RAILWAY MEN'S CONVENTION TO-DAY

Over 300 Motormen and Conductors Gather in Toronto for Biennial Confab—President Mahon Will Succeed Himself.

The big convention of the Amalgamated Association of Street and Electric Railway Employees of America opens at the Labor Temple at 10 o'clock this morning.

W. D. Mahon, International president of the organization, who lives in Detroit, arrived yesterday, and with 20 or more other delegates, is registered at the Prince George.

Popular President. W. D. Mahon has been president of the street railway men's organization since 1905, a year after his birth as the strongest labor union in existence.

Judging from the appearance of its president, one would have the impression that an organization of which he was the chief official, would forge ahead, for W. D. Mahon is a big man in his own sphere.

"In the last two years," he said, "we have made rapid strides, and our organization now has a total membership of about 75,000, and in Chicago, of three divisions total nearly 11,000."

It is said of Mr. Mahon that no other man could defeat him as president of the organization.

"Samuel Gompers," said a local official, "couldn't beat Mahon in our organization."

Where Next? One of the most interesting matters of discussion at the convention will be deciding where the next convention is to be held in 1911.

Yesterday afternoon about 200 of the delegates, some with their wives, were given an extended ride around Toronto.

Civic Reception. The last convention of the street railway men was held in New Orleans in 1907, and at that time Toronto was decided upon as the next meeting place.

At ten o'clock this morning when the convention is opened a civic welcome will be tendered by Controller Hocken in the absence of Mayor Olliver, who has gone to St. Louis.

After this form of ceremony has been dispensed with, the business of the convention will begin.

Assembly Hall Decorated. The Assembly Hall of the Labor Temple, where the delegates will transact all business, was never more resplendent with brilliant colors.

What is locally known as committee men's business, was never more resplendent with brilliant colors.

8 KILLED IN MINE EXPLOSION. ROSLYN, Wyo., Oct. 3.—Eight men were killed and several seriously injured in an explosion in a shaft of a Northwestern Improvement Company's mine here this afternoon.

250,000 WOMEN IN BUDGET ELECTION. Various Organizations to Take an Active Part in the Coming Appeal to the People.

LONDON, Oct. 3.—It is expected that when the general election takes place women will play a greater part in the fight than ever before.

They are members of the Women's Liberal-Unionist and Tariff Reform Association, the Primrose League, the Women's Liberal Federation, the Women's National Liberal Association, the Women's Social and Political Union, the Women's Freedom League, and the Women's Union of Suffrage Societies.

Two Scalded to Death in Wreck of Freights. Head-On Collision Near Fort Frances Between a Local and a Wheat Train.

FORT FRANCES, Ont., Oct. 3.—Head-on collision occurred near Banning east of here Saturday afternoon, resulting in the death of fireman Woodcock and brakeman Lockhart, of the west bound freight.

AFGHANS FOMENT ANTI-BRITISH REVOLT

Serious Disquiet in Northern India and Punitive Expedition May Soon Have Some Brisk Fighting.

LONDON, Oct. 3.—Another expedition against the warlike Waziri tribesmen, who inhabited the northwest frontier of India, with a strong probability of the extension of the operations into Kabul, is regarded as almost a certainty of the near future by those close in touch with the Indian government.

The unrest in these regions is pronounced. Small British posts have been subjected to raids for months past, and political and military officers have been killed by the fanatical tribesmen.

Those conversant with the situation are satisfied that the agitation is being engineered from Afghanistan. Arms and ammunition are reaching the tribesmen in alarming quantities from across the Afghan frontier.

The British government admittedly the seriousness of the situation. For months past it has been trying to stop the importation of arms, and it is quite likely that the entire west of the Punjab will be closed to traffic.

Science Staffs Inadequate. And Are Underpaid—Criticism of British Vitor.

LONDON, Oct. 3.—(C. A. P.)—Lord Strathcona, interviewed by The Chronicle, said that in a decade he believed Canada would be able to supply Britain with all the breadstuffs she requires.

DOUBLE TRACK ON PRAIRIE. C. P. R. Will Make Beginning Between Brandon and Winnipeg.

MONTREAL, Oct. 3.—(Special.)—Sir Thos. Shaughnessy, who is back from the west, says that there is no truth in the report that the C. P. R. have bought the Allegheny.

POPE MUST HAVE REST. ROME, Oct. 3.—For several days past the Pope has been sick, but he continued to see visitors, hoping to overcome what his doctors believe is a cold.

FUR-LINED COATS FOR LADIES. Nothing Like Them for Wear in Our Canadian Climate.

Any night in fall or winter or spring, and every rough day in winter a fur-lined coat for ladies is indispensable.

JOY RIDER WRECKS CAR. Automobile Ditched in High Park After Furious Drive.

An employee of the Dominion Automobile Co.'s garage took one of the firm's cars out for a joy ride yesterday without permission, and in returning to the city by way of High Park wrecked the machine.

LAUNCH VEDRA BURNS. Fire of Mysterious Origin Breaks Out and Craft is Scuttled.

The gasoline launch Vedra, belonging to Bert Gibson of Winchester-street, caught fire near the ferry docks at Hanlan's Point Saturday night, and had to be scuttled to extinguish the flames.

LOST LIVES IN PRAIRIE FIRE. Woman and Two Children Perish in Alberta.

STETTLER, Alta., Oct. 3.—The wife of a farmer, Frank Grover, living ten miles southeast of Lee, and two children, lost their lives in a prairie fire.

COAL OPERATORS FACE ARREST BY U. M. W. Will Charge Conspiracy to Boost Prices—Also Charge Editor With Criminal Libel.

HALIFAX, N.S., Oct. 3.—(Special.)—Sensational developments are expected in the strike situation in Cape Breton to-morrow.

COAL OPERATORS FACE ARREST BY U. M. W. Will Charge Conspiracy to Boost Prices—Also Charge Editor With Criminal Libel.

To Our Patrons

THE TORONTO WORLD Business Office ON THE GROUND FLOOR of our new Building on Richmond-street is OPEN to the public TO-DAY.

Situated on the corner of Richmond-street and James-street extended, opposite the Methodist Book Room and the Registry Office, our new Business Office is easy of access.

We are doing business in our new Business Office ON THE GROUND FLOOR of our new building on Richmond-street this morning.

MRS. STETSON, SCIENTIST, LOSES CHURCH LICENSE

Woman With Power Second Only to That of Mrs. Eddy, is Indicted After Enquiry.

BOSTON, Oct. 3.—Mrs. Augusta F. Stetson, of New York, has not been expelled or "dismissed" from the Christian Science church, according to a statement from Fred. Farlow, chairman of the mother church committee on publication, but has had her license as a practitioner revoked.

One or other, and the first church of Christian Scientists, New York, next to the "mother church" in Boston, the most influential Christian Science church in the United States, is in danger to-day of serious division.

RIOTS FEARED IN DOUMA. Bills Will Be Introduced for Protection of People From Official Injustice.

ST. PETERSBURG, Oct. 3.—Russia's legislative year begins in October. After a conference with Premier Stolypin, a statement has been issued by M. Khomiakoff, speaker of the duma, announcing the session's program, which is more important than any since the establishment of the duma.

DIES IN A FIT. Unknown Young Man Victim of Diabetic Coma.

Shortly after being stricken in the street with diabetes, an unknown young man died in the Western Hospital last night. His complaint was considered fatal from the time it was diagnosed.

LAUNCH VEDRA BURNS. Fire of Mysterious Origin Breaks Out and Craft is Scuttled.

The gasoline launch Vedra, belonging to Bert Gibson of Winchester-street, caught fire near the ferry docks at Hanlan's Point Saturday night, and had to be scuttled to extinguish the flames.

FIREMAN NEARLY DROWNS AT A PETERBORO BLAZE

Deputy-Chief Grange Fell Unconscious in a Water-Filled Basement.

PETERBORO, Oct. 3.—(Special.)—Fire which broke out this morning at 2 o'clock in the grocery of E. F. Mason & Co. on George-street did \$15,000 damage.

JOY RIDER WRECKS CAR. Automobile Ditched in High Park After Furious Drive.

An employee of the Dominion Automobile Co.'s garage took one of the firm's cars out for a joy ride yesterday without permission, and in returning to the city by way of High Park wrecked the machine.

