrs. Mary Tinsley, 45 years, 370 West
King-street, at whose house the opera-
tion is said to have been performed,
was also arrested, charged with procu-
ring the abortion.

Dr. Pollard, who has been similarly
charged before, was almost overcome
when arrested. He is now in the
custody of the police, who is now in the
city a week ago and drove to the
Tinsley house. There she explained
her condition to Mrs. Tinsley and ar-
ranged for her care at \$15 per week.

He saw her that night and again on
Sunday night. Forty dollars was paid
to the doctor, and yesterday she gave
him a money order for \$60, which she
had got from Windsor. He gave Mrs.
Tinsley some of the money and re-
turned \$15 instead of the \$10 which she
had said that he had spent the \$5 and
did not have it.

Add Another Patch of Red On the Maps

LONDON, March 11.—Fifteen thou-
sand square miles of territory have
been added to the British Empire by
the treaty just signed at Bangkok,
Siam, under the terms of which Siam
cedes to Great Britain the States of
Kalantan, Tringano and Kedah, which
hereafter will be administered with
the Malay federated states.

Under the treaty British capital to
the extent of \$20,000,000 will be fur-
nished for the construction of railroads
south from Bangkok. These lines are
to be controlled by a new department
quite distinct from the present railroad
administration of Siam, which is ad-
ministered by Germany.

There will also be a gradual abolition
of British extra territorial rights in
Siam.

**Hon. G. E. Foster Attacks the
Re-Classification of
the Civil Ser-
vice.**

OTTAWA, March 11.—(Special).—
Hon. G. E. Foster in a two hours'
speech to-night made a slashing at-
tack on the system of re-classifying
the outside civil servants under the
act of last session, which brought them
into the inside service. In the three
departments of public works, agricul-
ture and interior, there had been 146
new appointments at a combined sal-
ary of \$104,250, while there had been
202 increases of salary aggregating
\$1,836.

Brooklyn Man Accused of Abusing 12
Year Old Girl.

TEWSON, Md., March 11.—Joseph M.
Janer of Brooklyn was to-day convict-
ed of felonious assault upon Catherine
Loersch, 12 years of age, also of Brook-
lyn, and sentenced to 21 years in the
Maryland Penitentiary.

BRITISH TRADE COMMISSION.
MONTREAL, March 11.—(Special).—
Richard Grigg of London, England,
opened an office here to-day as the
representative of the British Board of
Trade, his mission being to keep the
imperial government informed as to
Canada's resources.

"SWINDLERS" IS PREMIER'S WORD

Warm Reference to Cobalt
Syndicate in Winding Up
Budget Debate—Mac
Kay as Financial
Critic.

The first division of the session took
place yesterday on the conclusion of
the debate on the budget, when Mr.
MacKay moved an amendment to the
motion to go into committee of supply,
only sixteen Liberals being in the
house at the time. The motion, seconded
by Mr. Macdougall, read:

"That this house regrets that when
a proper classification of current, and
distinguished from capital, receipts
and expenditures has been made, it
clearly appears that the current ex-
penditures for 1908 exceeded the cur-
rent receipts, and that this house views
with alarm the large increase in ordi-
nary controllable expenditures of the
province during the past four years,
particularly those under the head of
civil government and miscellaneous;
the expenditure under civil government
having risen from \$24,000,000 in 1904
to \$38,825 in 1908, and that under the
head of miscellaneous from \$13,000 in 1904
to \$48,121 in 1908; and this house, espe-
cially in view of the deficit of last
year, strongly urges a curtailment of
expenses, particularly under the heads
mentioned."

"This house further regrets the tremen-
dous increase in expenditures of this
province, that are made without the
annual vote of this legislature, which
expenditures last year amounted
under the three heads of special
statutes, Treasury board minutes and
special warrants, to the large sum of
\$1,490,844, or 17 1/2 per cent. of the total
expenditure."

The Premier Replies.
The premier, in closing the debate,
said the state of affairs which existed
in the legislature at the present time
was unique in the history of British in-
stitutions. "The government were thank-
ful for the confidence expressed by the
people of the province. He was willing
to make every possible allowance for
non-gentlemen opposers, but could not
help reproaching them for the conclu-
sions they had arrived at in connection
with the debate.

They had no apologies to make for
the increase in expenditure, but such
increase was necessary and advisable,
but, in addition, during four short
years, they had increased the revenue
of the province from four to eight
millions of dollars, and to-day the
pockets of the provincial treasurer
were "jingling with a million and a
half millions," and if that did not suit
hon. gentlemen opposite, it was impos-
sible to imagine a condition of finances
that would meet with their approval.

Result of Proudfoot.
The item of miscellaneous expendi-
ture included \$100,000 voted to the
Cobalt syndicate, and \$25,000 for gen-
eral elections, which brought the net amount
down to comparatively insignificant fig-
ures.

The late government was forced into
the Soo guarantee scheme by two of
its supporters. If refused, the indus-
tries at the Sault would have been
organized long ago, instead of help-
ing these industries, they had actually
received a setback.

The premier corrected J. W. McCart,
who said that the present parliament
buildings had been paid for out of cur-
rent revenue. The late government
borrowed \$500,000 from the Dominion
to build the buildings.

The member for Centre Huron, W.
Proudfoot, had raised some objection
to \$300 spent for entertainment. The
premier said the government had ac-
cruedly spent five times that amount,
and considered it the best advertise-
ment that could be made. They had
entertained a Japanese prince at the
Quebec Hotel, and "self-respect which
comes of a duty performed and of the love we bear
for British institutions and the pros-
perity of the empire," and "I do not
believe he can find, from Newfoundland
to Vancouver Island, another British
subject who would ask the same ques-
tion."

That Cobalt Lake Affair.
"Passing to the remarks of the leader
of the opposition, regarding Cobalt
Lake, the premier referred to a state-
ment made by the president of the To-
ronto Electric Light Co., at the annual
meeting, when "Bylander" (Goldwin
Smith) was quoted as condemning the
action of the government for this mat-
ter, "and I suppose the president of the
government why does he not bring the
property back, and say 'I will not have
these hands soiled with it, and I wish
to let mining speculators get the bet-
ter of us, even when they are helped
by Liberal members, and I wish to
deny the absolute truth of statements
which have been circulated by certain
newspapers during the last three
months or more, directed to one gen-
tleman connected with the company,
and never in delivering judgment or
otherwise, expressed one shadow of
disapproval regarding the impropr-
ety of any statute passed by the legisla-
ture of Ontario."

"Now," continued the premier, "I
want to say that the gentlemen asso-

An Expert's View on Mrs. Hickey's Evidence

A prominent medical authority, who is also an expert in in-
sanity, epilepsy and the like, was asked by The World as to the sig-
nificance of Mrs. Hickey's statement, at the inquest last night, that
there was an excessive flow of saliva about Florence's mouth when she
rushed to her house and told her of the shooting. This question, with
preceding ones asked Mrs. Kinrade as to whether Florence had ever
shown signs of mental weakness, seemed as tho intended to pave a
way for an ultimate suggestion of epilepsy.

The expert said that the fact that there was frothing at the mouth
was not of great importance, as it was not indicative of the peculiar
epileptic condition which produces acts of violence, but was more
commonly noticed attending such seizures as are described as "fits."
He pointed out that with the former condition the subject acts
as an ordinary rational person, but rarely remembers anything of the
circumstances thereafter. Miss Kinrade gives a fairly minute descrip-
tion of the incidents surrounding the shooting.

The World's informant said that he would place little weight
on the presence of froth about the girl's mouth, as this was frequently
found with a hysterical condition and with various seizures quite dis-
tinct from the epileptic state.