The Toronto World

STOP THE DRIFT.

Returns of the homesteading in the west last year indicate a total of 39,081 entries, covering 6,222,969 acres. Of these homesteaders 4028 were from Ontario. This number is exceeded only by the United States, whence came 10,522, and England 5649. The drift from Ontario to the west is creating an acute situation in the province in regard to population. It is expected that the settlement returns for the present year will show an improvement in the number of immigrants settling in Ontario, but so far these substitutes have not equalled the number of Ontario's own sons who have gone prairie-wards.

Hamilton has attained a population of 67,000 according to the figures just made up by the assessment department. But The Hamilton Herald declares that the city is merely marking time, and cites the figures for the past five years to show that in the past year the increase is practically nothing. Toronto, it is true, continues to increase. At one time Toronto was thought to be robbing the rural districts of their population, but the urban increase in Toronto is almost entirely from overseas.

PROTECTION AND EMIGRATION.

Among the incidental controversies arising in the course of the tariff reform movement in Great Britain is one that concerns the comparative prosperity in that country and in Germany. Columns of statistics have been published and as commonly happens expert handlers of figures have had no difficulty in deducing and proving to their own individual satisfaction diametrically opposite conclusions. There is one table, however, about which there is no doubt, and, so far as it goes, testifies to happier German conditions. It is that relating to the volume of emigration. In 1908 the emigrants from Germany numbered only 19,890, or 11,816 fewer than in 1907, and thus, for the first time since 1871, when the German Empire was founded, the number has fallen below 20,000.

During the economic disturbance that followed the Franco-German war emigration from Germany increased rapidly until in 1881 it reached 202,900. Protection for German industries was adopted in 1879 and the revival of trade that followed it made itself felt in 1882, when the number of emigrants began to fall and decreased steadily until 1892, when an average of 100,000 was reached. In 1894 there was a phenomenal drop to 40,964. From 1897 to 1907 the yearly mean average was 27,526, or 0.47 per cent. of the population. In 1908 the volume of German emigration represented only 3.1 per 100,000 of the population, while in 1906, the last year available, British emigration totaled 325,137, or 74.5 per 100,000 of the inhabitants.

From being chiefly an agricultural community Germany, during these thirty years, has shown a steady drift of its population towards manufactures and now approaches much more closely to the economic position of Great Britain than it did in 1879. The population has increased much more rapidly than that of Britain, but its industrial development has more than kept pace with it, and evidently there has been no considerable incentive towards seeking new homes outside the Fatherland. Germany's industrial and commercial history is a standing and incontrovertible proof that a protective policy has its uses and can be made a factor of great value in national expansion. Coupled with German thoroughness in educational and scientific methods it has made the empire a formidable rival in neutral markets and the question for the United Kingdom is whether the protection of its home market may not assist in providing and maintaining more constant employment for its toilers.

COMMON SENSE IN POLICE METHODS.

On January 1, 1908, the City of Cleveland, Ohio, on the initiative of Fred Kohler, its chief of police, adopted a new policy with regard to the treatment and arrest of persons accused of minor offences. Prior to that date the Cleveland police had followed the course prevalent all over the continent and ran everyone

In no matter what the charge and irrespective of whether or not real grounds for the arrest existed. After many years of observation and study the chief failed to see that these wholesale arrests effected any good, but became increasingly convinced that they did harm. From repeated questioning of these minor offenders it struck him that many of them had erred thru thoughtlessness, natural passion or the spirit of frolic and mischief and that the first duty of a policeman was to study the cases and to exercise discretion. Many persons, he noticed, who committed minor offences, escaped detection or were not exposed and that their escape neither hurt them nor society—on the contrary it was of advantage to both.

In an address delivered by Mr. Kohler at the convention of the International Association of Chiefs of Police, held at Buffalo some little time ago, he outlined the nature and effect of the new policy adopted in Cleveland. Before it was put in operation he personally met each division of his department and in an informal way discussed how far it should be carried. They realized first of all that to make it a success a kindly feeling was essential and after going over every violation of the law or police ordinances from various points of view it was determined that the following considerations should govern the actions of the Cleveland force:

- 1. Juveniles were never to be placed in prison, but were to be taken home or the parents sent for and the offenders turned over to them for parental correction.
2. The members of the force were to use their kindly efforts in easing the friction and ill-temper between man and man wherever and whenever it made itself manifest.
3. That the best policeman is the one who manages the offender with the least show or display of authority.

4. That some men fall thru some unfortunate circumstance and are not criminal at heart and should be treated accordingly, in which case the best results might be accomplished by a well applied reprimand.
5. Officers should have sufficient evidence of a competent character to secure conviction before even considering the imprisonment of a person on any charge whatever.
6. Any apparent violators who were not known to be of good character and reputation were to be accompanied to the precinct station, where the matter would be carefully enquired into by the officer in-charge and the proper action as specified by the common-sense policy, taken.

Immediately after this policy went into force gratifying results were shown and after seventeen months of severe test Mr. Kohler, without hesitation, claimed a great improvement in the performance of police work and that it carried out the now-accepted theory that the greatest aim of the law was the prevention of crime and the correction and reformation—not the vindictive punishment—of the offender. The Cleveland experiment is interesting and is very much on the lines followed by the principal British cities where the record of a police constable is judged not from the number of his arrests, but from the order prevailing on his beat. Here in Toronto there is undoubtedly too much laxity in accepting and laying criminal charges in connection with disputes which should properly come before the civil court. A more enlightened police policy would result as favorably for the public interest as that of Cleveland has done.

TAKES CARBOLIC ACID

In Mistake for Medicine, But Woman Will Recover.

Mrs. Wm. J. Hammetton, of 425 West Adelaide-street, took carbolic acid at her home yesterday afternoon. It is said she took it in mistake for medicine. Her son George, aged 15, said she had words with one of the boarders at dinner.

Not Enough Union Jack.

At the first meeting for the season of St. George's Society, several speakers referred to recent "flag incidents," and complained that the Union Jack was not flown as it should be on public holidays, and other national occasions. There was too much staidness to visitors from across the line. The King's birthday, Nov. 9, will be celebrated by a monster smoker. Efforts will be made to make the monthly meetings more interesting. Eminent men in arts, literature and politics will be invited to deliver lectures.

Harry Thaw, Good Samaritan.

NEW HAVEN, Ct., Oct. 3.—A telegram was received here Saturday signed Harry K. Thaw, transferring \$250 for the release of Howard Nesbitt, brother of Evelyn Nesbitt Thaw, on bail. On the receipt of the message Nesbitt was released from custody pending the appeal of his case. He was arrested a few days ago as a vagrant, and under suspicion of theft.

AT OSGOOD HALL ANNOUNCEMENTS.

- Motions set down for single court for Monday, 4th Inst., at 11 a.m.:
1. Re Ewing estate.
2. Douglas v. Greenberg.
3. Peterson Lake v. Nova Scotia.
4. Re Cough estate.
5. Re Dale and Blanshard.
6. Scully v. Bank of Toronto.
7. Re Frances Jones, a lunatic.

- Peremptory list for divisional court for Monday, 4th Inst., at 11 a.m.:
1. Seitchfield v. Evans.
2. Young v. Cashion.
3. Titchmarsh v. McConnell.
4. Holland v. Frank.
5. McCraig v. L.O.F.
6. Forrest v. Turnbull.

- Peremptory list for court of appeal for Monday, 4th Inst., at 11 a.m.:
1. McKinnon v. Harris (1st).
2. Tait v. Reisinger (1st).
3. Townshend v. Huntley v. Township of March, et al (1st).
4. Pringle v. Hutson (1st).
5. Smith v. Hill (1st).

Master's Chambers.

Before Cartwright, K.C., Master. Colverson Development Syndicate v. Mitchell.—R. C. H. Cassels, for defendant, on motion for additional security for costs to amount of \$2500. D. D. McPherson, K.C., for plaintiff, contra. Judgment: Of the large amount asked for, nearly \$8000 is for execution of commission at New York, and for copies of the evidence, the examination lasting 24 days and depositions running to nearly 3700 folios. There is a reasonable doubt as to whether this very unusual length was necessary, and whether it could not have been avoided by accepting offer of plaintiffs counsel to have the accounts and vouchers examined by an accountant. Defendant in any event is only entitled to half of the usual time in his hands \$5000 to account to plaintiffs' assignors, who are not parties. If assignors are willing to be added as plaintiffs or agree to be liable for costs, there is no necessity for security, but if no such arrangement can be made then the plaintiff must give further security in the usual time in bond for \$2000 and pay \$1800 into court.