HOTELMEN FINED

HAMILTON, March 11.—(Special.)—As a result of the activities of government detectives the following hotel men were fined in police court this morning: White Star \$40; Revere House, \$40; Woodbine Hotel, \$60; Waldorf Hotel, \$60; George Bouché, Ottawa Nathan Curtis, 143 North James-st., dropped dead on the street this afternoon from heart failure.

MODEL THUMBSCREWS.—A working model of a thumbcrew has been sent by registered letter by the Square Table Club of Toronto University to Hon. S. H. Blake. It was described as "Thumbcrew such as used in the institution for use on heretics. Components of the Square Table Club."

Objects to Salary Increases.—The management committee of the board of education recommended yesterday to increase the salaries of teachers, McDonald and Jemett, to \$1400 and \$1700 respectively. Trustee Davis strongly objected and promised that he would move at the next meeting of the board that a notice be sent to every member of the staff to the effect that no salary increases would be given to anyone in the future except as provided for by the schedule.

Canadian Military Institute.—The following lectures have been arranged: Monday, March 15—"The War Game," by Col. E. T. Taylor, commandant R. M. C. Kingston. Tuesday, March 16—Col. E. T. Taylor will superintend a war game to be arranged for on the previous evening after his lecture.

Ask Duty on Tinplate.—Application has been made to the government for the imposition of a duty on tin plate, galvanized plate and black plate, in order to give some protection to the Canadian industry against British and European imports. Tin plate is now manufactured at Morrisburg, and while the dumping clauses of the Tariff Act now give protection to the imports, there is no protection from British imports. Last year Canada imported tin plate worth \$1,515,000 from Great Britain. From the United States the imports amounted to \$918,886. Imports of galvanized plate totaled \$942,838, all from Great Britain.

PROVINCIAL PARTIES.

Our factious contemporary The Globe yesterday had another of its amusing editorials on the historic difference between Liberal and Conservative—a theme which touching Great Britain is capable of extensive illustration. Where the job comes in, however, is the quiet assumption that this British contrast is further exemplified in the relative policies of the political parties of Canada. It is, we are gravely told, the difference "between equality and privilege, between the localizing and centralizing of authority, between democracy and aristocracy." Then, we are informed, the provincial "government freely ignore and override the rights of private property and assume authority in that regard historically resented by Liberalism."

Much of the harangue is on the face of it ridiculous. There is no aristocracy in Canada, unless, indeed, it is composed of the holders of knight-hoods and companionships in their various kind, distinctions which the Liberal party possess in full share. Neither are there any privileged persons in Canada, unless it be the public service exploiters who everyone knows are nowadays the particular friends of the Liberal party, from whom they have obtained many and valuable favors at the expense of the mass of the people. But not the least of the services rendered by the present provincial government has been, and is, its endeavor to reclaim for the citizens of Ontario that rightful share in the advantages of Niagara power, of which the action of the late Liberal Government bade fair to deprive them. Then, again, under the Liberal regime, provincial rights were frequently and gravely infringed, while the present administration has been distinguished for its determination that they shall be conserved in their entirety.

Even more remarkable, from the standpoint of British political controversy, is the attack made on Premier Whitney's government on the ground of its invasion of the rights of private property. This is indeed a wonderful discovery, since historic Liberalism has been an unending foe of private rights of all kinds whenever these were antagonistic to the public interest. Indeed it is a commonplace of the opposition campaign now in full swing in Great Britain that the Liberal Government has attacked private property, destroyed credit, scared away capital, terrified investors and generally ruined the financial reputation of the country. Precisely the same attack is being made on Premier Whitney, yet he has only been curbing companies that attempted to get public property for nothing and to operate public franchises without regard to the public right to a square deal. Judged not by names, which mean nothing, but by policy and character, which mean everything, Premier Whitney's administration has been one of progress and advancement and that especially as regards the predominant issue in Canadian affairs to-day—the conflict between private and public interest. Because he has taken a firm stand for popular and provincial rights, he enjoys the confidence of the people.

It is creditable to a nation when it respects the graves of its honored dead; it is discredit to a nation if it allows the consecrated ground to go to rack and ruin. Canada, thru Toronto, has long been guilty of this disrespect. The old fort and its surroundings, including the graveyard to the northwest, have simply been permitted to decay, until its neighborhood has become little better than a slum, with many people aware of its existence but very few caring ever to visit the hal-

lowed spot. With the restoration by the city this will be changed, and with the street car line running along the old Simcoe road towards the exhibition, thousands upon thousands will acquire an intimate knowledge of Canadian history that otherwise would have been beyond their reach. It will be a fitting approach or threshold to an institution that aspires to be national both in character and in fact. Visitors will recognize Canadian patriotism in the care of the bones of the heroes of long ago. Not only should the fort and its belongings be restored as nearly as possible to their pristine state, but fitting inscriptions, neat and not vulgarly prominent, should be placed upon the various mementoes so that all who run may read, and our children and our children's children become by ocular demonstration familiar with the early beginnings of their native land. There is nothing like an object lesson to inculcate wisdom, knowledge and understanding. If the people of Toronto carry out their contract, as they doubtless will, Canadians will be able to direct the attention of the visitor to the care and regard that they have for those who shed their blood in defence of their country and the empire.

According to figures appearing in a Montreal financial newspaper, the Sun Life of Canada now carries the largest amount of assurances in force in the Dominion. This gives it leading place among Canadian life companies and is a remarkable tribute to the excellence and enterprise attending its administration. How progressive and prosperous the Sun Life is can be seen at a glance in the "Results for 1908," published in another column of this issue of The World. Also this is conspicuous enough from the figures for the year ending Dec. 31 last, as contrasted with those of the previous twelve months, it is much more strikingly illustrated in the tabulated statement of the company's growth from its establishment in 1872 to 1908, and thereafter by decades down to 1908. The increases are surprising and bear striking testimony to the growing confidence of the public in the Sun Life.

For last year the assurances issued and paid for in cash totaled \$19,783,671.21, an increase over 1907 of close on two millions. The cash income for 1908 was \$2,500,000, bettering that of the previous year by \$700,312.73, while the assets increased by \$2,749,930.35, totaling at the end of 1908 \$29,238,575.51. There was distributed to the policyholders last year \$381,471.12 and the surplus at Dec. 31 over all liabilities and capital, the Hm Table 3-1-2 and 3-1-2 per cent interest, was \$2,582,202.50. An increase over 1907 of \$549,419.52. On the government standard the surplus was \$4,118,491.91. During 1908 the death claims, matured endowments and other payments to policyholders came to \$2,928,267.65 and since organization total \$20,418,985.44. The policies in force at the close of December last amounted to \$19,517,749.89.

BIG SHAREHOLDERS TO FIGHT

Claim Share of Montreal Can't Call on Account of Ontario Bank. A dozen of the biggest shareholders in the defunct Ontario Bank have filed in the defunct Ontario Bank, holding notice, with Referee Kappel, that they will contest the validity of the agreement and the Ontario Bank, holding that it was ultra vires—that is that it was beyond the power of the directors of the Ontario Bank to make such an agreement. It will be argued that the Bank of Montreal had no right to pay out the \$1,000,000 to satisfy depositors and other peremptory creditors, and that the Ontario Bank is not now liable for that amount. In other words they will hold that the Ontario Bank of Montreal had no right to pay out the \$1,000,000 to satisfy depositors and other peremptory creditors, and that the Ontario Bank is not now liable for that amount. In other words they will hold that the Ontario Bank of Montreal had no right to pay out the \$1,000,000 to satisfy depositors and other peremptory creditors, and that the Ontario Bank is not now liable for that amount.

NICE TO BE AN ORGAN

Winnipeg Free Press Has Been Well Treated at Ottawa. OTTAWA, March 11.—(Special).—The Winnipeg Free Press, since 1896, has received from the government \$3,736 in printing and advertising; most of it since 1900, as for the first four years the paper got only about \$100. In 1905 the Free Press received \$35,772, which \$34,181 was from the department of the interior.

BETTER SEEK CHARITY THAN EARN LIVING BY SELLING NEWSPAPERS

Magistrate Kingsford yesterday fined the Dominion Bowling and Athletic Club \$5 for not having a bowling license. Eugene Lawlor, aged 33, was let go. He was charged with selling newspapers without a license. His brother-in-law said Lawlor has just come in from Aurora and had nothing else to do. The magistrate said he would have to quit selling papers or be charged as a vagrant.

Won't Cut Wages at Soo

NEW YORK, March 11.—(Special).—Protected by a parliamentary clause, the Lake Superior Corporation is not affected by the steel war in the United States. Many improvements are planned for the Soo and wages will not be cut.

Berlin Would Be a City

BERLIN, March 11.—A committee of the town council last night recommended to apply for special legislation with the view to incorporating Berlin as a city. Berlin has a population approximating 14,000, and there is a strong feeling that it is time to cast off its town clothes.

No Bill

The sessions grand jury found "no bill" against W. E. Lount, charged with obtaining \$150,000 from James B. Calclough by fraud.

The "SAVOY"

(Yonge and Adelaide Streets). Chocolates and Bon Bons, Cream Wafers, Caramels and Buttercups.

OLD GOLD CIGARETTES

IN THE LAW COURTS

ANNOUNCEMENTS.

Osgoode Hall, March 11, 1909. Judges Chambers will be held on Friday, 12th inst., at 11 a.m. Peremptory list for divisional court, Friday, 12th inst., at 11 a.m.: 1. Small v. Clarin. 2. Dixon v. Hubbard. 3. Alexander v. Scobell. Peremptory list for non-jury assize court, Monday, March 15, at city hall, at 11 a.m.: 143. Hagnerud v. Montell. 144. McDougall v. McKee. 151. Warren v. Bank of Montreal. 152. Bolton v. Gilmour. 153. Bolton v. Hardwood. 159. Goldie v. Uxbridge. Peremptory list for jury assize court, Friday, March 12, at city hall, at 10 a.m.: 38. Mackay v. Simpson. 39. Frelund v. Trenchard (W. C. Chisholm, K.C.). 35. Stephenson v. Toronto Railway. 40. Cook v. Slattery. 41. Gray v. Crown Life Insurance.

Master's Chambers.

Before Cartwright, Master. Geeling v. Lumsden Mining Co.—J. M. Ferguson, for defendant. F. E. Brown, for plaintiff, contra. Motion dismissed. For an order for costs. Defendants to have ten days to plead. Smith v. Clergue—H. S. White, for defendant, on behalf of the witness. Williams (M.P. & M.), for plaintiff, contra. Entrusted until 17th inst. Johnston & Co., for judgment creditors, moved for an order for costs. Order made, returnable on 17th inst. Labanache v. Toronto Industrial Exhibition Association—T. G. Chisholm, K.C., moved on consent for an order dismissing action without costs. Order made.

Thomson, Smith Co. v. Woodruff—R. S. Cassels, for plaintiff, moved to set aside order for an order for costs. F. J. Roche, for plaintiff, contra. Motion enlarged until after examination of defendant's affidavits. Order made.

Evans v. Dominion Bank—Silverthorn (M.P. & M.), for defendants, moved for an order for costs. F. J. Roche, for plaintiff, contra. Motion enlarged until after examination of defendant's affidavits. Order made.

Starts v. Chatterton—N. G. Heyd, for defendant, moved for an order striking out the bill. Motion dismissed. Costs in the cause. Hartford Gas Co.—C. C. Robinson, for defendants, moved for an amendment of defence, and to require addition of a party. N. G. Heyd, for plaintiff, contra. Motion referred to trial judge.

Copeland v. Business Systems—W. H. Irving, for defendants, moved to amend order made on May 23, 1908. W. E. Fane, for plaintiff, contra. Motion dismissed. There was no power in the first instance to make the order so far as it assumed to dispose of the order. The fact that it cannot now be amended without consent of the court was not pleaded. It was held that there was power to make the order, and that the order was valid. The costs will be to the plaintiffs in any event on the final taxation in whatever account it belongs to.

Single Court.

Before Meredith, C.J. Shortreed v. Raven Lake—A. E. H. Creswick, K.C., for plaintiff, on motion for delivery of estate. H. T. Kelly, for liquidator of defendant company. Motion enlarged for one week. Fessenden v. Delaney—J. T. White, for plaintiff, on motion for injunction. The defendants having assigned the patent since motion was made, no order, except that costs be costs in the cause. McLeod v. Crawford—J. B. Holden, for plaintiff, moved for an order for costs against defendant. S. R. Clarke, for defendant, moved for an order for costs against plaintiff. Held that applicant's proper course would have been to apply to the local master of titles to remove the notice from the files, and motion dismissed with costs, but without prejudice to any application to be made to the local master of titles.

Election Court.

Before Meredith, C.J. Re North Perth Election—G. F. Shepley, K.C., and R. T. Hardwick (Stratford), for respondent, J. Bicknell, K.C., and J. Bain, K.C., for the petitioners, contra. Judgment (B). A summary trial of the preliminary objections filed by respondent, and motion by the petitioner for an order extending nunc pro tunc the time for presenting the petition until Dec. 7, 1908, and for an order confirming and declaring presented within the time so extended the petition, and confirming nunc pro tunc the service of the petition, and all subsequent proceedings thereon. The petition was delivered to the registrar on the 12th day of March, according to the provisions of section 12 of the Sontrevated Elections Act, a petition against the return of the respondent was filed. The petition was not delivered at the office of the registrar, but at his residence and after some hours, three hours and twelve minutes after his office had been closed, and upon receiving it and the prescribed deposit, the registrar endorsed on the petition the following memorandum: "Received at 4 1/2 p.m., on Dec. 6, 1908 (after office closed), at my house," and the petition was treated and was marked by him as filed on Dec. 7, 1908.

The respondent objects that the petition was not presented within the time limited by section 12, and it is conceded by the petitioner that if it is to be treated as presented on Dec. 7, it is still presented too late, and that the objection is entitled to prevail unless the court has power now

to enlarge the time for presenting it and the time is extended by the court. The preliminary objection is allowed with costs, and motion to extend time refused with costs.

Divisional Court.

Before Mulock, C.J., Magee, J., Clute, J., Morton v. Smith—C. A. Moss, for the defendant, appealed from the judgment of Britton, J., of Nov. 25, 1908. H. Cassels, K.C., for the plaintiff, contra. Plaintiff, an estate agent of Fort William, sued defendant, the owner of the Kamistiquia Hotel property, for \$900 commission at two per cent, on a sale of the said property, which it is alleged the defendant refused to carry out, pursuant to his agreement. Defendant alleged that the refusal was on the part of the purchaser, who alleged misrepresentation by the plaintiff, by which he was induced to enter into the agreement. At the trial judgment was given for the plaintiff for \$900 and costs. Appeal argued and dismissed. McKinnon v. Spence—E. A. DuVernet, K.C., and F. A. McDermid (Lindsay), for plaintiff, appealed from the judgment of Falconbridge, C.J., of Jan. 4, 1908. E. D. Armour, K.C., for defendant. J. B. Spence, Sr., and A. J. Reid (Cannington), for the other defendants, contra. The action was by the daughters of the deceased Spence of Mariposa, in Victoria County, against their brother, for construction of their father's will, and to have the rights and interests of all the parties determined. At the trial judgment was given declaring that the statute of limitations furnished a defence to all plaintiffs' claims and dismissed the action with costs, but defendant, by his counsel, expressing his willingness to pay two of the plaintiffs their legacies of \$100 each, judgment directed him so to do. Plaintiffs' appeal from this judgment. Appeal argued and judgment reserved.