Trust Corporation v. Lee.—Fitzgerald (Worrell & Co.), for plaintiffs, moved for order vacating in part certificate of its pendence. Order made. Re J. L. White, for executrix, moved for administration order. Order made, with reference to the estate in ordinary. Whitely v. Lecky.—F. B. Mackelcan, for defendant, moved for order extending time for service of third party notice. Order made.

Judge's Chambers. Before Hutchinson, C. J. The King v. Rudolph.—J. R. MacKenzie, for defendant, on motion for certiorari to the judge of the county court of Bruce. No order. MacKenzie, for defendant, moved for certiorari. Let certiorari go.

ATLANTIC LINER CAPTAIN NOW WOULD LEARN A LITTLE LAW.

ANN ARBOR, Mich., Oct. 3.—Captain Imman Seably, commander of the White Star Line steamer Republic, when she was sunk last February by the Italian steamer Florida, has entered the University of Michigan as a freshman law student. He is 50 years old. The collision and the litigation which has followed to determine the responsibility for the disaster has attracted attention to admiralty law and its opportunities.

President Fallieres Criticized.

PARIS, Oct. 3.—The opposition press has inaugurated a bitter campaign against President Fallieres for his neglect to attend the funeral at Versailles this week of the four army officers, who lost their lives in the destruction of the dirigible balloon Republic Sept. 25.

Local Option Field Days.

The Dominion Alliance held a local option field day on Sunday in the churches of Kincardine and Sarnia. On Sunday next meetings will be held in Oakville, Plenton, Smith's Falls, Thamesville and Merrickville.

MANIFESTATIONS OF GOD CAN ONLY BE RIGHTEOUS

Evil Has No Real Existence, Assertion of C. C. Eaton to Christian Science Meeting.

Whether Christian Science is increasing the number of its followers in Toronto or not, evidence that curiosity as to the doctrines of Mrs. Eddy is growing locally was afforded in the large gathering in the Royal Alexandra theatre yesterday afternoon. To listen to Clarence C. Eaton, C.S.B., of Tacoma, Wash. Mr. Eaton proved to be a fluent speaker, replete of voice and polished of style. His exposition was able, and owed much of its strength to the fact that almost every sentence gave direct support to the statement of the fundamental principle of Christian Science that evil and disease have none other than a fancied existence. In concluding the speaker admonished his hearers not to believe "lies circulated concerning Mrs. Eddy by those who write only to injure her."

Teachings of Christian Science.

Christian Science, he said, advanced to the solution of the perplexing problems of life by discarding all mortal speculation, theories and superstition about God. It demonstrates that He is supreme in intelligence, wisdom, power, justice, love and mercy, and therefore includes the consciousness of absolute and infinite good. It declares that God is the conscious, energizing, governing, sustaining presence of the universe, whose law means the perfection and harmonious operation of all things. He is infinite love; hence He is compassionate, tender, comforting and true.

Admitting the omnipotence of God, then logically all power is His to intelligently serve His purpose, and hence must be good in its very nature, and all His manifestations can only be righteous. Moreover, He is good, and His power must always be desirable, and His chief and only end the procurement of health, harmony and peace.

Evil can, therefore, have no real existence or power, the student of a scientific Christianity recognizes the prevalence of the lawless reign of fear, sensuality, discord, disease and death, which has desolated many generations.

In Accord With Bible.

The teaching of Christian Science, he claimed, was in exact accord with the spiritual import and application of the Bible. It sustained the divinity of Christ and gave an added significance to prayer.

Spiritual healing he declared to be an essential part of Christianity, and the duty of the minister of the gospel in his duty, in that while they would heal sin by preaching they should fall to heal the sick by practice. Christian Science was not mesmerism. Hypnotism was un-Christian in its application and might be devilish in its results. There was nothing bordering on the spectacular, no playing on the emotions in Christian Science.

He paid a strong tribute to Rev. Mary Baker Eddy, the founder of Christian Science, who he declared had suffered patiently the persecution of mortals. The promises of Christian Science were to abolish forever the belief in evil, sickness, death and hell. It supplied the satisfying and sustaining bread of life, and not the hypocritical stone of ecclesiasticism. It had already accomplished much on behalf of the good of the world.

Local Option Field Days.

The Dominion Alliance held a local option field day on Sunday in the churches of Kincardine and Sarnia. On Sunday next meetings will be held in Oakville, Plenton, Smith's Falls, Thamesville and Merrickville.

EATON'S DAILY STORE NEWS Right Headwear for Hunters

We don't expect luxury on a hunting trip, but comfort we MAY have. The right hat makes for comfort. And a fine assortment of fresh new goods has just rolled in here now, offering hunters the best of choice in RIGHT HEADWEAR. Corduroy or corduroy and leather, rounded and flat crowns, turn bands for the cold weather you'll meet with. And the prices at

G.P.R. WELL DISPOSED TOWARDS SMOKE BYLAW

But Employees Complain That Company Uses It to Prevent Their Advance.

A peculiar feature in the working out of the city's smoke prevention bylaw is that while apparently very unpopular with the Grand Trunk officials, the executive heads of the C. P. R. appear cordially disposed towards it, and the resentment is confined to the firemen of the latter railway. Some of the men are very bitter in their complaints, and there is talk among them of petitioning the city to abolish the bylaw so far as it applies to locomotives, but they are restrained from doing so by fear of their own officials.

The source of the grievance is that the company has inspectors, whose duty it is to report any instance in which a locomotive in the local yards discharges "dense or opaque" smoke for a period of six minutes in any given hour. The result of such reports is that the fireman gets a demerit mark which means a setback for his promotional aspirations.

The city's inspector only gives a portion of his time to observing the puffings of the locomotives, and the fact that he reported only 12 inspections of both C.P.R. and G.T.R. engines from Aug. 9 to Sept. 20, doesn't indicate any doggedly vindictive pursuit such as Grand Trunk officials hint at. Since the beginning of the year, however, the C.P.R.'s own inspectors have made 127 inspections, covering 49 engines, or an average of 15 a month, and the firemen don't relish their zeal.

What Mr. Harris Says. Property Commissioner Harris, who is designated the "smoke bylaw man," doesn't agree with the view that the enactment is as a club which misuses

the railways and smites the hapless employees. He says that no fireman need ever get a black mark if he works systematically. If, however, he throws in half a dozen big shovelfuls of coal and then proceeds to enjoy a smoke, the inspector may pounce on him. The C. P. R.'s attitude is markedly different from that of the Grand Trunk. The railways won a joint victory over the city when the railway commission declined to lay the onus of inspection on the companies, but the C.P.R. politely informed the civic authorities that it believed the bylaw fair and workable and would co-operate with the city by appointing its own inspectors.

The city has had little to complain of so far as smoke nuisance from C.P.R. locomotives is concerned. In no case has there been a resort to law. Mr. Harris objected to the smoke belching from the plant at West Toronto, and the railway wrote him advising him of an appropriation to equip the furnaces so as to comply with the law.

Bylaw Here to Stay. As to any suggestion of repealing the law, Mr. Harris intimated that it would hardly be considered. He said it would mean a menace to health and property from the West Toronto yards to the Don along the whole southern section of the city. Before the bylaw became operative, that section was frequently overhung with a dense smoky pall, due chiefly to the locomotives, and that the improvement had been very noticeable.

Mr. Harris referred to the proposal now before the Chicago civic authorities to compel all steam railways to electrify their systems within eight miles of the city hall by Jan. 1, 1912, for the purpose of getting rid of the smoke nuisance. If the ordinance carries, it will mean that the railways must expend \$150,000,000.

Stratford's Population. STRATFORD, Oct. 3.—(Special.)—Stratford's assessment figures for 1909 show an increase in population of 230, making a total of 14,778. The increase in the total taxable property is \$540,965, making the total \$7,176,215, and the advance in the total valuation of real property is \$455,645, bringing the total up to \$7,631,860.