GOVERNMENT TO PAY 20 P C IN ELIMINATING GRADES

Mr. Graham's Resolution Does Not Stipulate What Percentage Municipalities Must Pay.

OTTAWA, March 11.—(Special).—Mr. Graham's resolution to contribute \$200,000 a year for five years to the expense of eliminating the deadly level crossings of Canada was before the house this afternoon. The board of commissioners is empowered to fix the amount the Dominion shall pay up to 20 per cent of the cost of elimination and not exceeding \$4000, each crossing not to exceed four tracks, and where there are five or more tracks it shall be regarded as two crossings; and not more than three crossings in one place. In one year shall be contributed to. There is no provision as to the percentage the municipalities must pay. The resolution will also bring in a bill to amend the Railway Act, and in addition to giving the board power to assess the federal power for the elimination of grade crossings. Mr. Graham declared that it was not necessary for him to argue that a situation requiring a remedy existed. There were conditions where all the expense should be borne by the railways and the municipalities and the cost would be left to the municipalities. Crossings to be constructed in the future shall be projected in the interest of the railway. When highways are constructed after the railway the board shall have the authority to fix the amount, Municipalities shall be required to contribute a certain percentage of the cost of the crossing. A clause is included to permit railways to place along their lines their lines not on their own property, conditions to be laid down by the board. Another clause gives a railway two years after the plan to obtain title to right of way. This would not interfere with existing litigation. Mr. Graham said he had written to the necessary powers. He had received a reply from Premier Whitney approving the movement. Mr. Haggart said the bill was a step in the right direction, but what of the jurisdiction of the federal authority to change the construction of the crossings? Mr. Blain pointed out that the bill provided for the limitation of the construction to crossings of four tracks. He had in mind a dangerous crossing of five tracks. Mr. Graham replied that a crossing of the description would be two crossings and the contribution might be as much as \$10,000. He had tried to get away from any viaduct scheme. To Mr. Wright (Quebec) Mr. Graham said the board had the power to deal with crossings in unorganized settlements. John Stanfield asked what about government railways and the minister informed him that he had asked for an appropriation for the elimination of level crossings on the Intercolonial.

Spring Clothing For Boys

To transform this huge department of boys' wear from its Wintry aspect to a veritable exhibition of bright Spring materials and jaunty Spring styles is a matter for a whole season's planning and continuous preparation.

With that fact in mind you may conceive some idea of what vast assortments of new suits and top coats have been ushered into place when we announce that—

SPRING CLOTHING STOCKS ARE NOW IN SPLENDID READINESS

And we've made strong efforts to improve the tailorwork and better the styles throughout.

DETECTIVE BEVELS BODY FELL TO FLOOR FROM CHAIR

Continued From Page 1.

of months before she went to Richmond. "You were opposed to her going to Richmond?"

"I didn't like it," she said. "Her sister Ethel also." "Yes, we hated to part with her. The girls were much attached."

Witness learned of Florence's connection with the theatre on her return from Portsmouth, August, 1908. Florence went back to Virginia in the early part of October.

She saw through the glass vestibule of the door that a man was very close to the outer door. He had his mouth to the keyhole. Witness then asked through the keyhole what he wanted.

Mrs. Kinrade didn't turn on the lights that night, thinking that any chance beggars would think the occupants of the house were out.

Ernest sometimes talked with his father about houses he was selling. He always consulted his father in such matters. Ernest was at the house on a business matter a short time before.

On the morning of the murder neither Mrs. Kinrade nor Ethel was out of the house. She didn't remember any caller save the grocer. They had dinner at 12:30 p.m. They discussed a mark on the wall near her daughter Gertrude.

Witness said that Ernest sometimes received money in connection with business transactions. The examiner questioned closely as to when Ernest had been last there on a business matter, and Mrs. Kinrade said that she was out of the house.

"I don't know, but it was 4 o'clock when I reached the police station," she said, and after that effort to get out of the house she thought she left home about 3 o'clock.

Witness then said she wasn't sure and got protection from tramps. At the station she was advised to go to Bethel Mission regarding the meal tickets.

relation to the clew they afforded of the Kinrade home.

D. M. Brown, grocer at the corner of Arroling and Herkimer-streets, said that while he was sending wire phoning in his store for police, Florence came in.

Dr. McNeil called. Dr. McNeil was then called. Mr. Blackstock resumed examination. He lived one block south of Kinrade's house.

Several people asked him to go to Florence at Mrs. Hickey's. He had nothing but an impression as to how long the girl had been dead. No medical man could tell within an hour.

Mr. Blackstock, in conclusion, asked her if there was anything she wished to say, as he didn't want her to feel that she was being misapprehended.

Ernest Kinrade, the married brother, and the oldest member of the family, was the next witness. Luke Copley had telephoned him at his home at 4:30 p.m. on the day of the murder.

Ernest Kinrade, the married brother, and the oldest member of the family, was the next witness. Luke Copley had telephoned him at his home at 4:30 p.m. on the day of the murder.

Asked if they appeared to be affected by anything, he replied that he was very nervous. "You bet they were." There had not been any business relations of importance between him and the other party.

Witness said that Ernest sometimes received money in connection with business transactions. The examiner questioned closely as to when Ernest had been last there on a business matter, and Mrs. Kinrade said that she was out of the house.

Day's Doings in YORK COUNTY

RAILWAY BOARD WANTS CITY TO CONSIDER TERMS

Held Midway Petitions Over for a Month—Annexation Practically Assured.

The annexation of the "midway" district lying between the city and East Toronto is practically assured. Chairman Letich and the other members of the railway board met with representatives from two rival camps of annexationists, or those desiring conditional and the others willing to accept unconditional terms, in the city hall yesterday, and the meeting was a most harmonious one.

West Toronto North Toronto East Toronto

For the golf club Mr. Mickle, for the unconditional petitioners John King, K.C., and for those asking terms Frank E. Hodgins, K.C., appeared.

INCREASED WATER RATE FOR MANUFACTURERS

Report is Called for by Special Committee—Parks and Property Committees Meet.

Several schemes for readjusting the water rates tariff in an endeavor to eliminate the annual deficit in this department were discussed by Controller Harrison's special committee, which met for the first time yesterday. Ald. McMurrich suggested the revenue could be raised by a frontage tax of five cents per foot and condemned the policy of laying mains on streets that were not built upon.

Continued From Page 1. trustworthiness and religious obligation by our common sense, his and mine. Try that rule on the passage of the Red Sea, the giving of the law, the fall of Jericho, the destruction of the host of Sennacherib, Myra, legend, all myth, and that stand is taken by other nationalists. Try it on the infamy of our Lord, his resurrection, the dead, his ascension into heaven, and the descent of the holy spirit. We would not accept it if it were in the Bible all myth and legend. If German rationalism or even pagan naturalism has any lower standard than that I have not seen.

THE BUDGET DEBATE

Continued From Page 1.

On its origin and ours, men better be waked, if they dwell with everlasting burnings. By another estimable brother, the author of the essay is set up as the model of our Methodist preachers, and as having done more to elevate the standard of pulpits efficiency in Canadian Methodist pulpits than other clergymen in the Dominion. That may be so; but since the collapse of the boasted and long-expected evangelism from over the waters, I doubt that my brethren are of that opinion. A pleasing speaker, an acceptable preacher and a charming man in social life, it perhaps had been well all round had the author of the paper on the first chapters of Genesis contented himself with so rich a "race and so high an attainment. I am sure it would have blessed our Methodist pulpits more than other clergymen in the Dominion. That may be so; but since the collapse of the boasted and long-expected evangelism from over the waters, I doubt that my brethren are of that opinion.

RAILWAY BOARD WANTS CITY TO CONSIDER TERMS

Held Midway Petitions Over for a Month—Annexation Practically Assured.

The annexation of the "midway" district lying between the city and East Toronto is practically assured. Chairman Letich and the other members of the railway board met with representatives from two rival camps of annexationists, or those desiring conditional and the others willing to accept unconditional terms, in the city hall yesterday, and the meeting was a most harmonious one.

INCREASED WATER RATE FOR MANUFACTURERS

Report is Called for by Special Committee—Parks and Property Committees Meet.

Several schemes for readjusting the water rates tariff in an endeavor to eliminate the annual deficit in this department were discussed by Controller Harrison's special committee, which met for the first time yesterday.

CONSUMERS' GAS COMPANY of Toronto.

NOTICE IS HEREBY GIVEN THAT the transfer book of the Consumers' Gas Company of Toronto will be closed from the 15th to the 31st of March, inclusive, and hereafter for the period of two weeks, immediately preceding the date of payment of dividends. In future dividends will be payable on the first days of April, July, October and January, instead of the first days of May, August, November and February, as heretofore.

PRaise for High Flyers

But the Canadian Government Can Do Nothing Else for Them. OTTAWA, March 11.—(Special).—Mr. Pugsley informed Col. Sam Hughes today that the question of taking over the harbor was under consideration. The member for South Ontario had not been authorized before the elections to promise that the harbor would be taken over.

So Nervous—I Would Start at Least Sound.

Miss Minnie Reid, of Teeswater, Ont., says: "I caught a cold, but very foolishly let it go on without taking much notice of it, thinking that it would soon pass off again. Instead of this it fastened upon me, until I became downright ill, and when the cold did get better it left me in a terribly weak condition and a martyr to Catarrh."

"My health was quite broken up, nor did I make any improvement. I was tired all the time, lost my appetite entirely, while the pain in my head was at times intolerable. I got so nervous that I would start at the slightest sound, until life did not seem worth living under such conditions."

"I had almost despaired of getting rid of the trouble, when a friend advised the use of PSYCHINE."

"I took several doses of PSYCHINE and the result was marvellous. The continual feeling of heaviness which had been a burden to me for so many months, and made me so wretched, was removed as by magic. My appetite returned and I was able to enjoy my food again, and my system was thoroughly built up."

"I cannot express what your medicine did for me. From being a sick, broken-down, shattered woman, it made me strong and well. The nervousness has gone and I have had no return."

If you are run down Psychine will "pick you up" in good time. An unfailing remedy for Throat, Chest, Lung and Stomach Troubles. Sold by all druggists and stores at 50c. and \$1 bottle.

DR. WOOD'S NORWAY PINE SYRUP

Is without an Equal for COUGHS, COLDS, BRONCHITIS and all Affections of the THROAT and LUNGS. All the most serious affections of the throat, the lungs and the bronchial tubes, are in the beginning but colds or coughs. Too much stress cannot be laid on this fact, and neglect to cure the cold very often causes years of suffering and in the end comes "Consumption."

Mr. J. L. Purdy, Millvale, N.S., writes:—"I have been troubled with a hard, dry cough for a long time, especially at night, but after using Dr. Wood's Norway Pine Syrup, for a few weeks, I find my cough has left me. To any person, suffering as I did, I can say that this remedy is well worth a trial. I would not be without it in the house."

So great has been the success of this wonderful remedy, it is only natural that numerous persons have tried to imitate it. Don't be humbugged into taking anything but "Dr. Wood's." Put up in a yellow wrapper; three pine trees the trade mark; price 25 cents.

DR. WOOD'S NORWAY PINE SYRUP. THE GREATEST OF TONICS FOR HEALTH AND ENERGY.

FREE Send coupon for trial of Psychine. Address: Dr. T. A. BLOCH, 1000 BROADWAY, TORONTO.

At Vancouver, B.C.—Hugh Magee, one of the wealthiest and best known pioneers of Vancouver, aged 88 years, died at his home in Vancouver, B.C., on March 10, 1908.

At St. John, N.B.—David Mitchell, school inspector for the counties of York, Sunbury and Queen's, died at his home in St. John, N.B., on March 10, 1908.

DEBENTURES

OUR NEW LIST CONTAINS PARTICULARS OF MANY HIGH-CLASS BOND OFFERINGS

We will gladly mail it on request Wood, Gundy & Co. TORONTO

VALUE OF NAVY TO CANADA

Shown in the Recent Attitude Toward

Oriental.

"Judges are but mortal," said Judge Barron at the Empire Club yesterday.

He was speaking on "Naval Defence in Canada." The prestige of Britain was the corner stone of empire, and Canada should do nothing to weaken it.

A threatened German hegemony of Europe with its 80,000,000 in prospect, and its necessity for bread and land for its people, provokes the possible cause of conflict with Britain.

Canada forbidding the transplanting of Oriental roots to her own soil and only supported by the assurance of Britain standing behind with the greatest navy the world has seen; afforded Judge Barron an opportunity to oppose the "Naval Defence of Ottawa" who at Peterboro recently stated that men had "learned the stupid fallacy of the frequent assertion that the way to secure peace is to be prepared for war."

Judge Barron urged the adoption of the principle of small flotillas, as a splendid means of repelling a sudden raid. This would preserve identity of Canada, who must fly her own flag and protect herself.

GASHED LEG KILLS FARMER.

PETERBORO, March 11.—Russell Morrison, a young farmer living near Benston, was struck on the right leg above the knee by a piece of the fly wheel of a circular saw, smashing the bone and cutting a deep gash.

Medical aid was secured as quickly as possible, but from the nature of the wound the shock received he sank rapidly.

Protection for Women.

HALIFAX, N.S., March 11.—Chaplain stationed at landing piers here will petition the Social and Moral Reform League to request the Dominion Government the passing of an act to afford immediate protection to female immigrants landing at a Canadian port similar to the act now in force in the United States.

It is alleged that young women coming to Canada from Europe alone are lured to houses of ill fame in upper and western Canadian cities and that some seem to disappear from view altogether.

Ball Road Not Acceptable.

MONTREAL, March 11.—W. S. Reed, the thermos bottle promoter, who was arrested Monday on charges of obtaining money under false pretences, was released on bail last night, but was taken again to court this morning.

Upon investigating his ball bonds, it was found that Reed had put up an accepted cheque for \$10,000, but that the money really belonged to the company, which he is accused of defrauding, altho the cheque was signed by himself and purported to be his personal bond.

C. P. R. in Portland.

MONTREAL, March 11.—That the Canadian Pacific, with its Minneapolis, St. Paul and Sault Ste. Marie connections, will soon be running trains into Portland, Oregon, and will thus be able to compete with the Hill and Harriman lines, and that Sir Thomas Shaughnessy is now on his way to St. Paul for the purpose of settling a deal that through the report current among railway officials here.

Ridgeway to Sarala.

CHATHAM, March 11.—Important extensions to the northern and southern ends of the Chatham, Wallaceburg and Lake Erie electric road are announced, subject to the decision of American financiers who are interested in the proposition. The towns of Blenheim and Ridgeway to the south and Petrolia and Sarala to the north will be tapped this summer.

Charged With Bigamy.

COROURG, March 11.—A. E. Lewis, a resident of Campbellford, was arrested here yesterday on a charge of bigamy and was taken back to the northern town for preliminary trial.

W. F. Kerr, crown attorney, will prosecute, and Mr. P. M. Field, K.C., will defend the prisoner.

The Only Double Track Route to Buffalo, New York, Montreal, Detroit and Chicago

is via Grand Trunk Railway System.

First-class equipment and excellent train service as follows: To Niagara Falls, Buffalo and New York, 9.00 a.m., 4.05 p.m., and 6.10 p.m.; to Montreal, 8.00 a.m., 8.30 p.m., and 10.15 p.m.; to Detroit and Chicago, 8.00 a.m., 4.40 p.m., and 11.00 p.m. Above trains all run daily except tickets and make all reservations at city office, northwest corner King and Yonge-streets, Phone 4209.