FATAL FALL FROM TREE Farmer's Son Breaks Back in Two Places.

BLENHEIM, Oct. 3.—Milton, the 20-year-old son of J. T. McPherson, a farmer near here, stopped to climb a hickory-nut tree on his way home from the back farm yesterday afternoon, and fell 40 feet to the ground. He was discovered that his spine had been fractured in two places and dislocated. His hope is entertained for his recovery.

PETERBORO IS GROWING. PETERBORO, Oct. 3.—(Special.)—Peterboro's population is 16,902, and the total assessment \$8,822,218. The increase in population over last year is 416. The assessment last year was \$8,591,118.

Bible Class Federation. At a largely attended meeting of the Toronto Adult Bible Class Federation, in Bloor-street Presbyterian Church, the following officers were elected: Chairman, W. S. Kirkland, M.A.; First Vice-chairman, J. S. Robertson; Second Vice-chairman, W. E. Tresidder; Secretary, A. E. Hardy; Treasurer, Miss A. Moffatt; Councillors, Rev. George J. Miller, Rev. John Pollock, Rev. Frank Welch, J. A. Jackson, Rev. J. C. Robertson, S. T. Bartlett and B. W. Merrill.

Arrangements were made for the Bible class demonstrations to be held at the Provincial Sunday School Convention in West Toronto, in October, training class to be held in the Y.M.C.A. and taught by Prof. McMillin, of the McMaster University.

Farmer Drops Dead. PICTON, Oct. 3.—George Robbins, a well-known farmer of this county, dropped dead on the street Saturday. Deceased was about 60 years of age.

WESLEY'S EARLY LIFE
NEW DETAILS FOUND
Translations of Diaries and Manu-
scripts Shed Fresh Light
on Career.

LONDON, Oct. 3.—The publication of
the results of Prof. Wallace's Shake-
spearean research has overshadowed
the announcement of one of the
most remarkable achievements of recent
literary research, which has just been
carefully collected in England and America.

These documents, the existence of which
has grown mythical, were traced. Their
contents were written in a curiously and
elaborate abbreviate hand, which has
been deciphered, and in a highly com-
plex and keyless cipher. Rev. Nehemiah Cur-
nock, with the assistance of expert stu-
dents, spent four years in the work of
deciphering the cipher, used chiefly in
reference to him in a volume of his
beliefs. The cipher for a long time baffled
Mr. Curnock, but a missing letter at
last came to him in a dream.

The documents throw a new and
strange light on the development of Wes-
ley's character, on his literary, political
and social activity in America, on the
part he played in the evolution of a new
religion, and on his early life
at Oxford. New versions of early jour-
nals have come to light, including a beau-
tiful account of the famous Georgian love
affair. The discoveries will necessitate
the rewriting of the great religious teach-
er's life.

The Shakespeare Reading Society is
much perturbed by Prof. Wallace's claim
that he has settled the site of the Globe
Theatre. This has long been held to have
been on a portion of the ground on which
Barley's historic brewery stands, and
Friday next will be fixed for the un-
veiling by Sir Beverton Tree of a bronze
memorial tablet.

newly appointed professor of New Testa-
ment exegesis at Knox College, stating
that he will sail from Glasgow on
Oct. 15, and take up his duties at once.

TRAVELER VICE-PROVOST
PREACHES FIRST SERMON

Rev. J. P. D. Lloyd In Address To
Students, Urges Them To
Greater Efforts.

The Rev. J. P. D. Lloyd, D.D., newly
appointed vice-provost of Trinity
College, made his first public appear-
ance in Toronto yesterday morning, de-
livering an interesting sermon in the
college chapel from the subject, "So
run that ye may obtain."

Dr. Lloyd is already well known
here although most of his ministerial life
has been spent in the United States.
He was born in England and educated
in this country chiefly by private tutors
and afterwards at the Divisadero
College in Montreal. He took his
degree in divinity both as bachelor and
doctor from Trinity. For twelve years
he occupied the rectorship of St.
Mark's, Seattle, and was twice a de-
puty to the general convention of the
Episcopal church in the States, and a
member of its committee on the
ministerial work at Trinity will be in
general the provost, Rev. Dr. Macklem.

Work on the filtration plant, it is
claimed, is included in this clause and
a deputation was appointed to visit on
Monday the works at the plant. The
experience of religion, the personal
problems of human imperfection, the
question of self-mastery, the questions
of each man's duty to himself, to his
own spirit, for the battle ground of
character and individual progress. It
has upon the right solution of all these
matters, in other words, was upon
the creation of character and man-
liness, that one's power to meet the
second class of problems depended.

SPANISH REINFORCEMENTS
Cabinet Determination to Try and End
the War.

MADRID, Oct. 3.—There is an ab-
sence of news from the front since
Gen. Marina, commander of the Span-
ish forces at Melilla, opened the offen-
sive on Friday, Oct. 1. The occur-
rence of the Moor and the Spanish
losses have convinced the government
that the war is not yet over, and too
many soldiers would be ordered to
be sent to the capture of Mount Gur-
uga.

Following last night's decision by the
cabinet to send a new division to Mor-
occo, Premier Maurya to-night announced
that he wished to end the campaign
as quickly as possible, and that there-
fore the reinforcements that he had
ordered would be limited to the
replacements that he needed.

The Moors are reported to be con-
quering the mountain of Argain,
which is almost equally as dangerous of access
as Mount Guruga, and must be dis-
lodged.

There are persistent reports here
that Alul Hafid is secretly encourag-
ing a holy war and urging the tribes-
men of the Rif to join him, and to
expel the Moors from the country. There is no
confirmation of this.

Despatches to the Madrid newspapers
from Gibraltar and the Rif have
been received, and the Rifians are
reported to be in possession of the
Moroccan government. Great
quantities of guns and ammuni-
tion of Moroccan pattern destined for
the Moroccan government, Great
Britain, and the Rifians, have been
informed of the situation and are try-
ing to prevent a collision.

WHALER CRUSHED IN ICE
Crew Rescued—Gruesome Story of
Eskimo Privation.

ST. JOHN'S, Nfld., Oct. 3.—Tragedy in
the icy wastes of the far north formed
the burden of the news brought to this
port to-day by the Hudson Bay Com-
pany's steamer Adventure, which arrived
with the crew of the lost Dundee whaler
Paradox, and the story of an Eskimo
who, driven to cannibalism by starvation,
ate his child, and shooting several neigh-
bors who attempted to save him, fled into
the trackless wilderness of ice.

The Paradox, one of the fleet of Dundee
whalers, met the fate of her companion
ship Snowdrop, when she was crushed in
ice floes off Baffinland early in
August, a year ago. The crew, with
scanty provisions, was driven to the
mainland, and were picked up by the
British whaler, which took them to
St. John's.

\$25,000 BONUS TO EMPLOYES
NEW YORK, Oct. 3.—Employees of
the Interborough Rapid Transit Com-
pany will receive \$25,000 this week, to be
distributed both among the sulway
and elevated forces as a token of the
company's gratitude for their efficient
handling of the unprecedented
crowds of the Hudson-Fulton celebra-
tion without a single serious accident.

Shot at Wife and Kills Self.
NEW YORK, Oct. 3.—Enraged at his
wife's breach of faith, a special delin-
quent in the employ of the Interborough
Rapid Transit Company, shot at her with
a revolver to-day, and when he saw her
fall, turned the weapon against himself
and blew out his brains. His wife had
just returned.

GAY FAIR WAGE CLAUSE
NOT PROPERLY ENFORCED

Federated Building Trades Council
Not Satisfied With Conditions
on Filtration Plant.

A meeting of the Federated Building
Trades Council was held in the Labor
Temple on Saturday night to discuss
the fair wage clause, which the coun-
cil does not properly enforce by the
board of control in connection with
the construction of the new filtration
plant. Much dissatisfaction was
expressed, and a reply from the board
to the complaint made by the coun-
cil.

City Engineer Rust, according to the
explanation received by the council,
had informed the board of control that
only unskilled labor was employed by
the contractors on the filtration plant,
and that the board should be satisfied
with the conditions. The council,
however, was denied in the meeting
by some of the members. Carpenters,
they say, were employed and working
nine hours a day, but only received
eight hours wages, whereas they
should be paid for the extra hour's
labor. Others were employed on work
which calls for skilled men, who
should command at least \$3.50 per day
for eight hours instead of \$2 for nine
hours.