The Baltimore World, an afternoon paper, has been placed in the hands of receivers, but publication will continue.

MARKETS EXTREMELY LISTLESS BUT PRICES ARE MAINTAINED

Wall Street Witnesses Another Dull and Uneventful Day—Investment Stocks Firm at Toronto

World Office.

Thursday Evening, March 11.

The Toronto stock market has run into a listless situation from which at present it appears difficult to extricate it.

Specialty movements such as have occurred in Rio have no immediate influence on the general market, and to-day's operations in that security show how extensively the syndicates' movement have been followed.

Taking the speculative issue as a whole the only favorable comment in financial circles is because of the small amount of liquidation that has ensued on the decline in prices.

There was nothing in the market to-day to interest a speculator and most of these have dropped operations until times look more propitious for profit.

In investment stocks the market evinced a tendency to firm up on the morning of the 11th, but the London market at 14:1-4 and the banks traded in all sold at firm quotations.

Wall Street Pointers.

Hard coal operators and miners met in conference at Philadelphia to-day to oppose the Barrett Bill.

Bank of England rate unchanged.

Lackawanna Steel Company shows deficit for 1908 of \$1,326,275, against a surplus of \$2,443,846 in 1907.

Further concessions in plate and structural steel prices.

Iron Age says there is unmistakably more activity in the iron and steel markets than there was.

Indications still strongly against coal strike.

Pittsburg Coal Company earned 1.4 per cent. on preferred in 1908.

Lower copper prices still fail to stimulate consumptive demand.

All grades of coppers reduced 1-4 cent.

It is rumored in the board that Erie is to be put in hands of receiver.

The directors of Wisconsin Central Railway at their meeting to-day authorized a refunding first mortgage bond to exceed \$60,000,000, of which \$36,000,000 is reserved to refund existing bond and equipment obligations.

Joseph says: The latest statement from Washington is that the new tariff bill will provide no changes in sugar, copper or lead. Iron ore is to be placed on the free list, rails and billets to be substantially reduced about 30 per cent., reduction of 25 per cent. on pig iron. Reports that Harriman is ill are again positively denied.

On the 11th, the directors of Erie and C. O. Buy Lead and American Malt preferred for a turn.

Moderate extension of the rally of Wednesday afternoon may be witnessed to-day. The general list is active in the trading area. Fair returns on purchases made during the weakness yesterday morning should not be ignored by the daily trader so far as the lead tariff. Speculatively manipulation upward may be expected.

Financial Bureau.

The market's action following the Standard Oil decision disappointed the bulls and showed that the extent of the short interest had been exaggerated, and that most important interests are not working for higher prices. Outside buying is lacking and the market will continue professional, with prices more quickly reflecting bear than bull news. Bond issues, especially of the second-class, will not now be taken as reasons for an advance. The copper statement emphasizes unfavorable conditions in that trade, and the talk of cutting the lead tariff. Speculatively manipulation upward may be expected.

Financial Bureau.

More Bonds and Fuel.

NEW YORK, March 11.—The directors of the Wisconsin Central Railway to-day authorized a refunding first mortgage of \$60,000,000 of which \$36,000,000 is reserved to refund existing bonds and equipment obligations. The remainder will be issued during the next 50 years under proper restrictions.

The directors also authorized the lease of the railroad and property to the Minneapolis, St. Paul and Sault Ste. Marie.

Marie Railway for 99 years and approved the guarantee agreement negotiated by the preferred stockholders committee, providing for the issue of leased line certificates.

Bank of England Statement.

LONDON, March 11.—The weekly statement of the Bank of England shows the following changes:

Total reserve, increased.....\$1,845,000

Circulation, decreased.....384,000

Bullion, increased.....961,300

Other securities, decreased.....697,000

Public deposits, decreased.....1,473,000

Notes, increased.....1,453,000

Government securities, unchanged.

The proportion of the bank's reserve to liability this week is 50.6 per cent.; last week it was 48.4 per cent.

The rate of discount of the bank remained unchanged to-day at 3 per cent.

On Wall Street.

C. I. Hudson & Co. wired Bealy & Glasgow, 14 West King-street, the following: The stock market, after a listless day, ended about where it was yesterday. About the only exception was Erie, which has as yet developed no indication of the outcome of the conference between the adjacent operators and their men, but confidence is expressed here that the new tariff bill is introduced into the house we see little in the stock market except a few small turns of a trading character. Purchases of standard stocks are warranted on any drive.

Charles Head & Co. to R. R. Bond.

The market to-day has been the dullist yet in the present doldrum period. Probably less than 300,000 shares changed hands during the day. Erie acted as a depressing factor, declining three points on rumors of receivership, which, however, were later denied, and are not generally believed in banking circles. The stocks and bonds of that company being severely depressed, with no real news, but rumors of receivership, which were refuted. The market as a whole seems to have reached a stage of equilibrium and good absorption when standard shares are offered.

A. J. Pattison & Co. received the following at the close: The action of the list still shows the trading area to be maintained and these narrow fluctuations may continue. Any break would probably be followed by an inauguration of a big upward movement.

Railroad Earnings.

Missouri Pacific, first week March 610,000.

Missouri Pacific, first week March 610,000.

C. P. R., first week March 277,000.

COBALT--Mining Dividends May Reach \$10,000,000 This Year--GOWGANDA

LOCAL MINING STOCKS DULL BUT NIPISSING IS STRONG

New York in Advance of Local Exchanges—Nipissing Advances on Demand From That Centre.

World Office, Thursday Evening, March 11. The Toronto mining exchanges with odd exceptions were dull to-day, but not more so than other and larger exchanges.

Several of the Cobalts had a good undertone and the buying at New York of Nipissing and La Rose is having an influence on local sentiment. Nipissing stock as high as \$11 at New York and transactions followed here as high as 10.87 1/2 against the opening price of 10.30.

One of the most active issues was Temiskaming, which was forced down on a drive to 1.39, but which recovered somewhat on attempts to cover.

Beaver was also an active stock, and under pressure up till the close. Chambers-Perland and Trehewey held steady around yesterday's quotations. Otis was inactive and easier with the general trend of the market. The close of the market was anything but buoyant, but good critics are of opinion that the present weakness is more assumed than real.

AWAITING DEVELOPMENTS

One Shipments From Otis Draw a Large Number of Visitors.

All day long Thursday there was a constant stream of visitors at the offices of Warren, Gowzick and Company, 4 Colborne street. Folks here were wonderful from the Otis Mine. At times during the day the offices were quite crowded. Several more sacks of the ore have been forwarded and will be here in a few days. A lot of it is now sacked up and stored in the ore house and more is being sacked daily. This ore was taken from the 65 foot level of the main shaft, where they ran into a three inch vein carrying ore of bonanza values. High values are carried in accompanying smallite and the country rock, which is heavily impregnated with silver, for nearly a foot on each side of the vein. The shaft is being sunk almost midway between two known rich veins, No. 1 and No. 4. No. 1 is eleven inches wide and the characteristic ore of this vein as shown some time ago here by Manager Longley runs about 200 to 500 ounces to the ton. No. 1 is the vein where almost solid slabs of silver were pried out with crowbars before any development work to speak of was done. No. 4 is 100 feet from the main shaft, where the big strike of ten days ago was made, and No. 4 is a very rich vein. Cross-cuts will soon now be run to intersect both of these veins and a succession of important strikes are quite likely to take place.

Motor Boat for Boyd-Gordon.

The Boyd-Gordon Mine have purchased from the Schofield-Holden Machine Company a 20 by 4 foot 6 inch motor boat fitted with 8 horse power Schofield-Holden engine for use in the traffic. The boat will be shipped to Gowganda this morning.

RECORDER'S CABINET

Shows Some of the Possibilities of James Township.

Messrs. C. B. Murray, secretary-treasurer of the Marcell Mines, Limited, and Mr. E. J. Dobie, vice-president, returned from a trip to Toronto, Wednesday morning after visiting several properties in James. Mr. Dobie says of his trip: "We had a fine time; the weather was perfect. Over 100 tons were met on the road here in Charlton and Elk City going in, and over 150 coming out. There is a great congestion of freight at Charlton and Englehart. We spent an hour at the Elk Lake. The silver, they have a fine surface showing of silver, Devlin and Lucky Gowfrey have produced some fine ore. At the "Carroll" a camp large enough for fifteen men has been built, also open and blacksmith shop, and they are reckoned the best in James. Vein No. 2 is being opened up and considerable native silver has been taken out. Two calcite veins come into the shaft, both carrying silver, and I had the pleasure of taking out the first native silver from the surface of vein No. 1, which is solid calcite 12 inches wide, but which will not be opened until it breaks up. A look at the sample cabinet in the recorder's office at Elk City will convince the most skeptical of the possibilities of James Township."

STEAMERS FOR GOWGANDA.

POWASSAN, March 11--(Special)--James Arthur, M.P., and D. Clark of Powassan have purchased two steamboats for Gowganda Lake. They expect to land the boats at Gowganda next week by way of Charlton. They will be prepared to handle both freight and passengers.

New York Curb.

Charles Head & Co. report the following prices from New York: Nipissing closed 10.12 1/2 to 11 high 11. 10 1/4; 1000, Bailey Cobalt 10 to 10 1/2; high 10 1/2; 2000, Buffalo, 3 to 3 1/4; Cobalt Central, 4 1/2 to 4 3/4; 4000, Crown Reserve, 2.90 to 3.00; 5000, 3.00 to 3.10; 1000, Greenhead, 2.50 to 2.60; 1000, Hargreaves, 5.50 to 5.75; Kerr Lake, 8.15 to 8.50; high 8 1/2; low 8.10; 2000, McKinnon, 5 to 5 1/2; high 5 1/2; low 5.10; 2000, Silvers Limited, 4 to 4 1/2.

GOW GANDA MINES LIMITED.

SEVERAL NEW DISTRICTS WILL PRODUCE SHIPPERS

Dividends From Various Mines Expected to Reach \$10,000,000 in 1909.

COBALT, March 11--(From the Man on the Spot)--The new veins in the Gifford-Extension section of Cobalt camp are creating renewed interest in this end of Coleman Township.

This is the section where the new shippers and coming producers will be found.

The Columbus Cobalt is one of the companies that have made the most determined efforts to find pay ore. This property is 10 chains northwest of and corners on the Gifford-Extension and directly west of the Pan Silver. At a depth of 250 feet Superintendent Shovel has encountered a two foot vein of galena carrying silver values.

On the Blackfoot 60 chains south of the Extension, a vein several inches wide and carrying native silver has been encountered a few feet from the surface.

Cobalt paid in dividends the sum of \$3,846,027 during the year 1908. It will disburse \$10,000,000 during the current year to Cobalt shareholders. Nipissing last year paid \$700,000. Its first dividend in 1909 amounted to \$800,000.

La Rose only showed for 1908 \$178,847, while its first two dividends in 1909 will approach the half million dollar mark. Temiskaming's record last year showed only \$211,000. It has already this year declared dividends to the extent of \$200,000.

Crown Reserve was only down in the 1908 list for \$70,000, and stood near the bottom. By April 15 it will have disbursed nearly half a million dollars and will be one of the leaders.

Kerr Lake and Conlaga has always stood high. Kerr Lake is bound to make a big increase over last year.

Right Way and City Cobalt stood near the bottom last year, but will make a different showing in 1909.

Cobalt Central did not appear among the dividend-payers of 1908, but its quarterly dividend of 1909 meant the distribution of nearly \$100,000.

Nova Scotia will soon figure on the dividend-paying list, but its quarterly cutters will also make their appearance and the estimate of ten millions in dividends during 1909 will not prove as optimistic as the figures for 1908.

The new camps of the north will bring into existence some new shippers. These will probably be found in the unworked territory in South Lorraine and in the Elk, Le Roy and Miller lakes sections. The arrival of the iron horse must occur before the mines can be opened up and shipments.

The camp in South Lorraine has already produced one shipper, and the Wettlaufer should be a producer before many months. The Halleybury Silver Mining Co. has been discovered by the Keeley, and is drifting on its vein at the 75-foot level. One of its veins carried 1000 ounces of silver to the ton on the surface. The calcite vein has not been found, but fair values have been got. This company may lease its property.

The work being done on the Alexander lot in Coleman Township just north of the Silver Mountain lot, will be encouraging for the leasers of the latter lot. The Alexander is carrying a calcite vein, supposed to be continuous with the Cobalt Central of the Bailey vein. The shaft is down about 150 feet, and will be continued to a depth of 285 feet, when drill work will be done. The vein has a width of four inches and is promising. The above shaft must be attained to get below the lake level. Good work has been done and a small plant installed. Plant consists of 60 h.p. boiler, hoist and a three-drill compressor.

Several veins have been uncovered, some carry low silver values. E. W. Belder has charge of the work and has had western experience, which means that he looks for values at depths.

The company has a large treasury fund and, surrounded as it is by properties on which only a small amount of development work has been done, good results at depth on the Alexander will start work on many of its neighbors.

Cobalt Leasers, Limited, is working by diamond drill on the leased property in Peterson Lake, near the outlet of Cart Lake. Two strong fissures will be cut at a depth of from 75 to 100 feet, and surface indications were very promising. Messrs. Thos. Jones and Buir Leyson of Cobalt are among the most largely interested shareholders in this company. The company is capitalized at \$75,000, and the stock is held entirely in Cobalt, Halleybury and New Liskeard. The leasing system is slowly but surely making headway in the camp.

Little is heard in the press of the Maple Mountain section, near Lake Lady Evelyn, but it will produce shippers during the year. Good work has been done on the Darby and Whyte claims. The latter is known as Canadian Ore. A good plant has been installed and a couple of cars of ore will be shipped when navigation opens. Other properties where work is being done are the Montreal River Silver Mines, known as T. R. 284, where a three inch wide--cobalt, carrying fair silver values.

The Nettleton, Le Roy, Enright, Darby Mountain and Maple Mountain companies are all doing genuine development on their claims.

Frank Burr Masure.

CAPITAL \$100,000

I am offering 30,000 Shares at 25c., par value. Write for Prospectus and particulars

G. B. CATES, Broker

71 Adelaide Street East, Toronto, Ont. Phone M. 5182.

In compliance with "Sec. 99," Ontario Companies' Act, I give the following information: Directors, to qualify, must hold one or more shares. Under agreement, dated 14th of January, 1909, which may be inspected at Head Office of the Company, the entire Capital Stock of the Company has been allotted to J. T. Thompson as fully paid and non-assessable for the Companies' properties, 40 acres each, from which assays of 671, 884 and 967 ounces of silver to the ton have been made. The balance of 100,000 shares to be paid on sale of stock to be sold at 25c per share. Out of the sale of this stock are to be paid \$10,000 to J. T. Thompson, Toronto, the balance \$15,000, to be used for development.

The Directors received no consideration in either stock money for their services. Usual Broker's commission of 5c per share to be paid on sale of stock. No payment to promoters other than as above set out.

Estimated preliminary expenses not to exceed \$600. Prospectus dated and filed with the Provincial Secretary the second day of February, 1909.

MAN WANTED

I have some Gowganda and Cobalt Mining Property, and want capital. A man who can syndicate these properties will be well paid for his services. Box 86, World.

GOWGANDA

We offer for sale two twenty-acre claims (40 acres) in Gowganda. These claims are butting the Reeve claims, carried 1000 ounces of silver to the ton on the surface. The calcite vein has not been found, but fair values have been got. This company may lease its property.