The employment of alleged skilled la-
bor is said to be directly contrary to
the fair wage clause, and in which
the fair wage clause is said to be
violated. The union claims that only
skilled labor should be em-
ployed on certain classes of the work.

This union further alleges that the
board of control is in violation of cer-
tain provisions of the contract, which
classification is recognized all over the
continent. The clauses read: "The
board shall have jurisdiction over cer-
tain classes of work, which classifica-
tion is recognized all over the contin-
ent."

Work on the filtration plant, it is
claimed, is included in this clause and
a deputation was appointed to visit on
Monday the works at the plant. The
experience of religion, the personal
problems of human imperfection, the
question of self-mastery, the questions
of each man's duty to himself, to his
own spirit, for the battle ground of
character and individual progress. It
has upon the right solution of all these
matters, in other words, was upon
the creation of character and man-
liness, that one's power to meet the
second class of problems depended.

High Speed in Typewriting.
A series of typewriting contests were
held last week in New York. The
winner was a woman named Mrs.
L. Fritz, the famous Underwood oper-
ator, who maintained a speed of 102
words a minute for one hour.

WAS TAFT IN DANGER?
Young Man Arrested on Suspicion at
Portland, Oregon.

PORTLAND, Oregon, Oct. 3.—There
was but one untoward incident in
the celebration of the arrival of
the arrest of a man who carried a
camera, and whose efforts to get into
the front rank of spectators just as
the president was about to appear.

Wright states that he is a draftsman
in the employ of the Mount Hope Com-
pany, and that he had been on duty
at the front rank of spectators just as
the president was about to appear.

OLD MAN'S SUDDEN DEATH.
Thought Penitent, Leaves Over
\$4000 in Bank.

Alexander McRoberts, a Scotchman,
aged about 75 years, died suddenly in a
scantly furnished room on the second
floor of 377 St. Andrew's street yester-
day afternoon, and was found by
a man taking charge of the police was
taken charge of by the police was

Day's Doings
in YORK COUNTY

West Toronto
North Toronto
East Toronto

WESTON FAIR WAS THE
"BEST EVER HELD THERE"
Nearly 5000 People on Grounds—
North and West Toronto News—
County Matters.

WESTON, Oct. 2.—(Special.)—Weston
fair, held on the grounds of the
Society on the banks of the Hamden
River, on Saturday afternoon, in the
attendance of visitors, number and ex-
cellence of the exhibits and in all the
essentials of a purely agricultural show
was a wonderful success. It was a
splendid tribute to the energy of the
men who established it, the magnifi-
cent stretch of country tributary to it
and the enterprise of the people of
Weston in general.

For the first time in its history the
directors inaugurated a two days' fair,
the first of which, held on Thursday,
was devoted to the school parade and
field sports following, and in which
more than 1000 of the people of the town
and county participated. It was a
great day and one that will not soon
be forgotten in West York.

On Saturday afternoon the fair took
on all the airs of a big exposition,
and fully 5000 visitors saw the best
show of horses, cattle, sheep and swine,
poultry, dairy products, fine arts and
manufacturing interests ever shown in
West York.

The weather during the afternoon
was fairly propitious and hundreds of
city people went out to see a fair con-
sidered one of the best of the season.
The fair was held on the grounds of the
Society on the banks of the Hamden
River, on Saturday afternoon, in the
attendance of visitors, number and ex-
cellence of the exhibits and in all the
essentials of a purely agricultural show
was a wonderful success.

While all the officers worked like
Trojans, George W. Verral, president;
J. E. Clarke, vice-president; Tom
Griffith, second vice-president; Henry
Pearson, secretary-treasurer, and W.

On Tuesday evening in Eglington
Methodist Church, J. L. Forster, who
was one of the party chosen to
attend the great Sunday school conven-
tion in the Holy Land, will lecture on
topics pertaining to the memorable
trip. The members are fortunate in
securing Mr. Forster's services, and
there will doubtless be a large attend-
ance.

The members of the town council
and Engineer Murray gave well the
secret proceedings contained in the
minutes of the meeting of Friday night,
when they discussed pro and con the
submission or rejection of the original
sewerage by-law voted on in July last.

In Eglington Presbyterian Church to-
day, Rev. M. Back gave an excellent
discourse before a large gathering.

General regret is expressed around
the report that Township
Treasurer Sam Armstrong, whose resi-
dence is a short distance south of the
town hall on Yonge-street, is seriously
ill with typhoid fever. Mr. Armstrong
recently returned from a short trip to
Cobalt.

One or two of the finance committees
of the town have been meeting to-
morrow night, and on Tuesday evening
council will meet.

EAST TORONTO.
EAST TORONTO, Oct. 3.—The men
of the city registry office held their
annual reception at Friday night, on
the grounds of A. E. Ames, "Glen Stewart,"
on Saturday. After enjoying their
feast in the afternoon, the registry
office social society for the Beach and
East Toronto Y.M.C.A.

Early yesterday morning the fire
brigade of East Toronto were called
to a house on the corner of the
Beach and East Toronto Y.M.C.A.
road, Mr. Hewitt who owns the house
has an estimate of \$150 damage.

A well attended meeting of the pro-
gramme social society for the Beach and
East Toronto, was held at the Balmly
Beach College last week.

The society will be with a member-
ship of 75 votes, and has been assur-
ing the support of a number of promi-
nent residents of that part of the city,
who have realized that this very desir-
able element should be provided for.

It was decided that the work for the
coming season should consist of a study
of part song singing and a choice of the
best available music of the class
will be made by the committee in
charge of this part of the organization,
and a most enjoyable and instructive
season is anticipated.

DOVERCOURT.
The next week's gospel meet-
ing in connection with Davenport-road
Church (Presbyterian), will be held at
the residence of Mr. Switzer, 1059 Daven-
port-road, Thursday, 7th Oct., at 8
o'clock. These gatherings help those
who attend to get acquainted with
God and with one another.

Pastor Russell's Sermon

God's Promise—Text, "The Blessing of the Lord, It Maketh Rich; and He Addeth No Sorrow Therewith" (Proverbs x, 22).

Pastor Russell of Brooklyn's Tabernacle preached Sunday on the above text. He said: Looking about us in the world we find abundant evidence that instead of the Divine blessing resting upon the earth there is a "curse" or a blight upon it.

Still the question arises, Why should humanity be so differently circumstanced from the angels? Why should not holiness and purity and freedom from sorrows and pain and despair fall on earth as well as in heaven?

The Bible alone answers our query. It explains that originally our race was created perfect, in the image of God, sinless, holy, pure, happy, and Eden home was paradisaic, the garden of God.

The turning point to destruction was 6000 years ago, and, altho the blessing of restitution was declared from the very first by all the holy prophets, nevertheless the return was actually possible until the Redeemer came and laid down His life as the ransom price for the sins of the whole world.

A Race of Convicts We are a race of convicts, and the conditions of blessing which we win by a view to speeding us onward to the tomb—to the fulfillment of our "curse" or sentence of death.

The promise of a new covenant indicated by St. Paul in that he said, "Who shall stand when He appeareth?" Expecting Messiah to appear in a very different way, I was unprepared for the "man of sorrow and acquainted with grief."

Having considered the divine explanation of the curse of sin and death in this world, and having found it true to all the circumstances and facts, let us now with confidence turn to the same record, the Bible, for an explanation of what blessings God has in reservation for the saints, and also for the world in general.

Mr. and Mrs. Frank A. Kent of Madison, Wis., returned from Muskoka, Ont., on Oct. 3. Mrs. W. S. Calvert of Stratford, and J. B. Hunter and Mrs. Hunter of Ottawa, are the guests of Mrs. F. G. Inwood, in Glen-road.

IN SOCIETY.

The engagement is announced of Miss Victoria May Benson, daughter of Mr. Alexander Benner of Owen Sound, to Mr. Oliver M. Ross of Toronto. The marriage will take place privately on Oct. 9.

Mrs. W. S. Calvert of Stratford, and J. B. Hunter and Mrs. Hunter of Ottawa, are the guests of Mrs. F. G. Inwood, in Glen-road.

Mrs. Helena M. Stauffer, who has been the guest of Mrs. Henderson, in Bartlett-avenue, has left for Vancouver.

Mrs. Herbert Burt, nee Smyth, will receive for the first time since her marriage on Thursday, Oct. 7, at her home, 115 Balsam-avenue, Balmy Beach, afternoon and evening.

Mrs. C. May and Mrs. C. Devaney, formerly of 70 Murray-street, have returned to Toronto from Muskoka.

Mrs. Howard Dean, Cleveland, Ohio, who has been the guest of Mrs. Graham, Beaconsfield-avenue, and to attend her brother's wedding, has returned to her home.

Mrs. J. C. Black has returned from Muskoka, where she spent four weeks, at the residence of Mrs. W. T. Merrick, in Admiral-road.

THIS DOCTOR'S DISTRICT 400 MILES IN LENGTH

Arduous Duties Which Befall the Physician Who is One of Dr. Grenfell's Aides.

MONTREAL, Oct. 3.—There are few doctors who have a "parish" four hundred miles in length. Dr. Grenfell, of Labrador, is probably the only medical man who can top this record, which he holds by one of his associates, Dr. Hare, who is visiting in Montreal.

Dr. Hare's headquarters are the hospital at Harrington Harbor, which is about one hundred and fifty miles from Montreal. From there he travels about his parish in a circuit of four hundred miles.

Dr. Hare has a varied career. He served as surgeon in the British army, and in that capacity went thru the Northwest rebellion of 1855.

Dr. Hare's present visit to Montreal has been taken with the object of getting acquainted with the Canadian sympathizers with Dr. Grenfell's mission among the Labrador folk.

Dr. Hare is a hearty Englishman, who has lived under many a guise, and he takes the hardships and thrilling experiences of his life in a philosophical spirit of moderation.

Dr. Hare reports that Dr. Grenfell's tour of Canada in the interests of the proposed fishermen's hospital was most successful. Dr. Grenfell secured between \$70,000 and \$100,000 and the work of building the new home for the hospital is well advanced.

Dr. Hare reports that Dr. Grenfell's tour of Canada in the interests of the proposed fishermen's hospital was most successful. Dr. Grenfell secured between \$70,000 and \$100,000 and the work of building the new home for the hospital is well advanced.

UNKNOWN MARKSMAN GRENADIERS' BEST SHOT

Private Gallichen, With Fishtail Blowing, Scores 99 Out of Possible 105.

Private C. Gallichen, hitherto unknown to fame in local marksmanship circles, won the general match in the Royal Grenadiers' rifle matches at the Long Branch range on Saturday afternoon.

The day was cloudy and a strong zig-zag (fish-tail) wind blew down the ranges from behind and to the right, and it was bitter cold.

Towards five o'clock the wind softened and the target was visible in the extra series match at 500 yards.

The proposed match between General Cotton and Lieutenant-Governor J. M. Gibson, both of whom are old timers at Wimbledon and Blenheim, will not take place on account of the Lieutenant-Governor having gone to New York City.

The Grenadiers' Chapter of the Daughter of the Empire were visitors. They went out in a specially chartered trolley car as guests of Mrs. Goodrich, and the officers present were General Cotton, Col. Macdonald, Commanding Officer of the Toronto Brigade, Lt.-Col. Goodenough, C. O. H. R. G. Col. King, sergeant and Lt.-Col. Wm. Wallace, 36th Regt. The scores:

- Regimental Match. 25—Pte. W. Latimer, B. 99. 320—Pte. W. Latimer, B. 95. 155—Pte. H. J. White, F. 95. 810—Corp. A. E. Parker, B. 94; Sgt. E. Hancock, G. 94. 89 each—Corp. N. W. BRANTFORD'S POPULATION. According to the report of the assessors, issued Saturday, Brantford has a population of 20,711, an increase of 28 over last year, and total assessment of \$1,810,305, an increase of \$380,000.

Pope Pius Chafes Over Restraints of the Winter. ROME, Oct. 3.—Cardinal Merry del Val, papal secretary of state, will return to Rome this month from Monte Carlo, where he has been spending part of the summer. During one of his weekly visits to Rome he told the Pope who he regretted that his holiness was forced to remain in Rome throughout the summer.

CHINAMAN SERIOUSLY ACCUSED. ST. THOMAS, Oct. 3.—(Special.)—Woodstock Chinaman, Charlie Lee Hing, who formerly conducted a laundry business in this city, is being brought back to this city to stand trial for alleged assault on a 15-year-old orphan girl of the city. While here the Chinaman kept her employed in his laundry at large wages. Lately he has kept a restaurant in Woodstock, and by a letter to the child offering big wages and saying there were other girls in his employ, he induced her to go to Woodstock last Monday. The child returned to Stratford Friday, and doctors found she had been drugged.

NEW M.C.R. SUPERINTENDENT. ST. THOMAS, Oct. 3.—(Special.)—Effective Oct. 1, H. Shearer, of Detroit, becomes division superintendent of the Canadian lines of the Michigan Central, vice H. H. Adams, resigned. Mr. Shearer will have his headquarters at St. Thomas.

Ignored Warnings: Are Killed. ASHTABULA, Ohio, Oct. 3.—F. Hammer, a sailor, and Mrs. Anna Phillips, a widow, disregarded the lowered gates of the warning cry of a flagman and walked upon the track of a Lakeside grade crossing at Conneaut. Both were instantly killed by a fast train.

THE BUSINESS MAN who appreciates an exhilarating, sparkling, delicious and genuinely healthful drink cannot fail to be pleased with "Canada Dry" Ginger Ale.

Made in Toronto by McLaughlin

Master Maker of Pure Temperature Beverages. Ginger Ale, Ginger Beer, Lemon Soda, Sarsaparilla, Lemon Sour, Tonic Cola.

"Canada Dry" Ginger Ale at all Good Hotels, Cafes, Restaurants, and 145 to 155 Sherbourne St. Where the Best Drinks Come From.

THE BEVERAGE FOR ALL WEATHERS.

"Epps'" means Excellence COCOA A delicious food and drink in one. A cup of "Epps'" at breakfast warms and sustains your body for hours. As a supper beverage it is perfect.

CORNER STONE IS Laid

PORT ARTHUR TO HAVE FINE COLLEGIATE Institute. PORT ARTHUR, Oct. 3.—(Special.)—The cornerstone of Port Arthur's new collegiate institute was laid Saturday afternoon in the presence of a large gathering of citizens, by James C. Dyer, district attorney.

NEW STRIKE ON MOOSE HORN.

That the Moose Horn mines at Elk City, in the northern extension of the Cobalt district, are a very valuable property, is being more fully demonstrated every day. A few days ago a new shaft was sunk to a depth of 250 feet, and a rich vein of cobalt and nickel vein has been struck.

Great Lakes Traffic.

WASHINGTON, D.C., Oct. 3.—The largest total of shipments of goods from the Great Lakes ports developed in August, according to a bulletin just issued by the bureau of statistics.

Now for the Results.

FRESNO, Oct. 3.—As an outcome of Canada's export restrictions on pulpwood, a number of the pulpwood companies are forming a company with the intention of starting a pulp mill in Prescott in the autumn, known as the Prescott factory. The price named for the property was \$35,000.

Guelpch Winter Fair.

In order to win the grant of \$25,000, the construction has been pushed so rapidly on the new buildings of the Guelpch winter fair, that it will be ready for the opening on December 6.

When Going to New York Travel Via the Only Double Track Route

Trains leave Toronto at 4:32 and 6:10 p.m. daily, via Grand Trunk and Lehigh Valley. Former train has Pullman sleeper Buffalo to New York, and 6:30 p.m. train has Pullman sleeper Toronto to New York.

Hebrew Ratepayers Organize.

The Toronto Hebrew Ratepayers' Association is being organized. The object is to encourage citizenship among members and to educate them on their duties and privileges as citizens. Officers will be elected this month.

The Lord Crucified.

Expecting Messiah to appear in a very different way, I was unprepared for the "man of sorrow and acquainted with grief."

Heart-Broken Eskimo Gives Way to Despair; North Pole Almost Lost

Human Passions Burst Forth From Exhausted Native As He Cried in Anguish, "It is Well to Die; Beyond is Impossible."