The work being done on the Alexander lot in Coleman Township just north of the Silver Mountain lot, will be encouraging for the leasers of the latter lot. The Alexander is carrying a calcite vein, supposed to be continuous with the Cobalt Central of the Bailey vein. The shaft is down about 150 feet, and will be continued to a depth of 285 feet, when drill work will be done. The vein has a width of four inches and is promising. COBALT DIVIDENDS.

Temiskaming Mining Co. Limited.

(NO PERSONAL LIABILITY.)

NOTICE TO SHAREHOLDERS

The Directors have declared a dividend of six per cent. on par value of each issued share, payable on April 1, 1909, to Shareholders of record on 17th March, 1909. The Transfer Books of the Company will be closed from the 17th to 25th March, 1909, both days inclusive.

ALEX FASKEN,
Secretary.

SILVER MAPLE MINES, Limited.

NOTICE OF IMPROVEMENT

Cobalt Market has the earmarks of an Advancing Prices.

The Cobalt market is showing inelegant signs of improvement. Many enquiries are coming into brokers' offices asking advice as to what stocks to buy. This indicates that the public is being impressed with the steadiness of the general market, after the prolonged decline. It is a notable fact in market movements generally that after a long period of liquidation, dullness and stagnation prevails for some time before the rise begins. When prices begin to advance greater activity is seen, and it usually happens that a new boom develops. In the last week there has been a firmer undertone in the Cobalt market, and it is regarded as an excellent sign that the firmest stocks have been the best stocks. Nipissing has been very strong for several days past and to-day advanced to \$11 in New York. La Rose is strong, as are also Kerr Lake and Crown Reserve. Hargreaves is firm, owing to the coming important developments. City of Cobalt recovered from 69 to 77. Nova Scotia, which was down to 46, has been gradually improving, and is now over 60. Peterson Lake and other low priced stocks are distinctly firmer.

Leading Cobalt brokers consider that the liquidation which for the past three months has been continuing under a pressure of an avalanche of long-distance option stock, has definitely run its course, and that chances now all favor improvement in the general market. The fact that so many enquiries are now being received by prospective purchasers, asking what to buy, indicates that the public is alive to the real situation. Silver remains above 50 cents

NOTICE--The Special Illustrated 25-cent Magazine Number of The Cobalt News Bureau of New York is now in preparation for publication at an early date.

This number will contain reports on mines and mining properties in the districts of Cobalt, South Lorraine, Montreal River and Gowganda. Special articles on subjects of interest to Cobalt investors, machinery record, stock market record, two short stories written for this number, and other subject matter of value to those interested in the development of the silver mines of Ontario.

Published on the 5th and 20th of each month. Subscription \$2.00 yearly includes this number and other special numbers.

Applications for advertising space may be made to, and subscriptions received by

HENRY C. STRYKER,

Queen's Hotel, Toronto

Ground Floor Syndicate

I have been watching the development of the new silver fields carefully and trying to get some good property that I could ask my friends to join me with. I find it hard to secure at a reasonable price, property with fair showing.

My judgment is that PROSPECTS carefully selected and offered at reasonable prices are the BEST BUYING. If they make mines the profit is enormous. If they turn out no good the loss is small.

I have a well located claim in Gowganda, quite near the good ones, with good veins, good formation, title right, assessment work done and low price. I am forming a small syndicate of 100 shares of \$50 each to pay for same, and \$1000 of this money will be used to test the claim. If considered worthy after that is expended, a company will be formed and the syndicate holders will be on the ground floor. Write for particulars.

GRAIN MARKETS ARE STEADY CASH WHEAT IN GOOD DEMAND

After a Sharp Break Chicago Market Advanced Under Good Cash Demand—Trade Light

Table with columns: World Office, Thursday Evening, March 11, Liverpool wheat futures to-day closed 4 1/2 higher, and corn 1/2 lower.

Chicago market advanced under good cash demand. Trade light. Prices very firm—sheep, lambs and calves steady—hogs firm at \$7.15 cwt.

Chicago Grain. J. P. Bickell & Co. say at the close: Wheat—After a sharp break early in the session, the market steadied and advanced.

ST. LAWRENCE MARKET. Receipts of farm produce were 400 bushels of grain, 30 loads of hay, 2 loads of straw and several tons of dressed hogs.

Market Notes. Joshua Harkin bought 12 dressed hogs at \$7.75 per cwt.

Wheat, red, bush, \$1.06 to \$1.07. Wheat, white, bush, \$1.02 to \$1.03. Rye, bush, \$0.85 to \$0.86.

NEW YORK, March 11.—Butter—Fancy creamery, firm; other grades easier; process, common to special, 1c to 2 1/2c; receipts, 2688.

Liverpool Grain and Produce. Liverpool, March 11.—Cotton—Wheat, spot firm; No. 2 red western winter, \$1.04 1/2; futures, steady, \$1.04.

London Wool Market. London, March 11.—The offerings at the wool auction sales to-day numbered 18,200 bales.

New York Grain and Produce. NEW YORK, March 11.—Flour—Receipts, 13,784 barrels; exports, 4122 barrels; sales, quiet and about steady.

Hides and Skins. Prices revised down by E. Carter & Co. as follows: Front street, Wholesale Dealers in Wool, Hides, Catfish and Sheepskins, Furs, etc.

GRAIN AND PRODUCE. Prices quoted are for outside points: Spring wheat—No. 2, \$1.01, G.T. Barley—No. 2, 58c bid; No. 2X, 58c bid.

JUSTICE IS FORGETFUL. Hunter, C. J. of British Columbia Occasions Some Embarrassment.

OTTAWA, March 11.—(Special)—The wheels of justice in British Columbia are clogged through "indisposition," "engagement at the club" and other delinquencies of Chief Justice Hunter.

One of the Seven Wonders. A lady, born and bred in Lincoln, Nebraska, taking a trip thru the Eastern States and Canada, says that the most remarkable thing she has seen in the States is the root fences.

Prospectors to Build Roads. KINGSTON, March 11.—The county roads committee has decided to utilize the prisoners in the jail for making tile for the new roads in construction in the five large townships.

THE **SIMPSON** COMPANY LIMITED

FRIDAY, MARCH 12.

Sale of \$10,000 Worth of Boots and Shoes in One Day

Extraordinary Preparations to Celebrate the Second Floor's Inauguration on Saturday.

\$2.49

\$2.49

WE have absolutely determined to make Saturday the most eventful day in the history of the Footwear Department. Not that only, but we are determined to set a new record for one day's selling of Footwear in the Dominion of Canada. We are not a whit too ambitious either, as everybody who has seen our New Boot and Shoe Department will agree. We will offer:

1,000 Pairs Queen Quality Boots for Women, Regularly \$4.00, \$4.50 and \$5.00, for **\$2.49**

420 Pairs George A. Slater's Boots for Men, Regularly up to \$6.00, for **\$2.49**

And over 3,000 others of equal value at the same price--Men's, Women's and Boys' **\$2.49**

Everybody should not aim to attend this Sale at the one time. Large though the New Department is--as big as many a truck-farm indeed--several thousand people put a severe tax upon its capacity or that of any other organization. So those that can come in the morning first thing by all means should do so, leaving the later hours for the crowds.

We will now tell in detail just what constitutes the extraordinary attractions for this remarkable event:

1000 pairs of Ladies' High-grade "Queen Quality" Boots, in ten popular styles--patent colt with dull Blucher and lace tops, fine selected vici kid with Blucher tops, Russia tan calf and chocolate kid leathers, Blucher, button and lace styles, medium and heavy soles, medium and high heels, all popular sizes 2 1/2 to 7; regular prices \$4.00, \$4.50 and \$5.00. On sale.....