A Thrilling Incident of the Polar Search

Published by arrangement with The New York Herald on behalf of Dr. Frederick A. Cook, Registered in accordance with the copyright act by The World Newspaper Company, Toronto, Ontario, and the New York Herald Company, copyright in the United States by The New York Herald Company, copyright in the Republic of Mexico by El Imparcial, for The New York Herald Company. All rights reserved.

Synopsis of Chapters Printed.

In the first instalment of his story Dr. Fred. A. Cook told of the start from Gloucester on the "Bradley" of the voyage to the pole and of the overhauling on route of the equipment needed for the dash to the Pole. In a graphic manner, the discoverer wrote a story of Eskimo life that never has excelled for human interest. He told of the home life, the tragedy and comedy that mingle in the dreary existence of the dwellers in the Arctic, and of the child-like eagerness of the natives to trade their valuable furs and ivory for the simplest things of civilization.

In the second instalment, Dr. Cook describes the voyage to Etah and then on to Annotook, the place of plenty, which he selected as the base for his dash to the pole.

The third instalment described the work of preparing winter quarters, closing with a graphic description of a narwhal hunt.

In the fourth instalment Dr. Cook describes the approach of the long Arctic night, which caused his party at Annotook to become very active in preparing for the dash to the Pole; as well as telling how the sledges, canvas boat and food were prepared.

In the fifth instalment, Dr. Cook told of the actual start on February 18, 1908, described the equipment he took for his great final dash, and told of the gradual reduction of the party.

In the sixth instalment the discoverer told of the first progress of his little party and the last sight of land, and his adventures on the perilous trip with the two Eskimos who went to the Pole with him.

In the seventh instalment, Dr. Cook told further of the perils encountered, including an incident in which he nearly lost his life.

In the eighth instalment Dr. Cook gave a vital picture of the terrors of Arctic cold.

In the ninth instalment Dr. Cook tells of the discovery of new land, which he named Bradley Land.

NOTE: Dr. Cook's own story of his Conquest of the Pole began in The World of Sept. 15, and is being continued on alternate days.

"THE CONQUEST OF THE POLE."

(By Dr. Fred A. Cook)

TENTH INSTALMENT.

Over the newly discovered coast line of the north, the fire was lighted, while all delighted, but the other place was cold. All nature was false; we seemed to be hearing the chilled flame of our observations. The most important in determining the direction of the dash to the pole, was the bearing of the north star, which was nothing but a faint, cold, distant light. We should have enjoyed this curious experience, but with endless bodily discomforts, combined in adding misery to our already suffering glacial foliage, we could not be real joys from the glories of nature. The pleasure was derived for a later retrospect.

We now enlarged our working hours day by day, beginning usually at seven and ending at seven. The big day was the day of the dash to the pole, which fortune favored us earlier than we expected. Weather conditions were more important in determining the dash to the pole than the hands and feet of the men.

The dash to the pole was a long and arduous one, and we were not without our share of hardships. The men were not without their share of hardships, and we were not without our share of hardships.

FEWER CREVASSES SEEN IN THE ICE.

The observations of April 11 gave latitude 87 deg 20 min, longitude 85 min 19 sec. The pack disturbance of Bradley Land was less and less noted in the northward movement. The fields became heavier, larger and less crevassed. Fewer troublesome old holes were seen in the ice, and we were not without our share of hardships.

With the improved conditions, the fire of a racing spirit came for a brief spell.

We had not passed the highest reaches of all our predecessors and had gained the inspiration of the farthest north for ourselves. The time was at hand, however, to consider seriously the necessity of an early return.

Nearly half of the food allowance had been used. The men were not without their share of hardships, and we were not without our share of hardships.

TAKING OF RECORDS AUTOMATIC DUTY.

In the diary of the succeeding days' doings there appear numerous tabulations of work, such as observations, in the snow cracks, the thickness of the ice was measured. The water was examined for life. The technical details for the making and breaking of ice were studied and some attention was given to the altitude of uplifted and submerged irregularities.

Atmospheric surface water and ice temperatures were taken, the barometer was noted, the cloud formations, the weather conditions and ice drafts were tabulated. There was a continuous routine of work, which does not appear here. It belongs to the specific details of the history of the expedition, which will appear in the latter publication of scientific data.

This work, like the effect of the foot in the daily drive of duty, became more and more automatic, and does not at any time enter as an active part of our work. As we now run along, over seemingly endless fields of ice, the physical appearances come under a careful scrutiny. I watch the daily for possible signs of dangerous failure in strength, for serious disability now meant a fatal termination.

A disabled man could neither continue nor return, but every examination gave another reason to push him man endurance to the limit of the strain of every fibre and cell. The hard work which followed, under an occasional burst of burning sunbeams, brought intense thirst.

Forcing the habit of the camel, we managed to take enough water for starting to keep sufficient liquid in the veins for the day's march, but it was difficult to await the melting of the ice at camping time.

PERSPARATION TURNED TO ICE.

In two sittings—morning and evening each took an average of three-quarters of a pound of tea. I occupied another legend of the luxury of an occasional soup. There was water about everywhere, but it was not to be quenched several ounces of precipitated water, which had been carried through the pores of the skin, saturated the boots, formed a band of ice under the knee and a belt of frost about our hard lot in life, and we learned to take the torture philosophically. "From ice it comes, to ice it goes," like the other elements of the body.

TO LET

WAREHOUSE—Wholesale district, central, four floors and first basement with concrete floor, 25x37; splendid light; power hoist opening on 20-foot new, newly painted and decorated; close to King and Yonge streets.

FLOORS—Several good flats, suitable for light manufacturing, etc.

BANK OF HAMPTON

The Opening and Maintaining of a Savings Bank Account is a duty that everyone owes, both to themselves and to those dependent on them.

Market Surviving on Rumors And Militant Short Interest

World Office, Saturday Evening, Oct. 2. All ideas of investment values have long since been lost to the followers of Wall-street. These are now surviving on rumors, and the kind regards of the millionaire promoters.

The New York market, to be known at all, must be recognized as a combination of cliques, whose sole purpose is to use the exchange for securing take-offs from speculators.

How much longer can the bullish manipulation be continued, is the only point that concerns those gambling in the market. As mentioned a few days before, a big, broad flotation is in effect in this market.

Gold imports from New York and the strain on some of the banks have been the only indications during the week that the crop demands are so far able to interfere to any extent with the money situation.

THE STERLING BANK OF CANADA Offers to the public every facility which their business and responsibility warrant.

IMPERIAL BANK OF CANADA

NOTICE IS HEREBY GIVEN that a dividend at the rate of eleven per cent. (11 per cent.) per annum upon the Paid-up Capital Stock of this Institution has been declared for the three months ending 31st October, 1909.

Table with columns for various stocks and their prices, including N.Y. C., Ont. & W., Penn., etc.

NEW YORK CLEARING HOUSE. NEW YORK, Oct. 2.—The statement of clearing house banks for the week shows that the banks held \$4,931,875 more than the requirements of the 25 per cent. reserve rule.

Foreign Exchange. Glazebrook & Cronyn, James Building (Tel. 523), to-day report exchange rates as follows:—Between Banks.—Counter.

Financial London on the State of Things in Wall Street. NEW YORK, Oct. 2.—The Evening Post's London cable says: "The only factor in your markets immediate situation which impresses London favorably is the report which comes to us that your public is at last buying railway shares."

NEW YORK STOCKS. Erickson, Perkins & Co. (Beats & Glazebrook) report the following fluctuations in the New York market:—Open, High, Low, Cl. Sales.

FIRST NEW SHIPPER WILL BE THE BEAVER

Old Days of Gouge Are Past and New Mines Are Being Made Properly.

COBALT, Sept. 30.—(Special.)—(From the Man on the Spot.)—The man that can drive thru Cobalt camp and inspect his shipping and coming mines and not get the fever would indeed be a phenomenon.

THE BEAVER. An economical feature at the Beaver is the dam that has been built, in which water is stored and shareholders saved a considerable sum by the expenditure of a negligible quantity with the high-toned engineers.

THE BEAVER. The Beaver will be the first new shipper to get into the market, and will be a body-disappointed man the other night. At the bottom of his sump a vein eight feet wide was found.

THE BEAVER. The Beaver will be the first new shipper to get into the market, and will be a body-disappointed man the other night. At the bottom of his sump a vein eight feet wide was found.

HEART-BROKEN ESKIMO GIVES WAY TO DESPAIR

Continued From Page 9.

When the good preacher pronounced the last words "from dust to dust," from the eighty-eighth parallel we passed for two days over old ice without pressure lines or hummocks. There was no discernible line of demarcation for the fields, and it was quite impossible to determine if we were on land or sea ice. The barometer indicated no elevation, but the ice had the hard, waving surface of glacial ice, with only superficial crevasses. The water obtained from this was not salty, but all of the upper surface of the ice of the polar sea makes similar water. The nautical observations did not seem to indicate a drift, but nevertheless the combined indications do not warrant the positive assertion of either land or sea for this area.

CLEAR SMOOTH PATH, BUT PROGRESS SLOW.

This ice gave a cheering prospect, a plain of purple and blue ran in easy undulations to the limits of vision without the usual barriers of uplifted blocks. Over it a direct air line course was possible. Progress, however, was quite as difficult as over the irregular pack. The snow was crusted with large crystals. An increased friction retarded the speed, while the surface, too hard for snowshoes, was also too weak to give a secure footing. The loneliness, the monotony, the hardship of steady, unrelieved travel were now keenly felt.

It is not often that man's horse power is put to the test as ours was. We were compelled to develop a working energy to the limit of animal capacity. Day after day we hunched along at the same steady pace over plains of frost and thru a mental desert.

As the eye opened at the end of an icy slumber the fire was lighted little by little, the stomach was filled with liquids and solids, moisture cold—enough to last for the day, for there could be no halt or waste of fuel for midday feeding. We next got into harness and paced off the day's trail under the lash of duty; we worked until standing became impossible—longer in light winds, shorter in strong winds, but always until the feet became numb and heavy.

Then came the arduous task of building a snow house. In this the eyes, no longer able to wink, closed, but soon the empty stomach complained, and it was filled up again—not with things that pleased the palate. Only hard fuel to feed the inner fires, while the ear sought the soft side of ice to dispel fatigue. No pleasure in mental recreation, nothing to arouse the soul from its icy inclosure.

ESKIMO WEARIES UNDER THE STRAIN.

Words and pictures cannot adequately describe the maddening influence of this sameness of polar girdle, combined with bitter winds, extreme cold and an overworked body. To make a severe test for myself there was always the encouragement of Arctic achievement—the outcome of ultimate success. But for my young savage companions it was a torment almost beyond endurance. Their weariness was made evident by a lax of the whip and an indifferent urging of the dogs to the bitter end, seldom allowing selfish ambitions or uncontrollable passions seriously to interfere with the main effort of the expedition.

On the morning of April 13 a strain of agitating storms reached a breaking point. For days there had been a steady cutting wind from the west which drove despair to its lowest reaches. The west again blackened, to renew its soul despairing blast. The sun was screened with ugly vapors and the path was as cheerless as the Arctic night.

No torment could be worse than that never ceasing rush of icy air. Ahwahlah bent over his sled and refused to move. His dogs turned and looked inquiringly; I walked over and stood by his side. Etukishook came near and stood motionless, staring blankly at the southern skies. Large tears fell from Ahwahlah's eyes and plied a little frost of sadness in the blaze of his own shadow for several minutes; not a word was uttered, but I know that each felt that the time had come to free the fetters of human passions. Slowly Ahwahlah said: "Une Sing ne-avahonico-1-o-doria." It is well to dis-beyond is impossible.

The next instalment will appear in Tuesday's World.

Anglican Appointments.

The bishop of Toronto has licensed Rev. Charles Venn Plicher, M.A., as Sunday school superintendent for the diocese and occasional assistant at St. Alban's Cathedral.

Rev. John P.D. Lelywd, D.D., has been licensed as vice-provost of Trinity College.

Rev. F. J. Sawyers, at present assistant curate of Christ Church Cathedral, Montreal, has been appointed incumbent of Lakeside, Ont.

Site of Central Prison.

LOSDON, Ont., Oct. 3.—It is rumored that the location of the new central prison may be in the vicinity of London.

Mr. Beck stated that the spot chosen was not near the city. From the information obtainable it is thought to be further east.

Another rumor is to the effect that it will be located between Lake Huron and the Town of Forest.

If In Doubt

as to whether your eyes are just tired or really playing out, don't ease your conscience by saying: "Oh, it's just tired from work or reading." It may not be so, and the delay means worse trouble to come.

Have You Seen Our \$23.50 Suits?

WE ILLUSTRATE this Suit exactly so far as lines go. It conveys our idea of simple tailoring perhaps better than any number of words. We invite you to judge for yourself. Come in and look at the Panama that's in it, examine its finish and its tailoring. At \$23.50 we can do no better—yet. We may next season, for we'll always keep trying. But this is the summit of our progress thus far so far as this grade of Suit is concerned.

You will also be interested in this line of Coats at \$18.75, and these Skirts of Black Voile at \$10.00 to be on duty Tuesday.

Simpson's \$23.50 Suits

Simpson's unrivaled Suits of fine quality, all-wool Panama, colors are black, navy and wistaria; strictly tailored long coat, lined with rich silk serge, panel effect on side; skirts have pleated side goes, cut very full. **\$23.50**

Ladies' High-grade Winter Coats

Exclusive style of Ladies' Winter Coats; material is a beautiful rich finished kersey cloth; colors are green, black or navy; front of coat is shaped, and buttons to left side stitched to give panel effect; trimmed with jet buttons—\$18.75.

Voile Skirts

Voile Skirts are suitable for wear in all seasons of the year; one of our leaders in these garments is of a good crisp quality all-wool voile, made in a well fitting 18-gore flare style, trimmed with rows of black satin folds and buttons; comes in black only. Our price \$10.00.

Waist and Blouse Dept.—3rd Floor.

Three striking values for Tuesday:
No. 1—A rich Mesaline Silk Waist, tucked and trimmed, silk buttons, and the new shaped sleeve, in all the leading shades, at \$3.95.

Infants' Coats at Half-price

WE cleared the entire sample stock of a well known maker of Infants' and Children's Coats at exactly Half His Regular Prices. They are samples—every one of them—no two alike. Tuesday they pass on to you at the same reductions.

86 only samples of Infants' and Children's Coats for Fall and Winter, in fine cashmere bearcloth, serge, Bedford cord and Sicilian cloth. Every one an attractive style, beautifully lined and trimmed. Tuesday, half price.

A Sale of Suitings To-morrow

In the Palatial Department of Dress Goods, 2nd Floor, New Building.

4,000 yards high-class Broadcloths and Worsteds Suitings. These cloths have been dyed and finished to our own selection of shades in a really delightful range of colorings. The qualities are first choice and the designs the very newest and most fashionable. In the lot are weights suitable for the popular full length coat, as well as for tailored suits, dresses, etc. These cloths cannot be duplicated in the Dominion for less than 35 to 50 per cent. more than our price. This same quality exactly is sold in the Departmental Stores of New York at \$2.00 per yard.

4,000 yards, in special section of our Dress Goods Department, Tuesday, at per yard, \$1.19.

Plenty of Double Width Silks

AN abundance of the new double width Dress Silks, in the fashionable weaves and colors, awaits your selection. For example—

Satin Charmeuse, an exquisite quality, sold only by this store. In the new street and evening shades, also ivory and black, 44-inch, at \$3.50 yard.
Satin Imperial Duchesse, a regal dress fabric, rich satin finish, in the newest shades, 40-inch, at \$2.50 yard.
Mousseline Duchesse Satins, one of the richest and finest weaves sold, comes in all the newest evening shades, also a full range of new street shades, 40-inch, at \$2.00 yard.
Messaline Paillette de Soie Dress Silks, subdued satin lustre, fine heavy quality, comes in prunella, vistiria, peon, olive, canard, elephant, shrimp, lavender, old rose, pink, sky, blue, also ivory and black, 40-inch, \$1.50 yard.
Satin Paillette, rich, heavy quality, in full range of street and evening shades, 38-inch, at \$1.25 yard.
French Chiffon Dress Velvets, a rich all silk pile, Lyons velvet, in all the newest Fall shades, including black, 42-inch, at \$3.50 yard.
